

## Dark Ages 671

Chapter 671 - If I climb to the top in other days, I will let all the nations come

“This is all my memory, and in addition to my life’s experience, there is also my perception.”

The real spirit condensed a light mass, and the body suddenly fainted a lot. The true spirit was worn out and would dissipate all the time.

Looking at the aura of light floating in front of it, it contains the memories, insights and perceptions of this ancient mysterious creature.

She is making a choice for Qin Tiange. Whether she is an enemy or a friend will depend on Qin Tiange herself. She vomited her broken true spirit is the enemy.

Qin Tiange was digesting the memory of the strange true spirit just now, and soon found something he wanted, and knew the identity of that strange true spirit.

“The Lord of the First Age?” Qin Tiange’s pupils shrank, his heart secretly terrified.

He did not expect that he had swallowed up the fragments of the true spirit of the Lord of the Times, and it is no wonder that he repaired a large section of his broken true spirit directly, which is incredible.

The power of the true spirit contained in the opponent is extremely majestic, and the level is very high, which has given him great benefits, but at the same time caused a trouble.

That is the weird real spirit just now, but it is just a fragment. The real subject is not here, but sleeps deep in time and space.

“Troubled.” Qin Tiange squinted his eyes, thinking quietly, and finally looked at the same ancient and mysterious life in front of him.

She came from the same era as the weird real spirit that was just swallowed up, and they are both strong men of the same generation. I did not expect that such an overbearing existence could survive from the First Age to this day.

“Multiple enemies, then find a friend to like, and this one seems to be right in front of you.” Qin Tiange thought for a while, took this memory, and absorbed it directly.

In front of the other side, Qin Tiange absorbed this majestic memory, stored the long and horrible feeling in his mind, and waited for some time to understand.

As for other memories, Qin Tiange only realized after reading it, the identity and specific origin of this mysterious creature.

“Your name is Li Luo? It turned out to be” After absorbing this memory, Qin Tiange was amazed, looking at the dull real spirit in front of her, she turned out to be human.

This was incredible, and Qin Tiange frowned immediately: “Since you are a human, why can’t I sense the breath of a human being on you?”

The true spirit in front of him is an ancient human race named Li Luo from the First Age.

She said lightly: “In the First Age, the human race was a huge multi-ethnic group, which contained a lot of powerful and rare ancient people. I am a member of the ancient glacial tribe of the human race. You can see it in your memory. My spirit is severely damaged and I must continue to sleep. “

As Qin Tiange absorbed Li Luo’s memories, he sorted out and said, “Since you and I belong to the same clan, you are considered a tribe. If you don’t say it earlier, or don’t give me this memory first, I might swallow your spirit Drop. “

“What about now?” Li Luo asked softly.

Her true spirit is getting weaker and weaker, and she feels that she will collapse at any moment. Seeing this, Qin Tiange frowned slightly and cut off a part of the strange true spirit that was not fully digested. In.

Two clicks, the illusory true spirit is solid, and the breath is quite stable. Li Luo’s breath was restored, and she slightly yelled at Qin Tiange: “Thank you, I see that your true spirit is incomplete, the breath is extremely ancient, and I have suffered severe trauma like me. Only the true spirit that devours higher life can recover. . “

“I know a lot of the ancient ruins that are hidden. If you are interested, I can take you to capture. I just need your help.” Li Luo said softly.

Qin Tiange squinted his eyes and rummaged through the memories, but he didn’t have one. He had to say that the other party actually had a hand, which was actually normal.

Even if he would keep his own hand, now that he understands the first-generation human tribe and ancient tribe, he can’t mess around. After all, he learned from those ancient memories that the other party’s contribution to the human race is extremely great. As a Huaxia leader, the emperor How can one of the candidates kill their ancient heroes?

“Do you want the soul of these books to be true?” Qin Tiange smiled lightly.

He naturally saw that the other party saw the true meaning of the soul of the earth book, and only this thing could comprehend the meaning of repairing the damaged true spirit.

Qin Tiange relied on the authenticity of the book to slowly repair his incomplete true spirit, but the progress was really slow.

He was curious as to what his true spirit was, but it was not human, which made him overwhelmed.

After the true spirit is completely repaired, he will know what his true spirit is, and it is important for him to realize his nature and origin.

“That’s right.” Li Luoshou admits, and she earnestly said: “Originally, the book of the earth is a legend, because in our era, no one has ever seen the book of the earth. I didn’t expect to wake up again and see the book of the earth. True sign. “

“You know, how many epochs have you experienced yourself?” Qin Tiange asked softly, looking at Lan Ming thoughtfully.

After listening to the latter for a moment, she blurted out without thinking: “Did I just enter a new era when I fought?”

After hearing what she said, Qin Tiange understood that he dared to fall in love with this ancient human race. He fell asleep immediately after the battle, and even in order to resist the strange creature’s engulfment, it was not clear how much time and years had passed.

“Now is the sixth era. You have gone through five epochs, don’t you know?” Qin Tiange looked in surprise and frowned at the other side.

Li Luo comes from the strong ancient people of the first era. It is considered as a member of the Liuli ancient people of the human race. It can be said to be amazing today.

How strong is she? When Qin Tiange absorbs the life experience of the other party, she can peep into how she cultivates her realm?

“Sixth century?” Li Luo stopped listening, and Zhenling shook and looked a little confused.

In fact, her true spirit consciousness is still at the end of the First Age. Now I think about it, that is, I do n’t understand, and I have survived to this day in the process of contending with that strange true spirit.

“Well,” she suddenly sighed again, mixed with endless loss and memories.

Perhaps this is the so-called loneliness. Cultivation is a lonely thing. After waking up well for several epochs, friends and relatives of the past may be gone.

Qin Tiange didn’t say anything, watching her true spirit was a bit unstable, leaving a small part of her soul to be true, and directly withdrew from the other’s true spirit space.

After all, this is the real world of the other party, so staying here is like peering into the other party’s privacy, and it ’s as if nothing can be hidden from him.

“He really has such a great opportunity for his soul. It seems that his identity is extraordinary. Which ancient strong is recovering?” Li Luo woke up from his thoughts, watching the ninety-nine mysterious symbols left behind, speculating. .

The true meaning of the earth book contains inexplicable power. Once you comprehend the mysteries, it is a huge growth and transformation for the soul and even the true spirit. If you can fully penetrate the mysteries, the immortality of the true spirit is in sight.

Outside, Qin Tiange opened his eyes and looked complexly at the huge glazed nucleus in front of him. The broken figure sleeping inside was the branch of the ancient human race, the strong one of the ancient glazed ancient people.

The human race was originally a huge group, just like the Huaxia nation, which contained 56 ancient nations.

The human race itself has become a super huge group since the first era, and there are a variety of rare and powerful ancient tribes.

The ancient Liuli tribe is one. It is learned from the memories of Liluo that the human race was really huge in the first era, and the former human race was literally ten thousand.

“The other day, if I climb to the top, it will be necessary for the stars and the universe to come!”

Qin Tiange looked at the starry universe, his thoughts flashed inexplicably, and his heart was surging. With the absorption of that memory, he saw the domineering and terrible people of the First Age.

The people came to the dynasty, the scene was incredible, it deeply shocked his heart, and could not calm down for a long time.

Huh!

At this time, inside the glazed nucleus, the ancient Liluo slowly opened his eyes, and the golden symbol of beating was beating, and he realized the mystery inside, and the true spirit recovered a lot.

It was just that her body was broken, her arms could not be recovered, her heart was penetrated, and her eyebrow cracks penetrated into the sea, which was difficult to repair.

“Huh?” Li Luo opened his eyes, and saw Qin Tiange's first glance of suspicion at first glance, a look of shock in his eyes.

What did she find? This ancient strong human race seemed to capture a breath of emotion from Qin Tiange.

“The blood on your body,” Li Luo said, raising his eyebrows, looking at Qin Tiange through the glass star core, looking up and down, very puzzled.

She secretly said, “He didn’t survive the same era as me. Why do I feel the blood on his body, it doesn’t seem to belong to my era, but more like a member of an ancient tribe of the older people.”

Qin Tiange glanced at her and said, “You are seriously damaged now. How do you recover? Do you have a solution?”

Li Luo nodded slightly after listening, showing a smile of confidence and indifferent, saying: “Without the real threat of that guy, I can quickly repair an injury, and I can fully recover in a maximum of 100 million years.”

“What?” Qin Tiange didn’t vomit blood.

He looked at Li Luo’s self-confident expression, not to mention how silent he was in his heart. His mouth was 100 million years old, and he still repaired his injuries. Should he be so scary?

He shook his head and couldn’t help crying: “One hundred million years is too long. Hurry up and think about it. Is there any way to speed up the repair of your injury?”

“One hundred million years still long?” Li Luo took a look flushed, embarrassed, “This is the limit I can do, otherwise, with your knowledge, help me think of a way , How long do you say you can recover? “

She directly regards Qin Tiange as an extremely ancient existence, even higher than her. After all, with her cultivation as a vision, she can see that Qin Tiange’s true spirit is incomplete, the breath is extremely ancient, and the true spirit is seriously damaged. , Think that he is also a strong survivor of the ancient era.

“What can I do?” Qin Tiange cursed inwardly, but still said, “Let ’s remember it for yourself. Some ancient remnants are hidden somewhere. Swallowing them may restore the true spirit.” It’s easier to recover from a physical injury. “

“Well, yes, I seemed to sense a mutilated ancient true spirit breath, as if it were hidden near here.” Li Luo said with a glance, suddenly his eyes lighted and swept across the entire solar system.

“Hidden one here?” Qin Tiange looked weird, glanced at this Luoluo, and was surprised. Is there really an ancient and incomplete hidden spirit in the solar system?

“I found it, it’s there!”

The next moment, Li Luo’s eyes locked on a place, where it was the extinguished sun.

Chapter 672 - Inexplicable induction to capture ancient remnants

“Are you sure, there is an ancient remnant hidden in the sun?”

At this moment, at the edge of the sun, two figures came here with the huge glazed nucleus, appearing not far from the sun, and quietly looking at the giant in front of the solar system.

Qin Tiange looked at the extinguished sun, frowned slightly, and looked sideways at the huge glazed nucleus that was three feet tall.

Inside, Li Luo’s figure was hazy, looking at the extinguished sun. She asserted, “I can’t feel wrong, can’t you sense the existence of these remnants?”

“Or have you not fully woke up yet?” Li Luo looked at Qin Tiange with confusion.

Immediately, she fired a ball of glazed light and said, “This is the method of remnant inspiration, and I will give it to you. Maybe you are more severely damaged than me, but you can wake up and stay normal, which is really strange.”

Qin Tiange said nothing. He took the light, and his heart was funny. What kind of ancient existence was he awakened?

He absorbed this group of glazed light, and suddenly a hint of mysterious light lit up in the true spirit, gradually adding a wonderful sense.

“Really, there is a remnant hidden in the sun?” Qin Tiange froze, and suddenly had a mysterious induction.

At this moment, he suddenly felt the ancient remnant hidden in the sun, and couldn't believe it.

Qin Tiange never had this kind of induction before. Now he absorbed the glaze from Liuli, and immediately felt a trace of inexplicable breath.

That is the hidden breath of the ancient remnants, not just in the sun. At this moment, Qin Tiange suddenly felt from outside the solar system. If there is no induction, there are a large number of ancient remnants.

For a moment, he was stunned by the scenes he sensed, and he did not expect that there were so many ancient remnants hidden above the starry sky of the universe.

“Yiji, can you find it?” Qin Tiange frowned and asked his self.

Auntie on the side shook her head and said, “Master, there is nothing. Is there an ancient remnant hidden in the sun?”

Today, the surface of the sun and even deeper, there are countless robots studying this giant star.

However, the so-called ancient remnants have not been found. This may be the strength of those ancient life forms, which are deeply hidden.

Except for the same age, or the same level of life, you can detect these incompatible breaths.

Qin Tiange feels that the breath of these ancient remnants is incompatible with this era, as if it does not belong to this era.

Just like on the earth, Qin Tiange also sensed dozens of ancient breaths, all of them from the previous era, the eighteen Chinese ancestors, ancient humans appearing or hiding in various states, or ancient life forms. Different.

