

Doctor 2691

Chapter 2691: You Are the Heaven Devouring Great Emperor!

Since it was confirmed that the Hundred Flowers Empress and the Great Luo Immortal Emperor were within the mysterious Demon Emperor's Demon Realm space, Fang Bai held nothing back and launched a full-force attack against the mysterious Demon Emperor.

He knew that killing the mysterious Demon Emperor was extremely difficult, so every attack targeted the mysterious Demon Emperor's left arm.

As long as he could cut off the mysterious Demon Emperor's left arm, he would obtain the Spatial Demon Ring and rescue the Great Luo Immortal Emperor and the Hundred Flowers Empress.

Though the Spatial Demon Ring was engraved with intricate and complex array runes, to Fang Bai, unlocking them should not pose a problem.

"Where did you get that Great Cauldron and this Blood Blade?"

The mysterious Demon Emperor saw that Fang Bai's Five Elements Origin Qi Cauldron and Blood-Drinking Mad Blade both faintly emanated a hint of Divine Power and couldn't help but feel surprised, his blood-red pupils flickering with strange light.

In his eyes, Divine Artifacts were neither things of the Immortal Realm nor controlled by Immortals. Yet, this Immortal, who possessed merely a Quasi-Emperor cultivation level, not only had two Divine Artifacts but could also control them simultaneously. This greatly exceeded his expectations.

Fang Bai ignored the mysterious Demon Emperor and swung the Blood-Drinking Mad Blade more fiercely.

The mysterious Demon Emperor, facing the reckless attacks of Fang Bai and hundreds of Immortal Birds and Immortal Beasts, found it difficult since he couldn't use the Heaven Devouring Pot for battle.

Although he coveted Fang Bai's Five Elements Origin Qi Cauldron and Blood-Drinking Mad Blade, he knew obtaining them wasn't easy.

Moreover, his primary purpose for coming was the Great Emperor Pill within this Barrier, and seizing Divine Artifacts was secondary.

To him, as long as he obtained the Great Emperor Pill and significantly boosted his power, he could easily destroy this Quasi-Emperor before him, and his two Divine Artifacts would be his.

"Do you think I fear you just because you have two Divine Artifacts?"

The mysterious Demon Emperor shouted, drawing back Fang Bai and the numerous Immortal Birds and Beast's siege. Then, with a wave of his left hand, the Spatial Demon Ring on his finger flickered.

The next moment, a Demon Clan expert with a lifeless expression, vacant eyes, and no signs of life appeared beside the mysterious Demon Emperor.

"Emperor Realm Puppet Corpse!"

Fang Bai sensed a trace of Emperor's might from the suddenly appearing Demon Clan expert, realizing it was an Emperor Realm expert refined into a Puppet Corpse, and involuntarily gasped.

Refining an Emperor Realm expert into a Puppet Corpse was something even his past self couldn't achieve. Unexpectedly, the mysterious Demon Emperor's Puppet Corpse refining ability was far superior to his own, which was truly astonishing.

With the appearance of the Emperor Realm Puppet Corpse, Fang Bai knew defeating the mysterious Demon Emperor in this battle would become even more difficult.

"Kill!"

With a loud shout from the mysterious Demon Emperor, the Emperor Realm Puppet Corpse immediately engaged in battle with the surrounding Immortal Birds and Beasts.

The mysterious Demon Emperor sneered coldly and began to attack Fang Bai with full force.

Fang Bai, without the aid of the numerous Immortal Birds and Beasts, could only rely on the Blood-Drinking Mad Blade for assistance in battle, being suppressed once again by the mysterious Demon Emperor.

On the other side, the Emperor Realm Puppet Corpse, fearless of death, fought more frantically than those Immortal Birds and Beasts, causing many to fall under its relentless attacks.

Fang Bai knew that once the Emperor Realm Puppet Corpse dealt with all the Immortal Birds and Beasts, it would join forces with the mysterious Demon Emperor to attack him.

By then, he would be in an unprecedented perilous situation, making escape nearly impossible.

"You have Puppet Corpses, so do I!"

Fang Bai gritted his teeth and released over a dozen Puppet Corpses from his Five Elements Space Ring at once.

However, his Puppet Corpses had varying strengths, with the strongest being of Immortal Emperor Realm Peak cultivation level, and others at high and mid-levels of Immortal Emperor Realm.

If Fang Bai could spare his mind to control these Puppet Corpses to form an Emperor Rank Formation, they might stand against the Emperor Realm Puppet Corpse.

But now, Fang Bai was firmly suppressed by the mysterious Demon Emperor, having to devote his full attention to the fight, making it difficult to multitask. He could only rely on those Puppet Corpses to fight on their own.

The dozen or so Immortal Emperor Realm Puppets, unable to form a formation, naturally couldn't unleash strong combat power. After entering the battle, they only slowed the Emperor Realm Puppet Corpse's slaughter of Immortal Birds and Beasts, unable to change the battle's course.

However, the mysterious Demon Emperor, discovering that Fang Bai could also refine Puppet Corpses, was even more astonished than Fang Bai.

"You little Immortal are indeed extraordinary! Since I reborn after the takeover, I've seen many geniuses from the Immortal Realm, but never have I encountered such an outstanding Immortal as you! Haha...I increasingly want to capture you alive and feast on your blood!"

The mysterious Demon Emperor's eyes lit up as he looked at Fang Bai.

Fang Bai had always believed that the mysterious Demon Emperor's true identity was a descendant of the Heaven Devouring Great Emperor from millions of years ago. But hearing his phrase "since I reborn" made his brain buzz.

"You're not a descendant of the Heaven Devouring Great Emperor?"

Fang Bai dealt with the various Mystical Arts imposed by the mysterious Demon Emperor while shouting loudly.

The mysterious Demon Emperor laughed heartily, "In the Three Realms, who is qualified to be my descendant? One day, I will return to the Divine Realm and achieve an eternal undying body! Since I'm undying, why need descendants?"

From these words, Fang Bai gathered a lot of information, leaving him shocked and speechless for a moment.

It turns out, this mysterious Demon Emperor was not a descendant of the Heaven Devouring Great Emperor, but the Heaven Devouring Great Emperor himself!

Furthermore, like himself, this Heaven Devouring Great Emperor was not the original body but had undergone rebirth through possession!

The Heaven Devouring Great Emperor disappeared millions of years ago without a trace; could it be that he entered the Divine Realm from the Immortal Realm?

Could those Great Emperor Realm experts who vanished in the Three Realms' legends have also reached the Divine Realm?

Could the legendary Divine Realm truly exist?

And in the Divine Realm, is it really possible to achieve an eternal undying body?

Regarding the Divine Realm and the eternal undying body, Fang Bai had heard something when he reached the Emperor Realm in the past and was filled with longing.

Unfortunately, a thousand years ago, when his cultivation reached the peak of the Emperor Realm, he was besieged by eight top Immortal Emperors and fell.

Otherwise, in those thousand years, with his remarkable talent and aptitude, he might have had the chance to step into the Great Emperor Realm and pursue the legendary Divine Realm!

These thoughts flashed through Fang Bai's mind before he fully devoted himself to the battle with the Heaven Devouring Great Emperor.

Though the Heaven Devouring Great Emperor's fame had shaken the Three Realms millions of years ago, now, like himself, he was not at his peak. Even if he could comprehensively suppress Fang Bai, Fang Bai was not fearful.

"So, you are the Heaven Devouring Great Emperor, truly renowned for your name! To battle the Heaven Devouring Great Emperor, who once dominated the Three Realms, today is a great honor!"

Fang Bai laughed heartily, feeling a surge of heroism.

The Heaven Devouring Great Emperor was surprised Fang Bai seemed young but knew of him, laughing, "I didn't expect this little Immortal to have heard of my name!"

Chapter 2692: The Great Emperor's Fist

Fang Bai, after knowing the identity of the Heaven Devouring Great Emperor, suddenly recalled the Heaven Devouring Art that has appeared multiple times over the years in the Immortal Realm.

He already knew that, currently in the Immortal Realm, several Immortal Emperors have successively obtained the Heaven Devouring Art and started cultivating it.

Originally one of the eight top Immortal Emperors, the Golden Crow Immortal Emperor has even fallen into the Demon Dao and become a Demon Emperor.

Both the Flying Swan Immortal Emperor and Carefree Immortal Emperor also obtained and cultivated the Heaven Devouring Art, but these two Immortal Emperors have not been seen for many years.

Fang Bai thought they must be hiding somewhere within a secret realm in the three realms, devoting themselves to the cultivation of the Heaven Devouring Art.

Even Fang Bai himself couldn't resist the temptation of the Heaven Devouring Art, often comprehending and cultivating it, benefiting greatly in return.

Luckily, Fang Bai possessed a special constitution that could purify demonic Qi, otherwise under the erosion of demonic Qi generated after cultivating the Heaven Devouring Art, it would be hard to avoid a drastic change in disposition, falling into the Demon Dao.

"Was the Heaven Devouring Art circulating in the Immortal Realm deliberately released by you?"

Fang Bai blocked the swift attack of the Heaven Devouring Great Emperor and retreated violently several hundred zhang, then looked at the Heaven Devouring Great Emperor and asked.

He felt that with the appearance of the Heaven Devouring Art in the Immortal Realm and it being obtained by multiple Immortal Emperors, the Heaven Devouring Great Emperor wouldn't ignore it.

And the fact that he didn't intervene clearly indicates that there is some unspeakable purpose behind it.

The Heaven Devouring Great Emperor laughed heartily: "You guessed right!"

Fang Bai asked, "Why do this?"

