

## Ditsy Wife 541

### Chapter 541 They're back in the country

"Have a good sleep." Sheng nanxuan remembered that he was his uncle and finally felt a little compassion for him. we will get off the boat when it reaches the shore tomorrow.

...

"I haven't even seen any beautiful scenery yet!" Yu Qingliu was unhappy, " what a beautiful country, what a beautiful sea route. Everyone else is here for a holiday to enjoy nature, but I've been running for my life! What a bitter life!"

Sheng nanxuan felt that he was the one who had a hard life!

Everyone was asleep, and he still had to deal with Gambino's men.

He had just ordered people to tie up Jason and the others, so Jason and the others could not go and inform the others. Now that he had been captured, he naturally let Jason go.

Then, Jason led his men to find the unconscious primogenitor, only to find that the BOSS had disappeared!

Jason looked at Sheng nanxuan. Sheng nanxuan said calmly, " "If you trust me, come with me to find him tomorrow. I know where he is."

"What did you do to him?" Jason roared.

"What does it have to do with me?" Sheng nanxuan retorted, " I warned you to be careful of those two people. You guys go check if those two people are still on the ship."

Jason gritted his teeth. He knew that he had brought a lot of people onto the ship, and he would not be able to gain anything by fighting head-on. He could only temporarily stop the Army and investigate the truth of the matter first.

.....

In the evening, Sheng nanxuan led everyone off the ship.

Primogenitor and Jason did not want to follow him at all, but what could they do if they did not? They had no idea where to find Gambino!

The group went to the hotel to rest.

After dinner, Sheng nanxuan returned to his room. He took out his iPad and looked at the map on it.

There was a red line on the map, which was the position Gambino was moving to.

"I didn't lose him this time." Sheng nanxuan said, "my people sent back news that Liu Xuelan took him on a plane back to China. So our next step is to return to China.

"Then what are we doing here?" Jason asked in dissatisfaction.

"My wife is tired." Sheng nanxuan said matter-of-factly, "I need to rest!

Everyone looked at Gong mo.

Gong Mo's face turned red. He lowered his head and took the iPad from Sheng nanxuan's hand."Where are they getting off the plane?"

"Can you guess?" Sheng nanxuan looked at her.

She choked. How could she have guessed?

"It's Nanjiang," He said.

"How could it be Nanjiang?" Gong mo asked in surprise.

"I'm also very curious." Sheng nanxuan enlarged the map of Nanjiang's surroundings. the place where they disappeared was not far from Nanjiang.

"You're saying that they've always been nearby?"

"It's possible." Sheng nanxuan tapped on the screen a few times. rest first. We'll go to the airport tomorrow morning. We'll know where they are when we go back and take a look."

Jason and primogenitor left unwillingly. Sheng nanxuan asked the others to leave. Other than him and Gong mo, only Shan Rong and Yu Qingliu were left in the room.

"It seems that the laboratory behind the scenes is not far from Nanjiang," Sheng nanxuan said.

"Could he be in Nanjiang?" Yu Qingliu asked.

Sheng nanxuan shook his head and said,"probably not." I think the laboratory should have been built long ago, and we need a subordinate laboratory to carry out some work in the operation process. This laboratory couldn't be too far away from the original laboratory, so they chose shengshi medical Zhenzhen after looking around."

He placed the tablet on the table and showed the three of them the map. look, in a large area around Nanjiang city, there's only one pharmaceutical company, glory World Medical. They have their own laboratory.

"The hospital has one too." Yu Qingliu pointed at the densely packed hospital.

Chapter 542 I have to do it even if it's not easy

“The hospital’s main purpose is to treat and save people,” Sheng nanxuan said.”It’s impossible to assign doctors to do experiments. If it was another group of people, they would definitely be discovered when they enter and leave.”

...

Yu Qingliu nodded. that’s true. Dr. Wanwan wouldn’t do such a terrible thing. But why would a businessman care so much for profit? ”

He touched his chin and thought,’actually, there are more research topics in the school than in the hospital. Could it be that the laboratory behind the scenes is in the school? You see, there are a few medical universities here.”

I’m more inclined to believe that Yingluo is here. Sheng nanxuan pointed to a spot. here.

“Are you kidding me?” Yu Qingliu said, ” there are mountains here! Do you know how to look at maps? The population density here is extremely low!”

Sheng nanxuan looked at him without saying a word.

He paused. alright, Yingluo. Logically speaking, the population density is low, so it’s harder to be discovered. But do you know that the population density here is low because this is a military base? Do you know what a military base is?”

