

## Deeply 1049

1049 Why is she here?(3)

Su Wanwan was shocked. For fear of being seen by them, she quickly quickened her steps, then pushed the door open and quickly flashed in. As soon as the door was closed, Butler Xi and ning Jingting walked past the door one by one.

She patted her chest and heaved a sigh of relief. She had almost been seen by Butler Xi, but fortunately, she had run away quickly.

However, even though Butler Xi was no longer around, Mrs. PEI was still in the ward. How was she supposed to sneak in to look for PEI Munian? However, Mrs. PEI couldn't have stayed in the hospital the entire night, right? Wouldn't it be better if she entered the ward after she left?

Su Wanwan picked up her phone and looked at the time. It was almost ten o'clock in the evening. Mrs. PEI probably wouldn't be leaving for a while. It was useless for her to stay here and it was inconvenient to do things with her luggage. She thought about it and immediately took out her phone to check the nearby hotels. Then, she booked a room and left with her luggage after booking.

She went to the hotel to put down her luggage, took a shower, and then simply ate something. Su Wanwan rushed back to the hospital without stopping, but she didn't expect that there were two bodyguards guarding the door of the ward.

Mrs. PEI really couldn't relax for even a moment. She had originally planned to sneak in after Mrs. PEI had left, but it seemed that it would be a little difficult now. Moreover, she didn't know if Mrs. PEI had left yet.

Su Wanwan's delicate eyebrows furrowed tightly. She was thinking whether she should pretend to go forward inadvertently and test it out. Anyway, these two bodyguards looked very unfamiliar. They were not the bodyguards who stopped her in L city before, so they should not know her.

Just as she was hesitating whether to go forward or not, she saw the door of the ward being pulled open and Butler Xi coming out from inside. Su Wanwan quickly dodged to the corner to hide, to avoid being seen.

Butler Xi seemed to have given some instructions to the two bodyguards, but Su Wanwan was standing a little far away and couldn't hear what they were talking about, but it must be something like strengthening the security.

After giving his instructions, Butler Xi did not leave and returned to the ward.

Su Wanwan waited outside for a while but didn't see her come out again. It was already past 12 o'clock. She thought that Butler Xi probably wouldn't leave tonight. If she was in the ward, then she couldn't sneak in. Otherwise, she would alert the enemy.

What should he do now?

If Mrs. PEI and Butler Xi were here every day, would she not have any chance to see PEI Munian at all?

Su Wanwan's brows furrowed even more tightly, her black eyes spinning. She suddenly thought of Wanwan and ning Jingting, couldn't they go see PEI Munian? She was also ning Jingting's Savior, and she was very grateful to her. It shouldn't be a problem for her to help her with this small favor, right?

She didn't need to bring her in to see PEI Munian. She could even pass on a message!

Yes, she remembered that she had called her when she was in the Maldives. There should still be a call record!

Su Wanwan quickly picked up her mobile phone and looked it up. After searching for a while, she finally found ning Jingting's phone number. Su Wanwan's eyes lit up with joy and her fingers were about to press the button, but she stopped at the last second.

She had almost forgotten that it was late at night. Ning Jingting might have already fallen asleep. It would be bad if she woke her up.

Su Wanwan thought about it and put her phone back.

Anyway, she had waited for so long. One more night was not much. Knowing that PEI Munian was here and that she was well, she was already at ease. She would contact ning Jingting tomorrow.