The Heaven Devouring Great Emperor replied: "Because I want them all to become Emperor Realm experts of the Demon Clan, and then absorb their blood to help me return to the Great Emperor Realm sooner!"

With these words, Fang Bai suddenly understood.

Strong individuals of the Demon Clan have always preferred consuming fresh blood for cultivation, and for a powerhouse like the Heaven Devouring Great Emperor, perhaps only the blood of Emperor Realm experts could provide excellent assistance in cultivation.

Therefore, he deliberately released the Heaven Devouring Art, allowing Emperor Realm experts in the Immortal Realm to obtain it.

Once the Immortal Realm Emperor Realm experts cultivate the Heaven Devouring Art and fall into the Demon Dao, the Heaven Devouring Great Emperor would seize opportunities to capture them, waiting for the chance to absorb their blood for cultivation.

With the strength of the Heaven Devouring Great Emperor, coupled with his Divine Artifact, the Heaven Devouring Pot, it's not easy for any Emperor Realm expert to escape from his grasp.

Of course, except for Fang Bai who also possesses Divine Artifacts.

Thinking of the Great Luo Immortal Emperor and Hundred Flowers Empress captured by the Heaven Devouring Great Emperor, Fang Bai couldn't help but secretly worry.

If he couldn't seize this opportunity to rescue the Great Luo Immortal Emperor and Hundred Flowers Empress from the demon ring of the Heaven Devouring Great Emperor, they might fall into his hands later.

After all, with the Great Luo Immortal Emperor and Hundred Flowers Empress being Emperor Realm experts, their moment of demonization would be their time of demise.

Although Immortal Emperor blood is also a rare cultivation "supplement," the demonized Emperor Realm experts undoubtedly would be more beneficial to the Heaven Devouring Great Emperor.

This is probably the reason the Great Luo Immortal Emperor and Hundred Flowers Empress have survived until now.

"It's strange, you are clearly also cultivating my Heaven Devouring Art, and it seems you've comprehended it quite deeply, why is there no demonic Qi within your body?"

The Heaven Devouring Great Emperor mentioned this, increasingly puzzling him, and he wasn't in a rush to attack Fang Bai, his blood-red eyes fell on Fang Bai, seemingly trying to see through him.

Fang Bai chuckled, naturally unwilling to reveal that he was a Chaos True Body, capable of resolving all intrusive demonic, sinister, and evil Qi within the body.

"You possess an Innate Spiritual Root physique, but seemingly not limited to one kind of Innate Spiritual Root..."

The Heaven Devouring Great Emperor's gaze on Fang Bai became even brighter, pondered: "Could it be an Extraordinary Holy Body? No! Even an Extraordinary Holy Body should not be able to resolve the demonic Qi generated from cultivating the Heaven Devouring Art... Hm, above the Extraordinary Holy Body is the Great Luo Immortal Body..."

When he mentioned "Great Luo Immortal Body," he seemed a bit impatient, rubbing his palms and licking his lips, saying: "It seems I've found treasure! Once I capture you, I'll take a closer look at what your physique truly is!"

The better the physique, the more beneficial its blood is for the cultivation of Demon Clan experts.

If Fang Bai truly is the rare Great Luo Immortal Body, then, once the Heaven Devouring Great Emperor captures him, there's no need to wait for him to be demonized before absorbing his blood for cultivation directly.

He unleashed his pressure, firmly locking onto Fang Bai, then circulated the Heaven Devouring Art, employed secret techniques, and attacked Fang Bai once again.

For the sake of rescuing the Great Luo Immortal Emperor and Hundred Flowers Empress, Fang Bai couldn't retreat or flee, he gritted his teeth and swung the Blood-Drinking Mad Blade to confront.

For a moment, within the barrier, the two Divine Artifacts continually clashed, two Emperor Realm experts exerted all their strength to attack each other, and one Emperor Realm Puppet Corpse fought fiercely against dozens of Immortal Emperor Realm puppets along with hundreds of Immortal Birds and Immortal Beasts...

In an instant, the world's atmosphere surged, engulfed by tidal waves.

Fortunately, the pressure within the barrier restrained the powers of those fighting, otherwise, within this ten thousand li radius, it would have been destroyed beyond recognition.

Although the Five Elements Origin Qi Cauldron was constantly suppressed by the Heaven Devouring Pot, the Heaven Devouring Pot could never completely devour it.

Moreover, as time passed, under the vigorous suppression of the Heaven Devouring Pot, the Five Elements Origin Qi Cauldron seemed to have awakened hidden Divine Power, with vast and magnificent breaths constantly emanating from its body, gradually achieving equal footing with the Heaven Devouring Pot.

This made Fang Bai immensely delighted and the Heaven Devouring Great Emperor marvel, arousing his desire for Fang Bai's two Divine Artifacts.

However, despite the Five Elements Origin Qi Cauldron reversing its disadvantage, Fang Bai is increasingly at a disadvantage.

Even with the assistance of the Blood-Drinking Mad Blade in battle, boosting Fang Bai's combat strength by two to three-tenths, he still wasn't a match for the Heaven Devouring Great Emperor.

The Heaven Devouring Great Emperor, worthy of being a prodigious one-in-a-generation Great Emperor of the Demon Clan, possesses a chest full of all-encompassing knowledge, and even after soul transference and rebirth, with weaker power, he remains incomparable to Fang Bai.

Initially, Fang Bai could barely hold his own against him, but as time passed, he found it increasingly strenuous.

Suddenly, the Heaven Devouring Great Emperor exhaled, his hair and mustache fluttered, his black robe swirled, a fist smashed through the air, containing terrifying Divine Power, even the barrier pressure couldn't restrain it, the void shattered because of it.

Fang Bai knew this was the Heaven Devouring Great Emperor's strongest attack, greatly astonished, he formed a Defense Qi Shield while positioning the Blood-Drinking Mad Blade in front of him.

He didn't seek to neutralize the Heaven Devouring Great Emperor's earth-shaking strike but merely not to be too heavily injured.

"Boom!"

A thunderous sound rang out, the barrier trembled.

The Heaven Devouring Great Emperor's punch landed on the Blood-Drinking Mad Blade before Fang Bai, causing Fang Bai's palm to crack, he stumbled back, and the Blood-Drinking Mad Blade flew into the void.

Streams of blood flew from Fang Bai's cracked palm, scattering into the void.

Fang Bai, possessing a Chaos True Body, has unique blood, and as his blood fell upon the mountains, waters, flowers, and grasses within the barrier, the environment within the barrier instantly changed.

Countless strands of Immortal Qi overflowed from those mountains, waters, flowers, and plants, like wisps of silk, swiftly rushing toward Fang Bai, enveloping him entirely.

In an instant, Fang Bai, wrapped in various attributes of Immortal Qi, resembled a massive cocoon, suspended in the void.

Chapter 2693: Advancement, Emperor Realm!

The Heaven Devouring Great Emperor watched Fang Bai being wrapped in layers of Immortal Qi, his expression filled with astonishment.

That giant cocoon formed by various attributes of Immortal Qi, continuously swollen as an endless supply of Immortal Qi rushed in, resembling a snowball growing larger and larger, its volume rapidly expanding.

The Heaven Devouring Great Emperor attempted to infiltrate the cocoon with his Divine Sense to check Fang Bai's current state, only to find the cocoon akin to an impregnable barrier, repelling his Divine Sense.

"Whether he lives or dies, let's first obtain the Great Emperor Pill!"

Muttering to himself, the Heaven Devouring Great Emperor ignored Fang Bai and turned, flying toward the center of the barrier.

Within this barrier of one hundred thousand miles in radius, there were a thousand mountain peaks, but the tallest mountain at its center was like a giant sword connecting heaven and earth, piercing the sky.

Around the mountain, Immortal Qi lingered, and at its summit stood a Stone Platform made of Starshine Stone, upon which an Elixir silently sat.

The Elixir was the size of a pigeon egg, crystal-clear and emerald-green, and upon close examination, divine brilliance flowed within it, containing Supreme Divine Power.

And the ax that disappeared without a trace upon entering the barrier now hovered beside the Elixir, like a guardian protecting it from any outside intrusion.

"So it truly is the Great Emperor Pill! After obtaining this pill, by using the blood of several Demon Emperors as a lead and consuming this pill, I might break the current cultivation shackles in one stroke and advance to the Great Emperor Realm!"

The Heaven Devouring Great Emperor flew to the side of the tallest mountain, his gaze fervently fixed on the Elixir on the Starshine Stone Platform, a greedy expression on his face.

After seizing rebirth, the Heaven Devouring Great Emperor found that the cultivation environment of the Immortal, Demon, and Monster realms differed greatly from that of millions of years ago.

In order to swiftly enhance his power and return to the Divine Realm, he began traversing the Immortal, Demon, and Monster realms in search of opportunities.

A once-dazzling Demon Clan Emperor reborn through seizing, his mind encompassed all, knowing everything, using vast cultivation resources obtained from the Immortal, Demon, and Monster realms to ascend all the way to the current Emperor Realm.

When he first arrived at this barrier, he sensed the presence of the Great Emperor Pill within it; however, despite being ecstatic, he lacked the ability to break the barrier.

Since then, he repeatedly came near the barrier, hoping to find a way in, and at last, today his wish was fulfilled.

Looking at the Great Emperor Pill with divine brilliance flowing, the Heaven Devouring Great Emperor was overjoyed.

Soon after, his gaze fell on the ax beside the Great Emperor Pill, his expression twisted with a cold sneer: "If it wasn't for that little immortal stirring trouble earlier, you would already be in my hands! Let's see where you can run this time!"

That ax was undoubtedly a Divine Artifact, its power comparable to the Heaven Devouring Pot, and the Heaven Devouring Great Emperor naturally wouldn't let it escape.

