

Divine King 941

Chapter 941 Slaughter Battlefield

Wui Lun looked at Xu Nian's provocative gaze, and a fierce anger immediately surged in his eyes.

In this Black Wind City, no one has ever dared to speak to him like that.

Now this young man actually dares to be so arrogant, relying on his knowledge of some Artifact Refining Techniques.

"Hmph, I am the son of Elder Wui, one of the three elders of Black Wind City. Do you think I don't dare to kill you?" Wui Lun sneered coldly.

His gaze towards Xu Nian was filled with disdain.

To him, Xu Nian was no different from those blacksmiths.

Xu Nian laughed.

No wonder Wui Lun is so arrogant; turns out he is one of the three elders of Black Wind City.

Black Wind City has three elders, all of whom are Earth Immortal level powerhouses.

King Wang, whom Xu Nian has had contact with, is one of them.

His strength was the strongest among the three elders.

Besides him, Elder Wu ranked second in terms of strength.

As for Elder Wui, he was the weakest.

But even so, his status within the city is still exceptional.

That's why Wui Lun was so arrogant.

"So what if you're Elder Wui's son? Just because your father is powerful doesn't mean you're powerful." Xu Nian replied with a smile.

Wui Lun was instantly furious upon hearing this.

He was about to make a move on Xu Nian.

"Stop, Wui Lun, if you dare cause trouble again, I won't forgive you. Master Xu is an important figure in Black Wind City, personally recommended by Elder Wang. You can't just kill him as you please. Get out." Huo Xian shouted immediately from the side.

Seeing Huo Xian angry, Wui Lun withdrew his hand.

"Hmph, brat, don't let me catch you, or I'll make you pay." Wui Lun snorted coldly and then turned to leave.

"Anytime." Xu Nian shouted at Wui Lun's back.

Wui Lun clenched his fists tightly and finally left in a huff.

Seeing this scene, Huo Xian shook his head and asked Xu Nian, "Why did you provoke Wui Lun? Although he is a spoiled brat, he is still Elder Wui's son. You've offended him, so it will be hard for you to survive in Black Wind City."

"It's fine, just couldn't stand his arrogant attitude. If he really comes to trouble me, I'm not afraid." Xu Nian said with a smile.

"If he comes to trouble you, come find me, I'll resolve it for you." Huo Xian said.

Xu Nian smiled slightly and nodded.

If Wui Lun really comes to trouble him, how could he ask a woman for help?

After a few words with Huo Xian, Xu Nian left Huo Xian's residence.

He returned to the Artifact Refining Workshop.

Immediately, the blacksmiths surrounded him, congratulating him one after another.

After the festivities, Xu Nian began refining artifacts.

Since he promised the City Lord, he must fulfill it.

Creating a hundred top-grade Spiritual Artifacts might be difficult for others, but not for him.

So soon, Xu Nian immersed himself in Artifact Refining.

...

As Xu Nian's clone began to refine artifacts,

Xu Nian's true self was dug out from the soil by Xuanyuan Qingling and the others.

That's right, the huge explosion injured him heavily.

He even fainted in the end.

But fortunately, he succeeded in the Tribulation Crossing.

His cultivation officially reached the Heavenly Phenomenon Realm.

"Congratulations, Gang Leader, on your successful Tribulation Crossing!" Wu Gang and others said, watching Xu Nian gradually recover after being healed.

A hint of a smile appeared on Xu Nian's face.

It was really close just now; luckily, he had the Black Jade Pendant that could absorb all power.

Otherwise, he would have really fallen under the Heavenly Tribulation.

"Boss, with your current strength, even the Middle Stage Tribulation Crossing might not be your match, right?" Tie Chui said excitedly.

"Middle Stage Tribulation Crossing shouldn't be a problem, but it's still difficult against the Late Stage." Xu Nian thought for a moment and replied.

He can resist the Peak of Heavenly Phenomenon with just his physical body, and he has True Essence and Gang Qi within, and his Profound Argumentation has reached Great Success, so facing Middle Stage is naturally no problem.

"Then Boss, you can participate in the Slaughter Battlefield competition." Tie Chui said with a smile.

"Slaughter Battlefield competition? What is that?" Xu Nian asked Tie Chui.

"Did Boss not know about the Slaughter Battlefield?" Tie Chui asked curiously.

Xu Nian shook his head.

Beside him, Xuanyuan Qingling was also full of curiosity.

"The Slaughter Battlefield is the darkest and most chaotic place in the Denor Star System. Anyone entering the battlefield must register with the Empire. The Empire will give each person a token with their individual scores. When you kill others, their scores will automatically add to your score token. This way, your rank becomes higher, so essentially, the Slaughter Battlefield is a real hell." Tie Chui said.

"Then what's the use of these scores and rankings?" Xu Nian pursued further.

"Does the Gang Leader know the Profound Argumentation Tower?" Wu Gang chimed in on the side.

Xu Nian shook his head again.

"There are nine pagodas on the Slaughter Star, each with twelve floors. These pagodas are divided by nine attributes, each representing one attribute. Within these nine pagodas lie extremely powerful Profound Argumentation Tablets. If one can comprehend the tablets, one can quickly grasp the Profound Argumentations of these attributes. It's said that cultivating inside for a day is equivalent to a year's Insight Cultivation in the outside world," Wu Gang explained.

Xu Nian nodded in understanding.

In other words, these Profound Argumentation Towers can help comprehend the Profound Argumentations.

But perceiving one day inside being equivalent to a year outside sounds quite exaggerated.

"Then these Profound Argumentation Towers are extremely precious treasures." Xu Nian said.

"That's right, and these nine Profound Argumentation Towers are on the Slaughter Star. To enter the Profound Argumentation Tower for comprehension, you must have more scores. It's said that comprehending for a day on the first floor of the Profound Argumentation Tower requires ten thousand scores," Zhao An said.

The Profound Argumentation Tower is the Holy Land that everyone in the Denor Star System longs to visit.

Unfortunately, the rules there are harsh.

You must keep killing to earn scores.

"So, this Land of Slaughter is quite interesting." Xu Nian said with emotion.

He came to the Denor Star System to become strong enough.

Now this Slaughter Battlefield is totally a good place for him.

"Where is this Slaughter Battlefield?" Xu Nian asked.

"Boss, you actually want to go? There are many ruthless people there, and it's very dangerous." Tie Chui asked upon seeing Xu Nian seriously consider it.

Xu Nian smiled and nodded, saying, "When have your boss ever been afraid?"

Tie Chui laughed upon hearing this.

Indeed, their boss is fearless.

"This Slaughter Battlefield is at the center of the Denor Star System. I've been there once, although I only stayed for half a month, if the Gang Leader wishes to go, I can take you." Lan Qi said.

Xu Nian was slightly shocked.

Lan Qi has good talents but only stayed half a month in the Slaughter Battlefield.

The place is surely brutal.

"Alright, we'll set off tomorrow." Xu Nian laughed heartily, his eyes filled with a strong fighting spirit.

Chapter 942 The Killing Begins

Three days later, Xu Nian, led by Lan Qi, arrived at the entrance to the Slaughter Battlefield.

The Slaughter Battlefield is located on the Slaughter Star.

The entire planet is completely covered by formations, and entering it requires using a Transmission Array from a neighboring planet.

That is the only entrance and exit to the Slaughter Star.

Xu Nian arrived at the entrance of the Transmission Array.

As for the Heavenly Court Gang, it has been completely handed over to Xuanyuan Qingling for management.

Lan Qi left after delivering Xu Nian.

He did not intend to enter the Slaughter Battlefield himself, as it would be a dead end.

After sending Lan Qi away, Xu Nian walked toward the Transmission Array of the battlefield.

The Transmission Array was currently gathering quite a few people, most of whom were entering the Slaughter Star, but very few were coming out.

Xu Nian stood in line, waiting for his turn to transmit.

Soon it was Xu Nian's turn.

The person in charge glanced at Xu Nian, lost interest, and asked with a cold, stiff voice, "What's your name?"

"Meteor!" Xu Nian thought for a moment and mentioned an alias.

He used an alias because Lan Qi mentioned on the journey that in the Slaughter Battlefield, people usually don't use their real names.

If one slaughters many, they accumulate many grudges.

When they come out later, they could be found by the relatives of their adversaries and face trouble.

Therefore, using an alias is the best method.

Even if someone leaks his name, it would be difficult to track him down.

Xu Nian thought it made sense, so he picked a name casually.

