

## Doomsday 801

Chapter 801: Toxic by carelessness

A figure flew out of the sparks, flew straight for more than ten meters, and fell on the ground. It took five or six steps to stand before it stood. .

This is not someone else, it is Di Ping, his chest is violently up and down, his face flushed, and his breath is like a cow.

The hands he held the sword trembled slightly, and the sword shook and buzzed, as if he couldn't grasp the sword. In the previous battle, he only cut nearly a hundred swords, but none of them could break the blockade of the late mutation. Its pair of steel tongs are like two huge shields, protecting it tightly. No matter how he changes his sword technique and position, he cannot cut the blade into its defensive circle.

However, Di Ping was not disappointed, his eyes were unusually bright, and his eyes shone with excitement, as if he was a match for his opponent.

On the other hand, the mutant emperor scorpion was also uncomfortable. The body was once again cut more than ten meters away by Di Ping's powerful blade power, and the steel-like claws cut deep cracks on the ground.

"Cool!"

Di Ping suddenly raised the sky with a long roar, and the roar went straight into the sky like a tiger roar and a dragon roar.

Feeling the tingling sensation coming from his body, he was extremely excited, and fighting really was the best way to improve.

After bumping up again and again, he felt the energy hidden in his body slowly pouring into his body again, blending into flesh and blood, muscles and bones, skin, and internal organs, making his body tougher, more qi and blood, stronger breath and stronger powerful.

He had already clearly felt that this integration was accelerating just now, and the energy left in his body during the last upgrade was quickly being digested, absorbed and utilized.

System upgrade is easy to use, but it is best to use it under perfect conditions by itself, eliminating the energy accumulation process.

But like the previous extensive upgrades for life-saving purposes, a lot of energy is wasted, and the body has not reached a perfect state. Sudden upgrades can not make perfect use of power, leaving many hidden dangers, which can only be digested after a long time accumulation.

After so many days, he felt that his strength had begun to complete, and he had lost the sense of stagnation.

"My God! Can a person be so strong?"

The four of Gu Xing hiding in the mall looked at Di Ping who looked like a human-shaped tyrannosaurus, as if they had seen a ghost, and they were dumbfounded.

"Yeah! Too strong, I always thought Big Brother Zhang was the strongest, and now I know that Big Brother Zhang might not even be able to resist a punch!"

Liu Huasheng, the youngest of the four, muttered with a pale face.

He Zhi was already speechless at this time. She only knew how ignorant she was just now. Can someone like this be sarcastic?

If the adult was angry just now, she couldn't imagine what kind of experience she would face.

"I think this Mr. Di is relatively peaceful and should not be angry. Don't be too scared!!"

It seems that He Zhi's body is trembling slightly at this moment of fear. Gu Xing said in a low voice to comfort him, and then glanced over Liu Huasheng and another young man Ye Haotian and said with a serious expression: "This is a lesson. Remember that misfortune comes from the mouth, if you encounter something difficult to speak, you won't get out so easily!"

"Okay, we remembered Uncle Gu!"

The three nodded in shock.

"By the way, Uncle Gu, what shall we do after this time?"

Ye Haotian suddenly moved his expression, approaching Gu Xing and asked in a low voice.

Gu Xing suddenly frowned and looked at Ye Haotian and said:

"Haotian, what do you want to say!"

"Uncle Gu, do you think we join Mr. Di's team, will he want us!"

Ye Haotian gestured to Di Pingdao, who was fighting again with the mutant emperor Scorpion in the lower square.

"How is this possible? You did not see that Mr. Di is surrounded by powerful people like Chief Zhang. He will want us!"

As soon as Ye Haotian finished speaking, Liu Huasheng shook his head sharply.

Chapter 802: The city lord poisoned the generals

"It's not easy to handle! I don't want to be strong enough, I'm afraid Mr. Di looks down on us!"

Uncle Gu was old-fashioned, his eyes brightened first, but then dimmed again, and said weakly.

"I think it's not a big problem?"

Ye Haotian's eyes flashed with thoughtful expressions.

"Haotian, you have a lot of ideas, talk about it!"

Liu Hua's eyes lit up and looked at Ye Haotian excitedly.

"Yeah! Haotian, let's take a look!"

Gu Xing was also right.

"Uncle Gu, when we were chatting just now, I don't know if you are paying attention. He has been listening to our base. Seeing what he means, he seems to be more interested in our base. But he has a base and has a population of several thousand. Our base is too strong, so we definitely don't want our turf, it doesn't want our turf, what is his interest in us?"

The divine light in Ye Haotian's eyes flickered as he watched everyone slowly said.

If Di Ping heard Ye Haotian's words here, he would be surprised. He was really excited about this Denton base. He didn't expect to just chat. He didn't reveal it, but he was seen by the young man.

"Ah! You mean population?"