“Understood!” Sheng nanxuan said, ” previously, my people disappeared after chasing after them. Who else do you think has such great ability other than the military? ”

“No way?” Yu Qingliu shuddered.

“I think it’s very possible.”

then what should we do?! Yu Qingliu shouted, “if he has a military background, this matter will not be easy to handle!

“We have to do it even if it’s not easy!”

Yu Qingliu looked at Gong mo and Shan Rong. “Then, you guys go and rest first. It’s not good for the skin if you sleep too late.”

The two of them knew that he had something to say to Sheng nanxuan in private, so they went back to their room.

After they left, Yu Qingliu lowered her voice and asked Sheng nanxuan, “Tell me honestly, how long can your hands reach? You can also give orders in the military.”

“Hehe, hehe.” Sheng nanxuan sneered.

“What are you laughing at? Is it true or not?”

“If I had that ability, would I need to play cat and mouse here?”

“I thought you were very powerful,” Yu Qingliu choked.

“Of course, it’s a piece of cake to deal with your family.”

Hey! Yu Qingliu was unhappy.

“However, I’m not sure what will happen after this.” Sheng nanxuan turned off his iPad. it’s bad enough that they made me run back and forth, but they also made my wife worried and tired. These people deserve to die!

calm down, calm down,” Yu Qingliu advised. since you don’t have the ability, you have to endure it.

“Hehe.”

what are you hur-ing for now?! Yu Qingliu was unhappy. She stood up and walked out, “ I’m going back to sleep! Goodbye!”

Sheng nanxuan also returned to his room. Gong mo was sitting on the bed waiting for him.

He walked over to Gong mo, who asked with concern, “ “Is it very troublesome?”

“It’s no trouble. It’s much easier to have a goal than to be a headless fly.”

“But if the military is involved, what will you do?” Gong mo asked anxiously.

Sheng nanxuan looked at her. do you still want to be a reporter? ” he asked.

“Why are you suddenly talking about this?” Gong mo was taken aback.

“What are the responsibilities of a reporter? Reveal the truth. If you happen to be a reporter following and interviewing shengshi medical’s incident, and you realize that the military is involved, would you give up?”

“If I’m doing an interview, I won’t give up,” Gong mo said after some thought.

“That’s right. What we’re doing now is not only to save your father, but also to reveal the truth.”

but it’s not our responsibility to expose the truth!

“It’s convenient!” Sheng nanxuan said, “ don’t be afraid. There was nothing to be afraid of in the military. If this matter is exposed, those people will not dare to act rashly!”

## Chapter 543 I'll be back soon

I'm just worried about you, Yingluo, " Gong mo said in frustration. I'm also worried about dad! But I'm afraid something might happen to you, so I really don't want to care about him! If we don't save him, you won't take any risks! But, how can I not care about him?"

...

"I understand," Sheng nanxuan hugged her and gently patted her back. I understand. So, I have to go save him."

"But what if you ..."

"I'll be fine." Sheng nanxuan said, " I'm doing this for myself. If I don't figure out what happened in the lab, find them, expose them, and destroy them, they'll come to me sooner or later! Rather than living in fear in the future, it's better to get things done once and for all."

Gong mo opened his mouth and hugged him, " "No matter what, you must be fine!"

"Yes." Sheng nanxuan patted her gently and comforted her. you'll be fine. Don't worry, Yingluo."

.....

The next morning, Gong mo left Italy in a daze. She had been on the move for the past few days and couldn't even get over her jet lag. She couldn't tell when to sleep and when to wake up.

Since she had nothing to do on the plane, she could sleep if she was tired. When the plane landed, she was still asleep. Sheng nanxuan carried her onto the helicopter and flew straight to Happy Garden.

After they arrived at Happy Garden, he sent her back to her room and helped her change into her pajamas.

Then, he went to see the child.

The children couldn't stand the crowded flights and boats either, and they kept crying. Shan Rong hugged him and coaxed him in a low voice, giving him some milk powder.

Sheng nanxuan stood at the door and looked for a while before shouting, "Mom ..."

"What?" Shan Rong turned around, fatigue similarly evident on her face.

"It's been hard on you. I'll be leaving first." He said.

Shan Rong was stunned. She wanted to ask him where he was going, but just as she said "you," she stopped.

Of course, she knew where he was going. There was no need to ask.

Sheng nanxuan walked over, touched the child's head, and kissed him on the cheek. "Daddy will be back soon."

tsk~" the child pouted in grievance and reached out to grab his sleeve, looking at him pitifully.

