

Dark Ages 911

Chapter 911 - I am invincible, never die!

Bang!

On the starry sky, a large meteorite belt exploded, and there was a huge crowd of giants.

A giant roared, stepped on the starry sky, and rushed wildly, like walking on the ground.

The power of the star giant is obvious to all, not to mention the physical strength, this family is even more belligerent.

“Roar...!”

A sudden roar came, and a huge starry giant stepped on a huge meteorite. His body was full of oppression.

He roared at the starry sky: “Human races, all weak chickens, follow me and tear up human races.”

“Roar...”

Behind it, the endless starry sky giant roared, and the fierce momentum shook the starry sky.

Hundreds of billions of starry giants were killed, really fierce and horrible, but the leader’s words made the opposite people a little angry.

“Dare to say that our people are weak chickens?”

“Brothers, turn on Space Warframe mode and tear up these limbed guys.”

Terran, a general roared, issued an order, and instantly turned on the mech space combat mode.

With a bang, countless mechas disintegrated, and instantly turned into larger fighters.

That is the space fighter mech mode, huge and unmatched, hundreds of feet high, the largest can be thousands of feet high.

This is the powerful technology of the earth’s peoples. Mecha is a method of subsidizing combat and is extremely powerful.

“Spacetime particle light blade, kill!”

The general, headed by howling, pulled out the time-light particle light blade and slashed with a knife.

哐 Dang!

The two giants killed together and instantly smashed the surrounding meteorite. One giant meteorite collapsed and was cut by the sword.

Huge mechs, giants, and the two fought together in a fierce battle.

With a bang, an endless amount of mecha was poured into the large meteorite belt, and it immediately collided with the star giant.

The interstellar war is fought with the number of people and powerful weapons and equipment, and a variety of scientific and technological weapons are emerging endlessly.

Human race is not only powerful, but technology is also a powerful manifestation.

boom!

Fighting, the mech warrior suddenly blasted an antimatter bomb, smashing giants on the spot and crushing them completely.

“Human race chicken, die!”

A starry giant roared, chuckled, and tore up a mech, killing the inside.

Many mechs were blasted above the stars, and the deaths of soldiers were inevitable. The fierce star wars and the hundreds of millions of legionary wars had the worst casualties.

Not only the human race, but the starry sky giant, a giant corpse hangs on the starry sky, and the broken body floats in the dark universe.

“Human race, too weak.”

“Some useless iron golems, the **** of the Zhixing tribe.”

“kill!”

Many giants in the sky laughed wildly, breaking up one machine after another, and looked extremely mad.

Outside the galaxy, inside the meteorite belt, countless humanoid mech warriors fight in blood, persevere, the war will burn, and they will kill each other.

It is a contempt to listen to the arrogant remarks of the star giants, even to humiliate the human soldiers.

“Who says we are weak?”

A roar came, and thousands of tall mechs came across the sky, one stepped on the body of a star giant, and lifted the blade of the sword to cut the giant’s head.

He held up the light-time blade and snarled, “Brothers, let these starry giants see. My human dignity cannot be trampled on.”

“Those who commit my tribe will be beaten!”

“Kill kill!”

“No blood sheds, no truce!”

A roar came, and the human warrior was enraged, in the dark jungle of hundreds of stars and universes.

Racial glory is not allowed to be trampled, and the dignity of the human race cannot be trampled by foreign races. This is what the soldiers want to guard.

Human race, that is a whole, a glory, the glory of the ancestry that has been passed down for countless times, cannot be trampled on.

boom!

On the starry sky, countless humanoid mechs roared, and powerful fighting erupted. The mechas seemed to turn into their own bodies, enhancing their original combat power.

That kind of strong warfare, unyielding will, burning the raging fire, killed the star giant again and again to collapse.

Terran, weak?

Human race, not weaker than others, no race can subdue the human race, because the blood will will not allow them to surrender.

The dignity beat down by the ancestors of all ages, and the indelible will passed down from time to time, cannot be easily insulted.

“what...”

“Roar, Terran, you look for death!”

There were countless screams coming from the starry sky, and the roar was intertwined, and countless starry giants were beaten in a row, and died on the starry sky.

However, the human race is getting more and more brave, as if they are not afraid of death, they are not afraid of death at all, and everyone kills life and death together.

On the battlefield, there is inevitably fear in the heart before the battlefield, but once the war begins, everyone forgets the fear, and only the war and anger are burning in flames.

The star giant, the blue blood tribe, and the two tribes are united internally and externally. They were suppressed by the human race, unable to break the human army's blockade.

Even if the battle is dead, the human race will not budge. Since it is an enemy, it can only survive by killing the other party.

“Human race, can it still rise?”

Looking at the crazy people, whether it is the commander of the star giant, or the emperor of the blue blood, they are all moved.

The indomitable will, the indomitable will, the immortal warfare, as if the former overlord who dominates the universe, is back.

“Hateful people, you can't kill any way.”

The blue blood clan emperor's gloomy face, watching the major human corps constantly besieged, the blue blood corps was destroyed.

Seeing the blue blood tribe's ancestral land fall a little bit, the blue blood tribe emperor was furious and thrilled, and smelled the threat of extermination.

The human race is terrible. It is not only impossible to extinct, but even the will to fight is to horrify the nations.

Once the people are united and turned into a whole, it is an extremely horrible race with high warfare.

Just like at this moment, the main army of ten human races stormed the ancestral land of the blue blood tribe, and captured the stars of some central galaxies of the blue blood tribe.

Gradually, the blue blood tribe showed signs of collapse, and even if the human race died as many soldiers, they could not stop their determination to attack the blue blood tribe.

This is the first galaxy expedition. It is exactly the kind of opportunity to erect the indomitable warfare of the Huaxia people. Once it shrinks, it may lose its chance of rising in the future.

War is cruel, but the immortal will that comes out of it is the most critical.

The first battle of the human race into the sky cannot be lost, let alone retreat. The enemy must be destroyed to erect an invincible will.

“The major legions obey!”

Suddenly, all parties on the battlefield sent an order of ruthless killing, which was the voice of self-confidence.

She wore a battle armor and went to battle in person, directly picking out the space-time threat of the Star Giant.

I saw that she held up a bright red five-star battle flag, and her voice spread throughout the battlefield.

“The emperor is here. This battle will be won!”

As soon as the voice fell, I saw the galaxy, and suddenly an infinite amount of light bloomed, casting a huge shadow from the endless time and space.

Bang!

After a loud noise, the huge virtual shadow stood over the entire galaxy, looking down in all directions.

That was Qin Tiange, the Emperor’s projection, directly came to this battlefield, and personally supervised the battle.

“You, this battle, you can only win and you can’t lose, I am waiting for the triumph in the space-time battlefield!”

Qin Tiange’s eyes swept across the galaxy battlefield seriously, all the major legions, all soldiers boiled.

The emperor, the supreme leader, is difficult to see. At this moment, seeing Qin Tiange projecting himself and witnessing their battle, naturally caused a large area of morale boiling.

“The Emperor has orders, this battle will win!”

“kill!”

“I am invincible, never die!”

“I am invincible, never die!”

Qin Tiange's killing order was issued, and all the legions broke out, from the commander in chief to the soldiers, all participating in the war crazy.

The order transmitted by the Supreme Emperor was personally projected from the battlefield of time and space. It was Qin Tiange's will. The first battle of the human race to conquer the sky must be victory and invincible.

“kill!”

“My queen will be invincible with me!”

With a single battle flag, the major legions launched a more fierce attack. The blue blood and the starry giants have found in horror that the combat effectiveness of the human race has increased by more than 30% at this instant.

It is simply incredible that morale affects the combat effectiveness of the soldiers. At this moment, the overall combat effectiveness of the human race has increased by 30%.

It was the will of the highest leader of the human race, the emperor, Qin Tiange, respect and belief of countless people, and no one can replace it.

Because, Qin Tiange projected from the space-time battlefield, the body of that mighty shore exudes a strong imperial majesty.

Like the emperor's presence, it naturally caused countless warriors of human races to have high morale, soaring morale and soaring combat effectiveness.

“Do not!”

The screams came one after another, the blue blood tribe collapsed, the defense was completely occupied, stars were beaten down, and the blue blood tribe inside was crushed.

The human race, with the arrival of Emperor Qin Tiange's projection, immediately inspired infinite fighting power, and defeated the blue blood tribe.

“Roar...”

“Men, you will regret such a arrogant act.”

There are two powerful commanders roaring in the sky giant clan, and they even shot at Qin Tiange's emperor.

That is to say that his ghost is shattered and the morale of the human race is destroyed. He wants to influence the whole war. Unfortunately, his idea is very good and the reality is cruel.

The two and a half-step space-time commanders wanted to do something with the emperor Qin Tiange. Even if it was a ghost, they were not able to shake it.

“court death!”

Seeing the actions of the two star giant commanders angered countless strong men, Qin Tiange's virtual shadow stood proudly and remained motionless.

He didn't move, and there were countless strong human races rushing wildly, waving their swords, and killing the commanders of the two star giants.

On the battlefield in front of countless soldiers, if anyone can attack the emperor Qin Tiange, then what are these soldiers going to do?

“kill!”

Groups of strong people were provoked. Qin Tiange was the supreme leader, the Emperor Huaxia. Was it attacked before them?

With a bang, the two Star Giant commanders were miserable. They were besieged by dozens of star-level human race powerful men, and they flew together.

“Men, you must die!”

Suddenly, there were two terrible fluctuations from the Starry Giant Clan, which was the breath of the powerful in space and time.

Two space-time star giants were killed and shot directly at Qin Tiange’s projection, trying to break his projection and break the morale of the human race.

Huh!

At this moment, a rumbling spread across the galaxy, and saw a dark sword-man split the space-time, with the meaning of destruction, and immediately split into the two space-time giants.

Chapter 912 - Great crash, first victory

With a snapping sound, the black sword-mang, with the will to destroy, split the barriers of time and space and split on two space-time giants.

boom!

Suddenly a roar came, and two space-time giants retreated at the same time, with sword marks and blood on their bodies.

The two space-time giants were even split by a sword, and they couldn’t believe it, staring at a huge area with huge eyes.

“Who?”

A giant roared and looked very irritable, smashing the space with his arms.

I saw a man wearing a black sword robe step by step out of time and space. Wherever he went, the sword spirit cut off the dimension of time and space.

His body was full of swords of destruction, and the sound of swords screamed, breaking up the Quartet, extremely terrifying.

“My emperor’s holy face, how can Ronger wait for it?”

The comer’s tone was cold and cold, with a slaughter of slaughter and destruction, destroying the mighty sword, and swept the starry universe.

The Sword Demon came alone, and when he saw the two space-time star giants daring to shoot at Qin Tiange’s projection, it was simply death.

Qin Tiange, as Emperor of the People, rarely hits on the battlefield. In this way, it is tantamount to shame on the clan army and to make the clan powerless.

If the war at the legion level requires the hands of the emperor, what else do they need to do?

Moreover, the presence of the Emperor on the battlefield brought a kind of prestige and morale to the entire human army.

It's like a spiritual pillar. As long as he stands there, even a projection can bring endless morale.

But once Ren Huang's projection is attacked, the strong human race here will be ashamed of themselves.

When the Emperor comes, you can't protect each other. What face is there to survive?

"Poor Terran, die!"

The space-time giant starry sky howled, simply punched up directly, to kill the sage demon of the human race.

The strong punch was full of bursting meaning, destroying the sky, breaking the stars, breaking through the barriers of time and space.

The terrible punch even caused a huge wave of the sky, as if even this star field was going to burst.

"destroy!"

The sword demon's face was indifferent, and he spit out two words lightly, and swiped his fingers lightly, and saw that the heavenly sword gasified into a dark edge cut the universe starry sky.

The one-dimensional lines are intertwined, and the two-dimensional mirror surface condenses into a terrible sword.

The sword demon, a sword destroyed, was directly chopped in the fist of that giant, and clicked, and chopped up without hindrance.

"Ah," the giant screamed, his fists were split in half, his blood burst into the stars, and he quickly retreated.

A sword cut and wounded this space-time giant, and the sword demon became more and more intense. He was invincible throughout his life and destroyed Kendo to a terrible degree.

