

Deeply 188

Chapter 188 I need to prepare for the wedding (10)

Su Wanwan almost couldn't hold back and was about to blurt out disrespectful words, but when the words reached her mouth, she still resisted it.

She clenched her fists so tightly that her nails dug into her palms. She took a few deep breaths before she managed to suppress her anger. She tried her best to speak in a calm tone, "Grandpa, how could you arrange the fate of an unborn child like this? The child is innocent. I can't give birth to him with such a motive!"

It was true that she wanted to bear PEI Munian children, but that was because of love. She hoped that they would have the fruit of their love and not become the SU family's bargaining chip and be bound by the SU family like her. Her child, she wanted him to be healthy and happy, to grow up without restraint.

"What did you just say?" Su Zhenhua's expression remained unchanged, but his voice had already sunk.

Su Wanwan could give in to anything, but this was the only thing she couldn't give in to.

Su Wanwan straightened her back and said unyieldingly, "Grandpa, I've promised you and done everything you wanted me to do for the past year. Why are you still not satisfied? Our company is now on the right track. As long as we develop steadily, the SU group will not go bankrupt again. Why can't we be content? Why do you still want to use my future child like this? The child shouldn't be a bargaining chip for us to gain benefits. Grandpa, even if you don't feel bad, I do!"

Because su Wanwan was in a hurry, her words were direct and sharp. Su Zhenhua's face turned green and purple. He pointed at su Wanwan and trembled non-stop, "su Wanwan, what did you say? don't you dare say it again!"

Su Wanwan looked at Su Zhenhua's face and flinched for a moment. However, her grandfather's request this time was really too much. She couldn't listen to him anymore.

Su Wanwan swallowed her saliva and stiffened her body. She gritted her teeth and insisted on her own thoughts. Grandpa, I'm sorry. I can't listen to you this time. I won't let my child waste his time.

The sound of the slap reverberated throughout the entire office.

Su Wanwan's voice stopped abruptly. She looked at Su Zhenhua in a daze, raised her hand little by little, and slowly stroked her cheek. Her cheek was in pain, but her heart was in a hundred times, a thousand times more pain than the pain on her cheek.

Grandfather hit her.

Her grandfather had actually slapped her.

When Xi Zhiwei had slapped her, she had also felt pain, but she had felt more anger. But now, her grandfather had not hit her as hard as Xi Zhiwei. Her eyes had suddenly turned red.

After her parents passed away, her sister married far away. Although her grandfather didn't like her, they had been relying on each other for the past year.

She knew a lot of things. For the sake of the family and the company, Grandpa had never considered her feelings. However, she was still willing to endure the little bit of care and warmth he gave her.

She was willing to do many things for him, including giving up her pride, dignity, love, and marriage.

Why couldn't he see anything?

Why was he not satisfied no matter what she did?

Was she that unimportant just because she was a girl?

Tears gathered in her eyes and blurred Su Wanwan's vision. Su Wanwan couldn't hold back and tears flowed out of her eyes.

Su Zhenhua seemed to be blind to her tears and sadness. He only said sternly, "Su Wanwan, the SU family raised you up and this is how you repay the SU family?"