"Alright, here's your Score Token. Take it to transmit. If you want to come out, take the Token to any of the nine cities; there will be a transmission spot there," the person said, tossing a Token to Xu Nian.

Xu Nian received the Token and found three lines written on it.

The first line was his name: Meteor.

The second line was his score, which was written as one.

The third line, however, wrote "ranking," followed by a long string of numbers.

"Three hundred seventy million? So many?" Xu Nian said in surprise.

Since he had just entered, his ranking was naturally toward the end, indicating the number of people on the Slaughter Star.

He hadn't expected there to be so many people on the Slaughter Star.

"Not much? Every day, tens of thousands die, so the number of people isn't really that much. Kid, remember, besides the nine major cities where killing is forbidden, everywhere else you can kill freely. You should be careful not to get killed right after entering," the person in charge said, glancing at Xu Nian with a light chuckle.

Though his words were a reminder, they also had a playful meaning.

To him, someone at the Early Stage of the Heavenly Phenomenon Realm coming to the Slaughter Star was like asking for death.

"Thanks for the advice, I'll be careful," Xu Nian replied with a light smile.

He didn't care much about the disdain from the person in charge.

The person let out a cold hum, waved his sleeve, and activated the formation.

Xu Nian then disappeared from where he stood.

The person in charge looked at the spot where Xu Nian had disappeared and coldly said, "Reckless kid, let's see how long you can survive."

Xu Nian didn't know about the last words of the person in charge, as he was already in a desolate hilly area.

Xu Nian felt the gravity of the planet.

He found that the gravity on this planet was a hundred times that of other planets.

While a hundred times isn't much, it still has some impact on ordinary Spirit Cultivators.

"Eh?" Xu Nian looked again at his Score Token and found his ranking had risen by a hundred places.

This meant that since entering, a hundred cultivators had been killed.

"Seems like this Slaughter Star is truly a Land of Slaughter," Xu Nian said in admiration.

"Buzz!"

At that moment, Xu Nian sensed a sword light rapidly slicing toward him from behind.

The power of this sword light wasn't weak, but it wasn't strong either.

At the very least, it held the strength at the Peak of Heavenly Phenomenon Level.

Xu Nian hadn't expected someone to ambush him just as he entered this Land of Slaughter.

So Xu Nian reacted immediately, disappearing from his spot like a ghost.

The sword light grazed past Xu Nian's lingering shadow.

"Eh?" The attacker was clearly shocked, not expecting that his sure-kill strike was avoided.

The next second, he tried to evade to the side.

"Too late to escape now," Xu Nian coldly laughed, sending a punch directly at the attacker's body.

"Boom!"

A terrifying Gravity Wave spread out, turning the attacker into a puddle of mud.

Xu Nian, looking at the already dead attacker, shook his head helplessly.

Since this guy tried to kill him, he should have been prepared to be killed.

Xu Nian looked at his scorecard.

He noticed his score had changed from one to a hundred and fifty.

"Only one fifty? That's too little!" Xu Nian couldn't help but lament.

Tie Chui previously mentioned that even the lowest level of the Profound Argumentation Tower requires ten thousand points.

A hundred fifty is really just like a drop in the ocean.

"Looks like I need to kill more people, but even if I don't make the first move, many will target me," Xu Nian said with a smile.

His superficial cultivation level is only at the Early Stage of Heavenly Phenomenon Realm, which is seen as a tempting target by others.

Though generally, those with lower cultivation levels won't have many points either.

So some extremely strong people wouldn't bother targeting him.

"Let's head to the Earth Attribute Profound Argumentation Tower first!" Xu Nian thought and decided to go to the Earth City.

His Undying Devouring Sky Beast Avatar needs to comprehend the Gravity Space Profound Argumentation to emerge from there.

If both him and the Avatar can comprehend it simultaneously, the speed will be faster.

Thus, Xu Nian headed toward the direction of Earth City.

Throughout the journey, Xu Nian encountered numerous attacks.

Some attempted surprise attacks from behind, while others fought head-on.

All of them were, without exception, slaughtered by Xu Nian.

One individual had over a thousand points.

Thus, within a single day, Xu Nian gathered almost three thousand points.

"Looks like I really don't need to make the first move to earn so much. A few more fat sheep, and the points for the first layer will be enough," Xu Nian said with a laugh.

Apart from that, his ranking rose by more than ten thousand.

Though compared to three hundred million, a ten thousand ranking rise isn't much.

But it's only just begun.

Of course, Xu Nian didn't have it all smooth sailing, as soon he encountered someone quite strong.

This person's cultivation had actually reached the Middle Stage Tribulation Crossing.

At first, he thought with one move, he could ensure a kill.

But upon seeing Xu Nian strike back, he realized this guy was pretending to be weak.

"Seems like you hid well; almost got fooled by you," the person looked at Xu Nian with a hint of battle intent in his eyes.

"Your strength isn't bad either, managed to block my punch," Xu Nian smiled in response, his eyes also aflame with battle intent.

The previous opponents bored him, but now finally came a worthy opponent, making him naturally pleased.

Chapter 943 Xuan Gold Energy Metal

Xu Nian carefully observed the opponent in front of him.

This opponent appeared as a young man, dressed in black battle armor.

He held a battle saber, his gaze incredibly sharp.

His middle-stage Tribulation Crossing cultivation added an overwhelming aura to him.

"Swish!"

Suddenly, the young man's eyes narrowed, and his figure shot towards Xu Nian like a sharp sword.

"What fast body skill, it must be the Wind Attribute Profound Argumentation." Xu Nian instantly recognized the profound argumentation inherent in the young man's body skill.

It was the Wind's Extreme Speed within the Wind Attribute.

This young man's understanding of the Wind Extreme Speed Profound Argumentation had already reached the Great Success Realm.

At this moment, his figure was as swift as the breeze, instantly reaching Xu Nian's side.

"Die!"

The young man shouted, and the battle saber in his hand seemed like a phantom, slashing towards Xu Nian's neck.

The speed was as fast as a flash of light.

Xu Nian's eyes immediately sparkled as he watched the blade streaking towards him at high speed.

With a move of his foot, his waist bent.

The fierce blade passed through at a distance of an inch from Xu Nian's skin.

As it passed, Xu Nian clearly saw the ripples the sword created in space.

This was the effect of speed reaching its peak.

"Uh!"

The youth was surprised to see his attack dodged, showing a trace of astonishment in his eyes.

Yet, being an experienced master, he immediately reacted.

With a flick of his wrist, the battle saber slashed towards Xu Nian again.

This time the angle was tricky, leaving no space for Xu Nian to dodge.

"Let's see how you dodge this time, Wind Thirteen Kills!" The youth snorted coldly.

The battle saber in his hand turned into a phantom, even faster than before.

Slicing through space, it directly created waves in the air.

One could say the power of this slash was enough to kill an ordinary middle-stage Tribulation Crossing cultivator.

Looking at such a fierce slash, Xu Nian's eyes displayed a faint smile.

"I wasn't planning to dodge anyway!"

With a light laugh, Xu Nian suddenly extended a hand like lightning.

The blood-colored dragon scale armor appeared directly on his arm, reaching for the incoming blade.

The sharp blade fiercely collided with Xu Nian's dragon scales, sparking brilliantly.

Emitting a piercing sound.

However, it did not break through the blood-colored dragon scales.

"What?" The young man was momentarily shocked.

His battle saber was forged as a top-grade Spiritual Artifact.

How could it not even break the opponent's palm?

But there was no time for him to think further.

Because he realized his battle saber was tightly gripped by the red claws of this young man before him.

No matter how he tried to pull, he couldn't free it.

"Die!"

Xu Nian shouted grandly, while his right hand held the battle saber, his left hand's accumulated fist suddenly launched.

"Boom!"

Seventh-level Gravity Fist.

Tremendous gravity waves mixed with fist force instantly struck out.

"Gasp!"

The young man spewed blood, flying backward.

The youth flew back three thousand feet before stopping.

Lying on the ground, fresh blood continuously spilled from his mouth.

His face was filled with shock.

"So... so strong!" The youth uttered two words and completely lost his breath, perishing.

Looking at the young man's corpse, Xu Nian displayed a faint smile.

The youth's strength was decent, but against his nearly perverse defense.

Their attacks had almost no effect.

This way, unless the youth was exceptionally skilled in attacking.

He simply could not break through Xu Nian's nearly perverse defense.

"Clang!"

