Chapter 951: A Great Enemy Approaches

Xu Nian's true self experienced these few days on the Slaughter Star.

Meanwhile, the Undying Devouring Sky Beast Avatar spent nearly five years in the Black Corner Domain.

During these five years, Xu Nian continuously refined artifacts.

He overachieved the task given by the City Lord, producing a total of three hundred top-grade spiritual artifacts.

His artifact refining techniques and speed earned him significant popularity and respect in Black Wind City.

"Brother Xu, I didn't expect you to be so amazing, refining top-grade spiritual artifacts faster than all of us combined can refine regular weapons. If I hadn't seen it myself, I wouldn't have believed it." An old blacksmith in the Heavenly Refining Workshop exclaimed excitedly.

Over these five years, they had almost watched Xu Nian forge one top-grade spiritual artifact after another.

These artifacts piled up like mountains, in various forms.

Heavenly Thunder descended almost every few days.

They even became accustomed to this lifestyle.

However, this made them even more astounded.

Refining the Heavy Origin Iron Hammer is extremely difficult, but in Xu Nian's hands, it became quite easy.

Almost every soldier in the city is now equipped with a top-grade spiritual artifact.

"Brother Liu, admire me? Then take out one of your treasured Ice Dew Wine bottles, only then will I believe you truly admire me," Xu Nian teased with a smile.

During this time, he had fully integrated with these blacksmiths and became quite familiar.

"You kid, just aiming for my Ice Dew Wine, which I've only got three bottles left, set aside as wedding wine for my daughter's future marriage. If you want to drink it, you'll have to become my son-in-law." Elder Liu immediately countered Xu Nian's tease.

Xu Nian's mouth twitched.

Marry his daughter?

His daughter is only ten years old, right!

How could someone do this to their daughter?

But Xu Nian also understood it was Elder Liu's way of acknowledging him.

"Elder Liu, let's not joke around. I heard there's been movement over at Black Dragon City, is the war about to start?" Xu Nian asked Elder Liu.

Recently, Black Dragon City had been restless, several times sending agents into the city.

It seemed as if they were trying to confirm some information.

"Alas, indeed, war is inevitable. Elder Wang entered the forbidden land and hasn't returned. Black Dragon City likely received news; they've sent people several times to verify it. It won't be long before they launch an attack," Elder Liu said.

Xu Nian frowned upon hearing this.

Although he was an outsider, destined to leave one day, he didn't have much attachment to Black Wind City.

Over ten years of mingling with some people in Black Wind City, feelings grew.

Xu Nian didn't want to see them end up with a broken home.

Thinking of this, Xu Nian touched the black long saber beside him.

This long saber was also recently forged by Xu Nian using Heavy Origin Iron.

But everyone around, upon looking at the saber, had their pupils shrink.

Because the blade could be described as thin as a cicada's wing, and was even semi-transparent.

Forging something so hard as Heavy Origin Iron to this extent is simply craftsmanship of the highest order.

Indeed, this saber was crafted by Xu Nian for himself.

Since he cultivated with the wind attribute, the lighter the saber, the better.

Besides, Xu Nian had done some fine etching on the blade.

Enhancing his utilization of wind speed.

This saber took him three full months to forge.

But the effort was well spent, as with this saber, his combat power rose another level.

"Black Snow!"

Xu Nian uttered, and the black battle saber began to tremble rapidly, then transformed into a streak of light slicing into Xu Nian's dantian.

Black Snow was the name Xu Nian gave this battle saber.

The name was due to the saber, when swung, resembling black snowflakes fluttering.

It was also a symbol of Xu Nian's longing for Murong Xue.

Xu Nian constantly thought about Murong Xue.

Since learning of Murong Xue's amnesia, Xu Nian vowed to restore her memory.

But the more he entered the Cultivation World, the more he felt the Tiancang Sect's formidable power.

Thus, he knew to find Murong Xue, he needed to enhance his strength greatly.

"Bad news, bad news, Black Dragon City's army is attacking!" At this moment, a shout came from outside the Heavenly Refining Workshop.

Xu Nian and the surrounding blacksmiths' eyes tightened.

Immediately, they rushed towards the direction of the city wall.

These blacksmiths were warriors by nature.

In case of battle, they would pick up arms first to defend Black Wind City.

Xu Nian, too, followed Elder Liu and the others up to the city wall.

Under the terrifying gravity of the Black Corner Domain, even an Earth Immortal realm expert couldn't fly.

Thus, if one wanted to enter the city, they had to breach the walls.

"Salute General Xu!"

As Xu Nian reached the wall, warriors around him greeted him.

Xu Nian nodded in response.

He held the position of Deputy General, which was known by all the soldiers in Black Wind City.

Although they knew his combat power wasn't strong, simply for having forged the top-grade spiritual artifacts for them, he earned their respect.

"You're here!" Wei Feng said simply, though his gaze remained fixed ahead.

"How are things looking?" Xu Nian disregarded these matters and asked about the enemy.

"Black Dragon City has begun their movements, confirmed by scouts that they've started out, arriving under our walls by noon tomorrow." Wei Feng stated with gravity.

"How many are there in total?" Xu Nian quickly asked.

"Five thousand! This time Black Dragon City is fully committed, seems they're determined to fight to the death." Wei Feng's eyes narrowed, his tone exuding murderous intent.

"Five thousand?" Xu Nian's brow furrowed.

Black Wind City had only about a thousand guarding the city, a stark difference from Black Dragon City.

Despite having his top-grade spiritual artifacts aiding.

But the outcome of this war remained uncertain.

"Brother Xu, if war breaks out tomorrow, you should refrain from engaging in the fight, as you're incredibly important to Black Wind City." Wei Feng turned to Xu Nian and suggested.

However, Xu Nian shook his head.

About to retort, an inappropriate voice interrupted.

"Yeah, useless rubbish should stay away to avoid getting killed and embarrassed." Xu Nian frowned, turning towards the stairway.

Soon, a young man in a white robe walked up from below.

"Wui Lun?" Xu Nian squinted his eyes.

Indeed, the newcomer was none other than Wui Lun.

Wei Feng also didn't seem fond of Wui Lun, coldly asking, "Why are you here?"

"With a great enemy ahead, I'm naturally here to fend it off, General Wei Feng. Or are you displeased to see me?" Wui Lun coldly inquired, eyes carrying a light disdainful challenge.

Chapter 952: The Greedy Black Dragon

"You're going to fight? It takes courage to kill on the battlefield. The battlefield is ruthless, and you could lose your life at any moment," said Wei Feng coldly.

Wei Feng deeply despised Wui Lun.

Although Wui Lun's strength wasn't weak, having already reached the Middle Stage of the Tribulation Gang Realm,

in Wei Feng's eyes, such a hothouse flower simply couldn't withstand the ravages of the battlefield.

"General Wei, you're underestimating me. Even if I'm useless, I'm better than some who only know Artifact Refining," Wui Lun said, glancing at Xu Nian intentionally or unintentionally.

Xu Nian chose to ignore it.

He had seen many spoiled children like Wui Lun, whose main feature was being all talk and no action, and insolent.

"Mind your manners. Since you've decided to join the army and resist the enemy, you'll have to obey military orders. Xu Nian is the Deputy General of our Black Wind City, and from now on, you must salute him when you see him," Wei Feng snorted coldly.

"Salute? General Wei, you've made great contributions to battles, and I respect you, but what qualifications does this Xu Nian have to be a deputy general? Just for refining some weapons? Our Black

Wind City wouldn't treat him unfairly; some benefits are enough for him. As for matters on the battlefield, I think he should forget it," Wui Lun said without any reservation.

"This is the City Lord's decision. If you have an opinion, you can take it up with the City Lord. But before that, you must follow the military orders of Black Wind City's army," Wei Feng said sternly.

For someone who frequently fought on the battlefield, military orders were of utmost importance.

Clearly, Wui Lun's arrogance had caused him great displeasure.

"General Wei, it's true he's appointed by the City Lord, but don't forget, the three elders also have the authority to appoint and dismiss. So, I came here under my father's orders to assume the position of Deputy General of the City Guard. As for the original Deputy General Xu Nian, if he wishes to continue in the army, he can take on the role of a Centurion," Wui Lun said, taking out a token.

The token had the character 'Wui' engraved upon it.

It was one of the tokens of the three elders.

The power of the three elders was substantial, and even the City Lord could carry out dismissals.

Thus, the three elders weren't just the top experts within the city, but they also held significant status.