"Roar, die!"

At this moment, another space-time giant suddenly made a surprise attack, killing the sword demon in one shot.

Time and space are boiling, and there are explosions there, and the terrible storm of extinction is rolled up to drown the sword demon.

However, the sword demon didn't even look at it, step by step towards the starry giant he was stabbed by.

"The sword of the river is up!"

Suddenly, a faint murmur came from the depths of time and space, and saw the sky spreading from the sky and into a vast river of swords.

The Jianhe River is like a galaxy that runs through the starry sky for nine days, sweeping in all directions, and drowns the space-time star giant.

“Ah” In the sword river, the infinite sword spirit is vast, the turquoise sword spirit with unstoppable sharp edges, cutting everything.

That is the Qinglian sword spirit, the supreme killing move from the sword fairy Li Bai, the sword of the river, countless sword gases converge into the river through the starry sky.

In a blink of an eye, a loud roar came from Jianhe, and a giant was drowned in the endless Jianqi River.

Gradually, the giant was smashed with flesh and blood, leaving only a pair of Sensen bones floating in the sword river.

The space-time giant’s eyes were frightened, and the skeleton was smashed a little by the sky blue lotus sword spirit, and he couldn’t even escape the sword river.

In the end, this space-time giant was strangled in the sword river, and fell completely.

“Sword of Destruction!”

Suddenly a cold drink, saw the dark Jian Mang cut through time and space, and cracked down.

The last giant of time and space was stiff, and the flesh decayed and fell off. In the end, even the bones decayed and disappeared.

The powerful space-time powerhouses, two starry sky giants, were killed without resistance in the face of the two human race powerhouses.

“Men, let’s go to the battlefield of time and space.”

At this time, the sword demon and Li Bai who killed the two space-time giants saluted in front of Qin Tiange.

Then he simultaneously tore the barriers of time and space and directly entered the battlefield of time and space to help Qin Tiange defend his enemies.

Because Qin Tiange was on the battlefield of time and space, he encountered a large number of siege of time and space. Although it was fine, as a subordinate, he naturally had to worry about the emperor.

“Good!” Qin Tiange projected a slight nod, without refusing.

His body is in the battlefield of space-time, and is surrounded by dense crowds of space-time strongmen. Although it is not dangerous, it is also annoying.

He and Li Luo directly entered the space-time battlefield, which triggered a war of time and space. Naturally, I hoped that several subordinates would come to share it.

“The space-time giants of the star giant are dead, kill them all!”

At this moment, when two space-time giants were killed, the legions of all people immediately boiled, morale skyrocketed, and combat effectiveness skyrocketed.

At one time, the two main forces of the Star Giant were killed and defeated one after another. The fiasco has become a foregone conclusion.

Watching the terrible death of the two space-time classes of their clan, the commanders of the two star giants were finally frightened.

boom!

After a little distraction, the two commanders were miserable. Dozens of strong human races stormed and directly slashed the commanders of the two starry giant legions in the starry sky.

“what”

The scream screamed most of the starry sky, making the two main legion of the starry giant clan fearful.

The space-time strong was killed, and the commander went down. Seeing this, all the starry giants couldn't help panic, and morale plummeted.

In this way, the two main forces of the starry giant were defeated by the four legions of the human race.

One battle star after another was occupied, and the star giant inside was either killed or surrendered.

Or some unsatisfactory, directly opened the battle star to jump into the space and ran away, there was no star giant left in the blink of an eye.

Originally, the two main forces of the star giants came here to take advantage of the fishermen. Unfortunately, they were killed by the Terrans in turn.

Most of the giants in the starry sky died tragically, and a few of them fled, and some of them surrendered when they saw a bad situation.

At this point, the threat from the star giants outside the galaxy has been lifted.

The rest is the blue blood tribe. The entire ancestral land was stormed by ten human corps, and a starry sky was hit.

The stars fell, countless blue blood people died tragically, the master roared in horror, and the sound of the starry sky.

“Strangling blue blood!”

Suddenly, the projection of the proud emperor on the starry sky suddenly issued this order, ordering to hang the blue blood.

Suddenly, a total of fourteen huge legions slammed into the hinterland of the Blue Blood tribe, and the central star domain was completely occupied.

There are only dozens of planets left, and the blue blood ancestors guarding the blue blood tribe are dying, and the situation is at stake.

“Do not”

“Men, do you really want to kill my blue blood?”

Seeing that the Star Giant was killed, the blue blood tribe was afraid, and roared a little bit angry.

Especially those who are powerful in time and space are being besieged by a group of horrible demon gods.

The only one who hasn't shot yet is the blue blood clan emperor, staring at Qin Tiange's projection with a gloomy face.

He snarled word by word: "Everyone, come and fight with my own emperor."

The emperor of the blue blood tribe actually challenged the emperor Qin Tiange, which was a fight between the emperors.

The battle that belongs only to the emperor. The emperor has the dignity of the emperor. Even if he is killed, he must have the face that the emperor should have.

The emperor of the blue blood race rushed directly to challenge Qin Tiange.

This time, there was no obstruction of the human race because it was respect for Emperor Qin Tiange. After all, it was better for him to solve it.

"I want to die, then I will fulfill you."

Qin Tiange's projection swept the blue blood tribe imperially without any mood swings. Instead, he gently raised one hand and slowly patted it.

With a bang, the starry sky collapsed and time and space collapsed. Under that palm, even the material was annihilated and disappeared.

Qin Tiange's projection turned out to have such a terrifying power that made the blue blood emperor dumbfounded and completely scared.

There is only one projection, there is such a terrible power. With a single palm, the starry sky collapses, time and space collapse, and everything is extinct.

"If you don't want to, why?"

The blue-blooded emperor uttered a fierce growl, extremely unwilling, eyes widened, and the pale blue light burst out.

A loud bang came, and the blue-blooded emperor sublimated as much as possible, directly hitting his strongest blow.

The mighty Cang Yan swept the stars and slammed into Qin Tiange's palm, but the sound of a crunchy sound made Cang Yan collapse and dissipate instantly.

"It's too weak, let's die." Qin Tiange shook his head in disappointment, splitting with a single palm, and the crackling sound spread across the starry sky.

Everyone looked up in unison, and saw the blue blood royal body exploded and turned into the blue flesh scattered in the sky.

He died terribly, and was stabbed to death by Qin Tiange's palm, not even the chance of resistance and avoidance.

"The blue blood queen is dead, set foot on the blue blood!"

With the blue blood tribe's tragic death of the starry sky, Qin Tiange's voice spread throughout the galaxy, arousing the enthusiasm and cheers of the entire army's major legionnaires.

Suddenly, the blue blood tribe collapsed, and countless blue blood tribe strongmen and soldiers had no war heart and were directly crushed by the past.

The emperor is dead, and even the time and space-level details are not guaranteed. The howling dodge should deal with the terrible demon team hunting.

At this moment, the entire blue blood tribe was up and down in fear, and the defense collapsed.

“what”

“God!”

“I don't want to die!”

Countless screams spread throughout the starry universe. The blue blood tribe was brutally killed one by one, and a rebellious blue blood tribe force was ruthlessly destroyed.

The sorrowful sorrow, with unwilling roar, fell down one by one, and finally, the blue blood tribe fell to the ground and was completely defeated.

The Starry Giants, the Blue Bloods, and the inside and outside of the two races could not defeat the human race, and ended in a fierce defeat.

The Terrans conquered the Stars and Hundreds, and they won!

Chapter 913 - Terran, come back

Blue blood ancestor, on the huge planet, the remaining blue blood power is doing the final resistance.

“Kill! Kill! Kill!”

“Oath with the ancestor!”

The blue blood tribe is crazy, countless blue blood tribe strongmen, soldiers, without exception, are all crazy.

After the defeat, Zu Xing was under siege by the human race. Failure has become a foregone conclusion, but he is doing the final crazy fight.

Even the blue blood tribe and the human warrior died together, and the crazy counterattack broke out with the determination to co-exist with the ancestor.

It was terrible, and the last battle was quite terrible, because the strong and the inside of countless blue blood ancestors broke out.

boom!

A blue **** light erupted, and the last powerful heritage of the blue blood tribe appeared, a heritage inherited from the ancient era.

That power transcended time and space, as if to destroy everything, and the starry sky fell into collapse.

The terrible energy fluctuations caught Qin Tiange's attention, and the huge projection looked at it.

Hum!

I saw, above the blue blood ancestor, an ancient sacred idol suddenly gave endless blue light.

It was the statue of the ancestor of the blue blood tribe, which is rumored to be the first ancestor of the blue blood tribe.

He had a cold face, three eyes, and the third eye on his forehead revealed a terrible light of extinction.

It was the ancestral ***** of the blue blood tribe, Cang God, extremely mysterious and powerful, and even rumors that Cang God has not died yet and has transcended the boundaries of time and space.

The eye of Cangshen slowly opened, revealing a cold light of extinction, and swept directly across.

Everything that has been swept up by this extinct light is annihilated, and it looks terrible and amazing.

If this annihilating light sweeps through the human army, no one can stop it, it is simply the strongest killer.

“Cangshen?” Qin Tiange coldly hummed, the projection suddenly burst into a bright light, and the breath of the strong emperor was permeated.

Suddenly, a river of luck came through, and a terrible figure jumped out from it.

The human emperor's body came down and pressed directly on the blue blood tribe's ancestor, with a loud noise.

The light of annihilation exploded and was directly shattered directly by the emperor's body, and the powerful and invincible palm was split on top of that idol.

Hum!

The idol shook, and even slowly moved, his arms stretched fiercely, and an endless light of extinction gathered instantly.

The fists struck each other, the void collapsed, the Quartet was plunged into a great collapse, and everything was wiped out and disappeared.

One third of the entire Blue Blood ancestor disappeared without a trace and was erased by the collision of the two.

Click!

With a crisp sound, the terrible idol cracked, and then clicked and scattered, completely destroyed.

“You, my tribe, you are fine!”

A cloud of faint blue light floats inside the broken idol, exuding endless might, as if a supreme being is coming.

Qin Tiange's projection blended into the Emperor's body, staring indifferently at the increasingly powerful light group.

Humph!

With a cold hum, Qin Tiange dismissed: “A mere conviction, do you still want to be a mess?”

“Off!”

As soon as the words fell, Qin Tiange pointed out, the endless light shattered and dissipated on the spot, and the will and belief inside was instantly shredded into powder.

The suspected blue blood tribe’s oldest ancestor, Cang God, was annihilated on the spot by Qin Tiange.

Not to mention a belief, even if the ancestor came down in person, Qin Tiange may not be afraid of the other party.

“No ... patriarch!”

“Master God, please come down and destroy the human race.”

“Please, Lord Patriarch, save this family from danger.”

Many blue-blooded strong men are interwoven with grief and indignation, roaring inexplicably, as if calling for the true body of the ancestor ***** to come.

Unfortunately, no matter how they call and pray, there is no response, and there is no so-called ancestor ***** coming.

Until this moment, the final defense of the blue blood tribe ancestors was completely captured by the human race and broke into the blue blood tribe ancestors instantly.

The blue blood tribe ancestor, which has been erased by a third, has become a damaged planet, and the internal aura has collapsed and is useless.

“Annihilate all resistance, starting today, the Blue Blood tribe is removed from the Milky Way!”

Qin Tiange’s ruthless voice spread through the stars, making people’s major legions morale high and fighting spirit surging.

The blue blood tribe is defeated. The ancestral land belonging to the blue blood tribe is completely captured by the human race directly, which is equivalent to the victory of the first race of the earth against the starry sky.

Since then, no blue blood exists in the galaxy, because their ancestral land has been captured.

Qin Tiange didn’t care how many Blue Blood people died in this battle. He only cared about what was gained in this battle.

In this battle, how many soldiers of this clan have fallen. After this war, the overall strength and will of the clan will increase rapidly in all aspects.

This is a baptism of blood, cruel transformation, using war to honour the will of the people and regain the dignity of the people.

Bang!

With the collapse of the imperial city in the blue blood tribe's ancestors, the last batch of resistance was extinguished, declaring that the blue blood tribe was completely removed from the galaxy.

