Assistant Wu didn't expect PEI Munian to ask su Wanwan. He was stunned for a moment before he suddenly reacted and replied, "M-young Madam just, just left!"

However, before he could finish his sentence, PEI Munian had already rushed out. He only felt a gust of wind blowing at him, but it quickly disappeared.

When PEI Munian ran to the elevator, the door of the elevator su Wanwan took just closed. PEI Munian's hand clenched involuntarily and turned to press the button for another elevator. Once the door opened, he quickly walked in and pressed the close button.

PEI Munian leaned against the steel wall of the elevator. He looked at himself through the transparent mirror in front of him. The corners of his lips rose slightly and he poured out endless self-mockery. He didn't know why he still wanted to chase after her, but after he dragged su Wanwan out of the office and slammed the door hard, he stood there. For a moment, his whole world turned dark, as if he had nothing left.

Divorce, adultery, pregnancy, child. From the moment su Wanwan entered this office, she had been using these words to attack him. She was not polite and used the most ruthless words to stab his heart. The more he cared, the less room he had to resist. He was forced to retreat step by step by her and finally lost his mind. He signed the divorce agreement with his own hands, which was equivalent to urging him to let go of her with his own hands.

However, from the beginning to the end, everything he did was to not let go of her. It was all for the tiny bit of hope between them. Now, he had destroyed it himself?

PEI Munian lowered her eyes and looked at her hands, which were trembling bit by bit. Then, as if her brain was calling her to move, she turned around and opened the door with one hand.

He was probably just trying to grab onto something.

PEI Munian closed her eyes and leaned back, hiding her disappointment and despair.

Chasing after her might not change anything, but at least, he didn't allow himself to let go of su Wan's hand so easily when he had lost his mind.

Su Wanwan got out of the elevator and walked straight to the main entrance. She had already made an appointment with the lawyer. She was going to the lawyer's building now to hand the divorce agreement to him. He would be able to deal with it for her immediately. This way, she could officially divorce PEI Munian.

It was just that su Wanwan had just walked to the center of the hall when she heard a ding behind her. There was the sound of the elevator door opening. Then, someone shouted for boss PEI.

Su Wanwan's footsteps slightly stagnated. She reflexively turned her head and looked behind her.

PEI Munian's tall figure was walking out of the elevator. He raised his eyes and met su Wanwan's eyes.

Su Wanwan's heart suddenly thumped, and an extremely bad premonition rose in her heart. Why did PEI Munian chase after her? Did he go back on his word, Yingluo, and still not plan on letting her go?

No, it was not easy for her to fight for the divorce agreement. It was not easy for her to cut off all ties with PEI Munian. She could not give him the chance to regret it!

Su Wanwan's hand clenched the agreement tightly and she ran out!

When PEI Munian saw su Wanwan's actions, her eyebrows immediately furrowed fiercely. In fact, after calming down just now, he vaguely realized that su Wanwan was just provoking him just now to make him sign the divorce agreement. Now it seemed that it was really the case.

It was just that she was really too good at grasping his weakness, which caused him to be careless for a moment.

PEI Munian's dark eyes darkened. She strode out with her long legs and quickly chased after him.

No matter how fast su Wanwan ran, PEI Munian quickly closed the distance between them. Her heart was beating fast and she rushed forward blindly. Who knew that when she rushed over, the glass door had not even opened in time and she crashed into it.
