

# THE DIVINE NINE-DRAGON CAULDRON

## Chapter 3151 3039, Devil's Luck

The Mouse Demon Beast wasn't on guard at all. It was suddenly transported by space and seemed to be in a daze for a moment.

When it came back to its senses, it bared its fangs and brandished its claws as it pounced over, screaming.

But it clearly ignored the nine yin heavy water that it had slapped away!

Pu, Pu, Pu --

Just as its body moved, the nine yin heavy water smashed onto the back of the Mouse Demon Beast.

The result was comparable to those cliffs that had stood for ten thousand years,

with a series of muffled sounds, every drop of nine yin heavy water hit the body of the Mouse Demon Beast, breaking a part of its bone!

Some of them even hit the body of the Mouse Demon Beast. The extremely heavy water instantly pressed the mouse demon beast to the ground. The ground under its feet quickly collapsed, revealing the mountain of white bones buried deep underground.

The Mouse Demon Beast that had sunk into the white bones only had four limbs that could still struggle. It kept moving its limbs.

"I'll give you a few more hits!" After being scared silly, Miss Xiao song immediately reacted and threw a few drops of heavy nine yin water into the deep pit.

Rumble --

The Mouse Demon Beast did not have the time to use the kind of defense just now. It was immediately pressed by a few drops of heavy nine yin water on its body. Half of its body was crushed, and it was a bloody mess!

Even if it did not die, it was not far from death.

With that, Miss Xiao song clapped her little hands and whined, "You dare to provoke me, you deserve it!"

She turned her head and said proudly, "See, in the end, it's still up to me!"

But this time, not only Xia Jingyu, but even the bald young man had a suspicious look on his face.

If the valley before was full of danger, and there was a chilly wind everywhere, it made him overlook the appearance of the spatial domain.

But now, he had discovered it clearly.

The Mouse Demon Beast that was supposed to be behind the nine yin heavy water suddenly appeared in front of the nine yin heavy water. This definitely wasn't because the Mouse Demon Beast wasn't happy and wanted to block the nine yin heavy water.

It was because someone had used the spatial domain!

Who was that person?

The bald youth was the most suspicious. Without a doubt, it was Su Yu!

His origin was the most mysterious. He had actually appeared from the Guardian Beast's summoning formation. It was extremely suspicious.

As for the others, they all knew everything, including Xia Jingyu.

However, when he turned around, the bald youth's mouth twitched, directly denying his guess.

He saw Su Yu sitting on the ground with his legs trembling. His entire body was trembling, his face was pale, and his lips were black. He said incoherently, "Too... too scary. I thought I was dead for sure!"

How could such a coward be an expert in the spatial domain?

His instincts told him that it was impossible.

Miss Xiao song also noticed Su Yu. She raised her eyebrows as high as she could. "What kind of nine yin heavy water has entered my brain? Why would I bring you here?"

She held her forehead in pain. "Oh God, Oh Earth, please take him back!"

Su Yu got up in embarrassment and patted the dust behind her, she said in embarrassment, "I'm sorry, I'm sorry. This is the first time I've seen such a scene! If not for master's wisdom and courage, I think I would have died here today."

Upon smelling the flattery, Miss Xiao song's mood turned from gloomy to sunny. She curled her lips and smiled. "At least you know that I'm the embodiment of wisdom and courage, invincible in the world!"

The bald youth and Xia Jingyu both shook their heads silently.

If not for the sudden space domain, you would still have wisdom and bravery, invincible in the world. You would have long been eaten by that mouse demon beast.

However, where did the space domain come from?

Xia Jingyu looked at Su Yu with suspicion in her eyes.

If they had met in an eight-star civilization, she would have known who the other party was immediately because only one person in the entire eight-star civilization was proficient in the space domain -- Su Yu.

However, in a nine-star civilization, the mysterious space saint tribe had an unknown number of clansmen. There were also some outsiders who would cultivate a little.

Just as she was guessing, a soft rustling sound suddenly came.

At the same time, Xia Jingyu's heart was inexplicably restless. She frowned and looked towards the source of the sound. At the same time, she pinched her fingers and calculated.

As she calculated, the fingers that were pinched together were suddenly repelled by some invisible force. Xia Jingyu was shocked. Even her divination was interrupted. This was definitely a great omen of danger.

"Let's leave this place quickly. It's dangerous!" Xia Jingyu said quickly. It had been so long since she came in, but this was the first time she showed such an expression.

As soon as she finished speaking, a huge black shadow jumped out from the tall grass in front of them.

Everyone took a closer look and were all shocked.

It was actually a great sage advanced stage ferocious beast that was exactly the same as the Mouse Demon Beast!

The Bald Young Man's heart skipped a beat!

Could it be that the Mouse Demon Beast was a pair?

If that was the case..

The bald young man looked into the Mouse Demon Beast's eyes. The latter lowered his head to look at his companion in the Deep Pit. When he looked at Su Yu and the others again, a fierce glint flashed across his eyes.

He even let out a sharp hissing sound from his mouth. It was obvious that he wanted revenge.

"Don't be afraid!" Miss Xiao Song stood up and gritted her teeth. "What are you afraid of? Come, each of you will have a bottle of nine yin heavy water. Let's go together and see how long it can be arrogant!"

Miss Xiao Song each gave out a bottle, guaranteeing that each of them would have one bottle.

The moment Su Yu received the Jade Clear Bottle, tears almost flowed down her face. What a good child, taking the initiative to give the treasure to her.

As she was thinking, she cast a helpless glance at Xia Jingyu. "See, I'm not lying to her this time, am I?"

Xia Jingyu glanced at him and pretended not to see him. She stared at the Mouse Demon Beast as if she was facing a great enemy.

However, the four of them each held the nine yin heavy water. It should not be that difficult to suppress this mouse demon beast.

"Split up and surround it from four directions,"the bald youth said. "The mirror reflection it used just now can only be effective in one direction. If we attack it from all directions, it won't have the time to deal with us."

Miss Xiao Song took the lead and ran to the right side of the Mouse Demon Beast.

However, just as she took a step, there was a Dong Sound!

A huge black shadow jumped out from the grass and stood side by side with the Mouse Demon Beast.

Looking closely, it was another huge mouse demon! ! !

Two?

Miss Xiao song was so scared that she quickly ran back. Her small face was pale. "Two, this, how are we going to fight them?"

One of them almost killed them all, let alone two of them.

Dong --

At This Moment, another demonic beast jumped out from the bushes!

It was a rat demonic beast!

Three of them!

The bald youth gasped. Three of them, there was no way to fight them!

However, the rats were a group of demonic beasts. There were far more than three of them.

Dong Dong Dong --

After three consecutive sounds, three huge black shadows ran out from the bushes in the distance.

Miss Xiao song was so frightened that she immediately retreated. Her face couldn't be any paler. "This... isn't a joke, right? Encountering six great sage advanced stage ferocious beasts at the same time?"

According to records, there were great sage advanced stage ferocious beasts in the second treasure trove, but they were extremely rare. Occasionally, they would encounter one, but they would encounter six at once. Including the one that died, there were seven.

What kind of Devil's Luck was this?

However, what truly made them despair was still to come!

(updated at 10 p.m.)

## Chapter 3152 3040, Rat Demon Beast Tide

Squeak squeak squeak squeak --

The shrieks of rats came continuously from the bushes in the distance.

It was accompanied by a huge rumbling sound.

It felt as if thousands of things were moving on the ground.

The Bald Youth's heart skipped a beat. He couldn't believe his ears and said, "This... could it be a beast tide?"

Actually, everyone present was no stranger to a beast tide.

To be able to cultivate to such an extent, they had more or less seen big scenes. Even if they had not experienced a beast tide personally, they should have seen something similar.

But what was this place?

The tomb of Sinkhole Empyrean Lord!

Even if the demon beasts ran amok in the second treasure area, they could not form a beast tide. How could there be so many demon beasts?

"It should be, it can't be. This is just the edge of the second treasure Trove," Miss Xiao Song said uncertainly. Her feet began to move back uncontrollably, hiding behind the bald youth.

Dong Dong Dong --

The strange sound grew louder and louder!

Xia Jingyu pondered for a moment. While she was on guard against the six rat demons in front of her, she flew up into the air and looked into the distance.

However, when she took a look, her beautiful and calm face had a deep change.

"I think we should retreat," Xia Jingyu said as she tried her best to remain calm.

Retreat? On what basis?

Miss Xiao song was 180 times unwilling. It was not easy for her to come here, yet she left just like that?

Then did he lose his seven-colored feather fan for nothing?

Did he lose the nine Yin heavy water for nothing?

