

## Dark Ages 271

Chapter 271 - Lightning flint, 1 sword throat

Roar!

Suddenly, the corpse baby in the sky opened his mouth and shouted, and the amethyst pupil issued two killings, and drove the flying corpse to scream and dive down, pointing directly at Qin Tiange.

“Myself, fire!”

Qin Tiange screamed and ordered his uncle to open fire. At that moment, a horrible beam of electromagnetic energy came through and banged on the flying beast.

On clicking, half of the wings were lost, the corpse screamed, and He shrank back, daring not to take a step forward, hovering in the air crookedly.

On the corpse, Zifa’s small face was extremely angry, his eyes almost burst into flames, and he kept snarling at Qin Tiange, looking very angry.

But she dared not approach, hovering far outside the base, and dared not come forward easily, because the electromagnetic energy gun locked her.

“Hum, Jiji, once she dares to approach, directly hit me severely.” Qin Tiange Han faced and ordered Jiji.

The purple-haired corpse baby was very dangerous and could not let her enter the base. If she had not been able to hide quickly, she might have been severely damaged or killed by the electromagnetic energy cannon.

But unfortunately, the opponent’s flying corpse was not slow, and he evaded in advance, which avoided the possibility of being blown up by a shot.

Seeing that she was afraid to come forward, Qin Tiange left Ximen on a white tiger and rushed to the south gate under the angry roar of Zifa Corpse.

Roar!

Zifa Corpse appeared very angry, and drove the flying corpse around the base quickly, and came to the outside of the north gate wall, but it caused the warning of the superlord who carried the cross.

The zombie growled and screamed at the sky, and issued a stern warning to the coming Zifa baby, as if to declare that it was its place.

“There is competition between the zombies ...” Qin Tiange saw this, and thought about this question secretly.

There is competition between the four zombies overlords, but there is competition. Once they meet, it is a fight.

Zifa’s corpse infant did not approach, let alone ignore the warning of the overlord in that corpse, but stared at Qin Tiange’s figure.

“Does she really only remember to hate me?” Qin Tiange was upset. Not only was he present, but the unscrupulous Taoist, why not remember to hate each other?

Huh!

At this moment, changes occurred on both sides of the East Gate and the South Gate, and the corpse suddenly launched a crazy attack.

It took the lead among the two corpses, one of which was a five-star gold armor corpse and one lightning zombies, leading their respective zombies to launch raids.

At the same time, the zombies at the North Gate also moved. With the roar of the terrible zombie carrying the cross, the corpses surged and madly came.

The only thing that didn't move was the purple-haired corpse baby, staring at Qin Tiange far away and not launching an attack. It seemed to be very worried about the large electromagnetic energy cannon at the base.

“Say yourself, open the defense circle of Truss.” Qin Tiange ordered directly, and saw countless electric lights bursting out of the base wall, intertwined with lightning.

Million volts of artificial lightning enveloped the entire base, forming a terrible circle of defense.

At this moment, Qin Tiange had to order to open this layer of defense. Even, he stared at the particularly large zombies in the corpse, which were some of the more advanced zombies.

“Master, three electrical towers were destroyed.”

At this time, a warning from his wrist was sent, Qin Tiange looked startled, looked up, and several energy towers erected outside the base were destroyed by the zombies.

Seeing this, Qin Tiange secretly made a bad noise in his heart and immediately ordered: “Turn on the energy tower and attack me.”

boom!

Several energy towers bloomed with countless electric lights in an instant, and lightnings intertwined, covering all within a kilometer.

Suddenly, numerous zombies mourned and were burned into coke by lightning. Unfortunately, several energy towers were quietly destroyed by the zombies, resulting in a large piece of the lightning network, unable to form an effective defense, and being broken through by countless zombies.

Huh!

At this moment, a scream came from the direction of the South Gate, and a lightning rushed to the wall, sending endless electric light, which killed a defensive officer on the wall.

Many people were electrocuted on the spot, causing huge confusion for a while. No one saw what was attacking at all. Only one lightning flashed across and someone fell to the ground and died.

“Lightning zombie, \*\*\*\* it!” Qin Tiange lifted his eyes and suddenly became angry. It turned out that the lightning zombie had hit the city wall.

It was full of arcs, and it was not afraid of the continuous intertwining lightning bolts outside the base. Instead, it was more mental and powerful. It killed directly and no one could stop it.

At lightning speed, no one was an opponent at all, and Nie Teng, who was at the south gate, was the first to be attacked.

boom!

A lightning strike struck Nie Teng’s chest, his armor shattered, his body flew out, and nearly fell off the city wall.

He was lying there, vomiting blood, and his chest was scorched, apparently suffering a serious wound, making it difficult to fight again.

One face-to-face was severely damaged by Lightning Zombie. There were pieces of minced meat scattered all around, and some soldiers were ruthlessly torn by Lightning Zombie.

Roar!

A shock came from the tiger shouts, accompanied by a spear piercing through the air, and a bang slammed on the fast-flying lightning figure, hitting it on the spot.

That figure was exactly the Lightning Zombie. After being beaten, he stopped on the city wall and yelled at the appearing Qin Tiange.

“Back up, I’ll deal with it!”

Qin Tiange leapt down from the back of the white tiger, and Euphorbia drew aside to him, pierced into the ground steel, and inserted there.

With a bang, Qin Tiange pulled out the bronze sword and stepped towards the lightning zombie step by step.

Hiss!

Suddenly, the air burst, the light flashed, and the zombies lost their sight. All of them turned wild and quickly retreated.

I was surprised to see that Qin Tiange lifted his sword and heard a crunching sound. A zombie figure appeared on the left, his body was coiled with an electric arc, and his claw was being opened by a bronze sword.

“Let’s take a look. Is your speed fast or my sword fast?” Qin Tiange stepped out with a sneer and snorted, the bronze sword cut through the air.

Hearing only a hissing sound of leather cracking, Lightning Zombies quickly retreated, and the blue muscles on his chest were transformed into a sword mark, with blood flowing out, with an electric arc, looking very strange.

Huh!

The Lightning Zombie was furious. It was wounded for the first time. It has always killed its enemies. Now it is his turn to be injured.

It roared, the arc flashed, and it suddenly exploded, turning into a flash of lightning flying fast around Qin Tiange, no shadow could be captured.

Nearby, all the people pushing away were shocked and looked at Qin Tiange surrounded by lightnings. No zombies were seen around, only lightning turned into a prison cage covering him there.

Humph!

Qin Tiange snorted, his eyes fluttered with silver and silver, and he caught the silhouette of a lightning zombie that was flying fast, and suddenly a sword passed.

With a slap, the lightning zombie claw hit the bronze sword, and a snarling roar, a strong current surged along the bronze sword, rushing into Qin Tiange's body, causing a pause in his body.

At this time, the lightning zombie turned into electric light and disappeared, and a horrible claw was handed to him from the back, and the arc was winding.

“Sword of the Overlord, die!”

Suddenly, the stiff Qin Tiange turned suddenly, the bronze sword turned into blue light, a mysterious star power surged out of the body, intertwined into a horrible sharp edge, and fell to the shadow of that lightning.

Click!

The invisible Jian Mang swept across, clicked, and the claws with the arc shattered on the spot, shattered from the middle and spread to the arm.

A groaning sword sings, accompanied by a strange flash of silhouettes, with a touch of sensational arc, and cut through the head of the lightning zombie.

I was stunned, and the figures were staggered. Qin Tiange's figure appeared on the opposite side, carrying a bronze sword. Sisi blooddrops fell from the sword tip.

Looking behind him, the Lightning Zombie was stiff there, the face of the cricket was fixed, a small crack appeared on the forehead, black blood penetrated, and then a tear appeared on the neck.

Lightning Zombie slowly bowed his head, grunted, his head rolled to the ground, his mouth closed, and he wanted to make a roar, but unfortunately he could not cry out.

The sword of overlord, unparalleled, and five-star lightning zombie, so Qin Tiange gave a sword to his throat and killed him.

boom!

Just after killing Lightning Zombies, I heard a loud noise coming from the east gate. Over there, an eight-meter-high gold armored corpse jumped up the city wall, crossed the electro-optic defense circle, and killed him directly.

The huge body was unstoppable, and a large group of soldiers were photographed on the spot as flesh, flesh flew, and blood and blood poured wildly.

“Siege it!”

Commander Chen Wu’s eyes were almost cracked, and he was about to spit fire. He watched his gang of elite soldiers be crushed relentlessly, and his anger could be imagined.

Chapter 272 - Brutal kill

boom!

Dozens of people flew up, flesh and blood flew across the ground, and were killed on the spot.

The five-star gold armored corpse was so powerful that someone scrapped it with a slap. The tail swept around and the crowd was cut into two sections on the spot. The scene was extremely bloody.

“Go up, don’t let it rush into the base!”

Chen Wu was so angry that he was about to kill with a knife, but was pulled back by several officers beside him, preventing him from rushing forward.

As commanders, how could a group of officers watch their commanders die? Therefore, a group of them pulled the commander back directly, and an elite soldier immediately jumped on them.

“kill!”

Dozens of people surrounded the Jinjia corpse and attacked frantically, but unfortunately, the body of the Jinjia corpse was too large. The eight-meter-high body was extremely horrible, swept by the mighty force, and slapped two people immediately under his slap.

“Asshole!”

Some soldiers roared, picked up a bazooka, fired a shot, and Jin Jia’s body took a small step back, resulting in no injuries on his body.

Yes, without any injuries, the power of the rocket can’t break the dense golden scale armor on its body, and its defense is very strong.

Roar!

The Jinjia corpse roared, and its huge claws swept fiercely. Five soldiers who lived around it were instantly beaten into two sections, and their intestines flowed to the ground.

The tragic and extremely violent killing, the East Gate was rushed to the city wall by the Jinjia corpse, the electromagnetic coil was destroyed by it, and countless zombies rushed up in critical condition.

Uh ...

Suddenly, Jin Jiashi rushed for a while, his body leaped up high, jumped into the base from the 50-meter-high wall, and opened the killing ring.

Wherever it went, no one could stop it. Many people below the base were trampled to death on the spot, how many people were killed and how many people went up.

