

THE DIVINE NINE-DRAGON CAULDRON

Chapter 3121 - 3121 Chapter 3009 came true as expected

3121 Chapter 3009 came true as expected

Su Yu secretly tightened his grip on the Absolute Heaven Sword and leaned close to the little skeleton.

This guy was too unreliable. Who knew when he would run away by himself.

“Cough cough, master, how much do you not trust me?”The little skeleton was speechless.

Su Yu glanced at him and said, “Don’t talk!”

How could there be any distractions at the scene of the battle between the Ten Thousand Sage experts?

!!

Any movement that they did not pay attention to could take their lives.

Kacha —

As expected!

A slight cracking sound came from afar. Su Yu immediately tensed up and shouted in a low voice, “Get down!”

Actually, Su Yu was not the only one who reacted.

Most of the people who came immediately made defensive actions after hearing the sound.

Some took out their defensive dao artifacts, some retreated, and some were actually thinking of escaping in the sky.

The group of people immediately split up to protect themselves.

After Su Yu lay down, the little skeleton followed suit. As it lay down, it did not think much of it. “Is there a need to be so exaggerated?”

That was just the sound of a line breaking. was there a need to care so much?

However, while it was lying on the ground, an invisible air current suddenly cut through their area.

The lion fur on the little skeleton’s back was all cut off, along with some special parts.

The cold and burning sensation rushed over at the same time. Only then did the little skeleton’s heart jump and lie on the ground in fear. “Little Master, quickly help me take a look. Why do I feel that my body has become lighter?”

Su Yu turned his head and rolled his eyes. “Yes, because my butt is gone.”

The stream of air just now had cut off half of the little skeleton’s butt. Yes, it was still bleeding non-stop.

“Ah?”The little skeleton immediately reached out and touched its back. In the end, its claws were covered in blood. It rolled its eyes. “Oh my God!”

Following that, its four legs went weak and it lay on the ground without moving. It panted as it said, "I'm not leaving. I Won't leave even if you beat me to death."

His body was extremely powerful, and it would be difficult for ordinary forces to harm him. However, it was just a wisp of air current that nearly killed him.

If not for Su Yu's timely reminder, the little skeleton would probably have been decapitated by now.

However, in comparison, the little skeleton was considered lucky. After all, there were many people who were more unfortunate than him.

After the air current subsided, Su Yu slowly got up and looked around. He could not help but sigh.

The few advanced ancient sage cultivators who had flown into the sky just now were all sliced into pieces by the sudden air currents, leaving behind only blood-stained clothes on the ground.

As for those who had used their defensive dao artifacts, they were sliced to death on the spot, and the Defensive Dao artifacts in their hands were also sliced into two.

The scene had once turned extremely bloody.

In the blink of an eye, less than ten people had come with them.

Their injuries were so severe, but they had only just stepped into the battlefield.

This made many people start to retreat.

“I withdraw.” The peak-stage great sage expert, who had the highest cultivation level, clutched his broken arm that was bleeding non-stop and announced his withdrawal with a gloomy expression.

After careful consideration, he ultimately chose not to take any more risks.

Even he, who had the highest cultivation level, was so shaken, let alone the others?

Even Lone Moon, who had a proud personality, lost the courage to continue moving forward when he saw this scene. He gritted his teeth slightly and said, “Old Demonic Immortal, you didn’t say that the hunting process would be so dangerous!”

According to the various clues provided by the old demonic immortal, that ten thousand saints expert was like an arrow at the end of its flight. His strength was weak, and his body was weak. He couldn't create any waves at all.

But now, it seemed that the other party had the power to crush all of them with a single move.

This wasn't an action that they could interfere with. Ten Thousand Saints experts were too terrifying!

The old demonic immortal shook the dust off his body and said indifferently, "Now that things have come to this, don't you think it's too late to leave?"

Oh?

This suddenly cold tone and unusual attitude made many people feel that something wasn't right.

Including Su Yu!

However, after witnessing the huge footprints, Su Yu had been wary and suspicious.

He had been paying attention to the old devil immortal's attitude the whole time. Before she could finish her words, Su Yu had already taken action while the others were still in shock.

He grabbed the little skeleton's fur and growled, "Go!"

After Su Yu's repeated reminders, the little skeleton was already prepared.

It immediately jumped on all fours and brought Su Yu to the back of the battlefield.

Following that was the strongest peak-stage great sage. He took a step back and wanted to leave the battlefield where the ten thousand saints were fighting.

The rest of them retreated in panic.

However, it was too late.

The remaining terrifying energy waves in the four directions suddenly erupted after the old demonic immortal spoke. They quickly traveled around and covered the entire area.

Especially behind them, there were even more terrifying waves.

Fortunately, the little skeleton reacted quickly and stopped in time so that he did not crash into the waves. Otherwise, half of his life would have been lost.

The peak-stage great sage also reacted quickly and threw a dao item to reduce his momentum. He barely managed to stop before the waves.

...

However, the Dao item that he threw was instantly destroyed by the waves.

The people behind them stopped one after another when they saw this. Their expressions were uncertain.

Su Yu turned around coldly and stared at the old demonic immortal. She asked in a deep voice, "What do you mean?"

The changes in the ripples must have something to do with the old demonic immortal. She must have some ulterior motive for trapping everyone here, right?

The peak-stage great sage was filled with killing intent. "Old Demonic Immortal, are you plotting against us?"

Among everyone, only the old demonic immortal was exceptionally calm. She leaned on her walking stick and stood where she was. She said calmly, “Everyone, since you have come to fulfill your promise, you should fulfill it to the end. How can you give up Halfway?”

The peak great sage expert berated, “Such a dangerous adventure, can’t we just quit?”

“Of course not!” The old demonic immortal was calm and collected. She was not afraid of the anger of the crowd. “I have already asked once on the island if you are willing to continue. If you are willing to continue, you are not allowed to continue halfway.”

Such an unreasonable attitude naturally caused the anger of the crowd to rise again.

“HMPH! If we don’t leave, can you do anything to us?” Lone Moon said angrily.

They had come from thousands of miles away and were actually schemed against. They should have known that the overwhelming Sky clan would definitely not have any good intentions when they invited them here.

...

“Hehe, young man, this is not the land of your famous sword Saint Clan. This old man will not spoil you.”As the old demonic immortal’s laughter faded, that tyrannical fluctuation was once again activated and swept out in all directions.

Everyone was so flustered that they immediately dodged without stop.

And many of the fluctuations were headed towards Lone Moon. After the latter’s expression changed continuously, he continued to shift.

However, there were simply too many fluctuations chasing after him. No matter how he dodged, he was unable to completely dodge them.

One of the fluctuations even surpassed the many fluctuations and arrived behind Lone Moon.

At the critical moment, the Lone Moon saw a fellow traveler not far away. Without thinking, he grabbed him and threw him behind him.

Chapter 3122 - 3122 Chapter 3010, compromise

Chi La —

Ah —

After a scream, the person who was thrown was instantly cut into pieces.

After that, the fluctuations gradually stopped and surrounded them again.

!!

The old demonic immortal stood outside the fluctuations, revealing a strange and arrogant expression. “Everyone, if you feel that I can’t do anything to you, I don’t mind letting you try again.”

This time, everyone fell into a huge silence.

In the ripples just now, many people were injured. This was because the changes in the ripples did not last for too long.

If it continued for a while longer, they would probably be killed on the spot.

The eyes of the peak-stage great sage expert darkened. He asked in a low voice, “What exactly are you trying to do?”

The old demonic immortal calmly tapped his walking stick and said, “Didn’t I say this many times? Surround and hunt the ten thousand sage experts.”

If it was in the past, they might still believe it.

But after everything that happened just now, if they still believed it, they would be as stupid as pigs.

“With our strength, do you really think that we have a chance against the heavily injured ten thousand saints?” The peak-stage great sage asked.

“Furthermore, since you can freely control such dangerous fluctuations, isn’t your strength more reliable than ours?”

She had the ability to control undulations, why not use it to kill All Saints?

The destructive power of these undulations was probably much stronger than their combined attacks.

Hence, the old demonic immortal must be lying.

“All you need to do is listen to the arrangements and you can live. Otherwise, the corpses on the ground will be your end.”The old demonic immortal did not explain further and changed his tone to one of threat.

Everyone fell silent. Even the peak-stage great sage experts had nothing to say.

Trapped in these fluctuations, they could only become fish meat on a chopping board, waiting to be slaughtered.

“But don’t worry. As long as you listen to the arrangements obediently, you will be spared in the end.”The old demonic immortal took out a small box made of black jade at a moderate pace.

Inside the box was a black liquid that was as black as ink. Those who did not know would think that it was some kind of creature.

However, everyone present was an expert above the ancient Sage realm. How could they not be able to sense the intense curse aura emanating from the black liquid?