Moreover, he saw that the ax was guarding the Great Emperor Pill, so to acquire the pill, he needed to first subdue the ax.

Now, that annoying little immortal was wrapped in layers of Immortal Qi and could no longer interfere, giving the Heaven Devouring Great Emperor full confidence in subduing the ax.

The ax trembled incessantly, black mists swelling, emitting a buzzing sound as though challenging the Heaven Devouring Great Emperor.

The Heaven Devouring Great Emperor let out a long howl, abruptly reaching out to grab the ax.

The ax cleaved through the air, its blade beams slicing the void into fragments, fiercely striking at the Heaven Devouring Great Emperor's approaching giant palm.

The Heaven Devouring Great Emperor sneered, his giant palm expanding instantly, fingers curving like hooks, resembling the talons of a Giant Eagle, locking the intersecting ax beams in his palm, and then squeezing tightly.

With a hissing sound, the ax beams dissipated under the tremendous force of the giant palm.

As the Heaven Devouring Great Emperor initiated his attack on the ax, the layers of Immortal Qi enveloping Fang Bai rapidly began to change.

Like an enormous silkworm cocoon, the Immortal Qi rapidly shrank, visible to the naked eye, greedily absorbed by Fang Bai's body.

With the massive influx of Immortal Qi, Fang Bai's meridians and blood vessels expanded crazily, like great rivers accommodating raging torrents.

The Immortal Qi circulated continuously through Fang Bai's meridians and blood vessels, becoming increasingly pure, eventually transforming into strands of Chaos Immortal Qi, flowing into Fang Bai's Qi Sea.

The Chaos Immortal Qi refined by Fang Bai's body entered the seven Primordial Spirits within the Qi Sea, each according to its attribute.

After absorbing the strands of Chaos Immortal Qi, the seven Primordial Spirits underwent significant changes, gaining flesh and blood, their features handsome, completely resembling miniature versions of Fang Bai, except for being unclothed.

Their previously closed eyes slowly opened, their bright gaze like lightning, illuminating the entire Qi Sea.

Simultaneously, Fang Bai's body released a powerful aura the moment the seven Primordial Spirits opened their eyes.

This aura contained immense imperial power, spreading out like a hurricane, turning all the surrounding mountains, rivers, flowers, and grasses to nothingness within a mile radius.

"That little immortal actually advanced to the Emperor Realm!"

The Heaven Devouring Great Emperor, who was closing in on the ax and seeing his impending success, was shocked by the aura spreading from Fang Bai.

He never imagined that Fang Bai could advance to the Emperor Realm inside this barrier.

For him, it was extremely bad news.

Previously, when Fang Bai was still a Quasi-Emperor, he could endure for quite some time against the Heaven Devouring Great Emperor's attacks with the help of his Divine Artifact, something even ordinary Emperor Realm Experts couldn't accomplish.

Once Fang Bai became a true Emperor Realm Expert, equipped with a Divine Artifact, wouldn't he possess the strength to truly rival the Heaven Devouring Great Emperor?

If aided by this ax, the little immortal's combat capability might surpass his own.

By then, trying to obtain the Great Emperor Pill would prove incredibly difficult.

Thinking of this, the Heaven Devouring Great Emperor grew anxious.

He decided to abandon the attack on the ax and instead reached for the Great Emperor Pill.

The ax was certainly a rare Divine Artifact, but in the Heaven Devouring Great Emperor's eyes, the Great Emperor Pill was far more important.

As long as he obtained the Great Emperor Pill, he could leave this place and find a secluded location to cultivate wholeheartedly.

If he advanced to the Great Emperor Realm using the Great Emperor Pill, any Emperor realm experts in the three realms would be no more than ants in his eyes, effortlessly annihilated.

However, he forgot that the Great Emperor Pill was a highly spiritual object, not easily acquired without fate.

As his palm was about to touch the Great Emperor Pill, it suddenly transformed into a streak of light and flew away, swiftly reaching over a hundred miles away.

The Heaven Devouring Great Emperor, both angry and anxious, turned to chase, simultaneously using magical spells to conjure thousands of Demon Qi Big Palms, attempting to seize the Great Emperor Pill.

The Great Emperor Pill weaved through the shadows of the countless palms, unexpectedly flying toward Fang Bai.

It seemed to sense a familiar aura on Fang Bai, pausing before him.

Fang Bai, having just advanced to the Emperor Realm, was feeling the long-lost powerful energy within him when he saw an Elixir appear before him, momentarily stunned.

Immediately, he realized this Elixir was incredibly unique, its contained power far surpassing an Emperor Elixir.

Chapter 2694: Come and Take It If You Can!

In his previous life, although Fang Bai could refine Emperor Elixirs, not a single one he made had ever contained power this immense.

"That Heaven Devouring Great Emperor went to such lengths just to get this elixir. Could it actually be a Great Emperor Pill?"

Thinking of this, Fang Bai looked at the Heaven Devouring Great Emperor rushing over in a fury, and grew even more certain that the extraordinary elixir before him had to be a Great Emperor Pill.

Only a Great Emperor Pill could hold such allure for the Heaven Devouring Great Emperor.

Before the Heaven Devouring Great Emperor could reach Fang Bai, the axe that had been howling after him attacked from behind, forcing him to halt and defend.

Seeing that the Great Emperor Pill floating in front of him did not fly away, but instead circled around him as if wanting to get close, Fang Bai's heart stirred and he extended his left hand.

The Great Emperor Pill hovered at the edge of his palm for a few breaths, then slowly fell into his hand.

"Return my Great Emperor Pill!"

In the distance, the Heaven Devouring Great Emperor, entangled by that axe, saw Fang Bai actually take the Great Emperor Pill and was both shocked and enraged, letting out a furious roar toward Fang Bai.

His roar turned into a wave of sound that blasted forward; wherever it passed, fine cracks appeared in the void.

The Five Elements Space Ring on Fang Bai's left-hand finger flashed faintly, and he immediately stored the Great Emperor Pill inside.

Right after, he also let out a roar.

The two sound waves collided in the void, and the shockwave they created was even more violent than when Fang Bai had just broken through.

Even the Barrier was affected by this shockwave, trembling for a long while before it finally stilled.

The Heaven Devouring Great Emperor's robes billowed, his hair flew wildly, and his figure swayed slightly.

Fang Bai's body, however, was driven back more than ten zhang.

"Even though I've broken through to the Emperor Realm, I'm still a bit short compared to the Heaven Devouring Great Emperor!"

Fang Bai muttered in his heart.

But he also understood that he had just advanced and his realm was not yet stabilized, whereas the Heaven Devouring Great Emperor possessed strength slightly above even the eight top Immortal Emperors of the Immortal Realm. If Fang Bai wanted to contend with him, he still had to rely on Divine Artifacts like the Blood-Drinking Mad Blade.

In any case, as a true Emperor Realm Expert now, Fang Bai no longer feared the Heaven Devouring Great Emperor.

"It really is a Great Emperor Pill!"

The Heaven Devouring Great Emperor's shout confirmed for Fang Bai that the elixir he had just stored into the Five Elements Space Ring was indeed the supreme treasure that even Emperor Realm Experts dreamed of.

Great Emperor Pills, like Great Emperor Level Experts, existed only in the legends of the Immortal Realm, and no one knew whether they were real or not.

Now, Fang Bai had not only met the Heaven Devouring Great Emperor of the Demon Clan from millions of years ago, but had also obtained a Great Emperor Pill. Such fortune was something one could hardly hope to encounter.

"If you want the Great Emperor Pill, come take it with your own skill!"

Having just broken through and then acquiring a Great Emperor Pill, Fang Bai was in an excellent mood. Smiling, he hooked a finger at the Heaven Devouring Great Emperor.

Millions of years ago, the Heaven Devouring Great Emperor had dominated the Three Realms, and later traversed the Endless Space, roaming the cosmos and becoming a member of the Divine Realm.

Even though he later suffered setbacks and was reborn through seizing another's body, his strength was no longer what it once was, yet he was still invincible throughout the Three Realms. Even Emperor Realm Experts of the Three Realms had to crawl at his feet.

But the little immortal before him had just broken through to the Emperor Realm, and yet dared to make such a contemptuous gesture at him. How could the supremely proud Heaven Devouring Great Emperor endure that?

The Heaven Devouring Great Emperor was furious.

"Arrogant little immortal, don't get cocky!"

In a rage, the Heaven Devouring Great Emperor raised his hand to recall the Heaven Devouring Pot, then smashed it toward Fang Bai.

Fang Bai was just about to recall the Five Elements Origin Qi Cauldron to aid him when he saw the axe slice through the void and fly to him, its haft pointing right at Fang Bai.

Without thinking, Fang Bai reached out and grabbed the axe, then leaped into the air, swinging it down savagely at the Heaven Devouring Pot.

"Boom!"

With a sky-shaking crash, the axe hacked onto the Heaven Devouring Pot.

As the two Divine Artifacts collided, Fang Bai's body jolted; man and axe alike tumbled backward for hundreds of zhang, while the Heaven Devouring Pot was blasted up into the sky, its radiance dimming.

The Heaven Devouring Great Emperor's figure wavered, his qi and blood surging in his chest, a trace of pain flitting through the depths of his eyes.

"The Heaven Devouring Great Emperor's Divine Artifact must have been damaged!"

Fang Bai keenly caught the abnormal expression on the Heaven Devouring Great Emperor's face, and joy rose in his heart. He immediately controlled the Five Elements Origin Qi Cauldron to smash toward the Heaven Devouring Pot.

Fang Bai's guess was correct. When that axe had reached his hands just now, it seemed to awaken a bit more Divine Power, its might growing stronger. Under Fang Bai's swing, it had left a cun-long scar on the Heaven Devouring Pot.

