At that time, su Wanwan would never have thought that her unintentional words in anger would ruin senior brother Xi's entire life.

The conversation between her and that person, somehow, spread out. Overnight, everyone in the school knew that she, su Wanwan, was playing with senior Xi's feelings. She didn't like him, but she hung him up. She used her beauty to casually seduce and hurt others.

Groundless accusations were placed on her head one by one, and she suddenly became the target of public criticism. However, she felt that it was extremely ridiculous. There was clearly no such thing, so how did she become unforgivable?

Su Wanwan was raised from a young age and was pampered and spoiled. Naturally, she couldn't bear such grievances, but she disdained to explain to those people. Because of this matter, she also had some opinions about senior Xi. After all, he knew the best about their relationship, but he allowed these rumors to spread everywhere, so she didn't go to senior Xi to explain clearly.

A week after the incident, senior Xi did not come to school again. Everyone was guessing whether he felt too embarrassed and planned to transfer schools or something. They did not expect the news of his death to come from Wanwan. Moreover, it was a suicide.

When su Wanwan learned of this news, her whole person was stunned. Her brain was blank and she couldn't return to her senses for a long time.

How could a person just disappear like that? she could not believe it at all.

She wanted to see him, but she didn't know where to find him. Senior brother Xi's family background had always been very secretive. The clothes he wore were obviously very ordinary, but he had a famous car to pick him up and down from school every day. And in su Wanwan's circle, she couldn't find a rich family with the surname Xi.

Su Wanwan used all kinds of methods to investigate, but she was unable to find out senior Xi's background. She only learned from his good friend at school that senior Xi committed suicide because of what she said. Because he experienced some accidents when he was young and suffered from depression, he had been much better these years, but because she had a relapse, he didn't think it through and took sleeping pills to commit suicide.

In fact, he had been waiting for her to come and explain the whole week before, but she had not come.

A month after senior brother Xi's burial, she finally found out where he was buried, and she quietly went to pay her respects.

She really did not know that things would turn out like this. If she had known that senior Xi had depression, if she had known that he had misunderstood their relationship, she would have told him clearly and rejected him tactfully. Perhaps things would not have turned out like this.

Because she felt sorry and guilty, she felt that she was too embarrassed to see senior brother Yuxi. After that, she never came to pay her respects to him again and never mentioned anything about him. The

guilt and apology were all suppressed in her heart, so much so that everyone thought that she was heartless and could still live as if nothing had happened after hurting someone's life.

She spent her high school days in this kind of contempt and came to University.

She thought that her university life would be a new beginning, and that she would no longer be bothered by the past. Little did she know that from the beginning to the end, she had never gotten rid of the past.

The person she had fallen in love with at first sight was actually senior brother Xi's good brother.

She only found out a few hours after PEI Munian agreed to date her.
