After hanging up the phone, su Wanwan leaned on the sofa. She recalled what nanny li just said and couldn't come back to her senses for a long time.

During this period of time, she and PEI Munian had been so happy. Even though she was curious about her return, she was not too persistent because she could vaguely sense that niannian did not want her to remember the past.

She avoided doing all the things that niannian didn't like, and never thought about the reasons.

Nanny Li's unintentional words were like a huge stone thrown into the calm lake of her heart, setting off huge ripples, making her have no choice but to face her unknown past.

PEI Munian did not tell her about this in the past, and aunt Wu did not know about it either. In that case, her family, her grandfather, should know about it, right?

However, niannian didn't allow her to go out, and aunt Wu had been watching her. How could she avoid her and go to see Grandpa alone without being discovered?

Su Wanwan racked her brains and finally thought of a way.

She would usually go to the hospital for a check-up regularly. She was supposed to go this week, but because PEI Munian was on a business trip, she had postponed it to the next week and would bring her there when he returned.

If she wasn't in a good condition now, she could Ask Auntie Wu to take her there, right? When she arrived at the hospital, it would be easier for her to avoid Auntie Wu.

Su Wanwan's Black eyes turned. She got up from the sofa and walked to the dressing table. After sitting down, she picked up the powder box, opened it, and applied powder on her face. She used the whitest color mark and applied a circle on her face. That ruddy face instantly turned pale.

Su Wanwan went downstairs to find aunt Wu. She pretended to have a headache and asked her to take her to the hospital immediately.

Su Wanwan's headache hadn't acted up for a long time and her body was getting better day by day. Aunt Wu was shocked when she suddenly became so weak. Naturally, she didn't think much and immediately called for someone to prepare the car.

Wu Sheng helped su Wanwan into the car and she got in as well. After the car started, she first called the doctor and then prepared to call PEI Munian.

Su Wanwan quickly grabbed aunt Wu's hand and shook her head. aunt Wu, don't call niannian. He's working. I don't want him to worry. Maybe I'll be like before, just hurting a little and I'll be fine.

Su Wanwan's words made sense.

Given how much young master cared about young Madam, if she told him now, he would definitely leave his work and come back immediately. If young Madam was just frightened for nothing, it would delay young master's work and it would be difficult to explain to old master.

Seeing aunt Wu take back her phone, su Wan secretly breathed a sigh of relief.

The doctor examined su Wanwan and didn't notice anything wrong with her. However, su Wanwan kept complaining that she had a headache. He couldn't make a judgment for the time being, so he could only let su Wanwan stay for a night and observe.

This was exactly what su Wanwan wanted.

After su Wanwan moved into the ward, she asked aunt Wu to go back and pack some clothes for her to change into. Aunt Wu looked worried. young Madam, are you okay with being here alone? "

of course I can. I have a headache, so I can only sleep here. It's quieter without you. By the way, don't disturb me when you come back. Just let me sleep. Su Wanwan said weakly.

"Alright, then."

After all, this was the VIP Ward, and unauthorized people were not allowed to enter, so Auntie Wu was more or less at ease.

As soon as aunt Wu left, su Wanwan lifted the quilt and got up.