Everyone was stunned and lost in thought, suddenly Gu Xing suddenly raised his head and said.

"What does he want people to do? Our base can't support these people now, how could he even have people?"

He Zhi asked somewhat puzzled.

"You don't understand this. With their such powerful means, it is okay to raise some people, and their population must have benefits, but we don't know it!"

Ye Haotian said indifferently with a wise face.

"Isn't this uncomfortable? I'm sorry Hengcheng to lead them away?"

There was a hesitant look on Gu Xing's face.

"Uncle Gu, Chief Zhang can no longer support these people. Didn't you see who in the base would dare to come out? If we don't want to go out, we will either starve to death or die in the mouth of mutant animals sooner or later, I believe he will understand!"

Ye Haotian looked at Gu Xing and shook his head helplessly, and finally said earnestly.

"Oh! Yeah! I'm starving to death when I don't want to go out. Go back and talk to him?"

Gu Xing's face changed for a while and finally he sighed.

"Look outside, there is a change!"

At this time, Liu Huasheng, who had been observing the outside from time to time, suddenly shouted in a low voice.

All three of him looked at the square. All four of them had their eyes flashed, with horror on their faces. The entire square was in a mess. Even the steel statue before it was knocked down and rolled to one side. The members of the guard were squeezed to the edge of the square even more violently.

After Di Ping gave a violent shout, the shaking sword rushed to the mutant emperor scorpion again. He had found that the emperor scorpion was no better than him, and he was able to cut hundreds of knives in one breath with the crazy wave knife technique.

His violent slash attack smashed the mutant scorpion out more than ten meters. At this time, not only its lower feet, but also its pair of powerful steel tongs began to tremble slightly.

Therefore, when he attacked again, he did not believe that he had broken through the steel clamp shield of the Invariant Scorpion.

One person and one scorpion were fighting frantically, and only the jingle roar was heard in the square. The whole square was full of broken floor tiles, all of them destroyed.

The mutant scorpion roared frantically, its eyes flashed scarlet, and it couldn't believe it in the high-intensity battle. The four pairs of limbs and claws under the body were trembling slightly, seeming to be a little unstable.

This was all caused by Di Ping's powerful sword attack. Di Ping was shocked by the qi and blood, and it was also uncomfortable. His four feet seemed to be broken, causing it to scream from time to time.

The third layer of the violent wave knife technique·Wind and surge

Suddenly Di Ping stood in front of his chest with a knife in his hands, looked at the mutant emperor scorpion intently, and said slowly.

His voice was cold, like a polar cold wind, which made people tremble, and there was also a hint of timidity in the eyes of the mutant scorpion.

Wow...

The waves in the square were surging, as if the sea was in front of you, wave after wave, and the sword he erected buzzed gently. Every time it buzzed, the sound of the waves became stronger.

The wind is getting louder and the waves are getting stronger and stronger, and the crackling waves hit the rocks and reefs.

There seemed to be illusions in front of everyone. At this moment, they were standing in the ocean facing them, facing the surging waves, their bodies trembling involuntarily.

As if facing the irresistible Tianwei, the anger of nature, how small the manpower is at this time, I can't even have the courage to resist in my heart.

The mutated emperor scorpion, the horror in its eyes became more and more intense, it was a little bit trying to escape, it seemed that it felt that the blow to people was extremely powerful, and it had no confidence to resist it.

Chapter 803: Savior

"cut!"

A cold and merciless voice exploded in the sky.

Di Ping moved, and his body rushed towards the mutant scorpion with afterimages, and the sword he raised up suddenly cut out.

The light of the knife exploded, as if it were an endless wave tossing, the waves of the waves were the sharp light of the knife, and the waves of the knife formed by the knife light swept across with the help of the strong wind.

The mutant emperor scorpion originally wanted to retreat, but at this time it could not retreat.

Suddenly, in the scarlet eyes the size of a baby's fist, a trace of tyranny flashed through the violent Emperor Scorpion. He was completely angered by Di Ping's endless pursuit.

With a long hiss in the sky and a sharp voice, it rushed straight into the sky, and the violent aura stirred the wind and clouds, and then saw its body shake, and the strong energy jetted out, sending the dust on the ground into all directions.

Then something terrifying happened. The giant scorpion's body suddenly enlarged a circle, and the dark carapace swelled, and then a darker luster flashed on the carapace, reflecting the grim light in the sun, as if it is generally steel.

Steel armor!

A trace of clarity flashed in Di Ping's eyes, he knew that Emperor Scorpion had finally used the steel armor skill.

However, he is not afraid, he has to try his steel armor skills. Who is the best? Today's battle is well matched, making him passionate, and his heart is high. He can't stop.

An endless wave of blades rolled past, bringing all the sand and dust on the ground, as if being swept by a tornado, and heading towards the mutant emperor scorpion.

