

## Dan God 771

### [Chapter 771](#)

The experts did not leave as they were discussing what to do next. At the same time, they were waiting for the warriors who had entered to hunt the demon beasts.

"You guys better hurry up, Demon and Devil Realms's group will quickly occupy this place, this Transmission array cannot be used by them." Chen Xiang said.

"But Leader Lei hasn't come out yet. We haven't seen him and his three disciples." An old man said.

Thunder Heaven School and his three disciples had already been killed by Chen Xiang, so they naturally would not come out.

Chen Xiang casually said: "Then you guys can decide. I'll be leaving first."

Just as Chen Xiang stepped into the Transmission array and was about to open it, he said to the rest of them, "You all hurry up and leave."

When Chen Xiang was inside, he could not use the Luotian Gate to open the spatial tunnel, and the principle of the Transmission array was the same. If the space was not stable and they tried to teleport by force, the consequences would be dire.

Chen Xiang activated the Transmission array and returned to the Super Martial School. At this moment, the entire Super Martial School and the outside Heaven Door City were shrouded in panic, although the passageway did not appear, the Great Devil Mountains was emitting an extremely strong demonic aura, and the news quickly spread throughout the Chen Martial Continent, because this was the prelude to the opening of the tunnel. Furthermore, a few experts of the Mortal Martial Realm were gathered here, discussing on how to retreat together.

The Great Devil Mountains was very close to the Devil Continent, and the warriors who cultivated in the evil way had long retreated, because they were now respectful to the demons, and worried that they would be exterminated, and had no choice but to behave themselves and join forces with the Righteous Sects.

Great Devil Mountains and Devil Continent were both very close to the shore. They used to be the most intense place among the Great War between Three Realms above, because this was the place that was connected to Demon and Devil Realms. Chen Xiang was currently high in the sky, looking down at the distant region shrouded in black fog.

"Looks like it's going to be soon. Such a dense demonic aura means that a small opening has been opened in the space. Some demons should be coming." Bai Youyou said.

This was not the first time Chen Xiang had come to the Great Devil Mountains. This time, he indeed felt a very strong demonic aura from the people here, which was the same as the one he felt in the Ancient Spirit Great Land.

"The demon passage that is connected to the Ancient Spirit Great Land is the headquarters of the Demon and Devil Realms. The world at the heart of the demon realm is extremely powerful, I wonder how long this fierce battle will continue for." Bai Youyou sighed.

Chen Xiang returned to the Super Martial School, waiting for Gu Dongchen and the others to return from their meeting. During that time, he had refined some pellets, especially the healing antidote, because the Demon and Devil Realms's and Evil Demon's use of poison was best at it.

At this time, the various worlds all knew that the Great War between Three Realms was coming, and Dan City was even more crowded. Many warriors had spent their entire life's savings to buy life saving pellets, but at this point of time, the pellets stores were running out of supplies.

The Super Martial profound Realm had already opened up some areas and built many houses. If the Chen Martial Continent were to fall, the Super Martial profound Realm would become a refuge, and at that time, as long as the doors to the profound Realm were closed, the demons would not be able to come in.

The group of big shots in Mortal Martial Realm had already been in a meeting for three whole days, and upon Gu Dongchen and Wu Kaiming's return, Chen Xiang immediately went to look for them.

"Junior master, the situation is very serious. Although the various powers have agreed to send people to guard the Great Devil Mountains, there are not many people who would let go. Furthermore, there are some powers that are pessimistic and think that they will not be able to defend the Great Devil Mountains." Gu Dongchen sighed.

"How can they think that? Didn't they successfully defend it a hundred thousand years ago?" Chen Xiang said. He paid a very heavy price to successfully defend it a hundred thousand years ago.

"Fortunately, there are a few powerful forces in the Continent of the King that are willing to send extra people. I wonder if there will be any warriors willing to join when the time comes." Wu Kaiming said.

Chen Xiang thought for a moment, then said: "You and the other big shots of the Chen Martial Continent should discuss this with each other. Using the demon's head to exchange for a Spar, this can motivate many people to join, after all killing demon and demon beasts are the same, they all need to take risks, but you all need to have enough Spar to buy the demon's head."

"This is a good idea, the Spar are not a problem, we big sects have a lot of them." Wu Kaiming laughed, but Gu Dongchen could only lament. As a Leader, he had to bleed a lot of blood.

"Oh right, Liu Meng'er didn't participate, she only sent an elder over, what is she busy with? This is the time!" Gu Dongchen said. Chen Xiang was Liu Meng'er's man, so he believed that Chen Xiang definitely knew about it.

Liu Meng'er and Dongfang Xinyue were researching about how to create a profound Realm. If they succeeded, then this would be exciting news.

To deal with demons, the power of the Divine Weapons Heavenly Country was essential, because the Divine Weapons Heavenly Country had many weapons. The majority of the disciples in the Divine Weapons Heavenly Country were excellent experts in laying out formations, and all of them were extremely armed warriors.

"I'll go take a look. Recently, she has been researching very powerful formations, and she has been preparing them for the Great War between Three Realms." Chen Xiang also wanted to ask Xue Xianxian about the relationship between him and Leng Youlan.

----- This was an important place and also the place where Liu Meng'er refined his artifacts. Chen Xiang had once been to this place, allowing Liu Meng'er to use her White Jade Dragon Cauldron to refine his flesh.

Chen Xiang was unable to find Liu Meng'er in the house, so he could only come here and feel the scorching aura. He knew that Liu Meng'er was currently inside.

Chen Xiang entered from a cave and arrived at the belly of the mountain. He saw an incomparably large jade cauldron that was giving off hot air, and on top of the jade cauldron, there was a circular stone platform.

"They're making array discs!" Su Meiyao said.

Seeing that Chen Xiang had arrived, Liu Meng'er and him floated down.

"So this is how the array disc is made. This is the first time I've seen it." Chen Xiang exclaimed as he looked at the huge stone platform floating above.

"This is only the beginning. Moreover, what you have seen is only the first level. The array discs that we will be creating will be 108 layers. When the time comes, they will be compressed together." As Liu Meng'er spoke, he helped her to wipe the sweat off her jade face.

"One hundred and eight levels?" Are all array discs like this? " Chen Xiang was shocked, how much time and effort was needed for this to happen?

"Of course not, ordinary array discs can only go from one to ten. What we create are array discs that can create profound Realm s." Dongfang Xinyue laughed.

Liu Meng'er asked: What urgent matter do you have for us? We are very busy right now, and we want to get the profound Realm out as soon as possible before Great War between Three Realms starts. "

## [Chapter 772](#)

Chen Xiang also wanted a profound Realm of his own. How grand was that, but he knew that Liu Meng'er and Dongfang Xinyue needed it more than him, so he did not speak up.

"I just want to ask about Xianxian and You Lan's situation. Have they started their tribulation?" Chen Xiang was very worried about this.

"Their strength is already pretty good. Moreover, with your help, they should be able to successfully cross over. When the time comes, they will be in the Nirvana Stage. It will be safer there with a little profound Realm. " Liu Meng'er said.

Chen Xiang nodded, then pointed to the gigantic floating disc, and asked: "Can this kind of profound Realm be mass-refined?"

"Of course not, the ingredients for this formation plate were accumulated over the years by Meng'er and I, and they were all used up in one go. If there are a lot of ingredients, Meng'er and I might be able to quickly refine them in the Time Formation of Icy Wind Valley." At this time, Dongfang Xinyue had a very good understanding of Liu Meng'er's situation.

There was a small profound Realm in the Icy Wind Valley, and there were Time Formation s inside, but men were not allowed to enter this small profound Realm.

After Chen Xiang left the Divine Weapons Heavenly Country, he started thinking about how to obtain these ingredients. The reason why these ingredients were so scarce was because it was difficult to create an array in the Mortal Realm, so most of the time, it would be in a higher realm.

At the entrance of the Super Martial School stood a group of robust men wearing white robes with a black moon painted in the middle. Seeing these servants, Bai Youyou's voice carried doubt in it as he said: "These are the Black Moon Guards of the Devil Race, they have a very high status and even the Demon Eye Race has to be respectful to them. Why would they appear at the entrance of the Super Martial School now? Were they here to negotiate? "Since when did the Infernal domain become so formal?"

