

Dan God 841

[Chapter 841](#)

After Tan Sheng made his decision, two old men with heads full of white came over. When they heard that the Diamond fruit had appeared, they directly ignored Pill City's rules that forbade flying, and flew over in a hurry.

However, in the end, they were still incomparably disappointed, because they had all come too late. Otherwise, the bet that they had made would have definitely moved Chen Xiang, which made them jealous to death.

At this time, there were three Dan King s and many disciples from famous sects. This kind of scene rarely occurred in Pill City.

The Beauty Dan that Chen Xiang was refining was not only extremely difficult, but the market was also limited. To those young people, the Beauty Dan was nothing but trash, but in the eyes of those old fellows, it was still very valuable.

"Brat, you have lost for sure. Just with this lousy material, you can forget about refining a Beauty Dan." An old man with a long beard shook his head and sighed.

Chen Xiang looked at the Destiny box and only smiled slightly. The Snow muscle jade grass had already lost its life force and looked lifeless. Even though it was emitting a faint cold aura on the surface, the grass was not as beautiful as the snow jade and was even a little yellow.

A perfect Snow muscle jade grass, it looked like a young girl's ice skin could be broken with a blow and was extremely beautiful. Anyone who knew how to refine pills would know, that the bead in Chen Xiang's hands could only be used to its fullest extent by eating it directly. Judging by its rarity, it was worth a hundred million Spar.

"This arrogant brat was just lucky before. How is he going to die this time?" The son of the Dan Alliance's Alliance Master, Ye He sneered.

His best friend, Chu Quan Fei continued to speak: "Diamond fruit, this prodigal son will definitely lose beyond recognition this time! This time, he will not succeed, even if it's the Dan Alliance's Alliance Master. "

Chen Xiang smiled faintly: "Gambling is always like this, no one has complete confidence, so there's definitely a way to win or lose, of course we try our luck! If the two of you don't dare to bet, then don't talk like that. "

"Brat, do you dare to accept our bet again!?" Duan Sanchang deliberately sounded full of hostility as he asked sinisterly.

"Why would I not dare? But I remember that you were going to lose everything! " Chen Xiang deliberately ridiculed him.

Duan Sanchang laughed out loud: "You little brat, you have never seen the world, of course you wouldn't know the background of that Duan guy?"

Seeing Chen Xiang being so confident, Duan Sanchang knew that he should do what he did to drag the two Dan King s into the water. Not only that, he would also drag more people into the water so that Chen Xiang could make a fortune with one vote.

"I don't know who you are, but if you don't want to bet, then don't talk nonsense."

Duan Sanchang sneered, then took out a palm-sized green jade. The most special part of this jade was that there were many Spirit grain s on it.

"Do you know what this is?" Duan Sanchang raised the green jade and asked.

The three Dan King s present all had grave expressions. They tightly knitted their brows as they stared at the green jade.

"Could this be a Heavenly Ancient Jade?" It is said that with this piece of jade by one's side, it will allow one to successfully cross the Nirvana Doom! " Tan Sheng took a deep breath and said.

Mu Jialan nodded his head: "That's right, it is the mysterious ancient jade from the Tong Tian Aristocratic Family. Looking at the Spirit grain on this jade, it should be Nirvana Tribulation."

Ji Meixian continued to speak, "In other words, as long as this piece of jade is on your person, you can survive the Nirvana Tribulation. As for the specifics, only Tong Tian Aristocratic Family and the others know! However, I heard that only the Tong Tian Aristocratic Family's bloodline can be used, and if someone else uses it, the power of the Nirvana Doom will only weaken a lot. "

This piece of jade was absolutely priceless. If a major power obtained it, it would be easier to train a large number of warriors to overcome the Nirvana Tribulation.

One must know that many disciples of various forces were stuck at the peak of the Hundred refining realm, not daring to attack!

Everyone now understood why the Tong Tian Aristocratic Family was so powerful. It was because they had this kind of mysterious and bizarre Ancient Jade that could cultivate a large number of Nirvana stage warriors.

"Whether or not it is used by the people of Tong Tian Aristocratic Family, there are still endless benefits to be had during tribulation. Although I do not guarantee that I can pass it, the power of my Nirvana Doom will be reduced by more than half! "This thing is at least worth three or four hundred million, do you think you can afford to bet on it?" Duan Sanchang sneered.

Everyone secretly cursed Duan Sanchang, and he was actually even more wasteful than Chen Xiang, and decided to take out this kind of clan head treasure to gamble.

Only Ji Meixian knew that Duan Sanchang was in cahoots with Chen Xiang, so he dared to use such a treasure to place his bet!

"If I lose, I'll give you 600 billion!" Chen Xiang said indifferently.

At this time, Duan Sanchang said to Chu Tongfei and Ye He, "You two, this brat has a very strong family background, maybe he can come up with something. Why not call your father over and have him join in the fun too!"

When Chu Quan and Ye He heard this, they both nodded their heads.

"Wait, we'll be right back!"

Tan Sheng was not in a hurry now, because he had made a bet with Chen Xiang and the Diamond fruit was already his. When the Alliance Master and the City Lord came, he could only be anxious.

Ji Meixian really wanted to expose Chen Xiang and Duan Sanchang's conspiracy, but she didn't dare do so, otherwise Chen Xiang would definitely release the contents of the Image Crystal. However, seeing these Dan King jumping into the pit of fire made her very satisfied, and she couldn't help but praise Chen Xiang and Duan Sanchang, these two bastards.

At this time, the long-bearded Dan King walked in front of Chen Xiang and smiled: "Little brother, I heard that you are Li Tianjun's successor. You are as straightforward as your ancestor. As expected, you are from the same origin. I wonder if you can let this old man have a good time? "

However, Spar could not tempt him at all, he needed the high grade Heaven level s' medicine.

This long-bearded Dan King clearly knew that's chances of winning weren't high, and had warned him just now to even make a bet with him, it was obvious that he had his eyes on Li Tianjun's high grade medicinal ingredients that he inherited.

Chen Xiang was very happy that these Dan King came to seek death themselves, so he was very willing to accept them as members. He smiled and said: "This boy still has a Nine-Deadly Flower, although it isn't as good as the Diamond fruit, but it is still a rare item. I wonder if senior will be able to take out anything that would satisfy this kid!"

As they spoke, Chen Xiang took out a small black flower that was the size of a thumb. Sensing the strange energy this flower was emitting, everyone felt a pressure in their hearts.

Those who had heard of the Nine-Deadly Flower were all staring at it in shock.

To ascend to the Nine Deadly Flower and refine a Flying Dan, one had a very high chance of passing through the Nine Nirvana Tribulations! There were a few elders of the Eighth Nirvana, who were looking at the flower with excitement.

To them, Flying Dan were more precious than Diamond fruit! They were not members of the Tong Tian Aristocratic Family, and had a narrow chance of surviving when facing the Nine Nirvana Tribulations.

[Chapter 842](#)

Right now, everyone believed in Chen Xiang's fake identity. In their eyes, only Li Tianjun's successor would have so many rare medicines.

The long-bearded Dan King stared blankly at the pearl that was about to soar into the sky.

"Senior, hurry up and make your decision. Otherwise, I'll give it to someone else." Chen Xiang laughed.

Tan Sheng had staked a hundred Relive Dan pills, a large number of Spar beasts, and the entire pellet medicine store. Although the Soaring Nine Deadly Flower was of the lower Heaven level, it was still

worth exactly the same price when compared to the others, and was placed in the lower Heaven level realm just because it was easier to refine.

"A Nature fruit..." The long-bearded old man said.

Chen Xiang shook his head: "I have Nature fruit, it isn't attractive to me."

The bearded elder let out a long sigh, as if he had made a very important decision, and said: "Thirty Relive Dan, one more Hunyuan Dan, and one more set of Hunyuan Dan's medicinal herbs!"

Everyone sucked in a cold breath of air. Although the Hunyuan Dan was better than many of the Mixed diamond Dan, it was still a low-grade Heaven level pill, a pill that the old guy of Nirvana Stage used the most to raise his strength. As for the thirty Relive Dan, they were also very precious. Now, everyone knew the foundation of these Dan King s, and every Dan King had quite a few Relive Dan by their side.

"Alright!" Chen Xiang urgently needed to level up now, the five Beast statue in his dantian were a bottomless pit, so he could only use this kind of high levelled pill to quickly fill them up.

"This old fellow will definitely cry himself to death when he loses." Su Meiyao laughed.

There was still a Dan King here, so he did not plan to make a bet with Chen Xiang. He only watched from the side, obviously having some scruples.

Chen Xiang recognized this Dan King. The relationship between this Dan King and Dongfang Lingyun was very good, and it was because of him that Dongfang Lingyun was able to hide within the Dan Alliance.

