

# THE DIVINE NINE-DRAGON CAULDRON

## Chapter 3101 - 3101 Chapter 2989 – the fisherman gains

3101 Chapter 2989 – the fisherman gains

The two ten thousand saints locked their gazes on Su Yu at the same time. They had reached an agreement to destroy Su Yu First!

The first ancestor revealed a mocking expression. “What? Did you predict that we would destroy you first?”

Wasn't Su Yu capable of scheming against the son of Heaven of the Sacred Mountain?

Then, did he predict his current fate?

!!

Who knew that Su Yu's expression was calm as she said indifferently, "So be it. It's not like he's the main body anyway."

What?

The blue heart puppet was shocked and looked at Yi Zu in astonishment.

His soul was no longer the same as before and he couldn't tell if Su Yu was real or fake. However, Yi Zu was an elder of the Soul Saint Clan. Could it be that even she couldn't Tell?

Yi Zu's eyes flashed, and in the next moment, he crossed space and appeared in front of Su Yu. His palm gently patted his shoulder.

In the next moment, Su Yu disappeared like smoke.

It was indeed the soul illusion that Su Yu had used.

Yi zu sighed helplessly. "His attainments in the soul ancestor technique are higher than mine."

Although he was unwilling to admit it, Su Yu was indeed the only person who had successfully cultivated the soul ancestor technique in the past ten eras.

As for her, she had only cultivated eighty percent of it, and the other twenty percent was still unable to succeed.

Thus, if she had not carefully observed Su Yu's soul ancestor technique, she really would not have been able to identify it.

“This cunning bastard! !”The blue heart puppet was filled with hatred.

He had just been born, and he had thought that he would be able to reappear in the world and sweep across the world. In the end, he had been cheated to death by this junior of his race!

One ancestor's beautiful eyes swept across the surroundings, hoping to find Su Yu. The blue heart puppet waved his hand in a haggard manner and said, “There's no need to look for him anymore. Since he wants to reap the benefits, he must have hidden it well.”

The blue heart puppet that had fought with Su Yu multiple times no longer wanted to waste his time and effort on Su Yu.

The most important thing now was to obtain the Blue Heart Iron Heart and turn himself into a puppet in perfect condition. This body of his was strong, but it had a fatal weakness.

Ordinary people might not be able to do anything to him, but it would be quite dangerous to meet a peerless expert.

For example, the first ancestor in front of her. After she retracted her gaze, she looked thoughtfully at the blue heart puppet's damaged chest and the faint blue heart pearl on its broken arm.

“Other than killing me, is there no other way to take out the Blue Heart Iron Heart?”The first ancestor raised his wrist, and the mark of the Blue Heart Iron Heart there was beating non-stop.

The blue heart puppet's body was covered in a layer of faint blue light. It said helplessly, “If I say there is, will you believe me?”

First ancestor shook his head. Of course, he didn't believe it.

Just now, the blue heart puppet had used a sneak attack to tell her that only by killing her would the Blue Heart Iron Heart drop out.

“Then what are you saying? Let's fight to the death, shall we?”The blue heart puppet said in a serious tone.

First ancestor sighed slightly and frowned slightly. "I really don't want to fight, especially when I'm being plotted against."

She was in a very bad mood. She knew that she was being plotted against, but she had no choice but to carry out the plan.

This kind of overt scheme disgusted her.

"Then, I'll fight you!" The blue heart puppet had no other choice but to take the initiative to attack. The blue fluorescent light on its body turned into a tsunami-like giant wave and rushed toward first ancestor.

The first ancestor was calm and at ease. It opened its five fingers, forming an invisible soul net in front of its body to block the blue fluorescence. At the same time, two corporeal eyes flashed in its eyes.

The blue heart puppet grunted. Its soul was greatly stimulated, but it gritted its teeth and persevered. The blue fluorescence in front of its body suddenly expanded, and with an overwhelming force, it pounced toward the first ancestor, enveloping it.

However, since the first ancestor was a ten thousand sage expert, how could it easily crystallize?

She flicked her ten fingers, and each flick created a space. After each flick, she had already pierced through the tsunami. No matter how the tsunami attacked her, it did not harm her in the slightest.

The fight between the two was only the beginning. The real fight was still to come!

The first ancestor decisively used the soul ancestor technique, and a magnificent trace curled around its fingertip, bringing with it a thick and heavy soul dao.

In an instant, it was as if there was a river of the netherworld that carried billions of souls.

The blue heart puppet laughed. “Good! This old man has returned to this world, and this is my first serious battle!”

He swiped his index finger and similarly used an ancestor technique. Although the ancestor technique wasn't as profound as the soul ancestor technique, it was extremely complete. It wasn't much different from the incomplete soul ancestor technique of the first ancestor.

Two soul ancestral techniques that took the fortunes of the world collided in the air.

Boom Boom Boom —

The entire void was turned upside down as a result. The nearby space became chaotic and time reversed!

Su Yu, who was far away from Zhaoyi Mountains and rivers, was sitting cross-legged in a river of stars. Affected by the battle between the two ten thousand saints, the river of stars under Su Yu's feet spun rapidly and collided with each other.

His robe danced wildly as he looked at the battle at the end of the world. He yearned, "Is that a battle at the Ten Thousand Saints Level?"

If he reached that level one day, there wouldn't be many places in the entire nine-star civilization that could stop him, right?

He clenched his fists. He was even more determined to obtain ren zu's inheritance.

Heavenly path!

He had to ascend the heavenly path and reach the end of the heavenly path. He had to become the second ren zu since ancient times.

No, he had to surpass the former Ren zu!

No matter how strong Ren zu was, he would still be defeated by the son of Heaven of the sacred mountain. If he wanted to surpass the sacred mountain, he had to surpass Ren Zu.

He waited silently. The battle between the two sides lasted for three days and three nights.

In the three days, Su Yu had retreated ten times. Each time, it was as far as a trillion mountains and rivers. Their battle was getting fiercer and fiercer.

Especially the last time, a world-destroying light burst out. The shockwave swept through the entire cloud wilderness.

...

Apart from experts like Su Yu, most of them were buried in their battle.

What Su Yu saw was a scorched land with no vitality.

The cloud wilderness had been completely destroyed!

This was a battle between ten thousand saints!

However, after the final blow, the entire world returned to peace. It was likely that the outcome of the battle between them had already been decided.

Su Yu stood up and took out a jade pendant. He sent a message to the three ancient sages that he had instructed.

After doing all of this, he rode on the little lion and rushed to the center of the battle.

The closer he got to the center, the more he could feel the destruction. Waves of destructive energy reverberated in the air, snuffing out the remaining energy in the atmosphere.

There was not even the slightest bit of spiritual energy left from the center of the battle, Let Alone Dao Energy?

Moreover, Su Yu and the little skeleton had to protect themselves with the power of the Heavenly Dao master to move forward. Otherwise, they would have been killed by the chaotic flow of destructive energy.

After moving forward with great difficulty, they finally arrived at the center of the battle.

...

In a region that was almost empty, one ancestor was lying on the ground while the blue heart puppet was standing on the same spot.

Su Yu sighed silently. It was actually one ancestor who had fallen.

He was a little surprised and felt a little apologetic towards the Soul Saint Clan. If it wasn't for him, Su Yu, perhaps the soul saint clan wouldn't have lost a pillar like one ancestor.

However, in the next moment, Su Yu's expression changed slightly. "That's not right!"

## **Chapter 3102 - 3102 Chapter 2990, Emperor's might**

3102 Chapter 2990, Emperor's might

He keenly sensed that the consciousness of the blue heart puppet had already dissipated into dust and no longer existed!

The little skeleton also sensed something and immediately lowered its body, crawling uneasily with its four claws.

As expected!

Just as Su Yu sensed, the blue heart puppet that was standing upright suddenly fell to the ground with a clang.

!!

The consciousness in its body had been completely wiped out by Yi Zu's soul secret technique.

Yi Zu, who was lying on the ground, moved her fingers and sat up with difficulty.

She was panting, and her young face was filled with deep exhaustion and weakness.

It was true that she was a ten thousand saints expert, but she was only good at the soul, and her body was her weakness.

Although the blue heart puppet's consciousness was weak, its indestructible body caused her great trouble and trouble.

The two sides fought for several days before they finally came to a conclusion – the blue heart puppet’s consciousness was destroyed.

She panted deeply and looked at Su Yu who had appeared. Her starry eyes widened and she was deeply annoyed. “I’ve lived for so long, but I didn’t expect to be schemed against by a junior.”

This time, her body had suffered serious injuries. She would need to enter seclusion for more than a hundred years to recover.

She had to admit that she had suffered a great loss.

Moreover, she had not gained anything from this battle. She had just fought a life-and-death battle for no reason.

Su Yu shrugged and said indifferently, “You flatter me!”

A bright oil lamp appeared on his chest. The mature body of a mortal saint body appeared.

