

Dan God 751

[Chapter 751](#)

As expected, Chen Xiang wanted to use the Magic method furnace, and right now, he was not affected by the energy, making it very easy for him to use the Magic method furnace. The reason he wanted to destroy the pill furnace was because he wanted to use the materials inside as fuel for the flames, so that his flames could last a little longer.

Indeed, on the lowest level of Magic method furnace, which was filled with the broken pieces of the pill furnace, Chen Xiang controlled the Fire Accumulation Pearl to release flames and burn the pieces of the pill.

Dongfang Xinyue was dumbstruck. It was her first time seeing such a consummate skill like Chen Xiang's.

However, Elder Dan shook his head and said, "Even so, it's still far from enough. Nine quenching body Dan consumes a lot of fire."

Chen Xiang was also very clear on this point, so he had to use another method, which was to compress the flames, make the flames stronger, and in a short period of time, produce an extremely strong explosive force, and burn those medicinal herbs to separate the Medicine aura and medicinal powder. This kind of thought was very bold, if others knew, they would say that he was a madman, because doing so would only destroy those medicinal herbs, and the flames were too fierce, and would indeed instantly destroy the medicinal herbs.

The flames inside the Magic method furnace were ignited in flames, and under the pressure of Chen Xiang's mana, the flames slowly compressed and became stronger.

This was a taboo in concocting pills, because the ingredients needed to be complete so that they would not leak out the spirit energy inside. However, Chen Xiang could use his powers to wrap around the broken pieces of the spirit beast, preventing the spirit energy inside from leaking out.

Only Elder Dan could see what Chen Xiang was thinking at the moment. What made her more shocked was that Chen Xiang's powerful consciousness was actually able to prevent the spirit energy from leaking out.

After splitting the Nine quenching body Dan's medicinal ingredients into small pieces, Chen Xiang released an even stronger mana, and those flames had already been compressed to the extreme. Chen Xiang poured the medicinal ingredients into the Magic method furnace, and those medicinal ingredients started to melt under the heat, releasing all kinds of beautiful multicolored light.

It was not the first time that Liu Meng'er and the others had seen such a beautiful scene. Although they did not seem surprised, they were still amazed by it in their hearts, while Dongfang Xinyue seemed to be intoxicated by it.

"It's about to begin!" Chen Xiang's expression became serious, the flames underneath the Magic method furnace suddenly erupted, producing a burst of extremely intense flames, causing the dusky profound Realm to suddenly light up incomparably bright, and after the medicinal herbs received such a sudden impact, they also erupted with many different kinds of bright red light, which were actually burnt into Medicine aura's and medicinal powders in an instant.

The Elder Dan and Su Meiyao who were inside the Youyao Yugong were stunned. This method of refining pills could be said to be berserk, but they had to admit, Chen Xiang had succeeded, and even saved a lot of speed, however, this required an astonishing amount of control to do so. Elder Dan and Su Meiyao had immersed themselves in the path of pills for many years, so it was not like they had not thought of this before. They all knew how difficult this would be.

But now that Chen Xiang had succeeded, and even more importantly, it was a success, Chen Xiang's comprehension ability made them feel inferior.

had directly entered into the late stage of the pill refining stage and began to condense the pellet!

"Senior sister, this Nine quenching body Dan is usually only capable of producing one pellet. It is extremely rare to see two of such high quality pellets." Wu Kaiming said.

Dongfang Xinyue also nodded: "Those Alchemist I know, I can only refine one pellet. Elder Dan, you are much more powerful than that whatever Dan King."

Although Elder Dan was praised, she was not proud at all. She said lightly: "This is all because of Junior Master, otherwise, I would probably only be able to produce one pill. His spirit of alchemy has made me understand a lot, my current alchemy skills have improved a lot, it's all because of him!"

In terms of pill refining, Chen Xiang had always received the respect of many Alchemist s. Even for Alchemist who had more experience than Chen Xiang, whenever they talked about Chen Xiang, they would feel guilty. Of course, this was only the Alchemist above him, because they often saw Chen Xiang refining pills.

She felt that no matter how strong Chen Xiang was, he should be the same as her, or at most, a draw. Furthermore, she was faster than Chen Xiang, so it could be said that she had won. However, she was more familiar with this environment than Chen Xiang, so a draw was the best outcome.

Chen Xiang didn't know what kind of Nine quenching body Dan Elder Dan would refine, nor would he think about it. All he wanted to do now was to use his best condition to refine this Nine quenching body Dan to the extreme.

There was still some fire inside the Fire Accumulation Bead that was able to maintain the temperature inside the Magic method furnace. This was exactly what Chen Xiang had calculated.

The ball of air formed by the fusion of Medicine aura and medicinal powder inside the Magic method furnace was emitting a golden light.

At this moment, Elder Dan was watching intently. When she saw Chen Xiang divide the ball of air into three parts, her heart couldn't help but jump.

Seeing this scene, Dongfang Xinyue almost cried out in alarm, because this was the first time she had seen Chen Xiang do such an astonishing action. Even Gu Dongchen and the others wanted to shout out, because Chen Xiang was simply too heaven defying!

A portion of the Nine quenching body Dan's medicinal ingredients, was only able to produce one pellet for the majority of the high levelled Alchemist s. For Elder Dan to make a breakthrough, condensing two pellets was already extremely rare, but Chen Xiang had only produced three at the moment!

If it was Heaven level Pills, then the harvest obtained would be one or two times more than the other Alchemist s. Moreover, the ingredients for the High Rank Pills were extremely precious, so if there were more from Alchemist Pills, then it would be able to reflect the value of the Alchemist s even more.

As the clouds in the Magic method furnace dimmed, three pills were formed, surrounded by a golden mist. Chen Xiang opened his eyes, his face was covered in sweat, and it was obvious that he had worked hard to refine the pill this time.

The high quality Nine quenching body Dan was golden, but Chen Xiang's three Nine quenching body Dan were indeed black, could it be that they had failed?

Elder Dan and the others could not help but feel disappointed. Chen Xiang had tried very hard, but failed!

However, what they did not know was that this black Nine quenching body Dan was the Peak quality! When Chen Xiang was in Sacred Dan Realm, he was appraised by the Dan Immortal.

[Chapter 752](#)

After Chen Xiang finished refining, he was dragged onto the Frisbee by Gu Dongchen. Right now, he was not determined to win or lose, but he wanted to leave this place first, because he could not stay here for long.

After flying out of the profound Realm, Chen Xiang said with a grin: "I won!" Then, he waved the three black Nine quenching body Dan s in his hand.

Liu Meng'er laughed, "Are you still hallucinating? Look at the Elder Dan, they are two shiny golden pellets!"

Chen Xiang looked at the pill in Elder Dan's jade box, and immediately exclaimed: "Little girl, you're really powerful, to be able to refine two high quality pills!"

Gu Dongchen laughed: "Junior master, have you gone stupid inside? Those three pills you refined were a failure, if you work hard, maybe you will succeed in the future. Look at your Nine quenching body Dan, they are not even a little bit of Medicine aura."

Chen Xiang intentionally scolded: "What do you know? Are you Alchemist? I am a Nine quenching body Dan of the Peak quality! "

Peak quality? Gu Dongchen and the others were immediately confused.

Chen Xiang gave one pellet to the Elder Dan and said, "If you don't believe me, take one yourself!"

This was the first time Elder Dan had heard that Nine quenching body Dan had Peak quality. She took the Nine quenching body Dan and ate it inside her mask.

Not long later, he heard a surprised sigh from the Elder Dan, "That's right, the quality is better than mine, I ... I've lost! "

Chen Xiang immediately laughed complacently: "Take it, the Nine quenching body Dan's medicinal ingredients are yours I'll return it to you as well, and the ingredients for this Spirit-Sobering Pill. "

Elder Dan was actually defeated by a little kid named Chen Xiang. Although she was mysterious, her reputation had always been great, otherwise Dan Alliance would not have invited her to join them last time. But now, she was actually defeated by a little brat like Chen Xiang, even though Chen Xiang was her senior uncle master.

"Hehe, when will you let me see your true face?" Chen Xiang rubbed his hands and said excitedly. The truth of the Elder Dan had always been a mystery to them, even Gu Dongchen and the others were extremely curious.

"I will keep my promise!" Elder Dan only replied coldly.

Chen Xiang sneaked a glance at Liu Meng'er, only to see that Liu Meng'er did not care, and this made Chen Xiang feel that it did not make sense, he should be jealous, because Elder Dan had even promised to be his woman.