Wui Lun's father, Wui Tong, was one of the three elders, who had a child in his old age.

He doted on this son excessively, making him exceedingly arrogant and despotic in Black Wind City.

Wei Feng never expected Wui Tong to use his power to remove Xu Nian's position and appoint his own son instead.

How would Xu Nian view this?

After all, Xu Nian had rendered outstanding service to Black Wind City.

Were they not afraid of losing Xu Nian's loyalty?

Thinking of this, Wei Feng couldn't help but look towards Xu Nian.

At this moment, Xu Nian truly felt a bit angry.

It wasn't the position he cared about, but his dissatisfaction with Wui Tong's decision.

Initially, he thought Wui Lun was arrogant, and his father Wui Tong would be a sensible person.

But it turned out like father, like son.

"General Wei, there's no need to make things difficult. Since some people want this deputy general position, let them have it. I'd prefer the leisure, and as for the Centurion role, I think I'll pass," Xu Nian said with a smile.

With that said, he handed over his military order and turned to leave.

Seeing Xu Nian leave, a smug smile immediately appeared on Wui Lun's face.

In his eyes flickered a hint of killing intent.

"Just an ant, daring to be arrogant in front of me. Taking your position is just the first step. I'll make sure you understand the consequences of offending me," Wui Lun muttered to himself, his eyes showing a trace of treachery and cunning.

Beside him, Wei Feng frowned deeply, feeling dissatisfaction in his heart.

However, he had no choice.

As Xu Nian descended the city tower, he felt somewhat amused.

He came to the Black Corner Domain originally to obtain the Tao Trace Fruit and then leave as soon as possible.

But in the past ten-plus years, not only did he not pursue the whereabouts of the Tao Trace Fruit, he also worked hard to help Black Wind City refine artifacts.

Of course, he knew he was repaying Elder Wang for discovering his talents earlier.

"Never mind, I'll check the forbidden land first," Xu Nian muttered to himself.

After saying that, he started moving towards the innermost forbidden land of Black Wind City.

...

Just as Xu Nian left the city tower and headed towards the forbidden land,

thousands of miles outside Black Wind City, there was an army of thousands moving towards Black Wind City.

Leading them was a man riding a black leopard.

Although the black leopard wasn't huge, its black fur was as smooth as satin.

Its pair of brown eyes were extremely sharp, scanning the surroundings with a chilling effect.

The middle-aged man atop it was imposing, clad in black iron armor.

He had long black hair, disheveled and draping down his back.

He resembled an enraged lion.

Exuding a natural aura of authority.

Yes, this man was the Black Dragon City Lord, Black Dragon.

Beside him, there were two elders.

These two elders appeared immortal and awe-inspiring, making others feel intimidated.

They were the other two Earth Immortal experts of Black Dragon City, with strengths in the Late Stage and Middle Stage of the Earth Immortal Realm, respectively.

"City Lord, that Elder Wang entered the forbidden land five years ago and hasn't come out since. I believe he most likely won't return. This is a prime opportunity to annex Black Wind City!" one of the elders said with a smile.

Black Dragon's lips curled into a smile. He hadn't launched an attack sooner because of Elder Wang, the Undying One.

Now that the Undying One had entered the forbidden land, it was a heaven-sent opportunity for him.

"Besides Huo Xian, Black Wind City has two Earth Immortals, so I'll need the two of you to hold them off," Black Dragon said to the two elders beside him with a grin.

"No problem. Wui Tong and Wu Guang are about as strong as us. As soon as they make a move, we'll hold them off. Rest assured, City Lord, just make your move. However, Huo Xian seems a bit tricky to

deal with. It's said she has broken through to the Earth Immortal Realm," another Earth Immortal expert said.

Black Dragon chuckled softly upon hearing this: "I'll deal with that Huo Xian. With the Destroying Immortal Needle in hand, killing her should be easy. Though it's a pity; she is indeed a rare beauty."

"Haha!"

Black Dragon's words immediately caused the two Earth Immortal experts to laugh heartily.

"By the way, City Lord, I've heard from a spy that a Top-grade Artifact Refiner has emerged in Black Wind City. In recent years, he has refined several top-grade spiritual artifacts, greatly increasing the City Guard Army's strength. You'd better be careful with your army," one of the Earth Immortals said.

But Black Dragon just laughed: "Isn't it just a Top-grade Artifact Refiner? How many weapons can be refined in five years? At most a hundred, nothing to fear. However, if that Artifact Refiner could pledge allegiance to our Black Dragon City, it would indeed be a boon."

Both Earth Immortals nodded, expressing their agreement.

They were determined to win this war.

"Hmph, once I take Black Wind City, the Abyss Forbidden Land will be mine. I, Black Dragon, must obtain the Tao Trace Fruit and achieve immortality," Black Dragon's fist clenched, his eyes filled with a strong greed.

Chapter 953 Immortal Pill

In the depths of Black Wind City, at the entrance to the Abyss Forbidden Land.

Xu Nian was frowning as he looked at the enchanting woman sitting cross-legged in front of him.

He had never imagined that Huo Xian would be at the entrance to this forbidden land.

Xu Nian didn't know whether she had been here for a long time or was specifically waiting for him.

At the moment, Huo Xian was sitting with her eyes closed, her exquisite face as calm as water.

"Greetings, City Lord." Xu Nian thought for a moment and decided to break the silence.

Xu Nian's voice was like a stone sinking into the sea; Huo Xian did not open her eyes.

Xu Nian hesitated for a moment and prepared to turn around and leave.

"You have come!"

However, before Xu Nian could take two steps, Huo Xian's voice came from behind him.

Xu Nian turned around again and found that Huo Xian had already opened her eyes and stood up.

"City Lord, were you waiting for me?" Xu Nian asked curiously.

Although Huo Xian had just said three words, it was clear she was waiting for him.

"That's right, I was indeed waiting for you. Before Elder Wang left, he told me that you would eventually come to the forbidden land," Huo Xian said, looking at Xu Nian.

Xu Nian nodded.

With Elder Wang's insight, seeing through his purpose was not a difficult matter.

"So, is there a reason why the City Lord is waiting for me here?" Xu Nian thought for a moment before asking.

"I am waiting here to stop you from entering the forbidden land, at least not now," Huo Xian said.

"Why?" Xu Nian asked in confusion, his brows slightly furrowed.

"Firstly, with your current strength, entering the forbidden land is a dead end. Elder Wang should have already told you this," Huo Xian said.

Xu Nian nodded.

Elder Wang did tell him that the forbidden land was very dangerous.

But in any case, he still had to enter this forbidden land.

"City Lord, what exactly is dangerous about this forbidden land?" Xu Nian asked curiously.

Huo Xian did not directly answer Xu Nian's question but instead asked, "Do you know how the Dao Trace Fruit comes into being?"

"I don't know!" Xu Nian shook his head.

"The Dao Trace Fruit grows on the Dao Trace Tree, and this Dao Trace Tree evolved from the Law Fragment shed by a Life God Emperor when he was dying. Therefore, the Dao Trace Fruit contains Life Profound Argumentation Fragments, and during the evolution of the Life Law Fragment, the surrounding area of a hundred miles becomes an Abyss Precipice, consuming life from anything entering its domain mercilessly," Huo Xian said.

"Consuming life?" Xu Nian's face showed an expression of surprise.

He did not expect the Dao Trace Fruit to come into being this way.

Life Law Fragment?

That is a higher level of insight than the Wood Attribute Profound Argumentation.

The life-consuming field of the Wood Attribute is already terrifying, so wouldn't the consumption by the Life Law be even more terrifying?

Thinking of this, Xu Nian also felt a bit afraid.

"Then Elder Wang must be..." Xu Nian suddenly thought of something.

Huo Xian remained silent for a long time before speaking, "Elder Wang already had limited life left, and the consuming speed of the abyss precipice is extremely terrifying. Only those strong as immortals can resist this terrifying consumption speed. Otherwise, with our cultivation, we would be nothing but bones before reaching the Dao Trace Tree."

Xu Nian was speechless.

Although he had already guessed that the consuming speed of the Dao Trace Tree would be terrifying, he did not expect it to be this extreme.

They had at least a few thousand years of lifespan, yet they couldn't persist until reaching the Dao Trace Tree.

However, this is also influenced by the frightening gravity of the Black Corner Domain.

If it were outside, a hundred miles would be a matter of moments.