For a time, the East Gate was in chaos, and countless zombies rushed up on the city wall. They were opened by Jin Jia’s corpse and killed.

The lightning defense circle was declared broken, and everyone had to face the endless zombie impact, which caused the corpses to accumulate on the entire city wall, the flesh flying, and the scene was terrible.

“Who can stop such a powerful zombie?”

The Beijing Command Center, watching this huge Jinjia corpse rushed into the base to kill the Quartet, Chen Guodong and other generals were pained, watching the soldiers who went forward and rushed to kill the Jinjia corpse were killed, they were heartbroken.

These are elite soldiers. At this moment, they were killed by ruthless crushing. Even the armored corpse was inaccessible, the bullets could not be penetrated, the rocket bombs were not injured, and the grenade had no effect, but they killed many of them.

Seeing that the East Gate was about to fall, Chen Wu couldn't bear much of it. He broke up with a group of officers to stop it, and personally carried a knife and took the guard camp to kill it directly to stop the golden armored corpse.

“Dead to stop it for me!”

Chen Wu rushed up as he roared, and a group of guards turned mad, but had to rush to protect their commander.

At this moment, the soldiers were killed one by one, that is, some women rescued under the city walls were ruthlessly crushed by the Jinjia corpse and killed madly.

Roar!

The Jinjia corpse was roaring and seemed extremely violent. The huge body, the golden scale armor flickered, the giant claw swept across, and he grabbed a man and stuffed it into his mouth.

“Animals!” Chen Wu was so angry that he rushed to the front and slashed on the calf of Jinjia's corpse with a sledge, and a spark exploded.

As a result, Jin Jia's corpse swept his tail, slammed into his chest, and slammed him out. If a group of guard battalions fought to protect him, it would probably kill him.

Even so, Commander Chen Wu was also hit hard. After all, he was more than 50 and 60 years old and already old.

“commander!”

Qin Tiange, who had just arrived at the east gate, saw this scene, and his eyes almost burst into flames. The Jinjia corpse even entered the base and opened the killing ring.

Qin Tiange's heart burst into anger as he watched the corpse smashing across the ground, wailing and screaming.

“Sin beast, look for death!”

With a violent drink, he was surprised to see a white tiger rushing forward, and suddenly leapt from the fifty-meter-high wall.

The tiger shook into the sky, and as the white tiger flew in, Qin Tiange waved his halberd and smashed it.

boom!

A loud sound came, the ground shook, and the halberd fell. The force of three hundred people accelerated with a white tiger and bombarded from a high position. On the spot, the eight-meter-high Jinjia corpse knelt on the ground and smashed a small pit.

Alas ... Jinjia's corpse roared and gave out an angry roar, and the powerful anti-seismic force made Qin Tiange and his white tiger mount have to recede several meters in a row.

Bai Hu retreated, issued a tiger howl, growled low, and looked very irritable. On the other hand, Jin Jia's corpse was severely hit and knelt on the ground, but he stood up as if nothing was happening, and his tail slammed the ground where Qin Tiange was located.

Qin Tiange looked at the dead bodies all around, scattered pieces of meat, and some people did not stare at death. Commander Chen Wu was guarded by a group of guards and was seriously injured and unconscious.

“court death!”

Seeing this, Qin Tiange's anger couldn't stop erupting, he suddenly jumped down the white tiger's back, the whole person jumped up after landing, and waved the halberd to the head of Jin Jia's corpse.

A heavy halberd with heavy gravity, with a force of three hundred people, burst into a blast, that is, the Jinjia corpses were somewhat difficult to take directly, and they had to take a step back and raise their giant claws to hit them hard.

Huh!

A halberd fell, the giant claws turned empty, and the two collided into a splendid spark. The smoke and dust soared around, and the ground was sunken a large area.

Between the two, the strength was violent, and they bumped into each other for a few times, but Qin Tiange was finally backed by the shock.

“Good strength.” Qin Tiange's face was slightly condensed, and the halberd trembled in his hand, not knowing whether it was excited or shocked.

“Everyone stepped back and blocked the zombies outside the walls.”

He yelled, his body rushed forward, accelerated in three steps, his body suddenly jumped high and jumped tens of meters high, and the whole person held up the halberd and severely fell down.

Huh!

The Jinjia corpse snarled in the sky, and his two claws slammed into the sky, welcoming Qin Tiange from the high chop, and the two instantly collided.

With a bang, the ground collapsed and sunken, and the gravel rolled and scattered along with a wave of air. No one dared to approach within a thousand meters.

“I think you can pick it up a few times.” Qin Tiange rolled over to the ground, his face was somber and he murmured, and the whole man rose into the sky at high speed.

With the help of the impact of falling from high altitude, he smashed down with the strength of his three hundred people, even with a heavy unmatched halberd, and used arrogant power to fight this giant gold corpse.

when! Dangdang ...

After another blow, the ground collapsed continuously, and Jin Jia's body was beaten back and forth, stepping on the concrete ground, causing it to grow angry.

Alas ... Jin Jia's corpse was shouting angrily, Xun Long's stepping on the ground, rushing up madly, dancing with two claws, slamming Qin Tiange's body, but they were all avoided.

The speed of the latter is not fun. After several consecutive bombardments, the ground was shot by the giant claws one by one.

Suddenly, in the moment of avoiding the attack of Jin Jiashi, Qin Tiange's body rolled back, and the whole man stood with a halberd, and his breath suddenly changed.

boom!

An extremely strong momentum broke out, hair fluttered, and a bright starlight was sprayed inside the body, and a full three hundred points of starlight gathered on the Euphorbia, blooming a bright light, which stabbed many people around. Keep your eyes open.

“Ghosts and gods, dominate the world!”

With a long howl, I saw a cloud of blue mist vacating into a faint huge figure Holding a ghost and halberd, with a strong breath and a crown of heaven.

The overbearing giant figure swooped down from the sky, hazy, green mist gathered, little stars, and a fierce halberd fell down.

boom!

There was a loud noise, the light mist blew up, endless blue light shrouded there, the broken stone penetrated, and crackling sounds were heard around, and the dust was flying all over the sky.

Uh ...

For a long time, there was a scream of extreme sorrow in the dust. Everyone looked up, staring at the smoke that was gradually spreading.

There, a huge pit appeared in front of him, and the entire body of Jin Jiazhe was caught in it. His head was smashed by a large halberd. Most of his body was cracked and broken, blood spewed, and looked extremely terrible.

Jin Jia's body moved, trying to struggle, but unfortunately his head crooked, and his breath was completely cut off. Its half of its head and its body were completely destroyed by the halberd that had just stunned the ghosts and gods.

That blow was overbearing, arrogant, shocking, weeping ghosts!

## Chapter 273 - Weird behavior

“Ahem ...”

In the dust, Qin Tiange’s figure slowly emerged. Euphorbia supported the body, coughed up blood continuously, looked pale, and was not injured lightly.

Regardless of the fact that he just used the blow of ghosts and gods to kill Jinjia Corpse just now, but the shock force that he himself suffered caused him severe damage. If he had not died, he might not be able to move now.

“This boy is really powerful. It is terrible three points compared to the first master in our military region. It is incredible.”

The Beijing Command Center, Chen Guodong and other veteran generals looked at the screen, and the Jinjia corpses that had been raging and killing the Quartet were killed by Qin Tiange.

The blow just now was truly shocking, the Weeping Ghosts and Gods, and these old Chinese generals were stunned. That kind of overbearing momentum, the power of heaven and earth, was truly terrifying.

“This kid has a future, just don’t know if he will be like other ambitious people?” Chief Xia Ming said with some concern.

No one was present at the scene, let alone answer, the strong can be applied everywhere, especially in the context of the dark end of the day, the strong can make people more respectful, even awe.

The strength demonstrated by Qin Tiange was enough to make these old Chinese generals feel astonished and had to take this rising young man seriously.

“I don’t know, how many strong men like him exist in Huaxia?”

At this point, Chen Guodong couldn’t help flashing this thought, thinking of the talents and talents of Huaxia, how many strong men like Qin Tiange appeared in this troubled world?

As a group of veteran generals in Beijing talked about speculation, Qin Tiange calmed down and recovered his ruddy complexion next to the Jinjia corpse next to the Lotus Mountain Base.

The internal trauma of the internal organs were repaired one by one, holding the halberd, standing on the half of the body of the Jinjia corpse, and directly cutting off the other half of the head.

With a click, half of Jin Jia’s head rolled down, and he was even broken by Qin Tiange’s halberd. This really relieved him.

These powerful zombies have strong self-recovery ability. He is not sure if the Jinjia corpse can recover again. It is safest to directly blast the opponent’s head.

Roar!

At this time, with the killing of the five-star Jinjia corpse, the corpse swarming from the outside of the city wall was also brought under control, repelled back, and snatched that part of the city wall.

Riding a white tiger, Qin Tiange rushed to the city wall and looked at the countless zombies outside the east gate, suddenly chaotic.

The gold armored overlord was killed, the overlord who controlled the corpse was gone, the natural corpse was a bit messy, and some powerful high-level zombies began to growl with each other, as if to compete for overlord authority.

“Bring the commander to the rescue, others hold here ...”

Qin Tiange glanced at the coma commander Chen Wu, secretly sighed, left the command and rode the white tiger to leave the east gate. He was going to the north gate, where there were two terrible zombies.

One is a weird zombie mutated from a church priest, and the other is a more terrifying and mysterious corpse baby.

Roar!

The North Gate was also a mess. Since Qin Tiange left, the lightning defense circle of the North Gate has already been destroyed.

The zombie shrouded in a black robe, dragging a large iron chain, carrying a cross on his back, and tying half of his \*\*\*\*\* corpse to his head, made him hairy.

Wow!

A thick iron chain swept across, banging twice, and the Truss coil outside the city wall was shattered there on the spot and the power was completely cut off.

However, the zombie was bombarded by several lightning bolts along the iron chain, and it struck ten meters away before stopping, and his chest burst into white smoke.

Zizi ...

The zombie's chest was filled with white smoke, a horrible liquid flowing out, and the arc flickered a few times before disappearing.

It was not electrocuted, but it recovered quickly after hurting his chest. The strange black light kept pouring out of his body, and then he repaired the wound.