In the square, dust was flying, sand and rocks were flying, and one person and one beast slammed into each other with a terrifying aura.

when!

A loud and humming noise exploded in the sky, and everyone who shook their hearts was beating wildly. Their chests were so tight that they were about to vomit blood. They had to cover their ears, but no one lowered their heads for fear of missing the excitement. On the battlefield. .

The four of Gu Xing hiding in the building even more painfully covered their ears and screamed. They almost broke their eardrums just now.

Everyone felt that the space in front of them seemed to be distorted, suddenly stagnating, as if time had stopped, and then the dust and sand on the square suddenly exploded to the surroundings, being swept away by the fierce air waves.

The stones flew like bullets, screaming in the air, and the violent wind caused the wind to whistle, and the dust flew back around, like a fog.

Everyone felt pain from being hit by the sand on their faces, but they did not hide, but closed their eyes for fear that the sand would enter their eyes.

Feeling the sand and stone passed, he quickly opened his eyes and looked into the field.

I saw a person and a beast standing ten meters apart, looking at each other. If it weren't for the trembling body, it was almost a statue.

Di Ping's saber stood on the ground, his forehead was full of sweat, his feet were trembling, and his hands were trembling. His breathing was like a cow panting, and a cloud of white mist was condensed in front of his nose, and the mist on his head was steaming.

To everyone's horror, there was also a trace of blood hanging on the corner of his mouth.

The mutant scorpion is also trembling with its four legs at this time. One of its steel tongs has fallen off half and is still hanging on it. The white flesh is exposed at the fracture, but at this time, the flesh is a little bit scorched, obviously like it has been burned. Burnt marks.

"Okay! The monster is injured?"

Liu Han exclaimed with joy on his face.

"The city lord seems to be injured!"

Gina on the top of the building said with a worried expression.

"It's okay, the city lord is not badly injured!"

Yun Mengsi shook his head and said softly.

At this time, her eyes would be on Di Ping, who was standing still and mighty like a mountain, and her eyes were colorful, as if she had seen a piece of beautiful jade, and the appreciation and admiration were overwhelming.

"Guru...Did you win?"

He Zhi swallowed, his eyes flashing.

"should be!"

Ye Haotian also moved his throat dryly and murmured.

Chapter 804: Pharmacy battle is in full swing

Di Ping covered his chest and lowered the churning qi and blood pressure. He had already spewed a mouthful of blood just now, and his breath was now much smoother. He held the sword, adjusted his breathing evenly, and recovered his body that had just been extremely weak.

Holding the battlefield tightly with his hand, his eyes were sharp and staring at the mutant emperor scorpion. At this moment, only he knew that the mutant emperor scorpion seemed to be very serious, and half of the scorpion's clamps were broken, but in fact it did not hurt much.

The Emperor Scorpion's steel armor skills are too strong, so he used the strongest attack. The third wave of the wave of knives was surging, and he was forced to superimpose the second layer of knives, plus the talented flame enhancement, and then cut it off. With its steel pliers, the superposition of sword strength turned out to be so strong, but in the end it failed to break through the steel pliers shield of the mutant scorpion.

That is to say, the force of the counter shock, the mutant scorpion of the shock suffered some internal injuries, but this kind of injury is not serious, and it is not enough to determine the battle.

"hiss!"

The mutant emperor scorpion seemed to have just adapted to it at this time. It glanced at the steel pliers that had broken half of it, and suddenly screamed, fierce surging in its scarlet pupils.

The limbs stroked and shot quickly and suddenly, like a black arrow rushing towards Di Ping.

At this time, Di Ping was numb, his muscles were sore, his arms were weak, and he was unable to collide with him the last time. He hurriedly backed away.

"City Lord!"

The few people who stood by the square and watched the game realized that something was wrong at this time, and exclaimed in exclamation that someone had already rushed out.

"Don't come here! Zhang Zhengyi, Angela, heal!"

Di Ping flew back and shouted loudly.

Still defeated by their own strength, they can only deliver food, and can still play long-range attacks. Once they are close, none of them can withstand the hammer blow of the giant scorpion.

"Boom, boom..."

With three gunshots in a row, Daniel's musket hits the mutant scorpion's forehead three times, igniting three sparks, and the powerful force still blocked the mutant scorpion's speed.

At this time, two white energies flew down from upstairs and shot into Di Ping's back. This was because Angela and Zhang Zhengyi didn't need him to shout at all, they had already thrown out their skills for the first time.

Energy rushed in, and Di Ping seemed to be surrounded by a cloud of clean energy, shining in the sun, like a god.

The energy entered the body, Di Ping's muscle soreness quickly subsided, and his combat strength returned a little, he raised the sword in his hand and rushed over again.

You can't spread it now, once Dansa is stuck by the mutant emperor scorpion, it will be troublesome.