What made Chen Xiang a little depressed was that he had originally planned to wait for the Dan Alliance's Alliance Master and Pill City's City Lord to come over. However, those two brats had gone for so long and did not invite their father over, but instead told the people here that they did not need to wait any longer.

When Chen Xiang heard this, he knew that the Alliance Master and the City Lord were not here on purpose.

With the previous incident, many people at the scene became very obedient, no longer blindly joining the gambling house.

After inspecting the pill furnace, the two Dan King s stood beside him and watched carefully as Chen Xiang concocted pills. This was because they couldn't do anything to Chen Xiang.

They also wanted to see what the outcome would be. After all, he was Li Tianjun's successor, and he might be able to shine in the younger generation in the future. Sooner or later, they would have to fight.

The reason why Chen Xiang was so confident was because he had the supplementary medicines that were cultivated by creation divine liquid s. They were all very old ginseng, lingzhi, etc.

These supplementary medicine could provide a very dense and special life force. As long as it seeped into the large number of Snow muscle jade grass that were on the verge of death, it would be able to revive them.

As long as the ingredients were perfect, and given that he had mastered the basics to refining God-refining Dan, as long as it was a middle grade Ground level pill, it would not be a problem for him!

Chen Xiang placed the dying Snow muscle jade grass into the pill furnace along with a bunch of supplementary herbs. As he released the flames, the supplementary herbs released a large amount of rich life force, which was unique to the creation divine liquid, and was quickly absorbed by it, allowing it to recover its vitality.

No one could see what happened inside the pill furnace, so they naturally did not know about the scene with the divine tool. Otherwise, no one would be willing to bet with Chen Xiang.

Just like before, Chen Xiang maintained a calm face as he controlled the flames and burned the herbs inside seriously.

It was exactly as the long-bearded Dan King said, the Snow muscle jade grass was difficult to burn, and it had an extremely powerful icy cold power that could defend against the invasion of flames.

Even if he had a Heaven fire soul, being able to release a Heaven fire, it would be difficult to defeat it. Fortunately, he had mastered the Foreseeing Alchemy well, so even if it was his first time burning a Snow muscle jade grass, he could clearly feel the special characteristics of this kind of medicine and then make him use the second stage of the Foreseeing Alchemy.

The Snow muscle jade grass looked like it could not be burned, but once it reached a certain point, it would suddenly explode. If he could not control the flame well at that moment, he would evaporate the Snow muscle jade grass that had turned into water.

The Snow muscle jade grass had many variables, so it required two stages of Foreseeing Alchemy. Even so, to control the moment the Snow muscle jade grass suddenly melted, one still had to rely on the Alchemist's senses. That kind of innate ability was very sensitive to changes in medicinal ingredients!

These were all the difficulties in refining Beauty Dan, Su Meiyao had told Chen Xiang about them before.

The Iron bone Dan from before didn't need to have two levels of Foreseeing Alchemy, and the special nature of the ingredients were still considered gentle, they weren't as unruly as the Snow muscle jade grass, and were hard to serve. Therefore, the Alchemists believed that Chen Xiang had a lot of luck and pressure to successfully refine the Iron bone Dan.

Many Alchemists would take part in the competition and use the atmosphere in the competition to exert pressure on themselves, stimulating their own potential so that they could break through. The majority of Alchemists believed that Chen Xiang was most likely in such a situation.

Those Dan Kings did not say anything as they quietly watched on. Those who had placed their bets, if they lost, it would be a huge loss, especially that Dan King Tan Sheng.

The Heaven level Pill was also very valuable in the Heaven Realm, and that Diamond fruit made Ji Meixian's heart move. However, she knew that if she wanted to snatch it from Chen Xiang, it would be even harder than ascending to the heavens.

At that moment, he abruptly retracted his flames, and used a soft flame to slowly refine it. As long as he made any slight changes, he would be able to immediately control the gentle flames.

Sensing that the flames released by the pill furnace had suddenly disappeared, the two Dan King s' faces became gloomy. Chen Xiang's ability to control fire was extremely great, he had already reached the realm where he could control fire as he wished, and even they were ashamed of themselves.

They had originally thought that they had an eighty percent chance of winning, but now, they were all wearing dark expressions and didn't say anything. They looked as if they were about to die, and their faces were completely ashen.

Everyone was secretly glad that they did not bet, else they would have been buried along with the two Dan King!

The long-bearded Dan King's expression was a little better. Even if he lost, he would only lose a pill and a portion of medicinal ingredients. Although they were very precious, they did not affect his attack.

But Tan Sheng was different, not only did he lose his family foundation, he also lost someone!

Tan Zhongsen clenched his fists tightly, he wanted to destroy Chen Xiang's pill furnace that was as stable as a mountain with a punch. If his father lost, the name of the owner of the flourishing pill shop would change, how would he be able to hold his head up high in the future?

[Chapter 843](#)

Everyone's hearts were raised to their throats, they looked at Chen Xiang's Pill Refining Furnace nervously and quietly. Many of the people who lost Spar and treasure earlier were gloating, because no matter who won, they would feel very satisfied.

If two Dan King s lost, then they would be the same as them, becoming the losers, and moreover, losing even more miserably. If Chen Xiang lost, they would also feel relieved.

Chen Xiang had originally planned to shake the pill furnace and try the same thing again, but the people here weren't idiots. After getting played once, there definitely wouldn't be a second time.

"Using the method of deflation, I purposely opened a small crack on the lid of the pill furnace so that the ferocious Medicine aura could float out." She was a true Dan Immortal, and not even ten Dan King could compare to her.

Inside the Yanlong furnace, the Snow muscle jade grass had already melted and was being burned by Chen Xiang.

When he mixed the Snow muscle jade grass s with the supplementary ingredients, the atmosphere inside the furnace would become very tyrannical!

Reaching this step, was basically already within Chen Xiang's control. In order to drag the last Dan King into the water as well, he did as Su Meiyao said and allowed the cover of the Yanlong furnace s furnace to be opened, revealing a very thin crack.

Just at that moment, a strand of Medicine aura drifted out from within. Although it was only a strand, the Alchemist and Alchemist could tell how many different types of spirit medicines were mixed together.

The two Dan King s heaved sighs of relief. When they saw that Chen Xiang's face had changed and his head was covered in sweat, they laughed out loud in their hearts.

"You're actually discouraged, this is a taboo in refining pills, this is considered destroyed. There are very few Snow muscle jade grass dying here, but a bit of it has been leaked, even if the Dan Immortal came down to the mortal realm, he wouldn't be able to save you." Tan Zhongsen laughed sinisterly.

When concocting pills, a lot of care was placed on the Medicine aura. Once a little of it was leaked out, it would be very difficult to succeed.

What Su Meiyao had taught him was much more effective than letting the pellet shake, and was even more convincing. These Dan King in particular all had smiles on their faces.

"Mei-jie, help me!" Chen Xiang suddenly sent a sound transmission to Ji Meixian. Although Ji Meixian was his archenemy, their relationship was very strange at the moment. If Ji Meixian wanted to protect him, he would have to follow him sometimes.

Ji Meixian had also captured that sliver of Medicine aura just now, but she could feel that the moment the lid was opened, the Medicine aura inside the furnace was incomparably dense. Although she wasn't refining pills, she could still see that the Medicine aura inside the furnace was sufficient to condense the pill.

She quickly guessed that this was Chen Xiang's method of letting others fall into his pit, and it was even more brilliant than the method he used to shake the pill furnace.

"I can help you drag those guys into the water, but you have to give me that image crystal." Ji Meixian replied with his divine sense.

"Then forget it, the Image Crystal is more valuable than anything else!" Chen Xiang laughed.

"Okay, if you give me the five Relive Dan, I'll help you pull that Dan King into the water. As for those other fish, it's up to them." Ji Meixian said: "I will get Mu Jialan to make a move too. When the time comes, you must give her a Relive Dan as compensation!"

As long as he won, Chen Xiang would be able to obtain a hundred Relive Dan from Tan Sheng. If he could swindle another Dan King, then it would absolutely be worth it!

"Okay, no problem, but the condition is that you have to scam that cunning Dan King." Chen Xiang agreed. That Dan King who had a very good relationship with Dongfang Lingyun was still unmoved until now, and was obviously not easy to deal with.

"That depends on how you move him." Ji Meixian snorted.

The two of them used their spiritual sense to communicate and agreed to cooperate because this was beneficial to both sides.

"Sir, you are Li Tianjun's successor. I presume that the small matter of exposing the Medicine aura will not affect you, right?" Ji Meixian took off her mask, revealing a beautiful face that made people suffocate. The autumn waves were like water, her voice was sweet and light, with a hint of charm, making many men feel that it was worth it.

Chen Xiang only glanced at her and sneered: "Naturally, I won't delay the success of my Core Formation! What? Did she want to place a bet? "As expected of a woman, meticulous and cautious!"