Behind that, on the black cross, there was a constant dark light, as if it was a terrible demon from Hell.

Roar!

The overbearing roar of the zombies was an extremely pale face in the black robe. It was a zombie transformed by a foreigner, or a church priest.

A quick flash, he was surprised to see Hei Mang sprinting across the wall, and a cross smashed dozens of soldiers, rushed to the wall on the spot, and entered the base.

It did not stay, but continued to rush, killing all the way, rushing all the way, rushing towards the direction of Lianhua Mountain.

This move made everyone look wild, and it is not clear why this super zombie overlord went straight to the base of Lotus Hill, but it was definitely not a good thing.

“Stop it!”

Yang Xiaolin's face changed greatly, and he immediately led the headquarters to continue to catch up, but unfortunately, the zombie was too fast, and kept on the way, waving the cross to kill a \*\*\*\* path.

Whoever blocked it, no matter who it was, was ruthlessly killed, and the cross gave off black gas, and wherever it passed someone must have broken up and flesh and blood was strangely devoured by the cross.

Outside the city wall, Zifa's dead baby stood silently on the flying beast. Looking at the side of the city wall, there was no attack. Instead, he stared at a white figure that kept coming, and it was Qin Tiange.

“General, that super zombie rushed towards Lotus Hill.”

As soon as he arrived, he saw an officer covered with blood, ran up to report the situation, and pointed at the direction of the base of Lianhua Mountain.

Qin Tiange heard that the color of the back changed slightly, and looked up, and sure enough he saw a dark shadow rushing fast, waving the cross and killing all the way, rushing towards the direction of Lianhua Mountain.

He was horrified and didn't know why the zombie rushed to the Lianhua Mountain, but he didn't hesitate any more and drove Bai Hu to jump down the city wall directly to catch up with the weird zombies.

Roar!

At this time, the purple-haired corpse baby outside the city wall snarled as soon as he saw Qin Tiange, driving the flying corpse to rush over.

As a result, a beam of terrible electromagnetic light broke out inside the base, hitting her in the air area directly, and instantly burst the flying beast.

The body of the purple hair corpse was falling and landed steadily, looking at the constant roar of the base, looking very angry.

When she rushed to speed up and wanted to rush into the base, she was severely bombarded by the electromagnetic energy cannon.

Boom boom ...

Three consecutive beams of electromagnetic energy beams bombarded the ground and exploded, making three bottomless pits. Unfortunately, the purple corpse baby hid.

The electromagnetic gun ceased, and instead of continuing to bombard, she locked her figure firmly and fired as soon as she approached the base.

Roar!

The corpse baby roared and kept roaring, but it was helpless. Although she was powerful and mysterious, she was not a five-star.

As for why the corpse can be ordered, that is her instinct. This corpse baby is extremely strange and mysterious.

Zifa's corpse baby was blocked outside the base, while Qin Tiange pursued the weird zombie rushing towards the Lotus Mountain.

“Animals, don't you stop?”

Qin Tiange rode the white tiger at a fast speed, raised his halberd and threw it out. The halberd burst into the air, breaking through the air, as if a lightning strike.

when!

Hearing only a loud noise, the zombie turned back and waved the cross, blocking the erected halberd and inserting it on the ground not far in front of it.

The Robe of the Black Robe snarled, the cross was coiled with black air, turned and rushed away, flashing directly into the north gate of the Lotus Mountain.

Seeing this, Qin Tiange scolded, riding on a white tiger, rushing forward, picked up the halberd, rushed into the North Gate, and caught up with the weird behavior.

Chapter 274 - Reaper 1 Arrow

At the north gate of Lianhua Mountain, a zombie wrapped in black robes rushed in, but before it rushed to halfway, the ground in front of it suddenly rolled up. WwΔW. “Ksnhuge” ge. La boom!

The soil burst, and huge roots rushed up, entangled directly around the body of the super zombie overlord, tangled up.

Roar!

The zombies roared and were enraged by the sudden change, the cross waved fiercely, and the black gas billowed, breaking the inexplicable roots with a click.

It opened the dense root system, waved the cross frantically, exhaled a black gas, and even corrupted the root system that rushed around.

Soon, the zombie rushed over, only to discover that there was a strange colorful lotus flower blocking its way.

Seeing this, the Super Zombie roared angrily, waved a weird cross, rolled black gas, and whistled away.

when!

The two root systems turned into tentacles and struck them. With a bang, the black cross was blocked, but the root system was corroded and melted by the strange black gas.

The colorful lotus danced frantically, and the lotus leaves were entwined, turning into a tentacle that slammed fiercely, and the roots rushed from the ground to entangle the zombie.

It was just that the zombies were too powerful, especially the black cross, with some terrible power, and a weird dark air was blowing between them.

The goblins couldn't stop each other, and they were rushed over by the super zombie, and suddenly made a slight scream in anger.

“Damn!”

Qin Tiange, who had just arrived on a white tiger, was furious when he saw the angry little fairy and the super zombie who rushed over.

The root of the goblin was corroded by black gas, which was strange and unpredictable, and the lotus leaf tentacles were smashed, and suffered a lot of trauma, but fortunately did not hurt the origin.

Qin Tiange threw down two drops of life fluid, too late to comfort the little fairies, and hurriedly caught up with the white tiger.

The super zombie ran towards the entrance to the underground base. When he saw this, Qin Tiange was shocked and looked suspicious.

“Why did the zombie rush towards the underground base?” Qin Tiange chased, thinking about this question anxiously.

The five-star super zombie ran towards the underground base, and definitely had a purpose, or there was something in the underground base that attracted it.

Thinking of this, Qin Tiange couldn’t calm down, thinking: “Is it the breath of the super serum that makes it rush in?”

It is very likely, but Qin Tiange feels wrong. Even if the super serum has a fatal attraction to zombies, it has been completely destroyed by accident.

So why did this weird zombie rush into the underground base?

Woo!

Seeing that the zombie was about to rush to the entrance of the underground base, Qin Tiange lifted his halberd and threw it out fiercely, taking the back of the zombie in front.

Unfortunately, the zombie was shrewd and turned back to give a blow. The black cross struck the halberd against the halberd and blocked it.

The black cross was weird and black. I did n’t know what it was or what material it was cast into, it could block Qin Tiange ’s halberd. It was incredible.

“Damn, why is this zombie so weird?” Qin Tiange couldn’t help cursing, this zombie turned into a foreign priest was too weird.

Blocking the halberd, the zombies roared violently and rushed into the entrance of the underground base, but at this time, two huge willow branches fell from the sky.

Bang!

With a loud noise, Liu Zhi swept away fiercely, and flew this super zombie out, tumbling for dozens of meters before stopping.

The old Liu Demon shot. It saw the zombie rushing in, and saw that the leprechaun was injured and could not stop the other party. He rose directly from the top of the mountain and ran down the mountain, just blocking the zombies.

Roar!

The zombies got up and roared and watched a huge willow rushing around, as weird as the scene was.

That willow tree is exactly the willow demon on the top of the lotus mountain. The roots of the tree twined like two feet and ran down, blocking the entrance of the base.

“I said, this is what I found. Should I kill it?” Liu Yao said when he came down.

A hint of expectation appeared on the old tree’s face, saying, “If I kill, the crystal nucleus is mine, you can’t grab it.”

Liu Yao’s words left Qin Tiange speechless, and he refused even without thinking. Just kidding, a five-star crystal nucleus definitely has a precious role. How can you waste it?

Since they all caught up, Qin Tiange must not let go, so he shook his head and rejected Liu Yao’s proposal. He said, “No, you help me look at the entrance to the base and wait for me to solve this weird zombie before giving you the benefits you deserve.”

After speaking, Qin Tiange rode on the white tiger and rushed, and Euphorbia swallowed a ray of black light, and straightly took the head of the super zombie in front.

when!

The black cross made a rung, and the Super Zombie was shaken back. It was amazing that the cross on his hand was unscathed.

Qin Tiange was startled, and had to seriously look at the zombies, blocking his attack several times, the black cross was a bit unusual.

Just like the unscrupulous Taoist priests he met, the seven-star sword on the other side blocked his Samsung bronze sword, so it felt uncommon.

“Roar ... stop ... I ... dead!”

Super Zombie roared angrily, and even roared out such a sentence, it is very conscious and can already speak.

As soon as the words fell, without waiting for Qin Tiange to be surprised, he saw a huge cross whistling and smashed it.

The wind and thunder roared, and the black gas billowed. When the head shrouded, a strange power that corroded everything was unpredictable.

Huh!

The halberd struck, and a slamming noise hit the cross, and a huge force shocked Bai Hu to retreat five steps before stopping.

It was violently scratching the ground, the tiger’s eyes showed bloodthirsty and fierce light, and it kept making low growling sounds, very angry.

“Boss, it’s faster for me to kill.” At this point, Liu Yao on the side spoke again, looking very anxious.

It urgently needs to devour this five-star zombie crystal nucleus to evolve, but Qin Tiange doesn't want it to help, and it's better to kill the leprechaun to eat the evolution?

After all, the goblin is the most loyal, with her own blood, there can be no betrayal, and the old willow is different.

“Ghost halberd, kill!”

Suddenly, Qin Tiange's body emptied and he leaped from the white tiger. When the man lifted the halberd in the air, he sent out a misty blue mist, and then turned into a terrible ghost. Overhead.

Directly and directly acting like a ghost and god, Qin Tiange seemed to be an ancient overlord, sweeping the wasteland with endless power and crashing down.

boom!

There was a loud noise, the blue light spread, the mud and stones were flying randomly, and the scene was a little chaotic. A huge pit was punched out there.

In the big pit, the weird zombies hadn't died yet, and the cross was on the forehead, which blocked the overwhelming and terrifying ghost and god.

Qin Tiange looked startled and looked at the zombies who had been smashed in a black robe. His muscles were turned out and black and intertwined.

Especially those dark eyes, without whiteness, like a pair of terrible and weird eyes made up of black gas, showing endless chill.

Roar!

This weird zombies roared, the cross suddenly lifted, and the black sky soared into the sky, soaring out quickly, swept away, and turned away.

Yes, the zombie ran away, and it felt that it could not rush into the entrance of the underground base. Not only was the dangerous figure Qin Tiange blocking it, but also the old Liu Demon blocked the entrance, it couldn't get in.

