Su Wanwan and PEI Munian worked hard to make a child for a few days, but su Wanwan's period still came as scheduled. She came out of the bathroom and climbed onto the bed in frustration. She leaned against the man who was leaning against the head of the bed and looking at the laptop. She rested her head on his shoulder and said in a muffled voice, "Niannian, what should we do? We've been working so hard, but I'm still not pregnant. Is there something wrong with Yingluo's body too?"

After all, after she had made up with PEI Munian, they had made love quite a few times. Didn't they have their first child very easily and suddenly? But after that, whether it was after she lost her memory or now, there was no movement from Yingying.

If a woman lost her first child, it was very likely that her uterus would be damaged. She had been frostbitten before and still had the sequelae of frostbites. She was really worried that there would be problems with her body.

PEI Munian's gaze shifted from the report on the screen to the worried and hurried face of the woman beside him. He smiled, picked up the hand on his knee, and placed it on the bedside table. Then, he reached out and pulled su Wanwan in front of him. He kissed her forehead and said softly, "No, you're just too anxious. We should let nature take its course. We'll definitely have a child. Don't always think about it, okay?"

"I'm worried."

Su Wanwan wrinkled her face and her hand unconsciously clutched his lapels. if I really can't give birth to a child, what should I do? "

Mr. And Mrs. PEI already hated her so much. If something happened to her body and she couldn't bear an heir for the PEI family, she couldn't imagine how much they would hate her.

The man's slightly teasing voice suddenly came from above her head. Wanwan, are you really sure you're not pregnant? "

"Ah?" Su Wanwan squinted her eyes in confusion. what? "

"Didn't they say that only pregnant women would think about things and feel uneasy? Aren't you like this now?"

".....?"

Su Wanwan bit her lower lip and pretended to be angry. PEI Munian, I'm worried to death here, but you're not nervous at all. You even made fun of me! Come over and give me two punches, or else this matter will not end."

She clenched her fist and wanted to hit him, but PEI Munian refused to let her go. She grabbed her hand and twisted it behind her. Su Wanwan lost control of her hands. Su Wanwan gritted her teeth without hesitation and attacked PEI Munian again.

PEI Munian dodged slightly and pressed su Wanwan down on the bed. She pressed her hands on both sides of her cheeks and her thin lips sealed her lips without any restraint.

“Wuwuwuwu.”

Su Wanwan widened her beautiful big eyes and mumbled a few times, meaning: PEI Munian, you bastard, you only know how to use this trick every time.

A smile flashed in PEI Munian’s eyes as she looked at her, as if to say: It didn’t matter how many moves he had, as long as they were useful!

The originally Playful Kiss slowly changed as they kissed. The light in PEI Munian’s eyes dimmed and a heat rose in her body. She subconsciously deepened the kiss and let go of her hand, his big palm caressing her body.

He slid under her nightdress with ease, his hot palm covering one side of her soft and rich body. His kiss followed her neck down little by little, and then fell on the other side.

Su Wanwan’s Black eyes widened and the light at the bottom of her eyes dissipated. She fiercely gasped and quickly said: “Don’t whine.”