Did he lose all the Useless Cauldrons and the mysterious liquid that he gave to dog two for nothing?

"Coward, isn't it just a beast tide?" Miss Song jumped into the air with her chest puffed out and looked down at the situation in front of her. She was still murmuring, "I'm not afraid of any Beast Tide. It's more like they're afraid of me."

That was true. When an ordinary Beast Tide saw Miss Song, who was full of top-notch treasures, it would be strange if they weren't scared out of their wits.

However, when Miss Song saw the Beast Tide in front of her, she was immediately shocked. "Old... rats... they're all rats!"

As far as the eye could see, the ground was densely packed with huge rat demons.

There must be more than ten thousand of them!

Furthermore, the direction of the Rat Demon Beast Tide was either somewhere else or them!

More than ten thousand great sage advanced stage rat demons... was this something that a human should do?

Lady Xiao song trembled and her teeth chattered. It took her quite a while to regain her senses before she opened her mouth and screamed, "Ah! Run!"

The mission of the clan, the face, and the treasures that she had spent were no longer important!

The bald young man also jumped up to take a look. He could not help but suck in a breath of cold air, and his scalp went numb as he turned around to run!

As he ran, he felt that there was no strength under his feet, and his entire body was floating.

He had already lost the ability to think.

After hesitating for a moment, Xia Jingyu also chose to turn around and leave. Before she left, she found that Su Yu was still standing in the same spot, with no intention of leaving.

"Why aren't you leaving? Do you want to be buried in a rat's stomach?"

Su Yu's face was pale as he pointed at the hole that had been created by the nine Yin heavy water. "I think I'd better hide in the hole. That way, I might die a slower death."

Xia Jingyu opened her mouth and wanted to say something, but she was suddenly startled.

After her thoughts changed for a while, she said, "Miss Xiao song, Don't Run! We Can't outrun the Beast Tide."

There were so many late-stage great sage beasts, even if you had eight legs, you wouldn't be able to outrun them.

"The rat demons aren't coming for us," Xia Jingyu said. "We Aren't enough to attract such a huge late-stage great sage Beast Tide to chase after us."

To the rat demons, they were just food.

There were countless demonic beasts in the huge tomb. Could it be that they were lacking in a few of them, and that there would be tens of thousands of beasts coming to chase after them?

The bald young man was a smart person, and he understood immediately. He grabbed the arm of Miss Xiao Song, who was running wildly, and said, "Miss, they are right. It's useless to run now. Instead, it's even more dangerous."

If they ran in front of the beast hordes, the rat demons that were running wildly would not refuse to eat breakfast.

Instead of running, it was better to choose a place to defend.

Since the mouse demons had started the beast tide, they must have been frightened and would not stop to waste time.

The bald young man turned his eyes to the deep pit of the dead mouse demons and pulled Miss Xiao song into it. "Hide in here, Quick!"

Xia Jingyu flashed into the pit, and Su Yu also rolled and crawled into it.

At the edge of the deep pit, the six mouse demons standing side by side stared at the four of them fiercely. Their desire to devour increased greatly, and they screamed one after another, as if they wanted to pounce on them and eat them up.

However, they seemed to have sensed something.

They all turned their heads and looked back suddenly. Their fierce eyes were immediately replaced by fear.

Then, without even looking at the four of them, they ran around the deep pit!

Rumble --

The Rat Demon Beast Tide behind them arrived at random, and many of the rat demons discovered Su Yu and the others.

Strangely, they did not have any intention of stopping. Although they were a little hesitant, they still chose to leave immediately and did not stop to jump in.

After half a cup of tea, the Rat Beast Tide finally passed, leaving a sky full of dust.

Miss Song squatted on the ground with her hands on her head and buried her head deep in her pants.

Hearing the sound far away, she carefully raised her head and asked uncertainly, "They all left?"

The bald youth nodded as if he had been relieved of a heavy burden. "Yes, they all left."

Miss song let out a long sigh of relief and regained her composure. "See, I've already said that there's no need to run away. The heavens are looking out for us."

The bald young man, Xia Jingyu, and Su Yu looked at Miss Xiao Song who was covered in dust.

If they remembered correctly, she was the one who ran the fastest, happiest, and quickest just now!

The bald young man thought for a moment and cupped his fists at Xia Jingyu. "Thank you for your reminder, Miss Xia. I will remember your kindness."

Although Miss Xiao song was indignant, she could not deny that it was indeed Xia Jingyu who stopped them just now that allowed them to escape.

Unexpectedly, Xia Jingyu shook her head gently. "You should be thanking him. His reminder made me realize that I had made the right decision in time."

Her gaze was directed at Su Yu.

"You Mean Buttface?" Miss Song's eyes were filled with disbelief. "What did buttface remind you of?"

Xia Jingyu said, "He was the one who reminded me that it's useless to escape. It's better to hide so that there's a higher chance of survival."

As she said that, Xia Jingyu looked at Su Yu with an exceptionally deep gaze. "When we were all panicking, this gentleman was so rational and calm. It's really unexpected."

Under such a dangerous situation, Su Yu had made the right choice.

This made Xia Jingyu, who was already suspicious of him, even more suspicious.

"It's You?" The bald youth was full of suspicion. He found it hard to believe that this young man, who was extremely weak, had such a good brain. "How can you have such a good brain?"

See, he did not even try to hide his doubt.

PA --

Miss Xiao song slapped him on the forehead and frowned. "Where are you going?"

## Chapter 3153 3041, The Myriad Saint Beast

No matter what, dog two was his man, and Xia Jingyu was an outsider, right?

To mock one's own people and flatter an outsider, wasn't that tantamount to being a traitor?

Miss song patted Su Yu on the shoulder and said, "Young Man, you did well! This time, it's all thanks to you that a certain goddess Clan's fox was able to avoid a calamity!"

Su Yu looked overwhelmed by the favor and rubbed his hands in confusion. "It's all thanks to Master's leadership."

When she heard about the horses, Miss Xiao Song felt at ease. She finally found Su Yu more pleasing to the eye. "HMPH! You only know how to coax people."

At the end, she added, "Even though it's the truth!"

She glanced sideways at Xia Jingyu, who remained expressionless. She deliberately took out a small pocket and said, "Yes! This is a reward for you, understand?"

In front of outsiders, she could not show how stingy her master was.

The servant had saved her, so how could she not show anything?

Otherwise, the Vixen of the Goddess clan might have thought of how to frame her.

"This is?" Su Yu realized that this was only the size of a palm. It seemed to be made of linen, but it actually gave him an extremely cold feeling.

Miss Xiao song glanced at Xia Jingyu and deliberately raised her voice to explain, "Listen carefully. This is the yin-yang bag passed down by our ancestors. Inside it is a grain of ice from the era of the creation of heaven and Earth."

"This is the coldest ice in the world!"

"If you accidentally release it, you may freeze yourself forever. So, you have to use it carefully, understand?"

Ice from the creation of the world?

Xia Jingyu looked over and could not help but reveal a surprised expression. "Could this be the legendary primordial ice?"

The so-called primordial ice was the ancestor of all ice.

Many peerless experts who cultivated the path of ice would never be able to get their hands on it.

After all, the primordial ice from back then had long disappeared after countless eras of evolution. Only a small number of it might still be in the hands of some ancient factions.

Miss Xiao Song actually gave Su Yu a bag so casually!

Should she be called childish or inexperienced?

Xia Jingyu understood that the reason Miss Xiao Song gave such a big reward was to compete with her so that she could be inferior to her.

This made Xia Jingyu not know whether to laugh or cry. She had never thought of competing with Miss Xiao Song.

Moreover, wasn't this butthead the one who took advantage of her in the end?

Seeing Xia Jingyu's shocked expression, Miss Xiao Song felt relieved. Although it was painful to give away a bag of Yuan Bing, wasn't it worth it to make that Vixen jealous?

HMPH!

I have so many treasures. Even if I gave it to dog two, I wouldn't give it to you. You'll die of anger!

"Alright! Keep it well and make good use of it." Miss Xiao Song felt refreshed.

Su Yu quickly kept it and said gratefully, "Master, you're too good to me."

"Haha, of course. Follow me and I'll make sure you have meat to eat!" Miss Xiao Song was pleased with herself and climbed out of the pit first.

However, before she could show her face, Su Yu took a step forward and pulled her down.

"What are you doing?" Miss Xiao Song turned hostile as soon as she said it.

Su Yu made a gesture of silence and pointed above.

Miss Xiao Song calmed her heart and looked up. Her expression changed drastically.

The Sky suddenly turned dark! !

No!

It was not dark, but something huge covered the entrance of their cave.