Therefore, he can only be hardened. It would have been difficult to kill the mutant scorpion with his own strength, but don't remember, there are two nurses behind him. If this way, he can't do the mutant scorpion. Dishes.

The emperor mutant scorpion was crazy, and its madness was fully aroused. It attacked Di Ping frantically. The two of them seemed to be two mobile tanks. They were rampaged. The walls, ground, trees, and street lights were all devastated. The whole square was once again Was devastated.

Just listen to ding-dong, ping-pong, and constant rumbling, one black and one white, one large and one small. The two figures are surrounded by billowing dust. Di Ping has used his body technique and knife technique to the limit, and he is determined to break through the lock of steel clamps and mutate Scorpion beheaded.

Everyone was shocked by the violent battle in front of them, but there was more worry, so they stared at the field closely.

Suddenly, everyone discovered that a faint green smoke began to form on the square, and a pungent smell began to fill the square.

"Ahem! Toxic!"

The crowd shouted in horror.

"City Lord, pay attention to poison!"

Everyone's complexion changed greatly and shouted in unison.

boom.....

Suddenly, there was a bang again, and Di Ping flew more than ten meters away like a flying swallow, and fell to the ground.

His hair is messy, his clothes are broken, his body is covered with blood, his complexion is red, and he is panting, and at this time there is still a trace of black air lingering on his face.

Di Ping leaned the saber on the ground, and he shook his head violently. Just now, he felt something was wrong. The tail of the mutant scorpion was spraying out a faint smoke like nothing.

He didn't pay attention to it at first, but when he smelled the pungent breath, he felt weakness in his limbs, his body became weak, his breathing was weak, and the qi and blood rushed slowly.

At this time, he knew that he was poisoned. This scorpion was too cunning, and he was secretly poisoning. After several scorpion tail attacks, he avoided him. Maybe at this time the mutant scorpion knew about secretly poisoning.

Chapter 805: Detoxification is slow and anxious

However, the mutant scorpion moved suddenly, and the eight pairs of lower limbs swiped quickly, and the entity could not be seen quickly. The huge body brought an afterimage on the ground and shot towards Di Ping.

"not good!"

Di Ping cried out badly and wanted to step back, but he felt his steps sinking, and he felt a sense of powerlessness.

"puff!"

The emperor scorpion that rushed forward suddenly flicked the long scorpion tail erected behind him, and a jet of dark green liquid sprayed out and shot towards Di Ping. The speed was extremely fast, and there was a sound of breaking through the air, like a black cloud covering his head. Come.

A lot of toxins have been inhaled, Di Ping's limbs are weak, his mind is dizzy, and his speed is three times slower. The emperor's scorpion is too toxic. After a while, the poisoning condition appears. His speed is sprayed by venom. Quickly, it's better under normal conditions, but at this time he is poisoned.

His complexion changed drastically, and this Emperor Scorpion was cunning. It had been quietly spreading poisonous fog without using poison, waiting for Di Ping to have a problem, then used its strongest attack method.

"City Lord!"

Everyone was shocked, but the closest distance to Di Ping was more than 20 meters. It was too late to go to the rescue. Their body skills had a venom spray speed, but everyone rushed out, hoping to be the first Time to rescue the city lord.

The venom is not like an arrow, but like a fountain, spraying over the sky, and the space of nearly ten meters in radius is full of venom, quickly advancing towards Di Ping.

"Gina, Ignite Dream Attack Venom!"

Although Di Ping was dizzy, he was extremely calm, and he hurriedly backed away while shouting from his height.

The two women did not answer, but the staff in their hands had already been raised, and the speed was very fast. In less than a second, a fireball flew towards the rain curtain formed by the venom.

Collision!

As soon as Di Ping turned around, he had a collision skill, and his numb body footsteps were already a little heavy, and it was not enough to support him using the snake movement method.

Although his vitality was slow at this time, and his body was a little disobedient, he still used a strong blade and activated his skills.

boom!

With a roar, his feet stepped into a gravel pit on the floor, and his body shot out like a powerful arrow.

Qi and blood flow slowly, his muscles are weak, and his limbs are numb, so that his strength cannot be used satisfactorily. This time the collision distance is not far, only ten meters. It is like that he can go more than 20 meters in a single punch.

"puff!"

A mouthful of blood spurted out, and Di Ping felt lower and lower. The blood circulation accelerated just now, and the poison quickly reached his body with the blood.

However, the distance of more than ten meters still saved him. The fireball flying from the lightning encountered the venom two meters in front of Di Ping, and a strong explosion immediately occurred.

The venom seemed to be gunpowder, and it was exploded more violently by the flame. The strong impact was like a tenth-level tornado, and the slow-moving Di Ping was swept five or six meters away.

Hugged by the fastest Ava, she retreated quickly while holding him.