"Thank you, City Lord, for letting me know. Otherwise, if I had rashly entered, I might have already perished," Xu Nian thanked Huo Xian.

Actually, what Xu Nian said was just pleasantries.

He has the Chaos Divine Palace, and once danger occurs, he can immediately hide within the palace.

No matter how powerful the Dao Trace Tree's might is, it can't affect the Chaos Divine Palace.

"I was waiting for you here for a second purpose," Huo Xian said, looking at Xu Nian.

"A second purpose?" Xu Nian was surprised.

Huo Xian nodded and said, "Before leaving, Elder Wang gave me something. He said that if Black Dragon City attacks in the future and he doesn't come out, to give this thing to you. He hopes you can rescue Black Wind City from the crisis."

After speaking, Huo Xian revealed a metal box in her hand.

"Something? To save Black Wind City?" Xu Nian looked surprised.

Even though his strength matches the Middle Stage of Tribulation Crossing, in this world of terrifying gravity, it is not considered top-notch.

How could he save Black Wind City?

However, at this moment, Huo Xian had already pushed the metal box into Xu Nian's hand.

Xu Nian took the metal box, curious about what it contained.

"Although I don't believe you can save Black Wind City, I still believe in Elder Wang's choice. Since he says you can take on this responsibility, then you surely can," Huo Xian said, leaving Xu Nian with a sentence before turning around and leaving.

Xu Nian watched Huo Xian's figure and looked at the metal box in his hand, filled with confusion.

"What's in this metal box?" Xu Nian was curious.

Thinking about it, Xu Nian decided to open the metal box.

Once opened, everything would be solved.

This metal box was antiquated and intricate; it was unknown what material it was crafted from. It was very lightweight, yet extremely hard.

There were no seals on it, so Xu Nian easily opened the metal box.

But as soon as Xu Nian opened the metal box, a dazzling light burst from the box's crevice.

Then, a dazzling, fingernail-sized pill appeared before Xu Nian.

Xu Nian's pupils instantly widened.

He stared in amazement at the pill in his hand.

This pill was not a Spirit Pill but an Immortal Pill.

Because it emitted an Immortal Essence Wave identical to the one from the immortal corpse Xu Nian had previously found.

"It's actually an Immortal Pill. If I consume this pill, wouldn't my strength greatly increase?" Xu Nian exclaimed in surprise.

The hand holding the metal box trembled slightly.

Never did he expect Elder Wang would leave him an Immortal Pill.

"Ha, it's just a low-level Immortal Pill. Look how excited you are. Let me tell you, your master left you many Immortal Pills and even Divine Pills in the Chaos Divine Palace, which are tens of thousands of times more effective than this," Dao Tian Rat's voice echoed in Xu Nian's mind.

"Divine Pill? Show me." Xu Nian hurriedly asked.

"No way, it must wait until your strength breaks into the Divine-level. Possessing treasures now is equivalent to courting death for you, so you can only obtain the palace's treasures once you reach the level your master set for you," Dao Tian Rat said.

Xu Nian was speechless.

After saying so much, it's still equivalent to saying nothing.

At this moment, no Divine Pill is more important than this Immortal Pill in front of him.

Chapter 954 Domain Realm

Xu Nian didn't think much about it, but directly entered the Chaos Divine Palace and swallowed the Immortal Pill.

For him, enhancing his cultivation is the most crucial thing right now.

And this Immortal Pill came at just the right time for him.

Of course, he still owes Elder Wang for this favor.

If Black Wind City ever faces any danger, he will do his utmost to help.

Thus, Xu Nian immersed himself in the devouring of the Immortal Pill.

The energy contained in the Immortal Pill is extremely vast.

Fortunately, Xu Nian's Undying Devouring Sky Beast possesses a frenzied devouring ability.

Xu Nian unleashed his Swallowing Heaven and Earth Talent Divine Ability, frantically devouring the energy emitted by the Immortal Pill.

As Xu Nian continued his frenzied devouring, his cultivation gradually increased.

From the initial Middle-stage of Heavenly Phenomenon Realm, he directly charged towards the Late-stage of Heavenly Phenomenon Realm.

Thus, Xu Nian immersed himself in the frenzied devouring.

...

While Xu Nian's avatar's cultivation soared crazily, Xu Nian himself brought Tyrant to Earth City.

"Brother, thank you for saving my life!"

Tyrant was now clear-headed, but due to the side effects of the Tyrant Seal, he was seriously injured.

"There's no need to thank me. Didn't you hold off six people on your own to give me time to escape? In essence, we both canceled each other out." Xu Nian replied with a smile.

Xu Nian saved Tyrant because of the words he said at that time: Brother, you go first, I'll hold them off.

Precisely because of those words, Xu Nian risked his life to save Tyrant at the moment of crisis.

Truthfully, if he hadn't forcibly twisted space at the last minute to avoid the attacks from the two of them,

both he and Tyrant could have been left behind, which would have been extremely dangerous.

Tyrant nodded with a smile.

Now they were safe; fighting in the Profound Argumentation City is forbidden.

Otherwise, they would be killed by the formation within the city.

"Next time, I'll definitely make Black Snake Team and Black Armor Team pay." Tyrant's eyes burned with fury, filled with intense anger.

"They indeed need to pay. I injured Teng Shan, but I didn't kill him. I believe Black Snake Team might rescue him." Xu Nian said with a smile.

"Thanks, brother. I didn't expect your strength to be so formidable, especially the profound argumentation you exhibited last time—was that Space Profound Argumentation?" Tyrant asked, looking at Xu Nian.

Xu Nian nodded.

There was nothing to hide from Tyrant anymore.

"Haha, it seems I really didn't choose the wrong person, recognizing a brother who can wield Space Profound Argumentation." Tyrant laughed heartily.

Xu Nian smiled gently.

Space Profound Argumentation is indeed extraordinarily powerful.

Space Profound Argumentation comprises three types: Space Folding, Space Tear, and Space Solidification.

Xu Nian's highest comprehension is of Space Shuttling, having reached the Great Success Realm.

However, Space Tear and Space Solidification remain in the Small Achievement Realm.

Space Twisting is an application of Space Tear Profound Argumentation used defensively.

It allows altering the direction of space instantaneously, rendering enemy attacks unable to strike him.

Even this is within the Small Achievement Realm, but if Xu Nian reaches the Great Success Realm in Space Tear Profound Argumentation,

he could even twist the light within the space, preventing enemies from observing him, akin to the legendary Invisibility.

Of course, this is merely a defensive application, but on the offensive, instant space twisting, like forming a space vortex, can create the power of Space Tear, tearing enemies apart.

However, without reaching the Domain Realm, the power of Space Tear is too weak.

Only upon reaching the Domain, the tear power can unleash its strong effect.

As for Space Folding and Space Solidification, they have many applications, all await Xu Nian's insight and excavation.

Each profound argumentation might evolve into hundreds or even thousands of applications and techniques, depending on one's comprehension.

"Brother, within Earth City, we're temporarily safe, but Black Snake Team and Black Dragon Team will continue guarding the city's entrance. If we leave the city, they'll surely choose to strike us." Tyrant said to Xu Nian.

"Yes, I've thought about that too, but when we venture out next time, it will be their doom." Xu Nian replied with a faint smile.

"Oh? Brother, do you have the confidence to deal with them?" Tyrant curiously asked.

Xu Nian smiled slightly: "Not yet, but once I break through to the Domain Realm, I believe dealing with them won't be an issue."

"Indeed, a breakthrough into the Domain!" Tyrant's eyes brightened.

With a breakthrough into the Domain, their combat power will experience a qualitative leap.

By then, Black Snake Team and Black Armor Team surely won't be their match.

Thus, Xu Nian and Tyrant headed towards the Profound Argumentation Tower.

Upon arriving at the Profound Argumentation Tower, Xu Nian decisively chose to enter the second floor of the tower.

Tyrant likewise accompanied Xu Nian to the second floor.

The second floor of the Profound Argumentation Tower resembled the first floor, but there were only six diagrams in total.

Moreover, the profound argumentation patterns on each diagram were more complex than even the eighth diagram of the first floor.

Comparatively, fewer people delved into comprehension on this second floor.

Xu Nian didn't dwell much, directly approaching the first diagram and sitting down, starting to sense the earth attribute patterns within the diagram.

Soon, he fell into the ocean of earth attribute elements.

Here, Xu Nian clearly felt the different gravitational changes produced by the combination of these elements.

