

Doctor 2621

Chapter 2621: Emperor's Palace Mark

Fang Bai did not join the Carefree Palace, but stayed with the team, which made Fengyu Immortal Fairy and the other five immortals relieved and excited.

During these days, Fang Bai has been refining pills and setting up formations for the immortals within Bluewater Immortal City, earning a vast amount of cultivation resources. Ever generous, he also gave each of the five immortals including Fengyu Immortal Fairy a substantial amount.

To Fang Bai, the cultivation resources he parted with were not much, but for Fengyu Immortal Fairy and the five immortals, what they received was enough to cover ten years of cultivation needs.

Setting this aside, Fang Bai also gifted each of them a high-tier Immortal Artifact, significantly boosting their combat power.

Additionally, two team members whose cultivation level had reached Ninth Grade Immortal King Realm received Fang Bai's gift of an Immortal Emperor Level Creation Pill, providing strong support for their advancement to Immortal Emperor Realm.

"During your years living in Bluewater Immortal City, have you ever seen traces of the Emperor's Palace disciples?"

When Fang Bai was at the Carefree Palace, he wanted to meet the disciples of the Emperor's Palace but was declined by the Carefree Immortal Emperor. Feeling something was peculiar, he inquired with Fengyu Immortal Fairy and the five immortals.

"Fifty years ago, I had a brief encounter with a disciple from the Emperor's Palace who came to Bluewater Immortal City seeking shelter. But afterward, that disciple went missing. Later on, I heard from some immortals within the city that those disciples seeking shelter might have been hidden away by the Carefree Immortal Emperor in some secret locations to prevent them from being found and harmed by the top eight forces."

Fengyu Immortal Fairy pondered for a moment before she spoke.

"That secret location...is it within the city or outside?"

Fang Bai asked again.

Fengyu Immortal Fairy didn't think much of Fang Bai's repeated questions about the Emperor's Palace disciples, assuming it was merely out of curiosity, she said, "Many immortals speculate it should be outside the city..."

Fang Bai asked, "What makes you say so?"

Fengyu Immortal Fairy replied, "The Carefree Immortal Emperor often goes out and returns quickly, indicating he's not out for training but perhaps visiting the Emperor's Palace disciples. Furthermore, the Aoyue Immortal Emperor along with several high-level members under the Carefree Immortal Emperor have been absent for a long time. Many immortals speculate they might be staying with those disciples, responsible for their protection to prevent them from being found by the eight top forces."

"Then, are there still Emperor's Palace disciples within Bluewater Immortal City now?"

Fang Bai harbored a glimmer of hope.

Fengyu Immortal Fairy said, "I can't be sure about that. Perhaps some Emperor's Palace disciples didn't wish to hide in secret places and chose to reside within Bluewater Immortal City instead. It's said that Emperor's Palace disciples are skilled at hiding their aura, making it very difficult for other immortals to discern their true identity. So, it's not impossible that there might be Emperor's Palace disciples living in Bluewater Immortal City..."

Fang Bai nodded, considering that upon entering Bluewater Immortal City, he refrained from probing widely with his Divine Sense to avoid being noticed by the Carefree Immortal Emperor and his powerful subordinates.

Starting tomorrow, I will take advantage of roaming around the Immortal City, using my Divine Sense for a small-scale investigation.

If I can find traces of Emperor's Palace disciples in Bluewater Immortal City, perhaps I can trace it to discover where those disciples seeking shelter with the Carefree Immortal Emperor have been hidden over the years.

If that proves impossible, I'll have to find another way.

Although during past dealings with the Carefree Immortal Emperor, he always left the impression of righteousness and sincerity, upon meeting him again this time, I feel he has undergone some indescribable changes compared to a thousand years ago.

Having experienced the upheaval of the past Emperor's Palace, upon returning to the Immortal Realm, apart from disciples I've personally nurtured and a few well-known friends from the past, I won't easily trust any immortals in the Immortal Realm, including immortals like the Carefree Immortal Emperor with whom I've only had a few encounters, just to be safe.

Thus, upon arriving at Bluewater Immortal City, without seeing the Emperor's Palace disciples under the protection of the Carefree Immortal Emperor, I am not ready to reveal my true identity.

He spent a calm night within the Immortal Residence, and the next morning, Fang Bai instructed Fengyu Immortal Fairy to go to the Cultivation Resource Exchange Market, informing the other immortals waiting there for him to pause alchemy for a day, then disguised himself, left the Immortal Residence, and wandered around the Immortal City.

Of course, Fang Bai feigned roaming the Immortal City, but his true intention was to search for Emperor's Palace disciples.

As he went along, whenever he encountered an immortal, Fang Bai's Divine Sense would sweep over them, ensuring that even disciples who concealed their aura could not hide.

"Hmm? What is that..."

In a bustling corner of the Beast Taming Ground, Fang Bai's gaze focused and discovered a thumb-sized mark.

The mark seemed ordinary, as if casually carved by an immortal, but as the Emperor's Palace Master, Fang Bai knew it was a secret signal used for contact among the thirty-six battle generals of the Emperor's Palace, and even ordinary Emperor's Palace disciples wouldn't recognize it.

"The one who left this mark is still within the Immortal City. But...which of the thirty-six battle generals of the Emperor's Palace could it be?"

Fang Bai brushed his fingers over the mark, feeling a surge of excitement.

The thumb-sized mark wasn't just ordinary; it contained numerous messages, and those who could decipher it could track down the immortal who left it.

Fang Bai took a deep breath, suppressing the tumult of emotions, and departed the Beast Taming Ground, heading towards a certain Immortal Residence within Bluewater Immortal City.

A few hundred breaths later, Fang Bai stood before a secluded and simple Immortal Residence.

This Immortal Residence, with relatively low rent, was inhabited by Immortal King Realm experts, who were considered the lowest tier within Bluewater Immortal City, and rarely drew attention from other immortals.

This Immortal Residence was unlike the superior ones where Fang Bai lived, which had Defensive Arrays to prevent other immortals from entering, thus Fang Bai easily appeared within the courtyard of the Immortal Residence.

Within the Immortal Residence were only one large and one small Immortal Hall, both incomparable in size and luxury to the superior Immortal Residences.

After entering the courtyard, Fang Bai's gaze fell upon the door of the slightly larger Immortal Hall, his Divine Sense penetrating through the door into the hall's interior.

Inside the Immortal Hall, a lean immortal sat cross-legged; outwardly, he appeared to have only Seventh Grade King Realm cultivation level, but as Fang Bai's Divine Sense swept over his body, it detected the distinctive aura of an Emperor's Palace disciple.

The lean immortal not only suppressed his realm but also concealed his aura exceptionally well. Besides Fang Bai, there were likely few immortals who knew his true identity as an Emperor's Palace disciple.

Fang Bai waved his hands, scattering numerous Immortal Stones around the Immortal Residence, then swiftly marked a series of formations, using only ten breaths or so to set up a meticulous Isolation Formation around the Immortal Residence, completely sealing off its happenings from the outside.

"Tianzhi...come out!"

Fang Bai softly called towards the door of the Immortal Hall.

Chapter 2622: The Despicable Immortal Emperor

"Buzz..."

As Fang Bai's voice just fell, the grand door of the Immortal Hall opened wide, and a figure darted out from within.

The figure stopped three yards in front of Fang Bai, staring at Fang Bai intently, with body trembling slightly.

It was an Immortal with handsome features and a lean face, somewhat pale in complexion. The visible cultivation level was the seventh-grade Immortal King Realm, but only Fang Bai knew the true power hidden beneath the surface was like a seething volcano deep underground, ready to erupt with a world-shaking force.

"You..."

The lean Immortal sensed a familiar aura from Fang Bai but found his appearance so unfamiliar, causing him to be momentarily stunned.

"Let's talk inside the Immortal Hall."

Fang Bai said, his form disappearing from the spot, appearing in the next moment within the Immortal Hall.

The lean Immortal took a deep breath, suppressing his inner excitement, and returned to the Immortal Hall as well.

"In that battle a thousand years ago, I wasn't completely destroyed... My current physical body was taken from the mortal world..."

Facing the lean Immortal, Fang Bai did not waste any words and slowly recounted his story of seizing a body in the mortal world and returning to the Immortal Realm to him.

As he spoke, he continually circulated the Emperor's Palace Immortal Technique, demonstrating the Emperor's Palace Secret Art to prove his identity.

The lean Immortal stood with hands lowered, quietly listening, silently observing, his eyes gradually reddening, and his body trembling once more.

"Palace Master..."

As Fang Bai stopped, smiling over at him, the lean Immortal choked up, bowing deeply to Fang Bai.

"Tianzhi, formalities are unnecessary!"

Fang Bai looked up and down at the "Tianzhi Immortal Emperor," one of the thirty-six great warriors of the Emperor's Palace, feeling deeply moved, he sighed: "After a thousand years, who would've thought we would meet again."

They had previously disguised themselves, hiding their original aura, but now had restored their previous life's appearance, no longer concealing their aura.

Tianzhi Immortal Emperor straightened up, wiped the tears from the corner of his eye, and nodded, saying: "Indeed! During the battle at the Emperor's Palace in the past, it was thought that you, Palace Master, were killed by the eight top Immortal Emperors, body and soul alike, but never expected you to escape calamity in this manner..."

Fang Bai smiled bitterly: "Though I escaped one calamity, I need to restart my cultivation from scratch. It will probably take a long time to recover to my peak from the past. As for avenging the eight top Immortal Emperors, who knows when that will be."

Tianzhi Immortal Emperor said: "The revenge matter, we've waited a thousand years, no need to rush for now. When Palace Master's strength is fully restored, we can plan again at that time."