With the Heaven Devouring Pot damaged, its master, the Heaven Devouring Great Emperor, also suffered. If he hadn't forcibly suppressed it, a mouthful of blood would already have spurted out.

Seeing the Five Elements Origin Qi Cauldron smashing toward the Heaven Devouring Pot again, the Heaven Devouring Great Emperor panicked and tried to recall the pot, but he was a step too late.

"Boom!"

Another thunderous crash rang out as the Five Elements Origin Qi Cauldron slammed into the Heaven Devouring Pot, further damaging it; a thumb-sized dent appeared on the pot's body.

The ancient, heavy Five Elements Origin Qi Cauldron merely flipped several times in midair, then was recalled by Fang Bai and held in his left hand.

The axe then flew back to Fang Bai's side and was caught in his right hand.

"Looks like whether it's this axe or the Five Elements Origin Qi Cauldron, both are superior to the Heaven Devouring Demon Emperor's Heaven Devouring Pot!"

Fang Bai thought excitedly.

He did not realize that the Five Elements Origin Qi Cauldron's greater power came, first, from having awakened more Divine Power, and second, from his own breakthrough to the Emperor Realm.

The Heaven Devouring Great Emperor had never imagined that Fang Bai, after advancing to the Emperor Realm, would become so formidable, nor that the axe would actually obey Fang Bai's command and become one of his weapons to attack him.

With the Heaven Devouring Pot damaged in two places, he was affected as well. Though his injuries were not severe, his combat strength had dropped by at least twenty percent.

"This damned little immortal ruined my plans—unforgivable!"

Seeing Fang Bai holding the Five Elements Origin Qi Cauldron in his left hand, gripping the axe in his right, and with a Blood Blade floating above his head ready to strike at any time, the Heaven Devouring

Great Emperor knew that if he continued fighting, he had no chance of victory, nor any hope of seizing the Great Emperor Pill. At once, the thought of retreat arose.

He believed that even without the assistance of a Great Emperor Pill, he would eventually break through to the Great Emperor Realm. When that time came, it would not be too late to wash away today's humiliation.

"When this emperor appears again, it will be the day your body and soul are annihilated!"

The Heaven Devouring Great Emperor stored the Heaven Devouring Pot into his brow's Sea of Consciousness, then cast a hateful glance at Fang Bai and flew toward the crack in the Barrier.

This Barrier was incomparably solid; he could not tear open the void to escape and could only leave through the same crack he had entered from earlier.

His figure was extremely fast; in the blink of an eye, he arrived before the crack and was about to slip through.

Just then, Fang Bai, who had chased after him, raised the Houyi Bow, condensing an arrow from Fire System Chaos Immortal Qi and loosing it.

This arrow was fired with the power of an Emperor Realm Expert, its might far surpassing before.

The arrow formed from Fire System Chaos Immortal Qi carried scorching heat as it pierced through the void, appearing behind the Heaven Devouring Great Emperor just before he slipped into the Barrier's crack.

Sensing an intense crisis surging toward him, the Heaven Devouring Great Emperor had no time to think. He flung his left arm back and struck out with a palm.

"Pff!"

The arrow's power was boundless; it shot off his entire left palm, which fell to the ground.

Almost at the same moment, the Heaven Devouring Great Emperor's figure slipped through the crack in the Barrier, then tore open the void and fled.

Chapter 2695: Gaining Both

Fang Bai, with the might of the Emperor Realm, relied on the power of four divine artifacts: the Five Elements Origin Qi Cauldron, the Blood-Drinking Mad Blade, the Houyi Bow, and that unnamed axe, to finally defeat the Heaven Devouring Great Emperor.

"A Great Emperor is ultimately a Great Emperor. Even if he is reborn through soul transfer, his strength is far from what it was before; he still stands as a paramount existence across the three realms. Without the help of these divine artifacts, I'm afraid it would be me fleeing instead of the Heaven Devouring Great Emperor."

Fang Bai stored the Houyi Bow, Blood-Drinking Mad Blade, and the Five Elements Origin Qi Cauldron in the Sea of Consciousness in his forehead, filled with emotion.

As for that axe, it hovered beside Fang Bai, refusing to leave.

Fang Bai thought of the scene earlier when the axe guarded the Great Emperor Pill and felt a stirring in his heart.

He reached out once more, grasped the axe, and tried to inject a wisp of divine sense into the axe's body.

Fang Bai thought that since this axe is a divine artifact, its artifact spirit must be exceedingly powerful. If the artifact spirit did not wish to communicate with him, it could easily extinguish his wisp of divine sense.

Fortunately, the artifact spirit of the axe did not reject communicating with him and accepted his divine sense.

Through communicating with the axe's artifact spirit, Fang Bai finally learned the origin of this axe.

"It turns out this axe is called the Pangu Axe, and its owner was none other than the Great Emperor Pangu... I recall many legends about this Great Emperor circulating in the mortal world..."

Fang Bai continually received messages from the artifact spirit of the Pangu Axe, and his heart was filled with uncontainable joy.

Legend has it that Great Emperor Pangu was born in chaos and possessed the great supernatural power of Heaven Opening and Earth Splitting. Later, he left the Immortal Realm and entered the Divine Realm to pursue the path of eternity.

Of course, these are just legends; their truthfulness cannot be verified.

Fang Bai only learned some things from the artifact spirit of the Pangu Axe about Great Emperor Pangu before he left the Immortal Realm. As for where he went afterward, it remains entirely unknown.

This enormous barrier spanning ten thousand miles around was also laid out by Great Emperor Pangu with his great supernatural powers. Afterward, he placed the Pangu Axe and a Great Emperor Pill inside and outside the barrier, awaiting those with fateful encounters.

Even though the Heaven Devouring Great Emperor discovered the Pangu Axe outside the barrier and knew of the Great Emperor Pill's existence within it, he ended up with nothing, not only gaining nothing but also losing his left hand.

The Spatial Demon Ring that Fang Bai wanted was precisely worn on the Heaven Devouring Great Emperor's left hand.

The outcome was something the Heaven Devouring Great Emperor never expected.

Nor did Fang Bai anticipate such a significant gain from this journey.

If the Heaven Devouring Great Emperor lost both wife and soldiers, then Fang Bai gained both fish and bear's paw.

"Now that I've obtained the Pangu Axe and the Great Emperor Pill, it seems I'm fated with these two treasures, right?"

After a round of communication with the artifact spirit of the Pangu Axe, Fang Bai received the artifact spirit's acknowledgement. Thus, he performed a blood ritual to become the second owner of this divine artifact.

At this moment, Fang Bai possessed the Five Elements Space Ring, the Five Elements Origin Qi Cauldron, the Blood-Drinking Mad Blade, the Houyi Bow, and the Pangu Axe, these five divine artifacts.

The five divine artifacts served purposes for storage, defense, and offense, making them well-rounded.

Especially the Five Elements Origin Qi Cauldron, which not only has strong defensive capabilities but can also be used for refining elixirs, achieving two goals with one action.

After collecting the Pangu Axe, Fang Bai grabbed the left hand of the Heaven Devouring Great Emperor, shot down by the Houyi Bow, took off the Spatial Demon Ring, and exited the barrier.

As he just left the barrier and turned around for a last look, the barrier had disappeared.

Fang Bai believed that the disappearance of the barrier was related to his absorption of almost all the immortal qi within, taking away the Pangu Axe and the Great Emperor Pill.

"What a pity that the Heaven Devouring Great Emperor escaped! Although I shot off his left hand, such a minor injury is insignificant to a Great Emperor and he can quickly regrow it..."

Fang Bai felt some regret for not being able to kill the Heaven Devouring Great Emperor just now.

"Now that the Heaven Devouring Great Emperor has fled, finding him again won't be easy. Once he regains his full power, it will be a catastrophe for the Immortal Realm! I hope by then, my strength can also further advance to stop him from endangering the Immortal Realm."

If the Heaven Devouring Great Emperor restores his Emperor Realm power, even all Emperor Realm experts in the Immortal Realm joining forces would hardly be able to contain him; the consequences would be unimaginable.

Thus, in Fang Bai's heart at this time, his main future opponent was no longer the few top Immortal Emperors but the Heaven Devouring Great Emperor, who might have hidden away for focused cultivation.

With Fang Bai's current strength, he had a chance against any top Immortal Emperor in the Immortal Realm, but he was still far from his past life's peak strength when he fought eight alone. Therefore, for revenge, he needed a long-term plan.

However, with the Great Emperor Pill in hand, Fang Bai felt that his strength could further advance in the near future, and the day of revenge wouldn't be too far off.

Nevertheless, Fang Bai did not dare to hastily consume the Great Emperor Pill, uncertain of the resulting effects. If the medicinal power were too strong, he might not be able to bear it and could accidentally ruin everything.

He felt that perhaps consuming the Great Emperor Pill would have the best effect when he showed signs of advancing to the next level.

Fang Bai's divine sense spread across ten thousand miles and found that many immortals had not yet left.

However, perhaps out of fear of being harmed by the Heaven Devouring Great Emperor, a Demon Clan Emperor Realm expert, those immortals had retreated several thousand miles away, gathering together to guard against an attack from him.

The earlier fierce battle between Fang Bai and the Heaven Devouring Great Emperor within the barrier and the Heaven Devouring Great Emperor's escape was unknown to those immortals.

Before leaving, Fang Bai suddenly remembered the stone table where the Great Emperor Pill was placed and stored it into the Five Elements Space Ring as well.

That stone table, made from a huge Starshine Stone, existed only in Endless Space and was extremely precious, a valuable item for Emperor Realm experts in cultivation, and he wouldn't let it slip away.

