

THE DARK AGES

Chapter 11 - There is room for gain

A group of boys waved their sticks and smashed them in groups of three, breaking the blood of several zombies in front, and even one zombie smashed his head.

Roar!

There are so many zombies in the corridor. The movement here naturally attracted a large group of zombies. From the opposite aisle, they poured out from the classrooms, densely packed the entire third floor corridor.

注意 “Attention, relying on a small space, three people cooperate, don’t get scratched, otherwise don’t blame me for cutting your head ...”

When the crowd moved forward, Qin Tiange calmly spoke his meaning, but the murderous words made a large group of students look scared and afraid to listen.

Once he was scratched by the zombies, then Qin Tiange must be beheaded at the moment they became zombies, and the brain crystals growing in his head were dug out.

I looked at a group of girls behind me. Under the leadership of the teacher Liu Yan, I dug the heads of the zombies they killed and took out the brain crystals inside.

Vomit ... vomit!

Behind me, there was a burst of vomiting. The girls were all pale and pale, their tears turned, but they still gritted their teeth and dug out the disgusting brain crystal.

“Good-hearted man ... vomit ...!” While digging, Liu Ye looked at Qin Tiange’s back and cursed, and then vomited.

I’m disgusting, so disgusting, I’ve never touched such a disgusting thing, spit out all the food I eat today at noon, bitter water and sky, bile will be spit out.

She is still like this, not to mention the group of junior high school girls who are fifteen or sixteen, it is not terrible, it is so spitting.

A few girls vomited and stunned, and now Liu Yan resisted the urge to growl and curse, and had to hurriedly lift the fainted girl back to the office and put it back, to continue to dig out those disgusting brain crystal.

Seeing this scene, Qin Tiange shook his head secretly. In the last life, he struggled for fifteen years in the last days, and naturally knew that these experiences were necessary.

I thought he was not much better at first, but he got used to it over time, everything was to survive, to live.

I looked at the girls who were all spitting softly, Qin Tiange could not help frowning, so it will not work, and I hope these people help him collect more brain crystals.

He suddenly turned, eyes sharp, and hummed, “You listen well, you must get used to such scenes if you want to live, otherwise, you will not only become a weak person in the future, you will even be enslaved by some people, this is you Want to see the results? “

“If you don’t want to die, give it to me, you won’t feel anything when you get used to it.”

After he said that, he no longer cares about it, can he stand up to see them himself? Qin Tiange is not a nanny, nor is he kind of overflowing with good

intentions. If not for his own benefit, how can he take care of these junior high school students who are still dreaming in the ivory tower?

扑哧!

Suddenly cut off with a knife, she severed the head of a zombie in front of him, and just rescued a boy with a pale face and frightened eyes.

A little bit earlier, he was caught in the face, but fortunately Qin Tiange found it in time, and the zombies came out with a stab, otherwise he ended miserably.

谢 “Thank you ... Thank you, boss!” The boy thanked him.

Qin Tiange frowned secretly, I feel like this will not work, let alone hunt zombies, it won't be long for these junior high school students to be killed by those zombies.

Cowardly, too weak!

He didn't want to think about it. People are just a group of junior high school students. Okay, he can't be compared with the old ghost who has been struggling for fifteen years in the last days.

In his opinion, the weak zombies are killing now, but in the eyes of these junior high school students, they are simply devil, accidentally determined to die.

“No, I will definitely not achieve my intended goal in this way.” Qin Tiange looked dignified and quickly calculated in his heart.

In the end, he found that if he did not enhance the strength of these people, he would definitely not be able to hunt more zombies for him, and he would not be able to achieve his intended goal.

Twenty-five days, only five days, Qin Tiange immediately made a decision in his heart.

“There is no room for gain!” Qin Tiange understands this truth. If this group of students can help him complete his plan, he must be willing.

What is he willing to do? Naturally, they are brain crystals. Give them a little bit of money and buy some one-star quenched body fluids to improve their physical fitness. Then they can hunt more zombies and complete his goal.

“I take the lead, everyone kills the zombies in the corridor with me!”

After Xun’s decision, Qin Tiange immediately stepped forward, wielding a steel knife to kill the Quartet, setting off a **** wind in the corridor.

The guillotine light flickered, his head rolled, his head soared, and black blood pillars spewed out, which seemed particularly terrifying.

Behind him, a group of junior high school students looked shocked and were stunned by Qin Tiange’s overbearing power. Ten times the physical fitness of an adult was simply a little superman.

He is desperate. In order to achieve his goal, he must be ruthless, be ruthless towards others, and be more ruthless towards himself, otherwise he will regret being late when he misses this great opportunity.

“Follow the boss, kill!”

A group of boys yelled, waved a wooden stick and rushed up, smashed those zombies who had not fallen to the ground, and chased Qin Tiange behind him, waving a wooden stick to start a **** fight.

With Qin Tiange taking the lead, this group of boys is basically not too dangerous. It is easy to help with a tooth-sacrifice.

Quickly, the entire corridor was densely packed with zombies. Due to the limited space in the corridor, there were only four zombies that could rush over. One died and one came over.

In this way, under Qin Tiange's leadership, a large group of boys became more and more excited, and their original fear was replaced by excitement, which completely inspired their inner rebellious and violent emotions.

Zombies were killed one by one. Thirty, forty, fifty, and five classrooms on the third floor corridor were all slaughtered.

On the second floor, a large number of zombies were moving in the smell of the wind, moving toward the third floor, looking for the way to the third floor. Unfortunately, most of them could not be found. Only a small number of zombies inadvertently went to the stairs to go up the third floor.

"Hurry up, after you've dug your brain crystals, return immediately."

Qin Tiange walked in black blood, carrying a dark steel knife, eyes full of anger, scared a group of boys who were already excited immediately frankly, digging their brains.

A large group of people were busy. Soon, all the brain crystals were dug out. Immediately, he returned to that office under his leadership.

"It's so cool!"

"Let me say, zombies are not terrible!"

In the office, a group of boys from UU Reading www.uukanshu.com hid behind them, talking excitedly and talking softly. One by one, they told how brave they were just now, how many Yunyun they killed, they didn't have the previous panic, they changed a lot.

Junior high school students are very malleable and grow just as fast. They suddenly adapted to the **** and brutal killing in the last days. It seems that every man is hiding the violence factor.

As for the girls, one by one, blindfolded, sitting in the corner blankly, staring at each of their **** and brainy hands.

Today, it is too exciting for them, and it would be nice without syncope madness.

Salamander's expression was awkward, and she was a little erratic when she walked, feeling weak and pale, adding a touch of tenderness to her pale face.

"Total ... there are eighty-nine brains ... brain crystals ... vomit!"

After saying this, she immediately covered her mouth and vomited to the office bathroom. Unfortunately, she didn't vomit anything, because she hadn't vomited before.

Qin Tiange didn't care, but looked at a small pile of crystals on the ground with excitement, with a total of 89 brain crystals, which was a great gain.

There are eighty-nine, which is enough to exchange for nine one-star hardening medicaments, plus a dozen or more that he originally had are enough for one hundred. He immediately found a marijuana bag, packed all the brain crystals, and resisted the sack to prepare to go out.

"You are waiting here. Before I come back, never go out. Otherwise, don't blame me for everything. Wait until I come back."

Before he left, Qin Tiange did not forget to warn him, or it was more appropriate to warn him.

Yan Liuxuan and others watched him leave, one by one, thinking differently, thinking that they were vomiting while digging their brains, they couldn't believe it, that was what they dared to do.
