

Dan God 961

[Chapter 961](#)

After Chen Xiang passed through the Divine Soul Tribulation, the people that surrounded him earlier all returned. However, their expressions were ugly, the number of people had decreased by a large half, and the ones that returned were the big shots, some of the elders had already died.

Not to mention them, even Chen Xiang, who was cultivating his soul, would not have been so relaxed if Long Xueyi had not reminded him in time to use a technique from the Nine-turn dragon god mantra.

"These fellows are pretty smart. They actually know how to return immediately and are worried that I would sneak attack them! "It seems like they are not in a good situation right now." Chen Xiang fought face to face with these big shots and he had no way to retaliate. If he didn't come here secretly, he could make these guys die without a burial ground.

Chen Xiang stayed away from this place because among that group of Rankers, there were still many who wanted to take action against him. His current strength was still not a match for those big shots.

"Hehe, quite a lot of them died!" Gu Dongchen took joy in their misfortune. The elders who had passed away were still very important to these powers, they were the stronger members of these powers.

Furthermore, their Devil Race was still in the Ancient Spirit Great Land, which was also the Ancient Spirit Clan's territory. It was just that the Ancient Spirit Clan was at peace with the world, otherwise, their Devil Race would have fought against the Ancient Spirit Clan long ago.

"Demon Empress, if you want to meet my Junior Martial Uncle, then come and find me." Gu Dongchen smiled to the Demon Empress and then flew away.

Some of them wanted to kill Chen Xiang even more, but there were some who wanted to befriend Chen Xiang so that they wouldn't be met with Chen Xiang's endless retaliation in the future.

Although the Heaven Devil King was engulfed by Chen Xiang, but the Heaven Thunder Purgatory was not safe! The White Tiger had said before that this place was a trap set up by a mysterious power for Ten Heavens Supreme Lord and his subordinates. The Ten Heavens Supreme Lord was even heavily injured here, and this was where his empire was started to be destroyed.

What Chen Xiang wanted to do now was to find Duan Sanchang's grandfather here. His grandfather knew a lot of things, and would definitely know that this place was dangerous for the Duan Clan.

"Little Naughty Dragon, why is my soul surrounded by a pearl?" Chen Xiang was extremely confused. Although he knew that it would do him no harm, he still felt that it was strange.

"Hmph, that's the Ocean Suppressing Orb. As long as you protect your soul well, your Divine Sense Sea will be very stable. This is a good thing, even I don't have one right now!" Long Xueyi's voice was filled with jealousy, "Not to mention me, many Imperial Dragon Race s don't have it. This is because we need to undergo tribulation before we can cultivate it. We don't even know how long the tribulation of our Imperial Dragon Race will last."

Chen Xiang curled his lips and said: "Little stupid dragon, back then, wasn't it enough for you to come out and undergo tribulation with me?"

"I already knew that I could refine the Ocean Suppressing Orb. Even without you saying anything, I would come out. I was just worried that it would affect you, wasn't it? But there won't be a next time!" Long Xueyi shook his head and sighed.

"That might not be the case. Humans are different from dragons, but we have the Nine Nirvana Tribulations. Maybe the next time I break through in the divine way, my soul will also experience a divine tribulation!" Chen Xiang laughed: "When the time comes, you can come out and face the tribulation with me. But with Heavenly Dragon Supreme Lord by my side, I'm worried that the divine tribulation will be too scared to attack!"

"We'll talk about it next time. I'll teach you a sacred art now, and only those who have reached perfection will be able to use it." Although Long Xueyi bickered with Chen Xiang all day, the two of them had a very good relationship, like siblings who liked to bicker with each other all day long.

Chen Xiang suddenly stopped in his tracks and asked excitedly: "Teach me quickly what ability it is!"

"It's called Shadow Shift, this is a very interesting ability. For example, after you use it, you can instantly switch positions with a rock in the distance, or even a tree! If I merge it with my transformation technique, I can still change my position when I switch locations!" Long Xueyi laughed mischievously: "For example, if you were to fight with someone else, coincidentally, this fellow's son is right beside you. You can use this move to exchange his son's position with you, and then his son would be ruthlessly beaten by him!"

"Or when you exchanged places with a big rock, you turned into that rock, and that rock turned into your appearance. When others attacked you, they only broke a rock!"

Chen Xiang's face revealed a look of anticipation, and laughed: "It is indeed interesting, which means to say, this sacred art is truly sinister!"

Long Xueyi immediately passed down the cultivation method to him.

To Chen Xiang, learning this kind of sacred art wasn't difficult at all. Furthermore, using this kind of method to transmit knowledge made him feel as if he already had the ability to learn it in the first place.

In just six hours, Chen Xiang had almost mastered it. He switched positions with a block of wood inside the forest and then turned into that piece of wood.

This ability was too astonishing, Chen Xiang would not use it in front of others.

The Heaven Thunder Purgatory's spirit energy was very dense, and was circulating very smoothly in the air, but the moment Chen Xiang walked out of the forest, he felt the spirit energy in the air suddenly fluctuate for a bit, and although it was only a slight fluctuation, it alarmed Chen Xiang and Long Xueyi.

Chen Xiang had entered the realm of perfection, but compared to Long Xueyi, he was still lacking a little. He could only sense some movement, but Long Xueyi was able to discern what was going on.

"It's a giant eagle, and it has a very high concealment ability. This kind of eagle is an archaic beast, I think it's called the Unreal ghost eagle!" Long Xueyi said: "I don't know when this guy followed you, but he accidentally exposed his presence just now!"

Chen Xiang released an invisible divine power to scout the previous position he was at. As expected, he found something there, and this Unreal ghost eagle was powerful enough to make Chen Xiang unable to see how it had hidden itself, nor was he able to see its actual body.

"This guy has made his body transparent, so you can't see it. Furthermore, it's very good at concealment. If it wasn't for it accidentally causing the Spiritual Qi in the air to fluctuate, it would have been very difficult for us to discover it!" Long Xueyi said.

"Can you see how strong it is?" Chen Xiang was more concerned about this, if it wasn't very strong, he would destroy this guy.

"If you're not strong, you can beat him! "However, I suspect that this fellow was domesticated. Otherwise, he wouldn't be keeping an eye on people. If someone were to kill this rare and unique beast, someone might think that they have been cut off a piece of meat." Long Xueyi laughed.

It was actually sent by someone else! Chen Xiang wanted to know which power kept this thing. He felt that it must be an ancient power, because this Unreal ghost eagle was an archaic variant.

Chen Xiang continued to run. He did not use the Shrinking step because he had already locked onto the Unreal ghost eagle with his divine power, but the Unreal ghost eagle did not discover him.

"This guy's speed is very fast. It can instantly shoot down from the sky. Its claws are very powerful, and it can easily crush iron pieces!"

[Chapter 962](#)

It was not that he had never seen a strange beast before, but he had never seen one that was so dark. If not for him and Long Xueyi being able to discover this fellow, he probably would have been ambushed a long time ago.

"He's close to me!" Chen Xiang started to run on top of a flat land at a moderate pace. He had done it to lure and lure the Unreal ghost eagle and attack him.

"As long as it reaches the range of its attack, it will immediately attack. This guy is very smart, it seems like it wants to kill me in one hit!" Long Xueyi sneered.

Chen Xiang scolded himself: "Which bastard sent out this kind of thing, don't let me find him!"

More than an hour had passed, and the Unreal ghost eagle was getting closer and closer to him. Right now, it was directly above his head, and if it swooped down, it would instantly grab his head, but only he could sense that it was following him.

"This thing is really insidious, I almost didn't find it!" Chen Xiang had already made his preparations. As long as the Unreal ghost eagle descended, he could immediately attack.

The Unreal ghost eagle could no longer hold it in, Chen Xiang could feel that the Spirit Qi above him was slightly fluctuating, and he also sensed a kind of air flow, the Unreal ghost eagle was shooting down from above his head.

The transparent Unreal ghost eagle seemed to be invisible, and it also had a high concealment ability, making it difficult to sense its existence. However, Chen Xiang was able to catch the movements of the Unreal ghost eagle through the faint changes in the surrounding environment.

Chen Xiang immediately took out the Green dragon demon-slain broadsword s, and with the tip of his blade pointing upwards, his speed was extremely fast. Just as he finished speaking, he felt something hot on his body.

"This idiot is really courting death!" Chen Xiang laughed, and then with a boom, a giant eagle whose body was completely black, and whose body had been stabbed by a blade fell down.