"What?" Is this guy from the Demon World? " Chen Xiang immediately rushed into Super Martial School, only to see Gu Dongchen and Wu Kaiming conversing with a middle aged man wearing black armor.

When Chen Xiang came in, the middle aged man immediately turned and looked at him. Although he released a sharp killing intent, he could not scare Chen Xiang.

Beside the middle-aged man, there was a man wearing the same black armor. The handsome face of the man had a light smile, but there was killing intent in his eyes, as if he had a deep grudge with Chen Xiang.

"Inside the Ancient Spirit Great Land, did you injure five of my subordinates?" the young man asked.

Those five people of the Devil Eye Clan were actually the underlings of this youth! This caused Chen Xiang to be extremely shocked. One must know that the strength of the five Demonic Eye Race members were not bad, after all, their superior was a Nirvana Stage.

"There's no other way. I was forced by them." Chen Xiang spread his hands.

"Chen Xiang, to be able to cause the Ancient Wasteland Devil Sect to issue a Devil God Command is not disappointing. To think that it could actually injure my five capable subordinates in such a short amount of time." The young man said indifferently.

Hearing the three words "Devil God Token", Chen Xiang couldn't help but have a headache. When he destroyed the Devil God Altar, he didn't know that he had angered that fierce guy, and that's why he was issued with the Demon God Token.

"What should come will eventually come." Chen Xiang laughed bitterly.

"We are not followers of the Ancient Desolation Demon God, so the Demon God Token is useless to us." The tall Middle-aged Man in Black Armour said.

These Devil Realm people actually did not have any malicious intent, and they were even so reasonable, which was a little hard for Chen Xiang to accept.

"Then what is your purpose in coming here?" Chen Xiang frowned and asked, making him puzzled.

"We are here to warn you, our Ancient Spirit Great Land will definitely not participate in any battles, so please do not involve us in any battles, if not, don't blame us for being rude." The middle-aged man said coldly.

"If you cripple my five subordinates, I will remember you." The young man smiled, but it was full of killing intent.

Chen Xiang was also not to be outdone, he coldly laughed and said: "If you have the guts, get it back now, I'll accompany you anytime, when that time comes, you can accompany your five subordinates to be crippled."

"You ..." The young man was slightly angry, then snorted and walked out of the Super Martial School. The tall middle-aged man coldly shot Chen Xiang a glance, and followed suit.

This Devil Race of the Ancient Spirit Great Land was the strongest, and now he actually wanted to tell others that they would not invade the human world.

Chen Xiang did not believe their bullshit. If the demonic people of the Three Realms fought to the end and suffered a great loss to their vitality, the demons above Ancient Spirit Great Land would be able to easily rule this Three Realms that had been fused.

"They sure are brave. Aren't they afraid of getting attacked by that crazy old man?" Chen Xiang curled his lips and said: "These kinds of people are really insidious. According to what I know, they are the strongest powerhouses in the world of demons."

"Don't worry, I'm better at scheming and scheming than you. We will be on guard against them, but little martial uncle, that Ghost Demon God Token seems to be much stronger than the ten billion bounty. You should just hide." Gu Dongchen said, his worries were not without reason, maybe some of the followers of the Demon God would sneak into the Chen Martial Continent, all so that they could kill Chen Xiang.

Chen Xiang laughed: "Don't worry, when I have to hide, no one will advise me, I will hide, and at that time, other than myself, no one will be able to find me."

The Great War between Three Realms was a very good chance to train himself. Chen Xiang had learned so many Demon Subduing Arts, and he also had a Green dragon demon-slain broadsword. If he did not display his power, how could he face all these?

In this new world, it seemed as if only the Ancient Spirit Great Land's passageway had been opened, and many powerful forces had received the Devil Race's warning. That Devil Race would not engage in any battles, and would obediently stay in the Ancient Spirit Great Land, if there was anyone who would disturb them, they would definitely take action.

Although the Devil Race said this, no one trusted them and they were all on guard.

When the news of the Ancient Spirit Great Land Passage's opening spread throughout the new world, the panic in the new world grew even more intense.

"Junior master, the situation in Great Devil Mountains is very bad, now every force has started to send their people, they have to send the twenty elite disciples to take the lead, and I will take the lead in Super Martial School." Wu Kaiming said.

"Am I part of it?" Chen Xiang asked anxiously.

"No, but there are Yun Xiaodao and the others. The reason why we did not let you go is because we agreed to it during the meeting, because you were too good at stirring up trouble and did not follow the arrangements. At that time, all of the sects would cooperate with each other." Wu Kaiming said.

Chen Xiang snorted in annoyance, and asked: "Then can I go there myself?"

Wu Kaiming laughed: "It's not impossible, but you must not cause any big things!"

When the warriors found out that the demon's head could be exchanged for a Spar, they ran over excitedly, waiting for the passage to open. Most of the warriors who dared to come here were fearless, and were also hunters with blood on their blades!

### [Chapter 773](#)

Those warriors who did not have any sects naturally could not compare to the elite disciples that those sects focused on training, but among these warriors, there were also many that were famous. After these warriors learned the Devil Subduing Method, they became much more confident and thought that the demon's head would be easier to obtain, so they came together.

"You little bastards, remember, don't break the heads of those monsters, and use them to exchange for Spar s." A middle-aged man warned a few young men.

The young men nodded. The brains of fiendish demons were much easier to deal with than those of demonic beasts.

These warriors had all come prepared, before they had come, they had already known about these demons from the Devil-subduing College, and they had all thought of some techniques to prevent them from suffering any calamities.

However, when they saw the elite disciples of the various forces in Mortal Martial Realm, they immediately felt that their competitiveness was very high. However, they knew that there would definitely be a lot of Demonic Qi Cultivators at that time, and the number of Demonic Qi Cultivators there would also be very limited.

Chen Xiang also snuck into the group of warriors, he could not be with the Super Martial School's group. Another reason why those powers didn't want him was because he was too strong and could act alone. If he wasn't a burden to the team, then the team would be a burden to him, and teamwork was especially important.

If Chen Xiang was with the rest of them, when he met the demon, he would definitely charge forward like a runaway horse.

Three days had passed, and more and more people gathered here, forming groups of three or five. Chen Xiang also saw some of Devil-subduing College's students and people.

However, no one entered. Before these people came, they had already collected a lot of information, and if they went in now, it would be the most dangerous, perhaps they might even be killed by the strong warriors of the Demon and Devil Realms.

However, everyone was extremely excited, because it wouldn't be long before they could make their move.

If one was high in the sky, they would be able to see three enormous continents connected together. On the continents of the Demon and Devil Realms, there was a very large spatial gate, and the continents of the other Demon and Devil Realms could all pass through that continent that was connected to the Mortal Realm.

"Demon Realms people are more difficult to deal with than Evil Demon of the Demon Realm, because Devil Cultivator of the Demon Realm look like humans, they can sneak into our ranks, and have intelligence similar to the human realm." Demon Realms people are more difficult to deal with than Evil Demon of the Demon Realm, because Devil Cultivator of the Demon Realm look like humans, they can sneak into our ranks.

If one wanted to enter the Great Devil Mountains, they would have to cross a field, and every day, there would be people standing on the plains, looking at the Great Devil Mountains that was filled with dense demonic Qi.

On the tenth day after the passage was opened, Chen Xiang suddenly noticed many things walking out from the Great Devil Mountains. Upon closer inspection, it was actually a few Devil Cultivator s and Evil Demon s.

They lined up in a row. There were only a thousand of them, making everyone extremely disappointed. This was because they had tens of thousands of people waiting here. This number was simply not enough for everyone.

"The demons have actually joined forces. It seems they have become a lot more rational. This isn't a good thing." Bai Youyou said.

In the past, the Demon and Devil Realms was also hostile to each other, but now they could walk out together.

At this moment, the elite disciples that had been sent out by the major powers had also walked out. There were several thousands of them.

Chen Xiang watched the situation unfold from the side. What made him happy was that Yun Xiaodao, Zhu Rong and the others were all at the late stage of the Hundred refining realm. This kind of speed, in the eyes of normal people, was already considered fast.

"Is the human world that barbaric? Gathering so many people and trying to kill us all in one fell swoop? And then invade us?" A tall man with long ears walked out. His eyes were bloodshot and his skin was fair. On the back of his hand, there was even some white fur.