At this moment, all the major legions of the human race were silent, standing in the broken blue blood tribe ancestors, all silent.

The corpses of the ground are piled up into mountains, and on the stars, the bodies of countless blue blood people float in the universe.

Blood converges into a blue sea, floating on the stars, telling the glory of the blue blood tribe of the past.

Now, the glory is gone. The glory belonging to the blue blood tribe is completely erased from the galaxy by the human race.

As for whether other galaxies have the blue blood family, Qin Tiange doesn't care. He has already taken the first step and taken the earth people to take the first step in conquering the starry sky.

This step was a success. The human race was baptized and grew up on the countless corpses of a race.

“We, victory!”

boom!

With Qin Tiange's roar, shaking the entire galaxy, the fourteen human clan made a terrifying roar.

The wave of cheers for victory was higher than the waves, and countless humans cheered, shouted, their blood couldn't help boiling.

“Human race, win!”

“Human race, win!”

Stepping on the bones of the enemy has achieved the glory of victory. The hundreds of stars in the sky have conquered and the people have risen. What is needed is to walk on the bodies of other people.

Returning to the starry universe requires a price, not only paving the way for the corpses of various races, but also the countless warriors of the tribe who slap their heads to shed blood and willingly sacrifice to pave the way for the tribe.

Fourteen legions will have huge blowouts of strength after this war. All of them will be different after being baptized by war.

Not only here, in the galaxy fortress of the Earth, countless people watched the live broadcast of this interstellar war, and everyone couldn't help cheering when they saw the moment of victory.

The entire human race is in the boiling stage. Men and women, young and old, whether or not they have just integrated into the human race, are all excited and cheering.

Some ethnic groups even shed tears of excitement, especially those who were once enslaved, crying with excitement.

The human race has risen again. They have returned to their own race and witnessed their rise again.

Freedom, prosperity, prosperity, all these things can only be achieved by the entire human race as a whole.

“You tribe!”

At this point, on the broken battlefield, Qin Tiange’s Emperor’s body slowly spoke and said a word.

Suddenly, the entire human race, whether on the battlefield or in the fortress of the Earth’s galaxy, or the human race of the Chaos Continent in the Tianhe continent.

At this moment, everyone was quiet, silently looking at the emperor, with a lot of admiration and support in his heart.

“In the past, my people were hunted by hundreds of people and invaded our ancestral lands. Have you never forgotten these?”

Qin Tiange uttered this painful memory in a painful tone. The invasion of hundreds of people and the hunting of the human race became a game of adulthood.

How ironic it is to kill people to get the ceremony. The people are so weak that they are the targets of hunting by the hundreds.

He swept across the battlefield and yelled, “Now, the Blue Blood is removed from the Milky Way, and that is the end of my people.”

“Everyone who has hunted our human race will pay back one by one. The blue blood is the first, not the last.”

“The blood debts of the past must be repaid by hundreds of people. Lost glory and lost dignity must be taken back one by one.”

“One day, we will set foot on the ancestral land of the hundreds of people and regain the supreme dignity of the people!”

“Those who commit my tribe will be beaten!”

As soon as Qin Tiange’s words fell, he waved his hand to throw a battle flag. The bright red five-star red flag was inserted above the blue blood tribe’s ancestor, and it fluttered high, exuding iron blood and unyielding faith and war will.

The entire starry sky boiled, and countless people roared up in the sky, sending out an extremely **** roar, which made the veins burst.

“Roar....!”

“Human race! Human race! Human race!”

At this moment, the human race is jubilant and roaring, the immortal will is gathering, and the dignity belonging to the human race is gradually being taken back.

When the blue blood tribe died, it was completely eliminated from the galaxy, completely laying down the human race into the starry sky, and consolidating the belief of rising again.

Rumble ...

Over the galaxy, the weather gathers, and the blue blood belongs to the qi tribe. It is deprived by a mysterious force and directly swallows the long ethnic qi river.

The powerful fluctuations attracted the attention of all the ethnic groups in the sky, and inquired one after another, when they saw the blue blood tribe here, the various ethnic groups were shocked.

“Blue blood, have they been destroyed?”

“Human, are you back?”

The entire galaxy boiled instantly, and the great powers, some royal families, could not have imagined that the blue blood tribe was destroyed.

Moreover, it seems that the blue blood tribe is almost destroyed, even if there are not many blue blood surrendered.

The various ethnic groups were truly shocked by the news, and felt that a breath of breath was being forced to the strong ethnic groups in the galaxy.

It was the warfare that was reunited with the human race, and the indomitable will and indomitable warfare really thrilled all races.

Human race, once again on the starry sky stage, once again showed the indomitable warfare and immortal spirit of the human race.

The blue blood tribe was destroyed, and the five-star battle flag of the human race was flying on the ancestral ground.

Chapter 914 - Big one unified, the emperor returned

With the destruction of the Blue Blood tribe, the ancestral land was captured by the human race, and the human war flag was inserted, announcing that it had become the territory of the human race.

At this moment, the blue blood tribe was removed from the galaxy. The entire galaxy was shaken, and the human race even destroyed the blue blood tribe.

“Human race, an indestructible race!”

“They are back!”

“Order, shrink the star field, beware of the human race!”

In the galaxy, all the royal families were nervous, and they were shocked by the human race, which was obviously unexpected.

It just entered the four-dimensional starry sky, but it didn't take long for it to directly destroy the powerful royal family of the blue blood.

I have to say that the human race has aroused the vigilance and even movement of the galaxy's starry sky, and has begun to take precautions.

No matter how prepared and tense all races are, the Terran race has completed the first expedition into the starry sky, which is of great significance.

After the war, the news spread quickly across the galaxy's ancestors, that is, the ancestral lands of the tribe received this message.

"The tribe's ancestors have actually killed the blue blood tribe?"

"Are we finally going to rise?"

The major ancestors are boiling, and countless people are excited. They did not expect that the emperor of the ancestors and the land directly led the tribe to destroy the blue blood.

This is the star field that annexed the blue blood tribe, destroyed the blue blood tribe's foundation in the galaxy, and directly subverted this blue blood tribe ancestral land.

Since then, the galaxy no longer has a royal family of blue blood. In the future, the human race will continue the journey from here.

The news boiled the ancestors belonging to the human race, and even excited the people on the earth.

Gou Chen Zuxing, inside the palace, Gou Chen people looked at the starry sky.

"The emperor has accomplished a great cause, and since then, no one is invincible in the human race."

Gou Chen's face was complicated, and most of the candidates for the Emperor's Emperor fell down, remembering his past encounter with Ziwei Ancestor.

Had it not been for Qin Tiange's emperor, he would all have fallen down the same way, and now he has survived, but he no longer has the ambition to compete.

He couldn't compete with Qin Tiange, Ziwei Emperor, died in Qin Tiange's hands, he already knew this.

Now, I heard that the ancestral peoples led by Qin Tiange directly destroyed the blue blood tribe and successfully launched the first battle of the starry sky.

Among the human race, the emperor's most important thing is the prestige. Once someone has too high prestige and has overtaken other emperor candidates, then he can sit in that emperor's position without contention.

"Well, it looks like we have to make a choice."

With a sigh, Gou Chen made a decision directly, and he already had a clear choice in his heart.

At this time, if you still do n't understand the choices or even the clear form of scoring, then you really should be drowned by the general situation and buried by history.

"Order, link to the ancestors, and integrate into the ethnic orthodoxy."

With this order, countless people in the entire Gou Chen Zu first stayed, and then gave endless cheers.

Hundreds of billions of people continued to cheer, and it is conceivable how high Qin Tiange's prestige after the war was.

Looking at the people in the ancestral land cheering, Chen Chen smiled bitterly in his heart, and had to admit that he was not as good as Emperor Ziwei and even better than Qin Tiange.

“Go, return to the orthodoxy of this tribe, and regain the glory of the tribe!”

“Returning to orthodoxy, my human era is coming.”

“Another powerful emperor is on the rise, my family is hopeful!”

The major ancestral lands, the ancestral lands of the lost emperors, countless ethnic groups spontaneously organized, and began to seek integration and return to their orthodoxy.

They know that only by returning to orthodoxy can they be regarded as a perfect human race and can truly survive in the cruel starry sky.

At this moment, in the major ancestors, the first open purple MSI was missing, and the rest of the ancestors had already returned to their hearts.

As the ancestors’ desire to return to the ancestors became stronger and stronger, a powerful stream of luck came together, so that Qin Tiange Ming realized the mystery.

Those fortunes that have come together bring the expectations and desires of countless peoples in the ancestral lands, one by one, looking forward to returning to orthodoxy.

The fragmented human race finally ushered in a glimmer of hope of integration and unity, and a ray of hope dawned in the darkness of the stars.

“Order to accept the peoples of the great ancestors and welcome all people back.”

Qin Tiange’s imperial body immediately issued an order. Then, he directly communicated the long river of Qiyun, and saw the ancient ancestral land belonging to the human race along the source of Qiyun.

After seeing it, Qin Tiange wrote down the coordinates of these ancestral lands, and opened the space-time tunnel directly according to the source of air transportation.

boom!

The huge space-time tunnels connect the major ancestors of the human race. At that moment, the ancestors of the major ancestors who had already prepared, poured into the space-time tunnel and returned to their orthodoxy.

The people under Qin Tiange’s leadership deservedly became the orthodoxy of this era, and were recognized by the major ancestors.

Prestige can be replaced and surpassed, directly allowing the major ancestors to integrate voluntarily, return to their orthodoxy, and complete the great cause of unification.

“See my queen!”

“May, the human race is immortal, my lord is immortal!”

Suddenly, endless human races gathered on the battlefield of this galaxy that had just been fought.

Men and women, young and old, densely packed, endless, as if there is no end, there is no edge, no count.

This is the people from the major ancestors, all returned, even if the ancestors directly poured into the space-time tunnel and came here.

There are nine huge ancestors coming together, gathered there, and all excitedly worshipped the emperor's body in the starry sky.

That is sincere admiration and support from the heart. Only such emperors can lead the whole nation to be strong.

"Gouchen, willing to ** for my Real Madrid, open up territory for my people, and bow to death!"**

I saw that the only remaining candidate for the Emperor Chen came forward and solemnly swore.

"Will open up territory for my emperor!"

"No blood sheds, no truce!"

A loud roar shook the galaxy, shook the universe, and even caused a slight vibration of the Milky Way's central Tianhe continent.

It was an oath belonging to the human race. Countless people from all ancestors returned and solemnly swore to open up territory for the human race and to be loyal to the emperor.

"No courtesy!"

Qin Tiange waved his hand gently, and everyone was lifted up by a gentle force, all excited.

They looked with anticipation, looking at the emperor's body, full of admiration and support.

"Clan, welcome home!"

In a word, the hearts of tens of millions of people have been revealed. Many people can't help crying, and the people have been torn apart for a long time.

At this moment, it finally became one again, and became a huge whole, and it was really the same family.

"From today, the human race will take back the glory they lost in the past and recast the majesty of the human race."

"Human race, don't invade!"

"Those who commit my tribe, let him be stronger and farther, and vow to kill!"

Qin Tiange's ruthless words spread through the stars, attracting the cries of countless people, and the people who returned have finally found a sense of belonging.

At this moment, the people are officially unified, and there is no longer a candidate for the Emperor. The only Emperor is Qin Tiange.

"Emperor! Emperor! Emperor!"

A loud roar filled the galaxy, and the Milky Way galaxy produced a turbulence and thrills of all races.

The human race is unified and reunited, and the terrible will that bursts out can shake Xingyue and Xinghe.

The rumbling noises continued to spread throughout the galaxy, and the royal families were panicking, speculating what happened, did the Terrans start to fight again?

But soon, all the ethnic groups understood that the ancestors of the human race were unified and achieved unity, and a powerful emperor was born.

“The Emperor is born!”

“This emperor will inevitably roll up the blood of the starry sky. All races can’t avoid it. I have smelled a **** killing breath.”

The emperors of all ethnic groups moved in unison, and some powerful men had already smelled the terrible killing and were brewing.

