

Doctor 2611

Chapter 2611: Bluewater Immortal City · Carefree Immortal Emperor

After leaving the Secret Realm, Fang Bai, while searching for Emperor's Palace Disciples and Immortals from the Lower Realm, was also inquiring about the recent upheavals in the Immortal Realm.

The Heaven Devouring Art of a Demon Clan Emperor had once stirred up tempests in all directions, plunging the Immortal Realm into turmoil.

Because they cultivated the Heaven Devouring Art, Golden Crow Immortal Emperor and Flying Swan Immortal Emperor, these two top-tier Immortal Emperors of the Immortal Realm, became the public enemies of the Immortal Realm. The Sects they had personally founded—one was annihilated, the other dissolved—ending in miserable ruin.

Now, Golden Crow Immortal Emperor and Flying Swan Immortal Emperor, hunted by the other six top-tier Immortal Emperors, had both vanished without a trace.

Dragon Taming Emperor and the other six top-tier Immortal Emperors of the Immortal Realm offered huge bounties and issued kill orders against the Disciples of Golden Crow Palace and Flying Swan Peak, just as they had treated Emperor's Palace Disciples over the past thousand years.

Previously, the eight top-tier powers of the Immortal Realm had joined forces to hunt down Emperor's Palace Disciples, subjecting the surviving Emperor's Palace Disciples to immense pressure.

But now, of the eight top-tier powers, only six remained, and these six also had to divert their attention to dealing with the "remnants" of the three Sects: Emperor's Palace, Golden Crow Palace, and Flying Swan Peak.

In this way, the pressure borne by those surviving Emperor's Palace Disciples was greatly reduced.

Thus, some Emperor's Palace Disciples who could not forget their hatred for Emperor's Palace, as well as those Immortal Realm forces loyal to Emperor's Palace, once again became active and launched attacks on the interests of the six top-tier Immortal Emperors.

Back when Emperor's Palace was destroyed, although most of its one hundred thousand Disciples perished, some of the remaining minority of Emperor's Palace Disciples maintained contact, regrouped, and their strength was not to be underestimated.

What caused the six top-tier powers the greatest headache was that a portion of the Emperor's Palace Disciples, when facing their pursuit, would break into pieces, disperse and hide, making it impossible for them to track any trail.

Yet once their pursuit operations ended, those Emperor's Palace Disciples would gather again, join forces, and, taking advantage of their lax defenses, deliver a thunderous strike.

In this repeated fashion, the six top-tier powers lost quite a number of Disciples and also suffered heavy losses in Cultivation Resources.

The six top-tier Immortal Emperors, harried to the point of having no peace, were thus furious yet utterly helpless.

After Fang Bai heard of these matters, he could not help but burst into laughter, his chest filled with exhilaration.

"Lately, the place where Emperor's Palace Disciples have been most active is Bluewater Immortal City. I hope I can find their tracks there."

Along the way, as Fang Bai probed for news regarding Emperor's Palace Disciples, he learned that some Emperor's Palace Disciples had frequently appeared there, and so decided to head to Bluewater Immortal City to take a look.

Bluewater Immortal City was built by relying on an Immortal Mountain stretching a hundred thousand miles in radius. Nestled between mountains and waters, its scenery was magnificent, Auspicious Clouds coiled about, Immortal Beasts concealed themselves within, and Immortal Qi was dense. It was a veritable paradise within the Immortal Realm.

Immortal Residences of all kinds—some built atop mountain peaks, some standing by the water's edge, some hidden within valleys, some concealed amidst dense forests...

The Immortals residing within Bluewater Immortal City numbered only a million, yet each possessed extraordinary strength.

It was said that among these one million Immortals, nearly half were Immortal Emperor Realm Experts, and any Immortal whose Cultivation Level was below Fifth Grade Immortal King Realm had no qualification to reside here at all.

The master of Bluewater Immortal City was rumored to be an Immortal Emperor. This Immortal Emperor had attained the Dao as a Loose Cultivator, did not heed the command of any power or expert in the Immortal Realm, loved to roam the Immortal Realm, carefree and at leisure; hence his honorific title, "Carefree Immortal Emperor."

Although Carefree Immortal Emperor was not as renowned in the Immortal Realm as the eight top-tier Immortal Emperors and his strength was slightly inferior, he enjoyed excellent Immortal fate, had many Immortal friends, and, being an Array Master proficient in the Array Path, even the eight top-tier Immortal Emperors would give him some deference and would not easily offend him.

Bluewater Immortal City was famous because Carefree Immortal Emperor had expended a vast amount of Immortal Stones to set up four gigantic Immortal Arrays around the city in the four directions, drawing Immortal Qi from all sides into the city. As a result, the entire city was filled with dense Immortal Qi that lingered without dispersing, greatly benefiting the Cultivation of Immortals and thus attracting large numbers of Immortals to live there.

Most importantly, to be neighbors with an Immortal Emperor was an immense opportunity. Some Immortal Kings or Immortal Emperors within the Immortal Realm naturally flocked to it like ducks to water.

The eight top-tier Immortal Emperors had never been particularly fond of this Carefree Immortal Emperor; it could even be said they harbored hostility toward him.

For this Carefree Immortal Emperor, though he had no particular ties with the former Emperor's Palace and no real friendship with the Emperor's Palace Master, after Emperor's Palace was destroyed, repeatedly spoke out, expressing his disdain for the eight top-tier Immortal Emperors' joint assault on the Emperor's Palace Master, and even stirred up a wave of public censure against the eight top-tier Immortal Emperors, which secretly infuriated them.

Back then, the eight top-tier Immortal Emperors even plotted how to "teach Carefree Immortal Emperor a lesson" so that he would quiet down. Fortunately, for some reason, Carefree Immortal Emperor later became somewhat more low-key, and the eight top-tier Immortal Emperors abandoned their plan to move against him.

In recent years, rumors spread that some Emperor's Palace Disciples were hiding within Bluewater Immortal City. Because of this, the eight top-tier powers wanted to enter Bluewater Immortal City to investigate, yet were blocked repeatedly by Carefree Immortal Emperor.

Had the eight top-tier Immortal Emperors not been so exhausted by the Heaven Devouring Art affair and unable to spare attention elsewhere, they might well have already raised an army to demand justice from Carefree Immortal Emperor.

In his previous life, Fang Bai had once met Carefree Immortal Emperor. Although their acquaintance was shallow, they appreciated each other, and Fang Bai knew that Carefree Immortal Emperor was extremely upright, intolerant of the slightest speck of sand in his eyes, and harbored a proud spirit in his chest.

After Emperor's Palace was destroyed, his inability to tolerate the deeds of the eight top-tier Immortal Emperors and speaking up for Emperor's Palace was entirely possible.

But to say that he would risk tearing his face with the eight top-tier Immortal Emperors to shelter Emperor's Palace Disciples—that, Fang Bai found somewhat difficult to understand.

Recently, some Immortals claimed to have discovered traces of Emperor's Palace Disciples active near Bluewater Immortal City, causing a great stir. Powerful subordinates under the eight top-tier Immortal Emperors had also secretly entered Bluewater Immortal City, attempting to find traces of Emperor's Palace Disciples, but in the end found nothing and had to give up.

In his previous life, Fang Bai already knew that to enter Bluewater Immortal City one had to satisfy two basic conditions.

First, one's Cultivation Level had to reach at least Fifth Grade Immortal King Realm, and one must have no notorious misdeeds in the Immortal Realm.

Second, at least three Immortals who had resided in Bluewater Immortal City for over a hundred years had to vouch for you.

However, when Fang Bai arrived near Bluewater Immortal City, he learned that in this past millennium, yet another condition had been added for entering the city: one must have no connection whatsoever with the eight top-tier powers of the Immortal Realm.

From this, it could be seen just how much Carefree Immortal Emperor loathed the eight top-tier powers.

The first condition was manageable, but the second would require a bit of effort, though it was not enough to stump Fang Bai.

Fang Bai lingered outside Bluewater Immortal City for a time, and to his delight, he discovered in some hidden regions beyond the city certain unique secret contact signals left behind by Emperor's Palace Disciples.

This was sufficient proof that Emperor's Palace Disciples had appeared in the vicinity.

Suppressing his excitement, Fang Bai patiently waited outside Bluewater Immortal City to see whether any Immortals from Bluewater Immortal City would come out.

Chapter 2612: Entering the City

Before long, five Immortals flew out from Bluewater Immortal City.

These five Immortals, three men and two women, were all fairly young in immortal age; the strongest among them was at early-stage Immortal Emperor Realm, while the other four were all at Immortal King Realm.

From the conversation of these five Immortals, Fang Bai learned that they were heading out to hunt Immortal Birds and Immortal Beasts and pick Immortal Elixirs, then bring them back to Bluewater Immortal City to exchange at the Cultivation Resource Exchange Market for Immortal Pills needed for advancement.

"Whether I can smoothly enter Bluewater Immortal City falls on them now."

Fang Bai hid his aura, followed behind the five Immortals, and flew toward a vast dense forest tens of thousands of miles away.

The five Immortals arrived at their destination three days later and entered the forest shoulder to shoulder.

The Immortal Birds and Immortal Beasts in this forest were generally not very aggressive. After the five Immortals went in, they didn't encounter much danger, so Fang Bai had no chance to step in and help.

Helpless, Fang Bai could only secretly control some Immortal Birds and Immortal Beasts and launch attacks against the five Immortals.

Those Immortal Birds and Immortal Beasts charged forward one after another, as if crazed, continually attacking the five Immortals. The five's immortal power was rapidly consumed, and before long they were in a precarious situation.