Sheng nanxuan smiled and held his soft little hand. He pulled out his sleeve. be good! Grandma and mom are very tired. You have to be good and don't let them work so hard ...

Nanxuan! When Shan Rong heard that he seemed to be leaving behind his last words, she hurriedly interrupted him, "it's not even daybreak yet. You're leaving now? Why don't you go to sleep first?"

"No. Time was of the essence, and he could not afford to waste any more time. Stay in joy garden for the next two days. I'll be back soon." After he finished speaking, he turned around and left without looking back.

Shan Rong carried the child and followed him. She watched him go downstairs, leave the villa, get into the car, and drive to the tarmac.

wuwuwuwuwu, “the child sobbed in her arms, holding the milk bottle and sucking it with all his might.

Shan Rong sighed and carried the child back, placing him in the crib.

Soon, the sound of a helicopter could be heard. It seemed to be flying over the roof.

Shan Rong stood at the window and looked out, seeing that the helicopter had flown far away.

mom! Gong Mo’s voice was suddenly heard.

Shan Rong turned around and saw her standing at the door with a confused look.

Gong mo walked in and saw that the child had fallen asleep. He asked, ” “When did we arrive?”

“Just a while ago.”

Oh! Gong mo rubbed his forehead to clear his mind. where’s nanxuan? ”

“He just left.”

Gong mo walked to the window but the helicopter was already out of sight.

She grabbed the window frame, feeling a little uncomfortable.

She didn’t even say goodbye to him, nor did she tell him to be careful on the road, Yingluo.

## Chapter 544 Special science research Center

Sheng nanxuan, Yu Qingliu, and the others rushed to Nanjiang overnight.

...

Liu Xuelan and the rest had found the tracker on Gambino, but Sheng nanxuan's men had thrown it under their car.

Fortunately, Sheng nanxuan did not blame her for losing her last time. This time, everyone was on high alert. They had people and technology at the same time, and they didn't let Liu Xuelan and the others out of their sight.

When they got off in Nanjiang, Lin Lei brought people to pick them up.

After getting into the car, Lin Lei turned on the computer and pulled up an electronic map.

Liu Xuelan and the others had already stopped. They took out a normal map to check their location. They were in the wilderness.

However, Lin Lei had hacked into the military system and obtained a detailed map. He had even stolen information related to the laboratory.

On the electronic map, there was a red dot flashing in the middle, which was the current location of the tracker.

Lin Lei drew a circle around the red dot. "The military R & D base has been abandoned and only a few soldiers are guarding it. In the middle of the base is the special science research Center, or the FARC for short."

"What is it?" Yu Qingliu frowned.

SSC, special Scientific Research Center. Lin Lei turned on another computer, and on it was the stolen information. the information on the FARC is encrypted. I was afraid of being discovered, so I didn't dare to continue looking. From the current information, the history of the FARC was long, and this military base was built for it. However, the military base was later relocated, and the SSC is still here."

Sheng nanxuan looked at the information on the computer and said, " "It's nuclear energy research."

"Why is it now Nuclear Research?" Yu Qingliu was helpless.

"It was nuclear energy research." Sheng nanxuan said, " I hacked into other databases in the past and saw some information, Yingluo.

"Hack?" Yu Qingliu looked at him. other database? Speak clearly!"

Sheng nanxuan rolled his eyes at him. You just need to understand."

"Yingluo is illegal! If you get caught, you're done for!"

"It's a pity I wasn't caught." Sheng nanxuan said, " even if I'm caught, I won't be finished. The officials will definitely try to rope me in. After all, I'm the world's top hacker."

y-y-you ... Yu Qingliu pointed at him and then asked Lin Lei, " you two are hackers? "

BOSS is an expert among experts, " Lin Lei said. it's because of this that I'm following him.

I say ... Yu Qingliu asked Sheng nanxuan. when you were speculating in the stock market, you hacked into the stock market system, right? "

"Is there a need?" Sheng nanxuan said, " how dangerous is it to hack the system? There's always someone better, what if he was caught? Wouldn't it be easier to stir-fry it directly?"

shua shua shua ” he felt that his intelligence had been crushed.

Sheng nanxuan took the computer. His fingers were like the wind, and only the sound of typing could be heard in the car.

“What are you doing?” Yu Qingliu asked in a low voice.

“Investigate the past and present life of this Research Center.”

be careful, Yingluo! Yu Qingliu said in fear. if we get caught, we’ll all go to jail!