Fang Bai chatted with Tianzhi Immortal Emperor about past events, then asked about the Emperor's Palace disciples in Bluewater Immortal City.

"I heard that over the thousand years, many Emperor's Palace disciples have come to Bluewater Immortal City, hoping to receive the protection of the Carefree Immortal Emperor, to escape the pursuit of the eight top forces..."

Fang Bai recalled the previous meeting with the Carefree Immortal Emperor and, frowning, said: "But when I previously met with the Carefree Immortal Emperor, and asked to see the Emperor's Palace disciples, I was refused... Intuition tells me the Carefree Immortal Emperor has no interest in discussing this matter with me, nor any intention to lead me to see the Emperor's Palace disciples..."

"Carefree Immortal Emperor... Carefree Immortal Emperor... heh heh..."

When mentioning the words "Carefree Immortal Emperor," Tianzhi Immortal Emperor's tone was filled with a sense of sorrow and indignation, resentfully said: "That Immortal Emperor, on the surface, appears upright and dignified, but in truth, he's a despicable and shameless Immortal! Over the years, all the Emperor's Palace disciples who sought refuge with him were deceived by him!"

Fang Bai's heart tightened, and he asked sharply: "What is really going on?"

He previously felt something was off about the Carefree Immortal Emperor, but he couldn't pinpoint exactly what it was. Upon hearing Tianzhi Immortal Emperor's words, he finally understood a bit.

Tianzhi Immortal Emperor seemed extremely furious with the Carefree Immortal Emperor, his eyes red, said angrily, "Over a thousand years, at least hundreds of Emperor's Palace disciples, full of trust, came to seek refuge with the Carefree Immortal Emperor, but who would've thought that after arriving in Bluewater Immortal City, they would be imprisoned by the Carefree Immortal Emperor..."

"What is the Carefree Immortal Emperor doing this for?"

Fang Bai's gaze turned sharp, fists clenched tightly, an aura of Evil Qi emanating.

Tianzhi Immortal Emperor sensed this aura, greatly astonished in his heart, thought the Palace Master, though only at the mid-level of the Immortal Emperor Realm, how is this aura he releases so astounding?

If it were a slightly weaker Immortal, under the influence of this aura, they might become confused, developing illusions of a Corpse Mountain Blood Sea.

How could he know that the Blood Fiend Mad Blade, this kind of Divine Artifact, had long been taken by Fang Bai into his Sea of Consciousness, over time, almost merged with his body, naturally releasing the aura from between his brows and Sea of Consciousness when angry.

Fang Bai knew that there had always been hostility between the Carefree Immortal Emperor and the eight top Immortal Emperors, but what was his purpose in imprisoning the Emperor's Palace disciples?

"He wants the Immortal Technique Secrets of our Emperor's Palace!"

Tianzhi Immortal Emperor gritted his teeth and said: "The Carefree Immortal Emperor, in order to learn our Emperor's Palace Immortal Technique Secrets, imprisoned our Emperor's Palace disciples in some secret location, then used both coercion and enticement to interrogate them... With such despicable methods, he can be compared with the eight top Immortal Emperors!"

Fang Bai frowned deeply, said: "These matters, did you discover them?"

Fang Bai knew Tianzhi Immortal Emperor was always cautious; he wouldn't act unless fully confident. He must have discovered some clues before changing his identity, suppressing his cultivation level, and concealing his aura before entering Bluewater Immortal City, living in the Immortal Residence to investigate news about the Emperor's Palace disciples.

Though he was acting right under the nose of the Carefree Immortal Emperor, the Carefree Immortal Emperor couldn't always stay in Bluewater Immortal City, and he had learned many wondrous Immortal Technique Secrets from Fang Bai in his past life. Taking advantage of the Carefree Immortal Emperor's absence, he could always find out something.

"I entered Bluewater Immortal City a hundred years ago. Although rumors said the Carefree Immortal Emperor was at odds with the eight top Immortal Emperors and provided protection to the Emperor's Palace disciples, I was still cautious. I first found a way to enter Bluewater Immortal City, then tried to contact the Emperor's Palace disciples within the Immortal City, but found no trace of any of them... I subconsciously felt something was wrong, so I never revealed my identity to the Carefree Immortal Emperor..."

"Later, I probed further and made a friendship with an Immortal Emperor Realm expert under the Carefree Immortal Emperor using some rare cultivation resources. I used the Soul Capturing Heart Refining Technique on him and finally found out some insider information..."

The more Tianzhi Immortal Emperor spoke, the more agitated he became, said with eyes wide in anger: "Pity our hundreds of Emperor's Palace disciples have been imprisoned by the Carefree Immortal Emperor in Carefree Valley outside the city for centuries. Later, other Emperor's Palace disciples came to Bluewater Immortal City one after another, only to end up in the same fate. The Carefree Immortal Emperor frequently goes to Carefree Palace to interrogate the Emperor's Palace disciples, trying to extract the Emperor's Palace Immortal Technique Secrets from them..."

Chapter 2623: Emperor's Instruments Stir Immortal Hearts

Fang Bai stood tall, listening to Tianzhi Immortal Emperor recount the discoveries of the past years. Evil Qi swirled around him, and the coldness in his eyes grew more intense.

Having lived through two lifetimes and survived a great catastrophe, Fang Bai had learned to control his emotions well. No matter how significant the issue, he wouldn't shout or lose his composure.

"To prevent our Emperor's Palace disciples from escaping, the Carefree Immortal Emperor sealed their Qi Sea and dispatched Aoyue Immortal Emperor and other experts to guard Carefree Valley... Those disciples imprisoned not only lost their freedom but also suffered unknown torments..."

As Tianzhi Immortal Emperor spoke, his eyes brimmed with tears, and he choked out, "Palace Master, though we can delay the matter of revenge, we must find a way to rescue those Emperor's Palace disciples trapped in Carefree Valley first. Otherwise... I fear they will be harmed by the Carefree Immortal Emperor..."

"Indeed. We will."

Fang Bai nodded slowly, his expression grave.

Although Fang Bai had suspicions after discovering the Carefree Immortal Emperor's abnormalities, he had not imagined that the revered Immortal Venerable would imprison the Emperor's Palace disciples, attempting to learn the Emperor's Palace Immortal Technique Secrets from them.

Such behavior was indeed despicable.

According to Tianzhi Immortal Emperor, initially, over a hundred disciples were imprisoned in Carefree Valley, with the number gradually nearing two hundred.

This number, for the Emperor's Palace, which had lost more than half of its disciples a thousand years ago, constituted a considerable force.

Thus, these Emperor's Palace disciples must be rescued at all costs.

Tianzhi Immortal Emperor said, "I only regret my lack of strength. Although I have the heart to save them, I am powerless! All these years, I could only hide in the Bluewater Immortal City, silently waiting for an opportunity... Heaven be praised, finally awaiting your return today, Palace Master!"

"Do you know where Carefree Valley is?"

Fang Bai pondered and asked.

Tianzhi Immortal Emperor paused, then shook his head in dismay, "It's said to be a secret place outside Bluewater Immortal City, with a Concealment Formation set up by the Carefree Immortal Emperor. I have searched many times under the guise of training outside the city, but unfortunately, I have never found it..."

Fang Bai said, "The Carefree Immortal Emperor was an array genius rarely seen in the Immortal Realm. In the past, besides me, his Array Art was considered unmatched. Naturally, the formations he set up would not be easily discovered by other immortals..."

Tianzhi Immortal Emperor, thinking of the Emperor's Palace's Array Path, which was once unparalleled in the Immortal Realm, couldn't help but become excited again, saying, "The Carefree Immortal Emperor could never have expected that the Palace Master escaped a catastrophe a thousand years ago and has now returned to the Immortal Realm! With the Palace Master here, finding Carefree Valley won't be a problem!"

Fang Bai said, "Finding it should be possible, but what about after finding it? From what you said, guarding Carefree Valley, besides Aoyue Immortal Emperor, there seem to be many powerful experts. Can you and I, joining forces, be certain of rescuing those nearly two hundred Emperor's Palace disciples?"

"This..."

Tianzhi Immortal Emperor was stunned.

In the past, all one hundred thousand disciples of the Emperor's Palace admired the Palace Master, believing that as long as he was present, there was no unsolvable problem.

But now, the Palace Master's strength was far from its peak, and even teaming up with him, they might not be a match for the Carefree Immortal Emperor, let alone the Aoyue Immortal Emperor-led guards of Carefree Valley. They might not be able to rescue the disciples and could inadvertently alarm the enemy.

"This matter... requires careful planning to devise a feasible strategy..."

Fang Bai muttered, and then he and Tianzhi Immortal Emperor began whispering in the Immortal Residence.

...

"At Red Dawn Mountain a million miles away, an Emperor's Instrument has appeared!"

Several days later, a group of immortals from Bluewater Immortal City, returning from their adventures, brought back this news, which instantly ignited all of Bluewater Immortal City, exciting the million immortals.

Emperor's Instruments, used by Emperor Realm experts, could shatter mountains and seas, break through the void, and possess immense power.

However, in the current Immortal Realm, the number of Emperor Realm artifact refiners capable of crafting Emperor's Instruments could be counted on one hand.

Furthermore, crafting an Emperor's Instrument was exceedingly difficult, requiring not only rare materials from the Immortal Realm but also a tremendous expenditure of time and energy during the crafting.

A single Emperor's Instrument often took ten to twenty years to craft, and the artifact refiner would need to recover for at least three to five years afterward.

Therefore, the few artifact refiners in the Immortal Realm capable of crafting Emperor's Instruments seldom took action lightly.

And now, some Immortal Emperors in the Immortal Realm found themselves in the awkward position of having no Emperor's Instruments available, naturally rendering their combat power slightly inferior to those with Emperor's Instruments.