Xu Nian flicked the battle saber in his hand, which emitted a crisp buzzing sound.

"Good blade, such a lightweight blade, I've never seen one like it before," Xu Nian said with appreciation.

This blade was unlike other battle sabers, forged to be wide and fierce.

On the contrary, this blade was deliberately made narrow like a sword, even thinner than a sword. For cultivators of Wind Attribute and Wind Profound Argumentation, it was simply perfect.

So, during the fight with the youth, Xu Nian had set his eyes on this blade.

Xu Nian satisfiedly collected the blade and walked toward the youth.

He glanced at his valor point plaque, the points already rising from three thousand to twelve thousand.

Meaning the youth's valor points totaled over nine thousand.

"Seems I really caught a big fish," Xu Nian couldn't help but say with emotion.

Earlier he had killed quite a few people, but only accumulated over three thousand.

This time, by just killing one person, he gained nine thousand valor points.

"It seems from now on I need to target those with powerful strength. Those with low cultivation are not only of no use for training but have few valor points—essentially a waste of time," Xu Nian mused to himself.

After speaking, Xu Nian took the young man's storage ring and began probing.

Previously, he searched the storage rings of those he killed thoroughly.

But ultimately found nothing that caught his interest.

So, this time Xu Nian held no expectations.

However, soon Xu Nian's expression changed.

"There really is something good, ten tons of Red Gold Energy Metal!" Xu Nian exclaimed excitedly.

Red Gold Energy Metal is an energy metal a grade higher than Xuan Gold Energy Metal.

The energy contained within this energy metal is more potent.

Once absorbed to the Great Success level, even ordinary people could elevate their physical strength to mid-grade Spiritual Artifact level.

As for Xu Nian, it could probably enhance to top-grade Spiritual Artifact level.

But ten tons was hardly enough for Xu Nian.

Ordinary people need three hundred thousand to five hundred thousand tons of Red Gold Energy Metal to reach saturation.

Xu Nian needs at least over five million tons.

Thus, ten tons for him is entirely insufficient.

"It appears besides valor points, I need to collect this Red Gold Energy Metal as well," Xu Nian mused to himself.

After quickly tidying up, Xu Nian continued walking towards the direction of Soil City.

As he walked, he was also absorbing Red Gold Energy Metal.

As the metal energy from Red Gold flowed into his body, Xu Nian clearly felt the strength of his flesh increase again.

The resilience of his skin also improved from the past.

Though the degree of change wasn't too great, there was still a long way to go before reaching top-grade Spiritual Artifact status.

To induce qualitative changes, quantitative accumulation is necessary.

Xu Nian continued forward and encountered a few people on the road.

Without exception, these people all attacked him.

But ultimately every single one couldn't withstand even one punch from Xu Nian.

Of course, their strength was rather weak.

The strongest among them was only at the early-stage Tribulation Crossing.

Killing them was an effortless task for Xu Nian.

Soon, Xu Nian arrived at the tower of Soil City.

"So this is Soil City?" Xu Nian looked at the city before him, surprised and muttering to himself.

The reason for his surprise wasn't the grandeur of the city.

On the contrary, Soil City, true to its name, had nothing special.

However, the profound atmosphere within this city was what surprised Xu Nian.

Chapter 944 Earth Attribute Profound Argumentation Tower

Xu Nian continued to walk into Earth City.

As soon as he entered Earth City, Xu Nian felt himself being enveloped by Earth Attribute elements.

Practicing cultivation here, even without entering the so-called Earth Attribute Profound Argumentation Tower, would likely double the speed of comprehending Earth Attribute compared to other places.

"Who exactly built this city? Such a rich Earth Attribute aura, the person who built this city must have reached an extremely high realm in comprehending Earth Attribute Profound Argumentation," Xu Nian thought to himself.

Walking along the road, the passersby he encountered all exuded Earth Attribute aura.

Undoubtedly, these people were mostly Earth Attribute cultivators.

"Look, isn't that the prodigy Ao Dong? It's said that he comprehended two kinds of Earth Attribute Profound Argumentation at just a hundred years old, and the Power of Earth has even crossed into Domain Level."

"Yes, and his Shrinking Ground Profound Argumentation has also reached the Great Success Realm. He's truly a legendary talent!"

"It's said that once you enter the Domain, your strength undergoes a qualitative leap. This Ao Dong was already at the late stage of Tribulation Crossing, so even at the peak of Tribulation Crossing, he is probably not weak at all."

"Of course, I saw him kill a Peak Powerhouse of Tribulation Crossing with my own eyes before. It was truly exhilarating."

...

A hushed conversation reached Xu Nian's ears.

Following the gaze of those few people, Xu Nian saw a young-looking man walking on the avenue ahead.

The young man was quite handsome, dressed in a white long robe.

His hands were clasped behind his back, with a proud expression.

With one step, he covered a distance of a kilometer, quite miraculous.

In a few steps, he had walked from the east end of the street to the west end and then disappeared from everyone's sight.

"Shrinking Ground?"

Xu Nian showed a surprised expression.

Although he also comprehended two Earth Attribute Profound Argumentations, they were Power of Earth and Gravity Space.

As for Shrinking Ground, he hadn't comprehended a bit of it.

Seeing Ao Dong exhibit it now, Xu Nian found this Shrinking Ground Profound Argumentation to be incredibly miraculous.

Seemingly slow walking, yet faster than an ordinary cultivator.

"A Domain Level expert?" Xu Nian muttered to himself.

He hadn't expected to encounter a Domain Level expert so soon here.

And at such a young age.

The passerby wasn't wrong; once you cross into the Domain Realm, your combat power undergoes a qualitative leap.

An expert at Domain Level at the late stage of Tribulation Crossing can easily defeat a Peak powerhouse of Tribulation Crossing.

This is the terrifying aspect of the Domain.

Some with a stronger understanding of Domain can, with Peak Tribulation Crossing cultivation, defeat early stage Earth Immortal experts.

After all, even Earth Immortal experts don't often comprehend the Domain Realm.

So Ao Dong being able to comprehend the Domain before a hundred is undoubtedly a remarkable talent.

Xu Nian continued to walk into the city.

According to his estimation, the direction Ao Dong was heading was towards the Profound Argumentation Tower.

He might run into him again.

The Profound Argumentation Tower was located at the very center of the city.

Xu Nian quickly arrived in front of the Profound Argumentation Tower.

Looking at the gigantic twelve-story tower, Xu Nian's face showed a shocked expression.

This Earth Attribute Profound Argumentation Tower felt like a giant formed by Earth Attribute elements, indestructible.

Even with a full-force strike, he might not leave a mark on this gigantic earth-formed tower.

"Who crafted this Profound Argumentation Tower, and how can there be such a strong Earth Attribute aura? How deep must one's understanding of Earth Attribute Profound Argumentation be to build such a tower?" Xu Nian quietly mused to himself.

Finally, he concluded that only an Immortal Level expert could build this kind of Profound Argumentation Tower.

After all, without comprehending the complete Profound Argumentation, how could one inscribe the Earth Attribute Profound Argumentation Pattern?

Xu Nian approached the giant tower.

In front of the giant tower stood a massive stele.

The stele had twelve indentations.

The size of these indentations exactly matched the size of the token in Xu Nian's hand.

Xu Nian quickly understood that to enter this Profound Argumentation Tower, he needed to place his token in the corresponding indentation for the floor level.

Then, in his mind, he would recite how many days he wanted to stay.

The stele would automatically deduct points, and then the stele would transmit him to the corresponding floor.

Xu Nian took a general glance.

The first floor needed one ten thousand points, just as Lan Qi said.

As for the second floor, it was fifty thousand per day.

The third floor one hundred thousand.

The fourth floor two hundred thousand.

The fifth floor three hundred thousand.

The sixth floor four hundred thousand.

The seventh floor five hundred thousand.

The eighth floor six hundred thousand.

The ninth floor seven hundred thousand.

The tenth floor eight hundred thousand.

The eleventh floor nine hundred thousand.

The twelfth floor required a million.

Xu Nian looked at these points and couldn't help but sigh.

The twelfth floor, just staying for one day, required a million points.

How many people would he have to kill to earn a million points?

Of course, no one would be foolish enough to enter the twelfth floor.

Because the Profound Argumentation Pattern on the twelfth floor would become incredibly complex.

If one did not have a certain foundation in Profound Argumentation, entering it would only be a waste of points.

"I wonder which floor Ao Dong went to?" Xu Nian couldn't help but think of Ao Dong.