It was a huge head. It looked like a wild dog, but it was full of sharp thorns. Its facial features were ferocious and fierce. It was obvious that it was not a good thing.

The ferocious aura it emitted was suffocating.

Su Yu's expression was extremely grave. He had experienced countless things in his life. The only thing that could be compared to the ferocious beast in front of him was the Taotie!

Moreover, the space between Su Yu's brows started to hurt.

It was because the eye of Taotie sensed something and tried to wake up forcefully from its slumber.

He could faintly feel a trace of fear and hostility from the eye of Taotie.

If it was as expected, this beast must have been Taotie's mortal enemy when it was alive.

Wu Wu --

The huge head of the beast slowly drove past the top of the deep pit. Its dim yellow eyes were always looking ahead and did not notice them in the deep pit.

The four of them did not dare to breathe loudly and did not dare to make a sound. Even though they were tens of feet away from each other, they could still hear the sound of their hearts beating wildly.

It seemed that even without Su Yu's introduction, they could feel the terror of this terrifying giant beast.

After a long time, it took about half the time it took to brew a cup of tea before the giant beast finally passed through the top of the deep pit.

One could imagine how long its body was!

After another half a cup of tea had passed, the motionless them finally confirmed that the giant beast had really left.

Hu --

Miss Xiao song was the first to collapse to the ground. Her small face was pale, and her lips could not stop trembling.

Her chest and back were completely soaked!

This time, she could not say anything arrogant, "It's too scary. What kind of existence is that? It gives me the feeling that it's not weaker than the ancestor."

Su Yu did not know what level the ancestor of Miss song was. It was possible that he had given so many defensive treasures to a junior. His level was probably much higher than the so-called reincarnation king, the sky-covering ancestor.

The bald youth's forehead was full of sweat that had not dried up. His clothes were completely soaked, as if he had been fished out of the water.

"This has already surpassed the great sage level, hasn't it? It's the Ten Thousand Saint Beast!" The bald youth's voice trembled slightly.

The Ten Thousand Saint Beast did not exist in the current nine-star civilization!

For other races to be able to cultivate to become ten thousand saints was already a heaven-defying feat. They had to exhaust their cultivation paths and fortuitous encounters in order to do so.

It was extremely difficult for demonic beasts to succeed.

However, in the tomb of the sinkhole monarch, everything became possible!

They had actually encountered the Ten Thousand Saints Beast in the Second Treasure Trove!

Xia Jingyu also had a look of lingering fear on her face. She said in a low voice, "No wonder there was a beast tide of late-stage great saints!"

This mystery was finally solved because the ten thousand saints beast was preying on them!

"Should we continue moving forward?"The bald youth was asking for Miss Xiao Song's opinion. The latter was no longer as determined as before.

After hesitating for a while, he gritted his teeth and said, "Once we find what we want, we'll immediately leave. We definitely won't stay any longer."

"Alright!"The bald youth also gritted his teeth and braced himself to agree.

After confirming that there was no movement outside, the group climbed out of the deep pit once again.

However, when they looked around, the pupils of the four people constricted!

They saw that there was a scorched land that extended to the heavens and earth.

It was the mark of the Ten Thousand Saints Beast. Wherever it passed, everything was burned, leaving long marks, and many places were still emitting thick black smoke.

"Look, what is that!" Suddenly, Miss Xiao Song found a crystal the size of a mouse demon beast resting on a huge rock.

Xia Jingyu took a deep breath and stared at the object, saying, "It's the scale of the Ten Thousand Saints Beast!"

Miss Xiao Song was afraid and quickly moved away, not daring to provoke it.

She did not want to touch the Ten Thousand Saints Beast at all.

However, Su Yu was secretly excited and licked his lips imperceptibly.

My God, this is a peerless treasure!

## Chapter 3154 3042, Unforgettable

Having interacted with the corpse of a Wansheng expert, Su Yu knew very well that any part of the body of a Wansheng expert was an extremely rare treasure.

That scale, if it wasn't unexpected, was indestructible. There weren't many materials in the world that could be compared to it.

Most importantly, the scale contained the terrifying aura of the Wansheng Giant Beast.

With it, the other demonic beasts would be able to avoid it from afar. They didn't need to worry about being attacked by demonic beasts anymore.

Miss Song actually didn't want such a good treasure?

However, just because she didn't understand the goods didn't mean that others didn't understand.

The bald youth's eyes revealed a trace of fervor. "Miss, I think this scale is very useful. Why don't you give it to me?"

Miss Song didn't even think about it and waved her hand. "Take it, take it! Seriously, are you a trash collector? You want everything!"

The bald young man was overjoyed. He quickly went forward and prepared to pick up the scale with his hand.

However, just as he was about to touch the scale, he cautiously took it back. He took out an abandoned dao artifact and threw it at the scale.

Peng --

In the end!

Three inches away from the scale, there was an explosion. A black smoke suddenly exploded, shattering the Dao artifact on the spot!

The remaining smoke splashed onto the bald young man's body and quickly turned into a thick fire, igniting his torso!

"Ah!" Not knowing what kind of fire it was, the bald young man's cultivation was not weak. His physique should be extremely strong.

However, the moment it was ignited, it actually burned his torso into charred wood.

Moreover, the fire was still spreading rapidly, trying to burn his entire body.

All of this happened in the blink of an eye. No one would have thought that a mere scale would still contain such terrifying power!

The bald youth was extremely decisive. He gritted his teeth and left his body, giving up on his body that he had cultivated for hundreds of years, before escaping back in a panic.

Just as he escaped, his body was burnt to charcoal, and he stood upright on the spot.

Upon seeing this scene, the bald youth's soul body turned pale with fear.

Miss Song witnessed the entire process and was so frightened that she trembled. "Why is this scale so dangerous?"

In just two to three breaths, the bald youth's body was destroyed and only his soul was left.

If he had hesitated for a moment and extinguished the flames by luck, he would have died right away.

The bald youth hurriedly opened his spatial storage and took out a spare body. His soul entered it.

A brand new body was naturally not as good as the original body. His strength was greatly affected.

Not only that, the original spatial storage item on the body was also destroyed by the black flames. Many things inside were gone!

"Do you still want the scales?" Miss Xiao Song asked reproachfully.

The bald youth shook his head like a broken drum. "I don't want them. I can't control a myriad sage item. Forget it."

"Serves you right!" Miss Song spat softly and said, "Let's go. Don't think about the broken scales!"

Xia Jingyu glanced at the scales. There was a hint of reluctance in her eyes. She could tell how precious the scales were.

This was definitely the greatest opportunity after entering the sinkhole tomb. Moreover, the opportunities after that might not be comparable.

However, the bald youth's experience made her quickly give up.

Just as the bald youth had said, they could not touch the myriad sacred items. If they forcefully took them, the bald youth's body would be destroyed.

Su Yu was extremely unwilling, but it was not convenient for her to take them in front of everyone. She could only turn back three times and leave reluctantly.

As they walked along the burnt ruins, they saw many rat demons' corpses along the way. They were all the work of the mysterious Behemoth.

When they arrived at a mountain range and looked down, their expressions changed drastically.

At the foot of the mountain was a lake.

This should be the place where the nearby Demon Beasts drank water all year round. All sorts of resources were abundant.

However, at this moment, the lake was bubbling and turning into boiling water!

The Living Demon Beasts in the water all had white bellies floating on the surface of the water.

Around the lake were the charred corpses of Demonic Beasts. There were tens of millions of them. They had all been killed by the Ten Thousand Saints Demonic Beast.

The demonic beasts did not seem to be killing out of hunger. They were only killing for the sake of killing.

Xia Jingyu's eyes lit up. "With so many demonic beast corpses, I can exchange them for a huge amount of resources."

Any of the demonic beasts here were extremely rare in the outside world. The materials on their bodies could be sold for an unimaginable price.

The tens of thousands of demonic beasts in front of him were not only rare, there was also no lack of late-stage great sage existences.

If all of them were picked up, it would probably be enough to build a large-scale faction!

The bald youth was also itching to make a move. The dejection of losing his spatial storage device was swept away. With so many demonic beast corpses, selling them would be tens of times more valuable than the resources in his spatial storage device!

Miss Xiao song was also eager to give it a try. Although she didn't want it, bringing back so many spoils of war was also a kind of honor, wasn't it?

"Let's Go! While there's no one else, hurry up and pick them up!" Miss Xiao Song cried out and rushed down first.

Next was Xia Jingyu, the bald youth.

Su Yu walked at the back, with a face full of feigned excitement. "Wow! So many demon beasts, we're Rich!"

