

THE DIVINE NINE-DRAGON CAULDRON

Chapter 3191 - 3191 Chapter 3078 encountered a huge enemy

3191 Chapter 3078 encountered a huge enemy

“Castration, begin!” In the crystal ball, the special red energy left behind by the Bright Moon Empress quickly condensed and turned into a beam of light that rushed toward Zhan Wushuang’s vital point.

The ten thousand Saint Puppets grabbed Zhan wushuang tightly to prevent him from breaking free.

“No!”

“Ah! ! ! !”

In the Hall of preaching, miserable screams could be heard for a long time!

Su Yu, who was deep in meditation, suddenly trembled. He could not help but bend down and look down at his vitals.

He looked left and right guiltily and said with some fear, "What's going on? Why did my balls suddenly tighten?"

He was confused and continued to enter deep meditation.

In the outside world, the ninth domain's attacks did not stop.

A month passed.

There were more than a hundred cracks on the courtyard wall, and they could not be repaired in time!

Two months passed.

There were more than a thousand cracks!

Three months passed.

On the courtyard wall, there were countless spider web-like cracks.

Four months passed.

The entire courtyard wall was shaking, and it was about to collapse!

Five months passed.

The courtyard wall was like a soft sapling. Every time the ninth domain hit it, the courtyard wall would sway back and forth.

If it wasn't for the core energy still circulating and continuously maintaining, the courtyard wall would have collapsed long ago.

But even so, the circulation of the core energy was obviously much slower.

It was believed that it wouldn't be long before the courtyard wall would shatter!

Finally!

On the sixth month!

With a loud rumble, the courtyard wall, which had been continuously attacked for half a year, finally couldn't withstand the ninth domain's final strike and collapsed!

The ninth domain waved its claws and a sinister smile remained in its eyes. "My claws are hurting. I can finally come in!"

Its huge dragon head slowly reached into the courtyard.

A terrifying and shocking aura swept in all directions like a tornado, causing the palaces to tremble.

"Hehe, hehehe..."the ninth domain laughed sinisterly and walked in. He stared at the sinkhole Emperor Lord's Great Hall where Su Yu was at and casually slapped his Dragon Claw, the core energy of the lion's leg was caught in its hand.

"The pure energy left behind by Dao master absolute beginning. This is good stuff. We can't waste it."The ninth domain opened its mouth and swallowed it into its stomach to preserve it.

Then, it took a step forward and headed for the sinkhole monarch's Hall of Dao preaching.

Almost at the same time.

The loss of the core energy caused all the halls of dao preaching to shake violently. They were covered in cracks and were about to collapse.

“What’s going on?”

Miss Xiao song was deep in meditation when she suddenly realized that layers of dust were falling from the roof.

The entire roof of the hall was on the verge of collapsing.

Su Yu had long since woken up from his meditation.

A whole year had passed. No, to him, it was a whole thousand years.

Not only had he completely mastered the ancestral life technique, it had become the second most advanced ancestral technique after the soul domain.

Furthermore, he had also successfully achieved a breakthrough in his cultivation!

Su Yu clenched his fist, and an unprecedented surge of energy surrounded his palm. His cultivation had reached the great sage Intermediate Stage!

That's right!

Not only had he managed to achieve a breakthrough from ancient Sage Pinnacle to great sage, he had also managed to reach the great sage intermediate stage in one go. In terms of cultivation, he was at the same level as Xia Jingyu.

The explosive growth of his cultivation had caused Su Yu's strength to soar in all aspects!

The Absolute Heaven Sword and the myriad calamity scythe were about to unleash unprecedented power.

He was confident that if he encountered quasi-ten thousand saints, such as the forefather of the overwhelming sky and the reincarnator king, he would be able to resist them even without using the blue heart iron puppet.

Unlike before, he could only run for his life when he encountered them.

The change in his strength made Su Yu's trip worthwhile.

However, Su Yu felt that the most important thing was the ten thousand arts panorama that the sinkhole Emperor Lord had given him!

This scripture recorded all kinds of unprecedented secret techniques that had never been heard of before.

Creating whirlpools in one's body and erupting one's strength was the most mysterious of them all.

Currently, there was a whirlpool slowly revolving around Su Yu's abdomen.

As long as it was necessary, he could activate the whirlpool at any time and erupt all the strength in his body. In an instant, he could activate the abandoned cauldron of the common people and create an attack that could destroy the world.

Of course, the sinkhole Emperor Lord had warned him that the price of using this move was extremely high.

...

Not only would it take another year for the vortex to shatter, but the power in his body would be completely drained. He would not even have the strength to move his fingers.

Under such circumstances, any other ordinary person would be able to kill the extremely weak Su Yu.

Therefore, unless it was a life or death situation, he definitely could not use this move.

“Alright, I’ve gained a lot.” Su Yu was satisfied and was about to get up when suddenly, the entire hall started to shake violently.

Su Yu staggered and fell to the ground with a shocked expression on his face.

At the same time, his sharp senses sensed that the mysterious invisible protective energy around the hall was rapidly declining.

Waves of fierce Qi were emitted from outside the hall.

Su Yu swept his gaze across the hall, and his eyes of the soul penetrated through the hall, causing his expression to change drastically.

An enormous nine-colored dragon was tightly twining around the hall where Su Yu was, and an incomparably ferocious head was looking down at Su Yu with a sinister smile.

It seemed to be able to sense Su Yu's eyes of the soul, and it said with a faint smile, "You're finally awake, human?"

Su Yu's expression changed drastically. He quickly summoned his heavenly sword and slashed to the left.

...

The palace wall that had lost the protection of the invisible power was no longer covered by the Sword Shadow. It was slashed open with a single strike.

However, before Su Yu could rush out, the ninth domain smiled. Its huge dragon body twisted with force and crushed the palace in front of him into a pile of ruins.

Su Yu was also crushed in the ruins. He was tightly entangled by the ninth domain's dragon body. He rose into the sky and arrived in front of the ferocious dragon head.

"Su Yu, the fate between us can end here." The ninth domain opened its bloody mouth and swallowed Su Yu and a pile of ruins together.

Su Yu snorted. “That’s only possible if you have the appetite!”

He held the sword with both hands and decisively pulled out the scabbard. He retreated the vengeful souls on the scabbard and released the power that the heaven-severing sword should have.

In just an instant, the heaven-severing sword emitted a shocking evil aura. If it were the previous Su Yu, he would have been sent flying immediately.

But now, he barely held the absolute heaven sword and pierced through the air. “Go!”

Sou —

The Absolute Heaven Sword contained a destructive sword light as it suddenly pierced into the mouth of the ninth domain’s dragon.

The dragon mouth formed by the ninth domain was instantly pierced through!

The instant Su Yu and the many ruins were swallowed into the dragon mouth, Su Yu leaped up and flew out from the hole. He jumped to the upper jaw of the dragon mouth and faced the eyes of the ninth domain at a close distance.

“Your strength has increased a lot.”The Dragon Eyes of the ninth domain narrowed. “If I give you enough time, I believe that you will become an existence that even I fear.”

“Unfortunately, I will not give you a chance!”

Boom —

The narrowed dragon eyes suddenly opened, and a pair of flames that contained the aura of death suddenly shot toward Su Yu.

That was the ancestral death technique!

Once touched by the flames of death, one would die without a doubt!

Chapter 3192 - 3192 Chapter 3,079, forefather myriad flower

3192 Chapter 3,079, forefather myriad flower

Su Yu didn't hesitate. He raised his hand and drew, and a green lake water fell from the sky, extinguishing the black flame.

“Ancestral life technique?”The ninth domain was surprised. His dragon eyes sparkled with surprise. “Hahaha, I didn’t expect you to condense the ancestral life technique yourself. Surprise, it’s too surprising!”

Su Yu was expressionless. “The pleasant surprise is yet to come!”

His eyes flickered. Powerful soul fluctuations turned into sharp soul spears and stabbed into the defenseless ninth domain.

It didn’t expect that Su Yu had already mastered the complete ancestral soul technique!

Ah!

Unlike the injuries on his body, the soul of the ninth domain was attacked this time.

Caught off guard, he couldn’t help but Groan in pain when he received a vicious blow.

Taking advantage of this opportunity, Su Yu jumped off the dragon’s body and ran toward the outside world.

“Hehe, where can you run to?”The words of the ninth domain were almost in his ears.

When he turned around, he saw that its ferocious giant dragon head had already caught up to him.

As the Master of the soul ancestor technique, the damage that Su Yu’s soul ancestor technique caused to it was actually very limited.