If his guess was correct, that guy probably went to the third floor.

Because starting from the third floor, only those who have crossed into the Domain Realm can comprehend.

If one's Insight Realm hasn't reached the Domain, forcibly comprehending the third floor will not only be unhelpful but also cause mental chaos.

Therefore, those who haven't reached the Domain Realm in their comprehension of Profound Argumentation are only suitable for cultivation in the first and second floors.

However, for Xu Nian, this wasn't a dilemma.

Because at this moment, he only had eighteen thousand points in his token.

He could only enter the first floor, and only stay for one day.

"I'll just enter and have a look first," Xu Nian said, taking out his point token and silently reciting for a day in his mind.

Immediately, his token had one ten thousand points fewer.

Then, the next moment, Xu Nian was enveloped by a light.

Finally, Xu Nian disappeared in front of the tower.

Xu Nian felt a moment of darkness before he appeared in a completely enclosed building.

This was an incomparably spacious great hall.

The great hall had eight sides.

On the eight walls, strange patterns were engraved.

These patterns were not particularly complicated but extremely strange.

The eight diagrams were not randomly comprehended but were orderly arranged from one to eight sequentially.

From these patterns, Xu Nian felt a heavy aura.

"These are the Earth Attribute Profound Argumentation Patterns?" Xu Nian mused to himself.

Aside from these eight walls, Xu Nian also noticed that there were quite a few people sitting in front of each wall.

At this moment, they were staring intently at the wall patterns.

They didn't divert their gaze even as Xu Nian arrived.

Clearly, they didn't want to waste a single moment.

Xu Nian didn't waste time either and went to the first Profound Argumentation Diagram to begin comprehending.

Chapter 945: Befriending the Tyrant

Initially, Xu Nian could not discern what kind of profound argumentation lay within the pattern on this graph.

But as he gazed longer, Xu Nian noticed the peculiarity within it.

These patterns are quite intriguing, capable of resonating with the earth attribute elements of the world.

If one can grasp this resonance, it will greatly aid in insight cultivation.

Xu Nian at this moment felt this resonance.

However, the resonance from the first graph was quite weak, offering almost no assistance to Xu Nian.

Thus, Xu Nian directly went to the second graph.

The final result remained the same.

Then he continued toward the next graph.

Just like that, when Xu Nian arrived at the seventh graph, he finally felt the powerful profound argumentation contained within the resonance.

"Buzz!"

Xu Nian simply sat down cross-legged and closed his eyes.

Letting himself immerse in the ocean of earth attribute elements.

No matter which kind of earth attribute profound argumentation, it is constructed from the characteristics of earth attribute argumentation elements.

Thus, to feel the earth attribute elements is to comprehend earth attribute profound argumentation.

The power of earth is the vibration of earth attribute elements, resulting in explosive strength.

Shrinking ground is to utilize the flow of earth attribute elements; the faster the flow, the faster one moves.

As for gravity space, it is the inherent characteristic of earth attribute elements, the more elements accumulated, the stronger the gravity wave.

Xu Nian now aims to comprehend the profound argumentation of gravity space.

Immersed in the ocean of earth elements, feeling the gravitational waves emitted by each element.

"So that's how it is!"

Xu Nian suddenly seemed to comprehend something.

He suddenly opened his eyes, stretching out a hand.

From the center of his palm, a yellowish brown sphere gradually condensed.

This sphere, only the size of an eyeball, was formed by Xu Nian using the surrounding earth elements.

However, this was not the key, but the gravitational waves emanating from this sphere.

These gravity waves continually spread in the air, affecting the surroundings.

Though the magnitude of the attraction is not large, the gravity fluctuations have already reached the eighth level.

Only a small step remains until the ninth level.

That's right, just now, Xu Nian advanced from the seventh level realm to the eighth level realm.

Next, once he reaches the ninth level, he can attempt to unite the nine levels of gravitational waves.

Once it all converges, Xu Nian can enter the domain realm.

Freely create gravity space.

Xu Nian stood up and moved to the eighth graph.

Now that the resonance of the seventh graph had been comprehended by him, it was of little use to him.

So on the first floor, only the eighth graph could be of help to him.

The patterns on the eighth graph were evidently more complex than those of the seventh graph.

The resonance it could evoke with earth attribute elements was evidently much stronger than that of the seventh graph.

Besides, Xu Nian felt a peculiar sensation outside of this resonance.

This sensation is indescribable and vague.

Each time he tried to grasp this sensation, it would instantly slip away.

"Do you feel a peculiar sensation, yet can't capture it?" Just as Xu Nian was going mad about it, a light laughter came from behind.

Xu Nian turned his head, discovering an iron tower-like man standing behind him.

There were originally few people comprehending the eighth graph.

And this iron tower man had an unusually prominent physique.

However, Xu Nian dared not be careless; he realized the man's cultivation was not low.

Already reached the late-stage Gang Tribulation level.

His skin also had a metallic luster, clearly not an ordinary person.

"You don't need to look at me like that, I deduced it by seeing you furrow your brow sometimes. I am called Tyrant and I am also an earth attribute profound argumentation cultivator," the iron tower man said with a smile.

"Tyrant?" Xu Nian murmured this name in his heart.

It was clearly just a code name.

But it's normal; everyone here wouldn't use their real name.

"I am called Meteor, not sure how brother detected my feeling," Xu Nian asked curiously.

"It's simple because I have that feeling too," Tyrant said with a smile.

"What exactly is that feeling?" Xu Nian asked, still puzzled.

"That feeling is domain power. Actually, if you can sense this feeling, it means you are not far from the domain realm. Once you can capture and clearly master this feeling, it means you can control domain power," Tyrant said with a smile.

Xu Nian suddenly realized.

So that indescribable feeling is the domain.

Once one steps into the domain level, one can control domain power.

This power can exponentially increase combat strength, which is why domain-level experts are so powerful.

"Brother Meteor, you seem very young, yet you have touched the boundary of the domain, so I spoke out to get to know you. Consider it befriending a brother," Tyrant said with a smile.

Xu Nian nodded.

Yet his heart did not fluctuate much.

On this slaughter star that's like hell, does such friendship really hold meaning?

"I know you are cautious, it is normal, but there truly exist real friends on the slaughter star because we are emotional beings, not fierce beasts of slaughter," Tyrant said with a smile.

The smile on his face carried an air of confidence.

Upon hearing this, Xu Nian also smiled.

Indeed, he was moved by Tyrant's words; someone who could say such things shouldn't be bad.

Otherwise, his acting was really excellent.

Of course, Xu Nian also didn't think he had anything on him worthy of interest to the other person.

"Brother Meteor, I predict you will definitely become a talent like Ao Dong, perhaps even surpassing Ao Dong," Tyrant said as he patted Xu Nian's shoulder.

"Brother Tyrant, your insights are not poor either. I see the elemental power on you is so rich; you should be cultivating the Earth Power Profound Argumentation," Xu Nian said with a smile.

Upon hearing this, Tyrant's eyes lit up and he said, "You determined that just from observation?"

Xu Nian nodded, "Those practicing Earth Power Profound Argumentation have the thickest earth attribute aura; the vibration of earth elements is more intense than ordinary folks, while those cultivating gravity space exude a sense of mystery, leading earth elements around to gather instinctively."

"What about those who comprehend Shrinking Ground?" Tyrant asked with interest.

Xu Nian smiled and pointed to a man not far away, saying, "That person is cultivating Shrinking Ground; observe the flow of earth elements around him, obviously faster than others."

"Oh, it really is so. I hadn't noticed until you pointed it out," Tyrant reflected for a moment and exclaimed in surprise.

Then he observed a few people, finding that the earth elements around them were indeed as Xu Nian described.

Subsequently, his gaze fell on Xu Nian himself, and upon seeing, he froze.

He found that the earth elements surrounding Xu Nian were not only spinning and converging, but their vibration frequency was extremely rapid.

This was clearly the effect of practicing two types of profound argumentation.

"Unexpectedly, Brother Meteor you've hidden your skills, practicing two profound argumentations, and both are quite advanced," Tyrant said in amazement as he looked at Xu Nian.

Xu Nian smiled faintly and then continued to comprehend the eighth graph.

Chapter 946: Joining Forces to Outsmart

In the following period, Xu Nian was completely immersed in his insights.

His understanding of gravitational waves also became increasingly clear.

Soon, he discovered that he could actually use the earth attribute element to unleash the ninth level gravitational wave.

