

Dark Ages 601

Chapter 601 - Ghost Gate closed, Mars changes

Soul Eater restricted area, ghosts rolled back, countless evil spirits and ghosts backed up, pouring into a dark portal.

The ghost emperor and the emperor evacuated, and fled into the gate of the ghost with endless fierce ghosts, afraid to come out.

Suddenly, the original horrible soul-stealing restricted area disappeared, leaving only a huge, dark and horrible gate that was slowly closing.

“gate of hell?”

Seeing the evil spirits retreating, Qin Tiange looked surprised, and looked at the huge portal, which had three eerie fonts on it, which was the ghost gate.

The ghost door is wide open, the evil spirit is born, and it turns into a restricted area!

But now Qin Tiange led the 100,000 ancient war spirits across the board, killing countless evil spirits and ghosts, and eventually killed the ghosts in the restricted area, and retreated directly to the ghost gate.

“Want to leave?”

Seeing this, Qin Tiange snorted coldly, his body turned into a black particle, and it suddenly appeared in front of the dark ghost gate, his hand was a palm.

With a slamming noise, the ghost door trembled, the countless ghost fires disintegrated, the yin disappeared, and it was shaken by a huge shock with a split in the palm.

However, the ghost gate is still strong, shaking it unscathed, and it's okay to go all out with one hand?

Qin Tiange was surprised, but didn't think about it. Looking at the huge portal that was slowly closing, he hit him with a punch.

哐 Dang!

The ghost door trembled, and the closed door was beaten to a halt, and then Qin Tiange flashed into the dark ghost door.

Immediately afterwards, there was a howling sound in the Ghost Gate, a roar of fierce spirits, and a roar of thousands of ghosts, and the sound of the sound was shocking.

“Bold!”

A loud roar came out, accompanied by a rumbling sound, as if there were horrific fierce battles inside, with broken flesh constantly flying out and spilling around.

Vaguely, it was the flesh and blood of some fierce spirits, exuding fierce cold air, at least all the ghosts above the king level.

Unexpectedly, Qin Tiange actually broke into the ghost gate, and it seemed that a horrible fierce battle had occurred inside, and many people were stunned.

The huge portal was slowly closing, and the roar kept coming out from the inside, alarming all parties, and horrifying people, looking at the horrible black horror gate.

“Oh my god, the leader went in.”

“That black door is closing.”

At this time, many people saw that the door of terror was about to close, and many people were anxious and secretly anxious, thinking that Qin Tiange, the leader, would come out quickly.

They felt that the black gate was too scary, and the breath was strong enough to make the soul tremble.

boom!

With a loud noise, a terrible roar came from the black gate, and then, after a violent collision, a huge corpse flew out, leaving most of it incomplete.

It was a prince of the first emperor class who had broken half of his body and flew out half without any breath, apparently dead.

哐 Dang!

I saw that the black door that was about to close suddenly trembled, and the loud noise of Dang Dang spread, and saw a rapid laser shot from the figure, and it was Qin Tiange.

The armor on his body cracked, with sharp scratches on his arms and chest, deep bones, and two horrible scars on his face.

On top of these scars, a weird and cold gas interweaves, which makes the undead recover slowly, but it is quickly crushed and the scars recover.

“The ghost door is closed, it is really terrible ...” Qin Tiange looked cautiously, looking at the black door closed in front of him, a little cautious in his heart.

Only then did he kill himself, broke through the ghost gate, and saw countless mighty ghost emperors, and directly launched the kill. It was not clear how much he had killed, but suddenly a terrible voice came from the ghost gate.

He faintly saw a black bridge coming across the void, hitting him severely, sending him all out of shock.

Rumble ...

The ghost door was closed. The original ghostly area, the ghostly flames and the countless soul-sucking restricted areas, all shrank back into a small area of one kilometer, leaving only a dark ghost door.

The evil spirits retreated, and they were killed by Qin Tiange, and they retreated without even daring to come out. The forbidden zone, which was just born shortly after, was led back by Qin Tiange's 100,000 ancient war spirits.

“Oh my god, the leader drove those horrible evil spirits back to the ghost gate.”

“It is indeed my Huaxia leader.”

Seeing that the ghost door was closed, there was no longer any ghost and evil spirit there, there was only a tightly closed black portal with a spooky and weird breath.

Everyone was shocked, all excited, such a strong leader, arrogant strength, directly pushed a forbidden zone just born, forcing countless powerful ghosts to retreat into the ghost gate.

This is a glory. Huaxia is boiling, Qin Tiange’s prestige is like the sun and the sky, surpassing everyone, reaching a height that can only be looked up but not touched.

As a leader, no one can shake his position because no one can do this.

“Leader! Leader!”

There was a wave of cheers from all over China, and many people were excited, especially those bases and survivor gathering places close to the soul-eating restricted area. The talents here were all day long.

Now, the restricted area has been repelled, the Ghost Gate has been retracted and he has not dared to come out. He was killed by Qin Tiange, which is incredible.

Rumble ...

At the moment when the whole of China was up and down and countless people were cheering, a surge of purple gas came from all directions, continually gathering on the seal of emperor.

Suddenly, the Emperor’s Seal trembled and gave out a buzz of excitement, and finally absorbed the fortune belonging to China for the first time, surging and endless.

“Luck, Ziqi came east, Linger finally recovered a little bit.” Ren Huangyin’s instrumental spirit came out with a cheering excitement.

She was originally a broken emperor’s seal and was self-damaged. She was waiting for the emergence of a candidate for the tribe’s ancient birthplace.

Only after the candidate appears and has her approval, can she bring the Emperor Seal to her side, and thus obtain the huge ethnic movement where this ancient human race originated.

“Are you lucky?” Qin Tiange looked at it quietly without speaking.

He crushed the huge half of the ghost emperor’s body and sprinkled it on the hundred thousand ancient war spirits, let them absorb it, and then he looked at the emperor’s seal quietly.

Soon, Ren Huangyin absorbed the vast purple fortune, and gradually became crystal clear, exuding amethyst light, particularly dazzling, simple and desolate breath, showing some coercion.

Huh!

The Emperor Yin flew in, stopped in front of Qin Tiange, and said, “Master, I have restored a small part of my functions and can help you.”

“Oh?” Qin Tiange was surprised, and asked with a smile: “What ability do you have now, let me tell you what they say.”

I saw the Emperor's Seal shining, and Qi Ling excitedly said, "Master, I can now draw the luck of foreign races and grow my own luck. As long as the master kills the foreign races, especially those who have atmospheric luck, kill them. Let me draw luck from the other side. "

"Draining the luck of foreign races and strengthening the luck of their own races?" Qin Tiange squinted his eyes, secretly surprised that the Emperor Seal had such ability.

Fortunately, he can see it, but he can't draw it because he can't. Perhaps he can do this when he is strong enough, but he still does not have this ability.

However, the human imperial seal actually has this ability, and it must be said that it is good news. Unfortunately, the human imperial seal is broken after all, and it is already a great benefit to hide the 100,000 ancient war souls.

As for the more ability to draw foreigners' luck now, it really has a great effect on him. Anyway, foreigners kill and kill, it is better to get the luck of each other.

"Master, if you encounter other fragments of mine, you must grab them back so that I can be complete and have more ability to help the master at that time." Renhuang Yinqi said crisply.

Qin Tiange thought, and immediately guessed in his heart that there should be a so-called candidate for the clan emperor like him. Perhaps, to become a clan emperor of the entire clan, a competition was needed.

He felt that it would be necessary to collect other people's imperial seal fragments in the future, otherwise, he was always uncomfortable in the hands of others.

"Okay, the 100,000 ancient war spirits have been absorbed to the limit, and here they are today." Qin Tiange nodded, watching the 100,000 ancient war spirits have been promoted to ten stars.

He knew that this time it was the biggest gain. The restricted area was beaten and returned to the ghost gate. It was impossible for him to go in because it was too dangerous.

He didn't expect that there was a portal here in the restricted area, where it was, or a secret place, but he didn't understand it. In short, the ghost door was terrible.

Once Qin Tiange entered it, he already understood the horror inside, and faintly felt that there was a more horrible existence hidden in the depths of the ghost gate.

"It's time to visit the next restricted area."

Qin Tiange looked up at the dark sky, murmured to himself, but made some powerful creatures quietly concerned about it.

"Damn, what does this Chinese leader want?"

There is a powerful creature trembling, listening to Qin Tiange's muttering to himself, it seems that he is about to visit the next restricted area.

Hearing here, some creatures were so scared that they hid directly and did not dare to show up. The emperor level was pinched to death, and the first emperor level was easily beheaded. It is conceivable that only the first ancestor level could confront the Chinese leader.

However, most of the ancestors have quietly entered the Pangu realm and have not yet come out. This has made many hidden creatures somewhat frightened.

“Master, something has changed with Mars.”

Suddenly, Jiji sent a solemn warning that there was a change on Mars.

Qin Tiange’s complexion looked up at the void, suddenly vacated, and blasted towards outer space of the earth.

Suddenly, he turned into a black particle, passed through the atmosphere, and came directly to outer space, looking at the direction of Mars, where terrible energy waves came.

“Are the alien races here?” He looked dignified and felt the countless powerful breath from Mars.

Qin Tiange understands that a huge army of alien races ushered in Mars, which is likely to be the hunting corps of the younger generations of all races this time.

“Yanji, is the quantum transmission technology mature?” Qin Tiange asked suddenly.

Just listen to Jiji seriously: “Master, the quantum transmission technology is completely complete enough to build a quantum portal.”

“Fine, tell the Ministry of Science and Technology to make a quantum portal for me at once, and we’ll go to Mars.”

“Order the major legions, prepare for war!”

Qin Tiange was expressionless and directly issued a combat order.

Chapter 602 - 0 family pioneers

Mars, the highest peak, above Xituling Mountain, a space crack slowly emerged.

I saw a figure coming out of the crack in the space, standing in front of the Dalaiyin Temple in Lingshan, watching the place where the Buddha originated, Xitian Pure Land.

“Master, Xitian Lingshan has a layer of mysterious shield, which can serve as the frontier base of our expedition to Mars, and can build a large quantum transmission station here.”

Xie Ji’s pretty figure stepped out of the crack in the space and came to Qin Tiange’s side, making a quiet introduction and proposal.

Qin Tiange nodded. In fact, he already had this plan as soon as he followed Miaoshan to Mars.

Now, the one-way space-time wormhole on Mars is opened, and there are hundreds of starry sky descending on Mars, and the war is not far away.

In his view, waiting for the hundreds of stars to come to Earth would be better than expeditioning Mars directly to annihilate these alien races outside the earth.

“Dear yourself, you will build a transmission device, transfer a group of scientific and technical personnel, and build a large-scale permanent quantum transmission station, which will make it our leading base on Mars and resist the invasion of hundreds of people.”

“Yes!”

Xi Ji took the lead and released a large group of dense engineering robots by waving his hands. They were all built based on those engineering robots that he had bought before, and was under his control.

In the base, there are not only engineering robots, but also war robots that Qin Tiange ordered to make secretly. These are the best cannon fodder, and they are huge and controlled in the hands of Qin Tiange. No third person knows except him and his wife. .

“You stay here, I’ll check it out.”

Qin Tiange left a sentence, the body turned into black particles, melted into the space, disappeared directly in the Buddha’s pure land, and went to the location of the Martian wormhole to investigate.

But Jiji controlled a large number of engineering robots to quickly build the first quantum transmission device, transferred a group of scientific and technical personnel, and then began to build large and stable quantum transmission equipment.

...

In front of Mars, the largest crater, a huge stream of energy sprayed out, forming a space-time wormhole with a diameter of 10 kilometers.

Around the wormhole, densely packed alien creatures of various shapes and strangeness, some resemble humans, and some are completely monsters.

Some are huge, while others are small like pygmy. However, these alien creatures are without exception exuding an extremely strong and powerful breath.

Even if it looks like a dwarf creature that is only half a meter tall and has a human-like face, its eyes are extremely huge, like two raised eyeballs. It has a terrifying atmosphere and is actually the first emperor.

“Ha ha ha, finally arrived at the destination.”