Seeing this, Qin Tiange vaguely understood that the ancient life, the true spirit breath or blood vein breath in his body are different, showing a breath of time.

“The remnant is absorbing energy accumulated on this planet for years to recover itself. It won't take long for the planet to completely dry up.” Li Luo said suddenly, saying this lightly.

As soon as Qin Tiange heard frowning, “No wonder the sun suddenly fell asleep. It turns out that something is absorbing the vital energy that the sun has accumulated for countless years.”

The planet is also alive. The magnificent vitality is possessed by every planet. It is a unique vitality that has been accumulated for countless years.

For example, the earth has huge vital energy, otherwise it will not become one of the oldest origins of human race.

“Master, if there is an ancient remnant hidden in the sun, once it has absorbed the entire life energy of the sun, the next one may be the earth.” Xi Ji said warily.

Qin Tiange snorted and laughed: “Now it doesn't have this opportunity. I don't know if it's okay. Now that we know it, it wants to continue to hide comfortably?”

“Go, enter the core of the sun, and arrest this ancient remnant.”

Speaking of this, Qin Tiange flashed himself into the sun, and behind him, Jiji flew directly.

In the end, the narrow three-foot-tall glazed nucleus disappeared, and entered the sun with Qin Tiange and Jiji.

Today, the surface of the sun has begun to freeze, and the flames and energy that have boiled since the sun’s dormancy have gradually converged into the nucleus.

The entire sun is cooling down, and the speed is simply incredible. Then I understand that there is a big secret hidden in the core of the sun.

boom!

A punch punched through the cooled surface of the sun, Qin Tiange plunged in, and rushed into the core area of the sun.

The further down, the higher the temperature, Qin Tiange felt that the core temperature of the sun was probably not cooling, but became more horrible.

But all the energy is not emitted, but is swallowed up. The huge life that the entire sun has accumulated over many years can be absorbed by a mysterious ancient remnant in the core area.

“let me do it.”

At this point, Li Luo could not help but open his mouth, and saw a flash of Liuli’s nucleus, and thundered through the core of the sun and rushed straight in.

Both Qin Tiange and Xunji flashed in, followed the passage of Li Luo, and quickly came to the core area of the sun, and saw the star core that belongs to the sun.

Here is like a sea of oceans. The fiery red oceans are all condensed with liquid flames, beating the blue, red, purple and black flames from time to time.

“His, the temperature here is ridiculously high, at least 100 million degrees Celsius, and the temperature inside the nucleus is even more terrible, exceeding one billion degrees Celsius.”

As soon as I came in, I could not help taking a secret breath, staring at the terrible heat around me, it was a ruined world.

Fortunately, her physical body was strong enough, and the artificial sun burst inside her body to defend against this terrible high temperature erosion.

Qin Tiange didn’t care at all. Any flame and temperature were absorbed by the chaotic flames in his body and were not affected at all.

“It really is an ancient remnant.” He mumbled to himself, staring at the nucleus of the sun.

It was a huge star core, floating quietly in the surrounding flames, which were surrounded by various flames.

Inside this solar star core, there is a complete firelight, as if there is a huge world of fire in it.

Qin Tiange's eyes glowed with silver awns. Through the power of time, he saw through the barriers of the solar star core, passed through countless flames, and saw a hazy shadow floating in it, quietly absorbing infinite life to restore himself.

This is the ancient remnant hidden in the core of the sun, which is difficult to find, and almost let it absorb the life energy of the entire sun.

Huh!

Suddenly, two horrible rays burst through the void, and the remnant woke up, inexplicably awakened.

“Who is waiting for me to break into my dormant place?”

In the fiery red star core, such an indifferent word came out, the ancient remnant woke up, his voice was arrogant.

It is an ancient remnant. As a strong person, it naturally has the pride and dignity of the strong person. The tone of interrogation is as if Qin Tiange is not taken into account.

Li Luo glanced at the remnant and said softly, “Its remnant has recovered a lot, and it contains the power of the true spirit. How about you and me?”

Qin Tiange agreed with a slight nod, and said, “Yes, you and I are half-pointed. I think I should be able to restore a lot of damaged spirits.”

The two talked and ignored this ancient remnant, and directly discussed and devoured the other half. This is a kind of contempt and humiliation.

“Look for dead ants!”

The old remnant was angry, his eyes glowed with cold light, and the horrible coercion revealed that he turned into a flame hand and caught Qin Tiange.

Watching the giant hand come down, Qin Tiange didn't move, but Li Luo took the lead, and a beam of glazed light poured out, turning it into a crystal glazed hand and slamming it up.

boom!

Both giant hands collapsed, causing the whole sun to produce subtle movements. It is conceivable how strong the blow was.

Once confronted, the other party knew that the visitor was not easy to mess with, and the glass Luo in the hidden glass star core also belonged to ancient life.

She is stronger, because she still has the body, but the other side has only one remnant, which is incomparable to each other.

“The Liuli tribe, you and I don't commit water to the river, why do you come to trouble me?” The remnant opened his mouth and scolded.

It looked very angry, glaring at Li Luo and questioning her. But these words are really superfluous. Liluo and Qin Tiange made it clear that they are here to devour its remnants and divide up its true spirit.

“The Book of Uprising, the soul is confined!”

Suddenly, Qin Tiange, who had been motionless, started to act. The soul of the book was a true character, and he turned into a cage on the spot to imprison the ancient remnant here.

Seeing the golden symbols dancing around, the ancient remnant finally changed color, and looked at the symbols flying around in shock and shock.

“Soul is true, is this true of the book?” The ancient remnant screamed in horror.

It is naturally clear that the hidden mystery of the book is to deal with the true spirit, and once it is imprisoned by the soul of the book, it is even impossible to resist.

This is the reason why he was scared. I didn’t expect that the other person’s soul actually had the soul of the book in hand, which scared it.

“town!”

Qin Tiange was expressionless, holding a gold sheet of paper, wrapped in hundreds of golden symbols, and directly suppressing that ancient remnant.

Suddenly, powerful power surged, terrifying the ancient remnant and screaming, “No, stop, we can talk about it.”

It turned out to be soft But unfortunately it was useless. Qin Tiange came here to swallow its ancient remnants to recover himself. How can it be wasted?

“Ah” accompanied Qin Tiange to wipe out the remnants of the opponent with the true character of the book. This ancient remnant hidden in the core of the sun could only make a final scream and was unwilling to be destroyed.

The remnant spirit was crushed and worn by the true character of the book, and became a majestic energy of the true spirit.

“That’s yours.” Qin Tiange waved and threw a smelt of true spirit energy to Li Luo, and he opened his mouth and swallowed another true spirit energy.

Grumlong

After swallowing this ancient true spirit energy, Qin Tiange only felt that the sea was boiling, and there was a joy in the true spirit space. His mysterious and incomplete true spirit directly swallowed up this true spirit energy.

The strange sound of crickets came, and the mysterious true spirit gradually repaired, faster and faster, more than double the previous broken appearance.

It’s a pity that it still can’t be repaired. Even Qin Tiange feels that he is still far away from repairing the true spirit.

Chapter 673 - Vision determines achievement, retreat comprehension

“Yi” Qin Tiange sighed inexplicably, his heart was a bit depressed, so when will it continue to repair his true spirit?

Liluo on the side just soaked up the energy of the true spirit and woke up, seeing him like this, and said, “You want to recover a lot, I feel that my true spirit has recovered a lot, as long as I capture 100,000 ancient relics Spiritual absorption will be fully restored. “

“Hundreds of thousands?” Qin Tiange didn’t spurt blood. You thought the ancient remnants were so easy to find, and it took 100,000 to recover.

However, he thought of his own situation, and calculated that even if he eats 100,000 ancient remnants, he may not be able to repair his true spirit, which is even more depressing.

“Master, the core energy of the sun is erupting, and life is being released. It is estimated that the sun will recover again in one day.”

Suiji suddenly said this sentence, looking cautious, his eyes flickered at the core of the sun in front, a terrible star core.

As the ancient remnant that hides the core of the sun is swallowed up, the solar energy that was originally gathered and absorbed by it is being revived and released.

This sudden dormant sun is about to wake up, and the earth will usher in light again, which is definitely a good thing.

But the only bad thing is that the robot can no longer study the sun, and some plans will change accordingly.

“Master, I want to stay here and enter the solar core to study the mysteries of the entire sun, which may be able to create a flawless core of solar energy.” Su Ji suddenly proposed this crazy plan.

After listening to frowning, Qin Tiange pondered for a moment and asked, “Are you sure you want to do this? You know, once the life energy in the Sun’s star core is released, you can withstand the super terrible temperature after re-burning?”

I have a serious and serious look: “Master, I want to try, after all, this is the only opportunity. Once I glance at the mystery of the sun from the recovery of solar energy, I can completely copy the true core of the sun, and then I will create super God warriors are easier and simpler. “

“Well, be careful yourself.” Qin Tiange was a little worried.

However, at this time, Li Luo, who had not spoken, opened her mouth. She said: “The core of the sun here is waking up, and the life energy that was originally condensed is being released. I want to stay here to absorb some escaped life to restore the body.”

“Rest assured that this star’s overall vitality will not be harmed, but only those vital energy that has escaped and wasted.” Luo Luo also explained.

She can see that Qin Tiange seems to want to transform this planet, and she can still see this, after all, the dense robots outside are studying the sun.

It is the self-adventure to stay at the core and want to study the mystery of the sun. This is a way to seek self-breakthrough.

“Okay, then I’ll leave first.” Qin Tiange didn’t say anything in the end, admonished his attention and turned away.

Inside the core of the sun, there are only two of them, Liji and Liluo. After looking at each other, they both rushed into the core of the solar star.

Huh!

Qin Tiange flashed out of the sun, quietly overlooking the gradual recovery of the sun, light and heat gradually radiated.

At this time, a large number of robots are quickly gathering, and after receiving their own order, Qin Tiange gathered them all.

As time passed, a thermonuclear reaction began to form on the surface of the sun, and a swarm of life could quickly expand and burst. Finally, the dormant sun completely recovered.

Bang!

A violent vibration came, and the extinguished sun burst into a hot glow, extremely intense, thousands of times hotter than before.

The entire solar system was turned on in an instant, and the light radiated, illuminating the entire solar system. The intense light pierced the eyes of countless creatures on the earth.

“Light, light!”

“sunshine!”

“The sun is recovering again?”

On earth, countless humans were surprised, watching the darkness torn and the strong light shining down, and most of the humans on the earth saw the resurrected sun.

The more scorching sun, with its immense energy, continued to pour out infinite sun particles, forming a terrible storm.

Fortunately, the quality of the earth is now stronger, so that the entire earth can withstand the impact of the re-explosion of the sun.

Ninety percent of the mass of the entire solar system is in the sun, and the energy it explodes is extremely scary.

Moreover, the vital energy contained in the sun is more than 90% of the total vital energy of the entire solar system. How much energy is this?

No wonder that remnant is hiding in the core of the sun, stealing the vitality of the sun, or in other words, stealing the vitality of the entire solar system.

The sun revived, the earth ushered in light, all kinds of creatures roared cheerfully, humans cheered, and finally no longer needed to live in eternal darkness.

Although Huaxia created the artificial sun, it is still a bit unaccustomed. Now that the sun is recovering, the earth that has entered the ice age begins to thaw.

The temperature rises, the ice and snow melt, and they converge into the ocean, which increases the total water supply of the entire earth.

As the sun shone on the earth again, on the originally barren land, various plants took root and sprouted out of the earth immediately after the snow melted.

The entire earth has become vibrant and full of energy, which may be why the sun occupies too much vital energy in the solar system.

The sun is extinguished, which means that 90% of life can be extinguished and disappeared. Naturally, it looks dead. Now it's fine.

"Finally came to an end, the dawn of hope ignited again, and the next step was to welcome the arrival of the alien army." Qin Tiange murmured to himself as he looked at the recovering sun.

The dark and cold era of the earth has passed, and the dawn of hope has ushered in. Next, as long as the foreign invasion forces of various ethnic groups are destroyed, this calamity can be completely survived.

