

Dark Ages 891

Chapter 891 - Killing heart, leading to the enemy

boom!

As soon as it arrived, there was a wave of killings, as if thousands of horses were rolling.

In the face of such fierce killings, Qin Tiange has nothing to do with the ancients, without a touch of movement, as if it was commonplace.

Just wanting to affect his mind, even wanting to crush his will?

Don't be kidding, are there few people Qin Tiange killed himself? The spirits of the past slaughter are not a few, and they even kill the army of various ethnic groups.

Here is buried an extremely powerful human emperor. It is rumored that the human emperor's emperor has killed the emperor. The only human emperor who killed the strongest emperor almost killed ten thousand people.

"By killing the emperor, the emperor is afraid of all people ..." Qin Tiange said to himself, looking at a hall in front of him.

It is engraved with an ancient word, kill!

The bright red font reveals the horrific killing, as if it is going to kill nine days and slaughter all the people, the killing intention is really cold.

No wonder that in the past, all peoples were killed by the emperor, and they almost collapsed. In the end, the emperor was destroyed at all costs.

Even better than this emperor is too terrible, causing all the clans to obliterate all information about this emperor, and even the name has become taboo.

According to the information records of inherited knowledge obtained by the prophet, with the sporadic information of this emperor, the killing was the most prosperous.

What the emperor was like at his heyday was that he could scare all nations with just one word.

As soon as the emperor appeared, even waving the battle flag and lighting the flames of war, it would cause anxiety among the stars and the universe.

"Ziwei, do you want to get the emperor's killing heritage?" Qin Tiange stared coldly, staring at the open door.

There is a strong breath in it. It is the Ziwei Emperor, and there is a sense of horrific killing. It is the will of the Emperor to kill.

That is the heritage of killing. Once Ziwei gets this inheritance, it may become more cruel, killing and condensing, and achieving a generation of killing the emperor.

Oh! Oh! Da ...

Qin Tiange walked into the hall step by step, and the sound of footsteps kept coming, revealing a mysterious rhythm, shaking people's hearts.

In the hall, a purple figure stood with his hands in a purple mist.

He turned his back to here, motionless, and his body was condensed into the body without any wave coming.

“You were surprised to be able to catch up.”

An indifferent word came, and as Lagerstroemia slowly turned back, a ray of purple air was in her eyes.

He looked at Qin Tiange who walked in, and his expression was calm, without much surprise or surprise.

Hum!

The two stood in the hall and looked at each other. For a while, the atmosphere was permeated, and the atmosphere calmed down instantly.

The dull pressure makes the air here tremble and shatter, even with a sense of chaos in time and space.

The two emperors finally faced each other, standing in front of each other for the first time, staring at the opponent, both of whom were candidates for emperor emperor.

One is Ziweixing's highest ruler, Ziwei Emperor. One is Qin Tiange, the supreme leader of the earth's ancestors.

“You make the widow amazing, you are the enemy of this life.”

After being silent for a long time, Ziwei spoke lightly and told his true feelings. Qin Tiange threatened him too much.

This is the most serious one since he became the Emperor Ziwei. Among the people he met, he was the most vigilant one.

Think about it, he has cut off the inheritance resources of the earth's ancestral land, and he can raise a terrible opponent like Qin Tiange. I can imagine how shocked Ziwei was.

Seemingly calm on the surface, in fact, he was shocked inside, and without heritage resources, he could walk out of a terrible opponent like Qin Tiange.

If we had the heritage resources, wouldn't there be nothing without him? Ziwei was extremely alert to Qin Tiange's heart, even rising to the level of his lifelong enemy.

“I am your lifelong enemy. Unfortunately, you are not my lifelong enemy. You will not understand my enemy.” Qin Tiange said flatly.

This remark showed a strong self-confidence, as if Lagerstroemia indica was not her own enemy, let alone being a lifelong enemy.

To Qin Tiange, Lagerstroemia indica is just a competitor, a big stumbling block for him to set foot on the emperor's command.

As for the enemy? Qin Tiange thought that the existence of the shattered book was his real enemy.

The existence of the Pangu clan may be his enemy, as for Lagerstroemia indica? Just kidding, this is the enemy, so he wants to go further?

“You are crazy and arrogant. Where is your confidence in the face of the widow?” Ziwei’s face was indifferent, her eyes were faint purple light.

He said it was impossible not to be angry, because Qin Tiange’s words were conceited and even despised him.

Not to mention him as an enemy, it is tantamount to seeing him as a stumbling block, which can be kicked away at any time.

“My self-confidence comes from my strength, and you have stolen the entire family’s resources before you can reach this step. What qualifications are you proud of?”

Qin Tiange sneered, his disdain was extremely obvious, and he looked down on people like Ziwei.

It’s really disappointing that he has seized the inheritance resources of the entire human race before he has reached this point.

If this resource is not available, can Lagerstroemia indica still reach this step? Seriously, Qin Tiange sighed and had a touch of pity.

As if confirming that sentence, Cheng also defeated Xiao He, and Ziwei’s achievements originated from the inheritance resources of the entire human race.

But because of these resources, he lost the opportunity to work hard and grow up even in adversity.

It is tantamount to a rich second generation that uses the entire human resources to accumulate, but it is just a gorgeous and gorgeous flower in the greenhouse.

“You don’t deserve to be my enemy, but you must die.” Qin Tiange uttered a word, which was full of killing words.

That sense of killing even inspired the shocking killing that pervaded the hall.

boom!

Suddenly, the hall shook, and an ancient sense of killing surging surging, the mighty, flooded the hall.

The two were overwhelmed by the killing of the ocean, as if sinking into a sea of blood, and the meaning of endless killing was immense.

“Kill! Kill! Kill!”

The killing sound was trembling, the blood was surging, and the world was killing with shock, which was the chilling intention of all the people, but it made Qin Tiange like a spring breeze.

With a look of intoxication, he continuously absorbed and swallowed the surging killing intentions around him, and even realized the essence of the killing.

“You want to kill the widow, you are not the first, but definitely the worst one to die.”

Lagerstroemia walked step by step, step by step, with endless bones condensing under her feet, and a sea of corpses and mountains appearing behind her.

He killed him all the way. Originally, he was not a candidate for Emperor Ziwei, but with his own ability, he calculated that he killed all competitors and became the sole ruler.

Behind him, the pictures that emerged were all the people he killed, a huge number, and even most of them were his own.

That kind of desolation, grieving spirits, maybe this is the fate of the emperor, and the countless lives that died at the feet of the emperor.

boom!

But the next moment, there was a reckless world behind Qin Tiange, with dense endless bones floating in it, Yuanling roaring, endless.

He was the one who walked all the way, killed himself, or buried, or died because of him.

Regardless of the human race or the hundreds of starry sky, or even all kinds of fierce existence, some ancient remnants have lingering grievances.

“Do you want to compare killing with me?” Qin Tiange snorted, his eyes cleared.

Does he kill few creatures? Think about it, not to mention the killing on earth, but how many souls were slaughtered in the place of exile after entering the starry sky.

How many souls died because of him, anyway, the grievances can shock a star master, but you can imagine how huge the grievances and suffocation accumulated in his body.

“It’s so strong, it seems that you are really the biggest enemy of a widow’s life. Unfortunately, you almost want to kill the widow.”

Ziwei snorted, with a touch of pride. He had his own confidence and confidence, and thought that Qin Tiange was a bit short of trying to kill him.

“The widow has got what he wants, play slowly yourself.”

Suddenly, Ziwei showed a touch of sarcasm, a purple herringbone frowning on her brows, her body suddenly faded, and finally disappeared without a trace.

Seeing this, Qin Tiange was expressionless, not surprised at all, as if he had expected it.

“In the Emperor’s Tomb, I can’t kill you, but you think you can run?” Qin Tiange said to himself, not caring about the other party’s departure.

He knew that Ziwei could not be killed here, because the figure just now was not his true body, but a reserved emperor incarnation.

“Ziwei, got the heart of killing.” Qin Tiange looked over the hall, and the remaining horrible killing.

There may remain a killing heart of the former emperor, that is, the inheritance left by the emperor.

It is a pity that let Ziwei take the lead and gain the killing heart.

However, Qin Tiange didn't care about it at all. He had already formed his own killing heart.

If you want something from others, it's better to unite your own things. Your own is always the best.

“Get the heart of civilization before killing you later.”

Qin Tiange said to himself, turned around and stepped out of the killing hall, disappearing in the chaos.

He did not continue to hang out ~ www.mtlnovel.com ~ Since he found the trace of *Lagerstroemia indica*, then he found what he wanted directly.

The heart of civilization, this is what Qin Tiange wants and cares most. As long as he devours this thing, he can condense his own heart of civilization.

Huh!

.....

On the other side of the Emperor's Tomb, a purple figure emerged quietly, staring coldly at the gray chaos.

He is *Lagerstroemia indica*, and it has been sensed that the emperor's incarnation just dissipated.

“Unexpectedly, I even chased it to the emperor's tomb. It seems that the emperor from the earth star is really the biggest enemy of the widowed life.”

Ziwei said to herself, but with a sneer: “Unfortunately, the widow has gained the heart of killing. As long as the heart of civilization is acquired, the two are in harmony, and the widow can open up the glory that the calendar emperor could not create.

The target of Emperor Ziwei is also the heart of civilization?

Chapter 892 - The message of civilization

In the center of the Emperor's Tomb, a figure quietly appeared.

“Just in this area ...”

Qin Tiange looked at the empty chaos in front of him, and the raging chaos was constantly sweeping, forming a terrible chaos storm.

There was a rumbling noise, and there was nothing in the storm at all, but he was sure he was correct.

In the heart of a civilized fire, that familiar resonance is here.

In other words, the Supreme Emperor who once ruled the universe is buried here. It is the only emperor who has condensed the heart of civilization among all the emperors.

“My lord, the heart of civilization is inside.”

The prophet's reminder came from the sea, and the heart of civilization was established, which made Qin Tiange more convinced.

He didn't hesitate, stepping into the rolling chaos storm, leaving the chaotic blast of violent chaos indifferent.

How strong Qin Tiange's body is, only he knows best, the chaotic storm can only be his nutrient, don't try to hurt him by half.

Walking all the way, wherever he went, the Chaos Storm was absorbed and devoured by his body and turned into energy in the body.

After a long walk, Qin Tiange didn't see anything, let alone the so-called heart of civilization.

But he believed in his feeling that in his heart, the fire of civilization jumped more and more fiercely.

It feels like he is conveying a message, he is getting closer to the heart of civilization, and there is nothing wrong with it.

Finally, I don't know how long it took, when Qin Tiange passed through a violent chaos and stopped in front of a horrible vortex.

Rumble ...

In front of it, endless chaos turned into a vortex, as if a black hole was devouring endless chaos.

In front of him was a whirlpool of terror, which exuded terrible energy waves that destroyed the world.

This aroused Qin Tiange's curiosity, looked at this chaotic vortex in surprise, and faintly saw something hidden inside.

In the vortex, the resonance became stronger and stronger, and even caused the fierce boiling of the fire of civilization, as if something was stimulating the fire of civilization.

Kaka ...

One step into the vortex, a moment, a terrible strangling force swept through, drowning Qin Tiange.

That kind of strangulation was terrifying and meant to break his body, but he couldn't hurt Qin Tiange's body.

No matter how strong the stinging force in the whirlpool of storms was, Qin Tiange's body sent forth bursts of crickets, which was hard to hurt.

The physical body is beyond imagination. It is not that this strangulation force can shake it, and it cannot stop his footsteps.

Qin Tiange walked step by step to the center of the vortex and entered an open area.

It's extremely quiet here, as if the fury on the outside contrasts with the silence on the inside.

When he arrived here, Qin Tiange's pupils shrank, staring at a strange thing floating in front of him.

"Heart of civilization ..." he said to himself, the thing floating in front of him was the heart of civilization.