What's more, there are the little fairies who came over, and a huge peach tree demon also rushed over from Shili Taolin.

“Want to run?” Qin Tiange showed anger and saw that super zombie wanted to run. Euphorbia was inserted into the ground beside him, and he took out a battle bow and a mysterious arrow of purple gold.

Ga ...

The samurai war bow was pulled into a full moon, and the stars were intertwined with each other, transformed into purple gold arrows, and drew a horrible edge.

collapse!

Suddenly, there was a crisp sound, and the Samsung bow broke apart. Then, a purple and gold arrow broke away and disappeared. In the distance, the super zombie was running away. Feeling the endless crisis, instinctively turned back and waved the black cross to block in front of him.

Ding!

There was a crisp sound, a jingle sound, the sparks splattered, and the purple arrow came through the air, hitting the edge of the cross and slipping past, piercing it into the eyebrow like lightning.

With a click, the Super Zombie was completely stiff there, a small hole in the eyebrow was penetrated by a purple arrow, and the two phases were transparent.

The purple arrow was stuck on a rock behind it and fell into it, while the super zombie was stiff, his expression was a little stupid, the black gas kept rolling and struggling in his eyes, and a roar came quickly. Black gas gradually went out.

boom!

The Super Zombie slammed to the ground, lying there motionlessly, with a hole in his eyebrow, which was penetrated by an arrow, killing him instantly.

The arrow was shocking, and one arrow captured the soul. Qin Tiange's archery completed transformation, and at this moment he got a huge sublimation.

Chapter 275 - Strange dark gas, somehow

In front of the dead super zombie, Qin Tiange raised his hand and dug out the crystal nucleus in the opponent's head.

A black crystal, misty, shrouded in black gas, with a bit of weird color.

The five-star crystal nucleus contains huge dark energy. Qin Tiange took a look, and closed it with the envy and glances of the old Liu Yao.

Immediately, Qin Tiange shifted his eyes and looked at a huge black cross that fell beside him. His whole body was dark, exuding strange black gas.

“This cross is weird ...”

Qin Tiange frowned, looking at the cross, and the half of his body \*\*\*\* was gone, already broken in the fierce battle, leaving only drops of strange black blood left.

Huh!

The moment Qin Tiange was about to pick up the cross, a black gas rushed up, soaring into the sky, and turned into a little black shadow.

“This is it?” Qin Tiange looked startled, took a step back quickly, and watched with caution the black gas floating not far in front of him. He turned into a silhouette, with wings on his back, and could not see clearly.

Only those tiny wings, with a shiny blackness, seemed to be burning with a black flame, and the little black shadow opened his mouth and issued a silent cry, and flew towards Qin Tiange instantly.

Huh!

It was said that sooner or later, the bronze sword came out of the sheath, and turned into a dark light and quickly split on the black shadow, a hissing sound of leather cracking came, and the black shadow broke apart instantly.

Qin Tiange was stunned, looking at the broken black smoke, wondering, “What the \*\*\*\*\* is that, even want to attack me?”

The black shadow turned into a black gas just now was so unexpected that he wanted to attack him. He couldn't help wondering, looking at the dead super zombies and seeing his appearance as a foreigner.

This zombie should have been a church priest before his death. If you look at the cross, the black gas has weakened a lot, and people can't help but think of the black shadow just before.

Qin Tiange picked up the cross at his will, and a cold touch came from the metal, revealing a piercing shade.

“What an evil thing.” Qin Tiange couldn't help whispering, holding the cross and feeling a cold, cold, trembling all over his palm.

This thing turned out to give him a very evil feeling, as if there were countless grudges roaring in his mind, struggling and roaring, trying to devour his consciousness.

Humph!

Qin Tiange snorted softly, and severely inserted the cross on the ground with his hand, and the bronze sword was directly cut on the cross.

There was a squeak, the sparks splattered, and a white mark appeared on the cross, but it was strange that it soon disappeared.

Seeing this, Qin Tiange was surprised: “This thing is so weird, it looks a bit unusual, keep it first.”

Talking about putting the black cross into the space bracelet, he saw the willow demon staring at him with longing expression, his eyes were dangling, the green light was flashing.

“Don't watch, I'll give you a few crystal nuclei as a snack.” Qin Tiange rolled his eyes and was uncomfortable when the other side looked at him. He lost a few crystal nuclei to him and turned away.

“It's stingy!” The old Willow looked upset, but still swallowed a few nuclei, snapped and swallowed.

Qin Tiange rode the white tiger, pulled up the halberd, and quickly ran out of the Lotus Mountain, rushing towards the city wall.

But he remembered that there was a super zombie outside, and it was a more mysterious corpse baby, so he couldn't carelessly.

“General, the corpse retreated.” As soon as he returned to the wall, a sergeant stepped forward to report that the corpse retreated.

Qin Tiange froze, riding a white tiger to the upper edge of the city gate, looking at the situation outside the base, and found the fruit of the zombie group and then retreated.

Outside, the crowded zombies retreated, as if receiving orders, one turned around and left quickly.

“The corpse baby must be her.” Qin Tiange frowned, looking at the direction and found no purple-haired corpse baby, and immediately turned around and rushed away, riding a white tiger.

Soon he came to the East Gate, where the zombies also receded, receding like a tide.

“Zombies retreated!”

“Zombies retreated!”

The surviving soldiers on the wall cheered, watching the densely crowded corpses, cheering excitedly.

Qin Tiange looked outside, but did not find the purple-haired corpse baby, left immediately, all the way from the east gate to the north gate, and finally saw the corpse baby.

Roar!

In the distance, among the corpses, a petite figure stood there alone, and when he saw Qin Tiange appearing on the city wall, he opened his mouth and growled.

Listening to this roar, Qin Tiange felt a little weird, looked at the little corpse baby with a strange look, and looked away from each other like this.

“What is she trying to do?” Qin Tiange couldn’t help wondering.

Since this corpse baby hates him, why should she retreat now? Is it because she died of three super zombies?

“Roar!”

Suddenly, Zifa’s little corpse baby moved, his body turned into a purple light and quickly stopped, stopping a few kilometers away from the base.

Seeing her suddenly rushing over, the people on the city wall were immediately nervous, staring vigilantly at the little corpse baby, no one dared to look down.

“Don’t dare to come back, I really think I can’t kill you?” Qin Tiange Han hummed his face, leaping from the white tiger and jumping off the 50-meter-high wall.

He landed on both feet, walking towards the purple-haired corpse baby step by step with his halberd, and his body’s killing intentions gradually condensed, locking the corpse baby in front.

Roar!

The latter opened his mouth and growled, his expression was angry, he looked very irritable, and felt a little uneasy. He seemed to be too excited, and stepped back unconsciously.

Qin Tiange, expressionless, walked ten meters in front of the corpse baby, silently watching the strange and unpredictable corpse baby, and Euphorbia slightly hummed.

“Why?” The corpse infant said, his voice clear and sweet, nothing like a zombie.

She spoke and said three words, why? Qin Tiange was asked a question, looking up and down the corpse baby with question marks.

“What do you mean?” Qin Tiange couldn’t help asking.

Opposite, the corpse infant suddenly sullen and growled, “Why, why do you abandon me?”

Qin Tiange’s face was aggressive, the uppercase aggressive, silly. The little corpse baby said what it was like, and opened his mouth like this, almost did not let his brain crash.

“You, say I abandon you?” Qin Tiange looked weird, but he didn’t look like he laughed, and he didn’t cry. It was weird.

He blinked with strange light in his eyes, looked at the corpse baby, and suddenly laughed at: “You are a bit inexplicable, I am a human, you are a zombie, and I do not know you, have you found the wrong person?”

“Roar ... I hate you!”

Zifa’s corpse baby roared suddenly, waved his fist and slammed the ground fiercely, making a bang, and the mud turned into a torrent rushing to Qin Tiange.

This change was too sudden, causing Qin Tiange to react in front of the torrent, and Euphorbia smashed it hard.

boom!

The torrent of mud and rock collapsed and dissipated instantly. Looking back, the Zifa Corpse Baby was gone and had returned to the center of the Corpse.

She turned back and looked at Qin Tiange’s last glance. A bit of pain and disappointment flashed through the eyes of Amethyst, and she turned angrily and fell into the corpse and disappeared.

“Inexplicable!” Qin Tiange Zhang looked puzzled and looked depressed.

Watching Zifa Corpse run away, he felt a little regretful that he couldn’t kill her, and he seemed to be remembered and hated in the future.

Especially before the corpse baby left, the roar that filled with resentment was that he couldn’t help shaking his heart.

“She hated it Trouble!”

Qin Tiange looked at it, standing on a pile of corpses that were black, quietly watching the corpse recede, thinking about how to solve the problem of the corpse baby.

I was always remembered with hate, and I felt very uncomfortable. I always felt that there was a time bomb around me.

“Forget it, go back first, this battle is over.”

Qin Tiange shook his head and smiled bitterly for a while, regretfully saying: “Killed the three super zombie overlords, did he complete the corpse baby, and without competitors, all zombies will be controlled by her, and it looks even more dangerous . “

Taking a final look, Qin Tiange went back and instructed people to clean up the battlefield, pack up the spoils, and prepare for inventory and calculation after the war.

It is estimated that it will be busy for a few days. The entire base is charred corpses. One is charred and has a foul odor. It must be cleaned up and collected all nuclei.

After this battle, the base is completely rooted in this land. For the time being, it is safe to survive the current calamity, and it will be difficult to say in the future.

Chapter 276 - Inventory, People's Hearts, Army Hearts Gather

A big battle made the outside of the base full of scars, corpses piled up like mountains, and the scorched corpses stuck to the ground, all of which were turned into coke.

After the war, it was cleaned up. It took a full day to clear it up. The bodies of all zombies were cleaned up, and the humans who died in the war were cremated.

The corpse tide has receded and the war is over, but things are not over yet. Post-war cleanup, repair, rewards and many other issues have to wait for Qin Tiange to deal with.

Also, the main thing is that the leadership in the base has finally come to be established.

“Commander, are you really leaving?”

