

Divine King 1361

Chapter 1361: Immortal Sovereign Hall Saintess

The elder spoke with great authority.

Once he spoke, no one dared to oppose.

"Remember, as long as you ensure my safe arrival at the deepest part of the Divine Wind Valley and get what I want, the treasures we obtain along the way can be split equally among you ten. But if anyone causes trouble, don't blame me for being harsh."

The elder snorted coldly.

Immediately, a pressure of the Luoxian Realm burst forth from his body.

"Rest assured, Elder Qin, we will do our utmost," Lei Bing said.

The others nodded in agreement.

Seeing this, the elder said nothing more.

Xu Nian and Li Tian exchanged a knowing smile.

"These are the Array Talismans for the Immortal Golden Immortal Formation, each of you gets one. Maintain the formation in the specified positions, and I will use the Golden Light Pearl to protect you. As long as you don't leave my hundred-meter range, you will be safe," the elder said.

"Elder Qin, can you explain this Immortal Golden Immortal Formation to us in detail?" the alluring woman asked.

The others also looked towards the elder.

Jiang Han was equally curious about this so-called Top-Grade Immortal Array.

"This Immortal Golden Immortal Formation is a kind of Top-Grade Immortal Array, temporarily entrusted to you ten to jointly execute. Anyone can, in an instant, call upon the power of everyone in the formation to unleash a strike comparable to a Golden Immortal Realm expert. Of course, after each use, the formation needs to wait 15 minutes before it can be used again," the elder said.

"Uh? Comparable to a Golden Immortal Realm expert's strike? How much True Essence will it draw from the others?" asked the burly man's twin brother.

The brother had a scar on his face, making it easy to differentiate between the two.

"The amount drawn each time is relatively fixed; it will draw the power equivalent to about one Top-grade Immortal Essence Stone. If it's the Peak of Profound Immortal, it's about one-tenth of their True Essence. If it's the Late-stage Profound Immortal, it might require about half; as for the Mid-stage Profound Immortal, it's better to hold an Immortal Essence Stone and replenish your True Essence in time," the elder said.

Clearly, the last sentence was meant for Xu Nian.

As he was the only Mid-stage Profound Immortal present.

As for that woman, she did not participate in the execution of the formation.

However, Xu Nian didn't mind this.

After all, the reserve of True Essence within him was even greater than that of the Peak of Profound Immortal by a wide margin.

Of course, this secret was not something he could reveal to others.

"Hey, do you have enough Top-grade Immortal Essence Stones on you?" one of the Late-stage Profound Immortal men present asked Xu Nian.

"Should be enough," Xu Nian replied.

"That's good. Just don't hold us back then," the young man sneered, clearly not taking Xu Nian seriously.

"I'm afraid with your cultivation, you'll also need to prepare quite a few Top-grade Immortal Essence Stones. It's better to mind your own business,"

Xu Nian didn't speak, but Li Tian did.

"Hmph, I guarantee, I have more Top-grade Immortal Essence Stones than you," the man snorted coldly.

Li Tian and Xu Nian exchanged glances and smiled without speaking.

More than him?

How naive could this guy be?

Of course, Li Tian wouldn't be foolish enough to take out Top-grade Immortal Essence Stones just to smack his face.

"Alright, everyone adjust your state. We set off in a couple of hours," the elder said.

After speaking, he sat cross-legged on a nearby stone.

The woman followed him, never having spoken a word from the beginning, and her expression when looking at the crowd was extremely calm.

Everyone, though curious, didn't ask much.

They thought she must be a relative of the elder, which is why he brought her along.

Of course, Xu Nian didn't think so.

"Brother Xu, what do you think?" Li Tian smiled and transmitted his voice over to Xu Nian.

"This trip probably isn't so simple. The forbidden area of Divine Wind Valley should be no ordinary place, and that woman seems to be concealing her strength," Xu Nian transmitted back.

"Haha, as expected, Brother Xu Nian is extraordinary. If I'm not mistaken, that woman should be the Holy Daughter of the Immortal Sovereign Hall, with strength likely at the Luoxian Realm Peak," Li Tian laughed.

"Holy Daughter? Luoxian Realm Peak? And she's disguised as Early-stage Profound Immortal? That's a bit too much," Xu Nian said in shock.

It was at this moment, the woman glanced over at Xu Nian.

Her gaze flashed with a hint of brilliance.

Xu Nian shivered instantly.

A terrifying woman, with a very powerful Immortal Soul ability.

This woman truly was not simple.

Of course, this was special to Xu Nian's power of insight. Others wouldn't be able to detect this at all.

"Brother Xu Nian, you'd better not look at her. She seems to be able to sense us transmitting our voice," Li Tian said.

Xu Nian nodded.

Indeed, as soon as he mentioned her, he couldn't help but glance at her, and she looked right over.

"Brother Li, why would the Holy Daughter of the Immortal Sovereign Hall come here? Doesn't she want for resources? Or find some strong allies instead of gathering a group of Independent Immortals?" Xu Nian asked, surprised.

"If I'm not wrong, she probably came behind her sect's back. It seems the rumors are true," Li Tian suddenly revealed with a smile.

"What rumors?" Xu Nian asked, puzzled.

"Brother Xu might not know, but besides the Holy Daughter, there's also a Saint Heir in the Immortal Sovereign Hall. The Holy Daughter's cultivation has always overshadowed the Saint Heir's. Their competition is fierce as they both hope to become the sect leader's successor of the Immortal Sovereign Hall. But recently, it is said that the Holy Daughter's cultivation encountered a problem," Li Tian explained.

"Encountered a problem in her cultivation?" Xu Nian asked, puzzled.

"It's said that the Holy Daughter of the Immortal Sovereign Hall is cultivating a very formidable cultivation technique from the Immortal Realm, the legendary Divine Technique 'Supreme Heavenly Saint Technique'. This technique is very domineering but also prone to issues. However, once mastered, it can make her invincible within the same realm," Li Tian said.

"Divine Technique? It seems the Holy Daughter of the Immortal Sovereign Hall is no simple character," Xu Nian thought.

Of course, no matter how powerful this Supreme Heavenly Saint Technique was, it couldn't be compared to his own Dan Sea Species Green Lotus.

His cultivation technique, even Emperor Ye Tian said, was among the top techniques of the Divine World.

"Brother Xu, you should definitely keep your distance from her. It's said the Holy Daughter of the Immortal Sovereign Hall is ruthless, and there's another rumor," Li Tian suddenly spoke mysteriously.

"What rumor?" Xu Nian saw Li Tian acting curious, with a slightly playful smile.

"It's said that the Holy Daughter of the Immortal Sovereign Hall doesn't like men, but prefers beautiful women, and she has a close companion in the Immortal Sovereign Hall," Li Tian said with a smile.

"Close companion?" Xu Nian suddenly laughed.

He finally understood why Li Tian was smiling.

No wonder Li Tian was smiling like that; it turns out he heard such big gossip.

But the fact that the Holy Daughter of the Immortal Sovereign Hall doesn't like men but likes women is indeed intriguing.

"Brother Li, how do you know so many rumors?" Xu Nian asked with a smile.

"Haha, these are secrets of the Immortal Realm. Besides collecting treasures, I also love collecting information. Sometimes information can be more useful than treasures," Li Tian said, striking a mysterious pose.

Xu Nian couldn't help but smile wryly.

But what Li Tian said was true; sometimes information is indeed more useful than treasures.

Chapter 1362: Ghost Immortal Vine

Two hours later, a group of twelve people headed towards Divine Wind Valley.

The elder summoned a golden metallic sphere.

With the infusion of Luoxian Power from the Luoxian Realm, the golden metallic sphere erupted with a powerful radiance.

"Buzz!"

Immediately, a wave emanated from the metallic sphere.

The next moment, a golden light shield enveloped everyone within.

Centered around the metallic sphere, the radius was about a hundred meters.

Xu Nian was surprised to discover that this golden light could actually withstand all True Essence and physical attacks from the outside.

And it could withstand attacks equivalent to the Luoxian Realm Middle Stage level.

"This must be the Golden Light Pearl they talked about, it's indeed a very powerful defensive Immortal Artifact," Xu Nian mused to himself.

"Let's go!"

The elder gave the order.

Everyone followed him.

The golden light shield moved with them.

"Clang clang clang!"

As soon as they stepped into Divine Wind Valley, they heard metallic collision sounds from the golden light shield.

Fierce Wind Blade Sword Qi swept in from all directions, continuously attacking the golden light shield.

Fortunately, the golden light shield was sturdy enough, and the Sword Qi shattered upon impact.

Everyone was surprised.

If they were to block the Sword Qi themselves, it would take considerable effort.

Although the power of the Sword Qi wasn't particularly strong, it was definitely not something an Early-stage Profound Immortal expert could withstand.

Moreover, as they ventured deeper, the power of the Sword Qi grew stronger.

"This Golden Light Pearl is indeed a good item, seems like I should try to get one when I return," Li Tian said with a smile.