It wasn't until long after Fang Bai left the barrier that some immortals cautiously flew over to investigate, only to find the barrier had disappeared, and both Fang Bai and the Heaven Devouring Great Emperor were gone without a trace.

Those immortals, hoping for great opportunities within the barrier, reluctantly searched for a while but left with regrets after finding nothing.

Fang Bai, with the Spatial Demon Ring seized from the Heaven Devouring Great Emperor, arrived at a nearby secret realm. After racking his brains and spending several months, he finally managed to unlock the sealing formation on the Spatial Demon Ring and released the Great Luo Immortal Emperor and the Hundred Flowers Empress.

"Fang Bai..."

Even though Fang Bai's appearance was vastly different from his past life, the Hundred Flowers Empress recognized him at first sight, sensing that extremely familiar aura on him.

The Hundred Flowers Empress originally thought she was facing certain doom when captured into the Demonic Ring Space by the Heaven Devouring Great Emperor. Unexpectedly, she was rescued by Fang Bai.

Over the millennium, she was first devastated by the news of Fang Bai's demise, then elated to know from the Great Luo Immortal Emperor that Fang Bai was still alive, followed by immense regret at being unable to reunite with him.

At this moment, upon suddenly seeing Fang Bai, a mixture of suppressed emotions erupted, turning the dignified empress vulnerable, her voice trembled, and her beautiful eyes brimmed with tears as she looked at Fang Bai.

Chapter 2696: Joyful Reunion

The Great Luo Immortal Emperor saw Fang Bai, and his heart was full of questions, wanting to wait for Fang Bai to explain.

But when he saw the Hundred Flowers Empress gazing longingly at Fang Bai, her eyes filled with tears, he smiled and temporarily left the place.

He knew, although Fang Bai and the Hundred Flowers Empress were not immortal companions in their past lives, their relationship was more profound than that of immortal companions. Meeting again after a thousand years apart, they would surely have much to say. He decided to give them some time to express their feelings to each other.

"Baihua, it's been a thousand years, and you've only grown more beautiful!"

After the Great Luo Immortal Emperor disappeared, Fang Bai walked up to the Hundred Flowers Empress, took her hands, and gazed affectionately at her face.

The Hundred Flowers Empress sniffed and bit her lip lightly, saying, "A thousand years, and you're still such a smooth talker!"

Fang Bai laughed heartily, raising a hand to pinch her cheek, saying, "This isn't smooth talking; it's the truth!"

The Hundred Flowers Empress stepped forward, leaned sideways, and rested in Fang Bai's embrace, her right ear pressed against his chest.

"In the past life, whenever you lied, your heartbeat would become chaotic. Now, let me listen..."

With those words, the Hundred Flowers Empress closed her eyes, wrapping her arms around Fang Bai's waist, her face serene.

"What did you hear?"

A moment later, Fang Bai asked with a smile.

The Hundred Flowers Empress remained silent.

"My heartbeat is steady, so I did not lie. In my heart, you are indeed more beautiful than a thousand years ago."

Fang Bai gently combed through the Hundred Flowers Empress's hair with his fingers, inhaling her fragrant scent, and spoke with a smile.

The Hundred Flowers Empress still did not speak, but Fang Bai sensed a touch of sadness in her heart.

Fang Bai patted her fragrant shoulder and asked, "Shouldn't we be happy to meet? What are you thinking about that's making you sad?"

The Hundred Flowers Empress's shoulders trembled slightly as she wept silently.

Fang Bai held her shoulders, helping her to stand straight. Seeing her face covered in tears, he felt immense pity.

"After your demise was announced a thousand years ago, I rushed to the Emperor's Palace, hoping to protect your disciples and followers, but I was too late... And your confidantes, I failed to protect them too..."

The Hundred Flowers Empress sobbed.

Fang Bai pulled her back into his arms, comforting her, "Perhaps it was their fated tribulation. How can you blame yourself? You need not feel guilty."

The Hundred Flowers Empress cried, "But... if I had reached the Emperor's Palace sooner, perhaps I could have saved some of your disciples and followers. If I could've reached your confidantes' residence earlier and joined forces with them, maybe they wouldn't have fallen..."

Her words grew increasingly sorrowful, continually lamenting and blaming herself.

Fang Bai comforted her for a while, then suddenly took out one of the Bipartite Dual Swords, the silver long sword, and said, "This is your Emperor's Instrument. I obtained it from an immortal by chance; now it returns to its rightful owner."

"Did you snatch it from that Demon Emperor?"

The Hundred Flowers Empress asked after accepting the silver long sword.

Fang Bai recounted how he obtained the silver long sword and later found the Heaven Devouring Great Emperor in Bluewater Immortal City.

Upon hearing that the Demon Clan Emperor Realm expert who captured herself and the Great Luo Immortal Emperor was the legendary Heaven Devouring Great Emperor from millions of years ago, the Hundred Flowers Empress was incredulous.

"No wonder that Demon Emperor was so powerful. I hadn't expected him to be the reborn Heaven Devouring Great Emperor. The Heaven Devouring Great Emperor planned to consume our blood for cultivation after turning me and the Great Luo Immortal Emperor into demons. If you hadn't rescued us in time, we might not have escaped disaster."

The Hundred Flowers Empress did not fear death, but being drained of her blood by the Heaven Devouring Great Emperor after falling into the Demon Dao would be a truly humiliating way to die.

As Fang Bai described his fierce battle with the Heaven Devouring Great Emperor, the Hundred Flowers Empress's emotions fluctuated with his account.

"I never expected you to defeat the Heaven Devouring Great Emperor!"

By the time Fang Bai finished recounting, the sadness on the Hundred Flowers Empress's face had vanished, replaced with indescribable surprise.

"I relied heavily on a few Divine Artifacts; otherwise, I wouldn't have been able to deal with the Heaven Devouring Great Emperor!"

Fang Bai stated truthfully.

Though he had advanced to the Emperor Realm, bare-handed, he could at best fight Golden Crow Immortal Emperor, one of the top eight Immortal Emperors of the Immortal Realm, to a draw. Defeating the Heaven Devouring Great Emperor was unlikely.

But come to think of it, in the Immortal Realm, assessing a strong man's power involves not just their fighting prowess but also all the items they can use to aid in battle.

Fang Bai defeating the Heaven Devouring Great Emperor with the help of Divine Artifacts was a testament to his strength.

"Who could have imagined that being reborn would turn misfortune into a blessing? It seems your future cultivation level may surpass your past life."

The Hundred Flowers Empress marveled at Fang Bai's encounters after his soul rebirth and felt happy for him.

"Your Immortal Residence has been destroyed, and you have only one disciple left. From now on, stay with me in the newly built Emperor's Palace and contribute to its resurgence!"

Fang Bai spoke to the Hundred Flowers Empress with undeniable authority.

The Hundred Flowers Empress thought of the Hundred Flowers Residence destroyed by the eight top powers and the fallen disciples, a fierce light in her phoenix-like eyes, gritting her silver teeth, "It is the

sins of the eight top powers! Very well, I shall go with you to the Emperor's Palace, and together, we shall destroy the eight top powers to avenge this heart's resentment!"

Fang Bai and the Hundred Flowers Empress talked for a long while before remembering the Great Luo Immortal Emperor, and so Fang Bai called out with a whistle, and moments later, the Great Luo Immortal Emperor appeared before him.

"We haven't seen each other for a thousand years. I thought you'd speak for days, nights, and was preparing to go into seclusion for cultivation and wait patiently for you!"

The Great Luo Immortal Emperor said with a smile.

The Hundred Flowers Empress blushed slightly, but Fang Bai laughed heartily, "Whatever we have to say, we can discuss back at the Emperor's Palace. We can't just leave you hanging here."

"The Emperor's Palace?"

The Great Luo Immortal Emperor's eyes brightened, "Last time we met, you didn't mention the Emperor's Palace. Have you rebuilt it since then?"

Seeing Fang Bai nod with a smile, he asked again, "Where is it built? Is it the old site or..."

Fang Bai replied, "The old site of the Emperor's Palace suffered too much damage, so I chose a new location. Great Luo Immortal Friend, you know of the Heavenly Cave, right? The new Emperor's Palace is near there!"

The Great Luo Immortal Emperor knew that the Heavenly Cave was a harsh environment but also understood that if utilized properly, it could be a good place to establish a sect. Considering Fang Bai's unparalleled formation skills in his past life, he naturally had ways to turn it into a Cultivation Holy Land.

"The Tianyin Temple was destroyed by the Heaven Devouring Great Emperor, and almost all the Buddhas and Arhats have perished. I might as well temporarily move to your Emperor's Palace."

The Great Luo Immortal Emperor was equally shocked when Fang Bai spoke of the Heaven Devouring Great Emperor, then sighed and spoke.

Though he also wished to rebuild the Tianyin Temple, he was concerned about it being destroyed again by the Heaven Devouring Great Emperor, and with only a few remaining Buddhas and Arhats, rebuilding was not possible in the short term.

"If the Great Luo Immortal Friend goes to the Emperor's Palace, I'd welcome it!"

Fang Bai, delighted at the success of rescuing the Hundred Flowers Empress and the Great Luo Immortal Emperor, felt joyful that the Emperor's Palace would gain two more Emperor Realm experts to assist in the future.

Chapter 2697: The Ladies

Inside the Spatial Demon Ring that Fang Bai snatched from the Heaven Devouring Great Emperor, there were some Emperor Elixirs and a few Emperor's Instruments.

However, the quantity of Starshine Stones from the Endless Space was significant, which greatly delighted Fang Bai.