The administrator of Bluewater Immortal City, the Carefree Immortal Emperor, was one of the Emperor Realm experts without an Emperor's Instrument.

Gathering the materials to craft an Emperor's Instrument required extraordinary fortune beyond the reach of ordinary immortals.

Persuading an artifact refiner to create an Emperor's Instrument demanded a deep friendship with the refiner.

Both factors were indispensable.

The Carefree Immortal Emperor spent a thousand years collecting the necessary materials to craft an Emperor's Instrument.

But when he sought the contemporary Emperor Realm artifact refiners, they were either in long-term isolation or wandering the Immortal Realm.

Eventually, he managed to encounter an idle Emperor Realm artifact refiner, but the refiner was too lazy to take on the task, even when offered immense rewards.

This left the Carefree Immortal Emperor frustrated but helpless.

Having no choice, the Carefree Immortal Emperor had to wait for news from other Emperor Realm artifact refiners.

It could be said that an Emperor's Instrument was highly enticing to the current Immortal Emperors, not to mention the Immortal Emperor Realm and Immortal King Realm experts below.

For Immortal Emperor and Immortal King Realm experts, obtaining an Emperor's Instrument might mean being unable to control it or use it effectively in battle.

But they all understood the principle of "treasures finding their predestined," thinking it worthwhile to try their luck. Who knows, the Emperor's Instrument might recognize them as its master?

Getting an Emperor's Instrument and not being able to control it immediately wasn't a problem. Who's to say they won't advance to Emperor Realm experts in the future?

Otherwise, they could trade the Emperor's Instrument with another Emperor Realm expert for unimaginable benefits.

So after receiving this news, the immortals of Bluewater Immortal City couldn't sit still, inviting friends and companions, riding auspicious clouds, or mounted on immortal birds and beasts, all rushing to Red Dawn Mountain.

Even the Carefree Immortal Emperor couldn't contain his excitement, tearing through the void, traversing endless space to reach Red Dawn Mountain at the fastest speed.

In less than half a day, Bluewater Immortal City, with its million immortals, seemed empty, with only a few remaining who knew their place.

As for Fengyu Immortal Fairy and the other five immortals, they were all emotional, preparing to head to Red Dawn Mountain for a chance encounter.

Fang Bai advised them once, and seeing their firm stance, he said no more.

"Live or die, it rests upon their fate..."

After Fengyu Immortal Fairy and the other five immortals left, Fang Bai said to Tianzhi Immortal Emperor.

Chapter 2624: Carefree Valley

Outside Bluewater Immortal City by a million li, Red Dawn Mountain was originally an unknown mountainous area.

However, one day, a red radiance suddenly shot up to thirty thousand zhang, with red clouds spreading over three thousand li.

Many immortals were alerted, either releasing their divine sense or flying above Red Dawn Mountain to observe.

Not long after, news spread like wildfire that an Emperor's Instrument had appeared on Red Dawn Mountain, attracting countless immortals to rush there.

That Emperor's Instrument was entirely crimson, as if condensed from blood, emitting a strong evil qi that could bewilder the minds of immortals. Even Immortal Emperor Realm Peak experts dared not approach too closely.

If anyone familiar with Fang Bai and those immortals were present, they would know that the so-called Emperor's Instrument was the Blood-Drinking Mad Blade.

At this moment, the Blood-Drinking Mad Blade was slanted into the summit of the main peak, Red Dawn Peak, of Red Dawn Mountain.

Before Carefree Immortal Emperor arrived at Red Dawn Mountain, tens of thousands of immortals had already gathered on the mountain tops, a hundred li away from Red Dawn Peak, pointing and observing the Blood-Drinking Mad Blade from afar.

Additionally, numerous immortals were arriving from all directions.

When Carefree Immortal Emperor tore through the void and appeared before the immortals, they were all astonished.

Carefree Immortal Emperor was the first Emperor Realm expert to arrive on the scene.

It was foreseeable that in the time to come, the Emperor Realm experts attracted by the Blood-Drinking Mad Blade would not be limited to just Carefree Immortal Emperor.

And with a Celestial Emperor present, the chances for other lower realm immortals to obtain the Emperor's Instrument diminished greatly.

Yet, no immortals hesitated because of this.

In their minds, even if they couldn't get the Emperor's Instrument, witnessing the grand event of immortals vying for it would be worthwhile.

"This Emperor's Instrument faintly exudes an ancient aura; it should be crafted by a mighty expert from that era!"

Carefree Immortal Emperor stood suspended at the forefront of the immortals, looking at the Blood-Drinking Mad Blade with ardent eyes.

Among the Emperor Realm experts he had previously encountered, some had Emperor's Instruments, but in his eyes, none could compare to the blood blade slanted at the top of Red Dawn Peak.

However, he also understood that an Emperor's Instrument has high spirituality and consciousness. Without fate, even if an immortal with great strength snatched it and claimed it as their own, it would not recognize them as its master.

Even for a Celestial Emperor, acquiring an Emperor's Instrument that does not recognize them as its master would render the instrument nearly useless, similar to wielding a firewood stick.

Therefore, after arriving at Red Dawn Peak, Carefree Immortal Emperor did not rush to seize the Blood-Drinking Mad Blade. Instead, he sat cross-legged in the void, releasing his aura to enclose the Blood-Drinking Mad Blade, attempting to communicate with it using his divine sense.

Afterwards, several more Celestial Emperors arrived one after another and, like Carefree Immortal Emperor, sat cross-legged around Red Dawn Peak, eagerly watching the Blood-Drinking Mad Blade, waiting for an opportunity to act.

The most powerful top-tier Celestial Emperors in the Immortal Realm, perhaps being too far away to receive the news of the Emperor's Instrument emergence, had not appeared.

Without those strong competitors, the Celestial Emperors present secretly breathed a sigh of relief.

None of the immortals realized that the Emperor's Instrument, exuding an ancient aura, already had a master.

.....

"Palace Master, could your Blood-Drinking Mad Blade be subdued by any Celestial Emperor?"

In Bluewater Immortal City, Tianzhi Immortal Emperor looked at Fang Bai, who had just returned from Red Dawn Mountain, and asked with a worried expression.

Fang Bai smiled and said, "The Blood-Drinking Mad Blade has long recognized me as its master. Moreover, I've inscribed nine layers of protective formations on the blade. Even for an Array Master like Carefree Immortal Emperor, breaking even one layer would be quite challenging, let alone all nine."

He paused, then continued, "In addition, I've set up multiple defense arrays on Red Dawn Peak. Immortals as powerful as Celestial Emperors would find it nearly impossible to break through these defense arrays."

Tianzhi Immortal Emperor breathed a sigh of relief, saying, "So it seems no immortals can obtain your Blood-Drinking Mad Blade?"

Fang Bai said, "We can't rule out the possibility of a Celestial Emperor using powerful mana to get the Blood-Drinking Mad Blade in their hands! But for any Celestial Emperor today to subdue the Blood-Drinking Mad Blade and make it serve them, it's absolutely impossible!"

Fang Bai had long suspected that the Blood-Drinking Mad Blade, Houyi Bow, and Five Elements Origin Qi Cauldron he obtained might be the legendary "Divine Artifacts" that surpassed Immortal Artifacts.

Ordinary Celestial Emperors find it difficult to obtain an Emperor's Instrument and wield it effectively, let alone a Divine Artifact.

Of the three Divine Artifacts, Fang Bai used the Blood-Drinking Mad Blade the most, and it had become like a part of his body. As long as he willed it, no matter where the Blood-Drinking Mad Blade was, it would sense his call and fly back to him.

Thus, Fang Bai was not afraid of any immortal obtaining the Blood-Drinking Mad Blade.

Indeed, the Blood-Drinking Mad Blade that appeared on Red Dawn Peak was Fang Bai's doing.

He placed the Blood-Drinking Mad Blade on Red Dawn Peak intending to use this "Emperor's Instrument" to draw Carefree Immortal Emperor away from Bluewater Immortal City, so he and Tianzhi Immortal Emperor could execute their plan to rescue the captured disciples from Carefree Valley.

As expected, upon hearing the news, Carefree Immortal Emperor immediately left Bluewater Immortal City, along with many immortals within the city, lured away.

This greatly delighted Fang Bai and Tianzhi Immortal Emperor.

Estimating that Carefree Immortal Emperor had left Bluewater Immortal City by several hundred thousand li, Fang Bai then departed the city together with Tianzhi Immortal Emperor.

Though Carefree Valley was secretive, it lay within several tens of thousands of li from Bluewater Immortal City. Familiar with formations, Fang Bai did not take long before detecting a trace of formation aura fluctuations amidst a dense forest.

"Here it is!"

Fang Bai and Tianzhi Immortal Emperor arrived in the forest, gazing at a row of colossal ancient trees stretching a hundred zhang high, their hands moving gradually in the air.

In a moment, radiant formation seals materialized one by one. Fang Bai gently pushed forward, causing the seals to rapidly advance, affixing themselves to the row of giant trees.

The trees trembled slightly before disappearing. Fang Bai and Tianzhi Immortal Emperor focused their eyes, revealing an expanse of mountains over ten thousand li wide.

Fang Bai turned, his hands moving like lightning, again sketching out formation seals, sealing the entrance they just uncovered.

At this point, even if Carefree Immortal Emperor returned, entering inside would require a considerable effort.

And those immortals within these mountains would find it impossible to leave.

"Let's go!"

Fang Bai and Tianzhi Immortal Emperor no longer hid their aura. After probing the mountains for a moment with their divine sense, they flew towards a valley within.

Before they reached the valley, a dozen or so immortals flew towards them, blocking their path.

