

## **Divine King 891**

### Chapter 891 - 891 Interstellar Teleportation

"I really can't believe that there's actually a Void Insect Nest here." Mei Ji flew over from a distance, exclaiming with a face full of surprise.

Xu Nian nodded and said, "It should be dormant, there shouldn't be any danger for now."

If not for Wentian Demon Sovereign's reminder, he wouldn't have noticed such a terrifying creature on this planet.

Of course, this Void Insect Nest also saved his life.

"Where are you planning to go next, the Guihai Family won't let you off easily? Why not return to Tianbao Pavilion with me, they definitely wouldn't dare trouble you there." Mei Ji asked Xu Nian.

Xu Nian shook his head and said, "No, I plan to head to the Denor Star Domain."

"Denor Star Domain?" Mei Ji exclaimed in surprise.

"You're really going to such a place, you should know Denor Star Domain is the most dangerous among the Nine Great Star Regions, known as the Death Star Domain!" Mei Ji said immediately.

Xu Nian's eyes were incredibly determined.

"I know the Denor Star Domain is very dangerous, but it is also the best trial ground, all cosmic plunderers are there. I want to quickly enhance my power, so I must go there," Xu Nian said.

Mei Ji nodded upon hearing this.

What Xu Nian said was true.

Denor Star Domain is indeed dangerous and chaotic.

But it is also the place with the most opportunities.

If you have enough power, you can achieve immense enhancement there.

Because there, are cultivators who are reckless with their lives.

"It's also good, by going to Denor Star Domain, you can at least evade the Guihai Family's pursuit, and I need to go into seclusion for a long time." Mei Ji said.

Xu Nian smiled lightly.

Avoid the Guihai Family's hunt?

That's not necessarily true.

Although he plans to head to Denor Star Domain, he still decided to leave the Undying Devouring Sky Beast Avatar behind.

Once he obtains the Chaos Divine Palace legacy, he will use the Guihai Family as a whetstone.

Then, he will become the Guihai Family's nightmare.

After a brief exchange, Xu Nian and Mei Ji parted ways.

Mei Ji flew back to Tianbao Pavilion headquarters.

She needed to report the Void Insect Nest matter to the headquarters.

After all, such terrifying existence.

Is incredibly dangerous for the entire Taiheng Star Domain.

Once the queen insect in the nest awakens, it will be a catastrophic disaster.

As for Xu Nian, he piloted his flying boat towards a nearby planet.

Although Denor Star Domain is not too far from Taiheng Star Domain.

It's still billions of light-years away, relying solely on ship navigation would take a lifetime to reach.

So he could only use the interstellar teleportation array.

Only this way could he arrive within a short time.

Soon, Xu Nian reached a nearby planet called Linghua Star.

Coincidentally, there was an interstellar teleportation array on this planet.

Three gigantic stone pillars, like iron towers, stood tall in the plaza's center.

And in the center of the three pillars, dense array patterns covered the ground.

In the center of these patterns was a light circle about ten meters in diameter.

Each time, when the formation was activated.

The light circle would glow.

The energy from the pillars would inject into it, forming a massive light column to send people into the universe.

In fact, the method of the interstellar teleportation array is very simple.

Its speed is only comparable to light, but it can open the Dark Universe.

This allows the energy light column of the teleportation array to traverse the Dark Universe.

The ratio of the Dark Universe to the real universe is one to a hundred billion, so the speed of interstellar teleportation is hundreds of billions of times faster than light.

At this moment, in front of the interstellar teleportation array, a long line was forming.

Xu Nian silently joined at the end of this long line.

Ahead of him were at least thousands of people.

It seemed it would take a long time for his turn.

Xu Nian waited quietly, not in a hurry.

Instead, he developed an interest in the interstellar teleportation array.

Such a gigantic formation, how many array masters would it require to set up?

This gigantic formation is undoubtedly of top-grade level.

So it would need at least one top-grade array master to lead it.

And Xu Nian had never seen a top-grade array master before.

"Hey, brother, this is your first time using the interstellar formation, right?"

Just as Xu Nian was curiously observing the formation operation.

A tall young man ahead of Xu Nian suddenly turned around and asked with a friendly smile.

Upon hearing the young man's voice, Xu Nian finally noticed that this young man was rather unusual.

This guy was very brawny, standing two meters tall.

He had short peculiar hair, with a huge battle saber strapped to his back.

The battle saber was over 1.2 meters long.

As for its weight, Xu Nian wasn't sure, but he roughly estimated it was at least thirty million jin.

Of course, what truly caught Xu Nian's attention was that he was actually a Body Cultivation expert.

Moreover, his cultivation level had reached the peak of the Heavenly Gang Realm.

The Heavenly Gang Realm is equivalent to Spirit Cultivator's Unity Realm Stage.

And the young man appeared to be under a hundred years old, being able to possess such a high Body Cultivation level was no easy feat.

"Yes!" Seeing the young man mean no harm, Xu Nian nodded slightly and said.

"Then you're in for a tough time, my first time using the interstellar teleportation array, I vomited for three days straight, it was truly horrible. But gradually, after using it more, I got used to it." The tall young man laughed.

Xu Nian didn't respond.

He knew the tall young man wasn't wrong.

Interstellar teleportation is extremely fast, although people are protected by the energy light column and are not in much danger.

Due to the ultra-high speed travel, even cultivators would experience a strong sense of dizziness.

If it were a normal person, they might become an idiot directly.

"Brother, which star system are you planning to go to?" The tall young man, seeing Xu Nian not speaking, wasn't annoyed but continued to ask with a friendly smile.

"Denor Star System!" Xu Nian glanced at the young man and simply answered.

The naive young man's eyes suddenly lit up, and he excitedly said, "What a coincidence, I'm heading to Denor Star System too. Looks like we're on the same route, are you planning to hunt in Denor Star System?"

Xu Nian nodded, looking with interest at the naive young man.

"Brother, I'm not looking down on you, Denor Star System is truly very dangerous, there are a lot of reckless plunderers there, especially in the dark forest area. Entering alone might get you consumed, but rest assured, with me here, you'll definitely be safe." The naive young man proudly said patting his muscular chest.

"Really? Then I'll be counting on you." Xu Nian smiled slightly, looking at the stout young man.

"Absolutely, we're so fated to meet, I have a few brothers in Denor Star System. I'll introduce you to them, and let the captain allow you to join our plunderer squad, then you can tag along with us." The stout young man laughed.

"That would be great! May I know your name, big brother?" Xu Nian asked excitedly.

"Haha, I am Autef, just call me Brother Ao." The stout young man laughed heartily.

A cunning light flashed deep in his eyes.

"So it's Brother Ao, my apologies!" Xu Nian still said excitedly.

Though the smile at his lips carried deeper meaning.

Chapter 892: Who's Deceiving Whom

Following that, Xu Nian and Autef continued their conversation.

However, it was mostly Autef talking while Xu Nian listened.

Even if Xu Nian occasionally interjected, it was to flatter Autef.

Of course, Autef also subtly inquired about Xu Nian's identity.

Xu Nian deliberately made up an identity as a disciple from a prominent family going out for training.

Upon hearing Xu Nian's identity, Autef felt more reassured, becoming increasingly boastful in front of Xu Nian.

Xu Nian smirked inwardly; he knew he was now seen as a plump sheep in Autef's eyes.

That's right, Xu Nian had already seen through Autef's charade.

Someone who had been to the Denor Star System couldn't possibly have such an honest smile.

One should know, that place is the most brutal area in the entire Cultivation World.

It's a place full of slaughter, deceit, and bloodshed.

If you have the strength, you can do whatever you want there.

It's a gathering place for a large number of evil individuals.

Even the kindest of people would be assimilated if they went there.

Those people are collectively known as marauders.

Autef was evidently one of those marauders.

How could Xu Nian believe the honest smile of a marauder?

Besides, he's not a fledgling to the Cultivation World.

So he immediately realized that Autef was deceiving him.

The purpose of the deception was obviously to covet Xu Nian's wealth.

"Brother Xu Nian, do you have enough Spirit Stones? An interstellar teleportation costs one million Mid-grade Spirit Stones. If you're short, I can lend you some."

As the queue ahead of Xu Nian and Autef dwindled, Autef turned to Xu Nian and asked.