"This is a rabbit demon with rabbit blood. It looks like the evolution of the Demon World is pretty good. I wonder what kind of beauty is in the Demon World? Will there be any other pleasures or thrills when you play with them?" Long Xueyi laughed.

The Demon and Devil Realms had invaded the Chen Martial Continent before, and had lost a lot of people. If they did not attack, the Chen Martial Continent would not have retaliated, but now they called the human world barbaric, truly shameless!

Of course, these were all events from 100,000 years ago. In these hundred thousand years, any changes in the Demon and Devil Realms would not be surprising, it was just that based on their surnames, it was hard to not be suspicious of them.

"Don't look at how small we are. If you want, we can start a war right now. You guys aren't enough for us to kill." The rabbit demon said with a faint smile.

"We naturally do not wish for a bloodbath. A hundred thousand years ago, you invaded our land and we retaliated against you righteously. The evidence is all in the Great Devil Mountains behind you." The martial arts elder of Continent of the King said.

"We don't deny that, but it is a hundred thousand years ago and the resources of our Demon and Devil Realms have always been poor. The things that happened a hundred thousand years ago have proven that it was a mistake, so we cannot make that mistake again." The rabbit demon said.

Originally, everyone had planned to fight a battle with them and use their heads to exchange for Spar, but now, Demon and Devil Realms was going to take a peaceful route. Of course, this was a good thing. However, everyone was still worried that there was a trick to it.

Wu Kaiming laughed: "Then tell me, what method do you want to use to obtain our resources? We won't give it to you. "

At this time, a middle-aged man from the Demon World said, "Of course we won't let you give it to us. If we, the Demon and Devil Realms, join hands, you people from the Mortal Realm would have no chance at all.

Hearing this, everyone knew that the Demon and Devil Realms would not walk the peaceful path.

"Opportunity?" Wu Kaiming sneered.

"We will give you a fair competition opportunity to prove that you are not worthy of these resources!" The rabbit demon said.

This made everyone curse. The resources in the human world were originally theirs, they didn't even know if they deserved it.

"What if we don't agree?" From the beginning, Wu Kaiming did not think that the Demon and Devil Realms would walk a peaceful path.

The rabbit demon said with a sinister laugh, "If you don't agree, our Demon and Devil Realms will join hands and defeat you, making you our slaves!"

Demon and Devil Realms was still the same as a hundred thousand years ago. However, he had become a little smarter, and did not rush over to attack from the very beginning.

Chen Xiang laughed coldly: "Dogs can't stop themselves from eating feces, why are you wasting words with them? Cut off all their heads, this kind of head is worth the most even if they can exchange for Spar!"

#### [Chapter 774](#)

Chen Xiang took the lead and jeered, causing the people to all shout and rush over, but they were suppressed by the elders from the Continent of the King.

The rabbit demon from the Demon World said with a sneer, "We want a peaceful solution to the conflict. If you want a war to break out, we'll keep you company anytime!"

Chen Xiang did not believe that the Demon and Devil Realms would be so kind, they lacked resources, no matter what, they would eventually invade the human world.

An elder of the Wu Clan asked, "Then what do you want to do?"

The rabbit demon could tell at a glance that only those in uniform standing in front could make a decision. Those idle warriors were just making a lot of noise.

"We just want to see whether or not you Mortal Realm martial artists are worthy of the rich resources here. As for how we look at it, we can only see it through battle, and the method is not too harsh. Instead, it's us who are at a disadvantage." When the rabbit demon said this, a big man and a tiger-headed man came out from Demon and Devil Realms. They seemed to be quite strong.

"We will only send two warriors out, and you can send ten of them to fight against our two warriors one on one. As long as you defeat our two warriors, you can prove that you are qualified to enjoy the resources here." The middle-aged man from the Demon World said, "If you ten warriors can't defeat our warriors, then you have to give us most of the resources!"

Ten against two, as long as the other two Warriors were placed on the ground, it would be considered as a win. Although it looked like Demon and Devil Realms was indeed at a disadvantage, many people still did not believe in this kind of good thing.

"Rabbit, this is just what you said. The Great Leaders in your Demon and Devil Realms have not come out, how can we believe you? You can represent the Demon and Devil Realms?" Chen Xiang said with a sneer. His voice had been altered before, so no one could hear him.

Demon and Devil Realms only came out with a little more than a thousand people. Although all of them looked to be quite strong, there were very few in the Nirvana Stage, with only the rabbit demon and the middle-aged man who spoke being Nirvana Stage's.

The rabbit demon seemed to be well-prepared. He immediately said, "We can represent the Demon and Devil Realms. As long as you win, our Demon and Devil Realms guarantees that we won't invade your human world. You can rest assured on this point."

"How can you guarantee this?" Chen Xiang snorted: "Just based on what you said?"

The rabbit Devil heart was a little angry, but still replied, "It's up to you to believe me or not. If you guys want to fight, then we can start today. When the time comes don't be barbaric!"

Chen Xiang finally understood the Demon and Devil Realms's intentions. If they win, they can seize the resources, because the human world has to keep their promise. If they lost, the Demon and Devil Realms could act shamelessly and still start a war. This plan was not wrong, but they thought too highly of the human world.

If they could delay the war, they would be able to make more adequate preparations. Moreover, they were in a ten versus two situation, so they were confident that they could win.

"Alright, we agree. I hope you can keep your promise when the time comes." The elder of the Continent of the King said.

At this time, the various large sects were all discussing which disciple to send, and naturally, the disciples of Nirvana Stage couldn't go on stage because none of the opponents were Nirvana Stage s.

After a short discussion, the human world decided to send out those disciples who had mastered the art of suppressing demons.

Chen Xiang did not know which ten people he was supposed to send out, but now, one of them walked out. Judging from his clothes, he should be a Vein Martial Cultivators's leader, a Vein Martial Cultivators.

"I didn't see that big sister Lan Lan. Isn't she qualified?" Long Xueyi asked doubtfully.

"Both she and Yan Yanran did not come. It must be because they have other matters to attend to." Chen Xiang said.

The rabbit demon said to the Blue Blood Race of the Blue Blood Race, "You can choose either a warrior from the Demon or Demon Realms."

"Lan Gang, who will choose the Demon World!" The clan elder of the Blue Blood Race shouted.

Lan Gang was a powerful looking bearded man. Looking strong and full of power, he nodded and chose the warriors of the Demon World.

"Mo Di, have a good spar with your friend from the human world." The middle-aged man sneered.

"Right, dying in this battle is my responsibility, so it's best if you all admit defeat." The expression on the rabbit demon's face was as though they were certain to win.

Lan Gang clenched his fists tightly. He was the first person to fight against Devil Cultivator, and he was under a lot of pressure because he knew nothing about this Devil Cultivator in front of him.

"It looks like that Mo Di belongs to the Demon Eye Race. It's just that I don't know what eyes he has, no wonder they are so confident. The Demon Eye Race is a treasure in the Demon World's small world." Bai Youyou said.

The competition started, Mo Di was the first to attack, he started with his sturdy legs and started sprinting, this sturdy Demon Realm Warrior looked like an angry bull, using his fastest speed, charging towards Lan Gang.

Lan Gang was also a big guy, and his body was no smaller than Mo Di. Seeing Mo Di rushing towards him, his face was full of excitement, he waved his fist, which condensed a berserk Innate Qi, and just as

he was about to punch out, he suddenly stopped for a moment. Right at that moment, Mo Di charged towards him with his fists together, like two iron pillars, they collided onto Lan Gang's body.

The devilish aura on Mo Di's body was extremely tyrannical. It could be seen how powerful that strike was as it blasted Lan Gang's huge body away.

Lan Gang fell to the ground with two bloody holes on his body. The two punches from before had actually caused two bloody holes to appear on Lan Gang's body.

"Admit defeat!" When the elder of the Blue Blood Race saw Mo Di, he immediately shouted to Mo Di that Lan Gang could no longer fight. If this continued, he would only be beaten to death.

The next disciple of the Lotus Island who would fight was also one of Lian Yingxiao's sons. His name was Lian Ze, and like Lian Yingxiao, he was very handsome.

