

Dan God 761

[Chapter 761](#)

The moment Chen Xiang arrived at the Transmission array by the side of the Ancient Spirit Great Land, he heard a person bragging.

"If you guys came late, you would have been able to see the Leader of the Peach Blossom Sect, the Peach Blossom Lady! It is said that this Madam Peach Blossom took the full power of her dead husband, and then changed the name of the profound Realm to Peach Blossom Fairyland. She founded the Peach Blossom Sect, and this Madam Peach Blossom's name seems to be Yao Shumei. " A middle-aged man said to a youth.

"Madam Peach Blossom's father should be the daughter of that deity from Peach Blossom Fairyland. Otherwise, how could a woman like her be able to sit in that position? Especially the Dongfang Jing from the Dongfang family. He is truly a beauty, and it is said that this Dongfang Jing might become the Clan Leader of the Dongfang family in the future. " Another person said.

No one knew what happened to Dongfang profoundlong, but they could be sure that it was impossible for Dongfang profoundlong to obtain the position of Patriarch, and because of that, only people with the bloodline of the Patriarch of the Dongfang Clan could obtain the position of Patriarch, Dongfang Chaoqun was just a daughter, so everyone believed that Dongfang Jing would become the Patriarch in the future.

"This little idiot actually came to join in on the fun. Fuck, that idiot Dongfang Chaoqun, if he doesn't properly discipline his Dongfang family, he would come to join in on the fun." Chen Xiang suddenly started to worry.

"You must be thinking about that innocent big rabbit!" Long Xueyi chuckled.

In Chen Xiang's mind, the scene of Dongfang Jing crying while exposing his chest appeared once again ... Just the thought of it made his heart ache.

"Why are you so anxious? There are quite a few experts there, and they will absolutely not let a single one of their pampered disciples get hurt. " Su Meiyao scoffed with faint jealousy.

"Being strong doesn't mean that they won't encounter danger. This Ancient Spirit Great Land was originally a world with countless continents colliding with each other, but now it has become so small and its spirit energy is so dense. Furthermore, no one is living on it, there must be some mysterious and powerful power causing it."

Chen Xiang had killed a lot of strong experts before. These experts could be considered the pinnacle of existences in this new world, but there were some power that could easily take away their lives, making their deaths miserable. For example, that Magical corruption gas.

"I will use the Heaven tour method to help me take a look." Long Xueyi said, and immediately began to move, and Chen Xiang followed a path into the forest.

After a short while, Long Xueyi said, "There's something strange, there's a power restricting my consciousness, and making my consciousness become... It became very heavy, and then the consciousness I released dissipated. "

"What?" Is it something like a formation array? " Chen Xiang asked anxiously.

"No, it's a natural power. If I were to enter a little, there wouldn't be any problem. In short, this kind of power is very strange." Long Xueyi said.

That group of people moved extremely fast, and Chen Xiang very quickly lost the traces left behind by that group of experts. She was unable to follow them any further, so Long Xueyi could only use the Heaven tour method to search for an area that she could find.

"Forget it, I can only try my luck." Chen Xiang took out his Imperial Crystal, seeing if he could sense the mines in the area.

Just as he was about to put away the Imperial Crystal, he heard an angry hissing sound that sounded like it came from an eagle, but was mixed together with the sound of another beast's roar.

"It's the Kylin thunder eagle!" Long Xueyi shouted in shock, "A descendant of the fusion of a Qilin and an Primordial Lightning Eagle, I never thought that there would be such a rare and unique species in the Mortal Realm."

"Is it really that powerful?" Chen Xiang was overjoyed, he guessed that the group of Rankers must have angered this guy.

"Of course it's powerful, the Archaic Lightning Eagle isn't an ordinary eagle, its size can grow to be as big as a Kun Peng, and the combination of a qilin and an Archaic Lightning Eagle is the only combination of birds and beasts that can give birth, allowing it to inherit a pure Qilin bloodline. At the same time, it also possesses an Archaic Lightning Eagle's Thunder power, so its strength is stronger than a qilin." Long Xueyi said.

Chen Xiang had already turned into a bird, flying towards the direction of the voice. He wanted to see what the sound of the bird looked like, even Long Xueyi had never seen it, there was no description of it in her inheritance memories, there was only sound and some information.

"Sigh, like me, this Kylin thunder eagle was thrown into Mortal Realm." Long Xueyi sighed with wisdom.

"You being able to bump into me is also your luck!" Long Xueyi's words almost made Chen Xiang fall.

Chen Xiang immediately snorted: "That should be what I say. You being able to meet me is your good luck!"

"It's good for all of us, okay?" Long Xueyi muttered.

"That's right, so it can't be said to be our luck. It can only be said to be our fate. Since we were able to meet each other, we should understand and appreciate each other." Chen Xiang said in all seriousness.

I am the Empress Bai Long of the Imperial Dragon Race, I will be very powerful in the future. Maybe I can unify the Imperial Dragon Race and dominate the entire Heaven Realm, no ... "Dominating the heavens and the earth." Long Xueyi said shamelessly.

"Just with a little gluttonous dragon like you?" Chen Xiang's voice was filled with disbelief, as though someone told him that the moon was square.

Bragging was also one of Long Xueyi's hobbies, Chen Xiang thought that it was probably because of her inherited memories.

"Why is there only a sound? Have I been caught?" Chen Xiang was originally looking forward to the Kylin thunder eagle's roar, but it was now very quiet.

"Captured? This is too embarrassing for a qilin and an Archaic Lightning Eagle. We, the White Dragon, are also an Archaic Deviant. This guy even threw away the face of an Archaic Descendant. He disgraced Ben Long as well. " Long Xueyi immediately issued a series of gnashing teeth words.

When Chen Xiang transformed into a bird and flew away, Long Xueyi released the Heaven tour method to investigate the situation in front of him. It was just that her consciousness would slowly weaken before dissipating, which was something that had never happened before.

Chen Xiang also tried to use it, but it was the same way, but Long Xueyi still saw some things.

"There is no more forest ahead. The Kylin thunder eagle was caught, how is that possible?" Long Xueyi only saw it from afar before his consciousness dissipated.

"Oh yeah, that Kylin thunder eagle had even turned back into a human. This humanoid fellow must have had a conflict with those idiots and was attacked during the fight." Long Xueyi immediately guessed, this was also a more reasonable guess.

Chen Xiang finally arrived at the scene of the incident and saw that the handsome young man was being suppressed by a few shining enchantments, and beneath the young man was an array disc with broken treasures and weapons scattered all over the ground.

Everyone surrounded the young man and was discussing amongst themselves. No wonder they were captured, the experts here were not simple. With so many array discs surrounding them, there was no way for the big bloke to escape.

[Chapter 762](#)

"So this Kylin thunder eagle is a little kid!" Long Xueyi laughed.

"Are you targeting him?" You want to eat me? " Chen Xiang teased: "You little bad dragon, your taste isn't bad!"

"Pfft, how could I fall for someone like him, who has been captured by others. No matter what, our Young Master Shen is much better than him." Long Xueyi chuckled.

The Kylin thunder eagle that was transformed into a teenager, had a face full of anger, he roared at the people around him, his eyes filled with killing intent, and was full of enmity towards the foreign invaders.

"If I'm not wrong, this should be an Archaic Descendant, Kylin thunder eagle. This old man has read about it in an ancient book. I heard that this beast might be even stronger than a qilin." An old man said with a look of pleasant surprise on his face.

All the experts looked at each other, because Kylin thunder eagle s were very strong, and most of the people had taken action just now. Such a powerful beast, everyone would have thought that it was going to be a problem, because they did not know how to distribute it.

He must have been here for a very long time, so he should know a lot of things. Since they don't know how to distribute the treasures, after they save the Kylin thunder eagle, this group of idiots don't need to be in so much trouble. Long Xueyi laughed.

Chen Xiang was convinced by Long Xueyi's words. He said it like it was a good thing to steal things, and he even said it clearly.

"How do I save him? This is not easy to deal with. These experts are no pushovers, and their formation webs are very powerful!" Chen Xiang said.

