

Dark Ages 101

Chapter 101 - Variation 5 colorful parrot

Yuan Yuan, a factory building stared, where a huge figure stood.

The twenty-five-meter-high body is huge and amazing, with eversion muscles, thick blood vessels all around the body like pythons, and its head is horrible, and it does not show human appearance at all.

The pair of mutated giant hands turned into claws of horror, grabbed it with a fierce click, and the reinforced concrete house was caught like tofu.

“Four stars? Or five stars?” Qin Tiange could not help but startled, and set off a stormy sea in his heart.

He saw that huge figure and five-meter-high body were unforgettable at first sight. It was a zombie, a powerful zombie that mutated and evolved. I don't know if it was four or five stars.

Qin Tiange guessed at least that it was at least four stars, probably close to five stars, and was a terrible four-star giant with extremely terrifying strength and defense.

The giant corpse gave birth to two golden scales that looked like fish scales, but Qin Tiange knew that as long as this corpse was covered with such scales, it would be a more terrifying five-star golden armor. .

“Run, run away!”

After thinking about his throat, Qin Tiange yelled, looking extremely anxious, and he couldn't help getting cold. Seeing the five-meter-high zombies, he had a threat of death, not his opponent.

Don't run now, are you still waiting to die here?

I heard him suddenly yell, Liu Yan waited for a moment, and never saw him in such anxiety, there was a hint of eagerness in his eyes, as if he had encountered something very bad.

Seeing him like this, everyone felt awkward in their hearts and felt bad. Qin Tiange has always been calm, and even faced with the four-star green scale demon python, he was not so panic. What happened?

In fact, they don't understand. At first, it was very dangerous to meet the blue scale monster python on the train, but now it is different. The defense and strength of the four-star zombies are beyond imagination. Once they are caught up, no one here except him can live.

“Let's go, stupidly waiting for death?” Seeing the crowd did not move, Qin Tiange drank angrily, and awakened everyone.

The next moment, everyone broke out at the maximum speed, rushing fast along the established route, one by one to run out of milk to force, ordinary people are the same.

At this time, the five-meter-high giant standing on the top of the building suddenly moved.

Boom, Kaka ...

Suddenly, there was a loud noise, the tall factory building collapsed, and a horrible shock came, and huge movements could be heard within a few kilometers.

In the smoke, a horrible figure chased up. Although the speed was not fast, it was equally shocking. Qin Tiange couldn't help but be shocked.

“Speed up, speed up!” Seeing this, he couldn't help anxiously, almost growling.

Jain giants came after them. Four-star giants were close to five-stars. They even planned to evolve into five-star golden armors. This kind of thing is the most terrible.

At this time, without him reminding everyone, everyone saw the horrible giant corpse, one by one in horror, horrified, running wild.

Fear, unprecedented fear spread in the hearts of everyone, the moment you saw the corpse, no one is not afraid inside.

“Oh my God, what is that?” Liu Yan Qiao's face paled, and her heart was extremely disturbed.

Xiao Long Xiaoya shook her head with an uneasy face. In fact, she didn't know what it was. Maybe the people here knew about Qin Tiange.

“Don't talk nonsense, let me run away without wanting to die!” Qin Tiange whispered in a low voice, feeling agitated, feeling that the terrible breath behind him was getting closer.

He glanced behind him from time to time, and his pupils contracted again and again, almost pinching.

Qin Tiange could not help violently beating, and cursed: “Damn it, the four-star giant is likely to reach the critical moment of the five-star evolution. This is the nutrient that wants us to evolve.”

He saw that the four-star giant was already on the edge of the five-star evolution. It was not clear how many humans and mutants it had killed, and even the evolution of similar zombies. No wonder there was not a mutant and a Samsung nearby. Zombie.

It seems that this four-star giant was devoured, otherwise it will not evolve so fast, and it will soon become a five-star gold armored corpse. After chasing Qin Tiange, they want to swallow them to evolve.

Roar!