"This is a Top-grade Immortal Artifact level treasure, do you think everyone can afford it?" The Late-stage Profound Immortal who had a conflict with Li Tian said disdainfully.

Li Tian smiled and didn't respond.

Xu Nian was also helpless.

"Buzz buzz buzz!"

At this moment, a buzzing sound came from all around.

Everyone's expression changed.

"It's the Vajra Bees!" the elder spoke.

Everyone looked ahead.

Sure enough, a swarm of bees was flying towards them.

Each of these bees was about the size of a palm, their bodies clad in golden armor.

"Clang clang clang!"

The bee swarm skimmed past, some attacking the golden light shield.

However, their claws and stingers couldn't break through the golden light shield's defense.

After some futile attempts, they chose to leave.

"Due to the influence of this forbidden power's Immortal Soul Power, the fierce beasts of Dragon Snow Immortal Domain generally don't have high intelligence, so these bees retain some wild instincts. While a single Vajra Bee might not even harm a Heavenly Immortal level, a swarm can be terrifying," Li Tian explained to Xu Nian.

Xu Nian nodded.

He gained a deeper understanding of Dragon Snow Immortal Domain.

"Hey, look, what's that?"

Suddenly, the younger twin brother pointed at a stone formation up ahead.

The group left and looked in the direction indicated by the younger twin.

When they looked where the brother pointed, everyone revealed looks of surprise.

In front of them was a pile of giant stones.

These stones were clustered together, arranged chaotically.

However, the surface of these stones was pitch black like ink, reminiscent of Meteorite Iron.

"It's actually Black Meteorite Ink Gold, and there's so much of it?" Lei Bing exclaimed in surprise.

"Artifact Refining material, Black Meteorite Ink Gold?" Xu Nian also showed a surprised expression.

Xu Nian had some knowledge of Artifact Refining Materials.

So when Lei Bing mentioned these stones were Black Meteorite Ink Gold, he too was surprised.

"With so much Black Meteorite Ink Gold, it could probably make thousands of Top-grade Immortal Artifacts, right?" the older twin exclaimed in shock.

Even the elder and the young woman showed looks of astonishment.

"Haha, just this Black Meteorite Ink Gold alone makes our trip worthwhile. This much Black Meteorite Ink Gold is worth at least millions of Top-grade Immortal Essence Stones." The Late-stage Profound Immortal who had earlier bantered with Li Tian laughed.

So, the group approached these Black Meteorite Ink Gold stones directly.

The smallest of these stones had a diameter of about a meter, and the largest exceeded five meters, with a total of over thirty pieces.

Such a first-of-its-kind mineral vein was unheard of.

However, Xu Nian instinctively felt something was amiss.

These Black Meteorite Ink Gold stones were extremely heavy, with even a thumb-sized piece weighing ten thousand pounds.

Now, such large stones had a weight reaching unimaginable levels.

A stone with a diameter of one meter could probably rival the gravity of a planet.

Who placed such terrifyingly heavy stones here?

"They are indeed very heavy."

The burly twin Disciple used his Immortal Essence to control a stone to fly, struggling somewhat.

Such an immense Immortal Essence Stone deposit was probably unique in the Immortal Realm.

"I counted, there are thirty-six in total, shall we divide them?" Lei Bing suggested.

"You can take the stones; the elder already said he won't take any resources we find on the way," the elder said.

Hearing this, Lei Bing and the others were overjoyed.

Xu Nian and Li Tian didn't hold back either.

Xu Nian received three large stones, while Li Tian got six with a diameter of one meter.

Overall, everyone got a fair share.

As these stones were taken away, over thirty deep pits were revealed on the ground.

Seeing these pits, Xu Nian's sense of unease grew stronger.

"This isn't good; there's a strong Evil Power emanating from these pits."

Xu Nian glanced more closely at the pits.

He noticed that an immensely powerful force was rushing out from within the pits.

As Xu Nian spoke, the others also turned towards the pits.

Initially dismissive, their expressions soon changed.

A mighty force erupted directly from the pits.

Then an entity resembling vines directly emerged from the pits, violently striking the golden light shield.

"Clang!"

The golden light shield shook and teetered violently.

"This isn't good, it's the Guixian Vine from the Late-stage Luoxian Realm, these stones were used to suppress it," the elder immediately stated.

He quickly used his Immortal Essence to sustain the Light Ball.

"Clang clang clang!"

Dozens of vines darted out, continuously lashing the golden light shield.

The golden light shield trembled violently.

Cracks began to appear in some places.

The surrounding crowd was dumbfounded.

A Guixian Vine from the Late-stage Luoxian Realm?

This entity was particularly terrifying in the Immortal Realm.

They hadn't expected such a terrifying entity to be suppressed here.

"Quick, use the Immortal Golden Immortal Formation to cut these vines," the elder shouted.

"Okay, I'll do it! Lend me your power."

Lei Bing said.

The next moment, he activated the Immortal Talisman.

Then everyone felt their Immortal Talismans light up as well.

And their Immortal Essence flowed uncontrollably into the Immortal Talisman.

In the next moment, all this power was infused into Lei Jun.

"Buzz!"

Lei Jun unleashed a powerful wave.

"Slash!"

Lei Jun's eyes were sharp as his Immortal Saber swung out.

A terrifying Sword Light swept out.

In an instant, it severed the metal-like vines.

"So strong!"

Everyone was astonished by this scene.

Even Lei Jun was taken aback by his attack.

Chapter 1363: Forming an Alliance

"Quick, retreat!"

After cutting off the Ghost Immortal Vine's tendrils, everyone got a chance to escape.

So when the elder gave the command,

everyone retreated in succession.

The two late-stage Profound Immortals following Lei Bing and the two late-stage Profound Immortals following the seductive woman all took out top-grade Immortal Essence Stones to replenish the Immortal Essence they had lost.

The activation of the formation directly drained half of their Immortal Essence Power.

Xu Nian pretended to take out a top-grade Immortal Essence Stone as well, but in reality, less than one-twentieth of his Immortal Essence Power had been drained.

He did this entirely to avoid arousing suspicion and to lower their guard.

As for Li Tian, although he had also lost a considerable amount of Immortal Essence, Xu Nian was sure that the Immortal Essence in his body was not much inferior to these peak-level Profound Immortals.

"To think these ores were used to suppress the Ghost Immortal Vine. Its main body should be underground, and that last strike probably only injured its tendrils but not its trunk." Lei Bing said.

"This Ghost Immortal Vine is extremely terrifying. Although it only has an early-stage Luoxian Realm cultivation, its strength is comparable to late-stage Luoxian. Fortunately, it hasn't developed Spiritual Wisdom and its main body is underground, unable to fully escape, or we would surely die today." The seductive woman said as well.

"We should leave here as soon as possible. If this Ghost Immortal Vine regains its strength and attacks us again, we'll be in trouble." The burly warrior's brother said.

Everyone around nodded in agreement.

But before they could leave, the ground under their feet started to tremble violently.

"Whoosh, whoosh, whoosh!"

At that moment, several tendrils shot out from the ground like sharp arrows, instantly forming a massive cage that enclosed everyone within.

Xu Nian and the others frowned deeply.

It seemed the Ghost Immortal Vine wasn't going to let them go easily.

Seeing this, Xu Nian also frowned.

With so many tendrils, this Ghost Immortal Vine would be difficult to deal with.

"What should we do? Our Immortal Golden Immortal Formation has already been used, and it'll take 15 minutes before we can use it again. I'm afraid the Golden Light Pearl won't last that long." Wu Feng, a late-stage Profound Immortal behind the seductive woman, said.

"The Golden Light Pearl can only last for 15 minutes. After that, I'll put it away, and you'll have to rely on yourselves." The elder said.

Hearing this, everyone's expressions turned serious.

Enduring for 15 minutes under the Ghost Immortal Vine's attack was no easy task.

"I refuse to believe I can't break open this cage." The burly twin brother snorted, immediately swinging his axe.

The Axe Light flashed out, carrying dominating Immortal Essence, striking the vine cage.

However, his Axe Light couldn't even break the Immortal Essence waves on the surface of the tendrils.

Let alone damaging the tendrils themselves.

"It seems attacks below the Luoxian Realm can't harm these tendrils at all." Lei Bing said.

Hearing this, everyone looked at the elder.

"Let me give it a try." The elder said.

The next moment, intense Sword Qi erupted from him.

The elder swung his sword, and Sword Qi soared into the sky.

"Slash!"

A small opening was cut in the tendrils, but it quickly closed again.

Seeing this, the elder's brows furrowed deeply.

Everyone was at a loss for a moment.

Even after 15 minutes when they could resume attacking with the Immortal Golden Immortal Formation, escaping the Ghost Immortal Vine's encirclement wouldn't be easy.

In such plant-type Immortal Beasts, the roots might cover dozens of kilometers.

"Boom!"

Although the Ghost Immortal Vine had trapped them, it didn't stop attacking.

The tendrils kept whipping towards the golden barrier from all directions.

Each strike made the barrier tremble, increasing the likelihood of it shattering.