"I have enough, thank you, Brother Ao," Xu Nian replied with a slight smile and produced a Storage Bag containing exactly a hundred Top-grade Spirit Stones.

One million Mid-grade Spirit Stones is equivalent to ten thousand Top-grade Spirit Stones, or a hundred Top-grade Spirit Stones.

"Top-grade Spirit Stones?" Autef's eyes gleamed with greed.

While a hundred Top-grade Spirit Stones equal one million Mid-grade Spirit Stones in value, those who can produce Top-grade Spirit Stones are inherently of much higher status than those who offer Mid-grade Spirit Stones.

Thus, Autef was now thoroughly convinced that this young man before him was indeed a fat sheep.

But just to be safe, he would wait until they entered the Denor Star Domain to make his move.

Yet, he had no idea that this so-called fat sheep was creating this impression on purpose.

The purpose was to make him mistakenly believe he was a fat sheep.

Xu Nian himself was deeply reflective.

He hadn't even entered the Denor Star System yet and someone was already targeting him.

It was evident that the Denor Star System was truly extraordinary.

Soon, it was Xu Nian and Autef's turn for the interstellar teleportation array.

"Where are you going?" the Transmission Array manager asked Xu Nian and Autef.

"The Denor Star System!" Xu Nian answered truthfully.

The manager glanced at Xu Nian, then at Autef next to him, furrowing his brow subconsciously.

"One million Mid-grade Spirit Stones, who will go first?" the manager asked Xu Nian.

"Brother Xu Nian, let's go together! That way we won't be separated during the teleportation, considering how vast the Denor Star System is, it would be hard to find each other if split up," Autef said with a smile to Xu Nian.

"Okay!" Xu Nian readily agreed.

The manager frowned again and asked Xu Nian, "Are you sure you don't want to reconsider?"

"It's none of your business, just handle the teleportation," Autef immediately glared at the manager.

The manager ignored Autef and kept his focus on Xu Nian.

"No need, let's teleport together!" Xu Nian responded to the manager with a smile.

Upon hearing Xu Nian's words, the manager sighed helplessly.

He then collected the Spirit Stones from both Xu Nian and Autef, and began powering up the Formation.

Autef, seeing this, smirked inwardly.

He realized the manager was attempting to warn Xu Nian.

For a moment, he really thought his plans might be thwarted.

Now it seemed, Xu Nian was even more naive than he had imagined.

Xu Nian was also smiling inwardly at this moment.

He was well aware that the manager was trying to help him.

Attempting to use two teleportations to transfer him and Autef to different places, thereby protecting him.

But actually, the manager had no idea that Autef considered him a fat sheep.

Nor did he realize that Xu Nian also saw Autef as a fat sheep.

His rejection must have disappointed the manager.

That sigh revealed as much.

"Alright, since you've decided to teleport together, step into the center of the Formation," the manager ceased further advising Xu Nian.

He felt he had done his best; since Xu Nian was so obtuse, he had no reason to advise further.

Xu Nian and Autef both stepped into the Formation with smiles on their faces.

Autef's smile was full of complacency.

Xu Nian's smile, however, contained a hint of helplessness.

Indeed, that helplessness was due to the manager's disappointment.

"Buzz!"

The Formation was activated, with three pillars of light surging up filled with energy that made Xu Nian's heart tremble.

Then the Array Patterns beneath their feet started to radiate brightly.

"Buzz!"

The energy finally concentrated into the Array Patterns, and Xu Nian felt a peculiar yet powerful energy envelop him.

"Boom!"

An energy beam shot into the sky abruptly.

Both Xu Nian and Autef found their vision instantly plunged into darkness, as they entered an endless void.

A force was enveloping them, progressing at an incredible speed.

"So this is interstellar teleportation? Are we traveling through the Dark Universe now?" Xu Nian pondered in amazement.

In the Dark Universe, all things move at the speed of light.

To exit the Dark Universe and return to the real universe,

one only needs to reduce energy, thereby decreasing speed, naturally shifting from the Dark Universe back to the ordinary universe.

The duration of the Star Level teleportation for Xu Nian and Autef wasn't particularly long.

After just a few days, they were teleported to the Denor Star System.

The speed decreased, and Xu Nian and Autef emerged from the Dark Universe.

And they landed on a deserted planet within the Denor Star Domain.

"Ugh!"

Upon landing, Autef immediately vomited.

Despite having traveled multiple times, he still couldn't fully adapt.

Xu Nian also felt a strong wave of dizziness and nausea.

Fortunately, he didn't end up vomiting.

Yet, he still exhibited a very pained expression.

After about two hours, Autef recovered from his discomfort.

Looking at Xu Nian, who was still in pain, he smiled sinisterly.

This time, he didn't bother to hide his smile, instead, he smiled unrestrainedly.

"Xu Nian, hand over your storage ring, and maybe I'll leave you with a complete corpse," Autef said menacingly to Xu Nian with a grin.

"Uh, Brother Ao, what do you mean by this? Didn't you say you were going to take me to meet the captain?" Xu Nian asked with feigned innocence.

"Hahaha, meet the captain? What makes you think you are worthy to meet our captain? With your little strength, coming to the Denor Star System was a mistake. If you're wise, hand over your storage ring, and I'll go easier on you, otherwise..." Autef sneered coldly.

"You... you despicable!" Xu Nian pointed at Autef with a shocked expression.

Autef, meanwhile, burst into laughter, thoroughly enjoying the moment.

Every time he saw the prey exhibit such expressions, he felt an immense satisfaction.

Chapter 893 - 893 Teaching You a Lesson

"Haha, kid, you're really naive. Do you really think good people exist in the Denor Star System? The first rule anyone learns in Denor is not to trust anyone easily. You don't even understand this principle and dare to step into Denor? That's sheer folly," Autef laughed heartily.

His gaze towards Xu Nian was filled with endless mockery.

He had seen many foolish people, but someone as foolish as this guy before him was a first.

In his view, someone this foolish didn't deserve to live in this world.

Xu Nian, seeing Autef's ridicule, showed intense anger on his face.

Of course, his anger was feigned.

From the beginning, he had seen through Autef's treacherous plan, merely playing along in this act.

This wasn't the first time he had done something like this.

So, there was no way Autef could see through his scheme.

It was just that he didn't expect Autef to reveal the plan so quickly.

Apparently, he thought Xu Nian was no threat, which was why he didn't bother concealing the plan any longer.

"Kid, you don't need to look at me with such anger. Haven't you always been curious about the Denor Star System? What I'm teaching you now is the basic rule of survival in Denor. But you have to learn this lesson with your life. Enough talk, hand over your storage ring, and I'll give you a quick death," Autef laughed heartily.

His gaze at Xu Nian was like a spider looking at an insect already ensnared in its web.

"Thank you for teaching me this lesson, but let me also teach you a lesson," Xu Nian suddenly said with a cold smile.

His smile was a stark contrast to the previously silly grin.

If Xu Nian's earlier smile was that of a docile lamb, now his smile was like a fierce wolf walking in the night.

Autef was someone who had survived the harshness of the Denor Star System.

He had an instinct for danger, and at that moment, Xu Nian's smile gave off an aura of immense danger.

"Hmph, kid, stop acting mysterious. Your little tricks are useless in front of me. Your strength is right there, killing you is easy for me," Autef snorted coldly.

"Is that so? The strength of the Heavenly Gang Realm Peak is indeed impressive, but do you not know that some people's strength is not as simple as it looks? That's the lesson I'm teaching you today," Xu Nian said with a cold smile.

As he finished speaking, his eyes turned sharp suddenly.

Then Xu Nian's figure disappeared from the spot.

Autef's pupils suddenly contracted.

Because he found that Xu Nian was already right in front of him.

Fiercely swinging his fist towards him.

The power on the fist was quite formidable.

"So fast!"

Autef was greatly shocked and hurriedly mobilized the energy within his body.

Without hesitation, he punched back against Xu Nian's fist.

"Boom!"

A loud explosion.

Autef retreated three full steps.

As for Xu Nian, he was also forced back by the terrifying power.

"Body Cultivation? Peak of Wanxiang Realm? How is this possible?" Autef looked at Xu Nian with a face full of astonishment.

He didn't expect that the guy before him was a Body Cultivation practitioner.

The most important thing was that merely at the Wanxiang Realm, he could force him back three steps with a single punch.

He was a whole level higher!