Early this morning, just after clearing the battlefield, Commander Chen Wu even offered to leave, which made Qin Tiange difficult.

At the base apron, a group of officers and senior officials of the base stood there with Qin Tiange, quietly watching Chen Wu in front of him, the commander of many old guard areas.

Chen Wu looked at Qin Tiange and sighed suddenly: “Admiral Qin, it’s enough to have you here, and I’m useless to stay.”

As a matter of fact, he paid tribute slowly. The old commander of the security zone, the rank of lieutenant general, was one level lower than Qin Tiange, but was definitely the most recognized person among the millions of officers and men in the base.

If he does not leave, it is difficult for Qin Tiange to truly control the entire base, and Chen Wu himself is very aware of this problem, so he cleared up after the war and left to go to Beijing.

In his own words, he is old and wants to retire to Beijing to take care of himself. But Qin Tiange is not a fool. How can he, like Commander Chen Wu, take care of the elderly in the context of doomsday?

“Commander, you have no one to give me guidance if you leave, can you stay?” Qin Tiange was serious, and he really hoped that Commander Chen Wu would stay.

He didn’t worry about his power being taken away. After this battle, everyone in the base knew that his identity and strength were enough to deter some ulterior motives.

Chen Wu stayed. Many things can help him, and even subsidize him to manage the entire base. That would be a lot easier, but the latter is so determined to return to Beijing.

“You don’t need to persuade it.” Chen Wu was relieved, watching Qin Tiange’s young age, his uniform was extremely spirited.

He laughed: "Take care and manage the soldiers and civilians at this base. Don't let me down. Even if it's a little wrong, I'll help you in Beijing."

After speaking, Chen Wujing saluted, everyone in the room silently saluted, watching the old commander of the security zone board the gunship and take off slowly.

"Old, take care!"

Qin Tiango silently watched the helicopter take off and leave. Three armed helicopters took the missiles and left the base, flying to Beijing.

A group of officers showed sadness, watched the old commander leave, and took the initiative to withdraw their position to the capital, saying that it was for the elderly, in fact, to give Qin Tiange a better stage.

After this war, Chen Wu saw a rising star in China, and naturally he did not want to restrict each other because of himself.

Although he knew that the Beijing side asked him to stay, looked at Qin Tiange and instructed him to manage the base, but he did not want to do so.

"Commander Chen, can you rest assured of this young man? Also, how do you explain to the central government?"

On the helicopter, a middle-aged man asked, saying that he arrived at the base yesterday afternoon. The commissioner from Beijing had negotiated some cooperation agreements with Qin Tiange.

Now when I see that Chen Wu has voluntarily given up and left, I can't help asking, and I'm a little worried. Will the old generals in Beijing be furious?

Chen Wu looked at Qin Tiange, who was saluting from below, and murmured: "The times are changing, a new generation replaces the old, I am old, how can I occupy my place and not let more stars shine?"

"In the big age and big background, when there are stars shining, I am just one of the aging stars. In the future, there will be more new stars shining in China. Let me start."

The old commander stopped talking, and quietly sat on the helicopter, left the base, and headed to Beijing.

"Go back!"

Qin Tiange took a look, took the lead and left, and returned to the center of the base. There are already dense crowds here, and countless survivors have come.

Everyone was here, including all senior officers, some senior officials of the base, and some heads of the joint underground research subjects.

"Zhuo Tianfan, come up and sum up." Qin Tiange said something lightly and stood quietly listening to the flag-raising platform.

Aside, Zhuo Tianfan stood up, holding a piece of information, and started to introduce a detailed report of the battle.

“In this battle, the number of casualties in our country reached 250,000, of which 100,000 killed 8,673 ...”

A set of data made everyone here shocking, and killed as many as 100,000 people. What kind of experience is this?

Under this corpse attack, how many people have died of 100,000 people? But Qin Tiange was not much surprised. The death toll was still relatively small. Originally, he estimated that at least 150,000 people would be killed, but now it is only 100,000, which is pretty good.

If it weren't for the Lightning Defense Circle of Truss, it would be more than just this number of deaths. In addition, Qin Tiange would have to sharpen people at all levels of the base.

“A total of 970,000 zombies were killed in this corpse tide, and the actual number of crystal nuclei collected was 910,000 ....”

Zhuo Tianfan listed the same. This is the post-war inventory, inventory of casualties and gains, and the loss and consumption of various weapons and ammunition.

When he was finished, Qin Tiange stepped forward, his eyes sharply swept across the crowd of people in the square, full of coldness.

He slowly said one word at a time: “I said before the war that young men in the base must participate in the war, but a small number of people did not listen to orders, did not participate in the war, and even engaged in small actions in secret, I thought I would not know?”

Wow!

As soon as this word came out, the people in the entire square and the people in the entire base were in a panic, showing a shocked expression, and many people's faces changed greatly, and they were timid.

Qin Tiange's words, but with the help of the eye expander installed in the base, spread out by his wife, everyone can hear.

“We killed a million zombies in this battle, but some people swallowed a part of the crystal nucleus without permission. This part of the people did not participate in the war. Do you guys talk about handling it?” He said these words lightly into everyone's ears.

“Kill them!”

“Kill them!”

Among the crowd, more than 100,000 people in several teams immediately raised their arms and shouted, each filled with indignation and anger, crying to kill those people.

They fought desperately, and even someone moved high and small in the back, which angered all the participants in the field.

Almost on the other hand, all the combatants in the entire base immediately burst into great repercussions.

Only the million soldiers stood quietly in the square, motionless, silent, and looked at Qin Tiange without squinting. They were soldiers. They would not move without orders and would not speak.

“Bring those people up!”

Qin Tiange signaled the scene to be quiet, and then ordered those people to be brought up. He saw a group of heavily armed fighters coming over the group and standing on the square.

A total of 30,000 people were arrested and escorted by 10,000 elite armed fighters, one by one with panic, somewhat angry and scared.

“Killing them is cheaper for these people. Our base does not welcome such people. We will collect all their weapons and items and drive them out of this base. We will never accept them.”

In the end, Qin Tiange made a trial and did not kill these people in front of everyone. Although everyone said to kill them, more than 30,000 people did not kill them. He is now a Chinese general. How can he order the execution of 30,000 in front of millions of soldiers?

Just kidding, if you really do that, then Qin Tiange will touch his ass, pee, and pee, he won't wipe it off.

“No, you can't drive us away.”

“I was wrong, bypass us!”

For a while, the 30,000 people were panicked. It was okay to get kicked out of the base. The key is that everything was collected and cleaned up. Isn't this going to death?

Unfortunately, no matter how they shouted for mercy, Qin Tiange was unmoved, and he was directly sent out of the base to drive them out.

Looking at more than 30,000 people who were kicked out, Qin Tiange suddenly glanced at a corner of the crowd and quietly signaled a glance. Immediately, 3,000 people in the crowd left quietly, without knowing where they were going.

“The punishment is over. Next, it is to reward everyone who participated in the war, including everyone who volunteered to treat the wounded, and everyone should be rewarded.”

Next, Qin Tiange said such an inspiring sentence, reward, which is to reward all the combatants, including those who voluntarily rescued the wounded, all received the reward.

“Long live the general!”

“Long live the general!”

Suddenly, a cheer came from the crowd, which suddenly led countless people to shout “Long live the general”.

Qin Tiange's face changed slightly, and he was taken aback by this cry. Fortunately, he responded in time, directly holding up the halberd, and shouted.

“Long live China, long live the soldiers!”

“Long live China, long live the soldiers!”

Immediately, the major battle groups in the crowd froze for a moment, but immediately followed Qin Tiange and shouted, accompanied by his own control of the eye expansion device, directly suppressing the voice.

Seeing this, Qin Tiange squeezed a sweat and almost yelled, which \*\*\*\*\* called him long live?

Although a slogan is nothing, it is easy for someone to use it as an excuse to attack and discredit him. This is not a good phenomenon. Today Qin Tiange's position is not stable, he must be firm and stable, and all unstable factors must be eliminated.

Beijing, combat command room ...

“This boy, there are some means, the human heart is basically under his control, just the long live the military soldier he just said is enough to let him gather most of the military heart.”

Chen Guodong looked at the countless people shouting on the screen The sound was higher than the wave, straight into the sky, from which you can feel the great impact.

People's hearts are unified, and just now, long live Qin Tiange's soldier, but he shouted to the hearts of all soldiers. Basically after this war, most of the army's hearts were basically gathered. As long as they didn't die, that completely controlled a million troops. Sooner or later.

This method made Chen Guodong and other veteran generals have to compliment their heads, not only cleverly avoiding the factors that are unfavorable to themselves, but also directly converted into a situation favorable to themselves.

“Should the people in the central Beijing city be watching the live broadcast?”  
Qin Tiange quietly glanced up at the sky, and vaguely captured a small unmanned reconnaissance aircraft.

He knew in the heart that the Beijing side had always looked at it, and once there was an error, it would definitely not be good for him.

“Retract the drone. Since he is the new general of China, he must have the trust and respect he deserves!”

In the end, Chen Guodong showed a smile and directly ordered the withdrawal of the unmanned reconnaissance plane. This is to respect the new general, Qin Tiange. Otherwise, you will be better watched every day.

Chapter 277 - Rectification

In the conference room of the base, all four officers and men of the major general came to attend the high-level meeting. The rest were Qin Tiange's original high-level staff, including the principals of the base research subjects.

“People are here, now we have a meeting!”

On the theme, Qin Tiange looked serious and directly announced the meeting. This is the first high-level meeting of the entire base after the war. Naturally, this is the first time. This is the first time that four major generals have participated in this meeting.

Moreover, the four major generals were not the original major generals, but were promoted by those who had fought fiercely and performed outstandingly after the war.

One of them is Moda, who has been turned into a major general. It can be said that he was the younger brother of Qin Tiange. He is loyal and can't forget him.

The other three, one of them was Hu Yan, this was a proposal given by the old commander, which directly promoted her rank, and the other was Lieutenant Shao Feng, who did not improve so quickly, but his own strength and the success of this battle, naturally Get promoted.

The last major general, named Lu Feng, was extremely burly. He was also a young officer. He was about thirty years old and had a two-star strength. He was selected among the million soldiers who were about to retire.