Those dozen immortals were all Immortal Emperor Realm experts, led by a towering giant with a cultivation level at Immortal Emperor Realm Peak, comparable to Tianzhi Immortal Emperor.

Fang Bai and Tianzhi Immortal Emperor recognized the giant as Aoyue Immortal Emperor, a trusted adherent of Carefree Immortal Emperor responsible for guarding Carefree Valley.

Chapter 2625: Leave Your Life Here

"Aoyue Immortal Emperor..."

Tianzhi Immortal Emperor looked at the giant man a hundred feet away, a sharp light bursting in his eyes, fury rising in his chest, and his fists clenched tightly.

It was this giant man, honored as the "Aoyue Immortal Emperor," who heavily injured a disciple of the Emperor's Palace trapped in the Carefree Valley, leaving his life hanging by a thread and his fate unknown.

"A blood debt must be repaid with blood!"

Before coming to Carefree Valley, Fang Bai said this in a deep voice, also declaring the death sentence for Aoyue Immortal Emperor.

Just now, Aoyue Immortal Emperor was meditating in Carefree Valley when he suddenly sensed two unfamiliar auras breaking in, flying towards Carefree Valley. Moreover, this was a combination of an Immortal Emperor Realm Peak expert and a Mid-level Immortal Emperor Realm expert. He was shocked, immediately gathering a group of subordinates to meet them.

"Which immortals are you?"

Sensing the fury and killing qi from Tianzhi Immortal Emperor's body, Aoyue Immortal Emperor instantly became vigilant, realizing that the other party was an enemy, not a friend.

The dozen or so immortals around Aoyue Immortal Emperor moved in an interlocking formation, already surrounding Fang Bai and Tianzhi Immortal Emperor, blocking all their escape routes.

Carefree Valley is a hidden place, imprisoning nearly two hundred disciples of the Emperor's Palace. If the events here were to leak out, it would not only cause strong dissatisfaction among the eight top forces but also thoroughly offend the Emperor's Palace disciples scattered throughout the Immortal Realm, dealing a huge blow to the reputation of the Carefree Immortal Emperor.

Therefore, Aoyue Immortal Emperor decided that under any circumstances, he could not let these two immortals in front of him go.

"Leave Aoyue Immortal Emperor to you, I'll handle the rest!"

"Alright!"

Neither Fang Bai nor Tianzhi Immortal Emperor paid any attention to Aoyue Immortal Emperor. One summoned an Immortal Artifact, hurling it at Aoyue Immortal Emperor, while the other launched heavy fist shadows, simultaneously attacking the other dozen immortals.

The one launching heavy fist shadows was Fang Bai.

To rescue the disciples of the Emperor's Palace imprisoned in Carefree Valley as quickly as possible, he made no reservations with this strike.

Among the dozen immortals of the Carefree Palace, aside from Aoyue Immortal Emperor, the rest were composed of initial and mid-level Immortal Emperor Realm experts. Although their overall strength was formidable, Fang Bai, with his ability to challenge across levels, unleashed a full-force strike with tremendous power, forcing those dozen immortals back instantly.

Laughing heartily, Fang Bai, moving like lightning, broke through the encirclement of the dozen immortals and fled towards Carefree Valley.

"Chase! Stop him!"

Aoyue Immortal Emperor was entangled by Tianzhi Immortal Emperor and couldn't break free. In a fit of rage, he shouted loudly.

Seeing Fang Bai heading towards Carefree Valley, he knew that these two suddenly intruding immortals were there for the Emperor's Palace disciples imprisoned inside.

From this, he also deduced that these two immortals must either be part of the eight top forces or Emperor's Palace disciples.

Only these two forces would have the motive to break into Carefree Valley.

A dozen immortals immediately transformed into streaks of light, chasing after Fang Bai, leaving Aoyue Immortal Emperor to battle Tianzhi Immortal Emperor.

"Tian... Tianzhi Immortal Emperor! It's you!"

When Aoyue Immortal Emperor clearly saw the Immortal Artifact summoned by Tianzhi Immortal Emperor, his eyes widened suddenly, filled with disbelief.

In the past, while traveling the Immortal Realm, Aoyue Immortal Emperor had met Tianzhi Immortal Emperor several times, so they were somewhat familiar with each other, which is why he recognized that Immortal Artifact.

Moreover, when Tianzhi Immortal Emperor summoned the Immortal Artifact to attack, the aura unique to an Emperor's Palace disciple emanated from his body. Therefore, even though Tianzhi Immortal Emperor did not reveal his true face at this moment, Aoyue Immortal Emperor instantly guessed his identity.

"Heh..."

Tianzhi Immortal Emperor sneered coldly, his face twisted, speaking no words, and the momentum of his attack intensified.

Ever since knowing about the imprisonment of a large number of Emperor's Palace disciples in Carefree Valley, he had hated everyone in the Carefree Palace, enduring for many years in Bluewater Immortal City, just waiting for a chance to rescue his fellow disciples.

Aoyue Immortal Emperor was responsible for guarding Carefree Valley and heavily injuring the Emperor's Palace disciples. Upon hearing this, Tianzhi Immortal Emperor had long listed him as a sworn enemy to be killed in the future. Now that they met, he vented all his fury onto him.

Though Tianzhi Immortal Emperor's realm and cultivation level were comparable to Aoyue Immortal Emperor's, the Immortal Technique Secrets of the Emperor's Palace were more powerful. Coupled with the fact that the Immortal Artifact Tianzhi Immortal Emperor used was crafted and refined by Fang Bai, he had the upper hand in combat power.

Aoyue Immortal Emperor's concern was Fang Bai's side; once those Emperor's Palace disciples were rescued, the Carefree Immortal Emperor would never spare him upon return.

He wanted to break free and stop Fang Bai, but was suppressed firmly by Tianzhi Immortal Emperor. Furthermore, distracted, he almost got hit by the Immortal Artifact, breaking out into a cold sweat.

"Tianzhi Immortal Emperor... I will never make peace with you... I will tear you limb from limb... I... ah..."

Seeing Fang Bai rushing into Carefree Valley, Aoyue Immortal Emperor was both angry and anxious, his eyes blood-red, and he cried out loudly.

"Aoyue old man, for injuring my Emperor's Palace disciples, leave your life here!"

Tianzhi Immortal Emperor, his face stern, eyes flashing with cold light, slammed down the Immortal Artifact, while simultaneously unleashing a Meteor Shower Fist.

.....

Carefree Valley covers an area of a hundred Baili, with a dozen large and small Immortal Halls built in an orderly manner.

The central Immortal Hall, covering an area of ten Baili, is the largest but occupies the lowest terrain.

The rest of the dozen or so Immortal Halls are built in a ring around the valley, forming an encircling force around the central Immortal Hall.

If an Array Master were here, they would find that the central Immortal Hall is isolated from the outside by several layers of formations. Unless proficient in formations, the immortals inside the hall could not take a single step out without breaking these formations one by one.

Fang Bai's figure landed inside Carefree Valley, his gaze immediately fixed on the central Immortal Hall. His Divine Sense penetrated through the layers of formations, sensing nearly two hundred auras belonging solely to the Emperor's Palace disciples.

"They should all be here..."

Fang Bai murmured, about to step forward to break the formation and enter.

At this moment, a dozen immortals from Carefree Palace landed around him, once again surrounding him.

"Leave no one alive!"

Fang Bai said coldly, without pausing, continuing forward.

"Whoosh whoosh whoosh whoosh..."

The sound of wind sharply whistling, as Wuheng, Wuji, Wuyin, and Wuzong—the four High Rank Immortal Emperor Realm experts turned into Puppet Corpses by Fang Bai—appeared around him out of thin air, and then launched attacks on the somewhat stunned immortals of Carefree Palace.

The four High Rank Immortal Emperor Realm experts turned into Puppet Corpses, facing the dozen initial and mid-level Immortal Emperor Realm experts, held an overwhelming advantage. Amidst the rising and falling screams, several Carefree Palace immortals were slain and perished, and the rest, seeing the situation turning unfavorable, fled, trying to escape.

However, this array had been altered by Fang Bai and was no longer the Immortal Array they were familiar with. They couldn't decipher it, so where could they escape?

Before a hundred breaths passed, the dozen Carefree Palace immortals fleeing in all directions were all slain by the four Puppet Corpses.

By this time, Fang Bai had also broken the several layers of formations outside the central Immortal Hall in the valley, standing before its gates.

Fang Bai took a deep breath, suppressing his excitement, his hands pushing forward in a virtual gesture. An immortal power pushed the hall doors open, and then he stepped inside.

Chapter 2626: You Don't Recognize Me?

Inside the Immortal Hall, shadows shifted as nearly two hundred immortals sat cross-legged on the ground.

When the hall doors opened, light cast on them, revealing their pale faces and haggard appearances.

These immortals were originally strong figures either in the Immortal King realm or the Immortal Emperor realm, yet at this moment, not a hint of their former power emanated from them.

This situation could only mean one thing: their Qi Sea had been sealed, leaving them unable to exert their mana at all.

Fang Bai's gaze fell on an immortal curled up on the ground, barely clinging to life, his vitality weak, already on the brink of death.

Fang Bai felt that if he had arrived a few days later, this immortal's flame of life might have completely extinguished.

Under the gaze of nearly two hundred immortals, Fang Bai strode to the side of the curled-up immortal.

He checked the damage to the immortal's Qi Sea and found it to be more severe than he'd imagined, causing his brow to furrow as he cursed under his breath, "Aoyue Immortal Emperor... damnable!"

He casually stuffed a superior Immortal Emperor level Nine Revolutions Rebirth Pill into the immortal's mouth, then transferred a thread of Chaos Immortal Qi into his body.