"If any of you have life-saving skills, you'd better use them, or you might not have a chance to later." The seductive woman said to the two late-stage Profound Immortals behind her.

"Don't worry, ma'am, we'll do our best." The two late-stage Profound Immortals responded immediately.

"Tong Cheng, Tong Han, how about you brothers join hands with us?" The seductive woman looked at the twin brothers at the peak of Profound Immortal and smiled.

"Sure, this way we'll have a better chance of survival." Tong Cheng readily agreed.

The seductive woman smiled at these words and glanced at Lei Bing beside her.

The trio with him looked furious.

They had intended to recruit the twin brothers, but the seductive woman had beaten them to it.

"Brother Li, Brother Xu, why don't you join us as well? That way, we can mutually support each other." Lei Bing, helpless, turned to look at Xu Nian and Li Tian.

For now, the elder and the young woman were certainly defending on their own, not caring about them at all.

Thus, forming their own alliance was their only option.

However, it seemed the woman had no intention of cooperating with him.

And the strong twin brothers had been recruited by the woman, leaving him with the option to ally with Xu Nian and Li Tian.

Despite feeling they might not contribute much.

"Alright, since Brother Lei is inviting, we shall humbly accept." Xu Nian smiled.

This was the result of his and Li Tian's discussion.

Since Lei Bing and the seductive woman were at odds right now,

and Lei Bing seemed alright, there was no issue cooperating.

"Haha, a mid-stage Profound Immortal and a late-stage Profound Immortal. Lei Bing, you're leading three late-stage and one mid-stage. Aren't you afraid of being dragged down?" The seductive woman sneered.

"Hmph, that's none of your concern." Lei Bing retorted coldly.

Although he felt somewhat annoyed, he still wanted to save face.

The seductive woman sneered but said nothing more.

The two followers behind her wore expressions of schadenfreude.

The elder and the young woman watched coldly from the beginning, seemingly unconcerned about the infighting.

Of course, she noticed Xu Nian.

She found Xu Nian and Li Tian to be unusually calm.

Typically, late-stage Profound Immortals would be anxious in such situations, yet Xu Nian, a mid-stage Profound Immortal, remained calm.

Thus, she felt Xu Nian was not simple.

"Holy Daughter, this Li Tian seems somewhat special." The elder transmitted.

"Yes, he indeed appears quite remarkable, but the one beside him seems even more so." The young woman transmitted back.

"Oh? You mean that mid-stage Profound Immortal? His cultivation technique seems peculiar, as I can't discern his strength, apart from that, there's nothing particularly special." The elder pondered.

"If you can't discern his strength, isn't that special enough?" The woman sneered.

The elder was slightly taken aback by her words.

Unexpectedly, he looked at Xu Nian once more.

Chapter 1364: Li Tian Displays His Power

"Boom!"

Fifteen minutes later, the purple golden light was completely unable to hold on.

"Prepare yourselves. I'm going to put away the Golden Light Pearl. Whether you can withstand it will depend on your own fate," the elder said.

Everyone around displayed extremely serious expressions.

For a moment, all eyes were filled with a solemn demeanour.

The vines around them wavered like giant pythons, seeming to bide their time.

"Prepare to show your true abilities," the seductive woman said sternly.

The people behind her nodded one after another.

Hiding one's skills at this time was akin to seeking death.

"Brother Xu Nian, Brother Li, although we are allied, I might not be able to take care of you much. Try to avoid danger on your own," Lei Bing said to Xu Nian and Li Tian.

"Alright!" Xu Nian nodded.

He knew that Lei Bing agreeing to ally with them was already quite favorable.

After all, even with Lei Bing's own strength, he might not last for fifteen minutes.

Xu Nian and Li Tian exchanged a glance and both smiled.

With the talisman in Li Tian's hand, defeating the Ghost Immortal Vine was not difficult, let alone enduring for fifteen minutes.

"Buzz!"

The elder put away the Golden Light Ball.

The next moment, the vines surrounding them shot towards the crowd like venomous snakes attacking their prey.

The crowd was shocked by this scene.

"Whoosh!"

Just then, three vines attacked from three directions towards Xu Nian's side.

Seeing this, Xu Nian's eyes became sharp, and a mid-grade Immortal Sword appeared in his hand.

Simultaneously, the Five Elements Plate in his hand transformed into a shield, creating a defense.

"Clang!"

A vine attacked a late-stage Profound Immortal who was with Lei Bing.

The late-stage Profound Immortal wielded a Battle Saber technique, slashing forward, but failed to leave any mark on the vine.

"Puff!"

At the same time, the vine lashed onto him, instantly sending him flying, spitting blood profusely.

The lash knocked him unconscious.

The next moment, the vine fully ensnared him.

Soon, the person was visibly consumed by the vine.

Seeing this, Xu Nian furrowed his brows.

Of course, at this moment, he did not care about anything else.

Because the other two vines, one headed towards Lei Bing, while the other targeted him.

Xu Nian didn't hesitate, directly using the Kunyuan Sword Technique.

A Sword Radiance slashed out, striking the vine.

Instantly, a sword mark appeared on the vine.

But the vine did not break.

It continued rushing towards Xu Nian madly.

Startled, Xu Nian quickly used the Five Elements Plate to block.

"Clang!"

Xu Nian was forcibly pushed back several steps.

"I'll help you," Li Tian said.

With these words, he unleashed an Immortal Talisman, and a terrifying fireball shot out instantly.

The next moment, the vine was engulfed by the fireball.

In an instant, it burned completely.

"Ah!"

The vine let out a terrible scream.

On the other side, Lei Bing was not having an easy time either, using a thunderous attack.

With one slash, Heavenly Thunder stretched for thousands of feet.

Consuming a large amount of Immortal Essence, he barely forced the vine back.

"Ah!"

Meanwhile, the seductive woman's team was also under attack.

A late-stage Profound Immortal had his chest pierced by a vine, sustaining severe injuries.

The first wave of the vine's attack was thus blocked.

Xu Nian's side directly lost one person.

However, everyone's Immortal Essence consumption was quite high.

"Hmm, these two guys actually didn't die," the seductive woman said with a surprised look, eyeing Xu Nian and Li Tian.

In her view, Xu Nian should not have been able to withstand the first wave of attacks.

"So you used the power of an Immortal Talisman, but Immortal Talismans are consumables. Eventually, you won't escape death," the seductive woman sneered.

Lei Bing was also a bit surprised that Xu Nian survived.

Xu Nian ignored the gazes of others, focusing on his thoughts with a frown.

His previous attack couldn't block the vine.

It seemed he still needed to increase his strength.

"Whoosh whoosh whoosh!"

At this moment, the vines surged again, this time numbering more than a dozen.

Seeing this, everyone's faces changed dramatically.

Xu Nian no longer hesitated, using the Dragon King Cone to form a powerful Wind Blade.

He attacked the oncoming vines madly.

This time, the vines were forcibly cut by Xu Nian's group of Wind Blades.

On the other side, Li Tian took out an Immortal Talisman again.

He unleashed a Wind Blade, directly shredding the vines to pieces.

However, another late-stage Profound Immortal couldn't escape, becoming entangled in vine and dragged underground.

Lei Bing also spent tremendous effort before forcing the vine back.

The seductive woman had a similar struggle.

The two twins and the seductive woman all survived.

But the injured late-stage Profound Immortal was not so lucky.

The late-stage Profound Immortal opposing Xu Nian and the others also sustained serious injuries.

As for the elder and the young woman, they remained unharmed under the elder's protection.

"Fifteen minutes have passed."

At this moment, the seductive woman decisively acted.

The Immortal Talisman was activated.

She acted decisively.

Standing on the vine in an instant.

"Boom!"

This time, however, she could only carve a hole in the vine cage.

"What?"

The seductive woman looked astonished.

Why was the power somewhat diminished?

Could it be because three team members died?

"I'll lend you a hand."

Li Tian stepped forward at this moment.

An Immortal Talisman appeared in his hand.

Once activated, it transformed into a giant flame dragon, engulfing the vine cage.

"Go!"

Everyone immediately flew through the gap frantically towards the distance.

The Ghost Immortal Vine, although attacked by flames, screamed horribly but did not pursue.

Everyone flew a hundred miles away before breathing a sigh of relief.

"Why didn't you bring out such a powerful Immortal Talisman earlier?" Upon landing, the seductive woman showed no gratitude and instead glared at Li Tian.

"Why should I bring it out earlier? Besides, I didn't know this Immortal Talisman could harm it," Li Tian replied immediately.

"You!" The seductive woman looked furious but couldn't unleash her anger.

The injured late-stage Profound Immortal was also furious, thinking that if Li Tian had brought out the talisman earlier, he wouldn't have been injured.

The elder and the young woman glanced at Li Tian, saying nothing.

"You should adjust yourselves here first," the elder said.

With that, he opened the Golden Light Ball once more.

Hearing this, the seductive woman and others took out top-grade Immortal Essence Stones to start recovering their Immortal Essence.

Xu Nian also took out top-grade Immortal Essence Stones to recover, but he quickly recovered fully.