Thinking about it, Qin Tiange turned around and looked into the entire solar system. His eyes were deep, as if two black holes in black paint were glowing with tiny particles of black, revealing a light that swallowed the heart.

"First retreat to sort out the huge memory from Li Luo and the insights of that life, this is definitely a huge transformation for me."

Qin Tiange whispered to himself, then turned into black particles and disappeared, and then appeared again to the edge of the solar system, standing on the ring of Neptune.

"Roar!"

A roar came, and at the edge of the solar system, a giant creature constantly shuttled into space, devouring huge pieces of stars.

That is the Xinghai beast. It is eating those smashed blue discrete star fragments, and the body is constantly expanding, which is twice as large as before.

"The Xinghai Giant is really terrible, so you can tell from it." Qin Tiange drew his lips and looked at the Xinghai Giant who was constantly willing to eat the stars.

With the devastation of most of the broken blue discrete stars, the body of the Xinghai Beast has doubled. It is incredible that this species is justified.

That's right, the Xinghai Giant grew up eating the planet. The more you eat, the faster you grow, and the more terrifying your strength becomes.

Ignoring the Xinghai beast that was eating well, Qin Tiange flashed into the space mezzanine and fell into cultivation.

He has to thoroughly absorb and sort out the memories of Li Luo, especially the huge cultivation insight that belongs to Li Luo, which is most precious to Qin Tiange.

Li Luo can also be regarded as a blood bank, and he has sent out his lifelong cultivation experience directly. Is he worried about being swallowed by Qin Tiange's suppression?

Perhaps, in her opinion, the cultivation of enlightenment is nothing, because she thinks that Qin Tiange is an extremely ancient being, and naturally she does not care about this enlightenment.

But she didn't know that Qin Tiange didn't have anything in this area at all. The cultivation insight she gave this time was definitely the biggest gain.

In the chaotic space of space, Qin Tiange sat cross-legged, absorbing and organizing that huge ancient memory, absorbing all kinds of useful ancient knowledge, knowledge and so on, and even found a more ancient and complete map of the universe sky.

"It is indeed an ancient living body. The precious wealth contained in that memory is far beyond the average person's ability to compare." Qin Tiange absorbed this vast memory and couldn't help shaking.

Of course, it is more of a kind of satisfaction and joy, because obtaining this majestic memory will have an impact on his understanding and future and even vision, allowing him to transform.

Vision determines achievement. If a person can only see the world of a well, then he can only be a frog at the bottom of the well.

Only by jumping out can we see a wider space and the world. For example, China was very large, Asia was very large, and even the earth was large, but now it seems really small in the solar system.

The solar system is also very large, but if you put it in the Milky Way, it is a drop in the ocean, not to mention.

The Milky Way is extremely small for the entire universe. Only by going beyond these boundaries, can we look farther and gain more insights to achieve higher levels.

Gradually, when Qin Tiange completely absorbed and organized two ancient memories, the whole person became different.

His breath became more and more simple, is like a living body from the ancient era, gradually awakening its own years of breath.

"For the solar system, I'm strong, but in higher-dimensional worlds such as the Milky Way and other extragalactic galaxies, and even the entire universe, I don't even count dust."

Qin Tiange murmured to himself, and felt a stronger sense of urgency in his heart. He wanted more powerful power, and the ability to swim in the big universe and even freely travel through multiple time and space.

"Cultivation, become stronger!"

In the end, Qin Tiange closed his eyes again, this time to sort out three ancient cultivation insights, two of which came from the two ancient remnants that he had devoured.

Three points of huge insights. If you want to fully absorb the insights and turn them into your own things, it must take a long time, but Qin Tiange doesn't care. Time, he has.

In this way, Qin Tiange practiced retreat in the turbulent space, and the outside world, as the sun recovered, the major hidden aliens began to move.

Because, the main army of all ethnic groups finally came.

Chapter 674 - The main force of all races, pull the wind to play

Mars, outside the wormhole of time and space, within a few hundred kilometers, stands ten large cities.

This place has long been occupied by the major human forces on the earth. Countless people have come to Mars. This was forced by Qin Tiange.

Other forces can't actually come up, but they can only watch the development of Huaxia's wind and water outside the earth on the earth, and they can only shrink into the earth.

No one is a fool. The heads of human forces on all sides of the earth are very clear. Since Huaxia has led this Mars battlefield plan, they can only grit their teeth and swallow this bitter looking fruit.

There is no way. If you want to develop, you must move forward, and you must not let Huaxia stand out. Otherwise, the other forces on the earth need not be mixed up, and sooner or later they will be squeezed out of the earth by Qin Tiange.

However, if you choose it, you must assume the responsibility of being part of the Earth's humanity, that is, resisting the alien race.

Take a look at the huge wormhole to understand that as long as the major forces are not fools, they can understand Qin Tiange's intention in this move, that is, to tie all the major human forces on Earth to the Martian battlefield.

If you want to come to Mars to develop, you must block the alien family, otherwise, you will stay in the earth honestly and watch China's rapid development.

boom...

Suddenly, a tremor came from space-time wormhole, which surprised the personnel of the major forces who were studying the mystery of the wormhole nearby.

"what happened?"

"Why is the wormhole shaking?"

Near the space-time wormhole, densely packed machinery and equipment, many people from all major forces on the earth are doing research here.

They want to study the mystery of the wormhole, and even develop the wormhole technology to prepare for the future star sea navigation technology.

But now there is an inexplicable tremor in the wormhole, which immediately shocked the researchers who studied here, all looking surprised.

"Not good, will it be the alien race?"

Some people thought of this problem, and their complexions changed greatly. As soon as this remark was made, many people who were doing research on the spot suddenly changed their expressions.

“Order above, evacuate immediately!”

At the next moment, various forces sent a message and ordered these people to evacuate quickly and return to the Martian battle city occupied by each family.

What they have foreseen, maybe, the main force of the alien race is coming.

Sure enough, as these people evacuated for a long time, strange rays of light began to appear in the huge space-time wormhole.

Immediately afterwards, a huge breath permeated and shocked the powerful men in the major battle cities.

“Are you here?”

In the No. 1 battle city of Huaxia District, a figure suddenly opened his eyes, and the powerful sword intentions permeated the space, tearing the space, and the dark sword intentions revealed the breath of destruction.

He is a lone sword demon, and suddenly vacated, standing on the void and looking at the wormhole in spacetime. At the same time, a powerful figure flew out of the other three battle cities, with an ancient atmosphere.

These four are the sword demon lonely, the human demon Li Zijun, the double hammer giant spirit, the sword soul Fu Hongxue, who guarded the Martian battle city.

“The aliens are here, and I can’t help but shoot.” Li Zijun said lightly, his eyes clear, a touch of \*\*\*\* color, as if to start a \*\*\*\* feast.

Fu Hongxue, the soul of the sword floating not far away, was carrying an ancient sword on his back, a sky-high sword bloomed on his body, and the sky was split.

“Come on, kill the majesty of foreigners.” Fu Hongxue said lightly.

Over there, the giant spirit waved its double hammers and sneered: “Finally, until this day, my old guys are almost rusting.”

Hum!

The pair of huge hammers, of unknown weight, shivered in the air, making it hard to imagine how heavy the pair of hammers was.

As for the sword demon, his face was silent, his eyes were tinged with black swords, and the light of destruction was glowing.

The four sages sat in the four major battle cities of Mars, and as they appeared, the four huge legions stationed in the city were immediately dispatched.

“An alien is here, and the whole army is preparing for war!”

An audible alarm spread across the four battlefields, and even alarmed the forces in which the battlefields of other parties were located.

Everyone foresees that there will be countless main forces of alien races in the wormhole of time and space. This time will be a fierce collision between humans on earth and alien races.

“All weapons are charged!”

“Everyone is ready to fight!”

One command after another was communicated. The four battlefields where Huaxia was located entered the highest combat readiness, and a powerful army appeared, waiting for the next war.  
[]

Groups of powerful demons began to gather, gathered in an orderly manner on the city walls, and stared at the wormhole in space and time quietly.

These monsters are all kinds of mutant creatures or monsters that have joined Huaxia. Anyone who has wisdom must join Huaxia.

They are numerous, gathered under the guidance of powerful creatures such as leprechauns and Miaoshan, waiting for the war.

As for the place occupied by human power in each state, in the battle city where Africa is located, there are numerous human warriors densely packed, and two huge pyramids are suspended there, and the energy is turned on.

On the North American Union side, there are a large number of dense artificial angels. The number is almost full, and the entire battle city is crowded. The number is scary.

As for Europe, the three gods together led the army of humans and gods to guard a city, and even the three gods came to fight in person.

The human forces are waiting for the rabbits, quietly looking at the mouth of the space-time wormhole that is constantly shaking and shining, the breath is extremely depressed.

Bang!

Suddenly, a roar came, and a large amount of terror energy poured out of the space-time wormhole, then swept away, setting off a billowing wave.

Immediately after that was a huge torrent, which swept through, rushing out of the wormhole of time and space.

That was the alien clan. The dense army of alien clan came and burst out from the wormhole of time and space.

“finally reached!”

“Hahaha, the place where the human race originated.”

“Want to come, the people here have been beaten down by our vanguard?”

Groups of tyrannical alien troops descended from the wormhole of time and space, and many tyrannical alien creatures were laughing and talking excitedly.

These aliens believe that the humans in the ancestors of the earth could not resist their army at all. Even the vanguard army might defeat them.

Unfortunately, they think too much. It is not that the aliens have beaten the earth and the human race, but that the pioneers of the aliens have been beaten by the Huaxia, and all are hiding in terror.

The main force of aliens appeared on the stage, and landed strongly on the Martian wormhole. However, they were not greeted by the pioneers of their clan, but by greetings from the human race.

“Fire!”

Seeing the arrival of countless army of alien races, the hordes of space-time gushing out wormholes, and finally, the four major battle cities of China that had been prepared all opened fire.

A powerful electromagnetic energy cannon roared, and the heavens and the earth shook together. The terrible electromagnetic light almost covered the sky.

Here, 400,000 large-scale electromagnetic guns are arranged, which is a horrible artillery hedgehog. Each city is equipped with 100,000 energy cannons.

Rumble ...

Almost instantly, within the space-time wormhole, all the alien army that emerged were all covered by this sudden electromagnetic fire.

The powerful electromagnetic energy exploded one after another, completely covering the wormhole within tens of kilometers, and the blast was turned upside down.

This round of volleys directly led to the destruction of more than half of the numerous foreign army forces that broke out of the wormhole in time and space, causing heavy losses. The rest were seriously dying and mourning.

“what...”

“Ambush!”

The screams were undulating, a roar was unwilling, but it was torn apart by the dense electromagnetic energy cannon.

Although these alien forces are strong, they are torn to pieces under the bombardment of such dense electromagnetic energy.

With the completion of a round of volleys, the electromagnetic cannon continued to be charged. In this gap, the humans in other battle cities looked at this scene, all stunned.

Grunt!

Some people swallowed their saliva and looked at the pitted ground there. The alien army within dozens of kilometers of the space-time wormhole was completely destroyed.

Only the corpses on the ground kept falling, and some of the blasted alien creatures screamed sternly, appearing particularly terrifying.

“Fire, fire!”

“Fighting alien invaders.”

Finally, all the forces in the other battle cities came to their senses, and Huaxia opened fire, so they could not just look at them stupidly and directly order their own men to fire.

All of a sudden, the roar of artillery, laser cannons, electromagnetic cannons, energy cannons, and other weapons whistled wildly, covering the area where the wormhole of time and space was located.

There, there are more alien army coming out, endless.

“Human race, let’s ... ga ...”

Some aliens who just rushed out of the wormhole yelled loudly, but ended up being stunned by the countless artillery fire and energy bombarded head-on.

Boom boom ...

The artillery was roaring, and the foreigners were taken aback by surprise. They never thought that as soon as they came out of the wormhole in time and space, they would usher in a violent raid.

For a while, these alien races were beaten up, horrified, and even forgotten the defense.

No way, it was originally to send a vanguard army, the task was actually to guard the space-time wormhole and wait for their troops to arrive.