A bloody mouth suddenly opened.

Su Yu’s expression was solemn as he said, “It’s still too early to eat me!”

He didn’t even turn his head as he stabbed his absolute heaven sword back.

The gigantic dragon head of the ninth domain was once again pierced through by a huge hole, causing its speed to slow down slightly.

However, the ninth domain completely disregarded it as its eyes were filled with a crazed desire to devour. “Hahaha! Let me see how many more tricks you have!”

Su Yu was solemn. He had never thought that he would have to fight this predestined enemy head-on right after he finished cultivating.

However, the other party was a supreme existence who could even kill a ten thousand Saint Beast. Su Yu did not receive any teachings from sinkhole lord. It was still not the time for him to rely on his own cultivation to contend against the ninth domain in its peak state.

“Is that so?” Su Yu, who was running, suddenly stopped in his tracks. At some point in time, he had summoned the myriad calamity scythe! ! !

At this moment, the kalpa scythe had undergone a change compared to before.

The handle of the kalpa scythe actually had fine scales growing out.

And on the scythe, there was an unknown dark red flame jumping about.

During his year of seclusion, he had not only cultivated, but he had also refined a few magic treasures that were close to him.

One of them was the kalpa scythe!

Before entering the tomb of the sinkhole emperor, Su Yu had absorbed the mysterious liquid in Miss Song’s ancient vat. It was filled with the blood of Taotie.

In order to prevent the blood of Taotie from being absorbed by the eye of Taotie in his body, Su Yu had no choice but to use the kalpa scythe to let it absorb the excess divine blood of Taotie.

The divine blood of Taotie that Su Yu himself had absorbed only took up one-tenth of the ancient vat.

Most of it had been absorbed by the myriad calamity scythe.

The myriad calamity scythe, which had absorbed a lot of divine blood, began to grow scales and mysterious dark red flames.

That was fine. The most shocking thing was that Su Yu could hear the beating of his heart from the myriad calamity scythe!

It was as if the myriad calamity scythe had life!

He didn't know if this was a change in the divine blood or if the myriad calamity scythe had life in the first place. It was only because he had mastered the life ancestor technique that he could tell.

Seeing the myriad tribulation scythe, the ninth domain that was chasing after it, its sinister smile became much more restrained, and a trace of fear flashed in its eyes.

“This is a surprise for you!” Su Yu instantly activated the myriad tribulation scythe and swung it down!

Instantly, ten heads suddenly appeared on the scythe, and they all let out an irritating scream.

Every moment, the Taotie’s heads opened their mouths and spat out beams of light that contained dark red flames!

As soon as those beams appeared, the entire world turned blood-red.

Ten beams of blood-red light shot straight at the ninth domain!

The ninth domain didn’t hesitate. “Spatial ancestral technique!”

Its body twisted weirdly, and ten holes appeared, which happened to be the attack direction of the ten beams of blood-red light.

Whoosh —

The destructive blood-red beams of light all sank into the holes without a sound.

This was the space ancestral technique!

If used properly, no attack would be effective!

The space ancestral technique disappeared, and the ninth domain's body recovered. Indeed, it did not suffer any serious injuries, only ten scorch marks remained on its body.

The aftershocks of the blood-colored light beams still hurt it.

However, the ratio light around the ninth domain flashed, and the life ancestral technique was activated. These scorch marks disappeared into thin air.

Su Yu's expression was grave. Su Yu, who had mastered the eight great domains, knew how troublesome these domains were.

Moreover, since the ninth domain had mastered the eight great ancestral techniques, it would be even more troublesome!

“This surprise is very ordinary,” said the ninth domain with a faint smile.

However, Su Yu revealed a mocking expression. “Who told you that this was the surprise?”

He did not expect that the myriad calamity scythe would be able to defeat the ninth domain!

As soon as he finished speaking, the door to the great hall behind the ninth domain opened silently. Miss Song leaped out and spread out her arms. Countless flowers of various colors grew around the ninth domain.

...

These flowers were all attached to the body of the ninth domain!

Once attached, the ninth domain was shocked to realize that its ancestral technique was actually weakening. Its body could be seen shrinking with the naked eye.

“This is patriarch Myriad Flower’s Orthodoxy!” The ninth domain’s pupils constricted, and its body trembled violently, trying to shake many of the flowers open.

But it was useless!

The flowers took root and sprouted on its body, quickly absorbing the ninth domain's ancestral art, and then strengthening itself.

"Scram!" The ninth domain was actually really angry. It activated the death ancestral art, and a layer of black flames instantly burned its body.

As a result, the flowers attached to its body were burned to ashes one after another.

However, the ancestral techniques absorbed by the flowers were all gathered in Miss Song's palm.

"You're courting death!" The ninth domain was enraged!

These ancestral techniques were taken from the sinkhole divine monument. If others wanted to take them away, they would only end up dead!

Miss Song hurriedly retreated, and then she pressed her palms together. Immediately, a huge lotus flower appeared beneath the ninth domain, and it wrapped around the ninth domain.

...

The pistils were like tentacles as they pierced into the ninth domain's body and crazily absorbed the ancestral technique.

“Die! ! !”The ninth domain was truly enraged. Its huge body shook with all its might and destroyed the lotus flower!

A pair of furious dragon eyes stared at Miss song, filled with dense killing intent. “You’re courting death! !”

Miss song was so scared that she quickly ran away. As she ran, countless beautiful flowers floated behind her.

The ninth domain was so afraid that it didn’t directly rush over. Instead, it used the ancestral death technique to burn all the flowers along the way.

Su Yu saw this and was secretly surprised.

Miss Song’s previous strength could be said to be less than an ant compared to the ninth domain.

But a year had passed, and after receiving the teachings of forefather myriad flowers, she was actually able to make the ninth domain suffer!

Her harvest was far beyond imagination! !

Chapter 3193 - 3193 Chapter 3,080, a huge harvest

3193 Chapter 3,080, a huge harvest

However, that was all.

The overall strength of the ninth domain was a hundred times stronger than Miss Song!

All the strange flowers along the way were crushed and shattered by the ninth domain. Miss song was so scared that she ran away.

However, with her strength, she couldn't run far.

Huala —

The sound of the last sea of flowers shattering could be heard. Miss Song had no way out and was forced to a corner of the Bright Moon Empress Palace.

“Don’t come over!” She cried out in a low voice and closed her eyes in fear.

The ninth domain let out a wild roar and whipped its tail over.

Its entire body was covered in domains. A casual tail was enough to unleash the terrifying eight great ancestral techniques. Even if Miss Song had a protective dao artifact like the emperor’s new clothes, she would be crushed at the first instant!

Seeing this, Su Yu’s heart stirred and he was about to help.

But at this moment.

The Bright Moon Empress’ palace door suddenly opened, and a fragrant breeze blew in.

At random, a pink colored ribbon flew out from inside and wrapped around the ninth domain’s body.

“It’s all because of you!” A slightly male voice, but also like a woman’s awkward voice, came from inside.

The voice was filled with hatred and hatred, and it made people feel an inexplicable chill. It was as if they were standing under a cool tree in winter without clothes, and their bodies were cold.

Even deep in his bones, he could feel that chill.

Chi La —

The ribbon wrapped around the ninth domain and pulled hard. The ninth domain actually moved thirty feet horizontally and crashed into the bright moon Empress’ Great Hall.

Although the Great Hall’s defense was rapidly fading, there was still some effect left.

When the ninth domain crashed into it, it was immediately bounced away.

During the process of bouncing away, the ribbon expanded crazily. In the blink of an eye, it covered the entire ninth domain from the beginning to the end, not leaving a single gap.

At the same time, embroidery needles of different colors flew out from the Bright Moon Empress' Great Hall and pierced into the body of the ninth domain.

Ah!

Even with the ninth domain's willpower, he couldn't help but let out a scream and his entire body twisted violently.

But because of the effect of the ribbon, it was wrapped up and unable to move.

"What kind of monster is plotting against my true body?" The ninth domain was enraged and actually suffered at the hands of the juniors twice in a row!

Its body violently shook as its body infinitely enlarged, continuously stretching the ribbon apart.

In the end, the ribbon finally couldn't withstand it and directly collapsed.

But at the instant the ribbon collapsed, a pitch-black black light took advantage of the cover of the flying broken ribbon to ruthlessly slash at the ninth domain's body!

Roar!

The body of the ninth domain was directly slashed open with a crack as thick as a palm, and large amounts of the power of the domain flowed out.

