

THE DARK AGES

Chapter 17 - Want to eat, obedient

When he came to the inheritance stone tablet, Qin Tiange looked excited, put his hand on the stone tablet, and looked at the dazzling objects in the light curtain.

“Brother is rich, buy buy buy ...”

Looking at a large number of good things, let's not mention Qin Tiange's excitement, but he calmed down after all, after all, he had struggled for fifteen years in the previous life. Needless to say his psychological quality.

After I calmed down, he began to think about what he needs most. After thinking this way, Qin Tiange had a mind in mind and knew what he should do next.

“First of all, weapons. Those students can't help me hunt more zombies without weapons.” Murmuring to himself, Qin Tiange found a weapon project.

There are a wide variety of weapons, including hot weapons, cold weapons, high-tech weapons, and so on, but only one-star weapons.

A little thoughtful, Qin Tiange muttered, “The guys don't need very good weapons, ordinary steel knives can be used.”

查看 He looked at the ordinary steel knives, a bundle of ten handles, and a bundle of exchange price was only a one-star brain crystal, which is quite cheap, it is simply a blood sale.

There is also a one-handed steel shield, which is strong in texture and full of toughness, and is not a heavy weight. It is a good thing. Ten shields are tied together, and the exchange price is a brain crystal.

Not much to say, I bought ten bundles and ten shields at once, and started with a hundred steel handles and a hundred steel shields. These steel knives and steel shields are much better than the steel knives he made. After all, the heritage stele produced must be a fine product.

He spent twenty brain crystals, and Qin Tiange looked at another thing. A common set of steel armor and iron armor was very light in weight, but his defense was extremely impressive, but he needed a brain crystal.

He bought a hundred sets in one breath, and he was content with a sad smile, as if he saw a large group of students coming to help him kill countless zombies, and then Qin Tiange swallowed his saliva and continued to exchange.

Next, there are lances and crossbows. A bundle of ten shots and a brain crystal made of this steel is very cheap. The crossbow is very powerful, and it is a continuous crossbow. It can carry nine sharp steel arrows at a time. An ordinary crossbow with fifty steel arrows is only two brain crystals, which is also very cheap.

I didn't say anything, I bought fifty steel guns and fifty steel crossbows in one go, plus two thousand five hundred sharp Mitsubishi steel arrows as a gift, which was a real deal.

With the weapon and steel armor, Qin Tiange pondered, the next step was to strengthen the body's super potion, one star quench body potion, can not be less.

After buying the weapons and equipment, there are a total of 1,110 brain crystals on the body. Looking at the one-star hardening potion on the light screen, without talking nonsense, directly cost one thousand brain crystals and bought one hundred Star quench body potion.

"It's time for me to find a one-star armor, just in case."

Looking at the remaining 110 brain crystals, Qin Tiange quickly rummaged and finally found an armor that satisfied him.

Sturgeon Scale Armor: One star, super strong defense, can resist the attack of all one-star creatures, and exchange for one hundred one-star brain crystals.

Seeing this, Qin Tiange is satisfied. Although he can only resist the attack of a star creature, not everything can be defended, but it is at least the best equipment at present.

I exchanged it and dressed neatly here. I have had this experience in previous lives. It was not slow to wear, and in a blink of an eye, Qin Tiange was covered in a set of fish scale armor.

A full set of armor, black, covering 90% of the whole body. Except for the eyes, mouth, nose, etc., the rest is enveloped in the armor, which is completely a turtle shell.

After all the brain crystals had been spent, Qin Tiange regretfully glanced at the countless treasures and could only secretly sigh and turned to leave to return to the teaching building.

Xu returned along the road. Without much time, Qin Tiange returned to the seventh floor. As soon as he set foot on the eighth floor corridor, he heard a loud noise and couldn't help secretly being angry.

“What are you doing, want to grab our food?”

告诉 “Tell you, I want no way!”

“That is, this is the stuff of Qin Boss. If you dare to move, that is to find death.”

On the eighth floor, in an empty classroom, two groups of people confronted each other. One of them was relatively small, but each one was full of momentum.

On the other hand, a large group of people on the opposite side, more than a hundred people, but most of them were a little scared, pale, and obviously lacking energy.

He was headed by the deputy headmaster. He brought a large group of surviving students to the eighth floor. Everyone saw that there was something to eat, and he immediately took it around.

The results are self-evident, those boys who want to take things are taught by Moda without any exception. At this moment, several boys are still lying on the ground mourning.

“How do you students hit people?”

Vice Chancellor Li Yuchun stood up and said righteously, scolding a group of junior high school boys opposite him, and was very angry.

He pointed to Moda and said, “Do you see that you still look like a student? Think of the lawbreakers in the outside world. Everyone is a classmate. If there is something, they should be divided into points. Do you think this is the reason?”

“Yes, that’s the truth!”

“Everyone is a classmate. How can there be any difference?”

“You are too much.”

A large group of students across the street immediately coaxed, and the scene was messy. Many girls here were a little scared and hesitant, but Liu Yan couldn’t bear it.

She actually agreed to share the food to the opposite classmate, but Chen Xi next to him didn’t agree, not to mention that she didn’t like the people there, let alone know them, and said that these things belong to this guy Qin Tiange, without him Agree to these people without permission?

I was kidding, Chen Xi knew Qin Tiange's ruthlessness, and did not blink when he killed him. If one was not good enough to anger him, he would have no good fruit to eat.

"Is it really good for us to do this? Is it okay to give them a little bit?" Liu Ye hesitated and finally asked.

As soon as Xi Chenxi pulled her arm and shook her head gently, she warned in her ear: "You'd better not do anything, otherwise I can't guarantee what the man will do."

Upon hearing Qin Tiange's, UU read the book www.uukanshu.com Liu Ye's instinctual fear, hesitated a little, and finally became silent. She was very clear that Qin Tiange was powerful, and she felt the **** murderous faintness of the other side, who was definitely a murderer.

"Who said to divide me?"

At this moment, there was a faint utterance outside the classroom. Everyone was shocked by instinct. They brushed their heads and looked at each other, and saw a figure with a tall figure, wearing a black fish scale armor, slowly carrying a tang knife. Come in.

The person who came was Qin Tiange, who was wrapped in a dark armor, and his exposed eyes showed a gleam of cold light, sweeping everyone in the room, and then he stood in front of several Moda boys and patted them Shoulder.

"Yes, you did a good job, there will be rewards later." Qin Tiange is very satisfied with these boys.

When the Moda people heard it, they were immediately excited and didn't know what to say. The boss didn't seem to have a hard time talking. This was their heart-feeling at the moment, and he secretly warned that he must follow the boss.

“As for you?” Qin Tiange turned around, his eyes were cold, like a knife scraping across the face of a large group of people across the face, and the cold eyes like a knife scared everyone to lower their heads unconsciously, and did not dare to follow He looked at each other.

“If you want to eat my food, it is not impossible. The premise is that you must obey my instructions and help me to do things. Otherwise, you don’t even think about it.” Qin Tiange said disdainfully and simply said something like this.

As a result, the vice-principal on the opposite side was furious and immediately yelled, “This ... classmate, please pay attention to your words and deeds. This is the school. I am the principal here. You are definitely not allowed to join the gang and want to engage in a black society. ... “

Uh...!

Suddenly the vice-principal was talking, suddenly speechless, because one hand was already around his neck, and the whole man was lifted.