As a result, those vanguards had their eyes higher than the top, and came directly to the earth. The end was naturally not much better, and they were upset by Qin Tiange’s leader and hid directly.

“Jack!”

“Who will tell me what happened?”

“Why does the Terran ambush us?”

For a while The undead alien tribe strong howled, all struggling to resist, the treasures shining brightly, supporting a huge defense circle.

They were so angry that someone snarled, “Why are we the pioneers of our tribe, why can’t the tribe ambush us here?”

Questions after question filled the minds of these alien races, but unfortunately there were no answers, because the Terrans ambushed these descending alien forces here.

“Turn on defense treasures!”

As the strong men in the alien clan reacted, they immediately held up their defensive treasures, soaring into the sky, guarding their respective armies.

Finally, the space-time wormhole was firmly guarded by countless treasures, allowing more and more foreign army to rush out of the wormhole.

“Launch a hydrogen bomb, cover bombing.”

With a loud shout, a young and powerful commander appeared, and he was the supreme commander of Mars. With this order, he directly uses nuclear weapons, which is currently a conventional weapon of Huaxia.

#### Chapter 675 - Exploded Foreign Army

A series of missiles blasted, carrying hydrogen warheads, and instantly covered the splendid area outside the wormhole.

boom!

Just listening to a loud noise, the sky shook, the horrible explosion produced terrible high temperatures, and shattered countless defense treasures directly.

The nuclear explosion came, as if the intense sun explosions caused extremely terrible scenes. Dozens, hundreds, and hundreds of nuclear bombs poured down, it was a disaster.

Even the powerful alien species were caught off guard by this bombing because of the wrong estimation of the strength of humans on Earth.

Especially in Huaxia's current war reserve, all kinds of nuclear bombs have become conventional weapons, and the super hydrogen bombs have been hit, and the alien races have been aggressive.

“what...”

“How can humans have Zhixing Technology?”

For a time, screams, screams, and roars of fear were intertwined, and a large number of alien species were smashed into powder on the spot, and even turned into ashes under the high temperature of a nuclear bomb.

They launched defensive treasures to resist, but the power of hundreds of hydrogen bombs to explode at the same time was too terrible, which completely sank the ground within a radius of tens of kilometers.

“Nuclear bomb, Huaxia used it.”

“God, where does Huaxia have so many nuclear bombs?”

With the startling nuclear explosion, the human power in other battle cities was frightened. Watching the horrible rays burst out, powerful shock waves swept out.

Fortunately, the defense of the battle city is strong enough, and the distance is relatively long, the impact is not strong, but it caused the shock of martial arts humans.

A bombardment by Huaxia caused some creatures that rushed out of the wormhole to be gasified on the spot without cheering.

“Do not...”

In the wormhole, as soon as the alien creatures that came out of him came out, they were terrified of death, and with a scream, the body was burned to ashes by the high temperature.

The terrible explosion and high temperature lasted for a long time, and when all the energy was dissipated, those alien species that survived the nuclear bombardment were aggressive.

The surrounding earth was completely blown out of a deep pit. There were magma boiling, heavy smoke and dust, and the army from all ethnic groups was directly missing 90%.

Only the spiritual treasures left around were still flashing, and the alien creatures inside were frightened and were blown out of shadow.

“Damn, who told me what happened?”

At this time, a group of breathy creatures came out of the wormhole, all of them were Emperor Class, and all the powerful alien creatures were stunned by the scene in front of them.

As soon as I stepped out of the wormhole, I saw sores on the ground, all kinds of energy and high temperature raging, and I almost thought that I had come to the wrong place.

In addition, the alien creatures who came out before crying one after another, some surviving creatures shivered in treasure light, their faces were terrified.

Seeing this, the strong aliens were furious, and they were horrified. They looked around and saw nothing but potholes of glazed ground and flowing magma.

A group of bombs exploded, and more army of alien creatures emerged from the wormhole, and emerged in groups, as if endless.

“It’s Terran, and we’ve been ambushed by Terran.”

Finally, the surviving alien race creatures looked pale and uttered in horror, immediately horrifying the newly emerged alien race creatures.

“Human race?”

“ambush?”

These alien creatures just came out of the wormhole, and then before they were still in a daze, they saw a roar from all directions.

When I looked up, I saw a series of missiles blasting down, not only in Huaxia, but also in other battle cities.

Missiles and artillery flew together, and a rumbling boom spread across Mars.

“Enemy attack!”

“Fast defense!”

A cry came, and the surviving creatures of the aliens were screaming in horror.

But the alien army that had just come out had not figured it out, or had not responded at all, and had been bombed by a new round of nuclear bombs.

Listening only to the violent explosion, the wormhole was dozens of kilometers away and was again bombed by nuclear bombs.

And this time, not only Huaxia, but also the human powers of the states, those who possessed nuclear weapons have poured their own weapons down.

Everyone knows that if they don't fight now, after the aliens react, there will be no such good opportunity to bomb the aliens.

boom...!

The explosion of nuclear bombs ignited a bunch of terrible light balls, and some unreformed nuclear warheads exploded, setting off huge mushroom clouds and radiating strongly. []

However, these nuclear bombs are still not enough for aliens. They must follow the new hydrogen bombs from Huaxia. The modified hydrogen bombs are more powerful.

Although somewhat unsatisfactory, the long-range strikes launched by the ten battle cities caused huge losses to the surging alien army.

Suddenly, the aliens were dozed off, and the survivors awakened, instinctively releasing their treasures to withstand the terrible bombing.

"Ah ..." screams kept coming, and alien creatures were torn up with their treasures, and no creatures could survive in the center of the explosion, except for a few first emperor levels.

The rest were wiped out by sudden bombardment.

"Human, you \*\*\*\* it!"

There was a fierce roar of the first emperor level, and his body was embarrassed and embarrassed. A defensive treasure floated above his head to withstand the impact of explosions and high temperatures.

His face was haggard, with red light on his gray-gray skin, looking extremely furious, watching the army appearing from his tribe and other tribe wiped out 90%.

Hundreds of thousands, millions of alien troops were directly blown out of the air, almost ran without turning around, and almost exploded with heart disease.

"Dash, dare to ambush."

"Kill all Terrans!"

At this moment, as the bombing extinguished, the alien army rushing out of the wormhole was angry, watching the swollen surroundings, one by one, vacated, and flew directly to the sky.

The dense army of aliens flew up, covering the sky, and finally launched a counterattack.

"kill!"

"Kill all Terrans!"

With the appearance of some ancestors of alien races, one by one furiously rushed out with armies and rushed towards the battle city in all directions.

The endless army of alien races suddenly flooded, and saw a lot of inexplicable panic and fear in humans.

"Electromagnetic gun, fire!"

In the Huaxia area, four battle cities opened fire, hundreds of thousands of electromagnetic cannons roared, and energy beams were intertwined into an electromagnetic net at high altitudes, enclosing those flying alien creatures.

Suddenly, the electromagnetic energy exploded, and the rumbling noise continued to pass, and the rain of dumplings began to rain.

“No, I don’t want to die.” Some alien creatures growled in horror, their bodies were broken in the air by an electromagnetic light, and the rest of their heads fell down.

Each alien creature was killed by a dense and horrible electromagnetic energy network, and some of its bodies were electro-clogged.

However, electromagnetic energy cannons take time after all, and the alien army is powerful. Except for the ability to kill a large number of alien creatures at the beginning, the rest are protected by treasures.

“Kill, kill all Terrans!”

Some ancestral and ancestors were very angry and sent out bursts of horror, and took the remaining army of various ethnic groups to madly kill them.

Around the battle city, it was surrounded by a dense army of aliens and launched a crazy and violent attack.

“Comrades, take up the weapons and kill the aliens!”

As soon as a loud shout came, I saw the commander in chief of the Martian theater give out an order, draw a finger of his fight, sharp, spit, and kill.

His face was cold and he shouted, “Those who violate me will be stunned!”

“kill!”

With a roar, on the side of Huaxia, the four battle cities were directly involved in a \*\*\*\* battle, and the major legions that had already been prepared waved their weapons and tried hard to kill.

Foreign invasion, either you die or I die, there is no mercy at all, the only thing that can be done is to kill the other party.

“Kill the human race!”

The strong aliens drank violently. There were first emperor and first ancestors who rushed down to kill the war. As a result, they were blocked by strong figures before they rushed down.

boom!

“Your opponent is me.”

A figure soared into the sky, and the two ancestors were driven back by a single blow. It was Shicang, holding an ancient war monument, and was full of warfare, straight into the sky.

He was able to resist two ancestors, and was shocked by many people. Only then did he find that the talents inside Huaxia were not lacking.

In the distance, a loud bang came, and two patriarch-level foreign race strongmen drew back, staring grimly at a figure appearing in front of them.

“Where else do you want to go?” Wu Yun sneered, holding a bizarre fight in each hand, and wielding a weird breath.

“kill!”

The Huaxia strongmen attacked and stopped the masters who rushed down. They found their prey and started to kill.

“The river of life!”

At this moment, the whole of the battlefield was spread with a sound of joy, and the ten battle cities were shrouded in a huge river of life.

Suddenly, countless people only felt a strong vitality into their bodies, as if they had inexhaustible strength, and they all increased their combat power by 30%.

“Yan Xi, you stay here, you can’t go anywhere.”

On the high platform in the middle of the battle city, Chen Xi held a silver battle grab and solemnly cautioned Xi Xi that he could not leave the high platform.

There are powerful weapon guards all around, and even the sage, the sword demon, is there. There is no problem at all.

“Those who commit me against Huaxia, though they will be strong!”

“kill!”

Chen Xi screamed and stunned the four cities in China. As a leader’s wife, she actually took part in the battle, and led a group of masters into the army of foreign races, and tried to kill them.

Her presence immediately caught the attention of the major Chinese legions. When the leader’s wife actually came to join the battle, the morale of the major legions was boiling.

“It’s Mrs. Leader!”

“Brothers, kill all the aliens, and raise me to Huaxia Shenwei!”

“kill!”

For a while In the four battle cities, the Chinese masters and scattered teams who came to hear the news came together and followed the main army and killed the foreign army.

The fierce fierce battle was staged, and Huaxia directly took the initiative to confront it, while the human forces in all states seemed a little passive.

“The whole army’s attack should not let Huaxia take the limelight.”

In the North American League, countless artificial angels flew into the sky, wrapped in endless light, and directly counterattacked, even going to compare Huaxia.

These artificial angels are densely packed in numbers, even more than the number of alien forces here, which directly drowned these foreign forces.

The main force of the alien race descended, and the short soldiers met, and the earth's humans rose up against each other. A war about the destiny of the race and the survival of the people began.

**“Human race, you must die!”**

Suddenly, a cold drink came from the wormhole, and there was a condensing of the weather, the energy was huge, and it turned into a towering giant and slammed down a Chinese battle city.

Chapter 676 - To rid the human foundation

The giant hand came, covered the sky, and with horror, even the strongest ancestors felt thriller.

**Dang!**

I only heard the sound of “Dangdang”, and a black giant coffin was born, hitting the giant hand severely, and stopped the opponent.

Immediately afterwards, the black coffin broke into the sky, and the bang smashed the giant hand.

**“Countless that big deity!”**

Below the black coffin, the shadowless priest appeared, with a smile on his face, staring at a strong horizontal figure hidden in the clouds, which is a terrible strong man of the alien race.

He is shrouded in light and mist, as if a star is shining, extremely dazzling, people dare not look directly, and their strength is far beyond the ancestors.

**“Human race ants, look for death!”** The strong man was so angry that he patted it with his palm.

With a bang, the hollow depression of the unscrupulous Taoist priests seemed to crush the heavens and destroy the stars.

The unscrupulous priest looked cautious for a few moments, and hummed, “Well done, take you to try my Dao's baby pet.”

**“Come out, it's time to eat.”** The unscrupulous Taoist whispered and spoke a spell.

Just listening to the black coffin trembling, it opened with a click, revealing a dark light burst out inside, turning into a horrible figure.

**Roar!**

A roar came, and the atmosphere of Mars was shattered, and dark air filled the sky, and a terrible figure appeared there.