“Who are you calling a demon?” A cold voice that was neither male nor female came from the main hall. Following that, a woman wearing a pink dress, a light makeup, and long jet-black hair with a graceful figure walked out. No, it was a man, no.., it was a woman..

In short, a man that was neither male nor female walked out.

His skin was fair and his facial features were handsome. He wore a tight-fitting pink dress that accentuated his figure.

If it wasn't for the beard at the corner of his mouth that betrayed his identity, people who didn't know would really think that he was a woman.

“Zhan Wushuang?” Miss Xiao song was so shocked that she almost stuffed her little hands into her little mouth.

Su Yu was stunned. He even forgot that his enemy was right in front of him.

He rubbed his eyes and couldn't help but wonder if his eyes were playing tricks on him.

Even the ninth domain was stunned. When it looked at the Radiant Moon Empress' Hall of preaching., it couldn't help but laugh out loud. "You actually accepted the radiant Moon Empress' inheritance. hahahaha, with so many inheritances, who do you want? You want the inheritance of that Old Woman!"

He looked down at Zhan wushuang mockingly, "Based on my understanding of that old woman, she has a mysophobia. If the successor she chose was a man, her manhood would definitely be cut off."

"You are already a neither man nor woman, right?" The ninth domain laughed non-stop.

Zhan Wushuang's face was full of gloom and hatred, "Isn't it all because of you?"

Whoosh –

Hundreds of streamers shot out from his back, covering the ninth domain and wrapping it into a ball.

"What is there to be afraid of a woman's thing?" The ninth domain opened its mouth and sprayed a large amount of death flames, burning the streamers from the inside out.

However, there were too many streamers, so it was unable to completely burn them.

Little song was still staring at Zhan wushuang, but Su Yu had already rushed over and pulled little song away: “Still looking! Quickly go!”

Although both of them had received the inheritance and Su Yu’s strength had increased dramatically, it was still impossible for them to defeat the ninth domain.

If they didn’t run now, how long would they have to wait?

“Run? Where are you running to?”Zhan Wushuang’s sinister voice came from behind.

Su Yu’s mind moved and he quickly moved away, but he was still a step too late. A ribbon suddenly appeared in front of him and blocked his path.

“If you want to leave, I will leave first.”Zhan wushuang sneered and his body calmly passed through the ribbon.

Su Yu immediately destroyed the ribbon. However, this ribbon was very tough. Although it was easy to destroy the ninth domain, it was extremely difficult for him.

As a last resort, Su Yu used the disaster scythe and used the scythe to cut a thin line on the ribbon. Then, he rushed out.

...

At about the same time, the ninth domain finally burned through more than a hundred ribbons and leaped out.

Su Yu's hair stood on end. He quickly pulled Miss Xiao Song and teleported a few times before sprinting toward the Starlight Array.

"We'll be safe once we get inside," Miss Xiao Song said nervously.

Su Yu did not answer.

If it was safe inside, how did the ninth domain get through?

At that moment, Su Yu had already arrived at the center of the palace complex. From Afar, he could see the coffin that had the boot of the sinkhole emperor sealed on it.

His eyes lit up and he inhaled through the air.

Miss Song was puzzled. "Why are you still thinking about that Coffin? It's useless."

Back then, Zhan Wushuang had put in a lot of effort, but he was still unable to do anything to the coffin.

Su Yu wanted to grab the coffin just like that?

However, what made Miss Song widen her eyes was that the extremely heavy coffin was grabbed by Su Yu and stuffed into the spatial storage.

...

"Ah! You..." Miss Song was stunned. It was Sinkhole Emperor Lord's boots!

Su Yu said solemnly, "Keep it a secret for me!"

This pair of shoes was the biggest secret in Sinkhole Emperor Tomb.

No inheritance was more important than this pair of boots.

This was because it was buried with the sinkhole imperial tomb and was also the most important thing here.

As he spoke, Su Yu rushed out of the hall with Miss Song. He saw the corpse of the Ten Thousand Saint Beast lying outside the hall from afar.

Its huge body exuded a destructive aura.

Su Yu did not stand on ceremony. He reached out and grabbed the ten thousand Saint Beast, keeping it into his spatial nirvana artifact.

Such a Ten Thousand Saints Beast was a great treasure. Just the scales on it could refine countless dao artifacts with strong defenses.

If he took it back to the cauldron, it would be enough to arm all the members of the cauldron once.

Chapter 3194 - 3194 Chapter 3,081, waiting to be slaughtered

3194 Chapter 3,081, waiting to be slaughtered

“Put it down! It belongs to me!” A Dragon’s roar shook the sky.

It was the ninth domain that had escaped. As soon as it came out, it saw Su Yu snatching away the corpse of the Ten Thousand Saints Beast.

This Ten Thousand Saints Beast was the strongest expert that the ninth domain had killed. If it swallowed, it would be of great help to its strength.

However, the scales on this ten thousand saints beast were very troublesome. They contained mysterious black flames, so the ninth domain had no choice but to temporarily not swallow it. Instead, it put it aside and prepared to bring it back to refine its scales, after that, it would swallow it safely.

Unexpectedly, Su Yu took advantage of it and took it all away.

Su Yu did not stop. He pulled Miss Song and ran for his life.

Miss song cooperated very well. As she ran, she threw a large number of flowers behind her like a fairy scattering flowers.

The flowers blotted out the sky and covered the sky and the sun, covering both sides.

The ninth domain had suffered a loss and had no choice but to stop. They destroyed the flowers first and then chased after them.

As a result, their speed was greatly reduced. Otherwise, they would be able to catch up to the two of them in an instant.

One increased while the other decreased. Su Yu and the others quickly pulled apart the distance and charged into the Starlight Formation.

They had the blood of chaos in their bodies, so they naturally did not fear the starlight.

However, Zhan Wushuang was not that lucky. He had already left long ago, so it was difficult for him to move in the Starlight Formation.

The slightly surprising thing was that Zhan Wushuang relied on the countless colorful ribbons around his body to resist the attacks again and again. He actually managed to forcefully move forward.

After receiving the inheritance of the bright moon empress, Zhan Wushuang's combat strength also soared, far surpassing that of the past by countless times.

If it was a head-on battle, Su Yu might not be as relaxed as before.

Su Yu noticed him, so naturally, he also noticed Su Yu. His eyes turned cold as he said, “Su Yu! !”

His eyes spewed fire, containing a thick, dark, and fierce aura.

Originally, he had been in control of the Emperor’s killing sword all year round, and his vicious aura had gradually affected his temperament. Now that he had been castrated into a half-man and half-woman who could never be reversed, his temperament had changed drastically, becoming incomparably sinister.

The current Zhan Wushuang was no longer the open and upright person who was full of masculinity.

Instead, he was a person who was as vicious as a venomous snake.

Just before he left, he deliberately stopped Su Yu and Miss Xiao song, allowing them to block the ninth domain. This was evident.

The previous Zhan Wushuang did not have this vicious aura.

When he thought of this, a hint of viciousness flashed across Su Yu’s eyes!

Zhan Wushuang could not stay!

“Why are you calling me?” Su Yu said, “To remind me to trip you up, right?”

“You Dare!” Zhan wushuang’s eyes widened in anger as he roared.

Su Yu curled his lips, “Why wouldn’t I Dare?”

A ball of chaotic power suddenly appeared in his palm. Then, he took a step to surpass Zhan wushuang, who was moving slowly, and wildly scattered it behind him.

Not only that, but he also spread the power of primal chaos all over the space behind Su Yu.

The magnificent scene from before appeared again!

Countless starlight descended with a loud bang. They swept across the ground and launched a carpet attack!

Zhan wushuang, who was already struggling to move forward, suddenly fell into a huge crisis.

“Su Yu! Just you wait!”Zhan wushuang used all his strength to resist the starlight attack with all his might. At the same time, he tried his best to run forward.

Su Yu burst out laughing and rushed out of the Starlight Formation.

“Fire Lion!”After leaving the Starlight Formation, Su Yu did not dare to delay any longer and directly summoned the fire lion.

The fire lion was lying on the ground and gnawing on its bones. It was a little confused. When it realized that it was summoned, it immediately bristled, “F * ck! You summoned me again without saying anything!”

“Let me guess, I made you chase after you, right?”

Su Yu smiled, “That’s not true. I asked you to come out for some fresh air. Don’t think too much. Am I that kind of person?”

“F * ck! Nothing good comes out of your smile!”The fire lion finally saw through Su Yu.

It stared at Su Yu suspiciously and said, “Hey! Don’t tell me that there’s a stronger existence chasing after you?”

Su Yu smiled awkwardly, “Can you stop talking nonsense? How can I summon so many enemies?”

