Su Wanwan also heard the sound. Her eyes lit up and she suddenly straightened her back. She looked straight at the door. Nian, niannian is back.

Her words were still a little muffled and incoherent.

Auntie Wu walked to the door in confusion. When she looked over, she realized that the car that drove in was not young master's.

The car door was pushed open and a beautiful figure slowly walked out. Wu Min looked carefully and saw that it was an unexpected person. It was Butler Xi's daughter, Xi Zhiwei.

She knew that Xi Zhiwei had a good relationship with the young master, but after the young master moved into this villa, he had declined all visitors. Thus, Xi Zhiwei had only been here once or twice, and she had always been with Mrs. PEI. She did not expect her to come here alone.

After Xi Zhiwei got out of the car, she walked straight over. When she saw Auntie Wu standing at the door, she smiled and said gently, "Auntie Wu, long time no see."

When Xi Zhiwei was in the PEI family, she had always taken advantage of her Madam's favor and treated herself like a real rich young lady. She treated the other servants with an arrogant attitude. Although aunt Wu had watched her grow up, she did not like her very much. However, one should not hit a smiling person. Aunt Wu returned the smile and said politely, "Miss Xi, how are you?"

"Auntie Wu, don't be so formal. You can just call me Weiwei."

Aunt Wu just smiled. Then, her eyes fell on Xi Zhiwei's slightly raised belly. A trace of shock flashed in her eyes.

As far as she knew, Xi Zhiwei was not married yet, so how could Wanwan be pregnant?

Xi Zhiwei saw that aunt Wu was staring at her stomach but she didn't care. She even touched her stomach gently. She saw aunt Wu's surprise and confusion but she didn't say anything. She continued to walk into the house.

When Xi Zhiwei walked past Auntie Wu, Auntie Wu suddenly reacted and said, "Miss Xi, are you here to look for young master? Young master is still in the office and hasn't come back yet."

Xi Zhiwei stopped in her tracks and shook her head. She smiled and said, no, I'm not here to look for brother mu Nian. I'm here to visit sister Wanwan.

After saying that, she continued to walk in.

Before aunt Wu could stop her, she had already walked into the living room and saw su Wanwan sitting on the sofa.

Xi Zhiwei's eyes suddenly turned cold and a touch of gloominess quickly surfaced in the bottom of her eyes. She came here today only to find out if su Wanwan was really hidden by brother mu Nian. She didn't expect ran ran to be here!

Su Wanwan didn't wake up after the operation. At that time, she hoped that she would never wake up, but she still did. After that, she wanted to find out more about her, but she couldn't find anything. She didn't return to the SU residence, so she didn't know where her people went. She thought about it and concluded that su Wanwan was either taken away by Gong Lingyu or with brother mu Nian.

How she wished that this trip of hers was a waste of time. However, the SU Wan in front of her was equivalent to a ruthless slap on her face.

Su Wanwan had hurt brother mu Nian so much before, but he never gave up on her. They had already fallen out so much, how could they be together again?

Xi Zhiwei fiercely bit her lower lip and clenched her hands. The corners of her lips raised into a cold smile. Then, she walked towards su Wanwan step by step.