**“Battle corpse?”** The foreign strong man squinted his eyes and stared at the dark figure in front of him. It was a zombie.

This zombie was incredible. He was so full of flames and black fire that it covered the void and completely enveloped them.

The terrible zombie is so powerful that it is a war corpse cultivated by unscrupulous priests. It is extremely powerful and terrifying.

“You still have a bit of insight. This is one of the eighty-one war corpses cultivated by this master. Please help me verify its power.” The unscrupulous Taoist smirked and stood on the black coffin.

Suddenly, the terrible war corpse moved, and smashed it with a big arm.

Bang ~!

A violent rumbling came, and the space was instantly cracked, revealing a dark nothingness, and the violent power made the strong alien race have to retreat.

He looked somber and snorted coldly: “Even the war corpse, it’s up to you to see your desecration.”

“kill!”

The unscrupulous Taoist drank coldly, stepping on the black coffin, and killed the other party directly. Together with the war corpse, he battled this alien superpower who surpassed the ancestor.

It is a powerful creature that has surpassed the ancestors, but has not yet reached the star, but a half step star, which is extremely scary.

“Has the Terran Origin grown to this point?”

Looking at the fierce battle here, a whisper came from the wormhole, and I saw all the terrible figures coming out one after another.

These figure breaths are without exception, comparable to the previous half-step star-studded alien family strong, are a group of half-step star-strength masters, they can almost completely break through the star.

“Anyway, the human race is just a target for the hunting of hundreds of people. It can’t be climate.”

“Nice, Terran, it’s outdated.”

“The declining tribe was almost wiped out by us in the previous period, but now it has become the target of hunting by all ethnic groups.”

The indifferent words one after another spread across the battlefield, shocking all the human armies of the earth, watching these terrible strong men appear, and their morale was low for a while.

The coercion of the strong has caused tremendous pressure on countless people, which is inevitable. But the Chinese side is the exception. They ignore these half-step star powerhouses at all, as if they have not seen them at all.

“Kill, destroy the human race!”

“Exterminate the human race completely.”

A powerful foreigner came out of the air, smirked and gave an order, even to completely destroy the human race.

Along with his order, in the wormhole behind him, a large number of foreign army suddenly emerged. This is the true main army of foreign nations.

“Destroy the human race!”

A neat and huge army of alien races came, and a powerful momentum swept the sky and shook the entire Mars.

The weakest of these foreign races are ten stars, all of which are youngsters of the starry hundred races.

They came to hunt for human races in order to get promoted to adulthood and be crowned, to complete formal adulthood, which is a \*\*\*\* rite of adulthood.

Of course, among the hundreds of stars in the sky, all ethnic groups encourage their younger generations to implement this hunting ceremony, which can not only sharpen their young people, but also promote the cultivation of their neat power and fighting consciousness.

The races that have grown up in the blood are often strong races on the stars. Only in this way can they truly survive and compete in the cruel universe.

In the previous period, the human race was defeated, which led to the hunting of various ethnic groups, which caused the young hunting army of various ethnic groups in the ancestral land to come to hunt.

“Human ants, die!”

With a swift shout and shaking the Quartet, there was a half-step star-strength strongman raising his hand and slamming a palm, and the huge palm print rumbling over it, as if to smash a battle city with one palm.

Hum!

The void buzzed, and a green lotus emerged, with a petite figure standing on it, surrounded by blossoming lotus flowers.

“Wanting to destroy me, Huaxia, that’s crazy!”

The little fairy snorted faintly. With a little wave of her hand, she saw a black lotus buzzing and rushing through the air and hitting the palm print.

There was a loud noise, the palm print collapsed, and the black lotus was turning slowly, dripping with the dark light, the powerful breath shocked all parties.

“Huh, look for death!” The attack was broken, and the strong man was angry, and the figure flashed, and he gathered the endless power with a single palm, smashing over the goblin’s head.

The little fairy held a snowdrop and hit it hard. There was a buzz in the space, followed by a loud bang, and both of them retreated.

“kill!”

The two strong horizontal figures flickered quickly, and they immediately struck the atmosphere of Mars, and instantly fell into space, disappearing in an instant.

The situation here has attracted the attention of other alien step-by-step star powerhouses, surprised that the Terrans have these powerhouses to help.

“I see how many of you are still strong?” Leng Hu, a foreign strong, quietly appeared, a horrible force gathered and turned into a mountain to suppress it severely.

The mountain was tens of thousands of feet high, pressed down with an irresistible momentum, shocked all parties, and made many humans unable to resist the horror.

“presumptuous!”

With a soft drink coming, I saw a gray world spread out and grunted the mountain.

I saw that twelve breathy figures emerged, each holding various musical instruments flying in the air, and a vast world unfolded around them.

That is the world of murals, which has grown completely into a world, and the Twelve Heavenly Girls are the twelve masters of this world.

As they complete transformation, as the world grows, that strength is simply appalling.

The Twelve Heavenly Girls have the power of one world. The larger the mural world, the more powerful they are.

“Secret realm, also want to trap this seat?”

In the void, the half-star star powerman of the foreign race hummed coldly, watching himself enveloped by a world, but not ironic.

He believes that this is a mystery, which is actually a mystery, but it is a world mystery born naturally after a mutation, with higher growth and higher levels.

This world can grow indefinitely, and even into a real universe, which is very strong in itself.

“Kill!” The twelve-day girl moved in unison, disappeared into the void with the mural world, and wrapped around the half-step star-strength strongman.

This is to kill each other, and even devour each other to grow. This is the twelve-day girl’s growth path. The more you swallow, the faster you grow.

“Go up, kill the Terrans here, and then enter the Terran ancestors.”

“Destroy the human foundation!”

Finally, the remaining dozens of half-step star powerhouses started to directly kill the human resistance here, and then entered the earth and erased the foundation of the human race.

Behind him, dozens of huge legions rushed out, endless, and madly attacked the ten human battle cities of Mars.

This is a tribal extermination plan. It is necessary to overthrow the roots of the human race and completely destroy the earth's ancestors. This is the mind of foreigners.

Hundreds of stars have no pity and no goodness. The only thing is strength and fangs. Whoever is strong enough has cavities hard enough to eat each other.

The law of the universe is \*\*\*\* devouring and killing. It is normal to destroy the clan. Often, some ethnic groups have been completely destroyed by the young hunting army of high-dimensional world races before they break out of the three-dimensional world.

This is the way for hundreds of stars and the universe to survive. If your ethnic group is not strong, it is a kind of sin.

“Super God guard, kill!”

Suddenly, in the direction of Huaxia, there was a cold drink in the four battle cities, and they saw the four huge legions rushing out in a row and rushing away.

Each legion has 100,000 people, all glowing with glowing light, that is a super-sex warrior, an artificial deity warrior.

Fully 400,000 super \*\*\*\* warriors appeared, which is the most powerful force that has been cultivated by day and night.

Rumble ...

The four armies marched neatly into the air, stepping on the air continuously, and rushed directly into the army of the opposite ethnic groups to start the killing.

They are painless and tireless. The artificial solar cores in the body are constantly exploding, releasing a horrible amount of energy.

“Not strong enough!” Over the battle city, the figure of his own self emerged, watching the 400,000 army kill into the foreign army across the road, passing all the way, unstoppable.

But she was still dissatisfied, because these are not artificial star warriors. Qin Tiange wants them.

Although these batches of artificial warriors are very strong, they are still stuck in a truncated. The artificial solar core energy burst out and cannot reach the star level.

“Damn, how did the Terran master the science and technology power of Zhixing?”

Seeing these arrogant artificial \*\*\*\* warriors, the group of half-step star-strength foreign race strongmen was furious and did not understand why the human race had mastered the wisdom star technology?

“In the previous period, the judges of the life court have all the major ancestors of the human race into the primitive era. Why can the human race develop to this extent in a short period of time?”

“No matter how the human race grows, in short, this place of human origin must be destroyed this time. It is rumored that this is the oldest place of origin of the human race, with many secrets hidden.”

“Don’t get ink, go ahead, get rid of these human waste.”

As soon as the words fell, dozens of half-step star-studded strongmen took action, and they all dispersed, consolidating strength to erase the four artificial \*\*\*\* warriors.

“court death!”

There was a trace of coldness and a slight hum on his face, his figure flashed, and an extremely hot breath broke out, and he locked on the spot the figure of thirty and a half step stars.

Chapter 677 - Huaxia Battle Banner, Fight! war! war!

Alas ,!

boom!

Three half-step Hengxing star powerhouses retreated on the spot, bleeding from the corners of their mouths, and were injured by a punch. It was incredible.

What is even more incredible is that the visitor is still a graceful shadow of a graceful grace, with a foxtail swinging behind it, causing ripples in space.

With a touch of coquettish smile on his face, he said with a smile: “Aren’t you threatening to destroy the human race? Come on, let him teach you the greatness of the human race.”

“Arrogance!”

“presumptuous!”

Opposite, more than thirty half-step star powerhouses were furious and scorned by a yellow-haired girl, which was simply shame.

Immediately, ten strong men broke out and struck out their respective strongest forces to kill the arrogant girl who killed himself.

“Hee hee ...” Ji Jijiao laughed, his fist waved, and a glowing glow bloomed, as if instantly transformed into a sun.

Just listening to the loud noise, it was like the sky and the earth collapsed, the sun exploded, and infinite amounts of light radiated. It shattered the energy and defense of the ten masters on the spot, and flew hard.

“Damn, so strong, she’s not human.”

Suddenly, the ten forced retreats looked terribly, staring suspiciously at themselves, and finally found that the other was not human.

There is a half-step star-like alien family strong, the antennae of the two antennas above his head are constantly trembling, and then as if something was found, his face changed greatly.

“She’s a brain?” The creature looked horrified, stepping back instinctively.

The other half-step star powerhouses backed up, a fear from instinct that made these powerhouses startled.

Just a guess that scared these alien powerhouses was incredible.

“Well, is this your ability to threaten to annihilate the human race?” He sneered for a moment, with a look of contempt flashing on his face.

These people actually scared themselves, as if they were very afraid of her identity. They just threatened to destroy the human race, and the foundation of the human race was exterminated.

“Asshole, how did the Zhixing clan get together with the human race?” A strong man was furious.

But a half-step Hengxing star frowned, saying: “She is similar to Zhixing’s intellectual brains, but definitely not, don’t worry about her.”

“Yes, she is not from the brains of Zhixing. Go up, take her down and go back to research. Maybe you can find a way to kill the brains of Zhixing.”

With a loud shout, a group of terrified foreigners who had been scared immediately cheered up, and seemed to think of something. They had to go back to research and research, and find out the brains to deal with the Zhixing clan.

The Zhixing tribe, among the hundreds of starry sky, does not have allies, nor does it need allies, because the Zhixing tribe and the large army are endless and endless. As long as there is energy and material, an endless army can be produced.

This is the horror of the Zhixing family, and the most terrible is the technological weapons of the Zhixing family, which are endless and powerful.

The entire Zhixing family is in the hands of that group of intelligent brains. No one of them can surpass and completely obey the intelligent brains. This is the terrible wisdom family.

“kill!”

Thirty and a half step star powerhouses are all killed together. It is a good idea to suppress Xunji and take it back for research. But is Xunji so good at catching it?

Not to mention the current self-confidence, the former self-confidence is not what they can shake, not to mention that the self-confidence coming out of the core of the sun has now fully grasped the mystery of the sun.

In other words, the self-denial at this moment has completely raised the artificial solar core in the body to a level close to 99% of the sun.

Although an artificial sun contains less than one tenth of a tenth of the energy of a real sun, it cannot support an enormous number of artificial suns.

boom!

A terrifying light broke out in his body, sweeping away like a solar storm, shocking and terrifying.

There were 300,000 artificial suns erupting in her body, and the terrifying energy contained in them made the thirty and a half-step star-strength foreign powerhouses horrified.

“Do not...”

One of the light men was frightened, and his strength broke out, turning into a barrier. Unfortunately, he was torn apart by his own fist on the spot, and then blasted into the air.