This black hawk had spread its wings for more than a dozen meters and was ruthlessly stabbed by Chen Xiang in the abdomen, directly piercing through the beast core. Furthermore, Chen Xiang even poured some into the Hail magic wind, freezing this huge hawk to death.

"It's not small, breaking the beast core is such a pity, but you can let me refine it!" Chen Xiang released his divine power, only to see the giant hawk being lifted up by a light golden mist, floating in the air.

He took a deep breath and released a light golden, translucent pill furnace. This pill furnace was extremely huge, standing tall like a small mountain, with the Unreal ghost eagle right in the middle of it.

Although Chen Xiang could cultivate God Power, when he could release it, he could not hide it, and could still reveal a faint golden color. If his divine power grew stronger and stronger in the future, when he used a large amount of it, he would be as transparent as when he used it to scout the surroundings.

Right now, he wanted to take this Unreal ghost eagle and use it together to practice Heavenly Alchemy and refine this Unreal ghost eagle into a pill!

Last time he used it to refine a human, but it did not succeed, because it was in a city, and would be easily disturbed. But now it was different, this Unreal ghost eagle was a strange beast, and the flesh and blood beast pills on its body were originally good materials for refining pills, it was much easier compared to refining a human.

"This is better than using Devouring magic kungfu. If this hawk really refines a pill, I wonder what rank it would be?" Chen Xiang was really looking forward to it. He released the flames and poured them into the gigantic Magic method furnace s, burning the Unreal ghost eagle's body.

"In short, it won't be low. After refining the pellet, you can eat it without worrying about any effect. Using the Devouring magic kungfu will more or less have some dangerous and other effects." Su Meiyao laughed.

This Unreal ghost eagle was not weak, if Chen Xiang was successful in his sneak attack, even if he did not die, he would be seriously injured, but it did not expect Chen Xiang to discover it. Furthermore, when it used its fastest speed to attack, it raised its divine blade, piercing through its beast core, and even froze its consciousness!

This was probably the death of the most aggrieved Unreal ghost eagle in history.

Chen Xiang followed the method of refining everything inside the Heavenly Alchemy and burned this Ghost Eagle. The Heavenly Alchemy also had a detailed description of how to refine beasts, which was different from the method of an alchemist.

A strange beast like the Unreal ghost eagle, even its feathers were treasures. Its feathers were as hard as steel and contained a very special and powerful energy. If it was refined well, it could break down the special energy inside, and in this way, some things would become impurities!

Many beasts were born with powerful physical bodies, which humans could not compare to. Most of these were due to the special power contained within the physical bodies of beasts, which allowed them to grow and grow stronger without the need to cultivate their physical bodies.

This was also why when refining pills, one would need to add some beast blood, beast core strength, and sometimes even some meat and bones.

However, no Alchemist had ever refined a whole beast into a pill. They had their own thoughts but did not know how to refine it!

And the Heavenly Alchemy that Chen Xiang obtained, was something that taught people how to refine all things!

Under the gigantic Magic method furnace, it was burning with raging flames. In the evening, the flames were even more dazzling, the Unreal ghost eagle had long been split into many different types of bizarre energies, the impurities in its huge body had already been wiped out by Chen Xiang. After its body was incinerated, Chen Xiang reduced the size of the Magic method furnace by a lot, but it was still as tall as two people!

He could clearly feel that the special energy released by the Unreal ghost eagle was very special. If he ate it, it would be of great help to his body and the cultivation of the Innate Qi. He could not wait to condense this pellet and eat it!

After the Unreal ghost eagle was incinerated, most of the energy in its body transformed into mist forms, and a small portion into powder. The powder could not be burnt, and now it was just like the normal refining steps, where many types of energy and mist were mixed with the powder, making it impossible to reject the energy, and the energy could be transformed into even more wondrous energy, condensing it into a pill again, which was ready to be consumed!

On the Rankings of the Ancient Beast, this fellow could be ranked seventh, moreover, it was difficult to nurture, and it was extremely difficult to reproduce. Now that he owned one, it could definitely be considered a rare and unique beast, but it had been refined into a pill by Chen Xiang!

If the master of the Unreal ghost eagle knew about this, he would either commit suicide or kill Chen Xiang!

Chen Xiang did not care, the Unreal ghost eagle died from his own blade, he felt it was a pity, and used it to concoct pills.

The Unreal ghost eagle's energy released a rainbow-colored glow, causing Chen Xiang to exclaim repeatedly: "As expected of an archaic mutated beast, you're also so beautiful when refining pills!"

"I really want to eat it!" Long Xueyi's appetite was also aroused, and he was drooling in the ring.

"Alright, I'll condense two pills then, hehe!" As long as Long Xueyi was around, he would often look for these things to refine pills. It was enough for him to eat for a long time.

[Chapter 963](#)

Chen Xiang realized that it wasn't very difficult to refine the Heavenly Alchemy into a pill, so he didn't need the Foreseeing Alchemy to refine it into a pill. He only followed the methods in the Heavenly Alchemy to refine the pill, and only used the methods in the Heavenly Alchemy to concoct the pellet.
13800100.

The Magic method furnace became smaller and smaller, and when the Unreal ghost eagle turned into energy fog, it became smaller and smaller. After being continuously squeezed and burned by the flames, the quality of the energy would become higher.

He could totally turn this pill into a pill, which was nothing compared to using medicinal herbs to refine pills. The reason why he took out two of these pills was so that Long Xueyi could have a taste of one pill.

The sky had already completely darkened, and the stars were densely packed in the night sky. The starlight was bright, so while Chen Xiang used the Caomu heavenly Dan's power to absorb the starlight, he also ignited flames to roast the two balls of colorful cyclones inside the Magic method furnace that were like stars in the night sky.

If it was the way he had eaten in the past, he would have roasted the Unreal ghost eagle, but now, he had refined it into a pill to eat. Although roasting the Unreal ghost eagle to eat would be more satisfying, and the taste would also be good, but compared the energy and the speed at which it was digested, refining a pill was still better.

"Are you all right? I'm almost drooling!" Long Xueyi pursed her lips and muttered. She had waited a long time and had already asked many times.

"Not yet, this is the Heavenly Alchemy, there is still one more step to forming the core!" Chen Xiang could imagine the expression of anticipation on Long Xueyi's face, and this made him shake his head and laugh.

"What steps?" Long Xueyi licked his lips and asked sweetly.

"To draw in the various powers in the world and refine this energy, one must go through this step before it tastes good." Behind Chen Xiang was a forest, he could absorb the wood energy from the forest into the pill furnace, at the same time, he could absorb the Spiritual Qi of Heaven and Earth and the star power in the starry sky.

At this moment, he was looking forward to the effects of the pellet more and more. After all, the ingredients used were of the highest quality. That Unreal ghost eagle was different from his other medicinal ingredients.

As Chen Xiang circulated his profound arts, the energy of the stars, the essence of nature, and the energy of heaven and earth all surged over. Through his body, they fused into the Heaven fire s, and through the method of burning flames, they fused into the energy!

This method of absorbing the various types of energy in the world was done according to the Heavenly Alchemy. He did not expect the effect to be so good, to be able to absorb so much in one go.

If the Heavenly Alchemy was easy to refine, he might have already refined that City Lord into a pill at City of the King last time. At that time, it was because he knew there were many other troublesome steps that he did not seriously refine.

In the dead of the night, it was already close to the stage of condensing a pill. Chen Xiang was very anxious, because before, when he absorbed the various energies in the world, there were a lot of movements, and this Magic method furnace was actually transparent. As this pellet became more and more refined, the resulting multicolored light became larger and larger, and he was worried that it would attract some people over.

"Are you almost ready?" At this time, Long Xueyi was like a hungry child looking at the meat broth that was being boiled in the pot.

Chen Xiang frowned his eyebrows, and said with a heavy tone: "Almost done, it's just that it's a bit difficult now, when we're condensing pills, it's not as simple as I thought!"

"Use your divine power!" Long Xueyi said.

Chen Xiang had already used them since long ago, the divine power he released was extremely large, the pure gold light permeated into the Magic method furnace and tightly wrapped around the two cyclones. As long as they were compressed into pills, it would be considered as a success!

It was very difficult to form the core, he had released a large amount of God Power, but he still could not push down the two cyclones. But he knew he would succeed sooner or later, because the two cyclones were slowly shrinking, but it would take a very long time to do so.