The moment the figure appeared, it blotted out the sky and covered billions of galaxies.

The figure grabbed the Earth Mountain's blue heart puppet and put it into Su Yu's spatial storage.

Yi Zu stood up with difficulty. Her messy hair could not hide her stubborn eyes. "You Want to kill me? You're Not Enough!"

You want to reap the benefits of the fisherman?

That would depend on the strength of this fisherman!

Even though she was heavily injured, she was not someone Su Yu could think of!

Su Yu walked over with his hands behind his back. "At this moment, shouldn't you lower your voice and ease our relationship?"

Right now, Su Yu was stronger and she was weaker.

"If you want to fight, then fight. There's no need to feign civility." An ancestor was an ancient and powerful existence. How could he lower his voice to a human who was not even an ancient saint.

Su Yu chuckled. "What a straightforward woman. I like her."

"However!" Su Yu's face was shrouded in the shadow of the huge figure. He appeared ruthless and ruthless. "Reason tells me that I need to get rid of the root of the problem!"

He had already offended the first ancestor to the point where he would not rest until he was dead. In the future, either he would die or the first ancestor would die.

If he let the first ancestor off today, the next day when the first ancestor recovered from his injuries, Su Yu would die.

Therefore, Su Yu could not be merciful.

Even though he did not hate one ancestor much.

"Then come!" One ancestor forced herself to stand up. She gritted her teeth and vowed to fight to the death. "But before the battle, I want you to answer a question."

"Speak."

One ancestor said, “Can you predict the future or have you calculated it? I’m saying that the son of Heaven of the sacred mountain will interfere in the fight for the Blue Heart Iron Heart.”

Su Yu’s expression was calm. “Of course.”

Why would he let the three ancient sages of the saint puppet clan carry out a mission that made them extremely suspicious?

It was because the mission was to send a message to the stone man hall that the remnant of Ren zu appeared in the desolate cloud realm.

The stone man hall would not underestimate this news. They would definitely inform the higher-ups as soon as possible, and the sacred mountain would know about it in the end.

Their wills would descend to this region, and they would discover that the fight for the Blue Heart Iron Heart was nothing out of the ordinary.

And with the Sacred Mountain’s past achievements, they could not wait for the remaining experts of the nine-star civilization to wither away. Only then would they be able to ensure that the sacred mountain’s foundation would not be destroyed.

Therefore, it was expected that the son of Heaven of the sacred mountain would secretly make a move and incite a great battle between the first ancestor and the blue heart puppet.

“The human race is truly a magical race.”The first ancestor sighed from the bottom of his heart.

She had existed for nearly ten eras. In almost every era, she could witness a human almighty that could shake time and space.

In the distance, there was a ten thousand saints expert that was even more ancient than her, which was the blue heart puppet’s consciousness original body, Tuoba Liu.

In the near future, there was the famous human ancestor who surpassed all the almighty humans of past generations!

This era was the most desolate era of the human race. Perhaps it was because of the successive emergence of earth-shattering mighty figures of the human race that the son of heaven intentionally suppressed the fate of the human race.

Up until now, no powerful super human mighty figure had appeared.

But now, the first ancestor had changed his view.

It was not that the super human mighty figure had not appeared, but that he had always been there.

This was the first time she had heard of someone who could even scheme against the son of Heaven of the Sacred Mountain in the past ten eras.

“You flatter me,” su yu said calmly as she faced the first ancestor from afar.

The battle between the two sides was about to break out. It was just a matter of who made the first move.

The little skeleton was also extremely nervous. It was hard to say whether Su Yu would win or the first ancestor would have the upper hand.

Just as the two sides were facing each other, a sudden light shadow tore through billions of space-time and directly attacked this place.

...

It was a huge ruler shadow that spanned across the heaven and earth. Its entire body was nine-colored.

The moment it appeared, the Void Shook and the cloud wilderness land that had already turned into scorched ground turned into nothingness under its pressure.

Under the ruler Shadow, everything turned into nothingness!

Su Yu's pupils constricted, but he was not surprised. "Emperor's ruler!"

The clone of the Carefree Emperor had once held a replica of the emperor's ruler. Su Yu had experienced its power before.

Compared to the replica, the real Emperor's ruler's power had increased by more than ten times!

"I've been waiting for this attack of yours for a long time!" Since Su Yu dared to attract the attention of the emperor of the sacred mountain, how could he not have predicted that the emperor of the sacred mountain would leave a move to kill them?

As he spoke, Su Yu opened his mouth and spat out a ball of liquid floating above his head.

That was not something else. It was the liquid that Su Yu had condensed from all his life's possessions.

It was used to refine a brand new nine dragons divine cauldron!

Clang –

...

Su Yu pointed with one hand, and the ball of liquid flew up into the sky. It quickly spread out and turned into a rippling water skin that covered the sky.

The shadow of the ruler suddenly slashed down and hit the water skin.

“Idiot! That was the attack of the true body of the carefree emperor. How can you block it?”The first ancestor muttered in despair, and even lost the will to resist.

If she was at her peak, she could still block a bit, but now that she was heavily injured, she couldn't even draw out a bit of her strength. How could she face the attack head-on?

However, what surprised the first ancestor was that the water skin actually forcefully absorbed the power of the shadow of the ruler after a violent shake!

With this, the water skin became thicker.

Seeing this, Su Yu secretly nodded.

He dared to attract the son of Heaven of the sacred mountain, so he naturally had the confidence to face their world-destroying attack.

This liquid was his trump card.

He once unintentionally discovered that this liquid could contain anything, even an attack.

However, he did not have much confidence in whether the son of Heaven of the sacred mountain could withstand the attack. Now that he tried it, it actually worked.

“Although I really want to kill you, it seems that now is not the time,” Su Yu said regretfully.

As soon as he finished speaking, the giant shadow brought Su Yu and the little skeleton and dashed across the sky. He had to leave this place before the true body of the carefree son of Heaven arrived.

## **Chapter 3103 - 3103 Chapter 2991: temporarily escape**

3103 Chapter 2991: temporarily escape

Sou —

But just as Su Yu left, one ancestor followed after him.

“Split up! Otherwise, we’ll all die!” Su Yu frowned.

If the two of them split up, the carefree Emperor wouldn’t be able to split up. One of them might be able to survive.

!!

But if they were together, that was simply giving the carefree emperor a chance to kill them all!

Yi Zu surpassed the little skeleton in a flash and said, “No! You have a magic treasure that can absorb the carefree emperor’s attacks. I have the movement techniques of the ten thousand saints. If we work together, we will have a chance to survive. Otherwise, our chances are as slim as smoke.”

“The ten thousand saints are all unfathomable, and the carefree emperor is even more so. Don’t expect to be lucky enough to escape if you split up.”

Su Yu had a helpless look on her face. She sighed heavily and said, “Alright! Let’s reconcile for now.”

“Deal!”

In the face of life and death, they chose to cooperate.

The ancestor could not help but feel proud. No matter how much Su Yu schemed, she had to accept her plan under the circumstances.

However, what she did not realize was that the corner of Su Yu’s mouth curled up into a meaningful smile. Before the ancestor looked over, it quickly disappeared.

The little skeleton sensed something and stuck out its tongue. It secretly transmitted its voice, “Little Master, are you scheming something again?”

Su Yu smiled but did not say anything.

Of course he was scheming!

How could someone as profound as Su Yu not know that facing the carefree emperor, it was useless to split up and run?

The best way was to unite with the first ancestor. Only then would there be greater hope.

However, just think about it. If Su Yu was the first to ask for a truce, would the first ancestor agree to it?

With her vigilance towards Su Yu, she would probably reject it immediately.

Therefore, Su Yu had to wait for her to bring it up.

This was why Su Yu left without any hesitation. Only then would the first ancestor agree to a truce.

“Hold on to me!” The first ancestor used his movement technique. Su Yu and the little skeleton looked at each other and smiled. They hugged the first ancestor’s arm.

Sou —

The first ancestor's movement technique was indeed extraordinary. In an instant, he led them to disappear from the cloud wilderness and move to the other realms.

However, the unfettered emperor's lock did not disappear because of this.

After ten breaths, Su Yu and the first ancestor were locked onto by his gaze again. A ruler shadow that crossed the stars came crushing over.

Su Yu took out the melted liquid used to refine the nine dragons divine cauldron again and absorbed this attack.

After absorbing it, the molten liquid became even purer. From its initial muddy state, it became much clearer.

Seeing this, the first ancestor relaxed and continued to use his movement technique.

After the second movement, the carefree emperor's gaze locked onto them again after a hundred breaths.

The third, fourth, fifth..

With each movement, the time it took for the carefree emperor to find them again became longer and longer.

After a hundred moves, carefree emperor spent an entire day to find them again.

Yi zu gritted his teeth and continued to use his movement technique.