She was now Chen Xiang's female slave. She had no right to interfere with the master's business, she felt that having such a powerful Dan King by Chen Xiang's side was definitely a good thing.

"We'll be leaving first." Liu Meng'er flew away with Dongfang Xinyue, while the Elder Dan grabbed onto Chen Xiang: "Follow me back to Super Dan Imperial College."

This caused Gu Dongchen and Wu Kaiming to be a little disappointed, because even though the Elder Dan had been with them for so many years, they had never seen the Elder Dan's face while Chen Xiang had.

"Is Senior Sister really so ugly?" Wu Kaiming suddenly said.

"Little baldy, do you want to die?" Hearing Junior Sister's words, your head, hehe ... " Gu Dongchen laughed.

Inside the Super Dan Imperial College, in the quiet bamboo house, the Elder Dan sat on a chair. The wooden mask gave off a mysterious feeling, and Chen Xiang was able to quickly remove the mysterious veil.

What did she look like? What was his real name? Is she as beautiful as I imagined? Chen Xiang didn't know how many times he had asked these questions in his heart.

"Can I take off your mask?" Chen Xiang asked, he wanted to confirm something.

"Sure, but after you take it down, you must marry me!" The Elder Dan's words suddenly made Chen Xiang shudder.

What if it was some kind of monster? Then wouldn't I lose? Chen Xiang was suddenly worried.

"I've said it before, my appearance is absolutely not inferior to that celestial wife of yours!" Elder Dan's words made Chen Xiang feel a lot more at ease.

Chen Xiang took a deep breath, calmed the thumping heart in his heart, then walked over, extended his hand, and slowly took off the mask.

His mouth was wide open, he never thought that underneath the mask, would actually be a charming and beautiful jade face that captivated the soul. Furthermore, that pair of lips were slightly raised, revealing a charming smile that was filled with the power of captivating souls.

"Flower... Hua Xiangyue! " Chen Xiang struggled to shout out these three words. This Elder Dan was actually Hua Xiangyue!

It was hard for him to believe, but he quickly thought of many things. Elder Dan and Hua Xiangyue had never appeared together, Elder Dan rarely went out to travel, but there was an unceasing flow of medicinal pellets. Chen Xiang remembered that when he first obtained the Five elements Zhenyuan Dan, the Elder Dan had mysteriously appeared in the Fragrance City.

"Scoundrel master, you never thought of that, right?" Hua Xiangyue giggled.

Both Hua Xiangyue and the Elder Dan had helped him greatly. For example, the Foreseeing Alchemy and the Magic method furnace were activated by Hua Xiangyue and then he had entered his Spiritual World to refine pills.

"When I first entered the Super Martial School's Martial Arts Academy, why did you make things difficult for me like this?" Chen Xiang still didn't quite understand.

"At that time, I was indeed doing it for your own good. Don't you remember that you were a troublemaker? The people in the Inner Martial Academy are not to be trifled with. However, I have underestimated you. Hua Xiangyue's eyes moved his restless heart at all times.

"So this old lunatic knows your identity?" Chen Xiang remembered that the last time he wanted to help Hua Xiangyue ask for the Sky Pearl, Huang Jintian had rejected him immediately without telling him the reason either.

Hua Xiangyue nodded: "Your Elder Sister Meng'er knows this too, hehe ... It's just that I let her keep it a secret for me. "

The Elder Dan always gave Chen Xiang a familiar feeling, and when they were talking they pretended to be cold, but now he finally understood.

"Even Gu Dongchen and Wu Kaiming don't know who I am, but my master does. Not only are you my Junior Master, you are also my master ..." Hua Xiangyue came over to Chen Xiang's side and whispered in his ear.

Chen Xiang snorted, he finally understood why Liu Meng'er wasn't jealous previously, she had already known this a long time ago.

"This means that there's only one female Dan King in all of Chen Martial Continent and it's really not easy for you to play the part of two of them." Chen Xiang suddenly embraced Hua Xiangyue's waist, and with a stroke of his hand, he placed his hand on her perky butt, and then pinched it with great force.

Hua Xiangyue let out an intoxicating moan: "Scoundrel Master, I'm really tired from doing this, I can relax now, I can often be with you in the future ... Happy and carefree, hehe ... "

Hua Xiangyue was not the least bit tired, because she normally did not have to bother much with Super Martial School's matters. She would only help Gu Dongchen and the others refine a few high levelled pills, and Dan Fragrance Pure Land would usually provide all the pills that Super Martial School needed.

The relationship between the Dan Fragrance Pure Land and himself was so close that it turned out that the Elder Dan was actually Hua Xiangyue and Hua Xiangyue was the Leader!

"Oh right, Xiangyue, I found a sister for you. Her name is Dongfang Xinyue, you should have seen her before." Chen Xiang giggled: "She's the same as you, I don't know why her brain's broken, but she's actually willing to be my female slave!"

[Chapter 753](#)

After playing around with Hua Xiangyue for a while, he finally sat down with a serious face and asked: "Xiangyue, why do you need to pretend to be two people?"

"Isn't your Elder Sister Meng'er the same? She was originally the female emperor of the Divine Weapons Heavenly Country and then the Valley Master of the Icy Wind Valley. Hua Xiangyue laughed.

Chen Xiang suddenly felt that this might be related, and continued: "My master ... That's why the relationship between Dan Fragrance Pure Land and his wife had always been very close. Once, by chance, Mistress found out that I had a Purple Moon Fire Soul, so she secretly taught me the art of refining pills, and then allowed me to enter the Super Martial School. After Mistress and Master had flown up, the Dan Fragrance Pure Land was under my control and I was also an elder of the Super Martial School at the same time. "

"Then, when did Elder Sister Meng'er find out about your identity?" When Chen Xiang thought about how Liu Meng'er had been hiding this from him for so long, he felt a little uncomfortable in his heart.

"Guess?"

"Guess your head!" Chen Xiang stretched out his wolf claws and grabbed towards Hua Xiangyue's chest.

"I've known her since we were very young. My master's wife seems to have some connections with her parents. At that time, she and I were already designated as the successors of Divine Weapons Heavenly Country and the Dan Fragrance Pure Land. At the same time, we were also the secret leaders of other powers. " Hua Xiangyue let out a faint sigh, and then pouted charmingly: "Who would have thought that I would meet a little scoundrel like you ..."

Chen Xiang curled his lips and said: "You seem to be the one who pestered me for this. When you were Hua Xiangyue, you willingly became my female slave.

"I really don't understand why you want to pester me!"

If others were to know that he thought this way, they would definitely kick him to death. Such a beauty, he actually disliked her.

Hua Xiangyue came closer and wrapped herself around Chen Xiang's body like a beautiful snake, asking in a charming voice, "You want to know?"

"Of course!" Chen Xiang hugged the beauty tightly, his breathing became very rapid, and he released a burning breath, causing Su Meiyao's cheeks to flush red, and his eyes to be filled with an enchanting autumn wave.

"My master is the same as you, both of us cultivators of the Taiji Dragon-suppressed kungfu. When I was in the mortal world, I already knew that you possessed a Yin Yang vein. "My mistress told me that when I meet such a man, I must not be let off."

Su Meiyao smiled charmingly, "My mistress had already taught me a way to look at the spirit veins of others. When I was in the mortal world, I wasn't certain, so I decided to bring you back to confirm.

Chen Xiang suddenly bit her lips that were filled with enchantment, stuck out her tongue, pried open Hua Xiangyue's pearly white teeth, and sucked in her charming and sweet tongue. Hua Xiangyue was moved at this moment, her hands hugging Chen Xiang tightly, while kissing him, she started to chant.

Very quickly, Hua Xiangyue took off the clothes on the upper half of Hua Xiangyue's body. As Chen Xiang kissed the beauty's sandalwood mouth, he also caressed the beauty's soft and smooth body, playing with her bright spring sunshine, well-developed and straight chest, making Hua Xiangyue let out a groan.

"Scoundrel master, do you want to eat me?" Hua Xiangyue's charming eyes reddened as she looked at Chen Xiang.

"Of course I want to, but..."

"If you marry a strong woman, it will be harmful to you. Are you worried about this?" Hua Xiangyue straightened his chest, causing the dazzling jade rabbit to tremble, and stirred up a wave of waves, while an evil feeling surfaced in Chen Xiang's heart.

Hua Xiangyue chuckled: "Even if a peony flower died, would it still be so amicable to be a ghost? "A perverted heart doesn't have a perverted heart ..."