"Kid, I really didn't expect you to be a Body Cultivation practitioner as well. It seems the Body Cultivation Technique you're cultivating is quite extraordinary, otherwise, it's impossible to confront me with a big realm difference and still take one of my punches," Autef's eyes suddenly became bright.

His gaze towards Xu Nian became extremely scorching.

For them, a powerful Cultivation Technique was the most direct treasure.

After all, nothing compares to one's own strength.

So when he guessed that Xu Nian had a powerful Body Cultivation Technique, intense greed surged in his heart.

"Indeed, the Body Cultivation Technique I am practicing is very powerful. My internal energy reserve is twenty times that of ordinary Body Cultivation practitioners at the same level," Xu Nian answered truthfully.

"Twenty times? Haha, seems today is really my lucky day. Kid, do you think comparing your Spiritual Energy Reserve to mine makes you my enemy? You are wrong. I have truly survived in Denor scraping and crawling my way here; my true strength isn't in my fist, but in my Zhanluo Blade, all honed in blood, do you understand?" Autef laughed heartily, his eyes hotter than ever.

Then he drew out the giant blade from behind him, a wild aura emanating from his body.

Within this wild aura was a terrifying murderous vibe.

"Is that so? Then let me experience it," Xu Nian smiled slightly, and a Kunlun Sword appeared in his hand.

"Immortal Sword?" Autef showed a hint of surprise on his face when he saw the sword in Xu Nian's hand.

"Seems that you do have a lot of valuable things, but soon they'll all be mine," Autef sneered.

"So much nonsense," Xu Nian mocked scornfully.

Autef's eyes were suddenly filled with rage.

"Since you're in such a hurry to die, let me fulfill your wish," Autef snapped coldly.

With that, he swung the huge blade directly towards Xu Nian.

The swordsmanship wasn't fancy, could even be described as crude.

However, the dominance and fierceness in the swordsmanship was like a roaring dragon, causing one's heart to tremble.

Xu Nian couldn't help but show admiration.

The power of this strike was strong, but in terms of dominance.

It still fell far short when compared to the Asura Three Sabers.

"One Slash Silence!"

Xu Nian didn't bother with more words and directly used One Slash Silence.

Only to see the Immortal Sword in Xu Nian's hand cut through the sky like the only flash in the darkness.

Then Autef's body stiffened in place.

His face filled with endless astonishment.

"This... how is this possible?" Autef's eyes widened, his voice stuck in his throat, unable to come out despite the effort.

Xu Nian stepped forward, looking at the frozen Autef, smiling, "It seems, after mixing in the Denor Star System, you still don't understand the principle of not judging others by their appearance. Today, I teach you for free."

After saying this, Xu Nian extended a finger to touch Autef.

Autef's body then toppled forward, splitting into two halves.

At the moment of death, Autef finally understood.

He had been played from the start.

But at this moment, it was all too late.

Such terrifying realization, such terrifying scheming.

A massive storm is likely to brew in the Denor Star System.

Xu Nian didn't even glance at Autef but instead picked up Autef's storage ring.

Soon after, Xu Nian turned his gaze to the giant blade.

He tried to lift it and found it indeed much heavier than his Kunlun Hammer.

"What a great blade, truly wasted in Autef's hand," Xu Nian murmured to himself.

The giant blade was clearly an ancient sword, though only at Top-Grade Spiritual Artifact Level.

Yet Xu Nian could feel the violent power contained within it.

Chapter 894 - 894 Gravity Wave

Three days later, on an uninhabited planet.

Xu Nian was carrying a heavy sword weighing thirty million jin.

At this moment, his steps were extremely difficult.

But he still gritted his teeth and walked step by step.

Every step he took left a deep pit on the surface of the planet.

The mere weight of thirty million jin alone wouldn't make it so difficult for him.

It was because he used the Gravity Ring.

At this moment, he had set the gravity to two thousand times.

Under two thousand times gravity, how terrifying would thirty million jin become?

Probably even a gigantic mountain pressing down on him wouldn't be this heavy?

Indeed, the weight at this moment had already reached his limit.

The reason he did this was because he found that he was much weaker in Body Cultivation compared to Spirit Cultivation.

For example, when fighting Autef, if he didn't use Swordsmanship, he wouldn't be able to defeat Autef with physical strength alone.

Even though Body Cultivation and Spirit Cultivation were at the same realm.

Logically, their combat power should be similar.

But this was not the case.

So Xu Nian wanted to utilize this time to create Divine Skills of his own.

And his entry point was from the Earth Attribute Profound Argumentation.

The two Profound Argumentations of the Gravity Space and the Power of Earth couldn't be more suitable for him to comprehend Divine Skills.

So Xu Nian walked under heavy weight while feeling the Gravity Power beneath him.

Gravity acts on every cell of the entire body.

If this power could be used in his fist technique, wouldn't it achieve the effect of damaging every cell of the opponent's body with a single punch?

Theoretically, it's possible, but how to execute it?

He hadn't fully comprehended it yet.

Currently, his comprehension of Space Profound Argumentation was still at the Initial Formation Realm.

He had only mastered Gravity Collapse and Gravity Condensation.

These were just the most basic comprehensions of Gravity Space.

"Buzz!"

Xu Nian opened his hand, and the space in his hand began to twist under the strong gravity, gradually forming a space vortex.

The pitch-black vortex was what they called Gravity Collapse.

This kind of power, when used in fist technique, exploding in an instant, could shatter the opponent's internal organs.

As for Gravity Condensation?

Xu Nian's eyes narrowed, and the space vortex in his hand began to shrink.

It shrank from all around, finally becoming a single point.

A small black dot, yet possessing terrifying power.

When it strikes the opponent, the power explodes in an instant, enough to severely injure a late-stage Integration powerhouse.

Compressing gravity, this is Gravity Condensation.

Whether it is Gravity Collapse or Gravity Condensation, they both control the direction of gravity.

Controlling the direction of gravity in one direction or a single point.

To achieve a powerful striking effect.

But to apply it all over the enemy's body at once?

How to do that?

Disperse the direction of gravity?

Wouldn't that greatly weaken the power?

Even if it can be applied to all parts of the body, the attack power won't harm the enemy.

Then wouldn't its significance be lost?

No, that's not right!

Surely the direction I'm thinking is wrong.

Xu Nian was clearly torn inside.

He walked on the desolate and hard surface of the planet.

From initially struggling step by step, to directly running later on.

Xu Nian directly ran a lap around the entire planet.

As he ran, he contemplated how to form an all-encompassing gravity attack.

Finally, on the tenth day, he finally figured it out.

"It's the Gravity Wave, that's right, it's the Gravity Wave. Since the earth has Earth Waves, and the wind has Shock Waves, why wouldn't gravity have waves?" Xu Nian's eyes suddenly lit up.

Then he directly sat cross-legged.

Carefully feeling the gravity on his body.

Indeed, he found that the gravity on every cell of his body had an invisible wave.

This wave cannot be distinguished by the naked eye or Spiritual Sense Power.

It can only be felt with the mind and spirit.

The stronger the gravity, the stronger this wave.

Discovering this point made Xu Nian overjoyed.

With this, he could fully utilize it to create his own physical combat Divine Skills.

Now that he had a direction, Xu Nian couldn't wait to start experimenting.

In the days that followed, Xu Nian immersed himself in the perception of gravity.

And he was fully absorbed in the world of gravity.

He also used the Gravity Ring to continuously alter gravity to feel the changes in gravity waves.

After a full month, Xu Nian's comprehension of Gravity Space had reached the Small Achievement Realm.

And his control over Gravity Waves had also made significant breakthroughs.

"Boom!"

Xu Nian punched the giant mountain before him.

The entire gigantic mountain shattered into dust in front of him.

If someone were here, they would surely be shocked.

Being able to explode a gigantic mountain only requires the power of the Unity Realm Stage.

But to punch a gigantic mountain into powder, even a Transcendence Tribulation Stage master might not be able to achieve it.

This doesn't mean Xu Nian's strength is higher than a Transcendence Tribulation Stage master, but means Xu Nian's method of attack is much stronger than that of the Transcendence Tribulation Stage.

There is still a big difference between the two.

Of course, Xu Nian was not satisfied at this moment.

According to his idea, this punch should cause the entire gigantic mountain to be annihilated, not turned into powder.