As such, both sides were competing with each other in terms of patience, starting a protracted tug of war.

A month later.

Yi Zu was exhausted. She had already forgotten how many times she had used her movement technique. All she knew was that she was a hundred times more exhausted than when she was chasing after Su Yu.

Meanwhile, carefree emperor had not locked onto them for more than ten days.

It seemed like they had successfully escaped.

“Hu!” First ancestor finally lost all his strength and collapsed to the ground in exhaustion.

She had experienced the battle with the blue heart puppet and Carefree Emperor's pursuit. It could be said that she was extremely lacking.

"Are you tired?"

"Yes."

"It's good that you're tired! Little skeleton, tie them up!" Su Yu and the little skeleton looked relaxed.

Not only were they not tired, but they were also replenishing their strength while they were escaping.

The ancestor opened his eyes with difficulty and revealed a trace of self-mockery, "As expected."

She knew that she had fallen into Su Yu's trap again.

"However, if you want to touch me, it's better to be more cautious." A spark appeared between the brows of the ancestor, and a lightning-shaped mark appeared out of thin air.

Looking at this mark, Su Yu felt his soul turn cold, and he even showed signs of being forced out of his body.

This was only the appearance of the mark. If it was activated..

“This is a secret technique left behind by the ancestors of the Sacred Soul clan. Once activated, the enemy will be cursed by the bloodline of the Soul for eternity. Every day, the soul will be burned under the scorching sun until it dies!”

“If you don’t believe me, you can try.”

Su Yu naturally believed it. He was also a master of the soul and had a deep understanding of the secret technique of the soul.

That mark was definitely dangerous. No, it was several times more dangerous than what she said.

...

The little skeleton understood and immediately smiled shyly, “Ancestor, what are you thinking about? Little master means to tie a rope for you so that you won’t be left alone. We still have to continue on our journey, but you don’t have any strength left, do you?”

Yi zu chuckled, “Is that so?”

“Of course it is. I am the Mount of the Green Emperor after all. I don’t care about lying.”The little skeleton patted his chest.

Rumble —

A bolt of lightning struck down without warning and landed in front of the little skeleton’s toes.

The corner of Su Yu’s mouth twitched. Even the heavenly axiom couldn’t stand it. He felt that the little skeleton didn’t have any truth in his mouth.

The little skeleton felt awkward and could not help but raise his head to scold the sky, “Damn it, I did not swear. What are you trying to do?”

Yi zu flipped his hair and said, “You guys, which one of you is tied to me?”

“Him!”

“Him!”

Su Yu and the little skeleton pointed at each other at the same time.

...

What a joke. Who wanted to be tied to this ancient woman? If she were to do anything to him, wouldn't he turn into ashes?

Su Yu glared at the little skeleton. “You asked for it. Tie Me up with tears in your eyes!”

Seriously, the little skeleton's excuse was really not very good.

Yi zu said lazily, “I hope you can carry me.”

Her beautiful eyes locked onto Su Yu, and there was a profound meaning in her eyes.

Su Yu waved his hand straightforwardly. “Forget it. You and I are both thousand-year-old foxes. Why Talk About Liaozhai? We both know the evil ideas in our hearts. There's no need to lie to each other.”

Su Yu knew what the first ancestor wanted to do. It was nothing more than to tamper with him to prevent Su Yu from taking advantage of his weakness.

“Our current situation is not good. It’s better not to kill without permission.” Su Yu looked at the sky warily.

The first ancestor agreed. “That’s right. It’s best that way.”

The two of them hit it off and temporarily resolved their conflict.

Su Yu looked around and felt that the space here was a little dreamy and unreal. “What is this place?”

“Nine-tailed Emperor Realm,” the first ancestor said indifferently.

HMM?

Su Yu’s heart moved. Nine-tailed emperor realm should be the emperor he had come into contact with the earliest, but it was just a body.

Seeing that there was no one around and the first ancestor needed to rest, Su Yu simply found a safe place.

He also needed to study the blue heart puppet that he had just obtained.

This puppet was a peerless treasure!

## Chapter 3104 - 3104 Chapter 2992, refining the puppet

3104 Chapter 2992, refining the puppet

When the ancestor saw Su Yu fiddling with the puppet, a rare hint of jealousy could be seen in his eyes.

He had personally fought with the puppet, and the ancestor knew how powerful it was.

If he could refine it for his own use, it would greatly increase his own combat power.

Seeing how Su Yu tried to refine the puppet but failed many times, the ancestor pursed his lips and smiled, "Don't waste your energy. This puppet is not something you can refine."

!!

“Is that so?” Su Yu was not too willing to give up. Such a powerful treasure was placed in front of her and could not be used. That was simply torture.

First ancestor sized up the blue heart puppet and said, “This is forged using Tuoba Liu’s ten thousand saints body as the main material. Unless your soul power is strong enough to control the ten thousand saints body.”

Su Yu had seen many Dao artifacts. Once she said it, she came to a sudden realization.

The reason why she could not refine it was because of the ten thousand saints body!

Su Yu was deeply moved by how powerful the Ten Thousand Saints body was. A ten thousand saints expert who had died for several eras could scheme against the saint puppet clan and deceive them into refining their bodies for her.

Su Yu, who had not even reached the ancient saint realm, was indeed unrealistic in trying to occupy the ten thousand saints body.

In the end, her cultivation was still too low. It seemed that she had to think of a way to break through to the ancient saint realm as soon as possible.

“If you give it to me, I can absolve you of the crime of secretly learning our soul saint clan’s ancestral technique. From now on, no one will kill you,” first ancestor suggested.

Su Yu chuckled. “Your Soul Saint clan is incompetent, but you can’t stand to see others learn the complete soul saint clan’s ancestral technique?”

First ancestor admitted openly, “I guess so! We can’t let others learn what we can’t.”

Su Yu’s mouth twitched. He continued to study the blue heart puppet and said, “Then you can dream on.”

First ancestor had a calm expression. “If you don’t give us an explanation, we won’t let the ancestral art go.”

Su Yu shrugged and focused on studying the blue heart puppet.

He tried to use his soul to pass through the Blue Heart Iron and touch the ten thousand saints’ body inside.

But when he touched it, his soul was fine, but a burning pain came from his chest.

“What’s going on?” Su Yu was secretly surprised. He immediately retracted his soul and pulled open his chest.

A sinister devil image appeared on his chest.

The first ancestor looked over and recognized it at a glance. He revealed a gloating expression. “Oh? You were also cursed by the overwhelming Sky Clan? You’re in Big Trouble.”

“As far as I know, the overwhelming Sky clan’s curse is an extremely powerful thing. Even if I was cursed, I might not have the chance to escape.”

This curse was indeed cast on him by the overwhelming sky demon before he died.

However, his original intention was not to kill Su Yu, but to leave his mark on Su Yu so that his clansmen could find Su Yu and take revenge for him.

Coincidentally, the overwhelming sky clan’s experts found Su Yu, but they did not kill Su Yu to take revenge for him.

Instead, they said that there were no eternal enemies, only eternal benefits. Not only did they not kill him, but they also invited him to kill a seriously injured person because they

saw Su Yu's strength, a ten thousand saint expert who had escaped from the sinkhole emperor's tomb.

If the omniscient demon knew about this, he would be very disappointed.

However, Su Yu was curious as to why touching the ten thousand Saint Body would trigger the curse on his body?

With some doubts, Su Yu touched the ten thousand saint body with his soul once again.

In the end, the curse that had finally calmed down in his chest erupted once again!

Both attempts had the same result, causing a bold thought to arise in Su Yu's mind. Could it be that this ten thousand saints expert had also been cursed by the overwhelming Sky clan when he was alive?

He suddenly recalled that when the overwhelming sky clan's experts had found him, they had once said that the ancestor of the overwhelming Sky clan had once used an ancestral spell on a ten thousand saints expert's Rockman, causing the ten thousand saints expert to curse., his temperament had changed drastically, and he had killed without restraint.

In the end, it was the carefree emperor who had killed him.

Could it be that the ten thousand saints stone golem that the overwhelming sky clan had killed was the ten thousand saints body in the Blue Heart puppet before him?

However, the ten thousand saints stone golem seemed to be a human, and it was called Tuoba Liu, right?

Thinking of this, Su Yu asked, “First ancestor, is Tuoba Liu really the ten thousand saints stone golem of our human clan?”

First ancestor was surprised by Su Yu’s question. However, she felt that it was not a secret, so she did not guard against it. She said lightly, “He was once.”

“What do you mean?”

First ancestor said, “He was indeed an expert of the human race. He cultivated to the peak of the great sage and reached the half-step ten thousand saints state. However, he was still unable to take that step.”

“In the end, he joined the Rockmen and received the baptism of the sacred mountain. He transformed from a human into a Rockman. With the help of the carefree emperor, he finally broke through his shackles and became a ten thousand saints expert.”