“After this battle, the internal damage of our base was huge, and the various battle groups were damaged too much. I decided to reorganize and form a new combat team.”

Qin Tiange said the first sentence was to rectify the internal situation. The major battle groups had suffered a lot of damage during this battle. Naturally, they had to replenish their personnel.

But where to add these people, the first choice is the elite of more than one million troops. These talents are the best fighters.

“I decided to set up four city defense maps in the base, one guard group, and each team member temporarily set at 50,000 people.” Qin Tiange said his intentions.

The base must set up four city defense maps, which are specifically used to defend the base. The main task is to guard. The number of each regiment is 50,000, plus a guard regiment, which is 250,000.

“The heads of these five regiments will be selected from all the personnel in the base. The strongest will be respected. Later, a contest will be blocked. Without any status, the five people who have won will be qualified as the heads of the five major regiments. “Qin Tiange's words stimulated everyone present.

In particular, the three major generals, looking at each other like a torch, looked at Qin Tiange with enthusiasm, and felt a little excited.

Choosing a regiment leader, regardless of status, means that as long as everyone in the base has the opportunity to participate, and the possibility of being a strong player in the army is higher.

“Next, break up the two wasteland development teams, select personnel from among the millions of troops, and supplement them completely. The number of tentatively set up for each wasteland development group is 100,000.”

“Nie Teng is the leader of the First Land Reclamation Regiment, and Li Zhi is the leader of the Second Land Reclamation Regiment.” Qin Tiange made the appointment, but he did not adjust the personnel.

Nie Teng and Li Zhi are talents that Qin Tiange values, and naturally they must be vigorously cultivated. Therefore, the internal staff, including those major generals, have no possibility of objection.

The two teams were originally Qin Tiange’s troops, and it was normal to increase the number of people. At present, they also have this ability.

“The other teams broke up. Yang Xiaolin entered the First Land Reclamation Group and subsidized Nie Teng to lead the First Land Reclamation Team.” Qin Tiange made another adjustment.

Yang Xiaolin’s spearhead team was directly dissolved and merged into the First Land Reclamation Regiment. The latter, although lost, was still satisfied. After all, 100,000 land reclamation missions were at least much larger than the original team.

“Shao Feng, select former pilots from the army to form an air force team. There is no limit on the number of people you can train me to.”

Suddenly, Qin Tiange spoke such a sentence, shaking people’s hearts. This is to form an Air Force battalion and prepare to develop the Air Force, but are there any fighters at the base?

“Yes!”

Shao Feng stood up with excitement, saluting solemnly, how could the excitement on his face not be concealed, the heart beating violently, and his complexion turning ruddy.

He was an Air Force pilot when he formed the Air Force, but he retired after a little trouble. Now that he still has the opportunity to form an Air Force, he is naturally excited to lead it.

“Hu Yan, the base still lacks a female soldier armed force. I need you to train a full range of female soldiers and master various combat skills. New weapons and equipment will be developed and produced in succession. Can you do that? Qin Tiange stared seriously at Hu Yan, the newly-appointed major general.

“Yes, you are guaranteed to complete the task!” Hu Yan was a little complicated, happy, excited, and so on.

“Kiki, go and help Hu Yan train this army.” Then Qin Tiange said to Qi Qi who was not talking.

The latter froze, but immediately stood up, and ordered the order. The two women looked at each other, their eyes collided with each other, and it seemed as if there was a trace of sparks.

Qin Tiange didn’t care about the two, but continued to announce: “Liu Ye and Long Xiaoya, you two are responsible for the establishment of the college in the base, selecting teachers, and educating the young children in the base.”

Liu Ye and Long Xiaoya stood up, their faces were a bit far-fetched, and they always felt as if they had been abandoned and retreated to the second line.

“Listen well, I’ll give you the college affairs, but it’s not as easy and simple as you think. If you two can’t do it well, then I’ll change people.” Qin Tiange immediately saw the two look serious A reminder.

He seriously warned: “This college, I intend to increase physical training, combat, technical and so on, these new subjects must be carefully seized, I can not withdraw if you can not do well.”

“Yes!”

Liu Ye and Long Xiaoya looked so stunned that they could not let go of the heart, and did not dare to have the slightest strange psychology. Qin Tiange made it clear. If the two of them could not do this thing, they would directly substitute. do.

How to say that both of them were brought along by Qin Tiange. Naturally, we should take care of them and give them the School of Management, which is a trust and a training for them.

You don’t have to be on the front line to be considered a leader, in fact, other things like the base are very important, such as education, scientific research, etc., are indispensable.

“Morda, you are responsible for selecting retired admirals in the army, training temporarily, telling them to train carefully, and if the air warships show that they do not meet the standards, they will be withdrawn.”

Qin Tiange suddenly issued this order again, allowing Moda to form an army composed of navy soldiers, with an unlimited number, to do a good job of training and selecting soldiers for future air warships.

“Yes!” Moda’s face was agitated, her fists clenched with excitement.

Just look at the envious expressions of Nie Teng and Li Zhi, and you will know how enviable this errand is.

Even Shao Feng, Hu Yan, and Lu Feng were shocked. They heard the news of the air warships for the first time. Doesn’t Qin Tiange have the intention to make these air warships?

“Lu Feng, you select one of the most elite soldiers from the army who understands various mechanical manipulations, tank driving and other skills, and trains me hard.” Qin Tiange said such an inexplicable word.

Lu Feng took a stun, immediately stood up to salute, and took the order. It was considered that he had a copy and formed a unit, but he did not know what unit it was.

It also specially selects the personnel for mechanical operation and tank driving, which makes one cannot help thinking about it, but it is unfortunately impossible to guess.

“The internal team has been rectified. The next step is to spend time on rewards and punishments!”

Qin Tiange stood up, his face was serious, his eyes glanced sharply at everyone present, especially Li Jiajia who looked silently and looked down.

“Li Jiajia, this corpse tide has the responsibility of your biological research team to research the super serum privately. The research project has not been reported to me for approval. Do you know what’s wrong?” Qin Tiange said this harshly.

Everyone at the scene looked slightly changed, looking at Li Jiajia, a short-haired girl, who did not expect that the other party was one of the causes of the corpse tide.

Li Jiajia stood up, with shame and blame, admitting: “I confess my mistakes and am willing to accept the general’s punishment.”

There is nothing to say. If you make a mistake, you have to admit it. This war came out of nowhere, partly because of the biological research department.

“Canceling your status as director of biology, you will be an ordinary researcher in the future, and the entire biology will be replaced by artificial intelligence.” Qin Tiange made no punishment directly.

With the cancellation of Director Li Jiajia’s status and deducting her chance of post-war rewards, the entire biological research department will be controlled by artificial intelligence.

“Yes!” Li Jiajia looked a little dim, and sat down.

Beside, her brother-in-law Nie Teng looked worried, but did not dare to speak, because this matter had not been discussed, and it was Li Jiajia who did something wrong.

Neither their research team nor their research projects were reported to Qin Tiange for private research, which is unforgivable.

“Mr. Wu, the Ministry of Science and Technology has accelerated scientific research and is preparing to translate those technologies into the heritage and strength of our base.”

“The military plant is stepping up and we need more advanced weapons.”

“There is also The base plan is advanced in advance, extending to a radius of ten kilometers outside the security zone, and the complete blueprint of the base is constructed. This is used as the location of internal technology and military factories.”

Qin Tiange made arrangements one after another, each of them shocked the leaders of the major battle groups present, one by one looking numb.

“Du Jing, your pharmaceutical department has stepped up to make medicaments, and it must be equipped for combat members of all teams.” Qin Tiange finally made a request to Du Jing and must complete this indicator.

“Yes!” Du Jing responded neatly.

After looking at everyone present, everyone discussed the reward system, listed a form, and gave it to Zhuo Tianfan to chair.

**“The meeting, Li Jiajia stays!”**

Soon after, Qin Tiange announced that the meeting was adjourned, but Li Jiajia was streamed down, causing many people to speculate on his intentions.

Unfortunately, no one can guess what Qin Tiange intends to do, that is, Li Jiajia himself is a little confused, watching Qin Tiange quietly, waiting for his next plan.

Chapter 278 - Super genes, perfect evolution

Everyone left. Only Qin Tiange and Li Jiajia were left in the meeting room, and the atmosphere was somewhat distressed.

Li Jiajia was very embarrassed. She was restless, and looked at Qin Tiange’s expressionless face from time to time. She couldn’t help worrying.

**“Tell me, what else are you tinkering with, so that the super zombie is desperately rushing into the underground base?”**

After a long silence, Qin Tiange suddenly spoke and asked this question. At that time, the super zombie overlord who carried the cross was madly going to kill himself at the entrance to the underground base.

Don’t think about it, it must be directed at something that attracts it. The Ministry of Science and Technology has no possibility of attracting that zombie.

As for Du Jing’s pharmacy department, Qin Tiange knew that only one star quenching medicament was produced there, even if it attracted zombies.

The only possibility is that the department of biology, the research team led by Li Jiajia, initially caused the leakage of super serum due to experimental errors, which caused the tide in advance.

In the end, the performance of that super zombie was what Qin Tiange paid most attention to. For what purpose did he kill the underground base?

Li Jiajia looked up and said earnestly: “General, there are only two research projects in front of our biology department, one is the super biological serum, and the other is the research of zombies genes.”

**“Super serum has temporarily failed, but the current research on zombies genes has made a lot of breakthroughs and progress, and samples have been made.”**  
Li Jiajia said with a stunned glance at Qin Tiange.

The latter heard it, and understood why the super zombie rushed to the underground base, maybe it was related to the zombie gene project studied by Li Jiajia’s team.

**“Take me to see.”** Qin Tiange stood up and asked Li Jiajia to take him to see.

He wanted to see if the research on the superserum and the zombies gene was done by the biology department, did the research results of the zombies cause the super zombies to disregard the body and go to the underground base?

The two hurried out of the conference room, just to be seen by Nie Teng waiting anxiously outside. When he saw that his little aunt was okay, he finally felt relieved.

