1029 Banquet at Hongmen (5)

Her beautiful big eyes blinked again and again, her long curly eyelashes trembled, and her black pupils suddenly contracted. Su Wanwan looked at the man sitting in the wheelchair in front of her in disbelief.

He had clearly seen her and heard her calling him, so why didn't he have any reaction at all?

He hadn't looked for her since he woke up for more than a month. She thought that his injuries hadn't recovered yet. She was in fear every day and had nightmares, afraid that something had happened to him.

Now that he was finally getting better and could see her again, Yingluo was pretending not to see her? And he was still standing with Xi Zhiwei among the guests, receiving everyone's blessings and compliments.

Could it be that he believed what Mrs. PEI had said and thought that she had really abandoned him when his life was in danger, signed the divorce papers, and cut off all ties with him? Was that why he was angry with her and ignored her?

However, as soon as this thought flashed through her mind, she shook her head violently.

No, it was impossible. She and Nian Nian had gone through so many things, and it had been so difficult for them to be together. They both understood each other's feelings, so how could he believe Mrs. PEI and Xi Zhiwei's one-sided words?

If it wasn't because of this Yingluo, what was it?

Su Wanwan furrowed her eyebrows and thought about it. Previously, the doctor said that his heart and brain were the most serious injuries. Did he hurt his brain like she did before and his memory was erased? or did he not remember what happened before for the time being, so he was provoked by Mrs. PEI and Xi Zhiwei?

More and more doubts surfaced in her mind, making her want to rush up to PEI Munian and ask her clearly.

She glared at the two bodyguards in front of her and clenched her fists tightly.

Shen Ziwei walked up from the back and was extremely surprised to see the situation. PEI Munian had regained consciousness. Although her movements were not very smooth, they were not restricted. Wanwan was right in front of him, but why did he act as if he did not know her?

Wanwan, didn't assistant Wu tell you that PEI Munian's recovery is going well and there are no other side effects? " Shen Ziwei's voice slowly rang in su Wanwan's ears. Although he said it tactfully, su Wanwan understood.

If there were no aftereffects, which meant that he did not lose his memory, he would not ignore her just because he had forgotten her.

If he had not forgotten her, then why did he ignore her?

In front, PEI Munian and Xi Zhiwei had been socializing for a while. PEI Munian seemed to be tired and Xi Zhiwei smiled gently at everyone. I'm so sorry. Brother Munian needs to rest. Have fun. We'll treat everyone well the next time we hold a wedding.

With that, she pushed PEI Munian and turned to leave.

Shen Ziwei's eyes narrowed. It wasn't easy for him to meet PEI Munian. He couldn't just let him leave like this. He couldn't let Wanwan wait anxiously all the time. He had to make things clear!

Wanwan, I'll help you block these two bodyguards. You chase after them and talk things out with PEI Munian.

Shen Ziwei quickly whispered this in su Wanwan's ear and then stepped forward to stop the two bodyguards. Su Wanwan reacted and took the opportunity to run past them. When the bodyguards wanted to chase after them, they were stopped by Shen Ziwei.

Xi Zhiwei pushed PEI Munian to the backyard, and su Wanwan followed closely behind.

Su Wanwan quickly scuttled through the crowd. However, when she was about to walk out of the banquet hall, two bodyguards came out of nowhere and blocked her again.