Ji Meixian's body was graceful, her eyes like silk, and her voice was sweet and lovely. At this time she smiled sweetly: "Could it be that Young Master Li does not dare let this little girl join us? Or are you worried about a woman's bad luck? "

"To be able to lose to a beauty like the Heavenly Maiden of Bai Hai, that is what I wish for." However, I have always been one to play big. I think it should be clear that the Heavenly Lady Bai Hai has been by my side for so long! " Chen Xiang's voice was calm, but as he spoke, his forehead was perspiring profusely.

"Two hundred billion Spar! I wonder if it can satisfy Young Master's appetite? " With a wave of her jade hand, Ji Meixian actually threw out two hundred billion Spar s.

Everyone was shocked, especially that Heavenly Son of the Peach Blossom Imperial Land, Jing Xingliang. He was also a favored son of the sage realm, but he already reached the limit for the one billion Spar. He never thought that Ji Meixian would be so crazy, taking out two hundred billion in one go!

Bai Hai and Tian Nu had already placed their bets. Before, they had not been moved, but now, at the most critical moment, they had placed their bets. At this time, many people were already shaken!

"Young Master Li, I don't have as many Spar as you. I wonder if I can place a bet of 2 billion?" The Peach Blossom Heaven Lady covered with a pink silk cloth asked. Her voice was like that of a oriole, sweet and intoxicating. Her eyes were like limpid autumn water, as if she could make a man's heart sink into it.

Chen Xiang forced a smile and said: "If a beauty can defeat me with two billion, I think she will remember this in her heart for the rest of her life, right? "Even if I lose, it would be worth it to be remembered by such a beauty for the rest of my life!"

Mu Jialan laughed lightly and threw a Storage bag inside.

One of them was two hundred billion Spar while the other was two billion. If he didn't take action now, then when would he?

In order to attract the attention of the two girls, the group of animals had thrown away their entire families without any hesitation.

Adding Ji Meixian's two hundred billion, the amount accumulated on the ground had already reached more than two hundred seventy billion.

"A genius disciple is indeed extraordinary. This old man really wants to place his bet. However, I wonder if little brother can take out something that is worthy enough for this old man to take action on?" The Dan King finally spoke!

Of course, Chen Xiang couldn't disappoint this cunning Dan King, otherwise how could he obtain the best thing in this Dan King?

"That depends on what Senior Dan King can take out." Chen Xiang intentionally did not look at the Dan King, making people think that he did not want the Dan King to participate.

The more it was like this, the more this Dan King wanted to join in. Right now, he had already confirmed that this batch of pills from Chen Xiang was going to be destroyed, because a very weak wisp of Medicine aura had just leaked out.

These Dan King s all knew that this was definitely not done on purpose, if not Chen Xiang was an idiot, he would use such a thing to joke around. Even they, the Dan King s who used the best spirit medicine to refine pills, did not dare to let the Medicine aura leak out so easily.

Especially the violent Medicine aura that had only fused half of it. Even though it was only one strand, it contained a lot of it, and a strand of it could cause irreparable mistakes.

Everyone was waiting for the cunning Dan King to make his move, they wanted to see what he would take out to bet with Chen Xiang!

[Chapter 844](#)

The cunning Dan King did not immediately take out something, but was considering something.

"What this old man needs is not medicinal herbs!" Dan King thought for a moment, then said.

Chen Xiang felt disdain in his heart. This was a gamble, not an exchange.

"If little brother can take out something that makes this old man's heart beat, I can use my skill to bet with you." The Dan King continued.

Chen Xiang did not lack any powerful martial arts, but he was still a little curious. This Dan King seemed to have very high expectations of him, he quickly observed the expressions of the other two Dan King s and noticed that both Tan Sheng and the long-bearded Dan King's expressions changed.

"Old man Qiu, are you talking about the Heaven Earth Killing Method?" Tan Sheng could not help but ask.

Heaven Earth Killing Method, just by hearing the name, it was known to be very powerful!

"Heaven Earth Killing Method? Was the Tong Tian Aristocratic Family's inheritance lost to him at the highest possible level? How did you get it?" Duan Sanchang said in shock.

"I picked it up, can't I?" Old Man Qiu said coldly.

"I heard that the Heaven Earth Killing Method was sealed on a stone tablet, even if you obtained it it would be difficult to cultivate successfully, because the mental cultivation method written on it is extremely profound and obscure. Even the Heaven Realm Immortals found it hard to understand. Ji Meixian's words made the expression of Old Man Qiu change.

"So what? But this cannot deny the value of the Heaven Earth Killing Method. Even if the stone tablet was placed in the Heaven Realm, it would still cause a bloodbath." Old Man Qiu said loudly.

Mu Jialan sighed lightly, "Legend has it that once one succeeds in cultivating this Heaven Earth Killing Method, it will definitely lead to a calamity. Tong Tian Aristocratic Family does not only have it in the Mortal Realm, they also have it in the Heaven Realm.

"This thing is hot potato." Duan Sanchang laughed as he gave Chen Xiang a meaningful glance before sending him a sound transmission, "Although the Heaven Earth Killing Method is very powerful, it can bring about misfortune to others. Even in the ancient times, no one in the Tong Tian Aristocratic Family would dare to take it! To tell you the truth, my Duan Clan is also considered to be a member of the Tong Tian Aristocratic Family, but was kicked out because of tomb robbing. "

The ancient powers all knew how powerful the Heaven Earth Killing Method was, and Chen Xiang also frowned.

"It's actually the Heaven Earth Killing Method! A human used this technique to make one of my ancestors of the Imperial Dragon Race suffer a great loss. I heard that this technique is very powerful." Long Xueyi said.

"It's best if we can take it. Our master told us about the power of the Heaven Earth Killing Method. Back then, in order to find this Killing technique, Master gave it to Junior Sister and searched for a hundred years, but still did not manage to find any clues. Bai Youyou said.

This was a gamble, and if there wasn't something that would satisfy old man Qiu, he wouldn't be willing to gamble.

"This old fellow doesn't have a Fire Soul!" Long Xueyi said.

Since Su Meiyao and Bai Youyou approved of this matter, Chen Xiang did not doubt that it was a gamble anymore. He already had victory in his hands, he only needed to make Old Qiu Er place the bet.

Just then, Chen Xiang's pill furnace revealed another sliver of Medicine aura, causing Tan Sheng and the long-bearded Dan King to uncontrollably smile.

Of course Chen Xiang did this on purpose. He was very patient and did not pay any attention to Old Man Qiu.

"Little brother is the descendant of Li Tianjun, you must not only have medicinal ingredients." Although Old Man Qiu did not want to bet, he also wanted to fish for something from Chen Xiang. Otherwise, if he saw that Tan Sheng had obtained the Diamond fruit and the long-bearded Dan King had gotten the Soaring Nine-headed Flower, his heart would be very unbalanced.

"Yes, there is. It might not be suitable for Senior's taste." Chen Xiang said coldly, his expression was serious and his brows were knitted tightly as he continued to concoct pills.

Old Man Qiu threw out a stone tablet, just to let Chen Xiang know the value of it!

The black monolith seemed to be somewhat old and worn out, full of potholes, but it exuded a dense ancient aura, making people feel as if it had existed since the birth of the world. The black monolith seemed to be somewhat old and old, but it emitted a dense ancient aura, making people feel that it had existed since the birth of the world.

The most important thing was that the stone tablet had a terrifying aura, it was that kind of killing intent that was able to affect Chen Xiang's Killing heart. If not for Chen Xiang suppressing the Killing heart, then maybe he would have released all of the killing intent he had cultivated.

His killing intent was extremely terrifying. Right now, he did not dare to unleash it all at once, because he had killed many experts, including dragons, powerful immortals, and Poisonous Beast Devil God! As long as someone was killed by him, the accumulated killing intent would be absorbed by him and stored in the Killing heart!

"He really is powerful!" As Chen Xiang said this, he took out a cyan colored pearl.

This was actually an azure colored Fire Soul! This was formed by him using the green Fire Soul within the bodies of the two elders from the Fire Divine Palace s. It was as he had guessed, the Fire Soul could evolve!

Even though it was only a cyan colored Fire Soul, which was far inferior to the blue Fire Soul, when Old Qiu saw it with burning eyes, he said: "Good, as expected, you didn't disappoint me, so I used this Heaven Earth Killing Method to place my bet."

Someone actually used the cyan Fire Soul to make a bet. If such a thing was auctioned off, it would be hard for even a trillion Spar to obtain it, because there were simply too few Fire Soul s. Even some of the Dan King s did not have a Fire Soul, not even a Dan Immortal like Su Meiyao.

Without the Fire Soul, he might not be able to become a pill or immortal. However, with the Fire Soul, he could make the Alchemist work twice as hard, and increase his speed and control of fire by a lot.