As he said that, he took advantage of the fact that they were focused on picking up the demonic beasts and silently retreated. Then, he used spatial teleportation continuously and rushed to the location of the scale as soon as possible.

Looking at the ten thousand saints scale, Su Yu was secretly looking forward to it. "Oh my God, how can such a good thing be compared to those ordinary demonic beasts?"

All the corpses of the demonic beasts added together were not worth as much as a corner of this scale.

However, how to take it away was a big problem.

Just now, the bald youth had used blood to teach him a lesson. Even if the scale fell off, it still had the ability to defend itself.

As long as there was an external force within three inches of it, it would erupt with mysterious black flames and burn everything.

It was not easy to obtain it.

After thinking for a while, Su Yu first moved away from the scale, then used his spatial domain, trying to transfer it directly into the spatial storage.

But in the end, a space domain was sent over, but the scale didn't move at all.

If the domain couldn't do it, then he would use his power!

He released the power of chaos and the power of the saintly being across space. The two powers combined into one and condensed into a hand that held the scale tightly.

But when it got close enough, it triggered the explosion on top and directly blew the power into pieces.

This was going to be difficult!

Su Yu looked behind him. He could not leave for too long, or else he would definitely be suspected.

After pondering for a moment, he gritted his teeth and took out the blue heart iron puppet. He separated a bit of his soul into it and the blue heart iron puppet immediately walked towards the scale under his control.

Then, he stretched out his arm and hugged it tightly.

Boom Boom Boom Boom --

Dozens of explosions immediately erupted from the scale. Black smoke and flames erupted and instantly devoured the blue heart iron puppet.

Its body quickly melted!

Fortunately, the blue heart iron puppet quickly recovered.

But the explosion occurred again, and the Blue Heart Iron puppet was once again severely damaged.

Following that, the blue heart iron self-healed, and then it was destroyed again.

After going back and forth dozens of times, Su Yu controlled the puppet with great difficulty and stuffed the constantly exploding scales into a clean spatial storage device.

Only then did he finally succeed!

Su Yu's face turned pale. The soul he had been assigned to the puppet had already been destroyed after being roasted many times.

His original body had been affected and his spirit had been damaged.

This was because his soul was close to the Ten Thousand Saints realm. Sacrificing such a wisp of soul was not a big deal. If it was in the past, he would definitely have suffered severe injuries.

Rubbing his aching head, Su Yu smiled bitterly. "You really went all out for this scale!"

However, the benefits far outweigh the costs!

If this scale is used well, it is definitely a great weapon!

# Chapter 3155 3043, The Emperor's New Armor

Imagine if the enemy attacked and suddenly took out a scale to use as a shield to block.

If the attack hit the scale, the consequences would be obvious!

The only problem was that the scale was a double-edged sword. It could cause destructive damage to the enemy, just like to Su Yu!

From the bald youth's experience, Su Yu was unable to directly touch the scale.

"It would be great if I could refine it," Su Yu couldn't help but ponder.

But how could he refine such an overbearing scale?

Usually, there were two ways to refine something.

The first way was to suppress it with an even more powerful force.

The second way was to spend a long time to refine it bit by bit.

Su Yu obviously couldn't wait for too long, but he had never possessed such a powerful force.

"This is really difficult!" Su Yu tilted her head and thought for a moment. Suddenly, the corners of her mouth curled up into a smile. She said with a faint smile, "I don't have that kind of power, but that silly girl should have it, right?"

Su Yu didn't believe that Miss Song, who was full of treasures, would have life-saving treasures all over her.

Since her family had spared no expense for her safety, they definitely still had powerful magic treasures on them, which they would use at the last moment.

"Haha, Silly Girl, I'm counting on you to refine this scale!" Su Yu smiled and quickly teleported back to the lake.

At this moment, most of the demonic beasts in the lake had already been picked up by the three of them.

Su Yu quickly pretended to enter a chaotic forest and pulled out a late-stage great sage demonic beast that had been bitten to death.

In order to put on an extra act, Su Yu even applied a layer of water on his forehead, chest, and back, making his face and clothes wet.

"Master, come quickly. I've found a big fellow," su yu shouted with difficulty.

Miss Song, who was clapping her small hands impatiently and was about to not pick it up, heard the sound and walked over.

Seeing how hard Su Yu was working, Miss Song was furious. "You're so tired from such a demonic beast?"

The demonic beast in front of her was a little big, but it shouldn't be so tiring, right?

"This demonic beast is stuck in a rock and can't be dragged out," Su Yu said helplessly.

Miss song waved her hand in disdain. "Move, move, watch me!"

As she said that, Miss Song walked forward, grabbed the demonic beast's leg with one hand, and pulled it hard!

Creak --

With a Loud Rumble, the Demonic Beast's body suddenly moved. Then, it was stuck again. Miss Song's face turned red and she could not pull it out again.

Su Yu secretly laughed. What a silly girl!

Since he was putting in so much effort in disguise, why would he find a demonic beast that was easy to pick up?

After pulling it a few times, miss song realized that she could not pull it out either. She immediately felt humiliated and pulled out a small black knife. She swiped it at the Demonic Beast's body a few times and the huge demonic beast was immediately cut into a few pieces.

Miss song was panting as she put away the small knife. She kicked the Demonic Beast's corpse ferociously and snorted, "Damn Demonic Beast!"

She turned around and glared at Su Yu, "You saw it? What's so difficult about that? Isn't it just one knife?"

Su Yu quickly complimented, "Master is extremely smart. We can't catch up to you!"

Miss Song snorted and stretched out her fair and tender small palm, "Where's the prey? Give it to me!"

Su Yu spread his hands helplessly. "This is it."

Ah?

Miss Xiao Song's eyes widened and she was so angry that her head was dizzy. "Don't tell me that you've been fighting with this demonic beast corpse for such a long time?"

Su Yu lowered his head in embarrassment. "I'm sorry, I've made a fool out of master."

"Oh! My God! What sin have I committed to bring a fool in!" Miss Xiao Song covered her forehead in pain, she gritted her teeth and said, "If I could turn back time, the first thing I would do would be to chase you away and let you go back to where you came from!"

Hehe!

Su Yu could only laugh dryly at this.

Miss Xiao song was simple-minded. She really thought that Su Yu was arguing with the Demonic Beast's corpse and did not suspect anything else.

At this moment, Xia Jingyu and the bald young man walked over.

Knowing that Su Yu had been competing with the demonic beast, the bald young man was speechless and disdainful. "You sure know how to be sneaky."

From the way he saw it, Su Yu was definitely looking for an opportunity to slack off.

However, Xia Jingyu looked at Su Yu with a meaningful gaze. "You are indeed sneaky."

It was the same phrase, but Xia Jingyu had a different meaning.

She vaguely guessed that Su Yu was not near the lake just now, but was secretly doing something else.

However, she did not have any evidence, and it had nothing to do with her, so she was too lazy to point it out. However, she gradually became more guarded against Su Yu.

Su Yu saw the expressions of everyone and could not help but smile bitterly.

The person who should not be guarded against him was deeply guarded against him. He was really speechless.

"Let's continue! According to the family's map, we'll reach the edge of the Third Treasure Trove, which is our destination." Miss Song's expression was filled with excitement.

It was extremely difficult and dangerous to reach their destination from the first level. Many times, they would die if they were even a step away.

Fortunately, they were lucky enough to make it to the nearby area.

The words 'third treasure area' made everyone tense up.

"In the past, the first and second levels, which weren't considered dangerous, became extremely dangerous. I think the danger of the third treasure area is even more difficult to predict."

"For safety's sake, we'll remain invisible the entire time. We'll give up on speed and focus on safety."

In the previous journey, they had focused on traveling at a fast speed. However, they encountered more and more dangers along the way.

Now, they had to be careful.

Miss Song, who was originally fearless, heard Xia Jingyu's suggestion. With her personality, she should immediately refute it. However, surprisingly, she did not say anything and only nodded her head.

Then, she very generously took out four transparent robes.

If not for the fact that everyone was strong and could keenly sense that there was a layer of foreign object in Miss Song's hand, they would probably think that Miss Song was holding a ball of air.

"This is our family's unique emperor's new clothes." Miss Xiao Song said proudly, "You've all heard of the Emperor's new clothes, right! "That stupid emperor didn't wear anything, but he was praised by the world. They said that he was wearing a gorgeous dress, but in the end, he was named by an ignorant brat and became the laughingstock of the world

"However, our emperor's new clothes are the exact opposite. When you wear it, it indeed looks like you're not wearing anything, but the outside world can not see it at all."

As she spoke, Miss Xiao Song demonstrated by herself and put on an emperor's new clothes.

In the end, she disappeared right in front of them without a trace of her aura.

