Xi Zhiwei took the initiative to mention the child without any taboo. She said that PEI Munian knew what was going on and the reporters could not help but look at each other.

If Xi Zhiwei had really done such a shameful thing, how could she still explain herself so calmly?

Could it really be as she said, that this video was strange? Who else would play such a video at this time to ruin her engagement party?

It wasn't impossible. Didn't he have a criminal record?

At the PEI family corporation's mid-year celebration, PEI Munian was about to announce her engagement to Xi Zhiwei. However, PEI Munian's wife, or rather, ex-wife, su Wanwan, the daughter of the SU family, suddenly appeared. She used the excuse that she had not officially divorced PEI Munian and ruined the engagement party, making Xi Zhiwei a laughingstock.

So this time, this video that destroyed Xi Zhiwei's reputation suddenly appeared at the engagement party. Could it be su Wanwan causing trouble again? Did he work with her ex-manager on purpose to ruin her reputation so that she could not marry PEI Munian?

After all, the PEI family valued their reputation the most. If Xi Zhiwei had slept with another man and tried to get pregnant to deceive the PEI family, then the PEI family would not allow such a daughter-in-law to enter the family.

PEI Munian's dark eyes swept across Xi Zhiwei's face. The light in her eyes was deep and unfathomable, and no trace of emotion could be detected.

Xi Zhiwei swallowed her saliva unconsciously and her body turned cold. Her hands unconsciously grabbed PEI Munian's arm and her voice trembled as she continued, "Brother mu Nian, it really wasn't me. All these years, I've loved you with all my heart, you know that, right? How could I have anything to do with other men? this video appeared at this time, it must be because su Wanwan is unwilling. Even if she took the money and left, she didn't want to see you happy, so she made this video to separate our feelings. I dare to guarantee that she must be here today, she must still be here. As long as I let someone catch her, I can confront her face to face!"

As Xi Zhiwei spoke, her heart could not help but calm down.

Her former manager was already dead, and a dead man could not speak. All her secrets had been brought to the underground with him, and no one could expose what she had done.

Now, it's just a small video of a few minutes. That one or two sentences, her face hasn't been captured yet, so it doesn't hurt or itch. Su Wanwan can't do anything to her.

She was extremely glad that she had made the first move and killed her former manager. Otherwise, she would have been the one in trouble.

Xi Zhiwei's words were so convincing and powerful that everyone could not help but believe her a little. If the person in the video was really her, would she still dare to say that she wanted to confront her now?

One had to know that this kind of lie could not be concealed at all. As long as the person involved spoke up, the truth would be revealed.

When Xi Zhiwei spoke, she had already signaled to Butler Xi with her eyes. She understood and immediately brought a few strong servants to the computer room and pulled su Wanwan out.

Butler Xi even ruthlessly pushed su Wanwan hard, exposing su Wanwan's entire body in front of everyone. Su Wanwan lost her balance and staggered forward.

Xi Zhiwei sneered and looked at her, waiting for her to fall to the ground in a sorry state and suffer the ridicule and disdain of the crowd.
