Su Wanwan reflexively raised her head and looked in the direction of the voice. Her so-called grandfather was standing behind the railing on the second floor, holding a crutch, his eyes sharp and calm, looking at her with a serious face.

She did not know why, but when she faced this grandfather, she was not as relaxed as when she looked at her parents and sister in the photo. She did not want to get close to him. Instead, she felt a faint sense of distance and fear.

Su Wanwan straightened her back and forgot to greet him for a moment. It was nanny li who quietly reminded her in her ear, " miss, quickly call Grandpa.

Su Wanwan reacted and called out in a low voice, " Grandpa.

Su Zhenhua's expression remained unchanged. He stared at her for a few seconds before saying, " come up.

With that, he walked to his bedroom with the help of a servant.

Su Wanwan was stunned for a moment. She secretly took a breath, raised her feet, and walked up the stairs, following Su Zhenhua into the room.

Su Zhenhua sat down on the sofa and asked su Wanwan to sit as well. She walked over and sat opposite him. She sat upright and looked down, as if she was in her usual posture in front of him.

Su Zhenhua's sharp eyes swept over su Wanwan's face. From the moment he knew that su Wanwan had handed over the company to an external person to manage, he had been looking for her and wanted to ask her what she wanted to do. She ignored the company for no reason and let an outsider take control. Without them in charge of the SU group, who knew what would happen if they relied on an outsider!

However, during this time, he didn't know where su Wanwan had gone. It was as if she had disappeared from this world. He had people look for her for a long time and finally got all the news about her from Gong Lingyu.

He did not expect so many things to happen to her in just a few months.

Su Zhenhua looked at su Wanwan sitting there awkwardly and his eyes darkened. have you been with PEI Munian all this time? "

Su Wanwan thought that Grandpa would at least care about her Health First. She didn't expect that even nanny li was concerned about her without saying a word. Could it be that this grandpa's relationship with her wasn't good in the past?

However, she could clearly feel that she still had feelings for this grandfather of hers.

Su Wanwan originally wanted to ask about his physical condition, but seeing his angry look, she also silently swallowed her words.

Although she was puzzled, she nodded honestly. yes, I had an operation. After I woke up, I have been recuperating. Niannian is with me.

Su Zhenhua sensed the way su Wanwan addressed him and frowned. you and PEI Munian, are you on good terms now? ”

But now, he was

Su Wanwan’s hands on her knees unconsciously clenched. She pursed her red lips and asked instead of answering, ” Grandpa, haven’t niannian and I always had a good relationship? ”

Something flashed past Su Zhenhua’s eyes. did PEI Munian tell you this? ”

Ever since the last dinner, su Wanwan was determined to get a divorce and PEI Munian flew into a rage because of the drug. Not only did she increase her efforts to promote the acquisition, but she also had a scandal with the current popular girl, Xi Zhiwei. After that, there were even rumors in the circle that PEI Munian was going to marry Xi Zhiwei. At that time, no matter how unwilling he was, he could only give up.

He thought that PEI Munian really didn’t like su Wanwan, but he didn’t expect that PEI Munian would still keep su Wanwan by her side.