"When Lan had just punched out, he suddenly stopped, as if he was affected by something. The Innate Qi in his entire body suddenly stopped, which caused him to lose the protection of the Innate Qi, and caused him to be blasted with two bloody holes." Chen Xiang said.

"That's right, there are a lot of different kinds of Demon Eyes in the Demon Eye Race. They have all kinds of different abilities and none of them are fixed in place, but they are all very useful, so the Demon Eye Race is one of the strongest in Devil Race." Bai Youyou said.

Mo Di, because everyone now understood Mo Di to a certain degree, it was because he knew how to use a type of strange technique that could make people suddenly stop, and also have a wild power.

Lian Ze believed that as long as he preemptively attacked and used an extremely fast speed, he would not be afraid of being hit by that mysterious technique.

However, just as Lian Ze arrived in front of Mo Di and was about to attack, he suddenly stopped. Although it was just for a moment, his body was struck continuously by Mo Di's two terrifying fists, and in an instant, he suffered hundreds of punches, causing the bones in his upper body to almost break!

## [Chapter 775](#)

Once again, it was the same as before, heavily injuring the ground in a single move. Mo Di's violent strength caused many warriors who were spectating to feel their scalps go numb. Those disciples of the famous sects were all wearing powerful armors, but it was completely useless.

Not only was Mo Di able to release a strange power that caused people to pause, his attack speed and power was also extremely terrifying.

Lian Yingxiao quickly stopped, if not his son would die in front of him. He took out a White jade lotus seed and placed it in Lian Ze's mouth, stabilizing Lian Ze's injuries.

The third person was Wang Tianlin of the Great Eagle Continent and Great Eagle Sect, who was also the sect of Lan Hai and Blue Mountain. Lan Hai and Blue Mountain were both figures in the Huang Jintian era, and brothers as well.

This time, he did not choose Mo Di, but chose to join the Spirit Demon Realm with the tiger-headed man.

The tiger-headed man was even taller than Mo Di, and looked like a small giant. He was also very scary, with tiger fur on both of his arms and legs, but he stood there like a human. His head was also a fierce tiger head, and he had a very long and thick tail behind him.

A weak person against such a big person made people feel that there was a huge disparity in strength. However, sometimes it wasn't just the difference in size.

From the start of the battle, Wang Tianlin's entire person seemed to have disappeared. His originally timid gaze became extremely sharp and filled with killing intent, like a hungry falcon. It was as if his prey would never escape his eyes.

Wang Tianlin suddenly jumped up and opened his arms, unexpectedly circling in the air like a hawk. Looking at his appearance, he could release Innate Qi Wings, this kind of martial arts was indeed rare, all the martial artists there were envious.

Wang Tianlin seized the opportunity and dove down. Like a bolt of lightning, his body was wrapped in the Innate Qi, as if it could pierce through the Tiger-headed Man's body.

Looking at his aura, many people believed that Wang Tianlin had a high chance of winning, but just as he was about to approach the tiger-headed man, the Innate Qi around his body suddenly disappeared. Without the Innate Qi, Wang Tianlin was a weak scholar who fell head first into the arms of the tiger-headed man.

The tiger-headed man was actually the same as Mo Di, he knew a special technique that could stop people in an instant. Furthermore, the Innate Qi would also disappear in an instant.

But Chen Xiang's perspective was different, he thought that Mo Di was the culprit, Mo Di had the mysterious devil eyes, Mo Di had been staring straight at Wang Tian Lin just now, and Wang Tian Lin had actually lost his Innate Qi at that moment, clearly he had been tricked by Mo Di.

"With such powerful Demon Eyes, he must be an elite sent by the Demon Eye Race. Although the Ancient Spirit Great Land s of the Ancient Spirit Great Land say that they will not invade, but they will also secretly send out powerful Devil Cultivator s to infiltrate into the various Demon Realms and join forces with the Demon Realms to invade the human world. What kind of conspiracy does the Devil Race have?" Bai Youyou said seriously: "A hundred thousand years ago, Demon and Devil Realms did not have any schemes and tricks. They were to rush and kill the moment they appeared, but when it comes to tricks and tricks, they are much more powerful than the human world."

The Mortal Realm martial artists were defeated one after another, and all of them were defeated in the blink of an eye. There was also a short pause.

Chen Xiang removed her makeup and quietly went over to Wu Kaiming's side, saying: "Let me go, otherwise you will definitely lose!"

And also at this time, the ninth person lost, and even lost an arm. The tenth person was originally Super Martial School's Yun Xiaodao, but Chen Xiang actually appeared at this time, causing Wu Kaiming to be extremely surprised.

"Elder Brother Shen, you really came at a bad time. I really want to teach that big flowery cat a lesson." Yun Xiaodao laughed: "But since it's Elder Brother Shen who has taken action, then he will definitely let us see for ourselves."

Chen Xiang laughed, then looked at Zhu Rong and the others, and said in a low voice: "Prepare yourself. If you guys see that I made any other moves, then charge forward. This group definitely had ill intentions."

After Wu Kaiming heard this, he frowned and said: "You're saying, the method to make the Innate Qi disappear was done by Mo Di?"

Chen Xiang nodded his head: "It's in Mo Di's eyes. You all have to pay attention to it later, if I destroy Mo Di's eyes and look at the reaction of those fellows in Demon and Devil Realms, you all have to pay attention to that rabbit and that middle-aged man."

Wu Kaiming nodded his head: "Go up, now that you have entered the arena, the other forces will not oppose you. They have placed all their hopes on our Super Martial School."

Seeing Chen Xiang suddenly appear, the other big shots of the Mortal Martial Realm sighed in their hearts, he already knew that not letting Chen Xiang come was a mistake, but now that Chen Xiang appeared, they could finally be at ease. Chen Xiang was such a weirdo, it was rare to see him in the entire new world, but with that kind of power and powerful martial arts, it was difficult to find a second one!

"Chen Xiang, the person wanted by the demon god order, you really appeared!" The middle-aged man from the Devil Realm immediately shouted.

"You never said that you wouldn't allow me to go on stage, right?" Chen Xiang smiled slightly, then looked at, who was staring fixedly at that pair of eyes.

"That's the Ancient Wasteland Devil Sect's Demon God Badge, of course it has nothing to do with us."

This Ancient Wasteland Devil Sect had a demon god, so they could issue a demon god order. As long as it was a subordinate force of the Ancient Wasteland Devil Sect or a territory under their jurisdiction, as long as they met a person wanted by the demon god order, they would be killed.

Chen Xiang chose to fight with Mo Di. As long as he destroyed Mo Di's Demonic Eye, the tiger-headed man would be easy to deal with.

"Haha ..." If I kill the person wanted by the Ancient Wasteland Devil Sect, I wonder what kind of expression the Ancient Wasteland Devil Sect will have? " Mo Di laughed as he walked over.

Seeing that Chen Xiang was so famous in the Demon World, everyone secretly admired him. They never thought that Chen Xiang was actually so overbearing to the Demon World.

was also brimming with confidence. In his opinion, Chen Xiang was the same as the others, as long as they were attacked by the mysterious devil eye, they could be beaten up by him.

Anyone who was familiar with Chen Xiang would know that they could not use common sense on Chen Xiang, and even more so, could not be arrogant in front of him.

Chen Xiang didn't know how to deal with the demon eye right now, but he wasn't afraid, because his body was strong. With the protection of the profoundwu diamond armour, even if he got beaten up, he wouldn't be seriously injured.

"Come, I'll let you attack me first." Mo Di laughed, thinking of how he was able to kill the person wanted by the Demon God Slaying Token, he was extremely excited.

## [Chapter 776](#)

Even if the opponent didn't let him, Chen Xiang would still have attacked first. At the start, when he flew towards Mo Di, his speed wasn't very fast, but he wanted to see exactly what kind of demonic eye Mo Di had. Only by experiencing it for himself would he know how to deal with it.

Although Chen Xiang's speed was slow, the terrifying Dragon Power made Mo Di's heart feel as if it was hitting the heavens. He had begun to understand why the Ancient Wasteland Devil Sect would use the Devil God Badge to capture Chen Xiang, just by relying on such a terrifying power, he was able to match up to the recognized young experts of the Devil Race.

However, Mo Di was not afraid at all, only that the corner of his mouth raised slightly, his eyes suddenly flashed, causing Chen Xiang's expression to change slightly, because the Innate Qi in his body suddenly could not circulate at all, and the powerful condensed Dragon Power did not have the support of the Innate Qi, and disappeared accordingly.