I saw a burst of laughter from the Wormhole of Time and Space, and then a large crowd of black creatures came out, dense and endless.

The head is a creature with a huge body, up to 100 meters in height, muscles swelled, wearing a simple armor, full of oppression.

“Star giant?” Qin Tiange looked surprised in the interstellar space of the void. He looked at the crowded giants. The youngest was nine feet tall and the largest was hundreds of meters. It was really a giant race.

Qin Tiange squinted his eyes and hid in the space mezzanine. Most of the alien star races, giant races, and quiet observers were mostly minors, with a strong breath. The weakest were all eight-stars, generally nine-stars, Ten stars, there are even king-level commanders, emperor-level generals, and even a large number of first emperor-level.

“Welcome to the Star Giant, Marshal Pioneer!”

I saw countless giants admiringly looking at the wormhole, and slowly came out a powerful figure, a hundred feet tall, full of terror.

He is the pioneer Marshal of the Giants, Barr.

“Ancestral class?” Qin Tiange’s pupils shrank, his heart shook slightly.

Barr is actually a tyrannical ancestor, and is only the marshal of the star giant pioneer, then how terrible is the strength of the big troops behind?

Ok? Just as he stepped out, Barr frowned suddenly, his eyes glanced sharply, and a few doubts flashed on his face.

“Miss Barr, what’s wrong?” A mighty giant following Barr asked softly.

Behind Barr, there are eight powerful giants with terrifying breath and very close to the ancestor level, but they are not ancestor levels, but semi-ancestors.

Eight semi-ancestral creatures, together with Barr, the ancestor, existed arrogantly. It has to be said that the team of hundreds of stars in the sky to come to hunt on the earth is extremely powerful.

“Nothing!” Barr shook his head, secretly doubting himself, he had a feeling in his heart just as if someone was peering.

But he thinks that there are leading troops of several powerful races in the Starry Hundreds, and that the human race cannot grow so fast, so he is not assured.

“Good keen perception, but fortunately, I hide in the space mezzanine.” Qin Tiange muttered secretly, hiding quietly, watching these alien races in the starry sky.

The Star Giants came out in huge numbers, but they were just a vanguard, and a full army of 5 million arrived.

Moreover, it is not just the Star Giants. Next, one after another the tyrannical alien races appeared.

The Tianjing clan, the Silver star clan, the blue blood clan, the magic horn clan, the black dwarf clan, and even a race that surprised Qin Tiange.

“Half-demon?” Qin Tiange narrowed his eyes and looked at the last race that came. It was the half-demon, and the leading half-demon was still an acquaintance.

Looking at the countless half-demons coming, the other races were disgusted, as if they hated these half-demons.

No way, these half-demons are the most unseen in the Starry Hundreds, because they are the hybrid product of humans and Hundreds.

“Dirty Half-Demon!”

The black dwarf strong man looked down, and looked at the appearing half-monster with great disgust.

Not only the black dwarves, but also all races hate the half demon. I did not expect that the leading ancestor of the half demon army turned out to be east.

Dongli, the half demon who wanted to abduct Xie Xi was beheaded and killed by Qin Tiange, but it was a clone. At this moment he really came.

Humph!

Dong Li looked indifferent, and swept across the other hundred ethnic groups, looking arrogant, and standing on the other side directly with countless half demon.

“Dong Li, why are you half demon here?”

The powerful ancestors of the Tianjing clan opened their mouths, and their indifferent tone and cold eyes showed a ray of dissatisfaction.

Dongli sneered: “We are half-demons acting, when is your turn to point and draw?”

“A bunch of dirty blood, don’t you have half of the human blood in your body? Why, now come to participate in the hunting of human races?” The black dwarf ancestors said these words with sarcasm.

Dong Li’s face was gloomy and his eyes were cold, revealing a hint of murder. But soon he converged and was not angry, because the purpose of his coming here was not to hunt for any race, but to come back to welcome the most holy maiden of the half-demon tribe.

He wants to take away Xi Xi, the blood of Xi Xi is extremely noble, he is the descendant of the highest ancient existence in the entire demon.

However, he also had another purpose, which was to find the tribe who killed his avatar, kill him, and took his soul back to abuse him for 10,000 years.

“Dongli, half demon, interesting.”

In the space mezzanine, Qin Tiange looked at these half-monsters with half of the human blood gene flowing in his body, but did not expect to participate in the hunting human race.

He had no idea what to do, but he was silently lurking. Looking at the situation here, he imprinted the imperial seal on everything and prepared to go back.

“You, our vanguards of all ethnic groups have arrived, and the other races are heading to the birthplace of another tribe. This is the hunting area that our high-level forces strive for.”

“Yes, this is the oldest birthplace of the human race. There must be hidden secrets. It is said that there are countless mysteries here. If we can get them, it will be a huge gain for us.”

“Get ready, let’s cross the stars and kill directly into the earth.”

“Crossing the stars requires a lot of preparation. We must be the first ancestors to transport our army through the treasure.”

“let’s start!”

More than a dozen ancestors of various ethnic ancestors began to discuss, preparing to use their treasures to cross the starry sky, and directly lead the pioneers of various ethnic groups into the earth.

Seeing this, Qin Tiange knew that he had to go back and that he must lead an army to the expedition before these alien races crossed the sky.

“Can’t get them into the earth.”

Qin Tiange’s cold eyes disappeared quietly into the space mezzanine, leaving here.

“Ok?”

“what?”

As soon as he left, he immediately caused suspicion of more than 20 ancestors of all ancestors of various ethnic groups, all of them staring at the cold man, glancing at the void around them, not letting go.

They suddenly caught a ray of space fluctuations. Although very weak and short-lived, they were really captured by their ancestors.

“Just now, a strong man is peeping. Who is it?”

“No need to guess I think most of them are the disgusting death merchants and **** merchants.”

“Well, I think so.”

These ancestors have speculated that they are the most annoying merchants among the hundreds of people, the dead merchants and the **** merchants. These two abominable merchant races will appear wherever there is war in the universe.

Qin Tiange returned to the pure land, seeing Jiji and a large group of scientific and technical personnel are busy busy, constructing a very large fixed quantum portal.

“How’s it going?” Qin Tiange stepped up and started talking.

Xunji immediately came over and said, “Master, it is almost complete and can start quantum transmission with the earth.”

“Very well, as soon as possible, those pioneers of alien races are preparing to cross the starry sky and directly into the earth. We are running out of time.”

“I’ll go back to Earth first.”

After Qin Tiange finished speaking, he stepped directly onto the quantum portal, and for a moment, his body turned into a tiny piece of quantum disappeared.

Chapter 603 - War mobilization, Expedition to Mars

Everyone on Earth, in China, suddenly received a video.

“what is this?”

“Mars?”

Countless people watched the video of the personal terminal that jumped out autonomously, watching the barren ground, the pots and valleys, and the red-colored Shashu everywhere.

Then someone saw that this was the surface of Mars. On the screen, it began to change. Suddenly, a huge space-time wormhole was seen, and all kinds of creatures poured in from it.

“An alien race?”

“Oh my God, have alien creatures invaded Earth?”

Everyone was shocked to see here, and horrified to see the dense and massive alien races appear.

A variety of tall starry giants, short dwarf demons, glittering sky crystals, silver stars with silver eyes, and creatures of various races appeared.

The whole of China is boiling up and down, no matter who it is, everyone sees this kind of picture chilling, without any temperature.

No way, those alien races are not only huge in number, but also very powerful. From the picture, you can feel the terrible breath and kill the sky.

“My fellows, I am Qin Tiange!”

Suddenly, the virtual light curtain flickered, splitting up a small light curtain, and a figure emerged from it, which is currently Qin Tiange, the current leader of China.

“It’s the leader!”

Countless people were excited, sober from the shock, and silently looked at Qin Tiange, the supreme leader on the screen.

I saw Qin Tiange with a serious expression and solemnly said, “Presumably everyone has seen this picture, yes, this is a set of surveillance videos we took back from Mars.”

“The alien race is about to invade the earth. We should use humans as a prey. Hunting humans should be regarded as the initiation ceremony of the younger generation of their own race.”

“That is to say, we are all adult hunting prey of alien races, hunting us humans to get adult crowns.”

Qin Tiange’s tone was cold, and a breath of anger was revealed, and the amazing words shocked countless people throughout China.

The alien races actually hunted humans to get the ceremony. Doesn't it mean that their humans are slaughtered like prey of alien races?

"Hunt us as prey and get grown up?"

"Hateful alien race!"

For a time, countless bases boiled up and down throughout Huaxia, and everyone had only one mind, that is, they were regarded as prey by alien races.

No matter what kind of person you are, as long as it is a human, it will be hunted as a prey, the merits of hunting for alien race life, and then crowned with adulthood.

"My fellows!"

Qin Tiange has a solemn face and a stern tone: "Our Chinese nation, and all human beings in the world as a whole, will face the danger of being annihilated and even enslaved."

"At this critical moment, as part of humankind, we should raise our chests, take up arms, and defend the dignity of our humanity."

"I declare that the Huaxia family will face off. Everyone with a star rating of more than six stars will participate in the war to defend our Chinese nation and the dignity of the human race."

"Order, each city and base sent a legion to Beijing, one day later, with me on an expedition to Mars to kill alien invaders."

As soon as an order was issued, the major bases throughout China mobilized immediately to pick out the most elite army?

"Order, for all Chinese people, all those who participate in the war can get rich rewards, those who kill one enemy, reward ..."

"Kill the enemy, reward ..."

A lot of reward information was announced, elixir, various grade potions, crystal nuclei, energy stones, and even some powerful spiritual treasures, strange treasures and so on.

As Qin Tiange issued a combat order with the supreme leader and the whole of China was mobilized, the major bases had to deploy one of the most powerful legions to come together and head for Mars.

"Participate! Participate!"

"I want to fight!"

Listening to the generous reward, everyone boiled, and the countless Chinese strong men were excited, and at this moment, the blood in their hearts was ignited.

Not only as a human being, but also as a kind of pride and unyielding for the Chinese people, but also because of the powerful reward system, which is the most important.

Killing an appearance race can get a long-lasting medicine that can last a hundred years of life. How tempting is this?

No one knows how long they can live, at least no accident, and everyone has a life expectancy of 100 years.

For a time, strong players from all over China rushed to sign up for the battle, but unfortunately, they could not go to Mars, because Qin Tiange knew that not only was an alien race on Mars.

Don't forget that there is also a space-time wormhole on the back of the moon. Although it is much smaller, there must be other alien races coming.

“Ziyi, immediately led a zombie army with more than seven stars to come to see me.”

When he went to Beijing, Qin Tiange sent a message. At that moment, a purple figure in a mysterious restricted area looked and opened the message.

“It's father!”

Ziyi looked surprised. Looking at this message, she looked very excited, and went straight without saying a word. They gathered a huge army of zombies and began to assemble.

I saw that after Qin Tiange sent this message, he immediately sent two more messages.

Dongsong, Qianhe and Qianlu sisters received a message, and then quickly went to gather powerful troops and began to wait.

After receiving the news, Akagilina in Thailand, Manchester City, was silent for a moment, and immediately issued an entire army order to gather all the elite legions of most of the Thai bases.

“Master, there are powerful energy fluctuations on the back of the moon. The number is unknown. It is suspected that other alien race vanguards have arrived.”

When he went to Beijing, Qin Tiange was making preparations, and suddenly he heard the news from his self, his brows could not help but frown.

Soon after, Jiji heard the news again: “Master, something bad is happening. Several ethnic armies suddenly separated, and they were taken to space by the patriarchal powerhouse, and headed for the earth.”

“Don't worry, here it comes. After all, the earth is not just us Huaxia, let other countries and humans share the pressure.” Qin Tiange said indifferently.

He is not stupid, nor great, let Huaxia go alone to fight against the army of dozens of huge races, are you kidding me?

Qin Tiange had long thought about it, Mars Expedition, he would not stupidly intercept all alien races, just stop one or two.

As for entering the earth, there are other human forces on the earth's native land that can fight against him. I don't know if he can do it. Anyway, what he can do is to protect the Chinese territory.