The unity of the human race means that the emperor has been born, and the strength of this emperor disturbs all races.

The blue blood tribe is a ***** wake-up call, which gives the starry hundred people a heavy stick to drink, wakes the starry hundred people, and is extremely vigilant to the human race.

“Congratulations to my emperor, my family is lucky, and the Supreme Throne is united!”

At this time, the convergent weather converges and turns into a more expansive river of air transport, which runs through the space and time of the universe.

In the Changhe River, the prophet’s excited Dohi attracted infinite luck and gathered together, truly completing the unity of the people.

Not only that, she also sacrificed the luck of the blue blood tribe, which directly strengthened the luck of the tribe, and grew by 50%. How terrible is that?

With the unification of the peoples and the unification of luck, a supreme imperial majesty suddenly appeared at the end of the Changhe River.

Hum!

I saw that a Supreme Throne descended and flew directly under the river, just behind the Emperor’s body, and let him sit down slowly.

With a bang, the emperor’s body and the Supreme Throne resonated with each other, creating a strange change.

At this moment, Qin Tiange officially became the contemporary emperor of the human race, unparalleled in the world, and no one can threaten his status.

“The emperor has already been established, and the next step is to conquer the hundreds of stars and return to the position of universe overlord.”

Qin Tiange exudes a strong and unmatched emperor's might, without anger and self-assertion, he does not need to release it deliberately, which can bring people an endless sense of oppression.

Of course, for the people of this tribe, it is a powerful symbol. The strength of the emperor means that the tribe is becoming stronger and stronger Today, Li Deng is nearing the throne and celebrating the tribe. It also celebrates the return of all ethnic groups. “

Qin Tiange slowly said this sentence, and immediately made the whole human race rejoice and countless people cheered.

This is a grand event for the human race, a celebration of victory, an important moment to celebrate the return of the major ancestors, and a ceremony for the emperor to ascend to the throne.

“Clan, me, and the battle has not ended, wait for me to kill the enemy and return, and stay with the people again!”

After Qin Tiange said with a smile, he suddenly took off, and the emperor's body sank directly into the river of luck, tearing away time and space and disappearing in front of countless people.

“Congratulations to my emperor!”

“Treat my King!”

At this moment, countless people understand that they knelt down and sent their blessings in anticipation of the triumph of the Emperor.

Because the battle that belongs to the Emperor has not ended, the battle in the space-time battlefield has just begun.

Chapter 915 - Crushing time and space, no one can match

In the battlefield of time and space, a space-time fortress is located in the depths of time and space. The dense dimensional barriers around it are extremely strong.

Here is a spatiotemporal fortress built by all ethnic groups, which contains countless spatiotemporal powerhouses.

But at the same time it is also a prison cage, where the space-time levels of various ethnic groups are imprisoned, which is the place where the life court limits the space-time levels of various ethnic groups.

boom!

At this time, a fierce fight was taking place in the fortress of time and space, and strong figures were besieging each other.

That man was Qin Tiange, who entered the battlefield of time and space strongly, to clean up the threat of time and space, and smooth out the resistance of time and space.

“Men, you dare to destroy my blue blood. Today, you must die!”

A roar shook space-time, and in the staggered space-time faults, dozens of hundreds of space-time powerful men besieged Qin Tiange.

These time-space-level powerhouses are not ordinary time-space-level powerhouses, but those with a minimum space-time of more than eight dimensions.

As for the strong men below eight dimensions, look at the time and space fortress, a broken body will understand.

There have been fierce battles here before. Qin Tiange and Li Luo entered the space-time battlefield and directly bombarded all the blocking space-time strong.

In the end, he broke into the fortress of time and space, and was besieged by a dense group of more than eight dimensions.

Among them, three space-time eight-dimensional powerhouses and one nine-dimensional powerhouse are the strongest time and space details of the blue blood.

Qin Tiange annihilated the blue blood tribe, naturally triggering a counterattack of the blue blood tribe's heritage, and madly attacked.

The three eight-dimensional powerhouses, with red eyes, almost fell into the magic, and the blue blood clan's roots in the galaxy were directly cut off.

They are the strongest heritage of the blue blood tribe in the galaxy, which is considered to be high in the galaxy, but the foundation is destroyed.

This hate comes from the emperor Qin Tiange, naturally he can't wait to shred him and devour flesh.

“Want to kill me, do you have this ability?”

Qin Tiange snorted and stood there indifferently, dense cracks appeared in the space and time around, constantly staggered, blocking the terrible power coming from around.

What he is facing is not just a few space-time powerhouses, but dozens or hundreds of powerhouses with more than eight dimensions.

If this force is taken out, it can wipe out any strong race and even subvert the entire galaxy.

However, in the fierce battle with Qin Tiange, he could not cause much damage to him, and even in turn was killed by Qin Tiange one by one.

Around, a broken corpse floated, all dead and staring, all of the time and space class strong, from one dimension to eight dimensions.

Many of these dead time and space powerhouses were killed by Qin Tiange alone, and Li Luo killed a lot.

boom!

On the other side of the battlefield, Li Luo calmly responded to the besieging of dozens of strong men.

Like Qin Tiange, she is powerful and terrible. She can't be viewed at the realm level at all, and she has embarked on a terrible path.

Since following Qin Tiange, Li Luo's strength has become increasingly horrible, more and more elusive, and go his own way.

Because of Qin Tiange's influence, Li Luo gained unprecedented fighting power, which was simply invincible.

Perhaps only Qin Tiange could hold her down; otherwise, it would be difficult for dozens of powerful men with more than eight dimensions to besiege her.

Among them, there are more than a dozen Jiuwei strong men, all of whom have serious faces and really realize the horrors of Qin Tiange and Li Luo.

“kill!”

“Buried the Emperor here.”

A nine-dimensional strong man of the blue blood clan is roaring, his eyes are red, full of violent magical thoughts, and he has become enchanted.

The so-called demonization is the crazy obsession, the obsession to kill Qin Tiange can no longer be erased.

Between the two, endlessly!

“Nine-dimensional time and space, just watch me break you.”

Qin Tiange snorted coldly, stepping forward, wherever he went, time and space broke apart, and no time and space power could stop him.

boom!

With a slash in the palm, the spacetime in front collapsed, and the nine-dimensional strong hit the most powerful blow, which collapsed on the spot.

Then, he was horrified at the aspect, his red eyes suddenly awakened, and a little fear was produced, watching the ordinary palm split up.

Slightly!

The face gate collapsed, blood and water sprayed horizontally, and broken bones penetrated through time and space. The nine-dimensional strong man was severely wounded, and half of the face gate was blasted.

A terrible blow and a strong sense of death scared him, and he couldn't help but make a scream.

“No ... impossible, why, why?” The blue-blooded Nine-dimensional strong was mournful and mournful.

He didn't believe why Qin Tiange was so arrogant or even unmatched, not at the same level at all.

Obviously it is a space-time class, but can't hurt the other side, it feels that the other side has stood at a height that he cannot look up.

“Let's die!” Qin Tiange snorted, punched out, and all the time and space crashed.

The powerful and unmatched punches swept through, and the two eight-dimensional strong men who rushed around spit blood on the spot and couldn't even stop the punches.

“Ah ...” The screams came to an abrupt halt, and the body of the Jiuwei strongman shattered and turned into countless pieces of flesh.

A powerful nine-dimensional space-time powerhouse was easily bombarded by Qin Tiange in this way, thrilling all parties.

The other nine-dimensional strong men, all chilling, couldn't help raising a fear. Can such people kill?

“No, he is not a space-time class, he must be the master.”

Finally, sometimes the space-level strong feared, uttered a roar, and turned and ran.

Qin Tiange's strength is frightening. He is no longer in the space-time class, but a more advanced master.

However, Qin Tiange is indeed not the Lord of the Realm, because he does not open up a spiritual kingdom of his own spiritual world, and is not considered the Lord of the Realm.

Everything is because of the difference in Qin Tiange's practice system. There are 60 trillion cell black holes in the body, which communicate time and space in all dimensions.

It even broke through the mysterious tenth dimension, which is equivalent to be between time and space and the master of the world, but his knowledge is too scary to crush the time and space level.
boom!

The escaped space-time powerhouse suddenly exploded and died inexplicably in the space-time mezzanine.

The crowd shuddered and shouted that Qin Tiange slowly withdrew one hand, and it was just that he broke the eight-dimensional power of time and space with one hand.

“Erupt together, kill him!”

“I don't believe in killing!”

The other nine-dimensional strong men in space and time were furious and roaring in panic, one by one, without any reservation, directly blasting their last potential.

They desperately, dozens and hundreds of time and space strong, burst out, the scene is simply frightening.

But will Qin Tiange be afraid? He certainly wouldn't be afraid, because he himself had transcended all limits.

“Every time and space is vain and ruined before my eyes!”

Qin Tiange said something lightly, raised his hand to point and kill, and banged, dozens of space-time forces in front of him collapsed.

In front of him, any space-time power is invalid, because he is a space-time door, a living space-time door.

The power of time and space is completely ineffective in front of him, and it is directly swallowed up. It is impossible to hurt him.

“Ten dimensions, crush!”

I saw, Qin Tiange raised his hand and swept around again, and saw a mysterious force swept past. The surrounding space and time were swallowed up and assimilated into an unprecedented force, which is the mysterious tenth dimension.

“Do not....”

Dozens of space-time powerhouses were less able to dodge, and were directly annihilated by the tenth-dimensional force on the spot, and instantly turned into ashes.

Dozens of space-time eight-dimensional powerhouses, including two space-time nine-dimensional powerhouses in one second, how big a sensation?

Fear, intense fear filled the remaining space-time strong, without exception, without the courage to fight again.

how to spell? All the time and space energy is not effective for Qin Tiange, but he can't stop the opponent's ten-dimensional power.

Yes, the nine-dimensional strong can see that it is the mysterious tenth-dimensional power, which is extremely horrible.

“Ten dimensions, that's the power of ten dimensions.”

“unstoppable!”

“I can't stop it!”

Everyone was afraid, backed up as many as they could, and didn't dare to take a step forward.

The emperor Qin Tiange is so terrible that he has mastered the power of ten dimensions, should he still live?

“Come on!”

Unsure of who it was, a loud roar, and a huff, the remaining dozens of strong men immediately dispersed.

They fled, they couldn't help but escape, because they couldn't compare with Qin Tiange at all, let alone kill each other, it was difficult to hurt.

“Want to run, it's late!”

Qin Tiange sneered, waving his hand, and the mysterious dimension of the black paint opened a huge gap.

With a loud bang, dozens of space-time strong men rushed into the scene on the spot, resulting in tragedy.

“what...”

“Ten-dimensional time and space?”

“Do not....”

A scream of horror came from horror. In the darkness, the bodies of space-time powerful men were melted by a mysterious force.

That is the ten-dimensional power, which directly assimilated these time-space powerhouses. All powerhouses below ten-dimensionality were dissolved.

In the end, dozens of space-time powerhouses fell into the ten-dimensional space-time, burying themselves in the ten-dimensional space-time.

The terrible ten-dimensional power is not what they can stop at all. Perhaps only the Lord of the Realms can stop it.

Or you can understand the ten-dimensional power, otherwise, the ten-dimensional power facing Qin Tiange cannot be stopped at all.

Qin Tiange, the emperor, is so powerful that he is scary.

With his own strength, he crushed dozens and hundreds of strong men with more than eight dimensions in space and time, subverted the knowledge of strong men of all ethnic groups, and became frightened.

“Oh my God, is this still human?”

“This is the Emperor?”

Some other space-time creatures, all trembling, burst out, and even hit the space-time fortress and fled directly.

Qin Tiange’s powerful bombardment and killing of hundreds of strong men with more than eight dimensions in space and time directly frightened the other strong men of various races and fled.

As for sanctions in the life court? Hell, now it ’s important to escape, and I just escaped the time and space fortress and even broke a hole.

“Run away, or run away, just to give the life court a headache.”

Qin Tiange did not chase him down, nor did he rush to kill him, but watched these time and space strong men escape.

He didn’t care about these time-space-time strong men of all races, but the threat posed by the court of life.

“Li Luo, break this time and space fortress.”