This heart of civilization is an independent and complete heart of civilization that was condensed by the emperor of the former human race.

Because of this heart of civilization, the emperor of that generation was able to lead his family to the highest level of glory.

Take charge of the universe, and all races will come!

Buzz ...

The arrival of Qin Tiange caused a shaking of the heart of civilization, and issued a strange buzz.

Looking at the heart of civilization, Qin Tiange has a feeling in his heart. As long as he masters the heart of civilization, he can certainly achieve the same level as the emperor of the past.

But this is not what Qin Tiange wants. What he needs is his own heart of civilization, not to acquire others.

After all, the heart of civilization was created by the former emperor, and it is the way of others.

Qin Tiange has his own way, and even has his own strong ambitions. It is impossible to follow the way of others.

“Let me see, what secret did the former emperor have?” Qin Tiange thought to himself, one step across the void and came to the heart of civilization.

It was a beating heart, emitting a hazy and holy light, as if immortal.

In fact, seriously, this heart is the heart of the former emperor. It contains not only the complete civilization information of the former people.

There is also a complete inheritance belonging to the former emperor. As long as this heart is alive, a complete inheritance can be obtained.

That is the strongest, most terrible and most mysterious emperor of all the emperors. Who cares?

Qin Tiange had a touch of heart, but he was quickly cut off. He didn't need others to pave the way.

This feeling is like walking on the road set by others, reaching the peak of the past.

But he didn't want to be controlled by this invisible restriction. He had his own ideas, his own path, and wanted to go further.

Qin Tiange reached out and touched the heart of civilization with a light touch, feeling the complete civilization information contained in it.

boom!

In an instant, a vast message emerged from the heart of civilization, which was the complete message from the ancient human civilization.

It is the most prosperous civilization information of the peoples of the past, and it records endless and huge information.

At this moment, a complete and ancient civilization informationization flooded directly into Qin Tiange's sea of knowledge.

With this majestic information coming in, Qin Tiange seemed to be back in that most glorious era, and felt the strength and glory himself.

The human race, the rule of the universe, and the order of the ten thousand nations, truly saw the supreme prosperity of the ten thousand nations.

At that time, the human race was the only master of the universe, and it was commanded by thousands of people.

Qin Tiange learned the complete civilization information from it, and saw a powerful emperor from scratch, a little rise.

He witnessed the rise of the emperor along the way, leading the human race to defeat one enemy after another and defeat one race after another.

The conquest all the way, hit the highest throne of the universe, ruled the universe, ordered the race, and truly reached the peak of the universe.

However, the prosperity and decline is eternal, and as strong as the human race, they begin to collapse and decline.

The people who are too prosperous have an inexplicable atmosphere of decline, it seems that there is a force in the dark that makes the people towards decline.

Qin Tiange saw a scene that shocked him. It seemed that the strongest emperor of the past had experienced a catastrophe.

Not only him, but also the human races are experiencing a calamity, seemingly fighting fierce things or strength.

Unfortunately, this information is very vague. It seems that there is a force blocking it and cannot see it clearly.

He only saw the decline of the heyday human civilization, and finally fell apart, completely collapsed, the universe was dominated, and the supreme ruler of the peoples was declining.

From the high position of dominance, he suddenly fell into the bottom of the valley, and was almost destroyed.

The powerful and invincible emperor finally suffered a calamity in a mysterious place, and finally the rumor fell, leaving only a mysterious Xinming Center.

The information recorded in it is a bit vague, especially what kind of catastrophe the emperor experienced in the end, there is no record.

Seeing this, Qin Tiange couldn't help but feel cold and silent.

“What happened in the past?”

“The powerful and invincible emperor ruled the universe and ordered the peoples. What made him robbed at this step?”

Questions after question filled Qin Tiange's heart, but unfortunately they could not be answered. It was simply a mystery.

The unsolvable mystery troubled Qin Tiange, making him unable to calm down, as if pressing a heavy breath.

The unknown is the most terrible. How strong is that emperor, who used to lead the universe? How strong is that?

However, such a powerful existence was eventually robbed, and life and death were unknown, leaving only a heart of civilization.

This led to the direct decline of the prosperous human race at that time, and finally was slaughtered by the nations, and even let a force walk on the human body's corpse and board the supreme throne of the universe.

That's the life court!

"Is it related to the life court?"

Qin Tiange fell into meditation and kept reminiscing on the information of civilization, which recorded the human race from scratch, a little bit stronger.

In that era, the human race defeated one enemy after another, defeated the ten thousand people, and ascended to the throne of the supremacy of the universe.

The heyday is also the root of the decline. Because of the strength of the emperor, he was suddenly robbed, causing the human race to be robbed.

There is nothing wrong with it. The powerful emperors have been robbed. How could the human race be the overlord of the universe? The ten thousand people in turn slaughtered the human race and beat the human race to death.

The secrets of the past have been buried as much as possible.

"Well ... as strong as you have been robbed, who in the world can be immortal?"
Qin Tiange suddenly sighed.

Not to mention this emperor, is the Pangu tribe strong in the Chaos era? Very powerful and almost arguably the strongest one.

But in the end, it is not overthrown. There is no one in the world who can truly achieve invincibility and immortality.

"Forget it, these are too far away from me. No matter what disasters are, only the strong one is fundamental."

In the end, Qin Tiange cut off all distractions, recovered his calmness, and began to directly draw the mysterious power in the heart of civilization.

He will use this heart of civilization to brew his own heart of civilization and build his own glory thoroughly.

"swallow!"

Qin Tiange opened his mouth and suddenly swallowed a majestic mysterious energy. He did not control the civilization's heart through refining, but directly absorbed the mysterious energy inside it to conserve his own civilized fire.

Hum!

The heart of civilization seemed to feel the threat, and immediately responded, directly shaking off Qin Tiange's theft.

But unfortunately, the heart of civilization was cut off by Qin Tiange's direct suppression. He couldn't resist at all, and only let him draw the power of plundering the civilization inside.

The complete information of civilization inheritance, engulfed Qin Tiange as much as possible, and turned it into the nourishment of the fire of civilization in the heart of his body, growing and growing.

The blazing flames almost covered Qin Tiange's body, and a mysterious force of civilization surged, causing a wonderful transformation of his heart ~ www.mtlnovel.com ~ click!

At this moment, a force suddenly opened outside, and a purple figure came in slowly.

Ok?

At about the same time, Qin Tiange shook with the purple figure who had just arrived, staring at each other suddenly.

"Lagerstroemia indica?"

"It's you?"

Qin Tiange looked surprised, looking at the incoming person, who was the Emperor Ziwei.

The other party was even more shocked. When he came here, he saw Qin Tiange, and he had already stepped on board, looking at it as if he was refining and controlling the heart of civilization.

The two had a face-to-face meeting, and the atmosphere was depressed for a while, and the real person saw each other face to face.

Lagerstroemia indica, Qin Tiange, the two emperors finally met in person, the intention of killing was pervasive, and the emperors met, either you died or I died.

Chapter 893 - Emperor, there can only be one

In front of the heart of civilization, two figures confronted each other, the power of the emperor permeated, and the intention of killing continually condensed.

The two emperors met, and they were in front of them. The natural atmosphere was extremely heavy and depressed. No one expected to meet here.

Qin Tiange can come because he has ignited the fire of civilization and has a kind of resonance to come.

But how did Lagerstroemia indica find it, maybe it was from the human heritage.

Ziwei was shocked. Qin Tiange had already come here one step before him, and even he thought he was refining the heart of civilization.

"You, can you find it here?" Ziwei pressed against her heart, her eyes were cold and murderous.

He stared at Qin Tiange, his whole body was full of killing intentions, and he gained more killing intentions after gaining the killing heart.

“It was a surprise. I didn’t expect to see your true body here. Can you get away this time?” Qin Tiange sneered, although he was surprised, but he didn’t care.

Instead, he felt that this was a good thing. When he met Ziwei’s true body, he resolved it together, and the province’s retention was a scourge.

“The heart of civilization belongs to the widow. It gives you a chance to surrender to the widow and give you the status of being above one person and over ten thousand people.” Ziwei said indifferently and directly required Qin Tiange to submit.

After hearing this, Qin Tiange laughed and said, “Did you cultivate into a concussion?”

“There is only one Emperor, and you must die.” Qin Tiange slowly withdrew his hand on the heart of civilization and said this sentence.

As soon as the words fell, two killing thoughts collided, and a crunchy sound came, and the nothingness in front of them could not bear it apart.

Only two emperors can survive, because only one emperor can exist.

Qin Tiange does not need the surrender of Ziwei, and has already been on the list of kills long before. The most important thing to solve is Ziwei.

This is not only the other side’s inheritance of the earth’s ancestral land, but also the debt to destroy the broken star, which must be recovered.

Ziwei snorted sternly, “Since you are not willing, let you fall and die in the emperor’s tomb. It is also your best home.”

“Many people can kill me, but it doesn’t include you. Let me see. What are you capable of accumulating the resources of the entire human race?”

After Qin Tiange finished speaking, the whole person burst into a supreme breath, and the rumble of mighty power swept through and pressed against Ziwei.

boom!

The two collided with each other and bombarded each other, and no one was willing to defeat. Only by overwhelming the strength of the opponent, crushing the opponent, and beheading this competitor can they be regarded as the true emperor.

Because there can only be one humanoid emperor. Among the emperor candidates of this generation, the emperor candidates of other ancestors are considered losers.

There were many candidates for Emperor Emperor who had been counted dead by Ziwei before. In the end, the candidate for Emperor Chen Zudi who survived was considered a loser.

Not Ziwei’s opponent, the only one who can be the opponent is Qin Tiange, the emperor from the earth.

“Come on!”

Ziwei shouted loudly, and a large area of purple gas rose from the back, rumbling, condensed on the body and turned into a purple suit.

It was the suit of Emperor Emperor, condensed by him, and Zi was noble, as if he was a born Emperor.

“I’m afraid you can’t do it?” Qin Tiange sneered, his body was haggard, and there was no so-called battle suit. There was only a set of ordinary robes.

His black hair was fluttering, a trace of terrifying warfare condensed, immortal warfare surging and burning.

“kill!”

Both of them drank violently and punched each other directly. The competition between the emperors didn’t need to talk nonsense.

With a loud bang, the fists collided with each other, the purple air was violent, and the chaos was filled with fog. The two fists even matched each other.

Click!

The chaotic time and space broke, and the two broke the space and time around them, and cracks appeared.

With the powerful counter-shock force, Lagerstroemia indica and Qin Tiange both retreated.

Huh!

Qin Tiange stepped back two steps, stepping on the chaotic void, on the other hand, Ziwei retreated five steps before reluctantly stopping, his face was a little gloomy, and it looked like he lost.

“Your strength is so strong that you can block the widow’s purple class royal body?” Ziwei snorted with a hint of indignation.

In response to this, Qin Tiange sneered: “Purple royal body? Do you look at yourself too high and think your body is the strongest?”

The purple class royal body, the body of the born emperor, is rumored to be extremely terrible in combat, and is one of the noblest blood constitutions in the Ziwei family.

However, in the face of Qin Tiange’s physical body, the so-called purple class imperial body is not enough to look at.

In fact, Qin Tiange’s punch was just a tentative test, and he only made five points of strength.

And Ziwei, just one punch has absolutely Jiucheng strength, but still can not meet Qin Tiange’s Wucheng strength, the gap can not be compared.

“You are just capable, with the inheritance resources of the whole family, you just raised you as a waste, and still want to be the emperor?”

Qin Tiange did not conceal his expression, and the disgust and anger were really not concealed at all.

Just one punch has made him thoroughly understand the details of the Emperor Ziwei, occupying the inheritance resources of the entire human race, and raised such a waste.

Yes, in Qin Tiange's view, it is a waste. Such people want to become emperors, which is just a joke.