If nothing went wrong, the curses inside were all curses from the overwhelming sky clan.

Just like the curse that the overwhelming Sky Devil had placed on Su Yu.

However, the power of the curse in the hands of the old demonic immortal was much stronger than the one on Su Yu.

Even a peak-stage great sage would be controlled by someone. Otherwise, the curse would not be able to withstand it.

“For the sake of our mutual trust, please plant the Golden Silkworm Curse of the overwhelming Sky clan.”The old demonic immortal smiled, but his smile was extremely strange.

Golden Silkworm Curse?

Hearing this, the expressions of several people who knew about it changed again and again.

The peak-stage great sage objected, “What kind of joke is this? If you want to plant the Golden Silkworm curse on us, you might as well kill me!”

What was the Golden Silkworm Curse?

It was a very special spell. It was a special curse created with the will of the Great Grandmaster.

It contained the will of the Great Grandmaster.

Once it was planted on a person's body, the curse would grow stronger as time passed, and the will within the curse would also expand.

Eventually, when the curse reached its limit, the will inside would be strong enough to devour the host's soul and replace the body, making the body one of the overwhelming patriarch's avatars.

The only difference was that this avatar did not need the overwhelming patriarch to cultivate on his own. Instead, he controlled the power of all the races in the world.

He had lived for countless years and had used the golden silkworm curse to control countless people.

It was said that back then, an ancestor of the overwhelming sky clan had surrounded and killed a ten thousand saints expert. He had relied on countless avatars to succeed.

Unfortunately, after the battle, the corpse of the ten thousand saints expert disappeared without a trace, causing the overwhelming sky clan to be unable to successfully refine him into an avatar.

“I swear I won’t obey even if I Die!”The people who knew the situation said with absolute certainty.

This curse sounded nice, but they knew how cruel it was.

The Golden Silkworm was born. Once it broke out of its shell, it would be the moment when the host was destroyed.

The Old Devil Immortal tried to use the golden silkworm curse to control their actions and control their lives and deaths. However, if the Old Devil Immortal wasn’t willing to break the curse, wouldn’t they end up in the most miserable state?

Therefore, no one would agree.

Even if they died now, it would be better than letting the overwhelming sky clan off.

The old demonic immortal’s face darkened. “If you insist on refusing, then we can only leave you all here.”

However, the resistance of the crowd was beyond their expectations.

Regardless of whether it was the peak great sage or the ancient sage experts, they would rather die than submit.

They were all going to die. Why did they have to suffer the pain of the golden silkworm curse and then become the puppets of the overwhelming Sky Clan?

Rather than that, it was better to die in the fluctuations without suffering at all.

Seeing how everyone was resisting, the Old Devil Immortal didn't dare to kill them all. After all, in order to rope them over, he had spent quite a bit of effort and price.

“Good! This old man will take a step back and not use the golden silkworm curse, just use an ordinary curse. How about it?”The Old Devil Immortal asked.

Everyone looked at each other and did not reply.

...

The old demonic immortal snorted, “Don’t refuse a toast only to be forced. If you are not even willing to plant an ordinary curse, I will be harming myself if I let you go. Rather than that, I might as well kill all of you here.”

In the end, it was the peak-stage great sage who spoke. He said, “What curse is it? We have to make sure that the harm is not that great.”

The old demonic immortal’s expression softened. He put away the golden silkworm curse and took out another transparent liquid. There was also an unknown substance squirming inside.

The liquid was extremely transparent and did not contain any impurities. When sunlight shone on it, it reflected a rainbow-colored light.

From its body, one could not sense much of the aura of the curse. It could be said that it was a very weak existence within the curse.

“Dustless curse?”The brows of the peak-stage great sage relaxed a lot.

The so-called dustless curse was a very low-level curse. Not only did the overwhelming heavens clan possess it, many other clans also possessed it.

This curse did not cause much harm to the body. However, once it was planted, one’s life would be controlled for a short period of time.

However, as long as one was given time, it would be able to resolve itself within three days at most.

The dustless curse was a curse that he could barely accept.

If it was any lower, he believed that the old demonic immortal wouldn't back down.

...

"Fine! I can accept the dustless curse."The peak-stage great sage nodded.

With him speaking, the others nodded one after another, choosing to compromise.

The expression of the old demonic immortal eased up a lot as he smiled, "That's more like it. I hope that we can work together happily."

Following that, she flicked her finger and the nine drops of liquid flew into everyone's hands.

“If you place it on your abdomen, the curse will naturally be planted,”the old demonic immortal said.

After a while, the rest of them placed the curse on their bodies, including the peak-stage great sage, Du Yue, and Lou Xiaoyu.

The old demonic immortal nodded in satisfaction. Finally, when his gaze swept past Su Yu, he stopped abruptly, “Why don’t you plant it?”

Chapter 3123 - 3123 Chapter 3011, dispelling the curse (Third Watch)

3123 Chapter 3011, dispelling the curse (Third Watch)

Su Yu held the droplet in his hand and said with a hint of hesitation, “I already have the curse of your overwhelming Sky Clan on me. Is there any meaning in planting another curse on me?”

He lifted up his shirt and revealed a picture of an evil spirit on his chest.

The Old Demonic Immortal’s expression was solemn as he said, “For the sake of fairness, everyone has planted one on me. Of course, you are no exception.”

“Just as you said, since you already have a curse on your body, what’s the difference between planting another one?”

Su Yu was silent for a moment before he silently nodded and pressed the drop of liquid on his abdomen.

After a sharp pain, the liquid entered Su Yu’s body.

Seeing this scene, the old demonic immortal finally relaxed and revealed a happy smile. With a wave of his hand, the ripples that filled the sky dissipated.

“Everyone, I hope that we can work together happily in the future. After we succeed, I will remove your curse,” said the old demonic immortal.

Yuren nodded one after another. Only Su Yu knew that the old demonic immortal would not remove the curse.

This was because this curse was definitely not a simple dustless curse. Instead, it was a curse that was even more terrifying than the golden silkworm curse.

As for why Su Yu knew.

That was because the blue heart puppet on his body had no reaction to the golden silkworm curse.

On the contrary, the dustless curse had a strong reaction after it appeared!

Therefore, this was definitely not a dustless curse. It must be an extremely terrifying curse!

With so many people around, it was inconvenient for him to remind it. He could only hide it in the bottom of his heart.

At that moment, the liquid entered his body and immediately turned into a curse that spread into Su Yu's body.

Su Yu remained calm. At the same time, he circulated the power of chaos and the power of the saintly being in his body to form an encirclement around the dustless curse.

However, just as Su Yu had expected, this curse was not the dustless curse at all. Instead, it was an extremely terrifying curse.

The two forces blocking Su Yu's way were instantly broken through by the curse and spread uncontrollably throughout his body.

Seeing that he couldn't stop it, Su Yu slapped his own chest.

The mirror flower son of Heaven's heart was hit hard. A drop of blood essence gushed out from his heart and fused into his blood, limbs, and bones.

Its appearance immediately blocked the dust-free curse's rapid spread.

However, this was only a temporary solution. As time passed, the dust-free curse became stronger and stronger, but the pure chaotic power in his blood was constantly being worn away.

In just a few dozen breaths, the dustless curse broke through the obstruction of this drop of blood and continued to break through.

The danger of the dustless curse was even more intense than he had imagined.

If he did not stop it, once the dustless curse completely spread, even the great Luo gods would not be able to save it.

At the critical moment, Su Yu thought of something and slapped his chest several times. A total of three drops of extremely pure heart blood condensed.

When the three drops appeared, not only did they stop the curse from spreading, but they also forced it to continue.

From the organs to the abdomen, from the abdomen to together, they condensed into a thread of liquid again.

However, this could not be maintained for long.

The power of the dustless curse was too powerful. It was rapidly depleting the power in the blood, making it thin rapidly.

Before long, the dustless curse would erupt again and occupy Su Yu's entire body.

At this moment, Su Yu decisively took out the holy infant flame seed, which had grown to the size of a fist, and stuck it to his abdomen.

At the same time, he circulated his strength and moved the liquid that was wrapped in the heart's blood out of his body to be absorbed by the holy infant flame seed.

In an instant, the holy infant flame seed completely absorbed the heart's blood that was wrapped in the curse!

Only then did the curse in Su Yu's body finally be completely removed.

Looking at the holy infant flame, it expanded a little more. There was a ball of shadow inside the flame, trying to rush out of the flame.

That should be the curse.

The holy infant flame gave off a warm light. As it continued to burn, the ball of shadow gradually became quiet and was slowly expelled.

Compared to its previous mania, the curse was now quiet and docile. It was like a wild beast that had become a domesticated beast.

Su Yu's heart was still filled with fear. He knew that the curse had erased the mark of the overwhelming Sky clan and became an ownerless object.

Even Su Yu could activate it at this moment.

He grabbed the droplet in his palm and sealed it properly.