Hua Xiangyue was constantly tempting her, because she knew that Chen Xiang did not dare, and seeing Chen Xiang's uncomfortable look, she was happy. She was Chen Xiang's female slave now, and had lost to Chen Xiang in the pill refining competition, she had mentioned that Chen Xiang could do anything to her.

Hua Xiangyue laughed coquettishly as she took off her clothes. Her every move was filled with endless charm and enticement, especially when she saw her dress fall down from her fat bottom and bottom, the blood in Chen Xiang's body was practically burning, and her lower abdomen was like a volcanic eruption.

"Master, this servant actually really wants to give it to you, but ..." This servant is stronger than you. It will be very harmful to the master. " Hua Xiangyue intentionally revealed her charming and regretful expression, lightly biting her lips, she said worriedly.

Chen Xiang's eyes that were spurting hot light, swept across Hua Xiangyue's lovely body from head to toe, and then stopped at the grass covered ground, which was a bit pink and bashful, causing Chen Xiang's evil blood to boil, but he still suppressed it.

"In the Demon World, there are some evil women who specifically cultivate bewitching arts to tempt men with extremely weak mental strength. By combining their techniques, they can devour the male's power and Yang energy ..." Bai Youyou said: "This little demoness isn't tempting you, nor is she playing with you, she is training your mental strength. She is worried that after Great War between Three Realms, you will not be able to resist the enticement of those evil women."

"Actually, Junior Sister and I already had plans to train you in this area since long ago, it's just that you haven't had the time. However, it's good now, for a little demon like Hua Xiangyue to train you, it's for the best."

Hearing Bai Youyou's words, Chen Xiang felt like he was going to explode. If Bai Youyou the ice-cold goddess was also like Hua Xiangyue and had a charming posture, then what would happen?

Just then, Long Xueyi said in all seriousness: "Little Scoundrel, eat her. My Imperial Dragon Race has a powerful body, it can prevent you from getting hurt."

Hearing Long Xueyi's words, Chen Xiang was overjoyed. He knew that the Little Bad Dragon had a way to solve this kind of problem. After all, the Imperial Dragon Race was an extremely loose race, it would be weird if they didn't have this sort of method.

"Actually, as long as you use some of the things inside the Taiji Dragon-suppressed kungfu well, you can avoid being harmed. I'll teach you how to use them ..." Long Xueyi had ruined Hua Xiangyue's plans, and made Su Meiyao and Bai Youyou secretly look down on her.

The cultivation method that Long Xueyi had taught him suddenly popped up in Chen Xiang's mind. He was so excited that he almost flew to the sky.

What Hua Xiangyue was currently doing was indeed training Chen Xiang's mental fortitude. The things that needed to be noted the most about the demon realm were the Evil Woman's top actions. She was worried about Chen Xiang, the little scoundrel, so she had no choice but to come up with this plan.

Originally, Hua Xiangyue's performance made Hua Xiangyue extremely satisfied, but she was surprised to see that Chen Xiang's body temperature had suddenly increased.

"Little Scoundrel ..." "Ah ..."

Chen Xiang suddenly flew over, pressing Hua Xiangyue to the ground, and then quickly took off all of the clothes on her body. Before Hua Xiangyue could react, a burst of pain came from her lower body, accompanied by a trace of numbness, causing her to let out a cry of farewell to her virgin, the pain also caused her to shed tears.

Although Chen Xiang's entire body was burning with demonic flames, he was currently very gentle and tender towards beautiful women. Not long later, the most beautiful Spring Painting was left inside the bamboo house ...

[Chapter 754](#)

** After that, a dubious atmosphere permeated the elegant hall in the bamboo building. A man and a woman lay on the ground, their clothes scattered about, the scene looked endless ...

Hua Xiangyue, who had been beaten into a pulp, gradually recovered as well. At this moment, she was still lying in Chen Xiang's embrace, enjoying the indescribable scent, which was filled with all kinds of emotions, as a woman for the first time, her face had a look of love and charisma that she had never had before. Seeing that, Chen Xiang became excited once again, he turned around and suppressed the charming Hua Xiangyue.

Inside a bath in the bamboo house, Chen Xiang looked at the beauty who had a face full of rosy light and giggled, "Who asked you to seduce me? But you must have also received quite a few benefits!"

"Damned little scoundrel, you actually dare to use such a skill. It seems like my worries for you are unnecessary." Hua Xiangyue pouted. She then walked to Chen Xiang's side and obediently washed his body.

Chen Xiang laughed: "If those Evil Demons came to tempt me, I would definitely kill you. For a female slave with a symbol like you, all the Evil Demons are just like floating clouds."

The happy aftertaste from before had left him with an unforgettable aftertaste.

Hua Xiangyue did not expect that Chen Xiang would actually eat her, at first she was worried that because of her Innate Qi being too strong, it would affect Chen Xiang, and at first when Chen Xiang had entered her body, the strong Innate Qi in her body had started to devour Chen Xiang crazily, but then suddenly stopped, and only gave rise to a wonderful feeling.

Later on, not only did she not cause any harm to Chen Xiang, she even made her Fire Soul become stronger. Earlier on, Chen Xiang had known that if she combined with a woman, it would be able to make her Fire Soul evolve.

"Hmph, why didn't you eat Meng'er? "You only know how to bully your servant!" Hua Xiangyue scoffed and pinched an egg on Chen Xiang's lower body.

"You have to know that her disciple is my real wife. She might not be mentally ready yet, so take your time." Chen Xiang's eyes shone with an evil light as he looked at Hua Xiangyue's jade-like face and hugged the beauty up.

Hua Xiangyue struggled free from Chen Xiang, and said tenderly: "Didn't you say that when you wanted to eat me, you needed the permission of your fairy wife?"

Chen Xiang couldn't help but sigh. "Of course she agrees, she already knows about the matter between Meng'er and I, and also knows about the matter between you and I. Even though she didn't say it, she hears it in her heart more than anyone else."

"For the time being, don't tell Meng'er about the matter between you and me." Hua Xiangyue was also a little tired at the moment, so he leaned against Chen Xiang's chest and closed his eyes. Chen Xiang heated up the water in the bath and then hugged Hua Xiangyue to rest in the bath.

"Xiangyue, where did you hide Qianqian?" Chen Xiang asked softly.

"Bad boy, don't hurt her. She's the successor that I think highly of, in the future, she will not only be in charge of the Dan Fragrance Pure Land, but will also have to serve as the Alchemist." Hua Xiangyue

enjoyed the comfortable immersion within the hot water, and leaned into her lover's embrace, which made her feel extremely comfortable. As she spoke, she fell asleep.

Chen Xiang really wanted to call Su Meiyao out to wash together, the two of them were extremely beautiful.

"This little demoness earned so much, taking care of two people by herself, there are a lot of medicinal ingredients that you gave to Hua Xiangyue and Elder Dan." Long Xueyi laughed tenderly: "No wonder she is so dead set on you."

In the morning of the second day, Hua Xiangyue managed to become the Elder Dan again. She still had to keep her identity a secret, and she had already passed the eighth level of Nirvana Tribulation. Her previous strength was unfathomable, but now, it would definitely be even stronger.

"I will be very busy during this period of time. The sudden appearance of a new world will definitely catch all of the powerhouses unprepared, especially those who think they are well-prepared." Hua Xiangyue could naturally tell that Chen Xiang wanted to be together with her.

"En, when we were at Great War between Three Realms, it was all up to you strong warriors." Chen Xiang nodded his head. Originally, he had planned to help her refine some Heaven level s, but he did not lack any of those Heaven level s, as he had copied a lot of them.

"I'll go scare them. Senior brother and junior brother, it's time for them to know my identity." Hua Xiangyue laughed.

"So my master already knew who you were. He actually hid it from me." Chen Xiang could hardly believe that the old madman would actually keep his mouth shut.

"I will return to the Dan Fragrance Pure Land for a period of time. Before, I spent too much time trying to transcend the tribulation. The Dan Fragrance Pure Land has many things that I have to take care of." Hua Xiangyue said.

"Do you want me to ask Warm Moon to help you? She's your good sister right now." Chen Xiang laughed.

"Meng Er and I are already jealous of the man we stole, and now we are even snatching Warm Moon from her ..." Hua Xiangyue laughed and left the Super Dan Imperial College.

After Hua Xiangyue left, Chen Xiang muttered: "Zi Yue Realm, are there a lot of Fire Soul s here?"

Now that Chen Xiang had a Leihun fruit, it meant that he could hear how many copies the creation divine liquid made, and the Leihun fruit's use was to make the people who cultivate lightning attribute Innate Qi even more powerful. Although there were less, it wasn't as useful as the Fire Soul.