See how much heritage resources he has received? It's just a little bit deducted from the Ten Calamity Monument, which is trivial.

However, Qin Tiange has come to this day by step with his own patience, but everything can be obtained by his own ability.

Compared to *Lagerstroemia indica*, it is really too powerful, as if it is a flower cultivated and watered in a greenhouse.

Qin Tiange is a force growing up in the wild and constantly working hard. The two cannot be compared at all.

Success also inherits, and failure also inherits. Ziwei has acquired the inheritance resources of the entire human race, and has accumulated a superpower, but it is also defeated on this point.

“How strong are you, how can you understand?” Ziwei didn't care about Qin Tiange's attack and irony.

He looked indifferent and hummed, “Today, then you can see how strong the widow's real combat power is. You only have to look up.”

Boom!

A loud noise came from the body of *Lagerstroemia indica*, and a terrible breath permeated, the blast exploded and turned into a shocking force.

The purple air was vast and rumbling, and the breath of *Lagerstroemia indica* was even more than ten times higher at this moment.

The mighty, invincible emperor's majesty pressed on Qin Tiange, making him a little surprised.

“Strong warfare, secret method, it seems you have got a lot of good things, but unfortunately it was just inherited from previous generations and ruined by you.” Qin Tiange sneered and didn't care.

What about a tenfold increase in combat power? He was not afraid at all, instead he directly fisted his fist to kill him.

He didn't want to continue talking nonsense, killing Ziwei has become a foregone conclusion, this time Ziwei doesn't want to escape.

“kill!”

Qin Tiange drank violently, and a kind of supreme power emerged from all over his body. The endless black holes from 60 trillion burst out.

That power is simply shocking, unseen in ancient times, and truly shakes time and space and breaks nothing.

boom!

With one punch, Lagerstroemia body collapsed, and her purple battle suit collapsed into pieces on the spot.

With a shock in his face, he couldn't even catch the punch, and he was blown out.

If it weren't for the purple emperor's armor to block most of the power, plus his own powerful combat strength and body, he would barely be hit.

“You just have this ability?” Qin Tiange came step by step, his eyes were cold and murderous.

Seriously, he was disappointed. With the inheritance resources of the entire human race, he raised a waste like Lagerstroemia indica?

In his opinion, it is a waste of the inheritance resources of the entire human race, and it is really a little disappointed and angry.

If Lagerstroemia indica is super strong, then it's fair to say, at least he is strong enough to look up to.

But in the eyes of Qin Tiange, he was really vulnerable.

“you wanna die!”

Lagerstroemia was beaten twice in a row, some could not hang, and her heart was burning with anger, showing her anger for the first time.

“Six-dimensional space-time, open!”

Along with a loud scream, Ziwei exploded directly into her strongest hole card, the strength of Six Dimensions.

Yes, he has already stepped into the six-dimensional space-time, the real six-dimensional space-time strong, even almost stepped into the seven-dimensional height.

Such an achievement cannot be said to be a waste, but in the eyes of Qin Tiange, there is actually no difference.

Humph!

Qin Tiange lengheng, disdainfully said: “Sixth-dimensional space-time level, your achievements accumulated with human resources, you dare to have no one in your eyes, arrogant?”

“Look at me knocking you off the altar, cutting your hopes and destroying your foundation.”

As soon as the words fell, Qin Tiange's body exuded a raging raging gas, and the chaos was permeated, turning into a gray pattern imprinted on his fist.

With a bang, the punch broke through time and space, penetrated the one-dimensional to six-dimensional barrier, and directly punched into the face of Ziwei.

Slightly!

The six-dimensional barrier collapsed, Lagerstroemia eyes widened, flashing a horror, waiting to fight back and dodging, it was too late.

With his fist slamming into the door, a crack of bone came, and a trace of blood flew around, exuding a bit of emperor's magnificence, which was the blood of Lagerstroemia indica.

He was knocked out with a punch, smashed into the storm of chaos, and stirred up the storm.

Qin Tiange, a powerful punch to break the barriers of time and space, even the defensive barrier of six dimensions of time and space can not stop his fist ~ www.mtlnovel.com ~ You, you have surpassed six dimensions? “

There was a roar in the chaotic storm, and Ziwei rushed out, her face was bloody, and the wound had recovered.

But at this moment his heart was extremely shaken, and the twinkling purple eyes stared at Qin Tiange, looking a little incredible.

“Beyond the Six Dimensions?” Qin Tiange sneered, sarcastically: “Lonely, frogs at the bottom of the well, do you only see the division of time and space?”

“You really let me down.” Qin Tiange said, a touch of disappointment on his face, and a deep disappointment at the short-sightedness of Ziwei.

“You don't deserve to be my opponent, die.”

With this sentence just now, Qin Tiange's figure disappeared, the heart of Lagerstroemia in the opposite side shrank, and an endless force burst out suddenly.

Click!

Ziwei suddenly turned back and punched, breaking the vacuum and blasting the space-time.

Chapter 894 - Kill Lagerstroemia

boom!

The two fists hit each other across layers of time and space, and powerful forces shattered the surrounding space, creating a space-time fault.

Ziwei's punch was a burst of strength, but it felt a more terrible force coming.

With a click, the arm burst, blood vessels splattered, and the entire arm was abolished.

“You ...” Lagerstroemia body collapsed, with a look of shock on her face, looking at the crooked and broken arm unbelievable.

He didn't expect that he had lost 10% of his strength, and was crushed by the other party, destroying an arm.

The power of the two is not proportional!

“Since the widowed stepped into Six Dimensions, I have never encountered an opponent. You are the first enemy to make my heart palpitate.” Ziwei said to herself, her arms clicked back.

That powerful practice, as well as physical arrogance, allowed his bursting arm to recover directly.

“Ziwei, your way is done.” Qin Tiange said suddenly, his eyes sent out two beams of terror.

With the voice just falling, Ziwei’s face changed wildly, and suddenly felt that the space and time around him was inexplicably forbidden.

“No good, you cheated?” Ziwei awoke, and the surrounding time and space was secretly banned by Qin Tiange.

Thinking that the other side had been chatting with himself for a long time, it turned out that he secretly forbidden time and space to isolate any hope of his escape.

“There is no fraud, I am just to prevent you from running away. You must know that any enemy must be cut off.”

After Qin Tiange finished speaking, there was a horrific breath erupting in his body, as if the combination of countless black holes, the amount of violent violence that broke out directly shattered the surrounding space-time level.

The dense space and time can’t bear the terrible power that erupted in Qin Tiange’s body. How strong is the force that comes out of a full 60 trillion black holes?

boom!

The sound of cracking came, and the entire tomb of the Emperor’s tomb was shaken violently. The terrible wave of power shook the chaos of the Emperor’s tomb.

The scene of ruining the sky was just a breath of power bursting out. Qin Tiange’s body moved slightly, and the entire tomb of the emperor shook.

“dead!”

The cold words passed into Ziwei’s ears, making him chills all over, his heart tightening suddenly, and his beating stopped.

Suddenly, the feeling of extreme danger came from behind, Ziwei didn’t want to turn around and just blasted away.

A loud bang came, and as a result he hit an empty air, his heart was cold, and he secretly said nothing.

Flutter!

Just listening to a muffled sound, and then a pain in my heart, looking down, I saw a hand penetrating from the back of my heart.

Holding a beating heart in the palm of his hand, the intention of killing was permeated, and the horrible killings of air were intertwined.

That was the heart of the killing. He had just been smelted into the body, but before it was fully effective, Qin Tiange dug it out.

“You, dare you?” Ziwei looked terrified and roared.

Behind him, Qin Tiange looked cold and pulled his arm without a word, pinching Ziwei’s heart of killing.

The emperor’s heart was taken out by him, which is equivalent to breaking off a source of strength of Lagerstroemia indica.

boom!

With one palm split, Lagerstroemia body fluttered into nothingness, her body was almost smashed, and blood continued to fall down.

He staggered to his feet, standing in the chaos of nothingness, a large hole in his heart was transparent on both sides, and a ray of blood shining in purple.

“Why, why are you so powerful without inheritance resources?” Ziwei was unwilling to believe it all.

He clearly cut off the inheritance resources of the entire human race, and no other resources flowed to the major ancestors.

The same is true for the earth, but why is the candidate for Emperor Qin Tiange so powerful?

“Without resources, won’t you get it yourself?”

Qin Tiange stared sternly at the miserable Ziwei, the Ziwei Star Emperor who cut off the entire human resource.

He uses the entire human race to inherit resources, and the height of the accumulation, but it feels like an air tower, dreamy and unreal.

Perhaps Lagerstroemia is defeated at this point. Although the inheritance resources are good, this will inevitably cause a potentially huge defect.

Qin Tiange is different from him. After learning that the heritage resources are gone, he began to acquire resources by himself, constantly robbing the resources of various ethnic groups, and even swallowing the flesh and blood of the strong people of various ethnic groups to strengthen himself.

This is all the way to kill them with their perseverance, kill an invincible fierce name, and achieved his own terrible power now.

“I’m different from you, Lagerstroemia indicatus, your path is gone.”

Qin Tiange said in a low voice, stepping on the air in one step, clasping his five fingers, grabbing the left arm of Ziwei, and hissing directly.

The blood splattered continuously, spilling in the chaos void, looking extraordinarily strange and terrifying.

“Ah ... widows don't believe it, widows are orthodox human emperors.” Ziwei growled in horror.

He was unwilling to believe that Qin Tiange had no fear of the power of time and space, and no matter how many dimensional forces he was fearless.

This is unbelievable, because even a time and space-level strong person can not achieve fearless space and time power.

But Qin Tiange just didn't fear, and even any time and space force was invalid to him.

Such weird abilities made Ziwei unbelievable and extremely unwilling to believe that Qin Tiange must have some abilities that he did not know.

“Dead man, why do you need to know too much?” Qin Tiange finished, his figure flickered, and his five fingers passed through time and space like lightning, pinching Ziwei's neck.

“Uh no ... can ...” Ziwei looked horrified and looked at Qin Tiange right in front of her eyes. She didn't finish her words, but felt that there was a crisp sound coming from her neck.

With a click, Ziwei felt a pain, and looked at her own head was twisted by Qin Tiange.

Qin Tiange was so fierce that he directly fractured Ziwei's neck, took off the opponent's head, and held it in his hand.

“Impossible, why, why?”

“The widow is the only emperor in this era. No one can surpass it. What kind of monster are you?”

Ziwei's head was taken off, still not dead, and still roaring wildly.

The headless corpse wandered frantically in the chaos, tumbling there, and blood spewed out constantly, watering the emperor's tomb.

Qin Tiange held Lagerstroemia's head, his eyes were cold, and he didn't have one more nonsense with him, pinching Tian Ling with five fingers.

Click!

A cracking sound came, and Ziwei's head was instantly pinched by Qin Tiange, and the whole brain was smashed like a watermelon.

The blood and water mixed with the brain continuously sprayed the Quartet, exuding the scent of the Emperor.

The purple air permeated, a ray of interweaving, and a wailing sounded, as if a strong man who was supposed to have the order of the emperor fell in grief.

“what...”

A purple light shot up, and the true spirit of Lagerstroemia fled, trying to escape from the Emperor's Tomb.

But unfortunately, time and space have been banned by Qin Tiange here, and he has been prevented from escaping.

This is because even the true spirit doesn't want to let go of it, directly cutting the grass and removing the roots, and completely wipe out the *Lagerstroemia indica*.

“For a long time, it was to prevent the real spirit from escaping after killing you. Now, you can go on the road with peace of mind.”

Qin Tiange said to himself, suddenly he caught his hand, and the purple light that flew out was caught back by him.

The true spirit of *Lagerstroemia indica* was suppressed in the palm of the hand, and it continued to shake, making a loud roar, with a soul impact.

Unfortunately, this soul shock is simply pediatric for Qin Tiange and is useless at all.
collapse!