Everything was resolved silently. Outsiders did not notice it at all.

Even the old demonic immortal did not notice it at all because he did not expect that someone could remove the curse she had placed on him.

“Everyone, according to the news from my overwhelming patriarch, that expert has been forced to the vicinity of heaven-severing mountain. Your mission is to split up and find them.”The old demonic immortal said.

When he said this, everyone could not help but be in an uproar.

The expression of the peak-stage great sage expert changed. “You want us to split up and search for that Ten Thousand Sage Expert?”

Even if they joined forces, they would not be able to match the gaze of that Ten Thousand Sage expert. How could they split up and search?

It was fine if they did not find him, but if they did, they would die without a doubt. They would not even need to flee.

At this moment, no matter how foolish they were, they understood that from the start to the end, what the overwhelming Sky clan was looking for was not a helper, but a chess piece to scout the way.

By banishing them near the Heaven Severing Mountain, the overwhelming Sky clan would be able to detect the sudden death of anyone. They were certain that it was the hiding place of the ten thousand sage expert.

“Old Demonic Immortal, if you really wish to cooperate with us, you should at least be sincere, right? You are clearly asking us to throw our lives away. Please forgive us for not agreeing to it,” a late-stage ancient sage lady said coldly.

...

She had coincidentally cultivated a secret art that could counter curses. After she planted the dustless curse, she had already successfully suppressed it.

With a single thought, she would be able to release the dustless curse from her body.

The old demonic immortal looked at her calmly. “Do you want to die?”

The ancient sage advanced stage lady slowly retreated, her face cold. “Others might be afraid of your curse, but I am not. To tell you the truth, I have already dispelled the curse. I will not accompany you!”

After saying those words, she immediately soared into the sky and left before the other party’s energy fluctuations could be mobilized.

However, the old demonic immortal stood still on the spot and asked calmly, “Is that so?”

She snapped her fingers lightly and the woman who was already far away let out a miserable groan as she fell from the sky.

Before she could land on the ground, her body released an incomparably resplendent light that completely destroyed her from the inside out.

This scene shocked everyone present.

“What kind of curse did you place on Me?”The peak-stage great sage retorted as his expression turned extremely ugly.

The others were all panicking as they checked their own bodies.

...

The old demonic immortal calmly replied, “Of course it’s the dustless curse. However, there’s something else added to it.”

Her words caused everyone’s hearts to sink.

“Are you lying to me?”The peak-stage Great Sage expert roared in rage.

From the start, the old demonic immortal didn’t expect them to obediently plant the terrifying golden silkworm curse on them.

Instead, he deliberately let them haggle over the price. In the end, he had no choice but to compromise and use the dustless curse.

Everyone present thought that they had risked their lives to obtain a good result. In fact, there was something even more terrifying than the golden silkworm curse in the dustless curse.

The Old Devil Immortal’s eyes suddenly turned sharp as he shot a glance at everyone present. “So what if I lied to You? If you are not satisfied? Then I will send all of you on your way!”

Chapter 3124 - 3124 Chapter 3012: Give Your Heart to me (first watch)

3124 Chapter 3012: Give Your Heart to me (first watch)

Even though the Great Sage was furious, he could not do anything about it. He could only clench his fists and glare angrily.

The rest of them checked their bodies and were shocked to find that the seemingly peaceful dustless curse had unknowingly spread to all parts of their bodies.

Some of them tried to use their own powers to push the dustless curse out, but they found that the dustless curse was already deeply rooted.

Ordinary power was not only unable to shake them, but it would even go deeper and deeper into their bodies.

This discovery terrified everyone present.

“Old Devil Immortal! Tell us, what curse did you put on us?”A flustered young man could not help but berate.

He was full of vigor and would rather die than submit. “Let me tell you, you want to use some cheap tricks to control me? In your dreams!”

He waved his hand and placed the dao weapon sword on his neck. “If you don’t explain clearly, then take my corpse and leave!”

However, the old demonic immortal was neither too fast nor too slow. He said calmly, “Young man, I never dream. It’s very easy for me to control you!”

She grinned, and her smile was unusually strange.

Without seeing any movement, the young man, who was threatening with his life, suddenly trembled violently before he regained his composure.

However, his eyes had already lost consciousness and were empty.

“Do you still want to die?”asked the old fiendcelestial.

The young man said in a daze, “I don’t want to die.”

“What if I Let You Die?”asked the old fiendcelestial.

The young man was like a puppet as he mechanically said, “Then, I’ll die.”

The old fiendcelestial nodded. “Give me your heart.”

The young man did not hesitate at all. He raised the longsword in his hand and stabbed it at his chest. Then, with a fierce flick, he plucked out a fresh beating heart and gave it to the old fiendcelestial.

The old demonic immortal held it in his hand across the air and looked at the remaining people with a warm smile. “Everyone, if anyone still wants to hand over the heart to me, I will not reject them!”

As he spoke, a muffled sound rang out as the old demonic immortal crushed the heart.

Fresh blood splattered all over the ground, forming a strong contrast with her kind and warm smile.

Many people swallowed hard, their faces turning extremely pale.

Only then did they realize that they had been struck by a spell that was even more terrifying than the golden silkworm curse.

The golden silkworm curse still needed a certain amount of time to brew before it could finally control its host.

But the thing in this dustless curse did not need time at all. Once it was planted, the other party could control them at any time.

So much so that they were willing to take out their own hearts and hand them over to the old Devil Immortal.

The bloody scene caused their hearts to sink to the bottom.

Just as they were feeling despair, the old devil immortal spoke at the right time, "However, you can rest assured for now. I've placed an even more powerful spell on you just to make you do your best. Do you understand?"

Of course they understood. They understood that the old devil immortal was only comforting them.

After the matter was done, it would be the time for them to lose themselves and become puppets.

However, before the final moment, no one was willing to make unnecessary sacrifices. They all hoped to find an opportunity to get rid of the dustless curse.

“Are you all deaf? Why is no one answering?”The old demonic immortal’s warm smile turned extremely cold as he looked at everyone present.

Everyone shuddered and answered.

“We Understand!”

Even the peak-stage great sage expert had no choice but to lower his head.

Everyone’s faces were covered with dark clouds, and their hearts were heavy.

“Then let’s set off!”The old demonic immortal led the way, and the people behind him did not dare to disobey.

The deeper they went, the more dangerous it became. The energy left behind by the battle between the Ten Thousand Sage experts rampaged through the area, and the slightest carelessness could cause them to turn into ashes.

At first, the old demonic immortal was still able to control the energy fluctuations in the area, but as time went on, the energy fluctuations became more and more powerful, and even she was unable to control them.

She began to be careful as well, not daring to be careless.

Finally, they arrived at an extremely cold region. It was filled with mist, and they couldn't see the end of the world.

They could only vaguely see nine gigantic blades that could shatter the heavens, piercing straight into the clouds.

That was the heaven-severing mountain region!

The Legendary Ten Thousand Saints expert was hidden within.

“All of you wait here. You are not allowed to move about.”The old demonic immortal's expression turned serious. She seemed to have sensed something as she headed in a certain direction, leaving everyone behind.

The moment she left, the crowd naturally exploded.

Many people, with the peak-stage great sage as the center, started to ask questions.

“Senior Xiu, what should we do?”

“That’s right! Senior Xiu, do you have a way to remove the curse and save Our Lives?”

The person called Senior Xiu sat on a huge rock and ignored the questions from the outside world. His expression had already answered everything to them.

If he could remove the curse in his body, would he still need to be manipulated by others and go deep into this place?

Only a few people formed their own bodies.

For example, Du Yue and Lou Xiaoyu. The two of them were tightly leaning against each other, leaning against a huge beast bone.

“Senior brother, I’m afraid!” Lou Xiaoyu leaned weakly into his embrace.

...

Du Yue caressed her back. Although his expression was calm, he was still calm. “Don’t worry, things will turn around.”

As a member of the famed sword Saint tribe, since he dared to come, he naturally had something to rely on. He would definitely not die so easily here.

“However, it’s best if we rope in some people.” Du Yue mused. “Later on, we’ll split up and search for that myriad sage expert. We’ll definitely have a slim chance of survival.”

They had personally experienced how terrifying ten thousand sage experts were.

It was fortunate that they did not find him. If they did, they would definitely die.

Therefore, it was best if they grouped up and coordinated with each other. That way, there was still a glimmer of hope to survive.

Lou Xiaoyu looked at the others and agreed. “Mm, leave it to me!”

She revealed a pure and cute smile and went to chat with the restless target.

At this moment, everyone was in a panic. Most of them had lost their backbone. They were naturally moved by the olive branch that Lone Moon, a late-stage great sage, had thrown at them.

In a short while, three to five people agreed.

Lou Xiaoyu revealed a relaxed expression. Suddenly, her gaze landed on Su Yu.