Mo Di's fist had already smashed over, striking Chen Xiang's cheek. Mo Di thought that he could enjoy the pleasure of Chen Xiang's face being smashed into pieces, but he did not expect that Chen Xiang would suddenly turn his head, and the moment the tip of his foot touched the ground, he nimbly bounced up and down, and actually dodged Mo Di's berserk attack that was brewing.

"That was close!"

Chen Xiang's physical body was strong in the first place, and when fighting with Huang Jintian frequently, he would often encounter situations where he was unable to use the Innate Qi, thus he was able to react in time and use his physical body's power to dodge the attacks.

As expected, Chen Xiang did not disappoint, the nine people from before were defeated in the same situation, but Chen Xiang was able to avoid them.

Mo Di's pupils contracted fiercely. Chen Xiang had actually escaped his attack, because in his opinion, if the Innate Qi couldn't be used, both his reaction speed and speed would be extremely slow.

"That feeling is as though the Innate Qi has been paralyzed. Fortunately, old lunatic trained me in that area before." Chen Xiang told it to Bai Youyou.

"It's the Eye, but there are usually two types of it. One is to numb the body, and the other is to numb the energy flow within the body, such as the Innate Qi." Bai Youyou said: "This Mo Di should be the second type."

Mo Di was a little angry, and he immediately rushed over, at the same time glaring at Chen Xiang. Chen Xiang knew that Mo Di would usually use his demon eyes at the most crucial moments to release that kind of invisible energy to attack him.

Chen Xiang secretly laughed, his body suddenly trembling, a burst of water vapor suddenly appeared, filling Chen Xiang's surroundings with a white fog, causing him to be extremely shocked, because he had lost his target.

Chen Xiang's move "Fog Sky" was very familiar to the strong warriors, it was the technique that Chen Xiang used back then, to the Hero Tournament, where he escaped before the eyes of the strong warriors.

Mo Di couldn't see Chen Xiang, so he couldn't use his Demon Eye to attack. This made him anxious, and when he was going crazy, bam bam bam bam bam ... The sound of nine rapid thunderclaps consecutively resounded in all directions, shaking the sky and layer upon layer of thunderbolts.

The outburst of Qi also blew away the white mist. Mo Di's eyes were bloodshot, as he staggered backwards, letting out roars of rage due to the pain and fear.

Chen Xiang had just unleashed two punches, both of them using the power of the ninth level of the Devil Subduing Method. The Devil Subduing Method could feel that the demon energy in Mo Di's body had become even more berserk, and the power had increased by more than twofold.

Seeing Mo Di's injured eyes, the face of the rabbit demon and the middle-aged man both changed. Mo Di was their backing, and could allow them to battle victoriously, but the Demon Eye that Mo Di was so proud of had been destroyed.

As long as the opponent did not shout for him to lose, Chen Xiang would still be able to attack.

"Devil-suppressing fist!" When Chen Xiang punched, the surrounding space became extremely unstable, but the transparent energy that gushed out from Chen Xiang's fist was visible to the naked eye. The struggling energy was like a demon that had fallen into a furnace.

Chen Xiang's Devil-suppressing fist used the Devil-suppressing holy power, it was much stronger than other people's Devil-suppressing qi, and the might of the Devil-suppressing fist was also extremely tyrannical.

As he punched out, the demons trembled. The power of this punch caused the demons to feel as though they were in hell.

With a "hong" sound, Chen Xiang's fist landed on Mo Di's chest, causing him to instantly transform into a cloud of black powder, and dissipated into the air along with the wind.

"Dead!"

Everyone inhaled a breath of cold air. The Mo Di who seemed to be a victor of hundreds and thousands of battles was now reduced to dust with just one punch from Chen Xiang. The people from the human world had long known that Chen Xiang was a very powerful fellow and were still shocked.

As for the Evil Demon s and Devil Cultivator s, they were even more shocked and terrified. This was because the strength Chen Xiang had shown just now had caused them to feel uneasy in their hearts.

"Fierce Demon martial arts!" He did not expect that the people on the Mortal Realm side would be able to learn the Demon Subduing Martial Technique that they feared the most. This was extremely disadvantageous to them.

Chen Xiang's expression was calm, he looked at the tiger-headed man and the corners of his mouth raised slightly, causing the tiger-headed man's heart to tremble. The tiger-headed man was very clear that without Mo Di's help, he would be nothing but trash in front of Chen Xiang. If not for Mo Di, he would have been defeated a long time ago.

"You're next." Chen Xiang rubbed his fists as he stared at the tiger-headed man. As long as he defeated the tiger-headed man, even if Demon and Devil Realms lost, according to what they said, if he lost he would not invade the human world. However, no one believed them.

The tiger-headed man did not want to fight, but after seeing the gloomy expression of the rabbit demon, he had no choice but to bite the bullet.

Begin!

The tiger-headed man let out a wild tiger roar, it sounded extremely terrifying, and then he rushed towards Chen Xiang, who had already gathered his energy, waiting to test the demonic cultivation skills he had learnt.

When used on Devil Cultivator, the Devil-suppressing fist had a very terrifying effect, but when one hears the name, the Devil-suppressing fist was only used against Devil Cultivator, I wonder if it would have any effect on the demon's body.

The tiger-headed man rushed over, the gigantic tiger claw slammed down, the force released caused a huge crater to appear, but Chen Xiang was able to dodge skillfully, at the same time punching the tiger-headed man in the abdomen!

After the fist collided with the tiger-headed man's body, it produced a loud bang. After the tiger-headed man's body suffered the combined power of the Devil-suppressing holy power and its energy attack, he instantly turned into ashes!

#### [Chapter 777](#)

The deaths of Mo Di and the tiger-headed man greatly reduced the morale of the thousand plus demons in the Demon and Devil Realms. Mo Di and the tiger-headed man were the stronger of them all, but now, they had been beaten into a pile of ashes. Chen Xiang's "demon" impression was deeply imprinted in their hearts, causing them to not dare to look at Chen Xiang directly.

It was not because he was angry over the loss of a tiger-headed man, but because Chen Xiang had destroyed their plans. With just a little bit more, their plans would be completed, and they would not have to suffer any losses in order to obtain a lot of resources. When their overall strength far surpassed the human world, the invasion and enslavement of the human race would be as easy as flipping his palm.

But now, all of his plans had been destroyed by Chen Xiang, who was extremely powerful and had rich battle experience. Watching the nine battles from the side, he had already gained some clues.

The demons now understood that those who were wanted by the Demon God Badge definitely could not be underestimated. Even in the Demon World, there weren't many Devil Cultivator that were wanted by the Demon God Badge.

The Devil heart was filled with rage, a trace of black Qi suddenly appeared in his palm. He lightly waved his hand, and the black Qi transformed into an arrow that shot towards Chen Xiang, accurately hitting his throat.

"Be careful..." Just as Long Xueyi shouted out, Chen Xiang felt a pain in his throat, as if he was bitten by a mosquito. He immediately used his hand to cover the wound on his throat where the Qi arrow had hit.

Chen Xiang looked at the black Qi that was slowly seeping into his skin and felt his heart getting angry. He anxiously looked around, because the black Qi was a very strong poison gas, he never thought that someone would actually plot against him.

"It's coming from the rabbit demon. It was the rabbit that attacked you." Although she could discover it, she could not let Chen Xiang avoid it in time.

The fact that the rabbit demon dared to secretly shoot an arrow in front of so many Mortal Realm Rankers showed just how much it hated Chen Xiang. When Chen Xiang saw the rabbit demon now, the rabbit demon's face was filled with a pleased smile.

The complacent smile on the rabbit demon's face suddenly froze, because Chen Xiang did not die from the poison. The time for the poison to take effect should have already started, but Chen Xiang was still able to stand there and stare at him.

Even some of the Nirvana Stage's poisonous demons would feel that their lives were better off than death, let alone a human brat. This made him unable to believe it, and more poisonous gas began to condense in his palm, shooting straight at Chen Xiang's arrow that was condensed from the poisonous gas.

This time, the poison arrow was slightly bigger than the previous ones. Just because it was bigger, it was discovered by some experts with good eyes.