After all, his consumption wasn't large.

"Brother Li, I didn't expect you to be so powerful, carrying so many top-grade Immortal Talismans," Lei Bing said, looking at Li Tian.

Just before, Li Tian had used three top-grade Immortal Talismans.

Such a feat was not something ordinary people could achieve.

Thus, Lei Bing felt it was natural for Li Tian to survive.

As for Xu Nian, he just thought Xu Nian was lucky.

Therefore, he was inclined to forge a friendship with Li Tian.

Chapter 1365: Grade of Law

Xu Nian sat cross-legged there, seemingly absorbing the top-grade Immortal Essence Stone in his hand to restore the lost True Essence within his body.

But in fact, he was pondering the sword technique he had just performed.

He had just used the Kunyuan Sword Technique, and although this strike was sharp enough, it was already comparable to a full-powered strike of a Sword Immortal at the Peak of Profound Immortal level.

However, Xu Nian felt that his attack was not sharp enough and could even be improved further.

Currently, his Shattering Void Law still remained in the Early Stage.

If he could breakthrough to the Middle Stage, he could easily cut through that vine just now.

Thinking of this, Xu Nian knew that the focus of his cultivation from now on must be on breaking through this law.

The breakthrough of a law is not so easy.

Not to mention Profound Immortals, even ordinary cultivators of the Luoxian Realm are rarely able to break through to Mid-level.

Law breakthroughs can take as few as hundreds of years, as many as thousands.

Like this elder before him, a Sword Immortal at the Early Stage of the Luoxian Realm, whose law realm still remained at the Early Stage of Law.

But Xu Nian was unwilling to accept this; others may not be able to break through at the Profound Immortal level, but he might.

Thus, Xu Nian immersed his entire mind in the comprehension of Shattering Void.

In his palm, Wind Blades continuously gathered, shattered, then gathered and shattered again.

Only through repeated attempts did his understanding of the Wind Attribute become increasingly clear.

"He actually still has the mind to comprehend cultivation?" The Seductive Woman naturally noticed Xu Nian's actions, showing a disdainful expression.

The number of people who understand the Shattering Void Law is not small; after all, the vast majority of Wind Attribute Immortals comprehend this law.

So Xu Nian's insight cultivation appeared nothing special in her eyes.

Others held the same thought.

Only the young woman showed a trace of surprise.

Because she sensed a subtle change in Xu Nian's Wind Attribute Law, a change that seemed to hint towards evolving into a higher-grade law.

"Alright, time's about up. We should continue on our way." The elder spoke.

Everyone stood up one after another.

Xu Nian also emerged from his cultivation insights.

Although he had not yet achieved a breakthrough in comprehension and cultivation, he seemed to have made some progress.

Moreover, he discovered some weaknesses in his Shattering Void Law, contemplating ways to fortify these weaknesses.

Once these weaknesses are fortified, he believes that even if his law does not break through the Middle Stage, its power can still be multiplied several times.

"Brother Xu, are you trying to achieve a breakthrough in law?"

Li Tian walked up to Xu Nian with a smile and asked.

"Yes, I feel my attacks are too numerous, so I'm trying to make a breakthrough." Xu Nian nodded.

Li Tian nodded as well.

"By the way, do you know about the grading of laws?" Li Tian suddenly asked.

"Of course I know, laws are divided into the stages of Entry-level, Middle Stage, Late Stage, Great Success, and Perfect." Xu Nian replied.

"That's the division of stages; I was asking about the grades." Li Tian said, amused.

Could it be that this guy really doesn't know about the grading of laws?

"Law grades?" Xu Nian shook his head.

The surrounding people saw Xu Nian's expression, especially the Seductive Woman, whose face became even more disdainful.

"It seems you really don't know; laws also have different grades, generally divided into Three Grades. The Third-grade laws are most common, followed by Second-grade. Being able to advance to Second-grade laws is already very formidable, and as for First-grade, those are extremely terrifying laws. The power gap displayed by different grades of laws can be very significant." Li Tian said.

"I see!" Xu Nian exclaimed in surprise.

He hadn't known about the grading of laws before.

No one had ever explained this to him.

"The law you previously used should be the Wind Attribute Shattering Void Law, right?" Li Tian smiled and asked.

"Yes, it is Shattering Void." Xu Nian nodded.

"Shattering Void and Storm Blade are both fairly common Wind Attribute Third-grade laws, and are among the laws most Wind Attribute cultivators comprehend. Even if these types of laws are fully comprehended, advancing to higher levels is very difficult; it is the Second-grade that provides possibilities." Li Tian said.

"Brother Li's suggestion is for me to strive to raise the quality of the Shattering Void Law? Is it possible to improve a law once comprehended?" Xu Nian asked in amazement.

"Haha, it seems Brother Xu is indeed smart. Yes, after comprehending a law, it's not entirely unchangeable. Some people start with only mastering Third-grade laws, but after some time, they might suddenly break through to Second-grade, and even directly to First-grade is possible. In any case, Third-grade has limited potential, and of course, for those Immortals of lesser talent, even breaking through is hard; asking them to comprehend Second-grade would be even harder." Li Tian said with a laugh.

Xu Nian understood.

Li Tian meant for him not to rush into breaking through to the Middle Stage.

Instead, find a way to enhance the quality of the law.

Since now he is merely at the Early Stage of law, improving the quality might be relatively easier.

By the time he reaches the Middle Stage, or even later, enhancement would be extremely difficult.

"Brother Li, what are the Second-grade Wind Attribute laws, and First-grade ones?" Xu Nian asked.

"There are many types of laws without absolute definition; however, commonly, the Second-grade Wind Attribute laws include Absolute Cutting and Wind Blade Space, as for First-grade, they are very rare, but I know one called Mixed Element Space Split, which is extremely formidable." Li Tian stated.

"Mixed Element Space Split?" Xu Nian muttered over the name silently.

Just from the name, Xu Nian felt it was immensely impressive.

Seems that he needed to enhance his understanding quality.

"Thank you for the reminder, Brother Li Tian. I will give it a try."

The Seductive Woman let out a disdainful laugh.

How can Second-grade laws be so easily comprehended?

Those who can understand Second-grade laws are all exceptionally talented.

Looking at this guy now, wanting to break through to Second-grade law, how could it be possible?

Lei Bing shared the same thought, as he also followed Third-grade laws.

Soon, Xu Nian and his companions reached the central area of the Divine Wind Valley.

This place was shrouded in toxic miasma; not to mention Profound Immortals, even those at the Luoxian Realm could meet a tragic end if this miasma seeped in.

Therefore, everyone present remained extremely cautious.

"Buzz!"

At this moment, a Wind Blade shot forth from within the valley.

It struck the golden shield.

"Boom!"

A loud explosion.

The golden shield instantly wavered, even showing cracks.

"What a strong Wind Blade." Xu Nian exclaimed in surprise.

The power of this Wind Blade was much stronger than the Sword Qi generated by his Kunyuan Sword Technique.

Moreover, he could sense that this Wind Blade contained an extremely terrifying power.

"Everyone, be careful. There's a powerful adversary ahead."

The elder reminded everyone.

Then they saw six white-clad figures emerge from within the valley.

"It's them!"

The elder's pupils immediately contracted.

The young woman's eyebrows also knitted tightly.

Unexpectedly, they were still detected by them eventually.

Chapter 1366: Infighting

"Experts from the Immortal Sovereign Hall?"

The seductive woman showed a look of surprise.

Without exception, all six of them were from the Immortal Sovereign Hall.

Three of them were at the Luoxian Realm level, one of whom was at the peak of Luoxian Realm.

The remaining three were at the peak of Profound Immortal Realm.

Of course, the most terrifying thing was that they were all Sword Immortals.

"This is a big problem now."

The younger of the twin brothers frowned and said.

They could clearly see that the other side was not here to help them, but came specifically for them.

And it was obvious that they were aiming for the elder and the young woman.

Six Sword Immortals, and among them, three were Luoxian Realm experts.

Once one steps into the Luoxian Realm, they can give rise to Luoxian Power, a gap that is irreparable by Profound Immortals.

"We'll have a good show to watch now. These should be the Saint Heir's people." Li Tian transmitted a message to Xu Nian with a smile.

Xu Nian's eyebrows slightly furrowed.

Since they were the Saint Heir's people, they must have come to assassinate the Holy Daughter.

If this were the case, they might not be able to leave alive, because the other side would certainly want to kill to silence them.

"Ha ha, I never expected to encounter the Holy Daughter here. Is Her Highness planning to venture into the forbidden area of Divine Wind Valley?" The peak Luoxian Realm old man leading them stood with his hands behind his back, with a hint of sarcasm on his lips.

There was not a trace of reverence in his eyes.

"Holy Daughter?"

The seductive woman, Lei Bing, and the twin brothers looked at the woman beside the elder with surprise in their eyes.

No one expected that this woman was actually the Immortal Sovereign Hall Saintess?

At that moment, they seemed to realize that they had been swept up in a power struggle within the Immortal Sovereign Hall.