The Fire Soul could make the Alchemist and artificers even stronger, and the only way for Chen Xiang to obtain the Fire Soul now was to look for the people inside the Fire Divine Palace.

"Five Elements Profound Dan, and profound energy Quenching body Dan, these are all high grade Ground level pills. If I eat them now, it would be a bit of a waste." These pellets were bought by Chen Xiang from the Sacred Dan Realm. If the Chaotic Mountain hadn't put him in danger and told him to

leave the Sacred Dan Realm in a hurry, he would have definitely get Yan Zilan to get some medicinal pellets for him.

had eaten the Five Elements Profound Dan twice, and each time, it had a very good effect. However, with his current body, the Profound Origin Quenching body Dan shouldn't have much of an effect on it.

"If you want to cultivate your body now, you can only do it through the Fire god method. The Body Refinement Realm technique is very helpful in training your body, I estimate that Fire Divine Palace Lord Han Lie would use the Fire god method to temper his body." Su Meiyao said.

"Does that mean I only need to eat Five Elements Profound Dan?" Chen Xiang was only at the middle stage of the Hundred refining realm.

You are currently in the Hundred refining realm, primarily cultivating your physical body, which is already very strong, if you want to reach the peak, I'm afraid that it will be very difficult, I think you can go to the Earth Core to cultivate. Su Meiyao said: "But now is not the time, you should first master all of those Demon Suppressing Arts, and also Sound Kill Magic Power. "

The Sound Kill Magic Power was obtained by Chen Xiang while he was in the Sacred Dan Realm, after he devoured the memories of others, as long as he was struck by the terrifying killer Demon Qi, his entire body would crack and he would die a miserable death.

[Chapter 755](#)

Normally, Chen Xiang would not use any devil arts. Once used, he would use all of his devil arts consecutively, directly killing them to keep their mouths shut. Some of these devil arts were taboo in the demon realm, and would lead to death, such as the Devouring magic kungfu.

The best place for cultivation was to find Huang Jintian. Although Huang Jintian was his master, Chen Xiang still felt that this crazy master of his was extremely mysterious, with a mysterious cloud surrounding his body. Furthermore, he was extremely powerful, with only his spiritual sense, he was able to scare the experts of the Dongfang family away.

The moment Chen Xiang walked out of the Super Dan Imperial College, he saw Liu Meng'er walking over from a verdant pathway. The person in charge of the Divine Weapons Heavenly Country was actually able to come and go freely in the Super Martial School, and this was all because of Chen Xiang.

"Young Master Shen, your complexion is not bad!" Liu Meng'er's voice revealed a dense jealousy, her beautiful eyes lightly glared at Chen Xiang.

"Hehe, not bad, that demoness served me well." Chen Xiang laughed sinisterly: "Elder Sister Meng'er, the water inside is still hot. You came from afar, do you want me to massage your back"

Liu Meng'er scoffed, and suddenly thought of the scene where Hua Xiangyue and Chen Xiang were bathing together. She snorted, "Little scoundrel, just don't go too far into the fire, so as to not injure your body."

Chen Xiang secretly laughed in his heart. With Long Xueyi's guidance, not only would he not dodge, he would also be able to cultivate together with that beautiful female slave.

"Got it." Chen Xiang earnestly nodded his head, and then, he wanted to invite Liu Meng'er into the Super Dan Imperial College.

"I won't go in. Xianxian and You Lan might need to cross Nirvana Doom. Help them to prepare. Liu Meng'er couldn't help but admire Chen Xiang's ability in this area. Not only could it let others know the various dangers that he would face during his tribulation, it could also provide him with high-quality medicinal pellets.

He was probably the only expert at transcending tribulation in this new world!

"They are so fast ... This is troublesome, let this little girl Youlan pass through Nirvana Doom, she will definitely yell about fighting with me everyday. If I can't defeat her, I will definitely be ruthlessly tortured to death by her." Chen Xiang's heart suddenly felt heavy.

"Who told you to know all day long ... , You Lan and the others were training hard every day, not to mention, in those Time Formation s. Right, what did you give Youlan? She has become much more powerful now. In the past, Xianxian would often be able to defeat her, but now, they are evenly matched." Liu Meng'er frowned and asked.

"I'll tell you later!" Chen Xiang said with a smile, his face full of joy, because he knew that Leng Youlan's White Dragon Vein had already awakened.

Liu Meng'er rolled her eyes at him, and then left hurriedly. She and Dongfang Xinyue had obtained the Divine Book, and were currently researching on the powerful formations inside, if they could use the formations well, they would be able to obtain an extremely strong defensive strength and offensive ability. If they could learn one or two before the Great War between Three Realms arrived, then it would be extremely useful.

On the way to the Forbidden Sky Cavern, Chen Xiang met him.

"Liu Meng'er left?" Gu Dongchen asked.

"You knew she was coming?" Chen Xiang had thought that Liu Meng'er had walked in alone.

"Of course I know. This is the Super Martial profound Realm, of course I should know that such a powerful person has entered." Gu Dongchen said, then gave an ambiguous smile: "Little Junior Master, you're awesome. Junior Sister is already yours now!"

"Xiangyue Qi came to find you and the little baldy." Chen Xiang pretended not to care and asked.

"When we learned the truth, we were both surprised. We felt like we had been played for years." Every time Hua Xiangyue helped him refine pills, she would beat him up. But now, she knew that it was her Junior Sister.

"Every time I looked for Junior Sister to refine pills, she would always play missing, or should I say she was busy, causing me to have no choice but to go to Dan Fragrance Pure Land, then my Spar ... Sigh, the past cannot bear to think back! " Gu Dongchen's face was filled with anger, he felt that Chen Xiang would definitely be like this in the future.

Chen Xiang patted his shoulder, and laughed: "Don't worry, once Junior Master is stronger, you will not be tricked by her again. At that time, Junior Master will definitely give you a good price."

Watching Chen Xiang laugh and leave, Gu Dongchen curled his lips and said, "After Great War between Three Realms passes, I will pass through the Nine Tribulations and ascend. I definitely won't let you Alchemist continue to cheat me!"

Chen Xiang went to look for Huang Jintian, but when Huang Jintian found out that Chen Xiang was down there to cultivate, he was not courteous at all. He needed to train his disciple well, and every time he saw Chen Xiang use the powerful Devil-suppressing holy power, Huang Jintian would grit his teeth in hatred.

----- In the new world, almost every continent was talking about Dongfang Lingyun planning to murder Dongfang Chaoqun and her. After all, this was one of the top forces in the new world, yet such a scandal had actually occurred.

It was at this time that Dongfang Chaoqun made use of this good opportunity to join hands with Dongfang Xinyue and incite many loyal disciples of the Dongfang family to take back their Patriarch's seat.

In order to prevent Dongfang Lingyun from leading the Dongfang family to war, some of the Chen Martial Continent's forces expressed their support for Dongfang Chaoqun.

Because the power of the Chen Martial Continent was very important to the alliance of the Mortal Martial Realm, the alliance also expressed their support.

In order to not be annihilated by the Dongfang Family, all the big shots forces around the Dongfang Family territory started to find Dongfang Chaoqun to discuss with him in detail. As long as Dongfang Chaoqun promised not to expand, they were willing to help him defeat Dongfang Lingyun.

All along, the group of elders led by Dongfang Lingyun had proposed to expand, resulting in many massacres in this new world. Now, in order to suppress Dongfang Lingyun, this new world actually had a tacit agreement to unite with him. This kind of unity made many powers feel very gratified.

Dongfang Lingyun was a very cunning person, he had already predicted that such a thing would happen, so he had already found a way out, he did not retaliate, but hid inside the Dan Alliance instead. He gave out ten Nature fruit s, not giving them away for free.

Originally, everyone thought that they would fight with Dongfang Lingyun, but who knew that Dongfang Lingyun would suddenly disappear, and the Dongfang family members would lose their leader, and the elders would also disappear for a long time as well. This way, Dongfang Chaoqun could easily become the Clan Leader, but the Dongfang family had already been hollowed out by the elders and Dongfang Lingyun, thus the new world's number one power was destroyed overnight.

Dongfang Chaoqun did not have any ambitions in the first place. He only wanted to develop the Dongfang family well and preserve the bloodline's inheritance. It was only because Dongfang Lingyun had gained power in the family and joined hands with the strongest people in the Dongfang family that he was powerless to resist.

[Chapter 756](#)

However, when he was with Huang Jintian now, he had always been the one being abused. If not for the Yulong blood that allowed him to quickly recover from his injuries, he definitely wouldn't have stayed down here for so long.