...

After pondering for a moment, she came in front of Su Yu.

Su Yu sensed something and raised his head expressionlessly. The latter's jade-like face was as cold as iron and emotionless.

He was about to ask what she wanted to do when Lou Xiaoyu crossed her arms before her chest and said condescendingly, "Stop Dreaming. We don't need ancient sage level people to join the team."

It turned out that she had mistakenly thought that Su Yu had such thoughts.

“I’m here to ask if you have seen senior Yan,” Lou Xiaoyu asked.

Senior Yan, Su Yu did not even know who he was. Even if she did, why did she have to answer her?

“I don’t know,” Su Yu said calmly.

Lou Xiaoyu snorted. “Stop pretending. Senior Yan left the team Midway. He must have gone back to look for you.”

Only then did Su Yu understand that the so-called senior Yan should be the flame Brawny man who had gone back to attack him.

Unfortunately, the other party was not as skilled as him and was killed by Su Yu instead. He even took away the extremely precious holy infant flame seed.

“I don’t know,” Su Yu still answered.

Lou Xiaoyu stomped his feet and said in disgust, “You are really annoying!”

Su Yu chuckled. Annoying?

That was not what he said when he thought Su Yu was an expert.

Chapter 3125 - 3125 Chapter 3013, the Reincarnator King

3125 Chapter 3013, the Reincarnator King

“Just wait for your death. Don’t expect us to save you.” Lou Xiaoyu returned to Lone Moon’s side arrogantly and whispered something to Lone Moon.

The latter looked at him from the corner of his eyes with a hint of killing intent.

Su Yu did not care at all. He continued to count all kinds of things by himself, preparing for the search later.

A moment later.

Su Yu’s heart skipped a beat. He lifted his eyes to look at the sky in the distance and stood up abruptly.

Following closely behind him was a peak great sage. The latter also sensed something and squinted his eyes to look at the sky.

The rest of the light glanced at Su Yu and revealed a deep look.

Huff Huff Huff —

The Heaven and earth currents revolved and a huge wave of energy seemed to be repelled by something. It dispersed in all directions.

The others also sensed it and stood up one after another, their expressions wary.

Gradually, a gold and a black ray of strange light came side by side, arriving in front of them.

Behind the two of them was the old demonic immortal.

However, her expression was humble, and she didn't even dare to breathe loudly, as if she was afraid of offending the two people in front of her.

Rumble —

As if lightning had descended, the two flashed and appeared in front of everyone.

One of them had a head full of greasy and dirty long hair that extended all the way to his feet. It was like a dirty cloak that covered most of his body.

At the same time, his body was emitting a thick stench, as if he had not bathed for many years.

His face was also faintly discernible in his messy long hair, as if he was a ghost whose face was unknown.

The most shocking thing was that his body had a much denser curse aura than the golden silkworm curse.

In addition, the old demonic immortal was standing behind him with his back hunched. His identity was obvious!

The overwhelming patriarch!

He was an ancient monster that specialized in curses. His cultivation had reached the peak of the Great Sage realm, and he was half a step away from becoming a ten thousand sage!

Shua —

Beside him was a tall and handsome creature.

His features were well-defined, and his aura was overbearing!

He wore a bright red cloak, and his ink-black hair fluttered in the wind. His eyes looked down on the world.

The most eye-catching thing was that he was a human!

His invincible aura made people tremble in fear!

Lou Xiaoyu couldn't help but lean closer to Lone Moon. His eyes were filled with fear.

His name was also famous throughout the ages and was famous in the nine-star civilization!

He was — the reincarnation King!

The Reincarnation Emperor Realm, the King of the Human Alliance!

“This is the person we found?”The sky-covering patriarch said in a hoarse voice. His breath was filled with the aura of a curse, which made everyone feel suffocated.

Just how many powerful curses were hidden within this person’s body.

If he wanted to kill everyone present, just a glance would be enough.

This made them even more cautious. They could even control their breathing, afraid that forefather omnipotent would notice them.

The Old Devil Immortal stood behind him and said respectfully, “Yes, forefather!”

Forefather omnipotent nodded and waved his hand. “Give the orders.”

“Yes!”The Old Devil Immortal immediately came before them and said seriously, “Now, you guys split up and Go Search for that Ten Thousand Saints expert. Anyone who finds him will be heavily rewarded!”

They didn’t want any more rewards. As long as they were given their freedom, they would be thankful to the heavens.

Shua —

The two lesser ten thousand saints were in front. They didn’t dare to stay any longer and immediately split up to search for the ten thousand saints expert.

Many of them were in groups, but only a few of them were traveling alone.

This included Su Yu.

It also included the peak-stage myriad saints who had ditched everyone and disappeared without a trace.

He didn’t want to bring anyone with him. He only wanted to move alone, disappointing those who wanted to rely on him.

Du Yue led a group of people and gathered together to look for the myriad saints. Although the old demonic immortal frowned, he didn't stop them.

When everyone left, the sky-covering patriarch sat cross-legged on a huge rock and said in a hoarse voice, "Human king, do you think they will succeed?"

The Reincarnation King looked in the direction where everyone left and nodded slightly, "Yes! But..."

His eyes revealed a thoughtful expression. He turned to the old devil immortal and asked, "That human, where did you recruit him from?"

When the reincarnation king asked, the old demonic immortal immediately clasped her hands and legs together and said carefully, "Reporting to the human king, he is from the six paths human alliance. His name is Lou Xiaoyu and he seems to be a direct relative of one of the higher-ups of the six paths human alliance."

The old demonic immortal was a little worried.

The human kings from different regions were all competitors, especially when the heavenly road was about to open.

The competition between the human kings would only get more intense.

...

She blamed herself for bringing the six paths human alliance to make the reincarnation king unhappy.

However, the reincarnation king shook his head, "I'm asking about another human."

Another human?

The old demonic immortal was stunned, "Who is it?"

She had no idea that there was another human among the people she recruited.

That shouldn't be. If there was, she would have discovered it long ago.

"A person dressed in a black robe." Reincarnation King's eyes were deep.

The old demonic immortal just understood that he was talking about Su Yu. "Reporting to human king, this person doesn't seem like a human."

She clearly remembered that the other party once had a faint power of chaos flowing from his body.

This, only the stone people had it, right?

“Doesn’t it look like it?”The reincarnation king touched his chest. An ancient oil lamp flashed and disappeared.

...

It turned out that he was also a mortal.

However, the reincarnation king’s oil lamp was not only ancient, it was also abnormally broken. Even the wick of the lamp had not been lit.

An oil lamp that had not been lit was meaningless to the son of heaven of the sacred mountain.

“I think I met someone who will be born in the legends.”The Reincarnation King narrowed his eyes, which were shining with a bright light.

There was always a legend among the human race.

The legend said that a new human ancestor would be born in the human race. He would use his mortal body to step on the heavenly path again and search for the final human ancestor's inheritance.

Su Yu's appearance made reincarnation king doubt whether he was the legendary heir.

"I just don't know if his oil lamp was lit or extinguished." Reincarnation king pondered.

Gai tianzu heard him and said hoarsely, "Since you're curious, why didn't you keep him?"

Reincarnation king shook his head, "Ren Zu's successor collects the fate of Heaven and earth. He won't die easily."

"If he is the successor, he will come back alive. If not, he will die in heaven-breaking mountain."

Gai tianzu closed his eyes, "Then let's wait and see. I hope they can succeed."

--

Su Yu entered the heaven-severing mountain region. This place was filled with dense fog. The closer he got to the heaven-severing mountain, the heavier the fog became.

When he got to the back, he couldn't even see clearly beyond a thousand feet.

For safety, he had no choice but to slow down in order to avoid encountering any mishaps and not be able to react in time.

"It's better to find a safe place and hide for the time being." Su Yu wasn't so foolish as to search for that dangerous ten thousand saints expert.

If he couldn't find him, then it was fine. If he found him, then he would die.

In any case, his curse had already been lifted. There was no need to take any risks. He could only wait for the storm to calm down before quietly leaving.

Chi —

All of a sudden, a long tongue suddenly stretched out from the fog a thousand feet away, sweeping towards Su Yu.

Chapter 3126 - 3126 Chapter 3014, the mysterious mirror clan (Third Watch)

3126 Chapter 3014, the mysterious mirror clan (Third Watch)

Su Yu didn't even bother to pull out the absolute heaven sword and casually pointed with his finger.

A streak of Tribulation Force surged out and turned into a grayish-black flame that landed on his tongue.

Instantly, the flame exploded. Not only did it burn his tongue into ashes, it also burned along his tongue towards the source.

Roar —

A series of miserable screams could be heard as a huge creature hidden in the dense fog collapsed with a loud bang.

Su Yu walked over carefully and saw that it was a burnt giant toad.

It had the cultivation of a great sage. It occupied this swamp and devoured the creatures that were flying on the ground and at low altitudes.