Next to him, Tyrant also fell into insight cultivation.

Xu Nian expended thirty thousand points in total.

This means he can cultivate on the second floor for six days.

But breaking through to the Domain Realm within six days is definitely not an easy task.

Time slipped away bit by bit.

Two days later, Xu Nian stood up.

He approached the second diagram.

In front of the second diagram, he sat cross-legged again for a day.

Then proceeded to the third diagram, spending half a day there.

Upon reaching the fourth diagram, he took less than half a day.

For the fifth diagram, it only took him six hours.

The sixth diagram consumed the shortest time, precisely two hours.

Xu Nian then exited the Profound Argumentation Tower.

Indeed, Xu Nian exited the tower a day ahead of schedule.

After leaving the Profound Argumentation Tower, Xu Nian didn't leave, but sat cross-legged outside in the tower's training ground.

A day later, Tyrant exited the Profound Argumentation Tower as well.

Xu Nian slowly opened his eyes.

"Brother, why did you come out early? Did you perhaps break through?" Tyrant looked at Xu Nian with some curiosity.

He knew that Xu Nian had left early, but he was occupied with cultivation at the time, so he hadn't asked.

Seeing Xu Nian now, he couldn't help but voice his curiosity.

However, he didn't believe Xu Nian could break through to the Domain so swiftly.

After all, others take decades or even centuries to comprehend this state, so if Xu Nian accomplished it in a few days, it would be too incredible.

Yet, the smile on Xu Nian's face took Tyrant by surprise.

Then he saw Xu Nian gently nod, saying: "Indeed, I've gained some insights; coming out early was to digest this understanding."

"Truly broken through?" Tyrant questioned, barely believing his ears.

The Domain Realm!

Xu Nian is so young?

Chapter 955: Regaining Face

"Really!" Xu Nian said with a serious smile.

Tyrant immediately took a sharp breath.

He originally thought he would step into the Domain Realm earlier than Xu Nian.

But he never expected that Xu Nian would break through to the Domain Realm in just five days.

"Let's go to the arena. I want to see what your domain is like, little brother," Tyrant immediately suggested.

Xu Nian smiled and agreed.

He also wanted to see his domain since he hadn't had a chance to display it since comprehending it.

As for the arena, it's where cultivators spar with each other.

Also, it's the only place in Earth City where combat is allowed.

Of course, killing is not allowed here either.

Soon, Xu Nian and Tyrant found an empty space.

The two stood facing each other; Tyrant wielded a sledgehammer, while Xu Nian stood calmly with his hands behind his back.

"Quick, little brother, release your domain and let me take a look," Tyrant said excitedly.

It was as if he had broken through to the Domain Realm, not Xu Nian.

"Alright!" Xu Nian responded.

With that, he focused his mind, and an invisible gravity wave emanated from his body.

This wave immediately spread out in all directions, forming a domain with a radius of one thousand meters.

That's right, Xu Nian, having just entered the Domain Realm, could only cover a radius of one thousand meters.

But for him, such a range was already enough.

"Huh, there's no change; aside from the slightly increased gravity, it seems like nothing else is different," Tyrant remarked curiously, sensing the changes around him.

Xu Nian smiled slightly and said to Tyrant, "Why don't you attack me and see for yourself?"

"Fine, you'd better be ready," Tyrant responded. Then, with a loud shout, he leapt into the air, swung his massive hammer, and aimed it fiercely at Xu Nian.

Xu Nian looked at the approaching sledgehammer, a light smile playing on his lips.

He showed no intention of dodging.

Just as Tyrant's hammer was about to hit Xu Nian, Xu Nian waved his sleeve.

"Rise!"

With that single word from Xu Nian, four walls instantly emerged from the ground.

Tyrant and the hammer seemed to be suddenly pulled by a mysterious force, directly crashing into the left wall.

"What's going on? Why did the gravity direction change?" Tyrant propped himself up against the left wall, trying to stand.

However, his entire body was completely sideways.

"Because within my domain, the direction and intensity of gravity can be freely controlled by me," Xu Nian explained with a smile.

Then the gravity shifted once more, this time pulling towards the right.

Tyrant's entire body flew directly to the right, his head slamming loudly against the right wall.

It left him dizzy.

Before he could react, gravity shifted again, returning to normal downwards.

He was heavily slammed to the ground.

"Damn, how could there be such a perverse domain?" Tyrant groaned, holding his head as he stood up.

Xu Nian chuckled.

In battle, suddenly changing the direction of gravity was definitely a killer move.

In that instant, it would definitely cause the opponent's body to lose balance.

"Brother Meteor, even if someone else could change gravity direction, it wouldn't be as terrifying as yours, right? With my earlier strength, I couldn't withstand it!" Tyrant said.

Xu Nian smiled, "The gravity I used just now was a full thirty thousand times normal gravity. In normal situations, given time to adapt to thirty thousand times gravity, you could certainly react, but in the midst of battle, suddenly changing the direction, unless you're an Earth Immortal Expert, it's impossible to forcibly maintain balance."

"Perverse! Truly perverse," Tyrant nodded.

Indeed, thirty thousand times gravity is not considered high.

But the peculiarity of this Gravity Space Domain is in its ability to change gravity direction at any moment.

In the heat of battle, suddenly changing gravity—without Earth Immortal Realm strength—makes it very difficult to react.

Even an Early Stage Earth Immortal, caught off guard, could suffer a major blow.

"Haha, little brother, with this Gravity Space Domain, even Peak of Tribulation Crossing is not your match, and no matter how many come, as long as they're within your domain, without an Earth Immortal, you are invincible," Tyrant laughed heartily.

Xu Nian smiled slightly.

Actually, there was something he hadn't mentioned.

The thirty thousand times gravity was just his own manipulation of gravity.

He had a Gravity Ring in his hand, which could instantly amplify the gravity tenfold to three hundred thousand times.

Such a magnitude and direction change, even an Early Stage Earth Immortal might not withstand it.

Xu Nian was quite satisfied with this domain breakthrough.

With this, he had an extra life-saving ability on Slaughter Star.

"Let's go, Brother Meteor, let's leave the city and let the Black Snake Team and Black Armor Team also witness the profound argumentation of your Gravity Space Domain," Tyrant said excitedly, patting Xu Nian.

"Alright, I was just thinking of finding someone to test my domain, so let's use them as the test subjects," Xu Nian replied with a smile.

Hearing this, Tyrant was even more excited, dragging Xu Nian towards the city gate.

...

At this moment, six people were gathered at the entrance of the Earth City.

These six were none other than the Black Armor Team and Black Snake Team.

Among them was Teng Shan, who had fully recovered from his injuries.

Of course, it was the result of consuming a large amount of healing pills.

"Hei Snake, these two guys aren't planning on hiding in Earth City forever, are they?" Hei Jia asked, looking towards the city gate.

"They won't. They will come out sooner or later. Once they dare to come out, we will immediately surround them and not let them escape again," Hei Snake replied with a sinister look in his eyes.

"That kid beside Tyrant is quite strange; he seems to be able to make our attacks turn," Hei Jia said again.

"That kid is indeed strange, but his strength isn't too strong. Teng Shan has already tested his limits in their previous fight, which should be between Late Stage Tribulation Crossing and Peak of Tribulation Crossing. When it comes to a real fight, I am confident of killing him, especially since my brother Hei Yu has reached Peak of Tribulation Crossing; killing him should be a piece of cake," Hei Snake pointed to his brother beside him.

Hei Jia glanced at Hei Snake's twin brother, who indeed broke through to Peak of Tribulation Crossing three days ago.

This meant their two teams had three people at Peak of Tribulation Crossing.

This made ambushing Tyrant feel even more confident.

"Look, they're coming out," at that moment, a Late Stage Tribulation Crossing expert from the Black Armor Team pointed towards the inside of the city.

Both Hei Jia and Hei Snake looked towards the city and indeed saw Xu Nian and Tyrant coming out.

As soon as they saw Xu Nian and Tyrant step through the city gate, they quickly surrounded them.

Meanwhile, Hei Jia circled behind Xu Nian and Tyrant, ensuring they couldn't retreat back into the city.

Xu Nian and Tyrant exchanged a glance, amusement gleaming in their eyes.

Chapter 956: The Might of the Domain

"Tyrant, I thought you would keep hiding in Soil City, but I didn't expect you to come out on your own," Teng Shan said with a cold laugh as he looked at Tyrant.

Tyrant had always been a thorn in his side.

