When PEI Munian guessed that it was his mother who took su Wanwan and Xiao Zeze away, she had already thought of her intentions. He wasn't surprised and only said indifferently, "mom, that child is my and Wanwan's child. Besides, it's a matter between us. You don't have to worry about it.

"What happened between you two?"

Mrs. PEI slammed the table and stood up. She glared at PEI Munian in extreme anger. su Wanwan brought a bastard back and said that he's our PEI family's child. That's the entire PEI family's business!

Provoked by PEI Munian's attitude, Mrs. PEI's tone became very tough. I don't know what su Wanwan has fed you. She has done things to hurt you time and time again, and she has embarrassed the PEI family again and again. You're still infatuated with her. Weiwei is such a good girl, but you don't care about her. This time, I will definitely not allow you to be with her again!

After that banquet, she almost thought that Xiao Zeze was really the PEI family's child. It was only when Xi Zhiwei found a new clue that she started to doubt whether the child was PEI Munian's. However, if she were to investigate it directly, it might arouse PEI Munian's suspicion. If she did something, there would be no way to find out the real answer.

So she simply let people bring su Wanwan and the child back and carry out the test under her eyes.

The results of the DNA test didn't come out so quickly, but whether su Wanwan was pregnant that year, it was very clear.

She really misjudged su Wan in the past. She originally thought that su Wan's character was good, but her grandfather was a bit greedy. She didn't expect that if they weren't a family, they wouldn't enter the same family. She and her grandfather were no different.

Before she achieved her goal, she used unscrupulous means and even relied on PEI Munian's love to do things willfully, causing the PEI family to lose face. She would never accept such a daughter-in-law!

PEI Munian did not want to argue with Mrs. PEI. Although her voice was still calm, her tone was more serious. mom, where is Wanwan? "

Mrs. PEI's face was tense and her anger was even more intense. isn't su Wanwan your wife? Where is your wife? How would I know?"

PEI Munian's Black eyes stared at Mrs. PEI for a while. Without saying anything, he turned around and walked towards the second room in the backyard.

Once he left, Butler Xi looked at Madam PEI anxiously. Madam, aren't you going to stop young master? "

"Stop what? We don't even need to wait for the results. Weiwei is right, that child is definitely not a child of our su family!"

"Then, Zhenzhen." Butler Xi saw the anger on Madam PEI's face and whispered, "What do you plan to do, Madam?"

—

PEI Munian walked into the second room in the backyard. There were two burly Men in Black standing guard at the door. When they saw PEI Munian walking over, they looked at each other and greeted her respectfully as if nothing had happened. young master.

PEI Munian ignored them and was about to walk in when one of the men in Black raised his hand to stop her. young master, Madam has instructed that we can't enter here.

"Get lost!"

"Young master, Zhenzhen."

PEI Munian's lips curled up coldly. She reached out and grabbed the Man in Black's lapels. In the next second, she punched him in the stomach.

The other man in Black was about to fight back, but he kicked the man to the side again, and the man was kicked to the ground.

Then, PEI Munian stepped on them and walked into the second room.

The other servants inside did not dare to stop PEI Munian anymore. His eyes swept over them and his voice was extremely fierce. which room is she in? "