With this breakthrough, he was overjoyed.

The nine levels of gravitational waves had been fully comprehended.

Next, as long as he could merge these nine levels of gravitational waves together, he would be able to form the gravity space domain power.

But just as Xu Nian was ready to continue his insights, his allotted time came to an end.

The Profound Argumentation Tower automatically transported him out.

Of course, as Xu Nian exited, Tyrant also chose to come out.

"Brother, surely you have gained quite a lot in this day?" Tyrant said with a smile.

"I did gain something. This Profound Argumentation Tower is indeed amazing. One day inside is equivalent to a year in the outside world," Xu Nian said with a sigh.

Thanks to the assistance of the Profound Argumentation Pattern, their perception of elements was hundreds of times stronger than usual, naturally increasing the speed of comprehension significantly.

"Brother, you seem to have just arrived at the Slaughter Star, right?" Tyrant smiled at Xu Nian as he spoke.

"Yes, just entered less than two days ago." Xu Nian nodded in response.

"Just less than two days in and you've earned ten thousand points. Seems like Brother, your strength is not weak!" Tyrant said with a chuckle.

Xu Nian smiled slightly and then said, "Brother Tyrant, do you know where I can earn enough points?"

After witnessing the effects of the Profound Argumentation Tower, Xu Nian was now very eager to earn more points.

Because he wanted to enter the second level for cultivation.

And entering the second level requires at least fifty thousand points per day.

"Want to earn points? That's easy, but there is some danger involved. Brother, are you afraid of death?" Tyrant looked at Xu Nian and asked.

"Of course not!" Xu Nian answered with a smile.

"That's good. I know a place where many cultivators gather, but their strength is not weak. I can only be considered average there. Dare to go?" Tyrant said to Xu Nian.

"Even Brother Tyrant is only considered average?" Xu Nian was somewhat surprised.

This Tyrant was at the late-stage Tribulation Gang cultivation level and could still contend with the peak of Tribulation Crossing powerhouses.

Yet he could only be called average, which indicated there were powerhouses comparable to Earth Immortal level there.

"So, will you dare to go? Although those people are strong, they have plenty of points on them. You might run into a big fish and earn tens of thousands of points." Tyrant said.

Xu Nian's eyes lit up immediately.

Great rewards come with great risk.

"Let's go, with so many points, how can we not earn them?" Xu Nian said immediately.

Tyrant also showed a smile on his face, patting Xu Nian's shoulder, "I knew I was right about you. Former group of cowards, everyone backed out when they heard of Earth Immortal level masters, but only you, Meteor, are not afraid."

Xu Nian smiled slightly.

Then he followed Tyrant out of the Earth City.

After leaving the city, Xu Nian understood where Tyrant was headed.

The place Tyrant mentioned was the central junction of the nine Profound Argumentation Cities.

Many powerhouses would gather there.

They would hunt down passing cultivators, earning enough points before going to their Profound Argumentation City for cultivation for a period.

After all, no one would want to cultivate for a day and then go out hunting again. It's too cumbersome.

"Brother, let me tell you, when killing someone, it's unnecessary to fight head-on. After all, in this place, survival comes first. So as long as you can kill, no matter what means you use, it's good." Tyrant said to Xu Nian.

Because many newcomers often feel that sneaking up on someone is dishonorable.

Standing there silly, dueling with others.

Xu Nian nodded in agreement upon hearing Tyrant's words.

He understood this principle too and certainly wouldn't silly stand and duel with others just for a bit of honor.

"Besides sneak attacks, we can also set traps, brother, do you know how to set traps?" Tyrant suddenly said to Xu Nian with a wicked smile.

Xu Nian looked at Tyrant's smile and showed a smile on his face.

"Brother Tyrant means, we team up and target others together?" Xu Nian said with a smile.

"That's right, brother. Your cultivation realm is very low, easily becomes a target for others. At that time, you only need to stand out and make a move on others, then they will relax their guard against you. At that time, I will sneak attack from the shadows, and we can divide the points equally," Tyrant said with a smile.

"Alright!" Xu Nian thought for a moment, then agreed readily.

This could be a good strategy.

Though it's a rather mean tactic, it's nonetheless a good way to earn points.

"Truly a good brother!" Tyrant said with a smile.

Xu Nian smiled slightly.

Unexpectedly, Tyrant was so wicked.

But you can't blame him; after all, in this environment, if you don't act a bit mean, you might lose your life at the next moment.

Good people don't live long, while harmful ones live for a thousand years.

"Hey, look, there's someone over there, seems to be at the late-stage Tribulation Gang cultivation level, Brother, can you withstand?" Tyrant pointed ahead.

Xu Nian followed his direction and indeed saw someone flying toward them.

"No problem!" Xu Nian said with a smile.

He then summoned the battle saber he obtained before and rushed forward.

"Buzz!"

Xu Nian directly activated Wind Attribute Profound Argumentation, Triple Chaos Slash.

Xu Nian instantly turned into a phantom, moving toward the person.

That person also sensed the danger and summoned a sharp sword to strike at Xu Nian.

"Clang!"

Xu Nian collided directly with the late-stage Tribulation Gang power.

The terrifying energy wave instantly scattered them apart.

Xu Nian retreated three hundred zhang, with his entire arm trembling.

The opponent's power was strong; the collision just now made his arm feel a sharp numbness.

However, the cultivator looked at Xu Nian with a shocked expression.

Upon seeing Xu Nian's cultivation level, the surprise on his face became even more intense.

"Early Stage of Heavenly Phenomenon Realm? How can such a powerful attack be possible?" the cultivator murmured.

Xu Nian did not say much, directly swinging his battle saber and attacking the cultivator again.

The late-stage Tribulation Gang powerhouse's eyes suddenly became sharp as he responded to Xu Nian's assault with his swordsmanship.

"Clang, clang, clang!"

The two of them clashed directly.

Although evenly matched at first, Xu Nian soon fell into a disadvantage.

"Seems like your strength is just so-so. To dare attack me, you're courting death!" the late-stage Tribulation Gang powerhouse scoffed, and his sword surged with terrifying waves, intending to kill Xu Nian all at once.

But just then, an iron tower-like figure appeared ghostly behind him.

Swinging a hammer, it struck his waist viciously.

"Boom!"

The late-stage Tribulation Gang powerhouse was directly blasted away by the hammer, fell to the ground, creating a large pit.

Chapter 947: Ambushed

"You all..."

The late-stage Tribulation Crossing expert lay in the pit, looking at the two figures in the sky, with a look of resentment in his eyes.

Clearly, he already knew he'd been deceived.

Although the young man with only Early Stage Heavenly Phenomenon Realm cultivation was not weak, he was not his match.

Initiating a sneak attack was obviously a trap.

"Hmph, it's already too late to realize now." The Tyrant gave a cold snort, swinging the hammer in his hand, smashing directly toward the late-stage Tribulation Crossing expert.

The late-stage Tribulation Crossing expert struggled to get up, but his spine was already broken, leaving him unable to move.

"Boom!"

A loud explosion.

A large pit was blown out within a radius of ten miles.

The energy fluctuations spread a hundred miles away.

The late-stage Tribulation Crossing expert was thus killed.

Xu Nian glanced at the points card in his hand and found that the number on it had turned to forty-eight thousand, an increase of more than forty thousand.

"How about it, I told you, cooperation can earn more points. This is just a small fry; those with hundreds of thousands on their cards are the big fish." The Tyrant said proudly.

The points just now were split equally between him and the Tyrant.

So this late-stage Tribulation Crossing expert had over eighty thousand points in total.

Quite a considerable amount.

Although this method is somewhat despicable, one must admit, it is very efficient.

If he really had to face this late-stage Tribulation Crossing expert alone.

He would at least need to use some trump cards to kill him.

He might even pay the price of serious injury.

"Let's go, continue to find the next fat sheep." The Tyrant said to Xu Nian with a sly smile.

Xu Nian nodded.

Now is not the time for compassion.

After all, in this Land of Slaughter, survival is the first principle.

Thus, in the following period, Xu Nian and the Tyrant teamed up to deal with those late-stage Tribulation Crossing experts.

Of course, there were failed ambushes, but with the two of them working together, they still killed the opponents.

In a few days, they had killed six people.

And the points Xu Nian held increased to three hundred thousand.

His ranking also rose from over three billion to one hundred eighty thousand.

Of course, the names Liuxing and the Tyrant also spread widely.