The Heaven Earth Killing Method was also not bad, the two were both inestimable prices, and in the eyes of different people, they had different values.

Even if it was an exchange, Chen Xiang and the Old Man Qiu were both very willing. However, this was a gamble, they would get nothing if they lost.

Chen Xiang had already revealed three threads of the Medicine aura, and the Dan King s could see that Chen Xiang was trying to turn the tide. However, they all believed that no matter what Chen Xiang did, the outcome was already set.

It was still possible, but most of the Alchemist s thought that it would be very difficult. Although they knew that some of the Alchemist s could succeed, those could only be saved by chance.

"This is my Peach Blossom Imperial Land's Peach Blossom Immortal Dew, one drop for 10 billion Spar, inside this bottle there are at least 500 billion drops, and it's worth 500 billion. If you lose, just give me 500 billion Spar." Jing Xingliang, this Peach Blossom Prince was not one to be outdone. The stakes placed by the two heavenly girls were much greater than his, so he had been feeling uncomfortable the entire time.

This surprised Chen Xiang, he didn't expect that at this time, there would be another fish jumping into the net.

"Leader once said, this Peach Blossom Immortal Dew is worth one drop every ten years. This is a quantity that is five thousand years, what are you thinking about if one drop's value far exceeds ten billion Spar s? This is something that cannot be sold privately!" Mu Jialan reprimanded.

"This is a good item, one drop is equivalent to half a pellet of Relive Dan." Duan Sanchang laughed, obviously he understood his limits very well.

Jing Xingliang said coldly to Mu Jialan: "It's none of your business!"

[Chapter 845](#)

The discord between the sage realm and the heavenly daughter of the Tong Tian Aristocratic Family was nothing new.

"This is more than half of the Peach Blossom Imperial Land's reserves!" It was useless for Mu Jialan to say anything, because Jing Xingliang had already decided to gamble and he felt that he would win.

Chen Xiang felt that the big fish had already entered the net, so it was about time to retract the net. He released his Innate powers, and combined them with his vast spiritual sense, he immediately shot out from between his eyebrows into the pill furnace, speeding up the process of condensing the pill!

"It's about to form a core. You're using all of your spiritual sense?" As expected, the consciousness of a high ranking Alchemist is not just for show, it's really amazing! " A young man said. He was a Alchemist, but only a low-ranked.

At this moment, everyone who had placed their bets felt as if their hearts had stopped. The entire stadium was extremely quiet, and all of them held their breaths.

Especially those who gambled so much, if they lost, it would be equivalent to throwing away all their wealth, especially Dan King Tan Sheng!

If Chen Xiang wasn't a tycoon, even if he threw out so many heavyweights as bait, he still wouldn't have been able to catch so many big fish.

Chen Xiang was also a little nervous at this moment, but he was mostly excited and excited, especially when he saw the pills inside the pill furnace slowly condense and take shape!

"It's going to be a success!" Chen Xiang suddenly calmed himself down, he could not let this critical juncture cause any problems, or else all his efforts would come to naught.

Not everyone could calm down at this point of time. There were some Alchemist who would fail once their minds were affected, but from start to finish, not only had Chen Xiang been affected by a lot of things, he was even talking to someone else.

If not for the fact that he claimed to be the descendant of Li Tianjun, many old fellows would have thought that he was some old fellow who had regressed back to his youth.

A moment passed, but it made people feel as if they had waited for more than ten hours. Seeing that Chen Xiang slowly heaved a sigh of relief, with no expression, their feelings were different, because they still did not know if he had succeeded or failed, and Chen Xiang was indeed too calm. He was still calm after everything that happened.

"Sigh ..." Chen Xiang sighed, and everyone immediately revealed a smile, they thought that Chen Xiang had failed.

"Everyone ... I'm very happy that you guys can play so happily with me. Even if I lose, I will still be very happy! And now, this little brother has accidentally won again. " Chen Xiang suddenly laughed and opened his pill furnace.

The snow-white Beauty Dan floated out, causing the faces of those who bet to freeze. When they saw the two snow-white Beauty Dan, it was as if their world had suddenly turned dark, as if they had suddenly fallen into an abyss.

Chen Xiang succeeded, and it was only two of them, two of them were pure white with no blemishes. In the eyes of these people participating in the bet, they were like two extremely poisonous poisons, the rays of light emitted by the Beauty Dan made them feel that they were evil.

Because it was these two broken pills that had caused them to lose as if they had fallen into an abyss!

"Everyone, please accept my condolences!" Chen Xiang waved his hand, taking the opportunity when everyone was in a daze to take away all those things. Although he had over 700 billion, he still had 200 billion to return to Ji Meixian, but to obtain the Peach Blossom Prince's Peach Blossom Immortal Dew, it was worth far more than 500 billion!

Of course, there were also the things from the other two Dan King s. At this moment, he wanted to let Su Meiyao and the others have a good look at the stone tablet that was recorded with the Heaven Earth Killing Method.

The three Dan King s found it hard to believe. Chen Xiang had clearly revealed three strands of Medicine aura, but he could still succeed, and it was even two pieces of Beauty Dan.

These three old fellows who were severely injured, shakily walked over to Chen Xiang's side and carefully examined the two Beauty Dan s. They had indeed just been refined just now and still carried a sense of warmth.

The three Dan King s suddenly felt that Chen Xiang purposely revealed the Medicine aura to trick them. Thinking of this, their intestines turned green.

At this time, many people in the hall had green faces. They glared at Chen Xiang with eyes that were like sharp blades, wishing to stab Chen Xiang a few hundred times.

If the people here didn't have some status, they would have already made their move. Even the three Dan King s wanted to kill Chen Xiang!

"Seniors, you haven't given me anything yet!" Chen Xiang said while smiling.

"Lose the bet and take it!" The long-bearded Dan King was rather straightforward, giving Chen Xiang a Storage bag, thirty pellets of Relive Dan, a pellet of Hunyuan Dan, and a portion of Hunyuan Dan medicine.

"Father..." Tan Zhongsen glared at Chen Xiang, wanting nothing more than to cut off pieces of his flesh.

Tan Sheng lost the most miserably. He wanted to give Chen Xiang a hundred pellets of Relive Dan, two hundred billion Spar, and the entire medicinal store that was flourishing with pills. But if he won, he would be able to obtain a high grade Heaven level Diamond fruit!

This was a bet!

Although Chen Xiang had another identity, he still couldn't avoid offending a large group of people, and right now, there were a lot of people who wanted to kill him.

"These are a hundred Relive Dan, two hundred billion!" Tan Sheng and the shopkeepers left for a while before returning.

Chen Xiang used his divine sense to scan the Storage bag: "Un, what about this pill shop?"

After Tan Sheng took in a few deep breaths, he took out a jade tablet with words engraved on it. After releasing the contract with blood dripping from it, he handed it over to Chen Xiang.

This was the pill shop's contract, and after Chen Xiang dripped a drop of blood, he confirmed that the contract was valid, and then laughed: "Thank you!"

After refining a whole batch of Beauty Dan, Chen Xiang had won so much that anyone would be jealous to death if word of it spread.

"Let's go!" Tan Sheng's face became gloomy, smoke rose from his hair, and anger filled his heart. With a wave of his sleeve, he brought away everyone from the pill shop.

Some of the people who lost whined for a while, then left hatefully. After everyone had left, there was still a lot of grievance left, which Chen Xiang found funny.

"Haha, it's mine now!" Chen Xiang took off the signboard of the medicine store and sat at the door laughing loudly.

This was a very good section of the road, and the shop was very large and well decorated. There were five floors in total, and behind them were herb fields and many courtyards.

Of course, Chen Xiang alone would not be able to manage such a large pill shop, but he was not worried. After closing the door, he activated the protective array to prevent others from sneaking in, and then went to Dan Fragrance Pure Land's shop that was opened here.

Chen Xiang changed his appearance and took out the jade tablet that Hua Xiangyue had given him. He asked the manager of the Incense Pill Pavilion to pass a message to the Dan Fragrance Pure Land and asked them to send a great character from the Dan Fragrance Pure Land over.

He did not wait at the Alchemy Fragrance Pavilion. Instead, he found Ji Meixian and returned her two hundred billion Spar to her, then gave her six Relive Dan.

Ji Meixian was still living on top of that tower.

"You told her about me?" Chen Xiang asked.

"No!" Ji Meixian said coldly: "Our cooperation is over, please leave."

Ji Meixian was also very jealous of Chen Xiang at this time, she was worried that she would not be able to resist and make her move, but she knew that it would be an unwise move to make a move against Chen Xiang.

[Chapter 846](#)

Even though he had been chased away by Ji Meixian, Chen Xiang's mood was still very good. He was the big winner right now, and all the streets and alleys in Dan City were discussing about him.