Suddenly, Qin Tiange uttered such a sentence and saw that Li Luo suddenly burst into the strong breath and punched him in the center of the space-time fortress suddenly.

With a loud voice, the entire space-time fortress exploded directly and was torn apart, alarming endless time and space.

“presumptuous!”

The fortification of the space-time fortress immediately alarmed a terrible existence, and from the dark side of the universe came a terrible wave of will.

Chapter 916 - Master? Dare to come, I dare to kill!

The fortress of time and space collapsed and turned into countless fragments and blasted into a turbulent stream of time and space, which alarmed a terror.

boom!

With a terrible roar, a terrible sound came from the dark side of the universe, swept up and down.

A crunchy sound came and caught Qin Tiange's attention. His pupils were stunned, staring at the unbroken space-time barrier.

A crack appeared in it, which was ten-dimensional time and space, and the barriers between the front and the back were being broken by a force.

“Jiehai barriers, the Lord of the Realms come?”

Li Luo frowned slightly, with a serious face, staring at the broken ten-dimensional space-time barrier.

She felt a terrible breath coming from the sea of the sea, apparently a master was shocked.

Li Luo smashed the time and space fortress, and even surprised a master?

“Who dares to destroy the time and space fortress of the court?”

An anger passed down, the front and back of the cosmic barriers shattered, and the endless tide of the boundary sea emerged from it.

The tide was raging and swept up, and it drowned all directions in an instant, which caused the material annihilation.

The terrible sight shocked all time and space, and many time and space creatures were horrified and looked at all this in shock.

“Master?”

“Who offended a master?”

Deep in space and time on all sides, those space-time creatures were horrified, watching the tide of the sea continually annihilate everything, and were shocked.

What's more terrible is that the owner of the world was surprisingly furious, as if someone had provoked such a terrible existence.

The Lord of the Realms, beyond the level of time and space, immortal spiritual will, and opened up the kingdom of the sea god, can be described as the true Lord of the Realms.

This existence can already keep the spirit immortal, and even the will project the positive material universe, forming a terrible killing.

Now, a master is startled, and this kind of thing naturally attracts the attention of many time and space creatures.

Hum!

Suddenly, there was a buzz from Jiehai, and then a terrible will came, and the spirit tide of the heavens and seas rolled up.

A powerful spirit came with an immortal will, and turned into a huge ghost.

“Ant, dare to destroy the time and space fortress of the court?” The huge ghost stared at Qin Tiange and Li Luo.

The words were endlessly cold, and they looked down at Qin Tiange and Li Luo who were standing in the chaos of time and space.

The overwhelming and terrifying mentality was suddenly suppressed, trying to suppress these two bold ants.

Uh ...

Qin Tiange opened his eyes, all the horrible sparks were splashing in front of him, the bright wills collided, and the sound of chanting came out.

The two violent wills collided constantly, and the thoughts clashed, the sparks were shining.

“Well?” The main projection of the respected world was startled, his eyes stared at Qin Tiange, something incredible.

The other party was able to stop his immortal spiritual shock, which was unbelievable. It seemed that the other party's level of will was not low.

“Shit, don't you catch it?”

The world leader projected a cold drink, his eyes were cold and murderous, as if he was looking at two large ants, without even looking at them.

“Small ants?” Qin Tiange murmured, coldly humming: “It's just a projection, do you want to be a god?”

Yes, in Qin Tiange's view, the other party is nothing more than a projection.

Does he think Qin Tiange can be killed by a projection? It would be ridiculous to think so.

“Presumptuous!” The lord of that respect burst into fury, snapped, and raised his hand to slap it down.

The powerful shadow, but with the power of terror, can not be blocked by time and space, directly broken and destroyed.

Looking at the terrible slap, Qin Tiange was expressionless, with black hair dancing all over his head, puncturing the barriers of time and space. Net starter

His body condensed into a single body, and the power in his body surged, and he suddenly waved his arm and punched him.

咚 隆!

The fists fought against each other. After the two forces collided, the surrounding area was annihilated on the spot, and time and space collapsed, producing dense faults.

The terrible energy shock even knocked many creatures hidden in space and time directly to the shock.

“A mere projection, dare to pretend in front of me, die!”

With a loud drink, I saw Qin Tiange crossing the endless time and space and waving his hand in front of the virtual shadow.

A strong punch shook this space-time, rolling up the stormy sky, causing the scene of extinction.

The punch was extremely strong and unstoppable, even the projection of the lord couldn't help shaking and trembling.

boom!

With a split palm, a dull sound spread to all sides of space and time, and saw the huge arm of the ghost exploding into a cloud of mist.

Then, Qin Tiange's fist continued unabated, and the bang blasted the projection of that master.

One punch blasted the other's projection, Qin Tiange's strength was shocking, and he couldn't believe it.

He was a space-time class, and he even broke the projection of a world master. You must know that it is a world master beyond the space-time class.

Even if it is a projection, it is not able to compete with time and space, but it was hit by Qin Tiange.

“Ant, it's just wanton!”

The projection was exploded, and the lord of the realm was furious and emerged from the raging waves of the storm in the sea.

He stands on the tide of the sea, stands on a huge wave, and looks down at Qin Tiange in time and space.

This lord, as the lord of one sphere, never thought that his own projection would be blasted by the other side.

“Master? If you dare to come, I dare to kill.”

Qin Tiange's tone was cold, and he was killing and cutting, with a firm belief in his will.

The other dare to come down, he dare to kill, just the master, just want to verify where the limit of his own combat power is.

“His, how dare he anger the Lord?”

“He doesn't want to live?”

“Does the lord dare to shame?”

Deep in space and time, horrible waves came, and many space-time creatures were surprised by Qin Tiange's words.

He even faced a master, and even threatened to kill him if he dared to come down. How much confidence is this?

Qin Tiange is self-confident or conceited. Only he knows this. Others think he is arrogant.

At the level of time and space, even the nine-dimensional strong, dare not arrogantly say such a word to a supreme master.

“You, fine!”

After the silence, in the Jiehai, the Jiezhū’s grimace was obviously irritated by Qin Tiange’s success.

Being humiliated by an ant, for the owner, it is simply the face-breaking behavior of Chiguo. How can it be patient?

boom!

A surge of will, rumbling through the barriers of the two realms, directly turned into a sky knife to Qin Tiange.

It was the immortal will of the Lord of the Realm. He would absolutely kill Qin Tiange, this arrogant kid.

“You want to kill me, you don’t have the ability yet.” Qin Tiange snorted, his eyes lightened with golden light.

Then, his true spirit will rush out with golden symbols, swept away into a golden ocean.

With a bang, the two wills collided again. As a result, the heavenly sword formed by the volition of the lord’s will instantly broke down and flew into pieces.

“You ...” The lord of the world was frightened, watching his will be crushed instead, and couldn’t believe it.

He was about to speak, but Qin Tiange hit the sea of spirit directly, and punched him in front of him, blocking his words.

boom!

Raising a hand, the fists collided, and Jie Hai exploded, setting off a raging wave.

The powerful forces made the two bodies fly back, staring at each other with a hint of surprise.

Qin Tiange was surprised that his opponent was able to block his own strength. Just one punch had gathered his strength.

Except for the power of Chaos Yuantai, he has no reservations, and the punch that broke out completely was blocked by the other side and divided equally.

“impossible!”

The master of the world was horrified, looking at Qin Tiange’s eyes full of incredible, can’t believe that this is true A boy in space and time, can even compete with him, and fight a lot?

Not to mention this master, the other space-time creatures watching are stunned, one by one dumbfounded.

The space-time level can shake the world leader, and it looks equally divided, completely subverting the previous concept.

“Originally, this is the power of the Lord of the Realms?” Qin Tiange said to himself, waving his numb arms.

With a punch just now, he has clearly felt the power of the lord, which is extremely scary and terrifying.

However, Qin Tiange felt that his current limit was comparable to that of the Lord of the Realms, which was already terrible.

“No!” The lord of the world was shocked and looked at Qin Tiange in astonishment, as if he had seen a ghost.

He pointed at Qin Tiange and said in horror: “No, it’s impossible, you, do you actually descend to the critical sea?”

boom!

This sentence set off an endless storm, the sea tide was turbulent, and it kept rolling and roaring.

Qin Tiange set foot on the tide of Jiehai, stood on a giant wave, and quietly looked at the opposite Jiezhū.

Behind this lord, there is a raging ocean wave, and there is a vast kingdom of God hidden in it.

“Sinister, can’t stay!”

The lord of the world woke up, raised his hand directly, and the huge waves behind him, a country rumblingly emerged.

That is a kingdom of God he has developed, vast and immense, full of sacred and immortal will.

A kingdom of gods popped up, crushing Qin Tiange directly with irresistible force.

“Dead!” The lord of the world drank violently, suppressed it with his own country, the kingdom of God, and launched a lore.

He wanted to obliterate Qin Tiange, the other side was too scary, even when the physical body descended on the spiritual world, it was just a monster.

Chapter 917 - Xeon 1 punch

The rumbling noises spread, and the turbulent seas caused turbulence. The boundless waves roared and roared through the space and time of all parties.

“The lord of the kingdom is angry, the kingdom of God is suppressed, the man is dead.”

“Oh my God, is that the kingdom of God?”

“I finally understand the secrets of the kingdom of God”

With the suppression of a kingdom of God, the space-time detonated, many space-time creatures watching this place exclaimed, as if they saw the secret of the kingdom of God.

Even some of the nine-dimensional space-time strongmen showed joy, because they could see the mystery of the lord.

At this moment, the repression of the kingdom of God revealed the secrets belonging to the Lord of the Realm, and many nine-dimensional space-time strongmen captured the secret of promotion to the Lord of the Realm.

I have to thank Qin Tiange for this opportunity. If he hadn't angered a world leader, he might not have had such a chance.

“such a pity”

“Genius is going to fall after all”

The strong from all sides regretted it and looked at Qin Tiange with a sneer, thinking that he couldn't stop the master from this lore.

The suppression of the kingdom of God is unparalleled. Without the kingdom of God, it would be impossible to fight against the Lord.

The universally accepted reason in the universe is that the kingdom of God must be countered by the kingdom of God.

“The kingdom of God, the kingdom of spirit!”

Qin Tiange's face was cold, his eyes were tinged with hot golden light, and instead of panic, he showed a spirit of excitement.

Yes, he was so excited that he finally got a chance to try the so-called power of the kingdom of God.

What is the power of the rumored kingdom of God that can be smelted and smelted without any resistance from time and space?

Hum!

The top of the head collapsed in time and space, followed by a cracking crack, and finally turned into a layer of broken layers, and continued to collapse.

The kingdom of God was down, everything was extinct, and time and space showed signs of collapse, as if no force could stop it.

“Let me see, what power is there in the kingdom of God?”

Qin Tiange suddenly drank, and a golden light rose from his body, as if a golden man suddenly rushed up.

Instead of giving up, he took the initiative to greet him, seeing the space-time creatures stunned.

Even the lord of the world stumbled and laughed: “Ha ha, arrogant guy, since you are actively seeking death, then this seat will give you a lot of joy.”

“Suppression!”

With a savory drink, the vast kingdom of God smashed down, endless power swept through.

The vastness of the kingdom of God, the highest sacredness, reveals an eternal and immortal deity, and the gods sing in it, gathering an immortal spiritual force to press Qin Tiange.

“broken!”

Qin Tiange vacated, slammed into the vast kingdom of God, and waved his arm to punch in.

A bang, accompanied by the golden light, turned into an endless slaughter, penetrated the kingdom of God, and smashed the gods in the sky.

He was filled with golden light and punched in, without any force to stop it.

The terrible fist collapsed, destroying the gods in the kingdom of God, sweeping all the way through the world.

boom!

Qin Tiange exploded to the extreme, with 10% of his power bursting, even leading to the power of the chaotic elementary body in his body.

The tyrannical trend gave Xeon a punch, which was truly unstoppable, and punched through the entire kingdom of God and rushed out.

boom!

I was surprised to see that the kingdom of God was penetrated by a golden figure on both sides, and a gray power was wrapped around his fist, which penetrated the world and rushed out through the kingdom of God.