However, his luck was bad and he met Su Yu.

Su Yu looked at the burnt Toad's corpse and his heart jumped. He gathered sword Qi with his finger and slashed across the air, cutting open the burnt Toad's corpse.

The body of the toad was also burnt into charcoal, but there was a bright red bead the size of a head lying in the charcoal safe and sound.

"As expected," Su Yu muttered.

With his tribulation power, he should be able to burn the toad into ashes, but it was only burnt into charcoal.

It could be seen that there must be something in the body of the toad.

"This is the blood poison pearl. It contains the sky-devouring poisonous toad's life-long poison. You have to be careful if you want to take it."

However, just as Su Yu was deciding whether to pick it up, an old voice came from behind him.

Su Yu's heart trembled slightly. The fog here had a strong interference effect on one's senses.

It was so strong that someone was so close behind him that he did not even notice it.

He turned around slowly and saw that it was the peak-stage great sage.

He stood a thousand feet away from Su Yu with his hands behind his back. His eyes sparkled as he said, "I knew it. You are not an ordinary person."

Before the arrival of the Great Grandmaster and the Samsara Man King, Su Yu had sensed the strange situation between heaven and earth before him. Hence, he was certain that Su Yu was not an ordinary person.

From the looks of it, his guess was not wrong.

He could kill a great sage level toad with a single move!

His cultivation level was unfathomable.

“Is there something you need me for?” Su Yu asked calmly.

The elder smiled warmly and cupped his fists, “Let me introduce myself. The mirror clan cultivates bright distance.”

The mirror clan?

Su Yu had stayed in the nine-star civilization for quite some time, but this was the first time he had heard of the mirror clan.

“Hehe, you’ve never heard of the name of the mirror race, so it’s not strange. That race was extinct at the beginning of the new age. I’m just a minority of the people who are struggling to survive.”

So that was the case. He just did not know what was so special about the mirror race.

“OH.” Su Yu responded briefly and then picked up the blood poison pearl.

The poison in it had a significant numbing effect on the great sage. It could be used when necessary.

Seeing that he was not interested, Xiu Mingyuan finally revealed his intentions. He said with a serious expression, “Do you really want to place your life in the hands of others?”

Su Yu pretended not to know. “Of course not! It’s just that we have no other choice but to follow orders obediently.”

Xiu Mingyuan smiled with a hint of contempt. “Sir, you know very well whether or not we can survive after finishing this. Why lie to yourself?”

Su Yu did not speak, and there was no need to tell him in detail.

“Moreover, do you really think that we are looking for the Ten Thousand Saints?” Xiu Mingyuan’s tone was extremely calm.

Su Yu’s hand that was holding the blood poison pearl suddenly paused. He slowly turned around and faced this person.

His eyes revealed a dark light. “So, I am not the only one who has such suspicions.”

Xiu Mingyuan's eyes flashed. "Why, you also noticed that something is wrong?"

Su Yu nodded. "Although the old devil immortal told us that he wanted us to act as bait to lure the ten thousand saints out."

"But, this is simply untenable." Su Yu never believed the old Devil Immortal's words.

"With the strength of the overwhelming patriarch and the reincarnators, there's no way we can defeat the Ten Thousand Saints!"

"Furthermore, even if the ten thousand saints were to hide, why would we, with average cultivation levels, need to search for them? A glance from those two experts is equivalent to a full day and night of searching."

Clap Clap —

Xiu Mingyuan praised, "There are still people who understand!"

The two looked at each other and saw the clarity in each other's eyes.

They agreed that what they were looking for was definitely not the ten thousand saints.

In fact, they were not even looking for something!

“What do you think?” Su Yu asked.

Xiu Mingyuan thought for a while and made up his mind, “I originally didn’t want to work with others and planned to do it alone. However, I was worried that I wouldn’t be able to do it alone, so I could only seek your help.”

Su Yu listened to him quietly.

“According to my plan, we shouldn’t stay on heaven-severing mountain for too long. We need to leave immediately.” Xiu Mingyuan looked around and felt uneasy. “There must be a great danger waiting for us here.”

Su Yu agreed with this point.

“However, it’s crucial to leave without alerting the great grandmaster and the reincarnation king. We also need to isolate the old demonic immortal’s curse.”

...

Su Yu looked at Xiu Mingyuan and could not help but sigh. After all, he was an old monster who had reached the peak of the Great Sage realm and had cultivated for countless years.

They had an unfathomable foundation and even had the ability to escape from the eyes of the two lesser ten thousand saints.

In the future, when they fought against the ten thousand saints, they could not let down their guard.

“Please continue,” Su Yu said.

Xiu Mingyuan said, “I am proficient in an escape art and can be said to be unparalleled in the world.”

“Just give me a location and I will be able to cross several realms,” Xiu Mingyuan said as he twirled his beard.

Eh?

Su Yu’s pupils constricted. Cross several realms?

Wasn't this crossing a little too exaggerated?

With the speed of an early-stage great sage, crossing a realm would take at least half a year to a year.

Crossing several realms in one go, even the son of Heaven of the sacred mountain couldn't do it, right?

...

"Sir, you don't have to be surprised. The Jing clan was destroyed by the son of Heaven of the sacred mountain. Naturally, there was a reason for it." Xiu Mingyuan laughed at himself.

It was precisely because he had mastered the escape art that caused the son of Heaven of the sacred mountain to be wary of him, so he destroyed his clan.

"What do you need my help with?" Su Yu asked.

One could imagine that this escape art wasn't easy to use. Otherwise, Xiu Mingyuan would have left long ago. Why would he wait until now?

“I’ll borrow your strength.”Xiu Mingyuan said in embarrassment, “The activation of the escape art requires an extremely huge amount of strength. I Can’t use the escape art alone.”

Borrow strength?

Su Yu hesitated.

What if his strength was exhausted and he did not succeed?

He was feeding the saint infant flame seed every day, and his strength was constantly declining. What if his strength was drained and he encountered a strong enemy?

Moreover, he was not like Xiu Mingyuan. The curse had already been lifted, so the chances of him leaving quietly were much greater than his.

Seeing his hesitation, Xiu Mingyuan continued, “Sir, I can ensure that we leave safely. I can also help you find anything you want.”

Su Yu heard the second half of his sentence and could not help but be confused. “How do you know that I can definitely find what I want? What if he is in another realm?”

Unexpectedly, Xiu Mingyuan smiled mysteriously. “Even if he is far away, I can find him for you! In fact, if I reach the Ten Thousand Saints realm one day, it will be easy for me to find things for you in a different time and space!”

Things in a different time and space?

Su Yu was secretly surprised. This Jing Clansman’s talent was too heaven-defying, right?

Their annihilation was definitely not just because of the escape art. It was most likely related to the ability to search for time and space.

Chapter 3127 - 3127 Chapter 3015, mysterious array

3127 Chapter 3015, mysterious array

“Where do you want to go?” Su Yu asked.

He wouldn’t go too far away from the mirror flower son of Heaven Realm.

“Mirror flower son of Heaven Realm.”However, Xiu Mingyuan gave a place that Su Yu thought was a coincidence.

Returning to the mirror flower son of Heaven realm was what Su Yu was looking for.

“Okay, I promise, but remember your promise,”Su Yu said.

If Xiu Mingyuan could really find anything within the nine-star civilization, that would naturally be the best.

“I will keep my promise!”Xiu Mingyuan said heroically.

Su Yu nodded and said, “How do you want to borrow my power? Just tell me.”

“Alright!”

Xiu Mingyuan immediately took out many materials and began to set up an exceptionally complicated array on the spot.

“The escape art of the Jing clan requires a powerful array to pierce through space and time. This array will take at least a day to set up.”

A Day?

Su Yu thought about it and was not too surprised.

If he could use an escape art that transcended several realms at any time and place, wouldn't it be even more heaven-defying than the spatial saint clan?

Moreover, if it was really so easy, how could it be so easy for the sons of Heaven of the Sacred Mountain to destroy the Jing clan?

“I'll protect you.” Su Yu walked a thousand feet away and patrolled the surroundings. She was on guard against the arrival of unknown objects, which would affect Xiu Mingyuan's formation.

At the same time.

Du Yue, Lou Xiaoyu, and the others gathered together and began to search mountain by mountain.

Among the nine peaks of the heaven-severing mountain, they had already searched to the peak of the first peak.

“The first peak is safe.” Lou Xiaoyu patted her chest lightly to ease the deep pressure and nervousness in her heart.

Along the way, she was afraid that she would suddenly encounter that invincible ten thousand sage expert.

Luckily, their luck wasn't bad. Even after searching the entire mountain, they still didn't find any enemies.

Lone Moon stood in the middle of the crowd and became their leader.

He looked down at the other eight peaks.