"Use all of your God Power. This is your test. No matter how strong your God Power is, you need to train more." What Long Xueyi said was the truth. If there was an empty and boundless God Power that was unable to control it easily, it would be useless in the slightest.

Chen Xiang also wanted to quickly condense a pill, so he immediately released even more divine power and turned the Magic method furnace into a pill furnace that was cast in pure gold. Golden clouds shot out in all directions, and under the night sky, it was like a peerless gem, causing the stars in the sky to lose their luster.

However, the two pellets inside the furnace did not show any signs of weakness. Under the pressure of Chen Xiang's divine power, the pellet released a seven-colored light that was comparable to the blinding golden light, making it look extremely beautiful.

Suddenly, the ground shook slightly, Chen Xiang exclaimed: "Too powerful, those two pills can actually resist!"

Before, he had only used the Dawan refining method of the Heavenly Alchemy to refine pills, and had never used the move of Alchemy of All Things.

Even though these two pills have yet to take shape, to possess such formidable strength, it was truly astonishing! These two pellets were refined from a rare and powerful strange beast, so it was natural for them to have this kind of power!

"Evil creature, I'm not afraid of you even if you're alive, how about you die?" Chen Xiang sneered, he suddenly felt a monstrous grievance coming out from the two pellets, releasing his Spirit power, using Soul Absorbing Devil Spell, dispersing the meaning inside.

"Hmph. You want to go against the heavens?" Chen Xiang heaved a sigh of relief. He did not think that the Unreal ghost eagle's telepathic thoughts would be so powerful, to think that it would still be around even after being burnt for such a long time. It was the Unreal ghost eagle's telepathic thoughts that caused him to grasp the power of the two pellets, thinking to counterattack.

Although the Unreal ghost eagle's telepathic thoughts had been eliminated, the ground was shaking even more violently now. This was because the Unreal ghost eagle's energy was too strong, and through this degree of compression, the energy became even stronger, releasing a strong pressure that shook the ground.

The area that Chen Xiang was in was shrouded in golden light. If one were to take matters into their own hands, it was very easy to find him, let alone the fact that there was an earthquake here.

"Let me handle it!" Chen Xiang roared, the golden divine power transforming into a few golden dragons, entwined with the two cyclones, tightly locking them down.

After a while, the earth calmed down, the golden light and the colorful glow disappeared, and the beautiful starlight once again took over the land while the two Unreal ghost eagle pellets had already been successfully refined!

The two thumb-sized pills in Chen Xiang's hand, seemed to have been assembled together by a multicolored crystal. It didn't release any multicolored light;

"It's finally done. I never thought that the large bird would be able to refine such a beautiful bead!" Long Xueyi swallowed his saliva and rubbed his hands together in excitement. Chen Xiang immediately placed a pill into his Youyao ring.

The Unreal ghost eagle that others had painstakingly nurtured for many years had now been kneaded into two pills and snacks by him!

Chen Xiang swallowed one pellet, and felt a powerful energy undulate inside his body. Right now, it was as if he was drinking alcohol, a surge of hot air was surging into his four limbs and bones, this pellet was countless times stronger than alcohol. He could feel the warm current and energy churning and roaring in his body.

[Chapter 964](#)

"This is great, an incomparably pure energy is exploding in my body. This is too great!" Long Xueyi chuckled: "I wonder what it would be like to use a dragon to refine pills? In the future, I will definitely catch an old Emperor Dragon for you to refine a Dragon Pill! "Haha ..."

Although Long Xueyi boasted shamelessly, at this time, Chen Xiang was also very hopeful that he would be able to refine a Emperor Dragon. His feeling was the same as Long Xueyi's, the pure energy that surged violently continuously came out of his body and washed over his body, giving him an indescribable feeling of pleasure!

"I'm afraid only this ancient beast can have this kind of feeling!" This was the first time that Chen Xiang felt this good after consuming a Spirit Pill. 13800100.

"It's a pity that Sister You You You You and sister Meiyao can't eat it, but it's a good opportunity for us in the future!" Long Xueyi laughed. At this moment, she was still licking her lips and savoring the taste, her training method was different from Chen Xiang's. As long as she slept, she could quickly digest the energy.

Chen Xiang now had to circulate his energy to refine it, only then would he be able to unleash the power of the Unreal ghost eagle pellet!

"Little Black, did you kill my Little Black?" An enraged voice sounded out, accompanied by a gust of violent wind, that blew the tree spirit tree behind Chen Xiang to pieces.

A red-robed old man descended from the starry sky like a fiery rock. When his feet landed on the ground, it caused the ground to shake violently and his feet were covered with cracks.

After seeing the peach blossom on top of the red robe, Chen Xiang was slightly surprised. This was the people from the Peach Blossom Imperial Land, he had guessed many forces, but he never thought that it was sent by the Peach Blossom Imperial Land. and Mu Jialan had always wanted to befriend him, so there was no reason for them to send people to ambush him.

Chen Xiang was currently full of energy, and was not afraid of anyone finding trouble with him: "You're talking about that Unreal ghost eagle right? "This guy killed himself by hitting the tip of my blade. I thought it was a pity at the time, so I ate it for nothing!"

"Little Black... You ate him? " The red-robed old man was infuriated, his old eyes burning with blood-red flames.

"Hehe, it was this guy who ambushed me from the air. At that time, I was only pointing my blade at the sky, and this idiot was acting all by himself, he deserved it!" Chen Xiang laughed, but the red robed elder actually threw a punch forward, the force of the punch was extremely ferocious, it tore through the air and shook the earth, like a bolt of lightning capable of ripping the heavens asunder.

Chen Xiang took a step forward and in half a blink of an eye, he had already moved away, avoiding the destructive strike.

The red-robed old man was truly worthy of being the master of the Unreal ghost eagle. He was very powerful.

"Old man, you're the one who told the big black bird to kill me, right? He deserved to be eaten by me! Oh right, are there a lot of these things in your Peach Blossom Imperial Land? Chen Xiang licked his lips and laughed.

The red robed old man was provoked by Chen Xiang and roared again and again, like a mad cow, he rushed towards Chen Xiang, his fists struck everywhere, the shock wave from his punches was extremely intense, and with every punch, the surrounding temperature rose rapidly.

"It's just an old man who knows how to use fire. This guy sent that Unreal ghost eagle to kill me. I wonder, is it because of his own intentions or the entire Peach Blossom Imperial Land?" Even though the opponent's fire was very strong, it was only a small itch for him. He could even go through a place like the core of the earth, so how could he be afraid of a fire of this level?

"Chen Xiang, I want to drink your blood and eat your flesh!" The red robed elder was furious, his punches were like wind and tiger's, constantly attacking Chen Xiang, but they were all dodged by Chen Xiang.

"Hmph, flustered and exasperated old man, I ate your Unreal ghost eagle, you eating me is what I eat." Chen Xiang sneered: "If you had teamed up with that beast to deal with me, maybe you could have taken me down, but you fearless old fellow, you would only dare not approach me from afar!"

The red robed old man roared, his body exploding out with red fire that filled the sky, the flames turning into many flaming eagles, rushing towards Chen Xiang at an extremely fast speed.

Chen Xiang waved his hand and released a water wall. At the same time, he also used the Black Tortoise Innate Qi to condense two water whips, holding them in his hands and lashing at the fire eagles.

"Water Vines!" The move that Chen Xiang had released was extremely destructive to the people who trained in fire. After the red-robed elder was wrapped around, not only did the fire Innate Qi inside his body get extinguished, there were also streams of icy cold power that he could not defend against.

That was the Hail magic wind. Chen Xiang let it silently enter the cold old man's consciousness and in a few blinks of an eye, the old man shivered.

Just as Chen Xiang was about to pull out his blade to slash at him, the red robed elder suddenly shouted out. Blood was flowing out of his body, his blood was burning with a black flame, it was unbelievable that he could actually burn his water vines!

"Little bastard, I will definitely kill you!" The red-robed old man suddenly became very calm. Black mist of blood exploded from his body as it burned with black flames. Soon after, it turned into a ray of red light and disappeared in a certain direction.

"You won't be able to escape, I'll definitely kill you!" Chen Xiang fiercely leapt into the air and stepped on the Shrinking step. After a few steps, he disappeared, and his speed was not slow either.

The red robed man was forced to use a secret technique to escape, that technique would only harm his own cultivation or risk being crippled. Chen Xiang could not let him escape successfully.