"You have always only understood Four-phase Magic Kungfu, and rarely use Earth Attribute's Innate Qi, right?!" Long Xueyi asked.

"That's right." Chen Xiang nodded, because the Four-phase Magic Kungfu was enough.

"The Four-phase Magic Kungfu was written from the Taiji Dragon-suppressed kungfu, and the reason why the earth attribute inside was not written was because it needs a large amount of mana to unleash the power of the earth attribute, if not, it will be extremely useful." Long Xueyi said: "That Water Escape Technique of yours, was actually made with the Earth Attribute Innate Qi."

Chen Xiang quickly understood what Long Xueyi was going to do. "Are you saying that you want me to make a path for you on the ground under that little guy?"

"Basically, it's like that, but it's even more powerful than your Water Escape Technique. This is from the Taiji Dragon-suppressed kungfu, your mana right now is pretty good, you should be able to easily grasp it." Long Xueyi said.

That part of his body immediately appeared in Chen Xiang's mind. It was called the Earth spiritual elephant Arts, and it was mainly used using the earth attribute Innate Qi combined with Fa Li, to have a miraculous and powerful strength.

"Release your earth attribute Innate Qi and your Fa Li, just like how you released the Heavenly dragon seal s. It's just that the Heavenly dragon seal s are in the sky and the Earth spiritual elephant skills are on the ground." Long Xueyi said.

It was not the first time Chen Xiang had used the Heavenly dragon seal, and he was very experienced with it. He followed his mind and channeled the Divine Image Innate Qi and mana, allowing it to quietly gather under the young man.

At this moment, the youth was being suppressed by many array webs. Other than a roar, there was nothing else he could do. His body's strength was being suppressed.

"Earth spiritual elephant, Earth Escape!"

The earth attribute Innate Qi inside Chen Xiang's body suddenly disappeared, and in an instant, it rushed to the ground not far away, only to see a small whirlpool suddenly appearing under the youth's body, the soil there was as gentle as water, the moment the whirlpool appeared, the youth was immediately

absorbed into it, the many experts that were discussing intensely had only just reacted, the whirlpool disappeared, the ground there had once again become as stiff as before, and there were no traces of it at all.

After Chen Xiang used the Earth Escape Technique, the young man was brought over by the Earth Swirl Channel that had suddenly appeared. The young man's face was also filled with surprise, and just when he realized that his entire body was filled with energy, Chen Xiang grabbed him and stepped into the spatial gate that was already opened, maintaining a distance from the group of experts.

"Kid, could it be that you want to look for those people?" Chen Xiang suddenly threw the handsome youth that was the Kylin thunder eagle on the ground.

The young man was clad in black armor, and his face was filled with anger. However, he knew that Chen Xiang had saved him, otherwise, he would have been trapped by the powerful formation.

"Hmph." The youth quickly calmed down and snorted angrily.

"With this little strength of yours, what kind of climate can you achieve?" Chen Xiang laughed and threw a pill to the young man. It was a Profound Beast Pill, and the smell was also a favorite among all beasts. As expected, the young man did not hesitate to eat it after taking action.

"My name is Chen Xiang, what's your name? Why did it appear here? How did you clash with that group of people?" Chen Xiang asked with a smile on his face when he saw that the hostility on the boy's face had disappeared.

"My name is Teng Ying, thank you brother for saving me!" The teenager dusted himself off and bowed towards Chen Xiang.

Long Xueyi muttered from within the Quiet Green Dragon ring: "A useless fellow, treating me as a big brother with only a single Profound Beast Pill, truly a fool, no wonder I was captured."

"I grew up here. I trained according to my inherited memories by absorbing the spiritual Qi of Heaven and Earth. Occasionally, I would catch a demon beast to eat!" Teng Ying could feel that Chen Xiang had no ill intentions towards him, this kind of feeling was something that beasts were born with.

"I originally wanted to catch a big snake, but then I met that group of people. When that group of people discovered me, they attacked me without a second word. My strength was inferior to them, and in the end ..."

Chen Xiang patted his head and laughed: "Everything is fine now, just watch out in the future. If we were to meet this group of people again, we can just hide somewhere far away. This group of idiots have nothing better to do.

Teng Ying coldly snorted, "So that's how it is, this group of humans were just discussing how to divide me up, hmph!"

"Also, you'd better not become that big. It's easy to become that big a target." Chen Xiang warned repeatedly. This Teng Ying was probably only at the peak of the Hundred refining realm.

"You may not know about the human world, but I will tell you about it ..." Chen Xiang brought Teng Ying and walked in a certain direction.

"Elder Brother Shen, that group of humans is in that direction. Aren't you afraid of them?" At this time, Teng Ying had a very good impression of Chen Xiang. Not only had Chen Xiang saved him, he even gave him food and food.

"Don't be afraid, just come with me. When I say you are my friend, they will definitely not touch you." Chen Xiang laughed.

In this new world, it was not surprising at all that humans could have demonic beast friends, especially those sects that specialized in taming demonic beasts.

Chen Xiang had told him a lot about the human world along the way. Teng Ying looked forward to it a lot, but they were getting closer and closer to that group of people.

Just as the experts were discussing about how to find Teng Ying's trace, Chen Xiang and Teng Ying suddenly walked over, startling them. The array formation in their hands, as well as the various flying sword treasures, were about to call out to them, but when they saw Chen Xiang's smiling face, they froze.

[Chapter 763](#)

Seeing that everyone was ready to attack, Chen Xiang laughed: "I remember that my ten billion bounty has already been withdrawn. Even if you guys catch me, the Dongfang family will not give you any rewards."

Who didn't know that not only had his ten billion bounty been withdrawn, it had also received Dongfang Chaoqun's gratitude? However, what the crowd wanted to capture wasn't him, but the loyal Kylin thunder eagle beside him, which was even more precious than the ten billion Spar.

But no one made a move, Chen Xiang had a backer, Dongfang Lingyun brought a group of experts to besiege Super Martial School, and in the end, all of them returned with blood, because of Huang Jintian's attack.

"Big Brother Chen Xiang..." knew right away that it was Dongfang Jing's little idiot calling him.

After Dongfang Jing shouted, seeing that many people were looking at her, she regretted it. Her face was flushed red and she quickly hid behind Dongfang Chaoqun.

"Jing Jing, what a coincidence, you're here too!" Chen Xiang brought Teng Ying and walked over. Teng Ying was now even more respectful to Chen Xiang, he was still a little perturbed when he arrived, but other than the group of experts staring at him with greedy eyes, he didn't move an inch.

Teng Ying also returned a furious glare at them.

Seeing that Chen Xiang and Dongfang Jing's relationship was so close, the young boys and girls who came with him were extremely jealous.

"Little Brother Shen, you've helped us time and time again. I really don't know how to thank you for that!" Dongfang Chaoqun saw Chen Xiang walking over, and anxiously said with a face full of gratitude.

Chen Xiang felt that obtaining Dongfang Xinyue, this beautiful female slave was the biggest reward to the Dongfang family, so he immediately laughed: "It's nothing, no need to be polite. It's fault for

making us Super Martial School to do something, but someone like that, my Super Martial School cannot let him live happily."

Chen Xiang's words were also directed towards some of the people present. Even though his Super Martial School didn't have a large territory, his strength wasn't weak.

Chen Xiang reached out to pinch Dongfang Jing's innocent and beautiful face, and laughed: "Little idiot, you're really bold, to actually dare come to this kind of place."

"I came with my father." Dongfang Jing lowered his head and said softly.

"Little Brother Shen, you don't have to worry about this. We just want these juniors to come out and gain more experience." Dongfang Chaoqun said.

Chen Xiang shook his head: "Training is not like this. This kind of place is not as simple as you think."

"Chen Xiang, you dared to come in here alone, so this place isn't too bad after all." Here, it was also because he had a pretty good relationship with Chen Xiang, and also knew many of Chen Xiang's secrets.

