590 A domineering return (12)

The SU Wanwan who PEI Munian confessed to in front of the whole world a year ago, the SU Wanwan who ran away from the shengshi wedding, even after so long, still left a deep impression on people. So much so that when she appeared, everyone could recognize her. She was su Wanwan!

But no one thought that su Wan, who had disappeared for more than a year, would actually appear at PEI family group's mid-year celebration. When PEI Munian was about to announce that she was going to marry someone else's woman, ran ran would appear.

PEI Munian's words were also interrupted by the sudden push of the door. He lifted his eyelids slightly and looked over lazily. When he saw the familiar figure under the light, his dark eyes froze.

Su Wanwan.

PEI Munian looked at her fixedly. There seemed to be a wave of emotions in the bottom of his eyes, but it disappeared in an instant. The light in his eyes sank, so deep that one could not see the bottom. One could not detect a single trace of emotion. Only his hands were subconsciously clenched, and the veins on the back of his hands were popping.

Xi Zhiwei turned her head and saw su Wanwan. Her whole body suddenly stiffened and her pupils suddenly enlarged, full of disbelief.

That day at the mall, she didn't manage to get the child's hair and was even seen by su Wanwan as she ran away. She was on tenterhooks for a few days, afraid that su Wanwan would notice something. Fortunately, nothing happened.

After that day, she asked someone to investigate su Wanwan's return time and found out that she had been back for more than half a month, but there had been no movement. She did not try to look for PEI Munian, nor did she look for her with the child in her arms. She couldn't help but feel relieved.

Perhaps that child was not PEI Munian's. Didn't she already abort it previously? The child might have been born by her and another man in this year. In that case, she would no longer have anything to do with PEI Munian and she would not have to worry about it.

But she didn't expect that she was relieved too early. Su Wanwan would actually appear at this time. What did she want to do?

In the banquet hall, there were so many people. Everyone's eyes were cast on her, but su Wanwan only felt the gaze from the high platform.

Su Wanwan subconsciously looked back. It was clearly so far away, but she seemed to look into his eyes and also saw the profoundness and coldness inside.

His eyes were filled with anger and murderous intent, sending chills down one's spine.

Even if su Wanwan was already mentally prepared that PEI Munian would not be happy when she saw her, but angry and cold, when she really met his eyes, her heart still trembled fiercely.

Su Wanwan bit her lower lip and blinked her long, curly eyelashes. A trace of timidity grew in her heart. She couldn't help but lower her eyes to avoid PEI Munian's gaze. As soon as she lowered her eyes, she saw Xi Zhiwei under the high platform.

Xi Zhiwei was very beautiful today, more beautiful than she had ever seen. She was wearing a bright red strapless dress that revealed her white shoulders and slender collarbones, as well as her proud cleavage. The long skirt was spread down, and there were enchanting flowers blooming at the hem. It made her look more delicate than the flowers, beautiful beyond comparison.

Su Wanwan looked at her fixedly. The trace of timidity in her heart disappeared unconsciously and was replaced by endless hatred. She was here today to take revenge. Now, Xi Zhiwei was as proud as she was, and she was going to put her in a difficult position.

Su Wanwan looked at Xi Zhiwei and the corners of her lips slowly raised into a smile.