Mentioning Liuxing and the Tyrant would make those Tribulation Crossing stage experts grit their teeth with hatred.

Clearly, their actions have provoked the disgust of some people.

Some have even declared they want to crusade against the two of them.

"Brother Liuxing, it seems we've aroused public anger. Are you afraid?"

On a mound, the Tyrant looked at Xu Nian and asked with a smile.

"What's there to be afraid of? It's just someone playing tricks behind our backs, targeting our points." Xu Nian replied with a smile.

In this Slaughter Star, they are not the only ones teaming up for ambushes.

They've only acted a few times.

There are even dedicated teams hunting prey together.

In comparison, their actions don't really count for much.

Now that someone wants to crusade against them, it's clearly someone stirring trouble from behind.

"Brother Liuxing, you're indeed smart. In that case, I'll tell you that I know who's plotting against us." The Tyrant said to Xu Nian.

After saying this, a wave of intense killing intent surged in the Tyrant's eyes.

"It's the Tyrant's enemy?" Xu Nian became interested and asked.

"Exactly, this person's name is Teng Shan. He killed three brothers of mine, brothers who were as close as family. I've always wanted to kill him, but this guy always hides away. Twice, I almost caught him, but he used tricks to escape." The Tyrant said fiercely.

Xu Nian observed the killing intent surging in the Tyrant's eyes.

That killing intent was very real, not fake at all.

"So how strong is this guy?" Xu Nian continued to ask.

"He's not very strong, only late-stage Tribulation Crossing, but this guy is cunning. He's now joined the Black Snake Team, and the leader of this Black Snake Team is a peak Tribulation Crossing expert. I can't beat him." The Tyrant said with a frown.

"Black Snake Team?" Xu Nian asked in surprise.

"Exactly, in this Slaughter Star, not everyone fights alone. Most veterans will seek partners to increase their chances of survival. This Black Snake Team originally had only two people, a pair of brothers. Later, Teng Shan somehow persuaded them and joined their team. With just my power, avenging is nearly impossible." The Tyrant sighed.

"So, did Brother Tyrant come to me because you saw my potential?" Xu Nian asked with a smile.

Upon hearing this, the Tyrant chuckled and then said seriously, "Brother Liuxing, you saw through me. Yes, I have indeed noticed your potential. I want to team up with you. Your potential is immense. Even though you're only in the middle stage of the Heavenly Phenomenon Realm, you can tie with late-stage Tribulation Crossing, and you're just one step away from the domain. I believe your future achievements will be very high, unimaginable to me."

"Then, Brother Tyrant, you might be disappointed." Xu Nian said with a smile.

"No, I, the Tyrant, am always very accurate in judging people. If Brother Liuxing doesn't believe me, I can tell you my real name." The Tyrant said seriously.

But Xu Nian stopped him.

"You don't need to tell me your real name. I believe you. As for your grudge, I will help you. Whether we succeed or not, that's uncertain." Xu Nian said to the Tyrant.

Hearing this, the Tyrant's face immediately showed a look of great joy as he looked at Xu Nian excitedly.

"Good, very good. As long as you, Brother, say this, I'm already satisfied." The Tyrant said excitedly.

"Don't rush to be excited. With my current strength, it's a bit difficult to deal with late-stage Tribulation Crossing. I still need to improve my strength." Xu Nian quickly said with a bitter smile.

"Yes, yes, improve strength, there's no rush for revenge." The Tyrant said with a silly smile.

Seeing the Tyrant's naive expression, Xu Nian smiled faintly.

It seems this is the Tyrant's true nature. The previous scheming was due to the influence of the environment, acting for self-preservation.

"Brother, shall we continue hunting prey now?" The Tyrant asked Xu Nian.

Just as Xu Nian was about to nod, he suddenly froze, his eyes narrowing slightly as he said, "I'm afraid we've already become someone else's prey."

Upon hearing this, the Tyrant also suddenly looked in one direction.

"Whoosh whoosh whoosh!"

Three sounds of something breaking through the air came from afar.

Then three figures appeared in mid-air ahead of Xu Nian and the Tyrant.

These were three middle-aged men in black battle armor.

At this moment, the three were overlooking Xu Nian and the Tyrant.

"The Black Armor Team?" The Tyrant immediately recognized their identity, and his expression became grave.

The Black Armor Team?

Xu Nian was also taken aback in his heart.

The strength of these three was very substantial; two late-stage Tribulation Crossing and one peak Tribulation Crossing.

"Whoosh whoosh whoosh!"

At this moment, another three breaking-through-the-air sounds came.

"More people?" Xu Nian and the Tyrant's expressions changed dramatically.

Then, three men in black robes appeared in the sky behind Xu Nian.

Once the three appeared, they looked at Xu Nian and the Tyrant with a mocking gaze.

"It's Teng Shan and his Black Snake Team!" The Tyrant said to Xu Nian while staring hard at one of the newly appeared three men.

His voice carried a strong intent of killing?

Xu Nian's brow instantly wrinkled.

It seemed to be an ambush targeting them!

Chapter 948 Tyrant Seal

Xu Nian was also a bit surprised to hear the Tyrant's words.

Are these three people who appeared later the Black Snake Team?

Xu Nian glanced again at the person the Tyrant was watching.

It was a bald man, not tall, dressed in a black robe, but his eyes conveyed an extremely cunning and treacherous feeling.

At this moment, his glance towards Xu Nian and the Tyrant was filled with gloating.

"Tyrant, you never expected it, right? Today you will fall by my hand," Teng Shan said, coldly smiling at the Tyrant.

"Teng Shan, I want to kill you," the Tyrant roared angrily, clenching his fists tightly, and his muscles bulged all over his body.

"Heh, Tyrant, don't think I'm afraid of you just because your strength exceeds mine. Let me tell you, this world relies not just on fists but also brains. Do you think you can kill me with so many people present today?" Teng Shan scoffed disdainfully, not paying any mind to the Tyrant's anger.

"Teng Shan, you despicable scoundrel!" the Tyrant roared, his heart burning with fury.

Teng Shan grew even more complacent.

Although Xu Nian didn't speak, he was calculating his next move in his mind.

Now they were facing attacks from six people, four of whom were at the late stage of Tribulation Crossing, and two were at the peak of it.

This level of power was absolutely something they couldn't withstand.

Even if he and the Tyrant teamed up, the chances of surviving under such an assault were slim.

If it was just him, he could find a way to escape.

But with the Tyrant here as well, he couldn't just leave him behind.

"It seems a battle for life and death can't be avoided next," Xu Nian said to himself.

"Sorry, brother, I've gotten you involved, but don't worry, I won't let them harm you," the Tyrant conveyed to Xu Nian.

Xu Nian was taken aback.

What did the Tyrant mean by saying this?

Could he be confident facing six masters?

"Tyrant, hand over the Tyrant Seal,"

at this moment, Teng Shan spoke to the Tyrant.

The other five, upon hearing the words "Tyrant Seal," visibly changed their expressions, all staring intently at the Tyrant.

Tyrant Seal?

Xu Nian suddenly understood something.

These six people came here with a different agenda, clearly.

Otherwise, the mere points they had wouldn't be enough to move two teams.

And this Tyrant Seal was very likely the treasure they were seeking.

"Hmph, Teng Shan, you think you can take the Tyrant Seal? Back then, you deceived our brotherly trust and attacked my three brothers for it. Now you dare to demand it," the Tyrant scoffed, his tone carrying an aura of disdain for the world.

"So what, Tyrant? You should understand that the power of the Tyrant Seal is extremely violent. Once you use it, your body will also suffer immense damage, and you might even be controlled by the seal, becoming a murderous demon," Teng Shan continued.

"Is that so? It seems you're also afraid of the Tyrant Seal's power, haha!" the Tyrant laughed loudly.

Seeing the eyes of the six around, hinted at a sense of intimidation.

All six had incredibly vigilant eyes.

"Tyrant, hand over the seal, and I'll spare your life. You should know even if you use the seal's power, you aren't our match," the peak Tribulation Crossing leader of the Black Snake Team said.

"Big brother, don't bother with him. Let's attack together; even if he has the Tyrant Seal, it might not withstand," the brother of the Black Snake Team leader said quickly.

The Black Armor Team didn't say a word but had already taken on a combat stance.

The Tyrant sneered, flipping his palm to reveal a palm-sized seal.

As soon as this seal appeared, it surged with an extremely violent Earth Attribute energy.

This energy was massive and extremely violent.

