384 The worst case scenario (4)

Once PEI Munian collapsed, she slept for three days before she slowly woke up.

When he opened his eyes, he saw an anxious assistant Wu. At the same time, he saw Xi Zhiwei holding his hand and crying silently by the bed.

Seeing him open his eyes, Xi Zhiwei's eyes brightened and her grip on PEI Munian's hand tightened. Her voice was still sobbing but was filled with excitement. brother Munian, you're awake? "

PEI Munian frowned slightly, not understanding why Xi Zhiwei was here. He subconsciously retracted his hand and slowly swallowed. He opened his mouth and asked in a dry and hoarse voice, " why are you here? "

Xi Zhiwei felt her empty hand and her heart felt as if it had been pierced by a sharp needle. Her fingers stiffened slightly, but she quickly gathered all her emotions and looked at PEI Munian with red eyes. She was both sad and heartbroken. brother Munian, why didn't you tell me that you were injured? I couldn't contact you all this time. Do you know how worried I was? If I didn't come to the hospital and see assistant Wu, I wouldn't have known that you were injured."

PEI Munian's dark eyes slowly glanced at assistant Wu. Assistant Wu shrugged helplessly. He did not expect that Xi Zhiwei would run into him so coincidentally. He could not hide it even if he wanted to.

"Brother mu Nian, how do you feel now? Does your wound still hurt?"

"I'm fine," she said. PEI Munian replied in a low voice, " it's just a small injury. You don't have to worry.

"Why is it a small injury? You have such a big wound on your back, and you've been unconscious for so many days." As Xi Zhiwei spoke, her tears fell again. you've been unconscious for three days. Brother mu Nian, do you know how scared I was? If something happens to you, what should I do?"

Xi Zhiwei's crying made PEI Munian's head hurt. However, because of the guilt he felt for her, he could not chase her away like before.

He squinted his eyes and gave assistant Wu a look. Assistant Wu understood and quickly thought of an excuse to get away. He quickly said, " "Boss PEI, Dr. Zhao said that you need to take an X-ray to see if you're injured after you wake up. Can you go now?"

PEI Munian nodded slowly. sure, you can go now.

"Okay, I'll go get you a wheelchair." Assistant Wu opened the wheelchair from the corner of the room and pushed it to the side of the ward.

PEI Munian propped herself up and wanted to get up. Seeing this, Xi Zhiwei quickly stopped her tears and said,"Brother mu Nian, I'll help you."

However, before she could reach out her hand, assistant Wu had already reached out to support PEI Munian. Miss Xi, there's no need. I'll help boss PEI. We can't let a woman like you do such heavy work.

Assistant Wu helped PEI Munian into the wheelchair. Xi Zhiwei hurriedly said, " then I'll accompany brother Munian for a checkup.

She stood up and wanted to push the wheelchair, but assistant Wu held onto the handle of the wheelchair tightly and refused. Miss Xi, I'm afraid it's not that convenient. This examination might require you to take off your clothes. There's a difference between a man and a woman between you and boss PEI. Moreover, you two aren't a real couple of Yingluo, so it's enough for me to accompany boss PEI.

As soon as she finished speaking, assistant Wu pushed PEI Munian out of the ward without any explanation.

Xi Zhiwei was stunned on the spot. Assistant Wu's words, " you're not a real couple, " reverberated in her ears. Her hands clenched tightly.