A lot of people went to visit the Dingsheng pill shop, but there was no one inside, so everyone was able to guess that the Li Renshan fellow was hiding there.

His name was benevolent and kind, but he annihilated evil beyond compare. At this time, those who lost their bets all called him Evil Demon Li.

Forget about the fact that he was tricked in the first round, but he still dared to come to the second round. Furthermore, two Dan King s were caught and even lost miserably, so he just gave away the precious bottle of Peach Blossom Immortal Dew that was worth five hundred billion.

In the eyes of many people, Duan Sanchang and Ji Meixian had also lost very much, but they were all people that Chen Xiang had invited, and after this, Chen Xiang would not only return the things to them, he would also give them compensation. If others were to find out, Duan Sanchang would definitely be hunted down.

"I say, brother Shen, you are too evil. I think those who have lost are all hiding in their rooms and throwing things around" "Haha." Duan Sanchang laughed, he gave Chen Xiang everything back, and at the moment, they were drinking in his room.

"Don't you see that after the three Dan King s left, their expressions were extremely ugly?! Their entire bodies were emitting smoke! Haha" As Duan Sanchang drank, he laughed loudly and choked on his wine several times.

As the big winner, Chen Xiang was calm, but in his heart, he was still very excited.

"Hehe, there are still a lot of big fish left. I really want to wash them all!" Chen Xiang laughed.

"It will probably be difficult in the future. There are lessons from the past." Duan Sanchang shook his head.

Chen Xiang didn't think so. As long as the temptation was enough, he wasn't afraid.

"Right now, many people are plotting against you. You must be careful, even though you are in Pill City, you have offended three Dan King s. With their deep roots and backgrounds, they might even make a move against your medicine shop." Duan Sanchang warned.

The medicine shop was very big, there were many pills inside, Chen Xiang was only one person, and it was hard to control, but Chen Xiang had already thought of a way.

"You don't have to worry, I can settle this matter by today." Chen Xiang looked like he didn't care.

After Chen Xiang scooped out a large sum of money, he disappeared without a trace. At this time, many people were looking for him, many big powers were secretly investigating him, but they couldn't find anything, as though this person suddenly popped out from a rock and then disappeared.

Some of them wanted to find Chen Xiang's whereabouts, wait for him to leave the city, and then make their move. Some wanted to rope him in, some wanted to talk about business, and some wanted to exchange some things with him.

Chen Xiang had given Duan Sanchang ten Relive Dan, but he didn't want them, because Chen Xiang had benefited greatly by telling him about the tomb of the son of the devil god.

"There are a lot of good things inside that tomb." Duan Sanchang placed all of these things on the ground. They were all items with surging Demonic Qi, such as blades and other similar weapons, as well as some materials only the Demon World had, some demonic arts, mental cultivation techniques, books and medicinal herbs.

These things were all very precious, especially the demon arts. However, Chen Xiang's devil arts were much better than the demon arts, so he had seen a lot of them. As for the weapons, they were all used by the Devil Cultivator, he had no use for them.

"Brother Chen, please pick any one of these items." Duan Sanchang said very casually as he poured the wine.

"He didn't lie to you. There are a lot of these things that are pretty good. It suits your status as the son of the demon god, but you have used a lot of them. Those medicinal herbs aren't suitable for refining pills, they're only suitable for eating." Bai Youyou said.

Chen Xiang picked up a grey metal rod. It was ten feet long, very heavy and very sturdy.

"I want this for my little disciple." Chen Xiang laughed.

Xiao Chou belonged to the Great Strength Race, and now that everyone from the Human Realm was gathered, it was a very powerful force.

"Brother Shen, I'm going back to my family. The book on the Demon God's son's death is very valuable. I'll bring it back for those old fellows to study." Duan Sanchang said.

"See you later!"

After Duan Sanchang left, Chen Xiang immediately went to the Pills Fragrance Pavilion. To his surprise, the important person that the Dan Fragrance Pure Land had sent was Hua Xiangyue!

The message from the jade token in Chen Xiang's hand was directly sent to the Leader, so Hua Xiangyue naturally had to personally come over to see what his little master had instructed him to do.

As soon as she came, she heard about Li Tianjun's successor, and she could immediately confirm that the Evil Demon Li who caused so much trouble was her little mistress.

In an elegant room, the moment Chen Xiang entered, he saw that Hua Xiangyue was wearing a fiery long skirt, revealing her shoulders. Between the mountain peaks that were half wrapped up in snow, there was a deep ravine, and a long snow-white leg was revealed from within the long skirt, looking extremely alluring.

Hua Xiangyue blinked her beautiful eyes slightly. Her fluttering eyelashes and the enchanting autumn wave made her eyes emit an electric light that could captivate people.

When this extremely charming female slave saw Chen Xiang, she gently stroked her beautiful long hair. Her incomparably charming and moving appearance made Chen Xiang's breathing quicken!

"Little Flower Demon, I missed you to death!" Chen Xiang laughed sinisterly. He returned to his original appearance and flew to Hua Xiangyue's side, tightly grabbing onto the beautiful female slave's waist. His bad hand slowly moved through the thin silk dress.

Seeing that her young mistress had become much younger, and even had tender skin, Hua Xiangyue smiled as she caressed her hands. "Little Scoundrel, now that you're like this, I really want to eat you!"

"I want to eat you more!" Chen Xiang hugged Hua Xiangyue, bit on her alluring red lips and forcefully kissed Hua Xiangyue.

"Ugh ..." Hua Xiangyue never thought that this little mistress would be so anxious. As she kissed her, she peeled off her clothes.

On the bed, the two of them were naked, kissing passionately while hugging each other. The beauty's breathing became faster and faster, and the fragrance from her body became stronger and stronger, adding to her charming and flirtatious gentleness, the man found it hard to control himself.

The rooms were full of colors, killing intent filled the air above the Pill City, causing the entire Pill City to be enveloped in a depressing haze. Several big shots from the Tong Tian Aristocratic Family had come, even if they had to expend a large amount of resources, to open the Transmission array and travel from another region to the southern region of the Pill City.

They had all come for the Heaven Earth Killing Method, and Duan Sanchang had once said that, a long time ago, even Tong Tian Aristocratic Family s did not dare to cultivate it, but that did not mean that the current Tong Tian Aristocratic Family could not cultivate it.

All of these Tong Tian Aristocratic Family s have come for the Heaven Earth Killing Method!

Not only were the experts of the Tong Tian Aristocratic Family here, there were also the experts of the Devil Realm and the Demon Realm. It was said that the Heaven Earth Killing Method was connected to some of the ancient powers, and they had also come to search for the Heaven Earth Killing Method.

Pill City was very big, it was hard to find if one was hiding there. However, the Tong Tian Aristocratic Family that came here sent many people to search for the brat called Li Renshan.

However, what they did not know was that it was only Chen Xiang's other identity. The person they were looking for was currently in bed with his peerless beauty, living a carefree life!

[Chapter 847](#)

In the morning, Chen Xiang and Hua Xiangyue lived a happy night. When they received some information, they found out how many waves the Heaven Earth Killing Method had caused, and it actually attracted even more of the ancient powers that had been hidden for many years.

Huang Jintian, who was in Super Martial School, immediately rushed to Dan City upon hearing the news. What was most worth the attention of the ancient powers was that there were four white-haired people wearing white robes and a white jade mask beside Huang Jintian. As soon as they teleported to Dan City, they went straight to the Elixir Shop and stood by the door, waiting.

Huang Jintian could guess that the rascal who had changed his name to Li Renshan was none other than Chen Xiang himself.

"Little Scoundrel, you actually didn't tell me about such an important matter happening!" Hua Xiangyue spat lightly, his face was still flushed red. After being nourished by Chen Xiang for an entire night, this lovely Little Flower Demon became even more beautiful.

Chen Xiang curled his lips and said: "Who let you seduce me."

He took out the room deed for the Duskgold Elixir Shop, and handed it over to Hua Xiangyue after clarifying the contract. "The Duskgold Elixir Shop is yours now, help me manage it properly, it might be of great use in the future."

"Alright, when others ask, I'll tell them that you sold it to me at a high price." Hua Xiangyue understood Chen Xiang's intention.

Chen Xiang thought for a moment, then continued: "When the time comes, you will tell me that your Dan Fragrance Pure Land and Li Tianjun have some sort of relationship, and you said that I owed you a favor, so I passed this shop on to your Dan Fragrance Pure Land!"

Hua Xiangyue nodded his head: "You can leave the city now, I'll go draw their attention, be careful!"

Right now, Chen Xiang only wanted to find a safe place to meditate and study the Heaven Earth Killing Method. With so many ancient powers being mobilized, he was sure that they were not simple people.

Even the Taiji Dragon-suppressed kungfu had not caused such a commotion.