"You are already very familiar with the usage of the Devil-suppressing fist and the Devil-suppressing fist. I didn't expect that not only would you learn it quickly, but you would also be able to use it quite well in the competition, mastering it very quickly." Huang Jintian praised.

Chen Xiang stayed here for two months, and during these two months, he would be tormented everyday by Huang Jintian. However, his gains were extremely huge, and during his battle with Huang Jintian, he was able to discover his weakness, and was also able to think of a few clever methods to attack Huang Jintian at the same time. This kind of combat experience was the most precious, and only Chen Xiang could obtain this.

"This is the calamity that the two little girls will face when they face their tribulation. The one in white is the white-haired girl, and the one in black is your wife's." Sigh, if not for my current situation, I should go and take a look at you juniors. " Huang Jintian sighed, and handed the two boxes over to Chen Xiang.

"There will be plenty of opportunities in the future." Chen Xiang laughed, he did not dare bring Xue Xianxian down, as he knew that Huang Jintian could even kill him.

Huang Jintian passed three books to Chen Xiang: "These are my experiences with cultivation of the Devil-suppressing qi array, Devil-suppressing qi and Devil-suppressing fist. If you give me other references, it might not be that difficult.

For example, if one were to learn the first few levels of the Devil Subduing Method, it would be very effective to deal with demons and demons.

After leaving Huang Jintian's place, Chen Xiang felt as if he had come out of hell. Seeing the bright sunlight, his heart felt warm, and hurried to find Gu Dongchen and Wu Kaiming so that they could report what had happened in the past two months.

In terms of seniority, Chen Xiang was still an elder, and had contributed quite a bit to the Super Martial School. Although his strength was weaker than Gu Dongchen's and Wu Kaiming's, he was still viewed as a big shot by some elders, a mere small heavyweight.

"Dongfang Chaoqun came over a few times. He wanted to thank you, but you weren't around Right, he brought his daughter here. " Gu Dongchen laughed.

"This Dongfang Lingyun is a scourge, we definitely cannot keep him here. Can you guys find out where he is?" Chen Xiang asked. The people who made Dongfang Lingyun so down and out were all thanks to Chen Xiang, so the person Dongfang Lingyun hated the most right now was Chen Xiang.

The Dongfang family had also withdrawn their ten billion bounty for Chen Xiang at this time, but Chen Xiang was still in great danger.

"No, all the major powers have already arranged for someone to investigate. Although we cannot find where he is, we suspect that he is being protected by the Dan Alliance s." Wu Kaiming said.

Chen Xiang took out his cultivation experience for Gu Dongchen and Wu Kaiming to read.

Gu Dongchen and Wu Kaiming continued to flip through the books while praising it endlessly. It was because these Demon Fighting Techniques were extremely difficult to cultivate, even they felt that it was extremely strenuous, but with Huang Jintian's cultivation experience, it became much simpler.

The Devil-subduing College was also open to the public, especially with their powerful Demon Fighting Techniques. Although they had some experiences in cultivation, most of their experiences were messy, not as meticulous as Huang Jintian's.

"Junior Martial Uncle, you've worked hard!" Gu Dongchen looked at Chen Xiang respectfully. He knew that staying with Huang Jintian for two months had caused him unspeakable pain.

Chen Xiang said nonchalantly: "That's nothing, I have long gotten used to it. If you guys had the spirit like me, you would have talked to Master about martial arts a lot, and your progress would have been even greater."

Only brainless people would go and look for Huang Jintian often. Although Gu Dongchen and Wu Kaiming kept on saying that, but they were thinking different things. They were not as despicable as Chen Xiang who had bones.

"I'm going out for a walk. By the way, what was that Peach Blossom Fairyland you were talking about just now?" Chen Xiang had heard Wu Kaiming mention it just now.

"This Peach Blossom Fairyland is a very big profound Realm, the people inside are all very strong, and there are a lot of resources and dense spirit energy inside. Because the new world no longer has the expansion of the Dongfang family, it became peaceful, and that's how the Peach Blossom Fairyland started to come into contact with the new world." Wu Kaiming said.

Chen Xiang had heard that there were some forces that would always hide in the profound Realm and develop their skills, not interacting with the outside world. In this new world, there were definitely many of these powers, and they were all generally very strong as well. They were all equivalent to small realms of reading power, and their resources and spirit energy were much better than those in large worlds where clouds and dragons mixed together.

"I heard that the Peach Blossom Fairyland is very beautiful, filled with peach blossoms, like a fairyland. Now, the Peach Blossom Fairyland has even invited many famous people to interact with him." Gu Dongchen said.

"Oh? Celebrity? Have you been invited? " After Chen Xiang asked, they received their answers from Wu Kaiming and Gu Dongchen. They were actually not invited.

Speaking of this, Gu Dongchen's face was full of displeasure, he slapped his thigh and cursed: "Fuck, no matter what, this daddy here is still a Leader of the Super Martial School, so the simple and easy to understand Devil Subduing Method was released by my Super Martial School. Do they dare to say that they didn't train according to the rules? They actually did not invite us! "

"When Dan Alliance chose the Alliance Master, he invited me over, but this Peach Blossom Fairyland didn't, he really doesn't put our Super Martial School in his eyes!" Wu Kaiming held onto the cultivation experience of the Demon Subduing Fist: "This time, my Super Martial School's reputation will definitely increase a little."

Chen Xiang laughed: Look at all of you, you have such potential, why would I not invite you if I don't want to? What's there to be unhappy about? We don't care about that crappy place! Take this old lunatic's cultivation experience and announce to the new world that you will be conducting a meeting to teach the Fighting Demon martial arts. It would be best if you could contact the Devil-subduing College and get them to help you with it.

Wu Kaiming and Gu Dongchen both nodded. Chen Xiang had a good relationship with the Principal of the Devil-subduing College, this was very simple.

"Oh right, Chen Martial Continent, who did you invite there?" Chen Xiang asked curiously.

"Lian Yingxiao is invited to this place. Fuck, he even came here to show off yesterday, I really want to beat him up until all his teeth fall out." Gu Dongchen coldly snorted.

"And there was also Divine Weapons Heavenly Country's Liu Meng'er, and her two disciples. Then there was Hua Xiangyue ... "Yeah, that's about it." Wu Kaiming continued.

Chen Xiang didn't have the slightest bit of interest in that Peach Blossom Fairyland, and he was even a little disgusted, to the point of underestimating him.

"I'm going to look for Liu Meng'er, she probably hasn't left yet, right?" Chen Xiang still had things he needed for Xue Xianxian's and Leng Youlan's tribulation, and he urgently needed to hand it over to Liu Meng'er.

[Chapter 757](#)

In the Super Dan Imperial College, there was still the faint body scent left on Hua Xiangyue's body. When she was in the Elder Dan before, she didn't emit any kind of aura from her body. She hid it extremely well, and this was all cultivated out by her in the Divine Maze profound Realm.

"Xiangyue came back a while ago!" Chen Xiang did not see Hua Xiangyue, he only smelt the intoxicating fragrance.

Chen Xiang took out the Luotian Gate, rotated the ring on top, and then held onto the Space Warcraft's spatial origin orb with one hand. He transferred the power from the spatial origin orb onto the Luotian Gate, and very easily opened the spatial door.

The moment Chen Xiang stepped through the spatial door, he appeared in the Divine Weapons Heavenly Country's Imperial Palace, which was also the simple and elegant courtyard house that Liu Meng'er was in.

Liu Meng'er and Dongfang Xinyue were just like before, sitting on the grass and studying the deep formations. They did not notice Chen Xiang's sudden arrival.

Seeing these two wearing the same clothes and having the same temperament, Chen Xiang laughed and turned into a gust of wind, charging forward and hugging the two beauties tightly.

The startled Dongfang Xinyue and Liu Meng'er, who had just circulated the powerful Innate Qi in their bodies, immediately withdrew it. Then, they simultaneously thumped Chen Xiang's chest, pouting in displeasure.

"Little Scoundrel, you'll suffer the next time you act recklessly." Liu Meng'er scoffed, although she was angry, she only lightly punished Chen Xiang.

Chen Xiang rubbed the two girls' butts, causing the two girls to feel as if they had been electrocuted. They anxiously escaped from Chen Xiang's body, their faces blushing faintly, extremely enchanting.

"Hehe, weren't you invited by the master of the Peach Blossom Fairyland? "Why didn't you go?" Chen Xiang laughed.