I came to look for my friend, but my friend said that he was attacked by a group of bastards for no reason. Fortunately, he had some ability, and was able to escape from the hands of these pigs. Chen Xiang grinned, and spoke very easily, but that made the experts who made a move earlier flush with anger, as if they wanted to slap Chen Xiang ruthlessly in his face, as though they were being scolded.

"Enough, my friend is bringing me on a treasure hunt." Chen Xiang waved his hand, then followed Teng Ying and left.

If they started to investigate, they would have to apologize. But Chen Xiang was only pointing at Sang Huai Huai, he had only said a few words.

"This little guy's courage is indeed as great as it's rumored to be. I think that even without Huang Jintian supporting him, he would still be like this. Could it be that he wasn't afraid of us attacking him just now?" Yao Shumei said casually. The middle-aged woman had looked over Chen Xiang carefully and was the most surprised because she could not see any signs of cultivation in Chen Xiang's body.

"Madam Peach Blossom, if you had attacked just now, hehe, I don't know about the consequences. In short, Huang Jintian probably wouldn't have come looking for you, but you should know that Huang Jintian doesn't dare to leave the profound Realm casually. Chen Xiang is not relying on Huang Jintian, but even if the big heads of Super Martial School join forces, they will still not be able to defeat you, and even if the entire Chen Martial Continent joined forces, they will not count much in your eyes. " Back then, beside the Demon and Devil Sinkhole, he had personally witnessed Chen Xiang killing each and every expert one of them, fearlessly.

"I don't believe, that if not for Huang Jintian, no matter how strong he is, he would just be a little kid." An old man said in disdain.

"Oh? If he used ten Relive Dan to reward you, what would happen to you? From what I know, his pill refining skills were not imparted to him by the Super Martial School's mysterious Elder Dan, and he was not Hua Xiangyue either. Before he entered the Super Martial School, he already had a solid foundation in pill refining.

Lian Yingxiao laughed, "What everyone doesn't know is that Fire Divine Palace's Han Lie still owes him a favor."

Han Lie did indeed owe Chen Xiang a favor, if it wasn't for Chen Xiang helping him today, he probably would still be trapped inside the Magical corruption gas. Although Han Lie didn't say it, judging from Han Lie's temperament, he would definitely remember this favor.

There had been a few experts present who had experienced the incident at Demon and Devil Sinkhole, and they believed without a doubt in this matter.

After Chen Xiang left, he naturally did not know that others were talking about him. He was currently following Teng Ying and had stayed in the Ancient Spirit Great Land for a very long time.

"Elder Brother Shen, Super Martial School is so powerful. Those people just now seemed to be scared." Teng Ying said with admiration.

"Of course." Chen Xiang laughed: "This group of people are simply bullying the weak and afraid of the strong. If you were very strong, they would definitely hide far away, but if you were very weak, hehe ..."

"I understand. It's the same here, the strong preys on the weak." Teng Ying nodded.

"Elder Brother Shen, can I join you? I feel that if I were to interact with humans, I would be able to improve even faster. "

He originally only wanted to be friends with Teng Ying, but did not expect Teng Ying to actually want to join his Super Martial School. "Of course you can, his Super Martial School will definitely be happy to accept you, you can be considered the first beast-like disciple of his Super Martial School."

Teng Ying lived in a cave, and when Chen Xiang followed him to the depths of the cave, he could feel a very rich power of the five elements.

"Five-Colored Spirit Bamboo!" The moment Su Meiyao sensed this aura, he immediately recognized it. "This is the second kind of main ingredient for refining Five Elements Profound Dan!"

The Five-Colored Bamboo grew very tall, and each section had five different colors. It emitted a weak glow and the power of the five elements.

Five Elements Profound Dan only needed two main medicinal herbs. Chen Xiang already had the Five Dragon Crystal Fruit, which meant that he would have a large amount of Five Elements Profound Dan ingredients.

[Chapter 764](#)

Teng Ying said: "It took me a long time to grow this bamboo, but as my strength increases, it becomes more and more useless to me, if Elder Brother Shen needs it, then I'll go. I'm going to leave this place anyway and walk around the human world. "..."

Of course, Chen Xiang would not want Teng Ying's things for nothing, he gave Teng Ying some high level spirit fruits and Profound Beast Pills, and their value surpassed this Five Colored Spirit Bamboo, which was also why Chen Xiang wanted Teng Ying to stay in Super Martial School more peacefully.

After placing the Five Colored Spirit Bamboo into the ring, Chen Xiang asked: "Teng Ying, have you been to the depths of Ancient Spirit Great Land?"

"No, the depths are very dangerous. If I go in, I will definitely die. Although I don't know what's inside, my intuition tells me that with my current strength, I will only be courting death." Teng Ying could clearly feel the danger in the depths of his heart.

Chen Xiang followed Teng Ying to the top of a tall mountain. Looking down, they could only see mountains shrouded in clouds, unable to see what was down below.

"Now that we're at a place, we'll be at the edge of danger. There's a boundary here. As long as we enter, it would be equivalent to stepping into someone else's territory." Teng Ying looked into the distance with a serious expression.

Although Teng Ying was an Archaic strange beast, it just landed in the room, growing slowly and with a limited amount of strength, just like Long Xueyi. If Long Xueyi did not meet him, his path of growth would have been bumpy, and might even fall into the hands of others.

Just as Chen Xiang and Teng Ying were chatting casually, a slight tremble came over. However, Chen Xiang could tell that it came from the depths of the danger.

"Those guys are idiots, they actually ran in!" Teng Ying gritted his teeth and said: "Elder Brother Shen, let's leave this place quickly. If we anger the bunch of powerful fellows inside, we will be in danger!"

"What are those powerful fellows?" Chen Xiang asked, he was a little worried about Dongfang Jing.

"I don't know. They look like humans, but they aren't, because they don't have the aura of humans." Teng Ying was at a loss.

Chen Xiang used a Luotian Gate to open a spatial door, then said to Teng Ying: "Once you enter, you will be at Super Martial School. When that time comes, go and find Gu Dongchen or Wu Kaiming, just say that I recommended it.

Teng Ying memorized it and nodded, then asked: "Elder Brother Shen, you want to go inside, right?"

"En, I'm only going in to take a look, there's no need to worry about me." Chen Xiang laughed.

"Be careful!" Teng Ying patted Chen Xiang's shoulder, his young and handsome face revealing a rare smile.

Teng Ying stepped into the spatial gate and immediately transformed into a black hawk, flying quickly towards the direction of the origin of the vibration.

After flying for a short while, Chen Xiang sensed an extremely strange energy, as if he had just penetrated an invisible energy barrier.

"There is indeed something strange. That invisible barrier was formed naturally, but it has been used. As long as we pass through it, we will be detected. Moreover, there will also be remnants of energy on our body. We will be accurately targeted." Long Xueyi said: "You have transformed into a black hawk through mana, so when you enter, you will not be discovered, and your body will not be touched by the energy."

"So someone was inside?" Only humans knew how to use such complicated things.

"I'm not sure yet. In short, he's a very intelligent guy, and he's also very strong. Look down below." Long Xueyi said.

Chen Xiang could clearly see a faint energy aura below the towering ancient trees. This aura was left behind after the great battle, and it had even been left behind many years ago.

"Can the Heaven tour method be used?" Chen Xiang asked.

"No." Long Xueyi sighed.

Very quickly, Chen Xiang arrived at a place with traces of a fierce battle. From the Qi he had left behind, he could tell that they were all Nirvana Realm experts.

"Looks like I can only use the old method. Become a bird and fly in the lower part of the forest." Long Xueyi said: "I'll try using my nose to see if I can find that little idiot."

Ancient trees were everywhere on Ancient Spirit Great Land. These trees had absorbed the Spiritual Qi of Heaven and Earth for many years, and had grown extremely thick and sturdy. Some had even evolved, and if one was patient, one could find many Qingprofound fruit here.

"En, I found it. It's easy to distinguish the smell of this little idiot Chen Xiang. When she's together with her father, there's also that Peach Blossom Lady." Long Xueyi said.

When Chen Xiang and Teng Ying met the group of Rankers, he had only glanced at Yao Shumei. He did look rather pleasing to the eyes, but he felt that Dongfang Jing, this little idiot, was more likeable.

