

Deeply 101

Chapter 101 His concern (1)

After Su Zhenhua said that, he grabbed the phone on his desk and was about to dial a number.

Su Wanwan's Black pupils suddenly contracted and her heart almost stopped beating. She knew very well how her relationship with PEI Munian was. In order not to let Grandpa worry, she had been maintaining the illusion of "loving" in front of him. But if he called her now, wouldn't everything be exposed?

Grandpa's health was not good and he could not be agitated. If he knew about her and PEI Munian's current situation, she did not dare to imagine the consequences, Yingluo.

"Grandpa, I'll talk, I'll talk!"

Su Wanwan's hands clenched tightly, her nails digging deep into her flesh, but she didn't feel it at all.

She had always thought that she still had a choice, so she had held on to a tiny bit of hope and struggled in this marriage. She didn't want to disappoint her grandfather, but she also didn't want PEI Munian to look down on her. However, she only understood now that from the moment she agreed to marry PEI Munian, she had been trapped in this situation and had no way out.

She had married PEI Munian for the SU family and for the SU family. That meant that she was destined to keep moving forward for the SU family and the SU family.

As for the other mayflies, they were simply delusional!

PEI Munian's words were right. Since she had become a whore, she shouldn't think about building-good reputation for herself.

No wonder he looked down on her. Now, she even looked down on herself.

"Grandpa, I'll do whatever you want me to do. Is that okay?" she asked. Su Wanwan opened her mouth and almost gave up on herself. She even curved her lips and smiled, but that smile was thin and powerless.

Su Zhenhua slowly put down the phone. When he saw su Wanwan like this, his expression softened and his tone became gentle. Wanwan, Grandpa doesn't want to force you. It's just that Grandpa really can't watch our su family's hard work of several generations be destroyed just like this. Do you understand? "

"I understand." Su Wan nodded her head late. She was still smiling. I understand. I will mention it to mu Nian as soon as possible.

Su Wanwan returned to her office in a daze.

She slumped on the sofa, her hand supporting her head. There were only waves of powerlessness in her heart.

How was she going to bring up the wedding to PEI Munian? If she took the initiative to mention this, wouldn't it be equivalent to putting her face forward for PEI Munian to hit?

However, Grandpa was a little embarrassed.

Su Wanwan scratched her head in frustration. How did she lead her life like this?

If she could turn back time, she would never have provoked PEI Munian back then. If she could turn back time, she would rather Wanwan had never known PEI Munian. That way, she would not have become a trapped beast because of love.

—

Su Wanwan thought about it in the office for the entire afternoon but couldn't think of a solution. After returning to the villa, she still couldn't stop thinking, causing her entire person to look frowning and absent-minded. She didn't even have the mood to eat.

PEI Munian didn't come back today, so only su Wanwan and aunt Wu were in the huge villa. Aunt Wu looked at the table full of dishes and su Wanwan only took a few bites. She couldn't help but worry, "young madam, are you feeling unwell? why are you only eating so little?"

Su Wanwan was brought back to her senses by aunt Wu's words. She shook her head and replied, "no, it's just that I don't have much of an appetite.

Auntie Wu shook her head disapprovingly. young Madam, even if you don't have an appetite, you should at least eat a little. Otherwise, young master will be worried if you go hungry.