“Don’t worry!” Sheng nanxuan said softly.

The car suddenly shook, but his eyes were still staring at the screen. Yu Qingliu looked up and rolled down the window to take a look. The shadows of the mountains were heavy outside.

He had entered the mountain.

“When will they arrive?” He asked.

“Five o’clock,” Lin Lei answered. We’re expected to enter the base before dawn!”

As they spoke, the car swayed a few more times. It seemed that this section of the road was not very smooth.

FARC?! Sheng nanxuan suddenly said.

Everyone looked at him and knew that he had found information on the FARC.

## Chapter 545 Dragon's pool and Tiger's Den

He looked at the screen, analyzing the information on it while summarizing it for everyone.

...

"63 years ago, it was established for military research and was mainly responsible for the research of nuclear weapons. The name " SSC " was initially given to confuse people. When it was established, it was said to be used for medical research, but it was actually used for weapon research. Later, due to the signing of the Nuclear Test Ban Treaty, the original weapons researchers were all transferred. The FARC remained in place and was changed to medical research.

Twenty-five years ago, the FARC's application for human research was rejected, but not long after, several scientists and medical scientists from all over the world were stationed there and began secret research. Their first experiment wasn't carried out at the SSC, but at shengshi medicine. The explosion at shengshi medicine was ordered by the higher-ups."

"When the birds are gone, the bow is hidden?" Yu Qingliu asked.

Sheng nanxuan shook his head. they must have been discovered. In order to prevent being exposed, they destroyed the corpse.

"Discovered? This was set up by the higher-ups in the first place, so did they find out?"

I think it was during the presidential election. Sheng nanxuan said.

Yu Qingliu's heart skipped a beat, as if she had thought of something.

Sheng nanxuan closed his computer and closed his eyes as he leaned back in his seat.

Yu Qingliu also felt a little sleepy, so she closed her eyes and rested.

After about an hour, the car approached the destination.

Lin Lei put on his ear mic and said to everyone, " "Get ready."

Then, everyone took out their weapons from under their seats.

The firearms that Sheng nanxuan bought last time had arrived, and they could now arm themselves.

Sheng nanxuan opened his eyes when he heard the sound.

Lin Lei placed a box full of weapons in front of him for him to choose.

He looked at it, then put the gun on his body and shook Yu Qingliu awake.

Yu Qingliu opened her eyes and saw the row of weapons in front of her. She was shocked, "I'll go! What are you guys doing?"

"That used to be a military base. We have to be prepared just in case." Sheng nanxuan said to Lin Lei, " give him a bulletproof vest.

"You don't want it?" Yu Qingliu asked.

"No need!"

"Yingluo, I don't need it either." How could he lose to a young man?

Sheng nanxuan glanced at him, lifted his pants, and tied a dagger to his leg.

"Are you trying to barge into the dragon's pool and Tiger's Den?"

“It’s a Dragon’s pool and a Tiger’s Den!”

.....

The military base’s buildings were camouflaged, so it was difficult to see them clearly from the sky.

The building looked very old, but it had everything inside. It was well-equipped, including dormitories, canteens, offices, libraries, and so on.

Each building had an entrance to the FARC. Going down from these entrances, it was like an ordinary basement at first, dark, empty, and frightening.

When he reached a place, he saw two lines of words carved on the wall:

?S?R?C??

Special science research Center

There was a door in front of them, and the workers swiped their cards to enter. The passage inside was as bright as day, and it looked very sci-fi.

Further in, they would enter a clean, sci-fi-like laboratory.

The laboratory occupied a large area, even wider than the base on the ground, and it extended down dozens of meters.

There were men and women, young and old, and many foreigners.

In the No. 1 laboratory, a group of researchers in white coats were tying Gambino to the test bench.

Gambino kept struggling, but it was to no avail.

He knew that they had injected him with the drug, otherwise he would not have been at their mercy! He was a man who had jumped down from the 20th floor alive!

He glared at Liu Xuelan in front of him.

He remembered what she looked like!

Back then, there was someone who looked similar to her, but younger than her. That should be her twenty years ago.

She was the one who kept injecting herself with drugs and turned her into what she was now!

#### Chapter 546 Soul Swap: Soul Exchange

Liu Xuelan knew that he had recognized her, so she lowered her eyes.

...

A voice came from behind her and she immediately turned around. "Dr. Carter!"

Carter was from Country M, a mad scientist. He entered the SSC ten years ago and quickly became a leading figure in the SSC.