According to the direction that Long Xueyi was pointing in, Chen Xiang could see many traces on the way here. For example, there were some large trees with claws, some footprints on the ground, and some large trees that had collapsed.

"These footprints were not wearing shoes. They were human footprints, but they were a bit bigger. Moreover, these guys' claws are very sharp, they can release that kind of powerful energy when grabbed." Long Xueyi looked at the marks and analyzed: "It seems like there are many of these things, and they are all in groups. Some of the footprints are very big, but the scars are very shallow, and should be the strongest."

Now, what he was sure of was that there was something very similar to a human in this Ancient Spirit Great Land, and it was a little bigger than a normal person.

"We need to get close to that group of things. There are quite a few of them, dozens of them." Long Xueyi anxiously said.

Although he had turned into a bird, if the noise he made was too loud, he would still be discovered.

It didn't take long before he saw the things that they had guessed many times. They were indeed people.

Other than that, the biggest difference compared to ordinary people was that they had four hands, the other two were grown from the back, and their arms were even longer and thicker. These extra hands had ten very sharp fingernails, and from a distance, they looked like cold shining daggers.

These people were all bald, with a black dot sticking out from the back of their head. Chen Xiang saw from their eyes that this kind of person was like a wild beast, their eyes were filled with brutality and ruthlessness. And among them, there were three who were even larger than them, walking in front, releasing low growls one after another.

"Exiled vile race." Long Xueyi pondered for a long time before taking a deep breath and said.

"What?" The Evil Realm? "

The reproduction speed and growth speed of this race are very fast, but they don't have much intelligence. Only a few of them have the same intelligence as humans, so they are easily enslaved by their king. Su Meiyao also knew about this race.

That's basically the case. Because of this, during the ancient times, it was hard to get along with humans, and humans had to spend a lot of time to change them, but after they were attacked, this race once started a large-scale war, attacking humans and feeding on them because they were all born with strong power. They did not need to cultivate to become stronger, so there was a great threat.

[Chapter 765](#)

"When we were in the Primordial Era, they all called these guys Evil Barbarian. Their most powerful move was the pair of hands that they had grown up with on their back." Long Xueyi said.

As Chen Xiang followed behind this group of Evil Barbarian, he could sense a pair of long and thick arms condensing behind their backs.

As expected, Dongfang Chaoqun and Yao Shumei were being chased closely by this group of Evil Barbarian s, because they had to protect quite a few of their juniors, so they could only run away.

"Look at the fingernails on their hands." Long Xueyi shouted.

Chen Xiang immediately focused his sight on the fingernails on Evil Barbarian's hands. These nails were like short swords, emitting a kind of white glow, waving the big hands that grew from the back, those sharp sword nails instantly fell off the fingers like rain, flying towards Dongfang Chaoqun and the others.

Dongfang Chaoqun and Yao Shumei seemed to have experienced this kind of attack before, as they immediately released the Innate Qi, forming two thick walls of the Innate Qi, blocking behind them. It was also at that time, that fingernails that were like swords, smashed into the first layer of the Innate Qi's walls, causing the second layer to be filled with cracks.

"So powerful!" Their nails grew out again. No wonder they wanted to escape. If they didn't run faster, those young people would have been killed by those nails. " Chen Xiang exclaimed.

Dongfang Chaoqun also started to fight back, he threw a punch towards the group of Evil Barbarian people chasing behind him, the power of the punch turned into countless of fists, causing a large layer of the ground to form, and all the trees were smashed apart by the powerful fist force. In that moment, a large area was flattened.

What surprised him was that those Evil Barbarians were fine, they had just been pushed back. However, when they stood up, they immediately started to chase after them, their running speed was fast to the point that Chen Xiang could only click his tongue. He did not expect these huge and bulky fellows to be so agile, able to easily jump on the branches of those huge trees after entering the forest.

Chen Xiang was unable to see the true strength of these dozens of Evil Barbarians. If it was a Hundred refining realm warrior that was hit by Dongfang Chaoqun's fist just now, even if they were not dead they would at least be severely injured. However, these Evil Barbarians were only blown back by the strong force of the punch.

"Is there any good way to deal with them?" Chen Xiang asked.

"Evil Barbarians' physical body is very strong, this is natural, especially when facing off head-on, their endurance is very strong. As for their weakness, it is to attack the pair of arms growing out from their back, and the most effective method is to cut off that pair of arms." Long Xueyi said.

Chen Xiang watched from the sky and realized that the larger three Evil Barbarians were the leaders, and that they had never attacked before.

"These guys have split up!" Chen Xiang suddenly saw that two of the leaders had brought around ten or so Evil Barbarians with them, so he increased his speed and chased after them from two sides.

The leaders were already the same as the humans, because right in front of Dongfang Chaoqun and the others, a group of Evil Barbarians suddenly appeared. At this moment, they were all gathered in different directions, and Chen Xiang counted down.

No matter how far away they are, those leaders will be able to exchange information, communicate, discuss, and communicate with each other. In the process of pursuing just now, maybe they already had a meeting, so the ten leaders are most likely having a mutual understanding with each other, so they have a very good teamwork. Long Xueyi said, she also admired these leaders.

"For these leaders to bring a group of reckless Evil Barbarians to attack the human world, that is an extremely terrifying thing to do." Su Meiyao said.

Very quickly, Dongfang Chaoqun and the rest were surrounded, they only had two stronger people on their side, but the Evil Barbarians had 10 leaders, the other Evil Barbarians' strengths were also unfathomable, at least they were not something the young men could handle.

"Haha, foolish humans, we always wanted to go out and destroy you. We never thought that you would come here by yourselves. Don't worry, we won't kill you. You will become our slaves." Chen Xiang could see now that the largest body of the Evil Barbarians was the stronger it was.

Chen Xiang stood on top of a tree and took out the Death-haunting arrow that he had recently refined. He locked onto the arms of several tens of Evil Barbarians.

"The skins of these fellows are very thick. Let's use the Dragon Powers!" Long Xueyi said.

Chen Xiang immediately activated the Innate Qi in his body, and turned it into a Dragon Power and a Devil-suppressing holy power.

"Who are you people? We did not provoke you!" Yao Shumei raised her eyebrows and asked coldly.

"As long as you are human, we have sufficient reasons to annihilate you. We are irreconcilable with you." The leader said ferociously.

As long as Chen Xiang was able to see the back of the Evil Barbarian, most of them would be locked on by Chen Xiang. In order for the arrow he shot to be effective, Chen Xiang had added a little Magical corruption gas, so that it could break through the defense.

This arrow was aimed at dozens of targets, and was not ineffective at all. Chen Xiang had used the Innate Qi of the third floor, for him who had 1.28 million Zhenyuan granule, the third floor was extremely terrifying.

"Go!" As Chen Xiang shouted in his heart, the Death-haunting arrow that was silently coalescing its crossbow slightly trembled, and a transparent arrow flew out. It then split into tens of smaller arrows, and accurately shot into the arms on the backs of fifty-three Evil Barbarian s.

After the arms behind the Evil Barbarian were blasted into a bloody mist, a blaze erupted. The flame and the Magical corruption gas mixed together and drilled into the bodies of the Evil Barbarian s through their wounds, burning and rotting their internal organs. In an instant, more than fifty Evil Barbarian s fell.

Being ambushed made the leader furious, "Who is it!"

Chen Xiang laughed loudly: "It's your grandpa!"

"Chase!" The leader roared, he did not care about Dongfang Chaoqun and the rest, and immediately ran towards the direction of Chen Xiang's voice.

Dongfang Chaoqun and Yao Shumei looked at each other, then attacked together, aiming at the arms on the backs of the leaders, then used their strongest power to unleash their fastest attack. In merely an instant, that strong aura turned into a violent storm, and countless palm images and fist images followed the storm and smashed onto the backs of the Evil Barbarian s.

Because just now, they saw that Chen Xiang's attack was extremely fatal to the Evil Barbarian, especially after the arm behind him was destroyed, it was basically considered as crippled. And when they attacked the Evil Barbarian directly earlier, it was unable to harm them!

