

# THE DARK AGES

## Chapter 2 - Emperor development plan?

Alas ...

“Oh, let me go, you let me go ...”

Wu Chenxi was struggling, and the tape that had been torn halfway from his mouth was spit out. He immediately made a frightening cry, very frightened.

She was really scared. She was kidnapped by two big men, and she was even injected with sleeping pills, and she was still nervous after waking up halfway.

Walking in the car, she was trying to escape, but suddenly felt that someone was pressing on her body, and she was not scared.

At this time, I found out that it was the young kidnapped who was the same as her. Later, she looked at the young man and saw the meaning in the other's eyes and asked her to help tear the tape.

I tore apart the other person's adhesive tape. I was waiting for the other person to help her too, but I didn't want to see Qin Tiange using her mouth to help her tear the adhesive tape.

She didn't wait for her to be angry, but saw Qin Tiange torn to a half and stopped suddenly, then quickly bit back a hairpin on her forehead hair.

Until this time, she found in horror that the two big men who had kidnapped her had to violate her.

In the wild countryside, in the fear, she could not do anything to get help. As for Qin Tiange, the young man no longer needed to be counted, and the other party was tied up, which made her desperate.

“Hahaha, chick, let the grandfather take good care of you.”

The man with a scar on his face sneered, dragging Chen Xi to a bush and dropped it on the grass, and then began to untie his belt pants.

同样 The bald man on the side is the same, while he is smirking, unfastening the belt, turning off his pants and revealing the disgusting thing.

“No, you can’t do this ... Please let me go ...” Chen Xi started begging for mercy, but unfortunately the bald and scar did not listen at all.

They have spermworms on their brains at this moment, and their heads are filled with her body. The two disgusting gadgets are trembling and they obviously need a woman to vent.

This woman is Chen Xi, who is full of horror in front of her eyes, and in grief and indignation, Chen Xi is really in despair, making every day irresponsible, and making the earth and the ground ineffective.

“Bald, you use her mouth first, I’ll have a shot first.” Scar scared forward with his disgusting stuff, and laughed again and again.

The bald head is the same, put the gun on his pants off, ready to step forward, the two should be refreshed together.

Alas ...

Chen Xi’s eyes were widening suddenly when she was crying desperately, and then she shrank suddenly, because she saw a figure quietly appearing in the woods, it was Qin Tiange.

She was very excited and extremely excited, but she was still very clear that she must not show it at this moment, otherwise Qin Tiange would never have a chance to save her.

At this time, Qin Tiange has quietly touched it, watching the bald man and the scar both unfasten his pants and take off, knowing that the opportunity is coming.

What's more, looking at the bald head and putting a gun on the pants, the instinct of 15 years of exercise in the last days told him that the opportunity came.

Qin Tiange's body blood suddenly stopped, and the footstep quietly approached the bald man at the back, without sound, and the other side did not notice it.

Well!

Suddenly, he covered his bald mouth with a lightning bolt from behind, and then immediately felt that the neck and carotid artery had been pierced by something without waiting for him to respond.

That was a delicate hairpin that stuck into his carotid artery. Qin Tiange's face was cold and cold, his eyes froze, and his wrist suddenly swiped to cut the whole neck aorta of the bald head.

"Let me, let me ..." Suddenly, Chen Xi screamed directly, struggling in fear, struggling to resist, covering up the snoring sound of bare hair with Qin Tiange, quietly killing the bald man.

Suddenly, the bald man covered his mouth and held his neck tightly. The whining sound was completely covered by Chen Xi's scream.

After a few seconds, the bald man didn't move, Qin Tiange lowered his warm body gently and quickly grabbed the gun and aimed at the back of the scar.

boom!

A gunshot stunned the forest birds and beasts!

On the grass, Chen Xi's face was covered with blood, and his eyes were frightened. His pupils enlarged and looked at the Scar Man who was slowly falling to the ground in front of him, and the other half of his head was blown.

Brain plasma mixed with blood and sprayed Chen Xi's face. He did not know why his companion bald head killed him. Did he want to enjoy this chick alone, and then push things on him?

In his final consciousness, he thought that this was a bald head shot from behind, and it was a bald head that killed him. He didn't know who killed him until he died, and he never thought it was Qin Tiange.

Qin killed two people in a row, but Qin Tiange's face was expressionless, as if it wasn't a human being, but two chicks.

I saw him calm down to an appalling complexion, and Chen Xi couldn't bear the fear in his heart. Who is this young man and why is it so terrible?

Ooz!

Qi Qin Tiange ignored her thoughts and found a dagger from Scar Man's pants, and quickly cut open the rope on Chen Xi's hands and feet.

"Time is running out, keep up, let's get out of here!" Throwing down a sentence, Qin Tiange stood up and rummaged quickly over the body of the bald head and the scar.

He quickly found a few stacks of money and two mobile phones. The phone was thrown away, and there was a magazine and a sharp dagger.

With two daggers and a gun, he stowed everything away and looked at Chen Xi, who couldn't keep his eyes, and he kept walking out of this small forest.

Behind me, Chen Xi's face turned pale and his eyes were frightened. After realizing Qin Tiange's cold and ruthless methods, he realized that he would be afraid.

看着 She watched Qin Tiange leave without a word, shocked, she could not care about the two corpses on the ground, and ran to keep up, but suddenly stopped.

She found that there was a delicate hairpin inserted around the neck of the bald man's body, which was her hairpin, and Qin Tiange took her mouth away.

Chen Xi's eyes flickered, she stretched out her hand and pulled out the starting card, held it tightly in the palm of her hand, and did not care about the disgusting blood on it, which was used by Qin Tiange to kill the bald man, giving her a strange mood Fluctuations in my heart.

“Hurry up, don't grind!”

Qi Xiaoge's impatient voice came from outside Xiao Xiaolin, awakened Chen Xi, and hurriedly rushed out of the woods, his clothes were disheveled, and he looked very embarrassed.

Qi Qin Tiange was impatient. If it was not for the sake of her being the only emperor-level woman in the previous life, she would not have paid much attention to her. UU Reading Book [www.uukanshu.com](http://www.uukanshu.com)

上 “Get in the car!” The harsh tone, indifferent to the expressionless face, startled Chen Xi, who just came out, but still obediently got in the car.

Because she knows that only this Qin Tiange can take her out, otherwise it would be miserable if she was alone in the old forest in the mountains.

As soon as Xu got in the car, Qin Tiange started the car, turned the car directly, and drove back. It quickly disappeared on this section. No one knew that there were two bodies in the grove here.

After the last days, although the original car was gradually eliminated and other high-tech things were used, at least his car skills were still very good.

In the car, the atmosphere was dull, Qin Tiange didn't say a word, Chen Xi in the back seat was shocked, his eyes were a little loose, and he stared at the Qin Tiange driving from time to time.

“Can you ... send me to the nearest town to get me off?”

After boring for a long time, Chen Xi gathered her courage and asked carefully, asking Qin Tiange, who was driving in front of her, a little funny.

Who is Wu Chenxi? In the previous life, there was only five emperor-level powers in the respected female emperor level.

In the previous life, the so-called three emperors and five emperors and thirty-six kings refer to three first emperors, five emperors, and thirty-six kings. All of them are hegemonies and super powers.

Now, such a former hegemon even talked to him carefully, for fear that he would be angry, making Qin Tiange's heart strange and funny.

It's not funny but funny, he still spit out two words coldly.

“No!”

Just kidding and letting her go? So how did he implement the plan to develop the emperor? Moreover, judging by the time of the previous life, the end of the last days is not far away, and it should not take a few hours before this world will become the end of the world.