The Nine Revolutions Rebirth Pill, not only capable of limb regeneration but also reshaping the Qi Sea, is a supreme healing immortal pill.

The nearly two hundred immortals in the Immortal Hall were all disciples of the Emperor's Palace, scattered across the Immortal Realm after its fall a millennium ago.

After hearing that the Carefree Immortal Emperor had fallen out with the top eight powers and was willing to protect the Emperor's Palace disciples, they rushed over, only to be imprisoned in this Carefree Valley.

Their Qi Seas were sealed by the Carefree Immortal Emperor, unable to circulate immortal laws, losing all combat strength, and all their cultivation resources were confiscated by the Carefree Immortal Emperor.

Thus, after that Emperor's Palace disciple was severely injured by Aoyue Immortal Emperor, with no immortal pills available and loss of self-healing ability, the other Emperor's Palace disciples could only watch helplessly as his vitality slowly faded, feeling both grief and anger yet powerless.

"A superior Immortal Emperor level Nine Revolutions Rebirth Pill!"

"He carries the unique aura of our Emperor's Palace disciples, could it be that a fellow disciple has come to rescue us?"

When they saw Fang Bai take out an immortal pill and place it into the mouth of that Emperor's Palace disciple, exclamations of surprise resounded within the Immortal Hall.

The nearly two hundred Emperor's Palace disciples looked at Fang Bai, perceiving the familiar aura on him, their faces lighting up with joy.

Most of these immortals had their Qi Seas sealed, trapped in this Carefree Valley for hundreds of years.

To an immortal, enduring hundreds of years without seeing the light of day might be bearable, but being unable to cultivate for hundreds of years is a fate worse than death.

After being trapped in Carefree Valley, nearly two hundred Emperor's Palace disciples had already resigned themselves to die, not believing that any immortal would come to rescue them.

After all, since the downfall of the Emperor's Palace, the surviving disciples were scattered across the Immortal Realm, and even if they could gather some, they were no match for the Carefree Immortal Emperor; attempting to rescue them would be suicidal.

And though many Immortal Traced sects in the Immortal Realm sympathized with the downfall of the Emperor's Palace and maintained good relations, which sect would dare oppose the Carefree Immortal Emperor to rescue them?

But now, suddenly, an immortal appeared before them, bringing forth a superior Immortal Emperor level Nine Revolutions Rebirth Pill to save that severely wounded Emperor's Palace disciple.

However, this sudden appearance of an immortal, despite the Emperor's Palace disciple's unique aura, was unfamiliar to everyone present.

"Could this immortal be a disciple of the Emperor's Palace in heritage?"

Seeing this immortal's youthful looks, many Emperor's Palace disciples in the Immortal Hall speculated silently.

After Fang Bai gave the severely injured Emperor's Palace disciple the immortal pill and transferred a thread of Chaos Immortal Qi, he knew the disciple was no longer at risk of death, but full recovery would require some time.

"Seeing that you're all safe gives me peace of mind!"

Fang Bai's gaze swept over the nearly two hundred Emperor's Palace disciples inside the Immortal Hall, and he exhaled lightly, a look of relief on his face.

"You... are a fellow disciple of our Emperor's Palace?"

An Emperor's Palace immortal stood up, scrutinizing Fang Bai from head to toe, uncertainly asked.

Fang Bai glanced at the immortal, laughed heartily, and said, "Gushan Immortal Emperor, do you not recognize me?"

His face changed rapidly and instantly became another visage.

When they saw his current appearance clearly, the nearly two hundred Emperor's Palace immortals in the Immortal Hall all shuddered, and some immortals cried out in surprise, "Palace Master?"

Gushan Immortal Emperor, holding mid-realm Immortal Emperor cultivation, was one of the seventy-two generals of the past Emperor's Palace and the strongest among the trapped Emperor's Palace disciples now.

"You... you..."

When Fang Bai transformed into the appearance of the former Emperor's Palace Master, Gushan Immortal Emperor's eyes widened suddenly, his mouth opened, trembling and unable to speak.

In Gushan Immortal Emperor's eyes, Fang Bai in front of him, in both form and appearance, was exactly like the former Emperor's Palace Master, even the aura was identical, but the realm of cultivation differed too greatly, so he dared not acknowledge.

Just then, a miserable cry sounded from outside the Immortal Hall, and some Emperor's Palace disciples recognized the cry and said, "It's Aoyue Immortal Emperor!"

"Yes, it's Aoyue Immortal Emperor! I've already taken him down!"

With a deep voice resonating, the light in the Immortal Hall dimmed, and a tall figure swept inside, appearing before the immortals.

"Tian... Tianzhi Immortal Emperor!"

Some immortals exclaimed, faces filled with ecstasy.

"Haha, it's me! Fellow disciples, we meet again!"

The immortal who entered the Immortal Hall was none other than Tianzhi Immortal Emperor.

Earlier, Tianzhi Immortal Emperor and Aoyue Immortal Emperor had battled in Carefree Valley, and though Tianzhi held the advantage, he could not kill Aoyue quickly.

Fortunately, it wasn't long before the four Immortal Emperor realm high-rank puppet corpses released by Fang Bai, after eradicating over a dozen Carefree Palace disciples, formed an array to assist, and along with Tianzhi Immortal Emperor, slew Aoyue Immortal Emperor within several breaths.

Tianzhi Immortal Emperor walked up to Fang Bai, clasped his fists, and bowed, "Report to the Palace Master, Aoyue Immortal Emperor has been slain! What shall we do next?"

Among the many Emperor's Palace disciples in the Immortal Emperor realm, hearing Tianzhi call Fang Bai "Palace Master," all looked at Fang Bai in shock, their minds blank.

"Palace Master... did he not perish a thousand years ago?"

Every Emperor's Palace disciple thought the same.

"The Palace Master is here, why don't you come greet him quickly?"

Seeing the immortals standing still, Tianzhi Immortal Emperor lightly scolded, kicking Gushan Immortal Emperor on the backside, grumpily saying, "Why are you still standing there? I tell you, the Palace Master didn't truly perish back then... Well, let's talk about this later in detail!"

Gushan Immortal Emperor finally snapped out of his daze, then forced himself to calm down, pondering over the matter, seemingly realizing something, he became excited, stepping forward to pay deep respect to Fang Bai, saying, "Palace Master... you're... you're still alive... that's wonderful..."

Before he finished speaking, his eyes reddened, tears uncontrollably falling.

Chapter 2627: Destroy the Carefree Palace!

Within the Immortal Hall, the other Emperor's Palace disciples, after the return of the Gushan Immortal Emperor, gradually came to their senses.

Initially, they had some doubts about Fang Bai's identity, but the Tianzhi Immortal Emperor's remark, "The Palace Master did not truly perish years ago," dispelled their uncertainties.

Within the Immortal Realm, experts of the Emperor Realm possess incredibly powerful vitality; as long as a trace of their remnant soul remains, they have the possibility of seizing a body and being reborn.

Years ago, during the Emperor's Palace Master's assault by eight top-tier Immortal Emperors, he ultimately perished with both body and soul destroyed, an event that was spread across the entire Immortal Realm by the eight great forces, causing an uproar within the Immortal Realm.

However, those disciples of the Emperor's Palace who narrowly escaped from the battle refused to accept this fact; they stubbornly believed that the Palace Master might have only been injured in the siege by the eight top Immortal Emperors and had temporarily hidden within some Secret Realm to heal, and would eventually appear to lead them in revenge against the eight top forces.

Unfortunately, as a millennium passed, the Palace Master remained unseen, and those disciples scattered across the Immortal Realm finally despaired.

Yet no one anticipated that the Palace Master would appear in Carefree Valley alongside Tianzhi Immortal Emperor today.

The Palace Master before them, aside from his cultivation level being much weaker than his past life, was identical to before, so they were confident that the Palace Master had indeed performed the miraculous rebirth by seizing a body.

Comprehending this, the Emperor's Palace's immortals were filled with overwhelming joy, tears streaming like rain, rushing to pay respect before Fang Bai, "Greetings, Palace Master!"

Even the disciple who was healing himself at that moment prostrated on the ground, crying profusely.

He cried not from pain, but from happiness.

"Rise!"

Seeing so many Emperor's Palace disciples at once deeply excited Fang Bai, who supported them with both hands before speaking, "Tianzhi Immortal Emperor and I have been planning your rescue within Bluewater Immortal City for days, luckily we were not too late! With your addition, our Emperor's Palace disciples grow in number! In the future, rebuilding the Emperor's Palace and seeking revenge against the eight top forces, you are all crucial forces!"

The disciples of Emperor's Palace looked at Fang Bai fervently, clenched their fists, their blood boiling, hearts once again filled with hope, the extinct fighting spirit ignited anew, burning like wild flames.

The Gushan Immortal Emperor exclaimed excitedly, "Palace Master, do you mean... have you found more brethren?"

Fang Bai nodded, "Since returning to the Immortal Realm, I have been searching for Emperor's Palace disciples, and managed to find some. They are temporarily cultivating in some Secret Realms within the Immortal Realm, and in the future, they will gather around me upon my call!"

"Fantastic!"

Upon hearing this, some Emperor's Palace disciples couldn't help but cheer.

"In the past battle of the Emperor's Palace, fifty thousand of the hundred thousand disciples perished, sustaining heavy losses. Though our current strength is far from the eight top Immortal Emperors, with the Palace Master, the scattered disciples of the Emperor's Palace across the Immortal Realm will certainly reunite, along with the Sects allied with the Emperor's Palace within the Immortal Realm

vigorously supporting us. Soon, we will annihilate the eight top forces and revive the glory of the Emperor's Palace!"

The Tianzhi Immortal Emperor vigorously waved his fists, loudly boosting the morale of the Emperor's Palace disciples.