He studied the shifting of human will and came up with the 'Double S plan' - soulswap: Soul Exchange!

He used animals for his experiments and conducted them in two ways: The first was to perform an open-skull surgery to change the brain, and the second was to stimulate the brain with other methods and Exchange electric waves between the two to achieve the same effect as a brain change.

His research direction was in the second one.

This was because as long as the brain transplant could allow the experimental body to survive, it would definitely be able to achieve "Soul Exchange. From this direction, he only needed to overcome the current bottleneck in the medical field.

Although he had not overcome this bottleneck, he did not want to waste time on it. Because his focus was not on " survival ", but on " exchanging.

Therefore, the second option was more challenging.

He used methods such as electric shock to transfer the brainwaves of the experimentals. It was theoretically possible, but he had never succeeded.

After ten years of research and a large amount of funding, his position as the leader of the FARC was in jeopardy. At this moment, Liu Xuelan brought news. Number 59 from back then was still alive!

N059, the man in front of her. He had read the information on this experimental when he first arrived at the SSC and was extremely shocked!

This was because the experiment on number 59 happened before he entered the FARC, a few years before he came up with the SS plan. The experimental process just happened to fit his theory.

N059 had a brain transplant, but due to technical limitations at the time, the operation was only halfway done-part of the brain structure was transplanted from another experimental subject-N048-to him. Because of the high risk of the operation, his original body part was not removed. During the operation, N059's brain was on the verge of death. The experimenter used an electric shock to keep him alive.

Therefore, two experimental methods from the SS plan were used on this experimental body at the same time.

After knowing that this man was still alive, Carter couldn't wait to know his condition and whether the experiment back then had succeeded.

If I succeed, Yingluo

This was a case study, and the dual S plan experiment could be imitated!

"Check his brain waves." Carter ordered.

The laboratory staff at the side immediately placed a helmet-like sensor on Gambino's head.

The walls of the laboratory were like glass, with faint light flowing from time to time. At this moment, the light on the wall flickered a few times and turned into several electronic screens. Some complex data and waveform appeared on the electronic screens.

Gambino was struggling on the test bench, and the data on the wall kept changing.

Carter looked at it for a while and narrowed his eyes. "Electric shock."

Two staff members walked to Gambino's side and stuck two wires connected to the experimental instrument to his temples with patches. Then, they controlled the instrument to give him an electric shock with different voltage.

The experiment had been going on for about forty minutes. Gambino was exhausted, and his chest was heaving up and down.

Carter was not satisfied with the results of his brainwaves and said, " "Sound wave interference!"

The experiment continued. Gambino's face was filled with pain, but he did not have the strength to struggle.

He stared at the ceiling in a daze, all sorts of messy sounds and images appearing in his mind. His brain waves were fluctuating and were reflected on the electronic screens around him.

Di di di di di

Suddenly, an urgent alarm sounded out of thin air.

what's going on?! Carter's face changed.

It was said that this alarm would only sound in an especially critical situation. He had been here for so long, but he had never heard of it before!

"Warning! Warning!" A mechanical female voice sounded. an outsider has invaded! There's an intruder! Please evacuate immediately! Please evacuate immediately."

Chapter 547 I won't kill you if you surrender

Carter was shocked, and the people around him were even more panicked.

...

Carter hurriedly turned around and walked out of the laboratory. A few experts in white coats ran over. "Someone has barged in!"

who dares to break into this place?! Carter's face was livid.

Everyone had never encountered such a situation before. They all said at once, "Prepare to defend!"

“Contact the higher-ups and request for reinforcements!”

“Make the emergency preparations!”

“Connect to the surveillance cameras!”

The scene of every corner of the laboratory appeared on the electronic wall.

Because of the alarm, everyone was on guard, and the area near the entrance was in a panic.

A group of men with loaded guns walked into the laboratory as if no one was there. They used their guns to threaten the staff to gather to the side.

“What’s their background?” Carter asked.

Liu Xuelan gasped.

Everyone looked at her, and her face was pale.

Carter saw Sheng nanxuan on the screen and looked at her with poisonous eyes. “What’s going on?”

“I don’t know!” Liu Xuelan shook her head. But she knew that she was being followed by Sheng nanxuan. Otherwise, Sheng nanxuan would not have been able to find her.

A-Class defense activated ... the mechanical female voice sounded. After a two-second pause, “the gate is closed.

There was a door in each of the adjacent rooms in the laboratory. It was usually an ordinary checkpoint, but at this time, there was an emergency explosion-proof door that fell heavily.