With a single punch, his strength has grown to this point. She is a transcendental creature with no realm restrictions, just like a bg in the universe. As long as the energy is sufficient, as long as it can produce a strong enough body and energy core, it can burst into unparalleled strength.

If she had simulated the energy produced by the Big Bang, then she would be a mobile supercosmic explosion energy combination, which would be frightening everywhere.

This is why the stars of the Hundreds of Stars are afraid of the intelligent brains of the intelligent stars, because each intelligent brain of the intelligent stars is like carrying the energy released by the universe after one or more explosions, who is not scared?

Bang Bang!

Yiji waved his fists and broke the space. He hit the first thirty and a half step stars in Mars directly into Mars, into space, and even into the void.

Looking at the fierceness of his self, the foreign army was frightening, and even more frightening is that his self is likely to be a growing brain.

“Damn, she may be a growing brain, and can’t let her grow up.”

“Let’s go together, destroy her, or suppress her and take it home.”

For a while, the remaining dozens of half-step star powerhouses couldn’t bear it, because the growth of her own self was too horrible, and because of her identity and intellectual brain, most people in the starry sky were afraid.

Because the growth of the intellectual brain can hardly be measured by reason, it is the existence of super bg in the universe, which seems very unreasonable.

“kill!”

Dozens of half-step star-strength stars gave up the intention of killing the human army, and turned directly to the void in Mars’ outer space, rushed in, and strangled themselves.

They fear that Jiji has the same terrible existence as the intelligent minds of the Zhixing clan, which is even more terrifying and scary, especially when Jiji mingles with the human race.

“Xun Ji ...” Chen Xi, who was fighting hard, looked dignified on the battlefield, but she didn’t worry because she knew her strength.

What others didn’t know, I saw it now. It turned out that the beautiful and charming self-confidant who had been following the leader had such a mighty strength.

Let some young talents who had a crush on their self-love crushed their hearts. Can such powerful people manage them?

Perhaps, only that leader can control such a terrible woman, and his own mighty power is truly shown to countless people for the first time.

“Is artificial intelligence so powerful?”

Wu Yun and others looked awkward, because they knew their true identity was the artificial intelligence created by Qin Tiange.

Originally, I was powerful enough to control all the networks and communications of Huaxia, even the huge artificial gods army, even military factories, various satellites and other high-tech weapons, all under the control of my system.

Coupled with the personal terminal system, these are all systems that have been created by myself, which means that she is a supreme creator.

Now, seeing Jiji's own strength is so violent and terrible, she scared the powerful men of foreign races and united to destroy her.

“What are you doing, quickly kill the strong foreigners.”

Suddenly there was a sound of anger and corruption in the void. Everyone raised their heads and looked at them, and saw that the unscrupulous priest rushed down with some embarrassment.

Behind him, the war corpse was carrying a huge corpse, constantly gnawing, croaking and crunching, eating very fragrant, but it could not help but chill.

“kill!”

Wu Yun, Shi Cang, and other powerful men with bitter smiles, yelled at each other, each broke out the strongest hole cards, and began \*\*\*\* killings.

Boom boom ...

At this moment, over a battle city in the distance, pyramids roared, and horrible beams of energy whistled.

Then, there were dozens of strong horizontal figures flying out of it, headed by Rashem Atum, followed by the Egyptian gods.

Atumu's strength was overwhelming, so he singled out a half-step star-strength star of the Taurus family, stopping him from blocking Mars space.

On the other side, the three gods of Europe came together to lead the Alliance of Humans and Gods to resist the impact of the alien army, relying on the electromagnetic energy shield of the battle city to resist the foreign attack.

“It's our turn!”

At this time, the three \*\*\*\* kings, Zeus, Arthur, and Odin, stepped directly into the circle of protection, looked at each other, and the three went straight to outer space, each of them experiencing a divine power beyond their own power. .

It was an ancient divine power, no one knew where it came from, but it truly showed a horrible divine power.

“kill!”

The three \*\*\*\*\* kings drank violently, each shot and stopped a half-step Hengxing star powerhouse, and launched a fierce fight on the starry sky.

Watching the three \*\*\*\*\* kings explode, the gods of the three gods system are exhilarating, and each of them has an inexplicable surge of power, as if the three \*\*\*\*\* kings have gained some mysterious increase.

The ancient divine power surged. For a time, the gods and human alliances of the three theological systems in Europe even killed foreign races.

“Those who commit me against Huaxia, though they will be strong!”

“Huaxia Dangxing!”

Suddenly, there was a loud roar from the battlefield, and suddenly there were a large number of large army groups in the four battle cities of Huaxia.

These legions, all looking red, were as agitated as if they had eaten chicken blood, and they rushed out without fear.

It was the Chinese powerhouses who came to support Mars’ front lines. They gathered autonomously and directly stepped onto the quantum teleportation to Mars, and they wanted to participate in the battle.

Not only the Huaxia people, but also the major humans in Asia who have been conquered, have also come to participate in this Martian war.

Roar!

“Swallow up aliens!”

I saw a terrible army of zombies coming, headed by Dayuer, the jade corpse leading countless corpses.

Not far away, a group of powerful mutant creatures roared. Under the leadership of powerful creatures such as Phoenix, Suzaku, and colorful parrots, densely packed mutant creatures joined the battle circle.

Huaxia has begun to embrace all ethnic groups, regardless of zombies or mutated creatures, it has gradually merged into a larger overall group.

“Raise the Chinese flag!”

With a roar spreading across the battlefield, a huge battle flag was erected, and the bright red five-star red flag was waving in the wind, exuding a trace of wicked killing gas.

The five-star red flag represents the fighting spirit of the Chinese people. The cohesion is on it.

“People are here!”

“Battle! Battle! Battle!”

A neat army stepped out, waving a sword, roaring and shaking the world, and the whole battlefield shook. Huaxia seemed to be participating in the war, and an unparalleled momentum broke out.

Soaring warfare, with a five-star red flag flying above the battlefield, everyone, without exception, was enthusiastically enthusiastic, and for the first time, a determination was made to guard this red flag.

People are in the flag, Huaxia Dangxing!

Chapter 678 - Forge an immortal soul and consolidate immortal warfare

A loud rumbling came, and several huge legions emerged, densely packed, and passed by the same huge new battle flag. The aliens were defeated again and again.

Huh!

As soon as a gurgling voice came, I saw the battle flag shot down in the air, and a click, a few powerful alien creatures collapsed on the spot, the flesh was absorbed by the bright red battle flag, and the evil spirit became richer.

The five-star red flag fluttered, the stars flickered, and the slightest bit of anger was revealed, as if the stars were condensed on it, with the power of horrific killing, bringing together the immortality of China.

“Those who commit Chinese crimes, if they are strong, they will die!”

“Blood stained battle flags, cast my Huaxia immortal soul!”

A roar came, the burly general, holding a battle flag, wherever he passed, there must be a strong foreign race falling, flesh and blood rendered on top of the battle flag.

After the battle flag, countless armies rushed out. Everywhere the battle flag passed, foreign nations were drowned by the fervent Chinese army, crushed and crushed, without exception.

“Damn, they’re trying to forge a flag of invincibility.”

“Block this tribe, break the flag and destroy their warfare.”

Behind the alien army, a horrible atmosphere came, and powerful alien creatures saw it. Huaxia was to use the flesh and soul of the alien invaders to create an invincible flag.

The so-called immortal war flag is a collection of the immortal souls of the tribe, bringing together the immortal war will of the tribe, and turning it into a flag of war.

Once the casting is successful, it will bring endless benefits to the entire Huaxia as a whole, and the emergence of the indomitable battle flag will inevitably give the entire Huaxia ethnic morale, warfare, and strength a very high increase.

As long as the battle flag is not extinguished, the entire group’s immortal soul is there, the war will never cease, and the expedition will continue, as if it were a human battle flag.

“Kill! Kill! Kill!”

A roar of anger, containing the immortal warfare that belongs to the Huaxia nation, the ancient will is gradually awakening, the national honor is gradually becoming clear, condensed in the hearts of every Huaxia people, deep into the soul, into the bone marrow, will never wear away.

In this battle, Huaxia is to complete the casting of the immortal souls of its own family, thoroughly sharpen an immortal warfare, and complete a complete revival.

boom!

A surging force swept through, and the target pointed directly at the flying red battle flag, the Huaxia battle flag, which represented the entire Huaxia.

It was just about to be cast and sharpened, but suffered a fierce blow from foreigners. No one wants to see Huaxia cast its own immortal battle flag, which will have unpredictable and terrible consequences.

“Destroy that battle flag!”

The roar was terrifying, and several strong horizontal figures flew into the air, gathered their respective limits, and waved the treasure to slam the flag of the battle.

This is to destroy the Huaxia Battle Banner, to break the newly condensed Huaxia national spirit, and to defeat the immortal warfare that is about to sharpen the condensate.

Huh!

The flag of battle raged, and an unyielding warfare came out, rumbling sweeping in all directions, shocked countless strong foreigners, and came over in shock.

I saw the Chinese war flag rising from the air, flying high up on my own, hunting and moving, just standing there.

“People are here!”

“Huaxia Dangxing!”

At this moment, there were several strong horizontal figures in the Huaxia army, and they rushed up to defend the \*\*\*\* battle flag just created.

Everyone’s eyes were scorching hot, looking at the battle flag, waving weapons and slashing wildly. Regardless, at this moment, they just wanted to defend the battle flag.

“Roar ... Huaxia Erlang, kill!”

“For national rejuvenation, kill all enemies!”

Someone roared and waved the soldiers to sever their opponents. The bodies of the two foreign strongmen in front of them cracked and died.

“Kill!” This man was so mad that he was besieged by dozens of foreign powerhouses. After killing several foreign powerhouses, he was defeated and died. He fell there, and he held a foreign powerhouse before death His neck was twisted, and his body was finally broken, leaving only a broken sword in the ground.

And his hands were still hanging around the neck of the dead foreigner, and he was holding each other by death. This is the immortal warfare of Huaxia condensing and awakening.

“Huaxia is immortal!”

“kill!”

Groups of Chinese armies waved their soldiers and fought madly. Regardless, they defended around the red Chinese flags and blocked the impact of this foreign army and experts.

They knew that the flag of war could not fall, and they had to be crushed all the way. Only by using the flesh and blood of countless foreigners to cast it, could they cast an immortal flag of war.

This requires everyone to work together. The pride that belongs to Huaxia is gradually taking shape. The desolate and ancient warfare awakens from the bloodline and emerges from the soul.

Uh ...

The battle flags are absorbing the flesh and blood belonging to foreign nations on the battlefield, and even condensing the pre-death will of the Huaxia people after the war, a trace of entanglement, gradually converging into a force of will.

That's warfare!

Above the battle flag, there are the ethnic spirits of the Huaxia tribe, the immortal souls, and the eternal warfare. It is the immortal warfare. The Huaxia war flag does not fall, and the expedition continues.

Suddenly, low and melodious shouts sounded above the battlefield, becoming more and more prosperous, and finally turned into a roar echoing over the battlefield.

“Yu Huaxia, cast my soul, blood does not shed, and vows never end!”

“Yu Huaxia, cast my soul, blood does not shed, and vows never end!”

A roar stunned the battlefield, the waves billowed, straight into the sky, pierced the atmosphere of Mars, stirred the parties, and shocked countless foreign powerhouses.

They saw that the army in Huaxia suddenly became different, and with a roar, it suddenly broke out several times the fighting power, which directly killed the foreign army.

Even if some of the Chinese powerhouses went crazy, they kept rushing up and besieging the foreign powerhouses who dared to impact the battle flag area.

Many foreign nations were killed, the first emperor level fell, and the first ancestor level was terrified and wailed. All foreign powerhouses who attacked the area where the battle flag was located were, without exception, imprisoned by many forces and besieged by Chinese masters. .

Crazy strangulation is being staged. All the foreign powerhouses who rushed to destroy the Huaxia Battle Banner were beheaded and killed, and flesh and blood and soul were sucked into the Battle Banner.

Huh!

The battle flags were chattering, sending out a cloud of blood, sending out the sky of war, and igniting the blood of the Chinese people on the entire battlefield, violent and turbulent.