He distributed a few bottles of Emperor Elixirs to the Great Luo Immortal Emperor and also gifted him an Emperor's Instrument. Afterward, he handed the Spatial Demon Ring to the Hundred Flowers Empress.

"I'll keep these things for you first, and distribute them to your red 颜知己 once we return to the Emperor's Palace."

The Hundred Flowers Empress smiled as she put away the Spatial Demon Ring and said.

Fang Bai initially intended to give the Spatial Demon Ring to the Hundred Flowers Empress. Hearing her say this, he was momentarily stunned but then smiled and said, "The things are given to you. You can do as you please with them."

The Great Luo Immortal Emperor, having been saved by Fang Bai, and now receiving a few bottles of Emperor Elixirs and an Emperor's Instrument, naturally felt grateful towards him.

He accepted them frankly without any reservation, thinking that when it's time to help Fang Bai get revenge against the eight top-tier Immortal Emperors, he would contribute his strength to repay the favor.

This time, Fang Bai left the Emperor's Palace with abundant gains. Not only did he find Lu Liyu and the Hundred Flowers Empress, but he also brought the self-sealed Empress Linglong out of the Endless Space and incidentally saved the Great Luo Immortal Emperor.

In addition, Fang Bai also found some surviving disciples of the Emperor's Palace.

Now, most of the immortals who ascended from the Lower Realm to the Immortal Realm had gathered at the Emperor's Palace. Fang Bai's red 颜知己 from past and present had all been found. As long as he could resolve the Demonic Qi within Lu Liyu, wake Empress Linglong, and gather the scattered disciples of the Emperor's Palace across the Immortal Realm, Fang Bai could see it as a grand reunion.

"Once we return to the Emperor's Palace, we can openly announce the reconstruction of the palace to the entire Immortal Realm."

Fang Bai clenched his fists and said ambitiously.

Although his current strength had not yet returned to its peak of former years, he was already able to defeat any of the top-tier Immortal Emperors in the Immortal Realm. Moreover, with several Emperor Realm experts now gathered in the Emperor's Palace, they had the capability to counter the major top-tier forces.

Additionally, announcing the reconstruction of the Emperor's Palace at this time might also rally some sect forces that had friendly ties with the palace in the past, gathering them around the palace to jointly oppose the major top-tier forces.

Fang Bai believed that throughout the millennium, the acts of oppression, injustice, and occupation of vast cultivation resources by the eight top-tier forces must have incited anger and hatred among many sect forces.

If news of the reconstruction of the Emperor's Palace spread now, showing a little of their own strength and letting those sect forces see that the palace had the potential to counterbalance the major top-tier forces, they would surely be willing to stand with the palace.

At that time, with the support of many allies, the numerical disadvantage the palace faced in terms of immortals would greatly improve, thus truly gaining the full power to challenge the major top-tier forces.

Fang Bai, the Hundred Flowers Empress, and the Great Luo Immortal Emperor tore through the void without delay, traversing the Endless Space towards the New Imperial Palace located in the Heavenly Cave.

Within days, they returned to the palace and met the disciples of the Emperor's Palace.

The Hundred Flowers Empress and the Great Luo Immortal Emperor were acquainted with most of the surviving disciples of the palace, and upon meeting, they exchanged pleasantries.

As for the immortals who ascended from the Lower Realm, the Hundred Flowers Empress and the Great Luo Immortal Emperor, after introductions by Fang Bai, became familiar with them.

"Sister Baihua, Fang Bai said you were already an empress a thousand years ago. Your strength must be even greater now, right? I am still far from the Emperor Realm, so please guide me more in the future!"

Dongfang Ruhua approached the Hundred Flowers Empress with a flattering tone.

The stories about the Hundred Flowers Empress had been heard from Fang Bai by Dongfang Ruhua and the others long before, but it was their first time seeing her, and each was very curious.

The Hundred Flowers Empress had long since advanced to the Emperor Realm and naturally carried an oppressive aura that other immortals did not possess. When facing her, the ladies couldn't help but feel somewhat self-conscious.

Seeing Dongfang Ruhua speak first, some of the more outgoing women in the group also stepped forward, chattering around the Hundred Flowers Empress, mostly aiming to seize the opportunity to draw closer to her by asking for guidance.

They all understood that the Hundred Flowers Empress was a red 颜知己 of Fang Bai from past lives, and the bond between them must be deep. Moreover, the Hundred Flowers Empress, being an Emperor Realm expert, would certainly provide significant support to Fang Bai in the reconstruction of the palace and in seeking revenge against the eight top-tier forces.

These were, however, things that they could not achieve for the time being.

It was foreseeable that, for a while, Fang Bai would heavily depend on the Hundred Flowers Empress, spending more time together with her.

Although they wouldn't feel jealousy because of this, maintaining a good relationship with the Hundred Flowers Empress was beneficial regardless.

The Hundred Flowers Empress hadn't expected such enthusiasm from the women and, as she conversed with them, glanced at Fang Bai with a look that was partly reproachful and mostly helpless.

She was slightly annoyed that, on his journey from the mundane world back to the Immortal Realm, Fang Bai had gathered more red 颜知己, making it likely difficult to find much time to be alone with him in the future.

The helplessness stemmed from Fang Bai being naturally a Romantic Immortal Emperor, his nature of leaving a mark wherever he went, unchanged in both past and present lives.

However, after examining the women around her closely, she couldn't help but admire Fang Bai's keen eye.

These female immortals, who ascended from the Lower Realm, not only possessed unparalleled beauty but were also all Innate Spiritual Root physiques, having immeasurable potential in the Immortal Dao.

With Fang Bai's attentive guidance and assistance, the Hundred Flowers Empress could even imagine that it might not be long before Empresses began to emerge around him.

On pondering the term "Empress," the Hundred Flowers Empress suddenly showed a hint of sadness.

She was well acquainted with Fang Bai's past red 颜知己, but unfortunately, after the battle at the Emperor's Palace a thousand years ago and the news of Fang Bai's fall, those red 颜知己 either perished alongside him or fell at the hands of the eight top-tier Immortal Emperors in vengeance for him.

Now, among Fang Bai's red 颜知己 from those years, the Hundred Flowers Empress found that only she was still alive.

Fortunately, although Empress Linglong was self-sealed, she had been found by Fang Bai and brought back to the palace.

However, considering Empress Linglong's condition, it was not easy to awaken her, and Fang Bai currently had no viable solution.

The Hundred Flowers Empress sincerely hoped for Empress Linglong to awaken soon, so she could have a confidante with whom to share her innermost thoughts.

Though Fang Bai's current red 颜知己 were all very warm towards her, forming a bond of mutual understanding and having heart-to-heart conversations might take some time to achieve.

As the only Empress among Fang Bai's current red 颜知己, the Hundred Flowers Empress naturally became the central figure among the women upon her arrival.

The Hundred Flowers Empress, after exchanging a look with Fang Bai, dutifully took on the responsibility of guiding the women in their cultivation. At the same time, in her role as a caring elder sister, she managed to smooth and harmonize the relations among the women.

Chapter 2698: Immortal Emperors Gather at the Palace Master Hall

After Fang Bai returned to the Emperor's Palace, he initially wanted to publicly announce the reconstruction of the Emperor's Palace to the Immortal Realm, but then reconsidered due to the presence of Lu Liyu and Empress Linglong within the Five Elements Spatial Ring.

For him, revenge could be postponed, while helping Lu Liyu purify the demonic energy within her body and awakening Empress Linglong were the most important tasks.

After Lu Liyu was placed in the Five Elements Spatial Ring by Fang Bai, her body was slowly being rid of demonic energy, thanks to the continuous release of pure Immortal Qi from the World Tree that nourished her.

During this time, Fang Bai attempted to communicate with her through Divine Sense, discovering that although she was mostly in a dazed state, she occasionally had moments of clarity.

This made Fang Bai overjoyed, knowing that it wouldn't be long before Lu Liyu fully regained her consciousness and returned to her original state.

As for Empress Linglong, Fang Bai had shut himself in seclusion for several years in order to awaken her, during which he tried various methods and means, all to no avail.

Fang Bai was deeply despondent, realizing that Empress Linglong had not merely sealed herself; it seemed she had extracted her soul at the time of sealing, leaving only her body behind.

If her soul cannot return to her body, Empress Linglong will fall into eternal slumber.

However, Fang Bai had no clue where Empress Linglong's soul had drifted, making it impossible to search for it.

Reluctantly, Fang Bai had to give up on waking Empress Linglong temporarily, keeping her body submerged in the pond of Water of Life within the Five Elements Spatial Ring.

Fang Bai firmly believed that as his realm and cultivation level improved, he would eventually find a way to awaken Empress Linglong.

Upon learning of this, Hundred Flowers Empress sighed with sadness.

During the years Fang Bai spent in seclusion trying to awaken Empress Linglong, the demonic energy within Lu Liyu had been completely expelled, and her mind restored to clarity.

When Dongfang Bai brought her out of the Five Elements Spatial Ring and stood before the gathered women, they were delighted and cheered aloud.

"I originally intended to use the Heaven Devouring Art from the Golden Crow Demon Emperor to cultivate to the Emperor Realm, then return to the Emperor's Palace to aid you... Unexpectedly, shortly after cultivating the Heaven Devouring Art, I fell into the Demon Dao, becoming unrecognizable to my own family..."

When Fang Bai asked about the incident where Lu Liyu was captured by the Golden Crow Demon Emperor, Lu Liyu replied with a bitter smile.

She thought how, if not for Fang Bai's rescue, her cultivation level reaching the Emperor Realm might have led to the Golden Crow Demon Emperor draining her blood completely, causing her to shudder.