The five fingers were slightly hardened, and with a slight click, Ziguang collapsed and spread, and the true spirit of Ziwei was completely crushed.

Moreover, the bursting true spirit was swallowed by Qin Tiange, swallowing the refinement directly, and drawing the memory of the true spirit inside.

Having acquired all the true memory of *Lagerstroemia indica*, Qin Tiange's face became more and more gloomy, because he obtained the information that made him angry.

“Even the accumulation of space-time levels with inheritance resources wastes all the inheritance resources of the entire human race. You are immortal. It is unreasonable.” Qin Tiange was a little angry, and did not feel relieved to kill Ziwei.

Because it was learned from Ziwei's memory that he even occupied the entire human race's Jiucheng heritage resources by himself, relying solely on the cultivation of resources.

This is a life-threatening consumption of the entire human race heritage resources, even at the expense of most of them are directly stacked up for repair.

Seeing this, Qin Tiange was furious, so that he was ruining his inheritance resources.

And many treasures should have more value, and even some high-level inheritance can already be a large number of strong.

But he was monopolized by him, and even thought that others would threaten himself, so there was no great legacy.

Those inheritances that he didn't use were directly destroyed, and the so-called retention is a threat. If he is useless, he cannot let others use it.

This approach directly led to the myriad resources in the inheritance, and even some powerful inheritances were directly destroyed and severed.

“This is destroying the foundation of the human race, destroying the inheritance, destroying the inheritance, Lagerstroemia, you must not have died 10,000 times.”

Qin Tiange was very annoyed. This Lagerstroemia indica has directly led to the severance of many ancient and powerful inheritances of the human race.

In this way, how can you not be angry. Now that you kill Ziwei and destroy Ziwei, you will not be able to retrieve the ruined heritage and consumed resources.

“Damn it!”

After absorbing all memories, Qin Tiange’s killing on his face could not be extinguished, Ziwei broke most of the heritage and heritage of the human race.

Not only that, but now some of the relics in the major ancestors of the human race have been destroyed by Ziwei.

It’s horrible to die, Ziwei, really achieves the level of anger and resentment, cuts off the resources and heritage of the clan, and destroys the heritage. How hateful is that?

“Destroy my heritage and break the foundation of my own family.

Qin Tiange stepped on the headless body of Lagerstroemia indica, how could the anger in his heart be calmed down, and his teeth were itchy.

In the end, Ziwei’s body was directly smelted into a powerful source of power and swallowed directly.

It took a lot of resources and exhausted a lot of powerful inheritance to create the waste of Lagerstroemia indica. It really blinded the huge heritage resources of the entire human race.

“Forget it ~ www.mtlnovel.com ~ Take your time and solve Lagerstroemia indica. It is a solution to the hidden dangers. The next step is to clear the tumors in Lagerstroemia.

Qin Tiange calmed his mood and began planning to clear up the powerful background of Ziwei stars hidden by Ziwei.

The thirty-eight old things that were killed before are only a small part. The rest must be removed. After all, they are a group of tumors.

“The heart of killing, the heart of civilization, directly become my nutrients for growth.”

At this time, Qin Tiange crushed the heart of the killing, directly devoured, and strengthened his will to kill.

Then, he stared at the heart of civilization, and simply directly, smelted up to extract the energy in the heart of civilization.

This is to swallow, not to refine the control, and directly swallow it into its own growth.

boom!

Feeling threatened by the heart of civilization, the sudden riots concealed the heritage and power of the Supreme King of that generation, and issued a fierce counterattack.

Chapter 895 - Startled, fight across the ages

Hum!

The heart of civilization shook, emitting immense light, the power of the emperor permeated, and a terrifying energy was emitted.

“Huh!” Qin Tiange opened his eyes and snorted coldly, his fingers spread out, and powerful power poured out, and he suppressed it directly.

“Suppression!”

The sound of low drinking shook the entire tomb of the emperor, chaos was shaken, the violent breath permeated, and the heart of civilization was suppressed.

A horrendous force interweaved and collided with each other, making bursts of noise, like the roar of a boulevard.

Huh!

In an invisible contest, Qin Tiange released all his strength and found that he could not suppress the heart of civilization.

He was amazed and suspected that the 60 trillion black holes in the body, together with the power of the chaotic Yuan tire, were all suppressed.

Bang!

As a result, a powerful explosion opened Qin Tiange, and his body retreated ten meters before stopping.

He was stunned, his eyes were staring at the glowing civilization heart, his expression gradually condensed.

Zizi ...

I saw a ray of light interweaving in the heart of civilization, converging and turning into a dim shadow.

This is a human figure, unreal, covered with thick fog, and can't see the true appearance.

But I can feel the strong threat from this phantom. The immense imperial power of the mighty emperor seems to be coming to the world.

“You still here?”

Qin Tiange asked word by word, with a hint of shock in his words, but he felt a bit of something wrong.

He was skeptical, with deep dread in his heart, looking at the condensed shadow in front of him.

“Senior, see you, why don't you worship?”

Xingying spit out a sentence indifferently, with cold words, with a supreme imperial coercion.

He is the Supreme Emperor. Behind it is a vast universe, endless starry sky, people from all over the world to come and speak, and the whole unreal universe shakes it.

Seeing this scene, Qin Tiange's heart could not help but jump, staring suspiciously at this illusory figure.

Qin Tiange was convinced that the figure was an illusory projection, not real, but it gave him a strong threat.

“You have been ancient, do you not want to inherit it just for future generations?” Qin Tiange asked harshly.

On the opposite side, the phantom shook slightly, and the breath was more terrifying, as if turned into a real body.

This man is nine feet tall, wearing a royal robe, wearing a crown, and is filled with supreme imperial power.

He stood there, but gave people a face that was not just one person, but the entire universe.

In the past, the universe ruled and how powerful the emperors of all races can be. From here, you can see the tip of terror.

“My will can only be obtained by those who believe in me. Ru, be bold and want to devour the heart of your imperial dynasty, be a concubine.”

In a word, with the power of slaughter, he rushed to Qin Tiange, as if he had to do what he said, with some great mysterious power.

When the crisis came, Qin Tiange could not care much about whether he was the former emperor, even if it was the enemy who wanted to kill him.

“broken!”

Qin Tiange drank violently, punched him with a punch, and thundered the whole tomb of the Emperor.

I saw that the fist broke through the mass of obliterating force and directly punched.

“People who want to kill me, no matter who you are, or if they are former emperors, are my enemies.” Qin Tiange was resolute and determined. Since he wanted to kill him, there is nothing to say.

“kill!”

With a violent drink, Qin Tiange took the action directly, starting with the strongest, and coming up was the strongest lore.

The punch broke the time and space, and a single blow blasted the space and time in front, causing dense faults to appear there.

A crunchy sound came, and the phantom was dangling, and Qin Tiange's fist utterly collapsed.

But he collapsed and reunited in an instant, as if there was no harm, and he was indifferent.

“Unfilial filial generation, ru ...” That Xingying was speaking, but was interrupted by Qin Tiange’s violent punch.

boom!

With one punch, the void was turned into powder, chaos collapsed, and time and space were disordered.

Qin Tiange made a strong punch, which broke the virtual shadow, and did not obey his nonsense.

“Ru, wanton ...”

“To shut up!”

Qin Tiange yelled, his voice horrifying: “What are you, whoever wants to kill me is an enemy.”

“I don’t care if you are emperor. Even if you are, you are not qualified to kill me.”

This scream shook people’s tombs, and the ancient palaces of the kings buzzed, as if they were astonished by this sentence.

Inside the Emperor’s Tomb, dozens of huge palaces suddenly flew out, shrouded in unison, emitting endless glory of the royal road.

These are the palaces of the emperors, one by one, exuding the imperial power of the emperor, as if representing the emperor of the past.

“Why, you want to kill me too?” Qin Tiange looked around the royal hall and asked sneer.

As a result, dozens of halls lighted up all at once, and suddenly a terrible force emerged, and Qi Qi merged into Qin Tiange’s body.

“Huh?” Qin Tiange froze, then suddenly, it was the dozens of emperors who gave him the last inheritance power directly.

But this situation made him a little puzzled, why suddenly dozens of emperors passed on to him as much as possible the inheritance after death?

“You are so disrespectful, daring?”

The virtual image was angered and was waiting to speak. As a result, Qin Tiange went up with a punch.

With a sound of Pu Long, the phantom collapsed again, although he recovered, but interrupted his speech.

At this moment, Qin Tiange understood something vaguely, and the power of inheritance from dozens of emperors came in. This was to help him.

Qin Tiange made another terrible guess as to why he was not helping him.

“You, aren’t you dead?” Qin Tiange was shocked, frightened by his own speculation.

That emperor is not dead?

“Oh, dominate the universe and order the peoples, who can let Oo die?”

The virtual shadow is arrogant, revealing a powerful divine power overlooking the beings of the universe, as if he is the only master of the universe.

The Supreme Lord of the past did not die. Where is he now?

“You’re not dead, that civilization’s heart ...” Qin Tiange’s pupils shrank, thinking of something.

“The filial piety of the younger generation, the perverted perpetrator, will suppress the emperor’s tomb for 10,000 years.”

Suddenly, the phantom body suddenly solidified, and an ancient and powerful force emerged from the heart of civilization.

It was a terrible power left in the heart of civilization, the power of the former Supreme King.

boom!

With one hand slap, the entire Emperor’s tomb almost collapsed, and Qin Tiange felt threatened by his powerful energy.

Qin Tiange was stunned and shouted, “This is not a reserved heritage force. This power does not belong to this era.”

“Across the epoch, you want to break the barriers of the era and kill me?”

Feeling the horror of this blow, Qin Tiange was furious, could not help but growl, and learned the origin of this power.

This terrible power does not belong to this era. In other words, the Supreme Emperor wants to obliterate him through the era?

Across the epoch, he is living in another ancient epoch, and the emperor is still alive.

Because Qin Tiange rashly moved his heart of civilization, he directly attracted the Supreme King in the ancient era to kill him.

“open!”

Endangering the situation, Qin Tiange roared low, reached into space and time, pulled out an ancient sword of horror, held his hands up, condensing the strongest strength in the whole body.

A humming vibration came, and the tomb of the Emperor shook, as if to collapse, in the moment when Qin Tiange condensed his body strength to the peak.

He wields the strongest sword at present, a sword that transcends the boundaries of time and space, and cuts off time and space.

Click!

That sword seemed to transcend this time and space boundary, cut off some kind of ethical barriers, and formed a terrible blow.

The two forces, separated by different epochs, crashed into each other directly, and disappeared continuously in the emptiness.

No sound came, only eternal silence, annihilation of all things, annihilation of energy, everything turned into nothingness.

boom!

For a long time, Qin Tiange's body collapsed and flew, and he was immediately knocked out of the mysterious area where the emperor's tomb was located, and directly flew out of the space-time fault.

"You want to kill me across the ages?"

Although Qin Tiange came out horizontally, and the corners of his mouth were bleeding, he showed a touch of ridicule, as if to sneer at the horror that had just hit him.

Is the Supreme King who once ruled the universe dead?

"Ru, yes, interesting ..."

A word, if any, came from the emptiness, gradually subsided, and finally disappeared completely.

"Hwang, what's wrong?"

At this time, Li Luo, who was guarding the time and space outside, quickly appeared, catching Qin Tiange flying out in suspicion, with a look of shock.

Qin Tiange was hit hard. Although he is responding fast, it is absolutely shocking.

"I'm fine, there is an old man who wants to kill me across the epoch barriers."

Qin Tiange wiped the blood off the corner of his mouth and hummed.

Li Luo's heart trembled, never die? Through the barriers of the era? What can hurt Qin Tiange is definitely not the space-time pole, it must be the terrible existence of the lord or even the above.

Because it was just a blow, with the breath of the era, it was a blow that broke the barriers of the era.