Chen Xiang's speed had reached his limit, and this was the first time he was using the Shrinking step with all of his strength, so the red-robed elder's speed was also extremely terrifying. In a short moment, he was already so far away, but this escaping technique that could burn his own life didn't last long.

"Little Naughty Dragon, do you want me to refine this old fellow for you to eat?" Chen Xiang laughed.

"Nope, just thinking about it makes me lose my appetite." Long Xueyi said as she curled her lips.

Chen Xiang did not want to eat it either, but he wanted to test the effects of the pill. The speed of the red-robed elder had slowed down a lot, and did not realise that Chen Xiang was following closely behind.

"Where is this direction? It feels like the Spirit Qi there is rather special, and only those large Sparite vein have such a thing! " Chen Xiang said in shock.

The red robed elder suddenly stopped, and from behind, Chen Xiang saw many people rushing out from a tall mountain, all of them seemed to be riding on a beam of light, flying towards the red robed elder.

"It's Yao Shumei and her daughter, and the a lad! The Demon Empress is also here, why are they here? "

Chen Xiang was very surprised, he did not slow down at all.

"Leader... "Save me!" He knew that he could not defeat Chen Xiang, he did not know that Chen Xiang's strength was so terrifying. Being able to restrain him at such a young age, if he did not use a secret technique to escape, he would have died a long time ago.

Chapter 965

"Elder Yan... "What happened?!" The moment Yao Shumei asked that question, he heard the light voice of the Demon Empress, "It's Chen Xiang!"

Chen Xiang's Shrinking step had reached its limit, and not long after the red robed elder stopped, he caught up. With a expressionless face, he raised his arm and slapped it towards the red robed elder who was not far away, only seeing a huge green dragon shining with a piercing green light.

Chen Xiang could feel a few waves of extremely strong resistance, one from the Demon Empress, Yao Shumei, and the other from Mu Jialan.

"Humph!" Chen Xiang roared angrily, he was not willing to surrender to these three strong energies, suddenly thousands of gigantic mountains that reached into the clouds appeared behind him. Under the night sky, these ten thousand tall mountains were enveloped in a silver white light, their sudden appearance not only gave people a strong feeling of impact, but also a strong pressure.

"The power of 10,000 mountains!"

Chen Xiang's dragon claw suddenly grew big, the aura and power generated by the Myriad Mountains Painting behind him fiercely rushed into his body, allowing him to obtain a very strong power.

"Die!" Chen Xiang roared like a dragon, the green dragon claw was filled with overflowing killing intent, the killing intent it produced obscured the stars and moon, causing the world to turn pitch black.

B000M!

The dragon claw broke through the three forces that were blocking it with unstoppable force. The dragon claw converged, shining brightly in the night, its huge dragon claw splashing out streams of green qi like a dragon dancing in the air, swallowing the mountains and rivers. The red-robed old man in the dragon claw was pressed together by a burst of force, and turned into a pile of minced meat!

"Humph, what do you mean? How dare you stop me from killing!" Chen Xiang said angrily, not at all afraid of the two female heavyweights, and the Demon Empress.

"Chen Xiang, did you not hear me call him Clan Elder Yan just now?" Yao Shumei was slightly angry, but her jade-like face remained calm. She knew that Chen Xiang would never kill her Peach Blossom Imperial Land for no reason.

"I didn't hear it, but I do know that this guy chased me multiple times, once sending a Unreal ghost eagle. After the Unreal ghost eagle died, he personally came out, but he didn't get anything. Instead, he was chased all the way here by me!" Chen Xiang said coldly.

"What?" The Unreal ghost eagle died? Where is the corpse!? " Yao Shumei cried out in alarm, and her beautiful face lost all color. So did Mu Jialan and the Demon Empress.

"I ate it." Chen Xiang snorted lightly, "This guy is courting death, don't blame me!"

"You ..." The Unreal ghost eagle was an Archaic strange beast that her Peach Blossom Imperial Land had raised for many years. It took a lot of effort and effort, and every year, it would consume a lot of resources and eat a lot of spirit medicines to grow to a point where her body became transparent.

But now, it had been eaten by Chen Xiang!

The corner of Gu Dongchen's mouth twitched, he obviously knew that the Unreal ghost eagle was very precious, but he did not expect that the outcome would actually be Chen Xiang's indifferent "I was eaten".

"Hey, Duan Sanchang told me before, your Peach Blossom Imperial Land doesn't want to form a feud with me, and now you are sending people to kill me? If I didn't hear that your relationship with Dan Fragrance Pure Land and yourself were not bad, I wouldn't be so easy to deal with right now. I can't beat you, but you can't! " Chen Xiang crossed his arms across his chest, his face full of anger.

Yao Shumei did not speak as he closed his eyes to eliminate the anger in his heart, but Mu Jialan only looked at him with a pair of sad and beautiful eyes.

Chen Xiang looked at the Little Demon Empress, "You are the Little Demon Empress right? But why did you attack me? "

"Madam Peach Blossom is my friend. Can't I help her?" Her voice was gentle, but to Chen Xiang, it was ice-cold. Even she herself did not understand why, especially when Chen Xiang used a pair of thief like eyes to scan her body from top to bottom. The look in her eyes was as if she wanted to melt her pale pink dress. She had never been stared at with such boldness and rudeness before.

"This woman is probably as good as my sister in poison!" Bai Youyou sighed lightly. She suddenly missed her sister a lot, she had never missed her sister this much.

"Maybe they know each other. Can I ask her?" Chen Xiang's heart moved as he asked for Bai Youyou's opinion.

"Alright, just try your best not to expose me." Bai Youyou really wanted to know the news about her elder sister.

Yao Shumei opened his eyes and gently spat out a mouthful of orchid. His anger had already disappeared, and he recovered his dignified and noble attitude, using a slightly lazy and gentle voice to

say: "I do not know about Elder Yan bringing the Unreal ghost eagle out, I will investigate, and that will end now!"

Gu Dongchen finally spoke. He said: "Madam Peach Blossom, if any of the other people in your Peach Blossom Imperial Land wants to use this matter to make things difficult for you, just speak. My Super Martial School will help you!"

"Wouldn't it be fine to keep this a secret?" The Little Demon Empress said as she and Chen Xiang looked at each other.

Gu Dongchen really wanted to kick this Junior Martial Uncle. He knew that Chen Xiang could get someone as beautiful as Liu Meng'er and Hua Xiangyue, but now that he had seen the Demon Empress, his eyes never left her.

This was the first time she had met this kind of man. If it was anyone else who looked at her in this way, they would normally shift their gaze when she looked back at them. However, Chen Xiang did not.

Suddenly, a gloomy and aged voice sounded. It's a wishful thinking, the Unreal ghost eagle that killed our Peach Blossom Imperial Land, we can't let it go no matter what! "

The Demon Empress turned her head to look at the red clothed elderly man who was flying over and said to Chen Xiang, "Are you still not going to run? This is the Great Clan Elder of the Peach Blossom Imperial Land! "

"Why should I run? I know that someone at his level wouldn't act against a small fry like me. If the Great Clan Elder of the Peach Blossom Imperial Land does something as big as bullying a small fry like me, if word of this gets out, the Peach Blossom Imperial Land will probably be used by others to compare himself to the Feng Clan, Flying Immortal School, and Purple Moon Imperial Land! " Chen Xiang said loudly, as if he was trying to spread these words across the entire Heaven Thunder Purgatory.

Feng Clan's and Flying Immortal School's reputation had indeed declined greatly. If Peach Blossom Imperial Land also followed in their footsteps, then the world would have another person to mock.

The Great Clan Elder of Peach Blossom Imperial Land had originally wanted to attack, but now he could only endure!

"Was it you who killed Jing Xingliang?" The Grand Elder asked, his voice low and sinister. As he spoke, the wrinkles on his face trembled in a very frightening manner.

"The entire Human Realm knows that I killed Jing Xingliang. How could you not know? Are you tired? You're already half dead, so stop wasting your time! " Chen Xiang retorted back, causing the Great Clan Elder to instantly become enraged, he really wanted to kill Chen Xiang with a palm.

[Chapter 966](#)

Jing Xingliang being the son of the Peach Blossom Imperial Land was something that everyone knew. And now, Chen Xiang was admitting it in front of the Peach Blossom Imperial Land's and the Great Clan Elder's eyes, clearly putting the Peach Blossom Imperial Land in a difficult position. <http://www.17k.com/> No bulletproof windows.