"I'm not interested. If our great formation is completed, we can also establish a powerful profound Realm." Liu Meng'er's face was filled with excitement, because her Divine Weapons Heavenly Country had never had a profound Realm. Her Super Martial School had a Super Martial profound Realm, her Dan Fragrance Pure Land had a Peach Blossom Immortal Realm and her Lotus Island also had a Lotus Treasure Realm.

"At that time, the Eastern profound Realm of the Dongfang family will also come back to life. They won't need the support of the Spiritual Qi Lifeline, they can absorb the endless Spiritual Qi of Heaven and Earth." Dongfang Xinyue's expression was the same as Liu Meng'er's;

Man-made profound Realm, this was indeed very powerful. Chen Xiang knew that these should be all written in the divine book, and as long as he could master these two women well, he would be able to create them. Chen Xiang was also happy for them.

"Elder Sister Meng'er, the white one is Youlan's, the black one is Xianxian's. There are still twenty Relive Dan here, it should be enough for them to use in their tribulation." Chen Xiang handed some things over to Liu Meng'er.

Liu Meng'er being able to take out twenty Relive Dan s at once was indeed shocking, but the last time at the entrance of the Super Martial School, Chen Xiang had already flaunted his Relive Dan s.

"Warm Moon, have you seen Xiangyue yet?" Chen Xiang asked while grinning.

"I've met him. He's indeed a powerful demoness. Scoundrel Master is truly amazing!" Dongfang Xinyue's face was filled with a gentle smile, "I specialize in smithing and array formations. Xiangyue is an alchemist, we are really compatible!"

Chen Xiang nodded seriously, "Warm Moon and Xiang Yue have a tacit understanding of each other's names, could it be that the heavens are predestined?"

"Shuang Xiang, Shuang Yue, how wonderful" As Chen Xiang spoke, he leaned towards Dongfang Xinyue and sucked the delicate fragrance off her body.

"Little Scoundrel, you have to put in more effort to cultivate. After Great War between Three Realms passes, I might even fly up." Liu Meng'er's voice made the inside of his heart incredibly heavy.

What Liu Meng'er was worried about the most was that when Nirvana Doom came, if he forcefully suppressed his cultivation, it would only make his Nirvana Doom stronger, but at the same time, it would also make himself more timid. Therefore, when the time came, Liu Meng'er and the rest of the girls, Gu Dongchen and the other strong warriors who had a good relationship with him would leave as well.

Dongfang Xinyue laughed softly and kissed Chen Xiang's lips, "Scoundrel Master, try your best. As long as Master is strong, I won't be bullied while I'm in Heaven Realm!"

Chen Xiang nodded heavily: "Of course, I'll go cultivate."

Every time he came here, he would come to take a look at the Super Old Fire Beast. This guy was truly heaven defying, with such a powerful strength, he could actually stay in the Mortal Realm, but Long Xueyi had said before that it was because there was a special type of energy in the Super Old Fire Beast's body that could not be sensed by the Heaven Realm. If the power the Super Old Fire Beast used was too strong, it would be sucked in by the Heaven Realm.

Chen Xiang told the Super Old Fire Beast what happened outside. The Super Old Fire Beast was not surprised at all about the birth of a new world.

"There are benefits to fusing with all of the Mortal Realm. If we can survive this, when the Great War between Three Realms reappears in the future, it won't affect the Mortal Realm anymore. With this many worlds fusing together, after a hundred thousand years, space will become more stable and it won't form a spatial tunnel with the Demon and Devil Realms anymore! But there is still one more possibility, and that is that he will be fusing with the Demon and Devil Realms once! " The words of the Super Old Fire Beast shocked Chen Xiang and the others greatly.

The three realms of the demon race had a path that was already tormenting them. What would happen if they fused together again?

"Why is this happening?" Chen Xiang asked, the origin of this Super Old Fire Beast was not simple, it could actually see through these things.

"This Seat does not know much, but it can be seen as the integration of the world. As for what kind of power it is, I do not know." The Super Old Fire Beast said.

Chen Xiang only hoped that it wouldn't get worse.

"You're going to the center of the earth again?" The Super Old Fire Beast asked, its two huge eyes blazing with fire.

"Yes, I'm going there to cultivate." Chen Xiang said.

"The temperature there is even higher than before, because all of the earth's core has fused together and collided together. You should know how terrifying the highly compressed energy is since you are training in the Innate Qi!" The Super Old Fire Beast's words made Chen Xiang's face change.

He did not think of this level, but it made him feel slightly excited. Only such an environment could allow him to cultivate his physical body to the peak faster.

"I'll go take a look. If it doesn't work, then I'll come back." Chen Xiang said.

----- The path to the core of the earth was extremely mysterious. Only those who possessed Green dragon demon-slain broadsword could open the door and enter the mysterious path to the core of the earth. No one knew who built it, but in short, this person was extremely powerful.

Walking on the long path, Chen Xiang felt an incomparable heat. Ever since he had obtained the Heaven fire soul, he did not need the profoundwu diamond armour to be able to walk easily within the forest. However, the heat now was actually enough to make him sweat profusely.

However, he could still endure it, and he was here to cultivate. Unless it was a last resort, he would not summon his profoundwu diamond armour out.

[Chapter 758](#)

"That big guy's Earthly fruit must be really good-looking, otherwise he definitely wouldn't know that countless worlds of the earth's core have fused together, because the temperature of the earth's core has become even better, producing even more nutrient fertilizer. That big stingy guy is trying to block that tree tightly, just in case you see it."

Long Xueyi nagged along the way. Although she already had the Earth Grade Low Rank Dan's Profound Beast Pills as food, she was still a small glutton after all, and as long as she had something good to eat, it would catch her attention. She had tasted a lot of Spirit Grasses and Spirit Fruits that she had not eaten before in her life in the Youyao Yugong.

Of course, if she ate these things, she would also become very strong. As Chen Xiang's "beast pet", it would also be very beneficial to Chen Xiang.

"Every world has a core. The temperature in the core is very high, and is a good place to nurture the Fire Soul. I wonder if I can find the Fire Soul in there?" Bai Youyou said.

Chen Xiang sucked in a small breath of air. "According to the special properties of the Fire Soul, we would usually gather together to fight, and then use all our strength to devour the opponent. If I were to discover a large pile of Fire Soul and squeeze into my body all at once, I would be in trouble."

The last time he came in, he was already choking by fusing with the Earthly fire soul, let alone fusing with more Fire Soul.

Chen Xiang had only walked halfway before he became extremely hot. Right now, he was already feeling the burning pain, and just like the Super Old Fire Beast had said, the temperature of the earth's core was even higher than before.

"Looks like I can't go to the Earth's core. I'll be able to cultivate halfway through. If I don't rely on the profoundwu diamond armour to go to the Earth's core, I might even evaporate on the way." Chen Xiang placed his hand on top of the cave wall and suddenly retracted his hand. It had been a long time since he had felt such a scorching sensation.

"It seems like these stones are resistant to high temperatures. I wonder if they are suitable for refining?" The fact that there was no change in the stone at this temperature was truly surprising.

Chen Xiang staggered earlier as his body was covered in smoke and his sweat was evaporated. His blood was boiling, but he felt that it was still not enough, as his condition was not enough for him to cultivate the profoundwu physical exercise.

Only when he felt like every part of his body was being soldered by a hot iron would he be able to circulate the profoundwu physical exercise and cultivate his body.

Originally, he was walking, but now Chen Xiang could only crawl forward bit by bit. That high temperature made the Innate Qi in his body boil, if he did not circulate the Taiji Dragon-suppressed kungfu and dissolve the brutality within it, he would have exploded long ago.

"This is my limit." The place Chen Xiang was at right now was filled with a red mist. This mist was filled with an incomparably scorching energy, and it was also the thing that killed him the most.

Chen Xiang will now circulate his Divine Arts and absorb the burning hot energy into his body. As he refined his flesh, he will use the Fire god method to split the burning hot energy into Innate Qi and compress it through the Taiji Dragon-suppressed kungfu.

Just like this, Chen Xiang started cultivating on the path that led to the core of the earth. Inside the scorching energy here, there was a large amount of rich spirit energy, and through the Fire god method, one could decompose the rich Innate Qi. After going through the Taiji Dragon-suppressed kungfu and the Yin and yang god blood's circulation, one could turn the non-attribute Innate Qi into the Genuine qi of five elements, and then compress it into the Five Elements Beast statue.

"Your soul can circulate the Nine-turn dragon god mantra to cultivate, the environment here is not bad." Long Xueyi said.