In fact, his encouragement was unnecessary; the Emperor's Palace disciples had already gained firm conviction upon seeing Fang Bai.

Fang Bai then shared the story of his remnants' survival, his subsequent body-seizing in the mortal realm, step-by-step cultivation, and finally returning to the Immortal Realm, causing amazement among the Emperor's Palace disciples.

"In the mortal realm, there's a saying, 'Survive a great calamity and there will be future blessings.' Haha, this saying couldn't be more fitting to me! The body I seized is considerably stronger than in my past life; along this journey, I've acquired several extraordinary treasures. Just wait and see, it won't take long for the eight top Immortal Emperors to tremble beneath my feet!"

Fang Bai spoke heroically and passionately.

The Tianzhi Immortal Emperor whispered, "Palace Master, we must leave now! The Carefree Palace in Bluewater Immortal City has discovered that the Soul Lamps of more than a dozen Immortal Emperor Realm experts have extinguished, it's undoubtedly chaotic at the moment, which is precisely our opportunity..."

Fang Bai said, "Good! Let's go and eliminate Carefree Palace! That rascal Carefree Immortal Emperor dared imprison our Emperor's Palace disciples, bringing them close to death, he won't get off lightly!"

He waved his left hand, and the Five Elements Space Ring glimmeringly flashed, immediately absorbing the injured Emperor's Palace disciple within.

"This..."

The Emperor's Palace disciples saw their comrades disappear, exchanging glances before collectively turning to Fang Bai.

Fang Bai raised his left hand to show them the Five Elements Space Ring, saying, "This Immortal Ring can contain living beings! Let Baohua Immortal King recover inside for now!"

A storage Immortal Artifact able to contain living beings is considered legendary within the Immortal Realm; even Emperor Realm Artifact Refiners cannot craft such, so unexpectedly, the Palace Master obtained this treasure, thrilling the Emperor's Palace disciples.

Nearly two hundred disciples within the Immortal Hall have been imprisoned in the Carefree Valley for years, cultivating deep hatred toward the Carefree Immortal Emperor. With the Palace Master leading them to destroy Carefree Palace, they prepared themselves eagerly, ready for battle.

Fang Bai released the Qi Sea seals of the immortals and distributed Immortal Pills for them to consume, waiting for their powers to recover before leaving together.

Outside the Immortal Hall, the immortals rejoiced under the radiant sky, feeling a sense of rebirth.

"These Immortal Halls have imprisoned us for years, just looking at them angers me! Destroy them!"

It's unclear who struck first, but the immortals began unleashing their Immortal Artifacts and demolished all the Immortal Halls within Carefree Valley.

Fang Bai collected the four Puppet Corpses outside the Immortal Hall into the Five Elements Space Ring, then took the Space Immortal Rings of the fallen disciples of Carefree Palace and handed them to the Tianzhi Immortal Emperor for safekeeping.

Moments later, the immortals left Carefree Valley, riding Auspicious Clouds towards Bluewater Immortal City.

.....

The Carefree Palace of Bluewater Immortal City, just as Fang Bai and the others anticipated, was now in utter chaos.

Not long ago, the disciple guarding the Soul Hall of Carefree Palace discovered the Soul Lamps of over a dozen Immortal Emperor Realm experts inside had suddenly extinguished, including the Soul Lamp of Aoyue Immortal Emperor.

This discovery shocked them greatly, prompting them to immediately report to Elder Jin Zhong Immortal Emperor, stationed at Carefree Palace.

Though the fall of other Immortal Emperors wasn't too alarming, the demise of Aoyue Immortal Emperor, an Immortal Emperor Realm Peak expert and the right-hand man of Carefree Immortal Emperor, represented a significant loss for Carefree Palace.

Moreover, the deaths of Aoyue Immortal Emperor and others indicated a major incident occurred at Carefree Valley.

Carefree Valley is an exceptionally secret place known only to Carefree Immortal Emperor and his four elders.

Now, with Carefree Immortal Emperor absent, Aoyue Immortal Emperor fallen, and the other two elders out training, Carefree Palace only has Jin Zhong Immortal Emperor in command.

Were Carefree Immortal Emperor present, it would be manageable with him overseeing the situation, but now he's a million miles away competing for the Emperor's Instruments, unlikely to return soon, having left no summoning jade token, which left Jin Zhong Immortal Emperor feeling anxious.

An enemy capable of killing more than a dozen experts of the Immortal Emperor Realm including Aoyue Immortal Emperor demonstrates immense strength, and if their next target is Carefree Palace, what will become of it?

Chapter 2628: Emperor's Palace Is Here on Business—Immortals, Do Not Interfere!

Amidst the anxiety and worries of the disciples of the Carefree Palace, led by Fang Bai, the immortals of the Emperor's Palace broke through the defensive array of Bluewater Immortal City and stormed into the city mightily.

Although Jin Zhong Immortal Emperor had somewhat anticipated this, he was still utterly shocked and incredulous when he saw the immortals of the Emperor's Palace outside the Carefree Palace.

In his view, these disciples of the Emperor's Palace imprisoned in Carefree Valley had their Qi Sea personally sealed by Carefree Immortal Emperor, which even ordinary Emperor Realm experts couldn't break.

But the disciples of the Emperor's Palace before him were brimming with Immortal Qi, their fighting spirit rising, their strength restored to its peak, clearly indicating that the seal on the Qi Sea had been broken.

What on earth was going on?

Furthermore, even if these Emperor's Palace disciples had fully restored strength, the combined power of over a dozen Immortal Emperor Realm experts from the Carefree Palace like Aoyue Immortal Emperor wasn't weak either. Normally, such a battle would result in heavy losses for both sides.

Yet now, the situation was such that the soul lamps of over a dozen Immortal Emperor Realm experts guarding the Carefree Valley like Aoyue Immortal Emperor were extinguished, all of them perished, while nearly two hundred disciples of the Emperor's Palace lost only one member, with the others unharmed.

How could this be?

Jin Zhong Immortal Emperor's gaze suddenly fell upon Fang Bai and Tianzhi Immortal Emperor.

These two immortals appeared very unfamiliar, but they carried the unique aura of the Emperor's Palace disciples, obviously indicating they were members of the Emperor's Palace.

Moreover, the nearly two hundred Emperor's Palace disciples present seemed to regard them as leaders.

Could it be that these two immortals rescued the imprisoned Emperor's Palace disciples in Carefree Valley?

But how could these two immortals, one at the peak of the Immortal Emperor Realm and the other a mid-level Immortal Emperor, possibly break into Carefree Valley under the watch of over a dozen Carefree Palace experts like Aoyue Immortal Emperor and lift the seal on the Qi Sea of the Emperor's Palace disciples?

Jin Zhong Immortal Emperor's mind was full of questions, but he couldn't get any answers.

"Kill!"

With a light command from Fang Bai, nearly two hundred disciples of the Emperor's Palace charged at Jin Zhong Immortal Emperor and other Carefree Palace disciples with burning hatred.

At this moment, about a thousand immortals guarded the Carefree Palace. Although they were numerous, only Jin Zhong Immortal Emperor was a peak Immortal Emperor Realm expert, with the majority being at the initial and mid-level Immortal Emperor Realm.

On the Emperor's side, Tianzhi Immortal Emperor's cultivation level was comparable to Jin Zhong Immortal Emperor's, also at the peak of the Immortal Emperor Realm.

Although Fang Bai's cultivation was at the mid-level Immortal Emperor Realm, he could challenge higher levels. With the help of several powerful Puppet Corpses and divine artifacts, his battle power was not inferior to both Tianzhi and Jin Zhong Immortal Emperors, who were peak Immortal Emperor Realm experts.

With Tianzhi Immortal Emperor restraining Jin Zhong Immortal Emperor, the numerous Carefree Palace disciples were nothing but a scattered lot in Fang Bai's eyes, not posing any threat.

Fang Bai led nearly two hundred Emperor's Palace disciples to form ten Immortal Arrays, encircling nearly a thousand disciples of the Carefree Palace.

The disciples of the Emperor's Palace, well-versed in the Array Path and cooperating skillfully, quickly established an overwhelming advantage.

The Carefree Palace disciples trapped within the Immortal Array had no means to counter the powerful slaughter of the Immortal Arrays.

Amidst the howls and screams, Carefree Palace disciples fell to the ground, dying one after another, with pleas for mercy beginning to echo.

"Leave no one alive!"

Fang Bai said coldly and expressionlessly.

The Carefree Palace belonged to Carefree Immortal Emperor. Originally, Fang Bai had some fellowship with Carefree Immortal Emperor, but over the centuries, Carefree Immortal Emperor's actions made Fang Bai deeply furious.

Although Fang Bai's current cultivation level was not enough to confront Carefree Immortal Emperor head-on, with Carefree Immortal Emperor absent, destroying the Carefree Palace was feasible.

Since the fall of the Emperor's Palace a thousand years ago, those surviving disciples were pursued by eight major top forces, forcing them to constantly hide to avoid disaster.

However, some immortals, not only refusing to help, joined in the pursuit for the high rewards offered by the eight major forces, leading to many Emperor's Palace disciples perishing over the millennium.

This time Fang Bai ruthlessly targeted the Carefree Palace to assert the power of the Emperor's Palace.

Tales of the Emperor's Palace disciples destroying Carefree Palace spread, serving as a deterrent to those with ulterior motives, making them think twice before acting against the Emperor's Palace disciples in the future.

The Emperor's Palace may have perished, but many of its disciples still exist, hidden across the Immortal Realm. Once gathered, they form a formidable force not to be underestimated, where even the eight top powers would tread carefully.