Although Yao Shumei was a Leader, she and the Great Clan Elder were not on friendly terms. It was because she relied on her dead husband to get the Leader, and also because she was a girl, it was natural for her to be excluded from the Peach Blossom Imperial Land. Even though she was a Leader, she did not have the final say in Peach Blossom Imperial Land.

It could be said that there were two sects in Peach Blossom Imperial Land, and Yao Shumei belonged to the weaker faction. The only reason she was able to be a Leader was because the Great Clan Elder did not want her to suffer both defeat and defeat.

Chen Xiang had long known about this from Ji Meixian, so Yao Shumei was not a threat.

"Of course I will not attack you. It is not my turn to attack a member of the younger generation like you!" The Great Clan Elder of the Peach Blossom Imperial Land had an angry look on his face as he said coldly.

This Great Clan Elder's name was He Caiyong, and many of the ancient powers knew that she was fighting against Yao Shumei. It was not the first or second day that Yao Shumei and his wife were being bullied in Peach Blossom Imperial Land, but Yao Shumei had made many friends, such as the Little Demon Empress and Gu Dongchen, who had a good relationship with her.

"You killed Jing Xingliang and the Unreal ghost eagle, you won't be able to escape today, but we'll give you a chance. He Caiyong had a sinister smile on his face. Chen Xiang could sense that there were more than ten experts present, and they were all hiding in secret to prevent him from escaping.

Chen Xiang felt disdain in his heart. If he were to run, the person in front of him would not be able to stop him at all. Back then, when he went to the Sacred Dan Realm to snatch the Chaos fire, he had to take the risk and step into that dangerous situation.

"Great Clan Elder, leave this matter to me, you better not push Peach Blossom Imperial Land into a pit of fire!" She was only making the right choice. If she and the Great Clan Elder were to be enemies with Chen Xiang today, allowing Chen Xiang to escape successfully, their Peach Blossom Imperial Land would be the same as the Feng Clan and would be met with endless vengeance.

"Hmph, what kind of waves can a little brat create? Feng Clan and the rest were just too careless, that's why they were tricked so many times by this little demon, I will not make their mistakes!" What He Caiyong cared about was Chen Xiang's Green dragon demon-slain broadsword. As long as he could obtain this divine blade, his future would be limitless, and he might even be able to become a Leader.

"Yang Yi, I'll leave this brat to you!" He Caiyong said lightly.

Hearing He Caiyong's words, the complexions of both Mu Jialan and Yao Shumei changed. They clearly knew who Yang Yi was, and he seemed to be an extraordinary one as well.

Chen Xiang suddenly felt a ripple in space, he only saw a person appearing beside He Caiyong, holding a purple sword, the sword blade was engraved with a purple dragon, the Spirit grain were densely packed, at the end of the sword hilt was a dragon head that was absorbing purple fire, with one look, one could tell that this sword was not an ordinary sword.

"Master, do you want to die or live?" Yang Yi asked woodenly.

Chen Xiang looked at the person called Yang Yi, he was dressed in black, and was extremely handsome. The only bad thing was, he looked like a cold dead person, his face was as though he was frozen, and when his eyes looked at other people, they would carry a deep disdain, as though he deserved to be beaten.

"It doesn't matter if he lives or dies. Just take his Green dragon demon-slain broadsword." He Caiyong looked at Chen Xiang, "Do you dare to fight against the new Son of Heaven of our Peach Blossom Imperial Land? If you lose, hand over the Green dragon demon-slain broadsword! "

"If I win, let me go? Right? " Chen Xiang gave a cold laugh, "Do you really think you can trap me?"

"Don't be so arrogant. With my master here, you have no chance of survival. Battling me is your only hope, but it's very small!" If you are willing to obediently offer up the Green dragon demon-slain broadsword and kowtow to our Peach Blossom Imperial Land to apologize and become my master's slave, you might still be able to live a little longer! " Yang Yi said indifferently, as though he was less than an ant.

The Demon Empress looked at Gu Dongchen, indicating that she should help Chen Xiang. However, when she saw that Gu Dongchen did not seem to be concerned with himself, she knew that Gu Dongchen was not worried at all about his Junior Master.

However, Yao Shumei's expression was still very heavy. She clearly knew the root of this Yang Yi's strength.

"Who do you think your master is? You want me to be his slave? I didn't like him carrying my shoes! Who the hell are you? You think that you can slash me with a Divine Sword? " Chen Xiang looked like he did not care at all. He really did not put Yang Yi in his eyes, "You are the arrogant ones, even the Demon Empress here does not have a hundred percent chance of stopping me. Are you guys stronger than the Demon Empress? Then why not fight with the Demon Empress and get her to hand over her most precious treasure? "

"You bandits, you see others have treasures, and then you stop them from fighting with others. If you win, that's yours. If you lose, then you let them go. Isn't that just a waste of money?"

He Caiyong said angrily: "That's because you killed our former son, Jing Xingliang, and our Peach Blossom Imperial Land's precious beast, the Unreal ghost eagle!"

Chen Xiang refuted loudly: "Jing Xingliang deserved to die, your heavenly woman can testify that he made a move on me first. Do you think you have nothing better to do? As for that Unreal ghost eagle, you guys do not have high hopes for it, if you let it attack me, that would be seeking death! "

"If others want to deal with me, I have to resist! If I slap your left cheek, will you stretch your right cheek over for me to slap? "

"No matter what, you have to hand over the Green dragon demon-slain broadsword. This level of divine tool cannot fall into your hands!" He Caiyong was in the wrong as he shouted loudly.

"No matter what, you have to cut off your head. A person like you doesn't deserve a person's mind!" Chen Xiang laughed coldly: "I can even speak such bullshit!"

"Attack!" He Caiyong said to Yang Yi in a low voice.

Yang Yi suddenly disappeared, Chen Xiang only sensed a very weak ripple in space, then Yang Yi's Qi would completely disappear!

"This Yang Yi is born with a special technique, he can hide in the void of space. He can travel through those void spaces, you better be careful!" Mu Jialan reminded Chen Xiang, "His own strength is about the same as mine, but he possesses such a powerful spatial technique, I am not his opponent!"

[Chapter 967](#)

Chen Xiang now understood why Yang Yi was so confident. He had truly mastered a powerful mysterious technique, the space outside was simply a void, that place was a mess, filled with tyrannical power of space, and had a very profound law of space.

But this Yang Yi could enter that void space at any time, and then let go of that void space to teleport out. This was too heaven-defying!

Not giving him time to think, he felt a very weak ripple in space. This ripple was like a very fine speck of dust that landed on the ground, and it was difficult for anyone to detect it. Even the Demon Empress present could not feel such a ripple, so there was no need to mention Gu Dongchen, Yao Shumei and the others.

If Chen Xiang had not cultivated the Divine Blade and refined the deep sea, his consciousness would have reached perfection and turned into Divine Powers, he would not be able to feel this fluctuation right now.

Half of the purple colored sword suddenly appeared, piercing towards Chen Xiang's throat. Everyone was shocked when they saw this, because they could only see the other half of the sword, not the person or the sword hilt!

This stab came from another space. The most inconceivable thing was that when the half of the sword stabbed out, Chen Xiang slightly turned his head, barely dodging the attack, otherwise, his throat would have been pierced through!

Yang Yi did not manage to hit it, and immediately retrieved back his purple celestial sword!

's face had a trace of a burn wound, as though he had been burned by red-hot iron, and it smelt of smoke and charred flesh. Just now, he had avoided being pierced in his own throat, but the sword still slid past his face.

"Truly amazing. Your distinguished self has truly grasped the essence of the ability of a turtle to hide its head. This humble one truly admires that ability." Chen Xiang ridiculed.

Yang Yi thrust out his sword again, in response to Chen Xiang. This sword was extremely vicious, and actually stabbed right into Chen Xiang's legs.

"Now I understand why the Peach Blossom Imperial Land is made up of women. I never thought that men are made out of this kind of stuff!" Chen Xiang said angrily. Since the other party was already so ruthless, he definitely could not be merciful.

"Humph, what's the use of having a tough mouth? You can't even touch a single strand of his hair, just give up! " He Caiyong sneered.

"Is that so? Can I really not touch a hair of his? " Chen Xiang glared at him angrily. Stepping on the ground, he immediately caused the earth to shake, the wind to howl, lightning to flash. His arms trembled, and a white mist leaked out.

The incomparably vast Dragon Power was brewing inside Chen Xiang's Dantian, shaking the world, causing the weather to change, the ground to tremble, as though an angry dragon that had been sealed for ten thousand years had been born. It seemed that Yang Yi had truly angered him.