The position where Di Ping stood before was completely engulfed by flames, and the powerful explosive power of the flames scattered the venom.

Di Ping's face was glowing green, which was a symptom of deep poisoning, and his eyes were a little blurred.

"City Lord!"

Everyone rushed up in exclamation and protected Di Ping. At this time, Zhang Zhengyi and Angela had jumped down from the stairs and rushed over. The two holy lights hit Di Ping's chest.

When the Holy Light entered the body, the painful expression on Di Ping's face eased a little, but the green on his face did not alleviate much.

"It doesn't work! What should I do?"

Angela and Tang Zhengyiwu looked at the situation, their faces changed, and they trembled.

Chapter 806: Axe monster bows its head

"What can I do?"

Ava, who was holding Di Ping, looked anxious.

"What should I do, speed up the treatment! Didn't you see that it eased?"

The fat man stomped his feet anxiously and cried angrily.

"Yes, yes! Quick treatment, maybe that's useful!"

Yue Lie nodded repeatedly.

"Okay! Let's cast spells together so that the effect will be stronger!"

Angela looked at Zhang Zhengyi's eyes with firmness, and her voice was full of indisputability.

"it is good!"

Tang Zhengyi nodded respectfully.

"His!"

Suddenly, a sharp neighing sound rang, awakening everyone who was paying attention to Di Ping's injury. Only then did they remember that the mutant emperor scorpion has not been resolved yet?

Except for Angela and Zhang Zhengyi who were treating Di Ping, everyone withdrew their weapons and stepped forward with serious expressions, blocking Di Ping.

The mutant emperor scorpion was quite miserable at this time. The explosion just now happened to explode on its head. After the toxin sticks to the flame, no one expected such a strong explosion.

Di Ping was rushed out of five or six meters, and the mutant emperor scorpion was also blown up somersault. It was too close, simply because it was at the explosion point.

The half-stretched steel pliers that had broken off half of it, and still hung, now disappeared. Eight pairs of lower limbs are now only five and a half pairs left. The others are all broken and hung on one side, which is obviously unable to be used.

The eyes that were originally scarlet and full of killing intent are now even more tyrannical. They are blood-red and blood-red, looking terrifying. It looks here as if it sees an enemy, shining with cruel hatred.

It swung its double hammers frantically, holding its broken leg, Di Ping rushed over here. It was obvious that he was really irritated by Di Ping. When it was so badly injured and subjected to such teasing, it swore To kill everyone, to relieve the anger in my heart!

"You take the city lord to retreat! Brothers, it's our turn to act!"

Tang Zhandong shouted angrily and rushed up with his battle axe.

"Go, everyone!"

The fat man also roared and rushed up with his battle axe, and all the people who were idle suddenly went up.

Boom boom boom...

Before everyone else, there was another fireball that shot down from the top of the building, and it shot directly at the mutant emperor scorpion. The fireball ran across the air with fire marks, as if the flow of the sky was about to reach its extreme, and it hit in a blink of an eye The mutant emperor scorpion made a loud bang.

The fireball hit the head of the mutant emperor scorpion, like small grenade exploding on his head, actually blocking its impact.

boom.....

Daniel's musket also rang, and the powerful bullet hit the mutant emperor scorpion's eye, and a cloud of green blood sprang up immediately.

"hiss!"

The mutant emperor scorpion made a loud roar, and everyone's ear drums were aching due to the sharp neighing.

Just now, it only cared about blocking the explosion of the fireball, but didn't want Daniel to shoot aside and shoot a bullet into its pupil.

The already half-blind mutant emperor scorpion obviously didn't adapt to the state of one eye, and he couldn't walk in a straight line because of twists and turns.

At this time, Tang Zhandong, Fatty, Xu Sheng, Li Shuang, Buji, Liu Han, Yue Lie, and Luo Xinyi rushed to the front of the mutant emperor Scorpion, and all the weapons in their hands fell.

Bang bang bang...

The attack power of the eight people is also quite strong, and they have repelled the mutant giant scorpion two or three steps, but a few weapons can't break his defenses, but Buji is the best at dealing with this kind of monster. Cut the cloud towards the lower limbs of the mutant scorpion, and cut off one of its long legs with an axe.

Originally there were five and a half pairs, but now it has become four and a half pairs, and it is a little unstable to stand.

Bang bang bang.....

Suddenly, the mutant emperor scorpion, after a painful hiss, swept steel tongs like a heavy hammer, and there was a whistling in the air.

#### Chapter 807: Howl of Fear Connected into Pieces

Tang Dongdong, Fatty, Xu Sheng and Liu Fa, the four of them were hit by this powerful force and flew ten meters away. It was still timely to block the frame. If this hammer hits the chest, few of them could stand up.

Like Di Ping, a strong body like a tyrannosaurus can be achieved by a few people.