Qin Tiange knew best that it was the strike force from the mysterious ancient era, and he wanted to obliterate him across the era.

"Well, whoever you are, wants to kill me, I remember this account."

Looking at the emptiness, Qin Tiange said to himself, his face revealing an unprecedented coldness, killing the sky.

Someone wants to kill him. This is unforgivable, no matter who it is ~ www.mtlnovel.com ~
Anyone who wants to kill him is an enemy.

In Qin Tiange's dictionary, only dead enemies are good enemies.

"Li Luo, go back to Tianhe mainland first, and I will retreat for a while."

After looking at it for a long time, Qin Tiange slowly exhaled a sigh of relief. Although the internal injuries recovered, there was a terrible force that could not be eliminated.

This power comes from the ancient era, it is a different power, it is difficult to remove him if you want to obliterate him.

“go!”

After speaking, Qin Tiange and Li Luo both turned around, tearing the barriers of time and space, and returned directly to the chaotic continent of the Tianhe continent of the Milky Way.

This encounter gave Qin Tiange a glimpse into more secrets and knew a lot of secrets that he had never known before.

He needs to meditate and think carefully, and how to decide in the future requires careful consideration.

No one could have thought of such a shocking secret hidden in the tomb of the Emperor.

Chapter 896 - Blocked road

Chaos Island, Huaxia City of Humanity, a palace of people's emperor towers into the clouds, exuding an air of majesty.

This emperor's palace was actually built by Qin Tiange smelting many palaces, and officially began to board the emperor's road.

It cleared the crape myrtle, the other candidate of the ancestral emperor, dead, and there were few left, and no one could even compete with Qin Tiange.

In this way, the only one who could step up to the position of Emperor was Qin Tiange, because the Prophet had already captured all luck at the moment when he killed the Ziwei.

“My lord, luck has increased tenfold. This is a good thing. There are hidden dangers. You must pay attention.”

In the palace of the Emperor, chaos filled the air, Qin Tiange sat in it, and a vast river appeared behind him.

It was a long river of luck, and the waves of purple light filled the mighty river, converging and engulfing the huge luck of the Emperor Ziwei, fully expanding the river of luck by ten times.

That's right, it was more than ten times inflated, and the prophet was shocked and worried.

The sheer volume of luck is a good thing, but if it is not handled properly, there will be hidden dangers, which she knows very well.

Qin Tiange looked at the mighty long river of fortune, with the mighty purple gas, as if a purple river runs through time and space.

“The prophet, don't worry.” He whispered comfortably, “Growing luck is a good thing. You are only worried about the power of the calamity that comes with it.”

“Look!” Then, as soon as Qin Tiange pointed out, he saw terrible torrents flowing endlessly.

It was endless calamity, continually gathering and roaring, as if to break the human race and transport the long river, and more like to destroy the human race.

The mighty power of calamity, rolling and surging, swept as if the extermination of the world.

“swallow!”

When the starter heard a low drink, Qin Tiange opened his mouth and swallowed the robbery, and the power of endless disaster suddenly swallowed into his body.

In this scene, the prophets were moved by it, and they looked at Qin Tiange in shock.

He swallowed the endless calamity directly, without paying attention to it, as if these were not calamity, but food, and nutrients.

That’s right, Qin Tiange directly treats endless disasters as nutrients, devours clean, and turns into a huge fuel of civilized fire.

Bang!

With the influx of endless calamity, the fire of civilization skyrocketed, turned into a monstrous fire, and burned.

The fire of civilization swept the sky, and directly burned into the long river of Qi Yun, refining the bloated Qi Yun inside.

In a blink of an eye, it seemed bloated and swollen, and the long river of fortune that was about to be broken became extremely solid, and its power was condensed several times.

call!

Looking at this scene, the prophet was assured that he suddenly realized that Qin Tiange was not actually afraid of these things.

After smelting endless disasters and refining the bloated river of longevity, Qin Tiange felt that the fortunes of the entire ethnic group became more magnificent and endless.

“Now, the human race will grow ten times faster. Who can stop the rise?”

Qin Tiange looked confident, looking at the long river of luck that was fading away. There was a terrible phantom in it, which was the emperor’s body.

Above the palm of the Emperor’s body, the figure of the prophet sat in a cross, filled with mysterious breath.

With the disappearance of all visions, Qin Tiange restored calmness, his eyes swept around, and the Pangu seal was quickly laid.

“Li Luo, before I intercepted a secret through the epoch, you can see for yourself.”

Qin Tiange was silent for a moment, and waved his hands to condense a group of information rays, directly into the glass Luomei knowing the sea in front of him.

Li Luo closed her eyes, her cheeks gradually dignified, and opened her eyes a long time later, flashing a ray of shock.

“Huang, he ...” Li Luo began to say something, but he didn’t say it after all.

Qin Tiange showed a sneer: "That old is not dead, I didn't expect to die yet, and is still engaged in wind and rain. No wonder how powerful the emperor of the human race can be, and how talented people are.

"Well, there is a curse," he murmured to himself.

This is a great secret. No one knows it. Only the emperors of the past truly felt this kind of limitation and secret.

Qin Tiange was in the emperor's tomb before, and the inexplicable encounter he had encountered was to kill him across the epoch.

This shocked him, and even more frightening, he was almost wiped out.

Yes, Qin Tiange was almost killed at that time, and it wasn't his ability to block the opposition through the era.

But he still survived, why, because there were dozens of emperor emperors in the tomb of the emperor at that time, they passed all the power of his inheritance into him.

This is the joint effort of dozens of emperors to help him, so that Qin Tiange can survive that mortal calamity.

Dozens of emperors of the past, even if only a force of inheritance remained, and the shocking forces that gathered broke out, Qin Tiange finally broke the sword of the transcendence era.

It was the sword that kept him alive and gathered the huge power left by dozens of emperors to make him escape.

But despite this, he was still traumatized, and there was still a power in his body that belonged to that being that was about to obliterate his existence.

"This power does not belong to this era. It was the power of the ancient era." Qin Tiange looked dignified and laboriously forced this mysterious and terrible force out of his body.

This is a mysterious light, as if unreal, invisible and untouchable, but it does exist.

It was a power attack that crossed the epoch, beyond Qin Tiange's imagination and understanding, allowing him to know the world again.

"Li Luo, can the era that has passed can be broken?" Qin Tiange looked at Li Luo with a serious look and asked.

However, Li Luo was silent, because she did not involve this step in her peak days.

Li Luo shook her head and sighed, "The emperor, I have not been involved in the mysteries of the epoch, and I cannot answer the emperor's doubts."

Qin Tiange understood and said softly: "Anyway, the power to break the epoch is beyond imagination, and we can't touch that field yet."

"Fortunately, there are dozens of generations of emperors who helped me at a critical moment. Perhaps the generations of emperors knew something, but unfortunately, they fell." Qin Tiange said with a trace of regret.

At that time, what happened in the tomb of the emperor made him particularly reminiscent of the memory, especially when dozens of emperors merged into his body, allowing him to strike beyond the epoch.

The might of that sword really broke the barriers of the epoch to stop that eradicating force from the ancient epoch.

At that time, Qin Tiange was deeply imprinted in his heart. Unfortunately, his realm was insufficient and he could not understand the mystery.

But he is very clear that as long as he achieves high enough in the future, he will certainly be able to understand this wonderful feeling in his chest.

Finally, with this encounter, stepping into that height in one fell swoop may be considered a great opportunity.

“Huang, what does that person want to do?” Li Luo asked with a serious look.

Qin Tiange shook his head and said for a moment of contemplation: “I guess it should be that he blocked the path of the emperors of the past, and even blocked the progress of the human race, otherwise the human race cannot be as good as the next generation.”

“I even suspect that the so-called cataclysm of the previous era has his black hands behind him.”

Thinking of the calamity experienced by the human race in the previous era, almost extinction, the weird calamity gave Qin Tiange more guesses.

But these are only his own speculation at present, and it is impossible to do so. Qin Tiange knows that he must become stronger. Only when he steps up to the same level can he see the secrets that he cannot understand now.

Immediately, Qin Tiange pointed to a mysterious power floating in front of him and said, “Li Luo, this power hides the mystery of the epoch. Since it has been captured and sealed by my body, it just allows you and me to see the mystery inside.”

“it is good!”

Li Luo immediately bowed his head and joined forces with Qin Tiange, and the two forcibly broke through the barrier of this force with strong power.

This is to see what secrets this power from the ancient era has hidden.

boom!

Together, they shattered the outer defense of this force. Without the source of power, the most powerful force was the rootless duckweed, which was quickly suppressed by Qin Tiange and Li Luo.

In the end, the two stripped away this power little by little, and took secret secrets.

The information of the epoch, endless ancient power constantly poured into the mind, shocking the two people’s knowledge of the sea.

Qin Tiange felt like he had crossed countless times, passed several epochs, and returned to the oldest and most prosperous era of the human race.

They are like an outsider, constantly watching the rise and fall of this era, watching silently, without speaking.

For a long time, when all the induction disappeared, the two awakened at the same time.

“Is that all true?” When Li Luo woke up, she became extremely silent, her body full of confusion and depression.

Qin Tiange was expressionless, his eyes constantly flashing old and terrible pictures.

But he didn’t answer, what did the two see?

“Cultivate in retreat, don’t mention these things in the future, you and I have something in mind.”

After being silent for a long time, Qin Tiange slowly said this sentence, revealing the meaning of killing the slaughter, and his will became stronger and stronger.

Li Luo nodded his head ~ www.mtlnovel.com ~ with solemn and solemn expression: “Emperor, no matter what the future, Li Luo is the sharp sword in your hands, and it will choke you and cut off all obstacles.”

“You don’t need to be so serious, you can practice in the chaotic Yuantai.” Qin Tiange said with a smirk.

Hum!

After speaking, Qin Tiange’s eyebrows sent a light, and Chaos Yuantai swallowed the two directly, and they both endured the essence of chaos, and both fell into cultivation.

Just then, a strange wave woke Qin Tiange.

Huh?

“This is ... the message of self?”

A thought came from Qin Tiange’s consciousness. It was a message of self-consciousness and a set of urgent calls.

“Did something happen? An urgent call came?”

He was just a little stunned, and immediately flashed out of the chaotic elementary birth, tore apart the barriers of time and space, and instantly returned to the star domain where the earth was.

Chapter 897 - Created demon

Earth galaxy fortress, the highest biological research laboratory inside, a group of bioscientists are looking inside the laboratory in shock.

A huge petri dish was stored there, which was being cloned to make a terrible thing.

At this moment, in the petri dish, there was a terrifying humanoid creature, and there was a wave of chaos and magic in his body.

As if it was an old and terrible demon, just after it was created, the horrible energy broke out, even beyond control.

“Emergency situations!”

“Everyone evacuated and blocked here.”

A clear voice came, and Jiji immediately ordered the evacuation of all personnel in the biological research department.

It is no longer possible for them to participate here. Suddenly creating such a horrible thing is completely beyond control.

In other words, this thing is out of control.

“Turn on time and space, block here, and wait for the leader to return.”

With a serious face, Xun Ji ordered a blockade and opened a powerful space-time lock. The dense chain blocked the blockade here.

All personnel were evacuated, leaving only one of them, but soon two returned.

“Why don’t you go?” Jiji looked at the two returning and asked with a frown.

These two people, one is Li Jiajia, the director of biology, and the other is Du Jing, the deputy director of biology of the pharmaceutical department.

“This is a trivial matter. How could I leave without an accident in our biology department?” Li Jiajia was firm and refused to leave.

She stared at the closed chamber with a scary humanoid creature inside it.

That thing’s consciousness is emerging autonomously, and it is waking up, and the kind of violent and destruction that emanates is full of killing.

They believed that there was some kind of error in the manufacturing process, which led to the birth of this thing, and things were out of control.

“The energy is still rising, and it has exceeded the energy that the main star level should have. Entering the space-time level, we have no control.”