Behind him, the roar of horror came, the sound was terrifying, the air waves billowed, as if a violent wind was rolling in endless smoke and dust.

“Run, run!”

“Hurry up, you are going to the subway station.”

Qi Qin Tiange was anxious, his forehead was sweating down, and he looked back from time to time, and found that the horrible four-star giant was getting closer and closer, and he was about to chase behind everyone.

It passed all the way, all ordinary zombies took the initiative to make way, and those who didn't give way were trampled alive by it.

The horrible four-star corpse put so much pressure on Qin Tiange that he couldn't raise any thoughts against it. He was not afraid, but he couldn't.

He can't fight but has to fight, isn't he trying to die? Qin Tiange was not so stupid. Although he was anxious in his heart, what he thought at the moment was that if he was caught up, most of his men could not keep it.

“Your sister, do you want to give up?” Qin Tiange was irritable and couldn't help whispering secretly.

Isn't it really necessary to give up the hard-trained team of Liu Yan, Long Xiaoya, and Moda? But if you don't give up, everyone may not be able to live, and your heart is in a dilemma for a while.

“Quack quack dummies, a bunch of dummies!”

When the crowd was running wildly, suddenly a clear voice laughed at the sky?

When I heard this ridicule, Qin Tiange was stunned, Liu Ye and others were also stunned. At this time, where did the people laugh at them?

With doubt, Qin Tiange looked up slightly, his pupils suddenly shrank, and he could not help yelling.

“Wo Ri, colorful macaw?” He looked startled and couldn't help swearing.

I couldn't help it, because he looked up and saw a colorful flash of light passing by. It was extremely fast, and most people couldn't see what it was.

I am Liu Yan. They can only faintly capture a colorful figure, fast as lightning, only Qin Tiange can clearly capture a huge figure flying over them.

It's a bird. To be precise, it's a parrot, macaw, with colorful feathers all over the body, especially the fiery red feathers.

Yes, he saw a parrot, but the parrot was so big that it was two meters long from head to tail, and its wings were one and a half meters wide. It was a big guy.

“quack quack ... idiots, idiots, are a bunch of idiots, big men, these idiots are here, come after them.”

That parrot laughed and laughed constantly, with a kind of smart mocking in his eyes, as if he was really mocking Qin Tiange, it was just fine.

Qin Tiange's head was full of black lines, his eyebrows fluttered I could not help but burst into a rage, and apart from that, he took out an electromagnetic sniper rifle and shot the parrot.

boom!

“Oh, kill, kill!”

The parrot was screamed by a sudden shot, and kept making a terrifying cry, flapping its wings and flying quickly, hovering back and forth over the crowd.

“Dead parrot, are you a man? I dare say no more, I’ll crash you.” On the ground, Qin Tiange’s face was filled with murderous expression, staring fiercely at the huge screaming parrot in the sky.

He raised the sniper rifle again, and with a bang, the sky exploded an electromagnetic flare, knocking out a few hard feathers of the colorful parrot, scaring the latter to scream and climb away quickly.

I screamed angrily as I flew in a hurry: “Abominable, abominable, you dare to hit me, little ones, someone bullies your mighty boss.”

“Little ones, come out and help the boss to kill the fools!”

As the colorful parrot shouted, Qin Tiange, who hadn’t noticed, suddenly felt cold, looked up, and saw a large crowd of things flying in the sky.

“That’s it? Mutant birds?” Qin Tiange stared at him, and turned away in horror.

Liu Yan, who was aside, and others were already stunned. Seeing this, there is no need to remind one to panic and continue to run, faster.

There are not only a large number of zombies hunting behind, but also a large group of mutant birds flying in the sky. The leader is a colorful macaw, like the king of birds, leading countless mutant sparrows and other birds flying in circles.

“Quack quack ... little boys, come on, **** them, **** them!”

“Are you scared? Tell me to bully me, dare to hit me?” On the sky, the colorful parrot was proud of it, with countless mutant bird brothers slaughtering it.