When the five Immortals were about to die in the maws of Immortal Birds and Immortal Beasts, Fang Bai appeared to help and saved their lives.

The five rescued Immortals were endlessly grateful to Fang Bai.

When they learned Fang Bai was a Loose Cultivator, wandering the Immortal Realm with no fixed abode and currently looking for a stable place to live, the five Immortals eagerly volunteered, promising to vouch for Fang Bai and bring him into Bluewater Immortal City.

"So the five of you Immortal Friends are from Bluewater Immortal City... I've heard that it's controlled by Carefree Immortal Emperor, a Cultivation Holy Land. If I could live there, that would be quite good... In that case, I'll be troubling you Immortal Friends."

Fang Bai put on a grateful expression and cupped his fists in thanks.

"Immortal Friend Wushuang has a life-saving grace toward us. We have no way to repay you; bringing you into Bluewater Immortal City is only right!"

One Female Immortal said with a bright smile.

This Female Immortal, with the title "Fengyu Immortal Fairy," was the only Immortal Emperor Realm Expert among the five and the strongest in strength, so the other four Immortals all took her lead.

It was also she who first proposed bringing Fang Bai into Bluewater Immortal City.

In fact, the reason Fengyu Immortal Fairy was willing to bring Fang Bai into Bluewater Immortal City had a bit of personal agenda in it.

The five Immortals led by Fengyu Immortal Fairy were not strong overall and were often bullied in Bluewater Immortal City. Fang Bai, however, possessed mid-stage Immortal Emperor Realm cultivation. If he could join their group, it would undoubtedly greatly boost their overall strength, and they would have much more confidence walking around the city.

Inside Bluewater Immortal City, just like in other parts of the Immortal Realm, the law of the jungle also existed. Thus, unless an Immortal was very powerful and had the ability to protect themselves, they would choose not to live alone. The vast majority of Immortals would form cliques and huddle together for warmth, jointly defending their own interests.

And although this Wushuang Immortal Emperor was a mid-stage Immortal Emperor Realm expert and had some self-preservation ability, in a Bluewater Immortal City packed with experts, he still couldn't be sure he wouldn't be bullied. If she pulled him into their group herself, he shouldn't refuse.

"Immortal Friend Wushuang, you don't have any entanglements... with the eight top-tier forces of the Immortal Realm, do you?"

Fengyu Immortal Fairy casually asked.

Fang Bai pretended not to understand and said, "What do you mean?"

Fengyu Immortal Fairy gave a somewhat embarrassed smile and said, "It's nothing... It's just that Bluewater Immortal City has a rule..."

She told Fang Bai about the rule that Immortals who were on good terms with the eight top-tier forces were not allowed into Bluewater Immortal City. Fang Bai smiled and said, "As it happens, I have some enmity with those eight top-tier forces..."

Fengyu Immortal Fairy said, "Really?"

She paused, then gave a bitter smile and said, "Immortal Friend Wushuang, I'm not trying to nag... but this is something that can't be concealed. If Carefree Immortal Emperor discovers it in the future, the consequences will be disastrous!"

Another Immortal nodded in deep agreement and said, "Previously, a few Immortals were brought into Bluewater Immortal City, but it turned out Carefree Immortal Emperor discovered they had deep past ties with the eight top-tier forces. In a rage, Carefree Immortal Emperor struck, crippled their Qi Sea, and threw them out of Bluewater Immortal City. Their end was miserable..."

When he said this, he seemed to recall the events of those years, and fear flashed across his face.

"Not only that, the Immortals who brought them into the city were also implicated. All their Cultivation Resources were confiscated by Carefree Immortal Emperor, and they were driven out of Bluewater Immortal City, never allowed to enter again in this lifetime."

Yet another Immortal chimed in.

Fang Bai waved his hand and said, "Don't worry. I, Wushuang Immortal Emperor, have conducted myself upright and aboveboard all my life. If there is any concealment, may the heavens strike me with lightning!"

That counted as a heavy oath, and the five Immortals including Fengyu Immortal Fairy completely set their minds at ease.

Next, with Fang Bai's assistance, the six Immortals hunted quite a number of Immortal Birds and Immortal Beasts in the forest and picked many Immortal Elixirs.

"This haul is many times that of the past... Haha, Immortal Friend Wushuang, it's all thanks to you!"

Fengyu Immortal Fairy said happily.

The other four Immortals were also overjoyed and couldn't stop praising Fang Bai.

They had just encountered an Immortal Beast comparable to the Immortal Emperor Realm. That Immortal Beast was ferocious and violent, with extremely powerful attacks. Without Fang Bai's intervention, they simply couldn't have killed it.

And Fang Bai also seemed to possess a keen sense for Immortal Elixirs, frequently discovering ones with very long immortal ages and then leading the five Immortals over to pick them.

In just one day, the Space Immortal Rings of Fengyu Immortal Fairy and the others were already crammed full of Immortal Bird and Immortal Beast corpses and all kinds of Immortal Elixirs, and only then did they contentedly return to Bluewater Immortal City.

With Fengyu Immortal Fairy and the others leading the way, Fang Bai entered Bluewater Immortal City with ease.

And the first thing to do upon entering Bluewater Immortal City was to go to the Immortal Hall where Carefree Immortal Emperor resided to register.

Of course, for a trivial and tedious matter like registration, Carefree Immortal Emperor would not personally appear.

The one responsible for this was a Disciple under Carefree Immortal Emperor's command, who had mid-stage Immortal Emperor Realm cultivation, on par with Fang Bai, but whose immortal age exceeded a thousand years.

That Immortal questioned Fang Bai for a while, then had Fang Bai write down his title and background and promise that he had no dealings with the eight top-tier Immortal Emperors. He then had Fengyu Immortal Fairy and the other four Immortals vouch for him, and the matter was done.

And Fang Bai was thus officially considered a member of Bluewater Immortal City.

In fact, with Fang Bai's current cultivation level, he was capable of sneaking into Bluewater Immortal City and didn't have to go through such trouble at all.

But out of respect for Carefree Immortal Emperor, Fang Bai still followed the rules set by him.

"Come, come, Immortal Friend Wushuang, let's go sit at our Immortal Residence!"

Fengyu Immortal Fairy shot a look at the three male Immortals, and the three immediately crowded around Fang Bai enthusiastically, escorting him toward an Immortal Residence in the city.

How could Fang Bai fail to see through their intentions? He knew they wanted to pull him into their group and were afraid he would slip away, so they were being so warm; he couldn't help but find it amusing.

Because Fengyu Immortal Fairy and the others weren't very strong, their Immortal Residence was also rather remote and, within the entire Bluewater Immortal City, belonged to the "slums."

Chapter 2613: Joining

"The Immortal Residence is rather shabby, Immortal Friend Wushuang, please don't mind."

After leading Fang Bai into the Immortal Residence, Fengyu Immortal Fairy looked a little embarrassed.

The Immortal Residences of Bluewater Immortal City are divided into several tiers, among which, naturally, that of the Carefree Immortal Emperor is the most magnificent and luxurious, in the best location, with the densest Immortal Qi.

Below the Carefree Immortal Emperor are, in order, the Immortal Residences of Immortal Emperor Realm Peak Experts, High Rank Immortal Emperor Realm Experts, Mid Rank Immortal Emperor Realm Experts, and Initial Rank Immortal Emperor Realm Experts. Their level of luxury, location, and density of Immortal Qi all decrease step by step along with the lowering of realm and Cultivation Level.

Immortals living in Bluewater Immortal City must pay a sum of rent every year, and the rent can be paid in any Cultivation Resources.

Of course, different levels of Immortal Residences require different amounts of rent. For example, this Immortal Residence of Fengyu Immortal Fairy and the other four Immortals is relatively simple, in a remote location, and very small in area, so it is naturally very cheap.

Originally, with Fengyu Immortal Fairy's realm and Cultivation Level, she was fully qualified to live in a much better Immortal Residence, but in the end she still chose to live together with her four companions, sharing weal and woe.

Precisely because of this, though their team is small, its cohesion is very strong.

"Mm, compared with other Immortal Residences, this place is indeed a bit simple..."

Fang Bai said with a cheerful smile.

On his way here, he had seen many magnificent and luxurious Immortal Residences among the mountains and waters on both sides, and compared with this place, they were superior in every aspect by an unknown number of times.

Especially those Immortal Residences of Immortal Emperor Realm Experts, inside and out they were all inscribed with Gathering Immortals Arrays, making the Immortal Qi doubly abundant.

Although Fang Bai's former life had little interaction with the Carefree Immortal Emperor, at a glance at those Gathering Immortals Arrays in and around the Immortal Residences, he knew they were the work of the Carefree Immortal Emperor.

The Carefree Immortal Emperor is a singular Immortal Emperor in the Immortal Realm. Although he does not form factions nor ally with other Immortal forces, the million Immortals in this Bluewater Immortal City hold him in high esteem; as long as he raises his arm and calls, countless Immortals will respond.

And this is precisely what the eight top-tier forces have always feared about him.

"It is a bit simple now, but as long as we work together with one heart, everything will get better and better."

When Fengyu Immortal Fairy said "we", she glanced at Fang Bai. Seeing that he had no particular reaction, she couldn't help but rejoice inwardly, feeling that there was hope of pulling him into their group.

"I heard that the Carefree Immortal Emperor became hostile to the eight top-tier Immortal Emperors because he sheltered Disciples of the Emperor's Palace. Is this true?"

As Fang Bai walked a circle around the Immortal Residence where Fengyu Immortal Fairy and the other four Immortals lived, he casually asked.