“The major bases have been ordered to prepare for war, and many alien ethnic legions have crossed the starry sky and landed on Earth.”

As Qin Tiange again issued a promotion order, the major bases in Huaxia realized that the matter was serious, and they were preparing intensely to start energy protection.

Qin Tiange thought for a while, and ordered: “In addition, you send a team of drones, bring the projection equipment to various human bases around the world to drop these videos, let them see, understand the current form, and prepare for prevention . “

“understand!”

From Mars, I directly controlled a group of drones from the base whistling away, scattered to the world’s major separated land, sprinkled countless video dispensers, and directly played these things.

Qin Tiange can only do so much. As for how other human forces on earth can resist those alien races, it is not his concern.

What he has to do is to protect his one-acre three-point land. Huaxia must not let the alien race trample on.

“Order the military factory, give me full production, nuclear bombs, anti-material bombs, do n’t care about destroying the earth or anything, give me how much to do, let the alien races see, we humans are not only strong in individual power, they are not as powerful as the overall power. Hunt and kill. “

Qin Tiange sent fiercely, directly transmitting the death order to the huge military factory, fully producing super weapons, all kinds of powerful nuclear bombs, and even anti-material bombs that have not been tested yet.

This war will not end in a day or two. If it ends in two days, humans will not have to dwell on the earth.

A day later, the army was gathered in the capital, and the army was densely packed. Numerous legions arrived and gathered from major bases in China.

These legions are the most powerful elite legions in the major bases. Of course, Qin Tiange will not foolishly move away from these elite forces. Huaxia’s native country still needs strength to defend.

Even if they each halved their elites, they still gathered a full 20 million troops. The elite and powerful legions were all strengtheners with more than six stars.

On the east side, Qianhe and Qianlu sisters led a million troops. This is the limit of the forces they currently control.

As for Akagilina, the arrival of 1.5 million elite troops to gather in Beijing was considered the first alliance operation.

Roar...

Outside the capital, dense crowds of zombies gathered, almost causing the main legions of the capital to be strangled. Fortunately, Qin Tiange explained earlier that some zombies had come to participate in the expedition.

“Oh my God...”

Outside the base in Beijing, a dense army of zombies gathered and came in orderly, without any trace of confusion, as if it were a whole, just like the elite human legions.

These corpses of zombies arrived neatly, one by one, each battalion is full of 100,000 zombies, can not be seen at a glance, in short, these zombies at least 10 million or more.

“father!”

A purple figure flickered and appeared over the base of Shangjing, with a small face full of excitement watching a figure that appeared, it was Qin Tiange.

“Ziyi, wronged you!” Qin Tiange touched her hair, feeling deep.

Ziyi, even stepped on the emperor level, did not expect her to step into Huangquan’s corpse early, and she had such a rapid growth.

“Giggle, brother, have you forgotten your sister as a leader?”

At this moment, there was a crisp laughter in the void, and saw the jade corpse big Yuer quietly falling down looked at Qin Tiange with a shy face.

“You can come.” Qin Tiange nodded with a smile, surprised, and did not expect that this jade armor corpse also became the emperor corpse.

He didn’t care, watching the major legions gather in place, and immediately issued an order.

“All legions follow orders, follow me on Mars and kill alien races!”

Qin Tiange, wearing a battle armor and a somber face, turned and stepped into the quantum portal, disappeared.

“Follow the leader!”

“Conquer aliens!”

The shouting and killing sounded earth-shattering, countless armies were boiling, everyone was excited, and stepped neatly into the super-large quantum portal constructed by the base in Shangjing.

Human forces and the Corps of Zombies stepped into it, disappeared on Earth, and went to Mars to fight.

As Qin Tiange led the major legions to Mars, an unprecedented alien expeditionary war in the Chinese nation will soon erupt.

Chapter 604 - 100 million cannon fodder, nuclear weapons feast

On Mars, a huge army left before the Wormhole in spacetime.

Under the leadership of the ancestors, some legionaries successively crossed the starry sky with treasures and killed the earth.

“Barr, let’s hurry up.”

At this time, there are still three racial vanguards, with a total of 20 million powerful tribal armies, who are preparing to cross the starry sky with three ancestors.

One of them is the star giant, with a population of about five million. One ancestor and eight and a half ancestors are extremely tyrannical.

There are two other families, the Tianjing clan, the Silver Star clan, and the two armies are the largest, with a total of 15 million pioneers, each with an ancestor-level pioneer marshal.

Of course, there are fewer semi-ancestors in the two races, and there are only five semi-ancestors, but they add up to ten semi-ancestors, which is quite scary.

“Go, cross the stars!”

A hundred-zoomed giant said arbitrarily, took out a treasure of the same ship type, and released it directly, just to lead his family’s pioneer across the starry sky.

The Tianjing family is like a crystal ring, like a crystal cup, which can hold millions of souls, and the silver star family is a whole body of white stars, looking like a star.

The three tribes went out together, leaving their armies to leave, burst into the stars, and kill the earth.

“Wait, what’s that?”

Suddenly, Star Marshal Barr stared, and turned his head to look at the place where the highest peak of Mars was suddenly filled with dense black spots, sweeping over.

The other two ancestor-level creatures all saw it, and the soldiers of all three races clearly saw it. The dense black spots, like endless black clouds, swept towards this side.

“The cannon fodder of the Zhixing clan?”

“Smart man?”

For a time, the three ancestors froze for a moment, looking at the numerous black dots rushing over, and found that it was a cold robot.

Yes, these are robots, war robots, fully armed, with three super-concentrated laser cannons and two missiles.

In addition, some robots also carry nuclear warheads, a large number of which are fully equipped with a thousand nuclear warheads. []

“Jingli, guys from the Zhixing clan, what do you want to do?” Barr looked somber and sneered, “I hate the guys from the Zhixing clan the most.”

“Me too, what do they want to do?” Jingli, the ancestor of the Tianjing tribe, looked down and said, “What else can they do, not just come to **** good things?”

“Yes, these abominable wise stars, like locusts, know how to rob everything and make countless cannon fodder. It’s annoying.”

“No, these smart people came at us.”

Suddenly, Barr noticed something wrong and felt the killing from the overwhelming robot. The goal was directed at them?

The number of robots is so overwhelming that the number reaches 100 million.

One hundred million war robots. This is the ace of war that Qin Tiange has been silently accumulating. It was secretly produced by his own self. No third person knows it. Only he and his self will know.

Now, suddenly he took out this hole card, and many talents were shocked. He looked at the densely packed robots. What is the situation of 100 million robots?

“Fire!”

With an order, 100 million robots fired at the same time, firing a horrible laser towards this side, 100 million lasers screamed.

The scene was spectacular, as if the sky and the earth were destroyed, the laser was laid, and the bombardment in the area where the three ethnic armies were located, causing horrible damage and casualties on the spot.

Some of the weakest tribal fighters were swept away by a hundred million lasers on the spot, gasified on the spot, and died.

“Jack!”

“Strike and dismantle the trash.”

The three ancestors were furious, their respective backhands slammed, and hundreds of thousands of robots burst on the spot.

Immediately afterwards, eighteen and a half ancestors mobilized together, leading a powerful army of three ethnic groups to rush up to remove these cannon fodder.

That’s right, these are cannon fodder, which were created by Qin Tiange. The purpose is actually to conquer aliens.

“Master, the level of these cannon fodder is too low. It is not an opponent of the tribal army at all. Even a large number is useless unless there is a hydrogen bomb in the hand.”

On the Martian West Tianling Mountain, Qin Tiange and others quietly watched this billion robot attack the three-army army.

Xi Ji expressed her opinion, and she has always disagreed with the creation of too many robots because it is too low-level.

If you want to make more advanced and powerful robots, you must have sufficient capabilities and technology, but at present, I have not mastered this technology.

“One hundred million robots is the use of steel waste. You don’t make anything that you don’t use and keep.” Qin Tiange said calmly.

He didn’t even care about these robots, cannon fodder, and tried the fighting power of these three legions and the fighting methods of their three clan.

With this 100 million robot cannon fodder, more than 30 million coalition forces at the scene clearly realized the power and capabilities of the three ethnic groups.

“Order a thousand nuclear-armed robots to spread out and detonate in the tribal team.”

Soon, Qin Tiange issued an order, and a thousand robots carrying a thousand nuclear bombs quietly merged into the army of 100 million cannon fodder.

They are not surprising. The only difference is that they carry a new nuclear bomb with an equivalent weight of more than 5 million tons.

Rumble ...

The two armies finally approached each other and crashed together, and numerous robots flew and shattered, scattered into pieces.

Even if the number of steel robots is not large, they are not the opponents of these three clan armies. The laser roars and kills many army clan fighters.

Unfortunately, more of them have no effect, because the armor on the respective armies of the three races is extremely powerful and can defend the laser bombardment.

If it weren’t for contacting and hitting ten lasers, these three ethnic fighters would probably not be killed, and the robot would really be artillery.

“Waste, watch me dismantle you.”

A king-level starry sky giant roared, holding a ten-meter-high robot in both hands, torn apart fiercely, and the cup was finished.

boom!

There was a loud noise, followed by a strong, unmatched light that exploded, as if a sun exploded directly there.

The intense light and the terrifying temperature directly melted the body of the king-level starry giant on the spot and turned into ashes.

The poor king-level starry sky giant even grabbed a robot carrying a new type of nuclear bomb. At the moment when the nuclear bomb exploded, it was a thousand times higher than the core of the sun, and burned him to the ground ashes.

The new 5 million-ton-equivalent hydrogen bomb is pollution-free, radiation-free, and has only strong high temperature and shock waves. It encloses all three ethnic warriors within a radius of 10 kilometers.

Beyond the sun's high temperature of a thousand times, it directly turned the ten kilometers into an extremity, instantly eradicating all the warriors of the three races, leaving only three or two emperor-level strong men rushing out.

“Ah ... huck!”

“Jack!”

The three emperor-level powerfults were furious, all black and almost melted.

“Abominable Zhixing tribe, you look for death!”

Seeing that a king-level man was blown up, Marshal Barr was furious, roaring and waving his hands, breaking hundreds of thousands of robots.

However, at this moment, the three ethnic groups entered the robot legion, and as a result, the hidden robots detonated the large equivalent hydrogen bombs they carried.

boom! Boom Boom Boom ...

Almost at the same time, the bright sun burst out, and the intense heat swallowed up the warriors of the three races, as well as the Supreme Robot Cannon Fog.

Suddenly, a thousand suns lit up above Mars. Yes, there were a thousand bright and extremely incomparable suns, and the burst of light in an instant surpassed the sun more than a thousand times.

“That is?”

At this moment, in the outer space of Mars, various other ancestors who were crossing the starry sky suddenly looked back on Mars and suddenly burst out a thousand terrifying suns.

The powerful energy fluctuations can be clearly sensed in space. The horrible hydrogen bomb exploded, and a total of 1,000 new 5 million equivalent hydrogen bombs engulfed the three ethnic groups on the spot.

“what happened?”

The dwarf demon ancestors were at a loss, watching the explosion of a thousand intensely hot light spheres explode on the surface of Mars, a whole thousand hydrogen bombs exploded, and the entire Mars shook slightly.

The terrible shock wave swept thousands of kilometers, and the mountains were swept into flats. Countless soldiers of three ethnic groups were gasified on the spot, and they died before screaming.

No matter if you are a six-star, a seven-star, or an eight-star, nine-star or even a ten-star, as long as it is in the core area of the explosion of a thousand hydrogen bombs, it will be gasified on the spot by instant high temperature, unless you have a powerful treasure guard .

“It seems that the Starry Giants, Sky Crystals, and Silver Stars have come under attack.”

“Shall we go back and see?”

The ancestors of the various races who crossed the starry sky were shocked. They had guessed that they should be attacked, but they all sneered, without any intention of returning.

“Come on, our goal is Earth Star.”

The strong ancestors of the magic horns chuckled, turned around and took the treasure to cross the starry sky, there was no meaning to go back.

The ancestors of the other races sneered, in fact, there are also disputes and hatreds among the various races.