For a time, there was silence in the whole space-time, all the space-time creatures on the sidelines were sluggish and their brains roared.

They were dumbfounded, their eyes widened, and an unbelievable light appeared, as if they were damned.

Qin Tiange actually penetrated the kingdom of God with a punch, that is the Supreme Kingdom of God, which has spiritual immortality.

However, such a horrible kingdom of God was shocked by Qin Tiange’s punch.

“impossible!”

An exclamation came, and the master of the world was horrified, his eyes widened incredible.

He couldn’t believe that his kingdom of God was penetrated by Qin Tiange, and he couldn’t stop or even suppress it.

Instead, the kingdom of God was directly penetrated by Qin Tiange’s punch, and it was impossible to stop the terrible punch, the strongest punch, to penetrate the kingdom of God.

“Nothing is impossible, the kingdom of God, so it is!”

Qin Tiange snorted, his eyes flashed with a hint of enlightenment. He had just penetrated into the kingdom of God, and then penetrated it. He had peeked into the mystery of the kingdom of God.

In other words, he just got what he wanted in one punch, and the kingdom of God has no secret in his eyes.

“Stop this kingdom of God!”

Qin Tiange’s expression was firm, he said to himself, a flash of determination in his heart, and after learning the secret of the kingdom of God, he had his own thoughts.

He stared at the ruthless killer intently, staring at the lord of the world with a smirk in the corner of his mouth.

“Now, you have no use value.” Qin Tiange’s words just fell, and people have quietly appeared in front of the real master.

The terrible fist condensed the power of the Xeon just now, and thumped in front of the master of the realm.

Xeon punched him, awakened the lord, his face turned wild, and it was too late to dodge.

The only way is to resist, thinking of this, the master of that world has a distorted face and growls to burst out of his own power.

That is the power of spirit. His current body is completely a body of mental will, not a physical body at all.

Because his physical body cannot enter the spiritual world, he cannot stop Qin Tiange’s terrible punch.

boom!

With a punch, the spiritual will was destroyed, shattered by a golden symbol, and the overbearing force blasted the soul and will of that lord.

Qin Tiange made a powerful punch, blasting the spirit and will of the lord, sweeping out with violent killing intention.

With a loud bang, the soul of the lord of the realm had just collapsed, and Qin Tiange opened his mouth and swallowed, swallowing up all the broken spiritual will.

“Ah dare?”

The lord’s will roared and was full of anger. I didn’t expect Qin Tiange to be so outrageous that he dared to devour his soul will?

This is a very brutal and dangerous approach. If one is not good, he may be attacked by the opponent, and may even damage his own spirit.

But Qin Tiange didn’t even care about it, as if he didn’t fear any threat of spiritual will.

“Refining!” Qin Tiange drank coldly, his eyes glowed with golden light, and the golden symbol of the sky shattered the soul and will of the Lord in the sea of knowledge.

Soon, Bacheng's spiritual will was swallowed up by Qin Tiange, and only about 20% could escape.

Wow!

In the distance, a wave rolls up, a hazy shadow emerges, and behind it is a shrouded kingdom of God.

It was the lord of the world. He faced a terrible defeat, stared at Qin Tiange in horror and anger, and was swallowed with 80% of his soul.

"You **** it!" The lord shouted, "Dare to swallow 80% of the true will of you, you, you."

He was so speechless that he was frightened and angry, but Qin Tiange turned slowly, his eyes revealing a sense of anger.

"It tastes good, but it's a pity. If you can swallow it with the kingdom of God, then it must be good." Qin Tiange muttered word by word.

This remark made the distant Lord of the Realm chill, snoring, and suddenly plunged the pierced kingdom into the tide of the Jiehai, disappeared without a trace.

Yes, he ran away!

A lord turned and ran away, who said he believed?

But such a scene happened, and many of the space-time creatures watched shivering in their hearts, and all of them couldn't help panic.

Qin Tiange penetrated a kingdom of God, swallowed up 80% of the spiritual body of a master, and even wanted to swallow the other kingdom of God.

Moreover, in the end, the world leader was scared away, which made people subvert the understanding of the past hundreds of thousands of years.

"You wait, wait for this body to come out, and then come to you to settle accounts."

A stern roar came from the tide of Jiehai Sea, and it was shocking and horrifying.

The lord of the world fled, and he did not dare to stay at all. He was really afraid that he would devour 20% of his will, and even the kingdom of God might be swallowed by the other party.

This is not impossible, because Qin Tiange really had this idea, but unfortunately the other party ran away.

"Huh!" Qin Tiange sneered, disdain: "Your physical body dares to appear in front of me, then it is better, even your body stewed."

The words spread, and the creatures of all time and space were immediately horrified, and their hearts were hairy. The eyes of Qin Tiange were full of awe.

This person even threatened to stew the physical body of a lord, and the weight of this statement was very big. No one doubted it.

Because the terrible scene just now made all the time and space creatures frightened and the other side devoured the soul will of the Lord of the World, it was just a murderer.

“Too fierce!”

“This man can’t mess with me!”

“Is he the emperor of this generation?”

“A complete monster!”

In the depths of time and space, one by one, the waves quickly disappeared and disappeared, and they left without daring to stay.

They were obviously scared by the fierceness of Qin Tiange, and the masters of the world dared to swallow it, so what was there to dare?

These space-time creatures are not enough for Qin Tiange to crack his teeth, and he unknowingly produces a hint of shadow.

“Humph!”

Qin Tiange snorted softly, watching the tide of the violent boundary sea around him, his body quickly receded, blinked through the dark interface barriers, and returned to the ten-dimensional space-time.

He looked at the rift that was gradually closing, his eyes twinkling with light, as if he felt something.

“I just had a more terrible power. It seemed to be beaten down, but was finally blocked by a mysterious power. It seems that at a higher level, someone is helping me?”

Qin Tiange stood here, thinking secretly, just when he had devoured the master Bacheng’s spiritual will, suddenly there was a force to kill him.

But in the end he was blocked by a mysterious power, which resolved that power, making him instantly guess that someone at a higher level was helping him.

As for who it is, he didn’t know it, but secretly kept it in his heart, with thoughts and precautions.

“let’s go!”

Watching Li Luo coming, Qin Tiange whispered a sentence, turned directly to tear open the barriers of time and space, and stepped into it.

In the blink of an eye, Qin Tiange and Li Luo both disappeared into the battlefield of time and space, as if never before.

Chapter 918 - The mystery of the kingdom of God

Earth, outside the fortress of the galaxy, two men and a woman quietly walked out of the cracks in time and space and returned here.

“Hwang, I feel like the Lord of the Realm is limited by some force.”

Back here, Li Luo suddenly said something, saying what she had just felt and guessed.

She felt that the lord seemed to be limited by some kind of power, as if there was an unknown power that was restricting the lord.

Qin Tiange groaned and nodded slowly: "I just swallowed the willpower of the real master Bacheng, and I have seen some secrets."

He looked at the dark starry sky and said to himself, "The Lord of the Realms, there is some kind of limitation in opening up the kingdom of God in the spiritual world of the dark side of the universe."

"look!"

As soon as the words fell, Qin Tiange waved a light curtain with a scene of the kingdom of God inside.

This kingdom of God is exactly the kingdom of God that was penetrated by him before. Play it back and analyze the secrets a little bit.

Qin Tiange pointed to the light curtain that was played back and said, "The kingdom of God is built from the spiritual tide of the sea. The illusory kingdom is like a fantasy world."

"The creatures in it, or the gods, are actually the spiritual creatures created by the pioneers."

The gods and even various creatures in the kingdom of God are actually illusory spirit bodies without entities.

It's like a world that exists only at the spiritual level, which is completely a spiritual energy body, like a world of souls.

Unlike the positive material universe, the creatures in the universe have flesh and blood, but the spiritual world in the dark universe on the other hand is completely the spiritual world.

For the creatures in the positive material universe to break through, they must break the barriers of the positive and negative universe with spiritual will, and open up a spiritual kingdom in it, known as the kingdom of gods.

Where the spirit is immortal and the divine mind is eternal, it is the highest god, but it is actually a manifestation of spiritual will.

In addition, there are many restrictions, so that many owners are restricted from breaking the shackles.

The spiritual world on the dark side of the universe feels like a restriction to Qin Tiange.

If it is said that the positive material universe is the physical cage of all races, then the spiritual universe of the dark universe is the spiritual cage of living things.

The two cages, separated, imprisoned physically and mentally, seem to be very powerful, seeming to break a certain boundary, but in fact they are firmly grasped.

In this way, it is impossible to break through the shackles, or even to enter a higher level, and it can only stay at the level of the master.

Of course, some of the world's masters were shocked and brilliant. They figured out a way to break through the limits of the spiritual universe, break the cage, find the unity of body and spirit, and perfectly break the yoke.

That is to break through the path of the Lord of the Realm and achieve a higher existence above the Lord of the Realm. This is the secret of both sides of the universe.

“If you and I open up the kingdom of God in the spiritual world, we are bound to be restricted, but if we open up the kingdom of God in our own flesh and body, there is no such concern.”

Qin Tiange explained softly that he had almost grasped the mystery of the kingdom of God, and it was time to break through.

“It's time for a breakthrough.” Qin Tiange looked at Li Luo and nodded slightly.

What this means is that you can break down the barriers of time and space, embark on a higher level, open up the kingdom of God in your body, and succeed in the world.

The Lord of the Realms, the creation of a kingdom of God is the Lord of the Realms, and the creation of the Three Realms is the Lord of the Three Realms.

If anyone can open up the Nine Realms, that is the Supreme of the Nine Realms, but Qin Tiange's idea is not here.

Inside the 60 trillion black hole cells in his body, they are all gestating a new sea of spirit. Although it looks small, it can really open up a mini-god kingdom.

If it is fully developed, it is equal to the supreme master of all realms and 60 trillion kingdoms of God. How terrible is that?

This is still the cell kingdom. If you open up a spiritual kingdom in the sea, you will achieve even higher achievements.

“At present, the earth has just gone through a conquest and swallowed the blue blood tribe. The preliminary foundation has been completed. As long as it is digested, it can grow tenfold.”

Qin Tiange watched the galaxy fortress keep expanding, and the number of human races inside it soared. Countless resources were transported back here for the use of their own people.

This is a kind of sedimentation and laying the foundation. As long as the huge resources obtained this time are digested, within ten years, the overall strength of the human race will be more than ten times.

For the time being, the human race has no power to fight again. It must digest the results of the war, wait for the next accumulation of sediments, and fully digest it before displaying its cavities again.

“Secretary, I will leave it to you at home. I will retreat. The exact time is not clear. You look at it yourself.”

Qin Tiange summoned directly to his eunuch, explained these things, and left with Luoluo.

“Understand, master, rest assured, wait for your return!”

Inside the galaxy fortress, the busy self-employed suddenly looked up at the starry sky, watching Qin Tiange and Li Luo leave, slowly nodding, and talking to himself.

hiss!

Qin Tiange smiled, and tore apart the barriers of time and space, found a lonely galaxy to hide directly inside, and announced the retreat.

This galaxy, near the Tianhe continent, is densely packed with withered stars, at least thousands of them.

Moreover, this position is precisely aligned with the chaotic continent of the Tianhe continent, and few souls come here.

Because this galaxy has a mysterious atmosphere that erodes the power of beings, staying here for a long time can be eroded by power.

When Qin Tiange came here, naturally he was not afraid of this weird force, but instead looked at this power here, a pure natural defense circle.

boom!

Inside the galaxy, in a small planet, Qin Tiange blasted out a cave and went directly into the core of the planet.

He sat alone at the core of this star, and began to prepare for retreat and make a breakthrough.

Li Luo, instead of being in the same place, made a breakthrough in the core of a nearby star.

Both of them have mastered the most extreme dimensional power of space-time level, and the ten-dimensional power has filled the whole body and completed the ten-dimensional tempering.

With this confidence, Qin Tiange can say that it is the best time to open up the kingdom of God himself.

There are no wars in this tribe for the time being, the threat is minimal, and each tribe is busy with their own affairs. It is time to break through.

“Let’s get started, split the kingdom of God in the body, and build my myth.”