Fortunately, the flames have been enveloping the body of the mutant emperor scorpion, blocking it from further harming everyone.

And Gina and Yun Mengsi, standing on the top of the building, their faces were pale at this time, with sweat on their foreheads like beads. Although they had been treated before, maintaining such a large flame was extremely mentally exhausting.

The two of them are already close to the limit. They are just holding on. They dare not stop. Once they stop, they are simply unable to fight the mutant emperor scorpion with a few melee fighters alone. Their pair of steel tongs is really too frightening.

If it weren't for the injury of the lower limbs and the movement was not flexible enough, everyone could not break through its protection, that is, Di Ping's knives were so fast that they would always be sealed by it and could not attack, and they had to guard against its flexible tail needle sneak attack.

The fat guys who were repulsed rushed up again with a roar, asking for no merit but no demerits. Now they also understand that the weapons in their hands cannot break the defense.

So they rushed forward to create opportunities for Buji, let him find the opportunity to use his battle axe to severely injure the mutant emperor scorpion.

"His!"

The mutant emperor scorpion screamed. He was troubled by the flames and couldn't effectively resist it. After a while, he was hit with five or six axes.

This group of people is like a group of militant ants, constantly attacking, giving it no time to react, which makes it very aggrieved, and the roar is of no avail.

After a dozen treatments were thrown on Di Ping, his complexion finally looked better. The green color faded a lot, but it was still full-bodied. It seemed that the poison was extremely violent. There were no more than 30 or 50 treatments like this, so don't try to remove the toxins.

And Guanzhi Angela and Zhang Zhengyi were already trembling at this time, and even the hand holding the staff shook. Zhang Zhengyi had already stationed the epee in his hand on the ground, supporting the body with one hand, and the other Forcibly condensing spells with one hand.

Fortunately, Di Ping finally woke up. The explosion just now stunned him. The main reason was that the toxins had seriously affected his body and he was unable to resist.

He was left empty in his body, without feeling at all, as if he was a vegetable. He moved his fingers. Fortunately, his hands could still move. The numbness was more caused by physical feelings.

He looked at the battlefield. At this time everyone was in danger. Gina and Yunmengsi finally could no longer sustain the burning of the flame. Once the flame subsided, everyone had no protection, and they had to face the mutant emperor scorpion.

Just this time, several people have been injured.

Fatty, Xu Sheng, and Li Shuang are already bracing themselves, their faces are pale, and the corners of their mouths are blood flowing, but they still stubbornly pounce on them again and again.

But Buji, who had been fighting the upper hand, was running all over the field at this time. He was hated by Emperor Xie Ji and kept chasing him.

"Master, how do you feel when you wake up?"

Ava asked with tears in her eyes and worried.

"Feel much better!"

Di Ping nodded lightly, then looked at Angela and Zhang Zhengyi and said, "You two stop!"

His voice was weak, but Angela and the other two heard it, and they felt relieved and almost sat on the ground.

Di Ping knew that he had to recover quickly. If he didn't recover, no one of these people could stop the mutant emperor scorpion. Now a few people on his side have lost their combat effectiveness. He can't wait any longer, and it may endanger his life.

These people are all treasures of the base, and there can be no damage.

Chapter 808: Primary special healing liquid

"System, buy and sell a bottle of antidote that can solve my body's toxins!"

Di Ping said silently in his heart.

At this time, he can only use the system shopping function. He has seen it on the system shopping page before, and it seems to be a first-order antidote.

"Di...consumption, 30 crystal coins, the purchase of the first-order best detoxification and detoxification medicine is successful, and the items are put in the backpack!"

The system made a soft beep, and it was Xianle in Di Ping's ears.

He opened his backpack excitedly and saw one of the green glass potion bottles at a glance, and he directly recruited it.

This is a green long round gourd-shaped glass bottle, which can be held in one hand. The green liquid flows inside, shining with a coquettish luster in the sun.

Di Ping labored to open the medicine, resisting his body's weakness, and directly poured the medicine into his mouth.

At the first entrance, a scent of fresh fragrance fills the entire mouth, the liquid is fragrant, and the entrance is slippery. After a bottle of stomach, Di Ping felt that the soreness on the body quickly subsided, and the strength returned little by little, and felt it again. The strength made him happy.

"it works!"

Di Ping secretly said with joy.

"Master, is this an antidote?"

Ava had obviously seen this thing. Looking at the glass bottle thrown on the ground by Di Ping, there was a hint of surprise in her eyes.

"Yes, this is the antidote!"

Di Ping nodded.

"Great! Master, how do you feel?"

A smile burst onto Ava's heroic face.

"Already recovering!"

Di Ping sat up cross-legged and began to recover.

He didn't lie, his body recovered very quickly, basically changing every second, and his body's perception finally came back. The feeling of regaining strength is really wonderful.

This time he was really reckless, just for the sake of fighting, but almost disabled himself.