“It’s okay ...” Nie Teng watched Li Jiajia leave with Qin Tiange and went to Lianhua Mountain. He couldn’t help whispering: “It seems that Jiaxin must remind Jiajia that he can’t mess around in the future, otherwise he will The problem cannot be remedied. “

He knew that biological research was dangerous, and a bad disaster would cause great terror, and Jiajia must be reminded.

At this time, Qin Tiange followed Li Jiajia into the underground base and came to a secret laboratory of the Department of Biological Research.

“Look at the general, at this time, the latest research results, using various zombie gene extraction studies, we finally eliminated the most violent and bloodthirsty gene chain in the zombie gene, and thus perfectly integrated various powerful genes to make this. A supergene with powerful lifting capabilities. “

Li Jiajia pointed to a stored test tube in the front, which contained a dark green liquid with a strange smell, which was the super gene.

The so-called super gene is actually an active gene in the zombie body, and constantly removes the internal bad gene chain by gene technology to finally synthesize such a super gene.

This super gene has a strong ability to repair itself. If an ordinary person is injected with this super gene, it will immediately gain the power of zombies, and even deep-seated transformation in the body, called genetic mutation.

“That is to say, the injection of this super gene can give a person or even a creature the power of a zombie, increase the body’s resistance, or even obtain a certain genetic ability?” Qin Tiange was surprised, looking Li Jiajia’s eyes looked a little different.

This chick really has this ability. Although the super serum failed, it actually tinkered with the super gene and eliminated and synthesized it with the zombie gene, which is a good result.

“Yes!” Li Jiajia explained: “This supergene perfectly inherits the zombie’s ability to evolve itself. As long as the energy is fully absorbed, it can continue to evolve and improve.”

“Moreover, the most important thing is that injection of this gene will not make a living creature bloodthirsty and cruel, and will not lose self-awareness.” Li Jiajia said, taking Qin Tiange to a sealed laboratory.

Inside, there are many mutant creatures, both cats and dogs, each of which is extremely huge, just like a tiger before the end of the day, and it is very aggressive and very brutal.

Roar!

In the back room, a tiger-sized cat rushed wildly, sending out horrible growls through special glass, his eyes showing cruel murder.

Li Jiajia introduced: "This is a mutant cat that has been injected with a super gene. It has a strong attack power, has a two-star rating, and it is evolving very fast and its power is increasing rapidly."

Qin Tiange nodded, and looked at a mutant cat and a mutant dog that were madly biting inside, both of them flung together and bite madly, and soon they were lying there panting.

"Kill, stop injecting supergenes into the organism." Qin Tiange directly ordered the killing of all organisms injected with supergenes.

Soon, all the organisms that were tested with the supergene injection were killed. This thing is very dangerous. One thing that had the supergene injection escaped, which is very troublesome.

"What if the zombies were injected with this supergene?" Qin Tiange suddenly asked this question.

Li Jiajia froze for a moment before he said, "Do you still remember the general's previous request for a living zombie to come back for research?"

"Remember, did you inject that gene into that zombie?" Qin Tiange looked cold and stared at Li Jiajia.

The latter nodded gently and took Qin Tiange to another alloy-structured closet, where a zombie was detained.

"This is ..." Qin Tiange looked through special glass, looking more and more dignified, staring at a figure in the back room.

Yes, the figure, that's a person, slick, that's a man, looks young.

"This is the zombie that was caught." Li Jiajia pointed at the young figure inside.

Is that zombie? Qin Tiange was horrified that looking at that man was no different from humans at all, and even more immaculate than ordinary humans.

The only difference was that those \*\*\*\*\* and brutal eyes stared at Qin Tiange and Li Jiajia through the glass, and opened their mouths and growled.

Roar!

The roar and anger showed that he had a little self-awareness, which definitely surprised Qin Tiange.

Even more surprising is that this zombie was originally a one-star ordinary zombie. When it came, it was covered with rotting flesh and smelled bad, and now it has become no different from humans.

Qin Tiange felt that this zombie had a two-star breath, approaching Samsung, and could soon evolve to Samsung level, which is really incredible.

“After the injection of the super gene, this zombie had a weird change in two days. The carrion quickly recovered, and even the level was rising rapidly, as if super evolution had occurred.” Li Jiajia said this with some dignity. Message.

“Super genes, perfect evolution?” Qin Tiange murmured to himself, suddenly waved coldly: “Kill this zombie, take his genes for research, and make a higher and more perfect super gene as soon as possible, this is your only chance to make up for it. “

“Yes, general!”

Li Jiajia took the order seriously, finally relieved in her heart, and finally passed this level. If it had not been a result, she might be really bad this time.

Fortunately, Qin Tiange saw her results, and she was finally comforted. Doing this will definitely restore her original position.

“Study in the future. Connect with Jiji and ask her to make complicated calculations for you. You must be careful and careful when comparing the two, so that the previous situation does not happen again.” Qin Tiange finally warned Li Jiajia.

After that, he left the biology department and went directly to the Ministry of Science and Technology.

Chapter 279 - Just kiss me, no sincerity

“General!”

Entering the Ministry of Science and Technology, a group of elderly people were discussing technical issues. When they saw Qin Tiange coming, they immediately stood up.

Today, Qin Tiange’s identity is different. With the orthodox status of the Huaxia military and the rank of general, it can be said that this group of old scientific and technical personnel will serve him willingly.

The premise is that he does not betray the nation.

“Mr. Wu, ready to expand the Ministry of Science and Technology, I believe there are still some scientific and technological personnel among the survivors in the base, and I hope you will select a group of genuine talents to expand the Ministry of Science and Technology.”

The first sentence of Qin Tiange’s arrival was to expand the Ministry of Science and Technology. There must be many scientific and technological personnel among the millions of survivors.

In this way, there are enough talents to support scientific and technological research breakthroughs. In addition, Qin Tiange has consciously cultivated a new generation of top scientific and technological personnel in the college.

He had this certainty in his mind, because the existence of brain-domain development medicaments made him see the hope of building a super-tech team.

Once more than a thousand people have successfully developed the brain domain, then these people are the top scientific and technological personnel, and whether they study or do research, they have an beyond imagination.

Thinking about himself, he was an ordinary person, but after the development of the brain domain to obtain a super brain, it really didn't have to be so hard to learn, and even made artificial intelligence.

This is the benefit of brain domain development. Qin Tiange also has a plan in his mind, which is to make all scientific researchers take brain domain development medicine.

“Okay, in this case, my old man will personally check and select some real talents to expand the team.” Wu Lao directly accepted.

Qin Tiange thought for a while and said, “Positive and anti-matter energy research can be put on the agenda. Levitation technology, spacecraft technology, flying warships, and magnetic fighters can all be studied gradually.”

“Understand, it seems really necessary to expand the team, or our old bones will not be tossed by your plans?” Wu Lao rolled his eyes and laughed.

Qin Tiange shook his head with a bitter smile, then took out a stone, said solemnly: “Lao Wu, this thing is called a floating stone, which contains a mysterious and huge magnetic field energy, which can cause people or objects to float. My plan is to prepare Use this for research and build an air fortress. “

“Floating stones?”

“Fortress in the air?”

A group of old people were shocked, and came forward one after another, staring at the humble stone with their eyes wide open. Can it really make people or objects float?

Next, everyone saw Qin Tiange suddenly floating inexplicably, suspended in the air three meters high, and really told them that this was true.

Floating stones are the most important thing to build a fortress in the air. Without this thing, it is absolutely difficult to build an aerial city or fortress.

“Good stuff, we will start to study immediately.” Wu Lao directly took it, holding it carefully, as if holding the baby of his heart and liver is very happy.

A group of old people left Qin Tiange and went directly to study this floating stone, let the latter shook his head helplessly, there was still something to say, now it seems to wait and say.

He left the Ministry of Science and Technology, came to the Department of Pharmacy, went to Du Jing to check it, and saw Du Jing who was busy doing experiments.

She was extremely devoted and serious in doing things, even though Qin Tiange didn't know when she came around, she didn't even notice that she was looking across a few centimeters.

“Yeah!” Du Jing raised his head after finishing the research, but was startled and screamed, only to find out that it was Qin Tiange, and he patted the proud Shuangfeng, and gave him a charming white look.

“Uncle, don’t say a word when you come, want to scare your niece?” Du Jing’s eyes were wide, his expression was playful and cute.

Qin Tiange smiled and said, “Looking at you so seriously, I didn’t bother you, I came to give you something.”

“What is it?” Du Jing immediately became energetic and looked at him seriously.

Soon, Qin Tiange took out a piece of information, which was a part of the knowledge of the pharmacist’s heritage that he had compiled and wrote.

He solemnly handed it to Du Jing, saying: “This is a pharmacist’s heritage, and now I give it to you. I hope you will eat it as soon as possible and develop useful drugs.”

“Inheritance of the pharmacist?” Du Jing looked startled, then exulted.

She took the document and hurriedly scanned it. The more she looked, the more she was surprised. In the end, she couldn’t help but kiss Qin Tiange’s left face and kissed him.

“Thank you uncle!” Du Jing ran away with the information, leaving Qin Tiange alone, and touching the warm lips on his face, his face was speechless.

“Don’t kiss for a long time, no sincerity.” Qin Tiange murmured dissatisfied, but actually laughed into a flower, hummed the song and turned away from here, soon out of the base.

At the entrance of the underground base, a lotus blooming in full bloom, quietly waiting for Qin Tiange to come out, and immediately saw him appearing coquettish.

“Okay, okay!” Qin Tiange was defeated by him, and he immediately surrendered, saying, “You little fairy, you know that you are cute and want to eat again?”

He said, he took out a strange crystal nucleus, which is a super zombie five-star crystal nucleus, the crystal nucleus of the golden armor corpse.

“This is for you, don’t break it.” As a warning to the goblin, Qin Tiange gave it a nucleus of a golden armored corpse, five stars, enough for it to digest for a long time to evolve.

Gaining benefits, the little fairy spoiled for a while and watched Qin Tiange leave reluctantly, and finally returned to Taolin, ready to absorb this crystal core.

“That wicked guy, bully me into being old and faint?” On the top of the mountain, the old willow looked at Qin Tiange with a gloomy face and gave the goblin a five-star crystal nucleus.

...

Qin Tiange stepped out of the Lotus Mountain and looked at the base. Countless people began to be busy and began large-scale construction under the high-level organization of the base.