So when he saw Tyrant voluntarily leave Soil City, he felt very excited inside.

In his view, Tyrant stepping out at this time was nothing short of seeking death.

"Teng Shan, don't be too happy too soon. You might find yourself crying later," Tyrant said with a light smile.

Having witnessed Xu Nian's domain, Tyrant felt no concern.

On the contrary, he was somewhat excited.

He was eager to see the expressions of these people once they witnessed Xu Nian's domain.

"Hmph, Tyrant, I fear the one crying will be you. You are already trapped with no escape, and soon will face your doom," Teng Shan snorted coldly.

Tyrant was arrogant even in his final moments, truly unaware of the danger.

Tyrant responded with a cold smile.

On the other side, Hei Jia and Hei Yu both locked their eyes on Tyrant.

"Tyrant, hand over the Tyrant Seal. You should know that even if you enter a berserk state, you are no match for us. We have three Late Stage Tribulation Crossing experts here," Hei Yu said with serpent-like eyes fixed on Tyrant.

As for Xu Nian, he continued to be ignored.

"Hei Yu, if you want the Tyrant Seal, let's see if you have the ability to take it. Don't worry, I won't be entering a berserk state this time, because your opponent isn't me, it's my brother Meteor," Tyrant said to Hei Yu and others.

"Meteor?" Hei Yu and Hei Jia both turned their gaze to Xu Nian.

They dared not underestimate the peculiar Xu Nian.

But after examining Xu Nian closely, they found that his cultivation had not changed at all.

This originally wary mindset suddenly relaxed again.

At this moment, many people had gathered on the tower of Soil City.

They curiously watched the situation below.

In their view, Tyrant had very little chance of winning.

Moreover, Tyrant said he would let Meteor beside him fight.

What use could an Early Stage Heavenly Phenomenon bring?

"Are these two guys insane? Knowing the Black Snake Team and Black Armor Team are ambushing them, they still dared to come out."

"Yeah, and this Meteor is only Early Stage Heavenly Phenomenon, how could he be a match for the two teams? Tyrant is basically sending him to his death!"

"Who knows, maybe he's lost his mind."

...

The crowd around debated fervently.

To Tyrant and Xu Nian, they all looked as if watching fools.

Hei Yu's brother Hei Jia gazed at Xu Nian with eyes full of mockery.

"Indeed, your opponent is me," Xu Nian said with a smile.

Upon hearing this, Hei Jia couldn't sit still and said directly to Hei Yu, "Brother, let me go, I'll solve him directly."

Hei Yu hesitated for a moment and nodded, saying, "Be careful."

"Rest assured, in three breaths, he'll surely die," Hei Jia said coldly with a sneer, eyes filled with disdain.

After speaking, he stepped forward and looked at Xu Nian.

"Brother Hei Jia, kill him!" Teng Shan shouted excitedly.

Previously beaten badly by Xu Nian, he harbored a lot of resentment.

Now seeing Hei Jia make a move, he was naturally pleased.

Xu Nian looked at the approaching Hei Jia and revealed a slight smile at the corner of his mouth.

"You're not my opponent. If you want to live, I advise you all to come at me together," Xu Nian said with a smile.

"Boastful words, seeking death!" Hei Jia said, furious upon hearing this.

Immediately, a Battle Saber appeared in his hand, a surge of Thunderclap Power erupted from him.

His figure transformed into a Thunderclap shadow, charging directly towards Xu Nian.

"Thunderclap Speed Profound Argumentation?" Xu Nian saw this and was somewhat surprised.

Hei Jia had comprehended Thunderclap Speed Profound Argumentation and seemed to have entered the Great Success Realm.

The speed at this moment was unbelievably fast.

"So fast!"

The crowd around the tower shouted in astonishment.

Such a fast body skill, faster than most Peak of Tribulation Crossing experts.

This guy named Meteor probably won't stand a chance.

"Die!"

Hei Jia sneered coldly, the Battle Saber in his hand directly slashing towards Xu Nian.

Thunderclap Power danced along the blade, emitting brilliant blue arcs.

With Thunderclap Speed integrated into the blade, the attack speed became incredibly fast.

The crowd only saw a blue saber shadow.

The surrounding crowd exclaimed in surprise; Meteor stood still, unable to react, they thought.

Hei Yu on the side also smiled lightly, even he was slightly inferior to his brother's speed.

He believed Meteor absolutely could not resist.

However, at this critical moment.

"The speed is good, but wanting to kill me like this, you underestimate me too much, Gravity Space Domain, open!" Xu Nian snorted coldly.

Immediately, he waved his sleeve, instantly changing the gravity direction to the left.

Hei Jia, who had initially slashed towards Xu Nian, was suddenly pulled off balance, his form halted, his center of gravity disrupted, and the saber's trajectory deviated.

Xu Nian seized the moment, dodged the sharp blade.

Simultaneously took a step forward, closing in on Hei Jia.

Hei Jia now channeled True Essence, adjusting his center of gravity, neutralizing the bizarre gravity, again slashing towards Xu Nian.

Xu Nian again shifted his mind, gravity transferred downwards.

This time Hei Jia, caught off guard, was directly sent plunging towards the ground.

Xu Nian seized the instant Hei Jia's defenses were breached, directly using Gravity Wave, throwing a punch.

"Boom!"

Hei Jia was instantly sent flying backward.

Finally crashed heavily onto the ground, rolling to a stop at Hei Yu's feet.

The crowd around was all shocked.

What happened here?

Hei Jia was clearly in an advantageous position, how could he suddenly show a flaw allowing this Meteor a chance to counterattack fiercely?

"Hei Jia!"

Hei Yu hurriedly helped Hei Jia up, but Hei Jia had already suffered severe injuries.

Xu Nian's punch had shattered his internal organs including his heart.

Even with Hei Jia's Peak of Tribulation Crossing cultivation, he couldn't survive.

"He... he has a domain! Be... be cautious!"

With these words finished, Hei Jia breathed his last.

"Brother!"

Hei Yu cried out, devastated, seeing his dead brother, his eyes went red instantly.

His gaze on Xu Nian filled with killing intent.

However, Hei Jia and others nearby were all extremely serious.

Because of the two words mentioned in Hei Jia's last words.

Domain?

But how is this possible?

This guy named Meteor is so young?

The surrounding people also heard Hei Jia's last words, but they still couldn't believe Xu Nian mastered a domain.

Yet, in the next moment, their expressions turned serious.

Because they witnessed below the city, tall walls of soil began to emerge around the Black Armor Team and Black Snake Team, directly sealing everyone inside.

Chapter 957: Wild Cruelty

The black snake and Hei Jia watched as tall earthen walls rose around them, frowning deeply.

Could it be that this guy called Meteor truly mastered the domain?

Teng Shan's expression also changed drastically at this moment.

Already sensing something was amiss when Hei Yu was killed before.

Now he felt an even greater sense of unease.

"Buzz!"

Immediately, he brandished his battle saber, slashing directly at the wall.

Trying to cut open the wall and escape directly.

However, his slash only left a mark on the wall, and in the next moment, the mark quickly healed.

"Haha, Teng Shan, you can't escape, these walls are condensed using the domain power of Gravity Space. Unless you have the strength of the Earth Immortal Realm, you can't cut through them," Tyrant laughed loudly.

Teng Shan's face changed instantly upon hearing this.

Then he tried to leap upward and escape.

Yet, just as he prepared to leap out, the gravity beneath his feet suddenly changed.

A strong suction force came directly from the left side.

Originally flying at high speed, Teng Shan was suddenly drawn by this suction force.

He directly crashed into the wall, which left him dizzy.

Before he could respond again, a hand suddenly extended from the wall, clutching his neck and making him unable to move.

Teng Shan's eyes widened, seeing Xu Nian emerging from the wall, fear sinking into his heart like falling into an abyss.

The Black Snake and Hei Jia beside him were also shocked.

Finally, they realized that the Meteor before them had truly reached the domain level.

Capable of arbitrarily changing the direction and magnitude of gravity within the domain, and using the domain power to condense extremely hard earthen walls, moving freely within them.

"Please... don't kill me!" Teng Shan hurriedly pleaded.

"Rest assured, I told you I wouldn't kill you, otherwise you would have died last time," Xu Nian said with a smile.

Teng Shan rejoiced immediately upon hearing this.

Yet Xu Nian's next words left him in a frozen pit.

