

Doctor 2681

Chapter 2681: Imperial Might

When Lu Liyu was heavily injured and fell, the magic flute also slipped from her grasp, flying out into the distance.

The demon clan strong warriors attacking Lu Liyu saw this and stopped caring whether she lived or died, turning instead to snatch the magic flute.

The magic flute, being an extremely spiritual treasure, naturally wouldn't be easily captured by those demon clan strong warriors.

It moved like a streak of black lightning, darting among the many demon clan strong warriors, easily evading the demon qi big palms reaching for it.

Some demon clan strong warriors exerted all their strength, yet they couldn't even touch the magic flute and were so furious that they cursed incessantly.

Some observant demon clan strong warriors considered the possibility that the magic flute had already acknowledged Lu Liyu as its master. They simply gave up the chase, instead flying towards Lu Liyu, preparing to bide their time until the magic flute returned to her hands on its own.

At this moment, those demon clan strong warriors discovered that the heavily injured and unconscious Lu Liyu was lying in the arms of a male demon.

The male demon had one arm around Lu Liyu's soft, delicate body, and with the other hand, was tidying her disheveled hair, looking at her slightly pale, charming face with an expression full of tenderness and worry.

When those demon clan strong warriors flew closer, the tenderness and worry in the male demon's eyes suddenly transformed into intense killing intent.

"An... Emperor Realm Expert?"

Sensing a trace of imperial might from the male demon, the approaching demon clan strong warriors were taken aback and then frantically turned to flee.

They could see that the Emperor Realm Expert had an extraordinary relationship with Lu Liyu, and since they had seriously injured her, if they didn't escape quickly, the Emperor Realm Expert's wrath might fall upon them.

The magic flute passed among the scattered and fleeing demon clan warriors, returning to Lu Liyu's side and once again merging into her forehead's Sea of Consciousness.

The male demon holding Lu Liyu was Fang Bai.

He watched as the magic flute merged into Lu Liyu's Sea of Consciousness but didn't attempt to stop it.

In Fang Bai's view, the magic flute had already acknowledged its master and was bound to Lu Liyu's fate. If he forcibly prevented the flute from returning to Lu Liyu's Sea of Consciousness, he might instead harm her.

In the future, when he assists Lu Liyu in returning to the Immortal Dao, he would attempt to see if the magic flute could be refined anew to eliminate its demonic nature.

"Do you think you can escape?"

Since Lu Liyu's severe injury was caused by those demon clan warriors, Fang Bai naturally wouldn't let them go. Watching them scatter and flee, he snorted coldly.

He circulated the Heaven Devouring Art, performing the Myriad Sword to Origin Secret Art, causing a multitude of dark demonic qi to instantly condense into hundreds of long swords before him.

"Go!"

Fang Bai softly commanded, and hundreds of long swords, carrying a shocking momentum, tore through the void, pursuing the scattered demon clan warriors with lightning speed.

The strongest among those demon clan warriors were only at high rank Demon Emperor Realm, nowhere near fast enough to outrun the demonic qi long swords released by Fang Bai.

In the blink of an eye, hundreds of long swords caught up to hundreds of demon clan warriors, piercing their Qi Seas as if guided by unseen eyes.

The hundreds of fallen demon clan warriors, like leaves in the wind, their bodies spraying blood like arrows, fell to the ground.

The fallen demon clan warriors were the ones who had attacked Lu Liyu earlier. As for the thousands of demon clan warriors watching from afar, Fang Bai did not concern himself with them.

He tore through the void to arrive on the scene, catching Lu Liyu, and displaying imperial might by slaying hundreds of demon clan warriors at once, including many high-rank Demon Emperor Realm experts. Such power left the numerous demon clan warriors watching from afar dumbfounded.

The next moment, those demon clan warriors scattered in all directions.

They feared that, with the Demon Emperor losing his temper, they too might not be spared.

In an instant, the scene quieted down, with only the bloody smell lingering in the air and the bodies of hundreds of demon clan warriors on the ground testifying to the battle that had taken place here.

After transferring a strand of Chaos Immortal Qi into the heavily injured and unconscious Lu Liyu's body, Fang Bai placed her beneath the World Tree in the Five Elements Space Ring.

Soon, the Chaos Immortal Qi would be able to heal Lu Liyu's injuries.

As for the demonic qi within her body, staying long enough inside the Five Elements Space Ring, it might gradually be neutralized by the Immortal Qi released by the World Tree and Water of Life.

Fang Bai's purpose in entering the Demon Realm was to search for and rescue Lu Liyu and the Great Luo Immortal Emperor.

Now that he had found Lu Liyu, the Great Luo Immortal Emperor was still nowhere to be found.

Upon entering the Demon Realm, Fang Bai had already revealed one of the Bipartite Dual Swords, a silver long sword used by the Hundred Flowers Empress in ancient times, just waiting for the mysterious Demon Emperor to come to him.

However, he had traveled through many regions of the Demon Realm, displaying the silver long sword each time, yet he failed to attract the mysterious Demon Emperor.

What left Fang Bai both amused and helpless was that, in the subsequent period, instead of the mysterious Demon Emperor who had captured the Great Luo Immortal Emperor appearing, it was two Demon Emperors who were drawn by the Emperor's Instrument silver long sword, attempting to seize it, and engaged in two Emperor Realm battles with Fang Bai.

In the battles with the two Demon Emperors, although Fang Bai couldn't gain much advantage, after each battle, he felt his strength had significantly improved.

"It seems that without entering the Emperor Realm, it's quite challenging to slay an Emperor Realm Expert!"

Fang Bai thought that if he could slay those two Demon Emperors, he would surely acquire invaluable cultivation resources from them. Unfortunately, his power fell just short, leading him to regret quietly.

One day, Fang Bai arrived in a massive demon city, and upon discovering it desolate, with most demon clan strong warriors absent, he found it peculiar, so he casually seized a demon clan warrior to inquire.

"All the demon clan strong warriors in the city have gone to the Heaven Devouring Peak..."

Trembling under Fang Bai's imperial might, the demon clan warrior, whose cultivation level was merely a fifth-grade Demon King Realm, replied shakily.

"What are they doing at the Heaven Devouring Peak?"

Fang Bai knew that the Heaven Devouring Peak was the Immortal Residence of the Demon Clan's Heaven Devouring Great Emperor from millions of years ago. After the mysterious disappearance of the Heaven Devouring Great Emperor, some demon clan strong warriors went to the area around Heaven Devouring Peak for secluded cultivation, hoping to absorb some of the Heaven Devouring Great Emperor's fortune.

Over time, the Heaven Devouring Peak became a sacred place in the Demon Realm.

However, with millions of demon clan strong warriors missing from this demon city, all heading to the Heaven Devouring Peak, it seemed unlikely they were all going there for secluded cultivation, right?

The demon clan warrior, trembling, stammered, "Recently, an anomaly appeared at Heaven Devouring Peak. It's said to be the reappearance of the Heaven Devouring Art, which belonged to the Heaven Devouring Great Emperor from millions of years ago..."

"Heaven Devouring Art?"

Fang Bai frowned, remembering that many years ago, the Heaven Devouring Art had appeared in the Immortal Realm and was cultivated by several Immortal Emperors, including himself.

Unexpectedly, the Heaven Devouring Art had appeared in the Demon Realm as well.

Fang Bai suddenly had a strange feeling: such an exceedingly rare, even legendary Great Emperor's secret technique like the Heaven Devouring Art seemed to be everywhere, as if it was as common as street food.

Fang Bai released that Demon King Realm warrior, tore the void open, and vanished towards Heaven Devouring Peak.

He wanted to see if the Heaven Devouring Art that appeared at Heaven Devouring Peak was the same as that in the Immortal Realm, and if so, this matter would be worth contemplating deeply.

Chapter 2682: Demon Arts Revealed atop Heaven Devouring Peak

Heaven Devouring Peak stands proudly atop a vast barren plain, its peak towering ten thousand feet, majestic and grand.

At the summit of Heaven Devouring Peak lies a palace that has fallen into ruin.

It is said that this palace was built by an exceptional Great Emperor of the Demon Clan, the Heaven Devouring Great Emperor, millions of years ago.

However, after the Heaven Devouring Great Emperor vanished from the Three Realms, many powerful members of the Demon Clan came to this palace in hopes of finding opportunities.

Finding nothing, those Demon Clan experts, in their disappointment, destroyed the palace, leaving it in its current state of disrepair.

Nevertheless, this did not stop the Demon Clan experts from coming to pay homage to the Immortal Residence of the Heaven Devouring Great Emperor.

In recent days, some Demon Clan experts discovered mysterious runes appearing in the sky above the ruined palace.

Upon closer inspection, those runes turned out to be the legendary Heaven Devouring Art cultivated by the Heaven Devouring Great Emperor.

A Demon Art left by a once-in-a-generation Great Emperor of the Demon Clan could drive countless Demon Clan experts to madness.

Thus, this news spread across a million-mile radius almost overnight, drawing numerous Demon Clan experts to Heaven Devouring Peak.

The demon city Fang Bai previously visited was sparsely populated with Demon Clan experts because they came here.

By the time Fang Bai appeared at Heaven Devouring Peak, the skies and ground around the peak were densely packed with Demon Clan experts, numbering in the millions.

Fang Bai's Divine Sense spread over a radius of ten thousand miles, revealing that among these Demon Clan experts, the weakest possessed a cultivation level in the fifth-grade Demon King Realm, comprising the vast majority, and there were over ten thousand Demon Emperor Realm experts.

More than ten thousand Demon Emperor Realm experts is a truly frightening number.