Fengyu Immortal Fairy shook her head and said, "Whether the Carefree Immortal Emperor sheltered Disciples of the Emperor's Palace or not, I'm not sure. But back then, when the Emperor's Palace was destroyed by the joint hands of the eight top-tier forces, the Carefree Immortal Emperor did indeed speak out for the Emperor's Palace! It is probably because of this that the Carefree Immortal Emperor refuses to allow Immortals related to the eight top-tier forces to reside in Bluewater Immortal City!"

Fang Bai nodded. Considering the personality, temperament, and style of conduct of the Carefree Immortal Emperor, it was indeed quite possible that he would provide shelter for Disciples of the Emperor's Palace. If that were really the case, he might be able to find some free time to meet him once.

With the Carefree Immortal Emperor's strength and connections, even if he were unwilling to intervene in Fang Bai's grievance with the eight top-tier Immortal Emperors, if in the future, on the day the Emperor's Palace was rebuilt, he could wave a flag and shout for the Emperor's Palace, that would already be a good thing.

It was just that the Carefree Immortal Emperor was like a Divine Dragon whose head is seen but not its tail; seeing him even once would not be easy.

So Fang Bai decided to stay temporarily in Bluewater Immortal City, then cater to the preferences of the Carefree Immortal Emperor, make a name for himself under the identity of an Array Master, and by that time, the Carefree Immortal Emperor, who is obsessed with the Array Path, might take the initiative to invite him.

Of course, Fang Bai's current Cultivation Level is too low, insufficient to protect himself before an Immortal Emperor, so he decided that when facing the Carefree Immortal Emperor, he would not reveal his true identity for the time being, and at most meet him in the name of a Disciple of the Emperor's Palace.

"Immortal Friend Wushuang, you have a grudge with the eight top-tier forces, and the Carefree Immortal Emperor also greatly loathes the eight top-tier forces. This is a good thing for you. In the future you can reside in Bluewater Immortal City long-term; with the Carefree Immortal Emperor's protection, the eight top-tier forces will be powerless against you!"

Fengyu Immortal Fairy said with a smile.

Fang Bai nodded and said, "That is exactly my intention."

Fengyu Immortal Fairy was overjoyed. She quickly exchanged a glance with her four companions and said, "We feel as if we've known Immortal Friend Wushuang at first sight. If Immortal Friend Wushuang does not mind how simple this place is, we can rearrange the Immortal Residence and give the largest space to Immortal Friend Wushuang to live in... What does Immortal Friend Wushuang think?"

Having spoken, her gaze fixed on Fang Bai's face, full of expectation.

The other four Immortals were the same.

Fang Bai's staying or leaving concerned whether their small team's overall strength could rapidly grow, so they hoped to see Fang Bai nod rather than shake his head or decline, or they would be greatly disappointed.

However, they also knew in their hearts that an Immortal Emperor Realm Expert like Fang Bai should have quite a few Cultivation Resources on him and could easily find a comfortable Immortal Residence elsewhere, with no need at all to squeeze into this shabby little Immortal Residence with the five of them.

So the hearts of the five, including Fengyu Immortal Fairy, were all hanging high, their expressions revealing a hint of nervousness.

Under the gazes of Fengyu Immortal Fairy and the other four Immortals, Fang Bai slowly shook his head.

The hearts of Fengyu Immortal Fairy and the other four Immortals sank. They were just about to say something when they heard Fang Bai say, "This Immortal Residence is not only shabby, it's far too small. With you five plus me, that's six Immortals—how could it possibly be enough? Come, I'll take you to change to a more suitable Immortal Residence!"

With that, he turned around and strode out of the Immortal Residence.

Fengyu Immortal Fairy and the other four Immortals looked at each other. Only after several breaths did they react. Recalling Fang Bai's words just now, they couldn't help showing wild joy on their faces.

"Does this mean Immortal Friend Wushuang... has agreed to join us?"

Fengyu Immortal Fairy murmured.

"Haha... yes!"

"That's great!"

"With a Mid Rank Immortal Emperor Realm Expert added to our team, from now on in Bluewater Immortal City we'll count as having escaped the bottom rung and can finally hold our heads high!"

"Go, go, go, hurry and catch up with Immortal Friend Wushuang!"

...

Fengyu Immortal Fairy and the other four Immortals spoke as they rushed out of the Immortal Residence, catching up to Fang Bai.

"Where are the best Immortal Residences in this Bluewater Immortal City?"

After walking for a while, Fang Bai turned his head and asked.

Fengyu Immortal Fairy pointed to the Carefree Palace where the Carefree Immortal Emperor resided and said, "The central area of the city where the Carefree Palace stands is naturally the best."

Fang Bai said, "Then let's find an Immortal Residence near the Carefree Palace."

Fengyu Immortal Fairy smiled wryly and said, "The Immortal Residences near the Carefree Palace are indeed good, but first, the rent is too expensive—even ordinary Immortal Emperor Realm Experts can't afford it; second, there is an unwritten rule in Bluewater Immortal City that only Immortals whose realm and Cultivation Level have reached High Rank or Peak of the Immortal Emperor Realm are qualified to live in that area. So..."

Fang Bai said, "Let's go and take a look first!"

Fengyu Immortal Fairy and the other four Immortals were exceedingly unwilling to go near the Carefree Palace, worried that they would be mocked or even driven away by the Immortal Emperor Realm Experts there, but since Fang Bai insisted on going, they could only steel themselves and follow along.

Chapter 2614: Immortal Residence Rent

The Carefree Palace, where the Carefree Immortal Emperor resides, majestically occupies the summit of a magnificent mountain at the center of Bluewater Immortal City, exquisite and luxurious, majestic and imposing.

At the top of the mountain, there is a gigantic Gathering Immortals Array, visibly permeated by Immortal Qi, which is extremely dense.

Above the Carefree Palace in the air, four high rank Golden Crowned Immortal Cranes at the Immortal Emperor Realm are guarding.

While at the foot of the mountain, four high rank Green Fur Golden Eyed Lions at the Immortal Emperor Realm are guarding.

The sky and earth are guarded by a total of four Immortal Birds and Immortal Beasts protecting the Carefree Palace; if an Array Master saw them, they would know it forms a wondrous Offensive and Defensive Great Formation.

With these four Immortal Birds and Beasts guarding, unless the Immortal Emperor personally comes, no Immortal can get close to the Carefree Palace.

Within a hundred Baili around the Carefree Palace, no Immortal is allowed to approach, or they will be attacked by the four Immortal Birds and Beasts.

Fang Bai and other Immortals, when they were still three hundred Baili away from the Carefree Palace, stopped their steps, unable to advance further.

Because the area they were in was already the residence of many high rank and peak experts at the Immortal Emperor Realm.

Those experts residing here, upon sensing lower rank Immortals entering their area, felt as if their territory was intruded by weak outsiders, filled with indignation and disdain.

Thus some Immortals released their aura to warn Fang Bai and others, making them retreat in difficulty.

Fang Bai himself could still bear it, but Fengyu Immortal Fairy and the other five Immortals found it hard to withstand such pressure and had to stop.

Fang Bai probed with Divine Sense for a moment and found some vacant Immortal Residences in the area, with ample space for the six Immortals to stay, and said to Fengyu Immortal Fairy, "How can we reside in these Immortal Residences?"

Fengyu Immortal Fairy could see Fang Bai wanted very much to live in this area, alongside high rank and peak experts at the Immortal Emperor Realm, and couldn't help but smile wryly, pointing at an Immortal Hall not far away, and said, "Just pay some rent there... but with six Immortals, according to the rule, it requires paying six times the rent!"

In Fengyu Immortal Fairy's view, though Fang Bai is an intermediate expert at the Immortal Emperor Realm, able to pay one rent, paying six rents would be somewhat beyond his means.

Even if he truly possesses such Cultivation Resources, would he be willing to spend it on these five not-so-long-known Immortals?

After all, Cultivation Resources in the Immortal Realm are not easily obtained, and normally Immortals will keep some resources on hand for daily cultivation needs, and they would hesitate to spend them all at once.

The other four Immortal King Realm experts accompanying them looked at Fang Bai with complex expressions.

For these Immortal King Realm experts, living in an area close to the Carefree Palace has been a long-held dream, but they clearly know that until they become experts at the Immortal Emperor Realm, there is virtually no hope.

Not to mention the expensive rent is hard for them to bear, even if they could afford the rent to live here, they would be unwelcome and pushed away by high rank and peak experts at the Immortal Emperor Realm.

An intermediate expert at the Immortal Emperor Realm could perhaps barely live here after paying enough rent, but if bringing five lower cultivation Immortals, the hope is very slim.

"Six times the rent? How much is that?"

Fang Bai asked with a frown.

In his previous life, he knew there was a city like Bluewater Immortal City and heard about some rules within but entered the city for the first time and was preparing to stay temporarily, he was unaware of the rent for the Immortal Residences.

Fengyu Immortal Fairy said, "For a span of sixty years, the rent here is one million medium-grade Immortal Emperor Level Immortal Stones or equivalent value in Cultivation Resources."

The four Immortal King Realm experts accompanying Fang Bai and Fengyu Immortal Fairy shook their heads in lament.

One million medium-grade Immortal Emperor Level Immortal Stones may not be a significant sum for high rank and peak experts at the Immortal Emperor Realm, but for them, they fear they couldn't accumulate it in a lifetime.

Fang Bai made a sound of acknowledgment and said, "You mean, one Immortal can pay one million medium-grade Immortal Emperor Level Immortal Stones to live here for sixty years?"