“F * ck! ! It’s actually true!”The fire lion said, “There are enemies stronger than the Ten Thousand Saints Beast?”

The fire lion’s limbs shivered, “I’m going to be killed by you sooner or later!”

Su Yu glared at him and jumped up without saying anything. He punched him on the head, “Why are you talking so much nonsense? Can’t you just run away?”

The fire lion was reluctant and began to run with the two of them.

His speed had reached the level of ten thousand saints. When he rushed forward, he could cover ten thousand miles in a breath!

In just a few blinks of an eye, he had passed through the sixth treasure area.

“Little ancestor, tell me honestly. What level is the person chasing you at?”The fire lion said anxiously, “If you don’t tell me clearly, my little heart will keep pounding.”

Su Yu said, “That, it’s nothing. It’s just an old enemy.”

“How Strong is he?”

“En, he’s okay!”

“How Strong is he?”

“He’s the kind that’s not bad.”

“How about the Ten Thousand Saints Beast from before?”

...

“He seems to be a little stronger. Anyway, the Ten Thousand Saints Beast has already been killed by him.”

“Ah! ! !”The fire lion took a deep breath. While running, it almost fell to the ground. It exclaimed, “He’s already dead?”

“He was killed by that existence?”The fire lion’s eyes were filled with shock. “What kind of existence is your old enemy?”

“Even my master back then might not be able to kill the Ten Thousand Saint Beast!”The fire lion’s body trembled as he cursed, “F * ck! F * ck! I Can’t accompany you anymore, Kid, or I’ll be finished!”

Su Yu gave him a punch and said, “If you don’t want to die, shut up and run.”

He was worried. There was still a long way to go before he could return to the entrance. It was unknown if he could avoid the pursuit of the ninth domain.

Roar —

Suddenly, a huge dragon roar came from behind him.

Su Yu turned around and cast his soul eye. However, when he saw it, his expression changed drastically!

A huge creature was crossing the Starlight Array!

Countless starlight beams hit the huge creature like a storm. However, they only left a small wound on its body and didn't cause any damage.

...

The ninth domain had crossed over like this. The Starlight couldn't hurt him at all!

Thinking of this, Su Yu's heart couldn't help but sink. Just as he had expected, the Starlight Array couldn't become a barrier. He still had to rely on himself.

At this critical moment, Su Yu's mind spun rapidly. All sorts of escape routes appeared in his mind, but they were all extinguished one by one.

If nothing unexpected happened, the fire lion that had been given high hopes would at most be caught by the ninth domain when it reached the second treasure area.

At that time, in front of the ninth domain, they would be no different from lambs waiting to be slaughtered.

Chapter 3195 - 3195 Chapter 3,082, evil cloth boots

3195 Chapter 3,082, evil cloth boots

However, hiding was not a solution. The ninth domain had a strong sense of the eight great ancestral techniques. Wherever Su Yu hid, the other party would be able to find him.

What should he do?

Thousands of thoughts lit up in his mind. Suddenly, an idea appeared in his mind.

“Fire Lion, run with all your might. Don’t stop in the middle.” Su Yu said to Miss Song, “Protect me.”

As he spoke, Su Yu took out the huge and heavy coffin.

Perhaps in the hands of others, this coffin was extremely heavy and could not be shaken. However, in Su Yu’s hands, it was as light as a feather.

This was probably the effect of a halo that the sinkhole monarch had inserted into his mind.

When Miss Song saw it, she was envious.

This was the most precious thing in the sinkhole monarch's tomb. There was no other thing like it!

She was very curious about what kind of existence the boots that the sinkhole Emperor Lord had used as a relic were.

Under his gaze, Su Yu twisted hard and pulled out the nine dark red spikes on the coffin.

These spikes were used to fix the coffin and its lid.

After pulling them out, the entire sinkhole emperor Lord's tomb began to tremble violently.

The sky that had never changed since ancient times began to crack like a dried-up paddy field.

Black energy poured down from the cracks.

Black Flames began to rise from the ground and burn everything on the ground.

The entire tomb of the sinkhole emperor had fallen into self-destruction!

Su Yu was shocked. He had never thought that opening the coffin of the sinkhole emperor would have such a serious consequence.

“Oh my God! We’re going to step on this place!”The fire lion wailed in grief. “It just so happens that we’re in the middle of a storm.”

“What bad luck? We’ve encountered it.”

“This is great. Without that old enemy of yours chasing after us, we’re going to die here too!”

“Shut up!”Su Yu shouted coldly.

Indeed, if the tomb of the sinkhole Emphyrean Lord entered the self-destruction state, they would probably die here before the fire lion could reach the exit.

Therefore, they could only give the boots of the sinkhole Emphyrean Lord with high hopes!

His boots should have extraordinary abilities.

Su Yu looked at the nine colored nails in his hand. His intuition told him that they were not ordinary items. He could vaguely feel a piercing pain in his soul.

It was only a few glances, but it had such a stimulating effect on his soul that he was about to become a myriad saint. Su Yu did not dare to imagine that it would be nailed into his body.

He quickly put away the nails and slowly pushed open the coffin lid.

The inside was covered with unknown, colorful stones.

Surrounded by the stones, a pair of simple boots that looked like cloth shoes embroidered by mortals came into view.

Without a doubt, this was the boot used by the sinkhole Emperor Lord.

But wasn't it too ordinary?

There was no aura that a dao artifact should have. It could not be any more ordinary.

Miss Xiao Song could not help but come over and said in surprise, “Why is it an ordinary pair of boots?”

Su Yu pondered for a few seconds. He rolled up his sleeves and picked it up from the air. He shook it forcefully, but there was no change to the boots.

“Is it really an ordinary pair of boots?” Su Yu tried to use a weak force to hit the cloth shoes.

In the end, that weak force actually made a small hole in the cloth shoes!

Ah?

Miss Song widened her eyes. “Are you kidding me? It’s really an ordinary pair of boots!”

“What the hell is Sinkhole Overlord doing, leaving you with such a lousy pair of boots?” Miss Song was both surprised and angry.

“Isn’t he clearly trying to harm us?” Miss Song’s face was full of complaints. “The benefits didn’t fall. Instead, he punished the self-destruction mechanism in advance. We’re all going to be buried alive here.”

Su Yu was shaken for a moment, but when he thought about it carefully, there was no need for the sinkhole Lord to cross countless eras to plot against a small figure like him.

There must be something going on here.

Su Yu grabbed a pair of boots with his hand and fell into deep thought.

Time flew by little by little.

The ninth domain had successfully crossed the Starlight Array and let out an angry roar toward the sky.

The tomb of Sinkhole Emperor was collapsing at an accelerated rate.

Many ancient creatures inside were rushing toward the entrance, trying to escape.

The fire lion was howling and running for its life.

Kacha —

A loud sound echoed in everyone's ears!

They looked up and saw a huge crack across the sky above the tomb of sinkhole emperor.

In the crack, large amounts of black energy poured out crazily. Whatever the black energy landed on, it would turn into black energy.

Even the eternal mystic ice treasure zone that Su Yu had just passed by. There were even some sources of ten thousand ice that were instantly melted into black energy by the black energy.

...

“Oh my God! Little Su, think of something quickly. The black energy above your head is about to collapse,”the fire lion screamed.

At this speed, there was no way they could escape. They might suffer the destruction of the black energy along the way.

Su Yu pondered for a long time and finally made a bold decision.

He took off his boots. Then, in hesitation, he put on a pair of cloth shoes from the sinkhole lord.

“What are you doing?” Miss Xiao Song hurriedly stopped him. “You can’t just wear other people’s boots!”

Moreover, these were the boots of a person who had died countless years ago, so it was even more impossible to wear them.

Su Yu did not want to, but he had no other choice. He could only give it his all!

After putting on a pair of cloth shoes, Su Yu stood up and stepped on them. To his surprise, he found that the cloth shoes unexpectedly fit his feet. It was as if they were tailor-made for him.

The bigger the shoe, the bigger the shoe. The smaller the shoe, the smaller the shoe.

Just as Su Yu was wondering if his feet were the same size as the sinkhole Lord’s, he suddenly felt a sharp pain in the soles of his feet at the same time.

It was as if he had been stabbed by something!

...

He quickly sat down and tried to take off the cloth shoes. However, he was surprised to find that the cloth shoes could not be taken off at all!

It seemed to grow on Su Yu's feet and become a part of his body.

When Su Yu exerted force, even the soles of his feet hurt. It was as if his feet would break if he took them off.

This shocked Su Yu!