Du Jing looked dignified, looking at the energy instrument next to him, a row of red data displayed on it.

That set of data is a tester built based on the strength of the level and the burst of energy.

Now, the data has soared to a horrible level, surpassing the main star level, and spatiotemporal faults have begun to appear around.

Even the blockade of space-time locks cannot prevent the birth of that terrifying humanoid creature.

“Trouble, why isn’t the leader back yet?” Du Jingqiao’s face was dignified like never before.

She flashed her regrets and said, “I have a fault, and I shouldn’t combine the blood of the devil with that medicine.”

“No, it shouldn’t be that our production process went wrong, but that the blood of the demon **** itself was taboo and could not be manufactured.” Xiji had different opinions.

She believes that the mysterious demon blood gene given by Qin Tiange has terrible taboos and cannot be touched.

But Qin Tiange wanted to study, which led to an uncontrollable situation, that is, the self-consciousness who was ready to set foot in time and space was helpless.

boom!

A shock came, and the petri dishes in the laboratory were directly smashed, and the materials that could withstand the bombardment of the star level without being damaged were turned into powders and disappeared.

With the explosion, a cloud of chaos and magic filled the entire laboratory.

There was a fault in time and space, and a terrible humanoid slowly emerged, sinking into the rolling chaos.

The body with a size of thousands of feet suddenly swelled in madness as if it were endless, constantly drawing a kind of same-source power from the mysterious spacetime.

That’s the power of the devil’s origin, and he even grew that same origin from the mysterious spacetime.

“bad!”

Xun Ji’s face changed greatly, exclaiming: “This thing can absorb the growth of its original power in the deep.”

The trio’s faces changed, watching the increasingly horrible figure of the demon god, the terrible pressure had shaken the entire blocked laboratory.

Huh!

Just as the three were in a hurry, a figure emerged quietly, standing in front of the three, blocking the terrible power.

“This is, the demon?” Qin Tiange was startled by the scene in front of him as soon as he arrived here.

Yes, he was really taken aback. Isn’t this thing the horrible demon he saw in the place of exile?

Even now, in retrospect, Qin Tiange is still a little dignified about the terrible demon, because he can’t see what the other party is.

I never thought that Jiji hurriedly called him back because of this, and it seemed that they had created a demon.

“Master, you are finally back. The situation is sudden. We have no control but can only call you back.” Jiji explained immediately.

She briefly explained the cause and process of the incident. Qin Tiange listened while staring at the expanding demon god.

In the space created in the laboratory, this terrible thing has begun to bear, and time and space have collapsed.

“Suppression!”

With one hand turned, the endless chaotic force poured out, directly suppressing the fragmented time and space.

Suddenly, the infinitely expanding demon God was suppressed and stopped growing, unable to continue.

Seeing this, Qin Tiange looked a little serious and wondered: “You have created a four-dimensional demon, and continue to grow?”

“Four dimensions?”

Du Jing and Li Jiajia were shocked. They are now in the primary stage of star master.

But I did not expect to create such a thing, the space-time four-dimensional, has not completed the casting yet, and continues to grow.

In other words, this thing is not a completed mature body, once it matures it will be terrifying.

“Unbelievable, you actually created the clone of that devil?” Qin Tiange looked surprised, a little incredible.

The terrible demon in the place of exile in the past was really terrible to him.

Some of the blood genes of the devil he kept were not able to make clones at first, because they had some taboo power to eliminate them directly.

However, I did not expect that they really succeeded in tinkering and completed the creation of an artificial demon avatar.

Yes, in Qin Tiange’s eyes, this demon is a trumpet avatar, able to draw from the main source of the demon and grow up.

How terrible it was, it was tantamount to another demon of that demon, it was scary and terrifying.

“Du Jing, what medicine did you make?” Qin Tiange immediately looked at Du Jing beside him.

After the latter came back from Qin Tiange, his eyes never left. Hearing this, Qiao Tiange’s unforgettable eyes could not help but panic.

“I, I just extracted and synthesized a brand new medicine from the longevity genes of various organisms, and it hasn’t been named yet.” Du Jing said a little bit.

After speaking, she also carefully looked at Qin Tiange and saw that he was not angry, and then continued: “As soon as this medicine came out, it resonated with those blood genes of the devil, as if the two wanted to merge.”

“That’s right, so we wondered if we tried it boldly, and it turned out to be something out of control.” Li Jiajia explained.

After listening to the explanations of the three, Qin Tiange basically understood that the reason was that Du Jing created a brand new medicine.

To put it plainly, this kind of medicine is extracted and synthesized from the genes of various races and various organisms, and is strictly a kind of gene medicine.

“Master, how do you deal with this thing, destroy it?” I asked, worriedly, watching the suppressed devil.

Qin Tiange laughed: “Destroyed? Why should it be destroyed? This is a rare opportunity.”

He said this with a hint of excitement, his eyes brightened, and he whispered, “Since this thing can grow from the essence of the devil’s origin, isn’t it the best way to extract the origin of the devil?”

Yes, Qin Tiange is thinking of stealing the origin of the terror demon in that exiled place.

You know, the horror of that demon is absolutely beyond the level of time and space, and the origin of this thing has stolen part of it in the past.

Now Qin Tiange is still thinking about it, thinking about how to continue to return to the place of exile and steal the origin of the demon god.

But now, looking at it, guys, they have created a demon avatar, and they can also draw the origin of the devil.

Isn’t this right?

“Master, do you want to use it as a tool for stealing, and continue to learn the origin of that mysterious demon?” Xi Ji suddenly realized, and looked at Qin Tiange in shock.

Perhaps such an amazing idea, only Qin Tiange dare to do it, and have the confidence to do it.

“Yes, this is an opportunity.” Qin Tiange eyes widened, staring at the demon faintly.

He said one word at a time: “If you think about it, if we have mastered the great origin of the demon and stealing it from end to end, wouldn’t it be possible to create a terrible demon army?”

hiss!

“You dare to think!”

Xun Ji could not help rolling his eyes, apparently shocked Qin Tiange’s thoughts, which was too horrifying.

Qin Tiange’s meaning is to take this opportunity to steal the power of the horrible demon ***** and create a powerful demon legion that can be controlled.

“I will block it here, and you will immediately find a way to draw on the growing source of the demon in this demon god, and continue to extract and store the strong and perfect demon gene in it.” Qin Tiange ordered.

Make a decision and implement it immediately. There is no objection at all. Naturally, no one will object.

As for Du Jing, he was only in Qin Tiange’s wholehearted execution of all his orders unconditionally ~ www.mtlnovel.com ~ Li Jiajia dare not oppose, let alone oppose, because everything belongs to the leader of Qin Tiange .

“Well, this matter has been temporarily resolved, and it’s up to you to look at it yourself.” Qin Tiange sealed the demon, and he was ready to leave after seeing no problem.

However, Du Jing said with disappointment: “Are you leaving again?”

Listening to her words, Qin Tiange looked at the lost Du Jing, his heart moved, and he smiled: “No, I’ll stay for a few days to avoid another accident.”

“I haven’t eaten together for a long time, let’s go, you are the chef today.” Qin Tiange haha said this with a laugh.

Du Jing was surprised, but muttered, “No harm, why am I the chef instead of you?”

“Well, don’t be poor, Jia Jia, I will stay and eat together. I will explain the meaning of space and time to you later.”

Qin Tiange said with a smile, Jiji, Li Jiajia, Du Jing’s eyes suddenly shine, time and space uprightness, that is the secret they want to end most.

Chapter 898 - Little fox, playful

In the Emperor’s Hall, four figures ate around the jade table, Qin Tiange stopped after taking two bites, and inexplicably sighed.

“Why, isn’t my food appetizing?”

Du Jing looked at him nervously. These meals were made by her own hands, but she devoted all her body and mind.

When I saw Qin Tiange’s expression, I couldn’t help feeling lost, wasn’t the food I cooked?

Qin Tiange laughed absurdly, explaining: “Nothing, the food you cook has already surpassed the top chefs and is delicious.”

“Then why are you ...” Du Jingqiao’s face appeared confused.

He shook his head and sighed, “I’m sighing, I haven’t had a real meal for a long time.”

Yes, Qin Tiange is actually feeling that he has n’t really eaten the home-cooked meal before a long time.

Because along the way, since there is no need to eat, it has been very few, and along with the engulfing of the strong men of all races, they continue to improve themselves.

By now, 60 trillion black hole cells in the body work together and still need food?

He didn't remember how long he hadn't eaten real food, but for a while he felt a little bit sad.

"Seriously, master, is Jiji eating with you for the first time?" Jiji said with a smile.

Qin Tiange said this for a moment, indeed, he never really had a meal with his own self.

Looking back, along the way, many familiar people have left the earth and even traveled to the unknown starry universe.

Until now, in the galaxy, Qin Tiange could not find the familiar atmosphere of Chen Xi and others.

In the galaxy, there is no Chen Xi them, that is, Chen Xi and they are not in the galaxy, which makes Qin Tiange worried.

"Yanji, you have the origin of the devil in your body. Do you want to rebuild your body with that deity's original gene?"

Qin Tiange cleared up his mood, then looked at Jiji seriously, she had the origin of the devil from the place of exile in her body.

Auntie, it is dangerous to transform himself with the original gene of that terrible demon.

Looking at Qin Tiange's seriousness, Ji Ji explained seriously: "Master, according to previous calculations, even if the original gene of the demon ***** is cloned to create a body, even the most advanced intelligent program currently cannot control the demon body."

"Perhaps, the master of your demon legion plan may die." Jiji carefully expressed his concerns.

There is a certain taboo power in that demon gene, which cannot be controlled by intelligent programs.

That is to say, even if one successfully creates each demon body, there is no consciousness of response to dominate control.

"Is that so?" Qin Tiange was silent, but in fact he didn't understand how powerful it was to a certain extent was a taboo.

Just like him, even if the blood gene cells are taken out, they cannot be cloned, but they are destroyed directly.

Because the cells contained in each drop of blood are black holes, once they break away, they will destroy themselves immediately when they are in danger.

Moreover, each cell has a complete idea of Qin Tiange and cannot be cloned.

"Let's try it for a while, if it doesn't work, then try another way."

The four were eating meals, which were rare and leisurely. Soon, it was time for Qin Tiange to explain the ups and downs of time and space.

In the palace of the Emperor, chaos pervaded the air, with four figures sitting cross-legged, Qin Tiange began to tell the secrets of time and space.

“So-called space-time, I understand it this way.”

Qin Tiange spoke slowly, recounting his own understanding and understanding of time and space, and conveyed it little by little.

He passed all the time and space meanings he realized to his uncle, Li Jiajia, and Du Jing.

This is to enable them to comprehend their own understandings of time and space, and even to let their own gods record it directly and spread it as a kind of preaching.

Inside the galaxy fortress, everyone can hear, and even gradually understand the secrets of time and space.

It is the first time Qin Tiange handed down such a deeper thing, and brought a kind of background precipitation to the entire system.

He needs a stronger team and a stronger ethnic group to support his future momentum.

In the future, the strength of the ethnic group must be able to have an invincible legion, and it must have sufficient heritage to deal with various crises.

It's not just that a person is strong. Even if Qin Tiange is strong, once he is dragged by a strong enemy.

If the entire ethnic group does not have any powerful power, it is tantamount to being easily wiped out. What kind of power is it?

Losing the entire ethnic group and the forces behind it, Qin Tiange is a loser, no matter how strong he is, because he has no ethnic group and no foundation.

Three days have passed, and everyone is still immersed in that wonderful understanding and secrets of the esoteric space-time realm.

Many people simply do not understand ignorance or even what it is, but some scientific and technical personnel have a deeper understanding.

Even with Qin Tiange's passing down the time and space details, many scientific and technological personnel have opened a door to science and technology leading to time and space.

Regardless of cultivation or technology, the two are actually the same in essence, that is, to touch the power of space and time.