One of the reasons why his cultivation speed was so fast was that he could use it all at the same time, forming a whole, allowing Chen Xiang to circulate his energy in a smooth and natural way. This was also why his cultivation speed was so fast.

"This place is still a long way from the earth's core, and there is already such a dense amount of fire spirit energy! It seems that the Earth's Core is even worse, there will definitely be Fire Soul s, and right now, all of them are trying to devour each other. After a long time, those Fire Soul will become even stronger, and it will be the best time to go and collect them. " said excitedly. As a Alchemist, she had wanted the Fire Soul for a long time, if they were together, she would even want the low quality Fire Soul. However, the current quality of the Fire Soul was not good, so she had no interest in it.

Especially Chen Xiang, he felt that the Purple Fire Soul could only be considered as qualified in front of him. In his opinion, only an unusual Fire Soul like the Tianyang fire soul could be considered not bad.

----- The entrance to the Peach Blossom Fairyland was located in a place called the Sky Ruins Continent, which was originally the largest continent in the entire Sky Ruins Continent. Its position was the same as the Continent of the King, and it was ranked third among all ten continents.

The people who were heading to the Peach Blossom Fairyland now were all people with status in many different worlds. For example, the's martial families and Blue Blood Race s, as well as the Palace Mistress of the Divine Martial Palace s, were all famous experts such as Blue Mountain. Only the Lotus Island's Lian Yingxiao was invited to the Chen Martial Continent.

Patriarch Dongfang Chaoqun of the Dongfang Family, as well as Dongfang Xinyue and the little fool of the Dongfang Family, were all invited. However, only Dongfang Chaoqun led the little fool of the Dongfang Family over.

Other than that, there were the two principal and some elders of the Devil-subduing College as well as some important figures of the Fire Divine Palace. After them were the newly risen ten great Dan King s and some high ranking Alchemist s.

The reason why so many people wanted to show respect to the Peach Blossom Fairyland was because there were immortals in the Peach Blossom Fairyland, which was also why people like Huang Jintian who had undergone the Nine Nirvana Tribulations would not be sucked into the Heaven Realm. Most of the experts that came were here to learn about the Nine Nirvana Tribulations.

Of course, when many powerhouses entered, they would bring along their proud disciples or children. If they were lucky, they would be able to marry into other forces, and at the same time allow these juniors to see the world.

Chen Xiang climbed up from below with a face full of dust. He could have directly climbed up with Luo Luo Yuan tomorrow, but he wanted to test the feeling of climbing up, at least he could brag about it to Huang Jintian in the future. It had to be known that Huang Jintian had arrived halfway up the mountain back then.

"It really hurts. When I climbed up, I actually encountered so many poisonous substances. Fortunately, I'm impenetrable."

Chen Xiang had already trained on the path to the core of the earth for more than a month, and successfully entered the late stage of Hundred refining realm.

After making a breakthrough and obtaining the Power of giving, his current number of Zhenyuan granule was already one million two hundred and eighty thousand. This meant that his Dragon Power would become even more terrifying.

"Is this the You Ming Deep Abyss? "Even though it's dangerous, it doesn't seem like there is any treasure or treasure worth to explore." A man suddenly descended from the sky. There was a peach blossom on the white robe he was wearing.

"Chen Martial Continent is only this much, there are not many places that are worth exploring and searching for treasures, it seems like this place is not good!" At this time, another woman slowly flew over. This woman was very beautiful with a peach blossom hairpin on her head. However, her voice was filled with arrogance.

Only now did they realise that Chen Xiang was sitting by the side of the You Ming Deep Abyss. Looking at the man covered in blood, they could not help but frown.

Chen Xiang could already tell that these two people were from the Peach Blossom Fairyland.

[Chapter 759](#)

At this time, the Peach Blossom Fairyland was holding a grand meeting, inviting people from the new world to attend, yet the two handsome men and women in front of Chen Xiang were actually coming to this damned place. From the aura on their bodies, Chen Xiang could tell that they were all people with decent cultivation.

"So he's just a beggar. No wonder he doesn't have the slightest bit of aura on him, did he come here to find fault?" The man also frowned as he spoke. His eyes were filled with disgust, as if he was extremely afraid of being dirtied.

"What are you looking at..." The woman felt uncomfortable when she saw Chen Xiang staring at her. Although she didn't mind others looking at her, being stared at by such a filthy person made her very upset.

Chen Xiang coldly snorted, "Aren't you looking at me? I'll see what you have. "

The young man and woman were stunned, they did not expect Chen Xiang to talk back.

"Who would look at a filthy fellow like you?" The woman immediately shouted in anger.

"You're not looking at me. Do you know that I'm looking at you?" Chen Xiang laughed, he had just climbed up from below, and when he climbed up, he pinched and killed a lot of Poisonous beast and poisonous bugs, and his entire body was reeking of sweat, making him feel really dirty.

However, just as he wanted to clean up, he found the people from Peach Blossom Fairyland.

The man was immediately enraged. "You dog, your mouth is quite tough!"

Chen Xiang was not angry, and only laughed: "I am a human, but you see me as a dog. Only dog will see that everything is dog!"

That man was furious beyond belief. His body trembled and a wave of pure Innate Qi exploded outwards as hot air gushed out. He took a step forward to Chen Xiang's side and gave him a kick.

"Go down!"

The kick was extremely powerful, and when it was kicked out, it created a gust of wind, causing some of the huge rocks on the side of the cliff to be blown off, but Chen Xiang sat there motionlessly, not even his hair moving.

Just as the man kicked, the woman also released an attack, her jade palm struck towards Chen Xiang, releasing a burst of gale which carried an extremely strong True Divine Spirit Qi, if it was a normal person being kicked, their body would have been slashed by countless sharp blades.

However, Chen Xiang only circulated the Taiji Dragon-suppressed kungfu slightly, releasing a faint Innate Qi that ingeniously produced a kind of air current, causing these two strong astral winds to pass by him, so much so that his hair didn't even stand up.

"The disciples of the Peach Blossom Fairyland are like this? This is too disappointing. " Chen Xiang sneered.

When the man and woman saw that Chen Xiang was fine, their expressions immediately changed. They knew that the person in front of them was definitely not simple.

"I'll teach you guys a lesson. In the future, remember not to bully others with your power." As soon as Chen Xiang finished speaking, the man and woman immediately let out a shout, their legs were already wrapped up by the water vines, Chen Xiang controlled the water vines, and with a powerful swing, he

threw them all into the You Ming Deep Abyss, only allowing the water vines to hang them head first, hanging them on the cliff wall.

Chen Xiang stood at the edge of the cliff and looked at the pale man and woman below him. He laughed out loud: "All of you, behave yourselves, this water vine can only last for three days, if you want to struggle free, it will fall very easily. I just came up from below, I can tell you that it's very scary down there, but look at my appearance."

They had investigated before, only one person could come out from the You Ming Deep Abyss, and that was Huang Jintian. Furthermore, Huang Jintian had not reached the bottom, so they knew who Huang Jintian was, and he was the same as the strongest old man from their Peach Blossom Fairyland. He was a deity who had surpassed the Nirvana Realm, but he was hiding in the profound Realm, so he was not sucked into the Heaven Realm.

"Who are you? Since you know that we are from the Peach Blossom Fairyland and you still dare to treat us like this, aren't you afraid of our Peach Blossom Fairyland?" Being humiliated like this caused them to feel extremely uncomfortable. As a child who had grown up in the Peach Blossom Fairyland, he had a very high status and had never experienced anything like this.

"Our Peach Blossom Fairyland knows a lot about the heroes of the realm. Aren't you afraid of being surrounded and annihilated by a new world?" The woman said through gritted teeth. Her voice was filled with hatred.

Chen Xiang suddenly laughed out loud, the resounding and powerful laughter sounded extremely wild and rampant in the You Ming Deep Abyss, just like Huang Jintian's crazy laughter.

"Surround and annihilate a new world? I was once offered 10 billion, I am still alive and well. " Chen Xiang laughed. He had never been afraid of this kind of threat.

"You ... You are Chen Xiang! " The man was immediately stunned. They obviously knew Chen Xiang's name, when they came out, the Peach Blossom Fairyland had repeatedly warned them not to provoke Chen Xiang, because Chen Xiang was someone who everyone dared to kill. No matter what background you had, as long as you provoked him, it would all be a blade.

"Save some energy for me!" Chen Xiang left while laughing. The man and woman were hung on the cliff in a daze with water vines wrapped around their legs.