"To achieve that effect, it seems that Gravity Space must breakthrough to the Great Success Realm." Xu Nian murmured to himself.

During this period, he had been diligently cultivating.

Now he had reached a bottleneck.

To make any breakthroughs, he must experience combat.

And it must be a life-and-death battle.

This was also his original intention of coming to the Denor Star Domain.

So, Xu Nian directly piloted the spaceship he obtained from the two Star Thieves and left the uninhabited planet.

Began his peaceful interstellar journey.

The reason for not using the Divine Travel Boat was because, after all, it is an Immortal Artifact.

It is too conspicuous.

It can be easily recognized by others.

In such a harsh place as the Denor Star System, one must keep a low profile.

Xu Nian navigated through the starry sky.

Heading toward the interior of the Denor Star Domain.

However, his peaceful space journey did not last long and was soon interrupted.

"Boom!"

The entire spaceship shook violently in the starry sky due to the transmission of an energy wave.

Xu Nian initially thought he had encountered star thieves again.

But when he got out of the spaceship, he found out that the powerful energy wasn't directed at him.

In front of him, two groups of people were fighting fiercely.

One group actually had as many as ten people.

While the other side only had three people.

The strong shock waves were emitted from their battle.

They seemed to be fighting over something.

Xu Nian had no intention of intervening.

But he did not turn away either.

He just stood there quietly watching.

After all, this was the first battle he encountered in the Denor Star Domain.

He really wanted to understand how brutal the Denor Star Domain truly was through this battle?

Chapter 895: Take a Punch from Me

"Psst!"

A Sword Radiance shone like a dazzling Star River.

Three members from the ten-person team were instantly sliced in half.

Then, there was a one-sided slaughter.

The three marauders rapidly slaughtered all ten people cleanly.

Xu Nian watched in astonishment.

The cultivation of these three wasn't particularly high, all at Harmonization level.

Two were late-stage Integration, and one was at Harmonization Peak.

Moreover, their ten opponents also had fairly high cultivation, all at Harmonization level.

Two among them were also at Harmonization Peak.

Yet, they were slaughtered cleanly all the same.

Why?

Because the difference in realm was too great.

Xu Nian could sense it.

Their understanding of Profound Argumentation had all reached the Realm of Profound Argumentation Great Success.

The next step would be to reach the threshold of the Profound Argumentation Domain.

It was Xu Nian's first time witnessing people at the Unity Realm Stage attain the Realm of Profound Argumentation Great Success.

"Buzz!"

After killing the ten people, the trio simply collected the spoils of war.

Then, they turned their gaze toward Xu Nian's direction.

Xu Nian was startled, not expecting them to notice him.

In the boundless starry sky, he remained motionless and restrained his aura.

Completely like cosmic dust.

Moreover, he was ten thousand kilometers away from them.

Ordinary cultivators would find it difficult to spot him.

Their ability to pinpoint his location clearly indicated their highly acute vigilance.

The leading black-haired male exchanged an eye signal with the white-robed male behind him.

The white-robed male curled his lips into a cold smile, looking at Xu Nian as if he were mere cosmic dust.

Disdain!

Indifference!

Xu Nian's pupils contracted with added vigilance flooding his heart.

Although the opponent was merely late-stage Integration, he felt much more formidable than typical late-stage Integration powerhouses.

Even stronger than the usual peak Harmonization powerhouses.

"Buzz!"

As Xu Nian sensed the extraordinary strength of this man.

The man surprisingly transformed into a blue arc of light, hurtling toward him.

The speed was unbelievably fast, as the ten thousand kilometers closed in mere breaths.

Arriving before Xu Nian, he showed no sign of slowing down.

He crashed into Xu Nian at terrifying speed.

Covered by a layer of blue light.

This blue light shielded him from the impact.

However, it held a powerful crashing effect on Xu Nian.

Xu Nian watched the man slam into him fiercely.

His eyes flared with rage.

Attacking without a word, clearly thinking he was easy to bully.

Thus, Xu Nian's inner force surged, throwing a punch directly.

"Boom!"

Three layers of soil-yellow light rings encased Xu Nian's arm.

The terrifying force exploded instantly.

A dreadful shockwave formed amidst the cosmic void.

The man's blue arc of light burst open, spewing a mouthful of blood.

His eyes filled with shock.

Certainly not expecting such terrifying strength from the youth before him.

Realizing the situation wasn't favorable, he attempted to leverage Xu Nian's counterforce to retreat.

After the brief clash, he understood the youth's formidable power.

He wasn't a fool, having survived in the Denor Star System for so long, well aware of the importance of escape when outmatched.

"Trying to flee? You can't escape!" Xu Nian said, seeing the man attempt to run, curling his lips into a sneer.

Then, extending a hand, an overwhelming force surged from his palm.

The man felt a strong and irresistible suction.

Then found his neck grasped by the youth before him, immobilized.

The man was utterly shocked.

Xu Nian's terror slightly exceeded his imagination.

"Just do it!" The man resignedly said.

"Who are you?" Xu Nian wasn't in a hurry to act, instead, he asked.

"We are the Fallen God Team. I lack the strength to rival you, caught by you, just my poor judgment. Say less, just act!" The man coldly snorted.

Showing not a hint of submission.

"Fallen God Team?" Xu Nian expressed mockingly.

A cultivation team daring to adopt such a name.

"Shoo shoo!"

Right then, two figures emerged as streaks of light not far from Xu Nian.

"Please stop!"

Leading, the man urgently spoke.

"Big brother, don't bother with me, go ahead and avenge me later." The man restrained by Xu Nian yelled.

However, the leading man ignored his companion's words, facing Xu Nian, "Sir, I'm the one who instructed him. Kill me if you wish, I'm willing to trade my life for his."

"Big brother!" The captive man exclaimed emotionally.

"Rather, let mine be given in his place!" A burly man standing behind the leader said.

Both voice and physique rough.

Listening to the trio, Xu Nian sneered, "You three don't seem like those who've survived in the Denor Star System. Imagining such a naive life exchange tactic. You think I'll let you go?"

The trio's expression shifted.

Especially the middle-aged leader, whose gaze turned grim towards Xu Nian.

No mistake, acting so appeared foolish.

Yet, they had no choice for the sake of their brother.

"Big brother, forget me. You two team up to kill him and avenge me. I refuse to believe he can defeat both of you." The restrained man shouted.

"Brother, show mercy where possible. How about releasing my third brother, minding our own business?" The leader said to Xu Nian.

Xu Nian started laughing coldly.

"I'm merely passing through, attacked by you first, who do you say holds reason? Now I'm offering you two choices." Xu Nian stated.

"Which choices?" The leader queried.

"First, submit to me. Second, the three of you perish among the stars." Xu Nian addressed the leader.

"Submit to you? Impossible, with your Peak of Cave Void cultivation, what qualifies you as our big brother?" The burly man immediately snorted coldly.

"Exactly, my big brother is a Harmonization Peak powerhouse. In real combat, even the Heavenly Phenomenon Early Stage can be fought, don't think my life can threaten him. You dream." The captive man protested with defiance.

The leader's expression turned grim.

To make them submit?

Without absolute strength, even if they complied verbally, their hearts wouldn't.

"I know you three refuse to submit. How about this, if you can withstand one punch from me, I won't pursue it. But if you fail, you'll obediently call me big brother!" Xu Nian proposed to the leader.

The man deliberated before.

Long-hidden battle spirit surged in his dark eyes as he replied, "Alright!"

Chapter 896 - 896 Gold Attribute Star System

"Hmph, not to mention one punch, even ten punches my big brother could take." The man restrained by Xu Nian snorted coldly.

He clearly felt very disdainful of the wager proposed by Xu Nian.

A Peak of Cave Void actually told his big brother to take a punch from him?

Even if this guy has strength that doesn't match his appearance, it's still ridiculously arrogant to say that.

"Kid, without my big brother needing to make a move, I can also take a punch from you." The Iron Tower man said angrily.

Xu Nian ignored the taunts of the two and instead looked at the leading man.

The leading man stopped the Iron Tower man beside him, then said to Xu Nian, "I hope you keep your word. As long as I take your punch, you'll release my third brother."

"A promise is a promise!" Xu Nian smiled.

"Then please enlighten me." The sturdy man said, looking at Xu Nian.