These armies of various ethnic groups left, and flew straight to the earth, and on Mars, the armies of the three ethnic groups were miserable and were bombed by a thousand new hydrogen bombs.

Not to mention them, Qin Tiange froze. Looking at the terrible scene of the sun falling, the mountains melted, the ground was sunken, and the intense heat directly turned the area of hundreds of kilometers into a fire magma.

The power of hydrogen bombs to explode together was the first time I saw them. A total of 1,000 new hydrogen bombs of at least 5 million equivalents exploded together. The scene and destructive power shocked Qin Tiange.

“The feast of nuclear weapons has just begun ...” Qin Tiange’s mouth slightly tilted, inexplicably evoking a cold arc.

Because behind him, densely packed air-launched missile vehicles began to take off and unfolded. Each missile-launched vehicle spread out in the air, and a series of horrible missiles aimed at the tribal army over there.

“emission!”

“To the three ethnic armies, we would like to express our sincere concern for Huaxia, and treat the three ethnic armies from afar with a nuclear feast.”

With a sneer, Qin Tiange gave the order indifferently, and saw that the missiles vacated, accelerated in an instant, and bombarded the target area almost in the next second.

Chapter 605 - Antimatter bomb, first explosion show

Boom boom ...

Suddenly, a horrible sun lit up in the sky and earth, and just after a thousand nuclear bombs, the three ethnic armies were caught by surprise and suffered a new round of nuclear bombs before responding.

“what...”

Hundreds of missiles bombarded all of them and exploded instantly. The screams of screams screamed from the king-class powerhouses, and their bodies were torn apart by melting.

It is no accident that hundreds or thousands of missiles carried two or three new hydrogen bombs and exploded directly. The scene was almost devastating, as if the sun had exploded.

Rumble ...!

The planet Mars trembled slightly, and the scene of thousands of nuclear bombs exploding together with human beings' current highest technological weapons is shocking.

It is that those patriarchs in space are stunned, watching the horrible light that broke out again on Mars.

“Oh my god, are those guys from Zhixing crazy?”

The dwarf tribe's ancestor said dumbly, he thought that this was the product of Zhixing, because only the high-tech weapons unique to the Zhixing tribe.

Regardless of robots or all kinds of powerful scientific and technological weapons, they are actually the products of the Zhixing clan, which is a powerful race that is justified by science and technology.

In addition, the number of Zhixing clan is too large, and the upper and lower are unified. There are only nine people with high intellectual brains. They lead an endless number of intelligent people.

Moreover, the science and technology products of Zhixing are very scary and can even destroy many ethnic civilizations. This is where Zhixing is not welcome.

“Then, shall we go back?”

An ancestor said, hesitated. It seemed that Mars 's army was coming to Mars, and they were still working directly with the three races. Would they pass?

“However, I haven't heard that the Zhixing clan sent a large army to come here, seems to be in the place of origin of another clan?” The ancestors of the magic angle clan questioned.

For a time, the ancestors who crossed the starry sky were silent. Some were unknown, so they looked at the horror rays that burst on Mars.

Thousands of nuclear bombs exploded, or the latest hydrogen bomb after the transformation. The explosion temperature was far more than a thousand times the temperature of the sun's core, which was quite horrible.

“Do not...”

On Mars, the ancestors of the three races roared angrily, each using treasure protection to protect most of the army.

However, because the nuclear bomb came too suddenly, they never thought that the other party would directly attack with a nuclear bomb, blast it directly from the inside, and then another round of missile bombardment.

This feast of nuclear weapons directly drowned the tribal army, and countless powerful tribal soldiers were completely destroyed by the explosion.

Except for those who had treasure protection and did not die, the rest were guarded by the treasures of the three ancestors, and did not die.

A round of nuclear bombing directly led to the destruction of more than three million tribal fighters on the spot, with countless seriously wounded, and even some kings were directly gasified in the center of the explosion.

The Emperor was seriously injured and was bombed by a nuclear bomb. He almost did not cry.

Misery, too miserable!

Emperor-level powerhouses have never been wounded by a nuclear bomb. They were the first to suffer because of carelessness and never thought of an ambush on Mars.

The first emperor is okay, that is, the armor is melted, but he is not injured, which is the strength of the strong.

To a certain extent, the bombardment of immune nuclear bombs is normal, and even strong heat can't destroy these powerful creatures for a while.

Unless the high temperature can continue, it is necessary to use strong high temperature for a long time to burn these powerful emperor or first emperor creatures.

“Unfortunately, the three ethnic armies are protected by treasures, otherwise these two nuclear bombings should wipe out half of their military power.”

Qin Tiange looked at the explosion scene and shook his head with a sad expression. After all, he was still not strong enough. The latest hydrogen bombs could not explode the defense of the opponent's treasures.

This disappointed him and said to Jiji: “After the war, pass back the collected data and tell the Ministry of Science and Technology that we need more powerful weapons and make me at least powerful weapons that can blow up the stars. “

“The research on the black hole bomb program was immediately put on the agenda, the Star Destruction Weapon Program began to be implemented, and the Space Fortress and Space Battleship were immediately put into production testing.”

Qin Tiange sent a ruthless order, directly issued a death order, launched several high-end research projects, and launched these terrible weapons programs.

“Master, the three clan armies are assembled and protected by the three ancestors in Arcana. Our current nuclear bomb technology can't bombard these Arcanas.” Xi Ji said prudently.

From this point of view, the nuclear explosion, three huge lights firmly guarded most of the three ethnic groups, which blocked the power of the nuclear explosion.

Seeing this, both Qin Tiange and others looked dignified, and the nuclear bomb could not explode the defense of the other's treasures. How to kill the other?

However, after the two rounds of nuclear explosions, the three ethnic groups were destroyed by more than three million, injured more than five million, and caught off guard.

“Offensive, offensive!”

“Destroy these abominable intellects.”

Finally, when the nuclear bomb subsided, the tribal ancestors almost roared and roared offensive orders, leading the tribal army to swoop up.

Moreover, the three ancestors of the ancestors even broke away from the team and directly hit the highest peak of Mars, the West Tianling Mountain.

When they came here, the three ancestor-level creatures suddenly discovered that where is the Zhixing clan, it is completely human.

“Human race?”

Marshal Barr, the ancestor of the Star Giant, opened his eyes wide and stared blankly at the West Tianling Mountain. The dense and neat army was the human army.

He didn’t expect that it was the human race that launched the sneak attack on them, which made him completely unexpected, and then he was surprised.

“Jack!”

“It turned out to be human?”

The three ancestors jumped like thunder, and then they suddenly realized that they came to hunt for the Terrans and never thought they would be attacked by the Terran Army.

Moreover, even if no one sees them, they are destroyed by the other party for a total of three million troops, and millions of soldiers suffer different levels of trauma, which is a huge loss.

“Three ancestors, very good, even dare to break away from your army.”

Qin Tiange suddenly flashed, emerged outside of the energy enchantment of Lingshan, faced the three major ancestors, and the breath forced him to lock up the three ancestors.

“Yanji, transport two antimatter bombs out and give them to the tribal forces over there, and use them to test our latest weapons.” Qin Tiange said the order indifferently.

As soon as the words fell, the three ancestors on the opposite side felt a cold heart, and the secret road was not good. They immediately turned around and went back to guard their respective armies.

Unfortunately, how can it be easily walked away when it comes?

“stay!”

Qin Tiange drank swiftly and suddenly appeared in front of a patriarch-level strong man. Pangu’s blood was boiling and burning, and a punch hit him.

The first ancestor was very powerful. In response to his punch, the two fists slammed together.

There was a loud noise, and the two figures receded, and the ground was sunk dozens of meters deep by the powerful force.

Qin Tiange sneered, his body quietly disappeared, reappeared, and punched in front of another ancestor, blocking his way.

boom!

The two hit each other and both backed away, evenly splitting the autumn. At this point, the star giant Barr was about to leave, but suddenly felt a terror force locked him.

A sword-mang roared, a gap in the space cracked, as if a sky mark was drawn down, with a brilliant sky power, making him look slightly changed.

“Roar ... break me!”

Barr roared, his muscles bulged, his fists slammed in a rage, and the space was instantly shattered.

I saw that Barr’s body quickly retreated, a shallow sword mark appeared on his fist, and the blood flowed back quickly after flowing out, and the wound healed.

The three ancestors of the first ancestors were blocked, Qin Tiange broke out, and his will firmly locked the three ancestors.

And there, among the Terran Army, suddenly saw three special missile vehicles slowly lift off, Shi unfolded, and three brand new exotic missiles aimed at the Terran Army there.

“emission!”

With an order, the three ancestors turned wild, and saw in horror that the three missiles took off and accelerated in an instant, bombarding the energy protection layer of the tribal army almost instantly.

There was a violent and crisp sound from the click, as if the space was broken, and the special warheads carried by the three missiles suddenly exploded.

There was no violent explosion, but only a few crackling sounds. The energy protection of the Supreme treasure was directly annihilated. The terrible power radiated, and dozens of kilometers were shattered on the spot by the energy annihilated by positive and negative matter.

“Do not...”

The energy protection was broken, and the three armies inside were terrified. They watched as their respective bodies were strangely annihilated.

Yes, all the material in the center of the explosion is completely annihilated, and there is nothing left, as if three black holes are consuming endless material.

“Antimatter?”

“I hate the Zhixing clan ...”

In the center of the explosion, an emperor-level powerful roared, and before he died, he made a roar of hatred. The hatred was not the human race, but the Zhixing race.

Maybe, they want to come to these anti-material weapons, the science and technology of the Zhixing people spread to the people, so they hate the Zhixing people.

Antimatter bombs are very scary. The terrorist forces caused by the annihilation of antimatter have shattered the body of the great emperor and destroyed the defense of the first emperor.

“Ah ... run!”

“escape!”

Eighteen semi-ancestors are roaring wildly, and the body bursts into the power of supreme power. The blood of the half-ancestors is boiling, and they will escape the terrible annihilation of positive and negative material energy.

Hum!

The treasure was lighted, but the horrible energy produced by the positive and negative material annihilation was torn to pieces on the spot, and it completely lost its dependence.

Instantly, in the center of the explosion, the terrible positive and negative materials continuously annihilated each other, generating devastating terrible energy. Ninety percent of the tens of millions of ethnic groups were wiped out, as if they were swallowed up by three black holes.

The three anti-material bombs just made were exploded for the first time.

Here, all human beings and even zombies were stunned. Looking at the three ethnic army that had been wiped out by birth, they felt the chills in their hearts and realized the terrible antimatter for the first time.

Chapter 606 - Solitary war 3 ancestors

Buzz ...

In the explosion area, the treasure light soared into the sky, and many treasures emerged, and many treasures were annihilated by the terrible energy one by one.

As the positive and negative material annihilation energy gradually subsided, there was a pit that was tens of kilometers wide, as if something had been swallowed.

The entire area has become a real vacuum area, all matter has been annihilated and disappeared, and even the horrible lethality feels a thrill.

“what...”

“Old man ... save me ...”

At the edge of the antimatter explosion area, some tyrannical Emperor Climbing climbed on the ground, yes, most of their bodies were annihilated, and the remaining remains were crawling, very miserable.

The eighteen half-ancestors were all wounded, and escaped from the center of the explosion. The soul shuddered at all the material that had been completely wiped away.

On the edge of the explosion, the surviving tribal fighters almost collapsed, and some people couldn't help crying.

These people are all the younger generations of the three races, and they are all still minors. They are the first to experience foreign races, and they have also been crowned as adults.

However, no one thought of coming here, and was even beaten like this, before being confronted face-to-face with the enemy, he was blown up crying, crying and sorrowing.

Looking at the army of the three ethnic groups who were sorrowful and wild, their courage was blown away. The three or four million three groups of soldiers who survived were all shocked.

Even the powerful kings, emperors, and emperors were bombed by this anti-material bomb.

No way, the anti-matter explosion just now caused a lot of Shihuang levels to fall.

“Order, attack!”

Suddenly, a cold drink spread across the battlefield, and all the stagnant Terrans and the Zombie Army woke up together.

I saw, Qin Tiange pulled out the ancient sword, pointed sharply at those three-armed army that was blown up, and smashed into the sky.