Only by manipulating the power of time and space can we spy on the secrets of time and space and even step into a higher level.

Among the hundreds of stars in the sky, each of the major imperial royal families has a capability and technology to touch the space and time field.

This is the sedimentary heritage of various races. The time and space-level strong can be regarded as a kind of pride and heritage, and the technology of space-time is the true precipitation and powerful deterrence.

Only with the technology of mastering space-time forces can we maintain the security of our clan and act as a deterrent.

Even some powerful races have mastered technology beyond the level of space-time, which is called taboo technology.

A race that has mastered taboo technology can be regarded as a galaxy hegemon, respected status, and even have a fearsome taboo technology.

This technology and ability is not easy to use, it will be activated at the critical moment of extermination, because the cost is too high.

The earth's human race is too weak, and even space-time technology is just beginning to cover this field.

More needs to be explored and discovered, to deposit the kind of technological heritage belonging to the earth's peoples, and build a deterrent.

Just like in the previous world, nuclear weapons are deterrence technology, and now in the era of the Xinghe hundred races, the deterrent force is not so simple.

If you want to be strong, you must first be strong, and you must have powerful power and technology that are sufficient to deter all ethnic groups.

"It turns out that this is the time and space meaning?"

For a long time, Jiji woke up quietly, his eyes revealing endless mysteries, as if he understood the mysteries of time and space.

She looked surprised, and then said, "Master, it seems that we have a long way to go, the details of time and space, and even more advanced deterrent technologies have not yet taken shape."

Qin Tiange gave his head a sentence: "This is the road that must be taken. It belongs to the deterrent force of the peoples of our planet. Speed up the construction and exploration."

"Understood, but, what is the real deterrent?" Xi Ji said with a sigh.

She was a bit bitter: "Even if we have mastered space-time technology now, and even more advanced terrible taboo technology, as we go further, we will find that these forces are not enough."

"Since it's not enough, you should continue to explore, accumulate more technology and heritage, different levels, and different strengths. You must distinguish clearly." Qin Tiange cautioned her seriously.

I am more and more bold, and some even do not put my life first.

For example, she was so bold that she wanted to control the power of that terrible demon, and even had to transform it. This was Qin Tiange's most satisfied and helpless point.

"Anna!" Bian Ji blinked with a playful wink and laughed, "My master, for so many years, have you not known your little sister?"

“Naughty!” Qin Tiange scolded and looked at Du Jing and Li Jiajia who were still comprehending, knowing that they should leave.

“Is the master going?” Jiji was dismayed, knowing him best after all, the AI of Jiji.

Qin Tiange nodded slowly and said softly, “Our resources are not large, and the number of time houses is accelerating. We must build a large time domain to accelerate the improvement of technology and overall strength.”

“Time spar is not enough, so grab it. The ethnic groups on the continent of Tianhe are very rich.” Qin Tiange finished, revealing a cold sense of killing.

This is to grab resources from various ethnic groups, strengthen their heritage and strength, and accelerate the growth of overall strength.

“Understood, my master.” Jiji took a solemn order, then snuggled up playfully.

Qin Tiange shook his head and smiled bitterly: “Well, I’m leaving for a while, and I’ll leave it here to you. I’ll send you a message.”

She said diligently, “Master, Xiaoxi has been unwilling to you.”

With his big watery eyes and infinite charm, a man couldn’t help it.

Huh!

Suddenly, she saw Qin Tiange take a quick kiss, her figure disappeared without a trace, leaving only a series of crisp laughter.

“Giggle ... Master, Xiaoxi is waiting for you at home, isn’t it!”

Listening to the crisp laughter, Qin Tiange’s mouth twitched, and he couldn’t laugh or cry, this uncle became more and more unbearable.

“This little fox ...” Qin Tiange shook his head with a bitter smile, glanced at Du Jing and Li Jiajia, and waved them back to their respective places.

He stepped into the extraterrestrial starry sky, looking down at the current solar system fortress. The dense starships and fortresses drove out and shuttled through the dark and cold universe.

Those are the major expeditions from the earth’s peoples, or some teams that voluntarily explore the starry sky. They are not afraid of danger and death, and open up the starry sky for the earth’s peoples.

Qin Tiange looked for a while, and was about to turn around and leave ~ www.mtlnovel.com ~ but stopped suddenly. Hum!

There was a mysterious wave suddenly heard in the sea. It was a call from afar, very mysterious.

“Hmm? This is ... the idea of Shangguan Xianer’s help?”

Qin Tiange’s eyes were condensed, and a ray of spiritual fluctuations came from the sea of knowledge, which was the spiritual idea of Shangguan Xianer, which was left before leaving in the past.

This is for the convenience of contact, but never thought that there was now a wave of calls for help.

“Shangguan Xianer asks for help, isn't it ...” Qin Tiange seemed to remember something, his eyes were cold.

“Li Luo, come and see me.”

Qin Tiange suddenly tore open time and space, and as soon as his voice fell, Li Luo flashed out of the cracks in time and space and came to the front.

“Go, follow me to the Fairy Nebula.”

Not much nonsense, Qin Tiange tore open the space-time tunnel, walked directly into it with Li Luo, and disappeared into the galaxy.

Chapter 899 - verdict

The Fairy Nebula. Since Qin Tiange left, the new emperors of various ethnic groups here have begun to control the power of their ethnic group.

And those who have come back alive are strong generations of young people who have become ancestors of their own civilization and have begun to unite consciously.

Over time, it formed a huge alliance, the fairy league, an extremely large alliance.

The fairy genus was about to decline, but soon after Shangguan Xianer returned, he broke through the space-time level.

In succession, two space-time powerhouses were born, which inspired the whole fairy family, and even their luck became more and more magnificent.

Out of the control of the heart of civilization, the great emperors of the Fairy Nebula seem to have emerged a lot of powerful overnight.

The rise of a new generation of powerhouses, especially some new emperors, broke through the space-time level one by one and stepped into this space-time area.

However, it was precisely because the races of the Fairy Nebula were out of control that they even killed a galaxy order monitor.

This has laid the root of trouble. The orderer, as the governor of the galaxy in the court of life, suddenly died.

In addition, all the races of the Fairy Nebula out of the control of the heart of civilization, naturally attracted the attention of the court.

The strong families of the Fairy Nebula, which should have flourished, suddenly ushered in a bad news.

The entire Fairy Nebula is shrouded in a haze of fear, because the galaxy is shrouded in isolation by a force.

From the perspective of the starry universe, the Fairy Nebula is completely shrouded in a mysterious force, shining brightly and lighting up the dark universe starry sky.

“what is that?”

Out of the space-time tunnel, Qin Tiange and Li Luo looked at the distant galaxy in suspicion.

There is the Milky Way’s nearest fairy galaxy, and its surface is shrouded by a hazy light, blocking everything.

Even in time and space, they have been isolated and imprisoned. It is extremely strange and looks like a prison cage.

“That was time and space isolation. The fairy galaxy was blocked by inexplicable forces and blocked.”

Qin Tiange frowned and looked at the isolated galaxy from afar. Guessing came true.

He ripped apart time and space, stepped in with Luo Luo, and reached the edge of the fairy galaxy in a blink of an eye.

From this point of view, the entire galaxy is covered with a layer of mysterious power, forming an absolute imprisoned realm, separated from time and space.

What is even more incredible is to isolate the entire Fairy Nebula and completely ban it. What kind of force is needed?

As far as Qin Tiange is concerned, he can only block off one-third of the Fairy Nebula, but not all.

This is scary. Who is it that isolates the fairy nebula?

“Huang, look!” Li Luo suddenly pointed at the center of the fairy galaxy, where a light source of energy floated.

All the power of isolation comes from that group of light sources, bright and boundless, as if the light from the billions of super suns blooms.

Qin Tiange’s pupils shrank, staring there, and seeing something through the intense light source.

It was a book page, emitting hundreds of millions of times more light than the sun, mysterious and terrifying.

It is this book page that completely envelops the entire fairy nebula, and forbids it into an absolute field, forming a galaxy cage.

“That’s the power of the court of life.” Qin Tiange said to himself, seeing through a little information from the book’s pages.

It was a means from the court of life, and the pages of that book revealed an unquestionable, divine power.

“Go, go ahead and ask Shangguan Fairy what is going on.” Qin Tiange thought for a while and finally decided to enter the Fairy Nebula first.

Although it is blocked here, don’t forget that Qin Tiange cannot be blocked by any time and space.

He is a gate of time and space. The power of time and space is invalid to him. Naturally, he is not afraid of this force of isolation and forbiddenness.

Wow!

With a ripple, Qin Tiange and Li Luo both passed through the blockade force and entered the fairy nebula.

Another flash, in a blink of an eye, the two came to the most central star field of the Fairy Nebula, which is the territory of the Fairy tribe.

“who!”

Just after coming out, Qin Tiange and Li Luo were soon discovered by the fairy strongmen because they did not hide their figures and breath.

For a moment, a powerful figure emerged directly, blocking Qin Tiange and Li Luo in front of them.

The comer saw Qin Tiange for a moment, then suddenly realized that he understood something.

“Where’s Xianer?” Qin Tiange looked at the person and asked softly.

This old lady is a personal guard who used to follow Shangguan Xianer in the past, and has now successfully entered the realm of space and time.

Of course, I just realized the one-dimensional power. When I saw Qin Tiange’s natural understanding, I suddenly realized that after hearing this.

“My son, follow me, the emperor has invited me!”

The old lady bowed gently, very respectfully, and did not dare to do anything at all, because she felt a throbbing heart in her heart.

From Qin Tiange, she smelled the death threat, and she was shocked. Even if she became a space-time class, she could smell the strong death threat when she stepped into the space-time realm, which is really terrible.

The old man brought Qin Tiange and Liluo directly to the fairy queen’s palace and saw Shangguan Xian’er, who was dignified and deep-eyed.

“Brother Qin, are you here?”

When seeing the arrival of Qin Tiange, Shangguan Xianer suddenly stood up, a surprise appeared on Qiao’s face.

She didn’t expect Qin Tiange to come, and she came so fast. She just sent a distress signal, and the other party arrived the next moment.

This surprised and moved Shangguan Xianer’s heart. After all, a mysterious strongman like Qin Tiange is difficult to be moved.

“Tell me, what’s that?” Qin Tiange opened the door to the mountain and pointed to the mysterious book page floating above the fairy nebula.

Shangguan Xianer looked dignified, staring at the floating scroll and suppressing it over the fairies.

She said verbatim: “Brother Qin, that’s the verdict from the court of life.”

“The ruling?” Qin Tiange’s pupils froze, his eyes flashed, and he came to understand.

That mysterious book page is the ruling from the Court of Life, which contains the content of the rulings on the Fairy Nebula.

“Disrupting the order of the universe, blatantly provoking the laws of life, all the civilization leaders of all the fairy nebulae, the emperor, went to the interim court within three days for investigation and trial.”

The ruling, conveying such a ruling signal, ordered that the civilization leaders, the emperor of the fairy nebula, must go to the interim court for investigation and trial within three days.

If the expiry date is not reached, then it is directly regarded as a resistance to the law of life and can be directly tried.

As for what the trial is, of course, it is to obliterate the emperor of various ethnic groups and re-select a new obedient emperor.

“Brother Qin, it seems that you are right. Our civilizations are really the poor worms raised in the court of life.” Shangguan Xian’er looked very angry and unwilling.

As soon as the verdict was reached, the entire Fairy Nebula was isolated, and time and space were banned. Even the strong men who just broke through the space-time level of Shangguan Xianer could not escape.

“Uh, by the way, how did you come from Brother Qin?” Xianguan Xianer suddenly came to his senses and suddenly woke up.

There was a hint of suspicion in her cheeky face. Looking at Qin Tiange and Li Luo, the place had been blocked. How did they come?

Although she wore a distress signal before, she was thinking that Qin Tiange would find a way to open the blockade.