The large amount of pills and medicine fields inside the Ding Sheng pill shop were still very valuable. Right now, all around the mansion like shop were people from various major powers, all staring closely at the Ding Sheng pill shop, waiting for the person who obtained the Heaven Earth Killing Method.

Chen Xiang became an old man and wandered around the city. He realised that the entire city was sealed, it was a barrier set up by the combined forces of many Rankers, all the ancient Transmission array were sealed and could only be used to teleport over, not to teleport out.

Now, not even a fly could fly out of Dan City!

"To be able to quietly lay such a powerful barrier, most likely a few immortals must have teamed up. What kind of background does the Heaven Earth Killing Method have?" Chen Xiang was a little anxious as he realized that even the ground was sealed tightly.

"We are not too sure. It should be one of the most powerful techniques in the ten days of the Celestial Realm! This new world which the Three Realms of the Human and Demon Realms have fused with each other is the strongest of all those years ago, the Tenth Heavenly Layer. Long Xueyi said.

Chen Xiang found Duan Sanchang, and at the same time, disguised himself to look for him. He was in a hotel near the Zenith Pill Shop, staring at the entrance of the Zenith Pill Shop.

An extremely oppressive aura permeated the air around the medicinal shop. The entire mansion had been scanned by his divine sense countless times, but no one dared to enter. If the formation was about to be destroyed, the entire mansion would be razed to the ground.

What's more, Huang Jintian, this crazy old man, was wearing a white jade mask and was wearing a mysterious white robe, standing guard at the entrance.

"Brother Shen, I've already said that the Heaven Earth Killing Method is a hot potato. You almost broke through the sky, and if it were to spread to Heaven Realm, it wouldn't take long before this world is

filled with deities." Duan Sanchang paced back and forth in his room, extremely anxious. He saw Chen Xiang casually drinking tea, and wished that he could kick him.

Ji Meixian was also nearby, he naturally knew where Chen Xiang was. As long as he was within a thousand miles of her, she would be able to sense his presence.

Hua Xiangyue did not immediately come to receive the Zenith Medicine Shop. As long as she came, the ancient powers would not be able to find her.

Long Xueyi had always been following him. What surprised him was that Hua Xiangyue was actually meeting Liu Meng'er and Dongfang Xinyue, who both of them had also come after hearing the news.

Dongfang Xinyue's Dongfang family could be considered an ancient power, but it had declined, so she knew about the Heaven Earth Killing Method.

"Brother Shen, who is that guy? There is actually someone who dares to swagger near an old madman like your master! " Duan Sanchang anxiously shouted.

Chen Xiang walked to the side of the window, saw a black clothed young man with an imposing aura, and could not help but say with a smile: "That is my master's nephew, he seems to have broken through."

Gu Dongchen wanted him to go back and see what was going on. The reason was so that Gu Dongchen could become a real Ancient Spirit Man and obtain the inheritance. As for what would happen to him after obtaining the Ancient Spirit Inheritance, that was something even Huang Jintian couldn't predict.

"Super Martial School, what do you mean? Do you want to keep the Heaven Earth Killing Method for yourself? "

A thunderous voice rang out, as if it wanted to set off a gale. The entire world was filled with killing intent, and only the voice resounded.

Huang Jintian laughed coldly: "I am sitting at the door, what do you care? If you have the guts, come here and sit, but no one will stop you! "

After saying this, many people suddenly flew over from all directions and stood on the street. Everyone had concealed their faces and wore very ordinary clothes.

Chen Xiang could only see those people, their faces had a stiff expression, one look was enough to tell that they had disguised themselves.

These people only appeared on the streets in groups of five or six. It was obvious that they were the experts from the major powers.

"I really want to use a bunch of Magical corruption gas to poison these bastards to death. That's something I won, I actually want to take it away!" Chen Xiang muttered in his heart.

He didn't dare explain to Huang Jintian via sound transmission now either. He was worried that those experts would eavesdrop on him.

"Chang Zi, why did the Heaven Earth Killing Method cause such a thing? It even blew a bunch of old turtles out! " Chen Xiang was very curious.

"Alright, this won't be a secret sooner or later. My Duan Clan also belongs to the Tong Tian Aristocratic Family, but a long time ago, an ancestor of our Duan Clan discovered that a piece of history was very vague. Maybe that's the reason why the Tenth Heaven became the Mortal Realm! Furthermore, they are separated into different realms, and have to be divided into three realms, the Human Demon Realm and the Great War between Three Realms. Every hundred thousand years, there is a force controlling them. "

Duan Sanchang sighed, and continued: "That Heaven Earth Killing Method, is said to be the key that allowed the Ten Heavens Supreme Lord to unite heaven and earth back then."

"No wonder!" Chen Xiang muttered, with how powerful the Heaven Earth Killing Method was, cultivating it would definitely be very difficult.

On the street outside the Elixir Shop, three beautiful ladies with white gauze covering their faces suddenly appeared. As they walked, the entire street was filled with cold air and the ground was covered in frost.

Sensing that terrifying icy wind blowing towards them, everyone immediately moved out of the way. They knew that these three women who looked weaker than them were not to be trifled with.

"The Icewind magic kungfu, it really lives up to its name. It can actually make so many old fellows move aside." Duan Sanchang said as he clicked his tongue.

"Isn't this the Icewind magic kungfu? Could it be that they are Liu Meng'er and Hua Xiangyue from Chen Martial Continent? " A man said coldly. His voice was filled with killing intent.

Hua Xiangyue smiled charmingly: "I am only here to receive the shop I just bought, I did not expect seniors to think so highly of this little girl, to welcome us with such an imposing manner!"

What? Receive! Those people who came from afar were all stunned, they quickly thought about it, that Li Tianjun's successor had already moved the Zenith Medicinal Shop overnight!

"Your empty words have no basis. I think your Chen Martial Continent wants to keep it for himself." An elder walked out with a dark expression on his face.

[Chapter 848](#)

Of course, Chen Xiang would not watch by the side. He took out Death-haunting arrows and poured them into them, allowing him to shoot dozens of arrows at once. He was able to instantly kill those who wished to make a move on Liu Meng'er and the others.

He could tell that Huang Jintian was feeling a little pressured right now. If necessary, he would spare no cost to kill all the unknown experts on the street and protect Huang Jintian and the others.

Hua Xiangyue took out the house deed, and his voice became somewhat cold: "The City Lord and Alliance Master of Pill City should recognize this thing. The Dan King who lost the shop should also be nearby."

"This is fake!" As the old man spoke, he extended his hand to grab the room deed.

Just as the old man made his move, the ground suddenly shook, and Huang Jintian had already appeared in front of Hua Xiangyue. The old man's claws had been turned into blood mist by the invisible force that he released.

"What are you? You actually dare to lay your hands on my grandson? " Huang Jintian was infuriated. She waved her hand and the power was like heavenly thunder, striking the old man's face and causing a white light to erupt. The old man turned into a wisp of white smoke.

Hua Xiangyue was actually Huang Jintian's grand disciple. Many people who wanted to make a move earlier immediately withdrew their power and used one palm from Huang Jintian to slap the old man who had just passed through the nine tribulations into smoke. If this kind of fellow got crazy, the entire city would be destroyed!

At this moment, the killing intent became even more serious.

"Huang Jintian, what do you mean?" A middle-aged man stood up and shouted angrily. He was the companion of the old man who had just been killed.

"Can't you understand me? "She's my grand disciple. If your people attack her, can I just sit back and do nothing?" Huang Jintian's voice was cold as he looked at those who wanted to attack.

"So Dan Fragrance Pure Land's Leader is actually Super Martial School's Elder Dan. No wonder Elder Dan has always appeared and disappeared mysteriously. Furthermore, the relationship between Dan Fragrance Pure Land and Super Martial School is extremely good." A leisurely voice was heard. It was the voice of a middle-aged woman. Although she was not here, her voice carried a powerful aura.

"Woman, it's good that you understand. Twenty thousand years ago, I lost two of your arms. Now, I can also kill you!" Huang Jintian replied.

"If we don't get a satisfactory answer today, I don't think any of our friends from far away will leave." The middle-aged woman's voice sounded again.

Huang Jintian suddenly roared out, a five coloured light suddenly shone out of his arm, his arm was covered with colorful flickering dragon scales, he extended his hand and grabbed at the air, and with a shout, a lady with disheveled hair and tattered clothes was suddenly grabbed by him.

One of Huang Jintian's arms became a dragon's claw, the five-colored flickering dragon's scale was especially dazzling. That terrifying Dragon Power, caused the entire city to tremble.

"My wife, my disciple has taken over this shop as a matter of course. Whoever dares to cause trouble will be killed by me!" Huang Jintian casually waved his hand, throwing the middle aged woman away, his arm returning to its original state.