“The tribal army has lost its courage. If you can’t annihilate these remnants, then you don’t have to come back to see me.”

“kill!”

With the order of Qin Tiange’s leader, an army of 20 million people rushed out of Xitian Lingshan, waving their weapons, and killed the remaining soldiers of the three races.

Roar!

“Swallow them!”

Thousands of zombie riots, under the roar of purple robes and jade corpses, poured out wildly, as if to rob those three ethnic remnants.

The two armies turned into two torrents of horror, killing the tremble remnants of the three races, covering the earth and endlessly.

Seeing here, the army of the three races has already been terrified and has no intention to fight. Even the king has a fear of running away.

Looking at the remaining three ethnic armies, less than four million, under the joint attack of a full 30 million humans and zombies, no alien life dared to rush up.

Fear spreads uncontrollably, morale is lost, and courage is dissipated. How come the courage to resist the high morale army?

“you you...”

At this moment, the three ancestors were mad, full of momentum, shaking the surrounding space, and the mountains were collapsing.

The three ancestors were furious. Looking at the flattened three-army army, only less than four million of the three-army fighters remained, and their hearts were dripping with blood, and the anger drowned the three men's minds.

“My ancestor I ate you!”

Star Giant's ancestor Barr screamed, his body suddenly swelled, his body was tens of feet tall, nearly two hundred feet tall, full of oppression.

He stretched his arms into a fist and knocked it down with a violent blow. A mountain below broke into powder on the spot, showing a giant pit.

In the smoke, Qin Tiange calmly, his figure flickered, and he broke into the air. He waved his arm and hit him with a punch.

Hum!

The fist was empty, shredded the space, and caused a wave of volatility around the void, as if it could not bear the terrible fist collapse.

Barr was roaring, and his huge fist was blown down fiercely, hitting Qin Tiange's body with violent power.

However, it was frightening that Barr's fist was blocked by a small fist and punched through Barr's wrist.

A loud muffled sound, Barr's huge body receded, and his powerful backlash made his face flush, his eyes congested, and his intellect drowned out.

“kill him!”

“The ancestor shredded you.”

The ancestors of the other two clan ancestors soared into the sky and directly killed them, exposing the power of their respective horrible ancestors, and to tear up Qin Tiange.

The three great ancestors were furious, and the lethality exerted by them was extremely horrible. Even Qin Tiange's physical strength had to retreat, and he did not dare to fix it.

He knew that the first emperor level could be easily beheaded, but in the face of such a powerful creature that the blood gene returned to the ancestor, there was an incredible ancient power.

This kind of power is slightly careless, which may hurt his body and even his soul, and must be treated with caution and vigilance.

“Pangu blood, go up!”

Suddenly, Qin Tiange gave a low drink, the pangu blood in his body boiled, his body swelled and became a giant ten feet in an instant.

Although it is nothing compared to Barr's body of nearly two hundred feet, an ancient force is very scary.

“Dead!”

Barr was screaming, his eyes were red, and a horrifying murderous shot was issued. A slap was shot at Qin Tiange's location. Under the palm of his hand, the mountain broke into powder.

Boom!

Qin Tiange struck out with a punch of grey gas, his fists passed, the void broke, Barr's palm was punctured on the spot, and the figure shot from the back of his hand and came to Barr.

Barr's face changed greatly, looking at Qin Tiange who appeared in front of him, and he swung his left hand fiercely. As a result, Qin Tiange threw a punch on his wrist, crackling, and flesh mixed with broken bones.

"Ah ..." Barr screamed, and the ancestors were all beaten up by Qin Tiange with a punch and flesh and bones. This ancient and outrageous power was simply incredible.

boom! boom!

There were two loud noises in the back, the space collapsed, and the other two ancestors of the ancestors killed them. One waved the ring to the treasure, and the glorious sky shrouded.

Holding a star in one hand, Yin Chancan's light shed, hitting Qin Tiange's body.

The two ancestors carried Zhibao to the bombardment. Qin Tiange turned around and slapped with two palms. Two bangs broke the two rays of light, and his body was shaken back hundreds of meters.

He looked up, and the three ancestors gathered together, and Barr had already recovered his hands, staring gloomily at him.

"You must die!"

Barr's fierce roar, only one thought in his mind, is to kill Qin Tiange. The other two ancestors did not say anything, they simply killed them, and the three ancestors joined forces to kill Qin Tiange.

"kill!"

Qin Tiange Li Xiao, instead of retreating, took the initiative to greet him, wield his fists, and fight against the three ancestors in the blood.

This is the first time he has faced the first ancestors, and he has no reservation at all. He has erupted his most powerful force, Pangu blood boils, space particles surround, and time taboos erupt.

Rumble ...

The four powerfuls are fighting fiercely, and each collision is brought about by violent fluctuations in Mars space. There are strange cracks in the void, which are space cracks.

One of the three ancestors was very terrible. The three joined forces to suppress Qin Tiange, and it seemed that he was being beaten.

“Dead!” There was a roar, and a silver star smashed down, and a bang slammed into Qin Tiange’s chest. On the spot, his bones collapsed and his blood was stained with yellow sand.

He flew across the body and was hit ***** the back by a ring. Although he turned back and punched, he was still beaten back and forth.

“Well, die!”

Barr roared, his huge body dived down fiercely, and the huge slap instantly covered Qin Tiange’s body, blasting him into the surface of Mars.

The smoke and sky soared, and hundreds of meters of pits were punched out, as if the terrible scene of a meteorite impact.

“kill!”

Barr roared, lifted one foot and trampled it down, and the loud noise came out, and the large pit of hundreds of meters instantly expanded into several kilometers.

In the big pit, a figure stood embarrassed, with both hands resting on Barr’s feet, lifting it inch by inch, no matter how hard Barr could step on it.

“Three ancestors are really powerful, but you don’t have to leave today.”

Qin Tiange’s face was so cold, his eyes were furious, his right hand was suddenly withdrawn, and he clenched his fists and punched him hard.

With a bang, Barr’s soles exploded completely and were punctured on the spot. A big blood hole was broken in the back of his foot. The pain made him immediately retreat his feet and keep backing.

“Silver star shines, kill!”

Suddenly, a low roar came, and a huge silver star overhead swooped down, as if a comet crashed.

Qin Tiange’s eyes were condensed, his breath erupted, Pangu’s blood boiled and roared, his body emptied, and he punched a punch to the huge star.

Boom!

When a boxing hit the surface of Silver Star, a huge impact hit the horror, and then, an incredible scene appeared.

The silver star was punched through by Qin Tiange, and his body shot out from the other side of the silver star, punching it through.

boom!

Silver Star was penetrated and smashed on the spot. It turned into endless energy and swept across the wasteland. It collapsed the barren mountains on Mars The ancestors of the Silver Star family looked terribly and looked broken Arcana, eyes wide, almost bit his tongue, it was too scary.

“I don’t believe in killing you.”

The ancestors of the Tianjing clan roared, burning a crystalline flame, and an ancient power erupted instantly, belonging to the power of the ancestor of the ancestor blood gene.

“Tianzu’s power, fuse me!”

A loud scream, accompanied by a swell of a crystal-like ancient ghost, then merged into the body of the ancestor of the Tianjing tribe. At that moment, he became different. Tianjing’s long hair danced, his eyes opened, revealing the ancient Indifferent light.

Like an ancient being, he awakened through the blood gene of the offspring, took control of the offspring’s body, and patted Qin Tiange directly with one hand.

With a click, the void shattered!

In the area where Qin Tiange was located, the space was sunken, and his body was locked by an inexplicable force, unable to move, and was instantly photographed into the space debris by that ancient force.

Chapter 607 - Ancient people wandering in the stars

boom!

The space was broken, and a figure emerged from the inside, fighting the three ancestors.

Qin Tiange waved his fists and trembled in the void. The Pangu blood in his body almost burned. No matter his body or strength, he was able to fight three ancestors.

“kill!”

The three great ancestors whistled and struck each other. They struck the atmosphere from the ground of Mars, and then broke out of the planet and into space.

Over there, Qin Tiange fought alone against the three ancestors. The army of human races and the army of zombies swarmed and drowned the remnants of the three ethnic coalition forces.

However, those emperor class, first emperor class, and eighteen and a half ancestors, but no one can deal with it.

“There are only three emperor-level people here, how dare you ignore me?”

“Arrogance!”

Some masters of the Emperor Class were furious. Hundreds of Emperor Classes who survived the race were all top-fighting combatants from the three groups who came to the vanguard army this time.

Seeing that there are only three Emperor-level strong men in the Terran Army, two of them are zombies, two Emperor corpses, and the other is self-denial, which looks like a human being, but the breath is emperor-level. Know how she improved.

“Lead me to the Emperor!”

At this moment, a silhouette suddenly appeared on the top of the Xitian Lingshan, and she was gracefully covered in a haze of mist.

The quaint seal on the top of her head is the seal of Emperor Emperor, exuding a strong momentum, the rank is unknown, but it is the Emperor Seal Immortal.

The human emperor seal spirit appeared, stepped into the battlefield, held the human emperor seal, threw it, and saw a huge battle flag burst out.

A bang was inserted in front of hundreds of first-class masters of the three ethnic groups, and the flags were spread out. Her characters were unyielding and exaggerated.

“All the battle flags passed are the territory of my emperor, those who do not submit, kill!”

With a swift drink, a powerful general held a battlefield, and behind him a powerful army was the one hundred thousand ancient war spirit in the seal of the emperor.

“kill!”

The 100,000 ancient battle souls instantly turned into ancient battle arrays, and hundreds of first emperors were besieged in the ancient battle arrays, which directly formed a unique ancient array space.

The Emperor Yinji Ling nodded to his self, then stepped into the ancient formation and directly killed. How strong she is, in fact, Qin Tiange does not know herself, because she does not know the combat ability of Renhuang Yin.

“Is this the spirit of the instrument?” Bianji blinked her eyes, seemed to see a certain evolutionary path, was inspired by her heart, and played a vital role in her growth and evolution.

The utensils can all have spirits. It doesn't make sense that she can't have spirits. This makes her more convinced that she can become a powerful being.

“It's time you appeared ...”

Xi Ji looked at the Emperor Powers, one by one, and killed them in the Terran Army. Once the Emperor Powers among the three residual soldiers raged, it would undoubtedly be a huge disaster for the Human Army.

I saw that my own hand waved a huge spar, which was the crystal of life. There were faint figures in the air, and they looked like humans.

That's right, these life crystals are actually the crystals of life that fell into the territory of China after the meteorite rain came to earth, and hidden inside them are powerful ancient lives.

In addition, some humans are collected from the ancient world through detection. As for other living things, they are still isolated in a vacuum world, and there is no trace of energy.

“Come out, the ancients of the wandering starry sky.” Xiji blasted with a powerful energy, and the eighteen crystal nuclei trembled, cracking and cracking.

boom!

Suddenly, one of the crystal nuclei exploded, and a burly figure emerged from the inside. The breath was vast and extremely powerful.

“Ancestral land, me, Li Zijun is back!”

This is a young ancient human, wearing an ancient robe, with thick black hair and no wind, and his eyes are bright, like a star, extremely dazzling.

Especially his high-spirited warfare, sharp eyes swept across the battlefield, and all the emperor-level alien creatures turned wild.

“Tianjing Tribe, Silver Star Tribe, Starry Giant Tribe?” Li Zijun sneered, looked at the corps of the tribe that strangled the three residual soldiers, and then looked at his uncle nearby, knowing that she had waken herself.

At the same time, there are still crystal nuclei that have broken apart, and eighteen life crystal nuclei that have broken apart, one after another coming out of them with a formidable figure.

Groan!

A sword groan, heaven and earth move together, a horrible sword sweeps the sky, splitting an emperor-level strong who was about to enter the Terran army into two halves on the spot, killing the spot instantly.

“who?”

All the emperor-level masters turned wild and looked back, watching the eighteen people appearing here.

The emperor-level masters were frightened, and the eighteen tribal and semi-ancestors were shocked. Looking at the eighteen tribal masters who appeared, they were all in ancient costumes, exuding a sigh of breath.