It is worth noting that, at its peak, the Emperor's Palace boasted the renowned one hundred and eight warriors of the Immortal Realm with Immortal Emperor Realm cultivation.

However, the fighting prowess of the one hundred and eight warriors of the Emperor's Palace far exceeded that of other sects' Immortal Emperor Realm experts.

Uniting the one hundred and eight warriors to form an Emperor Rank formation could contend with any top-tier Emperor Realm expert across the Three Realms, which was repeatedly proven before the Emperor's Palace's downfall.

Aside from the Emperor's Palace, no other sect in the Three Realms could achieve such a feat.

Still, the gathering of over ten thousand Demon Emperor Realm experts in the vicinity of Heaven Devouring Peak surprised Fang Bai.

Fang Bai even pondered that if a Demon Clan Emperor Realm expert could incite these Demon Emperor Realm experts to invade the Immortal Realm, it would bring about a great disaster.

"If I were an Emperor Realm expert now, I could refine hundreds of Demon Emperor Realm experts into Puppet Corpses for my use. When encountering opponents of the same realm, utilizing the Puppet Corpses, I could surely crush them."

Fang Bai sighed secretly at this thought.

His current realm cultivation had reached the status of a Quasi-Emperor, a realm unreachable by the millions across the Three Realms, yet thinking of the formidable enemies he would face, he still felt his cultivation progress was too slow.

"An Emperor Realm expert has actually appeared... It seems the allure of the Heaven Devouring Great Emperor's Heaven Devouring Art is truly irresistible!"

Under Fang Bai's Divine Sense's presiding, two Demon Clan Emperor Realm experts emerged in succession.

Fang Bai immediately withdrew his Divine Sense to avoid being mistaken by the two Demon Clan Emperor Realm experts as spying on them, which might provoke conflict.

Naturally, Fang Bai feared no Demon Clan Emperor Realm experts, but his attention was focused on the summit of Heaven Devouring Peak, where it was said the Heaven Devouring Art would appear momentarily every day, thus making him disinclined to engage in battle with the two Demon Clan Emperor Realm experts.

"I wonder if the mysterious Demon Emperor who captured the Great Luo Immortal Emperor will reveal himself here. If he shows up, it will certainly save me a lot of effort."

Fang Bai thought to himself.

The two Demon Clan Emperor Realm experts also noticed Fang Bai's presence, and they were particularly astonished at Fang Bai's youth coupled with his Emperor Realm strength.

Due to the presence of three Emperor Realm experts, the area became relatively quiet, and the millions of Demon Clan experts kept their distance from Fang Bai and the other two Demon Emperors to avoid accidentally provoking them and inviting disaster.

As a result, within a hundred-mile radius around Fang Bai and the other two Demon Emperors, there wasn't a single Demon Clan expert, forming a distinct zone.

Fang Bai and the other two Demon Emperors enjoyed the leisure, occasionally focusing their Divine Sense on the summit of Heaven Devouring Peak, waiting for the Heaven Devouring Art to manifest.

"Look quickly! There's a fluctuation at the void atop Heaven Devouring Peak!"

Suddenly, a Demon Clan expert pointed excitedly at the peak of Heaven Devouring Peak.

"The Heaven Devouring Art is about to appear!"

Many Demon Clan experts began jumping about excitedly.

Thus, the millions of Demon Clan experts immediately grew agitated, releasing their Divine Sense, concentrating on the summit of Heaven Devouring Peak.

Several breaths later, a massive scroll materialized in the void above the peak.

The scroll was formed from Demonic Qi, and as it slowly unfolded, its hundred-foot wide surface began to reveal mysterious runes of complex appearance.

"It's the Heaven Devouring Art..."

Fang Bai's Divine Sense quickly scanned the surface of the scroll, knowing that it was identical to the Heaven Devouring Art he had been cultivating.

"Why do I feel that something is not quite right here?"

A Demon Art from millions of years ago that captivated even several Immortal Emperors in the Immortal Realm and now unfolded before millions of Demon Clan experts was undoubtedly an incredible event never before seen in the Three Realms, making it impossible for Fang Bai not to ponder deeply.

Having already memorized the Heaven Devouring Art by heart and cultivated rapidly, Fang Bai felt no need to further contemplate the same content on the scroll.

So, he focused on the millions of Demon Clan experts surrounding Heaven Devouring Peak.

As the Heaven Devouring Art unfolded, the blood eyes of those Demon Clan experts radiated with excitement, concentrating their Divine Sense on it, fearing they might miss even one rune.

The two Demon Emperors were no exception.

In fact, the Heaven Devouring Art's allure for those two Demon Emperors far surpassed that for other Demon Clan experts.

For once one reaches the Emperor Realm, the pursuit of the legendary Great Emperor Realm becomes an obsession.

Once the barrier of the Great Emperor Realm is breached, one can transcend the Three Realms, ascend to another plane, and seek higher realms and longer lifespans.

Soon, including the two Demon Emperors, numerous Demon Clan experts fell into a state of rapture and cultivation.

On-site among the millions of Demon Clan experts, Fang Bai was probably the only one remaining vigilant and on guard.

A hundred breaths later, Fang Bai suddenly looked up at the void, feeling an imminent, intense threat.

The next moment, a rift split open the void, and a figure emerged.

"It's him!"

Fang Bai's pupils slightly contracted upon seeing the figure. He tightly gripped the Blood-Drinking Mad Blade, his entire being surging with battle intent, poised for combat.

The one who tore through the void was none other than the mysterious Demon Emperor who had attacked Fang Bai in Bluewater Immortal City in the past.

This mysterious Demon Emperor had also destroyed Tianyin Temple and abducted Tianyin Temple's head, the Great Luo Immortal Emperor.

However, this time, the mysterious Demon Emperor did not have the Great Luo Immortal Emperor with him, causing Fang Bai's heart to sink, fearing the worst for the Great Luo Immortal Emperor.

Chapter 2683: Battle of the Four Emperors

The Mysterious Demon Emperor tore through the void to appear, looking down and sweeping his gaze over Fang Bai and the other two Demon Emperors.

The next moment, he simultaneously conjured three Demon Qi Big Palms, each grabbing towards Fang Bai and the three Emperor Realm Experts.

"Wake up!"

Fang Bai shouted, waking the two Demon Clan Emperor Realm experts who had fallen into a trance from cultivating the Heaven Devouring Art.

The strength of the Mysterious Demon Emperor was greater than any of the three Emperor Realm Experts, and after appearing, he attacked all three of them simultaneously.

So Fang Bai made a quick decision to join forces with the other two Demon Clan Emperor Realm Experts to combat the Mysterious Demon Emperor.

He believed that once the two Demon Clan Emperor Realm experts realized the might of the Mysterious Demon Emperor, they would not refuse to join forces.

The two Demon Clan Emperor Realm experts had just been awakened by Fang Bai's shout when the Demon Qi Big Palm from the Mysterious Demon Emperor descended upon them.

The two Demon Clan experts sensed the overwhelming demonic power contained within the Demon Qi Big Palm, realizing it was beyond their capacity to resist, and in shock, they evaded with all their might.

Fang Bai's Blood-Drinking Mad Blade slashed out a streak of blood light, slowing down the approach of the Demon Qi Big Palm, allowing him to also dodge away.

"I have no enmity with you, what is your intention?"

One of the Demon Clan Emperor Realm experts evaded the Mysterious Demon Emperor's attack, maintaining a highly vigilant state, shouted sternly.

The other Demon Clan Emperor Realm expert also looked at the Mysterious Demon Emperor with a gaze full of hostility.

These two Demon Clan Emperor Realm experts were considered well-experienced, yet they had never seen such a Demon Emperor in the Demon Realm.

However, they could indeed feel that this suddenly appearing Mysterious Demon Emperor was far more powerful.

Before the Mysterious Demon Emperor could speak, Fang Bai sneered, saying, "This Demon Emperor has a hobby of capturing Emperor Realm Experts. Before this, I saw with my own eyes him capturing several Emperor Realm Experts. And those Emperor Realm Experts seemed to have no grievances with him. So, we all need to be careful."

Although the two Emperor Realm experts were half-convinced by Fang Bai's words, they still summoned the Emperor's Instruments, posing as if facing a formidable enemy.

The Mysterious Demon Emperor did not argue, letting out a creepy laugh, sweeping his gaze across Fang Bai and the other two Demon Clan Emperor Realm experts, saying coldly, "Since you know my hobbies, you should surrender obediently, to spare this Emperor from making a move!"

Though the Mysterious Demon Emperor had met Fang Bai in Bluewater Immortal City, now Fang Bai's strength had greatly increased, and he had concealed his Immortal aura, transforming into a Demon Clan Emperor Realm expert, so he was not recognized at all.

"Did you hear that?"

Fang Bai glanced sideways at the other two Demon Clan Emperor Realm experts, suggesting, "This Demon Emperor is targeting us three! In single combat, none of us are his match. Why not join forces to ensure safety!"

The other two Demon Clan Emperor Realm experts hesitated only slightly before accepting Fang Bai's suggestion.

In the face of a great enemy, rather than being defeated individually, it was better to join forces in battle. As for identity and face, what could be more important than life?

So the three of them quickly stood close together, side by side, to collectively confront the Mysterious Demon Emperor.

Surrounding Heaven Devouring Peak, millions of Demon Clan experts, seeing that the four Demon Emperors were about to engage in a battle, withdrew to the distance.

They knew that once the four Demon Emperors engaged in battle, the terrifying power unleashed could cause the mountains and rivers within ten thousand miles to collapse, and the void to crumble. If they did not retreat, they would surely suffer.