When Chen Xiang stared at the rabbit demon, the experts felt that something was wrong, so they just looked at Chen Xiang.

This time, Chen Xiang used his palm to grab onto the poison arrow, and the rabbit demon immediately reacted, because he saw many pairs of eyes staring at him.

"What a powerful poison!" In fact, he didn't even know if this Du Li was strong. Even if the Magical corruption gas had entered his body, he would not have been able to feel its power.

"Junior Martial Uncle, what did this guy do to you?" Wu Kaiming became anxious and appeared beside Chen Xiang in a flash.

"Nothing, this poison can't hurt me. This rabbit coalesced the poison gas into a gas arrow and then attacked me from the shadows. "

Chen Xiang said each word, his voice was filled with killing intent and anger, his right hand also released a burst of cyan light aura, the God Slaying Sabre that beheaded demons appeared, the invisible Qi that caused the demons to feel uncomfortable spread out, causing them to uncontrollably shiver.

Hearing Chen Xiang's words, Wu Kaiming immediately glared at the group of Spirit Demon beings. Yun Xiaodao and the others were also furious, they took out their weapons.

"You barbarians, what are you trying to do?" Seeing that something was wrong, the rabbit demon shouted loudly.

"What do you want? I will chop off your hare's head!" Chen Xiang roared, at the moment he was brimming with killing intent, maybe it was because the Green dragon demon-slain broadsword sensed a large amount of Spirit Demon Qi that infected him.

The killing intent that erupted from Chen Xiang's body spread out rapidly, enveloping the entire plain, causing the demons to become even more afraid.

Chen Xiang was the first to bear the brunt of the attack. Surprisingly, he did not cower just because the rabbit demon was a Nirvana Stage.

Seeing that, Wu Kaiming rushed forward quickly. Yun Xiaodao, Zhu Rong and the others knew that such a thing would happen, and even though they were prepared, they were not afraid at all as they wielded their weapons and rushed towards the demons.

"Flatten them!" It was unknown who shouted, but those warriors, who had been waiting for a long time, rushed up like a swarm of bees. The giants and disciples of the other forces also had no choice but to rush up at this moment, otherwise they would be called weak by others.

Seeing the tens of thousands of warriors majestically charging towards her, the rabbit demon was dumbfounded. Just their majestic stature was enough for him to not have the courage to fight back.

Chen Xiang and Wu Kaiming were the first to reach the center of the group of spirit demons. With a slash of his blade, the force emitted from his divine blade cut through ten Evil Demons like sharp sickles.

The rabbit demon initially wanted to use all of his strength to kill Chen Xiang, but after considering the fact that Chen Xiang had many experts from the Nirvana Stage backing him, if he did not escape quickly, the only thing he could do was die.

"Chen Xiang, remember this!" The rabbit demon said as he gnashed his teeth. Then, he turned into a streak of white lightning and shot towards Great Devil Mountains.

Chen Xiang snorted, he brandished his Divine Blade angrily, and wherever he went, Evil Demon's body would be slashed into pieces by the furious blade Qi. The Spirit Qi above the Green dragon demon-slain broadsword also caused the Evil Demons to fall into despair.

At this time, Yun Xiaodao and the others had already rushed over, without a word, blades and swords danced in the air, blood splattering everywhere. Killing the Evil Demon made them scream in despair, but Devil Cultivator still tried to retaliate, but he was beaten into meat paste by the powerful Nirvana Stage warriors.

These thousands of demons were simply not a match for the human world. With just a single charge, they were all killed. Corpses covered the field and the ground was covered in red blood.

"Where's the Elder Brother Shen?" Yun Xiaodao looked around, but did not see Chen Xiang.

"The Junior Martial Uncle entered the Great Devil Mountains, he said that he would go in and check the situation." Wu Kaiming said, he was not too worried about Chen Xiang.

The Nirvana Stage's middle-aged Devil Cultivator and the rabbit demon could escape in time. Otherwise, they would also be killed.

"This bastard actually dares to plot against me. Normally, I was the one who plotted against others, but now that I've been plotted against by someone, I definitely can't let this sinister fellow return alive. It's too dangerous." Chen Xiang thought.

## [Chapter 778](#)

"We can't believe the words of the demons. They don't have any credibility to speak of. We have to be wary of them, and now we can strengthen our defenses!" Wu Kaiming frowned as he looked at the furious Great Devil Mountains, the bridge that connected all the Demon and Devil Realms to the sky.

Although the demonic passageway had been opened, the demons still did not immediately rush over. Instead, they were using tactics, and this was also the situation that the experts did not want to see the most.

The rabbit demon's speed of escape was extremely fast, and he had a pair of powerful legs. When he was escaping, he would bounce and jump quickly and in a few moments, he would enter the Great Devil Mountains.

But no matter how fast the rabbit demon was, it was not as fast as Long Xueyi's Heaven tour method. The rabbit demon was always being watched by Long Xueyi, who was also chasing the rabbit demon at full speed.

"This rabbit demon should have only just reached Nirvana Realm, which is why it has a human face. Only Evil Demon, who has completely turned sincere, is the most powerful one!" Bai Youyou said.

Chen Xiang was not afraid of the Evil Demon that had just reached the Nirvana Realm. If he could not defeat it, he would use the last trump card that the Magical corruption gas used. Let alone this level of Evil Demon, even a fully human Evil Demon would be terrified of the Magical corruption gas.

Originally, he was more worried about who the powerful Mortal Realm Rankers were following. However, he quickly realised that Chen Xiang was the only one, and he could tell that Chen Xiang's strength had not reached the Nirvana Stage. Otherwise, it would be even more terrifying.

"Is this human brat an idiot? "You're too arrogant, daring to challenge me with such little strength." The rabbit demon immediately stopped. In this Great Devil Mountains shrouded in black clouds, the rabbit immediately felt a boost in confidence. That familiar demonic aura caused the blood in his body to become extremely active.

Thinking that Chen Xiang had destroyed their plan and killed the over a thousand demons they brought along, the rabbit Devil heart's anger rose to new heights.

This was not the first time Chen Xiang had entered the Great Devil Mountains. He had been to the most dangerous places in the Great Devil Mountains, so he was naturally not afraid of the demonic aura here.

Chen Xiang was not surprised to see the rabbit demon waiting for him.

"You're quite brave, to actually dare to charge into the Great Devil Mountains alone, you arrogant fellow." However, when he saw Chen Xiang summon his Green dragon demon-slain broadsword, he immediately became vigilant.

The aura Chen Xiang released was the same as the aura released from the Devil-suppressing holy power, it was able to make demons fear him and cause multiple times the damage.

"Damn rabbit, you want to plot against me? You're still too inexperienced!" Chen Xiang slashed his blade out, and the ground beneath his feet started to shake slightly. The Dragon Power poured into the Green dragon demon-slain broadsword, and was then converted into an even more powerful Demon Slayer by the countless array formations within the Green dragon demon-slain broadsword.

As this violent slash came slashing over, lightning suddenly flashed in the sky. The saber Qi was like five bolts of lightning that rumbled as it released bursts of lightning that enveloped the rabbit demon.

The strike was too fast. The rabbit monster had no time to dodge and could only release an air shield to protect itself.

With an explosive "boom," the Divine Saber hacked down on the Qi barrier released by the rabbit demon. The rabbit demon felt as if he was being pressed down by millions of pounds of energy, and the large piece of ground beneath his feet had crumbled into powder.

The Green dragon demon-slain broadsword would become heavier along with the master's strength. Just now, Chen Xiang had used a very strong power, so the weight of the Green dragon demon-slain broadsword became millions of kilograms, and with a single slash, the pressure from the million kilograms would be extremely terrifying. If not for the rabbit demon possessing the strength of the Nirvana Stage, being able to use the powerful demonic energy in his body to form a shield to protect himself, he would have ended up like the dust that was left behind.

Chen Xiang's slash caused the Great Devil Mountains to be greatly shocked, and even the rabbit demon was extremely shocked by Chen Xiang's slash.

"It's not over yet!" As Chen Xiang said this, he chopped out with his blade at lightning speed. His strength was actually stronger than before, and when the blade cut down, a large area of the ground fell down, making him terrified. This was because the strength Chen Xiang displayed could kill him.

