

Deeply 1014

1014 Niannian is missing (6)

She really didn't expect that Mr. And Mrs. PEI would be so ruthless. She had thought that they were just angry yesterday and worried about PEI Munian's injury. That was why they didn't want her to see niannian. Now, they actually moved niannian away.

No, she couldn't lose any news of niannian just like this.

Su Wanwan quickly took out her phone from her bag and called assistant Wu. If he had been accompanying PEI Munian, he would definitely know which hospital he was transferred to.

After a long while, assistant Wu finally picked up the phone. Her voice was a little hoarse, as if she had been woken up from her sleep.

"Assistant Wu, are you sleeping?"

Hearing su Wanwan's voice, assistant Wu paused and suddenly sobered up. Ah yes, I just got home this morning and slept for two hours. I'm sorry, I slept too deeply and didn't hear your call.

it's okay, it's okay. I just wanted to ask you, niannian was transferred to another hospital this morning. Do you know which hospital he was transferred to?"

what? boss PEI has been transferred? " Assistant Wu seemed to be even more surprised than su Wanwan. when did this happen? I've never heard of it. "

He had stayed by PEI Munian's side for the entire night last night. This morning, father PEI saw that he was very tired and asked him to go back and rest. He had wanted to sleep for a few hours before rushing to the hospital. Why did boss PEI suddenly transfer him to another hospital?

"You don't know? Even you don't know?"

Su Wanwan was still counting on assistant Wu. If he didn't know, where was she going to find PEI Munian?

Assistant Wu's brows furrowed. Perhaps Mr. PEI had asked him to go back and rest in the morning to distract him. Otherwise, why would he transfer boss PEI to another hospital right after he left?

young Madam, don't worry. I'll make a call and ask. I'll try my best to help you find out.

"Yes."

After hanging up the phone, su Wanwan stood in place for a few seconds. She suddenly turned around and ran out of the hospital in big strides.

She couldn't just sit around and wait for death. The transfer was obviously targeted at her. However, no matter how Mr. And Mrs. PEI thought of her, they couldn't deprive her of her right to take care of her husband!

After su Wanwan ran out of the hospital, she stopped a taxi and went to the PEI family's old house.

On the way, su Wanwan received a call from assistant Wu. His voice was tired and helpless. young Madam, I'm sorry. I can't find out anything. They should have kept it a secret from me. But I'll still think of a way."

Su Wanwan bit her lower lip hard and was silent for a few seconds. Her voice was very hoarse. how was Qianqian niannian's condition yesterday? "

Assistant Wu's voice deepened. young Madam, to be honest, doctor Wanwan said that boss PEI's brain is under pressure and that he's in a coma due to excessive blood loss and lack of oxygen. If he doesn't wake up, there's a high chance that he'll die.

I was hoping that if you could accompany boss PEI, you could agitate him and perhaps wake him up. I didn't expect master and Madam to be so cruel as to not let you see him.

I won't let him die. PEI Munian can't die like this. He can't leave me alone.

The car arrived at the old house. Su Wanwan got out of the car and rushed directly to the door. She pressed the doorbell hard and knocked on the door, " open the door! Open the door!"

There was almost no sound when she hit the thick carved wooden door, but her hand was in great pain. When she touched the wound on her hand yesterday, blood began to flow out again.