However, Qin Tiange did not expect to come directly to her, and even seemed to pass through the power of the blockade.

“It’s banned in time and space, what’s the problem?” Qin Tiange said indifferently.

This remark made Shangguan Xian’er and the old lady speechless and shocked. The time and space can’t stop it. How strong is he?

Only then did they realize that Qin Tiange was far beyond their original predictions and could not even guess how strong they were.

“The court of life has begun, it seems that the races of the fairy nebula out of control have touched the taboos of the court of life.” Qin Tiange said to himself.

He stared at the ruling, thinking quickly, and soon he made a decision.

“Xianer, I ask you, do you want to run away with the fairy tribes, or do you want to fight the life court, this mysterious institution for a while?”

Qin Tiange looked at Shangguan Xian'er and asked with a serious face, making Shangguan Xian'er feel a little bit silent, and he quickly measured it in his heart.

Not long after, she made a decision, looked at Qin Tiange, and finally said: “Brother Qin can come, I am very happy, Brother Qin wants to do what, Xianer must give his family to help.”

“Very good!” Qin Tiange nodded with a smile and said, “You have this kind of heart. I'm here to spy on the true secrets of the court of life. As for your people, you should arrange it properly before it is affected. “

“Okay, I'll arrange it right away!”

Shangguan Xianer was very popular and went straight to make arrangements for the entire fairy genre as a whole.

She knew that Qin Tiangelai would definitely have to face the court of life. In this case, follow him to take a look at the power and secrets of this terrorist organization.

Since the face is torn, there is nothing to say, there is only one battle and see what happens.

“Xianer, if you want to participate in the news, if you want to participate, then come to discuss, we are going to the interim court to see if there is a secret in this so-called life court?”

In the end, Qin Tiange expressed his plan to go to the so-called interim life court, where a trial court was established.

It is temporary. It is for the trial of the emperors of the Great Nebula. This is a means of life court to control the civilizations of all the galaxies in the universe.

Until now, I do n't know where I want to escape, because the entire universe is under the supervision of the court of life ~ www.mtlnovel.com ~ Only to rise up and resist, maybe there is a silver lining, otherwise, sooner or later will be destroyed clean.

Three days passed in a flash. On this day, Qin Tiange suddenly opened his eyes and looked deep into the space.

“Are you here?”

Hum!

As the voice just came down, suddenly, a mysterious wave spread throughout the Fairy Nebula, and all races were frightened, watching the ruling suddenly burst into a stronger light.

There is a space-time passage leading to a mysterious space-time, showing a burst of horror, full of majesty.

“Time is up, the leaders of all ethnic groups, the emperor, come quickly to be investigated and await trial!”

“If you don’t come, kill without amnesty!”

In space and time, a word of indifference and coldness suddenly passed down, revealing a kind of high-down view, as if the supreme ***** was judging all beings.

Chapter 900 - Judge

In the depths of time and space, a vast temple stands high in the mezzanine of time and space. It is full of light and exudes a supreme sacred breath.

A space-time passage extends here, and in the dimness, hundreds of silhouettes can be seen coming along the passage.

These people are the rulers of all civilizations in the Fairy Nebula.

They couldn’t resist, because the Fairy galaxies were all isolated and completely cut off the possibility of escape.

“Life Provisional Court?”

In front of the shrine, a group of people came and looked up at the horror shrine in front of them, which depicted two huge fonts and judged!

Among the crowd, Qin Tiange and Li Luo silently looked at the temple of judgment and felt a strong blockade.

He felt that anyone who entered the temple would be blocked by the temple, which is equivalent to actively entering a horrible prison cage.

“Life court, how do you want to judge us?”

“This is pushing our civilizations to death.”

“Did you just recognize it like this?”

Hundreds of civilization leaders and emperors of all ethnic groups have ugly faces, and some even seem extremely unwilling.

Is it really willing to be judged by the life court?

“Well, let’s go, can we still resist?” Someone shook his head with a sigh and walked into the temple door first.

Immediately, other civilization leaders and emperors of various ethnic groups stepped into them one after another and had no choice.

“Life court, this time, I want to see the true features under your veil.” Qin Tiange flashed the thought in his heart and stepped into it.

boom!

When stepping into the temple, I felt a horrible pressure sweeping through, and then the chain of time and space order coiled around.

At the moment of clapping, hundreds of civilized emperors of all nationalities were locked on the spot by the order of time and space. Both hands and horns were put on the chain of time and space order.

Everyone looked wild, and felt that their internal strength was suddenly blocked and imprisoned, and even the dimensional power of time and space disappeared without trace.

Time and space were banned, and this group of hundreds of civilization emperors from the Fairy Nebula was completely cut off.

Even though Shangguan Xianer was blocked, her face changed slightly, knowing that if there was no accident this time, she would really plant it.

But when she looked at Qin Tian for spoofing, she was surprised to find that the latter did not have any blocked items at all.

Any entangled chain of time and space order was melted and absorbed as much as possible, and completely consumed.

“Life is supreme, instead of law enforcement!”

Suddenly, a faint voice came, awakening hundreds of civilized and ethnic emperors in panic.

They lifted their eyes and saw above the center of the main hall, a tall figure sitting high, with a hazy figure, shrouded in mist, not real.

That person is the judge of the life court!

Behind the judge, stood a row of people, all like statues, misty, unclear.

The breath of each of them is extremely terrifying. The weakest one is the three-dimensional strong in time and space, and the strongest is even the six-dimensional strong in time and space.

On both sides of the hall, there are also two neat rows of figures, each holding a strange weapon in both hands.

It was a staff of rulings, full of killing intentions, and showing a horrific killing intention. This was a group of adjudicators.

“Wait, you know sin?”

An indifferent question came, and everyone looked at the tall figure, and the judge said.

In the fog, a pair of cold eyes glanced across the crowd, and finally stopped on Qin Tiange and Li Luo.

“Huh?” The judge said in surprise, watching that Qin Tiange and Li Luo were not blocked by the order suppression in the hall of trial.

This incident aroused the attention and suspicion of the judges. The adjudicators on both sides of the hall turned suddenly and stared at Qin Tiange and Li Luo.

“You don’t belong to the Fairy Nebula, whoever comes, who breaks into the Supreme Court of Justice and wins!”

Although the judge was suspicious, he gave a stern order. With a wave of his hand, he saw dozens of powerful judges rushing directly to Qin Tiange and Li Luo and surrounded them.

Sudden changes caused everyone in the scene to be frightened and looked at Qin Tiange and Li Luo, surrounded by dozens of judges.

But Qin Tiange's complexion has been very calm, his eyes gazing at the judge in the hall quietly.

"The court of life, shepherds the stars, it seems that your court of life wants to kill the growth of the nations."

Qin Tiange said to himself, Sen Leng's tone seemed to come from the gloomy wind of Jiuyou, which caused hundreds of emperors to take a nap.

"presumptuous!"

Dozens of arbitrators yelled in unison, bursting out a terrible killing intention, waving the ruling rod, and hitting Qin Tiange and Li Luo directly.

A total of thirty space-time arbiters, combined with a blow, with the power of time and space, seemed to be able to rule all rebellion.

At the moment when everyone thought Qin Tiange was killed, a sneer of smirk appeared on his face, and suddenly a terrifying force broke out in his body.

boom!

With a loud noise, dozens of forces exploded, and dozens of adjudicators flew out with their adjudicating rods and hit the walls on both sides of the hall, making a rumbling sound.

Those judges, their bodies were shattered and smashed all around, embedded in the walls of the hall.

"what..."

A scream came, and a stern sorrow awakened everyone, only to find in horror that dozens of arbiters had been shot directly into the hall wall.

Moreover, their bodies were stuck there by a rod of judgment, nailed to the wall, and unable to escape.

The sound of pain and sorrow made them creepy. Dozens of time and space-level strongmen joined forces to strike, instead of being unable to help Qin Tiange, he was nailed to the hall by the rod of ruling.

Horror, thriller!

Not to mention the stunned hundreds of civilization emperors of various ethnic groups, even the judges suddenly stood up, their original indifferent faces moved.

"Disrupting the court order, are you challenging the laws of life?" The judge's tone was cold, with a murderous gesture, and his breath was permeated.

Judges are terrifying, and their strength is so terrifying, there are various levels of chaos in space and time around them.

With the power of the judgment hall, the judges are even more terrifying, as if they are supremely invincible, making them unable to resist.

“Eight dimensions of space and time ... Judge, is this your strength?” Qin Tiange’s eyes glowed with dim light, and he said the secret word by word.

The judge is actually a powerful man in eight dimensions, and it is no wonder that it is so horrifying.

“Eight-dimensional Eight-dimensional Strong?”

Shangguan Xianer, Nalan Feiyu and other civilization emperors have no change in color. You must know that they have just broken through the space-time level.

Now, not to mention the judges as the eight-dimensional power of time and space, let’s say that the dozens of arbiters nailed by the rod of adjudication in the hall are all three-dimensional powers of time and space.

At this moment, talents such as Shangguan Xianer found out that Qin Tiange’s strength was far beyond their imagination.

“The smell of the human race comes from the remnants of the human race. You dare to disrupt the order of the court of life. It seems that your human race should be completely wiped out of the universe.” The judge’s voice was stern and piercing.

He could see that Qin Tiange and Liluo had the smell of humanity, the one who ruled the universe in the past and ordered the people of all races.

Unexpectedly, the trial of the civilization emperor of all races in the Fairy Nebula today has attracted this human race.

“However, you dare to enter the hall of judgment, doomed to your end.” The judge suddenly sneered.

I saw him gently raise his hand, the whole hall of the trial rumbling, and disappeared in time and space.

Seeing here, all the emperors of all races in the hall, without exception, showed a look of fear.

“It’s over, we’re completely over.”

Hundreds of emperors of all races were afraid and had to be afraid, because the hall of judgment had disappeared in time and space.

No one knows where they are, except that they are now lambs to be slaughtered.

The only calm thing was Qin Tiange and Li Luo, glanced at the time and space scene disappearing around, not panic.

“Now you can die.”

After doing this, the judge brought a sneer to step by step towards Qin Tiange and Li Luo.

He was released in full breath, pressing hundreds of civilized and racial emperors back together, his face horrified.

Judge, let's do it yourself. Can Qin Tiange cope with the powerful judge in eight dimensions?

“Li Luo, kill all the judges and suppress their true spirit.”

Seeing that the judge was coming, he was about to start, but Qin Tiange suddenly spoke a light command.

“Yes!” Li Luo simply neatly, disappeared without a reply.

boom!

Suddenly there was a muffled sound, and in the hall of judgment, one after another, the powerful adjudicator was directly broken by a chaotic glazed light, and the true spirit snarled.

Liluo was beaten by hundreds of adjudicators, killing them one by one, with a single punch and a punch.

Every time a verifier is killed, Li Luo directly suppresses the opponent's true spirit and seals it up.

“Bold!”

Seeing this, the judge was outraged, snarled, and was about to start, but as soon as the figure appeared before him, he blocked the way.

The person who came was Qin Tiange. There was no nonsense, and he was punched in the past.

boom!

The unremarkable punch, however, caused the judge to be struck by lightning like

With a look of astonishment, he stood up and stared at Qin Tiange, saying, “Your strength, even ...”

“kill!”

Without waiting for him to finish, Qin Tiange sighed and waved his fist, killing him with chaos in the sky.

The Xeon punch was full of violent and barbaric power, and time and space could not stop that gray fist.

The barriers of time and space in front of the judge were penetrated layer by layer, and they continued to collapse. The strong threat caused his pupils to shrink sharply.

“Trial!”

Endangering the moment, the judge snarled, and a volume of books appeared behind him, sweeping endlessly.

That book was quaint and mysterious, with a mysterious breath, exuding the light of heaven, like a supreme god, and struck Qin Tiange's body with all the power of judgment.