Seeing Fengyu Immortal Fairy nod, Fang Bai muttered, "One Immortal one million stones, six Immortals would be six million... well, it's fairly reasonable, not too exaggerated!"

His words left Fengyu Immortal Fairy and the five Immortals startled and slack-jawed.

"Immortal Friend Wushuang, what I said... was Immortal Emperor Level Immortal Stones, not Immortal King Level..."

Fengyu Immortal Fairy thought Fang Bai heard wrong and repeated.

Fang Bai said, "Yes! It's six million medium-grade Immortal Emperor Level Immortal Stones! I didn't hear wrong... All right, you wait, I'll be back soon!"

He walked briskly into the Immortal Hall pointed out by Fengyu Immortal Fairy.

"Is... Wushuang Immortal Emperor really going to pay the rent?"

Standing beside Fengyu Immortal Fairy, a male Immortal King muttered.

"That is... six million medium-grade Immortal Emperor Level Immortal Stones... Will Wushuang Immortal Emperor really pay for us?"

Another Immortal King said in disbelief.

Fengyu Immortal Fairy watched as Fang Bai entered the Immortal Hall, feeling a bit dazed, and whispered, "We shall see... we shall see..."

After a few moments, she sighed, "If Immortal Friend Wushuang really pays the rent for us, what should we do? Not moving in would waste so much rent; moving in, how could high rank and peak experts at the Immortal Emperor Realm tolerate us living here?"

The five Immortals, led by Fengyu Immortal Fairy, were momentarily distressed.

Dozens of moments later, Fang Bai and another Immortal came out side by side from the Immortal Hall.

Fengyu Immortal Fairy and the five Immortals recognized the Immortal, knowing he was a disciple under the Carefree Immortal Emperor, titled "Wuya Immortal Emperor," responsible for collecting rent from the Immortals in Bluewater Immortal City.

In their impression, Wuya Immortal Emperor is a dignified and arrogant Immortal, usually sending an Immortal King Realm disciple to guide those with cultivation lower than high rank Immortal Emperor Realm into the residence when collecting rent.

But now, he was accompanying Fang Bai personally, which shocked Fengyu Immortal Fairy and others.

"Let's go, to our Immortal Residence!"

Fang Bai, seeing Fengyu Immortal Fairy and the five Immortals staring at him, waved with a smile, then walked ahead with Wuya Immortal Emperor.

Fengyu Immortal Fairy and the other five Immortals regained their composure, exchanged glances, and followed quickly.

They held themselves with dignity, kept a distance, and dared not get too close to Fang Bai and Wuya Immortal Emperor.

"Wushuang Immortal Emperor and Wuya Immortal Emperor... could they be old acquaintances?"

Seeing Fang Bai and Wuya Immortal Emperor walking ahead conversing and laughing, an Immortal secretly transmitted to Fengyu Immortal Fairy and the four Immortals.

Chapter 2615: Threat

It is an extremely rare occurrence to see the stern and serious Wuya Immortal Emperor show a smile.

Previously, in the entire Bluewater Immortal City, probably only the Carefree Immortal Emperor could make the Wuya Immortal Emperor smile.

Therefore, in the eyes of Fengyu Immortal Fairy and the other five immortals, it seemed likely that the Wushuang Immortal Emperor and Wuya Immortal Emperor were old acquaintances with a very good relationship. Otherwise, how could the proud Wuya Immortal Emperor show such a smile and personally accompany them?

A moment later, led by the Wuya Immortal Emperor, the immortals entered an Immortal Residence.

As soon as Fengyu Immortal Fairy and the other five immortals entered this Immortal Residence, they fell in love with the place.

This Immortal Residence is built halfway up a gigantic mountain peak, several Immortal Halls stand tall among it, surrounded by five-colored auspicious clouds, gentle flying birds occasionally hovering overhead, and colorful immortal elixirs and herbs spread all around, pleasing to the eye, with the immortal qi it released refreshing the mind.

In the four corners of the Immortal Residence, there are four small Gathering Immortals Arrays, continuously absorbing and spreading immortal qi within the residence.

To Fengyu Immortal Fairy and the other five immortals, being in this Immortal Residence, bathed in the rich immortal qi, it was as if they had come to a Cultivation Holy Land, feeling comfortable all over.

"How does Immortal Friend Wushuang find this Immortal Residence? If suitable, you may stay here temporarily. If not, I will help you find another place?"

Wuya Immortal Emperor asked Fang Bai with a smile.

Fengyu Immortal Fairy and the other five immortals noticed that the Wuya Immortal Emperor used the respectful address "you" when speaking to Fang Bai, and they couldn't help but be surprised.

They knew that the Wuya Immortal Emperor's cultivation level was also at the mid-stage of the Immortal Emperor Realm and that he was a disciple of the Carefree Immortal Emperor. Compared with ordinary mid-stage Immortal Emperor Realm powerhouses, his status should be higher, if not the highest.

Yet in front of Fang Bai, why was this proud Wuya Immortal Emperor so respectful?

Fengyu Immortal Fairy and the five immortals were full of confusion, but with Wuya Immortal Emperor present, they dared not ask Fang Bai directly.

"What do you all think of this place?"

Fang Bai turned to ask Fengyu Immortal Fairy and the five immortals.

How is it?

Aside from the Carefree Palace where the Carefree Immortal Emperor resides, there is no better Immortal Residence than this!

"Good... very good..."

Fengyu Immortal Fairy and the five immortals instinctively nodded.

"Hmm... it's not bad... Immortal Friend Wuya, we'll stay here for now. Much obliged to you..."

Fang Bai glanced around the Immortal Residence and found it quite satisfactory, thus expressed his gratitude to Wuya Immortal Emperor.

"It's a small matter."

Wuya Immortal Emperor waved his hand with a smile, and before leaving, said to Fang Bai: "Immortal Friend Wushuang, as for the Creation Pill matter... I hope you will take care of it!"

Fang Bai replied earnestly: "Rest assured, I will remember this. Once I settle down and find a stall in the Cultivation Resource Exchange Market, Immortal Friend Wuya can find me there to get the Creation Pill."

Once Wuya Immortal Emperor heard this from Fang Bai, they agreed on a time and he left.

Fengyu Immortal Fairy watched Wuya Immortal Emperor's departing figure, contemplating the Creation Pill matter mentioned earlier between him and Fang Bai, being thoughtful.

"Are Immortal Friend Wushuang and that Wuya Immortal Emperor friends?"

After the Wuya Immortal Emperor left the Immortal Residence far behind, Fengyu Immortal Fairy asked.

Fang Bai replied, "No, this is our first meeting."

Fengyu Immortal Fairy said, "From what I know, that Wuya Immortal Emperor is a direct disciple of the Carefree Immortal Emperor, proud and haughty. Except for the Carefree Immortal Emperor, he rarely regards other newcomers. But why is he... so courteous to Immortal Friend Wushuang?"

"Why is he being so courteous to me, right?"

Before Fengyu Immortal Fairy could finish, Fang Bai smiled and said: "I promised him a bottle of superior Immortal Emperor Level Creation Pills, which can help increase the chance of breakthrough and advancing. Naturally, he has to return the favor."

"Superior Immortal Emperor Level Creation Pills..."

Fengyu Immortal Fairy gasped, looking at Fang Bai with a few degrees of fervor in her eyes, excitedly saying: "Could Immortal Friend Wushuang be an alchemist?"

Fang Bai nodded: "I know a thing or two."

"Immortal Friend Wushuang, you asked that Wuya Immortal Emperor to come back later to the Cultivation Resource Exchange Market to find you for Creation Pills, could it be..."

Recalling what Fang Bai had just said, Fengyu Immortal Fairy held back her excitement and asked with a tremor in her voice: "Could it be that you plan to run a stall to refine pills for others? Can you refine superior Immortal Emperor Level Creation Pills?"

In Bluewater Immortal City, there are a number of alchemists from various places in the Immortal Realm.

Among those alchemists, there are quite a few with high rank or even peak cultivation at the Immortal Emperor Realm, but the most famous one among them can only refine medium-grade Immortal Emperor Level Immortal Pills.

And the Creation Pill is among the hardest to refine of all Immortal Pills, even though there are alchemists in Bluewater Immortal City who can refine it, the success rate is extremely low.

Fang Bai's cultivation is only mid-stage Immortal Emperor Realm, though Fengyu Immortal Fairy believes him to be an alchemist, thinking that he can refine superior Immortal Emperor Level Creation Pills seemed like a boast.

However, if he couldn't refine high-grade Immortal Emperor Level Immortal Pills, why would Wuya Immortal Emperor be so courteous to him?

In the Immortal Realm, there is no lack of geniuses or even prodigies, who can say that an alchemist with mid-stage Immortal Emperor Realm cultivation cannot refine high-grade Immortal Emperor Level Immortal Pills?

And this was exactly what excited Fengyu Immortal Fairy.

If Fang Bai truly had such an incredulous ability, and they were in the same group, they could always ask Fang Bai to help refine Immortal Pills, being in a favorable position to get what they ask for first!

The four immortals with Fengyu Immortal Fairy also realized this possibility, looking at Fang Bai with intense hopefulness.

Fang Bai didn't say much more; he just smiled and said: "In the future if you need Immortal Pills, just speak!"

.....

Two days later, some attentive immortals in Bluewater Immortal City discovered that a new stall had appeared in the Cultivation Resource Exchange Market, and the owner was rumored to be both an alchemist and an array master.

For the immortals within Bluewater Immortal City, whether it's an alchemist or an array master, they are welcomed with open arms, as it gives them more choices.