Su Yu was enlightened. This made sense.

His eyes were deep in thought. He and the Ten Thousand Saints body both had the same curse. Then, could he use the curse to control the Blue Heart Puppet?

After cultivating the many ancestral techniques on the sinkhole divine monument, Su Yu had mastered them. He gradually understood that any ancestral technique was derived from the later generations.

Su Yu also wanted to learn to create techniques on his own, and not just learn from his predecessors.

He sat cross-legged, his fingers continuously drawing traces in the air, hoping to create a spell that connected the two ancestral spells.

The ancestor was originally recuperating, but when he glanced at Su Yu and noticed his strange movements, he did not pay much attention at first.

But as he watched, traces of surprise slowly gathered in her beautiful eyes.

At first glance, the traces that Su Yu had cast were neither proper nor proper. They had both the characteristics of this race's ancestral spell and the advantages of that ancestral spell. They were like a jumbled mess, extremely messy.

However, as Su Yu used them again and again, the remnant marks became smoother and clearer.

Moreover, they gradually got rid of the traces of the ancestral techniques of the other races and became a new and unfamiliar ancestral technique.

The ancestor was dumbstruck as he watched. A thought that he did not quite believe popped up in his mind – could it be that Su Yu was creating an ancestral technique?

This was impossible, right?

Any ancestral technique was forged by a certain race after thousands of times of tempering. It would be difficult for it to be formed without tens or hundreds of eras.

...

Su Yu relied on her own strength to create an unprecedented ancestral technique in just two hours?

Not to mention that it was unbelievable, even she found it unbelievable to see it with her own eyes.

After another two hours, the ancestral technique was completely formed.

Su Yu pointed, and a bright ancestral art flashed around his body.

He had integrated thousands of ancestral arts, and he had long mastered them. It was not difficult for him to create the ancestral art he wanted by drawing on the strengths of each family.

The premise was that this ancestral art was only at the lowest level, and its power was very limited.

If it was at a higher level, then it was not something that Su Yu could do with his little comprehension ability.

He pointed his finger at the center of his brows, leaving a long scar. Then, he pointed at the forehead of the blue heart puppet.

A scar connected Su Yu and the blue heart puppet together. The image of an evil spirit appeared on the chests of Su Yu and the blue heart puppet at the same time!

However, Su Yu's color was darker, and the blue heart puppet's was very light.

After all, Su Yu's curse had only been inflicted not long ago, but the blue heart puppet had been there for many years.

...

## Chapter 3105 - 3105 Chapter 2993, muddle through

3105 Chapter 2993, muddle through

Through two curses of the same origin, Su Yu attempted to control the blue heart puppet.

"Rise!" Su Yu shouted in a low voice. Using his mind, he controlled the curses on the other party's body and then the puppet's body.

However, the result made Su Yu feel extremely disappointed. The blue heart puppet did not move at all.

The first ancestor heaved a sigh of relief when she saw this. When she saw Su Yu personally create the ancestral technique, to be honest, she was really shocked. She was afraid that Su Yu would really be able to control the blue heart puppet.

!!

If that was the case, she would be in big trouble.

Fortunately, it was just a false alarm!

The corner of her lips curled up slightly. She retracted her mind and took the time to recover. She closed her eyes and said softly, "Don't think of unrealistic things. You Won't be able to use that puppet."

Su Yu seemed to have accepted her fate. She sighed heavily and watched as the blue heart puppet kept its spatial storage item.

However, what the first ancestor didn't realize was that when Su Yu grabbed onto the blue heart puppet's shoulder, the blue heart puppet's palm was also grabbed without a change in expression.

Su Yu's eyes flashed with a strange light as he quietly put away the blue heart puppet.

The ancestral art that he spent so much effort to create, how could it really be a waste of effort?

The answer was, of course, success!

However, he was just trying to confuse the first ancestor so that she would not be on guard.

When the time was right, he would give her another surprise.

The two of them rested on the same spot. After two hours, they had almost fully recovered, so they continued on their journey.

A few days later.

They arrived at the central area of the nine-tailed emperor realm. During this period, the carefree emperor's lock on them had never been reached again.

"We might have successfully gotten rid of him," the first ancestor said confidently.

No matter how powerful carefree emperor was, there was still a limit. It was impossible for him to lock onto his target indefinitely.

“I need to find a place to rest.” One ancestor was extremely tired. The blue heart puppet had severely injured him, and after a long period of fleeing, his injuries had gradually worsened.

If they did not treat him in time, the consequences would be hard to predict.

Su Yu frowned and looked around. “Are you sure that we have really gotten rid of carefree emperor?”

Based on his many encounters with the carefree emperor’s doppelganger, this person was scheming and extremely sinister.

How could he get rid of him so easily?

The first ancestor was a little too naive.

“It’s better to continue on our journey. Don’t stop,” Su Yu said. “At least a year or more before we’re locked onto. Only then can we be considered truly safe.”

A year?

The first ancestor could not help but laugh. “Do you know how much my body has used up after a year’s long journey?”

It had only been a month or so, and she still felt that her body had reached its limit. She had no choice but to find a place to rest and recuperate. If she were to really travel for a year, even her ten thousand saints body would not be able to withstand it.

Without any explanation, the first ancestor descended into an ordinary small city. He found a secret chamber filled with the rich aura of a Heavenly Dao master and immediately began to cultivate.

Su Yu sighed slightly. Since that was the case, they could only part ways.

“Little skeleton, let’s Go!”He tried to persuade him, but the first ancestor refused to believe him. He could only do it himself.

Although the little skeleton’s speed was not as fast as the first ancestor’s, it was still 70% of its speed.

“Alright!”The little skeleton immediately turned into a lion and started to move quickly.

Time passed by bit by bit.

After a whole month, they were about to pass through the entire nine-tail emperor realm.

The border was already in front of them.

They would be able to leave the nine-tail emperor realm completely in half a day's journey.

“Continue.” Su Yu urged the little skeleton, who was so tired that he wanted to rest, to leave as soon as possible.

However, the little skeleton suddenly grabbed the ground with all four limbs and said uneasily, “Little Master, can you feel it?”

Su Yu looked around and suddenly, his pupils constricted. He discovered that at the border, there was actually a ball of faintly discernible gray smoke that was rolling in from the outside without any difference.

Within the smoke, there were densely packed rockmen!

They held all kinds of Dao artifacts in their hands, and it was as if they were digging three feet into the ground to search.

Su Yu's expression changed, and he immediately moved to the other side of the border. The result was the same!

His eyes were filled with majestic rockmen, and there were countless of them!

The little skeleton sucked in a breath of cold air. "F \* ck, did carefree emperor summon all of the descendants of the emperor? This is almost the same scene as when the Ren ancestors attacked the sacred mountain."

Carefree Emperor went all out. Firstly, the Blue Heart puppet and the Blue Heart Iron Heart were of great use to them.

For another, there was a more important reason — su Yu!

The carefree emperor had probably noticed Su Yu's existence.

His desire to kill Su Yu had existed for a long time. Now that he had finally found Su Yu, how could he let him go?

"I told you that the carefree emperor wouldn't give up so easily." Su Yu's eyes darkened.

The other party didn't give up on tracking them at all. Instead, they deliberately gave them the illusion that he wanted them to let down their guard and stay in the nine-tailed emperor realm, giving him a chance to surround the entire Emperor realm.

Right now, every corner of the border was filled with an army of Rockmen. They were rapidly shrinking their range and swarming towards the interior.

Su Yu had no choice but to retreat. His heart was as heavy as water.

...

The little skeleton grumbled, "It's all because of that old woman. If she had listened to the little master and continued on her journey, with her movement techniques, she might have brought us out of the nine-tailed emperor realm long ago and escaped the encirclement."

"It's fine now. We're completely surrounded."

Su Yu frowned. Now was not the time to complain. It was better to meet up with the first ancestor as soon as possible.

A month later, Su Yu returned to the small city.

The news from the border flew back to the city as if it had grown wings.

Just as it returned, the first ancestor sensed his presence and immediately rushed over. He scolded, “Where Have you all been? Why are you only returning now?”

“Do you know that something big has happened?”

The little skeleton said unhappily, “Did the carefree emperor send stone men to surround our nine-tailed Emperor Realm?”

“You know?”The first ancestor frowned.

The little skeleton almost roared, “You still have the face to say that! We have already sensed the border, but we witnessed it with our own eyes.”

What?

...

The first ancestor was surprised. Su Yu and the others had already gone to the border?

She immediately restrained her anger and revealed a trace of shame. “I was careless. I didn’t expect the carefree emperor to be so anxious.”

The little skeleton panted heavily. “Are you satisfied now? We are all like turtles in a jar.”

Su Yu waved his hand and made the little skeleton shut up.

“The most important thing now is not to distinguish who is responsible, but to figure out how to escape from their encirclement,” Su Yu said.