"Hmph, Luo Li, are you trying to commit a grave offense? Intercepting and killing the Holy Daughter is a sin of the highest order!" The white-haired elder beside the young woman gritted his teeth and said.

He did not expect that Luo Li would be the one to strike.

"A grave offense? Bai Wuxin, who said I want to kill the Holy Daughter? If the Holy Daughter perishes in the forbidden area of Divine Wind Valley, at most, it would only be my fault for an ineffective rescue, how is that a grave offense?" The gray-haired old man named Luo Li sneered.

The strong individuals behind him also showed sneers.

If the Holy Daughter died in Divine Wind Valley, as long as they didn't speak, who would know?

"You!" Bai Wuxin was furious.

The young woman's gaze also became extremely sharp.

"Luo Li, do you really think you can kill me?" The young woman spoke, her tone exceedingly domineering.

This was her first time speaking.

"Holy Daughter, there might have been a time when I might not have been able to match you, but I've heard that you ran into problems cultivating the Supreme Heavenly Saint Technique. Otherwise, why would you have come to this forbidden area of Divine Wind Valley to find Taiqing Grass?" Luo Li sneered.

If the Holy Daughter were at her peak, he wouldn't have dared to entertain the thought of intercepting her.

But now that she had run into issues with her cultivation, it was the perfect opportunity.

Moreover, the Saint Heir gave him a trump card, so he was confident he could eliminate the Holy Daughter.

The young woman frowned the moment she heard this.

She hadn't expected that her cultivation setbacks had spread in this way.

It seemed there was a traitor by her side.

She decided to investigate thoroughly once she returned.

Otherwise, how would the Saint Heir know she had come to Divine Wind Valley?

"Enough with the senseless chatter, Luo Li. If I survive today, you will face utter destruction in the future." The Holy Daughter spoke, her tone exceedingly domineering.

Then she turned to Xu Nian and the others and said, "You've seen the situation. They definitely won't let you leave, so you'd best not think about running away; fight to the death."

As soon as these words came out, although some were angry, they knew the Holy Daughter was speaking the truth.

Intercepting the Immortal Sovereign Hall's Holy Daughter was a matter of paramount importance, and the group was unlikely to leave any witnesses.

"Rest assured, Holy Daughter, we will fight to the death," the seductive woman was the first to declare.

Lei Bing and the twin brothers nodded in agreement.

Xu Nian and Li Tian, however, said nothing.

They were not about to risk their lives for the Holy Daughter.

"Attack!"

The gray-haired elder gave the command.

In the next moment, his Luoxian and Profound Immortal followers charged towards Xu Nian and the others.

He himself faced off against the Holy Daughter.

The Holy Daughter stepped forward, her peak Luoxian Realm power sweeping across a thousand miles as she met the peak Luoxian Realm expert head-on.

The white-haired elder also engaged a Luoxian Realm expert.

The twin brothers teamed up against another Luoxian Realm early-stage expert.

Lei Bing and the seductive woman each confronted a peak Profound Immortal expert.

The remaining peak Profound Immortal Sword Immortal naturally fell to Xu Nian, Li Tian, and the seductive woman's entourage.

"You go; I'm injured and don't have much combat power left," the man said immediately.

Xu Nian and Li Tian exchanged a glance, finding it amusing.

This guy actually wanted to use them as shields?

While they intended to fight, they didn't want a scoundrel like him to benefit.

"Why should we go first? Let's all attack together," Xu Nian said.

"Damn it, you want to die? If you don't attack, I'll kill you myself," the man threatened.

Xu Nian frowned, his gaze turning fierce.

This man had been mocking them earlier, and now he was threatening him. In that case, Xu Nian wouldn't hold back.

"Whoosh!"

The peak Profound Immortal expert wielded a sword and slashed directly.

The Sword Radiance was enormous, forming a huge trench wherever it passed.

Xu Nian was just about to dodge the strike when he felt a fierce wind behind him.

"Boy, die!" The late-stage Profound Immortal man slapped toward Xu Nian's back.

He seemed intent on pushing Xu Nian into the massive Sword Radiance.

With that, he planned to kill Xu Nian.

Xu Nian frowned, not expecting this guy to make the first move.

But Xu Nian was not an easy target. He flickered out of the way.

The man's slap hit empty air instantly.

"What?"

The man was shocked, realizing something was wrong.

However, at this moment, he found he couldn't move.

Spatial confinement?

No!

No way!

The man suddenly wanted to shout in agitation, but it was too late.

The Sword Light came down in an instant, slicing him in two.

Xu Nian grabbed the escaping Immortal Embryo of the middle-aged man.

"You... you shameless!"

The man shouted.

"Shameless? You tried to kill me first, how does that make me shameless?" Xu Nian sneered.

"Ha ha, even if you kill me, you'll die. This peak Profound Immortal Sword Immortal isn't someone you can withstand," the man's Immortal Embryo laughed loudly.

"Oh really, that's none of your concern," Xu Nian snorted coldly.

He crushed the Immortal Embryo.

Then absorbed all the Immortal Essence Wave from the Immortal Embryo, turning it into nourishment for the Chaos Green Lotus Seed.

On the other side, the White Robed Sword Immortal landed gracefully, looking at Xu Nian with disdain.

He had seen the scene just now.

He hadn't expected these two late-stage Profound Immortals to waste time on infighting?

Chapter 1367: Extreme Point Principle

"Kid, I didn't expect you to dodge my strike and even use my sword move to kill someone. It seems you're not just some mid-stage Profound Immortal."

The White Robed Sword Immortal looked at Xu Nian and sneered, his eyes carrying a hint of amusement.

A mid-stage Profound Immortal, a late-stage Profound Immortal, and neither a Sword Immortal.

In his eyes, they were no different from ants.

"It seems senior has quite the sharp eyes. I wonder if you could let us go?" Xu Nian asked with a smile.

"That's impossible. You've seen things you shouldn't have, so naturally, I can't let you live." The White Robed Sword Immortal replied with a smile.

"Then there's nothing more to say. Please make your move, senior." Xu Nian said with a smile.

"Oh? Are you saying you want to fight me?" The White Robed Sword Immortal laughed lightly, a trace of disdain in his eyes.

Even a special mid-stage Profound Immortal could not be his opponent.

Xu Nian smiled and directly summoned a mid-grade Immortal Sword.

The White Robed Sword Immortal sneered, and a top-grade Immortal Sword appeared in his hand as well.

Sword Immortal True Qi covered the blade, instantly causing the Immortal Sword to erupt with an unparalleled Immortal Essence wave.

The reason a Sword Immortal is more powerful than ordinary immortals is the sharper Sword Immortal Immortal Essence within their body.

Thus, the power of a Sword Immortal's Sword Qi is something ordinary immortals of the same level cannot withstand.

However, Xu Nian wasn't easy to deal with either.

The power of the Chaos Green Lotus within him was far more fierce and domineering than Sword Immortal Immortal Essence.

"Kid, die! Mixed Element Golden Light Slash!" The White Robed Sword Immortal slashed down with his sword.

Golden light blazed, with terrifying golden Sword Radiance falling upon Xu Nian like the heavens collapsing.

Gold Attribute, Mixed Element Golden Light Principle.

This principle can burst with intense golden light, which is even more cutting than sharp metal.

Thus, those who wield this principle possess extraordinarily strong attacks.

But like Shattering Void, it belongs to the Third-grade Laws.

"Let me try my new realization."

Xu Nian smiled faintly, the King Jing Sword in his hand also exuding a sharp aura.

In the next moment, Xu Nian slashed.

A streak of green Sword Radiance surged out, colliding with the golden Sword Light.

Initially, the White Robed Sword Immortal was dismissive.

However, when he saw his golden Sword Light shattered by the green Sword Radiance, his expression suddenly changed.

"Impossible! How can a mid-stage Profound Immortal block my sword?" the White Robed Sword Immortal exclaimed in surprise.

Xu Nian looked at this sword strike and shook his head.

"Not sharp enough. It seems Brother Li was right; I need to enhance the quality of the law." Xu Nian murmured to himself.

Upon hearing this, the White Robed Sword Immortal felt a sudden urge to spit blood.

Blocking his Mixed Element Sword Light Slash and still being dissatisfied?

Li Tian stood with his hands behind his back, a hint of admiration in his eyes upon hearing Xu Nian's words.

It seemed his previous words had truly been a great help to Xu Nian.

In truth, Xu Nian spoke sincerely.

Upon learning the classification of laws, he decided he must work to enhance their quality.

Although the Shattering Void Law was strong, it couldn't satisfy his inner desires.

"If I attempt further compression of the Wind Attribute just now, will the power be greater?" Xu Nian pondered.

The Shattering Void law based on Wind Attribute Elements relies on their flow and compression, forming an incredibly sharp Air Blade.

Yet, from the demonstration just now, Xu Nian discovered that the Air Blade wasn't compressed to its limit.

There seemed to be much room for further compression.

However, doing so could easily render the Space Blade extremely unstable and hard to control.