The aura of the Harmonization Peak immediately surged out, and his gaze towards Xu Nian was particularly grave.

Obviously, he did not underestimate Xu Nian.

His third brother ended up in the hands of the opponent because he underestimated him.

This guy's strength was clearly no weaker than the average Harmonization Peak.

Though he didn't know how this guy achieved it.

But the fact was right in front of him; even if he didn't believe it, he had to face it.

Xu Nian saw the stern expression on the sturdy man's face.

The smile at the corner of his mouth grew even more pronounced.

Then his gaze turned incomparably sharp.

He then threw the man he was holding to one side and kicked into the Void.

"Buzz!"

Though silent, everyone felt as if something under Xu Nian's foot had shattered.

Then they saw Xu Nian's whole body transform into a stream of light, rushing towards the sturdy man.

Xu Nian's speed wasn't fast, nor was the momentum particularly fierce.

The restrained man and the Iron Tower man both sneered coldly.

This level of attack, yet he thought it could threaten their big brother.

He must be dreaming!

It seemed they had overestimated this youth.

However, the sturdy man didn't think so at this moment.

At this moment, looking at the approaching Xu Nian, he felt an incomparably terrifying sense of oppression.

This oppression pressed on every part of his body, as if it were about to disintegrate his entire being.

"So strange, so terrifying an attack." The sturdy man silently mused to himself.

He began to mobilize the True Essence within his entire body, preparing to defend.

Xu Nian's eyes were full of laughter, and his fist, still Gathering Momentum, was clenched instantly.

At the moment his fist clenched, a terrifying wave of momentum spread from Xu Nian's fist.

The sturdy man's expression changed dramatically.

He hurriedly shouted, "I concede!"

"Boom!"

Xu Nian's fist almost grazed past his cheek.

Directly punching a gigantic Meteorite in the distance.

The Meteorite instantly disintegrated into powder.

The sturdy man was stunned.

The restrained man and the Iron Tower man were also standing in shock.

To reduce a Meteorite to dust with a single punch?

How is that possible?

Of course, the most shocked was the sturdy man.

At this moment, his back and forehead were covered with cold sweat.

Had he not conceded, he might have been the one turned to dust now.

That punch was just too terrifying.

Just the momentum wave it emitted made him feel the taste of death.

Xu Nian smiled slightly.

Withdrew his fist.

This punch was something he created upon understanding Gravity Wave.

It had a rather domineering name: Ghost God Cry!

Of course, this punch was not yet perfect.

In the future, when Xu Nian's Gravity Space breaks through to the Great Success Realm, the power of this punch will be even more terrifying.

But even so, it's already enough to deal with this guy.

Though they are both masters of Profound Argumentation Great Success.

The gap between them and Xu Nian is still vast.

"So, do you admit defeat and honor the bet?" Xu Nian asked the sturdy man with a smile.

"I admit defeat. From today on, I, Wu Gang, am your man!" The sturdy man knelt on one knee in the Void, his expression extremely sincere.

In the Cultivation World, strength reigns supreme.

Even more so in the Denor Star System.

Just based on that punch earlier, this youth qualified to be their big brother.

"And you two?" Xu Nian looked at the restrained man and the Iron Tower man.

"We pledge to follow the lord to the death!" The two exchanged a glance, then knelt on one knee one after another.

Since their big brother had already submitted, they naturally wouldn't oppose.

Moreover, if they were unwilling, the only path awaiting them would probably be death.

"Good, from today, you will follow me. I will take you to fame throughout the Denor Star System. I won't ask you to swear oaths or hand over your Soul Mark, but let me warn you upfront, if you betray me or stab me in the back, don't blame me for being ruthless." Xu Nian said to the three of them.

The three of them were taken aback, then immediately became overjoyed.

They originally thought this youth would demand their Soul Marks, making them true slaves.

But this youth didn't do that.

This meant they remained completely free.

In their hearts, they couldn't help but feel a trace of gratitude towards Xu Nian.

"Alright, stand up. From now on, you call me big brother, and your original big brother moves to second, and the rest follow in order. No objections?" Xu Nian said to the three.

The three looked at each other hesitantly, then burst into laughter, saying in unison, "Big brother!"

Xu Nian nodded and continued, "And from today, we're not called the Fallen God Team!"

"Then what's our name?" The restrained man asked.

"Heavenly Court Team!" Xu Nian replied.

"Heavenly Court Team?" All three were puzzled, not understanding why such an odd name.

"You'll understand in the future. Now, tell me about the situation in the Denor Star System. I've only just arrived here." Xu Nian said.

"Just arrived?" The three were speechless for a moment.

They thought this youth had been adventuring in the Denor Star System for a long time.

Given such Cultivation, and possessing such terrifying strength, everything seemed like he was a plunderer of the Denor Star System.

Yet unexpectedly, he had only just arrived and happened to bump into them.

"Big brother, there is a lot of information about the Denor Star System, what would you like to know?" Wu Gang asked.

"Let's start with those pursuing you. Why were you fighting with them?" Xu Nian pointed to ten floating bodies in the distance.

"Hmph, they're just a bunch of blind fools. They wanted to seize the Rock Iron Order from my... oh no, second brother, not knowing their own strength." The restrained man said disdainfully.

"Rock Iron Order?" Xu Nian asked, puzzled.

The three saw Xu Nian's bewildered expression and were speechless.

It seemed their new big brother really came from outside the Denor Star System.

"Big brother, you might not know, but metals hold very significant meaning in the Denor Star System, hence it's also called the Gold Attribute Star System." Wu Gang explained.

"Gold Attribute Star System?" Xu Nian looked puzzled.

He really didn't know this.

He always heard that the Denor Star System was cruel, but didn't know what made it cruel?

Chapter 897 - 897 Energy Metal

"Big brother, it seems you still don't know the real secret of the Denor Star System." Wu Gang looked at Xu Nian with a blank expression and said with a smile.

The other two also showed smiles on their faces.

Clearly, seeing Xu Nian's bewildered look made them feel happy.

It was a bit of balance for being bullied by Xu Nian.

"Big brother, you probably don't know that the most precious thing in the Denor Star System is the energy metals. Within this system exists a large number of metal veins, among them are ordinary metals, but also energy metals containing enormous energy." The iron tower man said with a smile.

His name is Tie Chui, although the name is simple, it suits his image.

As for the man restrained by Xu Nian, he is called Zhao An.

"Energy metals? What are they?" Xu Nian continued to ask.

Wu Gang thought for a while and explained, "Big brother, you should know the vastness of the universe, with all sorts of wonders. This energy metal is a unique product of the Denor Star System; like spirit stones, they contain powerful energy. However, this type of energy is somewhat special. It cannot increase the True Essence within but can strengthen human flesh and bones."

"Strengthen human flesh and bones? Wouldn't that be very beneficial for body cultivation practitioners?" Xu Nian asked in surprise.

"Indeed, strengthening human flesh and bones is very beneficial for body cultivation powerhouses, but it also greatly benefits spirit cultivators. After all, the physical body is always the foundation of a cultivator, so both types of powerhouses fiercely compete for energy metals," Wu Gang said.

Xu Nian nodded.

Although body cultivation powerhouses cultivate the physical body, constantly enhancing the cells to store more Gang Qi,

spirit cultivation powerhouses also need to strengthen their physical bodies.

Only with a strong enough body can they better utilize the True Essence within.

Thus, whether body cultivation or spirit cultivation, physical strength is equally important.

Some spirit cultivators mistakenly prioritize True Essence over the strength of the physical body.

"Then what is this Rock Iron Order?" Xu Nian continued to ask.

He understood energy metals, but what connection does the Rock Iron Order have with energy metals?

"Big brother, you might not know, there are many veins in the Denor Star System. Nowadays, most of the discovered veins have been occupied. To prevent random mining, the Denor Empire has issued mining laws, allowing only those with the appropriate mining tokens to mine the veins. The Rock Iron Order is a permit to mine Rock Iron veins. Unauthorized mining results in severe consequences enforced by the empire, and nobody dares to defy it," Wu Gang said.

"I see, but what is this Denor Empire you mentioned?" Xu Nian continued to ask.

The three exchanged looks, amazed that the big brother before them didn't even know about the Denor Empire.