This was Huang Jintian's method, this was an Immortal Cultivator of the Taiji Dragon-suppressed kungfu, he was extremely strong, even if it was an expert at the same level as him, he would only be able to be defeated by Huang Jintian in an instant.

"Your master must have many secrets. He has never ascended until this day! His Five-Colored Dragon Scales means that he has cultivated a Five-Colored Dragon Soul. This is very powerful! " Long Xueyi was

extremely shocked, because such a thing actually happened to a human. Even their Imperial Dragon Race s rarely had Rainbow Dragon Souls.

That was the Five Elements Dragon Soul. That was a very strong martial spirit! Chen Xiang's current Fire Dragon kungfu soul was still in its nurturing stage.

Hua Xiangyue also did not want to make things big, so he immediately said: "Li Tianjun's successor and the Dan Fragrance Pure Land have some connections, his successor once owed me a favor, that's why he transferred the Dingsheng pill shop to me, I know this is a hot potato, so I invited my ancestor to take care of it."

Chen Xiang watched from the window, the Death-haunting arrow in his hands could produce tens of poison arrows that carried Magical corruption gas s at any time. As long as this group of people charged together, he would shoot them down!

They are all idiots, and were actually played by a little ghost. If you continue to cause trouble, maybe you will even become enemies with Huang Jintian. You people have lived for so many years, how can you not see it?

An old man wearing a black robe suddenly floated over. The old man's face carried a hint of ridicule. Although it was daytime, his eyes were incredibly bright, and his entire body was exuding a very old aura.

"It's the old man!" Duan Sanchang laughed: "Old Gramps doesn't want that Heaven Earth Killing Method, he just wants to stay away from it, but he won't let anyone else have it."

Chen Xiang had met him before. Although there were very few disciples of the Duan Clan and they were often sealed in a strange manner, they had never given up on robbing tombs to look for that mysterious piece of history!

"He should have just switched stores this morning. That kid is still in the city. He's still sealed!" After an old man finished speaking, he flew off in a certain direction.

"What do you mean? Won't you let us go?" Gu Dongchen jumped up and stopped the old man.

"If you want to leave, you can leave at any time. We will not obstruct you. You can leave using the Transmission array, or leave from the city gates." The old man's eyes flickered as he looked at Gu Dongchen. This handsome young man in front of him gave him a lot of pressure.

"And if I want to fly away?" Of course, Gu Dongchen knew that Chen Xiang was still in the city.

"Don't tell me that there is a ban on flying in Pill City. You guys have flown in the sky above the city countless of times already." Gu Dongchen sneered.

"Young man, don't think that just because you're a Leader that you can be so arrogant. "There are only two ways for you to leave the Pill City, teleport away or through the city gates!" The old man's voice was cold. Although he knew that Gu Dongchen was not young, he was still a little imp compared to him.

Everyone looked at Gu Dongchen and the old man in the air. Seeing that old man was angry, everyone was secretly shocked.

Although these people were ancient powers who lived in seclusion, they knew much about the outside world, especially the Super Martial School that Huang Jintian belonged to. In their eyes, the Super Martial School was like a poisonous tooth!

Gu Dongchen said coldly, "I will also give you two options. Either stop the sealing of the Pill City or die!"

When the people hiding at the edge of the Pill City heard this, they were all secretly shocked by the Super Martial School's power. He actually dared to say such words, it must be known that the people sealing the city were all some old fellows.

Many people in the Pill City hated being sealed, because other than those experts or those with status, they could not freely enter the city.

"Brat, you still ..."

Before the old man finished speaking, Gu Dongchen suddenly kicked out. The power was extremely strong, as though it was trying to shatter space, causing ripples on the solid space.

That kick went from top to bottom and landed on the old man's chin. His speed was very fast and his strength was very strong. He kicked the old man into the air and collided with the Spirit Formation.

The strong impact, along with Gu Dongchen's mysterious and bizarre power, struck the enchantment until it shook uncontrollably, and because of the power of the impact, the old man's body was also crushed into powder.

Gu Dongchen was very strong, and the old man just now was not weak. Everyone present could see that, but he was exterminated by Gu Dongchen with just one kick!

[Chapter 849](#)

"Three days later, we will definitely remove the barrier. Huang Jintian, you know a lot about us, so you probably don't want to fight with us right now. Devil Realm and I are hoping for us Human Realm to kill each other!" The person who spoke was an old man, but his old voice sounded very powerful, making people feel as if it was very pleasing to their ears.

"If you dare touch my Super Martial School's people, you will be responsible for the consequences!" After Huang Jintian finished speaking, he took Gu Dongchen and left, while the four mysterious white-robed men that followed behind him had unknowingly disappeared.

Hua Xiangyue, Liu Meng'er and Dongfang Xinyue all entered the Duskgold Pellet Shop. Chen Xiang guessed that the four mysterious white gowned men who had disappeared were probably there to protect Liu Meng'er and the others. They were the people Huang Jintian brought here, they were very mysterious.

"Those four fellows are very strange, very powerful! Your master is really mysterious! " Long Xueyi was very curious, even she didn't dare to fly around recklessly at this moment.

Bai Youyou said coldly: "Right now, you better not go see Hua Xiangyue and the others. They will definitely be watched! Within these three days, you must do your best to kill the people from the ancient powers and let them know that it was Benefactor Li who did it! "

The mysterious evil woman continued to speak with killing intent: "These people are all not good people, for the sake of obtaining the Heaven Earth Killing Method, they would do anything to you, of course they don't know your true identity right now! Just teach them a lesson and let them remember it! In order to obtain the Heaven Earth Killing Method, a large price must be paid. "

"Brother Shen, hide yourself. I'll go see my Duan Clan's old man!" Duan Sanchang left in a hurry.

Chen Xiang became a middle-aged man with an indifferent appearance, walking on the streets vigilantly. Even if Bai Youyou didn't say anything, he still planned to kill some of the ancient powers and cause a commotion.

"Ji Meixian this woman is following me. She's too annoying!" Chen Xiang could feel that Ji Meixian was not far away.

If Ji Meixian found out that he was using Magical corruption gas to assassinate those strong warriors, he would be threatened by Ji Meixian.

"Many hostile forces of the White Sea Imperial Land have come to Dan City. I want to leave with our elder. Do you want to leave with me?" Ji Meixian whispered to Chen Xiang.

Naturally, the experts of the White Sea Imperial Land would not shrink back, but it was different for the younger generation. At this moment, Dan City was controlled by some ancient powers and it looked very calm, but there was a hidden killing intent everywhere.

"No need!" Chen Xiang refused, he did not believe in Ji Meixian.

"Then do your best, don't die!" Ji Meixian coldly warned him once more, then left. She was not very worried about Chen Xiang. The kid who had turned the New World upside down was still hanging on the street, and it was hard to find another one.

Ji Meixian would never give up Chen Xiang. Chen Xiang had her weakness, she could not bear the consequences.

"She left, and the people from White Sea Imperial Land stepped into the Ancient Transmission array." Long Xueyi said.

The current Transmission array s were all from those ancient Transmission array s. Teleporting not only required Spar s, but also other materials, so teleporting once was very expensive. One person alone needed a billion Spar.

This was definitely not something an ordinary person could afford, moreover, there were some people guarding the Transmission array.

Deep into the night, Pill City was still brightly lit with lanterns. Many people were searching for the "Li Renshan" in the void.

In the dark night, he turned into a flying bug that he could often see at night. According to Long Xueyi's secret technique, he was able to find those hidden experts.

"This old fellow just passed the eighth tribulation. Judging from the Innate Qi on his body, his cultivation is not bad. He should be a member of an ancient power." Su Meiyao made a judgement that if he wanted to kill people from powerful clans, he had to kill them.

"Alright, let's see how many of them I can kill tonight. I'll nail their heads to the city wall at daybreak." Chen Xiang had turned into a child and stood on the roof. Long Xueyi then used the Heaven tour method which was split into ten different parts of his mind to check his surroundings in case a strong Ranker was hiding.

He took out the Death-haunting arrow and activated a suitable amount of Magical corruption gas, condensing them into a crossbow arrow. As long as the Magical corruption gas touched his skin, it could quietly enter his body.

The most terrifying thing about Magical corruption gas was not only its strong poison, but it was also colorless, tasteless, and without any aura. It was hard to sense it, and one would only notice it the moment it entered the body.

If he found out that he couldn't immediately use his power to defend against the strange and powerful poison, he would die from the poison and become a pile of rotten meat.

Chen Xiang aimed at the old man's nose and released an arrow. Under the control of his mystical technique, he did not even make a sound and shot it into the old man's nose.

The old man quickly realised that he had used all of his Innate Qi to resist the poison. After he roared, Chen Xiang suddenly appeared behind him.