"Because your fate belongs to Tyrant, it's up to him to decide how to handle it," Xu Nian sneered.

Then he threw Teng Shan directly toward Tyrant.

"No..."

Teng Shan shouted in terror, being handed over to Tyrant was more painful than being killed.

But there was no room for him to think at this moment.

For Tyrant was already standing in front of him.

Now that his True Essence had been sealed by Xu Nian, he had no capacity to resist.

"Teng Shan, you killed my three brothers, now it's your time to repay," Tyrant shouted as he swung his battle hammer heavily upon Teng Shan.

Teng Shan immediately started vomiting blood.

But Tyrant didn't give him a chance to react, swinging his hammer at Teng Shan again.

Seeing this scene, Xu Nian no longer paid attention to Teng Shan and Tyrant.

Because he knew that Teng Shan was assuredly not going to survive, possibly even enduring greater pain than death.

Now he turned his focus to the Black Snake and Hei Jia.

Seeing Xu Nian looking at them, the expressions of Black Snake and Hei Jia grew more serious.

"Meteor, oh no, Lord Meteor, we truly did not expect you to break through to the domain level. If we had known, we absolutely wouldn't have offended you," Hei Jia said with a smile that masked his real intentions.

A domain level expert?

Absolutely nothing he could contend with.

If Xu Nian really decided to take action, he likely wouldn't survive.

The Black Snake remained silent, but there was a struggle in his eyes.

Clearly, Xu Nian's killing of his brother enraged him greatly.

But he knew that any attempt would be significantly unlikely here.

Indeed, within the domain, without absolute strength dominance, one would stand no chance against domain level opponents.

"Too late to beg for mercy now. Where was this plea when you previously ambushed us?" Xu Nian asked with a cold smile.

Hei Jia's smile froze instantly upon hearing this.

"Meteor, are you really going to be so ruthless?" Hei Jia changed his tone and demanded.

"What do you think?" Xu Nian retorted.

Someone like Hei Jia would bully the weak and fear the strong.

Slaughtering indiscriminately against those weaker, and groveling to those stronger.

Xu Nian felt not a shred of pity for such people.

"If it's like that, then prepare to die!" Hei Jia snorted coldly, signaling the two beside him.

Then the three simultaneously charged at Xu Nian.

Xu Nian watched the enemies coming from three directions simultaneously.

Symbolizing no panic in his eyes, but knowing to mobilize domain power.

Twisting gravity.

The gravity suddenly changed direction and magnitude.

The three rushing assailants staggered, their movements halted.

Xu Nian then suddenly appeared ghost-like in front of a late-stage tribulation crossing powerhouse.

The battle saber in his hand swiftly slashed.

"Splat!"

Blood splattered as a head rolled.

Decisive and clean.

The other late-stage tribulation crossing saw his companion killed, retaliated once more towards Xu Nian.

Xu Nian twisted gravity again.

The youth staggered once more due to the shift.

Such sudden changes in gravity direction are as though the ground beneath your feet turned suddenly.

Even if you were in the air, gravity would remain effective.

Of course, Xu Nian was unaffected, as this was his domain.

"Whoosh!"

The battle saber cleaved again.

That late-stage tribulation crossing youth, under gravity influence, failed to react, being split by Xu Nian.

In a blink, two late-stage tribulation crossing experts were dead.

Seeing this, everyone on the Earth Tower city walls inhaled sharply.

This domain power was fearsomely strong.

Within such a twisted domain, a sudden strike prevents normal battling.

Unless you possess monstrous defenses.

"Buzz!"

Seeing two team members slain, Hei Jia grew anxious, summoning his top-grade spiritual artifact battle armor.

Calling out to Black Snake on the other side: "Brother Black Snake, if you don't act now, you won't get another chance."

Upon hearing Hei Jia's words, a flash of killing intent passed through Black Snake's eyes.

Earlier, he didn't act as he pondered countering Xu Nian's domain.

But he came up with no viable strategy despite lengthy consideration.

For Xu Nian's domain was overly formidable.

"Gotta bite the bullet and charge," Black Snake mumbled to himself.

His form swiftly transformed into a black mist, darting toward Xu Nian.

This was the Profound Argumentation that the black snake comprehended, "Dark Concealment."

This fogification was also a move he grasped.

As soon as he enters fogification, he disbelieves Xu Nian can indeed attack him.

Upon watching this, Xu Nian chuckled: "Do you believe entering a fogification state removes gravitational effects?"

Then Xu Nian directly drew the fogified black snake.

Under gravity's influence, the black snake was forced out of fogification.

"Now's the chance!" Xu Nian simultaneously appeared ghost-like before the black snake.

Slashing directly toward him.

Chapter 958: Fame Begins to Emerge

Seeing the saber strike coming from Xu Nian.

Black Snake was immediately scared to the point of losing his soul, hurriedly entering a fogified state again.

"Whoosh!"

Xu Nian's battle saber pierced through the black mist but did not injure Black Snake.

Black Snake condensed his form and directly slapped a palm toward Xu Nian.

Within the center of the palm was the extremely powerful fluctuation of Dark True Essence.

If this palm were to hit, even if Xu Nian had a body comparable to a Top-Grade Spiritual Artifact, he wouldn't be able to withstand it.

"Buzz!"

With a thought, Xu Nian redirected the gravity once more.

He simultaneously reduced the gravity intensity instantly.

Black Snake's form became lighter, and his balance shifted again.

Xu Nian seized this opportunity to dodge Black Snake's palm.

Just as Xu Nian dodged, Hei Jia attacked from another direction.

The black long sword in his hand slashed directly towards Xu Nian.

The sword radiance carried with it a dazzling light, which exuded a sense of death.

Light Annihilation Profound Argumentation!

And it had evidently reached the Great Success Realm.

Even ordinary Peak Tribulation Crossing powerhouses would not dare to block this sword recklessly.

Xu Nian just smiled faintly, his form retreating mysteriously.

He directly merged into the soil wall.

The sword radiance of light struck the wall, leaving a sword mark, which healed in a very short time.

Hei Jia furrowed his brows deeply.

This guy can merge into this wall, making it incredibly difficult to kill him in his domain.

"Buzz!"

At that moment, a sharp sword light shot rapidly from behind Hei Jia.

Reacting immediately, Hei Jia turned to slash behind him.

Yet just then, the gravity changed again.

Hei Jia's form became unstable, his attack veered off course.

At the moment Hei Jia's balance shifted, Xu Nian's saber blade was already in front of Hei Jia.

The extreme sword light slashed directly at Hei Jia's neck.

The sword light was about to sweep across Hei Jia's neck.

The top-grade spirit armor on Hei Jia immediately emitted a glow, enveloping Hei Jia completely except for his eyes.

"Clang!"

The saber blade struck the scale armor, sparking brilliant fireworks.

Xu Nian's attack did not harm Hei Jia.

"Haha, I have top-grade spirit armor, your attack is useless against me." Hei Jia laughed heartily.

Meanwhile, Black Snake once again attacked Xu Nian.

His form transformed into black mist, surging toward Xu Nian.

Xu Nian's form retreated rapidly, these two late-stage tribulation crossers were even more troublesome than he imagined.

"Let's take him down together." Black Snake and Hei Jia seemed to see hope, exchanged a glance, and rushed rapidly at Xu Nian from two directions.

Xu Nian looked at the two attacking him, a cold smile on his lips.

"Seems I can't deal with you without showing some real skill." Xu Nian smiled lightly.

Then the battle saber in his hand disappeared, replaced by a Kunlun Hammer.

At the same time, with a thought, he directly activated the gravity ring on his hand.

Suddenly releasing the gravity to thirty thousand times, turning the gravity direction directly backward.

"Boom!"

Hei Jia and Black Snake, who were initially attacking, were immediately pulled back by the terrifying gravity, their forms instantly flying back.

Xu Nian stepped on the ground, appearing like a ghost in front of Hei Jia, swinging the hammer directly, crashing onto Hei Jia's abdomen.

"Boom!"

A sound like heaven-shattering.

The spirit armor on Hei Jia's body caved in directly.

"Pfft!"

Hei Jia spat blood wildly, like a meteor falling directly hitting the wall behind.

"No... impossible!" Hei Jia struggled to stand up from the soil wall.

However, he found the gravity acting on him was simply too terrifying.

Moreover, having endured Xu Nian's hammer blow had shattered all his bones and internal organs.

"How could your gravity domain be so strong? You just stepped into the domain, how can you exert such a powerful multiples of gravity?" Hei Jia asked in shock.