Su Yu secretly used the clairvoyance eye to sweep over, and to his surprise, his soul's eye couldn't see through it either!

Generally speaking, people could only conceal the fluctuations of their bodies, and it was difficult for their souls to be concealed.

Therefore, most of the concealment techniques couldn't escape the eyes of the soul.

Many experts were very sensitive to the fluctuations of the soul. Therefore, ordinary concealment techniques weren't very effective for them.

However, this emperor's new clothes were a bit powerful, hiding the fluctuations of the soul and body at the same time!

## Chapter 3156 3044, The Target Beast Egg

As long as he did not activate his power and reveal a flaw, even a quasi-ten thousand saints expert would not be able to notice him.

"Where are you?"The bald youth touched his surroundings.

Miss Xiao song smiled mischievously. "You can see me if you put it on. This is the second function of the emperor's new clothes."

The bald youth and Xia Jingyu's hands sank one after another, adding an emperor's new clothes.

When it was Su Yu's turn, he immediately stretched out his hands and smiled as he waited for the gift.

"Idiot! I really don't want to give it to you! It's such a waste!" Miss Xiao Song's grumbling voice sounded. Immediately after, Su Yu's arm was twisted until it hurt, but a transparent emperor's new outfit appeared in his hands.

Su Yu did not know shame at all. He thanked her with a smile and then took the emperor's new outfit.

He did not know what material this new clothes was made of. Although it was soft and transparent, it was quite heavy,

su Yu put it on and realized that there was a layer of slight fluctuation inside the clothes. It absorbed all the subtle fluctuations of the human body and soul.

Only then did it reach a state of complete isolation.

What was even more amazing was that Miss Xiao song, who could not be seen just now, could actually see Su Yu after she put on the emperor's new clothes.

The bald young man clicked his tongue in wonder, and Xia Jingyu also revealed a curious expression.

Miss song said proudly, "Since I dared to come to the third treasure area, I naturally have complete confidence. Now, do you finally believe me?"

The bald young man could not help but laugh, "Why didn't miss say so earlier? It made me worry for nothing. If we had taken out this thing earlier, we would not have to face the Rat Demon Beast Horde for nothing."

Miss Xiao song blushed and said with a straight face, "What do you know? The emperor's new clothes are very easy to break. If you had taken it out earlier, it would have been broken long ago."

The bald youth came to a realization and quickly apologized, "I was ignorant and wronged Miss Xiao Song."

"That's more like it!" Only then did Miss Xiao song give up.

Only Su Yu's mouth twitched violently.

Although he was not a master at Refining Dao artifacts, he had learned the art of artifact refinement from Mo Heng for a period of time, so he had some experience with Dao artifacts.

The materials used to make the emperor's new clothes looked soft, but they were actually extremely tough.

Apart from being able to turn invisible, they also had the ability to defend themselves. How could they be easily damaged?

Looking at Miss Song's blushing guilty expression, it was needless to say that she was nervous when she entered the sinkhole tomb and forgot about these treasures at the first moment.

It was only now that she was slowly getting used to it and relaxed that she remembered that she still had such treasures.

It was true. Su Yu had an impulse to search miss song's treasures inside and out.

Giving these good things to her might sound like a pearl covered in dust, but it was more like a flower stuck in cow dung!

"Alright! Let's Go!" Miss Song walked along the map.

As they walked, everyone gradually realized that something was wrong.

The direction they were heading towards was actually the burning path left behind by the Ten Thousand Saints Beast.

"Hey, Hey, let's not head towards the nest of the Ten Thousand Saints Beast." Su Yu couldn't help but worry.

The Ten Thousand Saints Beast wasn't a joke.

Once they encountered it, even if Su Yu had three heads and six arms, he wouldn't be able to defend against three moves even if he used all his strength.

Whether he could escape from it was still up for discussion.

After all, a single scale from it could destroy Su Yu's split soul. If the real body were to arrive...

Su Yu did not even dare to think about it and immediately felt a chill run down his spine.

Miss Xiao song was also a little afraid, but she insisted, "What's there to be afraid of? First, we have the emperor's new clothes, and secondly, the Ten Thousand Saints Beast is heading in the opposite direction. We won't be able to touch it."

Xia Jingyu's mood also became heavy. "Then it's better for us to be careful. If there's any sign of something wrong, we should immediately avoid it."

Miss song did not dare to be careless about this. She nodded repeatedly. "Of course! There's no need for us to take the risk, right?"

The four of them tried their best to calm their emotions and walked along the map.

The result was just as they had said. They followed the Ten Thousand Saints Beast's burning path all the way, going in the opposite direction.

Finally, they passed through a dark forest. They successfully passed through the second treasure area and appeared at the junction of the second and third treasure areas.

The third treasure area was a land of destruction.

The mainland was broken into pieces and turned into small islands. They floated in mid-air. Below them was a dark void world.

On each small island, there were demonic beast nests.

This was the paradise of demonic beasts in the late-stage of the Great Sage realm.

In the second treasure trove, only a few powerful demonic beasts had reached the late-stage of the Great Sage realm. However, on the third level, there were giant demonic beasts in the late-stage of the Great Sage realm.

However, what shocked them was that at this moment, all the demonic beasts in the late-stage of the Great Sage realm had flown away, leaving behind empty nests.

On some of the islands, there were piles of late-stage great sage Realm Demonic Beasts' corpses.

It could be seen that they had been killed not long ago.

This was most likely the work of the Ten Thousand Saints Beast.

"Has the Ten Thousand Saints Beast Gone Mad?"The bald youth felt his scalp go numb. From the pile of corpses on the ground, the Ten Thousand Saints Beast's killing intent was definitely not to eat, but simply to kill.

But for no reason, why would the Ten Thousand Saints Beast Act Like This?

One had to know that these were all his future food. If there was no need, why would he kill them?

However, these were no longer important.

"Where is your destination?"Xia Jingyu asked. This was what she was most concerned about.

Miss Xiao song pointed to one of the very large islands according to the map.

It was entirely gray in color, larger than any of the surrounding islands. Furthermore, its entire body was filled with a petrifying aura.

This reminded Su Yu of the petrifying demonic beasts he had encountered before. They petrified the demonic beasts of the late-stage of the great sage realm and piled them up in the second treasure area.

"What's their purpose?" Xia Jingyu asked.

Miss Song said, "The clan means to find the egg of that demonic beast on this island."

Just for an egg?

Su Yu couldn't help but be surprised.

Along the way, the price that Miss Xiao Song had paid could be said to be extremely shocking. No Demonic Beast's egg could be compared to it, right?

Moreover, Miss Xiao Song was such an important clan member. She had personally taken the risk, but in the end, it was only for a single Beast Egg?

Su Yu instinctively felt that something was wrong and asked, "Is that all?"

Miss Xiao Song rolled her eyes. "What else? Cut the crap and quickly go find it! Don't wait for the Ten Thousand Saints Beast to come back."

Everyone carefully observed their surroundings. After confirming that there were no demonic beasts around, they immediately took action and crossed the Void to arrive at the island.

The island was petrified everywhere, and the depression in the center of the island, a bird's nest made of petrified bones, was clearly visible.

"It's a nest!" Miss Song exclaimed in surprise. Just as she was about to step forward, Su Yu grabbed her hand and sent an urgent voice transmission, "Shh! Don't move!"

Eh?

Just as Miss Song was about to break free, Xia Jingyu grabbed her other hand and told her not to move.

Only then did Miss Song turn her head to look behind her in shock.

When she saw this, she gasped and almost cried out in shock!

## Chapter 3157 3045, NUWA Branch

Behind her, there was actually a huge snake staring at her!

No, that wasn't a huge snake, but a mysterious demonic beast with a female upper body and a python lower body!

Miss Xiao song was so scared that her legs went soft. She had never seen such a strange demonic beast before.

To be exact, this was no longer a demonic beast, but a race of ten thousand races.

She opened her small mouth and couldn't help but take a breath. However, Su Yu's voice sounded in her soul, "Don't breathe, don't speak, and don't create any movement!"

"This half-human half-snake creature has probably already discovered them in their invisible state. It's just that they haven't confirmed it yet."

Su Yu was able to discover them in time because his fate domain had issued an extremely abrupt warning to him, making Su Yu realize that danger was approaching.

He used the eye of the soul to sweep behind him. He didn't know when, but he realized that a huge half-human half-snake monster had appeared behind them.

Su Yu wasn't unfamiliar with this monster at all.

When they first entered the second treasure area, they had encountered danger and hid in the stomach of a petrified demonic beast.

At that time, Su Yu had seen this kind of creature.