However, after cultivating the Heaven Devouring Art, Lu Liyu's strength surged rapidly, and among the women around Fang Bai now, except for the Hundred Flowers Empress, her cultivation level was the highest and her strength the greatest, making it a blessing in disguise.

"The Heaven Devouring Art is, after all, a Great Emperor Art; it's far superior to ordinary Emperor Rank cultivation techniques. I have an idea to help all of you accelerate your cultivation."

Fang Bai addressed the women, including Hundred Flowers Empress.

"Do you mean... you want us to cultivate the Heaven Devouring Art as well?"

Hundred Flowers Empress asked.

Fang Bai nodded and said, "That's right. I will teach you the Heaven Devouring Art. After cultivating it for a period, you can stay inside my Five Elements Spatial Ring until the demonic energy is removed and resume cultivation... With this cycle, it should greatly benefit your cultivation."

Hundred Flowers Empress had advanced to the Emperor Realm long ago, but now she yearned for the legendary Great Emperor Realm. However, without relevant cultivation techniques or secret techniques to assist her, she truly didn't know how to cultivate, so she just continually accumulated Immortal Qi, slowly exploring.

Upon hearing Fang Bai's words now, she was greatly moved.

The other women naturally nodded in agreement.

Thus, after Fang Bai taught the Heaven Devouring Art, the women dispersed, retreating to their respective Immortal Halls to focus on seclusion.

Since the appearance of Hundred Flowers Empress, Xia Chenyu, Qin Yaorao, and the others have all harbored a determination to strengthen themselves quickly and assist Fang Bai in the battle of revenge at the Emperor's Palace.

While they usually regard each other as sisters, they also secretly compete with each other, each wanting to become the most capable immortal partner by Fang Bai's side, to give him the greatest support.

"I think it's time to announce the reconstruction of the Emperor's Palace to the entire Immortal Realm!"

One day, Fang Bai invited Hundred Flowers Empress, Great Luo Immortal Emperor, Qilin Immortal Emperor, Bixie Immortal Emperor, Tempest Immortal Emperor, and Thunderflame Immortal Emperor, the six Emperor Realm Experts, to gather in the Palace Master Hall, where he spoke to them.

Qilin Immortal Emperor pondered and said, "If this news spreads, the eight top Immortal Emperors will certainly take action. If they join forces to assault us, can we guarantee we will repel them?"

Bixie Immortal Emperor sneered indifferently, "They have eight Immortal Emperors, but we have seven! Moreover, we have the home advantage, so what is there to fear?"

Tempest Immortal Emperor laughed heartily, "Currently, the Golden Crow Immortal Emperor and Flying Swan Immortal Emperor among the eight top Immortal Emperors have both fallen into the Demon Dao and have disappeared. The Golden Crow Palace and Flying Swan Peak they established have also vanished, leaving our opponents not as strong as before."

Thunderflame Immortal Emperor said, "Even if it's only six top Immortal Emperors with their subordinate forces, they should not be underestimated!"

Great Luo Immortal Emperor said, "In terms of Emperor Realm Experts, we are seven against six, occupying a numerical advantage. But in terms of individual combat strength, except for the Palace Master, we six are unlikely to be able to contend with the six top Immortal Emperors alone!"

Hundred Flowers Empress looked at Fang Bai and saw that he appeared confident, so she said, "Fang Bai, what do you think?"

Fang Bai smiled and said, "If the six top Immortal Emperors come to attack, I can handle three of them alone. As for you six, if you take on the remaining three two-on-one, it should be no problem."

Hundred Flowers Empress said, "Solving the issue of the six top Immortal Emperors is one thing, but what about their numerous Immortals? I'm aware there are tens of thousands of Immortals attached to the six top forces!"

Great Luo Immortal Emperor sighed, "The Emperor Palace only has more than ten thousand disciples, still too few!"

Fang Bai said, "They are nothing more than tens of thousands of disorganized troops! Also, do not forget that many friendly sect forces existed with our Emperor's Palace in the past. If they come to aid us, they can offset the numerical advantage held by the six top forces!"

Hundred Flowers Empress said, "The overall strength of the Emperor's Palace is far from its former glory, and your cultivation level has not returned to its peak. Won't they worry that we cannot withstand the six top forces and choose to stand idly by?"

Fang Bai confidently said, "Once I spread the news of the Emperor's Palace reconstruction, I believe most of them will come to assist."

"Since you are confident, then announce the news!"

"Let us prepare in advance to welcome the possible impending battle!"

"This will be the first battle after the reconstruction of the Emperor's Palace; we must demonstrate our might and morale!"

"It may not be easy to eradicate the six top forces, but we must strike hard in this battle, make them pay a heavy price, and dare not easily attack again!"

...

Infected by Fang Bai's confidence, the six Emperor Realm Experts, including Qilin Immortal Emperor, spoke enthusiastically.

Chapter 2699: Let Me Lend You a Helping Hand

The War Emperor returns, the Emperor's Palace is rebuilt.

This news swept through the entire Immortal Realm like a hurricane.

"The War Emperor returns... the Emperor's Palace is rebuilt... is this news true or false?"

"Didn't the War Emperor fall a thousand years ago at the hands of the eight supreme Immortal Emperors? What is this return about?"

"It is said that the War Emperor's physical body was destroyed in the past, yet a remnant soul remained unextinguished, reincarnated in the mortal world, and returned to the Immortal Realm, cultivating all the way to the Emperor Realm."

"The War Emperor is unparalleled in talent and extraordinary; once he enters the Emperor Realm, there will be no match for him in the Immortal Realm!"

"Now, with the War Emperor rebuilding the Emperor's Palace, he will surely seek revenge against the eight supreme factions of the Immortal Realm, causing trepidation among their immortals."

"Although two of the eight supreme factions of the Immortal Realm have dissipated, their overall strength remains formidable. The newly constructed Emperor's Palace cannot quickly gather enough power to challenge the six supreme factions."

"Not so! Don't forget, in the past, there were many sects and immortals who were allies of the Emperor's Palace. Once they pledge their allegiance to it, the strength of the Emperor's Palace will rapidly grow. At that time, it will be uncertain who will prevail in a clash between the six factions and the Emperor's Palace."

"The Immortal Realm, peaceful for a thousand years, will see turmoil again. From now on, whether it remains under the rule of the six factions or the new order established by the Emperor's Palace, we shall see."

"The six major factions are domineering and hoard vast cultivation resources, truly detestable. I do hope the Emperor's Palace can triumph..."

"Hush... Be cautious when discussing these matters, lest someone overhearing leads to mortal danger."

"What is there to fear! If worst comes to worst, I will align with the Emperor's Palace myself!"

"If you go, remember to take me with you!"

...

Upon hearing and confirming the authenticity of this news, the sects and loose cultivators of the Immortal Realm began discussing it fervently, with varied reactions.

Led by the six supreme factions, the sects and immortals felt anxious and unsettled.

Meanwhile, the surviving disciples of the Emperor's Palace, as well as sects and immortals allied with it in the past, rejoiced and were extraordinarily excited.

Those sects and immortals who remained neutral and uninvolved outwardly, actually hoped the Emperor's Palace would replace the six supreme factions.

The six supreme Immortal Emperors, with many eyes and ears in the Immortal Realm, realized the situation was not in their favor and immediately gathered their forces to devise countermeasures.

In the end, the six supreme Immortal Emperors decided to cast aside past grudges and ally once again, mobilizing all their power to confront the Emperor's Palace, striving to eliminate it before it grew stronger.

At the same time, disciples of the Emperor's Palace scattered across the Immortal Realm and those from friendly sects and immortals also set out or sent representatives to the new Emperor's Palace.

For a time, nearly all the sects and immortals of the Immortal Realm felt a tense atmosphere as if a storm were brewing.

Within the Heavenly Cave's new Emperor's Palace, Fang Bai and all the Emperor's Palace disciples were busier than ever.

Hundred Flowers Empress, Great Luo Immortal Emperor, Qilin Immortal Emperor, Bixie Immortal Emperor, Tempest Immortal Emperor, and Thunderflame Immortal Emperor were temporarily away at Fang Bai's request to welcome disciples and friendly immortals arriving from various parts of the Immortal Realm.

Meanwhile, other Emperor's Palace disciples, including Fang Bai's beloved, under his guidance, repeatedly practiced various Emperor Rank Formations, preparing for potential battles.

Inside and outside the Emperor's Palace, Fang Bai had set up layer upon layer of offensive and defensive Emperor Rank Immortal Arrays. Even if the six supreme factions attacked, they would not easily destroy the Emperor's Palace, even without an immortal guarding it.

Additionally, the Qilin Immortal Emperor and Bixie Immortal Emperor, two Emperor Realm experts from the Beast Clan, summoned thousands of powerful immortal birds and beasts from all over the Immortal Realm to aid them, forming a formidable force.

Moreover, more forces will soon continue to arrive at the Emperor's Palace, greatly enhancing its overall strength when the time comes.

All of these aspects comprised Fang Bai's source of confidence.

He believed that with the collective effort and unity of the Emperor's Palace, they could deliver a decisive blow to the six supreme factions invading them.

During this period, Fang Bai also spent some time inside the Five Elements Space Ring, thoroughly consolidating his realm.

Soon, immortals from various directions arrived at the Emperor's Palace, led by the six Immortal Emperors, including the Qilin Immortal Emperor.

These immortals included surviving disciples of the Emperor's Palace, disciples of major sects allied with it, and loose cultivators who had suffered under the eight supreme factions...

What delighted Fang Bai even more was that among the arriving immortals were some lower realm immortals he believed might have already perished.

"Fang Bai, I have come to lend you a helping hand!"

