

## Deeply 78

### Chapter 78 Why did you help her (10)

The matter of finding Xi Zhiwei to be the spokesperson yesterday had been messed up, and she had been worried about finding a new suitable candidate. She didn't expect the spokesperson of Qin Zhuan to come to her door on her own accord.

Su Wanwan still couldn't believe it. She repeated her question word by word, "Xiaomei, are you sure that Ji Xinxin took the initiative to contact you and said that she wanted to endorse our product?"

Ji Xinxin was a female star at the level of a Heavenly Queen. She was extremely popular and had a huge fanbase. All the products or advertisements that she endorsed were popular.

It was not that she had not considered A-list big-shots at the start, but it was just that they had a hard time finding such a star. Furthermore, their family background was too high and the company's budget was limited, so she had to settle for the second best. She did not expect Ji Xinxin to approach her of her own accord.

Xiaomei was also very excited on the other end of the line. Her voice was full of excitement. That's right, sister Wanwan. When I received the call this morning, I was dumbfounded too. They also said that they would only give us whatever the budget and endorsement fees are. They won't raise the price.

sister Wanwan, it's a blessing in disguise. Without Xi Zhiwei, there's a better one. Xi Zhiwei can't even compare!

Not only can't you compare, you're not even on the same level.

Su Wanwan's head was dizzy from this pie that fell from the sky and only returned to her senses after a long time. She took a light breath and smiled, "that's right. I really didn't expect Ji Xinxin to lower her standards to accommodate us.

sister Wanwan, you should stay at home and rest for the next few days. I'll set a time to meet with Ji Xinxin and discuss the details of the contract. Then, we can officially sign the contract.

"Okay, let's set the time as soon as possible."

After hanging up the phone, su Wanwan still felt that it was a little unreal.

Even during the SU corporation's Golden Age, it would have been difficult to get Ji Xinxin to be their spokesperson. Now that the SU Corporation was in dire straits and could go bankrupt at any moment, why would Ji Xinxin be interested in their company's endorsement? Su Wanwan frowned and thought for a long time, but she still couldn't understand.

—

These few days, Xi Zhiwei had been waiting for su Wan to apologize to her, plead with her, and let her take on their company's endorsement because she had found someone to investigate. She was the most suitable spokesperson for SU group's product this time. If SU group wanted to make a comeback in one go, it would depend on whether the product could become popular after it was launched into the market, so they must use her popularity and appeal.

She had already thought about it. When su Wanwan came to find her again, how would she take revenge for the public humiliation and the slap? she must pay her back double, but she didn't expect that su Wanwan didn't come to beg her. She only waited for the news that Ji Xinxin was going to endorse SU group's products. She was stunned and her black pupils suddenly contracted. how is that possible? " Why would Ji Xinxin endorse such a low-class company?"

"Why is it impossible? Since Ji Xinxin is willing to take on this endorsement, it means that there's someone supporting the SU group. That's why I've been telling you to always leave some leeway, but you just had to offend that miss su. Now, she's looking for Ji Xinxin. We're going to be laughed at!"

The more sister li spoke, the more depressed she became. How did she, a top manager, end up with such an insensible master? if it wasn't for her relationship with the PEI family, she really wouldn't be willing to take her in.