At the same time, it emitted an overwhelming, world-defying majesty.

It was as if a peerless tyrant had descended upon the world.

"Is this the Tyrant Seal? It seems to be an Immortal Artifact, but somewhat incomplete," Xu Nian thought to himself.

As an Artifact Refiner, he naturally had keen eyes for treasures.

He could see at a glance that this Tyrant Seal was a broken Immortal Artifact.

Of course, this Immortal Artifact was different from Xu Nian's King Jing Sword.

The King Jing Sword was clearly sealed, so its sharpness was hidden.

While this Tyrant Seal, though damaged, retained terrifying energy within.

Whoever masters this energy would certainly possess battle power comparable to the Earth Immortal Level.

"No wonder these people want to snatch the Tyrant Seal," Xu Nian reflected.

"Seal!"

At this moment, the six stared at the Tyrant's Tyrant Seal, their eyes glinting with greed.

"Hand over the seal and spare your life!" the leader of the Black Armor Team shouted sharply.

Glaring at the Tyrant.

"Haha, if you want my seal, why not take it yourself?" the Tyrant laughed wildly, then slashed the Tyrant Seal into his chest.

As the Tyrant Seal merged into his chest, it instantly surged with extremely violent Earth Attribute energy.

The Tyrant's face instantly twisted with pain, his aura constantly climbing.

"Comet brother, take this chance to escape later. Although the energy of my seal is violent, with the extent of my body, I can only last for 15 minutes, not long. And since they want the seal, they'll certainly only target me. As long as you escape into the Earth City, you'll be safe," the Tyrant conveyed to Xu Nian.

"What about you?" Xu Nian quickly asked.

"Hmph, if they want the seal, I'll take them down with me," the Tyrant scoffed, and soon his eyes turned crimson.

Xu Nian knew he had already fallen into a frenzy.

Next, he would become a beast driven only by slaughter.

Of course, he still retained a trace of sanity, so he didn't attack Xu Nian.

"Die!"

The Tyrant roared and leapt towards Teng Shan of the Black Snake Team.

His strongest murderous intent was directed at Teng Shan, making him his first target.

Teng Shan was cunning; seeing the berserk Tyrant coming at him,

he quickly hid behind the Black Snake Team leader.

The leader also intended to protect Teng Shan, with True Essence surging, he struck a palm towards the rampaging Tyrant.

"Boom!"

The Black Snake Team leader's palm collided with the Tyrant's fist, and his figure was instantly blown away.

Along with him, Teng Shan behind was also sent flying.

Seeing his brother being blown away, the Black Snake leader's brother quickly slashed at the Tyrant with a blade.

"Hmph!"

The Tyrant snorted coldly, throwing a punch.

Blasting him along with his blade away.

Then immediately continued towards Teng Shan.

"Hei Jia, aren't you going to act?" the Black Snake leader shouted.

The Black Armor Team, hearing the shout, had a grave expression and quickly charged at the Tyrant with their two late-stage Tribulation Crossing members.

Thus, six people beset Teng Shan.

While Xu Nian remained ignored from start to finish.

Chapter 949 Illusion Sword Dance

The four late-stage Tribulation Crossing experts and two at the peak; this already constitutes a very formidable force.

Yet at this moment, all six are being suppressed by the Tyrant single-handedly.

"Boom!"

The Tyrant's iron fist directly collides with the battle saber of a late-stage Tribulation Crossing expert, exploding like thunder.

The late-stage Tribulation Crossing expert instantly feels as if struck by lightning, spewing blood wildly from his mouth, and rolling across the ground like a thrown stone.

"Boom!"

On the other side, a captain from the Black Armor Team seizes the opportunity in the Tyrant's attack gap and punches towards the Tyrant's back.

But it is blocked by the ferocious power surging from the Tyrant's body.

"Die!"

The Tyrant suddenly turns his head, releasing a roar like a mountain flood or tsunami.

Then he throws a punch towards that captain of the Black Armor Team.

The violent earth attribute energy converges on his fist like a storm, with the momentum of shaking the heavens and earth.

"Boom!"

The captain swiftly uses his arm to block this terrifying punch.

However, he discovers that the punch thrown by the Tyrant is as heavy as ten thousand catties.

His entire body is instantly uncontrollably propelled backward, with his feet dragging a trace of a thousand meters on the ground.

Xu Nian stands afar, watching the scene unfold.

These battles all occur in a moment.

At this moment, the Tyrant's power is infinitely tantamount to the early-stage Earth Immortal.

Faced with the attacks from six people, he is like a steel man that is indestructible, constantly swatting the attacking enemies like flies.

"Is this the Tyrant Seal? No wonder these guys are coming to seize it." Xu Nian sighs and muses in his heart.

The Tyrant, utilizing the Seal for his rampage, noticeably enhances his power several times over.

Such a treasure, who wouldn't be tempted?

Xu Nian then shifts his gaze to Teng Shan, whom the Tyrant aims to kill.

This fellow is extremely cunning; he never steps forward to attack the Tyrant.

Instead, he stays at a distance, persistently launching attacks from afar.

His posture constantly dodges, intending to divert the Tyrant's attention away from him.

As if sensing Xu Nian's gaze, Teng Shan casts his eyes on Xu Nian.

"There's another small fry here; since that's the case, I won't hold back taking your points." Teng Shan lets out a sinister laugh, then charges wildly towards Xu Nian.

"The target shifts to me?" Xu Nian's lips curl into a slight smile.

Though he finds it somewhat difficult to deal with the late-stage Tribulation Crossing, when it truly comes to a fight, he is unafraid.

"Die, brat; without eyes, you stay with the Tyrant, whom I can't kill; I'll kill you to gain interest." Teng Shan's figure suddenly appears before Xu Nian.

Holding a short blade in his hand, he directly cleaves towards Xu Nian.

The sword light contains an eerie green glow.

Under this green glow, Xu Nian senses a trace of unease.

"Wood Attribute Life Devouring Profound Argumentation? It's actually attained the Great Success Realm?" Xu Nian is a bit surprised.

It's unexpected that Teng Shan has actually comprehended the rare Wood Attribute profound argumentation.

Wood Attribute contains three profound argumentations: Wood Tracking, Earth Vine, and Life Devouring.

Among them, Life Devouring is the most fearsome profound argumentation.

Once struck by this green glow, life essence power will be devoured.

Some powerful Wood Attribute profound argumentation practitioners can instantly plunder hundreds to thousands of years of an enemy's life span.

Once life span is plundered, strength will decrease accordingly.

After all, a cultivator's life span isn't infinite; an Earth Immortal expert, without consuming heavenly materials and earthly treasures, only has a life span of nine thousand years.

Of course, the real terror of this Life Devouring profound argumentation is in the Domain Realm, where life within continuously drains away.

Fighting against such cultivators, time equates to life.

Luckily, Teng Shan hasn't reached the Domain Realm.

Thus, he can only apply the Life Devouring profound argumentation through attacks.

As long as he's not attacked, life span will not be devoured.

"Haha, brat, your life span is mine to collect." Teng Shan's lips wear a sinister grin.

The green glow on the sword light holds a death-like aura.

In his view, a youth in the early stage of the Heavenly Phenomenon Realm could not possibly dodge this strike.

However, he soon realizes his mistake.

The next moment, this youth who seemed like a warming slab on the chopping board suddenly reveals a battle saber.

In an instant, this saber transforms into nine knife shadows that slash towards him.

These nine knife shadows seem tangible, each carrying immense true essence power.

"What?"

Teng Shan is startled; he hurriedly withdraws his saber to defend against the strike.

"Clang!"

The nine knife shadows crash directly into Teng Shan's short blade.

A sound akin to a bell ding rings forth explosively.

Then a terrifying energy wave gushes outward like a flood.

Both Xu Nian and Teng Shan are blasted backward.

Teng Shan retreats a full three hundred yards before stabilizing his form.

Xu Nian also floats backward, his arm holding the saber trembling slightly.

"How is this possible?" Teng Shan stares at Xu Nian in shock.

His eyes reveal disbelief.

The youth before him visibly only has the cultivation of the early stage of the Heavenly Phenomenon Realm; how could he unleash such a formidable move?

The strike just now clearly posed a threat to him.

"Teng Shan, right? If I didn't intend to leave you for the Tyrant, you'd already be a corpse." Xu Nian coldly smiles at Teng Shan.

Indeed, the strike was his newly conceived killing move, Illusion Sword Dance, integrating Wind's Extreme Speed and Dimension Cutting profound argumentation.