“Brother Taibai, we are back ...” A priest with a handsome face, wearing a robe, with a trace of nostalgia, looked at the looming earth in space.

And he called Taibai, a young man wearing a white suit and a sword, looking handsome, like a fairy, and holding a hip flask in his hand, with a wild and unruly atmosphere.

“I didn’t expect that I could return to my place again in my lifetime, Brother Mitutoyo, but this time I came back for the second time.”

Li Bai, he turned out to be Li Bai, Qinglian residence, Li Bai, a fairy? So is n’t the young Taoist next to Zhang Sanfeng?

“Since the ancestral land is difficult, what am I waiting for?”

Suddenly, a young man with a grim face next to him stepped out directly, and the whole person turned into an astonishing sword. Daojian sword swept across, directly flooding a dozen emperor-level masters.

The sword spirit passed, and the emperor-level master was wiped out before he could scream, and turned into powder and disappeared into the air.

“The sword of Dugu Brother is still so sharp, everyone, let’s deal with those half-ancestors.” Li Baichang laughed, holding a sword and a hip flask, taking one step at a time, looking calmly.

“It is natural for our family to have trouble!”

All the ancient and powerful Terran masters moved in unison, and entered the battlefield. All the emperor-level masters were wiped away in a flash and none remained.

These eighteen, but semi-ancestor-level masters, may even break through the ancestor level at the next moment, which is incredible.

Moreover, most of them are from the earth. The ancients who once went out of the world, such as Li Bai, Dugu seeking defeat, and Zhang Sanfeng are ancient humans who broke through the void and strayed outside the starry sky.

As for how they did it, they can only ask these ancient people themselves.

“Damn, the people have hidden eighteen ancestors?”

There, eighteen semi-ancestor-level masters were furious, looking at the eighteen ancient humans standing in front of them, all of which were semi-ancestor-level strong.

“That starry giant is mine.” Li Zijun’s mouth slightly angled, his sharp eyes stared at the half-ancestor star giant with the largest body on the opposite side.

Hum!

With a humming sound, he saw an extra simple war spear in his hand, which was white and covered with blood and veins.

It was an ancestor, extremely powerful, eager to drink blood, and even devour the soul.

“If you have a fast hand, you have a slow one, and if you have a slow one, you can see who kills fast, and the rest can be chosen freely.”

A voice came out suddenly, and Li Bai was moved. Qing Lian Jian hummed out of the sheath. The front edge split open the space, and it turned into a green front edge in front of a semi-ancestral creature.

He started directly, and immediately awakened other ancient human race ancestors and semi-ancestors, and took shots to **** the prey. They all wanted to kill their opponents first, and then **** the other’s prey.

“kill!”

Eighteen ancient humans stray from the sky, facing eighteen three tribe and semi-ancestor-class strong men, on both sides turned into a mass, spread one by one, and turned into their own battlefields.

No one had expected that Xunji would release eighteen ancient humans in the stray sky, but also half-ancestor-class ancient humans, and he would not turn a blind eye to the invasion of humans of his own family.

If they turn a blind eye, or even kill their own people in turn, then Qin Tiange also has to deal with these people.

“Fortunately, you did not disappoint the host ...” Ji Ji’s mouth slightly tilted, and he quietly put away a thing in his hand.

She turned her gaze and stared at the entire battlefield. Tens of thousands of zombies were surging, and twenty million ethnic armies strangled the remaining millions of tribal warriors.

As the emperor class was wiped out, the first emperor class was trapped by the imperial seal, and the half-ancestor class was confronted by eighteen ancient humans returned from the wandering starry sky. At present, the battle situation is already obvious.

Bang ...

In a certain area in the distance, six powerful figures are fighting fiercely. They are all emperor-level masters, and four emperor-levels are actually besieging two emperor-levels.

Roar!

With a roar, Ziyi opened his mouth and snarled, revealing two mortal fangs, amethyst eyes glowed with horror, and the purple lines on his brows burst into bright light.

As an emperor corpse, she actually fought against the two emperor-level masters alone. The jade corpse on the side was no exception. The two directly pulled up to the four emperor-level and played a side.

However, although they resisted the two Emperor-level alliances, neither Ziyi nor Jade Corpse had the ability to kill each other unless there was one less.

“I come!”

I saw that Jiji came in the air and forced a punch to retreat an emperor level, and then another punch defeated an emperor level master, directly blocking the two emperor level masters.

At this moment, both the purple clothing and the jade corpse vacated their hands, revealing their tusks, and chuckled and disappeared, killing them.

“what...”

Shortly after the fierce battle, one of the emperor-level creatures of the Celestial family was severely injured by a fist of purple clothes, and then bit his neck and devoured blood and energy throughout his body.

Roar!

On the other side, the jade corpse revealed two sharp jade fangs, and fluttered to bite the emperor’s carotid artery, sucking the opponent into a dry corpse on the spot.

Killing two emperor-levels in succession, there, the two emperor-level powerfuls at who were fighting against their own, were horrified to find that the two had been suppressed by each other.

“The sun flare!”

Suddenly, Jiji rises into the air, glowing with glowing light, like a bright sun, suddenly punched.

With a loud bang, the fist condensed on the fist turned out to be a sun flare, showing the terrible force of destruction, killing the two emperor-level powerful men on the spot.

In the end, the two emperor-level powerful men were killed by their own lives. It seemed as if a horrible sun burst into infinite energy in her body.

“I don’t know what happened to those first emperors?”

Xun Ji merged with the purple clothing and the jade corpse, and quietly looked at an area of the battlefield, which was completely shrouded in fog, and couldn’t see the situation inside.

boom!

Suddenly, a shard of debris flew out of the fog, and one of the rays burst out and fell in front of them. A closer look revealed that it turned out to be a hand, exuding the breath belonging to the first emperor.

Chapter 608 - 18 ancients, hidden secrets of the clan emperor

In the fog, 100,000 ancient battle spirits formed a battle array, trapping and killing the first emperor-level strong men, and were quickly hanged under the suppression of Qi Ling.

“Undead Guard ...”

A loud roar came, and there was a roar of the star-level giant, struggling to fight back, but was suppressed by the imperial seal of the emperor, and was soon devoured by countless ancient war spirits.

Yes, they are devouring, killing enemies, and strengthening themselves. This is the terrible aspect of the immortal guard.

Even more frightening is that the human emperor Yin Ling can also devour the luck of the opponent.

“Ah ... clan movement, can you force it?”

Some emperor-level masters were frightened, his body was broken, his face was cracked, and one of his eyes burst, and he looked extremely miserable.

A mysterious breath over his head was forcibly extracted. This is his luck, the luck of the Tianjing clan, and as the first emperor-level strong was killed, the instrumental spirit swallowed it directly.

“It is rumored that the emperor’s seal can draw on the luck of other peoples and strengthen their luck. This is true, it is true.”

“It’s over, we can’t kill it, the immortal guards can’t fight it, we can’t kill it.”

“Fight!”

The first emperor-level creatures roared, terrified, scared, and angry, and all were trapped in the ancient battle array.

They want to resist, but unfortunately, no matter how bombarded the ancient war souls, they cannot be broken, because the one hundred thousand ancient war souls are a whole.

Any attack on the body will be spread over each ancient war soul, and even most of the power will be borne by the Emperor Seal.

Can you break the imperial seal?

“what...”

“My emperor is not willing, and the human race should be hunted by us, why ...”

Some first emperors uttered unwilling roars, but unfortunately they were soon torn apart, swallowed up their souls, and even robbed their luck.

The instrumental spirit of the Emperor’s Seal is becoming more and more solid, and his body is fluttering in white. Looking at the heaven like a fairy, his body is filled with strong luck.

Holding the Emperor’s Seal, she directly kills one master after another, kills the corpse, devours soul and luck, and this method is frightening.

In the end, more than one hundred first emperor-level students were swallowed clean, and the corpses were never left, completely absorbed by the hundred thousand ancient war spirits.

Hundreds of Emperor Emperors and hundreds of thousands of ancient war spirits were absorbed, and finally some of them achieved breakthroughs. The strong breath stirred the Quartet, and the mist dispersed, revealing a neat 100,000 army formation.

“what?”

There was a horror in the sky, and the eighteen ancient humans returning from the fierce battle with the half ancestors were surprised.

They watched the 100,000 ancient war spirits appear, one by one, inexplicable, because they knew the 100,000 ancient war spirits, and they were shocked only by knowing them.

“The emperor’s immortal guard, even in our hometown?”

Zhang Sanfeng looked surprised, looked at the hundred thousand ancient war spirits, and looked at the hazy figure, which is the human imperial seal.

Not far away, Li Bai Yijian smashed into the opponent, took a sip of surprise, and murmured, “The immortal guard is the strongest guard of the emperor. Isn’t it rumored to appear in Ziwei’s ancestral land?”

“Well, it seems that there is an incredible candidate for Emperor in our hometown, who can get an immortal guard.

“Don’t blot out the ink, kill these half-ancestors, and make them backwards. I’m not used to it.”

A burly burly man snoring and snoring, waving a pair of huge warhammers, banging with hammers, hitting the opposite semi-ancestral creature on the opposite side, vomiting blood, looking terrible.

His body was beaten uneven, his bones shattered, his face twisted, and he was completely hammered by a fierce man to doubt his life.

Groan!

With a sword groan, almost two swords, one green and one black, were seen, soaring across the bodies of two semi-ancestors, and beating the real spirit on the spot.

“Brother Taibai, you are still better than me. I can’t help but have a fight with you again.” Lonely face came up indifferently.

Li Bai was unscrupulous, drinking and laughing. “Duogu, you and I have fought a thousand times in the sky. I think it’s all right. There are so many masters of foreign races, you can’t kill them all, why are you?” Looking at me? “

“Yeah, Dugu brother still killed a little more foreign masters. I remember that you killed one less than Taibai brother in the Hunting Game of Broken Star a hundred years ago.” Li Zijun smiled, walked one step, holding one in his hand. Broken half-ancestor corpse.

At this time, the other half-ancestors were beheaded and killed, and several other ancient humans strayed from the sky resolved their opponents at the same time and gathered.

“Brother Taibai, can you remember which ancestral land the Emperor of the Ji Dynasty came from?”

The lonely sword demon came, a faint tone of arrogance and loneliness, and there was a breath of ancient silence in his body, as if he was a strong man from the ancient era.

Li Bai took a sip of wine, his eyes flickered, and he hummed softly, “Where can it be from besides Ziwei Xing, the old guys secretly intervened in the selection of the clan emperor.”

“Most likely to intervene this time.” Zhang Sanfeng looked helpless.

He shook his head bitterly and said, “We can’t compare to those old things, and the ratio of inherited resources is obviously the largest purple Zixing, and our ancestral land is the least.”

“It’s all a group of immortals. Sooner or later, a new generation of clan emperors will operate on them.” The burly brawny man came up with a sledgehammer, and grumbled with dissatisfaction.

“Don’t worry, after all, we are the oldest ancestors here. Although we have gone through the destruction again and again, the oldest ancestors are gone, but we have our own pride. This time, we will go out and intervene in the selection of the clan emperor. This candidate is promoted to the position of clan emperor. “

“Yes, I can’t let the old guys of Ziwei Star manipulate the trend of my human race, or sooner or later most of the old friends will die like the previous period.”

“Don’t talk nonsense, we have survived to this day, and forcibly returned at a huge cost, to break the sad fate that has been manipulated by anyone. This time, no one can interfere.”

“Come on, let’s see if this candidate in my hometown has a great talent to help my generation.”

Li Bai looked forward to seeing that the eighteen ancient humans who returned homelessly broke the space and rushed into space. Want to see the royal emperor candidates of this era?

boom!

In space, a wave of ripples, four powerful figures are fighting fiercely in the nebula and meteorite stratosphere around Mars.

One of them, fierce, fought alone, and the three ancestors of the three ancestors were still the tribe’s downside, and even a little bit of anti-suppression against each other over time.

“This is a candidate for a contemporary clan emperor?”

The arrival of eighteen half-ancestors, watching Qin Tiange calmly deal with the three ancestor creatures, no matter how the three ancestors joined forces, he couldn’t hold back his soaring war.