For the city's alchemists and array masters, most naturally felt displeased, as it meant another competitor.

However, when they discovered that the stall owner's cultivation was mid-stage Immortal Emperor Realm, those alchemists and array masters relaxed.

While this young Wushuang Immortal Emperor's cultivation level was impressive, shocking those alchemists and array masters, because he was so young, how proficient could his skills in alchemy and the array path truly be?

Yet within a day, the ten-plus alchemists and array masters in Bluewater Immortal City found out that their previous notions were gravely mistaken.

This young Wushuang Immortal Emperor turned out to be a massive threat!

Chapter 2616: Boiling with Excitement

The alchemists of Bluewater Immortal City have traveled across the Immortal Realm and seen countless peers, yet never have they encountered anyone like Fang Bai, whose speed in alchemy is so swift.

Not only is his speed remarkable, but his success rate is so high it puts them to shame.

Other alchemists often need three to five days to refine a furnace of Immortal Pills, with success rates at only twenty to thirty percent.

However, Fang Bai can complete alchemy in less than three to five hours, achieving a stunning fifty percent success rate.

This means that while other alchemists might need four or five sets of alchemy materials to possibly create a furnace of Immortal Pills, Fang Bai only needs two.

As a result, the immortals of Bluewater Immortal City are naturally flocking to Fang Bai, neglecting other alchemists, causing their business to plummet.

Fengyu Immortal Fairy and the other five immortals were not in seclusion in their Immortal Residences cultivating, instead, they actively came to help Fang Bai.

They had clear divisions of labor; some received alchemy materials for Fang Bai and delivered them to the Alchemy Room, while others maintained order at the stall to prevent chaos.

In this process, they witnessed Fang Bai's powerful alchemy skills, which left them feeling indescribably excited.

However, Fang Bai only refined lower and middle Immortal Emperor level Immortal Pills, so regarding higher superior Immortal Emperor level Immortal Pills, because no immortals had come to request them yet, it was unclear if he could craft them.

Since many immortals needed Immortal Pills, for the majority of the time after the stall opened, Fang Bai was in the Alchemy Room behind the stall refining Immortal Pills.

Yet, some immortals knew that Fang Bai was knowledgeable in the Array Path and invited him to Immortal Residences to help lay down arrays.

In the high-grade Immortal Residences in Bluewater Immortal City, which accommodated high-rank and peak Immortal Emperor realm experts, almost all had the Gathering Immortals Array personally set by the Carefree Immortal Emperor.

But the Immortal Residences of Immortal King realm and lower rank Immortal Emperor realm experts did not have this privilege, so their purpose in inviting Fang Bai was mostly to have him set up a Gathering Immortals Array in their Immortal Residences to collect Immortal Qi, which is beneficial for cultivation.

Additionally, some original Gathering Immortals Arrays in the Immortal Residences, due to years of neglect, showed minor issues like inefficiency, and since the Carefree Immortal Emperor had been away for a long time, not in Bluewater Immortal City, some immortals sought out Fang Bai.

Thus, Fang Bai spent half the day in the Cultivation Resource Exchange Market refining pills, and half the day traveling across Bluewater Immortal City setting up arrays.

No one expected that Fang Bai not only outperformed all the alchemists in Bluewater Immortal City with his alchemy technique, but his achievements in arrays left the array masters in the city also far behind.

The most surprised about Fang Bai's adeptness in the Array Path were the disciples under the Carefree Immortal Emperor.

The Carefree Immortal Emperor dedicated his life to the study of arrays, and over the tens of thousands of years, only the War Emperor, who fell a thousand years ago and was exceptionally talented, could surpass him in the Array Path, and no other immortal could compare.

In the eyes of the disciples under the Carefree Immortal Emperor, the arrays that their master personally set could only be repaired by him.

But what they did not expect was that the newcomer, Wushuang Immortal Emperor, actually had this ability.

Some immortals found that the Gathering Immortals Arrays set by Fang Bai were indistinguishable from those set by the Carefree Immortal Emperor, so through word of mouth, Fang Bai's business in arrays also became booming.

On the fifth day of Fang Bai's stall opening, Wuya Immortal Emperor, a disciple under the Carefree Immortal Emperor, personally came to ask Fang Bai to help refine a furnace of superior Immortal Emperor level Creation Pills.

"Superior Immortal Emperor level Immortal Pills... and they're Creation Pills... can the Wushuang Immortal Emperor actually craft them?"

Some immortals doubted in their hearts.

Superior Immortal Emperor level Immortal Pills are suitable for high-rank and peak Immortal Emperor realm experts, and they place a high demand on the alchemist's abilities. Typically, only alchemists whose cultivation level has reached the corresponding realm can craft them.

In the Immortal Realm, there are immortals capable of challenging higher levels, but it is extremely rare for an alchemist to achieve such a feat in alchemy.

This is why some immortals doubted whether Fang Bai could craft superior Immortal Emperor level Immortal Pills.

"Even Wuya Immortal Emperor came, maybe the Wushuang Immortal Emperor truly can craft them?"

Some immortals thought this possibility existed.

After all, in the eyes of these immortals, Wushuang Immortal Emperor has achieved the mid-tier Immortal Emperor realm at a young age, which is an incredible miracle, who dares to say he cannot create another miracle?

Since Wuya Immortal Emperor came for alchemy, the other immortals, out of respect for the Carefree Immortal Emperor behind him, temporarily deferred to him.

"Here are four sets of materials for refining Creation Pills!"

Wuya Immortal Emperor said, handing the alchemy materials to Fang Bai, and then solemnly added, "Immortal Friend Wushuang, I am just a step away from advancing to the high-rank Immortal Emperor realm, so these Creation Pills are crucial for me. Therefore... I entrust this to you!"

Originally, Fang Bai had him prepare only two sets of alchemy materials, but to be safe, he brought two additional sets, thinking if Fang Bai could succeed with just two, the extra sets would serve as his reward.

A few days ago, when Fang Bai first met Wuya Immortal Emperor, he saw that Wuya Immortal Emperor was only a step away from advancement but lacked confidence, so he demonstrated his strong alchemy ability on the spot, which is why Wuya respects him.

"Don't worry!"

Fang Bai gave Wuya Immortal Emperor a reassuring smile and then turned to enter the Alchemy Room.

The fact that Fang Bai was refining superior Immortal Emperor level Creation Pills for Wuya Immortal Emperor quickly attracted much attention from many immortals in Bluewater Immortal City.

Among these immortals were many high-rank and peak Immortal Emperor realm experts, who most needed superior Immortal Emperor level Immortal Pills to aid their cultivation.

If Fang Bai could successfully craft even the most difficult superior Immortal Emperor level Creation Pills, then other superior Immortal Emperor level Immortal Pills would be all the more easy for him. For these immortals, it would be a blessing.

Refining Creation Pills takes longer than other Immortal Pills, and Wuya Immortal Emperor was prepared for a long wait.

But in just about three hours, the door to Fang Bai's Alchemy Room opened, and a rich fragrance of pills wafted out, reaching the noses of the gathered immortals.

"This is... the fragrance of Creation Pills!"

"So rich... they're definitely superior Immortal Emperor level Creation Pills!"

"He actually succeeded... Wushuang Immortal Emperor is incredible!"

"Haha, I have been stuck in the mid-tier Immortal Emperor realm for over a thousand years, if I can rely on such high-grade Creation Pills, there's hope for advancement!"

"I have repeatedly tried to reach the peak of Immortal Emperor realm, only to fail each time, and the two bottles of Creation Pills I've refined before are exhausted. Luckily, Wushuang Immortal Emperor is here, so there's no need to worry anymore! Haha..."

...

When Fang Bai emerged from the Alchemy Room and handed the bottle with ten Creation Pills to Wuya Immortal Emperor, the immortals of Bluewater Immortal City, who had been watching this unfold, erupted in excitement.

Chapter 2617: The Retreat of the Immortals

After Wuya Immortal Emperor left satisfied with a bottle of Creation Pill, Fang Bai's stall was immediately surrounded, the gaze of the Immortals on him full of fervor.

To have an Alchemist capable of crafting Superior Immortal Emperor Level Pills, such an Alchemist is rare in the Immortal Realm.

Such an Alchemist is someone even Immortal Emperor Realm peak experts must curry favor with, and even Immortal Emperors would give them a degree of respect.

After all, Alchemists with this ability typically have high Wuxing aside from their Dual Attribute Innate Spiritual Root. Who would dare say they can't advance to the Emperor Realm Pill Master in the future?

An Immortal who reaches the Emperor Realm and holds the title of Pill Master, even those supreme top-tier Immortal Emperors in the Immortal Realm would vie to befriend them.

The news that Wushuang Immortal Emperor can craft Superior Immortal Emperor Level Creation Pills spread like wildfire throughout Bluewater Immortal City, thrilling millions of immortals.

Especially those immortals urgently needing Superior Immortal Emperor Level Pills to aid in their cultivation, they moved upon hearing the news, flocking to the Cultivation Resource Exchange Market.

These immortals are primarily High Rank and Immortal Emperor Realm Peak experts. Normally elusive as Divine Dragons, they rarely appear before other immortals, but now they gathered in the Cultivation Resource Exchange Market, making quite a lively scene, a rare spectacle since the city was built.

This situation persisted until the Carefree Immortal Emperor returned.

"Why is the Cultivation Resource Exchange Market so lively? What has happened?"

Returning to the Carefree Palace, the Carefree Immortal Emperor's Divine Sense enveloped the city and, upon discovering the scene at the market, slightly frowned and asked several disciples beside him.