However, this creature had been staring at them. Its head swayed from side to side. It was obvious that it had vaguely discovered something unusual.

Time passed bit by bit, but the demonic beast still had no intention of giving up. It looked around and even swam around its huge body, searching everywhere.

Several times, it had almost touched the invisible them, exposing them.

Miss Xiao song was so nervous that her entire body tensed up. Sweat was dripping from her forehead. It slid down the tip of her nose to her lips, and then continued to drip down her lips.

Su Yu sent a telepathic message to her telepathically, "Don't let the sweat drip down. Lick it off."

"You're the one who's licking it. Your whole family is licking it off!" Miss Xiao song was furious and sent a telepathic message back.

"Then you just wait to be discovered. Don't drag us down when the time comes," Su Yu said.

Miss Xiao Song was afraid and disgusted. She could only endure the discomfort and stick out her tongue to lick the sweat that was dripping down her body.

Xia Jingyu and the bald youth were also extremely nervous.

They did not make any judgments about the cultivation level of this creature.

What they could judge was that it must have exceeded their expectations by a lot!

This was because the emperor's new clothes on their bodies were top-grade invisibility dao artifacts that late-stage great sage cultivators could not sense.

Perhaps the senses of demonic beasts were slightly sharper, but to be able to sense their presence, their strength was probably not that weak.

After searching for a long time and confirming that there was no one else, the half-human and half-snake creature crawled into the ground unwillingly.

Only then did Su Yu discover through the eye of the soul that there were many densely packed holes in the interior of the continent fragment, penetrating through the interior of the entire continent fragment.

Just now, this creature had crawled out from a hole behind them.

After waiting for a while and confirming that the other party had left, Miss Xiao song crouched down as if she was exhausted. Her legs went weak as she patted her chest and said, "You scared me to death. What kind of monster is that? !"

Su Yu shrugged. He didn't know much about this. He hadn't been in the nine star civilization for a long time.

"It's the female ripple race!" Xia Jingyu said calmly.

Her calm eyes flashed with unprecedented waves. There was a faint sense of relief from having survived a disaster.

Everyone was surprised.

Even the bald youth was confused. He had never heard of this strange race.

Miss Song asked, "What is Nuyi? I've heard of Nuwa."

Xia Jingyu looked down and said, "Nuyi is a branch of Nuwa. She has a trace of Nuwa's bloodline."

Silence!

Silence!

It was extremely quiet!

If it wasn't for Su Yu saying this, Su Yu wouldn't have believed it.

Who Was Nuwa?

In the legends, she was the person who created humanity.

Although he had entered the martial arts world, Su Yu slowly came into contact with the higher levels of the Heavenly Dao. He understood that the person who created humanity might not be a special existence, but an extremely powerful human.

However, there were more legends about NUWA than any other expert.

It wasn't just Earth. Even in the vast nine-star civilization, Su Yu had read about the legends of Nuwa in some ancient books.

The contents of the legends were exactly the same as Earth's.

It was said that NUWA used mud to create humans, and then humans began to reproduce.

If Nuwa really existed, then her status would probably be frighteningly high. He didn't know how she could compare to a supreme existence like the absolute beginning Dao Master.

"A branch of the Nuwa Clan?" Miss Song let out a laugh. "NUWA's existence has yet to be determined, and you dare to say that she is a branch of Nuwa?"

Xia Jingyu, however, was very serious. "Nuwa did indeed exist."

"Nuyi is indeed a branch of the Nuwa clan." Xia Jingyu pointed at the ground. "NUWA's ability is to turn clay golems into living humans."

"As for Nuyi? She can turn living humans into rocks."

Rocks and mud were essentially the same type of impurities. When rocks were smashed into powder, they would also become mud after years of precipitation.

Upon hearing this, Miss Song couldn't help but be stunned. Although she hated Xia Jingyu, she had to admit that Xia Jingyu's excuse was still reasonable.

Indeed, there had never been a demon beast that could turn living humans into mud.

"Can you be more specific?" The bald youth said solemnly, "It's easier for us to guard against it."

Facing the mysterious NUWA branch, he had no choice but to learn more about its characteristics in order to guard against it.

Xia Jingyu said slowly, "Legend has it that Nuyi's ancestor and Nuwa were ancient creatures born from the same origin. Later, nuwa attained the DAO, but Nuyi was one step behind and was unable to ascend to the Great Dao of the heavens

"She envied and envied nuwa, so she secretly harmed the creatures nuwa created. As a result, she was imprisoned by Nuwa and sealed in the void forever

"However, Nuyi's descendants survived. It is said that in the era ten eras ago, Nuyi once appeared. She devoured heaven and earth and caused the destruction of the tenth era

"Even the son of Heaven of the sacred mountain at that time had a son of heaven who perished because of that. Then, with the help of the nine-star civilization, he came back to life."

These secrets were all things that Xia Jingyu learned after she came to the nine-star civilization and spent her free time reading ancient books.

To Miss Xiao song, these were all new stories that she had never heard before. She held her chin and listened attentively, which was rare.

"I thought that those creatures had been extinct for a long time. I didn't expect that there would still be such creatures in the sinkhole imperial tomb."Xia Jingyu revealed a trace of lingering fear.

When everyone heard this, their hair stood on end.

The bald youth asked, "What are her characteristics?"

Xia Jingyu said, "According to historical records, female ripples are half-human and half-snake. Furthermore, they are all female. They mate with other powerful creatures and give birth to their offspring. This is how they reproduce themselves."

"Every female Yiyi was born with the ability of their ancestors -- petrification

"Moreover, it was a cross-level petrification

## Chapter 3158 3046 Was The First To Arrive

"Those at the great sage level can petrify quasi-ten thousand saints. Those at the quasi-ten thousand saints level can petrify ten thousand saints primary stage."

Hiss --

The bald youth sucked in a breath of cold air. wasn't this petrifying ability a little too overbearing?

Forcefully petrifying someone at a higher level?

A quasi-ten thousand saints demonic beast wouldn't be able to escape even if it saw a great sage female ripple.

"Their eyes are the core of petrification. As long as they meet their eyes, they will be petrified immediately. Moreover, they will be petrified at the same time, regardless of their body or soul!"

Everyone remembered their eyes.

"Then?"The bald youth asked again, "What is their weakness? Is it fast?"

Xia Jingyu said, "Its speed surpasses that of other races! The other races of the quasi-ten thousand saints are not faster than a peak great sage."

The Bald Youth's heart skipped a beat. "Then her body is very weak, right?"

The defense of snakes was usually very low. In addition to half of a person's body, their defense was even lower.

However, Xia Jingyu shook her head again. "No, they are proficient in petrification. Any attack that reaches three inches away from the body will be petrified."

She was fast, had high defense, and was invincible in petrification. What would happen if they were to meet her head-on?

"If we meet her, how should we deal with her?"The bald young man simply asked, "What does the ancient records say?"

Xia Jingyu was silent for a while, and then she slowly said, "If we meet her, leave some dignity for yourself."

Thud!

Everyone's heart skipped a beat. It meant that they should just accept their fate and die, and not struggle unnecessarily.

Because no matter what, they would still die.

"I'll close my eyes and not look at her, Alright?"Miss Xiao Song said with her eyes closed.

Xia Jingyu said, "Then you'll die in more pain. Nu Yi will eat people."

Ah?

Miss Xiao song was so scared that she suddenly opened her eyes and hurriedly hugged her tiny body.

"Luckily we have the emperor's new clothes. Otherwise, we would all have died just now without any exceptions."Xia Jingyu said as she looked at Su Yu.

What she meant was that Su Yu was the same, without any exceptions.

Su Yu was speechless. Why did teacher Xia Jingyu have a problem with him? It wasn't like he was the one who called out Nu Yi.

However, Xia Jingyu was right. That Nu Yi was indeed extremely dangerous.

The moment they met each other's eyes was the moment of death without any exceptions.

Even if Su Yu's entire body was full of treasures, it would be difficult for him to resist the power of petrification.

Su Yu changed the topic and hurriedly urged, "Little girl, quickly take the thing you want. Don't be long-winded."

Miss Xiao song slapped her forehead. "I almost forgot about the important matter. The family's intention is to let me take a beast egg from this continent fragment."

Only then did Su Yu understand why Miss Xiao Song's family had to pay such a huge price to come here.

It turned out that they had discovered nu yi the last time they entered. Perhaps they had no chance, so they were unwilling to send miss song to steal Nu Yi's beast eggs.

However, Su Yu still had some doubts.

Even if Nu Yi was extremely special and possessed extraordinary petrification abilities, to the huge song family, it was just a drop in the bucket, right?