The eight steep peaks of the heaven-severing mountain were shaped like nine-fingered demon claws. They stretched out from the underground devil domain, exuding a majestic aura.

“The rest of us should have searched at least three peaks. Including our first peak, we have finished searching four peaks,” Du Yue analyzed.

“That ten thousand saints expert should be among the last five peaks.”

After he finished speaking, the people who had just relaxed became nervous again.

What he meant was that there was a high probability that a team or one person would discover the ten thousand saints expert in the following search.

“Our luck won’t be bad,” Lou Xiaoyu consoled herself. Suddenly, her gaze landed on a broken tile under her feet.

She could not help but look around and realized that there were quite a number of broken tiles nearby.

“Brother Du Yue, look.” Lou Xiaoyu pointed to her discovery.

Du Yue pondered for a moment and leaped into the air. He bent down to take a look and finally saw something.

It turned out that there had once been a large-scale formation on the peak. Its existence was extremely ancient, at least half an era old.

The formation had already been destroyed over the passage of time, leaving behind only the broken bricks and tiles on the ground.

“It’s nothing. Don’t worry about it.” Lonemoon flew back to the ground nonchalantly and said, “Rest here for half a day and continue your journey.”

His original intention was to stall for time so that he could use the Special Dao artifact from the famed sword Saint tribe to peel off the dustless curse from his body.

However, the crowd was barely able to sit down.

Suddenly, a late-stage ancient sage expert’s eyes glazed over. A cloud of green smoke rose from the top of his head, and he said mechanically, “Who told you to stop? Continue searching!”

The crowd who were about to take a rest were alarmed, and they quickly distanced themselves from this person.

Their expressions grew increasingly grim, because it was clear that this person had activated the dustless curse, destroying his soul and turning him into a puppet.

“Search!” He berated, becoming a puppet that the old fiendcelestial was monitoring them.

Lone Moon gritted his teeth and said, "Let's go and search for another mountain peak."

Forced, they began the search for the second mountain peak.

Given that the myriad sage expert might very well suddenly appear, everyone's nerves were tensed, afraid of encountering a sudden encounter.

However, they were extremely lucky. All the way to the peak, they did not discover the myriad sage expert.

"Phew! We Are Saved!" Lou Xiaoyu let out a relieved voice.

Even du Yue was secretly sweating. It was so close.

It seemed that they were not the ones who encountered the ten thousand saints expert, but the other teams.

However, the other peaks were quiet. It did not look like they had found the ten thousand saints expert.

"Sit down and wait for the order," the puppet shouted.

This action played right into Lone Moon's hands. He secretly took out a palm-sized sword case. After opening it, there was a dazzling array of tiny swords that were as thin as steel needles.

"Go!" He shouted in a low voice. Countless tiny swords flew up and entered his body through his pores, destroying the dustless curse that was scattered all over his body.

The process was rather painful. Lone Moon suppressed her emotions and silently dispelled the dustless curse.

...

Lou Xiaoyu observed her surroundings and discovered that there was another broken array formation on the peak.

However, this array formation was much better preserved than the previous peak. One could vaguely recognize the shadow of the array formation from standing on the ground.

"It seems to be a spatial teleportation array." Lou Xiaoyu had learned a little about array formations and had some research on it. "However, it doesn't seem to be a normal spatial teleportation."

“The method used to set up the array here is rather ancient. It definitely doesn’t belong to our era. Moreover, it’s set up extremely cleverly.”

She was a little surprised. Who would set up an array in such a remote area.

It was quite a huge operation!

A few hours later.

They looked across the mountain peaks and saw that there were people from the other three mountain peaks climbing up the mountain peaks.

This meant that from the beginning until now, none of the eight peaks had encountered any ten thousand saints.

The only one that had not been searched was the last peak, the ninth peak.

If that Ten Thousand Saints was sure that he was at the heaven-severing ninth peak, he would definitely be there.

...

Moreover, they did not know if it was an illusion, but when they looked at the ninth peak, they vaguely felt that the ninth peak was covered in a layer of vague blood fog.

Compared to the other eight peaks, it was clearly different.

Gulp —

No one knew who it was who swallowed a mouthful of saliva. Even Lone Moon felt an inexplicable chill when he looked at the ninth peak.

At this moment, the puppet suddenly said, “Go, Ninth Peak!”

Lone Moon gritted his teeth, turned around, and cupped his fists. He said, “Senior, the other eight peaks have already been searched. Only the last ninth peak has not been searched. That ten thousand saints expert should be among them.”

“There’s no need to doubt this point. I hope that forefather omnipotent and senior six paths man king can take action and capture that ten thousand saints expert.” Lonemoon braced himself and said.

PA —

The puppet didn't think twice and kicked Lonemoon's chest, sending him flying.

"Say one more word, or else you'll become a puppet too."The puppet issued an empty but extremely threatening threat.

Lone Moon clutched his chest and exchanged glances with the other five. With gloomy expressions, they descended the mountain and headed to the ninth summit.

However, when they arrived at the foot of the ninth summit, they discovered Su Yu's figure patrolling around them.

The Fog's line of sight blocked the other party's line of sight, and they could only see each other for a thousand feet, so they didn't discover each other ahead of time.

Chapter 3128 - 3128 Chapter 3,016, the Rampage of giants

3128 Chapter 3,016, the Rampage of giants

By the time Su Yu discovered them, the other party had also discovered him.

“Silver Plume?” Lou Xiaoyu was the first to recognize him, and he cried out in surprise. The others looked over one after another.

Lone Moon had a suspicious look on his face. Why was Su Yu wandering at the foot of the ninth summit?

He looked around, vaguely guessing something.

The puppet among them had obviously discovered Su Yu, and he shouted, “Why didn’t you go up the mountain to search?”

For some reason, the Old Devil Immortal’s tone was much harsher than the others when he asked Su Yu through the puppet.

It was as if he was afraid that Su Yu would lose control and run away.

Su Yu’s heart also thumped.

Not far away, Xiu Ming Yuan was setting up a formation. If they discovered him, the situation would not be good.

After thinking for a moment, he walked forward and stalled them. "I'm hesitating whether I should go up to the ninth summit. Because I'm alone, I'm worried that I don't have enough people."

He could only find an excuse to avoid everyone's doubts.

Hearing this, Lone Moon's doubts gradually disappeared.

The ninth summit was more than dangerous?

It was simply courting death!

That ten thousand saints expert might very well be here. If they barged in, they would most likely die.

"Then there's no need for you to hesitate anymore. Come with us!"The puppet said hollowly.

Su Yu glanced at the puppet. His eyes flashed slightly. He nodded and said, "Okay."

The most important thing now was to lure them away. As for using the array formation, he would talk about it later.

As a result, Su Yu was forced to follow them to the ninth summit from the other side.

As soon as he stepped on the ninth summit, Su Yu felt as if an electric current swept through his entire body, causing all the hair on his body to stand up.

It was as if he wasn't stepping on a mountain, but on a terrifying giant.

He was not the only one who reacted. The others present felt the same. They felt an inexplicable palpitation.

"We can't stay. Let's continue." The Old Fiend Immortal used a puppet to monitor everyone.

They had no choice but to brace themselves and continue to climb the mountain to search.

The higher they went, the more they felt a chill run down their spines. It was as if their lives were in danger at any moment.

Everyone was extremely nervous.

Su Yu's strength surged through his entire body, ready to deal with any danger that might appear at any moment.

Roar —

Suddenly!

A roar sounded out of nowhere. They were already extremely nervous, and they were so frightened that they almost ran away.

It was fortunate that they were all ancient sages or even great sage experts.

Yet, they were all so frightened!

Su Yu was the only one who remained calm. His eyes were fixed on the fog, and before it could retreat, a colorless python the size of a bowl crawled out from it.

Su Yu's raised heart was relieved. With a sword flash, he cut the python in half.

The old demonic immortal bellowed angrily, “A bunch of useless things. How could a snake scare you to such a State?”

They, who had fled in all directions, looked at each other with awkward expressions.

It was as if they were overly sensitive.

“If you continue like this, be careful of turning all of you into puppets. HMPH, good-looking but useless things.”The old demonic immortal snorted.

Through the puppets, she sized up Su Yu once again.

They were both from the younger generation, but Su Yu’s performance was completely different from the others.

It could be seen that Su Yu had experienced more similar dangers than them, which was why he was able to remain calm in the face of danger.

“Continue!”The old demonic immortal said.

The group of people could only continue forward. However, they had only taken a few steps when another roar sounded.

The group of people who had made a mistake earlier were all calm this time. An early-stage great sage expert volunteered and shouted, "I'll do it this time!"

He wanted to see what it was this time!

Unexpectedly, just as he stepped forward, pitch-black venom sprayed out of the dense fog!

Seeing that the situation was not good, Su Yu immediately retreated.

The others also realized that something was wrong and retreated.