One of the ancestors tidied her hair and blushed. She blamed herself and became much more polite. “Does saintly being su have any ideas?”

She had interacted with Su Yu several times and learned her lesson this time. She was obviously much more polite to Su Yu and barely treated him as an equal.

Su Yu muttered, “They dug three feet into the ground to search. The process is very slow. They won’t be able to find this place in a short time.”

“However, because of this, we might not be able to hide anything from them,” Su Yu said hesitantly.

The first ancestor agreed with this.

The carefree emperor had paid a huge price to send such a large number of rockmen. He would not let them get away with it easily.

## Chapter 3106 - 3106 Chapter 2994: Who Schemed against who

3106 Chapter 2994: Who Schemed against who

First ancestor continued to listen patiently and asked, “And then?”

“And then...”su yu said slowly, “Perhaps, we can make a desperate attempt to break out of the encirclement.”

The current encirclement meant that the search teams were all scattered around the large encirclement.

When the encirclement shrank, the number of soldiers in each area increased.

!!

The best time to break out of the encirclement was now.

“Break out of the encirclement?” First ancestor was skeptical. “Since you arrived at the encirclement a month ago, why didn’t you take the opportunity to break out?”

Su Yu was exceptionally calm. “Because we share the same fate. I couldn’t bear for you to be alone, so I specially came back to find you.”

Actually, was there an even greater danger outside the encirclement? Su Yu couldn’t predict it.

Without an expert like the first ancestor to take the fall... No, it was too risky for such an expert to travel together.

“I will believe you?” The first ancestor was both angry and amused.

Did Su Yu really think that she was the young girl that her appearance showed?

Perhaps in the world, the person who wanted her to die the most was Su Yu!

As long as she died, firstly, she would be able to relieve her worries, and secondly, she would be able to obtain the Blue Heart Iron Heart in her body.

“You don’t believe me? The same goes for you.” Su Yu shrugged. “Let’s not waste any time. It’s best if we move immediately.”

“Okay!”

The two did not stop. This time, one of the ancestors used his movement technique and only spent half a month to reach the edge of the nine-tailed emperor realm from the center.

As Su Yu had expected, because the search line was very long, their search was very slow.

A month or two had passed, but they did not advance much further.

The two of them hid in the grass and concealed their auras, just like stone golems.

“The distance between each stone golem is about a mile. It will be very difficult for us to charge out without making a sound,”the first ancestor narrowed his beautiful eyes and said.

Stone golems were very sensitive, especially when many of them were together, they could form a special aura around each other.

Even if a fly flew past them, they would be discovered quickly, let alone two living people.

Su Yu agreed. “That’s why I said I wanted to break out of the encirclement, not sneak out.”

If he could sneak out alone, Su Yu would have escaped long ago. Why would he go back to meet up with the first ancestor?

The two of them looked at each other, as if they could see the hidden meaning in each other’s eyes. They said in unison, “You won’t use a trick, right?”

After saying that, Su Yu and the first ancestor were both stunned.

The first ancestor couldn’t help but laugh at himself. “It’s really hard to imagine that I’m actually on par with a little human who’s a little over two hundred years old.”

Her cleverness and cunningness came from the accumulation of nearly ten eras.

But Su Yu, who was only a little over two hundred years old, already had an intelligence that was on par with her. It was only unbearable!

“However, it seems that you are the one who likes to play tricks, right?”The ancestor stared at Su Yu, her beautiful eyes narrowed into slits.

All along, it was Su Yu who had been scheming against her. On the other hand, she, an ancestor, disdained scheming against a small human.

Su Yu said with a solemn face, “I guarantee that I will never plot against you!”

“Escaping for our lives is more important now. We should cooperate sincerely,”Su Yu said.

First ancestor rolled his eyes at Su Yu. “It’s good that you know. I’m warning you, don’t Be Petty!”

“Of course!”Su Yu retracted her gaze and looked at the stone golems that were slowly searching in front of her. She took a slight breath.

When the time arrived, first ancestor suddenly attacked!

She flicked her finger and a ten thousand saints level whirlwind rose up from the ground, sweeping away all the stone golems within ten thousand miles in front of her.

Since they couldn't sneak away, then they could openly break through the encirclement!

“Let's Go!”The first ancestor grabbed Su Yu and the two instantly rushed out of the nine-tailed emperor realm and arrived outside the border.

What they saw was a stretch of yellow sand and an incomparably empty sky.

Just as they were about to escape, an extremely powerful red light suddenly shot out from the yellow sand.

“Attack!”The first ancestor shouted.

Su Yu immediately used the liquid to absorb the red light.

They looked over and their pupils contracted. Under the yellow sand, there were tens of thousands of jade-green eyes.

Each eye was filled with a jade-green light.

How could Su Yu be unfamiliar with this object?

These were all imitations of the nine-tailed Emperor's eyes, and the eyes of the nine-tailed emperor could cause all living beings to perish!

Although the red pillars of light in these imitations were far less powerful than the eyes of the real nine-tailed emperor, their power couldn't be underestimated.

If they were hit, even ten thousand saints wouldn't feel good.

If so many imitations hit a large area, even ten thousand Saints would die!

"The heaven-conquering exterminating artifact of the nine-tailed Emperor!" Yi zu cried out in shock.

The so-called heaven-conquering exterminating artifacts were dao artifacts that every son of Heaven of the sacred mountain controlled on their own. There were often countless of them.

After countless years of nurturing by the son of heaven, their power gradually increased.

What Yi Zu didn't expect was that the carefree son of Heaven actually took out the heaven-conquering exterminating artifact of the nine-tailed emperor to deal with them.

...

It must be known that if the heaven-conquering exterminating device was not personally used, it would damage its essence even if it was not used once.

After using it this time, most of it would probably be destroyed.

For the sake of the two of them, he actually did not hesitate to destroy the heaven-conquering exterminating device!

At that very moment, the heaven-conquering exterminating device shone with red light simultaneously. Beams of blood-colored light beams shot out crisscrossing, making them unable to dodge at all.

Su Yu did not dare to hesitate. He immediately waved the liquid and flattened it into a round cake, blocking in front of the two of them.

Sou Sou Sou Sou —

The thin layer of transparent liquid cake in front of them kept sinking, as if it was about to be pierced through by the red light beam.

However, any one of them was barely blocked by it.

Just like that, after the red light beams that filled the sky were extinguished, the first ancestor let out a long sigh of relief. He immediately grabbed Su Yu and leaped out of the yellow desert in front of him.

With Yi Zu's movement technique, he was able to instantly surpass billions of mountains and rivers.

However, the stone men nearby finally reacted. They immediately sent out a signal to inform the carefree emperor.

...

Their existence was not to kill the two of them, but to find them and inform the carefree emperor as soon as possible.

Yi Zu's expression was calm. He said with a deep meaning, "Human, it's time for us to part ways."

As soon as he finished speaking, he released his hand and threw Su Yu behind him. At the same time, he used his ultimate movement technique and disappeared without a trace.

At the critical moment, she threw Su Yu aside and asked Su Yu to divert carefree emperor's gaze while she escaped calmly.

The little skeleton was furious. "Woah Woah Woah, this B \* stard, she's scheming against us!"

To think that she was still able to say that Su Yu had always been scheming against her. In the end, as soon as she turned her head, she started scheming against Su Yu.

And it was at such a critical moment!

Those stone golems were unable to lock onto the first ancestor, but they were able to lock onto Su Yu and report his location in time.

Su Yu chuckled. "It's not certain who is plotting against whom!"

What?

The little skeleton widened its eyes. You have already been dumped, yet you are still trying to flatter yourself?

## Chapter 3107 - 3107 Chapter 2,995: Souls United

3107 Chapter 2,995: Souls United

It looked left and right, and the sky was filled with rockmen that were rapidly surrounding them.

It seemed that they had already been locked on, and were informing carefree emperor about it. If nothing went wrong, carefree emperor's search would soon reward them in this area.

At that time, they would have to experience a long escape.

"Get Ready!" Su Yu lowered his voice.

!!

The little skeleton had no idea what Su Yu was trying to do, but it was still prepared to use its movement technique.

At this moment, the ancestor that had already flown far away flew back!

Furthermore, his entire body was covered in injuries, and there were several fatal injuries!

From the looks of it, he was actually injured by the Heaven destroyer!

“It can’t be! There’s another ambush outside?”The little skeleton suddenly realized!

It could not help but shiver, “This carefree emperor is too scheming!”

He deliberately made people think that the heaven vanquishing weapon behind the Rockmen was the last ambush.

However, in reality, the first two were used to confuse them. The real killing weapon was left at the back.

From the injuries of the first ancestor, the heaven vanquishing weapon that was waiting for her was much more than expected!

“Let’s Go!” Su Yu shouted in a low voice.

The little skeleton immediately roared, “Wahaha, Old Woman, you schemed against us. You deserve to be ambushed!”