His heart moved and his body began to expand. He enlarged his feet to see if he could stretch the cloth shoes open. But in the end, the cloth shoes actually increased in size with him.

Then his feet shrank again, and the cloth shoes followed suit!

"What the hell is going on?" Su Yu's expression was uncertain. He could be sure that these boots were definitely not ordinary boots.

But, wasn't this too strange?

Once he put them on, why couldn't he take them off! !

The only fortunate thing was that the piercing pain in his feet disappeared in a flash and didn't continue to flare up.

But even so, it still made people feel goosebumps. The evil of these shoes made Su Yu feel deeply uneasy.

He tried to lift his foot and take a step forward.

But an unexpected scene happened!

Chapter 3196 - 3196 Chapter 3,083, the nine domains as one

3196 Chapter 3,083, the nine domains as one

“Forget it, who cares if the boots are evil or not?” Su Yu muttered to himself. The ninth domain was about to catch up. If he couldn’t escape, he would die.

Roar —

A heaven-shaking dragon roar swept over. The ninth domain had caught up!

The distance between the two was no longer too far. With the difference in speed between them, the ninth domain would catch up in ten breaths at most.

“Oh my God! I’m going to die! I’m going to die!” The fire lion spread its limbs and ran desperately, but it could not outrun the ninth domain no matter what.

The gap between the two was closing bit by bit.

Miss Xiao Song’s heart was burning with anxiety. Her heart was beating non-stop, and her breathing became rapid.

Her pair of eyes looked at the sky behind her from afar. A nine-colored storm was attacking crazily.

That was the ninth domain!

In less than eight breaths, the other party would be able to completely catch up!

Su Yu also felt the rapid approach of the ninth domain, and his mood became increasingly heavy.

He gritted his teeth and quickly stood up. He took a step forward to see if this pair of cloth shoes could unleash the power it should have and increase its speed instantly.

However, what made his heart sink was that when he took a step forward, the cloth shoes did not have any reaction, and this step did not bring any change in speed.

This made Su Yu, who had high hopes for the cloth shoe, sink to the bottom of his heart.

He had thought that the boots of the sinkhole monarch would contain powerful power, or at least shine in terms of speed. Who knew that it would be useless apart from strangely growing on a human's body and unable to be taken off!

“Human! You can't escape.”The sneer of the ninth domain had already swept over before his body, shaking the already shattered void world.

Su Yu's heart was extremely heavy.

There was less than five breaths of time left!

“Big Brother Su Yu, you go first.” At this critical moment of life and death, Miss Xiao Song actually jumped down from the fire lion. “I’ll block it. You leave immediately.”

Su Yu said in shock, “Come back quickly!”

He stretched out his hand and pulled, but he did not pull Miss Xiao Song.

The fire lion’s current speed was comparable to that of a ten thousand saints. Every step was tens of millions of miles.

Miss Song jumped down and was instantly left behind. She disappeared without a trace.

Su Yu’s expression was uncertain. In an instant, he gritted his teeth and jumped down. Before he left, he patted the fire lion’s shoulder and said, “You can go. Don’t worry about me!”

Sou —

In an instant, Su Yu was left without a trace.

The fire lion ran wildly while complaining, “None of you have brains. Wouldn’t you die faster if you ran? It’s fine if that silly girl was stupid, but why are you, Su Yu, also stupid!”

“Is it worth it for a little girl that I’ve only known for a short while?”

As it ran, the fire lion slowed down. It bit its sharp teeth and turned around to leave, “Damn it! It turns out that being stupid is contagious!”

As it cried out, the fire lion actually rushed back.

After Su Yu landed on the ground, she quickly turned around and teleported several times before she finally found Miss Xiao Song.

She stood alone in the collapsed world, facing the nine-colored storm that was like an apocalypse.

The storm was at the end of the horizon. One could vaguely see a huge dragon dancing wildly in the storm.

“Ah, brother Su Yu, why are you here?” Miss Xiao song was shocked and angry, “Then didn’t I jump down for Nothing?”

Su Yu pinched her face and said, “Just because I called you brother Su Yu, I can’t leave you behind!”

He looked up at the nine-colored storm and said, “If you want to face it, then let’s face it together!”

“Okay!” Miss song looked at the side of Su Yu’s face and suddenly felt that her face was unusually friendly. She could not help but burst into laughter. “I thought you only knew how to play dirty tricks. It turns out that you’re quite hot-blooded.”

Su Yu rolled his eyes. “Are you praising me or insulting me?”

“Both!” Miss song covered her mouth and smiled. When she looked at the nine-colored storm in the sky, her eyes were filled with seriousness. “If that’s the case, then show me some of my song family’s true abilities and let that dragon have a good look!”

Su Yu’s heart moved. He knew that Miss Song must have an extremely powerful offensive magic treasure on her.

After witnessing the power of the ninth domain, Miss song was still able to say such words. It could be seen that her offensive magic treasure was extremely powerful.

“Good! Let’s face it together!” Su Yu waved her hand, and the crippled ordinary life cauldron from Miss Song’s family spun in her palm.

At the same time, the vortex in her abdomen was spinning at an accelerated speed.

In just an instant, Su Yu could mobilize all the power in her body and unleash the power of the crippled ordinary life cauldron once.

Although it could only last for one-tenth of a breath, it was still enough!

The two stood side by side under the disaster, watching the nine-colored storm that was getting closer and closer!

Finally!

It was getting closer!

The nine-colored storm that covered the sky and Earth rampaged through the Sky and Earth, destroying everything in the world.

The faintly discernible giant dragon gave off a peerless pressure!

A pair of fierce eyes shot out a fierce aura that could devour the earth on earth, “What, you’re not running anymore?”

It looked down at Su Yu and asked condescendingly, as if Su Yu was a lamb waiting to be devoured. With just a thought, he could devour Su Yu.

In front of him, Su Yu would have no room to resist.

Su Yu snorted coldly. His clothes fluttered crazily and his ink-black hair fluttered in the wind. His cold eyes shone with a dark light as he said coldly, “I, Su Yu, have never lowered my head in my life.”

...

“The enemy can’t, the Earth can’t, the Heaven can’t, and even the Dao in the dark can’t!”

“You, an evil spirit born in the ninth domain, are at best only the spirit of the Dao Palace. What right do you have to let me continue to escape?”

The ninth domain narrowed its eyes. “Aren’t you afraid of Death?”

Su Yu laughed out loud, and his laughter was desolate. “Of course I’m afraid! But so what? If I’m afraid of death, won’t I Die?”

“If you want me to die, you’ll have to pay the price!”

Sou —

The useless cauldron started to spin in front of him. He only needed to infuse some energy into it to activate it!

The ninth domain’s expression was cold as he said, “You don’t deserve to make me pay the price!”

His eyes flashed, and two beams of nine-colored light shot out, heading straight for Su Yu and Miss Xiao Song.

Su Yu’s expression changed slightly, and he quickly reprimanded, “Don’t take it head-on, this is the fusion of nine great domains!”

Su Yu knew the power of the fusion of eight great domains, because he himself had mastered eight great domains.

...

However, the power of the fusion of nine great domains was unknown.

Perhaps it could destroy the sky, perhaps it could destroy the earth, or perhaps it could destroy all life.

Miss Xiao song gritted her silver teeth, but she did not Dodge. Instead, she stood there straight, gritted her teeth, and said, "I'm fine, don't Worry About Me!"

As soon as she said that, the nine domains merged into one and swallowed her!

Su Yu was too busy to care about himself. He kept dodging and brushed past the edge of the light beam.

The eight domains were the main elements that built the world.

As for the nine domains?

No one knew!

Chapter 3197 - 3197 Chapter 3,084, Suiren's bloodline

3197 Chapter 3,084, Suiren's bloodline

The only thing they knew was that Su Yu's emperor's new armor, which could block an attack from a ten thousand sage expert, had... disintegrated on the spot!

That's right!

It disintegrated into specks of dust and returned to its original state!

The extra power sent Su Yu flying!

He was only affected by the afterglow, but he had already caused such great damage. Then, what about Miss Song?

Wouldn't she be crushed into pieces by the light beam?

“Song Jiayi!” Su Yu called out her name in a panic.

Her eyes reflected the nine-colored light beam, and her back gradually disappeared.

She was dead?

Su Yu’s eyes were dull, unable to accept it.

Although she was unruly, proud, delicate, and full of faults, she had her own kindness, courage, and morals.

The target of the ninth domain was clearly not her, yet she could abandon Su Yu.

She clearly had no need to stay, yet she insisted on facing the ninth domain alone, giving Su Yu a chance to escape.