But Xu Nian decided to try anyway.

"Hmph, able to block my Mixed Element Golden Light Slash? It seems I underestimated you. But the next move, you absolutely cannot withstand," the White Robed Sword Immortal declared.

The Immortal Sword in his hand raised high, erupting with a heart-palpitating golden wave.

A massive golden giant sword gathered above his head.

The golden giant sword emitted dazzling golden light, a halo of gold circulating around it, exuding a strong sense of pressure.

"Huh? Fifth Junior Brother was forced to this step, even using the Golden Radiance Sword?"

Another White Robed Sword Immortal, engaged in battle with Lei Bing in the distance, showed a look of surprise.

Lei Bing also noticed this.

Looking at the massive golden giant sword, his heart skipped a beat.

The might of such a giant sword, he wouldn't dare claim he could block it.

Could Xu Nian really push this Peak of Profound Immortal-level Sword Immortal to this stage?

How did he do it?

Xu Nian at this moment paid no mind to these thoughts.

Currently, he was fully concentrated on trying to compress the surrounding Wind Attribute Elements even further.

The gentle flow of green Sword Energy formed by the Wind Attribute Elements swirled continuously on the sword's edge.

As Xu Nian activated the Immortal Essence within him, this green elemental power flowed even more swiftly.

"Buzz!"

Just a few rotations, and an incredibly sharp Sword Qi erupted on the blade.

This Sword Qi seemed capable of piercing the void.

Yet Xu Nian didn't stop there but instead tried to mobilize even more Wind Attribute Elements.

The Immortal Essence within him circulated on a greater scale.

Ten circles, fifty circles, a hundred circles.

These Wind Attribute Elements, driven by Xu Nian's powerful Immortal Essence, spun frantically.

With the spinning, the sharpness of the Wind Attribute Elements reached more and more extreme levels.

After a hundred and eighty circles, Xu Nian felt immense resistance.

It seemed he could compress no more.

And at this moment, the sharpness of the Sword Qi had reached a terrifying level.

Yet Xu Nian was not satisfied.

He felt it could still be compressed further.

"Die!"

In the distance, the White Robed Sword Immortal shouted, controlling the giant sword to shoot directly at Xu Nian.

Its speed like a golden flash.

The next moment, it was about to cleave Xu Nian in two.

"No, I refuse to believe I can't compress further. Compress for me!"

Xu Nian shouted in his heart.

The Immortal Essence within him surged wildly, forcibly making the Wind Attribute Elements continue to layer.

"Boom!"

With a rumbling sound.

Xu Nian succeeded, the Sword Qi on the King Jing Sword had overlain two hundred circles.

At this moment, the Sword Qi seemed to have undergone a qualitative change.

The once incredibly sharp green Sword Qi had gathered into a single point.

This point was extremely sharp, sharp enough to pierce through anything in the world.

"Break!"

Xu Nian thrust his sword, stabbing directly at the golden light sword.

"Clang!"

In an instant, mountains and rivers crumbled.

The entire golden light sword shattered to pieces.

"Impossible, absolutely impossible."

The White Robed Sword Immortal was shocked.

How could his strongest strike be broken?

"It's over."

However, at this moment, Xu Nian thrust his sword.

The sword was fast to the extreme, piercing through everything with one thrust.

"Buzz!"

The sharp sword pierced through the White Robed Sword Immortal's forehead.

The White Robed Sword Immortal instantly fell.

And what was shocking was that there was no trace of a wound on the forehead of the White Robed Sword Immortal.

"Could this be the First-grade Law, Extreme Point Principle?"

Li Tian stood to the side, also full of surprise.

Seeing the fallen White Robed Sword Immortal, he showed an extremely astonished expression.

Who would have thought Xu Nian comprehended a First-grade Law?

And in the midst of battle?

To know, a First-grade Law is exceedingly rare in the entire Immortal Realm.

"Brother Xu, congratulations on comprehending the First-grade Law, Extreme Point Principle." Li Tian walked over with a smile.

"Extreme Point Principle?" Xu Nian paused.

That's how he learned the name of the law.

Moments earlier in his mind, he only felt a flash of insight, as if the world had turned into a single point.

With one thrust of the sword, everything could be pierced in one strike.

Could this be the Extreme Point Principle?

"Is this Extreme Point Principle a First-grade Law?" Xu Nian continued to ask.

"Yes, it's an extremely rare First-grade Law, and you saw its power just now. To instantly kill this White Robed Sword Immortal, a Second Grade Law wouldn't suffice," Li Tian said with a smile.

Hearing this, Xu Nian's face showed a look of joy.

Chapter 1368: Rescuing the Twins

"First-grade law, Extreme Point?"

The Holy Daughter, who was fighting nearby, also noticed what was happening with Xu Nian.

When she saw Xu Nian actually comprehending a first-grade law, she was taken aback.

Not to mention others, even she herself had only comprehended a second-grade law.

You should know, throughout the entire Immortal Realm, there are only a few who have comprehended a first-grade law.

This young man actually mastered a first-grade law?

Is he really an Independent Immortal?

"No matter what, after this expedition I must find a way to win him over. If he can be used by me, he will definitely be a tremendous asset in the future," the Holy Daughter thought to herself.

Xu Nian's ability to comprehend a first-grade law naturally revealed a world-defying talent.

A talent like this, if discovered by the Nine Great Forces, would definitely be fiercely contested.

So she had already decided to capture him before other forces learned of this matter.

She believed that by relying on her charm, she could definitely make him wholeheartedly surrender at her feet.

Xu Nian was unaware of what the Immortal Sovereign Hall Saintess was thinking.

At that moment, he was immersed in the breakthrough of the Wind Attribute Law.

He carefully compared the Extreme Point Principle and found that the attack of the Extreme Point Principle was much greater than Shattering Void.

With a single sword stab, all the power converged at one point.

Even a Top-grade Defense Immortal Artifact might not be able to withstand his strike.

"I'll call it the Extreme Point Blade," Xu Nian thought, giving a name to his sword technique.

Now with the Extreme Point Principle, no one under the Luoxian Realm was his match; even the Sword Immortal's immortal essence couldn't be as sharp as his Extreme Point Blade.

"Bang!"

Just at this moment.

The younger of the twin brothers had his battle hammer shattered by a single sword from that Luoxian Realm Sword Immortal, and his whole body flew backward, crashing into a distant mountain wall, instantly creating a huge crater.

Looking at his chest, it was completely sunken, with all the ribs broken.

"Such a strong attack, is this the Water Attribute Water Wave Law?" Xu Nian exclaimed in surprise.

"Yes, it's the Water Wave Law. When he unleashed that sword just now, a powerful water wave burst from the sword's edge, shattering that guy's battle hammer. The Water Wave's offensive power is strong and bursts out instantly, its power is immense. This law is very similar to my cultivation of the Earth Pulse Wave." Li Tian said.

"Earth Pulse Wave? Brother Li cultivates this law?" Xu Nian asked in amazement.

He didn't expect that Li Tian was cultivating the same Earth Attribute Law as him.

"Brother Xu also cultivates the Earth Attribute Law? That's right, the Earth Pulse Wave is a third-grade law within the Earth Attribute, capable of unleashing a vibration wave instantly. Its power is extremely formidable and can disregard all physical defenses." Li Tian said.

Xu Nian nodded.

He also cultivated the Earth Attribute Law, but he didn't practice the Earth Pulse Wave Law.

Instead, it was the Black Hole Law.

His Gravity Space, after breaking through to the Law Realm, evolved into the Black Hole Law.

According to Xu Nian's estimation, this Black Hole Law is at least a second-grade law, and possibly a first-grade law.

After all, he realized that after he broke through the Black Hole Law, there was little room for further progress.

So this Black Hole Law must not be low-rated.

Xu Nian was very aware of the saying "an innocent man gets into trouble by carrying a cherished treasure," so he didn't mention which law he had comprehended in the Earth Attribute.

Having one Wind Attribute first-grade law was already amazing enough, if the Black Hole Law was also first-grade, it would definitely shake the entire Immortal Realm.

Right now, his strength was not sufficient; being too famous is not necessarily a good thing.

"Ah!"

Another sword strike.

The older of the twin brothers had his entire arm shattered by the Luoxian Realm Early Stage Sword Immortal.

"Brother!"

The brother, Tong Han, who was trying hard to recover from his injuries, saw this scene and was filled with rage.

Their brotherly love had been very deep throughout their journey.

Seeing his brother so severely injured, how could he not be furious?

"Hmph, even ants want to block me, go die!"

That Luoxian Realm Early Stage Sword Immortal snorted coldly, and his sword thrust out again.

The Sword Radiance contained extremely strong Water Attribute Water Wave Law.

With this sword, Tong Cheng was surely doomed.

Seeing this, Tong Cheng, who had little combat power left, shouted to his brother, the struggling strongman, "Brother, run!"

After saying that, Tong Cheng did not retreat but advanced, rushing towards the Luoxian Realm Early Stage expert.

He seemed to want to buy time for his brother.