"All three of you up against me at once, just as well, saves me the trouble!"

The Mysterious Demon Emperor let out a sinister laugh, flipping his hands to weave a huge black net in the void, and casually cast it forth.

The black net covered the sky, enveloping hundreds of miles, descending towards Fang Bai and the three Emperor Realm Experts.

The void under the black net, for hundreds of miles, seemed to solidify, causing Fang Bai and the two Demon Clan Emperor Realm experts within it to feel bound by an invisible force, their movements greatly slowed.

The Mysterious Demon Emperor revealed astonishing strength as soon as he made a move, frightening the heart of Fang Bai and the three Emperor Realm experts.

"I still underestimated his strength! To think that after a thousand years, the Demon Realm would see such an extraordinary Emperor Realm expert!"

Fang Bai thought to himself.

A thousand years ago, during his several expeditions to the Demon Realm, he encountered many Demon Emperors, but the strongest among them were no more than top-tier Immortal Emperors of the Immortal Realm.

Yet this Mysterious Demon Emperor before him, with a lift of his hand, employed techniques that applied significant pressure on all three Emperor Realm experts.

Such strength seemed to surpass even the top-tier Immortal Emperors of the Immortal Realm.

With time, it was not impossible that the Demon Realm might see the emergence of a Great Emperor Level Expert.

Thinking of this, Fang Bai couldn't help but feel a chill rise in his heart.

If this Mysterious Demon Emperor truly became a Great Emperor Level Expert, he would have the power to unite the Demon Realm and then challenge the Immortal and Monster Realms.

Should that time come, the Emperor's Palace under his leadership, even after eradicating the eight great top factions, would face the enormous threat from the Demon Realm, and it's uncertain if he would be able to cope.

"Give it your all!"

Under the looming huge black net, Fang Bai and the two Demon Clan Emperor Realm experts sensed a mutual understanding to swing their Emperor's Instruments upward to counter the descending black net.

The combined might of the three Emperor Realm experts' strike was imaginable.

As the three Emperor's Instruments simultaneously struck the giant black net, its descent paused, then shattered and dispersed, transforming into countless shockwaves that spread out.

Under the influence of the shockwaves, cracks appeared in the void for a thousand miles around, resembling tortoise patterns.

Torrential torrents poured from those cracks, instantly forming storms that swept through ten thousand miles, creating a terrifying spectacle.

The myriad Demon Clan experts, having retreated to ten thousand miles away, saw the oncoming storms and had no choice but to flee further into the distance.

The four Demon Emperors clashed fiercely near Heaven Devouring Peak, as they circulated their Demon Arts and displayed their techniques, balancing offense and defense. The battle was momentarily at a stalemate.

Among the four Demon Emperors, Fang Bai was the weakest, and unfortunately, the Mysterious Demon Emperor was chiefly targeting him.

If not for his powerful ability to challenge beyond his level, the Blood-Drinking Mad Blade in his hand, and the timely intervention of the two Demon Emperors to help him out, he would have already been unable to hold out, fleeing into the distance.

"How long have you been cultivating the Heaven Devouring Art?"

The Mysterious Demon Emperor slapped Fang Bai, sending him flying a hundred feet, then loudly asked.

Fang Bai didn't expect his use of the Heaven Devouring Art to be seen through, wondering whether this Mysterious Demon Emperor had also cultivated it?

"Didn't you see the Heaven Devouring Art manifest on Heaven Devouring Peak? I just comprehended it!"

Suppressing the surging aura within him, Fang Bai laughed and said.

The other two Demon Emperors looked at Fang Bai with astonishment, feeling both envy and jealousy within their hearts.

Just now, they were engrossed in the Heaven Devouring Art but only hovered outside the threshold of this Great Emperor Demon Art, without truly mastering it. Unexpectedly, Fang Bai not only comprehended it but could also apply it in battle, which was truly a miracle.

Chapter 2684: Golden Small Jar

"Impossible! The... Heaven Devouring Great Emperor's Heaven Devouring Art, is profound and intricate, how could it be so easy to master?"

The Mysterious Demon Emperor simply didn't believe Fang Bai's claim of "having just comprehended the Heaven Devouring Art," and shouted, "In the Three Realms, no one understands the Heaven Devouring Art better than me! You can't fool me!"

His blood-red pupils blazed like fire, his gaze like a torch, and he continued, "You circulate the Heaven Devouring Art smoothly, without any hindrance, you must have cultivated for at least a hundred years!"

The two Demon Emperors, upon hearing this, distanced themselves from Fang Bai, their gazes filled with more questions.

According to what they knew, the manifestation of the Heaven Devouring Art above Heaven Devouring Peak happened only in recent years. If what the Mysterious Demon Emperor said was true, and Fang Bai had been cultivating the Heaven Devouring Art for over a hundred years, wouldn't that mean he had long obtained it?

If Fang Bai possessed the Heaven Devouring Art, why not directly seize it and comprehend it themselves, instead of waiting here daily for a brief appearance?

Fang Bai looked at the Mysterious Demon Emperor and sneered, "You're spouting nonsense, clearly trying to sow discord between us and instigate a fight so you can reap the benefits!"

After a pause, he added, "Earlier you said no one in the Three Realms knows the Heaven Devouring Art better than you... Your confidence suggests you've been practicing the Heaven Devouring Art for a while, or perhaps you possess it yourself!"

Upon Fang Bai's words, the two Demon Clan Emperor Realm Experts felt he was making more sense, and they moved closer to Fang Bai, standing on the same front against the Mysterious Demon Emperor.

"If we can kill him and obtain his Heaven Devouring Art, the three of us can jointly comprehend and cultivate it!"

Fang Bai said to the two eager Demon Emperors.

Thus, the three Great Emperor Realm experts joined forces again to launch an attack on the Mysterious Demon Emperor.

Earlier, when the three Great Emperor Realm experts joined forces, due to unfamiliarity with each other, they held back, reserving strength in case of unexpected changes.

But this time, to get the Heaven Devouring Art, the two Demon Emperors held nothing back, wielding their Emperor's Instruments, attacking with all their might.

This made Fang Bai feel somewhat relieved.

Fang Bai swung the Blood-Drinking Mad Blade, pretending to attack with full force while secretly observing the Mysterious Demon Emperor.

When his gaze fell on the Space Immortal Ring worn on the Mysterious Demon Emperor's left finger, his heart stirred.

The Space Immortal Ring was ancient and worn, covered with array runes, seemingly inconspicuous at first glance.

Fang Bai focused on it because he noticed its similarity to his own Five Elements Space Ring.

"Could it be that his Space Immortal Ring can also contain living things?"

Fang Bai thought of the Great Luo Immortal Emperor who was abducted by this Mysterious Demon Emperor and had since vanished, causing him to feel agitated.

At that time, this Mysterious Demon Emperor, from who knows where, got one of the Bipartite Dual Swords of the Hundred Flowers Empress, exchanged it with other immortals. After Fang Bai obtained it, he went to the Cultivation Resource Exchange Market in Bluewater Immortal City, only to be attacked, feeling as if he had faced a great catastrophe.

Since then, Fang Bai suspected that the disappearance of the Hundred Flowers Empress might also be related to this Mysterious Demon Emperor.

If his Space Immortal Ring can hold living creatures, then could it be that the Great Luo Immortal Emperor he abducted and the Hundred Flowers Empress who vanished in the Nine Nether Thunder Sea are inside?

The more Fang Bai thought about it, the more excited he became, his eyes fixed on the Space Immortal Ring, the Blood-Drinking Mad Blade turned into streaks of blood light, each one slashing towards the Mysterious Demon Emperor's left arm.

The other two Demon Clan Emperor Realm experts never imagined that Fang Bai now harbored the thought of snatching the Space Immortal Ring and fleeing, completely indifferent to the Heaven Devouring Art.

The three Great Emperor Realm experts attacked with all their might, momentarily putting pressure on the Mysterious Demon Emperor, but determining a winner could not be achieved in just a few days.

Their battlefield was no longer limited to Heaven Devouring Peak; within hundreds of thousands of miles, they chased and attacked each other, both sides wanting to defeat and capture the other alive.

In the void, constantly collapsing and then repaired by heaven and earth's rules, the Emperor's Instruments flew and killing intent soared, with demonic qi pervading.

The battle spilled over to some Demon Clan experts who didn't dodge in time, resulting in heavy casualties.

This intense battle raged on for countless days, with all four Great Emperor Realm experts getting fired up, constantly employing various divine abilities and spells, causing the world to change color.

The prolonged battle severely depleted their demonic power, and all four Emperor Realm experts showed signs of fatigue.

Of course, Fang Bai's fatigue was just a façade, as he had been reserving strength, ready to unleash his most powerful attack when the Mysterious Demon Emperor showed a flaw.

During battle, Fang Bai continually speculated about the true identity of the Mysterious Demon Emperor.

He felt that the Mysterious Demon Emperor, with every move, exhibited extraordinarily powerful strength, and with divine powers emerging one after another, he was possibly a very ancient Demon Emperor who had changed appearances and concealed his identity.

Nonetheless, despite his vast experience in his previous life and having encountered many Demon Clan Emperor Realm experts, he couldn't discern the Mysterious Demon Emperor's true identity.

During fierce battle, unknowingly, they found themselves back near Heaven Devouring Peak.

"If you cannot serve me, then perish!"

The Mysterious Demon Emperor, suspended above the ruined palace of Heaven Devouring Peak, his blood pupils emitted extraordinary light.