Boom—

The sound of an explosion rang out, and several surveillance cameras malfunctioned.

“Di-di-di-di-”

The alarm rang three times in a row, and the mechanical female voice quickly said-

“Area a1 out of control, area a1 out of control!”

Then-

“Defense activation failed, defense activation failed! The defense system had lost control! The defense system-”

The mechanical sound suddenly disappeared, and everyone was shocked.

“Hello, everyone.” A magnetic male voice was heard.

Liu Xuelan knew it was Sheng nanxuan.

The electronic screen flashed, and the same scene appeared in all the windows.

The fully armed Sheng nanxuan was walking along the White corridor of the SSC, wearing an electronic watch on his hand.

Of course, this was not an ordinary electronic watch. He raised his hand and said to the watch, “I’ll only say one thing-I won’t kill those who surrender.

With that, he lowered his hand, and his figure immediately disappeared from the screen. All the screens turned into snowflakes.

Carter was flustered and exasperated. He turned to a Chinese and shouted, " "This is the hardware system of your country? It's actually so easy to control!"

"What do we do now?" No one cared about his anger. we can't retreat without receiving a notice from the top!

Carter glanced at Liu Xuelan and said, " "Arrest her and the two men!"

Laboratory 1 was the heart of the entire experimental center. Their location was the safest and most difficult to invade.

However, the defense system had already gone out of control, and it was only a matter of time before this place was breached.

The request for reinforcements received a reply, and the relevant personnel reported, " the rescue team will be here immediately. The higher-ups have ordered us to destroy all the information!

Carter frowned unwillingly, but the others had already begun to move.

Starting from the most important information, the printed information was thrown into the shredder, and the unprinted information was destroyed by the destruction program on the computer.

A Chinese man looked at Carter and asked,'are you still not going to act? The information you have is the most important!"

Carter endured it and returned to his office.

Outside, Sheng nanxuan and his men had already occupied many places.

Yu Qingliu was collecting paper information, while Lin Lei was using the computer to collect information from the computer.

“They’re destroying the data!” He suddenly said.

Sheng nanxuan was wearing an earpiece. He laughed coldly when he heard his words. “Their information isn’t stored here. It’s good that it’s destroyed, I can go to a higher level system to find it. If you find something else, don’t blame me, Yingluo.”

Chapter 548 Target found, ready to retreat!

Sheng nanxuan had brought dozens of people with him this time, but from the moment he entered the laboratory, he had to leave a few people behind to guard every place he passed. So when he arrived at laboratory No. 1, he only had Fang Yang, four men, and Yu Qingliu, who didn’t have much combat power.

...

While the people in the laboratory were busy destroying the data, Fang Yang raised his gun and ordered, “Don’t move!”

Most of the people had stopped, but one of them was still operating the computer. Fang Yang fired a shot at his arm, and he fell to the ground with a scream.

The others screamed in fear and didn’t dare to move again.

“Raise your hands above your head! Go to the side!” Fang Yang pointed the gun at him.

Everyone obediently ran to the side, and two of his men pointed their guns at them, making them not dare to move.

Yu Qingliu began to collect the remaining information.

Fang Yang carefully observed his surroundings, afraid that there was an ambush.

Everything had been going smoothly before, and they hadn't encountered any resistance, but things might be different here.

"BOSS!" The other two checked the surrounding offices and found Gambino.

Sheng nanxuan took a look and ordered everyone, " target found. Prepare to retreat!

As he helped Gambino out of the laboratory, there was a sudden movement in front of him.

Sheng nanxuan saw a few people holding Liu Xuelan, Sheng Zhongtian, and Sheng Dongyi hostage and walking over.

Sheng Dongyi's steps were unsteady, and his leg was obviously crippled. When he saw Sheng nanxuan, his eyes burst with intense hatred.

"Put down the documents!" Carter walked out from behind with a gun in his hand. He pointed the muzzle at Sheng Zhongtian's head. or I'll kill them.

Sheng nanxuan couldn't help but laugh. before you chose a hostage, didn't you investigate whether she was useful to me? "

Liu Xuelan's expression changed as she looked at Carter. "He won't care about us!"

"Shut up!" Carter shouted.

Yu Qingliu, who was bending down to sort out the information, suddenly turned around and looked at him in surprise. "Carter? It's you!"

When he was studying in country M, he and Carter were classmates and they had done a lot of research together. However, due to differences in ideals, the two of them went their separate ways.

"It's you, professor Yu. Long time no see ~" Carter laughed arrogantly.