"No..." Tong Han, seeing this scene, shouted instantly in rage.

However, he was heavily injured and had no means to save his brother.

"None of you will escape," the Luoxian Realm Early Stage Sword Immortal said disdainfully.

The sharp sword in his hand was already before Tong Cheng, ready to smash his whole body.

"Am I going to die?" Tong Cheng thought with some reluctance.

However, just as he thought his life was over, a figure appeared in front of him.

"Clang!"

The sword of the Luoxian Realm Early Stage struck the figure, resulting in a loud explosive sound.

Then this figure, along with the strongman, flew away.

"Immortal Puppet?"

The Luoxian Realm Early Stage Sword Immortal looked at the puppet in front of Tong Cheng with a surprised expression.

This puppet withstood his sword strike.

It didn't shatter, only its chest dented by half an inch.

This indicated that the puppet's material was at least of Top-grade Immortal Artifact level.

Tong Cheng was also very surprised.

A Top-grade Immortal Artifact level Immortal Puppet?

"Him? He saved me?" Tong Cheng looked in surprise at Xu Nian.

Xu Nian smiled slightly and controlled the puppet to stand up again.

"Are you okay?" Xu Nian walked up to Tong Cheng and asked.

"I'm fine, thank you for saving me," Tong Cheng said gratefully.

He didn't expect this young man would save his life.

And also possess such a high-level puppet.

Xu Nian chuckled. Just now, he had a sudden thought and decided to save these brothers.

Not for any other reason, but simply moved by their brotherly love.

So he summoned the puppet to block the sword strike for him.

With the puppet made of Top-grade Immortal Artifact material, blocking this sword was naturally not difficult.

He just didn't expect that despite this, the puppet's chest had been dented.

It was conceivable how powerful the single sword strike from the Luoxian Realm Early Stage Sword Immortal puppet was.

"Kid, I didn't expect you to kill my fifth nephew. It seems you're not as simple as you appear. But even so, not escaping and instead meddling? I think you're overconfident." The Luoxian Realm Sword Immortal coldly looked at Xu Nian with killing intent in his eyes.

Especially when he saw the puppet next to Xu Nian, a hint of greed flashed in his eyes.

This puppet was definitely a great treasure.

If he could have it, it would certainly be a life-preserving item.

Upon hearing this, Xu Nian laughed.

Overconfident?

Is he overconfident?

If so, he might as well be overconfident to the end.

Chapter 1369: Slaying the Luoxian Sword Immortal

"Brother Xu, it's better to let it go. I'll hold him off, you leave quickly."

Tong Cheng looked at Xu Nian and said.

Although Xu Nian saved his life, in his opinion.

Xu Nian was just a Middle Stage Profound Immortal, how could he be a match for a Luoxian Realm expert?

"Brother Xu Nian, thank you for saving my big brother's life, but you should leave. There's no need to sacrifice your life here."

At this moment, Tong Han also walked over and sincerely said to Xu Nian.

Xu Nian smiled slightly.

He didn't expect Tong Cheng and Tong Han to be so sentimental and grateful.

But since he decided to step in, it naturally wouldn't end hastily.

And it was also a good opportunity to see how big the gap was between him and a Luoxian Realm Early Stage Sword Immortal.

"Don't worry, Brother Tong, I have confidence."

Xu Nian said with a smile.

After saying that, he put away the Sword Immortal Puppet.

The Sword Immortal Puppet was definitely not a match for this Luoxian Realm Sword Immortal.

Rather than wasting a Top-grade Immortal Essence Stone, it was better for him to take action himself.

"But..." Tong Cheng still felt that Xu Nian was being overconfident after hearing him.

No matter how incredible a person was, it was impossible to fight against a Luoxian Realm Early Stage Sword Immortal at the Mid-stage Profound Immortal level, right?

Moreover, Xu Nian didn't seem to be a Sword Immortal.

However, before he could finish, Xu Nian had already walked out.

"Kid, do you really want to fight me?" That Luoxian Realm Early Stage Sword Immortal asked, looking at Xu Nian.

"Go ahead, let me see how strong a Luoxian Realm Early Stage Sword Immortal really is."

Xu Nian replied with a smile.

"Since you insist on seeking death, I'll fulfill your wish."

The Luoxian Realm Early Stage Sword Immortal made his move in an instant.

In the blink of an eye, he was in front of Xu Nian.

He thrust his sword, imbued with a strong Water Wave Law.

Xu Nian could clearly feel a ripple-like wave coming.

This wave contained extremely powerful energy, enough to shatter everything.

Xu Nian didn't hesitate, and also thrust his sword.

"Extreme Point Blade!"

All energy converged at one point.

"Boom!"

A loud explosion.

The Luoxian Realm Early Stage's Water Wave Sword Radiance instantly collapsed.

Xu Nian's sharp sword touched the opponent's Immortal Sword, directly shattering it.

"Puff!"

That Luoxian Realm Early Stage Sword Immortal spat out a mouthful of blood and was directly sent flying.

At that moment, a terrifying force transferred from his Immortal Sword.

Even he couldn't withstand it.

"Boom!"

The Luoxian Realm Early Stage Sword Immortal crashed into a distant mountain wall, creating a huge crater.

"What?"

The Tong brothers were shocked to see this scene.

How was this possible?

A Mid-stage Profound Immortal had actually sent a Luoxian Realm Early Stage Sword Immortal flying?

If they hadn't seen it with their own eyes, they wouldn't believe it even if they were beaten to death.

Forget about Mid-stage Profound Immortal, even a Luoxian Early Stage Immortal might not be able to repel a Luoxian Early Stage Sword Immortal.

"Am I seeing things?" Tong Han said in disbelief.

"No, it seems we underestimated Brother Xu's strength."

Tong Cheng said emotionally.

Being able to defeat a Luoxian Realm Early Stage Sword Immortal with one sword stroke, Xu Nian's strength was beyond their imagination.

Li Tian also had a look of astonishment.

Although he knew Xu Nian had comprehended the First-grade Law, he hadn't expected his strength to be so powerful.

One must know that although laws are formidable, they require a strong True Essence to support.

A Mid-stage Profound Immortal's True Essence couldn't possibly harm a Luoxian Realm Early Stage Sword Immortal.

Thus, he deduced that Xu Nian's cultivation technique was also an unparalleled masterpiece.

"Seeking death!"

The Luoxian Realm Early Stage, struggling to stand from the crater, looked at Xu Nian with intense killing intent.

Seeing this, Xu Nian curled his lips into a cold smile.

Take advantage of a sick enemy and claim their life.

He didn't want to continue fighting this Luoxian Early Stage.

So Xu Nian stepped forward, the Immortal Sword in his hand pointing out.

"Buzz!"

Another extremely sharp sword.

This sword was even faster and more fierce than before.

"Huh?"

The Luoxian Realm Early Stage Sword Immortal was shocked and hastily summoned a shield.

However, he had ultimately underestimated Xu Nian's sharp sword.

Xu Nian thrust his sword, directly piercing the shield, and stabbed at his Dantian.

"No..."

The Luoxian Realm Early Stage Sword Immortal showed an extremely unwilling expression.

But it was too late for anything.

No matter how much he thought about it, he couldn't believe that his Top-grade Immortal Shield couldn't even block Xu Nian's attack.

How could this guy's attack be so sharp to such a degree?

"Extreme Point Principle? Possessing the strongest penetrating power, it's already beyond ordinary weapons' capabilities to block."

Xu Nian said with a smile.

After speaking, he drew out his sharp sword.

In the next moment, a sword-shaped Immortal Embryo appeared in his hand.

"So this is the Immortal Embryo of a Luoxian Realm? Such vast energy."

Xu Nian erased the soul power on the Immortal Embryo.

This Luoxian Realm Early Stage expert thus perished in the underworld.

Xu Nian put away the Immortal Embryo, showing a somewhat weary expression on his face.

Continuously using the Extreme Point Principle consumed a substantial amount of his Immortal Essence.

"With this Immortal Embryo, my cultivation should smoothly advance to the Late-stage Profound Immortal."

Xu Nian murmured to himself.

"Brother Xu, you are truly incredible. I never thought you could kill a Luoxian Realm Early Stage Sword Immortal, not even a Top-grade Immortal Artifact shield could block your attack, it's simply unbelievable."

Tong Cheng excitedly said as he walked over.

"Brother Xu, what law did you comprehend?" Tong Han also asked.

"First-grade Extreme Point Principle, where all power converges to a point, ordinary physical defenses are indeed useless."

Xu Nian explained.

"First-grade Law?"

The twin brothers took a sharp breath.

No wonder Xu Nian could slay a Luoxian Realm Early Stage Sword Immortal.

It turns out he comprehended the legendary First-grade Law.

With such talent, the Nine Great Forces would likely compete fiercely to recruit him.

"Huh? Uncle Wang was killed?"

"Not good, there's an expert among them."

The other two Peak Profound Immortal Sword Immortals panicked upon seeing the Luoxian Realm Early Stage Sword Immortal being slain.