[Chapter 766](#)

Dongfang Chaoqun took out a long sword and leaped out, moving through the Innate Qi storm and instantly arriving behind the leaders. She waved the sword and cut off the arms on their backs, and Yao Shumei, unwilling to be outdone, waved the two slender pink long whips, ruthlessly and quickly whipping the thick arms on Evil Barbarian's back. Every time a whip lashed out with her extremely strong Innate Qi, an explosion would occur.

In the short span of a few moments after Chen Xiang's sneak attack, the leaders were struck back fiercely by Dongfang Chaoqun and her, and a large number of them died.

Just as Long Xueyi said, those two arms were the lifeline of the Evil Barbarian. Once it was destroyed, its power would be greatly reduced and it would not be able to retaliate.

The large leader who was laughing sinisterly just now had a face full of anger as he looked at the arms that were chopped off by Dongfang Chaoqun on the ground. These leaders did not expect that the person who they had been chasing down the entire time would actually retaliate with such ferocity, and at a strength that was not weak either.

Yao Shumei and Dongfang Chaoqun were mainly here to protect the young people, to not let go and fight them, so as long as they save their strength, they could protect the young people as they escaped, and leave this dangerous place.

The leader roared and jumped into the forest. But at this moment, a green light flashed, leaving a green arc in the air. The leader's body was also split in half like a crescent moon.

Chen Xiang slowly floated down, a large domineering green blade in his hand.

"Hehe, without those arms, you actually became so weak!" Chen Xiang put the Green dragon demon-slain broadsword on his shoulder and walked towards Dongfang Jing while grinning: "You little idiot, you must be scared!"

Dongfang Jing's jade face was filled with fear. Seeing that Chen Xiang had arrived, she smiled sweetly at him and nodded.

Yao Shumei and Dongfang Chaoqun were just about to speak out to thank Chen Xiang, but Chen Xiang suddenly shouted in front of them: "You guys truly aren't listening to their advice, coming in and causing trouble, there are a lot of people here, and this is just outside, everything you guys have met are just for fun, if you were surrounded by a large group of people, I won't be able to save you."

Yao Shumei was actually the one who extended a helping hand. If it wasn't for Chen Xiang's help, they would definitely have fallen into a bitter battle.

"Young Master Shen, you're right. Thank you, Young Master Shen, for saving me." Yao Shumei arrived in front of Chen Xiang and gave a bland smile. He bowed to Chen Xiang, causing the disciples of the Peach Blossom Fairyland s to be dumbstruck.

Chen Xiang put away the Green dragon demon-slain broadsword that was dripping with blood and laughed: "Hehe, Madam Peach Blossom didn't invite my Super Martial School as a guest earlier, she's probably afraid that I would cause trouble."

This caused Yao Shumei's jade face to redden. She did not expect Chen Xiang to say such words in front of her, which made her feel slightly embarrassed.

Yao Shumei did not refute him, with a blushing face, he smiled and nodded: "Please forgive me! In the future, whenever Young Master Shen comes to the Peach Blossom Fairyland, we will welcome him at any time. "

Chen Xiang pointed in a direction: "If you want to go in this direction, you can leave this place. When you came in, you already possessed a bit of energy, and will be easily detected by that group of people. They are Primordial Evil Barbarian s, sealed here, so after you leave the great natural formation that seals them, you all aren't afraid of being hunted down."

"What about the others?" Dongfang Chaoqun asked.

"Let them be. I'm only here to save the little fool. But now, I want to take a look in the depths!" Chen Xiang pinched Dongfang Jing's face tightly, then fled into the forest and disappeared.

"Big Brother Chen Xiang, be careful along the way." Hearing that Chen Xiang was about to go deeper in, Dongfang Jing was startled, she anxiously shouted, but she could no longer see Chen Xiang.

Just as Chen Xiang left, Lian Yingxiao flew over with a smile. "I didn't expect that the matter of the hero saving the beauty would be snatched away by Chen Xiang."

"Island Lord Lian, after we send these young people out, we must return. The situation here is not good, and if there are any serious casualties, we must take responsibility. After all, we were the experts who proposed to carry out these activities." Yao Shumei said with a serious face.

Lian Yingxiao nodded his head: "This is something that I must do. You guys should have stopped Chen Xiang just now and asked him about some things regarding this place. He and that Kylin thunder eagle are friends, you guys should know something."

----- Chen Xiang did not know much about the Evil Barbarian, he only knew the weaknesses of the Evil Barbarian s. He was just curious how the Evil Barbarian Empire operated in the depths of the Ancient Spirit Great Land.

The Ancient Spirit Great Land was formed from multiple continents colliding together, so the spirit energy was extremely dense. However, Chen Xiang did not come across any spirit medicines along the way, but instead, he met places with spirit medicines. When he passed by, he could still feel the remnant aura.

"This footprint is the footprint of a shoe. It looks like a normal person, but it doesn't leave any breath. Moreover, there aren't many footprints. It must have come from a tree." After Chen Xiang saw the footprints, he started to ponder: "Looking at the traces, it should have been some time. Could it be that someone came here to gather spirit medicine frequently?"

Chen Xiang had to be even more careful now. In this area, it was very easy for some spiritual herbs to grow. He walked around and found that there were dozens of humans that had been here before.

However, it was hidden very well, and was not discovered by the Evil Barbarian. Or else, after it was discovered by the Evil Barbarian, this group of people would be able to kill the Evil Barbarian. " Long Xueyi said.

The deeper they went, the denser the spiritual qi became. Although there was a certain distance between them and the profound Realm, it was much denser than the spiritual qi of many big sects. One must know that when big sects were built, they were only decided by selecting thousands and thousands of other big sects.

"It might be a demon beast in human form!" Su Meiyao's words made Chen Xiang's heart tremble, the majority of the humanoid beasts were from the Nirvana Stage, and they were very strong.

Although the Ancient Spirit Great Land didn't have as many people as the others, the hidden dangers made many strong practitioners have no choice but to treat them with caution.

Chen Xiang turned into a common green bird, flying in the dense forest. It could avoid being attacked by some demon beasts that had strong concealing abilities.

After flying for half a day, Chen Xiang suddenly heard a threatening and ruthless voice, "If you don't hand over the spirit herbs that you've harvested, I'll pinch this little girl to death!"

This voice was somewhat familiar to Chen Xiang, he could hear that it was one of the experts, and very quickly, he saw an infuriating scene. A middle-aged man wearing a blue robe was pinching the nape of a five to six-year-old girl, lifting her up.

Chen Xiang was furious, from the middle-aged man's service, he knew that the middle-aged man was from Thunder Heaven School.

[Chapter 767](#)

The middle-aged man menacingly threatened the three beast-skinned muscular men. Their faces were also filled with anger, and there were traces of blood at the corners of their mouths. They had one or two bloody holes on their bodies, and their faces were ugly.

The swords in their hands had traces of blood on them, so it was likely that they were the ones who had pierced through the three burly men's bodies. Their faces were also brimming with complacent smiles.

"The humans outside are indeed the same as the Evil Barbarian, it's just that they're even more despicable and vicious than the ones in the Evil Barbarian." A one-eyed man roared angrily and took out some spiritual medicines that were emitting dense amounts of spiritual energy. They had just collected these.

When Chen Xiang saw this, he was infuriated. Thunder Heaven School was, after all, a very famous sect in this new world.

"This guy, he should be the Leader of the Thunder Heaven School. Lei Durong, definitely cannot let him go!" Chen Xiang took out the Death-haunting arrow, condensed it into Dragon Power and released it. He wanted to control the Magical corruption gas very precisely, as long as it was enough to make the inner body of the Thunder Heaven School become dirty and rotten.

"Xue Yi, watch the timing. Use your mana to save that little girl. We can't let this guy succeed." Chen Xiang said, as the condensed crossbow arrow shot out angrily.

After the arrow was shot out, Lei Durong immediately sensed that someone was sneaking an attack on him. The moment he relaxed, a strange power made the girl in his hand suddenly drop her hand and shout towards the one-eyed man.