He let out a long howl toward the sky, reached with his right hand towards the ruined palace, and a fist-sized golden jar burst forth from beneath the palace, landing in his hand.

Fang Bai, seeing the golden jar, though he had never seen such a demonic instrument, sensed a terrifying power emanating from it.

Moreover, this power felt somewhat familiar to him.

"Could that golden jar actually be a Divine Artifact?"

Fang Bai thought of the occasional strands of divine power released by a few Divine Artifacts he possessed, looking at the golden jar with a more serious expression.

The Mysterious Demon Emperor's strength surpassed theirs by a significant margin. If that golden jar were truly a Divine Artifact, its power, wielded by him, would be world-shattering and unstoppable.

Though Fang Bai had several Divine Artifacts, not being a true Emperor Realm expert meant he couldn't fully unleash their divine might, making him incapable of opposing the Mysterious Demon Emperor.

So, as soon as the Mysterious Demon Emperor grasped the golden jar, Fang Bai sighed internally, realizing that obtaining his Space Ring seemed unlikely this time.

Fang Bai had prepared to tear apart the void and escape if the Mysterious Demon Emperor launched an attack with the golden jar.

"Tha... that's the Heaven Devouring Pot?"

Fang Bai, spending long in the Immortal Realm, didn't recognize the golden jar, but one of the Demon Emperors seemed to recognize it and exclaimed in shock.

Seeing the other Demon Emperor's terrified expression upon seeing the golden jar, Fang Bai became even more curious about it.

Chapter 2685: Two Immortal Emperors Within the Demon Ring

The mention of "Heaven-Devouring Pot" caused another Demon Emperor to tremble uncontrollably, his teeth chattering as though recalling something terrifying.

Although Fang Bai had ventured to the Demon Realm many times for training, his understanding of the Demon Realm naturally could not compare to that of the two Demon Emperors.

This was akin to the Demon Emperors' understanding of the Immortal Realm, not as extensive as that of the Immortal Emperor.

Therefore, upon hearing about the Heaven-Devouring Pot for the first time, Fang Bai showed no unusual reaction.

"Countless millennia have passed, yet who would have thought there would still be those in the Demon Realm who recognize the Heaven-Devouring Pot!"

The mysterious Demon Emperor held the Heaven-Devouring Pot aloft, laughing heartily.

"Are you... are you a descendant of the Heaven Devouring Great Emperor?"

One Demon Emperor asked in a trembling voice.

These words immediately led Fang Bai to deduce that the Heaven-Devouring Pot in the hands of the mysterious Demon Emperor was deeply connected with the Heaven Devouring Great Emperor, perhaps even an Emperor's Instrument once used by the Heaven Devouring Great Emperor.

The Heaven Devouring Great Emperor was an extraordinarily talented Demon Clan Emperor from millennia ago. His power was unrivaled across the Three Realms, seldom encountering an equal. Even now, his feared name still sends shivers down the spines of the strong across the Three Realms.

Therefore, the mysterious Demon Emperor, who understood the Heaven Devouring Art and possessed the Heaven Devouring Pot that belonged to the Heaven Devouring Great Emperor, might very well be a descendant of the Heaven Devouring Great Emperor.

Just being a descendant of the Heaven Devouring Great Emperor was enough to dominate the Three Realms. Coupled with possessing treasures once wielded by the Heaven Devouring Great Emperor, one can imagine how terrifying his combat power would be once unleashed.

Even without utilizing the treasures of the Heaven Devouring Great Emperor, the mysterious Demon Emperor was able to battle Fang Bai and the other two Great Emperor Level Experts, holding both offense and defense without falling behind at all.

Now that the Heaven-Devouring Pot was revealed, the mysterious Demon Emperor's combat power would inevitably increase dramatically, leaving the three Great Emperor Level Experts doomed to failure.

Demon Clan experts are cruel, bloodthirsty, and ruthless. During duels, the losing side would meet a grim fate of being drained of blood to death.

No wonder the two Demon Clan Emperor Realm experts were so terrified seeing the mysterious Demon Emperor summon the Heaven-Devouring Pot.

"Descendant?"

The mysterious Demon Emperor paused, then chuckled darkly, neither confirming nor denying the assertion.

He slightly moved the hand holding the Heaven-Devouring Pot. The Pot lifted into the air, and its mouth turned downwards, three rays of golden light shooting toward the three Great Emperor Level Experts, including Fang Bai.

Although Fang Bai and the other two Great Emperor Level Experts had never seen the power of the Heaven-Devouring Pot, they knew that treasures of an Emperor were no ordinary items. As the golden light approached like lightning, threatening to encompass them, they dared not hesitate, each revealing their magical powers to either evade or block.

The Demon Emperor to Fang Bai's left had lost his fighting spirit and resolve. Seeing the golden light approaching, he stretched his hands out, intending to tear through the void and escape.

However, he was ultimately a step too late. Before his form could enter the space rift, the golden light enveloped him and irresistibly drew him into the Heaven-Devouring Pot.

The Demon Emperor to Fang Bai's right raised a Defense Qi Shield around himself and simultaneously enlarged the Emperor's Instrument in his hand several times to resist the incoming golden light.

However, the golden light seemed to possess the ability to devour everything, absorbing both him and the Emperor's Instrument into the Heaven-Devouring Pot together.

The moment the golden light emerged, Fang Bai sensed a strong threat, leading him to conclude that the Heaven-Devouring Pot surpassed Emperor's Instruments, equivalent to several of the divine artifacts he possessed.

So he reacted instantly, one hand tearing through the void while simultaneously retracting the Blood-Drinking Mad Blade and summoning the Five Elements Origin Qi Cauldron to block in front of him.

Among the divine artifacts Fang Bai possessed, the Five Elements Origin Qi Cauldron was the strongest in defense. Fang Bai hoped it could block the incoming golden light, giving him a chance to escape into the Endless Void Space.

The strength of the descendant of the Heaven Devouring Great Emperor was too overwhelming, causing Fang Bai to temporarily abandon the thought of seizing his Space Immortal Ring, focusing solely on escaping safely.

The Five Elements Origin Qi Cauldron expanded to over ten feet wide, sheltering Fang Bai behind it. The golden light from the Heaven-Devouring Pot, still dozens of feet away, seemed to threaten the Great Cauldron, causing it to tremble sharply, buzzing with sound.

A streak of green glow, imbued with a mighty aura as if from ancient times, emanated from the cauldron, opposing the golden light.

The seemingly unstoppable golden light slowed upon encountering the green glow.

In that very moment, Fang Bai's form had slipped into the space rift he had torn open.

"Gone!"

As Fang Bai's figure disappeared into the space rift, he waved a hand toward the Five Elements Origin Qi Cauldron, which rapidly shrank down to a point of green light, flying to his forehead and entering his Sea of Consciousness.

Soon after, the space rift was repaired by the rules of heaven and earth, and Fang Bai vanished without a trace.

Despite the Five Elements Origin Qi Cauldron appearing only briefly, the descendant of the Heaven Devouring Great Emperor saw it clearly.

"Could it be that the Great Cauldron is also a divine artifact? A pity he escaped!"

He beckoned to retrieve the Heaven-Devouring Pot, a forlorn expression overtaking his face as he stared at the void where Fang Bai had vanished, his blood-red eyes flickering with strange light.

"As long as he's in the Three Realms, he'll eventually fall into my hands! At that time, it's not too late to obtain the Great Cauldron and study it in detail!"

He recalled the fleeting but stunning appearance of the Five Elements Origin Qi Cauldron, which seemed no weaker than his Heaven-Devouring Pot, igniting an itch in his heart.

His Divine Sense entered the Heaven-Devouring Pot, discovering that the two Demon Emperors absorbed into it had already turned to blood, a slight sneer forming at the corner of his mouth, as he muttered to himself, "If only I could capture them alive, nourish them inside my Spatial Demon Ring for a while, and then consume their blood! What a pity it is now!"

The power of his Heaven-Devouring Pot was tremendous; the two Demon Emperors were turned into pools of blood just moments after being absorbed into it.

In his eyes, the blood created by the Heaven-Devouring Pot was far inferior to the fresh blood directly drawn from the bodies of the two Demon Emperors, significantly reducing its benefit to his cultivation.

"Fortunately, during the previous trip to the Immortal Realm, I captured two Emperor Realm experts. It won't be long before they are completely demonized in my Spatial Demon Ring. At that time, with their fresh blood, my cultivation level is bound to advance further!"

His Divine Sense probed into the Spatial Demon Ring, finding those two Emperor Realm experts captured from the Immortal Realm were seated cross-legged, trying to resist the invasion of Demonic Qi.

"Give up resisting, don't waste your strength. Once you fall into the Demon Dao and your immortal qi turns to demonic qi, that will be the moment I consume your blood! Ha ha... ha ha ha..."

The arrogant laughter of the descendant of the Heaven Devouring Great Emperor echoed within the space of the Demon Ring.

The two Emperor Realm experts within the Demon Ring opened their eyes, their brows furrowing slightly.

"Who would have thought that we, as dignified Emperor Realm experts of the Immortal Realm, would end up in such a state. How lamentable!"

The speaking Emperor Realm expert was a thin, white-browed, and white-bearded Buddha, who was also one of Fang Bai's close friends, the Great Luo Immortal Emperor.

Seated across from the Great Luo Immortal Emperor was another Emperor Realm expert, pale as snow, with beautiful, artistically drawn eyebrows, incredibly beautiful and clad in colorful robes, an Empress.