How many friends could a person have in his life that would make him die for him?

Moreover, this friendship did not last long.

The ninth domain shook its head indifferently. “Meaningless courage, meaningless death, meaningless sacrifice! Humans will always do many stupid things.”

However, at the next moment, the Cold Dragon Eyes of the ninth domain suddenly widened, and a trace of surprise spread in its eyes. “How is this possible?”

Su Yu also keenly sensed that there was a tenacious forest of life within the beam of light. Not only was it not destroyed, but it was getting stronger and stronger.

As he fixed his gaze, the beam of light actually continued to weaken before dissipating.

A beautiful line that had yet to mature, but was beginning to show the appearance of a young girl was faintly discernible.

“So, you know what my name is.” A familiar voice came from within the beam of light. It was surprisingly Miss Xiao Song.

The ninth domain and Su Yu were both shocked.

Miss Xiao song was unharmed under such an attack?

Swoosh —

The light beam was suddenly extinguished. As if it was swallowed by something, it disappeared without a trace, revealing the figure within!

That figure was indeed Miss Xiao Song.

All of her clothes were burned, but there was a layer of golden leather armor on her body.

The leather armor gave off a boundless aura, as if it had come from a very distant era.

Its aura was so strong that it could be traced back to the origin of ten thousand ice at the very least!

On the leather armor, there were several blood-red patterns drawn with blood.

The characters were ancient, as if they were characters. However, upon closer inspection, they seemed to be some primitive and crude pictures.

Seeing the leather armor, domain Nine's pupils constricted, and he cried out in shock, "Suiren's leather armor!"

It was rumored that Suiren was the first human to create fire after Pangu created the world, and some people called him the fire ancestor!

This leather armor was the beast suit Suiren had once worn!

Back then, Suiren had worn this beast suit and created the first Wisp of fire in the world that belonged to a human.

"Who are you? Why do you have Suiren's Relic?" The ninth realm asked in bewilderment.

Miss Song chuckled. "My surname is Song, and I am the descendant of the current six paths King!"

The ninth domain's pupils constricted, and he said in shock, "You are the descendant of the six paths emperor, the descendant of the Song King?"

"That's right!" Miss Song shook her leather armor and said, "You evil dragon, I've tolerated you for too long!"

The ninth domain's gaze fluctuated!

The six paths king was the strongest human in the six paths emperor realm, and he was the king of the human race that everyone had their eyes on.

There were rumors that the six paths man King had a noble bloodline. It was very likely that he came from an ancient human ancestor.

When the ninth domain saw Sui ren's leather armor, he was shocked.

He finally knew that the rumors were true!

The six paths man King did indeed have a noble bloodline, and it came from Sui ren, the terrifying fire ancestor!

"Little girl, we don't know each other, and I have no intention of killing you. Why Don't you leave and we won't interfere?"The ninth domain said.

Little song put her hands on her waist and snorted, "We won't interfere? Fine! If you let brother Su Yu go, I won't interfere with you!"

Domain nine shook his head and said, “How is that possible! Su Yu and I are destined to be together. Either i devour him or he devours me. There’s no choice between us.”

“Little girl, leave immediately. This is for your own good! Otherwise, don’t blame me for not showing mercy to Your Song Family!”

The ninth domain was very determined to devour Su Yu. It was definitely not a threat that little miss song could threaten.

Little Miss song straightened her chest. A faint flame was reflected on the leather armor.

The moment the flame appeared, it forced the ninth domain to retreat.

The latter stared at the flame reflected on the leather armor in fear and horror.

This flame reflected on the leather armor was the reflection left behind by Suireshi when he created the first wisp of flame of the human race. It existed forever in the leather armor.

...

Once it was released, it would probably be the most terrifying flame in the world.

At least it wouldn't be too difficult to burn its ninth domain!

"You really want to fight me to the end?" The ninth domain roared.

Miss Song wasn't afraid at all. She placed her palm on the flame on her chest. "Come on! Let's see who's afraid of who!"

The ninth domain was enraged. It narrowed its eyes and said, "Little girl, you're underestimating me too much! Do you really think that the reflection of the first wisp of flame in the world can do anything to me?"

It opened its mouth and spat out a rotten brush. The brush that was about to lose all its fur was suspended in mid-air.

The brush was simple and unadorned, similar to the boots on Su Yu's feet. However, there was a "Human" character on the brush's handle.

Little Song looked at it. She, who did not know much, actually turned pale and cried out in shock, "Human Emperor Brush?"

Human Emperor Brush was a term of respect for Sui Ren Shi.

The brush in front of her was a relic that Suireshi had used. It was called Human Emperor Brush!

“Where did you get the Human Emperor Brush? Our ancestors said that the human emperor brush was destroyed during a foreign invasion.” Miss Song stared at the human emperor brush in disbelief.

...

The ninth domain laughed, “It was damaged, but the absolute beginning Dao master picked it up and repaired it. Although it can’t be restored, it has recovered one-tenth of its power.”

“This power is more than enough to kill you!”

Then, a ruthless light flashed in the ninth domain’s eyes. It decisively took the initiative to attack first. It held the emperor brush in its mouth and drew a line in the air. “Empty!”

A huge empty word appeared and hovered in the sky.

Instantly, Su Yu suddenly sensed that the cultivation, domain, ancestral technique, and even the body refining technique that he had cultivated all his life had all disappeared!

Just like the “Empty”word in the sky, he had become empty from the inside out.

Miss Xiao song was also extremely solemn. At that moment, she did not have the time to care about her cultivation. She pinched the reflection of the flames on her chest with two fingers.

A cluster of weak flames the size of a pinky finger was not afraid of the “Empty”word. It went up against the sky!

Chapter 3198 - 3198 Chapter 3,085, ancient confrontation

3198 Chapter 3,085, ancient confrontation

Boom —

The seemingly small flames turned into huge flames in the blink of an eye, burning the endless sky!

The “Empty”word outlined in the ninth domain was also burned into ashes in an instant. Su Yu immediately felt that the power he had lost had returned.

Su Yu could not help but be secretly surprised. The so-called Emperor Brush was only one-ten-thousandth of the power of the original era.

What kind of terrifying thing was the emperor brush at its peak?

“Water!”The ninth domain was surrounded by numerous flames and retreated repeatedly with a grave expression. At the same time, the emperor brush outlined the word “Water”in the air.

As soon as this word appeared, a torrential downpour immediately fell from the sky!

The rain contained a deep chill as if it was drawn from an endless abyss.

Under the pouring rain, the endless flames immediately weakened a lot.

Taking advantage of this opportunity, the ninth domain drew the word “Vacuum”!

Instantly, the enormous flames in the sky sank into a vacuum. Under the vacuum, the enormous flames could not be burned and gradually extinguished.

Seeing this, Miss Song snorted coldly, stretched out her arms, and chanted an extremely obscure incantation.

When she chanted the incantation, Miss Song seemed to have changed into a completely different person. Her expression, gaze, and even her voice had become incredibly ancient.

Faintly, it seemed as if something was gathering from the ends of the world!

Su Yu used his soul eye to sweep through the world. He was shocked to realize that soul shards were actually gathering from different dimensions and condensing within the leather armor.

The flames that were faintly discernible within the leather armor became even more distinct.

In the sky, the flames that were about to be extinguished after being compressed by the vacuum immediately shone brightly and expanded tenfold, instantly burning the word "Vacuum."

The sudden fire spread to the ninth domain that was caught off guard, directly igniting its enormous dragon body.

"Ao!" The ninth domain could not help but let out a painful cry. The green light on its body shone brightly, causing its injured body to quickly recover.

This was the life ancestor technique!

At the same time, it used the time ancestor technique to reverse the flow of its body to the state it was in before it was injured.

This was the time ancestor technique!

The naked eye could see a rather strange scene. The injured ninth domain was covered in injuries, but in the blink of an eye, it recovered to its original state. Then, it was burned by the raging flames, turning into a bloody mess, and then instantly recovered.

This was the ninth domain using its own ancestor technique to fight against the flames.

This went on for hundreds of times. The ninth domain gritted its teeth and endured the extreme torture.

In theory, as long as it persisted, the ninth domain would die without a doubt.

This was because every time it was burned, a part of the body formed by the ninth domain would be roasted until it lost part.

This part was something that neither time reversal nor the ancestral art of life could recover.

He could endure it a hundred times, but after ten thousand times, even if the ninth domain did not die, it would return to its original form, and its body would be reduced to its initial bit of intelligence.

However, this was a theoretical situation.