"Who?" Lei Durong roared angrily, Chen Xiang's arrow did not pierce through his body, but was blocked by a powerful armor.

Even so, the Magical corruption gas still spread out on Lei Durong's body, went through his clothes and armor, and drilled into his body through his skin. Lei Durong was indeed a Leader of a sect, and very quickly, he found out that he was poisoned, and hurriedly swallowed a high level detoxification pill. He sat down cross-legged and started meditating, he knew that the poison was extremely terrifying, and was wreaking havoc in his body.

The word "die" was a bit unfamiliar to the warriors who had just crossed the eighth tribulation of Nirvana Realm. Usually, they would only feel this kind of fear when facing Nirvana Doom s, but now that he felt the strange poison aura in his body, he could not help but feel a deep sense of fear.

"Protector, don't let anyone near me. The guy that plotted against me is definitely not strong, or else he would have appeared a long time ago." Lei Durong growled, and had the three disciples beside him surround him.

When the sturdy guys saw this, they knew that someone was trying to save them from the shadows. They were carrying the girl and wanted to leave, so Lei Durong groaned and released a strong force that pushed the few men down to the ground. The girl, who was protected by the one-eyed big guy, did not get hurt.

Lei Durong had to pay a price for this. Just now, with his luck, the poison spread even faster, causing his internal organs to rot and he quickly took out a bottle, but he was immediately smashed by Chen Xiang's arrow.

"Despicable!" Lei Durong trembled, gritted his teeth, and spat out a few words.

Chen Xiang took out the Green dragon demon-slain broadsword, and as expected, it flew from a distant tree. In a few breaths time, it arrived in front of Lei Durong.

"I'm afraid I'm not as despicable as you, old turtle!" Chen Xiang chuckled.

It was actually Chen Xiang! Lei Durong felt a sweetness in his throat and almost vomited blood. He, a dignified Leader of a sect, was actually ambushed by this brat, Chen Xiang, and he was poisoned.

"You and I have no enmity with each other, why did you try to harm me!" Chen Xiang shouted in a low voice. Chen Xiang possessed a large number of Relive Dan, so he naturally could possess powerful poisons as well. Lei Durong never dared to underestimate Alchemist, because the pills given by Alchemist could not only save people, but also kill people and formless, causing them to die miserably.

Chen Xiang laughed coldly: "These people also have no enmity with you, why are you snatching other people's spirit medicine? You even use a child to threaten me. You don't have the right to ask me that question, I just can't bear to see you do it! "

"As long as you give me the antidote, I can apologize to them and compensate them." Lei Durong clenched his fists tightly. It was not easy for him to get through the Eight Tribulations of Nirvana, and he was not willing to die like this.

Chen Xiang laughed, "I don't trust you!"

Just then, a disciple of the Thunder Heaven School suddenly flew out in the direction of the girl. Chen Xiang's reaction was not slow either, he flashed towards her and at the same time, chopped the Thunder Heaven School disciple into two halves.

It was just a single slash, yet a disciple of the Hundred refining realm was sliced off by Chen Xiang like tofu. The armor on his body was completely useless.

Chen Xiang could guess that all of this was because of Lei Durong's divine sense.

"Humph!" Chen Xiang's divine blade shook, releasing a clear dragon's roar, and the blood on it was also shaken into a bloody mist.

The remaining two disciples started trembling, they knew that Lei Durong did not have the power to resist, if not they would have killed him already. They were afraid that Chen Xiang's strong poison would have noiselessly poisoned a powerful warrior like him.

"You ... "You ..."

Before Lei Durong could finish his words, Chen Xiang flashed forward and shouted coldly: "Die!"

The blood was black and carried a strong poison, causing the two disciples to feel weak from head to toe. Their powerful Leader died in front of them just like that, killed by a little ghost.

But they were not afraid for long, and fell into a deep slumber forever. After Chen Xiang killed Lei Durong, they also killed the two disciples.

Chen Xiang released a wisp of flame which carried the Devil-suppressing holy power. It was able to burn the poison within a short period of time and cleanse the place completely.

"Are all of you okay?" Chen Xiang walked over and supported the one-eyed burly man up, then smiled at the cute girl who was crying like the rain.

"Thank you for saving us. Looks like the humans outside are all like those guys." The man looked at Chen Xiang with awe. They knew of Lei Durong's strength, they were like ants in Lei Durong's eyes, but they were still slaughtered by him.

"No need to be polite, these guys are good people wherever there are people. However, once they take a fancy to something they want, they will be more dangerous than anyone else." Chen Xiang laughed.

Chen Xiang chatted with the three big sized men for a while before he found out that they were native to this place, called the Ancient Spirit Race. This was also the place where the Evil Barbarian originated from. They had absorbed the same amount of energy as the Evil Barbarian, so they were sealed here and could not leave. Their overall strength was actually not weak, comparable to the Evil Barbarian's!

Which elder did they come out with? It was only because that elder went to chase after a powerful ancient beast that he made them wait here, and then met Lei Durong. He just so happened to see them picking those rare spirit medicines, so Lei Durong was greedy and wanted to snatch them away.

[Chapter 768](#)

The Ancient Spirit Clan only had a bit more than 1000 people. The name of their village was the Ancient Spirit Village. The houses in the village were all made of green jade-like stones. It was said that they had been there for hundreds of thousands of years, and were extremely sturdy.

The moment Chen Xiang walked into the village, Long Xueyi immediately said: "This village is not simple, there are quite a few powerful people, and they are even inside a transparent profound Realm. Just by saying that you can see the outside scenery inside the profound Realm, but you can't see in from the outside, this kind of profound Realm is very special, very rare."

The edge of the village was just a few densely packed forests. Chen Xiang released his divine sense, but was unable to penetrate through, which showed that what Long Xueyi said was true.

Because Chen Xiang saved the few big men, he was invited to this place. What surprised Chen Xiang was that the village head of the Ancient Spirit Village actually personally came to receive him.

Chen Xiang chatted with the big men along the way and knew that the village head of the Ancient Spirit Village was the strongest person here. His name was Gu Hua, he was a kind, white-haired old man, and when he walked out, he immediately smiled and said to Chen Xiang. "It has been a long time since someone from the outside came in, little brother, you have saved these few kids. "Please come in."

Seeing the ancient saying, Chen Xiang had a strange unspeakable feeling, and this feeling felt very familiar. He followed Gu Hua to a very simple hall, and that familiar feeling became even stronger.

"Gu Dongchen! It's just that Gu Dongchen hid his presence very well. Could it be that Gu Dongchen came out of the Ancient Spirit Village? " A thought flashed in Long Xueyi's mind, and he immediately said in shock: "This Ancient Spirit Great Land is very far away from the Mortal Martial Realm, why would Gu Dongchen appear here?"

Chen Xiang was also extremely shocked in his heart. That familiar aura was indeed very similar to Gu Dongchen's.

In addition, Chen Xiang also realized that this Gu Hua and he have something in common, that is, they are very thrifty.

Because an outsider suddenly came to the Ancient Spirit Village, many curious children came to watch, but they were all driven away by Gu Hua.

Gu Hua passed Chen Xiang a cup of tea. It was pitch black and had a rather pungent smell. Chen Xiang received it and took a sip, almost spitting it out.

"Village Chief Gu, the taste of this tea ... "It's weird." Although the taste was bad, Chen Xiang could only swallow his words.

"Oh? Maybe it's been too long. " Gu Hua's old face reddened, and she poured herself a pot of water so that Chen Xiang could eat it.

"This guy is too stingy, he actually used all these tea leaves that have been placed for who knows how long to make guests drink, he has the same moral character as Gu Dongchen." Long Xueyi groaned.

"Village Chief Gu, have any of you left the Ancient Spirit Great Land before?" Chen Xiang asked. His intuition told him that Gu Dongchen might be one of these people.

Gu Hua stroked his beard and nodded: "There are a few people who have left before, but all of them have used very special methods, such as the Transmission array, or were taken away by outsiders.