's eyes suddenly turned red, the anger in his entire body ignited, the anger caused his power to suddenly soar, and ignited his Dragon Power and the Devil-suppressing holy power, turning his anger into strength. This was the key point of the Dragon Slaying Seven Killing Slash.

The Angry dragon slay, Angry Slash, the tyrannical power released waves of furious roars, the earth trembled, the black cloud formed by the demon Qi in the sky churned, as though the entire world had changed color from the angry dragon's slash.

"Don't even think about killing me!" With a roar, the rabbit demon released all the energy in its body and focused it on the energy shield to increase its defense. Right now, it could not retaliate at all. If it did not focus on defense, it would definitely be stabbed.

Several tall mountains in the Great Devil Mountains immediately collapsed as deep cracks suddenly appeared on the ground, resembling spider webs. As for the place where the rabbit demon and Chen Xiang were at, it had even turned into the bottom of a three hundred meter wide crater.

The rabbit demon looked at Chen Xiang, who had been repelled by the impact of the attack, and gasped in surprise, "What a terrifying kid. That blade strike just now should have been his limit.

The anger on Chen Xiang's body disappeared, but the one million two hundred thousand Zhenyuan granule were still flashing, his Innate Qi was extremely dense, and his dantian was screaming in rage.

"Humph!" Chen Xiang let out a low snort, causing people to feel that the calm coast was suddenly filled with waves of gigantic waves, and the shaking of the ground made the rabbit demon feel as if he was deep inside a rippling ocean.

Cang Lang Slash! One of the Dragon Slaying Seven Killing Strikes, combined with Dragon Power and Green dragon demon-slain broadsword, it could unleash an overturning power.

The smile on the rabbit demon's face suddenly froze, he gritted his teeth and quickly channeled all the energy in his body, cursing Chen Xiang in his heart.

With the slash of the saber, a torrent of power gushed out from the Green dragon demon-slain broadsword, forming a terrifying pressure that struck into the surroundings. This was originally a pit, but now it had become flat ground.

"Are you done yet!?" The rabbit demon roared angrily, but Chen Xiang's reply was a blade.

Angry dragon slay! He was able to withstand Chen Xiang's first, second and third blade, but Chen Xiang kept on hacking and chopping madly, as if the Innate Qi was worthless. He unreservedly released it all onto.

The three violent and terrifying slashes of the Angry dragon slay, Cang Lang Slash and Thunder Slash continuously slashed at the body of the rabbit demon. This was the first time Chen Xiang released his Innate Qi to his heart's content since he had stepped into the Hundred refining realm and engaged in battle.

Chen Xiang was not exhausted from the hundreds of consecutive slashes, but the rabbit demon had already chopped off one of its arms. It was unknown just how many times it had turned a huge piece of land.

## [Chapter 779](#)

"Are all humans so strong?" The demonic energy within the rabbit demon's body had already been completely used up, and its body was also suffering from the devastating shock.

"No, but it's about time!" Chen Xiang said indifferently. This made the rabbit demon immediately spurt out a mouthful of blood.

"You guys are really weak!" Chen Xiang slashed again with his blade, but the slash was very gentle, because this was the Heart Shocking Slash during the Dragon Slaying Seven Slaughtering Slash. The rabbit demon's heart had already been smashed by Chen Xiang earlier.

If it was a human who had just entered the Nirvana Stage, just by relying on that kind of dense and vigorous Innate Qi was enough to counterattack when defending, they simply could not allow Chen Xiang to unleash that kind of terrifying attack one after another.

Of course, the reason why the Rabbit Demon Association lost was also because Chen Xiang had the Green dragon demon-slain broadsword and Devil-suppressing holy power.

Chen Xiang put away the divine blade and waved his fist at his body. The Devil Subduing Method and the Devil-suppressing holy power mixed together and crazily ravaged the rabbit demon, causing it to let out painful howls.

"That's enough, let's see what he has in mind." Bai Youyou said.

Just as Chen Xiang was about to use Soul Absorbing Devil Spell, Long Xueyi suddenly shouted: "Dodge quickly, there's danger!"

Hearing Long Xueyi's warning, Chen Xiang hurriedly dodged. At the same time, an explosive sound exploded and the rabbit demon's body was blown into pieces by the ball of air that was filled with devil aura.

Chen Xiang immediately turned his head and saw a middle-aged man dressed in black standing on top of a huge rock in the distance. This man was the middle-aged man from the Demon World, and his strength was greater than the rabbit demon's.

"Don't try to force him to say anything." The big man sneered.

"Cui Sha... You were actually watching me all this while, and why didn't you save me ... " The rabbit demon's head could still talk, but it was kicked to pieces by the middle-aged man called Cui Sha.

"If I save you, then I can't capture this brat alive. I still have to thank you for draining this brat's power for me." Cui Sha laughed.

Now, Chen Xiang finally understood why the devil realm was so much more difficult to deal with than the demon realm. The Devil Cultivator of the devil realm was even more cunning than their allies!

"Capture me alive?" Chen Xiang was actually not afraid at all.

"That blade of yours is good stuff, but I know that you won't obediently hand it over. So, I can only grab onto you and try to find a way for you to hand it over." Cui Sha laughed sinisterly.

For example, Chen Xiang's Green dragon demon-slain broadsword, they were not easy to snatch, because they were connected to Chen Xiang's body, so Cui Sha could see through this.

Chen Xiang hastily jumped up and left the giant pit he created and flew towards a forest far away.'s strength was far stronger than the rabbit demon's, and he had used up most of his Innate Qi, so he could no longer sustain a battle.

"You can't escape!" said with a smile. Chen Xiang escaping meant that he no longer had any strength left, and since they were deep inside the Great Devil Mountains, Chen Xiang was unable to escape for a while.

When Chen Xiang was flying away, he took out a Five Elements Profound Dan and ate it. This was a high grade Ground level pill, not only could it recover its strength, it could also increase the strength of the Innate Qi.

In the dark forest, Chen Xiang ran as fast as he could. Cui Sha felt that Chen Xiang was just running away, so he was not in a hurry to kill Chen Xiang, he was just leisurely killing him, he just felt that it was extremely strange, because Chen Xiang's speed was extremely fast. Even if Cui Sha raised his speed to the maximum, it would only be able to shorten the distance between them by a little.

"This guy really thinks that he will catch me." Chen Xiang laughed coldly in his heart. Then, he suddenly flashed behind a large tree, quickly turned into a black little flying insect, withdrew his aura, and quickly flew away.

Cui Sha suddenly lost his target, and angrily smashed the tree to pieces. He then searched everywhere for Chen Xiang, and Chen Xiang also followed him secretly. Chen Xiang could not let this Cui Sha return alive, this kind of treacherous Devil Cultivator, would cause great harm to the human world sooner or later.

Hiding in the dense treetops, Chen Xiang returned to his human form and took out the Death-haunting arrows. Afterwards, he released the Magical corruption gas that he compressed in his dantian a little bit, and then used the Death-haunting arrows to condense an arrow of air to aim at the distant Cui Sha.

"My poison is much stronger than that rabbit's." Chen Xiang chuckled in his heart, and released the arrow.

Last time, the Leader of the Thunder Heaven School was killed like this by Chen Xiang, so this Cui Sha's strength was far weaker than the Leader.

Cui Sha felt something strike his body, and then, he felt a corrosive substance gushing into his body, he was immediately shocked, because he knew that it was a Magical corruption gas.

Cui Sha immediately channeled his energy within his body to suppress the Magical corruption gas that were moving around, or else he would have turned into purple black rotten flesh. After knowing that he had been infected by the Super Old poison, Cui Sha's face turned pale white, and his forehead was covered in sweat.

The people of the Demon World all knew about the power of Magical corruption gas, and even though this kind of Super Old poison was forbidden in the Demon World, there were still some even more vicious Devil Cultivator that used it.

Right at this moment, Chen Xiang walked over with a smile. In the dark forest, Chen Xiang's smiling face looked like the person who took him away from hell.

"The taste of the Magical corruption gas must be terrible!" Chen Xiang laughed as he opened his palm, revealing a ball of black Qi that jumped about playfully on his palm. The muscles on Cui Sha's face twitched frantically, the fact that Chen Xiang could control this kind of Magical corruption gas and release it as he pleased caused him to be extremely shocked.