He knew, he had no chance of survival.

"That's a secret!" Xu Nian smiled slightly.

After speaking, he directly swung the hammer again, smashing Hei Jia fiercely.

"Boom!"

The gravity waves radiated out.

Hei Jia's whole body turned directly into a puddle of mud.

On the soil city, everyone was shocked beyond measure.

Another peak tribulation crosser had fallen.

How could this guy named Meteor be so strong?

Seeing this scene, Black Snake hurriedly transformed into black mist wanting to escape.

"Stay with me!"

Xu Nian immediately activated the domain, exerting thirty thousand times gravity.

Black Snake's form that was about to escape was directly pulled back, heavily falling to the ground.

"Don't... don't kill me!" Black Snake panicked, pleaded frantically.

Xu Nian simply snorted, looking at the terrified Black Snake.

"Spare you? Do you think that's possible?" Xu Nian asked with a cold smile.

A trace of malice flashed in Black Snake's eyes, transforming into black mist rushing at Xu Nian.

"I'll fight you!"

Black Snake roared, transforming into black mist attacking Xu Nian again.

Xu Nian simply chuckled, his mouth spewing out a burst of flame.

The flame transformed into a fire dragon, directly enveloping the black mist that Black Snake transformed into.

"Ah!"

A sound of tragic screams was heard.

These were Dragon Flames from a Flame Dragon, remarkably terrifying in temperature.

Completely the nemesis of his black mist.

In addition, with the powerful gravity binding, he couldn't dodge at all.

So in just a few breaths, he was burned to nothing.

Thus, the Black Armor Team and the Black Snake Team were completely eliminated by Xu Nian alone.

Everyone on the soil city looked at Xu Nian with eyes full of reverence.

A domain-level powerhouse, surely formidable in strength.

The prowess of this domain was truly abnormal.

Definitely an invincible existence below the Earth Immortal Realm.

On the other side, Teng Shan had also died at the hands of the Tyrant.

This storm had come to an end.

With a thought, Xu Nian made the towering walls around disperse in an instant.

"Brother Meteor, you're now famous after this battle, but this domain of yours is truly incredible." The Tyrant said excitedly as he walked over.

Xu Nian smiled slightly.

This Gravity Space Domain is indeed abnormal.

If it were him, suddenly having the gravity direction changed during the battle, he would also become unstable, exposing a flaw.

Exposing a flaw in battle, even just for a moment, could be fatal.

However, through the battle just now, Xu Nian realized this Gravity Space is not invincible.

If the enemy's defense is strong enough, even if you make them expose a flaw, if you can't kill them, what's the use?

"Looks like I still need to improve my attack power." Xu Nian pondered internally.

Only with a sufficiently powerful attack can you penetrate the enemy's defense.

And when it comes to the power of attack, naturally, it's Xu Nian's comprehension of the Wind Attribute Dimension Cutting Profound Argumentation.

Thinking of this, Xu Nian decided to head to Wind City.

Having just killed the Black Armor Team and Black Snake Team, the point card in his hand had increased to eight hundred thousand.

His ranking had risen from over a million to over ten thousand.

A ranking of ten thousand, already teetering outside the Earth Immortal Realm.

Because everyone knows, a ranking of ten thousand is a huge threshold.

And after this battle, the name Meteor would soon spread throughout the entire soil city.

Chapter 959 Encountering Trouble

At the time Xu Nian's true self was beginning to emerge on Slaughter Star.

On the sea near the Tianlan continent, where Tianlan Star is located.

The seal locking down the entire continent at this moment, however, caused a ripple.

"Buzz!"

Next, five figures pierced through the restriction and directly arrived on the area of the Cultivation World's sea.

Two men and three women.

The men were handsome and noble, and the women were as beautiful as heavenly immortals, remarkably enchanting.

If anyone were here, they would be surprised to see such beautiful women gathered together, indeed a rare sight.

Furthermore, these three women's beauty could rival the four great beauties of Tianlan continent.

"Xu Yu, Black Wind, have you sensed your elder brother's location yet?" One of the relatively enchanting women among the three spoke.

"No sense at all, he probably isn't on the Tianlan continent anymore." Xu Yu and Black Wind both shook their heads and said.

They were Xu Nian's spiritual pets, capable of sensing Xu Nian's location within a certain range.

But now, they couldn't sense even a hint of his aura.

Enough to indicate that Xu Nian is no longer on Tianlan Star.

Upon hearing Xu Yu, the three women's brows furrowed.

"Sister-in-law, don't worry too much, as his spiritual pet, I would definitely sense if anything happened to him," Black Wind said.

Hearing Black Wind's words, the three women's expressions somewhat softened.

Xu Nian has been gone for several years.

Although they didn't say anything, they couldn't help but blame him a little.

Indeed, these three were none other than Leng Yanran, Zhao Yanyun, and Xu Xin.

Xu Xin is Xu Nian's biological sister, even though Xu Nian is for years, she wouldn't say anything.

But Leng Yanran and Zhao Yanyun were different.

They were emotionally attached to Xu Nian, so during these years of Xu Nian's absence.

They chose to cultivate at Dark God Island.

Ultimately, with the help of the Dark God Island Master, they broke through to the Zifu Realm.

Once breaking through Zifu, they immediately entered the Cultivation World to look for Xu Nian.

Of course, Xu Yu and Black Wind had reached more than the Zifu Realm, already reaching Pseudo Purple Mansion two years ago.

Now, having just arrived in the Cultivation World, they already have the cultivation of Cave Void Realm.

"Let's go, even if Xu Nian isn't here, we'll first head to Tianlan continent to inquire about him, see where he exactly went. Didn't Bull Demon King and Black Hou go to Tianlan continent earlier? Let's go find them first," Leng Yanran suggested.

Xu Yu and Black Wind all nodded.

Previously, Bull Demon King and Black Hou were cultivating together with them at Dark God Island.

But after Xu Yu and Black Wind's breakthrough, to wait for Leng Yanran and others, they did not choose to enter the Cultivation World.

However, Bull Demon King and Black Hou couldn't resist and went to the Cultivation World first.

"Alright, I haven't seen Bull Demon King for two years, not sure if his cultivation has progressed." Black Wind spoke expectantly while flying towards Tianlan continent.

"Black Wind, don't get excited too soon, Bull Demon King and Black Hou are cultivating here, their speed certainly won't be slow. Look at the density of spiritual energy in the Cultivation World, definitely tens of times of ours, I'm afraid his cultivation has already surpassed you," Zhao Yanyun teased with a smile.

Zhao Yanyun, having integrated memories from her past life, had become even more alluring.

Even though Xu Nian hasn't accepted her yet, she believes she'll eventually win him over.

"Surpass me? Impossible, Bull Demon King was always defeated by me at Dark God Island, now he surely will be as well," Black Wind retorted defiantly.

Alongside Xu Xin and others, hearing Black Wind's words, everyone chuckled.

This lad often sought out Bull Demon King and Black Hou for sparring at Dark God Island.

Yet each time, it was Bull Demon King and Black Hou who got completely overwhelmed.

Thus, Black Wind carries a certain pride against Bull Demon King and Black Hou.

"Quickly look, the continent is ahead," Xu Yu remarked.

The other four, hearing this, looked forward.

Sure enough, in their view, a small black dot began to appear and quickly enlarged.

Indeed, that black dot was the continent.

"So this is the Cultivation World?" Leng Yanran and others looked ahead with a hint of curiosity and anticipation in their eyes.

The others were no different.

"Hey, look, there's a spiritual ship floating ahead." At this moment, Xu Xin pointed into the distance.

The four immediately looked towards where Xu Xin pointed.

Indeed, a spiritual ship was floating before them.

The ship was filled with music and dance.

Several beauties were dancing gracefully on the deck, occasionally soaring up and down, extraordinarily beautiful.

"Let's go around!" Xu Yu frowned upon seeing this and suggested.

"Yes!"

Leng Yanran nodded in agreement.

The person controlling such a spiritual ship must have considerable strength and status.

Now, their strength is still too low, attracting attention could bring significant trouble.

Xu Xin, Zhao Yanyun, and others also nodded.

Only Black Wind was somewhat dissatisfied but complied with Xu Yu and the others.

"Hey everyone, since you're here, why not come aboard to celebrate and drink together?"

Just as Xu Yu and others were about to go around.

A man dressed in a golden robe walked out on the ship.