Such a family definitely had a ten thousand saints level old monster overseeing it.

What was the meaning of having another nu yi, who was just born and had weak strength, to the song family?

Was it worth taking such a big risk?

There must be something else!

While he was thinking, Little Song had already taken a step forward and arrived at the center of the nest.

There was a depression there. They looked over and were amazed.

They saw that it was densely packed with petrified corpses of Demonic Beasts. These corpses had been built into a tower.

At the top of the tower, there was a small arc-shaped groove. It looked like it just happened to hold a beast egg.

If nothing unexpected happened, that was where the Beast Egg was.

However, that place was empty. There weren't any beast eggs.

There weren't any beast eggs anywhere in the tower.

"That's not right!" Miss Xiao song was confused. "The ancestor told me that there must be a beast egg here. It doesn't make sense that it's empty."

The bald youth muttered, "It's not right. Look Around."

Everyone looked down and found that there were many demon beast corpses near the tower that had been shattered.

There were still some discarded dao artifacts that only humans could use on the ground.

The bald youth immediately picked them up. His expression became even more unsightly. "They were just shattered not long ago. Someone beat us to it!"

What?

Miss Xiao song was shocked. She shook her head firmly and said, "That's impossible. We were the first to arrive. No one else would be ahead of us."

Xia Jingyu also felt that it was unbelievable. "Our speed is quite fast. It's indeed unlikely that anyone would be ahead of us."

There were only so many people who came, and Miss Xiao Song did not care about her treasures. She should be the first to arrive.

Only Su Yu remembered the footprints that he had accidentally found when he had just entered the second treasure Trove.

There was indeed someone who was ahead of them, and he was certain that it was definitely not the same group of people.

It was someone else!

Furthermore, they had the same goal, and it was also the Beast Egg before them!

"No matter who it is, let's leave first." It was rare for Su Yu to be serious. "If nu yi discovers us, we will all be in big trouble!"

Xia Jingyu and the bald young man deeply agreed. Only Miss Xiao Song's eyes were filled with unwillingness. "No, we must find out who it is!"

She looked into the distance. There were faint traces of damage there.

It was as if some battle had happened.

The traces spread all the way to the depths of the sinkhole emperor tomb.

"You want to go to the depths of the third level's treasure area?" The bald youth's face was pale. How could this be?

It was too dangerous inside.

Ten Thousand Saint Beasts had appeared on the second level. Who knew what was inside if they went any further?

Xia Jingyu also had reservations. She said, "Our plan is to go to the edge of the third level. If we go any further, we definitely won't be able to withstand it."

Miss Xiao song said angrily, "If you guys aren't leaving, I'm leaving! I Won't go back without completing the mission!"

Xia Jingyu and the bald youth were deep in thought, considering whether or not they should go together.

Su Yu, on the other hand, was very straightforward. He followed and said, "Master, I'll Go Wherever You Go!"

Miss Xiao Song was almost moved. She said emotionally, "Aren't you afraid of Death? It's very dangerous inside. I might not be able to protect you anymore."

Su Yu puffed out his chest and said with a smile, "I'm Your Protective Beast. Wherever you go, I will go."

Miss Xiao Song's eyes turned red. She was really touched. She punched his chest and said, "Fool! You Don't have much ability and are timid. You only know how to hide everywhere. What can you protect me for?"

She pushed Su Yu away. "Alright, Hurry up and go back. Don't worry about me!"

As she said that, she left without looking back.

Su Yu could not help but smile.

Although this little girl was unruly, Vicious, and arrogant, she was actually a kind and good girl.

## **Chapter 3159 3047 Finally Appeared**

The bald youth pondered for a moment, but he didn't stand firmly by the little girl's side. Instead, he chose to retreat.

"Miss, I can only send you here. If you go any further, I won't be able to protect you," the bald youth said.

He had followed Miss Xiao Song here for a reason. Firstly, he wanted to help Miss Xiao Song, and secondly, his family had a mission.

Now that he had arrived at the designated location, his mission was over.

"Let's Go! Let's All Go!" Miss Xiao Song waved her hand without turning her head back and chose to walk alone.

Xia Jingyu looked at Miss Xiao Song's back quietly and also chose to turn around silently.

She had come here because the goddess Clan insisted on it. She did not have any purpose here.

Being able to step onto the edge of the third level was already her limit.

Now was the time to leave.

However, just as she turned around, Su Yu, who was beside her, unexpectedly took a step forward and chased after Miss Song.

Xia Jingyu stopped and looked sideways. "You will die."

The depths of the third level was much more dangerous than it was now.

Su Yu smiled at Xia Jingyu. "If I don't go, she will die too."

Although miss song was full of treasures, her practical experience was too lacking. If no one helped her, she would die sooner or later.

After saying that, he said goodbye to Xia Jingyu with deep regret, "If possible, I hope you can wait for me outside."

"Also, be careful on the way back."

Whoosh --

As soon as he said that, Su Yu disappeared into the horizon and quickly caught up with Miss Xiao Song who was about to disappear.

"Why did you follow me?" Miss Xiao Song widened her eyes in disbelief.

The bald youth she was most familiar with had left because of this, but Buttface had followed her!

Su Yu chuckled, "I'm an amulet beast."

Miss Song's eyelashes fluttered slightly on her bright eyes, and a bit of brightness flowed in them.

She quickly turned around and rubbed her eyes. Her voice was unusually gentle, "What a silly dog!"

"Let's go, master. I'll help you find the person who took the female ripple egg." Su Yu was also curious as to who was the first to arrive.

Miss Xiao Song quickly said, "Wait a moment!"

As she spoke, she took out a set of purple armor and handed it to Su Yu. "Yes! The further you go, the more dangerous it will be. Wear it well."

Purple light circulated around the purple armor. One look was enough to tell that it was of the highest quality.

"If you wear this, you can barely withstand a strike from a myriad sage expert," Miss Xiao Song said.

Su Yu was slightly surprised. "What About You?"

Miss Xiao Song said, "I don't need it. I have so many treasures. If anyone comes, I'll slap them to death."

Su Yu was silent.

They had already arrived at their destination. No matter how powerful Miss Xiao Song's family was, it was impossible for them to prepare unlimited defensive treasures for her.

If nothing unexpected happened, most of the treasures should have been used up. There were not many left.

If they were really in danger, the chances of Miss Xiao song surviving were slim.

Su Yu did not say anything and put the purple armor on Miss Xiao Song. She could not help but resist and said, "You're so willful, the chances of you being in danger are higher than mine."

"Who's willful? You're the one who's willful, your whole family is willful!" Miss Xiao Song's eyes were wide open, and her two light eyebrows were raised as she said fiercely.

However, she softened herself after a while. The moist light spots in her eyes flashed once again. "Dog two, only you are truly good to me."

Su Yu patted her shoulder and said, "Don't say anymore. Hurry up and follow the tracks."

As he said this, Su Yu opened his eyes of the soul, piercing through the world in all directions, searching for possible traces.

Miss Xiao Song did not stay idle either. She took out a compass and said to it, "Compass, help me find the person who stole my treasure!"

Didn't Ordinary Dao weapons use power to activate it?

This compass could be activated by itself. It only needed to communicate with words.

Chi Chi Chi --

There was a long red needle on the compass that was spinning rapidly. Then, with a ding sound, it suddenly stopped in Su Yu's direction.

Su Yu was stunned for a moment and moved his body.

Who knew that the long red needle would follow Su Yu as he spun.

Su Yu was speechless. This thing was actually real?

But he had picked up the rainbow feather fan, not stolen it. This broken compass had wronged you!

"HM?" Miss Xiao Song looked at Su Yu suspiciously and narrowed her eyes. "Why is the compass pointing at you?"

Su Yu shrugged his shoulders without blushing. "It's probably because the compass is broken!"

As if he was very angry when he heard this, the Red Needle on the compass spun quickly and pointed at Su Yu with incomparable precision.

It meant that it was not wrong.

The veins on Su Yu's forehead were throbbing. Hey, Hey, Brother Compass, can't you give me some face instead of hitting me in the face?

Miss Xiao song tilted her head and thought about it. She said with deep agreement, "Maybe it's really broken. You shouldn't have taken that female ripple egg."

Chi Chi --

The needle was anxious. It spun twice in a row and pointed at Su Yu again.

Miss Xiao song frowned. She turned the compass and shook it again and again. Then, she patted it hard. "It's really broken!"

The red needle was very loyal and pointed at Su Yu again.

"Sigh! It was fine in the past. Why are you pregnant now?" Miss Song sighed.

Su Yu suggested, "Why don't we change the question and ask Nuyi Egg directly."