"Reporting to Master, during your absence from the Immortal City, an Immortal with the title of Wushuang Immortal Emperor visited our city..."

Wuya Immortal Emperor stepped out to recount the tale of Fang Bai entering Bluewater Immortal City, finally saying, "Not only is Wushuang Immortal Emperor's alchemy technique exceptionally high, but he also masters formations..."

"Oh?"

Hearing the word "formation," the Carefree Immortal Emperor's eyes lit up with interest, "For you to use the term 'master', it seems Wushuang Immortal Emperor's expertise in the Array Path is indeed extraordinary. Please, tell me more..."

Wuya Immortal Emperor said, "Due to the long years and your recent absence from the Immortal City, some Immortals invited Wushuang Immortal Emperor to repair formations you set up in some Immortal Residences..."

"I originally thought the formations Master set were so intricate, how could Wushuang Immortal Emperor manage to repair them? Yet, unexpectedly, he succeeded..."

The Carefree Immortal Emperor, typically prideful of his Array Path, was greatly astonished hearing Wuya Immortal Emperor's words.

"According to you, although his cultivation level is merely mid-Immortal Emperor Realm, he can craft Superior Immortal Emperor Level Pills and holds profound expertise in the Array Path... Truly a rare and wondrous Immortal..."

The Carefree Immortal Emperor said this, stood up abruptly, waved a large hand, and said to Wuya Immortal Emperor, "Come, let us take a trip to the Cultivation Resource Market!"

Seeing his Master wanting to meet Fang Bai personally, Wuya Immortal Emperor hurriedly said, "Master, if you wish to see Fang Bai, why go in person? Allow me to go and invite him..."

The Carefree Immortal Emperor waved his hand, saying, "Going personally shows sincerity!"

Wuya Immortal Emperor was moved, "Master means..."

The Carefree Immortal Emperor chuckled lightly, "If Wushuang Immortal Emperor truly possesses such skills, recruiting him to serve me, wouldn't it be wonderful?"

Wuya Immortal Emperor's eyes lit up and he praised, "Master's words make sense! Wushuang Immortal Emperor can practice alchemy, understands formations, and is youthful with a Dual Attribute Innate Spiritual Root. His potential on the Immortal Dao is boundless. If he wishes to join us, it will greatly aid in our future unification of the Immortal... cough, immensely beneficial indeed!"

The Carefree Immortal Emperor's eyes flashed sharply as he gazed at him, sternly asking, "Unification of the Immortal what? What nonsense are you talking?"

Wuya Immortal Emperor, realizing he misspoke, bowed his head in panic, "Disciple... disciple was talking nonsense..."

The Carefree Immortal Emperor lightly snorted, gazing beyond the great hall, leisurely saying, "Some things are best kept in the heart; spoken aloud, they may invite great trouble! Our current strength compared to the top-tier forces in the Immortal Realm still lacks much. We must continue to refine and gather strength! However, this situation shall soon be transformed..."

He said this, slightly raising his brows, face showing an expression of satisfaction and pride, "Before long, our strength shall greatly surge, surpassing the top-tier forces in both quantity and quality. By then, the entire Immortal Realm... hehehe... hahahaha..."

"Master is mighty!"

Present Wuya Immortal Emperor and the various Immortals, seeing their Master so exuberant, swiftly began flattering him.

.....

At this moment, in the Alchemy Room within the Cultivation Resource Exchange Market, Fang Bai seemed to sense something and stopped his alchemy, deep in thought.

"That Carefree Immortal Emperor... finally coming, isn't he?"

Fang Bai mumbled a sentence, then after a moment, with a batch of freshly crafted Immortal Pills, slowly walked out.

"Today's alchemy ends here. Fellow Immortals, please return."

Fang Bai handed the Immortal Pills to a High Rank Immortal Emperor expert, cupping his hands as he spoke.

"Wushuang Immortal Emperor, it's still early today, why stop then?"

Some Immortals felt puzzled, speaking up to ask.

Fang Bai chuckled and said, "Because..."

"Carefree Immortal Emperor arrival, to meet with Wushuang Immortal Emperor. All Immortals disperse..."

Fang Bai's words were interrupted by a solemn, cold voice, and right after, a pressure descended.

That pressure felt as if the void collapsed, like sea waves overturning, pressing the Immortals near to suffocation, and upon hearing the words "Carefree Immortal Emperor," their faces changed.

As the lord of Bluewater Immortal City, Carefree Immortal Emperor's mighty reputation holds a powerful deterrent. Upon hearing the word "disperse," all Immortals in the Cultivation Resource Exchange Market dared not linger, each flying away.

In an instant, the market that could hold nearly ten thousand Immortals only had Fang Bai, Fengyu Immortal Fairy, and several others left, empty and silent.

"Immortal Friend Wushuang, we..."

Fengyu Immortal Fairy and the other five Immortals, standing behind Fang Bai, upon hearing Carefree Immortal Emperor would arrive soon, similarly had changed expressions. They exchanged glances, showing determination, and clenched fists stood behind Fang Bai.

They now belonged to the same team as Fang Bai, agreeing to share joy and face difficulties together, confronting perilous events jointly advancing or retreating.

They didn't know why Carefree Immortal Emperor sought Fang Bai, feeling uneasy and even a bit fearful, yet resolved to stay firm.

"It should be... nothing good, right..."

Fang Bai turned back to look at Fengyu Immortal Fairy and the other five Immortals, smiling as he spoke.

Chapter 2618: That Boast... Is a Bit Much!

In the next moment, the Carefree Immortal Emperor descended upon the Cultivation Resource Exchange Market, standing before Fang Bai's stall.

After a millennium, this was Fang Bai's first time seeing the Carefree Immortal Emperor.

The Carefree Immortal Emperor before him restrained his divine energy, appearing as if he were the most ordinary of Immortals.

This made Fang Bai secretly surprised, knowing he had reached the realm of returning to simplicity, his strength now comparable to the few top-tier Immortal Emperors in the Immortal Realm.

"In this millennium, could he have encountered some great opportunity?"

Fang Bai pondered secretly.

In his previous life, Fang Bai, although not deeply acquainted with the Carefree Immortal Emperor, had met him several times, knowing the Carefree Immortal Emperor was limited by innate aptitude, and reaching the Emperor Realm was his utmost limit.

But unexpectedly, upon meeting him again now, his strength had improved significantly from a thousand years ago, something impossible without a great opportunity.

However, as Fang Bai continued to observe the Carefree Immortal Emperor, he felt something was amiss, as if the Carefree Immortal Emperor was deliberately hiding something.

Fang Bai recognized the Carefree Immortal Emperor before him, but the Carefree Immortal Emperor did not know that the Wushuang Immortal Emperor was Fang Bai.

This was due to Fang Bai's enhanced ability to conceal his aura after advancing to the mid Immortal Emperor Realm, otherwise he might not be able to escape the extraordinary sight of the Carefree Immortal Emperor.

"Wushuang Immortal Emperor, though we meet for the first time, I feel a sense of familiarity..."

As Fang Bai observed the Carefree Immortal Emperor, the Carefree Immortal Emperor also scrutinized him. After several breaths, he spoke slowly, his smile warm and gentle.

Fang Bai's heart skipped a beat, thinking he might have been discovered, and was about to speak, when the Carefree Immortal Emperor continued, "This, perhaps, is what fate is all about! Some Immortals, though known for a lifetime, never see eye to eye; while some Immortals, after one meeting, become kindred spirits... I believe we are such!"

Fang Bai laughed heartily and said, "To speak truthfully... I feel the same way!"

The Carefree Immortal Emperor found it astonishing that the Wushuang Immortal Emperor, merely at a mid Immortal Emperor Realm cultivation level, showed no anxiety when facing an Immortal Emperor like himself.

Yet, upon thinking further, the Carefree Immortal Emperor felt relieved.

This Wushuang Immortal Emperor excels in Pill Dao Array, possesses Dual Attribute Innate Spiritual Root, and will most likely ascend to the Emperor Realm, such an Immortal would surely possess some arrogance?

Wasn't he like this back in the day?

"I heard that Wushuang Immortal Emperor has profound insights into the Way of Array. I have some understandings of Array as well. Why don't we head to the Carefree Palace for a discussion?"

After a brief chat, the Carefree Immortal Emperor was convinced that this Wushuang Immortal Emperor had an astounding talent for Array, and might achieve not less than himself in the future. Thus, he invited Fang Bai with increased interest.

Fang Bai's purpose of entering Bluewater Immortal City was to protect the Emperor's Palace disciples, who might be under the Carefree Immortal Emperor's shelter, and to gain news of these disciples, he must rely on the Carefree Immortal Emperor, so he gladly accepted the invitation.

"You all stay here and wait for my return."

Fang Bai turned to tell Fengyu Immortal Fairy and the five others, then set off with the Carefree Immortal Emperor, riding the Auspicious Clouds towards the Carefree Palace.

From beginning to end, the Carefree Immortal Emperor never spared Fengyu Immortal Fairy a glance.

To the Carefree Immortal Emperor, Fang Bai's cultivation might lack somewhat, but his prowess in Alchemy and the Way of Array is renowned, possessing great potential in the Immortal Dao, thus worthy of the invitation.

While Fengyu Immortal Fairy and the others, an initial Immortal Emperor Realm and four Immortal King Realm cultivations, with no noteworthy abilities, are no different from ants, hence the Carefree Immortal Emperor disregarded them.

Upon arriving at the Carefree Palace, Fang Bai and the Carefree Immortal Emperor engaged in a lengthy discussion centered on the Way of Array.

