1043 An explosive secret (3)

"Don't touch me!"

Xi Zhiwei struggled with all her might and broke free from the man's embrace. Then she raised her hand and slapped the man. The man's face turned to the side and his expression was filled with anger.

He touched his face with his hand, but he still smiled. you're so noble now. I really miss the time when you used to lie under me and moan.

"You," Xi Zhiwei raised her hand again to hit the man, but he grabbed her wrist and pushed her. Xi Zhiwei lost her balance and staggered a few steps before she fell to the ground.

The man looked down at her condescendingly. don't think that I'm still interested in you. I've already played with you until it's rotten. I'm just taking pity on you. Anyway, that PEI family's Crown Prince won't touch you. He's only touching the daughters of rich families, not the daughter of a Butler who thinks he's noble!

The man spat on her and couldn't be bothered to talk to her anymore. He picked up the red wine on the table and walked into the room.

Xi Zhiwei sat on the ground in a daze, her hands clenched tightly. She stared at the man's back, her eyes full of killing intent.

Su Wanwan rushed to the elevator before Xi Zhiwei came out. After she walked into the elevator and closed the door, when the elevator descended, her heart that was hanging in her throat slowly fell back down.

She had never thought that by following Xi Zhiwei, even though she had not found PEI Munian's whereabouts, she would accidentally come across Xi Zhiwei's shocking secret.

Although the man had only said one thing, which was the truth about Xi Zhiwei's pregnancy, from his words, she could feel that he definitely knew that Xi Zhiwei had done other bad things. He had evidence in his hands, otherwise Xi Zhiwei would not be so afraid of him and give him money again and again.

In that case, the things that this man knew would be the key for her to retaliate against Xi Zhiwei. As long as she found out about all the dirty things that Xi Zhiwei had done in the past and exposed them, Mr. And Mrs. PEI would no longer trust her and would no longer help her. Naturally, they would no longer let PEI Munian marry her. As for her, her reputation would be ruined and she would no longer have the face to face anyone!

Previously, when she was forced to sleep with someone and suffered from depression, she still had a little sympathy for her. However, in the past month, she had incited Mrs. PEI to do those things, and she could no longer tolerate it. It was time to settle the Old and New grudges once and for all!

Su Wanwan curved her lips, took out her phone, lit up the screen, and her gaze fell on the video on the screen.

This was what she had recorded while she was eavesdropping. However, from her angle, she could only see Xi Zhiwei's back and not her front. However, she could clearly see the man's front.

She had to find out more about this man so that she could make a deal with him.

Anyway, looking at the situation, his relationship with Xi Zhiwei was only about money. As long as he had enough money, he could bite back at Xi Zhiwei and reveal all her secrets. It should be possible.

After su Wanwan returned to the SU house, she immediately sent the video on her mobile phone to her computer. Then, she cut out the man's appearance and sent it to assistant Wu, with a short message: [assistant Wu, can you help me find out who this man is? try to find out as much detail as possible.]

Assistant Wu's call came back very quickly. young Madam, why are you investigating this person? "