It stomped its four limbs and swiftly broke through the air, heading in the direction that the first ancestor had returned to.

The two of them brushed past each other in the air. Su Yu looked ahead with a calm expression, as if everything was within her grasp.

“You schemed against me again...” the ancestor spat out a mouthful of blood with great difficulty as he watched Su Yu and the little skeleton leave.

She finally understood why Su Yu did not struggle after being shaken off. Instead, she waited quietly on the spot.

This was because he had predicted that there would definitely be another ambush outside.

He did not tell her anything. He just waited for her original body to go over and trigger the ambush.

Now, the heaven-conquering exterminators there had all been used once. Their power had been greatly reduced, or they had been directly destroyed. If they went over, the threat would be reduced by a lot.

In addition, Su Yu had that mysterious liquid, so she would not be harmed at all.

Most importantly, she was seriously injured and could not escape. She could only stay behind to be locked onto by the carefree emperor, and then Su Yu would be able to escape completely.

The first ancestor discovered to her dismay that she was actually not more than a 200-year-old kid!

Seeing Su Yu's back disappear from her sight, she understood that if she did not have any means to remedy the situation, she might really be buried along with him.

In an instant, she weighed the pros and cons in her mind. In the end, she made up her mind and gritted her teeth, "It's too easy for you!"

Her hands formed a seal, and a butterfly-shaped colorful soul flew out from between her brows.

“Go!” She opened her mouth and spat out a mouthful of blood, which landed on the colorful butterfly’s soul.

With this wisp of essence blood in her mouth, the colorful butterfly instantly traveled through space and caught up with Su Yu. It shot toward Su Yu’s back at lightning speed.

Su Yu sensed the abnormality and immediately controlled the small skeleton to dodge to the side in time.

However, just as Su Yu dodged, the colorful butterfly suddenly flapped its wings, and its speed increased by a hundred times.

With a whoosh, the butterfly entered Su Yu’s heart.

A heart-wrenching pain came, and it became more and more intense, as if there was a ball of flame burning in his heart.

At the same time, the voice of the first ancestor came from his soul.

“I’m sorry, I can only use this method.”The voice of the first ancestor’s soul said, “This is one of the highest secret arts passed down by My Soul Saint Clan, the soul is the same root!”

“Right now, our souls are one. If my soul is injured or destroyed, your soul will suffer the same injury or die.”

What! !

Su Yu’s eyes darkened. What he hated the most was secret arts that were similar to curses.

They could easily connect the lives of both sides. One would suffer while the other would prosper.

He looked at the destroyed Heaven destroyer not far away and then looked at the vast sky in front of him. He could only clench his teeth and say, “Go back! That Damn Old Woman!”

Even Su Yu could not help but feel angry.

In the end, he had underestimated the ten thousand saints. They had many tricks up their sleeves, and if he was not careful, he would be plotted against.

The little skeleton could only turn around and come back. Not long after, he returned to the encirclement and found the severely injured first ancestor.

Kacha —

Without saying anything, Su Yu pulled out the absolute heaven sword and placed it on her neck. He said fiercely, “Don’t tell me that you can’t undo this secret technique.”

The first ancestor coughed out blood, but there was a smile on his face. “What do you think?”

At this moment, she could still smile?

And it was a proud smile that said, ‘I have also plotted against you!’!

She was an old monster who had lived for nearly ten eras. What was there to be proud of when she plotted against a junior?

Su Yu held the Absolute Heaven Sword tightly. Really, he really wanted to kill this woman with one sword.

From the moment they met until now, she had always been the representative of trouble!

From the Soul Saint clan, they chased her all the way to the hidden Sky Mountain, and then chased her out of the hidden Sky Mountain. In the end, they ended up in the nine-tailed emperor realm.

Now, they even took the initiative to connect their souls into one.

...

However, just as the first ancestor had said, their souls were now one. If Su Yu hurt her, it was the same as hurting herself.

“Ah!” Su Yu roared towards the sky. She grabbed her and threw her onto the little skeleton’s back. Then, she controlled the little skeleton to continue charging out of the encirclement.

However, the stone men’s encirclement had already closed once again.

Moreover, an extremely powerful will was sweeping over from the outside.

That was carefree emperor's perception. He was scanning from the outside to the inside.

If they charged out now, they would only be discovered in an instant and locked onto.

"It's over, we're dead meat!"The little skeleton shivered.

Su Yu gritted his teeth and urged the little skeleton to turn around and flee into the nine-tailed Emperor's hinterland.

They escaped for ten days in a row and arrived at the center of the nine-tailed Emperor's realm. There were many factions here and it was exceptionally prosperous.

However, no matter how prosperous it was, those factions did not dare to go against the carefree emperor.

No one could help them.

...

The powerful will behind them didn't get too far because of their escape. At most, in a day, they would be swept away and locked onto.

Su Yu's thoughts raced, but all the thoughts flashed through his mind, but they were all rejected.

The gaze of the Carefree Emperor's true body wasn't something that could be deceived by ordinary concealment techniques.

Just as he was deep in thought, the first ancestor, who had slightly recovered, said hesitantly, "The gaze of the carefree emperor is mainly aimed at the soul. Unless we change the soul, no matter how we disguise ourselves, it will be useless."

Su Yu's heart became even more calm. Changing the soul was easier said than done!

The soul was the origin of life, how could it be changed without permission?

He had mastered the complete soul ancestor technique, but he had never learned the secret technique to change the soul.

"Don't talk nonsense," Su Yu said rudely.

It was all because of this old woman that he had fallen into such a situation.

The first ancestor hesitated even more. He looked away and became very strange.  
“Actually, the soul between you and me can be changed. At least, we can change it in a short time and deceive the carefree emperor.”

‘Huh?’?

Su Yu suddenly stopped and was shocked.

However, when he saw the first ancestor’s strange expression, he knew that this method was probably not a good one..

## **Chapter 3108 - 3108 Chapter 2,996, blending together**

3108 Chapter 2,996, blending together

Su Yu looked hesitant. “The soul between us? What do you mean?”

His expression didn't look too good because his instincts told him that what the first ancestor said was definitely a rather difficult solution.

The first ancestor was such a peak person, but when faced with Su Yu's question, he actually avoided looking at him and was hesitant to speak.

"If you have something to say, just say it. Our Time is limited." Su Yu frowned slightly.

!!

The first ancestor hesitated. In the end, he pursed his red lips and whispered, "That's right, soul fusion..."

"Soul fusion? Can you explain it clearly?" Su Yu was a little impatient.

Wasn't the so-called soul fusion a kind of spiritual resonance?

How could this change the soul?

"It means... That!" The first ancestor said with difficulty.

She was unable to open her mouth to explain clearly. Then, she gritted her teeth and said, "Why are you asking so many questions? Just do as I say!"

Lightning flashed in her eyes, and a quivering physical soul pierced into the depths of Su Yu's soul.

The first ancestor's soul was extremely powerful. After going through nearly ten eras of tempering, there were not many living beings in the world who could contend against it!

Su Yu's soul was instantly shaken by that strand of trembling soul. His entire soul trembled uncontrollably and quickly left his body!

Not long after, his soul left his body!

Before Su Yu could get angry, the clear voice of the first ancestor rang in his ears, "I never thought that I would end up marrying a human like you."

Looking closely, the first ancestor was slowly taking off his clothes!

"What do you mean by soul fusion?" Su Yu finally understood what soul fusion meant.

It meant that two souls would fuse into a man and a woman!

As the ancestor took off his clothes, he said, “You have my soul in your body. If you fuse, your soul can temporarily fuse into one and become a brand new soul.”

“No matter how strong the carefree emperor is, it’s difficult to differentiate the soul bodies after we fuse.”

This was the so-called method that they could temporarily change their souls.

Without thinking, Su Yu turned back to his body and said, “I’m sorry, but I can’t do it!”

It was absolutely impossible for him to marry a woman who was his enemy not long ago and who had harmed him to such an extent!

The little skeleton’s lungs immediately exploded. “Old Woman, do you want old grass to feed the young cows?”

“You can even be the little master’s ancestor! No, you’re even older than his ancestor!”

That's right, the ancestor of the previous era was still a junior in front of the first ancestor of the Soul Saint Clan!

“Do you think that if I had a choice, I would use this method?”The first ancestor asked back. “Do you know how much power I would lose after the Soul Fusion?”

She raised a finger. “An entire era of soul accumulation!”

The little skeleton was stunned. An era of soul, how huge would that be?

“As for age, is that important? Two hundred years old and ten eras old monsters, What's the difference?”The first ancestor said calmly. “Moreover, I've never had any soul and body communication with anyone in my life!”

“In the words of your human race, it's a Virgin!”

The little skeleton's mouth was wide open as he looked at Su Yu and was particularly tempted. “Master, why don't you give in? It sounds very hard to refuse!”