Chapter 2686: The Empress Sheds Tears

Upon hearing the Great Luo Immortal Emperor's words, the Empress's gaze shifted as her cherry lips parted lightly: "On the quest for the Immortal Dao, there are fortunes and also calamities. Perhaps... this is just one of our calamities!"

The Great Luo Immortal Emperor looked at her placid expression and smiled bitterly: "I fear this time it's a calamity of life and death!"

The Empress seemed to have seen through life and death, and upon hearing the words, merely smiled faintly and said: "Actually, when news of his death reached me a thousand years ago, I had already died once. As for life and death, I'm no longer afraid."

The Great Luo Immortal Emperor was stunned and sighed: "That was just your heart dying. But this time, falling into the hands of this Demon Emperor, the result might be having all your blood drained, bones crushed and scattered, form and spirit all annihilated... Aren't you afraid at all?"

"To be honest, I'm not afraid, I just feel a bit regretful..."

As the Empress spoke, she seemed to fall into a memory, her bright and pretty face sometimes showing a smile and sometimes a touch of sadness.

The Great Luo Immortal Emperor watched her changing expression, frowned in thought, then spoke: "Are you regretting that you might perish in the hands of the Demon Emperor before seeing the War Emperor's return to the Immortal Realm?"

The Empress nodded slightly and sighed lightly: "Indeed! Knowing from your words that he seized a new body and returned to the Immortal Realm, I was very happy and wished to see him immediately. If not for falling into the hands of the Demon Emperor, perhaps we would already be together..."

"A thousand years ago, although we were fond of each other, out of restraint, I never expressed my feelings. Later when news of his downfall spread, I was both sorrowful and remorseful, thinking if time could turn back, I would surely become his immortal partner."

"In the thousand years since then, I've always been thinking about avenging him, but regrettably being too weak, never able to realize it. Eventually, I ventured into the deepest parts of the Nine Nether Thunder Sea, preparing to cultivate to improve my strength and then confront the eight top Immortal Emperors."

"Later on, the Demon Emperor suddenly appeared, without a word tried to capture me, we battled fiercely, but ultimately I was no match and was thrown into this Demon Ring. My Bipartite Dual Swords were also lost in that battle..."

"What I didn't expect was that you, Great Luo Immortal Friend, would also be captured into this Demon Ring by the Demon Emperor. And even more surprising, hearing from you the news that Fang Bai was still alive. It's just unfortunate, he has returned alive to the Immortal Realm while I may perish..."

"I regret that before falling, I couldn't see him even once... Could it be that we are truly destined without the fortune to be together?"

As she spoke, her voice choked slightly, and in her beautiful eyes, tears began to sparkle.

The Great Luo Immortal Emperor, having never seen such an expression from this dignified Empress, was somewhat stunned, thinking to himself that the word 'affection' is truly frightening, not even an Immortal Emperor can unravel it.

This Empress was precisely one of Fang Bai's soulmates from his past life, the Hundred Flowers Empress.

Fang Bai previously encountered disciples of the Hundred Flowers Empress and even journeyed with them to the Nine Nether Thunder Sea hoping to find the Hundred Flowers Empress, only to discover an Emperor's Instrument related to her, but not her whereabouts.

When Fang Bai battled against the Demon Emperor, he noticed the Demon Emperor wore a Demon Ring similar to his own Five Elements Space Ring, prompting the speculation that the Demon Ring might contain what he's seeking—Great Luo Immortal Emperor and even Hundred Flowers Empress.

"Where this Demon Emperor came from is unknown, yet his strength is extraordinarily powerful! Moreover, his Demon Ring can accommodate living beings, already exceeding the scope of an Emperor's Instrument..."

As the Great Luo Immortal Emperor saw the Hundred Flowers Empress's sorrowful expression, becoming increasingly saddened, he shifted the subject.

The Hundred Flowers Empress gently wiped away tears from the corners of her eyes, sighed softly, and said: "Letting Great Luo Immortal Friend see such a sight is quite embarrassing."

The Great Luo Immortal Emperor waved his hand to comfort her: "I understand your feelings... Actually, until the situation reaches the worst possible phase, we must not despair."

The Hundred Flowers Empress said: "The Demon Emperor's strength likely finds no rival across the three realms. Unless... Fang Bai's strength returns to its peak of days past..."

Toward the end, she laughed at herself and said: "Even if Fang Bai now possesses the capability to defeat the Demon Emperor, how would he know we're inside his Demon Ring?"

"Alas!"

The Great Luo Immortal Emperor knew the Hundred Flowers Empress spoke truthfully that both she and he were indeed in peril of perishing by the Demon Emperor's hands.

However, when that day would come was unknown.

.....

Fang Bai tore open the void, traversing through Endless Space, and only appeared again in the Immortal Realm after fleeing tens of thousands of miles.

He employed his Divine Sense for internal inspection, and after thoroughly probing the Five Elements Origin Qi Cauldron and finding no damage to its body, he felt relieved.

Although both were Divine Artifacts, the Heaven Devouring Pot did not harm the Five Elements Origin Qi Cauldron, thus indicating it was more powerful than the Heaven Devouring Pot.

After all, Fang Bai's Cultivation Level was far inferior to that mysterious Demon Emperor's, and if both parties controlled equally powerful Divine Artifacts, Fang Bai's Five Elements Origin Qi Cauldron might have suffered.

Given the undamaged state of the Five Elements Origin Qi Cauldron, it clearly demonstrated its superiority over the Heaven Devouring Pot.

During the battle with the mysterious Demon Emperor, Fang Bai initially considered releasing seven Primordial Spirits to assist but refrained lest it expose his true identity, provoking a joint attack from the other two Demon Emperors, potentially harming Fang Bai's own body.

Primordial Spirits, after all, were weaker than the original body and, once injured, could cause endless troubles.

This is also why strong figures across the three realms don't release Primordial Spirits to aid in battle unless it's a matter of life and death.

As for the two Demon Emperors previously absorbed by the Heaven Devouring Pot, they attempted to release their Primordial Spirits at the last moment so that even if their bodies perished, the Primordial Spirits could take over.

However, the Heaven Devouring Pot proved too formidable, and underneath its radiance, even if they wished to release their Primordial Spirits, they were powerless.

"If I can advance to the true Emperor Realm, I can surely contend with the mysterious Demon Emperor. With the aid of seven Primordial Spirits, defeating him would not be difficult."

Thus Fang Bai pondered, planning to leave the Demon Realm and return to the Immortal Realm to cultivate diligently.

Yet immediately he felt if the Great Luo Immortal Emperor and the Hundred Flowers Empress were indeed inside the mysterious Demon Emperor's Demon Ring, and if, upon his leaving, the Demon Emperor were to harm them, wouldn't he regret it forever?

After contemplating for a while, Fang Bai decided to transform into another identity, conceal his Emperor Realm Cultivation, and then seek the mysterious Demon Emperor.

After the prior battle, Fang Bai had become familiar with the mysterious Demon Emperor's aura, and no matter how he might disguise himself, Fang Bai was confident in recognizing him.

As long as he could consistently pursue the traces of the mysterious Demon Emperor, he could simultaneously cultivate and seize his Demon Ring when the opportunity arose.

Thinking thus, Fang Bai transformed into the appearance of an elderly beginner-stage Demon Emperor Realm expert, heading back toward Heaven Devouring Peak.

Upon returning to Heaven Devouring Peak, it was desolate, and the mysterious Demon Emperor was nowhere to be seen.

Fang Bai felt relieved as the mysterious Demon Emperor hadn't torn open the void to depart but had instead flown away, enabling Fang Bai to follow his aura.

Chapter 2687: Mysterious Barrier

Fang Bai trailed all the way and discovered that the aura of that Mysterious Demon Emperor finally vanished within Heaven Devouring City.

Fang Bai conjectured that the Mysterious Demon Emperor must be living in some Demon Dwelling inside Heaven Devouring City, and that he had definitely set up a Concealment Formation inside and outside that Demon Dwelling.

From this it could be seen that the Mysterious Demon Emperor not only understood the Array Path, but was also an absolute master of it; otherwise it would have been impossible to deceive Fang Bai, who had been unmatched in formations in his previous life.

Entering Heaven Devouring City under the identity of an early-stage Demon Emperor Realm powerhouse, Fang Bai wandered around the city, investigating the residence of the Mysterious Demon Emperor.

Heaven Devouring City covered a radius of a hundred thousand li, and every Demon Dwelling in the city had formations laid down. Yet in Fang Bai's eyes those formations were not even worth mentioning; his Divine Sense could easily seep into them.

On this day, when Fang Bai was probing an inconspicuous Demon Dwelling in Heaven Devouring City, his Divine Sense was obstructed. He found that the formation laid around this Demon Dwelling was actually extraordinarily exquisite, and thus guessed that this was very likely the hiding place of the Mysterious Demon Emperor.

So Fang Bai found a nearby Demon Dwelling and moved in, in order to monitor the movements of the Mysterious Demon Emperor, while at the same time pondering how to break the formation of his Demon Dwelling so that his own Divine Sense could seep inside.

Fang Bai, who had been unmatched in formations in the Immortal Realm, unexpectedly encountered not a small amount of difficulty when breaking the formations laid by the Mysterious Demon Emperor, and thus became ever more certain that the other party was a successor of the Heaven Devouring Great Emperor.

Only a dazzlingly gifted powerhouse like the Heaven Devouring Great Emperor would have such an outstanding successor, whose formations could stump even Fang Bai.

However, for Fang Bai, difficulties were only temporary. Given enough time, there was no formation in this world that he could not break.