His gaze swept over Xu Yu and others and finally rested on Leng Yanran and the other two women.

Seeing the three women's faces, he was initially shocked, then showed a hint of greed.

"Perfect! Definitely rare excellence, in all of Tianlan continent, besides the four great beauties, it's tough to find such perfection. Best of all, three such perfect women appear at once." The golden-robed man thought excitedly.

"I must have them all, absolutely can't let them go," he vowed inwardly.

Feeling this greed from the man, Leng Yanran and the others frowned simultaneously.

Clearly, they sensed the golden-robed man's covetous gaze.

Besides this, Xu Yu and Black Wind also sensed it.

"Thank you for the kind offer, but we're busy, we won't disturb you," Xu Yu replied coldly.

The golden-robed man glanced at Xu Yu and Black Wind, his eyes showing disdain.

Just early stage Cave Void, what gives them the right to possess three beauties?

If he wasn't worried about the three women's repulsion, he wouldn't waste words, he'd act immediately.

"What's the hurry? Won't you give the Young Sect Master of Tianxing Sect some face?" The golden-robed youth laughed coldly, looking at the five below.

Young Sect Master of Tianxing Sect?

Upon hearing these words, Leng Yanran and others all furrowed their brows.

They were aware of Tianxing Sect.

Who would've thought, upon entering the Cultivation World, they'd encounter the Young Sect Master?

Chapter 960: The Greedy Yang Shaocheng

Leng Yanran and the others looked at the arrogantly clad youth in a golden robe ahead.

From this youth in a golden robe, they sensed a powerful aura.

They feared that even the combined strength of the five of them would not be a match for him.

"We didn't know you were the Young Sect Master of the Tianxing Sect. We were blind earlier and failed to recognize you; we hope for your forgiveness. But we really have urgent matters. If there's a chance next time, we will definitely visit personally," Leng Yanran spoke again.

With that, she intended to leave.

The youth in the golden robe would never let them leave just like that. He chuckled softly, "Why put it off for another day? Today, you must stay and have a drink with me. Otherwise, you won't leave."

"Nonsense, what do you think you are, asking my sister-in-law to drink with you?" Black Wind had been holding back for a long time.

Now, hearing what this youth in the golden robe said, he immediately started cursing.

The youth in the golden robe frowned, but not because of Black Wind's rudeness; it was because of the mention of the sister-in-law.

Such a beautiful woman, could her heart already belong to someone?

But so what if she does? Whatever he wants, he has never failed to obtain.

Besides, apart from this woman, there are still two others.

"Kid, you say she is your sister-in-law, then who is your brother?" The youth in the golden robe looked at Black Wind and questioned.

"Hmph, my brother is Xu Nian," Black Wind said proudly at once.

"Xu Nian?" The golden-robed youth sneered upon hearing this, looking at Black Wind and the others with disdain, "I thought it was someone important, turns out it's that stray dog. Since you are his people, there's no need for me to be polite to you."

After speaking, the youth's expression turned cold.

Leng Yanran and the others were all taken aback; they hadn't expected that the Sect Master of Tianxing Sect actually knew Xu Nian.

"You know Xu Nian?" Zhao Yanyun questioned further.

"I don't know him, but I've heard of him; this kid is oblivious to danger and offended our Tianxing Sect. He was besieged by several of our elders, and in the end, he was so scared that he used the Transmission Array to escape. Now, that old tortoise following him is still imprisoned in our Tianxing Sect," the youth in a golden robe said disdainfully.

Upon hearing this, Leng Yanran and the others frowned.

So Xu Nian left Tianlan continent because he was hunted down.

And it turns out his enemy is the Tianxing Sect before them.

"Sister-in-law, you should leave first. Black Wind and I will hold him off," Xu Yu transmitted to Leng Yanran and the three others.

"How can that be? This guy won't let you go," Xu Xin immediately transmitted back.

Leng Yanran and Zhao Yanyun also nodded along.

Clearly, they had no intention of leaving.

"Sister-in-law, if you don't leave and get hurt, Black Wind and I would have no face to meet our brother again," Xu Yu quickly and anxiously transmitted.

"Yes, my two sister-in-laws, Sister Xu Xin, even if we die, we won't let him capture you," Black Wind also said, eyes resolute.

Leng Yanran and the three women all furrowed their delicate brows.

All three were in the Zifu Realm, with the most capable amongst them being Xu Xin, who was at the Zifu Middle-stage.

With such cultivation, staying behind would only be a burden, unable to contribute anything.

"We should go!" Leng Yanran decided resolutely.

Although Xu Xin and Zhao Yanyun didn't want to do this, they understood that Leng Yanran's decision was the right one.

Black Wind and Xu Yu clenched their fists, glaring at the youth in the golden robe, ready for a desperate fight.

"Haha, think you can escape? In front of me, Yang Shaocheng, do you think you can get away?" The youth in a golden robe laughed heartily and then stepped forward.

"Buzz!"

A formidable aura suddenly emanated from him.

This aura surged towards Xu Yu and the others.

"Puff!"

Xu Yu and Black Wind were directly shocked into spitting out a mouthful of blood.

The two showed expressions of shock.

Leng Yanran and the three women wore expressions of extreme seriousness.

"Harmonization Realm Peak!"

This youth in a golden robe had cultivation at the Harmonization Realm Peak.

With this cultivation, even if Xu Yu and Black Wind joined forces, they likely wouldn't withstand a single move from the opponent.

Too strong!

For Xu Yu and Black Wind, who were only at the Early Stage Cave Void, Yang Shaocheng's power was overly formidable.

Xu Yu and Black Wind clenched their fists, their eyes filled with strong resentment.

Originally, they intended to hold the opponent off at the cost of their lives, but now it seemed even sacrificing their lives might not buy Leng Yanran and the others a moment's reprieve.

"Do you still think you can block me? In my eyes, you are merely ants," Yang Shaocheng said with a light laugh.

Then he looked at Leng Yanran and the three women, chuckling coldly, "Now I'll give you two choices. First, surrender to me and become my women, and I not only spare your lives but let those two live. Second, I kill them and seal your cultivation, making you my sex slaves. I dislike forcing people unless necessary. How you choose is up to you."

"No way!" Xu Yu and Black Wind shouted at once.

They then directly charged towards Yang Shaocheng.

Yang Shaocheng's eyes flashed with disdain, a sweep of his sleeve, and True Essence exploded.

Instantly sent Xu Yu and Black Wind flying.

The two slid over the sea surface, a distance of three hundred zhang before stopping, blood spilling again from the corners of their mouths.

"Ignorant things, this is a warning. Daring to attack again, I will kill you,"

Yang Shaocheng snorted coldly, extremely disdainful in his eyes.

Xu Yu and Black Wind clenched their fists tightly, filled with anger and resentment.

On the other side, Leng Yanran and the three women also had furrowed brows and faces of struggle.

Betray Xu Nian and become Yang Shaocheng's women?

Even in death, they would not agree.

But if they do not agree, not only would they face death, but Xu Yu and Black Wind would accompany them in burial.

"I'm willing to become your woman, but I have a condition; release them," Zhao Yanyun directly stood up, speaking steadfastly.

"Release them? Do you think that's possible? I've said, the three of you, not one less," Yang Shaocheng said playfully.

"Add me. I can be your woman too," Xu Xin stood and spoke.

"I've said not one less, especially her," Yang Shaocheng pointed at Leng Yanran with a smile.

Though Xu Xin and Zhao Yanyun were equally beautiful as heavenly beauties, Leng Yanran's cold arrogance and mature demeanor were even more alluring.

Plus, Leng Yanran was Xu Nian's woman, which gave birth to a strong desire to possess within him.

"Then I'll go with you; let them go," Leng Yanran stepped out to say.

Yang Tiancheng laughed coldly and said, "You have no bargaining power with me. I've said, I want all three to be my women; none shall escape."

Upon hearing this, Leng Yanran and the three women's eyes chilled.

Actually, all three shared the same thought—to agree to Yang Shaocheng's demands.

Then let the others go, finally taking their own lives to preserve their purity.

But now Yang Shaocheng was so greedy, wanting to capture all three of them at once.

Watching Yang Shaocheng's cunning smile, the three women's eyes flashed with determination.

"Whoosh!"

And at that moment, a streak of light flew from afar.

Soon, an exquisite and beautiful figure appeared in everyone's view.

The three women were startled at seeing the newcomer's face.

This woman was exceptionally beautiful!