The entire base has too many people, and it is about to completely rebuild and plan to build a complete base. As for the original base, it is divided into places for scientific research and military factories.

After a lap, Qin Tiange rode on a white tiger and ran straight out of the base. He arrived in the vast expanse of land between the base and the guard area.

“King, king, that human is here.” A little monkey hurried to the monkey king and said.

At this time, monkeys were patrolling in the large fields, and all the zombies were killed by them.

This time, the tide of corpses was not only sieged by the base. There were also many zombies passing through the farmland here, just killed by the monkey king guarding here.

“No big, no small!” The monkey king knocked on the monkey’s brain, taught the monkey, and scolded: “Remember, you have to let his boss know?”

“Know the King!” The little monkey felt his head aggrieved, but it didn’t hurt at all.

The monkey king just jumped a few times, turned over to Qin Tiange, scratched his head and said, “Boss, you are here. We just dug out a batch of crystal nuclei here. How many things can you change?”

Qin Tiange looked, good guy, at least tens of thousands or even close to 100,000 crystal nuclei, it seems that this group of reclaimed rice fields with these monkeys guarding really do right.

Looking at the endless fields, the ground is golden, and the sowing rice has already opened ears of rice. Maybe a month later, we can have a big harvest.

“Okay, the Monkey King is doing a good job!” Qin Tiange smiled and had food, so that the base would be completely worry-free.

With this batch of grain, at least enough for the base owners to eat for a year, by then, there have been three bumper harvests. In this way, the food crisis has been completely resolved.

“I took the nucleus. Later, someone will send you the first batch of weapon armor, and the construction team will build a home for you here.” Qin Tiange gathered the nucleus and made it to the monkey king. Promise He looked around and found no parrot, and asked strangely, “How about the dead parrot, why didn’t you see it?”

“You said my brother and sister, they have gone to spend a honeymoon on the volcanic island of the South China Sea. It seems to be like the smell of a similar phoenix, I don’t know.” Monkey King shook his head and said the news.

The colorful parrot took the little daughter-in-law Suzaku to the volcanic island for a honeymoon. I heard that it was the smell of finding a phoenix. I didn’t know if it was true or false.

Qin Tiange shook his head with a bitter smile. He was extremely speechless about this parrot. He was just not satisfied with the fact that he had just hooked up a Suzaku. He still wanted to remember Phoenix?

A parrot, with Suzaku's girlfriend, could not find another bird that only carried the Phoenix gene, which made people laugh and cry.

Farewell to the monkey king, Qin Tiange left here directly and went to somewhere in Shenzhen City, where there is an ancient cathedral, which was established in the late Qing Dynasty.

Because that super zombie, and the strange black cross, the strangest figure was the black gas, which turned into Qin Tiange's vigilance and curiosity, to find out.

Chapter 280 - 6 wings fallen angel statue

Shenzhen City, the base of the base, an ancient and huge church stands there. After hundreds of years of vicissitudes, the wind and rain will not fall, and it is still magnificent.

However, such a cathedral now looks a little spooky, with scattered scattered zombies nearby.

The church door has long been ruined, and the 30-meter-high cathedral stands silently there, showing its ancient majesty to the world.

"It should be here ...". On the roof of the church not far away, a figure stood quietly, staring at this ancient cathedral.

The visitor was Qin Tiange, with a majestic white tiger lying on his side, three meters tall and five meters long, very powerful and terrifying.

This white tiger was fed a five-star crystal nucleus by Qin Tiange. As a result, it evolved directly and was promoted to four-star, which has strengthened his mighty power.

Moreover, he feeds the super crystal nuclei of Lightning Zombies, which contains not only dark energy, but also a strange amount of lightning energy.

This energy has caused inexplicable changes in the genes of the white tiger. The king character on his forehead began to flash a few arcs. Although very weak, it is definitely a terrible phenomenon.

"Xiao Bai, will you have wings in the future?" Qin Tiange looked at the white tiger next to him, touched its smooth fur, and asked with a smile.

The latter swayed his head, showing a slight scorn of the tiger's eyes, as if to say, how ugly the long wings are, and they are still as beautiful as they are now.

Yes, pretty, it's a tigress. Qin Tiange just recently discovered that Xiao Bai is a tigress, and it is no wonder that his temper is particularly irritable.

Qin Tiange looked at his expression and teased: "Xiao Bai, how about I find you a strong and mighty male tiger to be your spouse?"

Roar!

Bai Hu growled impatiently, turned his head in dissatisfaction, and ignored him, but quietly absorbed the five-star crystal nuclei that had not been completely digested in his body, and it was too eager to be powerful and evolve.

Qin Tiange did not continue to say, but patted Bai Hu and said, "You are waiting for me here, don't run around, I will come out soon."

Ignoring Bai Hu, he jumped down the roof directly and quickly approached the ancient cathedral in front of him to find out.

Roar!

Near the church, many wandering zombies found Qin Tiange and immediately snarled and rushed forward. The ending was self-evident, and they were cleaned by three divisions, five divisions, and two divisions.

After digging the crystal nucleus, Qin Tiange walked to the door of the cathedral and quietly looked at the cathedral that had gone through hundreds of years.

"The breath is a little weird, but it is exactly similar to the black gas on the black cross, it may be here." Qin Tiange muttered to himself, looking dignified.

With his halberd in his arms, he walked into the cathedral with caution, here is the church where the super zombies are, with a strange blackness exuding the same breath as the black cross.

The church was very quiet, deadly silent, with scattered chairs everywhere, the whole church hall was chaotic, and there were dark black blood on the ground.

In the center of the church, a huge cross stood, blood-stained and missing a corner.

"Isn't there anything special?" Qin Tiange wandered around here and found nothing special or strange, and frowned secretly.

He left this prayer hall and entered other places in the church, first of all a house, which should be the place where the priest or other nuns of this church live.

Roar!

Sure enough, as soon as he entered a room, he saw a dark shadow rushing up and screaming.

It was a zombie, wearing a nun's suit, and a Chinese man of the East, a Chinese woman, who was a nun here.

boom!

A halberd swept over the zombies, his brain collapsed, his brain mixed with black blood flying around, and was killed in one shot.

Qin Tiange was expressionless, put away the brain crystal, and then searched room by room, he saw many zombies turned into nuns.

But without exception, he was executed cleanly, and none remained. Most of these nuns are Chinese women. Can't figure out why they came to be nuns?

I am very young, I have nothing to come to be a nun, I really can't figure it out, and Qin Tiange's most unpleasant point is that most of the entire church is a Chinese woman who is a nun.

“Huaxia women are scarce. They still came to be nuns. Wouldn’t I let Huaxia tens of millions of bachelors continue to be bachelors?” Qin Tiange shook his head.

He turned the entire residential area of the church upside down, but found nothing abnormal, that is, killed some of the church’s nuns.

There were also some zombies formed by clergy or people praying here, and hundreds of zombies were emptied.

“It doesn’t make sense!” Looking at the entire residential area of the church, Qin Tiange couldn’t help whispering, but didn’t find any abnormalities.

He couldn’t help doubting it, was it because he guessed wrong by himself, there was nothing abnormal here, but it was the problem of the priest himself, or the problem of the black cross?

Thinking, Qin Tiange took out the black cross and wanted to check it out. As soon as he took it out, something changed.

Hum!

The black cross trembled, and it was so black that it seemed to be attracted by some kind of breath, and immediately vibrated.

When Qin Tiange saw this, he was startled, then delighted, and finally determined that there was a problem here, and it was not unexpected.

He carried the black cross and searched in the cathedral, one place at a time, even the kitchen and bathroom.

In the end, Qin Tiange entered a luxurious room. This is the room where the priest lived. It is luxuriously furnished, not like the place where the priest lives.

Buzz ...

As soon as I stepped into this room, the black cross immediately vibrated violently, and the black gas billowed, like a burning flame, exuding a cold and evil breath.

“The problem lies here.” Qin Tiange looked solemnly, sweeping his eyes sharply across the room, not forgetting any details.

It’s just that he searched for a long time, but he didn’t see that something was wrong, and the black cross slowly stopped shaking, as if he lost his sense.

This situation is very wrong. Qin Tiange felt that the problem was here. He watched vigilantly with a halberd in his hand and carefully looked for the black cross with one hand.

Searching for beds, wardrobes, bookshelves, etc. one by one, nothing was found, which made him a little unhappy.

The closet is some monk’s clothes, there are even nuns’ clothes, and there are also some \*\*\*\*\* toys and adult products. Don’t think about that, that priest’s night life is very rich.

On the bookshelf, there are many books, one of which is the Bible. Unfortunately, it is useless.

“Is it impossible to have a basement?”

Suddenly, Qin Tiange thought of a problem, could not help looking at the floor, and looked carefully. Is there a basement here?

The century-old church should not have a basement. Thinking of this, Qin Tiange came to his spirit and immediately looked carefully in the room.

Sure enough, he soon found an anomaly in a corner of the study, and a floor was obviously different.

Uh ...

Gently tapping the floor, Qin Tiange felt that it was empty, and immediately pried open the floor with a spear, and found an underground passage.

“Is there really an underground secret room?” Qin Tiange looked surprised at the dark passage.

He took out a bright flashlight and turned it on. Qin Tiange was cautious, stepped off the aisle, and entered the underground chamber.

This secret room is very large There are oil lamps on both sides of the channel, which are still burning, the flames are swaying, and the atmosphere is eerie and weird.

Entering along the passage, Qin Tiange soon came to an underground hall and saw a scene that surprised him.

“Idol?”

In the hall, there is a huge statue standing there, the whole body is dark, I don’t know what rock is constructed, and the carving is beautiful.

Looking closely, it is an angel, with three pairs of black wings behind it, black gas billows, exuding a cold and evil atmosphere, the entire underground space is extremely cold and horrible.

“Six-winged fallen angel?” Qin Tiange stared at the statue, which is exactly a six-winged fallen angel deity, an image of an evil god.

A centuries-old cathedral with a statue of a fallen angel under the ground?

Hum ...

At this moment, the black cross on his hand trembled violently, suddenly broke free of Qin Tiange’s grasp, flew to the nine-meter-high statue and stood there, exuding dark air.