A dozen days later, just as Fang Bai had gained some clues on how to crack the formation, he suddenly discovered that the Mysterious Demon Emperor had left the Demon Dwelling and Heaven Devouring City, summoned a Wind Roc, and flown toward the Immortal Realm.

"What is this guy going to the Immortal Realm for again?"

After the Mysterious Demon Emperor had flown tens of thousands of li away, Fang Bai appeared in front of his Demon Dwelling, muttering to himself.

Fang Bai was in no hurry to pursue the Mysterious Demon Emperor. Instead, he rapidly broke the formation of his Demon Dwelling and entered it.

In Fang Bai's view, since this was where the Mysterious Demon Emperor resided and was protected by a supreme formation, there might very well be some good things inside.

Sure enough, after searching inside that Demon Dwelling for a while, he found an Emperor Rank Spatial Demon Ring, and inside it were actually quite a number of Starshine Stones.

This discovery made Fang Bai overjoyed.

Although that Emperor Rank Spatial Demon Ring could not be compared with the Five Elements Space Ring, its internal space was still quite vast; it was no problem to hold several million pieces of Immortal Stone.

And since Starshine Stones were taken from Endless Space, their effect was comparable to Emperor Elixirs and extremely hard to obtain; for Fang Bai this was a great harvest.

Unfortunately, the Spatial Demon Ring worn on the Mysterious Demon Emperor's finger was always carried on his person. To obtain it, a fierce battle would be unavoidable.

Afterward, Fang Bai also left Heaven Devouring City, summoned a Wind Roc, mounted it, and followed along the Mysterious Demon Emperor's aura in pursuit.

The Mysterious Demon Emperor thought he had hidden his aura extremely well, but never expected Fang Bai's sensing ability to be exceedingly sharp. The two were separated by over ten thousand li, one in front and one behind, flying toward the Immortal Realm.

Fang Bai was not worried about being discovered by the Mysterious Demon Emperor. After all, his current identity was only that of a small early-stage Demon Emperor Realm cultivator, an ant in the other's eyes.

Would a male lion pay attention to an ant?

Even so, Fang Bai still did his best to keep a distance of more than ten thousand li from the Mysterious Demon Emperor, staying outside the range of his Divine Sense so as not to arouse his suspicion.

Within a day, the Mysterious Demon Emperor and Fang Bai successively flew past the Tianyin Mountain Range at the border between the Immortal and Demon Realms and entered the Demon Ring.

After the Mysterious Demon Emperor reached the Immortal Realm side, he suppressed his own cultivation, transforming his Demonic Qi into Immortal Qi, looking just like a high-rank Immortal Emperor Realm expert.

And after Fang Bai returned to the Immortal Realm, he also stopped circulating the Heaven Devouring Art, maintaining the cultivation of an early-stage Immortal Emperor Realm expert.

Fang Bai could not guess the purpose of the Mysterious Demon Emperor's entry into the Immortal Realm this time, but he knew that he would definitely not come without reason. Thus he followed his aura all the way, to see what exactly he intended to do.

In the Ninth Heavenly Domain of the Immortal Realm, at the central area where the four wild regions of the Chengtian Domain met, there was a peculiar territory covering a radius of a hundred thousand li.

Within this hundred-thousand-li area, there were mountains and waters, Immortal Birds and ferocious beasts, deserts and forests, grasslands and seas of flowers... It gathered almost all landforms and sceneries from the mortal world to the Immortal Realm.

Moreover, the space here was filled with Immortal Qi of various attributes, pure and dense.

Multiple attributes of Immortal Qi coexisted within a single space and even got along harmoniously without the slightest conflict; this was what was most peculiar.

In some Cultivation Holy Lands of the Immortal Realm, whenever there were Immortal Qi of different attributes present, it was very difficult for them to be mutually compatible. Once they clashed, they would trigger heavenly phenomena.

For example, water and fire, fire and metal, metal and wood, and so on—once they collided, they would churn endlessly and not be at peace.

Yet in this central region, the Immortal Qi of the metal, wood, water, fire, earth, wind, and lightning attributes intermingled—within you there was me, within me there was you—yet remained at peace, leaving many Immortals puzzled.

Originally, with such pure and dense Immortal Qi of all attributes, this place ought to have been a unique Cultivation Holy Land in the Immortal Realm, and many Immortals had indeed entertained such thoughts.

Unfortunately, this region was like an independent kingdom, refusing any Immortal entry.

Even if Emperor Realm Experts of the three realms came, they would still be rejected outside.

Back in the day, Fang Bai had also come here once. At that time, he was at the peak of his strength, high-spirited and full of confidence, yet he was still blocked outside by an invisible wall of air.

Fang Bai had then speculated that this hundred-thousand-li area must be a Barrier left behind by some powerful expert, and that perhaps after his cultivation reached the Great Emperor Realm, he could try to break in again.

And at this moment, Fang Bai had followed the Mysterious Demon Emperor all the way to this region, which could be called the most mysterious area of the Immortal Realm.

"Could it be that he also wants to enter this Barrier?"

Shortly after the Mysterious Demon Emperor approached the Barrier, Fang Bai also appeared at the edge of the Barrier, the distance between them narrowing to around a thousand li.

Around the Barrier, quite a number of Immortals were wandering about. These Immortals had all seen the extraordinary nature within the Barrier and hoped to find some opportunity.

With so many Immortals present, Fang Bai was not worried that the Mysterious Demon Emperor would pay him any mind again.

The Mysterious Demon Emperor stood atop a small hill at the edge of the Barrier, his gaze burning as he looked at the scenery inside the Barrier. His expression kept changing, as if he was extremely excited.

"This hill belongs to this Immortal Emperor. You, get lost to the side!"

A moment later, a peak Immortal Emperor Realm expert flew over from the distance and landed on the mountaintop where the Mysterious Demon Emperor was, then waved his hand at the Mysterious Demon Emperor as if shooing away a fly.

"That guy is dead for sure!"

Fang Bai noticed the commotion over here and couldn't help but silently mourn for that peak Immortal Emperor Realm expert.

As expected, the Mysterious Demon Emperor didn't even look at that peak Immortal Emperor Realm expert. He casually blasted out a punch, and instantly smashed that arrogant peak Immortal Emperor Realm expert into dust.

Chapter 2688: The Mysterious Giant Axe Mountain

An expert at the peak of the Immortal Emperor Realm in the Immortal Realm could walk across it with ease, yet was obliterated by a single punch from the Mysterious Demon Emperor.

Witnessing this scene, all the immortals were shocked, their gazes towards the Mysterious Demon Emperor filled with astonishment and disbelief.

Although the Mysterious Demon Emperor's realm and cultivation level were suppressed to high rank Immortal Emperor Realm, seeing him in action, all the immortals knew he must have concealed his true power.

To obliterate an expert at the peak of the Immortal Emperor Realm with a single punch, he must at least be a Quasi-Emperor, right?

They would never have thought that the Mysterious Demon Emperor could battle three Great Emperor Level Experts and win, his power far exceeding their imagination.

After annihilating the Immortal Emperor Realm Peak expert, the Mysterious Demon Emperor began flying around the barrier in front, his gaze continuously scanning the mountain terrain outside the barrier, as if searching for something.

Fang Bai knew that the Mysterious Demon Emperor had his reasons for doing this, and his eyes closely followed him, wanting to see what he would do next.

After flying several laps around the barrier, the Mysterious Demon Emperor seemed to make a discovery and was exhilarated.

He let out a long howl and flew towards a mountain peak dozens of miles away from the barrier.

Fang Bai followed his figure with his gaze, seeing that the mountain peak was hundreds of zhang high, not particularly majestic, but its shape was peculiar, resembling a giant axe standing upright, which stirred his heart.

He extended his Divine Sense, attempting to penetrate into the mountain peak to see if there was anything unusual inside that attracted the Mysterious Demon Emperor to fly there.

His Divine Sense was pervasive, capable of penetrating even the most solid rock to a depth of a thousand feet.

However, after penetrating the mountain peak several feet, he found his Divine Sense blocked by an invisible force, unable to advance further.

"Indeed, something strange!"

Looking at the mountain peak, Fang Bai knew that the object capable of attracting the Mysterious Demon Emperor couldn't be mundane and, driven by curiosity, approached the axe-shaped mountain peak.

The Mysterious Demon Emperor flew in front of Giant Axe Mountain, scrutinized it, then raised his right arm high, his right palm tightly joined, and made a chopping motion towards the mountain peak.

As he made the chopping motion, an ear-piercing sonic boom echoed through the void, and a terrifying sword light hundreds of zhang long pierced through the sky, slashing down upon the mountain top of Giant Axe Mountain.

In the eyes of the surrounding experts, the power of this chop was sure to cleave the mountain in two.

"Boom!"

The sword light, hundreds of zhang long, struck the mountain top of Giant Axe Mountain, causing the entire mountain to shake and sending countless rocks flying.

"How is that possible?"

"Such a solid mountain peak!"

"That slash from the Upper Immortal contained Emperor's might, yet couldn't harm the mountain peak!"

"Truly the strangest thing!"

When the immortals focused their eyes, they found that Giant Axe Mountain stood intact without signs of cracking or collapsing, causing a stir.

"Why did the Upper Immortal attack the mountain peak?"

An immortal voiced a quiet doubt.

"Is there an Immortal Stone Vein buried under the mountain?"

"The mountain isn't large, even if there is an Immortal Stone Vein, there wouldn't be much reserves!"

"Perhaps there's another extraordinary treasure. Otherwise, how could it entice an Emperor Realm expert to make a move?"