Qin Tiange’s expression was serious and solemn, and it was time to break through the lord of the realm. Now he must break the restrictions in the body and open up the kingdom of God in the body.

He closed his eyes, turned his true spirit into countless copies, and merged into 60 trillion black hole cells in his body.

Suddenly, an extremely weird wave radiated and caused a huge impact, but it soon disappeared.

Qin Tiange’s body sat cross-legged there, gradually losing his breath, as if a corpse, and finally turned into a statue.

In the body, countless cells began to extinguish spontaneously, the black hole stopped functioning and fell into silence.

In this process, the spiritual will in each cell is fused with the will of the true spirit.

Qin Tiange felt that he seemed to be transformed into 60 trillion independent individuals, and in each black hole cell, he began a mysterious and terrible transformation.

“Open up the kingdom of God and build myth!”

A whisper came from within the body, and the gradually petrified body became lifeless.

If someone dug him out, he would still think it was a fossil, but he is alive, not dead, but just out of a state of silence.

That is accumulating energy. To accomplish the great feat of opening up a 60 trillion kingdom of God, it can hardly be judged by common sense.

Qin Tiange’s journey is long and difficult. If he is not good, he may die and die, but he has no regrets.

In order to be stronger, to be free and not restricted, we must go out of our own invincible path.

No force can stop him from moving forward, so he is willing to take risks and even put himself in danger.

To open up the kingdom of God is actually to open up the world, but to open up the spiritual world.

For the Pangu people, opening up the world is the most basic kind of education. The education of the beginning of the Pangu people has begun.

Imagine those things that the Pangu tribe forbidden. Qin Tiange gained the power inheritance of the Pangu tribe and naturally understood a lot.

Kaitian is one of them. With this power, it is no problem for Qin Tiange to open up the kingdom of God in his body.

Buzz ...

Suddenly, a terrible buzz came from the silent body, showing a simple and desolate meaning.

As if a great being awakened, a terrible being was conceived in every cell in the body.

It’s like the Supreme Demon standing in the sea of chaos, roaring to heaven, to open up chaos and evolve the kingdom of God.

“open!”

A violent drink, almost at the same time, a shocking roar came from the 60 trillion black hole cells.

A loud bang came, and the core of Qin Tiange’s star was shattered on the spot by the roar, and the entire planet almost collapsed.

If it wasn’t for Qin Tiange’s Pangu seal, it would probably have exploded directly. Fortunately, the seal prevented this terrible force.

I saw that the dense light in Qin Tiange’s body lit up, and that was the light from the inside of the cell, extremely bright.

The brilliance of will is expanding in the chaos of the cell, as if Pangu was born from chaos.

Suddenly, there was a roar of 60 trillion cells at the same time, like a groundbreaking explosion with endless power.

boom!

The whole body was smashed at this moment and turned into countless fragments, and it was frightening.

Qin Tiange's body was blown up, wasn't it dead? No, he hasn't died yet, but is conducting a great experiment.

That is to open up 60 trillion ***** kingdoms in the body at the same time, and build a stronger and more terrifying body.

The horror scene that was restructured with the support of 60 trillion kingdoms of God was absolutely beyond imagination.

“Open the sky!”

A loud roar came again, as if it opened up the world, and inside the countless pieces of flesh and blood, it gradually emitted the light of the gods that opened the sky.

The shining dots of light continued to diffuse, lighting up the darkness and seeing the terrible scene there.

The kingdom of God was actually developed. Qin Tiange opened up a lot of small kingdoms of God in his 60 trillion cells.

Chapter 919 - Big Universe Taboo

At the core of the planet, sky fragments are scattered around. Strangely, these fragments turn around the strange membranes.

Bang Bang!

These fetal membranes are beating, as if living embryos are gestating something terrifying.

A total of 999 embryos are the cosmic embryos in Qin Tiange's body. Broken flesh and bone fragments surround these embryos.

A gray world floats in the center, which is a chaotic elementary birth, growing to a terrifying state.

With a chaotic elementary fetus, plus 999 cosmic embryos, Qin Tiange's flesh was firmly locked here, and it did not dissipate.

Those flesh and blood fragments are gradually blooming a ray of divine light, magnificent and endless.

One small kingdom after another began to be born, and the cells began to build and evolve into true kingdoms of God.

When the kingdom of God is 10%, it is the true Lord of the Realm, the Supreme Lord, known as the immortal soul.

Generally speaking, creatures can only open up the kingdom of God in the universe's dark realm, but Qin Tiange has not done so.

Instead, he sought to open up a kingdom of God in the body, and it was not one, but a total of 60 trillion kingdoms of God.

This number is numb at first, and once successful, it is the only and truly shocking thing in Kulai.

This approach will inevitably lead to universe turmoil and even lead to incredible robbery and destroy such monsters.

boom!

Sure enough, everything has restrictions, Qin Tiange wants to embark on this invincible and immortal road, which finally attracts the power of the universe.

An unknown force gathered inexplicably in this dead galaxy, suddenly turned into a flood of extinction, and bombarded Qin Tiange's broken body.

This is to kill him, a creature that challenges the taboos of the universe. The taboos that are not allowed to exist must be destroyed.

Bang!

Suddenly a roar, countless flesh and blood were wiped out, and immediately disappeared, the scene was extremely terrible.

When Qin Tiange sensed the crisis, he was wiped out a part of his flesh and blood cells, and his spiritual will was wiped out.

Suffering heavy blows, Qin Tiange's instincts arose a rebellion, and his strong will fuse his own flesh and blood cells and combined them with the chaotic elemental fetus and 999 cosmic fetal membranes.

Suddenly, a flood of extinction swept over and drowned there, and the entire planet turned into flying ash on the spot.

Even with this galaxy was robbed, somehow disappeared without a trace, it is impossible to understand what happened.

It was completely destroyed here, and all matter disappeared in an instant, and was wiped out.

However, what is scary is that under such terrible obliteration power, there are actually two forces that have not been obliterated.

One of them is the power of Qin Tiange. The chaotic Yuantai combined with 999 cosmic placenta is fighting the inexplicable eradication.

Gradually, the force was separated little by little, so that Qin Tiange's chaotic elemental assimilation was assimilated, and even the cosmic membrane began to absorb that eradicating force.

With the swallowing of this power, both the chaotic elementary tire and the cosmic membrane have fallen into a stage of crazy inflation.

A thousand universes are gestating and growing fast, and the original chaotic universe is bred from the chaotic primitives.

And other cosmic membranes are gestating new universes, which is equivalent to Qin Tiange creating a new universe.

This feeling is terrifying. It belongs to the big taboo of the universe. If it is not allowed to exist, it is necessary to execute the eradication.

It is a pity that the force of eradication cannot erase these nurturing and growing universes, but instead promotes the nurturing speed of these universes.

Hum!

On the other side, a chaotic glazed light constantly intertwines, where terrible things are bred.

Li Luo's strength and life are gradually becoming stronger. Under the powerful and weird eradication and punishment, she has resisted stubbornly and is getting stronger and stronger.

Both men are using the power of eradication to make the final transformation, and all the flesh and blood cells that have been erased are re-growing and becoming stronger.

Because the preliminary opening of the kingdoms of God has been completed, the kingdoms of God have emerged, gradually forming a new flesh and blood, with a sacred and immortal breath.

Qin Tiange's consciousness was blurred, and the true spirit was transformed into countless copies. He began to build his own kingdom, opened up little kingdoms, and reorganized his body.

Imperious will, under that force of obliteration, became more and more imperious, as if possessing an immortal character.

Even if the universe is obliterated, his will cannot be erased, but it is getting stronger and stronger, transcending time and space, and truly seeing the immortal side of spiritual will.

“The spirit is immortal, the will is forever!”

A roar suddenly came, and the flesh and blood fragments that had been broken apart gathered together, and a snoring sound turned into a gray figure.

When that figure became clearer and clearer, seeing Qin Tiange's appearance, he really recovered from the fragmentation.

With a gurgling sound, the reorganization of the will, the physical reorganization, completed the final transformation, and came back to life!

“The kingdom of God, the kingdom of God!”

Qin Tiange murmured unconsciously, blooming with endless brightness, sacred and immortal, supreme supremacy.

That holy light continued to diffuse, intertwined with the body, and turned into a holy aura.

In the end, there are densely populated kingdoms of gods behind Qin Tiange, and the unreal sacred kingdoms are displayed one by one.

They were small, densely populated kingdoms that were really developed by Qin Tiange, and a full 60 trillion kingdoms of God appeared.

boom!

After the construction of the kingdom of God was completed, an unparalleled sacred power erupted, as if a terrible **** had awakened.

Suddenly, the eradicating force from the unknown universe was shattered on the spot by this divine force, melting and engulfing it as much as possible.

Huh!

Qin Tiange slowly opened his eyes, a ray of supreme divine power interspersed, and the 60 trillion **** kingdom behind shook, sending out the strongest divine voice.

Inside the kingdom of God, a dim shadow of the gods sat in the middle of the kingdom of God, and made a low murmur.

“Refinement, immortality!”

A low voice murmured to all sides, and in the dense kingdom of God, even ancient gods began to evolve.

The most primitive spirits emerged from the sea of spirits and came together to form the most unique and powerful spirits.

That is the new myth created by Qin Tiange’s Kingdom of God, and created a supreme myth that has never existed in ancient times.

The myth that belongs to Qin Tiange’s own is being created by him. The 60 trillion kingdoms of God are spreading out into the cells in the body.

Hum!

The invasion of the kingdom of God caused an unimaginable transformation to Qin Tiange, and the whole body seemed to have achieved immortality at this moment.

The sacred power and immortality from the kingdom of God gradually merged into one body, and finally completed Qin Tiange’s physical reorganization and transformation.

Huh!

At the moment when the physical body is complete, the space and time around it collapse, and the voluntary collapse completely fails to bear the breath emanating from Qin Tiange’s body.

This breath is too horrible, as if the universe is taboo, and once again attracts that terrible power of eradication.

With a loud bang, there was a terrible force hitting his body directly, forming an obliterating force, and this taboo was to be erased.

Unfortunately, this power can no longer hurt Qin Tiange’s body, but a burst of crisp gurgling sounds came out.

An overwhelming force emerged, which instantly engulfed the obliterating force, became involved in the body, and completed the devour.

“I have created my own myth. No force in the world can erase me.”

Qin Tiange murmured to himself, looking up at the deep space of the universe, the force of obliteration gradually dissipated.

He achieved the taboo of the universe, the biggest taboo in ancient times, and created a taboo myth that has never been seen before.

At this moment, Qin Tiange felt the kind of disgust and rejection from the big universe, as if he was a cancerous tumor that harmed the development of the universe.

This feeling not only did not worry him, but showed a bright smile, very easy.

“The biggest taboo in the universe, tumors, viruses, scourges?” Qin Tiange said to himself.

There was a confident style on his face, and there was no worry at all. The obliterating power from the big universe could no longer threaten him.

It's like a virus in a computer, which is difficult to remove. Qin Tiange is like a taboo virus in the universe. It has become a climate and is deeply ingrained.

“It's finally finished, now it's time to open up the kingdom of supreme gods.” Qin Tiange said with a smile, and immediately entered the sea of spiritual knowledge.

This place has already evolved into a brand-new spiritual world. Qin Tiange's idea is to completely open up his knowledge of the sea and completely develop into a supreme kingdom of God.

“My true spirit, come back!”

Suddenly, he screamed, and saw the dense shadows of his body quickly gather together. With a sigh, Qin Tiange's true spirit returned completely.

At this moment, Qin Tiange's true spirit completed transformation and turned into a real human form, and no one can see the original appearance.

He felt an unprecedented strength, the power from the true spirit, extremely powerful and terrifying, immortal.

“Open the sky!”

The true spirit returned, and instantly grabbed an illusive ancient sword, and split the Xeon sword at the sea of spirit.

Bang!

A sword opened to the sky, the sea collapsed, and the endless sea tide was raging, dissipating a little bit.

No, it was melting. The tide of the sea of the sea was melted by a sword, turning into a brand-new energy, and building a brand-new world.