He was once again sounded a warning bell, and he should not be careless at any time. If his power is used up, if there is no antidote today, then Di Ping will be in trouble.

This battle was won by himself, and it was also a miserable victory. Up to now, six or seven people have lost their combat effectiveness. Gina and Yunmengsi have exhausted their mana. The same is true for Angela and Zhang Zhengyi. The fat guys are basically injured. , If it weren't for the flame

support of the two girls, the mutant emperor scorpion was afraid of exploding again and dare not use all his strength, otherwise everyone would have been defeated.

"Rewind, it's toxic!"

Suddenly at this time, Xu Sheng exclaimed, and his body also retreated.

Gina and Yunmeng's mana were exhausted, and there was no flame containment, the mutant emperor scorpion used the venom spray for the first time.

The venom that shoots like a water gun makes everyone scared.

Even the great city lord who was so powerful that they were so powerful that they were stunned by the sky, the land, and the air were also brought down by the venom. They dared to try.

"What can I do? So many people can't hold him!"

Fatty, holding a weapon outside the circle, panting.

Bang bang bang.....

There were three gunshots in a row, and the three bullets were like a fret, and shot straight toward the head of the mutant emperor scorpion.

But this time without the obstruction and interference of the flames, all three bullets were directly blocked by the mutant emperor scorpion lifting a steel shield, and they were not injured.

"Rush it again, I don't believe it can't be done!"

Xu Sheng resolutely raised the sword in his hand and was about to slash at the mutant emperor scorpion.

"Fuck, go, \*\*\*\* him!"

The fat man also roared and rushed up again with his battle axe. His eyes were red as if he had seen an enemy, and his fat face was a bit hideous.

This drove everyone to hold back the pain one after another, waving their weapons towards the mutant scorpion.

Chapter 809: The end-time population is also important

"Quickly!"

Di Ping watched as a group of people rushed towards the mutant emperor scorpion, his eyes turned red, and his heart secretly urged.

He was extremely annoyed at this time. If it weren't for his recklessness and poisoning, Angela and the two wanted to heal themselves and couldn't move, then these people would not have to work so hard.

Now the mutant emperor scorpion also suffered a lot of damage, with three pairs of legs broken, and its movement speed dropped to the extreme, and it was absolutely impossible to catch up with them and retreat.

But now, one by one was scarred, but in order to ensure their safety, they rushed to fight without hesitation.

But detoxification medicine is not a magical medicine. It has a process for detoxification. In fact, this process is fast enough.

It took only five or six seconds to take the medicine, the numbness on his body was subsiding, and the pain in the internal organs was also slowing down. I believe that in ten seconds or so, the poison on his body will be almost relieved, but it will not affect his actions. .

But at this time, his body is weak, his limbs are numb, and he can't move. Seeing his brothers rushing toward the mutant scorpion one by one, his heart is very uncomfortable, but the ten-second time is as long as a year. .

But he couldn't shout now, and his tongue was numb and couldn't move.

The poisonous mist of the mutant emperor scorpion is not terrible, it is not as poisonous as it is sprayed, but this poison has super paralytic properties, making the whole body numb and weak.

"boom!"

The mutant emperor scorpion rushed towards such a person, and suddenly it slammed the steel clamps against the ground, and the earth trembled.

Then a shock wave rushed away, and the ground seemed to be distorted, and countless bricks flew up like bullets.

The strong impact force pushed all the people who had just rushed to the front and flew out.

Puff puff.....

A mouthful of blood spewed out like a fountain, and suddenly a blood mist appeared on the square, so coquettish in the sun.

Eight human figures flew out five or six meters, and fell to the ground, each of them pale, and they were all injured by this blow.

"Oh my God! This mutant scorpion is so powerful, is this the rhythm of group destruction?"

Ye Haotian murmured in surprise.

"These people are over, Uncle Gu, what shall we do? Should we withdraw first? Once they are gone, we will be in danger?"

At this time, He Zhi hurriedly turned her head back and looked at Gu Xing timidly with a look of horror in her eyes, and asked in a low voice.

"Stop talking about this! How can we leave if someone else saves us? Who will become?"

Gu Xing glanced at He Zhi coldly, and said to the three of them with a serious expression.

"It's Uncle Gu!"

The three of them felt the dissatisfaction in Gu Xing's tone, and they nodded quickly, even He Zhi didn't dare to say anything.

When the four people were talking, mutation had already occurred on the field. Although all the eight people who were knocked down by the mutant emperor scorpion stood up, they were in extremely bad condition.

The fat guy with messy hair, torn clothes, bleeding from the corners of his mouth, the fastest fat man, Xu Sheng and Liu Han, were not for the armors on their bodies, and they might not be able to stand up at this time.