Seeing the Mysterious Demon Emperor's might brimming when he previously struck, the immortals concluded he was an Immortal Emperor.

Fang Bai, seeing the Mysterious Demon Emperor unable to cleave Giant Axe Mountain, couldn't help but marvel, increasingly convinced there was a strange treasure inside Giant Axe Mountain.

The Mysterious Demon Emperor was also full of surprise.

He knew his own strength well enough — even a mountain ten thousand zhang high would be shattered under his palm, let alone the small peak before him.

Clearly, within this small mountain peak lay a treasure capable of withstanding his mighty palm.

"Once more!"

The Mysterious Demon Emperor struck again.

If the previous attempt was casual, this time he exerted his full strength.

Yet even with this attempt, Giant Axe Mountain's top merely caved in several feet, far from achieving the desired effect.

But this result instead delighted the Mysterious Demon Emperor even more.

Fang Bai's eyes also shone with peculiar light, his heart filled with excitement.

"I don't believe this Emperor can't raze you!"

The Mysterious Demon Emperor shouted, a golden light flashed from the center of his brow at his Sea of Consciousness.

In the next moment, a fist-sized golden vessel appeared in his right palm.

"Heaven Devouring Pot..."

Watching the Mysterious Demon Emperor reveal the Heaven Devouring Pot again, Fang Bai knew this legacy of the Heaven Devouring Great Emperor was likely a Divine Artifact of boundless power. He recalled the two Demon Emperors absorbed earlier and shuddered.

Held in his right hand, the Heaven Devouring Pot radiated ten thousand beams of golden light, dazzlingly radiant.

However, though the Mysterious Demon Emperor could hide his identity as a Demon Emperor, he couldn't conceal the Demonic Qi emitted by the Heaven Devouring Pot.

"A demonic artifact! That golden pot is a demonic artifact!"

"It's an Emperor's Instrument among demonic artifacts!"

The immortals on the scene, sensing the large amount of Demonic Qi emitted by the Heaven Devouring Pot, couldn't help but exclaim in surprise, subsequently doubting the identity of the Mysterious Demon Emperor.

Demon Clan Emperor's Instruments are typically controlled only by Demon Clan Emperor Realm experts!

In that instant, the many immortals present looked at the Mysterious Demon Emperor with a mix of reverence and enmity.

Several disciples from powerful sects had already sent signals summoning the sect's high-ranking members for assistance.

Fang Bai sighed, knowing that although there were many immortals present, in the Mysterious Demon Emperor's eyes, they were no more than an unruly mob. If the two sides actually clashed, the immortals would suffer heavy casualties.

Thousands of immortals united against a common foe, flew from all sides, surrounding the Mysterious Demon Emperor, each deploying their Immortal Artifacts, raising their battle spirit to the peak.

As Fang Bai expected, the Mysterious Demon Emperor didn't bother with the surrounding immortals.

Since his identity had been exposed, he no longer hid anything, and amidst eerie laughter, Demonic Qi surged around him, blood-red pupils reappeared, Emperor's might spread outward.

The assembly of immortals couldn't withstand the pressure of his Emperor's might and scattered.

"A bunch of ants, daring to contend with this Emperor, overestimating themselves!"

The Mysterious Demon Emperor ignored the other immortals, instead deployed the Heaven Devouring Pot and hurled it towards Giant Axe Mountain.

The Heaven Devouring Pot expanded a thousand times in mid-air, then crashed down, shattering the void beneath into fragments.

"Such overwhelming force from a Divine Artifact!"

This was the first time Fang Bai saw a Divine Artifact display such forceful might, thinking if the Heaven Devouring Pot aimed at him, lacking the Five Elements Origin Qi Cauldron for defense, he might not escape death.

Although he could manipulate the Five Elements Origin Qi Cauldron to attack, his cultivation level was far inferior to the Mysterious Demon Emperor's, managing to harness only one or two tenths of its true power.

Other immortals observing the Heaven Devouring Pot's terrifying force descending towards Giant Axe Mountain were astounded into disbelief, instantly losing their resolve and courage to join hands and fight the Demon Emperor.

"Boom!"

A thunderous explosion, dust enveloped the air, countless shattered rocks ricocheted, and within an instant, the hundreds of zhang high Giant Axe Mountain was flattened by the Heaven Devouring Pot.

Chapter 2689: Divine Artifacts Collide

"What... what is that thing?"

"It seems to be an axe!"

"How could there be an axe at the foot of the mountain?"

"Perhaps it's an Immortal Artifact left by some immortal!"

"The entire mountain has been leveled, yet that axe remains unscathed. It must be an extraordinary Immortal Artifact!"

"Maybe it's an Emperor's Instrument!"

...

The attention of all the immortals was focused as they saw beneath the Giant Axe Mountain, leveled by the Heaven Devouring Pot, a protruding object revealing itself to be an axe.

The axe was about three feet long, buried within the Giant Axe Mountain for who knows how many years, appearing rusted and exuding an ancient and weathered aura.

However, none of the immortals ignored this axe; they understood that without this axe, the Giant Axe Mountain would have ceased to exist under the first attack of the Mysterious Demon Emperor.

Upon seeing the axe, the Mysterious Demon Emperor couldn't help but let out an excited howl toward the sky.

Then, with a stretch of his hand, he attempted to grab the axe.

Fang Bai watched coldly, knowing that if the axe was a Divine Artifact, the Mysterious Demon Emperor wouldn't easily possess it.

Sure enough, as the Mysterious Demon Emperor's fingers were about to touch the axe, the axe suddenly flew up, evading him.

"Trying to escape?"

The Mysterious Demon Emperor, having missed his mark, let out a sinister laugh, his demonic palm tearing through the air, speeding up to grab it again.

His hand moved faster than imagined, yet the axe evaded even more swiftly, dodging once more.

The Mysterious Demon Emperor became enraged, his demonic palm transformed into countless overlapping shadows in the air, as if weaving a Heaven's Net, covering thousands of miles, closing in on the axe.

The axe was sealed off on all sides, seemingly with nowhere to escape.

Fang Bai knew that if the axe were truly a Divine Artifact, it wouldn't willingly surrender; it would fight back with all its might.

"Buzz!"

The once rusty axe suddenly trembled violently, waves of imperial might resonating from the tremors, spreading outwards like ripples.

As the axe trembled, the rust rapidly peeled away, revealing a dark and shining axe blade.

At this moment, Fang Bai sensed a divine power fluctuation similar to that of a Starshine Stone emanating from the axe blade, speculating that the material used to forge the axe likely came from the Endless Space beyond this realm.

The axe suddenly expanded a thousandfold, from a small three-foot axe into a towering giant axe, proudly standing in the void, like a deity, its light growing ever brighter as countless axe beams slashed outward in all directions.

The demonic palms surrounding the giant axe disintegrated under the onslaught of those axe beams.

The giant axe instantly shrunk back to three feet, transforming into a black streak, flying towards the massive barrier ahead, seemingly trying to escape into the barrier.

The Mysterious Demon Emperor, seeing this, appeared quite anxious, stomping his foot, his figure turning into a flash of lightning, chasing the giant axe at full speed.

"Boom!"

When the axe struck the barrier, a violent ripple spread out within a radius of several meters from the point of impact, creating fine cracks visible to the naked eye.

Seeing this, Fang Bai suddenly gained an insight.

"Could it be that the Mysterious Demon Emperor is so eager to obtain the axe because it is the 'key' to unlocking this barrier?"

With this thought, Fang Bai felt a rush of excitement.

Within the barrier, there must be great opportunities. For millions of years, countless immortals have attempted to break through the barrier to enter, all to no avail.

The Mysterious Demon Emperor, having specifically traveled from the Demon Realm to this barrier and lingered outside for a long time, clearly also intended to enter.

Fang Bai continuously observed the Mysterious Demon Emperor's expressions and changes in demeanor, guessing that he certainly had some understanding of both the barrier and the axe.

"Boom!"

"Boom!"

"Boom!"

...

With consecutive earth-shattering booms, the axe continuously battered the barrier, eventually forming a foot-wide crack.

At this point, the Mysterious Demon Emperor, having caught up, threw the Heaven Devouring Pot into the void.

The Heaven Devouring Pot shot out a beam of golden light, enveloping the axe, the powerful suction force resembling the hand of a deity, persistently pulling the axe towards the pot, as if trying to absorb it.

The axe, also a Divine Artifact, had its pride. How could it submit to the Heaven Devouring Pot?

As the golden light from the Heaven Devouring Pot enveloped it, the axe emitted radiant black light, buzzing loudly, releasing an astounding force of resistance.

The two Divine Artifacts drew closer and then apart, locked in a stalemate.

The Mysterious Demon Emperor's gaze fell on the crack created by the axe, revealing an expression of delight.

He no longer concerned himself with the axe, rapidly shrinking his form, and slipped through the crack into the barrier.

Originally, Fang Bai intended to follow the Mysterious Demon Emperor into the barrier, but after a moment's thought, he ascended into the air and summoned the Five Elements Origin Qi Cauldron, hurling it towards the Heaven Devouring Pot with full force.

The Heaven Devouring Pot was an Emperor's Instrument of the Demon Clan, while the axe exuded a grand righteousness. Fang Bai acted to lend the axe a helping hand, assisting it in escaping the entanglement of the Heaven Devouring Pot.

Although the Heaven Devouring Pot was a Divine Artifact, possessing immense power, at this moment most of its energy was focused on the standoff with the axe. Ordinary external forces might not affect it, but Fang Bai's Five Elements Origin Qi Cauldron, being a Divine Artifact, managed to knock the Heaven Devouring Pot away under the axe's counterattack.