That day, while Fang Bai was in the square in front of the Palace Master Hall receiving various immortals, suddenly a ripple appeared in the sky above. A dashing silver-clothed youth tore through the void and descended onto the square.

From his manner of arrival, it was clear that this was an Emperor Realm expert.

Not many recognized the silver-clothed youth at the scene, but immortals from the lower realm displayed expressions of surprise and joy upon seeing him.

Especially Fang Bai's beloved and his disciples from the lower realm, who "whooshed" over to him.

"Little Mink, why have you come?"

"Wow, you can tear the void; your cultivation must have reached the Emperor Realm, right?"

"We were talking about you just the other day, speculating about your cultivation level."

"Haha, we all guessed wrong! None expected you to have become an Emperor Realm expert!"

"The Emperor's Palace is now in need of strong allies, your presence is most welcomed!"

...

Dongfang Ruhua, Baili Mingyue, and other women had known the silver-clothed youth since their time in the mortal world, though at that time, he was just a Lightning Mink. Unexpectedly, he has now become an Emperor Realm expert of the Mink Clan in the Immortal Realm.

The silver-clothed youth was the Lightning Mink.

Back then, when Lightning Mink followed Fang Bai to the Immortal Realm, he found his kin and temporarily parted ways with Fang Bai.

Lightning Mink's ancestor was originally a Divine Beast, and he inherited the ancestor's bloodline, possessing rare talent and progressing rapidly in cultivation.

In the years after parting with Fang Bai, Lightning Mink experienced several great opportunities and not long ago achieved the Emperor Realm, becoming the new Clan Leader of the Mink Clan.

Though Lightning Mink was with the Mink Clan, he had always been attentive to the happenings within the Immortal Realm.

When news of the Emperor's Palace's rebuilding spread, he entrusted the clan's matters to several elders and tore through the void, traversing the endless space at full speed to the Emperor's Palace, hoping to aid Fang Bai.

In front of other immortals, Lightning Mink, possessing a Divine Beast's bloodline, remained aloof and proud, yet when facing Dongfang Ruhua, Baili Mingyue, and the others, he was exuberant, warmly exchanging pleasantries with them.

Fang Bai did not expect Lightning Mink to arrive at this time, nor did he expect him to become an Emperor Realm expert.

Standing aside, he watched with a smile as Lightning Mink and the women conversed, waiting until they had mostly finished before approaching them.

Chapter 2700: You Really Made Me Lose Face!

Fang Bai and the Lightning Mink have known each other for a long time. Although one is an Immortal and the other is from the Beast Clan, they have always considered each other as brothers.

So when Fang Bai walked up to the Lightning Mink, they exchanged smiles and then embraced in a big bear hug.

"Well, Little Mink, you actually became an Emperor Realm Expert!"

Fang Bai patted the Lightning Mink on the shoulder, his face full of gratification.

"Of course!"

The Lightning Mink, with an expression of pride and smugness, said, "Before, my cultivation level was always lagging behind yours, but now I've finally caught up."

Wu De, standing to the side, came forward and sized up the Lightning Mink for a few moments. He clicked his tongue, unable to resist saying, "Little Mink, you're getting big-headed! Even though your realm and cultivation have caught up to the Palace Master's, in terms of combat strength, the Palace Master can crush you without even trying!"

"Old Taoist Wu, you just love to put me down! You're not even an Emperor Realm Expert, what do you know!"

The Lightning Mink glared at Wu De, full of disbelief.

In the view of the Lightning Mink, although there are differences in combat strength among Emperor Realm Experts, the gap wouldn't be too large.

Wu De chuckled, "Though I'm not an Emperor Realm Expert, our Emperor's Palace has quite a few of them. If you don't believe me, you can ask them."

He said this while pointing his mouth towards the distance at the Hundred Flowers Empress, the Great Luo Immortal Emperor, and several other Emperor Realm Experts.

Fang Bai knew that these two have liked to be playful with each other ever since they knew each other in the mortal world. So he didn't intervene, just watched them with a smiling face.

The Lightning Mink glanced over at the six Emperor Realm Experts including Great Luo Immortal Emperor, and his previously smug expression gradually disappeared.

He sensed from those six Emperor Realm Experts an aura stronger than his own, knowing that each of them was more powerful than him.

Typically, the combat strength of Beast Clan Emperor Realm Experts is superior to that of Immortal Emperor Realm Experts of the same rank. Therefore, after advancing to the Emperor Realm, the Lightning Mink thought he could hold his own against any contemporary Emperor Realm Expert.

But when he saw the six Emperor Realm Experts, including the Great Luo Immortal Emperor, he realized he had overestimated himself and underestimated other Emperor Realm Experts.

"How is it? Didn't I tell you, Taoist Master! Any one of those Emperor Realm Experts could beat you soundly! Not to mention the Palace Master!"

Seeing the dejected look on the Lightning Mink's face, Wu De couldn't help but get cheeky.

He and the Lightning Mink always enjoyed ribbing each other for fun. Now that Lightning Mink has become an Emperor Realm Expert while he is still fumbling around in the high ranks of the Immortal Emperor Realm, he felt quite displeased, believing that he might be laughed at by the Lightning Mink most of the time in the future.

Now he was more than happy to use other Emperor Realm Experts to put down the Lightning Mink.

The Lightning Mink looked at Fang Bai and grudgingly asked, "What Old Taoist Wu said... is it true? Are you stronger than those Emperor Realm Experts?"

Fang Bai also noticed that the Lightning Mink had become a bit arrogant after advancing to the Emperor Realm, knowing that if he didn't take him down a peg, it would be difficult to manage him in the future. So, he nodded with a smile.

"Let's have a match!"

The Lightning Mink, without another word, shot into the sky like a cannonball, appearing in the sky high above.

When Fang Bai also ascended into the air and faced him, the Lightning Mink immediately threw a punch with a whoosh.

This punch was unleashed with all his strength, with no reservations, as he wanted to find out whether Fang Bai's strength was truly as formidable as Wu De had claimed.

Fang Bai smiled and threw a punch as well.

Their fists collided, the void collapsed, and the ferocious momentum surged. The Lightning Mink's body flipped backward in somersaults, stumbling hundreds of feet back before he barely managed to steady himself.

When he looked at Fang Bai again, Fang Bai hadn't moved an inch and was completely at ease.

The Lightning Mink's face turned pale as he forcibly suppressed the turbulent energy and blood boiling in his chest, taking a while to calm down.

Just with that one punch, the Lightning Mink realized that Wu De was right. Although he and Fang Bai were at the same level of cultivation, there was still a massive gap in combat strength.

He also understood that Fang Bai held back quite a bit with his punch and didn't intend to hurt him. Otherwise, he would have suffered greatly.

"I'm no match for you!"

The Lightning Mink said, hanging his head like a defeated rooster.

Fang Bai laughed and said, "What's this? Already discouraged? This isn't like you, Lightning Mink! The Lightning Mink I hope to see never admits defeat easily and grows stronger with every setback!"

The Lightning Mink puffed up his chest and said proudly, "Fine! Then just wait! Every ten years, I'll challenge you to a battle. I won't believe I can't beat you one day!"

Fang Bai laughed loudly, "That's more like it! We Immortals cannot afford to lack confidence and fighting spirit! Once you lose confidence and fighting spirit, you're done for!"

The Lightning Mink nodded and landed together with Fang Bai in the square in front of the Palace Master Hall.

He spotted Wu De standing among a group of Immortals, sneakily watching him with a look of schadenfreude. Raising his eyebrows, he walked over, grabbed Wu De, and carried him off into the distance.

"Little Mink, what are you doing? Carrying me like this embarrasses me in front of all these Immortals at the Emperor's Palace!"

"What am I doing? Master Mink got rebuffed by the Palace Master and is feeling annoyed, so I'm planning to vent it on you!"

"Damn! The Palace Master bullies you, so you bully me? What's the logic in that? Taoist Master isn't your punching bag!"

"From today, you will be!"

"You... you are a dignified Emperor Realm Expert. How can you bully the weak? Have you no regard for your status? Don't you care about face?"

"What is status? Can face be eaten? If you don't want to get punched, then fight back!"

"Nonsense! I'm at the high rank of the Immortal Emperor Realm. Can I beat an Emperor Realm Expert like you? Let me go, otherwise... otherwise..."

"Otherwise, after thirty years, the river will change its course, and when you become stronger, you'll make me pay for it... Is that what you want to say?"

"Exactly!"

"Alright, Master Mink believes in that... Well, while my strength surpasses yours, I'll give you a good beating, lest I miss the chance in the future!"

"You... ah... ugh... Palace Master, save me..."

...

Fang Bai and the other Immortals stood in the square in front of the Palace Master's Hall, watching as the Lightning Mink carried Wu De's round body, bickering non-stop as they flew into the distance, and couldn't help but smile at each other.

"Now, with another Emperor Realm Expert in our midst, our odds are even better!"

The Hundred Flowers Empress looked at the retreating figure of the Lightning Mink, smiling as she spoke.

The strength of an Emperor Realm Expert is beyond doubt; sometimes it can even turn the tide of the battle. If the Emperor's Palace could enlist a few more Emperor Realm Experts, then even if the numbers

of the six supreme powers far exceed those of the Emperor's Palace, the Emperor's Palace would still have the upper hand.

In the days that followed, with the continuous arrival of various Immortals, the overall strength of the Emperor's Palace kept growing stronger.

"Now our side at the Emperor's Palace has nearly a hundred thousand Immortals. Although the number is still less than it was a thousand years ago, two of the eight supreme powers from back then are also gone. So in this battle, we will surely win!"

Fang Bai stood with several Immortal Emperors in front of the Palace Master's Hall, full of spirit and fighting intent.