"You're the person in charge here?" Yu Qingliu frowned.

"How is it? Are you jealous?"

"Why should I be jealous of you? You're still in the middle of that brain transplant Research? That's against the laws of nature!"

"That's science!" Carter shouted.

Yu Qingliu ignored him and said to Sheng nanxuan, " arrest him. He's doing illegal experiments in M Nation. If we catch him, we'll have an explanation.

When Sheng nanxuan heard this, he suddenly fired a shot at Carter.

ah! Carter cried out in pain as his gun fell to the ground.

He covered his hands, only to see blood instantly cover them.

He glared at Sheng nanxuan."You actually dared to injure my hand! You actually dare to tease me?"

Carter trembled in anger, even forgetting the pain from his wound.

For doctors, their hands were the most important. A hand injury meant that he would not be able to hold a scalpel in the future.

However,

Carter soon remembered that he had not held a scalpel for many years.

In the SS plan, he was the leader and only needed to give orders.

What he researched was will transfer and soul Exchange. If he succeeded, he would revolutionize the world. It was not something that those surgeries could compare to.

It didn't matter if his hand was injured, as long as he was fine.

He turned around and ran. Sheng nanxuan rushed forward and turned a corner. A red shadow suddenly pounced on him from the front and pushed him to the ground.

Bang!

Sheng nanxuan landed heavily on the ground. When he fixed his eyes on her, he saw a young woman on top of him. She had black hair and was dressed in red. Her eyes were as beautiful as black gems.

#### Chapter 549 The woman in red

This was the first time he had seen such a beautiful woman. Even though he had deep feelings for Gong mo, he couldn't help but be moved the moment he saw her.

...

However, this woman was obviously not gentle. Her hands were like iron as they clutched his throat.

He wanted to shake her off, but he found that he was powerless.

His heart jolted, and he suddenly understood that this was probably a person who had been modified by experiments, or perhaps even more successful than him.

“Kill him!” Carter’s voice came.

Sheng nanxuan looked over and saw Carter turn back. As he walked, he wrapped a bandage around his injured hand.

The laboratory had a very effective hemostatic agent. He had just used a little, and the blood had stopped flowing.

The woman who was holding Sheng nanxuan down increased her strength.

Sheng nanxuan’s breathing gradually became difficult. He looked at her and saw that her eyes were dull, as if she had no consciousness of her own and was just an obedient killing machine.

“Lily!” Killhim! Carter ordered.

Lily was obviously the woman’s name.

She increased her strength again, but Sheng nanxuan suddenly turned over and pressed her to the ground.

But her hands were still around his neck.

“BOSS!” Fang Yang and the rest ran over.

When he saw Sheng nanxuan fighting with someone, Fang Yang raised his gun and wanted to help Sheng nanxuan. But Sheng nanxuan’s back was facing him, so he did not dare to shoot.

stop! Fang Yang pointed his gun at Carter. tell her to stop!

“She won’t stop!” Carter laughed out loud. Kill Me if You Can! If you kill me, you will all die!”

Bang! Bang!

A voice came from behind.

Fang Yang turned around and saw Sheng nanxuan and the woman getting up.

At this moment, Sheng nanxuan was pressed against the wall by the other party. His neck was clutched, and he was clearly unable to breathe.

Fang Yang immediately aimed at Lily and pulled the trigger-

The bullet flew over.

Lily turned her head, and the bullet flew past her and Sheng nanxuan, hitting the opposite wall.

Fang Yang was stunned and looked at her in surprise. Logically speaking, she couldn’t have dodged it. How could it be?

She looked at him and suddenly threw Sheng nanxuan aside and walked toward him.

Fang Yang pulled the trigger again, and the two men beside him also fired in a hurry.

The stylist flickered like a shadow and appeared in front of them in the next second.

The three of them were stunned. He raised his right hand and threw it to the ground-a few bullets hit the floor.

Fang Yang gasped.

“Get out of the way!” Sheng nanxuan’s voice was heard.

As soon as he finished speaking, he reached out and grabbed Fang Yang’s neck. He pushed him forward and Fang Yang flew backward into the laboratory behind him.

With a bang, he fell heavily to the ground.

Yu Qingliu, who was in the room, happened to be in the path of his fall. He was also pushed out and fell directly under the marble desk.

Yu Qingliu covered her mouth and got up, tears streaming down her face from the pain. you guys can hit my teeth, but can you not hurt the innocent?!

Bang! Bang!

There was another loud bang.

