705 There's a problem with the child (5)

Xi Zhiwei had injured her leg earlier and had been in a cast. Today, she had come to remove the cast. She did not expect that enemies would meet on such a narrow road. Why was she everywhere?

Xi Zhiwei bit her lower lip hard and glared at her fiercely. She saw su Wanwan go to the back seat of the car, open the door, lean over into the car, and then carry a baby out.

Xi Zhiwei's eyes immediately focused on the child. Su Wanwan's child's eyes, which were looking at her disdainfully, sank, revealing ruthlessness and hatred.

It was because of this child that su Wanwan destroyed her opportunity to marry brother mu Nian, seized the title of Mrs. PEI, and even moved into brother mu Nian's Villa with the help of the child.

The opportunity that she had fought so hard for had been snatched away by her just like that. Brother mu Nian had even tried to cut off all ties with her!

In the past, she only hated su Wanwan. She hated su Wanwan. Now, it has evolved into a bone-deep hatred. She was a thorn in her eye, a thorn in her flesh!

Su Wanwan locked the car and walked into the hospital with the child in her arms. Xi Zhiwei turned her body to the side and dodged to the side. She lowered her head and lowered her hat to cover half of her face. Because she was wearing a mask, if one did not pay attention, one would not be able to see that it was her.

Su Wanwan naturally didn't notice her and walked straight over.

Xi Zhiwei's assistant drove the car to the door and jogged over. "Sister Wei, we can go now."

Xi Zhiwei's eyes unconsciously followed su Wanwan's figure, the bottom of her eyes were cold. The assistant called her several times before she returned to her senses, but she said impatiently: "You can go back first."

"Ah? Sister Wei, is there anything else you need? Sister Li told us not to be late, so we have to leave now."

Xi Zhiwei's brows furrowed and her black eyes coldly swept over the assistant. I told you to go back first! Are you deaf?"

The assistant's expression was awkward, but she didn't dare to refute her, so she could only say, "sister Wei, I'll wait for you at the door. We'll leave after you're done with your business."

Xi Zhiwei could not be bothered with her. She turned around and walked into the hospital.

After her sneak attack failed, she sent someone to investigate su Wanwan's pregnancy a year ago. She actually found out that su Wanwan had an abortion a year ago, right before her wedding with PEI Munian.

Since su Wanwan aborted the child, then where did this child come from?

The answer was either that she didn't abort the child and only made a fake statement, or that Wanwan's child wasn't brother mu Nian's at all. Perhaps she had it with another man, but she wanted to blame it on brother mu Nian in order to protect her status as the young Madam of the PEI family and obtain more benefits!

After all, she, su Wanwan, already had a past record of this kind of thing. Didn't she marry brother mu Nian for money back then?

During this period, she had not had the chance to get close to this child, so she had no way to collect evidence and do a DNA test. It was not easy for her to see this child again today, so she could not let it go no matter what!

As Xi Zhiwei thought about it, she could not help but speed up and chase after him.

There was still half an hour left before su Wanwan's appointment with the doctor, so she took Xiao Zeze to Yu Jia's office first. As soon as she pushed open the door, she saw her lying on the table, suffering from a hangover. Su Wanwan walked forward, pulled out a chair, sat opposite her, and couldn't help but tease, "are you still alive?"