Hence, Fang Bai seizes this opportunity to demonstrate the might of the Emperor's Palace.

Currently, in Bluewater Immortal City, although most immortals have flown to Red Dawn Mountain due to the apparition of the Emperor's Instruments, many still remain in the city. The commotion at the Carefree Palace was significant enough to attract them to rise on Auspicious Clouds from afar to observe.

"The Emperor's Palace is handling matters, all immortals are advised not to interfere!"

In the midst of battling Jin Zhong Immortal Emperor, Tianzhi Immortal Emperor's deep shout resounded.

Though not loud, his words boomed like thunder in the ears of the immortals, causing them to tremble.

"The Emperor's Palace? Which Emperor's Palace?"

"Could it be... the Nine Heavens Immortal Emperor Palace from a thousand years ago?"

"Wasn't the Nine Heavens Immortal Emperor Palace destroyed?"

"Although the palace was destroyed, many disciples managed to escape!"

"But there's never been any mention of enmity between the Emperor's Palace and the Carefree Palace!"

"Not only no enmity, but the Carefree Immortal Emperor openly declared protection for the Emperor's Palace disciples, leading to conflicts with the eight top forces!"

"Given this, how could they be fighting?"

"I don't understand... let's just see..."

...

The Carefree Palace was established by the Carefree Immortal Emperor, and the million immortals residing in Bluewater Immortal City were largely dependent on the favor of the Carefree Immortal Emperor.

If the Carefree Immortal Emperor were here, perhaps a call from him could summon immortals to help.

Now, with the Carefree Immortal Emperor absent and a large number of Carefree Palace immortals perishing, and given that the ones acting were Emperor's Palace disciples, whose strength was significant, the onlookers dared not rashly interfere but chose to observe.

The gentle shout of Tianzhi Immortal Emperor was also a deterrent to them.

The Carefree Palace disciples ensnared within the Emperor Array were quickly slaughtered with no external assistance available.

Nearly a thousand Carefree Palace disciples perished, their blood mist scattered in the wind, engulfing the entire Bluewater Immortal City.

Meanwhile, none of the nearly two hundred Emperor's Palace disciples were harmed.

Even though the Emperor's Palace was destroyed millennia ago, legends of the Emperor's Palace still circulate in the Immortal Realm.

It's said that the Emperor's Palace's formations were unparalleled, and once the disciples joined formations for battle, their combat strength soared, as evidenced today.

After the battle ended, a portion of the nearly two hundred Emperor's Palace disciples quickly cleared the battlefield, collecting the Immortal Artifacts and Space Immortal Rings of the fallen Carefree Palace disciples, while another portion formed a grand Immortal Array to trap Jin Zhong Immortal Emperor, who was engaged in fierce combat with Tianzhi Immortal Emperor, preventing his escape.

Chapter 2629: If I Say I'm the Emperor's Palace Master, Would You Believe Me?

Fang Bai saw that the Tianzhi Immortal Emperor and Jin Zhong Immortal Emperor were locked in a deadlock, unable to determine a victor for the moment. Plus, surrounded by the Immortal Formation formed by hundreds of Emperor's Palace disciples, his escape route was cut off, so he felt at ease.

He turned his head to glance at the Carefree Palace, then transformed into a stream of light and rushed there.

The Carefree Palace was the residence of the Carefree Immortal Emperor, protected by powerful formations personally set by the Carefree Immortal Emperor. Ordinary immortals approaching would be attacked by the formation, and they could hardly escape death.

But for someone like Fang Bai, who was unmatched in formations, even the most formidable Immortal Formation was essentially as good as nonexistent.

"What are you doing?"

Seeing Fang Bai's virtual hand movements after which the Defense Qi Shield of the Carefree Palace collapsed without attack, Jin Zhong Immortal Emperor was shocked and terrified. He forced Tianzhi Immortal Emperor back with all his might and lunged towards Fang Bai with a roar.

The Carefree Palace was the Immortal Residence of the Carefree Immortal Emperor, and beneath it lay a gigantic treasury where the Carefree Immortal Emperor had amassed millions of years' worth of cultivation resources. If stolen, Jin Zhong Immortal Emperor would be unforgivable.

"Heh, Jin Zhong old ghost, your opponent is me!"

Tianzhi Immortal Emperor let out a long howl and summoned an Immortal Artifact, forcing Jin Zhong Immortal Emperor to turn back and defend.

By this time, Fang Bai's figure had already merged into the Carefree Palace.

"Bastard! Get out of my way! Tianzhi, I'll smash you to death!"

Jin Zhong Immortal Emperor knew that if Fang Bai could break the protective formation set by the Carefree Immortal Emperor, he might also be able to break the seal on the treasury's formation. If not stopped, the large amount of cultivation resources within the treasury would be in danger.

He was so anxious that he broke out in cold sweat, yelling and attacking Tianzhi Immortal Emperor frantically, occasionally enlarging the Jin Zhong Immortal Artifact a hundredfold to crush Tianzhi Immortal Emperor like a mountain.

In a battle between two evenly matched immortals, the more anxious you are, the more mistakes you make, unable to exert your full combat power.

Jin Zhong Immortal Emperor understood this principle as well, but at this moment, seeing the Palace Master's accumulated cultivation resources about to be stolen, how could he remain calm?

Jin Zhong Immortal Emperor grew more anxious and impatient, continuously roaring. In contrast, Tianzhi Immortal Emperor dealt with his attacks calmly and occasionally mocked him to provoke his anger further.

Their purpose in entering Bluewater Immortal City was twofold: to destroy the Carefree Palace and to seize the cultivation resources of the Carefree Palace.

As for Jin Zhong Immortal Emperor, once the Palace Master obtained the cultivation resources, joining forces to strike him down was not too late.

The Carefree Immortal Emperor imprisoned Emperor's Palace disciples, using various means to extort the Emperor's Palace Immortal Technique Secrets, a deed heinous enough to warrant death. As an accomplice, Jin Zhong Immortal Emperor naturally wouldn't be spared by Fang Bai.

Fang Bai aimed to show the Carefree Immortal Emperor that the Emperor's Palace was not to be trifled with!

Even if, after this incident, the Emperor's Palace gained another powerful enemy, Fang Bai was unafraid.

Fang Bai emerged from the Carefree Palace after only a few dozen breaths.

He smiled at the watching Tianzhi Immortal Emperor, indicating success, then flew into the air and clapped his hands.

One by one, hundred-meter-sized Immortal Qi Palms repeatedly slammed down on the Immortal Halls below.

With loud booms, the Carefree Palace, comprised of over a hundred Immortal Halls, successively collapsed into heaps of ruins.

"Ah... Ah..."

Witnessing this scene, Jin Zhong Immortal Emperor's eyes turned crimson, growing more frenzied, his roars echoing like thunder across Bluewater Immortal City.

"Old fool, what are you screaming for? If you want to die, I'll grant you that wish!"

After destroying the Carefree Palace, Fang Bai flew over, ready to join forces with Tianzhi Immortal Emperor to take down the already exposing-flaws Jin Zhong Immortal Emperor.

In his left hand, a small cauldron appeared out of thin air, exuding an aura seemingly from ancient times. Observing immortals from afar in Bluewater Immortal City felt an unprecedented pressure from the small cauldron.

"Could this cauldron be another Emperor's Instrument?"

Tianzhi Immortal Emperor, also seeing Fang Bai summon such a small cauldron for the first time, could tell with his keen eye that this small cauldron exceeded the Immortal Artifact category and should be an Emperor's Instrument.

Tianzhi Immortal Emperor knew about Fang Bai previously inserting the Blood-Drinking Mad Blade into Red Dawn Peak to lure the Carefree Immortal Emperor away from Bluewater Immortal City.

But he always thought the Blood-Drinking Mad Blade was an Emperor's Instrument.

For an ordinary Immortal Emperor, possessing one Emperor's Instrument was rare, yet unexpectedly, the Palace Master had summoned another Emperor's Cauldron at the turn of a hand, much to Tianzhi Immortal Emperor's surprise and delight.

He knew Fang Bai had the ability to challenge beyond his level, and with this Emperor's Instrument assisting, even without summoning those powerful Puppet Corpses, they could easily kill Jin Zhong Immortal Emperor together.

While Jin Zhong Immortal Emperor dealt with Tianzhi Immortal Emperor's attacks, seeing Fang Bai carrying the small cauldron step by step through the void, cold sweat ran down his back, and he was seized by a sense of fear.

In his eyes, Fang Bai was originally just a mid-level Immortal Emperor Realm, hardly enough to be concerned. Yet at this moment, Fang Bai not only emanated a high-level Immortal Emperor Realm aura after holding the cauldron but his energy surged, now resembling a peak Immortal Emperor Realm powerhouse.

"Jin Zhong Immortal Emperor, do you want to live or to die?"

After Fang Bai approached Jin Zhong Immortal Emperor, he suddenly asked.

Jin Zhong Immortal Emperor hesitated, instinctively responding: "What do you mean?"

Fang Bai said: "If you want to live, submit to me and serve me from now on! If you want to die, I'll join forces with Tianzhi Immortal Emperor to kill you!"

Jin Zhong Immortal Emperor furrowed his brows, then gritted his teeth and said fiercely: "Take my life? It's not that easy!"

Fang Bai laughed: "Is that truly what you think?"

Jin Zhong Immortal Emperor said: "If you dare kill me, it means becoming an enemy of the Carefree Immortal Emperor..."

Before he could finish speaking, Fang Bai interrupted with a wave of his hand.

"Carefree Immortal Emperor?"

Fang Bai coldly laughed: "He imprisoned and harmed my Emperor's Palace disciples, attempting to steal our Emperor's Palace Immortal Technique Secrets. If anyone's an enemy, it's the Carefree Immortal Emperor who became an enemy of my Emperor's Palace first!"