“Being a Huaxia person, be a Huaxia soul!”

Suddenly a roar spread across the battlefield, and I saw a Huaxia warrior with a broken body and a head pierced by a strong foreigner, but an extremely terrifying roar was issued.

Before he died, he dragged the foreign strongman alive, let his companions beheaded, and eventually lost his breath.

At the moment after his death, a hazy blood glow came from the banner of battle, accompanied by a powerful vitality flowing from the river of life.

“Roar ... Huaxia is immortal!”

The man who had died actually jumped up and snarled, exclaiming the excitement in his heart, surging.

What was it like when he died but came back to life? The dead soldier was resurrected in an instant. This method was unheard of, and it stimulated all Chinese people and even countless souls in the entire battlefield.

“Being a Huaxia person, be a Huaxia soul!”

“kill!”

Suddenly, a terror broke out in the entire battlefield, and the roar sounded the whole Mars, and all the Chinese were boiling.

They suddenly found out that the huge red flag on top of their heads had a mysterious ability, that is, as long as someone's warfare could reach the national warfare that touched the inside of the battle flag, they could immediately attract the inside of the battle flag. Strength bonus and even protection.

After the battle died, under the reversal of the immortal warfare of the battle flag, Shengsheng reversed the dead soul, and then was completely resurrected by the river of life on the evening.

Means against the sky, shock all races!

“Reversing life and death, this flag cannot stay!”

“At any cost, destroy it!”

At this moment, the big aliens are finally unable to sit still, watching the Huaxia Battle Banner has such a terrifying effect, reversing life and death, this is an anti-Sky means.

They are absolutely reluctant to see that the Huaxia nation has become an indestructible and invincible army. In that case, it will be the biggest nightmare of the stars and the universe.

Think about it. In the last human race, only the emperor's immortal guard is considered immortal. Once the Huaxia tribe completes this kind of immortal soul cohesion, a ray of remnants of each Huaxia tribe will merge into it. Gathered on the battle flag.

Even with the emergence of an immortal warfare, in the future, as long as the battle flag is not extinguished, the entire Huaxia tribe will be truly immortal. After the war, they can still be resurrected against the sky through these two methods.

An army that can be resurrected, what a horror it is, absolutely disturbing the Starry Hundreds of people to sleep and eat, even to destroy this tribe at any cost.

“Kill, erase the Huaxia people!”

“The Huaxia people cannot stay!”

All of a sudden, horrific figures came out of the sky, the first emperor, the first ancestor, and even the great ancestor, and even half-step star-rated strong rushed to kill the Huaxia tribe.

They saw a scene that scared all ethnic groups. The Huaxia ethnic group was casting a horrific flag of war, which was a truly immortal flag of war.

As long as the flag of the battle does not fall, then the expedition will continue, the clan's soul will not die, and the clan will not die. This ability is too bad to be allowed to exist.

“Defend the banner!”

“Huaxia is immortal!”

Seeing this, the major powers of the Huaxia tribe roared and vacated one another to block the foreign powerhouses, not to destroy them.

This is the ethnic spirit of Huaxia. It is the focal point of the entire Chinese warfare. When the flag of the war falls, it means that the spirit is broken, and even the future will plummet.

Bang!

The fierce battle begins, and strong horizontal figures fight each other, blood stains the sky, and the atmosphere of Mars is shattered by these crazy masters.

At the time of the great slaughter here, there were several arrogant figures coming out of the Wormhole of Time and Space, and the real main force of all races arrived.

Their breath was overwhelming, making the entire battlefield difficult to breathe, as if a terrifying star was pressed on them.

“Want to cast the immortal banner, Huaxia is crazy!”

“Destroy it!”

At this moment There were several strong horizontal figures coming out of the wormhole. The breath was strong and terrible. When I saw the flying Chinese flag, I was so angry.

These four strong men are all powerful creatures with stellar stars. The senior members of the main force from the alien family have finally arrived.

One of them had a dark skin, his mouth full of fangs, and he sang, “This family must be destroyed, and they are too angry, they must cast the immortal soul, create an immortal banner, and they must break their will.”

“On, erase the Huaxia people!”

Four powerful star-studded stars were highly skilled, and when they raised their hands, Xeon struck it down, causing the battlefield to collapse in an instant, and powerful powerful earthquakes injured countless people, and even someone was crushed on the spot.

Terrible forces swept the battlefield, and no one could fight. Seeing that the four star-strength powerful men were about to destroy the Chinese battle flag, countless people roared.

“Bold!”

As soon as the shock came, there was a surge of swordsmanship erupting on the battlefield, accompanied by a dark sword-mang soaring into the sky, and the destruction was unstoppable.

Chapter 679 - Stewed scorpions, roasted whole cows, and royalty came

Alas ,!

A dark sword-mantle pierced the void, with the meaning of destruction, smashed the combined impact of the four powerhouses and blocked the four star powerhouses.

“Destroy the sword, who is it?”

A golden bull traversed the void, stepping there, covering his body with golden eyes, staring at the front in gold, where there was a sword-like sword.

Just a sword, they actually chopped down their four alien star star powerhouses, and have to say that they shocked the hearts of the four powerhouses.

“Huh, who I said it was, it was the aftermath of the Era Human Race.” A huge scorpion on one side looked down at this side, looking at a black figure rising from the sky, and it was the sword demon.

He was surrounded by a sword, and the space was cut apart, and small black cracks appeared, which were cut apart by Jian Yi.

“Just a little star, just let go of it?”

I saw an indifferent voice coming. Someone soared into the sky and came to the side of the sword demon.

He is Li Zijun, known as a human demon, and he is a madman when fighting. He can’t be buried if he kills him, which makes many foreigners hate him.

“A lingering Remnant of the Era, what qualifications do you have to say this seat?” The starred scorpion sneered and scorned.

The monster Li Zi showed a mouthful of white teeth and sneered: “I have eaten a lot of the Devil Scorpion, and it is more delicious to stew. Although you are still a star and tender, it is barely eaten.”

“That Taurus is mine. I haven’t eaten grilled steak for a long time.”

At this moment, a snoring voice came, and saw a burly figure coming across the void, pedaling high-altitude clouds, swinging with double hammers, and bringing the sound of wind and thunder.

He was a giant spirit, licked his tongue, stared brightly at the star-struck Taurus powerhouse opposite him, staring fiercely, eyes closed.

“Juling, don’t patronize eating, you need to leave the finished Taurus carcass to make roast whole cows.”

A blade of thought swept across the sky, and saw a person stepping out of a crack in the space, with a horrible sword spreading all over his body, cutting the sky.

He is the soul of the sword, Fu Hongxue. With a sword, he can even chop the stars and split the universe. This powerful will move the four star powerhouses on the opposite side.

“The remnants of these four races cannot be underestimated.”

The green-skinned and dark-skinned creature looked dignified as a reminder. As a result, the two powerful men, Taurus and Scorpion, were furious, and were furious.

“Shit, it’s just a few of the remaining human waste. I want to eat your grandpa, see me cramp your skin.” The Taurus roared extremely fiercely.

“It’s useless to say more, kill!”

The two powerful players vacated at the same time, and the bang shattered the space. They both caught up in the space chaos and caused huge movements.

The fierce battle here has affected the battlefield, and many foreign race creatures were strangled there by the aftermath of the battle, and they could not be stopped at all.

Click!

I saw a black sword coming out of the air, sweeping the battlefield, and smashing a large number of alien creatures on the spot into fan powder.

The powerful sword meaning contains the potential for destruction, which is not what these alien races can stop.

Groan!

The sword came, the space cracked and cracked, and a horrible knife gas burst out from it. Sweeping from this side, all the creatures were robbed within 10,000 meters.

“Hoo ... shit!”

There was a roar of Taurus, the huge body shattered the space, and vaguely saw that huge Taurus strong man was smashed by two sledgehammers, beating trembling, flesh and blood, extremely miserable.

On the other side, the demon scorpion was even more miserable. His feet were torn by Li Zijun’s hands, and then he dug out one eyeball of the other and crushed it.

“Well ... I killed you.” The scorpion growled, roaring impatiently, with a mop of blood in one eyeball, and the whole thing looked miserable.

His crazy outburst, the power of his blood, the power of the extreme condensed, a pair of pliers blasted forward, and the space broke apart.

“Broken!” Li Zijun shouted, pulling his hands, a horrible battle broke out, sweeping the front and breaking the power.

Suddenly, the other man was united with Zhan Ge and turned into a god-like piercing hole, pierced through the position of the chest of the scorpion, and made a huge hole.

“Ah ...” The scorpion screamed, repeatedly defeated, and smashed into pieces of chaos.

There, skyward swords swept across the sky, shattered the space, chopped on top of a creature with a blue-faced fangs, tore him through his defense, and cut a huge wound.

“kill!”

The four human race sages drove their opponents so that they could do nothing to fight them. Finally, the four star powerhouses realized that they had run into stubble.

Moreover, the four human race sages are still extremely powerful. Although they have paid a lot of money because of the forced return and their strength has fallen back, there is no doubt that they are strong.

“Roasted whole cow, I’m here!”

The giant spirit sneered, wielded a double hammer and slammed forward, approaching the Taurus strongman, killing him here, and roasting the whole cow.

“Miscellaneous!” The Taurus was irritated and madly killed, but was beaten hard by the giant spirit’s two big hammers, and his horns were cracked.

哐 When a hammer went down, the Taurus mourned, half of the golden horns broke and flew out, penetrated through, and pierced the brain of a great alien-level powerful creature, killing him instantly.

Bang!

A fierce battle is still underway. The \*\*\*\* battle in the space mezzanine has impressed the battlefield. Many foreign races fled in horror, but were beheaded by unscrupulous human races.

On the human side, it doesn’t matter whether the aftermath of the battle will kill them or not, because a Chinese flag on the top of the head sprays the dim blood, guarding them, blocking the aftermath of the battle of the strong.

boom!

Suddenly, a shock came, and saw Taurus wailing, his head was cracked, blood and water spurted, and a little golden was sprinkled.

The Taurus was beaten miserably, his whole body trembled, and he was severely hit by two huge golden hammers. He almost passed out.

“Hmm ... I ate you.” The Taurus in anger went crazy.

It screamed loudly, and its golden light was diffused, and the golden scales appeared one after another, covering the whole body, exuding a terrible breath.

“The planet is armed!” With a scream, as the golden light emerged, it gathered into a phantom of a huge star, and combined it into a set of golden armor.

It was the Taurus Battlegear, armed with stars, containing ancient powerful forces, super powerful, and terrifying defense.

As the Taurus wore the golden star armor, the giant spirit was surprised to find that his double hammer could not break the opponent's golden armor.

As if hitting a star, he couldn't smash a planet at all, which surprised him, but that's all.

"I thought I couldn't kill you with this set of tortoise shells?" Ju Ling sneered, and said to the proud Taurus: "Have you ever heard of a sentence called, Fighting cattle across the mountain?"

"Fighting bulls across the mountain?" The Taurus stunned, and when he reacted, he shouted angrily, wasn't he humiliating it?

The giant spirit knocked with a double hammer, and a rumbling sound, the void trembled, and the body exuded a horrible breath, and the body gradually expanded.

"Ah ... hit the bull across the mountains!"

Just listening to the giant spirit roaring loudly in the sky, the momentum scared the Taurus, and watched the opponent's double hammers slamming up. The rumbling sound, the golden armor trembled, but it was not broken.

Seeing this, Taurus laughed, and he laughed sarcastically, "Why, you have no energy, and you can't even break my gold armor?"

"Smile, you continue to laugh and show me." The giant spirit showed a strange smirk, with a touch of irony in his eyes.

The Taurus was very angry and was about to speak, but suddenly felt an inexplicable force burst into the body, destroying it everywhere.

"No ... what's going on?" Taurus screamed in horror, his body receding quickly, but he felt the body cracked from the inside, and then the internal organs were smashed into pieces by the mysterious force.

It opened his mouth to spit blood, spit it out with mixed viscera fragments, and looked horrible. His strong golden armor was not broken. He was born and broke the internal organs and suffered severe damage.

"This is bullfighting across the mountains, have you taught it?"