The expression of the experts who were fighting in the front changed drastically when they realized this. However, they did not retreat. Instead, they took out an extremely high-grade dao artifact to block in front of them.

However, the result caused everyone to suck in a breath of cold air.

The defensive shield of a level seven dao artifact was like a bubble when it came into contact with the poison. It melted on the spot.

The intense poison mercilessly passed through the shield and sprayed onto the expert's body.

With a miserable scream, the expert turned into blood..

The miserable scene caused everyone present to become solemn. They stared at the flowing fog that had returned to silence.

...

They only felt that there was an incomparably dangerous existence within the fog that was eyeing them like a tiger eyeing its prey.

The two sides stood in a stalemate for a long time. The Old Devil Immortal controlled his puppet and walked forward. When he passed through the three hundred meter thick fog, he couldn't help but be startled.

He could faintly see that in the distance, there were also a few creatures on full alert!

The thing that attacked them wasn't some giant creature, but another group of creatures that were climbing the mountain.

“Stop!”The Old Fiend Immortal was angry and angry. He summoned both sides.

Only through the three hundred meter thick fog did everyone finally recognize that they were his people.

“It was a false alarm!”Lou Xiaoyu patted her chest. She felt like she was going crazy.

First, it was a snake, and now it was one of their own. Any movement would make them feel like they were facing a great enemy.

The so-called shadow of a bow and a snake was nothing more than that.

“Why did you suddenly attack us?”Thinking of this, Lou Xiaoyu asked indignantly.

The members that they had spent so much effort to recruit had died just like that.

...

The other party was a group of three, and most of them did not possess high cultivation. They were only at ancient sage advanced stage.

Just a glance at them made Su Yu realize that something was amiss.

“How did we attack you?” The three of them glanced at one another, and their eyes were filled with confusion. “We heard the roars of demonic beasts, so we hid under the boulder to defend ourselves. Only then did we see you arrive.”

“We didn’t attack during that time!”

Lou Xiaoyu didn’t believe their words. He snorted and said, “You still want to Quibble? Who else could it be but you? There’s no third...”

Patter —

A ball of thick fishy liquid fell from the sky, drenching Lou Xiaoyu from head to toe.

Everyone looked up at the source of the liquid, and all of them took a deep breath.

They saw a huge head the size of a palace floating in the sky above them.

Two red eyes the size of a huge door were like two blood-red suns, staring at them greedily.

The Fog in the distance stirred crazily, and one could vaguely see an extremely long body.

“What... What is that?” Someone’s heart trembled as he asked, and his mind went blank.

The Python’s body was so huge that it was almost one-tenth the size of the ninth summit.

At this moment, its body was wrapped around the ninth summit. Its head popped out and stared at them.

Just as they were hesitating, Su Yu had already rushed out.

The Python had already blocked the path at the bottom of the mountain. The only way was up the mountain.

Roar —

The moment he moved, the Python immediately launched an attack and spat out a terrifying poisonous liquid!

Those who had experienced this before did not dare to endure it. They all ran up the mountain without putting up any resistance.

Only the three people who had just met tried to use the giant rock to resist.

However, they did not expect that when the venom passed by, the giant rock was even weaker than the snow. It melted in an instant, and the three people were immediately melted into blood.

Su Yu ran wildly, and the higher he went, the more frightened he became.

He felt that the ecology of the Heaven's end cliff was too illogical.

It was nothing more than an area of tens of thousands of square feet. How could such a giant Python be born at the same time as the giant poisonous toad he had encountered before?

How did they grow so Big?

Just by relying on the food within tens of thousands of square feet, it wasn't even right to stuff the gaps between their teeth.

In short, the Heaven's end Cliff gave him a very strange feeling.

Chapter 3129 - 3129 Chapter 3017: Perfect Formation

3129 Chapter 3017: Perfect Formation

Hiss —

While he was deep in thought, the giant Python chased after him once again!

For a moment, sand and rocks flew, and huge trees fell along the way, creating a loud noise!

Everyone who heard it felt their hearts skip a beat, and they fled towards the peak of the mountain!

Su Yu occasionally turned his head to look behind him. The giant Python's figure was faintly discernible in the fog, and its enormous body swept through everything in its path, destroying everything in its path!

He felt even more incredulous!

If the ninth summit had this giant python, why would it only destroy the ninth summit at this moment?

With just a casual movement, it could shake the earth and shake the mountains. Its destructive power was extremely strong!

Zhi Luo told Su Yu that there was definitely something wrong with the origin of the giant python!

However, Su Yu didn't have time to think too much. He summoned the little lion and used its escape technique to escape to the peak of the mountain.

It was faster than an ordinary person, bypassing everyone and escaping first.

Seeing this, who would be willing to fall behind?

Those who fell behind would definitely die at the mouth of the giant python!

“Explosive Inferno Sword!” Seeing that the situation was not good, Lone Moon summoned nine transparent swords and surrounded his body.

Bang —

After a loud sound, one of the swords exploded and turned into a ball of hazy light.

Lone Moon took a deep breath and actually sucked the radiance into his nostrils!

The radiance could be seen with the naked eye. The radiance went from his nose down his throat to his abdomen. Then, it expanded explosively to all parts of his body through the meridians that were operating at a high speed.

Finally, it all spurted out from his pores!

He himself flew forward in a manner that was close to exploding and surpassed Su Yu!

The little lion smacked his tongue. “It can still be like this?”

Su Yu also thought to himself. After all, the famed sword villa was known as the number one refiner family in the nine star civilization. They still had some outstanding points and could not be underestimated.

Looking at the others, they were afraid that they would fall behind and no one would be able to do anything!

They used all sorts of escape methods. For a time, they were actually not far from Su Yu!

Nine Peaks Mountain was only this big. Everyone ran like mad and quickly reached the top of the mountain!

Lone Moon turned around and shouted, "Quick! Ask the overcast patriarch and the reincarnation king to Act!"

Since they were already in such a dangerous situation, if the two did not act, they would all die here!

The puppet that was monitoring them paused for a moment, as if it was asking for instructions from the two experts.

Outside heaven-severing mountain.

The sky-covering patriarch, who was sitting cross-legged, suddenly opened his eyes. His dry and yellowish eyes shone with a deep light!

“I’ve finally found it!”The cursed aura on his body shook violently along with his emotions, filling the surrounding mountains and rivers.

However, the reincarnation king maintained his sitting posture and said indifferently, “Calm down, we’re still a little bit away.”

The ninth peak!

Su Yu and the others reached the peak of the mountain one after another!

He was about to consider whether he should expose the fact that he had broken the dustless curse and fly away from the vicinity of sky-breaking mountain.

However, unexpectedly, just as they were about to reach the peak, the giant Python suddenly stopped its attack.

Through the thick fog, one could see its huge body winding around sky-breaking mountain.

That huge head was spitting out tree-thick snake tongue as it stared greedily at them.

The strange thing was that it no longer dared to go forward. It could only wander around the place it was at!

Such a strange scene was indeed inconceivable to them, but I let out a long sigh of relief.

Hu —

Everyone took a deep breath as they stared at the huge python that didn't dare to go forward.

Su Yu took a step back slightly and turned around to guard the peak.

There were so many giant creatures here, it was better to be cautious. However, when he turned around, he found a male corpse on the peak!

He was dressed in a tattered gray robe, his hair was messy, and his skin was rough and sallow. No matter how one looked at him, he looked like a mortal farmer.

But why was he on the peak?

What was even stranger was that Su Yu found a rather ancient array formation underneath him.

That array formation should have existed for at least an era, and it seemed extremely old.

However, it was still considered complete, and they didn't know if it could be used.

“Eh, why is there a corpse?” After everyone recovered from their shock, they discovered the existence of the corpse one after another.

However, they were clearly not interested in an ordinary corpse.

What they were interested in was the array formation beneath him.

“That's strange. There's a similar array formation on every mountain peak.” Lou Xiaoyu squatted down and observed the array formation up close.

Oh? Su Yu's eyes flashed. There's a similar array formation on every mountain peak?

...

Seeing that everyone was surrounding the array formation and approaching, Su Yu retreated silently until he reached the edge of the mountain peak.

At this moment, everyone was no longer satisfied with their observation.

A great sage guessed, “This formation has some spatial teleportation characteristics!”

Lou Xiaoyu confirmed his guess, “It is indeed a teleportation formation!”

Her pair of beautiful eyes looked at the other two and saw a strange light in each other’s eyes.

The three of them glanced at the puppet tacitly and understood each other’s intentions.

If this was a teleportation formation, they might be able to use it to leave.

The great sage said, “Everyone, I know a little about curses. No matter how strong a curse is, there is a limit to its range.”

“If it exceeds a certain distance, it should be able to avoid being controlled by the curse.”

“Even if it doesn’t exceed this distance, it can weaken the control of the curse and buy US enough time.”

Du Yue and Lou Xiaoyu blinked, agreeing with him.