“Although it's an old woman, it's a virgin for ten eras!”

Probably, the first ancestor was the oldest virgin in the entire nine star civilization!

“Scram!” Su Yu kicked him and returned to his body.

No matter how big the benefits were, they could not compromise.

However, just as she was about to leave, a powerful soul force pulled her soul out again.

She turned around and saw that Yi zu had already taken off his clothes, leaving only a layer of fluorescent light in front of his chest.

“I can’t die.” Yi Zu looked up at the sky with a determined gaze. “He’s coming soon, there’s no time left!”

As she spoke, she walked towards Su Yu.

Su Yu kept retreating and said, “Your Soul hasn’t left your body yet. How can you talk about merging? !”

Yi zu touched his own cheek. “Didn’t anyone tell you that my body was destroyed long ago?”

Even the sons of Heaven of the sacred mountain needed to continuously destroy the world to maintain their survival, let alone ordinary living beings?

As for the Soul Saint Clan, they valued the soul and cultivated with a light body. Yi Zu's body had rotted several eras ago, leaving only his soul.

“Soul Body?” Su Yu and the little skeleton were shocked!

From the beginning to the end, the first ancestor had used his soul to show others!

“What if you were seriously injured and vomited blood?” The little skeleton widened his eyes.

The first ancestor said indifferently, “When the soul is strong to the limit, the body is a dispensable shell.”

Her soul was so strong that she didn't need the body to protect her!

After all, she had fought with the blue heart puppet before!

“You don’t have any other questions, do you?” First ancestor walked up and looked at Su Yu who was still retreating. He waved his hand and a soul barrier blocked Su Yu’s surroundings.

The face of the little skeleton who was separated outside changed, “First ancestor, a person like you who has little master can’t get his heart!”

Yi zu said calmly, “What do I need his heart for? Having a soul is enough!”

The little skeleton sighed helplessly. “Master, just give in.”

...

Yi zu frowned. “So talkative!”

He waved his hand and a soul light flew out, enveloping the little skeleton. Immediately, the little skeleton’s eyes were blocked.

“Ah! Give me back my dog eyes, give me back my light, give me back... sob sob sob... !”

In the end, the little skeleton could not even speak and his ears could not hear anything. He fell into darkness.

Inside the barrier, Su Yu's face was stiff. "Don't come over!"

He pressed his palms together and used a soul secret technique. However, all the secret techniques were ineffective in front of the number one soul expert in the world.

"There's no need to waste your energy." The first ancestor walked over and blew lightly. There was a powerful force that blew Su Yu to the ground!

If he had a body, Su Yu could still use all sorts of secret techniques to fight against the first ancestor!

Especially since he could control the blue heart puppet through a curse. But now, he only had a soul and was completely helpless against the first ancestor!

Then, the first ancestor's soul squatted down and wanted to press on Su Yu's body to forcefully combine!

Su Yu was shocked and furious. Just as she was about to push him away, a powerful gaze swept over!

...

It was the carefree emperor!

The first ancestor's expression changed. "Quick!"

She immediately sat on Su Yu's body and prepared to combine them?

Su Yu's expression changed again and again. He shouted in a low voice, "Old Woman! It's all your fault. Do you still want to ride on Me?"

"Let me do it!" He got up, flipped over, and pressed the first ancestor down. Then, he roared and the two of them combined!

Amidst the indescribable entanglement, carefree emperor's soul unexpectedly swept over.

When it landed on their bodies, it obviously paused for a moment.

But it left after a while!

Su Yu and Yi zu had an exceptional tacit understanding and did not move!

As expected, not long after, that distant sweeping gaze actually returned!

## Chapter 3109 - 3109 Chapter 2,997. The news had finally arrived

3109 Chapter 2,997. The news had finally arrived

His gaze locked onto Su Yu and the first ancestor's fused soul, clearly having some doubts.

Because the two of them had a sense of déjà vu, especially Su Yu's soul, Carefree Emperor had a deep memory of it.

However, Su Yu and the first ancestor's soul had fused, and their faces were already beyond recognition. Carefree Emperor's gaze locked onto Su Yu for three breaths before quickly dissipating.

After confirming that he had left, Su Yu and the first ancestor's souls finally separated!

!!

Both parties looked at each other, and their emotions were extremely complicated!

Even though their souls had fused together, the kind of fusion between a man and a woman had already happened just now.

They were already husband and wife!

Su Yu stared deeply at each other, and the anger in his heart had completely dissipated. What was left was endless complexity.

Ever since he had married Xian 'er, Su Yu had never thought that there would be a day when he would have sex with another woman!

This was simply a betrayal of Xian 'er!

“Do you know what you’ve done?” Su Yu’s expression was gloomy.

At this moment, he could no longer tell what was going on in his heart. Was it the fact that he had more murderous rage, or was it the fact that he had no choice but to be more tolerant.

If it wasn't because he had no other choice, he believed that the first ancestor would never have given himself up to him, much less force him to do so.

However, the truth had already happened. He wanted to forgive the first ancestor, but it was difficult for him to convince himself.

The first ancestor retracted his gaze and put on his clothes. He said indifferently, "What am I doing? In the words of your human race, aren't you the one who is F \* cking me?"

Uh..

Su Yu, who was full of accusations, was immediately rendered speechless.

Very soon, the first ancestor put on his clothes, as if nothing had happened between him and Xia Qingchen. He said, "Between you and me, you are the one who has taken the advantage, and I am the one who is at a disadvantage!"

"I should be the one who has grievances!"

"If you don't believe me, look at your soul!" Yi zu bit his red lips tightly. There was a hint of reluctance on his face.

Su Yu laughed in anger. He did not even listen to the second half of his sentence. He said coldly, "Do you mean that I am the one who is forcing everything to be loud?"

Of course, as he said his estimate, Su Yu quickly retreated back to his body.

He was not a match for the first ancestor in his current state!

However, at the moment when his soul retreated back to his body, an accident happened!

Su Yu suddenly realized that there was a strong repulsion between him and his body!

No!

To be more precise, his body could not contain his soul!

He took a closer look and realized that his soul power was more than a hundred times stronger than before!

When his soul left his body again, Su Yu was shocked to find that his soul body was emitting golden spots!

If he remembered correctly, only the souls of ten thousand saints would have golden spots!

When his soul body turned golden, he would become a ten thousand saint!

At this moment, Su Yu's soul strength was comparable to a quasi-ten thousand saint!

The jump of his soul was so great that it was probably unparalleled in the world!

At this moment, an ancestor's faint voice came, "The soul is the supreme secret technique of the Soul Saint Clan. Only the ancestor can learn it!"

"This technique can only be used once in a lifetime. When it is combined with a partner whose soul is stronger than yours, it can absorb the soul energy of the other party and eventually break through the soul shackles to reach the ultimate stage of the soul."

The final stage of the soul?

Su Yu knew that when one cultivated ten thousand types of energy to the end, it would be the absolute beginning power!

Could it be that the final stage of the soul mentioned by the first ancestor was actually the absolute beginning power?

However, from his tone, it didn't seem like it.

“The only time my soul was tied together was when I was supposed to offer it to a king of the heavenly path. I got the Soul Energy I wanted from him and then broke through the shackles.”

“Unfortunately, it all went down the drain!”

Su Yu finally understood why her soul had grown so much!

The purpose of merging souls was to balance the strength of the two fused souls.

To take the strong and make up for the weak.

Originally, the first ancestor wanted to combine with a stronger existence so that he could get the chance to grow his soul, but the result was exactly the opposite.

She and Su Yu had no choice but to combine. All of her soul power was severely diverted to Su Yu.

Based on a rough estimate, at least one era's soul power had been allocated to Su Yu.

This was also the reason why Su Yu's soul had become a quasi-great sage!

The first ancestor looked at the sky. She had already noticed that the carefree emperor's visit had disappeared from the nine-tailed emperor realm.

Furthermore, the stone men surrounding the area had also disappeared. This meant that the carefree emperor had completely given up on searching for them!

“Human, this is the end of our encounter! I never want to See You Again!” After the first ancestor said that, he turned into a phantom and disappeared from Su Yu's sight. All that was left was the fragrance in the air.

Su Yu felt helpless!

Why did the first ancestor feel that she was the one who was at a disadvantage?

Kacha..

...

As she left, the soul secret technique that she used one after another lost its effect.

Not only did the spatial barrier disappear, even the little skeleton's sensory blockade had also dissipated.

The little skeleton immediately saw Su Yu and hurriedly shouted, "Little master, are you done?"

It wagged its tail and opened its blinking eyes with extreme curiosity, as if it was listening to extremely interesting news!

Su Yu ignored it. Instead, he familiarized himself with his new soul so that he would not be unable to return to his body.

"Little Master, say something!" The little skeleton came over unwillingly. It smiled evily and said with narrowed eyes, "How does it feel to be at the first place in the world? How does it feel to share it with your dearest spiritual pet?"