“The three ancestors of the ability to fight were undefeated. It is already very good, but what is he doing now?” Li Zijun said with a hint of doubt.

However, Dugu Sword Demon shook his head slightly and said, “No, I feel that he is sharpening his abilities, not full strength, and I can’t see his current level.”

“Yes, there seems to be a very ancient and terrible power hidden in this body, which is from the bloodline gene level. What would it be?” Li Bai drank the wine and watched the fierce battle there leisurely.

None of the eighteen returning ancients was worried, but looked at Qin Tiange fiercely against the three ancestors, and looked at his candidate a little bit.

However, gradually, Li Bai, Dugu Sword Demon, and others looked a little dignified and hesitated, staring at Qin Tiange.

“You see it?” Zhang Sanfeng’s complexion was faintly agitated.

The dugu sword demon’s eyes were shining, the swordsmanship was dazzling, and the dark swordsmanship seemed to penetrate nine days.

He said one word at a time: “This breath is clearly the ancient breath of the initial era, which belongs to a powerful force that has long been annihilated in the era.”

“Pangu blood!”

The eighteen ancestors looked horrified, and finally saw what the power in Qin Tiange’s body was, the power of the extinct Pangu tribe.

The Pangu tribe has long been annihilated in the initial era. Because of the chaos fragmentation and the Pangu extinction, the Pangu tribe without chaos gas naturally cannot grow up, or even be retrogressed, and can only be destroyed.

“Any thoughts?”

Li Bai’s face was serious, the wild and unruly disappeared, his eyes were extremely serious, watching Qin Tiange, who was gradually suppressing the three ancestors, whispered.

“Pangu blood ... hehe!”

“This time, it’s time to change our hometown to lead the entire human race, and let the old guys from Ziwei Xing go to hell.” An ancient man in a black robe holding a weird weapon whispered to himself.

Next to him, a man in armor and a dark body shouted a smile: “Oh, I’m already looking forward to it, when the old immortal see this guy, what will they look like?”

“Don’t be careless, once those people decide, they may do whatever they can.”

Li Bai couldn’t help reminding him, saying: “I guess that old and immortal stuff will probably wipe out the unstable factors.”

“Can they dare to kill the clan emperor?” Li Zijun said in shock.

The Dugu sword demon embracing the sword, said lightly: “It is difficult to say that they dare to intervene in the clan emperor, that is to say that they dare to kill other candidates.”

“No matter, this time we will not budge, who dares to reach out and kill them all.”

Zhang Sanfeng was full of anger, and his eyes were full of murderous power. A genial character of fairy style who was kind enough to show such horrible wickedness.

“Yes, since they have done it, we can do the same, dare to reach out and cut them all.”

Eighteen ancient humans made a direct decision, and their arrival has long attracted the attention of Qin Tiange and the three ancestors.

Qin Tiange has nothing to do, but the three ancestors on the other side are a little alarmed, because they feel the horror and danger from the eighteen ancient people whose breath is only half-ancestor.

“Damn, the situation is not good, we hurriedly withdraw.”

Star giant Barr panicked, an accidentally distracted.

Seeing this Qin Tiange sneered and hummed: “Play against me, you dare to be distracted. Since you are looking for death, then I will complete you.”

Click!

He punched through the void and banged on Barr’s door, only to hear a click, half of his face was broken.

“Ah ...” Barr was miserable, with an eyeball hanging on his face, looking miserable, terrifying and scary.

However, before he retreated, he saw Qin Tiange pressing his Tianling cover with one hand, an ancient force emerged, the power of Pangu erupted, and Barr’s entire body and his body were blasted above the starry sky, and turned into a gorgeous The blood light dissipated.

“kill!”

Qin Tiange stood up and slammed his fist in front of the ancestors of the Tianjing clan. I saw the strong men of the Tianjing clan fought with a fist, and the gun was broken by his fist.

flutter!

A punch punched through the heart, and the ancestor of the Tianjing tribe faced a horror and was about to fight back. Qin Tiange’s left hand penetrated his jaw instantly and penetrated his brain.

Chapter 609 - Feng Zuling, the sages return

boom!

Qin Tiange smashed the body of the second ancestor, and held a group of ancestors in his hand. It was the ancestral gene awakened by the ancestral gene of the Tianjing tribe, and the oldest true blood spirit awakened by him. Already.

“Er dare ...” The ancestral spirit of the Tianjing tribe was furious and was about to explode.

But unfortunately, Qin Tiange was directly imprisoned and thrown into Shihai to suppress it. What was waiting for him was the fate of being swallowed up.

“The ancestors were all caught, this method is not easy.” Li Bai and others looked surprised, watching Qin Tiange grab the seal of the other ancestor.

This method is absolutely rare. Moreover, it is not the soul of the powerful Tianjing tribe, but an ancient ancestral spirit awakened from the bloodline genes, which has great power.

Huh!

The last ancestor of the Silver Star family ran away and broke through the sky, fleeing wildly in space, trying to run out.

“Any shot?”

Li Bai and others looked at the ancestor of the ancestor, and hesitated to take a shot, but no one did it.

Because, if you want to intervene in the battle of the clan emperor at will, you have to bear a lot of risks. This is not only a hindrance to the opponent’s growth, but also a limitation and contempt.

The clan emperor, even if it is only a candidate, cannot be shaken by his own clan. Once he interferes with his growth, it is not good for anyone.

“I’m useless.” Dugu sword demon said lightly.

I saw that the silver star family ancestor who had fled into the sky suddenly changed his face, looking at the void in front of him, and bursts of black particles emerged into a figure.

“Did you run?” Qin Tiange appeared in front of the other side, blocking the way.

The silver ancestor’s ancestor looked gloomy, and said coldly, “You have the taboo blood like Pangu blood, and you will be hunted down by the races sooner or later.”

“You still worry about yourself.” Qin Tiange sneered, stretched out a pinch of light, and asked: “This is what you only secretly teleported, unfortunately, you still want to teleport in the space of my time and space.” News? “

“What?” The ancestors of the Silver Star clan were shocked and looked at the mass in Qin Tiange’s hands, which was naturally his idea, and wanted to transmit the news.

Unfortunately, he miscalculated. In Qin Tiange’s time and space forbidden, everything was imprisoned, including soul ideas and various information.

Click!

Qin Tiange crushed the idea and said indifferently, “Since you know that I have Pangu blood, I will keep you more.”

“kill!”

The ancestors of the Silver Star clan drank violently, directly exploding the blood, and even burst a star core in the body, in exchange for infinite power, leading to the will of blood.

The ancient ancestral spirit awakened from the bloodline and occupied his body, and the brutal ancestral spirit directly devoured his true spirit and returned.

“I, come back again, in this life, I will ...”

An indifferent voice came, and a certain ancestor in the ancient blood of the Silver Star awakened by the genetic memory of the offspring.

“That’s a lot of nonsense!” Qin Tiange sneered coldly, punched directly in the opposite door, and Shengsheng beat his words back.

The ancestral spirit was furious, slammed his arm and slammed it up, banging against Qin Tiange’s fist, the void could not help but wave.

A loud bang came out, and the meteorites in the surrounding meteorite belt were blown up and swept directly into powder by powerful air waves.

The two silhouettes receded, floating in the space meteorite belt, watching each other quietly.

“Human kid, just swallowed you to restore the true spirit.” This ancient ancestral spirit who devoured the true spirit of the offspring awakened, rushing indifferently and ferociously.

He wanted to swallow Qin Tiange's true spirit to recover his incomplete true spirit, but unfortunately, he made a mistake and paid attention.

boom!

With a single punch, thousands of meteorites were shattered into powder, and powerful punches blasted forward, making the ancestor's complexion unbearable.

"Drink!" He yelled, raised his hand, and banged, but a crackle of cracking bones was heard, his wrist was bent completely, and his arm smashed.

Qin Tiange came out with a sneer and sneered with a punch, and yelled, "Even if you swallow the offspring to wake up, you are a little worse."

"You should ..." Zu Ling roared, and before he finished speaking, he was smashed into a face by a fist, and his nose was broken and his mouth was crooked.

His two eyeballs were spit out directly, spitting blood with seven tricks, looking extremely scary, and even before he recovered, Qin Tiange's other fist had already hit his jaw.

boom!

With a crisp sound, the entire jaw was smashed, scattered into silver stars, and blood splattered and floated above space.

"What about the ancestors, they will kill you."

Qin Tiange rushed into the air, raised his hand to suppress it, and slammed it. The ancestral spirit occupied the spot and broke into pieces, scattered into dozens of pieces.

The flesh shattered, and the newly awakened ancestor hidden in it flew out in panic, about to escape into the void, but was firmly grasped by the palm of a hand that had penetrated into the space.

"Miscellaneous things, do you dare to move the deity?" That ancestor spirit was furious, Li Xiao repeatedly.

Ignoring his roar, Qin Tiange banned him directly, threw himself into the sea-conscious space to suppress it, and waited for some time to swallow the two ancestors who dared to wake up in the blood of future generations.

In the Hundreds of Starry Sky, in the hidden bloodline gene memory, the somewhat tyrannical ancient ancestors can be awakened, swallowing offspring's wisdom and resurrected.

These two ancestors are one of them, but unfortunately when they encounter Qin Tiange, they can only drink and hate, and are sealed up to be swallowed up.

"It's tough, and it's a candidate for our hometown."

Eighteen ancient humans, including Li Bai, were smiling and had a preliminary understanding of Qin Tiange's might. This was the first time that he had recognized the candidate.

Moreover, as Qin Tiange was guessed by Pan Gu's blood, they naturally strengthened their decision.

The birth of the clan emperor is actually not as simple as it seems. Inside the clan, there are many forces to influence the selection of the clan emperor.

For example, the ancestral land of Ziwei Xing, the people there are extremely powerful, due to the succession of two generations of clan emperors, resulting in the people there are extremely prosperous.

Although Qin Tiange did not understand this, he obtained sporadic memory information from some ancient memories, and some secrets were still understood.

“Congratulations, everyone, wake up!”

Qin Tiange’s figure flickered, and he came to the eighteen ancient humans with a faint smile, and looked at the eighteen strong ancient humans in front of them.

They seem to be half-ancestors. In fact, Qin Tiange knows very well that these are all overlords of the previous period and belong to the strong human race.

What specific level they are, Qin Tiange himself is not clear, but the guess should be strong. Perhaps they returned from the previous period and spent a lot of money to repair it.

“Li Bai!”

“Dugu!”

“Li Zijun!”

“Zhang Sanfeng!”

“Giant!”

“See my queen!”

Eighteen ancient humans arched their hands together, respectfully saluting, without neglect, this is their respect for the native candidates.

Qin Tiange’s pupil flashed a strange color. I did not expect that these eighteen powerful ancient human beings had such great respect for him, or that he had great respect for the identity of the candidate.

“Everyone is a sage of my mankind. Why?”

Qin Tiange arched his hand gently and returned a gift. People are courteous to me, so naturally they can’t be rude to others, especially since he still belongs to the top leader of China.

“Follow me, everyone!”

After speaking, he took the lead and turned around, smiled and walked away, rushing into Mars’ atmosphere and returning to Mars.

In the back, Li Bai and others with a smile, flickered and disappeared, left space and returned to Mars.

“the host!”

At this time, the human emperor seal spirit flashed, and the body light returned to the human emperor seal, flying to the top of Qin Tiange's head, spilling a powerful luck.

This is the fortune of the three imperial ranks captured by her. The vastness can increase Qin Tiange's own fortune and grow stronger.

This scene just happened to be seen by Li Bai and others who were rushed back. Everyone was shocked, watching the imperial seal of the man spit out the vast fortune, and merged into Qin Tiange's physical fortune.

That kind of grand luck, even Li Bai, Dugu, and others couldn't help horror, because the luck was too grand.

“Brother Taibai, have you ever seen such a majestic race?” Zhang Sanfeng looked at Qin Tiange's head full of mighty luck, and his heart shook.

Li Bai's eyes lit up, looking at the purple ocean, boundless and boundless, the breath exuded as if it would never dry up, it really shocked him.