Yang Yi relied on his ability to hide in the void and wasn't afraid of Chen Xiang at all. Right at this moment, he suddenly thrust at Chen Xiang's legs again, the speed of his thrust was extremely fast, and regardless of whether it hit or not, he would immediately withdraw it back, preventing his Immortal Sword from being attacked!

However, this sword strike did not hit, because Chen Xiang's entire body was enveloped by a strong and transparent force.

"What terrifying power. The Dragon Power that the Taiji Dragon-suppressed kungfu has cultivated into is indeed extraordinary, it is really the same as the dragon's power, and it is even scarier than some of the True Dragon's powers!" This was the first time the Demon Empress saw Chen Xiang only use his strongest power. Previously, when Chen Xiang was fighting with the Heaven Devil King, the Devil-suppressing holy power he used were different.

Yang Yi and He Caiyong were completely shocked by Chen Xiang's Dragon Power. One must know that Chen Xiang had just stepped into the Nirvana stage not long ago, so he had at most went through three tribulations.

This made Yang Yi and He Caiyong want to kill Chen Xiang even more.

Both of Chen Xiang's eyes released a gold light, it was the God Power that had surged out from his, he focused the God Power into his eyes and condensed it into two points, looking at his surroundings, he was locking onto Yang Yi's location!

Following the continuous release of his Dragon Power, the earth trembled even more violently. His body was also covered in red-gold scales, making him look like a dragon-shaped human warrior, his entire body brimming with destructive energy!

Yang Yi was fearless. Although Chen Xiang's current strength was terrifying, it was not able to threaten him who was in a void space. Even if Chen Xiang had the power to tear through space, she would not be able to find him.

The night sky was completely covered by dark clouds. Bolts of lightning danced wildly, shining the pitch-black world. Accompanied by the whistling wind, it felt as if a demon had descended from the sky.

Everyone present looked at Chen Xiang with their mouths wide open. They had distanced themselves from him, as they could accept his display of strength. Because, every time a dragon appeared, it was more or less like this.

A purple light suddenly flashed, and Chen Xiang's pair of golden eyes seemed to have already seen it, a hand quickly extended out, transforming into an illusionary image, blocking the purple light, and suddenly grabbed onto the purple immortal sword!

His hand was wrapped with the White Tiger Fist Gloves. Although it was only half a White Tiger Divine Weapon, it was already very powerful, so when it came to dealing with immortal equipment, he did not waste any time talking. Now that the purple immortal sword was tightly grasped by him, it could not even move.

"You ..."

"Bastard, get out here!" Chen Xiang used a lot of force and pulled out his sword with him.

Chen Xiang had already expected that this fellow would love the sword as if it were his life, as long as he could grab onto this sword, he would be able to pull him out. Yang Yi just did not expect Chen Xiang to have this kind of power, holding onto the Immortal Sword empty-handed, and even grabbing the Immortal Sword to death!

"Master!" Yang Yi bellowed, while Chen Xiang's leg flew forward, and fiercely kicked Yang Yi's crotch. That heavy kick could even kick Tie Shan, let alone the weak Eggy.

When the men present saw this, Eggy couldn't help but feel pain. They could imagine the scene of an egg shattering as it fell onto the ground!

"Blast your turtle egg!" Chen Xiang said viciously, he remembered that Leng Youlan had been saying this a lot.

Yang Yi was kicked in the crotch area by Chen Xiang, he was almost crippled, in that moment he lost all his strength, and released the purple immortal sword! The foot Chen Xiang gave him was full of power, and nearly used up thirty percent of Chen Xiang's Dragon Power. If a huge mountain was kicked, it would shatter, so Yang Yi's entire lower body would lose all feeling!

Then, a gold light shot out from between Chen Xiang's brows and seeped into the purple sword. He instantly erased the imprint on the sword and placed it inside the ring!

"Little bastard!" flew into a rage, they were not allowed to snatch the divine blade, and instead the Immortal Sword was snatched away by Chen Xiang, how could he endure this? With a leap, his palm condensed with a burst of red energy, he smashed it towards Chen Xiang.

When Chen Xiang obtained the Immortal Sword, he stepped on the Shrinking step and flew towards Yang Yi, dodging He Caiyong's furious palm, at the same time, he arrived at Yang Yi's side who was lying on the ground and moaning. His palm landed on Yang Yi's Dantian, and his body trembled, releasing a dense mist, at the same time, He Caiyong flashed behind him, and smashed his palm towards the back of's head.

Shadow Shifter!

Under the mist, Chen Xiang immediately unleashed the sacred art he had just learned, allowing him and Yang Yi to exchange positions at an extremely fast speed. Furthermore, the moment that the mist

dissipated was also extremely appropriate, allowing Yang Yi to receive that palm blow to the point that his head was about to burst open, and everyone saw this scene!

Chen Xiang immediately ran away on his Shrinking step, and shouted while grinning: "You killed yourself!"

[Chapter 968](#)

He Caiyong's hands were full of blood, his skinny body was trembling, his eyes were bloodshot. Looking at the blood in his hands, he did not dare believe that he had personally killed his disciple, and even made the immortal sword not take it away!

That immortal sword was bestowed to Yang Yi by a great character who came down from Heaven Realm. Because Yang Yi possessed that strange technique of teleporting through void space, that great figure at that time praised him endlessly, giving him an immortal sword the moment he got excited. Even his master was envious, but now ...

"Chase!" He Caiyong's angry roar set off a burst of violent winds, causing the thunderclouds in the sky to scatter. After Chen Xiang executed the Form Displacement Transposition, he stepped on the Shrinking step and started to run wildly, disappearing from everyone's line of sight.

Both of He Caiyong's eyes turned red, he led his ten odd clan elders and ran in the direction that Chen Xiang had disappeared to. Yao Shumei originally wanted to stop them, but in the blink of an eye, the group had disappeared into the distance.

"That's the Purple Dragon Immortal Sword! I heard it was refined from a Purple Dragon Bone and it has a bit of fame in the Heaven Realm. It was actually snatched away by a little brat here!" Although Chen Xiang's strength was a thousand miles away from hers, his actions and actions were extremely shocking.

"Hehe, I am already used to it. My martial uncle is so powerful, you must have formed an alliance with him!" If it were not for the fact that many people think about Junior Master's Green dragon demon-slain broadsword and Heaven Earth Killing Method, he would definitely be treated as an important guest by many of the great powers. " Gu Dongchen laughed.

Chen Xiang was indeed right. Chen Xiang was a strange person in the young generation, he had the demeanor of a Great Emperor, but because his strength was currently too weak, he was able to grasp many shocking and precious things, which was why he was being chased by so many great powers.

"Madam Peach Blossom, you should prepare how to deal with the aftermath of your Great Elder's death. I feel that if they were to chase after our Junior Martial Uncle, they probably won't be able to come back alive!"

Gu Dongchen's words made Yao Shumei and Mu Jialan's bodies tremble slightly, the fragrance of their jade bodies started to spread, and it was heard that many experts who went after Chen Xiang, rarely returned alive. The last time Chen Xiang used his status to obtain the Heaven Earth Killing Method in Pill City, he attracted many ancient powers, and many experts died at that time and night, all because of Chen Xiang!

However, no one knew what kind of method Chen Xiang used, but up until now, people had still discussed about this strange matter from time to time.

"If this is kept secret, I might not feel so pressured in the future!" Yao Shumei looked in one direction, which was the large mine that their Peach Blossom Imperial Lands were occupying. Just now, two people ran towards that direction.

The Little Demon Empress looked at her surroundings and said softly, "You don't have to worry about this, you can talk to Chen Xiang about it first. On the surface, you are treating him hard, chasing after him, offering him rewards, but in the shadows, you are on good terms with him."

"That's not a problem. My Junior Master's escaping ability is first-rate, so it's not a big deal even if there is another Peach Blossom Imperial Land chasing after him. Even if the Demon Empress were to send out the entire Demon Charming Association, I'm afraid that it would be difficult to catch him." Gu Dongchen chuckled. Chen Xiang's strength was similar to his, but there was no guarantee that he would win in the future, not to mention that he was extremely respectful to his own master and Huang Jintian. For Chen Xiang to be able to cultivate the Taiji Dragon-suppressed kungfu, it meant that he was a madman like his master and Huang Jintian.