The Carefree Immortal Emperor was surprised to find that the Wushuang Immortal Emperor's understanding of Array was even more profound than imagined, increasing his desire to recruit.

During the discussion, Fang Bai intended to bring up the matter of the Emperor's Palace disciples but felt that the Carefree Immortal Emperor seemed different from a thousand years ago. Despite the Carefree Immortal Emperor's subtle concealment, he couldn't discern the exact difference at the time.

Having lived through two lifetimes, Fang Bai grew more cautious and meticulous, especially regarding matters concerning the Emperor's Palace, made him doubly cautious.

Therefore, regarding the Emperor's Palace disciples, he decided not to mention it to the Carefree Immortal Emperor for now, planning to bring it up later since he was to reside in Bluewater Immortal City for a while.

Previously, outside Bluewater Immortal City, Fang Bai discovered some marks left by the Emperor's Palace disciples, speculating that there must be disciples residing in the city, and intended to search slowly.

"Forgive my impertinence, but I've heard that the Carefree Immortal friend is at odds with the eight top-tier Immortal Emperors and has sheltered the surviving disciples of the Emperor's Palace... Is this merely a rumor, or is there truth to it?"

Fang Bai casually mentioned this matter, while his gaze landed on the Carefree Immortal Emperor's face, hoping to find some clues.

The Carefree Immortal Emperor surprisingly did not deny it, calmly laughed and said, "This matter has spread widely, now known across the Immortal Realm. Haha... The actions of the eight top-tier Immortal Emperors over this millennium are clear to all Immortals, detesting them more than just me..."

Pausing, he continued, "Not to hide from you, a millennium ago, I met the Emperor's Palace Master several times and we became kindred spirits. Later, when the Emperor's Palace fell, and its disciples were hunted, in both feelings and reasoning, I felt I should do something... I sheltered the Emperor's Palace disciples, it is moral righteousness, what can the eight top-tier Immortal Emperors do to me?"

With a solemn expression, standing righteously, he then added, "The eight top-tier Immortal Emperors sent disciples to persuade me to abandon the shelter of Emperor's Palace disciples. I scolded them harshly and chased them away! Later, they threatened me, claiming if I didn't hand over the disciples, they would join forces to destroy my Bluewater Immortal City..."

Fang Bai said, "Carefree Immortal friend, do you truly fear not the joint offense of the eight top-tier forces?"

The Carefree Immortal Emperor laughed proudly, "If they dare invade, they will be taught to come with no return!"

Fang Bai thought to himself: "Even my Emperor's Palace struggled against the joint forces of the eight top-tier powers, not to mention your Bluewater Immortal City? Although there are a million Immortals within Bluewater Immortal City, not all follow your lead to fight against the eight top-tier forces! Carefree Immortal Emperor ah Carefree Immortal Emperor, your boasting... is a bit excessive!"

Fang Bai remembered the Carefree Immortal Emperor of past years, albeit very arrogant, but not unaware of limits, now he clearly became more vain, his words tinged with more hostility.

"Hostility..."

Fang Bai seemed to vaguely catch onto something, but was interrupted by the Carefree Immortal Emperor's next words.

"I intend to create a sect, named Carefree Palace, and widely invite Immortals from all sides to join... May I ask if the Wushuang Immortal Emperor wishes to become one? If honored by the Wushuang Immortal Emperor, a future Elder seat in the Carefree Palace will be reserved for you!"

The Carefree Immortal Emperor asked with a smile, his expression showing eagerness.

Chapter 2619: Precautions Must Be Taken

A sect with an Immortal Emperor stationed in it belongs to the top-tier sects in the Immortal Realm, and being able to serve as an Elder in these top-tier sects is absolutely a supreme honor.

When the Carefree Immortal Emperor personally promises an elder position, other immortals might be so overwhelmed that they would immediately nod in agreement.

Even the Carefree Immortal Emperor himself thought that the Wushuang Immortal Emperor would find it hard to refuse such a temptation.

After all, under normal circumstances, an elder of a top-tier sect must reach the Immortal Emperor Realm Peak to qualify, whereas Fang Bai is only a mid-level Immortal Emperor Realm elder, yet the Carefree Immortal Emperor plans to entrust him with this important position, which shows just how highly the Carefree Immortal Emperor regards him.

Sure enough, under the gaze of the Carefree Immortal Emperor, Fang Bai thought for a moment and then nodded.

The Carefree Immortal Emperor laughed heartily, stood up, and said in high spirits, "With the addition of the Wushuang Immortal Emperor, the strength of Carefree Palace will grow even more! I believe that in the near future, the overall power of Carefree Palace will surpass the eight top-tier forces and become number one in the Immortal Realm! The glorious scene of the Emperor's Palace in the past will be re-enacted in Carefree Palace!"

Seeing the Carefree Immortal Emperor laugh in wild abandon, Fang Bai frowned slightly but soon smiled as well.

"I have long yearned for the Emperor's Palace from a thousand years ago, and deeply regret not being able to witness the elegance of the War Emperor of the past. If there are indeed disciples of the Emperor's Palace in this Bluewater Immortal City, would it be possible to meet them and fulfill one of my wishes...?"

Fang Bai asked with a smile.

The Carefree Immortal Emperor's smile paused, a peculiar gleam flashed in his eyes as he waved his hand and said, "Right now, with the eight top-tier forces in hot pursuit, those disciples of the Emperor's Palace have been arranged by me in a hidden location. Meeting them now... would be quite inconvenient! This matter... let's discuss it later... let's discuss it later..."

Since the Carefree Immortal Emperor said so, Fang Bai nodded and inquired no further.

Following the Carefree Immortal Emperor's suggestion to have Fang Bai live in Carefree Palace for easier communication, Fang Bai insisted on staying in the newly rented Immortal Residence.

Seeing his firm attitude, the Carefree Immortal Emperor did not press further and summoned Wuya Immortal Emperor, instructing to waive the future rental fees of that Immortal Residence.

"Master, this Wushuang Immortal Emperor... seems quite interested in matters of the Emperor's Palace! Could it be that he is..."

After Fang Bai left, Wuya Immortal Emperor approached the Carefree Immortal Emperor, eyes flickering with thought.

The Carefree Immortal Emperor glanced at him and said, "What do you mean?"

Wuya Immortal Emperor said, "Over the years, Master has been at odds with several top-tier forces in the Immortal Realm, I am worried that... the Wushuang Immortal Emperor might be an immortal from one of the eight top-tier forces... Master must remain vigilant!"

The Carefree Immortal Emperor's eyes narrowed slightly, smiling as he said, "Wuya, you overthink. On the side of the eight top-tier forces, we have quite an ear, what movement can escape my notice? If they had such a genius, I would have known long ago! Besides, even if the Wushuang Immortal Emperor is under one of the eight top-tier Immortal Emperors, so what? With his mere mid-level Immortal Emperor Realm cultivation, what waves can he possibly create in my hands?"

Wuya Immortal Emperor earnestly said, "Master, we at Carefree Palace are in the midst of brewing a change unprecedented in a thousand years in the Immortal Realm, we must be extra cautious! Otherwise, if the word gets out and the top-tier forces become alert, it will become much more difficult!"

The Carefree Immortal Emperor said, "Hmm, well said... then keep a closer watch on this Wushuang Immortal Emperor; if he behaves, so be it, but report to me if there is any change. However, make sure that the Wushuang Immortal Emperor does not detect this, otherwise, he might harbor resentment and refuse to work for me!"

Although he's an Emperor Realm expert, with his Divine Sense easily enveloping the entire Bluewater Immortal City, investigating the movements of every immortal in the city, he cannot release his Divine Sense for long periods, as the depletion of spirit and energy is too great.

Moreover, he often needs to enter closed cultivation, leaving no time to constantly watch over the Wushuang Immortal Emperor.

Fortunately, his disciple Wuya Immortal Emperor is meticulous, and entrusting the matter to him, he will surely handle it well.

"By the way Wuya, are those disciples of the Emperor's Palace outside the city in Carefree Valley still behaving?"

The Carefree Immortal Emperor suddenly asked.

Wuya Immortal Emperor hurriedly replied, "Reporting to Master, the situation is still the same! However..."

"Hmm?"

Seeing Wuya Immortal Emperor hesitate, the Carefree Immortal Emperor's sharp gaze bore into him, instantly subjecting him to immense pressure.

"A few days ago, a disciple of the Emperor's Palace spoke out of turn, insulting Master, which angered Aoyue Immortal Emperor who is in charge of guarding them. Aoyue Immortal Emperor struck the other party heavily... that Emperor's Palace disciple is severely injured, and the situation is not promising..."

As Wuya Immortal Emperor spoke, sweat poured off him like rain, thinking that his master had cultivated some powerful cultivation technique in recent years, making his presence increasingly oppressive and difficult to serve.

The Aoyue Immortal Emperor he mentioned was a key general recruited by the Carefree Immortal Emperor, and a candidate for the Elder position in the soon-to-be-created Carefree Palace.

In recent centuries, the Carefree Immortal Emperor has become famous for opposing the eight top-tier Immortal Emperors, thus many surviving disciples of the Emperor's Palace, upon hearing this, came seeking refuge, and the Carefree Immortal Emperor placed them in a Secret Realm called Carefree Valley outside Bluewater Immortal City, setting up multiple concealment and isolation formations to keep them hidden from other immortals.

Those Emperor's Palace disciples who fled to the Carefree Immortal Emperor thought they had found a safe haven, but upon entering Carefree Valley, realized it was like entering a cage, losing their freedom completely and unable to leave.