Su Yu glared at him. “Do you really want to know?”

The little skeleton nodded and swallowed his saliva. “Of course!”

“Alright, I’ll Tell You Then!” Su Yu took out a kitchen knife.

The little skeleton was stunned. “No, little master, what are you doing with a kitchen knife? Are you going to cook?”

Su Yu shook his head gently.

...

“What is that for?”

“To silence him!” Su Yu’s gaze was as sharp as the kitchen knife in his hand!

He narrowed his eyes and looked at the little skeleton while fiddling with the kitchen knife in his hand. “Do you still want to know the taste of the first place in the world?”

The little skeleton's face immediately stiffened and laughed awkwardly. "Young master, you must be joking. What kind of scene have I, the little skeleton, not seen before? Why would I be curious about the first place in the world?"

It raised its neck and looked like a gentleman.

Su Yu could not be bothered to argue with it and kept the kitchen knife. However, just as he kept it, the little skeleton mumbled in disappointment, "I don't know if it's too tight. Can Young Master take it? Sigh, I really want to know!"

Su Yu's eyelids twitched. Without saying anything else, he picked up his kitchen knife and chopped down!

"Ah! ! My left testicle!"

"Ah! The right testicle has fallen too!"

..

At this moment, a crisp message came from Su Yu's body. When he got closer, he saw that it was a red jade pendant that was shining.

Su Yu's soul immediately walked over and stared at the jade pendant. His expression was slightly solemn. "It's finally here!"

The overwhelming Sky clan had once invited Su Yu to participate in an operation to capture a ten thousand sage expert.

At first, Su Yu was still a little hesitant, but now..

Su Yu looked at the blue heart puppet and then at his soul, and the corners of his mouth curled up into a smile.

## **Chapter 3110 - 3110 Chapter 2998, Ice Crystal Crown**

3110 Chapter 2998, Ice Crystal Crown

At that time.

In the supreme sky, a huge projection was suspended in the sun, Moon, and stars.

In the shadow, a valiant-looking man who was standing on a throne and holding a life-killing sword was kneeling on one knee.

“Your subordinate is incompetent and failed to complete the mission.” His voice was loud and clear, revealing a coldness that could see through life.

!!

If Su Yu was here, he would definitely recognize that he was no other than Zhan wushuang, whom he had not seen for a long time!

Ever since Zi Xuan’s death, Su Yu and Zhan Wushuang had completely broken off.

Zhan wushuang had failed to betray Su Yu and had instead caused Zi Xuan’s death. However, he did not feel that it was his fault and had instead pushed everything onto Su Yu.

“It has nothing to do with you.” The huge projection emitted a majestic voice.

That voice was the carefree emperor.

His original body had failed in searching for Su Yu, so he could not blame Zhan wushuang.

Zhan Wushuang's mission was only to go to the saint puppet clan and remind them of the impending catastrophe. He wanted them to refine the blue heart puppet heart as soon as possible and successfully refine the puppet.

Once they succeeded, it would be the time for the sacred mountain to take back the puppet.

Everything was as Su Yu had guessed. How could the saint puppet clan hide from the sacred mountain when they were refining such a dangerous puppet?

There was only one reason why the saint puppet clan could refine it peacefully for so many years. The Sacred Mountain was waiting, waiting for them to succeed!

"After so many years of planning, all of them ended up benefiting Su Yu." Carefree son of Heaven was unperturbed.

Zhan Wushuang heard this and clenched his fists tightly. He suddenly raised his head, "Su Yu? The blue heart puppet was snatched by Him?"

The huge projection nodded slightly.

“Why? Why him again?” Zhan Wushuang was inexplicably angry, “Why? Why does he want to snatch everything? He snatched my emperor’s killing sword, my divine throne of Heaven and earth, and even the woman I love the most!”

“Now, he even wants to snatch the Blue Heart Puppet!”

Carefree son of heaven said indifferently, “Su Yu is the appointed successor of the Ren Zu. His fate is not weaker than yours.”

Zhan Wushuang clenched his fists, his eyes filled with unwillingness.

“However, if you gather all four pieces of the Emperor Set, you will be able to surpass him and become an existence on par with us, the son of Heaven.” Unfettered son of Heaven revealed an unbelievable secret.

What?

Zhan Wushuang was in disbelief, “Son of Heaven, is this true?”

“I have already obtained two of the four pieces of the emperor set, but I did not discover any powerful power from them.” Zhan Wushuang revealed his confusion.

Back then, when he was still a low-level creature, he had started to accumulate the emperor's four-piece set.

At that time, the emperor's four-piece set might have been considered a rather good and mysterious item, but now it seemed that those things weren't worth mentioning.

How could he not be surprised when carefree emperor suddenly said this?

"You also know that it's a set. It's a scattered existence and is completely useless. Only by gathering the entire set will a great opportunity appear." Carefree emperor said, "If you can grasp it, you'll be an existence on par with us."

Hearing this, Zhan Wushuang's mood surged.

Carefree son of heaven had no reason to deceive a puny human expert like him.

"The emperor's four-piece set was forged by a human expert ten eras ago. It contains the secret of his lifetime's strength."

Zhan Wushuang's mood suddenly shook.

Having been in the nine-star civilization for so long, how could he not understand the past of the human race?

Almost every other era, there would be an incredibly powerful existence. They often possessed extraordinary combat strength.

The most famous was Ren zu from the previous era and the ancient king from ten eras ago!

Su Yu was Ren Zu's designated successor. Then, Zhan Wushuang was the successor of the ancient king?

"Ren zu has already been suppressed by our sacred mountain. If you want to obtain his inheritance, Su Yu will have to walk to the end of the path of heaven. As for you, you only need to gather four pieces."

The difficulty of both sides could be imagined.

"If you want to defeat Su Yu, you have to obtain all four pieces of the emperor set," carefree emperor said.

Zhan Wushuang was once again excited and said, "I must become the current king of the human race first!"

Carefree emperor slowly said, "Your first step is to conquer the nine star civilization and become the leader of the human race. Only then will you be qualified to represent the human race and ascend the heavenly path."

"And at the end of the Heavenly Road is the last emperor's four-piece set!"

It was the Heavenly Road Again!

Zhan wushuang said sternly, "Then, Will Su Yu also ascend the Heavenly Road?"

"Although I will stop him, he will."

Zhan wushuang clenched his fists and said firmly, "Good! Then, I will wait for him at the Heavenly Road!"

"Well, before that, I will find the Ice Crystal Crown, one of the three emperor's four-piece sets!" Carefree Emperor suddenly said.

Ice Crystal Crown?

Zhan Wushuang's breathing quickened. The Ice Crystal Crown was the symbol of authority among the four sets.

It contained incredible power.

"But, why didn't I sense it?" Zhan Wushuang was puzzled. Each of the four emperor sets had a connection with him.

As long as he appeared nearby, he would sense it before anyone else.

"Because, he is in a place that ordinary people can not reach. There is a strong seal there that blocks your senses." Carefree Emperor said.

...

Zhan wushuang was surprised, "Where is it? And, since the Emperor knows, why didn't he just take it?"

Although the world was big, where could carefree emperor not go?

Since he already knew, why couldn't he just take it and give it to him? Why did he have to go and get it personally?

"There, the people of our holy mountain can not enter."The carefree emperor's tone was complicated. There was helplessness and deep fear.

Zhan Wushuang was secretly shocked. There was actually such a place in the world?

"Please speak clearly, I will go and find it."Zhan wushuang cupped his fists.

In the huge projection, a black light flew over and entered between Zhan Wushuang's eyebrows.

Instantly, a huge map appeared in Zhan Wushuang's mind.

"This is..."Zhan Wushuang was at a loss.

Carefree son of heaven sighed deeply, "The ancient tomb of Sinkhole Emperor Lord..."

At the same time.

...

Goddess clan.

Amidst the flowers that filled the sky, a beautiful dreamy beauty stood among the flowers.

She bent her waist and quietly listened to the old woman's instructions.

"Jingyu, that area is about to open. Haven't you found a suitable partner yet?"The old woman was naturally the matriarch of the goddess clan.

Su Yu had once pretended to be the clone of the Mirror Flower Emperor and threatened her, making her behave a lot. She didn't dare to find a suitable partner for Xia Jingyu anymore.

However, there was a great opportunity that was about to come. Xia Jingyu had to go and form a team with a strong opposite sex.

Xia Jingyu was unwilling to choose and delayed until today.

“No, I just want to cultivate quietly in the clan. Leave that opportunity to someone else.” Xia Jingyu was unperturbed.

If it was in the past, the clan leader would have already taught her a lesson. But now, she could only say nicely, “Forget it, we have already arranged a suitable one. After you enter the Mystic Realm, go about your own business. There’s no need to force yourself to cooperate.”