At this time, Chen Xiang was bathing in hot water in an upscale inn. After entering the city, he knew why the people from the Peach Blossom Fairyland would go to the side of the You Ming Deep Abyss, it turned out that the strong warriors from the Peach Blossom Fairyland felt that it was too boring and wanted to find a dangerous place to explore and search for treasures. Because the new world was very big, there were countless dangers, so they sent their disciples to investigate and confirm to see if Chen Xiang had met any of the disciples from the two Peach Blossom Fairyland.

"These guys really have nothing to do after eating their fill. If they don't cultivate properly, they would actually run off to explore and search for treasures. Isn't this just sending a group of people to their deaths?" Chen Xiang rubbed his sturdy body, he was already at the late stage of Hundred refining realm, and could quickly enter Nirvana Realm.

For many people, they would rather die in the late stage of the Hundred refining realm than face the terrifying Nirvana Doom. But Chen Xiang was not afraid, if it was not for the fact that he had just had a breakthrough and needed to consolidate his cultivation, he would have definitely continued to cultivate, and would have went to take a look at the mysterious and terrifying Nirvana Doom earlier.

The Nirvana Doom of Alchemist s were even more terrifying, and this was also the reason why there were very few high ranking Alchemist s among the strong.

"Little Scoundrel, there's something I want to show you!" Su Meiyao suddenly said. From the sound of it, he knew that it was very important.

Chen Xiang immediately donned all his clothes, and took out a few pieces of paper from the ring, and was immediately attracted by it, his face full of shock.

"This is ..." Chen Xiang frowned, he flipped through the few pieces of paper, took a deep breath in, and said: "These are Four Symbols Divine Weapons's forging blueprints, but why are there five?"

The Refining treasure book was only part of this book. Now that Chen Xiang knew why the array formation in the Super Old Sacred Land was so powerful, and why the blueprint for the divine forging equipment was in the book, it meant that there was a God level array formation inside!

"Look carefully, Suzaku Divine Weapon has two forging methods, one is a Suzaku silk, as long as it is refined using the Vermillion Bird's feathers, the other is a bow made from Vermillion Bird bones, but from the looks of it, that bow has been cancelled." Su Meiyao said.

[Chapter 760](#)

The Vermillion Bird bone was in Chen Xiang's hands, of course it had not been refined yet. Chen Xiang's Four Symbols Divine Weapons was lacking a Suzaku Divine Weapon, but that Suzaku Divine Weapon was already Liu Meng'er's.

"This is only a small part of the blueprint, there are still a lot of specifics, but I looked at it and saw that it's almost all, but it's just very difficult to refine, even in Heaven Realm, no one has the power to refine it." Su Meiyao said.

"We'll talk about it in the future. At least right now, I already have the things needed to refine Suzaku Divine Weapon." Chen Xiang passed the blueprint to Su Meiyao.

----- Inside Peach Blossom Fairyland, a man and a woman were trembling from head to toe, their faces extremely pale. They sat in a magnificent hall, with forty to fifty experts from other worlds inside the hall. Some young handsome men and women stood beside these experts, and they were all juniors that came with them.

The man and woman were naturally the two that were dropped by Chen Xiang in the You Ming Deep Abyss. Chen Xiang's water vines were not only able to entangle them, but they were also able to release the Icy cold power and enter their bodies, preventing them from using the Innate Qi. If they used the Innate Qi to break free, they really could easily fall into the You Ming Deep Abyss.

After Chen Xiang left, the man and woman used the Communication Spirit Rune to ask for help, but when they were saved, they had already fainted. Now that they woke up, they were summoned here, because there was actually someone who dared to touch them, the Peach Blossom Fairyland's people.

"In the end, who attacked you two? Did you not tell him that you two are disciples of my Peach Blossom Fairyland?" A dignified middle-aged beauty asked lightly. However, her voice was filled with anger, causing the young man and woman to tremble even more.

"Yes ..." It's Chen Xiang. " The man gritted his teeth and said.

Silence reigned in the hall, but the onlookers were not surprised.

Lian Yingxiao smiled slightly: "Madam Peach Blossom, from what I know, this Chen Xiang brat has indeed stirred up a lot of trouble, but he has never been offended by anyone.

Everyone who was familiar with Chen Xiang knew this point, and they were already very surprised that the two from Peach Blossom Fairyland could return alive. They could tell that Chen Xiang did not go all out and only teach them a lesson.

Hearing that it was Chen Xiang who did it, the middle aged woman frowned slightly. The reason she did not invite the Super Martial School was because she was worried that the Super Martial School would bring Chen Xiang here to ruin the banquet inside the Peach Blossom Fairyland.

But when the experts arrived, she regretted their actions immediately, because many of them were actually here for Chen Xiang. One of them wanted to take a look at Chen Xiang, and the other was asking Chen Xiang for pills.

"Tell me the truth, is it him or them who caused the conflict?" The middle aged woman did not want to offend anyone. If Chen Xiang was the one who made the first move, no matter what, she would have to ask for an explanation from him.

Feeling the pressure from the beautiful middle-aged woman, the man was extremely frightened. Even the woman was frightened to the point that she couldn't speak.

After the man shuddered, he said, "It was my junior sister who attacked him at the same time ... But he was the first to contradict us. "

Chen Xiang's mouth was something many people had experienced, and they laughed secretly in their hearts.

"Tell me everything that happened. With so many seniors present, don't boast. I want to know what happened!" The middle-aged woman's voice was calm, but it gave off a very uncomfortable aura. If those experts weren't too powerful, then the younger generations wouldn't be able to take it.

After the couple explained the situation, they were the first to make a move. Moreover, they were too young, and they were angered by just a few words from others. Moreover, they even viciously attacked an "ordinary person".

Chen Xiang did not kill them, it was truly not on par with Chen Xiang's actions from before. However, everyone could imagine, Chen Xiang deliberately allowed them to live, this was to tell the Peach Blossom Fairyland, what kind of birds are you!

Of course, Chen Xiang actually went to the terrifying You Ming Deep Abyss to cultivate, which made many of the strong understood why Chen Xiang was so strong. This kind of cruel cultivation, was something that many of the handsome men and beautiful women in the hall had never experienced before.

"There shouldn't be anything underneath You Ming Deep Abyss, and even if there is, it would all be taken by the master and disciple of Chen Xiang and his. Let's not go there, that place is truly terrifying, a good friend of mine never came up from there, and he is a demon beast even stronger than humans." Lian Yingxiao sighed.

"Seems like, only the Ancient Spirit Great Land is the best place." The beautiful middle-aged woman said — Ancient Spirit Great Land! The group of people that were gathered at Peach Blossom Fairyland finally decided to explore the Ancient Spirit Great Land to find treasures. This matter was spread very quickly, and in just a short day, the people in charge of passing on the news had already spread to the various large cities.

"Ancient Spirit Great Land, I heard that the original name was the Ancient Spirit World. Finally, all the continents in this world collided with each other and the people above all died out. For hundreds of thousands of years, no one was on top of this world.

"I've been to the shore of the Ancient Spirit Great Land, the spirit energy there is indeed good, but I heard that there are a lot of powerful beasts inside, only the coast is safe, there is a Transmission array."

"The Ancient Forest in the coastal area of Ancient Spirit Great Land is indeed a good place to hunt demon beasts. Many guys can often fish for a large ticket there, but there are also people who will not be able to return."

Chen Xiang was walking on the streets when he heard the news, he had just broken through and would need a period of time to consolidate his cultivation. He felt that he had nothing better to do, so he decided to take a look at Ancient Spirit Great Land.

"Didn't you say that the group of people are heading to their deaths? Are you going as well? " Long Xueyi asked.

"Yeah, I'm just going to see how these guys throw their lives away. Do I look like one of those idiots who's going to throw their lives away?" Chen Xiang laughed and walked towards a Transmission array.

"It doesn't look like it, but you're an idiot who doesn't care about his life. You're not much better than those guys. However, an idiot like you won't die with the protection of a holy and noble White Dragon Lady like me. " Long Xueyi said in a smug tone, his voice even carrying that kind of dignified and serious tone.

After the formation of this new world, many hunters had more places to hunt, especially through the Transmission array. They could go to many places to hunt various types of demon beasts to earn Spar, but that required a certain amount of strength.

This time, the choice of Ancient Spirit Great Land s attracted many hunters. With this group of powerful disciples leading the way, perhaps they could gain some advantage.

Chen Xiang also snuck in and after putting on a simple disguise, he arrived at the Ancient Spirit Great Land. The experts and juniors gathered at the Peach Blossom Fairyland had long since arrived and entered the depths of the Ancient Spirit Great Land.