Hearing Gu Hua say this, Chen Xiang was sure that Gu Dongchen was one of those brats and it was very possible that he was taken away by his senior brother.

"Sigh, our Ancient Spirit Clan is just too unlucky. We absorbed the same energy as the Evil Barbarian, drank the same water, and then somehow, a natural formation suddenly appeared. In the end, we were trapped here for many years." Gu Hua sighed.

"But our ancestors said before, that it was because this is a very dangerous place that a human neither human nor ghost was born here. Originally, we were going to move away, but we couldn't bear to part with this village, because it was very safe here. The Evil Barbarian had attacked us multiple times and they couldn't do anything to us. We'll be trapped here forever. "

Although Gu Hua was a powerful warrior with unfathomable strength, he looked like an old man in his late twenties.

"Little brother, can you tell me what is going on outside? There have never been so many people entering that natural array before. " Gu Hua asked curiously.

Chen Xiang nodded and then told Gu Hua about the new world's matter. This caused Gu Hua to look at Chen Xiang in fear.

"Is it finally coming? I never thought that it would happen in my generation! " Gu Hua frowned and muttered.

Seeing Gu Hua's expression, Chen Xiang had a bad premonition, he anxiously asked: "What is coming?"

"Great War between Three Realms! Our ancestor said that the last time Great War between Three Realms would start from our Ancient Spirit Great Land! " Gu Hua said.

One last Great War between Three Realms! Previously, Long Xueyi had already guessed that if the demon dweller and the three realms fused together, this would be the last time for the Great War between Three Realms.

Chen Xiang drank the tea in one gulp, then asked with a serious expression: "Starting from Ancient Spirit Great Land, what does that mean?"

Gu Hua laughed desolately, "The first demonic path of the new world is opened from here. The reason the Ancient Spirit Great Land gave birth to the Evil Barbarian is because the space here is very weak and the Demon and Devil Realms's energy can penetrate here, which is why the Evil Barbarian turned out to be like this, a fusion of demons, demons, and humans!"

Chen Xiang immediately stood up and clenched his fists: "I need to go back immediately and let everyone prepare. If necessary, we need to seal this place."

Gu Hua shook his head: "I can't seal it, you'll know when the time is right. When that passage is opened, the powerful spatial energy it generated will tear apart the natural formation, and then, a very large tunnel would appear. It looks like the three continents are connected together."

Chen Xiang now understood why so many continents in this world had collided together back then. It was because space was shrinking, and not long after, a very large spatial passageway would appear here. Great War between Three Realms would start from here!

"This is the last time the Three Realms will be opened, because it won't be closed any longer. There will be countless tunnels into the new world, and the three realms will be fused together." Gu Hua said.

Suddenly, a weak tremble came over. Gu Hua immediately stood up and walked out of the house, raising his head to look at the sky, only to see two gigantic black holes appearing there.

"What's that?" Chen Xiang opened his eyes wide, his face was filled with shock, and the two gigantic black holes were slowly descending.

"Passages, a passageway to the Demon World and the Demon World, as long as they land on the ground, the Ancient Spirit Great Land will become larger, double the amount of land, which is the world structure of the Demon World and the Demon World." The passageway, the world channel to the Demon World, will become larger, double the number of times the amount of land, which is the world structure of the Demon World and the Demon World.

Chen Xiang finally understood that the Mortal Martial Realm was connected to the Demon and Devil Realms, and the other side of the Great Devil Mountains was connected to the ocean.

But now, the Great War between Three Realms had begun, the first of the Three Realms Passage would be born in the Ancient Spirit Great Land!

[Chapter 769](#)

If the Ancient Spirit Race hid in the profound Realm, they would naturally be fine. But, it was hard to say for themselves where else.

Fortunately, each world had only one path. If each continent had only one path, then things would become troublesome.

"I didn't expect it to start so soon. I have to go back and prepare!" Chen Xiang had originally thought that there was enough time to wait for him to cross the Nirvana Doom, but now, the first passage had already appeared.

The passage above the Chen Martial Continent would probably appear soon.

"Be careful." Gu Hua nodded, then sent Chen Xiang out of the Ancient Spirit Village.

When Chen Xiang came outside, he felt an extremely dense demonic aura. He took out the Luotian Gate, and wanted to open a spatial tunnel, but did not succeed because the space was very unstable and there were tyrannical spatial fluctuations everywhere.

"Now we can only fly back." Chen Xiang turned into a bird and quickly flew in the forest.

At the same time, in the dangerous places filled with demonic aura on many continents of the new world, the spatial energy fluctuations were extremely intense. These places were all the same as the Chen Martial Continent, they were all places where the demonic tunnels appeared in the same world.

Because the Great War between Three Realms was nearby, all of the continents sent people to watch. At this moment, Gu Dongchen received the news, and immediately became anxious, the big shots of the various forces in the Mortal Martial Realm were gathered together, the other realms were also in the same state, at this moment they had become extremely united, or else they would be destroyed, and no matter how many resources they had, they would have no chance of using them.

When the experts from the Ancient Spirit Great Land s encountered the Evil Barbarian s, they tactfully stayed far away. When the passage appeared, they basically came to the coastal Transmission array and saw the huge black hole in the sky.

"Could it be that the Ancient Spirit Great Land is the center of this new world? Generally, this sort of place is the weakest. " Bai Youyou said. When he first entered the Sacred Dan Realm, he came from the center of it.

"It's very possible!" Long Xueyi said.

"If that's the case, then the center of the demon realm is not so simple. The people there are all strong, it's the gathering place of the Devil Race!" Bai Youyou said.

Chen Xiang had seen the people of the Devil Clan before, and they had even been killed before, so he didn't think that they were powerful at all.

"Although you've killed those people with the surname 'Demon', they aren't of pure devil bloodline. If they have pure devil bloodline, then those at the same level as you won't be weaker than you." Bai Youyou said very seriously.

"Un, I understand!" To make Bai Youyou be so serious, Chen Xiang knew that Bai Youyou was worried about him and wanted him to be careful.

Chen Xiang did not notice what happened to the two gigantic black holes. He only felt that a burst of spatial energy was becoming more and more tyrannical, and that the natural formation would definitely be destroyed because of this. At that time, the Evil Barbarian would be able to leave the Ancient Spirit Great Land, and if those Evil Barbarian s were controlled by the Demon and Devil Realms, it would be unimaginable.

"There's a situation. Someone is coming. It's an intense demonic energy. It should be the people from the Demon World!" Long Xueyi anxiously said.

"Interesting, someone can actually turn into a bird!" A gentle yet curious voice suddenly came out, only to see a black net enveloping them. It moved as fast as lightning and trapped Chen Xiang, pinning him down on the ground.

Chen Xiang immediately reverted back to his human form, feeling extremely shocked in his heart, because someone actually saw him in his human form. Long Xueyi had said before, only the experts of the divine way could see through him.

"How did you do it?" If I didn't have the Demonic Saint's Divine Vision, I wouldn't even be able to see it. " A snow white man wearing a luxurious black robe lightly landed in front of Chen Xiang. From time to time, a red glow flashed across one of his eyes.

Soon after, two men and two women also landed on the ground. The moment they landed, the surrounding trees were suddenly turned into black ashes, and then were blown away by a strong wind.

A charming purple-haired woman said with a disgusted tone, "I hate these trees. I want to destroy them!"

The hundreds of trees in the surroundings were all destroyed in an instant by this woman, and the technique she used was very strange and terrifying!

Chen Xiang, who was trapped in the black net, was dumbstruck. He knew that the three men and two women that surrounded him were all strong young experts in the Demon World, and it was very possible that they were the Devil Race that Bai Youyou mentioned had pure blood.

"Is this the man of the human world? My looks are pretty good, and my figure is even better than all of you. It's just that my strength is a bit lacking, so I really want to offer my first time to such a handsome man in the mortal world. " A red haired lady said charmingly as she twisted her mature and charming body. Her eyes flickered with a red light, as if she was trying to hook away Chen Xiang's soul.

The purple-haired woman, who hated trees, giggled. "Big Sis wants to use him to train, right? Look at him. He's very calm!"