The Green dragon demon-slain broadsword was summoned by him, hiding a threatening aura and multicolored light. With a large slash, it landed on the old man's neck and cut off his head. After obtaining his head, Chen Xiang quickly burned his corpse, bringing a large amount of soil and soil into the ring. Then, he would use the Soul Absorbing Devil Spell to disperse the remaining souls, lest the other party use a secret technique to summon their souls!

Just as Chen Xiang left, a few elders came over, their faces all ugly.

"They didn't leave any clues. Could it be that those assassin families have appeared?" An old man looked around with a serious face and a frown.

"We have to be careful, this kind of killer is very scary!" Another old man said, "It's best if we don't split up!"

"That was close. Fortunately, I set up a sound-proofing barrier to block the sound and prevent his divine sense from escaping." Long Xueyi still had some lingering fear in his heart. "Looks like next time, I have to be careful and arrange everything properly before I can make my move!"

"Got it, since they want to steal my Heaven Earth Killing Method, let them know what kind of price they want to pay!" Chen Xiang became gloomy and continued to search for his next target!

He had even set fire to many of Feng Clan's and White Sea Imperial Land's stores, killing all of their elders. More importantly, he had also left behind his own tracks, which meant that he, Chen Xiang, had done it!

In one night, Chen Xiang killed over a hundred experts, all of them instantly killed, burned to death, and cut off their heads.

The heads of more than a hundred experts were placed in the middle of a square, forming a large "Li" character. This made many people feel fear and trepidation!

These experts were all characters that could overturn rivers and seas with a raise of a hand, yet they were all killed in a single night.

Of course, there was another shocking piece of news, Huang Jintian's little disciple had also come and took the opportunity to burn down his enemies, the businesses of the White Sea Imperial Land and the White Sea Imperial Land.

Chen Xiang was not afraid of exposing himself. No matter what identity he had, he would be targeted by these people sooner or later.

One look was enough to tell that it was done by Li Tianjun's successor. A young man who dared to carry a Diamond fruit with him, a precious medicinal ingredient like the Nine Deadly Flower, to make a huge bet, how could he possibly be an ordinary person?

Other people were looking for him, but he was secretly killing the experts of these hidden forces. One kill, one kill, he even put the heads in the square!

Pill City was in chaos, and many people wanted to escape from this place that was filled with killing intent. This was originally a city for saving lives, because there were many precious pills for sale here!

At this point, Dan Alliance and the rest of the Dan King had no choice but to step forward.

[Chapter 850](#)

Last night, it was not only Chen Xiang who carried out the assassination, there were also a lot of people who took action at night. All of them were hermit forces that had enmity with each other, if this continued, Dan City would definitely be destroyed by this group of people.

He had many powerful armors in his hands, all obtained by killing those hidden experts. Their bodies were burned by Chen Xiang's Heaven fire s, but the armors were not burnt. Because those strong warriors had used the Innate Qi to resist the poison, without any protection, the armour could not withstand the powerful flames at all.

If Chen Xiang took these dozens of armor for auction, he could definitely sell them for a high price.

After the Dan King s made their move, the situation became much better. At least, many people did not dare to act brazenly, nor did they dare to fly around in the air above the city. However, they still continued to search for Li Renshan within the city.

Chen Xiang had been hiding this entire time, he wanted to make his move only at night. However, after the hundred or so hidden experts died, many people became vigilant.

On the afternoon of the second day of the seal, a strong Qi came from the Transmission array. Upon sensing the Qi, which was as vast as the ocean, one would know that the person who had arrived was an expert from the White Sea Imperial Land.

The White Sea Imperial Land had suffered heavy losses as well. The medicine shop that was like a mansion had been burnt down, and all the experts that were guarding inside had been mysteriously assassinated. Many of the pills had been burnt down, and the medicinal fields that were planted had also been burnt down.

The originally luxurious shop turned into ruins after a huge fire. This was all done by Chen Xiang!

Huang Jintian had already warned them that if they angered Chen Xiang, they would need to take responsibility for the consequences. The people of the White Sea Imperial Land had chased after him time and time again in order to steal his blade and godly skills.

What Chen Xiang did not know was that when he assassinated the experts from the two families, many of them were important figures. It was just that when he went to attack the Rough and Random profound Land, he was severely injured, which made it easier for him to do so.

"Hurry up and leave this place. We don't even know what methods these ancient factions that once towered over the Tenth Heaven have." Long Xueyi said. One must know that when the Tenth Heaven was flourishing, their Imperial Dragon Race had not even been born yet.

Chen Xiang was also worried about this, but he did not immediately leave. He found another ten odd powerful warriors, using Magical corruption gas s and Death-haunting arrow s, he killed them with the light carriage familiarly, cut off their heads, and took off their armor.

Some of these experts didn't wear any armor or kept them in their storage rings. However, only they were able to open their storage rings. If they were forcefully opened by others, they would automatically be destroyed.

Finally, after the deaths of over ten experts, the sealing formation disappeared. Originally, it had been three days, but now, it had been one and a half days ahead of schedule.

After the seal on the Pill City was lifted, many people left the city in fear that they would bring calamity upon the old geezers one day.

Chen Xiang left amidst the crowd. Coming to Dan City this time, he had gained a lot, not only did he win a lot, he also obtained the Heaven Earth Killing Method that caused the entire Human Realm to go crazy for him.

After leaving the city, he rushed towards a dense forest in the distance. That forest was considered to be one of the more famous danger zones, but it was the safest one for Chen Xiang.

"Someone is fighting inside!" Chen Xiang saw wave after wave of strong auras coming from ahead, and strong gusts of wind rose from inside, blowing many of the fallen leaves in the mountain outwards.

Chen Xiang originally wanted to go take a look, but based on the Qi that he had sensed, the two people fighting inside were very strong, so he took a detour.

But the curious Long Xueyi actually used the Heaven tour method, and used his consciousness to check it.

Very quickly, she came to a conclusion. She said in shock: "It's the son of the Peach Blossom Imperial Land, Tian Zi. This guy lost a billion Spar and gave you a bottle of Peach Blossom Immortal Dew. I didn't think he would still have the mood to fight right now."

"Oh? "Who's the one fighting this guy?" Chen Xiang asked in shock.

"I don't know, but it looks like it was a Vein Martial Cultivators. From its aura, it seems to be from Blue Blood Race, and it's a young man." Long Xueyi speculated about the identity of the man.

"I will deal with this guy sooner or later. As long as it's someone who has his eyes on my Green dragon demon-slain broadsword, I won't let them off!" Chen Xiang secretly clenched his teeth. Last time at the Ding Sheng pill shop, Jing Xingliang said that she would snatch his Green dragon demon-slain broadsword.

"Eating the Hunyuan Dan and strengthening my body should be enough to defeat that guy." Su Meiyao said.

Iron bone Dan s were the best Quenching body Dan he could currently concoct, but it was far from enough. Even if he ate a lot of these pills, it wouldn't be of much use to him, but he could refine them together. It meant that he could turn multiple medicinal ingredients into a pill.

"The one fighting the Peach Blossom Prince is very strong, I never thought the human royal family was so strong!" Long Xueyi exclaimed.

"I hope that Peach Blossom Prince can live, I want to take care of him myself!" Chen Xiang turned into a bird and flew into a forest. Right now, he had nothing to worry about.

The people who robbed him especially made him feel disgusted. When these guys robbed things, they even talked about a lot of reasons, making others feel that it was very reasonable for them to steal things.

Chen Xiang hid in a cave and laid down some array formations. Only after it made the cave very safe did he start to cultivate.

"If I make a breakthrough, I'll have to go through tribulation!" Chen Xiang thought about that terrifying Nirvana Doom and felt a lingering fear. If he wasn't protected by a group of old fellows when he went through the tribulation last time, he definitely wouldn't have been this relaxed.

However, he also wanted to test out a more normal Nirvana Doom. Last time, his first calamity had been a great calamity for two thousand people.

The Hunyuan Dan was a low-grade Heaven level pellet, so Chen Xiang did not dare to eat the whole pellet. Instead, he allowed Su Meiyao to use a special method to split the pellet into two.

The Hunyuan Dan contained a large amount of refined Innate Qi s, and after eating it, he would be able to open up the Zhenyuan granule in his dantian even faster.

After consuming half a pellet, Chen Xiang felt a burst of energy in his body, but the energy was very gentle and flowed through his veins.

As Chen Xiang cultivated, he continued to condense creation divine liquid s. He needed a large amount of medicinal ingredients to refine the Iron bone Dan.

In a blink of an eye, ten days had passed and Chen Xiang was still in the midst of cultivating.

The peace in Dan City returned, and many of the ancient factions left, leaving only a portion of them behind. Following the commotion caused by the Heaven Earth Killing Method, more and more factions of ancient families and sects appeared, all of them being at the same level as the s and sage realm experts.