A fellow who could control Magical corruption gas was something that the world could not tolerate. Cui Sha now knew the terror of Chen Xiang!

"Let me tell you, this Magical corruption gas is inside the Great Devil Mountains, there are a lot of them down there, but the Demon and Devil Sinkhole is sealed by us, but as long as we remove the seal, hehe." Chen Xiang said slowly, his hand also pressing on Cui Sha's head.

Cui Sha was shocked, there was actually a large amount of this stuff in the Great Devil Mountains, if it was released, then a large number of demons that were stationed there would definitely die.

"What are you doing? Ah... Soul Absorbing Devil Spell... How could you. "Ah ..."

Cui Sha had a headache, because Chen Xiang used the Soul Absorbing Devil Spell to brutally plunder his memories.

Cui Sha was extremely shocked, and wanted to perish together with Chen Xiang. Who knew that the moment he stopped suppressing the Magical corruption gas, his entire body started to rot, his meridians could not withstand the immense power, so he was unable to attack Chen Xiang.

Chen Xiang already got what he wanted to know, and Cui Sha also became a purple black rotten corpse, it was extremely terrifying.

After burning Cui Sha's body to ashes, Chen Xiang faintly smiled, because he had obtained very important information from Cui Sha's memories.

"Devil Race, sure enough, you guys are in charge of everything. Dogs can't stop themselves from eating shit!" Chen Xiang sneered.

The Demon World and Demon World were all like the Mortal Realm, with many different worlds merged together, while the entire New Demon World was ruled by the Devil Race. Previously, the big shots of the Devil Race were trying to gain fame in the human world but they wouldn't take the initiative to invade, this was one of their schemes.

## [Chapter 780](#)

The commotion caused by Chen Xiang and the rabbit demon during the battle was not small, and had already alarmed the demons that were deeper inside. However, the demons did not check because they felt that it would be safer inside the Great Devil Mountains.

Walking out of the dim forest, Long Xueyi suddenly sensed a group of Devil Cultivator approaching him. There were a total of 50 to 60 people, but their strength were all not bad.

When Long Xueyi just discovered this group of Devil Cultivator, Chen Xiang had already seen them, and these Devil Cultivator seemed to know he was here as they quickly ran over.

"It's you!" Chen Xiang was not surprised, the two people he saw were the Devil Race's two people who would never invade the mortal world, but they were only the young man.

From Cui Sha's memories, Chen Xiang knew that the young man was called Mo Yi, and was the Eldest Young Master of the Devil Race's Patriarch. He had the orthodox Mo Clan bloodline, and was even more noble than the Demonic Eye Clan.

was extremely surprised, he did not expect to meet Chen Xiang here. Previously, he and his father had declared that they would not invade the human world, but now, he had appeared in the Great Devil Mountains.

Chen Xiang had crippled five of Mo Yi's proud subordinates, who were also from the Demon Eye Clan, and this was something that Mo Yi had always kept in mind. Now that Chen Xiang was here alone, Mo Yi could only kill him.

Cui Sha didn't know too much, but this Mo Yi definitely knew a lot. Chen Xiang was secretly excited, he didn't think that this Mo Yi would deliver himself to his doorstep at this time.

"Aren't you from Ancient Spirit Great Land? Why did he come to this place? Or did you come out from the depths of Great Devil Mountains? Haha... I knew that you guys had some tricks up your sleeves, and it's really true. You guys can't be trusted at all. " Chen Xiang laughed. He was not afraid, which surprised Mo Yi.

"Hmph, since you've already caught sight of me, I definitely can't let you leave here alive!" Mo Yi sneered.

Chen Xiang sarcastically retorted, "Dogs don't change their way of eating sh \* t. Now you admit that you guys are scheming against the human world?"

Mo Yi said: "So what? You don't have the chance to report it!"

"Kill him!" Mo Yi shouted, and then retreated. He did not plan to do it himself.

Seeing Mo Yi give the order, Chen Xiang grabbed the air, the Green dragon demon-slain broadsword suddenly appeared, holding the divine blade tightly in his hand, it spun in place, then spat out waves of Dragon Power Qi, wanting to create a huge pressure of millions of jin that formed into a tornado and pulled all of the incoming Devil Cultivator into the tornado.

Devil Cultivator's physical body was very strong, but he couldn't withstand the pressure. In just an instant, those dozens of powerful Devil Cultivator were crushed to death.

Previously, when Chen Xiang had consumed the Five Elements Profound Dan, his Innate Qi had recovered very quickly. As long as the other party was not from the Nirvana Stage, he would have more than enough strength to deal with them.

One had to know that out of his fifty to sixty subordinates, which one wasn't battle-worn? Which one of them wouldn't make others tremble with fear in the Devil Realm, yet, in front of Chen Xiang, they were all instantly killed?

On the contrary, he was extremely excited because he felt that he had finally met a powerful opponent. Even in the Devil Realm, it was very difficult for him to have the chance to fight against someone who was on par with him. Even if he faced a Devil Cultivator who had just entered the Nirvana Stage, he had a certain chance of winning.

"You are really strong!" Mo Yi's handsome and ice-cold face was completely calm as he took out a very long black stick.

"This item should be at the same level as immortal equipment." Bai Youyou said.

So what if it was a celestial item? Chen Xiang's Green dragon demon-slain broadsword was a godly weapon, but if the opponent had very strong power, even if Chen Xiang had a godly blade, he would not be able to easily cut off the weapon.

"You want to kill me?" Mo Yi looked into Chen Xiang's eyes and asked.

"That's because you want to kill me. I can see that you have some skills too." Chen Xiang smiled faintly.

"You don't understand the world of demons, otherwise you would never have thought like this, you would only feel fear towards me. I am indeed surprised that you could kill my subordinates, but you must know that in my eyes, they are nothing more than a bunch of dogs." Mo Yi's voice was ice-cold, carrying a hint of arrogance.

"Aren't you a member of the orthodox bloodline in the Devil Race?" Chen Xiang said.

Chen Xiang actually knew all this, Mo Yi frowned: "Seems like you know quite a lot!"

Bai Youyou was an expert of the Heavenly Demon Realm. One must know that the Heavenly Demon Realm was a powerful, high-grade world that could be compared with the Heaven Realm.

"I also know that the group of demons behind Great Devil Mountains want to listen to your Devil Race. I also know that you're already six hundred years old this year. Chen Xiang laughed.

Chen Xiang could clearly see Mo Yi's identity from that Cui Sha's memories. In the world of demons, Mo Yi was one of the few, the strongest existence beneath the Nirvana Stage.

"Then you killed the rabbit and Cui Sha?" Mo Yi raised his eyebrows. He was not surprised that Chen Xiang had killed the rabbit demon, but he was very clear about Cui Sha's strength.

Of course, Chen Xiang would not be so vigilant of him, he laughed: "I was the one who killed him, but I didn't do anything. That rabbit's poison is really strong, I was just using it a little!"

Mo Yi laughed coldly, "I knew this idiot would do bad things. His poison is indeed enough to poison Cui Sha to death, but you were the one who killed the rabbit demon, right? It wouldn't be difficult to get something out of this guy's mouth."

Both the rabbit demon and Cui Sha did not go back, and because the Great Devil Mountains made such a big commotion, Mo Yi brought people out to investigate.

Chen Xiang laughed and said: "It's about that."

Mo Yi laughed out loud. "Then you will definitely lose today. You must have consumed quite a lot of your strength in your battle with the rabbit demon!"

Following Mo Yi's wild laughter, the Demonic Qi in the air surged, and actually descended from the sky, entering Mo Yi's body, causing his originally thin body to grow larger, ripping off his clothes, revealing his sinister and terrifying muscles.

Chen Xiang retreated a few steps, the demonic aura that rushed into the sky was extremely strong, like a hurricane. But Chen Xiang was not afraid, he cultivated the Demon Subduing Martial Art, he had the

Green dragon demon-slain broadsword, and that was the same as slaying demons. If he was afraid, he would lose all these powers!

"You're only so-so, and you're actually using this kind of power. But don't think that I'll be afraid of you just because of this!" Chen Xiang sneered.

Mo Yi roared, holding the black rod, he smashed it towards Chen Xiang's head, producing a strong pressure that tore apart the ground, if Chen Xiang was not able to dodge in time, his head might even explode.
