When the car passed by a large shopping mall, she inadvertently looked up and saw a familiar face.

Su Wanwan furrowed her eyebrows. She quickly thought of something and her eyes widened slightly. Wasn't she Yingluo, the woman who came to see her that day? W-why Wei Wei?

However, what she saw was not the real person, but on the television. Xi Zhiwei was being interviewed by a reporter.

Su Wanwan didn't expect Xi Zhiwei to be a celebrity.

Perhaps it was because she was on TV, but she was dressed more exquisitely and prettier than the other day. Her stomach was slightly bulging before, but now, perhaps it was because of her clothes, she could not see it.

The reporter raised the microphone and asked her, "sister Weiwei, I haven't seen much of your movements recently. Your fans are all calling for you to appear quickly. Have you taken on any new shows or advertisements recently?"

Xi Zhiwei covered her mouth and chuckled, as if she was a little embarrassed. I've been resting all this time. I don't have any new projects to film at the moment, but hearing you say this, it seems that I've been resting for a little too long.

As Xi Zhiwei spoke, she reached out and combed through her hair. but I may have to apologize to my fans. I will continue to rest, but the time is uncertain.

When she said that, the reporters couldn't help but go into an uproar and feel that it was a pity.

The reporter immediately asked, "sister Weiwei, did you rest for so long this time because of young master PEI?"

Xi Zhiwei blinked her big eyes, as if she did not understand. what are you talking about? My work is naturally arranged by my management company. I've worked too hard in the past, so the company rewarded me and let me have a good rest."

The reporter laughed and said, "sister Weiwei, don't beat around the bush with us. Previously, Yun X Studio had already exposed your relationship with young master PEI, and he didn't deny it. Isn't your relationship a sure thing?"

Xi Zhiwei lowered her eyes. Her long eyelashes fluttered slightly as if she was shy. She rebuked, "you were the ones who said those words, not me.

Although she didn't say anything definite, her words made one's imagination run wild.

The reporters were getting more and more excited. sister Weiwei, does this mean that young master PEI really didn't let you come out to work? Is he planning to marry you and make you his wife?"

"Aiya, you guys are getting more and more ridiculous."

Xi Zhiwei looked angry, but her eyes were smiling. Her whole body seemed to be filled with happiness, like a woman in love.

Since she didn't stop them, the reporters naturally became more unscrupulous. sister Weiwei, just reveal a few words. If you stop all your work, does it mean that you're about to have a good time with young master PEI? " And you've become more voluptuous recently, so it can't be Yingluo."

When the reporter asked this question, Xi Zhiwei's manager, sister li, who was standing beside her, finally said, " alright, my dear reporters and friends, today's interview will end here. Our Wei Wei will be entering the venue. Thank you, everyone! Thank you, everyone!

As sister li spoke, she protected Xi Zhiwei as they walked out from the crowd of reporters.

The reporters were still unwilling to give up and asked loudly, " sister Weiwei, someone took a photo of your slightly protruding belly on Weibo previously. Are you and young master PEI going to have Double Happiness? "
