

Divine King 68

Chapter 68 Thunderclap Tyrant Fist

"What on earth is going on?" Xu Nian hastily asked Emperor Ye Tian.

"Actually, it's quite simple. Life-breaking Cliff has created a unique natural phenomenon due to the Tianyuan Cold Pool, and that is the thunderstorm. The evaporation of the cold pool's water forms powerful thunderclouds which perpetually hover around this cliffside, generating the Thunderclap Power. When the power of the thunder builds up to a certain extent, lightning will strike, bombarding the cold pool. All these people were killed by the lightning strikes," Emperor Ye Tian responded.

Hearing this explanation, Xu Nian was momentarily at a loss for words.

Yet, recalling the great opportunity mentioned by Emperor Ye Tian, he asked again, "So what does this lightning have to do with the huge opportunity? Could it be that one can obtain the opportunity by getting struck by lightning?"

"Yes, by getting struck by lightning. The lightning strikes once every two hours, with immense power, hitting the Tianyuan Cold Pool water. It makes the pool water bristle with potent force. When you're lying in it to cultivate, not only can it greatly increase the speed of your cultivation, but I'll also teach you a powerful Divine Demon Technique, teaching you how to absorb the Thunderclap Power and utilize it for yourself, to wield the lightning. Don't you think that's a huge opportunity?" The voice of Emperor Ye Tian resounded.

Thunderclap Divine Demon Technique?

The moment Xu Nian heard this, his eyes lit up, but they quickly dimmed again.

Let alone practicing whatever Divine Demon Technique, it was still difficult to say whether he could survive being struck by the lightning. Where would he find the life to cultivate any Divine Demon Technique?

Emperor Ye Tian seemed to notice Xu Nian's concern, and with a flash, he appeared above Xu Nian, looking down at him and said, "You don't have to worry about the lightning. When the time comes, I'll protect your heart channels and soul. You just have to endure the pain brought by the lightning."

A tinge of bitterness showed at the corners of Xu Nian's mouth.

Yes, with his heart channels and soul protected, he wouldn't die, but he would still feel the sensation of being smashed by the lightning. If it didn't hurt him to death, that would be a small mercy.

"Alright, now I will transmit the Thunderclap Divine Demon Technique to you. Practice it on your own." After speaking, Emperor Ye Tian sent a black glint directly into Xu Nian's forehead.

As the black glint entered, a massive amount of information surged into Xu Nian's mind at once.

"Thunderclap Overlord Fist? What a domineering name!"

Xu Nian couldn't help but get excited.

The Thunderclap Technique before him was clearly not of a low grade, just like his Gale Sword, having reached Earth-level Low-quality status. However, there was a difference with this Thunderclap Overlord Fist; its grade could be improved.

As stronger lightning was absorbed in the future, the grade of the Thunderclap Overlord Fist would improve in tandem, and its power would grow stronger.

A treasure, an absolute treasure.

Xu Nian had not expected Emperor Ye Tian to possess a Divine Demon Technique, and this filled his heart with joy.

"Boom!"

Just as Xu Nian was exhilarated, the clouds above his head had also accumulated to their peak, and the terrifying lightning was ready to strike at any moment.

"Good luck to you!" After giving Xu Nian a glance, Emperor Ye Tian flashed a strange grin, glanced at Xu Nian's lower body, and then dove into Xu Nian's Dantian.

Xu Nian subconsciously looked downward, and immediately started cursing internally.

Damn, you're a Divine Emperor and you still act so unscrupulously!

"Crack!"

A thunderclap echoed in the sky, and a fearsome bolt of lightning instantly split the heavens, crashing down below.

Fortunately, the lightning did not strike Xu Nian directly, but it hit the Tianyuan Cold Pool where he was located, which wasn't much better.

"Boom!"

A loud explosion followed as the lightning struck the cold pool, stirring up waves a hundred zhang high, with terrifying electric snakes rapidly spreading through the water.

"Ahh..."

Xu Nian immediately let out a horrific howl, the hair on his body standing on end.

His entire body fell into the cold pool, convulsing uncontrollably, with a burnt smell wafting in the air.

Pain!

Excruciating, bone-deep pain!

In that instant, it felt as if countless feet had kicked him simultaneously, the intense pain paralyzing his thoughts.

Even then, the thunder had not struck him directly; had it done so, Xu Nian could not guarantee he would still be alive.

"Quick, absorb the thunder! The thunder in this pool will only last for one hour."

However, Emperor Ye Tian's urgent voice also rang out at this moment.

Hearing these words, Xu Nian endured the severe pain throughout his body and absorbed the thunderclap power within the pool's water.

Thin electric snakes burrowed into Xu Nian's body, eventually disappearing deep within his cells.

And as these electric snakes poured in, Xu Nian felt a tingling sensation, and the wounds caused by the thunder began to heal bit by bit, a sight that brought him great joy.

Without hesitation, Xu Nian closed his eyes, controlling the Thunderclap Tyrant Fist to absorb the thunderclap power while he devoted a sliver of his consciousness to control the Dan Sea Species Green Lotus and absorb spiritual energy.

An hour soon passed, and Xu Nian's body had not only recovered but had also become stronger.

"Boom!"

Another terrifying thunderclap struck directly onto Xu Nian's body, blasting him into the bottom of the pool.

At this moment, Xu Nian's body was charred, yet he gritted his teeth and persevered, continuing to absorb the thunderclap power around him.

Thunder surged inside him as terrible electric snakes roamed his body.

The blue thunder moved about, illuminating the entire bottom of the cold pool.

Xu Nian's figure floated in the middle of the pool, sitting cross-legged in the air, surrounded by roaming electric snakes, giving off a transcendent and sanctified aura.

For the next five days, Xu Nian was continuously bombarded by thunder.

By the sixth day, his body's absorption of the thunder had reached a state of complete saturation.

At this point, Xu Nian's previously charred skin had shed, revealing a fresh and tender skin that made him look like a pretty boy.

For this change, Xu Nian didn't know whether to laugh or cry.

One thing was certain: his Thunderclap Tyrant Fist had reached a terrifying level.

Not only that, Xu Nian's spiritual cultivation had also risen from the peak of Eight-star to the Nine-star Realm during these five days, and his Divine Demon Refining Body had improved from Six-star to the Seven-star Realm.

Xu Nian's eyes suddenly hardened, and he threw a punch towards the thunder approaching from the sky.

"Boom!"

A heaven-shattering explosion occurred, the thunder shattered, scattering in all directions, and the pool's surface erupted with waves three hundred feet high.

At that moment, Xu Nian stepped out upon the thunder, arriving at the shore.

Now, he was tall and well-built, his muscles clearly defined, his figure impeccable.

His skin had become fair, but his features were more rugged.

With every movement, a few dazzling flashes of thunder passed over his body, an indescribable suave elegance.

Of course, if he weren't bare-bottomed at the moment, he would surely attract many admiring gazes from female Academy students.

"It's time to leave. I wonder what expression those Academy students will have when they see me again, and Lin Han, how many moves can you withstand from me now?" Xu Nian looked up towards the Life-breaking Cliff above, a wicked smile playing on his lips.