The reality was that the ninth domain, an existence that had survived for countless eras, experienced the baptism of time, and devoured countless experts, and had an extremely strong body, could last ten thousand times.

However, Miss Song wasn't able to.

Her face gradually turned pale, and her thin and weak body began to tremble, especially her outstretched arms, which were constantly shaking.

Suiren's leather armor wasn't that easy to activate.

It had too high a requirement for the user, and with Miss Song's cultivation base, she wouldn't be able to last for long.

The ninth domain could also see that, apart from the pain, it let out a sinister laugh. “If the six paths human king personally wore Sui ren’s leather armor, I would probably have to run away.”

“But you’re just a little girl. You Can’t do anything to me!”The ninth domain said. “With your abilities, you won’t be able to summon many ancestral souls. This wisp of flame won’t last long!”

As if confirming the ninth domain’s words, the flame that was burning the ninth domain was actually weakening.

Miss song gritted her teeth and continued to recite the incomparably obscure incantation, trying to attract more soul fragments to fuse into the leather armor.

However, at the end, no more soul fragments poured in.

As a result, the flames became weaker.

Miss song found it harder and harder to hold on, and traces of pain began to appear on her face.

“Hahaha!”The ninth domain laughed sinisterly, and greed appeared in its eyes. “Little girl, you think you can stop me with Suireshi’s leather armor, right?”

“But you never thought that I would have a human emperor brush, right?”

Little song’s mouth was filled with bitterness. She really thought that she would win for sure. With Suireshi’s leather armor, burning the ninth domain to death would be a piece of cake.

Who knew that the other party actually possessed the legendary human emperor brush.

In such a confrontation, little song had miscalculated.

Puchi –

At this moment, the flames had already been extinguished to a very weak point. Only a few flames were still burning on the body of the ninth domain.

However, the damage caused by the flames could be easily resolved by the use of the life ancestor technique of the ninth domain.

The enormous body of the ninth domain shook and shook off all the flames on its body. Then, it grinned hideously as it picked up the emperor brush and drew a word in the air.

“Seize!”

As soon as this word appeared, Miss Song suddenly let out a miserable cry. The Sui ren leather armor on her body actually flew out of her body and flew away!

“No!” Miss Song hurriedly chased after her, but was swallowed by a flame of death from the ninth domain’s mouth!

...

Su Yu reacted quickly and quickly used his spatial domain to save Miss Song.

Just a little bit more and Miss Song would have been touched by the flame of death. With Miss Song’s cultivation, she would have died in an instant.

At the same time, the Sui ren Leather armor fell into the ninth domain’s hands.

Its eyes shone with greed as it laughed out loud. “The Emperor armor and the Emperor Brush have all fallen into my hands! I want to see who else in the world can be my enemy!”

With the two world-splitting treasures in his hands, there was no one in the world who could rival him other than the son of Heaven of the Sacred Mountain!

Then, his dragon eyes stared at Su Yu and he smiled sinisterly. “It’s time to accept your fate, right?”

Su Yu’s expression was gloomy and his eyes were filled with coldness, “I, Su Yu, have never accepted my fate!”

He had encountered many desperate situations in his life?

If he had accepted his fate before the desperate situation, how could he be like this now?

“Is that so?”The ninth domain’s expression was cold and dignified, “Since that’s the case, then you can become a part of me!”

As his voice fell, his dragon eyes spat out and two beams of nine-colored light intertwined together, enveloping Su Yu with a loud bang.

...

This time, Su Yu did not Dodge.

He placed his hands behind his back and remained calm in the air blast.

There was even a faint smile on his lips.

HMM?

The ninth domain narrowed its eyes. From the experience it had with Su Yu, this child's intelligence was close to that of a demon!

He actually did not resist at all?

There must be something wrong!

The ninth domain's eyes flashed and it immediately activated the fate ancestral technique to calculate the danger.

However, as soon as he activated it, the fate ancestral art stopped abruptly and stopped by itself!

The ninth realm was shocked!

There was only one possibility for such a situation!

Chapter 3199 - 3199 Chapter 3,086, the power of the crippled cauldron

3199 Chapter 3,086, the power of the crippled cauldron

Danger was approaching, and it was extremely dangerous!

The ninth domain was stunned for a moment. With Su Yu's strength, what kind of danger could he pose to him?

Especially since he had already grasped the emperor brush and Emperor armor.

However, he didn't have the time to think about it.

As someone with rich battle experience, he immediately used his spatial domain and teleported!

However, the feeling of extreme danger didn't weaken. Instead, it became stronger and stronger!

Its heart skipped a beat, and it really had a bad feeling.

“Eight ancestral techniques!” At the critical moment, the ninth domain used its eight ancestral techniques together.

The eight ancestral techniques revolved around him and formed eight trajectories. They were like stars surrounding the moon, forming trajectories.

Boom

However, the eight ancestral techniques' defense didn't produce the expected effect.

A peerless power swept over with unstoppable momentum!

The ninth domain used the eye of the soul to sweep behind him and was shocked to find that it was a simple and ancient small cauldron that was colliding fiercely.

In just an instant, countless trajectories were smashed into pieces on the spot!

The eight ancestral techniques were all smashed apart.

“Wha... what...”the ninth domain’s pupils contracted. “Cang... Sheng... ding...”

Bang —

A shockwave shook space and time, and the sound of an unprecedented collision resounded throughout the Emperor Tomb of the human world.

Even the outside world could hear the earth-shattering sound!

It was as if the collision wasn’t between two small cauldrons and a dragon, but between heaven and earth!

In the ninth domain, the enormous body formed by the ancestral technique was spinning rapidly. The small cauldron, which was burning hot all over, was smashed into two halves from the middle.

The two halves of the enormous body were sent flying countless distances! ! !

The small cauldron was like a sea-pacifying divine needle. It was still spinning calmly and did not show any unusual movements because of the collision.

The only unusual movement was Su Yu.

His body, which was standing with his hands behind his back, slowly fell to the ground.

At his abdomen, one could see a whirlpool emitting a weak light that was breaking apart.

Traces of residual energy flowed out of his body along with the weak light!

In the end, Su Yu still used the universal life crippled cauldron!

The price was that all of his energy had been exhausted. Now, he could not even say a word, let alone move!

However, the power of the useless cauldrons was indeed beyond imagination.

The ninth domain, which was as strong as the ninth domain, was directly broken into two pieces. This was the biggest injury the ninth domain had suffered so far.

The ancestral art on the ninth domain's body was rapidly fading, and the two parts of its body were rapidly shrinking.

The only regret was that he couldn't kill it in one strike.

"My life is over." Su Yu sighed in his heart.

If they could not kill the ninth domain, it would be the end of Su Yu and Miss Xiao Song.

They would not be able to fight against the ninth domain anymore!

As expected!

The ninth domain, which had been seriously injured and split into two, was sent flying. The two parts of its body were like magnets that attracted each other, and the dragon became one again.

Even though they could still see the shocking scars on its body after it had gathered together.

Moreover, the body of the ninth domain was not as bright as it used to be. It had become much dimmer.

Even its pair of dragon eyes were filled with a deep weakness.

The extremely powerful and fierce aura emitted from its body had also weakened by a lot.

However, it was not dead yet. Moreover, it had gathered its body together again.

Supporting its heavily injured body, the ninth domain was filled with weakness and monstrous anger as it slowly crawled towards Su Yu. "You really deserve to die!"

With a furious roar, the ninth domain turned into a nine-colored light and enveloped Su Yu with a loud bang, wanting to completely assimilate him into a part of his body.

In the distance, Miss Xiao song only had time to scream in fear, but she couldn't stop it at all.

Or rather, she couldn't even protect herself.

After Su Yu, it was her turn.

Right at this moment! !

A lion that was burning with intense flames rushed over from afar, shouting, “Damn it! He’s dead, how am I going to answer to him?”

Boom —

The Flames rushed into the sky and snatched Su Yu away before the ninth domain could reach him.

Bang —

The nine-colored light from the ninth domain hit nothing but air.

...

The flaming body turned around and immediately changed its direction after snatching Su Yu away. It also snatched away Miss Xiao Song who was not far away.

Miss Xiao song recognized it and said in surprise, “Fire Lion? You’re back too?”

She really did not expect this cowardly lion to rush back.

The fire lion shouted, “What are you talking about? Grab my master and let’s Run! This fierce insect is very powerful.”

Miss song immediately grabbed Su Yu tightly. Suddenly, she saw the emperor brush, Emperor armor, and the useless cauldrons floating not far away. She quickly said, “And those three things, take them with you!”