"Big brother, the Denor Empire is the administrator of the Denor Star System. They're the only entity among the Nine Great Star Regions that manages the star domain in the form of an empire. But the Denor Emperor advocates violence and slaughter, so their laws permit free looting by cultivators, making the Denor Star System the most chaotic among the nine systems," Tie Chui said.

Xu Nian realized.

No wonder the Denor Star System is so ruthless.

Because the laws here permit slaughter, it indirectly encourages killing.

Although other star systems don't strictly regulate killing, most planetary cities still forbid private fighting.

This naturally leads to far fewer killings.

"How many types of energy metals are there?" Xu Nian asked.

Since Wu Gang and the others were able to acquire the Rock Iron Order, the Rock Iron vein shouldn't be very high.

"There are five types: Rock Iron, Xuan Gold, Red Gold, Blue Gold, and Black Gold. Among them, Black Gold contains the highest and most terrifying energy, but only three tokens for mining Black Gold veins exist, one held by the empire, the others by powerful forces," Wu Gang said.

"Since the empire issued the mining tokens, one thousand Rock Iron Orders have been released, three thousand Xuan Gold Tokens, one thousand Red Gold Commands, one hundred Blue Gold Tokens, and only three Black Gold Orders," Zhao An supplemented.

Xu Nian nodded.

He almost grasped the situation.

Across the star domain, cultivators likely number in the billions, even trillions, yet there are only ten thousand Rock Iron Orders; the other tokens are even rarer. To acquire large amounts of energy metals, one must obtain a mining token, otherwise, the only option is to seize them.

"No wonder the Denor Star System's people are called plunderers, they are plundering energy metals," Xu Nian said with a smile.

He seemed to find it somewhat amusing.

"Big brother, this is Rock Iron Energy Metal, you can feel it!" Wu Gang produced a fist-sized piece of energy metal and handed it to Xu Nian.

Xu Nian looked at the irregular energy metal and clearly felt a unique energy within.

"Buzz!"

Xu Nian directly operated the Divine Demon Refining Body Technique.

He then distinctly felt a peculiar energy penetrate his body along his arm.

As this energy entered, his cells seemed to be starving, frantically devouring the energy.

As they consumed it, Xu Nian's physical body received a slight enhancement.

Although due to the energy being minimal, the enhancement was very subtle.

If the energy were vast, his physical strength could break through the Peak of Wanxiang Realm and reach the Heavenly Gang Realm.

"Truly good stuff, this pure energy enhancing physical strength is nearly ten times better than Spiritual Energy," Xu Nian muttered excitedly to himself.

He felt the energy within the energy metal was incredibly pure, perfectly suited for physical cultivation.

"Big brother, you felt it too, right? This energy metal's energy is incredibly strong. Once the energy from Rock Iron Energy Metal is absorbed to saturation, just the physical strength can compete with Harmonization Peak powerhouses," Wu Gang said.

Xu Nian showed a surprised expression.

Relying solely on physical strength to compete with Harmonization Peak powerhouses would require extremely powerful physical energy.

Currently, his physical strength could at most compete with Zifu powerhouses.

It's important to understand it's physical strength, not body cultivation strength.

Pure physical strength doesn't include Gang Qi.

"Since you have the mining tokens, why not mine more Rock Iron Energy Metals?" Xu Nian asked them.

The three heard this and showed bitter expressions.

"Big brother, what you don't know is our combined strength doesn't allow us to keep the mined energy metals, even with the tokens. As soon as we appear, we face pursuit by powerhouses with no chance to mine," Zhao An said helplessly.

Xu Nian nodded.

It seemed like Wu Gang and the others acquired the Rock Iron Order by coincidence.

They had the Rock Iron Order but not the capability to mine.

However, that was before he arrived; everything is different now.

"You should know where Rock Iron is, right?" Xu Nian asked with a smile.

"We know, we know of three places that haven't been mined yet, but those places are guarded by people without mining tokens. If we appear, we'll certainly be besieged," Wu Gang quickly replied.

Upon hearing this, Xu Nian's eyes lit up.

"Let's go, let's head to the nearest vein and meet them now," Xu Nian said with a smile.

The three hesitated for a moment, ultimately nodding firmly.

Chapter 898: Challenge Wan Long

After several days of space travel, Xu Nian and the others finally arrived on a colossal planet.

This planet was exceptionally beautiful, with a silver-white hue.

The entire planet looked like a smooth glass ball, a perfect piece of art.

But Xu Nian knew that its surface wasn't smooth.

"Big brother, this is the Silver Wolf Star, which contains a large amount of Rock Iron Energy Metal veins. Unfortunately, the whole planet has been occupied by a plunderer named Wan Long, and he has nearly a thousand men under him," Wu Gang stood in the boundless void, pointing at the silver planet below, introducing it to Xu Nian.

"Wan Long? How strong is he?" Xu Nian frowned and asked.

"He's quite powerful, having reached the Middle-stage of Heavenly Phenomenon Realm, and he also has three Early Stage Heavenly Phenomenon Realm powerhouses under him. We're no match for them. The ones who were chasing us before were sent by Wan Long," Wu Gang said, his eyes showing a trace of helplessness.

The Rock Iron veins on the Silver Wolf Star were extremely tempting to them, but they were helpless in obtaining them.

This vein was occupied by Wan Long, and even if they had the Rock Iron Order, it would be futile.

Going against him would be akin to going to their deaths, instead aiding Wan Long.

Xu Nian remained silent, deep in thought.

His purpose in coming to the Denor Star System was to strengthen his power.

And this Energy Metal was a great opportunity to improve his strength.

If he could obtain the Rock Iron veins, his power would certainly increase significantly in a short time.

Thus, he must conquer the Denor Star System.

"Let's go down," Xu Nian said determinedly, looking at Wu Gang and the others beside him.

The three of them showed signs of hesitation.

Wan Long was a master at the Middle-stage of Heavenly Phenomenon Realm.

Moreover, he had a thousand cultivators under his command, going down would be akin to seeking death.

"Don't worry, with me here, you won't be harmed," Xu Nian said, noticing their hesitation.

Upon hearing Xu Nian's words, determination returned to their eyes.

They nodded heavily.

Then the three followed Xu Nian as they swiftly descended.

Soon, they passed through the atmosphere of the Silver Wolf Star and landed on the planet's surface.

Before them stood a gigantic palace.

The entire palace was extremely magnificent and grand.

Xu Nian quickly scanned the palace with his Spiritual Sense Power and discovered Wan Long within.

"Wan Long, come out here!"

Xu Nian used his True Essence and shouted at the palace.

His voice roared like a tidal wave, like ten thousand thunders exploding simultaneously.

It echoed across the sky of the whole planet.

"Whoosh! Whoosh! Whoosh!"

A series of sounds of piercing through the air came from afar.

They were the cultivators scattered all over the planet.

At that moment, they were gathering at the fastest speed.

The distance across a planet might be large for cultivators at the Zifu Level.

However, for those who have reached the Cave Void Realm, or even the Harmonization Level, it's not considered much.

Thus, within just a few breaths, Xu Nian and the others were surrounded by people.

When they saw that only four were challenging their gang leader, surprised expressions appeared on their faces.

"Who dares to seek death at Wanlong Gang?" Four men emerged from the towering palace.

At the forefront was a man dressed in luxurious robes, presently embracing two female cultivators with remarkable appearances and outstanding figures.

As for the three behind him, they all looked coldly at Xu Nian and the others, sneering.

"I was wondering who it was; turns out it's just you three cowards, Wu Gang. What happened? Finally figured it out and decided to hand over the Rock Iron Order?" said the leading man, looking at Wu Gang with a mocking smile.

He completely ignored Xu Nian.

To him, a kid at the Peak of Cave Void could at best be Wu Gang's attendant.

"Wan Long, today we want you to hand over the Rock Iron veins of the Silver Wolf Star. You can't mine them without the Rock Iron Order, even if occupied," Wu Gang said, looking at Wan Long.

"Haha, Wu Gang, have you gone crazy? Asking me to hand over the Rock Iron veins, don't you know I can have the Rock Iron Order if I kill you?" Wan Long laughed heartily.

His words incited laughter all around.

Wu Gang's face went somber immediately.

This was as he expected, Wan Long wouldn't spare him after all.

However, considering Wan Long's strength, a worry arose in his heart.

"I'm afraid Wan Gang Leader has secretly been mining the Rock Iron veins! Wouldn't you say I'm right, Wan Gang Leader!"