Afterward, the Carefree Immortal Emperor visited Carefree Valley several times, asking the Emperor's Palace disciples to demonstrate the Emperor's Palace Immortal Technique Secrets, claiming he would use them to enhance his own strength and thus avenge the fallen Emperor's Palace Master and disciples.

However, how could the Emperor's Palace disciples be easily fooled? Citing that Emperor's Palace Immortal Technique Secrets are never shared, they declined the Carefree Immortal Emperor.

The Carefree Immortal Emperor asked for this time and again but was repeatedly refused and finally lost patience, starting to use both soft and hard measures, even resorting to coercion.

This made the Emperor's Palace disciples finally understand that the Carefree Immortal Emperor's claim of seeking revenge was false, while his true intention to steal the Emperor's Palace Immortal Technique Secrets was real, prompting even less cooperation and resolute requests to leave Carefree Valley, refusing further shelter under the Carefree Immortal Emperor.

Yet, the Carefree Immortal Emperor, unable to obtain the Emperor's Palace Immortal Technique Secrets, would not give up and thus kept them imprisoned within Carefree Valley.

Over the centuries, more and more Emperor's Palace disciples arrived at Bluewater Immortal City, seeking the Carefree Immortal Emperor's refuge but were all eventually sent into Carefree Valley.

And those responsible for guarding Carefree Valley were led by Aoyue Immortal Emperor and other strong subordinates of the Carefree Immortal Emperor.

With formations trapping them and strong guards watching over, the Emperor's Palace disciples trapped in Carefree Valley could not escape.

None of those Emperor's Palace disciples ever thought they'd escape the Wolf Clan only to enter the Tiger Den, but they had long ceased fearing death, daily taking pleasure in hurling insults at the Carefree Immortal Emperor.

One day, Aoyue Immortal Emperor, finding their insults too unbearable, flew into a rage and struck one of the Emperor's Palace disciples heavily, who now lies on the brink of death, barely clinging to life.

Chapter 2620: Refusal

"Aoyue Immortal Emperor is being absurd!"

The Carefree Immortal Emperor, upon hearing that a disciple of the Emperor's Palace had been severely injured and was near death, furrowed his brows and let out a cold snort.

In the Carefree Immortal Emperor's memories, the former Emperor's Palace Master was extremely generous, never keeping secrets from the disciples, imparting many Immortal Technique Secrets to them, all of which were Emperor Rank.

This was one of the main reasons for the great power of the collective disciples of the Emperor's Palace, allowing them to laugh proudly in the Immortal Realm.

The immortals in the Immortal Realm all knew that the Immortal Technique Secrets created by the Emperor's Palace Master were immensely powerful, far surpassing other Emperor Rank techniques. Hence, after the fall of the Emperor's Palace, even the eight supreme Immortal Emperors sought to capture some disciples of the Emperor's Palace, hoping to coerce them into revealing some techniques from the Emperor's Palace to independently comprehend and cultivate.

However, each disciple from the Emperor's Palace was extremely fierce. Once pursued by the top eight forces, knowing they couldn't escape, they would choose the extreme method of self-detonation to perish alongside the foe, preventing the eight supreme Immortal Emperors from achieving their goals.

The Carefree Immortal Emperor, under the guise of protecting the disciples of the Emperor's Palace, attracted many disciples to seek refuge, then imprisoned them in the Carefree Valley, coercing them for the techniques of the Emperor's Palace.

Yet, he didn't foresee those disciples to be so resolute, refusing to divulge anything, regardless of the methods employed.

The Carefree Immortal Emperor did not intend to kill one as a warning to others, knowing that it might backfire, inciting greater anger among the other disciples from the Emperor's Palace.

Therefore, he kept those disciples imprisoned, preparing for a gradual coercion.

He believed that even the most steadfast will would eventually waver and crumble with the passage of time.

But now, Aoyue Immortal Emperor, without his consent, had gravely injured a disciple of the Emperor's Palace, which would undoubtedly make the disciples more united.

The Carefree Immortal Emperor felt somewhat annoyed by this.

If not for Aoyue Immortal Emperor being his right-hand man, he would have struck him down with a single blow.

"Wuya, come with me to the Carefree Valley."

The Carefree Immortal Emperor planned to admonish Aoyue Immortal Emperor, urging him to restrain himself to prevent such incidents from occurring again in the future.

.....

Fang Bai left the Carefree Palace with a smile on his face.

On the way back to the Cultivation Resource Exchange Market, the smile gradually faded, replaced by doubt and gravity.

Earlier in the Carefree Palace, when he inquired about the disciples of the Emperor's Palace, the Carefree Immortal Emperor seemed to be hiding something. Furthermore, there were several eye exchanges between him and Wuya Immortal Emperor, which Fang Bai keenly noticed.

"The current Carefree Immortal Emperor, although not as arrogant and flamboyant as he was a thousand years ago, seems less transparent and more obscure..."

Fang Bai recalled the conversation with the Carefree Immortal Emperor, furrowing his brows slightly, then thought, "From his words, it seems there truly are disciples from the Emperor's Palace under his protection within and outside Bluewater Immortal City. But why doesn't he want me to meet those disciples? Could it be that he suspects me to be an informant for the eight supreme forces?"

He had just returned to his stall when he noticed two rays of light shooting up into the sky from the direction of the Carefree Palace, flying towards the outside of the city.

"Carefree Immortal Emperor and Wuya Immortal Emperor..."

Fang Bai looked up as the two rays of light disappeared before his eyes, murmuring to himself.

"Wushuang Immortal Emperor has returned."

Sensing Fang Bai's presence, Fengyu Immortal Fairy, leading a group of five immortals, quickly came out to greet him, their expressions somewhat restrained.

Previously, the Carefree Immortal Emperor personally went to the Cultivation Resource Exchange Market to invite Fang Bai to the Carefree Palace. In the entire Bluewater Immortal City, only Wushuang Immortal Emperor had the honor.

In comparison, Fengyu Immortal Fairy and the other four immortals felt both honored and worried that Fang Bai might be favored by the Carefree Immortal Emperor and stay in the Carefree Palace, becoming a member, gradually drifting away from them.

Now seeing Fang Bai return, they secretly breathed a sigh of relief, feeling endlessly joyful.

"Hmm, I'm back."

Fang Bai nodded, entering the Immortal Residence under the escort of Fengyu Immortal Fairy and the other four immortals.

"As far as I know, the Carefree Immortal Emperor has never personally invited any immortals within the Immortal City to the Carefree Palace as guests. This time, he invited you, Wushuang Immortal Emperor... What might be the reason?"

Once inside the Immortal Residence, Fengyu Immortal Fairy cautiously asked.

This was a question of great concern to her and the other four immortals.

If the Carefree Immortal Emperor aimed to recruit Fang Bai into the Carefree Palace, even though Fang Bai refused this time, should the Carefree Immortal Emperor pose as generous or recruiting multiple times, Fang Bai might find it difficult to refuse regardless of his high status.

Fang Bai possessed infinite potential, making him naturally qualified to be invited by the Carefree Immortal Emperor to join the Carefree Palace. However, Fengyu Immortal Fairy and the other four immortals were not as talented, and hence, were not favored by the Carefree Palace.

Once Fang Bai joined the Carefree Palace, he'd be tasked with alchemy and array formation for them, making it hard for them to meet him again.

Under the gaze of Fengyu Immortal Fairy and the other four immortals, Fang Bai slowly began to speak: "The Carefree Immortal Emperor intends to recruit me to join the Carefree Palace he founded..."

"Ah..."

Although Fengyu Immortal Fairy and the other four immortals had suspected this possibility, hearing Fang Bai confirm it, they couldn't help but exclaim in surprise, their hearts hanging anxiously.

"Did you... accept the invitation?"

Fengyu Immortal Fairy forced a smile, asking bitterly.

Fang Bai previously joined them, greatly enhancing the overall strength of their team, allowing them to hold their heads high in Bluewater Immortal City. They never expected the Carefree Palace to "steal away" Fang Bai.

The thought of Fang Bai eventually leaving their team to join the Carefree Palace filled them with a sense of loss, like being cast down from the clouds to the dust.

"Joining the Carefree Palace and becoming a subordinate of the Carefree Immortal Emperor, isn't that the dream of many immortals?"

Fang Bai did not answer Fengyu Immortal Fairy and the four immortals. Instead, he looked at them and asked back.

Fengyu Immortal Fairy smiled bitterly: "Of course. In the whole Immortal Realm, countless immortals hope to serve an Emperor Realm Expert. It's just that many lack the opportunity!"

"That's true! However... I'm not particularly interested in joining the Carefree Palace."

Fang Bai, seeing Fengyu Immortal Fairy and the other four immortals looking stunned at his words, smiled: "I'm used to my freedom and don't like restrictions. Joining the Carefree Palace would inevitably lead to being summoned at the whim of the Carefree Immortal Emperor. So... even though he promised me a position as an Elder, I still refused."

"Carefree Palace Elder..."

Fengyu Immortal Fairy and the other four immortals looked at each other, feeling a bit unbelievable.

They couldn't imagine that the Carefree Palace would offer such a position to recruit Wushuang Immortal Emperor, showing how much the Carefree Immortal Emperor valued him.

What's most surprising to Fengyu Immortal Fairy and the other four immortals is that Wushuang Immortal Emperor actually refused!

"To decline the invitation of the Carefree Immortal Emperor... If it were me, I wouldn't have such courage..."

Fengyu Immortal Fairy paused for a few moments before expressing admiration, feeling joyous over Fang Bai's refusal.