Jin Zhong Immortal Emperor's eyes darted around, saying: "This might be a misunderstanding..."

Fang Bai chuckled, "You don't need to stall for time; the Carefree Immortal Emperor is occupied by the 'Emperor's Instrument' and won't return anytime soon. I have ample time to kill you! Now, you have ten breaths to consider. Your life or death depends on these ten breaths!"

As Fang Bai spoke, he gestured for Tianzhi Immortal Emperor to pause the attack, and together they blocked Jin Zhong Immortal Emperor's escape routes from front and back.

"I've dealt with the Emperor's Palace in the past, but I've never seen someone like you... Who exactly are you?"

Jin Zhong Immortal Emperor stared at Fang Bai's face, asking.

He saw that even Tianzhi Immortal Emperor, one of the thirty-six great battle generals of the Emperor's Palace, seemed to follow Fang Bai's lead, yet he couldn't recall who Fang Bai could be within the Emperor's Palace, filling his heart with doubt.

Fang Bai said: "If I say I'm the Emperor's Palace Master, do you believe me?"

"Emperor's Palace Master?"

Jin Zhong Immortal Emperor was taken aback, instinctively thinking that the so-called "Emperor's Palace Master" Fang Bai referred to might have been elected by these Emperor's Palace disciples, unrelated to the brilliant War Emperor who founded the Emperor's Palace a thousand years ago.

Chapter 2630: What Do You Want?

"A mere Immortal Emperor Realm mid-stage cultivator was actually elected as the Palace Master of the Emperor's Palace? Has the once glorious and exceedingly powerful Emperor's Palace fallen to such a state?"

The Jin Zhong Immortal Emperor laughed coldly, his tone full of sarcasm.

The surrounding immortals of the Emperor's Palace, upon hearing these words from the Jin Zhong Immortal Emperor, seemed as if they'd heard the greatest joke, looking at each other and then laughing with a snicker.

Fang Bai looked at the Jin Zhong Immortal Emperor, who was bewildered by the laughter, and said expressionlessly, "Your ten breaths of time are up. Have you made your choice between the path of life and death?"

"I... have... made... my... choice..."

The Jin Zhong Immortal Emperor said word by word, suddenly raising his right hand, crushing a jade token, from which an overwhelming killing intent burst forth.

This killing intent was transformed into dense sword beams like rain, carrying a strong deadly crisis toward the Emperor's Palace disciples who encircled him on all sides.

"Disciples of the Emperor's Palace, retreat quickly!"

Fang Bai realized something was amiss as soon as the Jin Zhong Immortal Emperor raised his hand. He shouted loudly as he immediately summoned the Five Elements Origin Qi Cauldron, which instantly enlarged a thousand times, flipped over, and descended like a huge lid onto the Jin Zhong Immortal Emperor.

Hearing Fang Bai's shout, nearly two hundred disciples of the Emperor's Palace instinctively flew backward.

Fortunately, Fang Bai acted promptly. The Five Elements Origin Qi Cauldron not only covered the Jin Zhong Immortal Emperor within it but also blocked those sword beams.

The surge of killing intent that erupted from the jade pendant belonged to an Emperor Realm expert. From this, Fang Bai deduced that it was a trump card left by the Carefree Immortal Emperor for Jin Zhong Immortal Emperor's survival.

In the last moment, Jin Zhong Immortal Emperor crushed the jade token left by the Palace Master and unleashed the killing intent stored by the Carefree Immortal Emperor within it.

The killing intent of an Immortal Emperor is incredibly powerful. He originally thought it could severely injure the many Emperor's Palace disciples and turn the tide completely, but he never expected that as soon as the killing intent was released, everything turned black before his eyes, as if the whole world was shrouded.

Moreover, the beams of killing intent shooting in all directions seemed to collide with some obstacles, causing violent tremors in space.

"How... how is it possible?"

The Jin Zhong Immortal Emperor was dumbfounded, his face full of disbelief.

It's known that the jade token contained the killing intent of the Carefree Immortal Emperor, and the strength of the Carefree Immortal Emperor was slightly stronger than a typical Emperor Realm expert, making the power of that killing intent so formidable that even an ordinary Emperor's Instrument would struggle to withstand it.

But the Emperor's Instrument surrounding him at this moment, made of unknown material, was exuding a faint green glow, with an ancient and heavy aura pervading the surrounding space.

The powerful sword beams infused with Emperor Realm killing intent crashed into the unknown Emperor's Instrument enclosing the area, and the instrument merely quivered slightly before remaining unmoved.

He had no idea that Fang Bai's Five Elements Origin Qi Cauldron was an existence that surpassed even an Emperor's Instrument, with a power far beyond his imagination.

If it weren't for the killing intent released by the Carefree Immortal Emperor holding off the descending Five Elements Origin Qi Cauldron, he would have already been crushed into the dust.

He reacted quickly too. Seeing things weren't going well, he prepared to escape, but the oppressive force within the Five Elements Origin Qi Cauldron was overwhelming, trapping him in a cage, unable to get free for a moment, making him show a horrified expression.

Outside the Great Cauldron, including Fang Bai, all the immortals of the Emperor's Palace breathed a sigh of relief.

If Fang Bai hadn't timely summoned the Great Cauldron to cover the Jin Zhong Immortal Emperor and stop the scattered Emperor Realm killing intent, many Emperor's Palace disciples would have fallen on the spot.

Fang Bai flew to the Five Elements Origin Qi Cauldron, raised his hand to slap the cauldron, and a loud "buzz" sounded as the cauldron shook violently once.

On the surface, there seemed to be no change in the Great Cauldron after Fang Bai's slap, but the Jin Zhong Immortal Emperor trapped inside was in bitter agony.

After all, the Five Elements Origin Qi Cauldron is a Divine Artifact, and the power of the sound waves it generates when it vibrates is astonishing. Although with Fang Bai's current realm and cultivation level, he couldn't fully unleash the power of the Five Elements Origin Qi Cauldron, this sonic force was equivalent to an attack by an Emperor's Instrument, and how could the Jin Zhong Immortal Emperor withstand it?

The sonic waves, like a tide, fiercely struck the Jin Zhong Immortal Emperor, instantly piercing through his ears.

The Jin Zhong Immortal Emperor shuddered as if he lost his soul, falling into a state of confusion.

"Collect!"

With a slight movement of his mind, the Five Elements Origin Qi Cauldron shrank instantly to the size of a bean, transforming into a green glow, and entered Fang Bai's Sea of Consciousness between his eyebrows.

Without giving the Jin Zhong Immortal Emperor a chance to recover, Fang Bai raised his left palm, striking it down towards his Qi Sea.

"Ugh..."

The Jin Zhong Immortal Emperor's entire body was like being struck by lightning, with his Immortal Qi dissipating without a trace, followed by his whole body going limp, falling from the clouds.

Fang Bai grabbed in the void, using a big palm of Immortal Essence to catch the Jin Zhong Immortal Emperor and pull him back to his front.

The immortals of Bluewater Immortal City, watching from all sides, couldn't believe their eyes seeing a dignified Immortal Emperor Realm Peak expert like the Jin Zhong Immortal Emperor being captured by Fang Bai, whose cultivation was just mid-stage Immortal Emperor Realm.

However, some immortals with exceptional vision knew the ancient cauldron Fang Bai had just summoned might be an Emperor's Instrument. It was by leveraging the might of that Emperor's Instrument's ancient cauldron that Fang Bai managed to suppress the Jin Zhong Immortal Emperor.

"What... what do you want?"

Being grabbed by the Immortal Qi Palm and brought before Fang Bai, the Jin Zhong Immortal Emperor looked at the strange smile on Fang Bai's lips and couldn't help but feel a chill in his heart.

"An Immortal Emperor Realm Peak expert... this is quite useful for refining into a Puppet Corpse... hehe..."

Fang Bai muttered to himself in a low voice. Upon hearing the words "Puppet Corpse," the Jin Zhong Immortal Emperor felt as if his soul had escaped in terror. Struggling to speak, he was knocked unconscious by a slap from Fang Bai, plunging into endless darkness.

"Let's go!"

After the other Emperor's Palace disciples finished cleaning up the battlefield, Fang Bai waved his large hand, capturing the Jin Zhong Immortal Emperor, leading the group of Emperor's Palace disciples away in a majestic flight, leaving behind nearly a thousand corpses of the Carefree Palace immortals and the debris of the ruins.

The immortals of Bluewater Immortal City stood there dumbfounded, watching them leave until they disappeared beyond the horizon, only then snapping back to reality.

"Is the Carefree Palace just destroyed like that?"

"This battle, the Carefree Palace suffered greatly!"

"Jin Zhong Immortal Emperor was also captured..."

"Strange! Isn't it said that the Carefree Immortal Emperor has always been protecting the Emperor's Palace disciples? How could this happen? Could it be that those disciples repay kindness with enmity?"

"Without a huge grudge, why would the Emperor's Palace disciples go against the Carefree Immortal Emperor?"

"I used to see Emperor's Palace disciples inside Bluewater Immortal City, but later they all vanished for some reason. I felt something was off back then..."

"This matter... is hard to talk about... hard to talk about..."

...

The immortals within Bluewater Immortal City discussed endlessly, unable to understand why such a large-scale battle occurred between the Emperor's Palace disciples and the Carefree Palace.

However, they knew after this battle, a deep hatred had formed between the Emperor's Palace and the Carefree Palace, and the Immortal Realm would experience more turmoil because of it.

Some immortals who were friends with the Carefree Palace, after the Emperor's Palace disciples left, quietly flew to Red Dawn Mountain to report to the Carefree Immortal Emperor.