As it turned out, the ninth domain had suffered a fierce attack from the useless cauldrons. The two era treasures in its hands had all been shaken off.

The fire lion opened its mouth and spat out a fire serpent. It swept the three items over and swallowed them.

The ninth domain discovered it and roared, “Put down my things! ! !”

The fire lion's hair stood on end. It spread its limbs and ran frantically!

The fire lion's speed was still the same, but the ninth domain was hit by the Useless Cauldrons. Its speed was not as fast as before. It was not much faster than the fire lion. In fact, it was even slower.

The two chased each other. In just an hour, the fire lion had shaken off the ninth domain!

...

Not long after, they arrived at the place where they had first arrived at the tomb of the sinkhole Emperor Lord. A teleportation array was waiting for them in perfect condition.

Without thinking, the fire lion jumped onto it.

Su Yu's eyes were shaking violently. He wanted to speak, but he could not make any sound.

Miss Song, who was taking care of Su Yu, realized that something was wrong. She quickly said, "What does brother Su Yu want to say?"

The fire lion was stunned. He turned his head to look at Su Yu on his back. Seeing that his eyes were shaking, the fire lion thought for a moment and said, “Young Master, Are You Warning Me?”

However, Su Yu closed his eyes, indicating that he was right.

The fire lion’s expression suddenly changed.

It had followed Su Yu for a period of time and knew Su Yu very well.

Since he was warning him, he must have sensed something unusual.

Suddenly, the fire lion realized something. It looked at the teleportation array under its feet and immediately jumped out the moment it was activated.

The moment it jumped out, the teleportation array was activated. The space energy that should have been used to teleport suddenly became compressed space.

The air and dust around the teleportation array were instantly compressed into nothingness.

The fire lion broke out in cold sweat when he saw this. Then, he looked around fiercely. “Which B * stard, come out!”

The surroundings were silent. There was no sound.

Miss Song’s face was livid. She said, “Lead the way to mortal city! Come out for this lady!”

Others might not know, but miss song could tell who did this.

In the world, there are not many people who can change the attribute of power, one of them is the city of Yin fan.

The power of space that was supposed to be transferred had become the power of compressed space!

The only one who could do this was the mortal attraction city!

The surroundings were still quiet. Miss Song snorted and took out two leaves. She stuck them into her eyes and quickly took them off.

Her eyes immediately turned emerald green, emitting an astonishing emerald light.

Under his jade-green gaze, the world in front of his eyes changed.

Many things appeared hazy colors, including Su Yu and the fire lion. Dark-red light appeared on their bodies.

Not far from them, behind a huge rock, there was a dark-red human figure that was continuously glowing.

However, under the naked eye, there was nothing behind the rock.

This pair of leaves was a special dao artifact that could see through most disguises, including high-level dao artifacts like the Emperor's new equipment. There was nothing that could hide under this dao artifact.

Miss Xiao Song sneered, "Despicable!"

She raised her hand and threw a bottle of heavy nine yin water over. All of it poured down and fell behind the rock.

Hidden in the dark, Yin fan city, which thought that no one noticed, immediately rolled out and left. The deep ground was crushed into a huge pit.

Before Yin fan city could let out a sigh of relief, another bottle of nine yin heavy water fell.

Yin fan city hurriedly dodged!

But just as he dodged, another bottle of nine yin heavy water came..

After a few times, Yin fan city knew that his concealment had been seen through. He simply pulled off his invisibility dao artifact and stared coldly at Miss Song.

“Continue to hide!” Miss Song’s eyes were filled with murderous intent. “You dare to Plot Against Me? I think you’re tired of living!”

Within the six paths heavenly son realm, the song family was one of the top super families. Only a few powerful forces from other families could be compared to the song family.

Yin fan city was also a human race, and its family also had a myriad sage level ancestor overseeing it.

However, in terms of strength, its ancestor could not be compared to the human king level song family ancestor!

Yin fan city actually plotted against Miss Song and almost killed her. If this news were to spread, the family of Yin fan city would probably suffer the wrath of the song family.

Miss Song's status in the song family was extraordinary. If someone harbored evil intentions towards her, the song family would not forgive them.

Yin fan city's gaze fluctuated as he said, "This has nothing to do with you. I want to deal with that Kid!"

He pointed at Su Yu who could not move!

Because of Su Yu and miss song, his plan to occupy Xia Jingyu was completely ruined.

He did not dare to offend Miss Xiao song, but Su Yu, a small fry with no background, was definitely worth it!

Miss Xiao song chuckled coldly. “Stop pretending! You’re clearly here for me! A small fry with no background is worth waiting in the sinkhole imperial tomb for a whole year?”

They cultivated in the Dao preaching hall for an entire year. During that time, the sinkhole imperial tomb was extremely unstable.

It was either the appearance of the ten thousand saint behemoths or the forceful intrusion of the ninth domain. In the end, the entire sinkhole imperial tomb collapsed because of Su Yu wearing the boots.

With such a noble status in mortal allure city, was there a need to risk waiting in the sinkhole imperial tomb for a nameless junior?

Obviously not!

The reason he stayed was clearly to get rid of miss song!

Only by getting rid of miss song in the sinkhole imperial tomb would there be no worries.

The outside world had no idea what was going on inside. Yin fan city could use all their strength to kill Miss Song and then say that there were countless dangers in this place.

The Myriad Saint Beast, the ninth domain, and even the collapse of this place were all the best excuses.

Even if the Song family suspected Yin Fan City, there was no way to prove it!

Su Yu was surprised when he heard that. He had always thought that Miss Song was a silly little fool. He did not expect that she would involve the grudges between families. She was very clear-headed and did not need him to remind her at all.

The moment Fan City appeared, Su Yu knew that he was here for Miss Song.

Only she was worthy of attracting the attention of Fan City.

Yin Fan City's expression changed, and a sinister look appeared on his face. "Since you know everything, then I can't let you go back."

He waved his hand, and a strange circular Dao artifact filled with gears appeared in his hand.

When Miss Song saw it, her expression changed. "Yin-yang blood wheel! It seems that Yin family has long been prepared to get rid of me."

Yin-yang blood wheel was Yin family's inheritance dao artifact, and its power was earth-shattering. Although it was not as powerful as the Sui-eren's leather armor of the Song family, Yin-yang blood wheel was ranked first among the later Dao artifacts.

The fire lion also felt the terror of Yin-yang blood wheel, and it could not help but look solemn. "Damn it! We just came out of the Wolf's den, and now we're in the Tiger's Den! Why are all these monsters here?"

Miss Song was extremely solemn. "Give me the leather armor."

The fire lion quickly spat it out. Miss Song did not feel any sense of security after putting it on.

If she had not encountered the ninth domain, she would have been very confident that she could use this leather armor to burn the mortal attraction city to ashes.

However, now that she had expended a lot of energy, she might not be able to unleash some of the power of the leather armor.

In addition, the strength of Yin Fan City was much higher than hers. In the end, it would be Miss Song who would lose the battle.

However, Miss Song had no other choice.

She had no other choice but to fight.

Yin fan city looked at the leather armor with deep fear and greed in his eyes.

He knew that the song family had a leather armor from their ancestors that was extremely powerful. Even the ancestor had repeatedly warned her not to hesitate and to immediately give up the mission if miss song brought it with her.

Therefore, Yin family city was caught in a huge struggle.

...

Should they kill her or not?

If they did, the ancestor's warning was right in front of them. If they didn't kill her, the Sui ren leather armor would be right in front of them.

If they obtained the leather armor, the Yin family's ancestor's strength would definitely increase greatly. He might be able to defeat the song family's human king and become the new six paths human king.

Just as he was hesitating, miss song said, “Yin family city! If you don’t want to die, then get lost!”

As soon as she said this, Su Yu felt that things were bad. The other party was clearly hesitating whether they should continue fighting to the death. At this moment, they should have used the suiren leather armor without a word to scare him away.

However, Miss song was still inexperienced in battle. She did not seize the opportunity and instead revealed her weakness.

HMM?

The face of the originally wavering lead the way to mortal city changed subtly.

Based on his understanding of Miss Xiao song, this young lady’s temper had flared up. She had attacked without a second word, so why would she say anything unnecessary?

She clearly had the most powerful leather armor, but she did not attack. Instead, she “Advised”him to leave.

The subtle difference in this made yin fan city realize something. He said with a faint smile, "Let me guess! Our Miss Song should have used the leather armor with her previous combat strength, so she is unable to continue using it, right?"

...

Miss Song felt guilty and her face tensed up. "Then you should try!"