This move differs from One Slash Silence.

The illusions here aren't false; each one holds tangible power.

According to his estimates, these illusions can continually increase.

At least they can reach one hundred eighty shadows.

With Xu Nian's current insight, he can unleash eighteen levels of illusions.

Yet just now, he only unleashed nine levels, intending to spare Teng Shan's life.

Since this move combines two profound argumentations, its power naturally exceeds normal profound argumentation attacks.

"Brat, anyone can talk big; kill me? But your strength barely surpasses that of most middle-stage Tribulation Crossing; how could you kill me?" Teng Shan sneers.

Despite being astonished by the youth's strength.

But he still perceives Xu Nian's limit.

"Is that so? Apparently, your eyesight's not bad; then take a closer look at me now." Xu Nian slightly smiles and steps forward, entering the half-dragon transformation state.

"Roar!"

A dragon's roar sounds.

A crimson dragon scale armor immediately emerges on him, making his aura instantly become ferocious and sinister.

"Ah? Dragon-man?" Teng Shan is visibly startled; he didn't expect this youth to be capable of dragon transformation.

Xu Nian reveals a slight smile, coldly laughing at Teng Shan in front: "Though I won't kill you, I can still teach you a lesson, perfect for testing my peak strength."

Having said this, Xu Nian shoots out like Collapse Thunder.

"So fast!"

Teng Shan's pupils instantly shrink, for he realizes he couldn't capture Xu Nian's figure.

Chapter 950: Space Distortion

"Whoosh!"

Xu Nian's figure appeared like a phantom behind Teng Shan, and the battle saber in his hand slashed directly downwards.

Instantly, the blade transformed into eighteen phantoms, slashing fiercely at Teng Shan.

Teng Shan felt his scalp explode, his back chilled.

This was the feeling of death.

Without thinking, he immediately swung his saber to block above his head.

"Clang!"

Iron collided, and the terrifying force exploded instantly.

Teng Shan's entire body, under the impact of this terrifying force, fell to the ground instantly.

Creating a large pit in the ground.

Xu Nian's body only trembled slightly, then he stabilized his stance.

Looking at Teng Shan who had crashed onto the ground, he did not pursue but fiercely slashed downward instead.

The Sword Light swept across, instantly slashing through.

Directly landing on the ground, tearing a huge gorge in the hard surface.

The huge blade scar was a full three meters deep, extending over ten miles.

The gravity of Slaughter Star is a hundred times that of the outside world, naturally, the hardness of the soil is also a hundred times that of the outside world.

The ability to leave such a huge scar on the ground clearly demonstrated Xu Nian's terrifying saber skills.

Xu Nian stood proudly with a long saber in hand.

He knew that this slash had not killed Teng Shan.

It merely taught him a lesson.

"Cough cough!"

As expected, at this moment, a cough came from the soil.

Then a figure climbed out from the soil, wearing a Top-Grade Spiritual Artifact armor.

The armor emitted dazzling light at the moment.

Clearly, it was this armor that saved Teng Shan's life just now.

Teng Shan crawled out of the soil, looking at Xu Nian in the sky in his blood-red Scale Armor, with apprehension in his eyes.

He did not expect this young man before him to possess such formidable attacking power.

Obviously only at the Early Stage of the Heavenly Phenomenon Realm but already possessing such monstrous combat power, practically a freak.

"I didn't expect you to be so strong, I have misjudged. I take back my previous words, you do possess combat power comparable to the Late Stage Tribulation Crossing. However, I also have Top-Grade Spiritual Artifact Battle Armor protecting me, you can't easily kill me. Let's stop here as if nothing happened," Teng Shan said to Xu Nian.

"Are you sure I can't kill you?" Xu Nian sneered.

With that, with a thought, the battle saber in his hand disappeared, replaced by a Kunlun Hammer.

Seeing the Kunlun Hammer in Xu Nian's hand, Teng Shan's face turned green.

The Spiritual Artifact Battle Armor indeed has formidable protection, but its defensive capability is more targeted at sharp attack methods.

Against heavy blunt force, its defense is indeed weak.

So when he saw Xu Nian take out the Kunlun Hammer, he already understood.

This young man before him, besides that terrifying saber skill, possesses formidable heavy attack methods.

"Brother, let's talk this over. I have no grudge against you, I'm only trying to kill the Tyrant. If you are willing, you can leave now, we will not stop you," Teng Shan immediately changed his tone, pleading.

Xu Nian sneered, "I have never been stopped when I wanted to leave. Besides, you wanted to kill me before. How come there's no grudge? But rest assured, I won't kill you, I'll leave you with a breath because your life belongs to the Tyrant."

With that, Xu Nian's eyes suddenly became cold and fierce, stepping in the air.

Thunder radiated from his body.

At the same time, he fused Wind's Extreme Speed into his Body Skill.

Xu Nian's speed shot up instantly to its peak.

Infused with the profound argumentation of wind and lightning speeds, Xu Nian's speed was far superior to Teng Shan.

So before Teng Shan could react, Xu Nian was already before him.

"Ninth Level Gravity Hammer!"

Xu Nian shouted, swinging the hammer in a big arc.

Firmly striking Teng Shan's chest.

"Boom!"

Like a sledgehammer hitting a bell, emitting a sound like a grand bell.

Then Teng Shan's battle armor on his chest directly sunk in, his body hunched over as he flew backward rapidly.

He flew nearly ten thousand feet before his body landed.

Falling to the ground, he spat blood uncontrollably.

This hammer, although his Top-Grade Spiritual Artifact armor absorbed seventy percent of the force, the impact Xu Nian's hammer created was still terrifying.

Plus, the Gravity Wave inherently had strong penetration, able to bypass surface defenses and directly attack the internal body.

So at this moment, Teng Shan not only had shattered bones all over but also severe injuries to his internal organs.

To recover, without Spirit Pills, even with his transcendence tribulation cultivation, it would take ten days to half a month.

Xu Nian did not look at Teng Shan again but turned his gaze towards the Tyrant.

At this moment, the Tyrant was already in a fatigued state, forcibly using the Tyrant Seal's power had severely burdened his body.

Luckily, the other five people were also injured to various extents.

Otherwise, the Tyrant would probably have been killed by now.

"No, I can't leave him unattended, need to think of a way to save him," Xu Nian mused to himself.

Xu Nian still had a lot of recognition for the Tyrant in his heart.

At least he had no ill intention towards himself, which, in a place like Slaughter Star where slaughter reigns supreme, is precious.

Of course, what mattered ultimately was the Tyrant going berserk, to some extent, was also to buy Xu Nian time to escape.

Based solely on this, Xu Nian could not leave him alone.

But how to save him?

Xu Nian furrowed his brow, suddenly he seemed to think of something.

With a flip of his hand, a small boat appeared in his palm.

Indeed, this small boat was the Divine Travel Boat obtained from Bai Xi Sword Immortal in the past.

"Boom!"

In the distance, the Tyrant had entered his final explosive state.

With a loud shout, the violent energy within him spread out like water waves.

Directly sending the five people surrounding him flying.

Having done all this, his whole person also completely slumped down.

"Now is the time!"

Xu Nian's eyes lit up, he directly urged the Divine Travel Boat to rush towards the Tyrant.

"Stop him quickly!"

The captain of the Black Snake Team seemed to see through Xu Nian's intention, slashing directly at Xu Nian.

The Sword Light swept through the void, like a black snake opening its bloody maw.

At the same time, on the other side, the captain of the Black Armor Team had already reacted, appearing with a giant bow, pulling it, nocking the arrow, and shooting a scorching Flame Arrow.

Xu Nian would definitely have to take both these attacks if he forcibly tried to save the Tyrant.

By that time, the Divine Travel Boat would surely be forced down.

However, Xu Nian was not one to be trifled with.

He looked at the two attacks coming at him furiously.

His eyes flashed with intense light.

At the same time, he activated the Space Profound Argumentation, directly twisting the surrounding space.

Then everyone saw the scorching arrow and the black Sword Radiance curve in mid-air, bypassing Xu Nian's Divine Travel Boat.

And Xu Nian, in that instant, picked up the fallen Tyrant, finally fully urged the Divine Travel Boat, disappearing as a stream of light into the horizon.

The captains of the Black Armor Team and Black Snake Team both looked at the direction Xu Nian disappeared with puzzled expressions.

Unable to comprehend why their attacks turned!