At this moment, Xu Nian's laughter echoed in everyone's ears.

Upon hearing this, Wan Long frowned, glanced at Xu Nian, and sneered, "Who do you think you are to have a say here?"

Everyone around glared sharply at Xu Nian.

Among these people, half had prowess above the Peak of Cave Void.

A kid at the Peak of Cave Void dared to be so brazen, wasn't he courting death?

"Apologies, Wan Gang Leader, I'm now Wu Gang's big brother, so naturally it's me who speaks with you," Xu Nian said with a smile to Wan Long.

Wan Long looked at Wu Gang upon hearing this.

"That's right, he's our big brother," Wu Gang said directly.

"Haha, Wu Gang, you must be crazy! Recognizing a kid at the Peak of Cave Void as your big brother!" Wan Long laughed aloud.

After speaking, he exchanged glances with a nearby Peak Powerhouse of Harmonization.

The Peak Powerhouse of Harmonization sneered, then charged toward Xu Nian.

"Prepare to die!"

The Peak of Harmonization struck at Xu Nian with a punch.

The fist carried a potent sense of majesty.

Everyone around sneered, as if they could already see Xu Nian's scene of being blasted apart.

Wu Gang and the others similarly sneered, mocking Wan Long for underestimating them by only sending someone from the Unity Realm Stage.

Xu Nian let out a cold chuckle and casually threw a punch.

"Boom!"

Xu Nian's punch caused the Peak of Harmonization powerhouse to turn into a rain of blood, not even leaving a piece of flesh.

"This..."

A stunned silence enveloped everyone around.

Even Wan Long and his men frowned.

A single punch turned the Peak Powerhouse into a rain of blood?

What kind of Peak of Cave Void power is this?

Wu Gang and the three others chuckled lightly.

They knew Xu Nian's strength, naturally understanding its terrible power.

Seeing Wan Long and his people lose face, they were secretly pleased.

"So, Wan Gang Leader, do I now have the qualification to speak with you? What do you think will happen if I report your secret mining of Rock Iron veins to the Denor Empire?" Xu Nian smiled and asked.

"Humph, what else? By killing you, I'll get the Rock Iron Order, naturally legal then!" Wan Long squinted, his eyes filled with murderous intent.

Xu Nian, upon hearing this, also laughed, pointing at Wan Long, "If you want the Rock Iron Order, defeat me, and it will be yours. However, if you're killed, sorry, but Wanlong Gang will come under my control!"

Xu Nian's words surprised everyone around.

This guy wanted to challenge their Gang Leader?

Does he wish to swallow up Wanlong Gang?

Chapter 899: Battle Against Wan Long

"Kid, your ambition isn't small. You actually want to swallow my Wanlong Gang. I'm afraid you might have the courage to say it, but not the life to take it." Wan Long looked at Xu Nian with a cold smile and said.

Although the young man in front of him killed a strong cultivator at the peak of Harmonization with one punch.

But this peak of Harmonization was just an ordinary one, not considered strong among them.

Moreover, from start to finish, the cultivation of this young man in front of him hasn't changed.

This confirms that the other party is just an ant at the peak of Cave Void.

Just possessing some special attack methods.

In the face of absolute power, these methods are nothing but bubbles.

"Whether I survive or not depends on our abilities. Either you die today or I live." Xu Nian said with a light smile.

Wan Long's eyes narrowed slightly.

He had seen many arrogant people in the Denor Star System, but none as arrogant as this one.

"Boss, let me kill him. This ignorant kid isn't worth your time," said a man in the early stage of the Heavenly Phenomenon Realm behind Wan Long.

Wan Long, however, smiled and waved him off.

"Since the other party wants to challenge me, I shall fulfill his wish. Besides, I haven't moved my muscles for a while, today is just the right time to exercise," Wan Long said with a laugh.

His words immediately caused an uproar of laughter among the cultivators around him.

It was apparent that they all believed Wan Long would win without a doubt.

Wan Long being able to become the gang leader of their Wanlong Gang naturally meant that his strength was exceptional.

"This kid is probably going to die horribly. The last time the Gang Leader made a move was three years ago, and the outcome of that person is still fresh in my mind."

"Indeed, thinking about it now still sends shivers down my spine; every bone in his body was shattered, with no part of his body intact, his cultivation was abolished, and he was thrown into the cosmic void, eventually becoming stardust garbage."

...

There was a lot of talk among the surrounding crowd.

When they heard about the cultivation being abolished and thrown into the stars, they couldn't help but shiver.

The cosmic void is extremely cold; without the resistance of True Essence and Gang Qi, survival is impossible.

Thus in the void, ordinary people will turn into ice statues in no time.

This death method is undoubtedly miserable for ordinary people.

"Second Brother, do you think Big Brother can defeat this Wan Long?" Tie Chui asked Wu Gang, who was beside him.

Wu Gang didn't speak, but it was Zhao An nearby who said, "I think it's dangerous. Although Big Brother's strength far exceeds the average peak of Harmonization, it's at best comparable to the early stage of Heavenly Phenomenon. He can't possibly be a match for the middle-stage Heavenly Phenomenon."

Tie Chui nodded upon hearing this.

He thought the same but never said it out loud.

"We have no other choice now but to believe in him. If he dies, we'll die too," Wu Gang said.

After hearing Wu Gang's words, Zhao An and Tie Chui fell silent.

Just as Wu Gang said, they have no other way out now.

Xu Nian seemed oblivious to the discussions around him.

He simply curled his finger at Wan Long in the distance.

Such a provocative gesture naturally made Wan Long angry.

"Hmph, you're looking for death, I'll grant you that." Wan Long shouted, and his True Essence surged out.

As his True Essence surged, the surrounding rocks flew up.

They spun rapidly, and as they spun, these rocks turned into sharp spikes covered in a layer of strong and fierce True Essence.

"Go!"

With a wave of Wan Long's hand, these spikes turned into a rain of stones shooting violently towards Xu Nian.

The piercing spikes formed a loud sonic boom.

"Is that the boss's Stone Rain Listening to the Wind? Didn't expect him to use this move right away?" someone exclaimed in the crowd.

Wu Gang and others wore tense expressions.

Even if they gave it their all, they probably couldn't withstand that stone rain.

This stone rain's power already posed a threat to those in the middle stage of Heavenly Phenomenon.

"First level Gravity Wave!"

Xu Nian shouted, throwing a punch into the void.

A series of ripples seemed to form in the void above.

"Boom! Boom! Boom!"

Those stone rains exploded one after another.

However, Xu Nian only managed to block the first two waves of stone rains, the subsequent wave was unstoppable.

"Whoosh! Whoosh! Whoosh!"

The stone rains came down like a downpour towards Xu Nian.

Xu Nian's figure instantly turned into a blur, dodging like a nimble monkey.

"Dang!"

However, he was still hit in the chest by a stone rain, and his whole body was blasted away.

"Haha, still trying to resist my attack, that's a pipe dream." Wan Long laughed heartily.

His gaze towards Xu Nian was filled with cold disdain.

Wu Gang and others were also filled with worry.

Xu Nian was ultimately defeated!

After taking a hit, he's survived but probably severely injured!

"Cough, cough!"

Just as everyone thought Xu Nian was seriously injured, the cough broke the silence.

Everyone around looked at Xu Nian.

Their faces showed expressions of surprise.

This guy is fine?

They saw Xu Nian's chest covered by a layer of scarlet scale armor.

The stone spikes were embedded in the scale armor, shattering it.

But Xu Nian wasn't seriously injured.

As the scale armor receded, the spikes also fell to the ground.

"Dragon scales? How can you, a human, have dragon scales?" Wan Long asked Xu Nian in surprise.

"You don't need to know that, but I must say your move was strong, almost shattered my heart," Xu Nian sighed, a smile reappearing on his face.

"Hmph, even if you can withstand that blow, what of it, you'll die sooner or later!" Wan Long snorted coldly, his eyes still full of disdain.

Xu Nian smiled slightly.

It seems I have to show some real skills, there's no other way.

"Buzz!"

The King Jing Sword appeared in his hand.

With the appearance of the King Jing Sword, an extremely sharp sword intent burst out from Xu Nian.

Xu Nian seemed to transform into a peerless Sword Immortal.