Because they, ancient humans, have never seen anyone with such a huge ethnic movement, how spectacular is that?

“Yanji, you stay here and build ten Mars battlefields. Be sure to create ten battlefields before the main forces of the various races come and completely surround that space-time wormhole.”

When Qin Tiange suddenly issued an order, he saw his self-emerging quickly, earnestly taking orders. This was to build a battle city around the wormhole of time and space, build powerful weapons, and prepare for the arrival of the main forces of all ethnic groups.

“Purple clothes, Dayuer, you two lead your men back to Earth, and the pioneers of all races who want to cross the starry sky are coming to earth.”

Qin Tiange said, glanced at the direction of the earth, and then let the purple clothing and jade armor lead the army of zombies back.

As for the human army here, there are only 10 million troops stationed in Xitian Lingshan, and the rest such as the one million army led by the sisters Dong Qian Qianhe return directly.

Akagilina also returned with her own people. This time it is a preliminary joint operation. Let's get familiar with it first. There will be more opportunities for joint operations in the future.

“Every sage, follow me back to the hometown of the earth, kill the power of those foreigners Finally, Qin Tiange turned around and smiled and invited to the ancient human strongmen such as the awakened Li Bai, and returned to the earth to clean up Pioneers of all races crossing the stars.

Moreover, there is also a huge number of extraterrestrial races on the moon, which have crossed the starry sky and entered the earth's space.

“May it be with my emperor!”

Li Bai and others responded with seriousness, and followers Qin Tiange, the clan candidate of their hometown, stepped into the quantum portal and returned to the hometown of the earth.

“Hometown, we are back!”

“In this era, let us fight the last drop of blood, break the sad fate, cut off all obstacles, and promote the name of my people.”

With a little bit of memory and excitement, Li Bai and others stepped into the quantum portal and returned to the hometown of the earth. The ancient humans wandering away finally returned to their long-distanced hometown.

The earth is their hometown and the hometown of countless ancient humans in the starry sky. Many people can return, but many people can never return.

Chapter 610 - The emperor's body, inheriting the spirit of the stele: 10 calamities?

Earth, Huaxia went to Beijing, and the legion of expeditions to Mars returned triumphantly, detonating the countless Chinese in Shangjing.

“Leader! Leader! Leader!”

As the capital went up, countless people cheered. Looking at Qin Tiange, the supreme leader who led the army to triumph, everyone was extremely enthusiastic.

The battle on Mars, they watched the whole process, the scene was exciting, the three ethnic coalition forces were annihilated on Mars by their Chinese army, and they won a great victory.

In particular, the explosion of thousands of nuclear bombs directly killed the three ethnic coalition forces. What is even more terrifying is the anti-material weapon. The energy that wipes out all makes Chinese people excited and proud.

With such powerful weapons and powerful legions, who else in this world can stop the rise of the Chinese nation?

“Good faith!”

The eighteen ancient human sages who had just stepped into the quantum portal and returned to Earth were shocked. Looking at the cheering around, a wave was higher than a wave. The convictions of terror converged in the upper capital, and they even gathered from all sides The infinite beliefs that come are all gathered on one person.

That is Qin Tiange, the supreme leader of China!

Li Bai and others looked at each other and looked at each other, and they saw each other's kind of surprise. When they came back, they saw such a scene. I have to say that Qin Tiange has no prestige in China.

Rumbling

On the land of Huaxia, in countless bases, there were countless people cheering, a huge confluence of convictions came together with the power of luck, and tens of thousands of miles of purple gas.

This is not an illusion, but a real scene, and it is the most true manifestation of the unity and cohesion of the entire Chinese nation.

The purple air is huge and converges into a huge river. Above the river, the beliefs of countless Chinese people suddenly pour into it, and gradually converges into a purple figure.

“Convictions, human emperors?”

Li Bai’s surprise exclaimed. The eighteen sages looked at the vast river of fortune in horror, running through the world. There was a shadow of conviction in the river. Convergence of faith condenses into the body of the river.

The emperor’s legal system represents the recognition of the human race and the recognition of the people, and the result is exactly what Qin Tiange looks like.

The body is nine thousand feet high, exuding strong convictions and unswervingly, it is the conviction of countless Chinese people.

“The emperor’s body?” Qin Tiange froze, and a huge stream of information poured into his mind, letting him understand.

This body of law is the conviction of all the people in Huaxia. The recognition of this leader reached the highest point, and instantly gathered into a body of law.

Hum!

The imperial seal of the man flew out, suddenly rushing to the river of Qiyun, and then floated on the body of the law, spilling a huge breath, that was the purple golden imperial qi.

The endless purple gold imperial energy poured into the body of the law, and at once, the whole body of the emperor’s body expanded to reach the body of thousands of feet, exuding endless majesty.

Qin Tiange looked weird, because he had learned the information, and this body of law could mobilize qi and rivers, and speak according to the way, as if he was the supreme emperor.

At this moment, the 99-meter-high assessment stone suddenly lighted up in the central part of the capital.

boom!

A fascinating light filled the sky, and a mysterious force poured into the river of luck, converging on the body of the emperor.

At this moment, Qin Tiange suddenly understood that it was an acknowledgment from the heritage stele, or an confession of the Lord.

“Ten calamities, congratulations to the master, condensing the adult emperor’s life style.”

Suddenly, a misty figure appeared in front of Qin Tiange, silently, no one could see clearly, and even Li Bai and others’ overbearing ideas were never found.

Qin Tiange didn’t say a word, quietly looked at a hazy figure in front of him, shrouded in fog, and couldn’t really see it.

But he knew that this figure was the legacy of the stele, ten calamities.

“Ten calamities? Bei Ling?” Qin Tiange spit out a few words.

The figure trembled slightly and bowed, “Master, the ten calamities are the spirit of the stele and the stele.”

“What do you run out of? What’s more, you call me the host, which can’t be taken seriously. Only the emperor is entitled to the Ten Calamity Monument, and I am not.” sentence.

With a bit of depression in his eyes, he looked at the graceful figure in front of him. It was the spirit of the stele, and he didn’t know how she ran out.

Li Bai and others looked at each other and were surprised because they had never seen the Bei Ling, and even had no chance to see the real spiritual body of the Bei Ling.

It is rumored that the Tomb Spirit is extremely mysterious, and it has always been the Terran Emperor who only knows her origin and ability.

No one else can understand it clearly, not even seen it. Unexpectedly, as soon as I returned to my hometown today, I saw the most mysterious monument in the entire human race.

The inheritance of the stele is actually called the ten calamities, and the spirit of the monument claims: ten calamities.

The so-called ten calamities means ten calamities, that is to say, this inherited stone monument has actually survived ten cosmic calamities and is the supreme treasure.

Only the real emperor can control this ten calamity monument, but Qin Tiange is not yet emperor. Why did she come out early?

This is where Li Bai and others are most puzzled, because the inheritance monument is not only in the earth, but also in her other ancestral lands.

In fact, whether it is the heritage stele in the earth or the birthplace of other human races, it is not her own body, but some differentiation.

No one knows where the main body of Shijiebei is!

“Master, Shijie has the ability to choose who is the master.” Beiling Shijie said directly.

She has the ability to choose, and there are several times in the history of the emperor who really chose her own, which is rarely known.

“Sister Bei Ling!”

At this time, the Emperor Seal flew into a graceful figure, standing beside Shijie Beiling, looking at Qin Tiange with expectation.

Li Bai and others also shook their faces, with some surprises in their hearts, and the Ten Jade Steles chose the master directly. Doesn’t it mean that Qin Tiange is the next clan emperor?

“You have the right to choose the emperor?” Qin Tiange squinted his eyes, looked at the ten spirits in front of him, and his expression gradually became cold.

He sneered: “Isn’t it that the emperor of my tribe needs your recognition to become the tribe of the tribe?”

“What kind of thing are you? The fate of the entire human race should be controlled and selected by a stone tablet of yours?” Qin Tiange sighed, shaking the whole Shangjing city.

He exudes a terrifying breath, pressing down on the ten calamities, saying, “The oldest emperor of my people, who did not make an outstanding contribution to this people, who does not have a meritorious deed for the people can be All peoples are respected as emperors. “

“You, a tablet spirit, threatened to be eligible to choose the Emperor?” Qin Tiange felt inexplicably angry.

Without him, it is the sentence of Bei Ling: I have the ability to choose a master. Doesn’t this mean that the master she chooses is the next emperor?

In Qin Tiange’s view, the emperor is the supreme leader of the entire human race, and must have a great contribution to the human race to sit on it.

Rather than who chooses, who is the emperor, isn’t it just a puppet that others choose to go up to?

“Let’s go, I don’t need you to admit it, let alone be the so-called emperor’s concubine, in my opinion that is a joke.”

With a wave of his hand, Qin Tiange directly lifted the ten robbery steles out and walked alone. Behind him, Li Bai and others were shocked.

Everyone was dumbfounded, but Qin Tiange turned it down. Yes, he refused the choice of Shi Jie Bei, but that was the Emperor.

Ninety-nine percent of the people selected by Shijiebei became the next emperor clan, but Qin Tiange gave up, and he couldn’t wait to see the spirit of Shijiebei.

It is not Qin Tiange Aojiao, but he knows that if an emperor of a group is allowed to choose an artifact, such an emperor will not do it.

“Master, sister Bei Ling didn’t mean that.” Ren Huangyin anxiously, stepped forward to stop Qin Tiange to explain.

However, Qin Tiange raised his hand to stop her, turned to look at the dumb ten stone monument there, and said indifferently: “My Qin Tiange’s future is not controlled and arranged by anyone or anything. Even if you are strong and mysterious, you are not qualified to choose the emperor of the race. “

“Also, since you have this ability, why did I hear that there are the most inheritance resources on Ziwei Ancestor? Isn’t all the inheritance resources

controlled by your top ten monuments?" Qin Tiange looked She looked at her mockingly.

He looked up and down the ten calamities, and hummed, "You have unevenly allocated the inheritance resources left by my ancestors of previous ancestors to future generations. What else did you tell me to choose?"

"Since you are so partial to the people from Ziwei Star, then choose which candidate you want. I do n't need Qin Tiange, and the descendants of our human race do not need you to choose."

"Look at the heritage stone stele, the inheritance resources left by the ancient ancestors, how much resources have we allocated here? I guess the preparation is exhausted?"

"Ten Calamities Monument, choose emperor?"

"Joke in my opinion!"

Qin Tiange snorted, and turned directly, leaving behind a sentence: "You go, the emperor of the human race is never chosen by anyone. Only the people of the clan who are commonly recognized by the people within the clan can qualify as the emperor."

"All my compatriots, you have heard what I said." Suddenly, Qin Tiange rose into the air and looked down at the entire Shangjing city.

At this moment, countless people everywhere in Huaxia have seen the situation here and heard these hidden secrets.

"We Chinese descendants, when self-reliance continues, the resources in the heritage stele have dried up, and we must be self-reliant."

"Also, the breakthrough in level and the evaluation of the king's assessment is a joke to me. A strong-willed person with a deep foundation must be able to break through to become a king. Why do we need a stone tablet to limit and evaluate our practice?"

Qin Tiange's words shocked countless Chinese people, and then remained silent. Everyone looked at the stele stones, their eyes changed.

When they went to Beijing, Li Bai and others were surprised, and looked at Qin Tiange with a shocked expression. He did not expect that he knew these secrets, and even did something unexpected to everyone.

I only listened to Qin Tiange shouting, "We have no resources, but we can rob and rob anyone. That is naturally those alien invading races. The countless resources they bring to us, kill all the alien races, rob all their resources, and grow. We Chinese people. "

"Compatriots, resources are created by ourselves and not by others. In that case, what is the difference between our Chinese nation and a beggar?"

“Huaxia people, keep improving!”

“Perseverance!”

The whole of China was boiling instantly, countless people were cheering, and their blood was burning, as if the infinite fighting spirit was ignited by Qin Tiange.

In an instant, the overall will of the Huaxia people soared again, and their luck was doubled, which directly suppressed the ten spirits, and they could no longer get any blessing of luck from the Huaxia people.
