

## Deeply 658

658 I don't want to owe her (4)

Why did the person on the screen look so much like Junjun's old master Lin?

However, the person in the photo was much younger. Now, old master Lin looked to be in his sixties, while the person in the photo was at most in his thirties. However, the outline of his face and eyebrows were extremely similar.

So, was the person in the photo when Grandpa Lin was young, or was he his son?

Su Wanwan quickly looked at his introduction, but the introduction only mentioned his English name and did not mention his surname. She couldn't be sure if he was old Mr. Lin.

However, this was an exclusive interview. Su Wanwan held the magazine and slowly read it. At the end, the surprise in her eyes was not just a little. If the person in the photo was Mr. Lin, then was Mr. Lin a very famous doctor?

His medical achievements involved many aspects, the most prominent being his Gynecology. He was once known as the Holy doctor of Gynecology, and there was almost no disease he couldn't treat.

Su Wanwan recalled Mr. Lin's appearance. He was a typical gentleman. No matter what, he always had a refined and polite appearance. He looked like a young master from an ancient noble family. It was really impossible to associate him with a doctor.

Su Wanwan continued to look down. When she saw one of the paragraphs, she was surprised again. This doctor had achieved proud results at a young age and ascended to the high platform of medicine. However, when his future was bright, he suddenly announced that he would withdraw from the ranks of medicine. When everyone was shocked, he disappeared without a trace.

Everyone was talking about his actions and there were many speculations. Some said it was because of his family, and some said it might be because of his wife who had passed away. However, no one could give a clear answer. After that, no one saw the doctor again. It was a great pity that the medical world had lost such a Divine Doctor.

Su Wanwan once again looked at the time stated in the introduction. When the doctor achieved success, he was in his thirties. His age was similar to the age in the photo, but it was also something that happened twenty or thirty years ago. According to the time, old master Lin's age just happened to fit this time. Then, Junjun, old master Lin was indeed this doctor.

PEI Munian's friends were mostly business partners. She didn't expect him to be acquainted with such a famous doctor. Wait a minute, Wanwan.

Su Wanwan suddenly thought of something and the light in her eyes flickered slightly.

PEI Munian did not treat elder Lin as distant as before. Instead, she treated him with respect and courtesy. She thought that it was because elder Lin was old, but now that she thought about it, with PEI Munian's unruly character, he had to respect his business partners, but it was not to the extent of respect. Most of the time, it was others who were respectful to him.

So PEI Munian and elder Lin didn't get along like business partners, but more like Wanwan had a favor to ask of him?

Although PEI Munian did not make it very obvious, his attitude towards elder Lin was indeed different. He would not reject anything that elder Lin said. It was a rare thing for someone like him, who did not like to socialize, to agree to go to elder Lin's Manor and have tea and chat with him.

Elder Lin was a doctor. If PEI Munian needed his help, it meant that there was something wrong with her body. Was there something wrong with PEI Munian?

Su Wanwan's heart tightened and then she shook her head. He looked lively and didn't look like he was in trouble. Then, the person who was in trouble was Xi Zhiwei?