"Are you even worthy of using a sword?" Wan Long mocked.

Seeing the sword intent on Xu Nian, instead of getting serious, he was even more disdainful.

The people around sneered as well.

Daring to wield a sword in front of their Gang Leader.

That's simply seeking death!

Don't they know their Gang Leader is most skilled in swordsmanship?

"Oh, you're also a sword user, that's good, let me see your swordsmanship," Xu Nian said with a smile.

"I'm afraid you won't live to see it." Wan Long snorted coldly, then took out a purple-black sharp sword.

As his sword appeared, a dense aura of bloodshed erupted from him.

"Such a strong aura of carnage, looks like you've killed many," Xu Nian said to Wan Long.

"Haha, soon you'll become another soul under my sword!" Wan Long laughed as he rushed towards Xu Nian at high speed.

In an instant, transformed into ten clones!

"Dark Clone Profound Argumentation? Interesting!"

Xu Nian marveled, eyes flickering with strong fighting spirit.

His King Jing Sword swept out at once.

Forming a dazzling galaxy.

Chapter 900: Subjugating the Wanlong Gang

"Clang!"

Xu Nian's King Jing Sword collided directly with one of Wan Long's avatars.

The swords clashed.

In an instant, an energy impact was formed.

Xu Nian was directly thrown back.

At the same time as Xu Nian was retreating, three more avatars swung their swords at him.

One must admit, the Dark Avatar Profound Argumentation is indeed a very troublesome technique.

"Die!"

The three major avatars slashed towards Xu Nian.

On each Sword Radiance, there was a pulse that made hearts tremble.

Yet a cold smile appeared at the corner of Xu Nian's mouth.

"Mixed Element Slash!"

Xu Nian's sword swung, slicing directly through the three avatars.

The three avatars shattered into pieces.

Killed in an instant by a single sword stroke from Xu Nian!

Everyone around was utterly astonished.

The speed of that sword just now was amazing, and its power was incredibly shocking.

"It seems I underestimated you. You've actually mastered the Wind Attribute Profound Argumentation to the realm of Great Success." Wan Long looked at Xu Nian and said.

"You're not simple either. Being able to create ten avatars at once means your Dark Avatar Profound Argumentation has reached the realm of Great Success." Xu Nian smiled slightly.

Now that three of Wan Long's avatars had been slain by Xu Nian, only seven remained.

But these seven were not weak, possessing strength comparable to the original body.

Though in terms of defense, they were still vulnerable.

"Hmph, you can be proud of killing three of my avatars, but I'm still in absolute control." Wan Long said with a cold hum.

In his view, the loss of three avatars was entirely due to his own carelessness.

The next seven avatars would attack together, and he didn't believe Xu Nian could withstand that.

"Sorry, I'm afraid I'll disappoint you. I also know the Dark Avatar Profound Argumentation!" Xu Nian smiled slightly.

After speaking, his form flickered, and he split into six avatars.

Together with his true self, there were a total of seven.

"What?"

Everyone around was instantly shocked, clearly not expecting Xu Nian to know the Dark Avatar too.

Wan Long also frowned, his eyes fixed on Xu Nian.

Xu Nian could create six avatars, indicating that his Dark Avatar Profound Argumentation had reached the realm of Small Achievement.

In this way, how many arguments had Xu Nian comprehended in total?

Wu Gang and others also were utterly shocked.

Considering Xu Nian's previous display of Earth Attribute Profound Argumentation,

Xu Nian had used a total of three attribute profound argumentations.

At his age, even training from the womb wouldn't allow him to comprehend so many profound argumentations!

"Wan Gang Leader, do you still think you have the advantage now?" Xu Nian coldly smiled and looked at Wan Long.

"Hmph, even if you have as many avatars as I do, your strength is still far inferior to mine." Wan Long replied.

Xu Nian chuckled lightly, having anticipated Wan Long would say this.

"Then take this sword of mine, One Slash Silence!" Xu Nian shouted loudly.

Six avatars and the true self simultaneously executed this sword.

Seven Sword Radiances slashed through the air towards Wan Long.

Everyone around felt a deathly chilling sensation.

Each person's eyes, when looking at Xu Nian, was filled with astonishment.

Even the three Heavenly Phenomenon Early Stage experts felt a death threat from this sword.

Wan Long was also shocked, immediately performing a sword technique: "Dark Devouring Element Slash!"

All seven Wan Longs slashed simultaneously.

Matching against Xu Nian's One Slash Silence.

"Boom boom boom..."

A series of explosions sounded.

All six of Xu Nian's avatars exploded, and even the true self was blasted away.

But Wan Long was no better off; all his avatars vanished into nothingness.

His true self retreated three steps, blood seeping from the corner of his mouth.

The surrounding crowd saw this scene and were immensely shocked.

A Middle-stage of Heavenly Phenomenon Realm being forced to this point.

Wu Gang and others were also utterly astounded.

"I want you dead!" Wan Long, seeing himself bleed, suddenly became furious.

With a roar, he charged towards Xu Nian.

This time, he used all his energy.

Xu Nian's mouth curled into a cold smile, having waited for this moment.

"Second Level Chaos Origin Slash!"

Xu Nian shouted loudly, his form becoming a phantom.

Wan Long was horrified, hastily swinging his sword to block.

"Clang!"

Xu Nian's lightning-fast sword blade thunderously collided with Wan Long's sword.

"Bang!"

Wan Long's sharp sword shattered directly.

And his entire body was also flung back in an instant.

Finally landing heavily on the ground.

The surrounding crowd was dumbfounded.

Wan Long actually lost!

How could this be possible?

Wu Gang and others were also filled with disbelief, but there was a glint of excitement in their eyes.

"Impossible, absolutely impossible, how could I lose?" Wan Long couldn't accept this fact, screaming wildly.

His hair was disheveled, his aura going berserk.

His gaze towards Xu Nian turned blood-red.

"Not good, Wan Long has entered a berserk state, this way, his strength can rival Late-stage of Heavenly Phenomenon Realm." Wu Gang exclaimed in shock upon seeing Wan Long's situation.

The crowd was also shocked, once he enters berserk.

Xu Nian would absolutely be unable to resist.

Yet Xu Nian remained calm, as if everything was within his expectations.

"Die!"

Wan Long roared, charging violently at Xu Nian.

His speed, faster than before, doubling.

His aura was unbearably fierce, enough to rival Late-stage of Heavenly Phenomenon Realm.

Wu Gang and others felt their hearts tighten.

The hope they just kindled was about to be extinguished.

Just when everyone thought Xu Nian would be torn apart by the berserk Wan Long, Xu Nian calmly swung a sword.

This time, he didn't use any Sword Intent, nor did he use True Essence.

It seemed as though he swung his sword casually.

This sword could hardly be called a slash, it was more like a tap.

He swung it with the flat of the sword!

"Is he courting death?" A thought emerged in everyone's mind.

Thinking Xu Nian was admitting defeat and awaiting death.

But the next moment, they were stunned.

Xu Nian's sword flat slapped Wan Long, instantly shattering the light shield formed by his True Essence.

The sword flat smacked hard against Wan Long's face.

Then Wan Long was sent flying horizontally.

Crashing into a distant mountain with a roar.

Afterward, none saw Wan Long emerge from the crater.

Xu Nian stood with his sword, knowing Wan Long wouldn't emerge again.

Because of that final smack, he had used his trump card, the Ten Thousand Divine Hammer Technique.

Even just using the sword flat, it was more than enough to destroy a Middle-stage of Heavenly Phenomenon Realm.

The surroundings fell silent, some still occasionally looking in the direction where Wan Long fell.

Yet after a long time, no one came out.

"Could the Gang Leader really be dead?"

Amidst the crowd's trembling hearts, Xu Nian slowly rose into the air.

Holding his sharp sword, facing the thousands ahead, he shouted: "Submit and live, defy and die!"

As the shout rang out, the murderous aura accumulated from Xu Nian's Ten Thousand Divine Beheading Technique erupted.

At this moment, everyone felt a chill down their backs.

In an instant, over a thousand people knelt on one knee in unison and said: "We swear allegiance to the Gang Leader!"

The voice echoed through the skies, shaking hearts.

Wu Gang and others were surprised to find that among the kneeling thousand were the three Heavenly Phenomenon Early Stage experts.

They probably would never forget this shocking scene today.