The red-haired girl saw that Chen Xiang was not bewitched by her and said in shock, "My bewitching eyes are useless against him, it seems he is not simple. I really want to see his performance on the bed."

Before, Chen Xiang had heard Bai Youyou say that there were some women in the Demon World who would use some strong and handsome men to cultivate.

"Let me ask you, how did you become a bird?" The voice of the white-faced man who looked like a woman asked. It was he who had covered Chen Xiang with the black net.

Chen Xiang stood up, let out a cold snort, and his body shook. The transparent and colorless Devil-suppressing holy power erupted, turning the black net into black powder.

"How did I become one has nothing to do with you!" Why should I tell you? " Chen Xiang sneered. Even though he was surrounded by five powerful Devil Cultivator s, he was not afraid in the slightest.

Looking at the floating black powder, the three men and two women were stunned.

"Number two, this is the magic weapon that you think is the most powerful." The mature red haired lady said as she frowned, she was extremely cautious towards Chen Xiang.

When the white-faced man saw that his magic equipment had been destroyed, he was instantly enraged. However, his voice was still gentle, "Big sister, no matter how much you like him, I will still turn him into a pile of minced meat and eat him bit by bit!"

"Lao Er, this is the prey that elder sister has set her eyes on. Leave it to me. After I finish training, I should have more bones to eat." The red-haired woman let out a cold laugh. Her hands suddenly turned red, and a pair of red claws appeared on the back of her hands.

Chen Xiang heard others discussing how to eat his flesh and bones and felt upset. He never thought that he would be so delicious in the eyes of these Devil Cultivator.

The red-haired girl smiled charmingly. Her clothes suddenly fell apart, leaving only two pieces of cloth on her body. One piece of jade peak was wrapped around her chest while the other wrapped around her waist, revealing her proud figure.

However, Chen Xiang was not moved by her actions. One must know that this woman was very bad, she actually wanted to use him to train, and even gave his bones to someone else to eat after cultivating.

"Nice focus!" The red haired woman knew that Chen Xiang was strong, but she knew that she was not weak. As she spoke, she had already floated in front of Chen Xiang and used her red claws to attack him ferociously.

[Chapter 770](#)

The red haired girl's punches were extremely fast, countless of red punches enveloped Chen Xiang, as though each punch was able to pierce through Chen Xiang's body, but what surprised everyone was that Chen Xiang was able to dodge all of them.

"Shameless!" Chen Xiang scolded, he grabbed the empty door of the red haired girl, and slapped it, fiercely hitting that extremely charming cheek. When his palm touched that smooth and silky cheek, he did not care about the woman at all, and immediately released ten explosive sounds, it was actually the tenth layer of Devil-suppressing power.

This power was very harmful to the demons. Now that it had been verified, the woman's face swelled up and her beautiful jade teeth were completely shattered by the violent Devil Subduing Method. Her originally beautiful face now looked completely different.

"Big sister!" The three men and one woman who were watching from the side hurriedly started to shout. Their faces were full of anger, but they did not attack because they knew that the red-haired woman did not like people interfering with her battle.

Chen Xiang could only smile, and took out a very big mirror and threw it over, the red haired lady looked at herself in the mirror, and immediately became angry.

"I will tear you apart!" The red-haired woman was furious.

Just then, Chen Xiang asked, "Are you from the Demon Eye Clan?"

This was what Bai Youyou had told him, that the red haired woman had enchanting eyes, the other man had the [Saint Devil's Divine Vision], the other three people must have had it too, but they did not say it out loud.

"That's right!" The red haired girl immediately replied, she turned into a red shadow and pounced towards Chen Xiang, her speed much faster than before, her red claws even leaving a scratch on Chen Xiang's face, but that was all, because Chen Xiang still dodged it.

Chen Xiang laughed, "Other than their powerful eyes, the Demonic Eye Clan are lacking in everything else. I thought you guys are the strongest in Devil Race, that's disappointing!"

At this moment, the five youths of the Demon Eye Clan were all secretly surprised. This was because even the Demon Realm forces did not know about the internal situation in the Devil Race.

"Enough to kill you, what are your last words now? You have already been poisoned by my poison!" The red-haired woman suddenly laughed. Although her face was in pain when she laughed, she was truly happy.

Just as the red-haired girl was laughing wildly, Chen Xiang suddenly disappeared and appeared in front of the red-haired woman in the blink of an eye. After that, she threw out a punch and another ten explosions sounded out, and this time, Chen Xiang even used Dragon Power, as the two types of berserk energies fused together, causing the lethality of the demon to increase, and with just one punch, the red-haired woman almost spat out all the shattered air and dirt in her body.

"Big Sis ... "How could you ..." The man with the [Saint Devil Divine Vision] shouted in shock, and Chen Xiang had already flashed in front of him. The Slaughter God's Hand released a terrifying killing intent that made people despair, bringing an extremely berserk purple lightning that struck the man's [Saint Devil Divine Vision].

Although this punch was not made using Dragon Power, for Chen Xiang who possessed Thunder soul, the lightning here was equally terrifying. It was only one punch, but the man's Saint Devil Divine Vision exploded, and the strong tap numbed the man's head, causing him to faint instantly.

Whether they were dead or alive was unknown, and the remaining three people were incomparably shocked, because this was different from their understanding of the human world. In the demon world, the people of the human world were incomparably weak, but the Chen Xiang in front of them, was far more powerful than they could imagine.

"Let's attack together!" The purple-haired woman shouted out loud, she took out a black pole and rushed towards Chen Xiang.

However, before she could even take a few steps forward, had already arrived in front of her, and a vicious lightning fist exploded in her eyes. The two men were also wrapped by the water vines, and the water vines were all wrapped up by Chen Xiang's Devil-suppressing holy power, making it difficult for them to escape.

This was what Bai Youyou had told him. As long as he could harm their eyes, he would be able to make the Innate Qi in his body chaotic and unusable, and at the same time, destroy their powerful demon eyes.

Chen Xiang's two men were also beaten black by Chen Xiang. Although they did not die, they could still be considered to have been destroyed for the rest of their lives.

This was Great War between Three Realms's first battle. Chen Xiang wanted these five fellows to go back and tell the Demon World that they had won their first battle.

"So weak!" Chen Xiang rubbed his fist and turned back into a bird, quickly flying away from this place. There were people from the demon realm here, it seemed like they had already occupied the interior of the Ancient Spirit Great Land, and those Evil Barbarians had also been conquered by them.

Bai Youyou said: "Although these five people are not the strongest, but their Demon Eye is very strong. From their service and demonic techniques, their position in Devil Race is not low, but the Demon Eye Race is usually in a supportive position. For example, if it's someone that has weak willpower, no matter if it's men or women, they would all be bewitched by them.

Chen Xiang curled his lips: "But it's already gone, I just punched her in the eye. This kind of person, compared to sister Meiyao, is a thousand times worse, you actually want to seduce me! You can't even compare to the little Mimi of the Little Bad Dragon, and you still dare to show off in front of me.

Of all the women by Chen Xiang's side, regardless of their size, which one of them could be said to be infatuated with a dead person without paying with their life? He had been honed long ago. Apart from these women, it was really hard for other women to make him take off his pants.

Ever since he ate Hua Xiangyue, the thing in his crotch received a lot of comfort and admiration and became much more obedient. At the same time, it made his vision even higher.

By the side of the Ancient Spirit Great Land, many experts had already gathered, and the young people were already teleported away. When Lian Yingxiao saw Chen Xiang rushing over with a solemn face, he knew that something big had happened in the Ancient Spirit Great Land.

"What's going on inside?" Yao Shumei asked anxiously, the dense demonic Qi made her face turn serious.

has started. From here on, all of you should quickly go back and make your preparations! The Ancient Spirit Great Land was the center of this new world, and the tunnel was also the center of it. Didn't the Devil-subduing College say that? In the center of Demon and Devil Realms are some powerful fellows. " Chen Xiang said.

This caused all the experts to be moved. They had already guessed this, but they just couldn't believe it had happened so quickly!