Yu Qingliu turned around and saw that Carter had been thrown in.

She looked up and saw Sheng nanxuan panting as he walked in.

In the middle, Fang Yang’s neck was being strangled by the woman in red, and his limbs were struggling in pain.

Yu Qingliu knew that he couldn’t hold on much longer, and her expression changed.

Sheng nanxuan pounced on her and pushed her away.

Fang Yang was rescued and took in deep breaths.

Yu Qingliu endured the pain and crawled over, "are you okay?" Do you need artificial respiration?"

Fang Yang looked at him helplessly, shook his head, and got up.

At the side, Sheng nanxuan and Lily were tussling with each other, and the sound of their fists hitting each other could be heard.

Sheng nanxuan groaned from time to time, but Lily did not seem to feel any pain. He did not make a single sound throughout the process.

#### Chapter 550 Killing shengzhongtian

In order to make his body more flexible, Sheng nanxuan removed the gun from his back and threw it on the ground.

...

Yu Qingliu saw this and picked up the gun. you have a weapon but you don't want to use it. You just have to fight hand to hand. Are you stupid? "

After saying that, he raised his gun.

"Don't mess around!" Fang Yang shouted.

At that moment, Lily's back was facing them. Yu Qingliu said, " "Watch me!"

He pulled the trigger, and the bullet flew out.

Lily seemed to have sensed it. He grabbed Sheng nanxuan's shoulder and flew up into the air, flipping backward.

Sheng nanxuan also heard the sound of the bullet. He dodged to the side, and the bullet grazed his neck and flew to the wall.

Sheng nanxuan covered his neck.

Yu Qingliu was so shocked that she threw her gun away.

Fang Yang threw a punch at him. I told you not to mess around!

I'm Yingluo. How would I know Yingluo?" Yu Qingliu said weakly.

He had never expected these two to be monsters!

don't shoot, Qianqian. Sheng nanxuan released his hand from his neck. There was a little blood on it. this woman is a monster, Qianqian.

After he finished speaking, he was suddenly shocked-why was there no movement?

From the previous exchange, this woman was like a machine. She didn't need to rest at all and kept attacking.

However, it had been a few seconds since she dodged the bullet, and she did not attack him again.

These few seconds could be considered his weakness. If she were to attack, he would definitely suffer a huge loss!

Could it be?

She was shot?

Sheng nanxuan immediately turned around and saw Lily standing behind him. He looked at him quietly, as if he was thinking about something.

Seeing him turn his head, her gaze landed on his face and then moved to his injured neck.

The bullet just grazed his skin. Although it didn't hurt his vital organs, it burned his skin and made him bleed.

Lily's expression was calm, like a quiet young girl. She raised her hand and reached out her slender fingers to him.

Sheng nanxuan dodged and she pressed him against the wall. Then, she dipped her finger into the blood on his neck and licked it.

Sheng nanxuan did not know what she was going to do and looked at her warily.

She tasted his blood and was quiet for two seconds. She slowly looked at him, her eyes becoming desolate and sad. Then she let go of him and turned around.

"What are you doing?" kill him! Carter shouted.

"I won't kill him," Her voice was slow and heavy, as if she had not spoken for a long time.

ah! Sheng Zhongtian and Liu Xuelan suddenly screamed.

Lily looked over, and with a glint in his eyes, he pounced on Sheng Zhongtian and grabbed his neck with one hand.

“What are you doing?” Carter shouted, “let go! You want to kill them!” He pointed at Sheng nanxuan and the rest.

Sheng nanxuan and Yu Qingliu looked-

He used his right hand to raise shengzhongtian in the air.

Her back was facing them, facing the bright light on the ceiling. Her back was slim and she looked very beautiful.

But what she did was not good at all.

The shengzhongtian in her hand was almost out of breath.

dad! Sheng Dongyi called out in a trembling voice.

No... Liu Xuelan was so scared that she hid under the table.

Lily threw Sheng Zhongtian away and used his leg to pick up Sheng nanxuan’s gun pouch. He took one out and fired a few shots at Sheng Zhongtian, who was already dead.

“Stop!” Sheng Dongyi limped toward her, trying to stop her.

She turned around and looked at him coldly, the gun pointed at him.

He froze and was so scared that he didn’t dare move.

He lowered his gun and suddenly fired-

“Ah!” A blood-curdling screech was heard.

Sheng Dongyi's body stiffened. He slowly turned around and saw Liu Xuelan lying on the ground with her eyes open. Blood was flowing out of her neck.
