Chapter 123 Racial Battle Physique, New Racial Traits And New Combined Skill

.....

The time seems stopped moving as Shin stand at his spot silently. Even the audience watching the battle suddenly turned silent.

A moment later, an eye-catching system notification appeared above the Battle Royale Arena.

\*Ding!\*

System: Congratulations to player 'Sickarius' for being that last man standing and being the rank one at the Battle Royale Arena no.423!

BOOM!!!

Then the players watching on the audience stand suddenly burst with an uproar!

The player watching in spectator mode also don't what to do. Then they started posting the Battle Video online while having an eye-catching titles.

'A Battle Freak Emerges', 'Titled Rankers vs The Rising Star', 'Famous ones defeated by Infamous one', 'Slaughtering Three Titled Rankers Alone', Etc..

A lot of battle videos are being spread online, but all of their contents are pretty much similar to each other. And that is Shin defeating three famous individuals all at once.

And unknown to him, Shin become an online sensation once again! But this time, it is his other identity.

....

But Shin don't care about them even if he is aware of that. He is already teleported outside the Battle Royale Arena and is currently looking at the series of System Notifications in front of his eyes.

\*Ding!\*

System: Congratulations! You ranked first on the leaderboard at the end of the Battle Royale. And you will be awarded an additional 2000 Divine Energy points.

Warning: You will not be able to retrieve the Battle Physique that your are going to give up once you decide.

....

"Then what will be my reward for being ranked first if I choose to unblock the Battle Physique of my Race?" Is what Shin wants to say the moment he read the last system notification. And that was immediately answered by the next system notification.

\*Ding!\*

System: Due to special circumstances, you will receive a random special reward to compensate your previous reward if you choose to unlock your Racial Battle Physique.

....

Shin release a sigh of relief after reading that. Even if he don't know what is the rank of his Racial Battle Physique, it shouldn't be a weak one right? Given that he have a Transcendent Race.

After that, Shin choose to unlock the Battle Physique of his Transcendent Race.

Then a pillar of golden light suddenly descend from the sky and fall on Shin's body. And a moment after that, Shin felt an unbearable pain on his entire being.

He felt like his whole body is being forcefully rip apart by something before being reconstructed once again. After that, it is going to be destroy for the second time and is going to rebuild again.

"Ahh!!!!"

That process was repeated for quite some time. And it almost make Shin to lost his mind. Good that his willpower is not to be trifle with.

After few more minutes, the pillar of light was retracted towards the sky, leaving Shin laying on the ground. A moment later, Shin slowly stood up before tapping his smoking body.

"D\*mn! That was insane! I wonder how the other players with Transcendent Race managed to hold this kind of 'Baptism'." muttered Shin to himself as he try to recall the feeling that he had experience. And he can't help but to shiver uncontrollably when he do.

After that, he look at the system notifications that he just received. "F\*ck you! If you didn't give me something good, then I'm going to sue the game developers for doing this."

"I don't if my Racial Traits are a 'little' OP because of the so-called mutation or all of the Racial Traits of Transcendent Beings are always been this strong when they unlocked their Battle Physique." muttered Shin to himself while releasing a helpless sigh.

After that, he look at the details of the so-called special compensation reward. It is a strange purple-black iron box that have some bricks design on its surface.

-----

"Oh~♪ a quite interesting item. Should I give it a try since I felt that I'm quite lucky for today? Nah~! It is better if I use it later, I might run out Luck now since I already used it earlier." muttered Shin as he read the details of the item.

Then he suddenly remembered something! He remembered the thing that already collected a lot of dust inside his inventory bag. It is a simple piece of rectangular paper that looks like a discount coupon on the Real World.

-----

-----

"I almost forget about this thing." said Shin to himself as he think what skill to combine. "Hmm... Now, what skill should I combine?"

"The skills for my Real Identity is pretty much enough for me. What I really lack on this identity are some more melee skills for close-combat fighting, but I can patch it up by buying some Extra Skill Books since I don't lack any money now."

"So I should create a skill for my 'Nameless Swordsman' identity then? But what will it be? It is going to be a waste if I use this coupon for ordinary skills."

"Eh!? Wait! It is also stated that I can only combined skills that are compatible with each other, so I can't just randomly pick some skills."

"What I want is another OP skill that can compliment my Class Fighting Style, so what should be it?"

After that long train of thoughts Shin finally chose what skills did he want combine.

\*Ding!\*

System: You chose to combine the skills 'Quick Draw', 'Purgatory Slash' and 'Blood Rampage'. System is checking the compatibility.

\*Ding!\*

System: Skills can be combine together with 80% Compatibility and 20% Success Rate. Are you sure you want to continue?

= YES or NO

....

"There is a Success Rate? And isn't it a little bit low? What is this? A scam?" said Shin as he hesitate for a moment, but he still hit the YES button either way.

\*Ding!\*

System: Skill Combination Starting.

System: You can choose to reduce the skill proportion to increase the Success Rate. Do you want to adjust the proportion?

= YES or No

....

"Do you even need to ask?" said Shin as if he is stating the obvious. Then he hit the YES button once again.

After that, he manually adjust the proportion of the skills to:

45% of Class Fighting Style Skill

30% of Tier 2 Class Specific Skill

25% of Elemental Skill

System: Skill Combination Successfull!

System: Congratulations! You have created another Class Fighting Style Skill!

-----

Shin's head went blank after seeing the details of the skill. It took time for him to recover himself.

Then he smiled bitterly before evaluating the skill. "It might be a very strong skill, but it also have a fatal weakness. The accumulation time is quite long, so it is not an easy skill to cast. Especially since I need to sheath and unsheathe my sword."

Then a sudden thought enters his mind. "Well, since I'm already at it, I might as well upgrade some of my other skills."

After that, Shin open his skill window to see what skills are needed to be upgraded this time.