Chen Xiang had only been in the Heaven Thunder Purgatory for a short while, but he had already caused so much trouble. First, he had killed the Son of Heaven, released a large group of people, then killed many elders of the Purple Moon Imperial Land, and annihilated the Heaven Devil King. Now, he had even killed the new Son of Heaven Peach Blossom, who possessed a special technique and was bestowed a celestial sword by a great figure of the Heaven Realm.

The Great Clan Elder would never admit that he had smashed his own head, if not, what would the big figures of the Heaven Realm think of him?

Although Gu Dongchen and the Demon Empress were present, their words would definitely be denied by the Peach Blossom Imperial Land, it was just that the Great Elder He Caiyong was still chasing after Chen Xiang and had not returned to the Peach Blossom Imperial Land for several days already.

"These guys have suffered a huge loss! Not only did they lose a good seedling, they even lost an Immortal sword in my hands! Haha!" Chen Xiang was secretly delighted, he sprinted forward and laughed non-stop, making the old fellow, who was chasing after him, stomp his feet in anger.

He Caiyong did not dare to attack Chen Xiang right now. He was worried that something like a Heaven Devil King would appear if too many things were to be destroyed.

Old guys, it's better for you to take a break. If we're competing in strength, you can defeat me with a single slap. But in terms of speed, you guys can't compare to Ten Heavens Supreme Lord's Shrinking step, haha ... As Chen Xiang flew away, he encouraged the elders behind him, "If this goes on, all of your old bones will break apart!"

"By the way, Great Elder, how did you feel when you smashed your disciple's head? Isn't that great?" It was not the first time that Chen Xiang had poked his sore spot. Now, He Caiyong could no longer endure and roared.

However, it was just a mad shout and nothing more. His chest was blocked. If he did not shout, he would definitely explode in anger!

It was not difficult for Chen Xiang to get rid of the people chasing after him, it was just that he did not want them to return so easily. If possible, he wanted to kill all these fellows so that they would not grow stronger and threaten him in the future.

Ten days had passed and Chen Xiang had not stopped even once as he stepped on the Shrinking step. The people following behind were the same as well, they had chased for so many days and Chen Xiang was right in front of them, so how could they give up?

Of course, they had suspected that Chen Xiang was deliberately playing with them, but they felt that this was Chen Xiang's fastest speed, otherwise, they would have left them in the dust long ago. They had experienced the hardships that they had endured during these ten days, and they believed that for a young man like Chen Xiang, escaping from such a place would take a lot of energy, so they continued to chase him down.

If they knew that Chen Xiang had cultivated to the large success stage of Immortal Devil Body and had countless of medicinal pellets on him, they would have returned a long time ago without even looking back.

The other was to bring this group of old bones to tour around the beautiful scenery of the Heaven Thunder Purgatory. He wanted to see why the White Tiger told Duan Sanchang and the others not to come in, he wanted to know what secrets the Heaven Thunder Purgatory was hiding, and also wanted to find Duan Sanchang's grandfather!

Chen Xiang brought this group of people and ran for thirteen days. Just at the evening of that day, he suddenly felt that something was amiss. "One, two, three, four, five ..."

"Eleven!" Chen Xiang was shocked, "So there weren't ten old fellows? Why is there one now? "

"I didn't notice it either. When did this guy come out?" He seems to be right behind those old fellows! " Long Xueyi also felt that this was unbelievable.

"Damn, why does this slovenly old fellow look so similar to Duan Sanchang? Don't tell me it's his grandfather! " Chen Xiang was stunned for a moment. The people of the Duan Clan were truly eccentric, Duan Sanchang's grandfather was actually laughing as he followed closely behind them, just like a naughty old man who wanted to join in on the fun.

[Chapter 969](#)

Duan Sanchang's grandfather was once the Patriarch of the Duan Clan. Although there were only a dozen or so people in the Duan Clan, for him to be able to become the Patriarch, his strength must be extraordinary. Furthermore, Duan Sanchang once said that his grandfather was a tomb robbing genius.

The people of Peach Blossom Imperial Land also discovered that there was one more person in their team. This smiling dirty old man was like a ghost, suddenly appearing and following them for a period of time, causing them to tremble in fear.

"Who are you?" He did not slow down at all. As long as they were slightly slower, Chen Xiang would be able to escape.

"I am Duan Chong, who are you?" The old man chuckled. "You guys are faster. You live much longer than that kid. Why are you running so slow?"

Duan Sanchang had mentioned his grandfather's name before, and it was precisely Duan Chong. This slovenly old man was truly Duan Sanchang's grandfather!

"Don't worry about it, you'd better stay away from us!" Although he knew that Duan Chong's strength was not weak, he was not afraid. If not for the fact that he was chasing and killing Chen Xiang right now, he would have stopped to take care of him.

Duan Chong's old face revealed a trace of anger: "I already told you my name is Duan Chong, why didn't you tell me? "You cheated!"

"Scram to the side. If you keep bothering us, don't blame us for being impolite!" He Caiyong shouted in anger.

Chen Xiang's voice came from the front: "This is the Duan Clan's Patriarch, you guys don't want the Peach Blossom Imperial Land's tombs to be dug up, you'd better be a bit more polite towards him."

There were very few members of the Duan Clan, moreover, their movements were usually secretive. Others only knew their surname, so they rarely knew their name. The ancient powers would usually call them tomb robbers!

At this moment, He Caiyong did not doubt in the slightest what Chen Xiang had said. The strange old man in front of him was indeed very similar to the Duan Clan's Patriarch who had disappeared for many years! He also knew that the Duan Clan had extremely powerful concealment abilities, so they could quietly come to their side.

"All of you are really boring. To think that the little guy in front of me is more interesting. I'm not playing with you all anymore!" As Duan Chong spoke, he disappeared in a flash. In just an instant, he had arrived beside Chen Xiang.

This startled Chen Xiang so much that he almost shouted loudly. Even though he was not using his full power with his Shrinking step, his speed was definitely not slow. This Duan Chong actually arrived beside him in just an instant.

"This old fellow ..." How did he do it? " Chen Xiang asked Long Xueyi.

"I don't know. It doesn't seem like a secret spatial technique, because I don't sense any fluctuations in space. Long Xueyi thought about it bitterly, because she felt that Duan Chong's method was somewhat familiar.

"Right, it's Shadow Step. This is a very ancient secret technique. It's said that as long as your shadow is moving, he will be able to follow you and not let you know."

Duan Chong grinned and laughed: "Kid, how did you recognize me? Not many people know my name! "

Chen Xiang said honestly: "Your darling grandson told me. When I came in, he asked me to come and find you!"

"This brat is really considerate. When you go back, tell them that I have something important to take care of here, so they don't need to worry about me!" Right, why are these guys chasing you? " Duan Chong actually didn't suspect Chen Xiang's words.

"Not only did they come to kill me time and time again, they even wanted to rob me. I was forced to kill some of them. I was outnumbered, so I had no choice but to escape." Chen Xiang sighed.

Duan Chong nodded: "You are currently using the Shrinking step, right! Only the people of the Ground killing are able to grasp this kind of footwork. It seems like it is normal for you all to have mastered the initial stage of the Ground killing and to be chased down by them. "

Chen Xiang's eyes lit up, Duan Chong knew a lot of things, many people knew about the Heaven Earth Killing Method, but they did not know that it was divided into many different levels.

"Senior, can you help me?" Kill them all! " Who knew that Duan Chong would say it very casually, "No problem, but after they die, Peach Blossom Imperial Land will definitely know that it was you who did it. Aren't you afraid of offending Peach Blossom Imperial Land?"

"What's wrong with that?" Feng Clan, Flying Immortal School, Purple Moon Imperial Land, and White Sea Imperial Land have all fought against me, so I am not afraid of having another Peach Blossom Imperial Land. " Chen Xiang looked indifferent. He really wasn't afraid.

"Oh my god, as expected of someone who obtained the inheritance of the Ten Heavens Supreme Lord, you have guts! "Alright, I'll help you deal with these guys, but I'm only responsible for catching them. When you kill them, you'll have to do it yourself." Duan Chong spoke very easily. Looking at his expression, it was as if he was trying to catch someone at the back.

"Thank you, senior!" Chen Xiang laughed, this way he would not have to do it himself.

He Caiyong and the others who were chasing from behind had faces full of anger, because the old and young ones in front of them actually looked down on them. This angered them greatly. They were trying their best to escape, but they were still unable to catch up.

He Caiyong kept staring at the two in front of him, and suddenly, Duan Chong disappeared.