It was a spiritual world. A supreme kingdom of God, based on its own spiritual knowledge of the sea, directly opened up an unprecedented kingdom of God.

The loud noise came, and the sea of knowledge disappeared, replaced by a vast new world.

It is full of sacred power, which is the divine power belonging to the kingdom of God. The vastness is infinite, as if endless.

The sacred power is vast and brings together a terrible figure, which is the true will of Qin Tiange, who has achieved the supreme spirit and immortality.

“I am the immortal myth!”

Qin Tiange roared and shook the whole kingdom of God. Inside the body, 60 trillion cells of the kingdom of God suddenly shook, sending out a sacred force, forming a wonderful connection.

A supreme kingdom of God appeared in the spiritual consciousness sea, instead of the consciousness sea, and became Qin Tiange’s newest spiritual home.

In addition, there is still 60 trillion cell **** kingdoms in the body. The combination of the two, the power that erupted was that Qin Tiange himself could not predict, let alone estimate.

thunderbolt!

There was a sudden roar, and a strange thunder struck Qin Tiange’s body, sending out a burst of sounds of gurgling, surrounded by arcs, looking extremely terrifying.

Qin Tiange stood up slowly stretched his body and banged, the entire galaxy was destroyed on the spot, and time and space collapsed.

That terrible scene was almost like destroying the universe, and it was naturally cleared by the instinct of the big universe.

“Close!”

Qin Tiange’s eyes flickered, he drank a little, and his strength and strength all converged, and the feeling of cleanup and obliteration gradually disappeared.

“Isn’t Liluo finished?”

At this time, Qin Tiange looked to Li Luo, she had not completed the reorganization, and her physical body was still in the stage of collapse, but the eye of Chaos was getting stronger and stronger, and it seemed to be completed soon.

Hum!

Sure enough, with the buzz of Chaos Spring’s eyes, he suddenly swallowed the flesh and blood scattered all around, transforming as much as possible.

Gradually, a brand new body was conceived in Quan Yan. Li Luo suddenly opened her eyes and jumped out of Chao Chao Quan’s eye to complete the final transformation.

Chapter 920 - Lordless Kingdom, Devour

“Hwang, what’s going on, why do I feel a deep maliciousness?”

Li Luo just jumped out, her face changed slightly, and suddenly she felt a deep maliciousness, as if to kill her.

Although not as strong as Qin Tiange, it has touched the aversion and malice of the universe.

As if it was a virus, it attracted the malice of the universe, and Li Luo also embarked on a taboo road.

“No problem, just converge and breathe, because we have touched the taboos of the universe, and we will naturally kill them.” Qin Tiange explained calmly.

Li Luo was surprised, quickly converged, and did not leak, and soon felt that the deep maliciousness disappeared.

The two were silently looking at the deep space of the universe, silent, with a kind of speculation and thought in their hearts.

This breakthrough touched the taboos of the universe, and even Qin Tiange attracted several killing forces.

In the end, he still couldn't erase the tumor. Qin Tiange felt that it had some kind of self-defense mechanism to clean up some taboo creatures.

Some things will cause mysterious forces to obliterate them. For example, Qin Tiange and Liluo embarked on such a path, and they must withstand malicious and oblivious from various aspects.

Anyway, Qin Tiange has already embarked on this road, and it is impossible to turn back, this is a road of no return.

“You and I have embarked on a path of taboos in the universe. There are likely to be countless troubles and dangers in the future, and you are ready.” After a long silence, Qin Tiange reminded Li Luo.

The head of Li Luo responded: “Huang, Li Luo understands that since choosing this path, he will not regret it. No matter what he encounters in the future, nothing can stop the foot of the Emperor.”

“This universe has a lot of secrets that we don't know. There are bigger secrets hidden. Be careful.”

Qin Tiange frowned slightly and whispered his inner concerns as if he saw something.

The breakthrough just now is not only the obliteration from the big universe, but also various terrible malicious intentions, as if such taboos cannot be touched.

But he doesn't care, as long as he can make himself stronger, and even enter the invincible realm, he will pay whatever it takes.

Qin Tiange thought for a moment and said, “Liluo, you and I have just made a breakthrough, and the kingdom of God has been successfully developed in the body. At present, we have not completely stabilized it. We must find a way to stabilize the kingdom of God.”

“Huang, what do you mean, enter the sea of the world?” Li Luo eyes exposed, exquisitely asked.

I saw Qin Tiange smiling with a bowed head: “Yes, if you want to break through the solid kingdom of God quickly, the only quickest way is to enter the sea of the kingdom and devour other kingdoms of God to stabilize yourself.”

Qin Tiange and Li Luo, because they opened up the kingdom of God in their own bodies, are not stable at all. They must find ways to stabilize their kingdom of God.

And because the two did not open up in the realm of the sea, the kingdom of God did not have the power to follow up.

In this way, if you want to grow and stabilize, you must devour other kingdoms of God to gain growth and completely stabilize the kingdom of God opened up in your body.

Qin Tiange's idea is that while he is now entering the realm of the sea, devouring other kingdoms of God to get promotion and stabilize his own kingdom of God.

“Go, enter Jiehai and separate, be careful yourself.”

Gently warned, Qin Tiange directly tore open the barriers of the universe and stepped into the spiritual world.

The two came to the spiritual world, watching the tidal waves of the turbulent world, storms swept through, and rumbling.

Qin Tiange and Li Luo looked at each other, nodded slightly, and then passed away, each looking for a direction and rushing away.

Li Luo chose a direction, flickered directly, disappeared without blinking while stepping on the storm.

As for Qin Tiange, he was walking in the rolling waves of the sea, stepping away step by step.

Step by step, he carefully sensed the hidden kingdom of God. Theoretically, every spray in Jiehai is a kingdom of God.

But the sea of the kingdom is too large. Although there are many kingdoms of God, it is like a drop in the ocean.

Hum!

Walking and walking, Qin Tiange suddenly stopped, staring in amazement at a violent wave in front of him, roaring, and rushing forward.

In that huge wave, there was a sacred breath, and there was a dimly visible hazy world hidden there.

This is the kingdom of God in the realm of the sea. Depending on the tide of the realm of the sea, it is constantly moving. This is the best place for the kingdom of God to hide.

But there is also a bad point, because in the realm of the sea, two kingdoms of God often encounter each other, and then the two kingdoms of God fight and devour each other.

For example, just before, two kingdoms of gods met, and two huge waves collided with each other, making a rumbling sound of the world.

It is surprising that the two kingdoms of God collided with each other.

“The Kingdom of Godless?”

Qin Tiange whispered in surprise, seeing through the two kingdoms of God, both of which have no sovereign kingdom.

The so-called sovereign kingdom is that those who pioneered the kingdom of God in the past died and fell.

As for why the lord fell, it may be that the body collapsed or it was killed and devoured by other lords.

There is only one kingdom of God left, and there are countless deities in the kingdom of God, but as long as the kingdom of God is not extinguished, the spiritual will of the Lord of the Realm will not die.

Because the ***** in the kingdom of God is actually him, as long as the gods are united or resurrected after a long time.

Looked at the two kingdoms of God in front of each other colliding and devouring each other, the two gods inside were fighting each other.

“Interesting, just right, let me devour.” Qin Tiange said to himself, stepping into it with a smile.

boom!

Just stepping into the junction where two kingdoms of God collided, I saw the gods roaring and madly killing.

The gods of the kingdom of God can be the first primitive gods derived from the Lord of the Realm, or they can introduce the real spirits of other beings into the kingdom of God and achieve the gods of the kingdom of God.

It is equivalent to belief and connection. If there is a living faith that reaches a certain level, then the true spirit can be introduced into the kingdom of God and the immortal spirit can be achieved.

“Kill, my Lord glory!”

“The Lord is immortal!”

The two forces were fighting, countless gods roared madly, and fought each other, and the two kingdoms were on the verge of collapse.

The heavens and gods fall down, like the gods dusk, the endless divine power permeates, and the majesty is magnificent. It really makes people feel that they have entered the world of the gods.

In fact, this is the kingdom of God developed by the lord of the world, which belongs to the spiritual fantasy country.

Whatever you imagine, you can develop the kingdom of God. Just think that the gods of the two kingdoms of God are actually changing in accordance with the characteristics of each ethnic group.

“If the two kingdoms of God are swallowed and merged with each other, it may speed up the revival of a master.”

At the junction of the kingdom of God, Qin Tiange watched silently and made a guess after observing for a while.

Once the two kingdoms are merged, one of the realm’s indestructible will must be resurrected and returned.

However, there was a sneer in Qin Tiange’s mouth, and it was impossible to give the other party this opportunity.

“swallow!”

Suddenly, with a sip, I saw two kingdoms of God that had been intertwined and collided, and suddenly a terror occurred.

Then, before the two gods reacted, they saw that their respective kingdoms were swallowed up by an inexplicable force.

“what happened?”

“Why is the kingdom of God shrinking?”

“No, there are powerful men who are devouring the kingdom of God.”

The two gods immediately stopped fighting, and were surprised. Then they guessed that something was eating the two kingdoms.

Thinking of this, the gods in the two kingdoms of God couldn’t sit still, they just turned around and killed them crazy.

“Stop him!”

As soon as they arrived, countless gods saw Qin Tiange’s traces, and were swallowing the power of two kingdoms there.

Seeing this, all the gods were angry and roaring madly, trying to stop Qin Tiange’s crazy behavior.

Humph!

Looking at the influx of gods, Qin Tiange snorted, opened his mouth, swallowed, and a loud noise came, and a terrible scene appeared.

The heavenly gods who had rushed up suddenly found in horror that they couldn’t control the gods, they were broken up by powerful tearing forces and then swallowed.

“Do not”

“Oh Lord, Lord”

The gods roared and kept roaring, the screams of fear awakened more gods.

Only then did he find out that Qin Tiange was devouring the gods in the sky, and he was eating gods.

The gods were terrified, trembling, and backed up one after another, but unfortunately it was a step too late.

boom!

A majestic suction spread, covering the two kingdoms of God, and all the gods found that they could not resist at all.

No matter how powerful the gods, in fact, they will not exceed the Lord of the Realms here, because the Lord of the Realms is the most powerful Lord of Gods.

The master is not Qin Tiange’s opponent. Can these opponents be evolved from each other?

Soon, the countless deities in the two kingdoms of God were swallowed directly by Qin Tiange and refined into their own soul.

“Uh,” Qin Tiange snorted, and finally devoured the gods of the two divine kingdoms completely, leaving no one.

The two **** kingdoms that were originally densely packed disappeared, and none of them remained broken! “

After eating the gods, Qin Tiange pointed out, and as a “broken” word spread, the two kingdoms of God suddenly shook together.

With a click, the kingdom of God split from the center, revealing the core origin of the kingdom of God, a unique and powerful spiritual origin.

This is the source of the true soul that is hidden in the kingdom of God and opens up the kingdom of the kingdom. Once it has accumulated enough, it can be resurrected.

“what”

With two screams, an angry roar came like the roar of two Supreme Lords.

Unfortunately, the two roars quickly disappeared, and was directly erased by Qin Tiange, swallowed up on the spot.

Slightly!

A crashing rumor spread, and the two kingdoms of God both collapsed and turned into countless fragments, which were swallowed directly by Qin Tiange’s mouth.

Swallowing two **** kingdoms, Qin Tiange felt that the 60 trillion small **** kingdoms in his body had accelerated and stabilized a lot.

Seeing this, Qin Tiange chuckled and murmured: “Swallowing is really the most effective way. It seems that if I swallow a few thousand gods, maybe the 60 trillion cells in my body will be completely stable. . “

“However, even the tide of the spiritual world is swallowed together, the effect will be better.”

Qin Tiange suddenly showed a smile, without hesitation, and began to devour directly without any scruples.

The kingdom of God is hidden in the tide of Jiehai, and Qin Tiange directly devours the storm in Jiehai, the huge waves roll in, and he is swallowed by his mouth.

This is how the kingdom of God in the tide of the bounded seas swallowed together is simply creepy.

Rumbling

The terrible engulfing force came and stirred the sea of jelly, forming a terrible vortex of engulfment, engulfing the waves of the sea of the sea within tens of thousands of miles.