The state of the mutant emperor scorpion is also not good. It is also at the end of the crossbow, eight pairs of legs have broken three pairs, and only five pairs are left, and the road is not smooth before.

The scales on his body were also broken, and some places had fallen off, revealing the white flesh inside, which looked terrible.

In particular, one of the glasses was blinded by Daniel, and the green blood is still flowing with green blood, holding the broken half of the steel clamp, it is really embarrassing and embarrassing.

But no one will despise it at this time.

The five pairs of lower limbs began to move, unswervingly walking in the direction of Di Ping, with a cold killing intent in one single eye, which made people feel the scalp numb.

Chapter 810: Let's go after rest

Seeing the mutant emperor scorpion approaching step by step, despair appeared in the eyes of several people. They looked back at the people sitting cross-legged with closed eyes, and their eyes ignited crazily again.

This time I was really desperate. The few people looked at each other, all smiled brilliantly, and then suddenly a resolute color appeared in their eyes.

Several people nodded each other, their expressions became serious, and they all looked at the approaching mutant emperor scorpion, preparing for the final battle.

Although he knew that he might not be able to stop the mutant emperor scorpion at all, no one was going to retreat at this time. The terrifying aura of the mutant scorpion could not overwhelm them, although there was a panic in his heart.

For the master!

For the lord!

Even if it is to die, they have to fight to the end. This is faith, this is the power of will, especially the unswerving figure of Buji, Fatty, and Xu Sheng who stood at the forefront and gave everyone courage.

"Go away!"

At this moment, a loud shout came from behind him.

Everyone was taken aback when they heard this burst of shouting, and then there was ecstasy on their faces. They were so familiar with this voice.

"Town Lord! Master!"

Everyone collectively turned their heads to look at the direction of the sound. When they saw Di Ping standing up steadily, smiles appeared on everyone's faces.

This is a relieved smile, this is a happy smile, this is a relieved smile.

Di Ping looked at the crowd and smiled. Suddenly he moved, and his body suddenly rushed forward. His body was like a swimming snake, almost reaching the extreme, and his figure made an afterimage in the air.

"Boogie weapons!"

There was a loud drink, and the entire square was buzzing.

"then!"

Boogie understood Di Ping's meaning in an instant, and threw out the tomahawk without even thinking about it, and the tomahawk whizzed toward Di Ping who was blasting.

Di Ping's rushing body stagnated, and his whole body flew up in the air. He greeted the tomahawk in the air and took it in his hand. Then the whole body crashed into the ground, followed by a roar, and the others rose into the sky again towards the mutant emperor. The scorpion leaped.

At a distance of thirty meters, he arrived in just over a second, and the double queen held the tomahawk and lifted it high, then condescendingly, the tomahawk fell from the sky and slashed down with a fierce wind.

The sharp blade of the dark steel battle axe shone with a sharp cold light, like lightning that pierced the sky, dazzling the people, and the speed was so fast that everyone seemed to see an axe mountain falling from the sky.

The reason why Di Ping abandoned the knife and used Boogie's dark steel battle axe was because he really couldn't help it.

At its own speed, it does not have the advantage at all, and it cannot break through the blockade of its pair of large steel clamps. If the knife cannot cut the mutant scorpion, it is difficult to cause damage. If you want to quickly solve the mutant emperor scorpion, only use More powerful weapons.

The mutant emperor scorpion hadn't reacted yet at this time, Di Ping's movements were too fast, there was no time for it to think, and the battle axe had already fallen.

The mutant emperor scorpion reacted very quickly, and hurriedly swept a pair of large steel tongs. The scales on the steel tongs were many times more defensive than those on the body. He could only use one if he wanted to block the sharpness of the weapon.

"Huh!"

The sharp blade of the dark steel battle axe, coupled with Di Ping's powerful strength, went down with one axe, and then quickly descended with just a light pause, and unexpectedly cut the half of the steel pliers that had been broken off again, and made a straight cut. Next, head towards the head of the mutant emperor scorpion.

In the next instant, the head of the mutant emperor scorpion was split in half, and green blood ran all over the ground, and the one eye of the mutant emperor scorpion still flashed with a look of consternation.

Suddenly, the entire square fell silent and fell into a strange silence. All this was too sudden, as if everyone was making a joke.

The difficulties before this are all illusions, but now they are real.

Di Ping was also a little stunned, watching the mutant emperor scorpion whose head on the ground was split in half and the body's lower limbs was still twitching slightly, he mourned for him in his heart.

He also did not expect that the power of the second-order battle axe in his own hands should not be too strong. The existence that almost afflicted himself before was solved with a single blow.

This gave him a real opinion on the importance of weapons. If he had a Tier 2 war knife, he might have taken the mutant scorpion in two rounds instead of fighting back and forth like this.

This reminded him of a sentence, sometimes the importance of tools is far greater than his own efforts. Isn't the scene today just to confirm this sentence!