The giant spirit stepped on, with a smirk on his face, and said, "I killed a few Taurus powerhouses at the time, and I swallowed a few of them at the black hole level. Your little Hengxing star dared to come to me Dangling and tired. "

"No ... you can't ..." Taurus screamed in horror, only to be hit by a giant spirit on the body's gold armor, and a crack came from his head.

With a click, the star-strength star power of the Taurus was stiff, and the true spirit in his eyebrows suddenly collapsed and was broken by a hammer.

As soon as the true spirit died, the Taurus completely lost their vitality, leaving only a complete corpse in the turbulent space, and the giant spirit lifted it out of the space crack.

Groan!

There was a screaming sword over there, and then with the sword in the air, a sword and a sword penetrated through the void almost at the same time, killing two powerful aliens.

The sword demon dagger and sword soul Fu Hongxue both came out. The two of them had one sword at a time, and they were powerful and almost did nothing. They just killed the opponent with a sword and sword intended to the extreme.

“Juling, you are faster than us this time.” The sword demon lonely smiled.

Fu Hongxue nodded indifferently, not speaking, but looking to the other side, where a scorpion fled in horror.

“What to run, I haven’t figured out what to use to stew your energy.”

In the back, Li Zijun chased out with a smirk, grabbed the scorpion’s tail hook with one hand, and threw it fiercely, holding Zhan Ge in his right hand, and piercing the opponent’s heart.

“Ah ... Prince, save me ...” The scorpion screamed before his death, his huge body straddling between the space mezzanine and the Martian battlefield Its body was penetrated by a battle Nailed on top of the void, blood and water flowed and scattered on the battlefield, and the countless foreign creatures looked pale and terrified.

“The four royal guards are dead?”

After seeing the killing of four star-rated powerful men, the main force of foreign troops on the battlefield was frightened, morale was hit, and they were defeated by the major human forces on Earth.

Seeing that he was about to be killed and collapsed, but at this moment, a terrible wave came from the wormhole in spacetime.

“Human, you are so good!”

A cold and indifferent word came from the wormhole, and a young and powerful figure came out slowly, soaring into the sky, covering the entire Mars.

One after another, strong figures appeared, all of them exuding horror, all star powerhouses, a young powerhouse headed by the most terrible.

This young man, who is the royal prince of one of the hundreds of stars in the sky, has finally arrived.

Chapter 680 - Starry Royal Family

Alas ,!

“Tianjing Royal?”

The sword demon said lightly, saying that the identity of the person who came was a prince, a prince belonging to the Tianjing royal family.

He is very young and a minor prince. His strength has surpassed ordinary star stars, and he is definitely a proud generation.

The prince of the crystal family glanced over that day and hummed, "The last generation of the human race is innocent, and they ran into the ancestral ground to hide and think it was all right?"

He had a slight disdain on his face, and there was an air of heavenly crystals all over his body. The whole body was bright, like an armor made by a super heavenly crystal, extremely colorful.

"Is the royal family amazing?" Li Zijun, a smirk, sneered, gently crushed the head of the dead Scorpion corpse, and took out a star from it, which was a real planet.

He pinched the planet and sneered: "In the past, I beheaded many royal princes on the barren star, and even some royal arrogance were killed by me. What do you think?"

"Arrogant, then you come to stew the old man?"

At this moment, an old figure emerged quietly, standing next to the Emperor Tianjing, staring at Li Zijun with a hint of vicissitudes.

His appearance attracted the attention of Sword Demon and others, staring at him with a hint of surprise.

"I seem to have seen old things from the Tianjing tribe in the previous period. I heard that he was not suppressed?" The giant spirit said in a snoring voice, scratching his head a bit surprised.

The sword demon glanced and stopped paying attention, standing quietly, guarding the Huaxia battle flag behind. The blood-colored battle flag that had just been cast belonged to the Huaxia people.

This battle flag is an immortal battle flag that Qin Tiange casts for his own family based on the sample of the human race battle flag. He intends to build an immortal Chinese army.

Even his heart is bigger than this, and he wants to make the Huaxia nation an immortal and powerful race.

Fu Hongxue glanced at each other, disdaining: "It's just an old thing that was beaten to cry and cry, and I heard that he was chased down by several warlords of my clan in the past, and he kneeled for mercy several times . "

"presumptuous!"

The old Tianjing tribe was very angry, his face was flushed, and he wanted to refute, but the result was really nothing to say, because it was a fact. He was indeed hunted down by several warriors of the Terrans, even several times. I beg for mercy.

How to escape in the end is unknown, anyway, his ability to live to this day is his ability.

“The benefit of the tongue is that the human race has nothing to do. It has been beaten by our hundred people in the previous period and was almost destroyed, and it can only be reduced to the hunting target of my starry hundred people.”

The Emperor Tianjing waved his hand lightly, with a strong sense of contempt. He didn't care about it at all, and seemed to despise the sword demon dugu and others.

“Prince, these human races will be handed over to the old man to see the old man kill them.”

The old Tianjing tribe stood up and went directly to the battle, washing his heart's shame, and killing all those who knew the scandal of the year.

“Well, go, solve them.” The prince of the Tianjing clan nodded indifferently.

Seeing that the old man flew out with a smirk, his body was thick, and the space was cracked, and they were staggered.

“Let you laugh, let's die!” The old man roared loudly and spit out a bead.

This bead is crystal clear and exudes the momentum of the weather, like a real planet, which actually rises in the wind, turning into a huge star to suppress it severely.

It was one of his celestial stars, turned into a big star to suppress it, and with an unstoppable momentum, it was tumbling.

“Hum, little Dole!”

Fu Hongxue snorted, raised his hand and swiped lightly, with a click, the space broke apart, the big star in front of it suddenly shook, and then was cut by a horrible knife.

With a slap, the old man from the Celestial family vomited blood and looked pale, horrified to see that the big star he had spit out was cut in half.

“Blade breaks through time and space, are you space and time?” The old man was terrified, then shook his head and shouted, “It is impossible, space and time cannot appear in such a lower dimension, you are not space and time.”

“Ignorance!” Fu Hongxue smiled coldly, raised her hands and fingers together, a horrible sword condensed, and turned into a terrible scalpel.

The blaze came, and the old man of Tianjing clan was furious and wanted to fight back, but he was horrified to find that he couldn't move anymore, and his face turned pale instantly.

Huh!

The moment he thought he was going to die, a light came over, and a snoring sound blocked the terrible knife air.

It was the prince of the Tianjing clan who was unhappy, and reached out to take back the treasure, without seeing it.

“Save you, you can’t even kill the rest of your personal clan. What do you want?”  
The prince of the Tianjing clan was extremely upset.

Seeing that the old man of Tianjing was almost killed by the other party, if he had not used his precious treasure to protect him, he might have been killed before.

“The prince forgive me.” The old man walked back in fear, standing next to the prince Tianjing, and dared not to say a word.

The prince snorted and looked dissatisfied, so he raised his eyes and looked at the opposite Fu Hongxue, his brow gasping slightly.

His tone was extremely bland, saying: “I did not expect that there is a master hidden like you here. It seems that you have broken through the space-time level at the level of will, but it is a pity that this restricts your development. If you do n’t care about this ancestral land, then When it comes to the starry sky, there must be a character, so why stay here and die? “

“Shit!” The next giant spirit scorned: “A prince with a miscellaneous brand thinks that he is invincible. I think you are a thing that can’t be on the table in the Tianjing clan. You are advised to return as soon as possible, otherwise, wait for me. The return of the emperor, and all the royal families, will be extinct. “

“The arrogant thing!” The prince of the crystal clan was very angry that day, and his palms were soaring, the light was soaring into the sky, and the terrible breath was exposed, attracting the attention of the sword demon and others.

They stared at the treasure in the palm of each other’s palms. Li Zijun was stunned: “This breath seems to be a half-step treasure of time and space. This mischievous prince has such a treasure. It seems that he has given the Tianjing tribe’s contemporary tribe old Less good stuff. “

“I see, even his mother sent it out. It is estimated that for the position of the Emperor Tianjing, it is a pity that the miscellaneous cards are miscellaneous cards, and they can’t get on the table.” The giant spirit shook his head in a snoring voice.

This remark could irritate the prince Tianjing, his body trembling, his face blue, and he almost vomited blood.

“Okay, good, you guys all die.” The Tianjing prince couldn’t help it, and raised his hand to suppress it.

The mighty power and the void were all depressed, and a touch of treasure light appeared in the palm of the hand, penetrating through the barriers of time and space, and directly suppressing the top of the sword devil and others.

At this moment, a violent weather emerged over the battlefield, making it difficult for countless creatures to breathe on the entire battlefield, causing great confusion.

Click!

When the sword devil and others shook the true spirit and wanted to break this repressive force, the void burst open suddenly, and then came an ancient and powerful breath.

There was a sigh, and a black shadow penetrated through the air, hitting the treasure light, shattered on the spot, and flew back instantly.

“The emperor’s seal?” The prince of the Tianjing clan looked in wonder, staring at the bright seal on the side, which was the emperor’s seal.

I saw a figure coming out of the space, reaching for a move, and the imperial seal quickly flew, floating quietly above his palm.

“leader!”

“It’s the leader!”

At the moment of seeing people, cheers erupted throughout the battlefield. Countless Chinese people were boiling endlessly, all of them looked excited and their morale skyrocketed.

The person who came was Qin Tiange. He stepped out of the space and put the Emperor’s Seal in his hands. He looked at the Emperor Tianjing of the opposite side calmly.

He did not speak, but glanced at the entire battlefield, watching the scenes of the major Chinese legions struggling to fight, smiling with a bow, smiling.

“Very well, this is the good son of my Chinese nation. We did not embarrass our ancestors.” This word spread throughout the battlefield.

Countless people of the Huaxia ethnic group have heard it. The recognition of the leaders is equivalent to their greatest reward. For a moment, the momentum is soaring, and a surge of warfare ignites and converges on the Chinese flag of the battlefield on the battlefield, causing the flag of war. Endlessly.

Huh!

The flags of the Chinese war are utterly endlessly shining, revealing an unyielding war will, and gradually burning up, covering the battle flag.

Qin Tiange looked at the battle flag moving with a smile and said, “The immortal battle flag has been initially completed, and it will be countless expeditions in the future. It will be irrigated with the blood of the stars and hundreds to complete the evolution of true immortality. Battle flag. “

“You are one of the Emperor candidates?” The prince of the crystal clan looked at Qin Tiange that day and suddenly sneered: “You are so arrogant. From ancient times to now, no race has ever been able to create an immortal war flag. That is the universe and many Things that are not allowed in time and space. “

“The prince of the royal family is a miscellaneous brand. What qualifications do you have to comment on my tribe?” Qin Tiange said indifferently.

He glanced at each other and hummed, “What about the starry royal family, as long as you dare to come here, I can’t kill it!”

“furious!”

“Watch me kill you!”

The prince of the Tianjing clan was angry, and the palms of his hands were inexhaustible. Endless treasures appeared, and a hint of super-horror was revealed, as if he could penetrate time and space.

It was a half-step spatio-temporal treasure that caught Qin Tiange’s attention and was surprised:

“There is a half-step spatio-temporal treasure Yes, send me your baby. Thank you very much. what.”

“kill!”

The prince of the Tianjing tribe drank coldly and killed him directly. He waved a wave of baoguang bombardment and suppression, and the vast meaning was as if it collapsed in time and space. He wanted to kill Qin Tiange.

The treasure contains inexplicable power, like a treasure of time and space, but it is not, it is only infinitely close, which is equivalent to a half-step space-time level.

“Your food has come and swallowed it.” Qin Tiange said lightly, throwing out the imperial seal of the man, and a dim shadow appeared, and the spirit of the instrument appeared, holding the imperial seal of the man and directly bombing it up.

The Emperor Seal of the Emperor appears, this is to steal the opponent’s half-step time and space treasure, repairing his own damage, and may be able to restore many of the power of the past.

“You come out too!”

I saw Qin Tiange waving his hand. Suddenly there came a burst of maggots on the earth. Countless people saw in horror that huge stone monuments stood up and quickly passed through the air.

That’s a legacy stele!