Someone who could kill a Luoxian Realm Early Stage Sword Immortal could easily kill them too, right?

The other two Luoxian Realm experts also noticed the commotion over here, both showing an expression of surprise.

And just at this moment, the Immortal Sovereign Hall Saintess seized the opportunity, thrusting her sword through the chest of that Luoxian Realm Peak Sword Immortal.

In the next moment, the Luoxian Realm Peak Sword Immortal was immediately wounded.

"Retreat!"

The Luoxian Realm Peak expert no longer sought battle, transforming into a stream of light and leaving the area.

The other four Immortal Sovereign Hall experts saw their leading elder retreat and immediately drove back their opponents, flying away in pursuit.

The ambush thus ended in failure.

"Puff!"

Yet, just as everyone thought victory was secured, the Immortal Sovereign Hall Saintess spat out a mouthful of blood, her aura becoming lifeless.

She nearly fell from the sky.

"Saintess!"

The white-haired elder quickly flew over.

"I'm fine, it's just my internal Immortal Essence chaotically surging, causing a backlash. It will be fine after I adjust."

The woman said.

The white-haired elder heard this and said nothing, but his expression remained solemn.

He knew that with every bit of backlash the Saintess experienced, her internal injuries would worsen by a fraction.

The battle just now had nearly pushed her to the limit.

The escaping Lei Bing and the Seductive Woman also suffered some injuries.

Fortunately, the opponents retreated timely, otherwise they might not have been able to hold on.

"Was this Luoxian Realm Sword Immortal killed by you guys?"

The Seductive Woman looked at the Luoxian Realm corpse on the ground and asked the Tong brothers.

"No, it was Brother Xu Nian who killed him."

Tong Han replied.

"Him? Are you guys joking?"

The Seductive Woman said disdainfully.

She was fully engaged in battle earlier and couldn't spare attention elsewhere.

So she didn't see Xu Nian take action.

The same was true for Lei Bing, so when he heard Tong Cheng and Tong Han say this, he also looked disbelieving.

Chapter 1370: A Deal with the Holy Daughter

"Did he really kill the Luoxian Sword Immortal?"

The Seductive Woman looked at Xu Nian and asked in surprise.

"Indeed, it was Brother Xu who killed him, I saw it with my own eyes," Tong Cheng said.

The Seductive Woman's gaze towards Xu Nian changed instantly, from initial disdain to sudden awe.

The white-haired elder nearby also showed a surprised look, glancing at Xu Nian more than once.

"Little Brother Xu Nian, my name is Luo Yanxia, I was offensive before, my apologies," the Seductive Woman hurriedly ran up to Xu Nian, appearing to appease him.

As she spoke, she tugged her neckline, revealing an enticing figure.

It was obvious she had taken an interest in Xu Nian.

"I don't mind," Xu Nian said with a smile, not giving the Seductive Woman any favorable expression.

After all, he held no fondness for people like her.

Naturally, he saw no need to tear into her.

Even so, the Seductive Woman was not angry but continued to placate, saying, "Little Brother Xu Nian, I know some Dual Cultivation Techniques. Why don't we form an immortal couple, and I promise to let you enjoy earthly bliss in the future."

The Seductive Woman spoke, striking a captivating pose.

"I'm not interested in you," Xu Nian said coldly, refusing.

The Seductive Woman realized there was no hope and had to retreat.

However, she thought in her heart about how to seduce Xu Nian.

Because she knew that a genius who could comprehend a First-grade Law would achieve unimaginable success in the future.

If she could establish a connection with him, there would definitely be incredible benefits.

"Could we have a chat?"

At that moment, the Holy Daughter came over and asked Xu Nian.

"Huh?"

Xu Nian was taken aback.

He didn't expect the Holy Daughter to approach him.

"Go ahead, Brother Xu, your good fortune has arrived," Li Tian communicated to Xu Nian.

Xu Nian was speechless.

Is this considered good fortune?

It's enough that it's not bad luck.

He remembered Li Tian telling him that the Holy Daughter only liked women and didn't fancy men.

Nevertheless, Xu Nian walked to the side with the Holy Daughter.

"Let me get straight to the point, I want you to help me," the Holy Daughter said bluntly.

"Help you? You mean join your cause?" Xu Nian laughed.

As suspected.

The Holy Daughter wanted to recruit him.

"Exactly, that's what I mean. You should know by now that I am the Saintess of the Immortal Sovereign Hall. If you help me, and one day I become the Sect Leader of the Immortal Sovereign Hall, you will be an Elder there, and I can even let you be apprenticed under the Immortal Emperor," the Holy Daughter said.

Upon hearing this, Xu Nian burst out laughing.

"Thank you for your kindness, Holy Daughter, but I cannot join the Immortal Sovereign Hall," Xu Nian refused.

The Holy Daughter frowned, her eyes hinting at displeasure.

Few had ever rejected her offer.

"Buzz!"

The Holy Daughter transformed, reverting to her original appearance.

In an instant, a ravishing beauty appeared before Xu Nian.

"This is my true form, I am Ji Qingyu. If you pledge allegiance to me, I can find you an extremely talented and beautiful Heavenly Immortal to be your immortal couple from the Immortal Sovereign Hall," the Holy Daughter promised.

Seeing the Heavenly Immortal-like beauty before him, Xu Nian chuckled.

Is Ji Qingyu using a beauty trap?

Given her preference for women, disliking men, she's probably doing this quite unwillingly.

"What if I say I fancy you, Holy Daughter, would you be willing to be my immortal couple?" Xu Nian raised an eyebrow and suddenly said with a smile.

"Don't push it," Ji Qingyu immediately responded with anger.

"It seems Her Highness the Holy Daughter lacks sincerity. Given my talent in comprehending a First-grade Law, I fear that other factions would offer any condition you previously mentioned," Xu Nian said with a smile.

Ji Qingyu looked quite embarrassed.

Indeed, a cultivator comprehending a First-grade Law, once discovered, other factions would definitely strive to recruit them.

Hence, the offered conditions would be high, not low.

"Except for that condition, I can agree to everything else," the Holy Daughter said.

"No, I only want that one condition. No other condition compares to how precious it would be to engage in Dual Cultivation with the Holy Daughter," Xu Nian smiled.

The Holy Daughter's brow furrowed, her gaze full of fury.

What a fearless fellow, daring to target her.

"You wish," the Holy Daughter scolded.

Xu Nian smiled slightly.

Just as he had predicted.

Saying more refusals did not provoke her as much as this condition.

"Since the Holy Daughter has no sincerity, then never mind," Xu Nian showed indifferent attitude and turned to leave.

"Wait, I can agree to your request, but I have a condition," the Holy Daughter said.

"Oh? Please tell me, Holy Daughter," Xu Nian asked.

"I can become your fairy, but only after you reach the Immortal King Realm. Until then, you won't lay a finger on me," Ji Qingyu said.

"A delaying tactic?"

Xu Nian found it amusing.

Ji Qingyu intended to keep him steady first, to have him work for her, until she became strong enough to hold him easily.

Too bad she underestimated him.

"It's possible, but before that, you must find another woman to replace you. Otherwise, how uncomfortable would it be for me? I've heard there's someone in your sect named Xuanyuan Qingling who looks decent, why not her?" Xu Nian said with a smile.

"You scoundrel!"

Ji Qingyu was instantly furious, gazing at Xu Nian with killing intent.

"Huh?"

Xu Nian was startled.

Why was Ji Qingyu so angry?

Was it because he wanted to find another person, enraging her?

Or does Xuanyuan Qingling hold special meaning to her?

"You can choose anyone else, but not her," Ji Qingyu took a deep breath and said.

"No way!"

Xu Nian was immediately stunned.

Ji Qingyu really cared so much about Xuanyuan Qingling.

Could it be she has feelings for her own Xuanyuan Qingling?

"No way, she wouldn't like her own Xuanyuan Qingling, would she? That would mean she's my love rival," Xu Nian swore inwardly.

Though he knew that Xuanyuan Qingling would surely be pursued upon entering the Immortal Sovereign Hall.

He never expected the pursuer to be a woman, and a Holy Daughter of the Immortal Sovereign Hall at that?

"Why not? Xuanyuan Qingling is merely a disciple of the Immortal Sovereign Hall. I want her," Xu Nian said.

"I said no means no. You can choose anyone else but her, and if you bring this up again, I'll kill you here and now," Ji Qingyu said furiously.

Xu Nian was now absolutely sure that Ji Qingyu indeed fancied Xuanyuan Qingling.

"Qingling, oh Qingling, you're really something, aren't you? Even women are so deeply affectionate towards you," Xu Nian thought, crying and laughing internally.

Looking at this love rival in front of him, he found it amusing.

"How about this, Your Highness the Holy Daughter, I can help when you need it, but I won't join the Immortal Sovereign Hall, nor do I need you to be my immortal lover. I just need you to assist me when I need help after you defeat the Saint Heir, what do you think?" Xu Nian said with a smile.

"Fine!" Ji Qingyu hesitated for a moment, but finally nodded.