Luckily, the axe had been slumbering beneath the mountain for eons, its power not fully awakened. Though it knocked the Heaven Devouring Pot away, it didn't inflict damage upon it.

At that moment, from within the barrier came a long howl from the Mysterious Demon Emperor, the Heaven Devouring Pot seemed to be summoned, flying into the barrier.

Fang Bai glanced at the axe, then also reduced his size, passing through the crack and entering the barrier.

The axe dimmed its light, following Fang Bai into the barrier.

Upon entering the barrier, Fang Bai immediately felt an overwhelming pressure descend upon him.

The pressure was far more intense than Fang Bai had imagined, akin to being in Endless Space, unable to remain there for long.

Fang Bai became increasingly certain that the one capable of laying down such a great barrier must be at least a Great Emperor Level Expert.

It's fortunate that Fang Bai's combat power was equivalent to an Emperor Realm Expert; otherwise, he would have had to rely on the Divine Artifacts he carried to withstand the pressure inside the barrier and to stand his ground.

Fang Bai witnessed with his own eyes several Immortal Emperor Realm Peak experts also entering the barrier after them, seeking opportunity, only to have their bodies explode and perish under the pressure within the barrier.

Afterward, no other immortals dared to venture into the barrier rashly.

After entering the barrier, Fang Bai initially intended to release his Divine Sense to search for the whereabouts of the Mysterious Demon Emperor but found that his Divine Sense was severely obstructed here, only capable of probing a range of a hundred miles.

Worried that the Mysterious Demon Emperor might launch a sudden attack, catching him off guard, Fang Bai tightly gripped the Blood-Drinking Mad Blade in his right hand and held the Five Elements Origin Qi Cauldron in his left.

With these two Divine Artifacts for protection, Fang Bai felt much more at ease, confident that even if the Mysterious Demon Emperor launched a surprise assault, he would be able to fend it off.

It was only then that Fang Bai began to observe carefully the scenes and objects within the barrier.

Chapter 2690: Within the Barrier

Earlier, outside the barrier, one could only see the scenery inside but could not sense its peculiar aspects.

Now, immersed in it, Fang Bai discovered that the mountains, rivers, flowers, and grasses within this hundred-thousand-mile barrier, as well as the Immortal Birds and Immortal Beasts flying and running around, were all so extraordinary.

Each mountain peak emitted pure and dense Immortal Qi; upon closer inspection, they were enormous Immortal Stones.

The rivers and lakes seemed like Immortal Brew, containing Immortal Qi as well.

The flowers and plants, aged over fifty thousand years, could be refined into a large number of Emperor Elixirs.

And those Immortal Birds and Beasts were all at the Immortal Emperor Realm Peak cultivation level.

It could be said that everything within this hundred-thousand-mile circle was extremely rare cultivation resources in the Immortal Realm.

"If these cultivation resources could be brought back to the Emperor's Palace, the disciples of the Emperor's Palace would not have to worry about cultivation resources for a hundred years!"

Fang Bai's gaze wandered around, his heart brimming with excitement.

However, he was not familiar with the environment inside the barrier and worried that rashly collecting the cultivation resources might invite disaster, so he suppressed his excitement and moved slowly, scouting the surroundings for any movements.

Fang Bai now wanted to find out where exactly that Mysterious Demon Emperor was located and what he was up to.

He felt that the Mysterious Demon Emperor had come prepared and seemed familiar with this barrier, so he wasn't at ease staying here without knowing the whereabouts of the Mysterious Demon Emperor.

And that axe also vanished without a trace after entering the barrier.

Fang Bai suspected that the axe also had ties to this barrier and was unsure if it would attack him, so he could only heighten his vigilance.

After traveling over a thousand miles within the barrier, Fang Bai's Divine Sense finally captured some fluctuations of aura.

"Could it be... that the Mysterious Demon Emperor and that wondrous axe are fighting again?"

Fang Bai cautiously approached, finally sensing the strong auras clashing fiercely.

When his Divine Sense discovered the warring parties, he couldn't help but gasp in shock.

Originally, he thought this battle was only between the Mysterious Demon Emperor and the wondrous axe, but he hadn't expected hundreds of Immortal Birds and Beasts inside the barrier to be involved as well.

Although the Mysterious Demon Emperor, with the aid of the Divine Artifact Heaven Devouring Pot, could suppress that wondrous axe, the axe surprisingly had the ability to command the Immortal Birds and Beasts within the barrier.

Perhaps in the eyes of the Mysterious Demon Emperor, those Immortal Birds and Beasts of the Immortal Emperor Realm Peak were insignificant, but when their numbers reached hundreds, he found it extremely troublesome.

Especially when those hundreds of Immortal Birds and Beasts knew how to form formations and launch joint attacks, it left the Mysterious Demon Emperor at a loss.

Hundreds of Immortal Birds and Beasts covered the sky, launching wave after wave of attacks on the Mysterious Demon Emperor.

When the auras of hundreds combined, their power was even greater than the full-force attack of a top-level Emperor Realm expert.

Even with the power to destroy the heavens and the earth, the Mysterious Demon Emperor struggled when facing the attacks of hundreds of Immortal Birds and Beasts of the Immortal Emperor Realm Peak on his own.

He had to deploy the Heaven Devouring Pot for assistance to regain the upper hand.

The Heaven Devouring Pot, worthy of being a Divine Artifact, displayed astounding might when activated, absorbing all Immortal Birds and Beasts illuminated by its golden light into the pot, where they turned into blood.

In no time, dozens of Immortal Birds and Beasts perished within the Heaven Devouring Pot.

The axe, being very intelligent, seemed to realize that continuing like this was not wise; it controlled the Immortal Birds and Beasts to attack the Mysterious Demon Emperor, then "whoosh!" flew up, striking at the Heaven Devouring Pot mid-air.

It knew that only by destroying the Heaven Devouring Pot could it kill the Mysterious Demon Emperor.

The Mysterious Demon Emperor, busy dealing with the myriad attacks of the Immortal Birds and Beasts, couldn't spare the effort to control the Heaven Devouring Pot, letting it contend with the axe on its own.

If outside the barrier, their confrontation would undoubtedly cause heaven and earth to collapse, flattening a range of tens of thousands of miles.

However, within this barrier, perhaps restricted by the pressure, the destructive power generated by their mutual attacks only spread within a range of few hundred miles.

Fang Bai knew that although the two sides were equal for now, once time passed and most of the Immortal Birds and Beasts were wiped out, the situation would change.

By then, the axe would suffer under the combined oppression of the Mysterious Demon Emperor and the Heaven Devouring Pot, putting it at a disadvantage.

Fang Bai guessed that the Great Luo Immortal Emperor and Hundred Flowers Empress were likely put into the Spatial Demon Ring by the Mysterious Demon Emperor, thus his eagerness to snatch his Demon Ring.

In the past, knowing he was no match for the Mysterious Demon Emperor, he did not act.

But at this moment, it was a rare opportunity for him; if he hesitated even briefly, he feared even this opportunity would be lost.

Thus, Fang Bai immediately deployed the Five Elements Origin Qi Cauldron to aid the axe in attacking the Heaven Devouring Pot.

Fang Bai himself wielded the Blood-Drinking Mad Blade, joining forces with the hundreds of Immortal Birds and Beasts to jointly attack the Mysterious Demon Emperor.

With the assistance of the Five Elements Origin Qi Cauldron, the axe immediately reversed the balance, firmly suppressing the Heaven Devouring Pot.

With Fang Bai's powerful entry, the hundreds of Immortal Birds and Beasts also formed a suppressive stance against the Mysterious Demon Emperor.

"So it's you!"

After returning to the Immortal Realm, Fang Bai revealed his true form, causing the Mysterious Demon Emperor to recognize him at once from their previous encounter in Bluewater Immortal City.

At the time, Fang Bai had appeared before the Mysterious Demon Emperor with one of the Bipartite Dual Swords of the Hundred Flowers Empress. The Mysterious Demon Emperor, seeing his special

constitution, wanted to abduct him for cultivation and later consume his blood, but unexpectedly, Fang Bai had escaped.

Thus, the Mysterious Demon Emperor had a deep impression of Fang Bai.

However, the Mysterious Demon Emperor was amazed because the pressure within the barrier was too heavy, even he couldn't stay for long, yet this little immortal in the Quasi-Emperor Realm was able to withstand it and had the ability to fight him.

"Indeed, it is I!"

Fang Bai laughed loudly, taking advantage of the Immortal Birds and Beasts around him attacking the Mysterious Demon Emperor to slash out a blood arc with his blade, then pointed at the Spatial Demon Ring on his hand, "Hand over your Demon Ring, and I won't kill you!"

The Mysterious Demon Emperor snorted coldly, saying, "A mere Quasi-Emperor dares to call himself an 'Emperor'?"

He formed a blade with his hand, slaying a crazed, charging Immortal Beast, chuckling sinisterly, "Last time you escaped; this time, let's see where you can go!"

He raised his left hand, and the Spatial Demon Ring emitted a faint light, adding, "Once I capture you, little immortal, I'll toss you into my Demon Ring to keep company with those two Immortal Emperors! Once I get the Great Emperor Pill in this barrier, I'll consume your blood."

Upon hearing him mention "to keep company with those two Immortal Emperors," Fang Bai couldn't help but feel ecstatic, believing that those two Immortal Emperors must be the Great Luo Immortal Emperor and Hundred Flowers Empress he had been painstakingly searching for.

As for the Mysterious Demon Emperor's last sentence, he completely ignored it.