...

The three of them looked at the array formation again. Lou Xiaoyu’s eyes flashed, pretending to be curious about the array formation. She took a step forward, moved the corpse away, and threw it aside. “Let me see what array formation this is.”

She carried the puppet on her back and quietly placed an energy stone in the center of the array formation, secretly activating the array formation.

However, she felt that something was a little strange. After an ordinary teleportation formation was activated, it would usually emit a weak spatial attribute, but it did not appear in front of her.

What it emitted was actually an obscure fluid!

It was as if she did not activate the teleportation formation, but opened a certain door.

“What are you doing?”The puppet noticed that there was fluid in the formation and asked.

Lou Xiaoyu hurriedly retreated with a blank expression. “I, I don’t know either. It suddenly activated itself.”

“It activated?”But strangely, the puppet was not worried at all. Instead, it had a calm and happy expression. “It’s good that it’s activated!”

Oh?

Lone Moon and the others’expressions changed slightly. What did it mean?

Was the old demonic immortal not worried that they would activate the spatial teleportation array and escape?

Su Yu’s gaze changed as he jumped back and forth in front of the array and the corpse.

He had long felt that this place was not simple!

The old demonic immortal's words made Su Yu feel a great sense of danger!

Without saying a word, he turned around and soared into the sky, sprinting towards the horizon!

The moment he moved, the others felt that things were not looking good and left the array.

Lone Moon had a strong premonition. "Old Demonic Immortal, what on Earth are you trying to do?"

At this moment, how could they not understand that the so-called search for All Saints was a lie.

"There are no All Saints here, right? You're lying to us!" Lone Moon questioned.

The Old Devil Immortal let out a strange laugh through the puppet. "I did lie to you, but All Saints are indeed here!"

What?

Lone Moon and the others were shocked. Why didn't they discover his existence?

3130 Chapter 3018, the corpse of ten thousand saints

Lone Moon and the others were secretly shocked as they searched around.

The ninth peak was so small. Since there were ten thousand saints here, why couldn't they sense it?

"Where is he?" Lone Moon asked in terror.

If the Ten Thousand Saints were here, wouldn't they be in great danger.

"Keke..." the old demonic immortal laughed strangely. "He's far away, but right in front of us."

Oh?

Everyone was stunned. He was right in front of them?

Their gazes swept over and suddenly landed on the mortal's corpse that had been kicked away. Their expressions changed drastically. "Could he be the heavily injured myriad sage expert?"

Lou Xiaoyu shook her head. "Impossible! How can ordinary people like us be able to touch the corpse of a myriad sage expert?"

Just now, she had personally moved this corpse away from the array formation. If it was the corpse of a myriad sage expert, she would have long been reduced to ashes!

The old demonic immortal stared at the corpse of the ten thousand sage expert. "That's because his corpse is on the array formation. Now, why don't you try touching his corpse again?"

Lou Xiaoyu hesitated. She took out an unwanted tier 5 dao artifact and casually threw it on the corpse.

She had once heard from her elders that even the corpse of a ten thousand sage expert possessed great power. If an ordinary person touched it, they would definitely be destroyed by the great power remaining in the corpse.

If the corpse in front of her was really a ten thousand sage expert, the Tier 5 Dao artifact that was thrown over might bounce back.

Clang –

When the Dao artifact was thrown on the corpse, it made a hard sound. Other than that, there was nothing else unusual.

Lou Xiaoyu pursed her lips. “Look, it’s not a ten thousand sage expert.”

She walked forward, bent down, and reached out to grab it, preparing to retrieve the Dao artifact.

But just as her finger was about to touch the Dao artifact, a gust of mountain wind blew over. The dao artifact lying on the corpse’s chest was blown away..

Lou Xiaoyu’s body came to a sudden halt. She stood there unmoving, her fingers still in the same position as before, not daring to move at all.

But her face did not tremble. Her eyelids were twitching wildly, and her teeth were chattering uncontrollably.

Her entire body was trembling uncontrollably!

The dao artifact did not bounce back because it had already been shattered into powder!

The corpse in front of her was undoubtedly the corpse of a ten thousand sage expert!

Her finger was only a tiny bit away from the corpse of the ten thousand sage expert. If she had moved a little further, she would have been the one who had turned into powder.

Hualala —

When the people around saw this, they all retreated in fear, their faces filled with terror.

Lone Moon stepped forward and pulled Lou Xiaoyu, whose body was stiff, back to the edge of the mountain. His eyes were filled with shock. “The Ten Thousand Sage Expert... is dead?”

He looked at the puppet controlled by the Old Devil Immortal. “You killed him?”

The Old Devil Immortal's gaze was complicated. "Of course not. Although my overwhelming patriarch and the reincarnator King have boundless strength, it is impossible to kill a heavily injured ten thousand sage expert."

"Someone else killed him."

Someone else could kill a ten thousand saints expert?

Could it be that the one who attacked was the son of Heaven of the Sacred Mountain?

Only they had absolute confidence in killing a ten thousand saints expert.

However, it didn't matter who killed him.

"Then what are you trying to do?" Lone Moon shouted. "Since the Ten Thousand Saints expert is already dead, what's the point of US looking for him?"

They had deceived them into coming to the mountain peak, saying that they were looking for a heavily injured ten thousand saints. But in the end, the Ten Thousand Saints had already died.

Those two lesser ten thousand saints clearly could have come here by themselves. Why did they have to let these low-level cultivators come here?

The puppet controlled by the old demonic immortal revealed a strange smile. “Firstly, the Heaven Breaking Mountain region doesn’t allow experts who are stronger than them to enter.”

Is that so?

Du Yue thought about it carefully and felt that there was a possibility.

Otherwise, those two lesser myriad saints would be able to find the corners of the nine peaks of the Skybreak Mountain with a single glance. Why would they have to go through so much trouble?

“My overwhelming patriarch and the Samsara Man King have been tracking the myriad saints all the way here, but they discovered that the skybreak mountain isn’t allowed to enter.”The Old Devil immortal stared at Du Yue and the others as though he was looking at a corpse.

Hence, she no longer hid anything from them.

“If he barges in without permission, he will encounter a mysterious attack.”The Old Devil Immortal pointed at the corpse of the myriad sages expert. “Originally, he could have

continued to live on for a period of time, and there was even a possibility of him recovering.”

“But because Wu barged into the skybreak mountain, he was trampled on by a gigantic foot. He lost most of his life and died here.”

If Su Yu was here, he would definitely remember that before heaven-breaking mountain, in the remnants of the war, he once saw an incomparably large footprint.

The footprint was so large and the power it left behind was so deep that it was shocking.

Lone Moon’s eyes were filled with astonishment. “Since that’s the case, why didn’t he leave heaven-breaking mountain and run towards the peak?”

He knew that heaven-breaking mountain was a restricted area, why did he still come?

And in the end, he died on top of an array formation?

“That’s because the array formation beneath him might be able to save his life. It’s a pity that he didn’t last until the end and fell in front of the array formation.”The Old Devil Immortal’s eyes revealed a trace of joy.

Array Formation?

Everyone's gazes were once again attracted by the array formation.

...

The array formation that was flowing with a strange fluid was always revolving, but it hadn't been activated for a long time.

"As for the second reason I asked you to come, that is, once the array is activated, everything in heaven-severing mountain will be destroyed. Thus, I can only go through all the trouble to trick juniors like you to come here and activate the array."The old demonic immortal had a smile that wasn't a smile.

Only now did they finally understand that this was all a scam from the beginning to the end.

What chasing after ten thousand saints, what searching for hiding ten thousand saints, these were all nonsensical things.

They had only one goal, which was to guide them to open the array formation step by step.

From the moment they discovered the dilapidated array formation on the first peak, the old demonic immortal had intentionally or unintentionally led them to pay attention to the array formation until the ninth peak arrived before the complete array formation.

Lou Xiaoyu was affected imperceptibly and took the initiative to open the array formation.

They were unable and didn't dare to enter heaven-severing mountain, so they tricked them into entering and opened the array formation.

Their goal was not the corpse of a mere ten thousand saints expert, but the array formation of heaven-severing mountain!

Unfortunately, it was too late for them to understand.

The puppet controlled by the Old Fiend Immortal stretched out its arms and revealed a relieved smile. "Come, let the sinkhole god Lord's grave reappear in the world!"

...

What?

Lone Moon and Company were shocked once again!

Could it be that the spatial teleportation array in front of them was actually the tomb that led to the sinkhole God Master?

Rumble —

Just as he finished speaking, the ninth peak they were on suddenly began to tremble gently, as if a behemoth was gradually waking up.

“Run!” Lone Moon suddenly woke up and rushed into the sky without any doubts.

The others ran in all directions, hoping to leave heaven-severing mountain as soon as possible so that they would not be destroyed together with heaven-severing mountain.