Miss Song immediately said, "Compass, ah compass, who took Nuyi Egg Away?"

The red needle pointed at Su Yu with a wronged expression. It turned slowly and unwillingly, then pointed directly in front of them.

Miss Xiao Song smiled, and the corners of her mouth curled up. "That's more like it! Let's Go!"

Su Yu was secretly amused. He did not know what Brother Compass was feeling at this moment?

The void world of the continent fragment was unusually quiet!

No matter where they went, there was no sound or movement.

However, many places could be seen with shocking burn marks and many petrified remnants.

These were signs that the ten thousand saints beast and nü Yi had come.

Su Yu was deep in thought. "Could it be that nü Yi and the ten thousand saints beast have already wiped out this place?"

He recalled what he saw in the second treasure area. The petrified corpses of Demonic Beasts, as well as the many great saint demonic beasts that were chased into the second treasure area and slaughtered by the Ten Thousand Saints Beast.

Su Yu had a guess. "I think that the beast eggs were birthed by Nu Yi and the Ten Thousand Saints Demonic Beast, right?"

According to Xia Jingyu, Nu Yi liked to combine with powerful creatures to give birth to even more powerful offspring.

Because the beast eggs had been stolen, Nu Yi and the Ten Thousand Saints Demonic Beast slaughtered the demonic beasts in a frenzy, because they weren't sure who had stolen the beast eggs.

The third region, which they had thought was the most dangerous, was actually safer.

They walked unimpeded through the deathly silent world.

## **Suddenly, the compass shook violentlyChapter 3160 3,048, Competing For Opportunities**

Miss Xiao Song's eyes were wide open, and two people were reflected in them.

One was a sloppy old man dressed in a black robe. His entire body was hidden under the robe, and only his old face was exposed. He gave off an extremely uncomfortable feeling.

The other was a powerful human expert with an astonishing physique.

In the competition between the two, it was obvious that the human expert's physique was even stronger. He had single-handedly beaten the black-robed old man until he was forced to retreat.

"Enough! Stop arguing. It's not too late for us to fight over it after we leave. What do you say?"The black-robed elder begged for mercy.

The powerful human snorted. "Leave? After we leave, whether or not we can find your people is still uncertain."

"The Beast Egg is with me. Don't tell me I Can Eat It?"The black-robed elder said, "If you are worried that you can't find my people, you can come to my clan to find them."

The powerful human sneered, "Your Family? In your eyes, what is your family? As long as you have this unprecedented beast egg, you will be invincible in the world."

"This is the beast egg of Nu Yi and the Ten Thousand Saints Beast. What level of Nu Yi can be produced? You and I don't even dare to think about it."

As expected!

Everything was as Su Yu had expected.

Miss song turned her head and looked at Su Yu in surprise. He was right.

However, when she looked at Su Yu, she was shocked to find that Su Yu was staring coldly at the two people who were fighting with an unfamiliar and cold gaze that she had never seen before.

"You know them?" Miss Xiao Song was not stupid.

Su Yu quickly hid the cold expression on his face and said, "I've seen them before. They almost killed me."

When he thought of Duan Tianshan's scenes, Su Yu's eyes revealed hatred.

If he had not been forced by those two fellows, he would not have ended up in such a state?

However, some of his doubts were finally solved.

He had always wondered who those footprints belonged to, and who could have arrived at the sinkhole imperial tomb before them.

Only now did he realize that it was Patriarch Gatian and the reincarnator King!

They must have also boarded the teleportation array at the last moment.

However, Su Yu's luck was not good. He was teleported outside the sinkhole's Emptyrean tomb, and the two of them had successfully teleported in.

Furthermore, the two of them had discovered this powerful and extraordinary female ripple egg. They had harbored evil thoughts just now.

The result was that they had completely angered female ripple and the myriad saint behemoth, and they had started a massacre mode.

Along the way, they killed every living creature they saw to vent their anger.

As for the two of them, they were very lucky to escape the pursuit and escape to this place.

"You don't trust me that much?" said the Gaia grandmaster, "No matter what, we have known each other for an era. You know my character."

The reincarnation king sneered, "Because I know you, I don't trust you to keep it."

The Gaia grandmaster was impatient, "Then what do you want?"

The reincarnation king stretched out his hand, "Of course I want to keep it!"

"Then why should I trust you?" Gaia grandmaster snorted.

The two of them were in a stalemate. Reincarnation king did not want to continue fighting.

Nu Yi and the myriad saint beast were searching for them. If they continued fighting, they would be exposed.

"How about this. You take out the Beast Egg. We will compete fairly. Whoever wins will take the Beast Egg," reincarnation king said.

Of course, he didn't want to take out the beast egg again. However, it wasn't a problem for them to continue this stalemate.

"Hurry up. After the benefits are distributed, we will rush to the sixth floor and use the teleportation formation there to leave," urged Samsara King.

"Okay, what method do you suggest? We both know the value of this beast egg. What kind of competition can make us both convinced?"

The Reincarnation King's eyes lit up. "It's simple. Let's see who this beast egg is fated to be with!"

"In the martial arts world, we have always paid attention to fate. When the opportunity arrives, what is not yours will not be yours. If it is yours, even if there is no chance, it will still be yours."

The Gaia grandmaster pondered. Using the opportunity to talk about things could indeed make both sides appear convinced.

"What kind of Fate?"

Reincarnation king said, "I remember that when I took the Beast Egg, the beast egg seemed to be able to roll freely. That means it has intelligence."

"Why don't we put the beast egg between us and see who the Beast Egg rolls to? The Beast Egg will belong to who, how about that?" Reincarnation king said.

Gaia grandmaster was deep in thought, "There is a problem. If we use tricks in the dark, what should we say?"

The reincarnation king said, "We are not allowed to use any method. Once we find out that we are using a secret method, we will be judged as cheating. How about we give the Beast Egg to the other party?"

After thinking for a long time, forefather gai felt that this plan was feasible. He nodded and said, "Sure!"

He had just taken out the Beast Egg!

Nuyi's Beast Egg was huge. It was a human-sized beast egg with a snow-white shell.

On the surface of the egg shell, there were streaks of black flames that were pulsating slightly.

This was somewhat similar to the scale flames of the Ten Thousand Saints Beast.

The difference was that these flames only had a protective effect and did not produce any power.

After placing the beast egg on the ground, it immediately began to rotate. It was indeed filled with spirituality.

"Alright, let's Begin!" Both parties agreed to take ten steps back and stand a hundred feet away.

Then, they all sat cross-legged, not using any power, and just waited for the Beast Egg to make its choice.

Rumble --

The Beast Egg started to spin on the spot, and suddenly, as if attracted by something, it started to roll towards the reincarnation king.

A weak and undetectable sneer appeared at the corner of the human king's mouth.

Since he was the one who came up with the idea, how could it not benefit him?

In his palm, he held an extremely ancient metal fragment. According to his many years of research, it was very likely that it came from the era of creation.

Nu Yi came from that era, and their blood flowed with ancient blood.

If they encountered something from that era, it would more or less cause a reaction.

His guess was correct. The appearance of the fragment had indeed stimulated the memories of the Beast Egg's bloodline origin, allowing it to choose to head towards the reincarnation human king.

Rumble --

The Beast Egg rolled and was about to arrive in front of the reincarnation king.

But suddenly, the beast egg stopped and turned around at an even faster speed, rolling towards the overcast patriarch in excitement.

The Reincarnation King's expression froze. He fixed his gaze and realized that the overcast patriarch was holding an ancient flag.

That flag was also from the era of creation, and in terms of completeness, it far exceeded the fragments of the reincarnation king.

It was easy to imagine who the beast egg was leaning towards.

A smile finally appeared on the corner of the sky-covering Patriarch's mouth. He knew that the reincarnation king was the one who suggested it, so the other party must have something to rely on, so why did the sky-covering patriarch still dare to agree?

Because he had something even more powerful to rely on.

To compare opportunities?

Hehe, how could the reincarnation king compare?

Rumble --

The Beast Egg quickly rolled in front of the sky-covering patriarch. He smiled and reached out to grab it, saying, "Reincarnation king, then I won't stand on ceremony. This beast egg is fated with me, so it will be mine from now on."

However, how could the reincarnation king let the Gaia Grandmaster take the Beast Egg for himself?

Miss Xiao Song stopped and said in a low voice, "We're almost there!"

Su Yu's soul eye also detected some unusual traces, as if there was a small area of battle in the distance.

He and Miss Xiao song immediately rushed over, and they were on a medium-sized island.

The two of them were very restrained in their attacks. They tacitly did not use any secret techniques, but carefully used their bodies to fight.