"Be careful!" He Caiyong was extremely vigilant, upon discovering that Duan Chong was not seeing him, he immediately tensed up, and was ready to take action.

Chen Xiang released his God Power and observed the situation. He wanted to see how Duan Chong dealt with He Caiyong and the others.

"I know your re-elected Leader. We even drank alcohol at that time! It's just that I never thought that the people of the Peach Blossom Imperial Land would not fall to such a degree. They're actually just like those traitors, a group of robbers! " Duan Chong had a strange smile on his face, making people tremble with fear.

The previous Leader had ascended a long time ago. He was a character, and after living for many years, Duan Chong had actually recognized him, which meant that Duan Chong was a person of that era.

If our old Leader is here, he would definitely support us. That kid has a Green dragon demon-slain broadsword after all! He Caiyong was a little afraid. Regarding the Duan Clan, many of the ancient

powers only knew that their people were withered and their tombs were stolen all year round. They were cursed, so they did not know much else.

"That makes it even harder to fight for it. Don't you know the origin of that blade?" Guo Chong did not immediately take action, but followed beside He Caiyong.

"Nonsense, we don't know how to snatch it?" He Caiyong said.

"Back then, he consecutively received respect from Great Yan Jing for this blade, and it took him a lot of effort to subdue this divine blade. It can also be said that this blade took the initiative to recognize its master, and was blood related to the Ten Heavens Supreme Lord! Later, the Ten Heavens Supreme Lord paid a heavy price to not let this blade disappear with him, and had to cut off all contact with the divine blade. The divine blade was also affected, the soul of the blade was destroyed, but its spirit was still around!

Guo Chong paused for a moment before continuing, "Which is to say, this blade is already linked to that brat's life, unless that brat is the same as Ten Heavens Supreme Lord, but with his current strength, he is unable to do so. This godly blade cannot be given to anyone else, so no one can take it away, it's futile. This guy is even more sinister than Ten Heavens Supreme Lord. "

"I don't believe it!" Although He Caiyong said that, he believed half of it.

[Chapter 970](#)

Chen Xiang now knew how the Green dragon demon-slain broadsword broke away from the Ten Heavens Supreme Lord, but he was very curious. The Four Symbols Divine Weapons was above the Chen Martial Continent, so this was obviously not a coincidence.

"Senior, stop bragging with him. Hurry up and make your move!" Chen Xiang urged, he was anxious to ask Duan Chong some things ... 13800100.

"I have to brew!" Duan Chong continued to speak to He Caiyong: "I know you may not believe me, but what I said was the truth. You guys and those who tried to steal my blade all wasted your efforts, especially those who died because of me, you truly deserved death for nothing.

"He killed two of my disciples and stole our celestial swords. I must catch him." He Caiyong's face was filled with anger as he thought about all of these things.

"Oh? If you want to kill them or steal their divine blades, then kill them. Now that he is the one who killed them and even stole a celestial sword, it means that they are a group of pigs. Duan Chong chuckled.

"You're courting death!" He Caiyong roared angrily, he pushed his palm towards Duan Chong who was not far away from him, causing a gust of astral wind to blow, but Duan Chong had disappeared the moment he used his palm.

"What is this?"

For some reason, He Caiyong and the other nine elderly men felt their feet sink into the soil, as though they were standing on a swamp, and were slowly sinking. Furthermore, no matter how much strength

they used, they were unable to break free, so the moment they release their powers, the energy would immediately be absorbed, and their bodies would descend even faster.

In the blink of an eye, they had sunk down to their knees, where Chen Xiang had also stopped. From his current position, they could feel that this area was shrouded by a very strange and powerful force, causing them to sink down!

Duan Chong came to Chen Xiang's side and laughed: "Do these idiots really think I'm easy to bully?"

"Pit of Hell... Didn't your Duan Clan lose its legacy long ago? Hurry and leave, otherwise my Peach Blossom Imperial Land will definitely exterminate your Duan Clan. " He Caiyong shouted in shock.

"Bullsh * t! You should beg for mercy at this time. That way, you might be able to die a bit more comfortably!" Chen Xiang walked over, picked up a rock, and ruthlessly smashed it onto He Caiyong's head.

"Little bastard, I'll skin you alive!" He Caiyong was smashed into pieces and he roared at Chen Xiang.

"You've been in closed-door training for too long right? Don't you know that if someone falls into my hands, I won't let them have any chance to take revenge." Chen Xiang took out another rather large stone and threw it at He Caiyong's forehead.

The rock was extremely fast, and Chen Xiang had even injected a bit of Dragon Power into it. It flew over like an arrow, and upon colliding with He Caiyong's head, it shattered into pieces, and He Caiyong's forehead had also become red and swollen. Now, they could be sure that they had all lost the ability to retaliate, this Pit of Hell was truly powerful, Chen Xiang himself did not know what would happen if he were to be trapped inside this thing.

"Kid, you can do whatever you want!" "These guys are not worth sympathizing with. It's better for you to die early if you act so arrogantly." Duan Chong laughed, and followed Chen Xiang's example. The stone smashed into the people who were half buried in the ground, it smashed happily, like a naughty child.

He Caiyong was furious, but no matter what he did, he could not unleash his powers, so only now did he begin to panic.

Chen Xiang took out his Green dragon demon-slain broadsword, his face as gloomy as water, and walked towards He Caiyong. He stood beside the Purgatory World, and just as he raised his divine blade, a purple light suddenly shot out from the distance, illuminating the dark sky.

"Purple Moon, quickly save us! There must be a heavy debt of gratitude! " He Caiyong saw the purple light and immediately shouted excitedly.

"Save your sister!" Chen Xiang shouted coldly, his Divine Blade slashed down quickly, an invisible force shot out from the blade edge, sweeping across, the 10 elders who were "stuck" on the ground, were cut apart like bamboo, from their waists, blood flowed out, but they did not die!

"Stop!" The Purple Moon rushed over and a huge purple colored palm smashed down from the sky. The huge palm brought with it a strong pressure, and the moment it appeared, a deep imprint formed on the ground. Chen Xiang was so shocked that blood flowed out of the corner of his mouth.

"As expected of the leader of the traitors, he actually bullied a little imp with such a high cultivation base!" Duan Chong suddenly appeared by Chen Xiang's side, and threw a punch at the purple-coloured huge palm that was pressing down. That skinny old fist, which seemed ordinary and did not have the slightest fluctuation in its power, actually possessed extremely terrifying strength, and it could even break apart the purple-coloured huge palm as if it was capable of breaking the heavens.

The purple colored Innate Qi madly surged and transformed into a purple colored astral wind. It rose high into the sky and formed a purple colored light curtain, which was indeed very enchanting.

"Duan Chong, you're actually not dead yet!" The Purple Moon cried out, and then slowly descended, while Chen Xiang also struck his palm towards the ten old men from the Peach Blossom Imperial Land who had their waists broken, releasing a Dragon Power that formed a gigantic palm, like slapping bean curd, making it look extremely tragic.

Seeing Chen Xiang insisting on killing those ten people in front of him made him feel extremely unhappy, as he had already planned to protect those ten people. After all, they had just said that there would be a heavy debt of gratitude, and He Caiyong was a Great Clan Elder.

"Others can't cure it, but I can!" The purple glow on the Purple Moon's body dissipated, revealing a handsome face that looked like it was crowned jade. A pair of eyes that were as deep as the stars shone with waves of killing intent.

"I want to capture you!"

Beneath the purple moon was a purple sea of fire. The flames in the sea of fire turned into purple fire beasts that roared, causing the earth to tremble as they rushed towards Chen Xiang. The ten thousand beasts galloped about, their auras were astonishing, causing one's heart to tremble. This Purple Moon's technique was very similar to the Heaven Earth Killing Method.

"The Purple Moon Beast's Killing technique was something a traitor would betray the Emperor for the sake of obtaining it. I don't think it's that great!" Duan Chong lifted Chen Xiang, and fiercely swung down. He actually wanted to block the attacks of the ten thousand beasts by himself.

The ten thousand strange beasts formed from purple flames madly rushed over. Each of them was carrying an extremely violent force as they charged forward, like a violent and surging tide.

Duan Chong clenched his teeth, and from his stomach, a loud sound came out, his two swords sunk into the ground, straight to his knees, the wave of purple flames suddenly stopped, and slowly sunk down!

This was Duan Chong's Purgatory Vermilion Bird. Even those flying in the sky would be sucked down and sink into the ground. In just a few seconds, this huge group of purple fire beasts would sink into the ground.
